INTRODUCTION

Except where the context otherwise requires and for purposes of this annual report only:

- “we”, “us”, “our Company”, “the Company”, “our”, refer to China Finance Online Co. Limited, or CFO Hong Kong and subsidiaries, and, in the context of describing our operations include consolidated affiliates in China, Hong Kong or British Virgin Islands;
- “shares” and “ordinary shares” refer to our ordinary shares, “preferred shares” refers to our preferred shares, all of which were converted into our ordinary shares upon the completion of our initial public offering on October 20, 2004. “ADSs” refers to our American depository shares, each of which represents five ordinary shares, and “ADRs” refers to the American depository receipts which evidence our ADSs;
- “China” or “PRC” refers to the People’s Republic of China, and solely for the purpose of this annual report, excluding Taiwan, Hong Kong and Macau;
- “Hong Kong” or “H.K.” refers to the Hong Kong Special Administrative Region of the People’s Republic of China;
 - “U.S. GAAP” refers to generally accepted accounting principles in the United States; and
- all references to “Renminbi”, “RMB” or “yuan” are to the legal currency of China, all references to “U.S. dollars”, “dollars” or “US\$” are to the legal currency of the United States and all references to “Hong Kong dollars” or “HK\$” are to the legal currency of Hong Kong. Any discrepancies in any table between totals and sums of the amounts listed are due to rounding.

We and certain selling shareholders of our company completed the initial public offering of 6,200,000 American depository shares, each representing five of our ordinary shares, on October 20, 2004. On October 15, 2004, we listed our ADSs on the NASDAQ Global Market (known as the Nasdaq National Market prior to July 1, 2006), or NASDAQ, under the symbol “JRJC”. Effective from January 3, 2011, our ADSs were elevated to trade on the NASDAQ Global Select Market.

FORWARD-LOOKING INFORMATION

This annual report on Form 20-F contains forward-looking statements that are based on our current expectations, assumptions, estimates and projections about us and our industry. All statements other than statements of historical fact in this annual report are forward-looking statements. These forward-looking statements can be identified by words or phrases such as “may”, “will”, “expect”, “anticipate”, “estimate”, “intend”, “plan”, “believe”, “is /are likely to” or similar expressions. The forward-looking statements included in this annual report relate to, among others:

- our goals and new strategies, including how we effect our goals and new strategies;
- our future business developments, business prospects, financial condition and results of operations;
 - our future pricing strategies or policies;
- our plans to expand our service offerings and upgrade our business strategies;

- our plans to use acquisitions and investments as part of our corporate strategy;
 - our strategic transformation initiative;
- cost-cutting initiatives and their effect on efficiency and operational performance;
- competition in the PRC financial data and information services industry, securities investment advisory, wealth management and financial services industry;
 - the market prospect of the online financial data and information services market;
 - the market prospect of the securities investment advisory and wealth management services markets;
- the market prospect and competition in other business areas that we have expanded or ventured into, including without limitation, futures contracts brokerage business and precious metals trading business;
 - performance of China’s securities markets, Hong Kong’s securities markets and global financial markets;
 - global macroeconomic uncertainties;
 - wavering investor confidence that could impact our business;
 - our ability to retain key personnel and attract new talents;
- possible non-cash goodwill, intangible assets and investment impairment may adversely affect our net income;
 - PRC and Hong Kong governmental policies relating to taxes and how they will impact our business;
 - PRC governmental policies relating to the Internet and Internet content providers;
- PRC governmental policies relating to securities investment advisory companies to provide advisory services on securities and related products;
- PRC governmental policies relating to wealth management services and our precious metals trading business;
- PRC governmental policies relating to the distribution of content, especially the distribution of financial content over the Internet; and
 - PRC governmental policies relating to mobile value-added services.

These forward-looking statements involve various risks, assumptions and uncertainties. Although we believe that our expectations expressed in these forward-looking statements are reasonable, we cannot assure investors that our expectations will turn out to be correct. Our actual results could be materially different from and worse than our expectations. Important risks and factors that could cause our actual results to be materially different from our expectations are generally set forth in Item 3.D of this annual report, “Key Information — Risk factors” and elsewhere in this annual report.

The failure of these markets to grow at the projected rates may have a material adverse effect on our business and the market price of our ADSs. In addition, the relatively new and rapidly changing nature of the online financial data and information services industry, securities investment advisory, wealth management and financial services industry subjects any projections or estimates relating to the growth prospects or future condition of our markets to significant uncertainties. Furthermore, if any one or more of the assumptions underlying the market data turn out to be incorrect, actual results may differ from the projections based on these assumptions.

The forward-looking statements made in this annual report relate only to events or information as of the date on which the statements are made in this annual report. You should not place undue reliance on these forward-looking statements and you should read these statements in conjunction with the risk factors disclosed in Item 3.D of this annual report, “Key Information — Risk factors”. We undertake no obligation to update any forward-looking statements to reflect events or circumstances after the date on which the statements are made or to reflect the occurrence of unanticipated events.

PART I

ITEM 1. IDENTITY OF DIRECTORS, SENIOR MANAGEMENT AND ADVISERS

Not Applicable.

ITEM 2. OFFER STATISTICS AND EXPECTED TIMETABLE

Not Applicable.

ITEM 3. KEY INFORMATION

A. Selected financial data.

The selected historical consolidated financial statement of operations data for the years ended December 31, 2012, 2013 and 2014 and the selected historical consolidated balance sheet data as of December 31, 2013 and 2014 set forth below are derived from our audited historical consolidated financial statements included elsewhere in this annual report. The selected historical consolidated statement of operations data for the years ended December 31, 2010 and 2011 and the selected historical consolidated balance sheet data as of December 31, 2010, 2011 and 2012 set forth below are derived from our audited historical consolidated financial statements, which are not included in this annual report. This data may not be indicative of our future condition or results of operations and should be read in conjunction with “Operating and Financial Review and Prospects” and the consolidated financial statements and accompanying notes.

