iTALK Inc.
(FORMERLY: SOPAC CELLULAR SOLUTIONS INC.)
(A Development Stage Company)
Notes to Unaudited Condensed Interim Financial Statements
November 30, 2012

NOTE 1. CONDENSED FINANCIAL STATEMENTS

The accompanying financial statements have been prepared by iTALK Inc. (Formerly: SOPAC Cellular Solutions Inc.) (the "Company") without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations, and cash flows at November 30, 2012, and for all periods presented herein, have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company's August 31, 2012 audited financial statements. The results of operations for the period ended November 30, 2012 is not necessarily indicative of the operating results for the full year.

NOTE 2. GOING CONCERN

Edgar Filing: iTALK Inc. - Form 10-Q

The Company's financial statements are prepared using generally accepted accounting principles in the United States of America applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has not yet established an ongoing source of revenues sufficient to cover its operating costs and allow it to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable. If the Company is unable to obtain adequate capital, it could be forced to cease operations.

In order to continue as a going concern, the Company will need, among other things, additional capital resources. Management's plan is to obtain such resources for the Company by obtaining capital from management and significant shareholders sufficient to meet its minimal operating expenses and seeking equity and/or debt financing. However management cannot provide any assurances that the Company will be successful in accomplishing any of its plans.

The ability of the Company to continue as a going concern is dependent upon its ability to successfully accomplish the plans described in the preceding paragraph and eventually secure other sources of financing and attain profitable operations. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

NOTE 3. RECENT ACCOUNTING PRONOUNCEMENTS

The Company has evaluated the recent accounting pronouncements issued through the issuance of these financial statements, and the Company does not expect that the effectiveness of any of these changes will have a material impact on the Company's financial position, or statements.

CORPORATE OVERVIEW

Our company was incorporated on July 10, 2006 in the State of Nevada under the name Sopac Cellular Solutions Inc., and was formed to sell wireless technology and cell phone service to medium and large corporations, involving a large array of cellular service plans, cell phones, software and accessories.

On December 18, 2012, we filed Articles of Merger with the Nevada Secretary of State to change our name from "Sopac Cellular Solutions Inc." to "iTalk Inc.",

Edgar Filing: iTALK Inc. - Form 10-Q

to be effected by way of a merger with our wholly-owned subsidiary iTalk Inc., which was created solely for the name change.

Also on December 18, 2012, we filed a Certificate of Change with the Nevada Secretary of State to give effect to a forward split of our authorized, issued and outstanding shares of common stock on a 25 new for 1 old basis and, consequently, our authorized capital increased from 75,000,000 to 1,875,000,000 shares of common stock and our issued and outstanding shares of common stock increased from 1,700,000 to 42,500,000, all with a par value of \$0.001.

These amendments became effective on December 21, 2012 upon approval from the Financial Industry Regulatory Authority.

9

The forward split and name change became effective with the Over-the-Counter Bulletin Board at the opening of trading on December 21, 2012 under the symbol "SOPCD". The "D" will be placed on our ticker symbol for 20 business days. After 20 business days our ticker symbol will revert back to its original symbol "SOPC". Subsequently, after 10 business days our ticker symbol will change to our new symbol "TALK" to better reflect our company's new name. Our CUSIP number is 465353 100.

PLAN OF OPERATION

Our company had not been successful in establishing partnerships with suppliers such as Sprint/Nextel, AT&T and Verizon Wireless. Due to the economic conditions over the past year, our company had been unable to attain any level of success despite the continued efforts of our director. Our management began analyzing various alternatives available to our company to ensure our survival and to

Edgar Filing: iTALK Inc. - Form 10-Q

preserve our shareholder's investment in our common shares.

Our company's new focus on being a Wireless Technology Value Added Reseller (VAR) to develop and launch new technology and products in the global communications market. Our company provides wholesale and retail telecommunications services, and products worldwide.

In December 2012, with the appointment of David F. Levy as president, chief executive officer, secretary and director, and under his leadership, our company changed its business focus and will now move forward with marketing and distributing its iTalk Phone devices. The iTalk phone looks just like an iPhone, but the monthly cost is nothing like the ones most smartphone customers get in the mail each month as it will only cost \$20 per month. The iTalk Phone isn't a phone, exactly. The iTalk Phone uses the iPod Touch as a makeshift Smartphone, an endeavor usually reserved for a small niche of enterprising techies. Many of them share phone-related strategies, usually involving use of Skype or Google Voice, on Internet message boards, but not anymore. The utilization of the iTalk Phone as a makeshift Smartphone is accomplished by coupling its iTalk Sleeve device with the iTouch, a touch-screen gadget that contains most of the features of an iPhone, except for the earpiece and cellular chip integrated with iTalk Service and Data Plan. The iTalk sleeve is as easy as putting on an iPhone cover as it just snaps in place.

11
