THE AMENDMENT TO OUR CERTIFICATE OF INCORPORATION

Our board of directors unanimously adopted a resolution that declared the advisability of and recommended that the shareholders approve an amendment to our Certificate of Incorporation that will implement a

share, from 20,000,000 shares to 50,000,000 shares, a change of the corporation's name from Health & Leisure, Inc. to Marketshare Recovery, Inc. and a change of the Company's primary business address from 203 East Broad Street Columbus, Ohio 43215 to 95 Broadhollow Road Melville, New York, 11747.

The proposed changes will hopefully serve to increase the trading price of our common stock, facilitate capital raising activities and better reflect managements operational goals. The Amendments were approved by the written consent of the holders of a majority of our outstanding common stock on June 13, 2003, 2003. The proposed corporate actoins will be implemented by filing the Amendments in the office of the Secretary of State of the State of Delaware.

The Amendments will be filed on July 27, 2003, or as soon thereafter as practicable, and will become effective when filed. When the Amendments becomes effective, it will implement a one-for-ten reverse split of our issued and outstanding common stock our authorized common stock will be increased to fifty million shares, our name will change as will our primary business address. The operative text of the Amendments are as follows:

### "FIRST

Upon the effectiveness of the amendment contained in this Certificate of Amendment (the "Effective Date"), the Corporation formerly named Health & Leisure, Inc. shall hereinafter be called Marketshare Recovery, Inc."

### "SECOND

Upon the effectiveness of the amendment contained in this Certificate of Amendment (the "Effective Date"), the previous primary business address of the Corporation 203 East Broad Street Columbus, Ohio 43215, shall hereinafter be 95 Broadhollow Road Melville, New York 11747.

### "THIRD

Upon the effectiveness of the amendment contained in this Certificate of Amendment (the "Effective Date"), the previously authorized 20,000,000 (twenty million) shares of common stock par value \$0.01 shall be increased to 50,000,000 (fifty million) shares of common stock par value \$0.10."

### "FOURTH

(b) Upon the effectiveness of the amendment contained in this Certificate of Amendment (the "Effective Date"), each ten (10) shares of common stock, par value \$.01 per share, of the Company's issued and outstanding Common stock at the close of business on the Effective Date shall be converted into one share of fully paid and nonassessable Common stock.

(c) In lieu of the issuance of any fractional shares that would otherwise result from paragraph (b) above, the Company shall issue to any shareholder that would otherwise receive fractional shares one whole share, the additional shares thereby issued being taken from authorized but theretofore unissued shares of Common stock.

(d) Following the effectiveness of this amendment, certificates representing the shares of Common stock to be outstanding after the Effective

Date may be exchanged for certificates now outstanding pursuant to procedures adopted by the Company's board of directors and communicated to those who are to receive new certificates."

### EFFECT OF THE REVERSE SPLIT

Any new shares issued in connection with the reverse split will be fully paid and non-assessable. The number of shareholders will remain unchanged. The reverse split will decrease the number of outstanding common shares but will not affect any shareholder's proportionate interest in our Company, except for minor differences resulting from the rounding up of fractional shares. The par value of our common stock will be adjusted to reflect the stock split. Therefore, the reverse split will not affect our total shareholders' equity. All share and per share information will be retroactively adjusted to reflect the reverse split for all periods presented in our future financial reports and regulatory filings.

### 6

While it is expected that the reverse split will result in an increase in the market price of our common stock, there can be no assurance that our common stock will trade at a multiple of ten times our current price, or that any such increase will be sustained. If the market price of our stock declines after the implementation of the reverse split, the percentage decline as an absolute number and as a percentage of our overall market capitalization may be greater than would be the case in the absence of a reverse split.

The possibility exists that the reduced number of outstanding shares will adversely affect the market for our common stock by reducing the relative level of liquidity. In addition, the reverse split will increase the number of the shareholders who own odd lots, or less than 100 shares. Shareholders who own odd lots typically find it difficult to sell their shares and frequently find odd lot sales more expensive than round lot sales of 100 shares or more. Consequently, there can be no assurance that the reverse stock split will achieve the desired results outlined above.

After the reverse split, the Company will have issued and outstanding approximately 1,732,543 shares of its common stock, and we will have the corporate authority to issue approximately 48,267,457 shares of authorized but unissued common stock and 3,425,000 shares of preferred stock issued and outstanding and 6,575,000 shares of unissued preferred stock. These authorized and unissued shares may be issued without shareholder approval at any time, in the sole discretion of our board of directors. The authorized and unissued shares may be issued for cash, to acquire property or for any other purpose that is deemed in the best interests of our Company. Any decision to issue additional shares will reduce the percentage of our shareholders' equity held by our current shareholders and could dilute our net tangible book value.

We will not become a private Company as a result of the reverse split, and our common stock will continue to be quoted on the OTC: Bulletin Board.