Edgar Filing: China Finance Online Co. LTD - Form 20-F

For the year ended December 31,

(in thousands of U.S. dollars, except per share or per ADS data)

	2010	2011	2012	2013	2014
Consolidated statement of operations and comprehensive income (loss) data:

(in thousands of U.S. dollars)

As of December 31,

	2010	2011	2012	2013	2014
Consolidated balance sheet data:					
Cash and cash equivalents	\$106,773	\$64,641	\$40,906	\$36,371	\$32,539
Current working capital (2)	90,146	90,098	70,360	56,677	55,771
Total assets	180,091	159,977	121,371	133,493	113,903
Short-term loan	6,424	19,171	13,546	-	-
Deferred revenue, current	32,995	17,287	7,551	6,150	4,936
Total current liabilities	60,259	61,903	36,331	39,203	36,443

Deferred revenue, non-current	13,022	7,237	3,155	1,986	1,373
Total China Finance Online Co. limited shareholders' equity	105,900	90,941	79,965	75,771	64,615

- (1) Each ADS represents five ordinary shares.
- (2) Current working capital is the difference between total current assets and total current liabilities.

Exchange Rate Information

We have published our financial statements in U.S. dollars. Our business is primarily conducted in China and is denominated in Renminbi. Periodic reports will be made to shareholders and will be expressed in U.S. dollars using the then-current exchange rates. The conversion of Renminbi into U.S. dollars in this annual report is based on the official base exchange rate published by the People's Bank of China. Unless otherwise noted, all translations from Renminbi to U.S. dollars in this annual report were made at \$1.00 to RMB6.1190, which was the prevailing exchange rate on December 31, 2014. The prevailing exchange rate on April 15, 2015 was \$1.00 to RMB 6.1340. We make no representation that any Renminbi or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or Renminbi, as the case may be, at any particular rate, the rates stated below, or at all. The PRC government imposes controls over its foreign currency reserves in part through direct regulation of the conversion of Renminbi into foreign exchange and through restrictions on foreign trade.

The People's Bank of China sets and publishes a daily base exchange rate. Until July 21, 2005, the People's Bank of China set this rate with reference primarily to the supply and demand of Renminbi against the U.S. dollar in the market during the prior day. Beginning on July 21, 2005, the People's Bank of China has set this rate with reference primarily to the supply and demand of Renminbi against a basket of currencies in the market during the prior day. The People's Bank of China also takes into account other factors such as the general conditions existing in the international foreign exchange markets. Although governmental policies were introduced in the PRC in 1996 to reduce restrictions on the convertibility of Renminbi into foreign currency for current account items, conversion of Renminbi into foreign exchange for capital items, such as foreign direct investment, loans or security, requires the approval of the State Administration for Foreign Exchange and other relevant authorities.

The following table sets forth various information concerning exchange rates between the Renminbi and the U.S. dollar for the periods indicated. These rates are provided solely for your convenience and are not necessarily the exchange rates that we used in this annual report or will use in the preparation of our periodic reports or any other information to be provided to you.

	Average(1)	High (RMB per U.S.\$1.00)	Low	Period-end
December 31, 2010	6.7668	6.8284	6.6227	6.6227
December 31, 2011	6.4445	6.6349	6.3009	6.3009
December 31, 2012	6.3085	6.3495	6.2670	6.2855
December 31, 2013	6.1896	6.2898	6.0969	6.0969
December 31, 2014	6.1453	6.1710	6.0930	6.1190
Most recent six months:				
October 2014	6.1441	6.1493	6.1395	6.1461
November 2014	6.1432	6.1602	6.1320	6.1345
December 2014	6.1241	6.1411	6.1137	6.1190
January 2015	6.1272	6.1384	6.1188	6.1370
February 2015	6.1339	6.1475	6.1261	6.1475
March 2015	6.1507	6.1617	6.1375	6.1422
April 2015 (through 15th)	6.1368	6.1434	6.1305	6.1340

(1) Annual averages are calculated using the average of month-end rates of the relevant year. Monthly averages are calculated using the average of the daily rates during the relevant period.

B. Capitalization and indebtedness.

Not Applicable.

C. Reasons for the offer and use of proceeds.

Not Applicable.

D. Risk factors.

Risks relating to our business

Any prolonged or substantial slowdown in the global or Chinese economy could adversely affect Chinese investors' interests and engagement in the securities market, which may in turn have a significantly negative impact on our business.

Our business can be adversely affected by the general macroeconomic environment. Global economic, securities market and financial developments all could significantly influence the overall interests and engagement of Chinese investors in the stock market. China macro-economic growth has also been slowed down due to various factors, including concerns over China's economic transformation and the bleak corporate earnings prospects and deteriorating global economic conditions. Any prolonged or substantial slowdown in the global or Chinese economy could adversely affect Chinese investors' interests and engagement in the securities market, which may in turn have a significant negative impact on our business.

Increasing challenges in China's securities markets, economic conditions, inflation, regulatory policies, interests rates, the availability of hedging instruments and other factors that could affect investors' interests in investing in China's securities markets could have an adverse effect on our business.

We believe that the level of public interest in investing in China's securities market could significantly influence the demand for market intelligence on China's securities markets and our products and services. Such demand could be affected by the level of trading activities in China's securities markets. The benchmark Shanghai Stock Exchange Composite Index, or the SSE Composite Index, surged 426.18% between the start of 2006 and the market peak in October 2007. On June 25, 2013, the SSE Composite Index plunged to a five-year low of 1,849.65 points. The SSE Composite Index picked up significantly during the past year and reached a five-year high of 3,239.36 points on December 31, 2014. However, irregular activities involving China's securities markets, including, without limitation, insider trading, large-scale selling shares by executive officers of newly listed companies, over issuance of IPOs and inadequate legal protections of individual investors, have become increasingly intense in recent years and resulted in market weakness and decreased investor confidence in China's securities markets. Any factors that lead to weakness or intensified volatility in China's securities markets in the future may diminish investors' interest in China's securities markets, and our business could be adversely affected accordingly.

The China Securities Regulatory Commission, or the CSRC, officially approved the trial margin trading and short selling rules at Shanghai and Shenzhen Stock Exchanges in late 2011, which indicates that margin trading and short selling have become the regular trading activities within China's securities market. It is possible that these hedging instruments could cause increased volatility in China's securities market, which, in turn, may have a negative impact on Chinese investors' participation in the securities market, and materially and adversely affect our business.

Downturns, disruptions and volatility in Hong Kong securities markets and global financial markets, and increasing challenges in the business, economic and market conditions that could affect investors' investments in Hong Kong securities markets and global financial markets could have a material and adverse impact on our business in the future.

We provide a diversified portfolio of brokerage and information service to our clients in connection with their investment in Hong Kong securities market and global financial markets through our subsidiaries in Hong Kong. Lower trading volumes and price levels of securities transactions in Hong Kong securities market may affect investors' participation in Hong Kong's securities markets and have a material and adverse impact on our business in the future. Historically, securities trading volume and price level in Hong Kong have fluctuated considerably. After reaching its all-time high on October 30, 2007, the Hang Seng Index (HSI) lost approximately 65.18% of its value from October 30, 2007 through October 27, 2008. In 2014, the HSI had an increase of 1.3% for the year, rising from 23,306.39 points on December 31, 2013 to 23,605.04 on December 31, 2014. Despite the gradual pick-up of the HSI, investors' confidence remains weak. As of December 31, 2014, the average daily turnover of the Hong Kong stock market was HK\$69.5 billion, representing an increase of 12% as compared with the record for year 2013, but still a decrease of about 20% compared to the record for year 2007. Continued significant fluctuations and weakness of investors' confidence in the Hong Kong securities markets may materially and adversely impact our business.

Our securities brokerage, futures trading and securities advising business in Hong Kong operate in a highly regulated industry and compliance failures could materially and adversely affect our business.

iSTAR International Securities Co. Limited, or iSTAR Securities, holds a Type 1 license and provides a diversified portfolio brokerage and other related services to our customers who invest in stocks listed on the Hong Kong Stock Exchanges and Clearing Limited, or HKEx. iSTAR International Futures Co. Limited, or iSTAR Futures, holds a Type 2 license and commences futures contract trading business in Hong Kong. iSTAR International Wealth Management Co. Limited, or iSTAR Wealth Management, holds Type 4, Type 5 and Type 9 licenses and engages in securities advising, future contracts advising and asset management activities in Hong Kong. iSTAR International Credit Co. Limited, or iSTAR Credit, holds a Money Lenders License. The securities brokerage, securities advising, futures contracts trading, and money lending business and operations in Hong Kong are subject to extensive regulations by HKEx, Hong Kong Securities and Futures Commission, or SFC, and Hong Kong Police Force, which may increase our cost of doing business and may be a limiting factor on the operations and development of such businesses. The regulation on our businesses in Hong Kong is also an ever-changing area of law and is subject to modification by government, regulatory and judicial actions. As our business has expanded into these areas in Hong Kong, we devote more time to regulatory matters. Failure to comply with any of the laws, rules, regulations, codes or guidelines applicable to our businesses in Hong Kong could lead to adverse consequences including, without limitation, investigations, fines, law suits and other penalties from regulatory agencies, which could materially and adversely affect our operation of such businesses.

We have incurred significant net losses in the past, and we may not be able to achieve or subsequently maintain profitability.

We incurred net losses attributable to the Company of \$ 11.9 million, \$8.6 million and \$7.2 million in 2012, 2013 and 2014, respectively. Our ability to achieve and/or sustain profitability depends on a lot of factors, many of which are beyond our control, such as the continuous development of securities market in China and Hong Kong, as well as the online investment services industry. We may continue to incur losses in the near future due to our continued investments in technology, research and development and our sales and marketing initiatives. Changes in macroeconomics and regulatory environment or competitive dynamics and our inability to respond to these changes in a timely and effectively manner may also impact our profitability.

We may not be able to successfully continue to innovate, improve and provide products and services to attract and retain paying subscribers and registered users, which could have a material and adverse impact on our business in the future.

In order to attract and retain users and compete against our competitors, we must continue to invest significant resources in research and development to enhance our Internet technology, improve our existing products and services and introduce additional high-quality products and services. If we are unable to anticipate user preferences or industry changes, or if we are unable to modify our products and services on a timely basis, or if we introduce a new feature or a new research tool that is not favorably received, we may lose users. Our operating results may also suffer if our innovations do not respond to the needs of our users, are not appropriately timed with market opportunities or are not effectively brought to market. Furthermore, our research tools or features may contain errors, including without limitation, programming errors, which are not discovered by our internal testing or are discovered after the services are introduced. Our business operation and our reputation shall be damaged by those errors, and we may need to significantly modify the design of these research tools or features to correct these errors, which could result in significant cost and expense. As Internet technology and products continue to develop, our competitors may be able to offer services and products including news, data, analytics and brokerage-related services through web portals, desktop solutions and mobile handsets that are, or that are perceived to be, substantially similar to or better than those generated by our services. This may force us to expend significant resources in order to remain competitive.

Our transition to a new business model and our recently started venture into new business areas may not be successful. We cannot guarantee that each of these businesses will be profitable, which may materially and adversely affect our performance.

Beginning in April 2012, while we continue to offer basic versions of paid individual subscription services to individual investors through our flagship portal sites and accumulated paid subscribers with basic software and information services, we no longer accept new paid subscribers or renewals for our premium individual subscription services. We implemented a strategic transition of our core businesses shifting from providing premium subscription services to individual investors to developing internet-based financial services, including securities, commodities, wealth management products and investment advisory services. Beginning in 2013, as part of our transition to a new business model, we also started providing precious metals trading services. In 2014, the Company launched “Securities Master” (“Zhengquantong”), a fully integrated securities-trading platform and “Investment Masters” (“iTougu”), an investment advisory service platform.

While securities investment advisory, wealth management and precious metals trading businesses have attractive market potential in China, such businesses are relatively new and the related business models are unproven. Our limited experience in new business areas that we may venture into also gives rise to higher unpredictability to our success in these new business areas. We face a variety of risks and uncertainties during the transition and exploration of new business opportunities, many of which will be new and unexpected. In particular, volatility in precious metals trading prices may affect investors’ investment interest and sentiments towards precious metals, which may adversely affect our revenues and our results of operations. In addition, for our precious metals trading services business, we are paid commissions calculated on the basis of our customers’ trading volumes. As a result, if our customers are reluctant to trade, our revenues would be adversely affected. We are also acting as one of the market makers on the precious metals exchanges. We commit to accept all the trade executions by offering to buy or sell trading products from/to our clients. As counterparty to our clients, we may earn trading gains or incur trading losses, depending on market conditions. As a result, we may not be able to accurately forecast our revenues from our precious metals trading business and financial performance in general, which in turn may contribute to the volatility of our overall operating results.

As we make the transition into taking up precious metals trading services as our new principal businesses, our subscription revenue has started to drop. We are uncertain when, if ever, revenues from our new areas of business will compensate for this lost revenue. If we are unable to successfully and smoothly transition into the new principal businesses and implement our growth strategies, or, if we fail to generate profit in business areas other than our principal businesses in a timely and cost-effective manner, loss of profits may occur and our overall business and financial results may suffer.

Our new internet-based financial platforms “Yinglibao”, “Securities Master” and “Investment Masters” may not be successful as they may face intensive competition and future regulatory hurdles.

In August 2013, the Company launched “Yinglibao”, an internet-based financial platform that integrates cash management solutions and mutual fund distribution, for trial service. For users who maintain Yinglibao balances, their balances would be subscribed by the money market fund managed by third-party mutual fund management companies. The return rate on Yinglibao balances is higher than the comparable bank demand deposit rate. In addition, Yinglibao users have the option of purchasing mutual fund and other wealth management products directly through their accounts. We aim for Yinglibao to become a one-stop shop for investment over time. However, we are unsure if the trial run will be successful.

In 2014, the Company launched new platforms, namely “Securities Master” and “Investment Masters”. “Securities Master” has been designed as a fully integrated securities-trading platform for retail investors with a highly-intuitive user interface via computers, smartphones, tablets and over time smart TVs. By creating a simple and seamless experience for retail investors to access market information, open accounts and trade in real-time, investors are now able to manage their finances more effectively and efficiently. “Investment Masters”, our web-based mobile investment advisory service platform, facilitates securities investment advisors to communicate with their clients and followers directly in real-time and for 24 hours, allowing a large number of Chinese individual investors to obtain advice from thousands of investment advisors that was inaccessible previously.

Yinglibao, Securities Master and Investment Masters may be subject to future additional Chinese laws and regulations relating to banking, securities and wealth management businesses. In the event that any of those platforms becomes restricted or even prohibited by Chinese laws, our customers’ financial activities may be affected and there may be a material adverse impact on our new business ventures in providing users alternative investment opportunities.

Competitors with larger customer base and greater market visibility, such as Alibaba Group (“Alibaba”), Tencent Holdings Limited (“Tencent”) and Baidu, Inc. (“Baidu”), also launched their respective internet-based financial platform which provides financial services similar to that of Yinglibao. In the future, banks and fund management companies may also enter this market and offer similar services to customers. Because of such expected influx of new market entrants, competition in this industry may become more intense. Many of our new competitors, especially Alibaba, Tencent and Baidu, have greater financial and marketing resources than we do. Securities Master and Investment Masters also face intense competitions. Several financial websites in China have also launched similar services. In addition, securities brokers in China have also begun to develop their own internet-based financial service platforms. Thus, we may not be able to compete effectively or provide compelling service alternatives to potential customers. Our financial results may suffer as a result.

While we continue to innovate and develop Yinglibao, Securities Master and Investment Masters, we expect improvements to their technical and operational stability to gradually take place over time. If program errors, such as “bugs” and other undetected errors become issues of any of these platforms, there may be a negative impact on our reputation and as a result, our customer satisfaction may suffer.

Uncertain legal regulation in our new areas of business may adversely impact our business.

Laws and regulations governing the securities investment advisory and wealth management services industries in China, are developing and are subject to further changes. As a result, substantial uncertainties exist regarding the evolution of the regulatory system and the interpretation and implementation of current and any future Chinese laws and regulations applicable to such industries. In recent years, China has tightened regulations on commodities transactions in the spot market. The Ministry of Commerce, the People’s Bank of China and the CSRC jointly issued Interim Provisions on Commodities Transactions in the Spot Market, effective from January 1, 2014 (“Circular 3”). New requirements imposed by Circular 3 and the uncertainties in subsequent implementations and administration of such requirements by related agencies may negatively impact our businesses and business performance.

Our precious metals trading services business is subject to regulation by the local government presiding over the city where an exchange is situated. Each local government implements applicable rules promulgated by the Ministry of Commerce separately, resulting in substantial uncertainties for our precious metals trading services business. As the regulatory environment surrounding precious metals trading continues to evolve, we may devote more time and resources to regulatory matters, which may increase our cost of doing business and may be a limiting factor on the operations and development of such business.

We cannot guarantee you that we will be able to obtain or maintain our existing licenses and permits, renew any of them when their current terms expire, or obtain additional licenses requisite for our strategic transition and venture into new areas of business. Any changes in the regulatory landscape may materially and adversely affect our business.

We face significant competition in the securities investment advisory and wealth management services industry as we transition into the new principal businesses, and our operations and financial condition may suffer if we fail to compete effectively.

As a new market entrant competing in the highly competitive and fragmented securities investment advisory and wealth management services industries in China, we may not be able to compete effectively or provide a compelling service alternative for potential customers. Securities investment advisory and wealth management services industries in China are at their early stages of development and are highly fragmented and competitive, but they provide vast opportunities, and thus we expect competition to persist and could even intensify in the future. We face competition from independent firms providing wealth management services, securities advisory and investment corporations providing securities investment advisory services, brokerage firms providing securities investment advisory services and domestic commercial banks with in-house sales force and private banking functions, among others. Many of our competitors, especially brokerage firms and commercial banks, have greater financial and marketing resources than we do. Many brokerage firms, trust companies and commercial banks we compete with enjoy significant competitive advantages due to their nationwide distribution network, longer operational history, broader client base, and settlement capabilities. Moreover, many of the securities investment advisory and wealth management services and product providers, such as brokerage firms, commercial banks and trust companies, are also engaged in, or may in the future, engage in the distribution of wealth management products and they may benefit from the integration of wealth management products with their other services and product offerings, which may provide them competitive advantage in this market.

For our precious metals trading service business, early market entrants in exchanges, such as Haixi Commodity Exchange (“Haixi”) and Tianjin Precious Metals Exchange (“TJPME”) could own a large number of membership units and have more experience than us in this business. We also faced intense competitions in our Internet-based financial services, including Yinglibao, Securities Master and Investment Master. As a result, we may not be able to compete effectively or provide a compelling service alternative for potential customers.

Cash arrangements with brokers for the procurement of our overseas futures contract trading business expose us to third-party risk, which could in turn have a material adverse effect on our financial condition, reputation, client relationships, operations and prospects.

With respect to iSTAR Futures’ futures contract trading business, as we currently do not hold membership at overseas futures exchanges, such as the London Metal Exchange or the CME Group, we rely on third party brokers who are members of these exchanges to hold our customers’ funds and execute our customers’ trades. This business arrangement with third party brokers involves various risks, primarily, third party credit risks and default risks. In the event that one or more of these brokers become insolvent or bankrupt, we and our clients may have difficulty recovering money deposited with such broker. Although we enforce and implement strict risk management policies and procedures, such policies and procedures may not be fully effective in mitigating our clients’ risk exposure to third party insolvency or bankruptcy. If we fail to identify any material financial weakness of any of those brokers who hold our customers’ funds in a timely manner, and as a result our customers suffer financial loss or other damages resulting from such broker’s insolvency or bankruptcy, then accordingly, our financial conditions, reputation, client relationships, operations and prospects will be adversely affected.

We are subject to counterparty risk whereby defaults by parties with whom we do business can have an adverse effect on our business, financial condition and results of operations and cash flows.

iSTAR Securities' margin financing business requires a commitment of capital and involves risks of losses due to the potential failure of our customers to perform their obligations under their transactions with us. Our margin policy allows our margin clients to borrow cash from us to buy stocks listed in HKEx in amounts that may be significantly larger than their cash balances. While we closely monitor each customer's exposure, it does not guarantee our ability to eliminate negative customer account balances prior to the occurrence of adverse market changes relative to a customer's position(s). Moreover, we are exposed to debit/deficit risk with our customers. If our customers default on their obligations, we remain financially liable for such obligations, and although these obligations are collateralized, we are subject to market risk in the liquidation of customer collateral to satisfy such obligations since the value of our customers' positions are subject to fluctuation as market prices change. In addition, if an adverse market move relative to a customer's position(s) occurs and we are unable to collect a margin call in a timely manner, the customer account may incur a loss resulting in a debit balance. In light of the current turbulence in the global economy, we face increased risk of default by our customers and other counterparties. Any default by our counterparties or partners could have a material adverse effect on our business, financial condition and results of operations and cash flows.

If we are unable to hire high quality personnel for the securities investment advisory and wealth management businesses, our new business model will suffer, which may materially and adversely affect our overall business performance.

We are also facing fierce competition hiring competent licensed securities investment advisors. Highly skilled and qualified financial advisors are in high demand throughout wealth management industries in China. The total number of individuals qualified to provide securities investment advisory and wealth management services in China is limited due to the early development stage of the industry. In addition, the rate of wage inflation in most areas of the economy remains persistently high in recent years. There is no assurance that we can recruit and retain enough licensed securities investment advisors and qualified wealth management financial advisors who meet our high quality requirements to support our further growth into the new principal business, or, if we do, that the cost of doing so will permit us to realize reasonable margins. We may incur disproportional compensation, training and other administrative expenses in order to retain such recruits in light of the aggressive hiring competition from other securities investment advisory firms, brokerage firms, commercial banks and trust companies that are better situated financially for recruitment of this kind. These factors may materially and adversely affect our business and our strategy.

We may incur higher operating expenses in connection with the ongoing business transition and expansion into other new business areas.

In transitioning into precious metals business and our internet-based financial services, we are required to incur development, operation and potential acquisition costs in order to keep pace with the new market and technology needs for the industry. In the meantime, we have also ventured into other business areas aside from our principal businesses, which ventures may incur increased administrative costs and other input. As a result, our cost-cutting initiatives to increase efficiency and improve our operational performance may not prove to be effective in the short-term and we may experience losses in connection with our new businesses.

We ceased providing new subscriptions of premium individual subscription service which may have a chilling effect on our existing subscribers and result in lower than expected revenues, immediate-term cash refunds and possible losses.

We ceased providing new subscriptions of premium individual subscription service since April 2012 while continuing to provide on-going services to our existing subscribers until the applicable subscription terms expire. In light of the new direction we are taking our business, our existing subscribers of premium individual subscription service may start to lose confidence in the resources, the quality and the expertise we devote into these existing subscription services during the time in which we are developing our capacity in the securities investment advisory and over time wealth management services. Such existing subscribers may terminate their existing subscription with us. As a result, revenue and deferred revenue would be reduced if we are required to pay refunds to our existing subscribers, which will negatively impact on our financial results.

Our business could be materially and adversely affected if the stock exchanges and indexes providers from which we receive data and information fail to deliver us reliable data and price quotes or other trading related information, or if we cannot maintain our current business relationships with our historical data providers on commercially reasonable terms.

We provide real-time stock, bond, mutual fund and financial futures quotes and other trading related information from Shanghai Stock Exchange (SSE) and Shenzhen Stock Exchange (SZSE), and, we also provide delayed trading related information from Hong Kong stock market indexes from Hang Seng Indexes Company Limited (HSI). We primarily rely on contractual arrangements with SSE Infonet Ltd. which is associated with SSE, SZSE, and HSI, pursuant to which we pay fixed service fees in exchange for receiving real-time or delayed price quotes and other trading related information.

We renew our agreements with each of SSE Infonet Ltd., SZSE and HSI on an annual basis, respectively. Under these agreements, each of the three data providers can terminate its respective agreement with us if we materially breach relevant terms, such as our untimely payment of, or failure to pay, fees to these providers. However, we cannot assure investors that we will be able to timely renew all of these business arrangements on commercially reasonable terms, or at all, after our current terms expire. In addition, we cannot assure investors that the three securities data providers will not change their current mode of providing stock information to us, change the packages of stock information authorized to us, change their current qualification requirements on the authorized information service provider, or charge us service fees substantially higher than the service fees we are currently paying. If they did so, our business, financial condition and results of operations could be materially and adversely affected. Even if we are able to maintain our current business arrangements for data on commercially reasonable terms, either of these four securities data providers may fail to deliver us reliable price quotes or other trading related information. And it would be difficult for us to obtain reliable price quotes and other trading related information from an alternative source, which could materially and adversely affect our business.

We rely on CFO Genius as the provider of all historical data and information on listed companies, bonds and mutual funds, any disruption to CFO Genius may have a material adverse effect on our business.

We have transferred to and made CFO Genius, which we acquired in September 2006, the primary source of historical data and information on listed companies, bonds and mutual funds. CFO Genius has become our primary provider of historical data and information, thereby mitigating our reliance on third-party backup providers of such historical data and information. Any problems arising in or any disruption to CFO Genius as the primary provider of historical data and information may have a material adverse effect on our business.

Our business would be adversely affected if we do not continue to maintain an effective telemarketing and customer support force or if our customer support staff fails to comply with applicable laws and regulations.

We market our service offerings through our websites, as well as through our telemarketing and customer service centers. In addition to sales and marketing functions, we depend on our customer support force to market our service offerings to our existing and potential customers and to resolve our subscribers' technical problems. Many of our telemarketing and customer support personnel have only worked for us for a short period of time and some of them may not have received sufficient training or gained sufficient experience to effectively serve our customers. We may not be able to hire, retain, integrate or motivate additional customer support personnel without any short-term disruptions of our operations. As a result, our business could be adversely affected if we do not continue to maintain an effective customer support force.

The CSRC's Provisional Regulations effective from January 1, 2011 ("Provisional Regulations") has considerably increased requirements on pre-sale disclosures, standardized contract signing and service provisions, and after-sales product return policies in the course of providing securities investment advisory services to customers. The Interim Provisions on Strengthening the Supervision and Control of Engagement in Securities Investment Advisory Business by Utilizing "Securities Analysis Software" promulgated by the CSRC and effective on January 1, 2013 ("Circular 40") further provide that securities investment advisory companies shall provide contact information of companies and certain reminders to clients when promoting products or providing services via the Internet, telephone or SMS.

We require our customer support staff to study and comply with these new requirements imposed by the Provisional Regulations and the Circular 40 in their work. However, we cannot assure investors that our customer support staff would fully comply with the Provisional Regulations and the Circular 40. Our business could be subject to severe penalties if the failure of our customer support staff to comply with those requirements is detected by or complained to regulatory authorities.

Our acquisitions and investments may not recognize our strategic goals, and may result in operating difficulties and other harmful consequences that may adversely impact our business and results of operations.

Acquisitions and investments are important elements of our overall corporate strategy and we expect to continue to acquire and invest in companies, products, services and technologies in the future. In the past several years, we acquired certain businesses and intangible assets, including products, services, trademarks, customer relationships, users list and other assets such as CFO Genius, a financial information database provider mainly serving Chinese domestic institutional customers, Stockstar Information Technology (Shanghai) Co., Ltd. (CFO Stockstar), a leading finance and securities website in China, iSTAR Securities, a licensed securities brokerage firm incorporated in Hong Kong and Champion Connection Network H.K. Limited's investment advisory and institutional subscription businesses in China, including the assets, software, personnel etc., through several strategic investments and acquisitions. We intend to make other strategic investments and acquisitions in the future if suitable opportunities arise. Investments and acquisitions involve uncertainties and risks that may have a material adverse effect on our financial condition and results of operation, including:

- we may not identify suitable candidates and successfully complete acquisition and investment transactions, and may not be able to manage post-closing issues such as the integration of acquired businesses, products or employees;
- we may not fully realize all of the anticipated benefits of any acquisition and investment transaction;

- the pricing and other terms of contracts for acquisition and investment transactions require us to make estimates and assumptions at the time we enter into these contracts, so that we may pay more than it is worth;
- we may not identify all of the problems during the course of our due diligence, such as factors necessary to estimate our costs accurately, and issues with unlicensed use of intellectual property;
- any increased or unexpected costs, unanticipated delays or failure to meet contractual obligations, and failure of investments to perform as expected, could make these transactions less profitable or unprofitable;
- if we fail to successfully complete acquisitions that further our strategic objectives, we may be required to expend resources to develop products and technology internally, and we may be at a competitive disadvantage or we may be adversely affected by negative market perceptions;
- our ongoing business may be disrupted and our management's attention may be diverted by transition or integration issues;
- we may have legal and tax exposures or lose anticipated tax benefits as a result of unforeseen difficulties in our legal entity integration activities;
- we may face contingencies related to intellectual property, financial disclosures and accounting practices or internal controls;
- when goodwill, intangible assets and investments, in connection with potential acquisition and investment transactions become impaired, we may be required to incur additional material charges relating to the impairment of those assets;
- we may incur additional amortization expense over the useful lives of certain intangible assets acquired in connection with acquisitions;
- any acquisition and investment transactions may require a significant amount of capital investment, which would decrease the amount of cash available for working capital or capital expenditures;
- we may issue common stock, potentially creating dilution for existing stockholders to complete acquisition and investment transactions;
- we may borrow to finance these transactions, the amount and terms of which as well as other factors could affect our liquidity and financial condition, and debt instruments may contain restrictive covenants that could, among other things, restrict us from distributing dividends;
- we may experience risks relating to the challenges and costs of closing acquisition and investment transactions and the risk that an announced acquisition and investment transaction may not close.

We face risks associated with the equity transfer of our real estate investment in Langfang City, Hebei Province, including but not limited to, failure to collect the outstanding amount of the total payment owed to us.

In order to enhance our return on cash during the strategic transition period, in March 2013, we invested an aggregate \$22.1 million in a real estate project in Langfang City, Hebei Province, developed by Langfang Shengshi Real Estate Development Co., Ltd. (the "Langfang Developer"). In November 2013, we transferred our equity stake in the Langfang Developer for a total consideration of \$24.9 million, which was being paid to us in several installments. We have collected \$11.5 million in cash in 2013 and \$13.4 million was still remained receivable as of December 31, 2014. In addition, in connection with the investment in this real estate project, we also extended a loan of \$10.3 million to the Langfang Developer at a monthly interest rate of 1.5% from October 9, 2013 to October 20, 2014 and 19-21% per annum from October 21, 2014 to December 31, 2014. As of December 31 2014, the total principal outstanding was \$10.3 million. We charged an interest at the rate of 1.5% per month for the outstanding principal and consideration

receivable. The interest receivable was \$1.3 million as of December 31, 2014. Although the uncollected consideration and loans are secured by one-hundred percent of Langfang Developer's equity interest, the possibility of the purchaser's non-payment default remains. If we are unable to collect the total \$25.0 million outstanding in a timely manner, it may have a material adverse effect on our financial condition and our financial performance.

We have recorded significant losses from impairment of goodwill and intangible assets in 2014. We may be required to record a significant charge to earnings if we are required to reassess our goodwill or other intangible assets arising from our acquisitions.

In the course of our operating history, we have acquired assets and businesses, which have resulted in the recording of goodwill and/or intangible assets on our financial statements. We are required under U.S. GAAP to test goodwill for impairment at least annually or sooner if we determine there are indicators of impairment and to review our intangible assets for impairment when events or changes in circumstance indicate the carrying value may not be recoverable. Factors that could lead to impairment of goodwill and intangible assets include, but not limited to, significant adverse changes in the business climate (affecting our company as a whole or affecting any particular segment), unfavorable changes in our stock price and market capitalization, and declines in the financial condition of our business.

In the second quarter of 2014, due to the new business redirection to develop our online brokerage service “Securities Master”, the Company is expected to suffer reduced cash flow in our investment advisory services in the short term. In light of this new business redirection, with the assistance of a third party appraiser, the Company wrote-off the goodwill of \$8.1 million associated with our investment advisory services and recorded an impairment loss of US\$1.8 million for our intangible assets.

If we reassess our goodwill and intangible assets in the next years the possible write-off of the goodwill and/or intangible assets could negatively impact our future earnings and, as a result, the market price of our common stock could decline.

Stricter securities investment advisory and wealth management regulations may materially weaken the investors’ desire to subscribe or renew subscription for our securities investment advisory and wealth management services.

The Provisional Regulations effective from January 1, 2011 and the Circular 40 effective from January 1, 2013 expressly state that the business of providing securities investment advisory or other similar service through software tools or any other terminal equipment (“securities analysis software”) should be subject to regulation by the CSRC. The Regulations on Securities Investment Funds (2012 Amended), which took effect on June 1, 2013, further require companies providing advisory services for investment in public funds should be registered and filed pursuant to the regulations of the CSRC.

While we have acquired requisite securities investment advisory license, in accordance with the Provisional Regulations and we will continue to devote resources to regulatory compliance, the failure to comply with such regulations could lead to adverse consequences which could materially affect our securities investment advisory business. In order to comply with the Provisional Regulations, we have considerably increased pre-sales disclosure requirements, standardized contract signing and service provisions among others. Through fully disclosing the limitation of making investment decisions based on software tools and advice provided by licensed professionals, we emphasize to clients that they must be able to bear the risks of their own investments. Combined with the continuously sluggish stock market, customers' desire to purchase new or renew existing products and services is increasingly and significantly weakened.

Although the Provisional Regulations benefits the healthy development of securities investment advisory business in China in the long run, such negative impact on our business is anticipated to remain in the foreseeable future.

Further, China has tightened regulations on wealth management in recent years. China Banking Regulatory Commission issued a Notice on Regulating Operation of Wealth Management Business in Commercial Banks on March 25, 2013 ("Circular 8"), pursuant to which, banks must clearly link wealth-management products with specific assets. Circular 8 also stipulates that banks must disclose who will ultimately use the funds and for what purposes, and that each product must be audited.

None of our group companies is a bank and therefore we are currently not subject to the provisions of Circular 8. However, we cannot assure you that China will not proceed to issue similar laws and regulations on wealth management that may become applicable to companies like us. In the event we become subject to such restrictions and regulation, our wealth management business may be materially and adversely affected.

Interruption or failure of our own electronic systems or those of third-party service providers we rely upon could impair our ability to provide our products and services, which could damage our reputation and harm our operating results.

We have limited backup systems and have previously experienced system failures that have disrupted our operations. Any damage to or failure of our systems could interrupt our service. Service interruptions could reduce our revenues and profits and damage our brand and reduce competitiveness if our system is perceived to be unreliable. Our systems are vulnerable to damage or interruption as a result of terrorist attacks, wars, earthquakes, floods, fires, power loss, telecommunications failures, undetected errors or "bugs" in our software, computer viruses, interruptions in access to our websites through the use of "denial of service" or similar attacks, hacking or other attempts to harm our systems, and similar events. Any security breach caused by hackings, which involve efforts to gain unauthorized access to information or systems, or to cause intentional malfunctions or loss or corruption of data, software, hardware or other computer equipment, and the inadvertent transmission of computer viruses could cause our users to question the safety or reliability of our website and our services and could have a material adverse effect on our business results of operations and financial condition.

If we experience frequent or persistent system failures on our websites and products due to interruptions and failures of third-party service providers we rely upon, including internet content providers and securities data providers, our reputation and brand could be severely harmed. In addition, our users depend on Internet service providers, online service providers and other website operators for access to our website and they may experience outages, delays and other difficulties due to system failures unrelated to our systems. These types of occurrences could cause users to perceive our website as not functioning properly and therefore cause them to use other methods to obtain the financial data and information services they need.

The trading software of iSTAR Securities and iSTAR Futures are provided by third parties. In addition, commencing in 2013, we launched our precious metals trading business, which operates on trading platforms provided by third party individual trading exchanges. Because our trading software and trading platforms are provided by third parties, we are unable to assure the technical stability and soundness of such trading platforms. If there are technical issues related to these third party systems, such as “bugs” or undetected errors, our services may be temporarily halted and our customers may choose to subscribe to our competitors’ services instead and our overall business and financial results may suffer as result.

If we are unable to adapt or expand our existing technology infrastructure to accommodate greater traffic or additional customer requirements, our business may be harmed.

In the past, our websites regularly serve a large number of daily unique visitors when there are significant business developments, financial news and activities, or stock market trading activities. In addition, the number of our visitors has continued to increase over time and we are seeking to further increase our user base. Therefore, our website must accommodate a high volume of traffic to meet peak user demand and deliver frequently updated information. Our websites have in the past experienced and may in the future experience slower response time or login delays for a variety of reasons. It is essential to our success that our websites are able to accommodate our users in an efficient manner so that our users’ experience with us is viewed favorably and without frequent delays. Therefore we may be required to upgrade our technology infrastructure to keep up with the increasing traffic on our websites, such as increasing the capacity of our hardware servers and the sophistication of our software. If we fail to adapt our technology infrastructure to accommodate greater traffic or customer requirements, our users and customers may become dissatisfied with our services and switch to our competitors’ websites, which could harm our business.

We depend largely on the infrastructure of the telecommunications operators in China, and any interruption of their network infrastructure may result in severe disruptions to our business.

Although private Internet service providers exist in China, substantially all access to the Internet in China is maintained through the telecommunications operators, under the administrative control and regulatory supervision of the Ministry of Industry and Information Technology, or MIIT. In addition, local networks connect to the Internet through a government-owned international gateway. We rely on this infrastructure and to a lesser extent, certain other Internet data centers in China to provide data communications capacity primarily through local telecommunications lines. In the event of a large-scale infrastructure disruption or failure, we may not have access to alternative networks and services, on a timely basis or at all.

We may not be able to lease additional bandwidth from the telecommunications operators in China on acceptable terms, on a timely basis or at all. In addition, we may not have means of getting access to alternative networks and services on a timely basis or at all in the event of any disruption or failure of the network.

The Internet infrastructure in China, which is not as well developed as in the United States or other more developed countries, may limit our growth.

The Internet infrastructure in China is not as well developed as in the United States or other more developed countries. In particular, we depend significantly on the PRC government and fixed line telecommunications operators in China to establish and maintain a reliable Internet infrastructure to reach a growing base of Internet users in China. We cannot assure investors that the Internet infrastructure in China will support the demands associated with the continued growth of the Internet industry in China. If the necessary infrastructure standards or protocols, or complementary products, services or facilities are not developed in China on a timely basis or at all by these enterprises, our business, financial condition and results of operations could be materially adversely affected.

Concerns about the security and confidentiality of information on the Internet may reduce use of our network and impede our growth.

A significant barrier to confidential communications over the Internet in general has been a public concern over security and privacy, including the transmission of confidential information. To address such concerns, the Standing Committee of the National People's Congress of China issued the Decisions on Strengthening the Protection of Internet Information, effective on December 28, 2012 ("Information Protection Decisions"), which prescribe detailed measures to protect confidential information transmitted via the Internet and the liabilities for violation of the provisions. If these concerns are not adequately addressed pursuant to the Information Protection Decisions and other relevant regulations, they may inhibit the growth of the Internet and other online services generally. If a well-publicized Internet breach of security were to occur, general Internet usage could decline, which could reduce traffic to our websites and impede our growth.

We may incur significant costs to protect against the threat of security breaches or to alleviate problems caused by these breaches. If unauthorized persons are able to penetrate our network security, they could misappropriate proprietary information, including personal information regarding our subscribers, or cause interruptions in our services. As a result, we may be required to incur substantial costs and divert our other resources to protect against or to alleviate these problems. Security breaches could have a material adverse effect on our reputation, business, financial condition and results of operations.

We may be subject to, and may expend significant resources in defending against claims based on the content and services that we provide through our website and research tools.

Due to the manner in which we obtain, collect, categorize and integrate content for our website, and because our services, including our online bulletin boards and discussion forums, may be used for the distribution of information and expression of opinions, claims may be filed against us for defamation, subversion, negligence, copyright or trademark infringement or other violations due to the nature and content of such information. For example, our bulletin boards and online forums reflect the statements and views of persons we do not control and we cannot be assured that such information is true and correct and is not misleading. These persons may also have conflicts of interest in relation to their statements or views regarding securities or other financial matters. Liability insurance for these types of claims is not currently available in the PRC. While we do not take responsibility for statements or views presented on our website, we may incur significant costs investigating and defending these types of claims even if they do not result in liability. Any such claim may also damage our reputation if our users and subscribers do not view this content as reliable or accurate, which could materially and adversely affect our business.

We may be subject to intellectual property infringement claims, which may force us to incur substantial legal expenses and, if determined adversely against us, may materially disrupt our business.

We cannot be certain that our website content, online services and our research tools do not or will not infringe upon patents, valid copyrights or other intellectual property rights held by third parties. We may become subject to legal proceedings and claims from time to time relating to the intellectual property of others in the ordinary course of our business. If we are found to have violated the intellectual property rights of others, we may be enjoined from using such intellectual property, and we may incur licensing fees or be forced to develop alternatives. In addition, we may incur substantial expenses in defending against these third-party infringement claims, regardless of their merit. Successful infringement or licensing claims against us may result in substantial monetary liabilities, which may materially and adversely affect our business.

Unauthorized use of our intellectual property by third parties, and the expenses incurred in protecting our intellectual property rights, may materially and adversely affect our business.

We regard our copyrights, trademarks, trade secret and other intellectual property as critical to our success. Unauthorized use of the intellectual property used in our business may materially and adversely affect our business and reputation. We rely on trademark and copyright law, trade secret protection and confidentiality agreements with our employees, customers, business partners and others to protect our intellectual property rights. Despite our precautions, it may be possible for third parties to obtain and use our intellectual property without authorization. In particular, the laws and enforcement procedures in the PRC do not protect intellectual property rights to the same extent as do the laws and enforcement procedures in the United States. Moreover, litigation may be necessary in the future to enforce our intellectual property rights. Future litigation could result in substantial costs and diversion of our resources, and could disrupt our business, as well as have a material adverse effect on our financial condition and results of operations.

We depend on our key personnel and our business and growth prospects may be severely disrupted if we lose their services.

Our future success is dependent upon the continued service of our key executives and employees. We rely on their expertise in our business operations. If one or more of our key executives are unable or unwilling to continue in their present positions, or if they join a competitor or form a competing company in violation of their employment agreements, we may not be able to easily replace them.

Furthermore, since our industry is characterized by high demand and intense competition for talent, we may need to offer higher compensation and other benefits in order to attract and retain key personnel in the future. We currently do not maintain key-man life insurance for any of our key personnel. We cannot assure investors that we will be able to retain the services of our executives or key personnel, or attract and retain experienced executives or key personnel that we will need to achieve our business objectives in the future. As a result, our business may be significantly disrupted and our financial condition and results of operations may be adversely affected.

Because there is limited business insurance coverage in China, any business disruption or litigation we experience might result in us incurring substantial costs and the diversion of resources.

The insurance industry in China is still at an early stage of development. Insurance companies in China offer limited business insurance products and do not, to our knowledge, offer business liability insurance. While business disruption insurance is available to a limited extent in China, we have determined that the risks of disruption, cost of such insurance and the difficulties associated with acquiring such insurance make having such insurance impractical for us.

Our results of operations may fluctuate, which makes our results difficult to predict and you should not rely on our quarterly operating results as an indication of our future performance, because our results of operations are subject to significant fluctuations.

We may experience significant fluctuations in our operating results including but not limited to strategic transformation initiative, cost-cutting initiative and its effect on efficiency and operational performance, potential business consolidation amidst the new regulatory environment, the market prospect of the businesses of securities investment advisory and wealth management, the difficulty in forecasting revenues from our precious metals trading services business and the transition period to adapt to the new compliance requirements, due to a variety of factors, many of which are outside our control. Significant fluctuations in our operating results could be caused by any of the factors identified in this section, including but not limited to, our ability to retain existing clients, attract new clients at a steady rate and maintain client satisfaction; technical difficulties, system downtime or Internet failures; operators'

policies; changing customer needs, regulatory environment and market condition; seasonal trends in Internet use; wavering investor confidence that could impact our business; possible non-cash goodwill, intangible assets and investment impairment that may adversely affect our net income; the unpredictability of our strategic transformation and upgrade; general economic conditions and economic conditions specific to the Internet and wireless, financial information and services, securities investment advisory and wealth management, and the China and Hong Kong securities markets. As a result of these and other factors, comparing our results of operations on a period-to-period basis may not be meaningful, and you should not rely on our past results as an indication of our future performance. Our quarterly and annual revenues and costs and expenses as a percentage of our revenues may be significantly different from our historical or projected figures. Our results of operations in future quarters may fall below expectations.

The effects of war, acts of terrorism, health epidemics, natural disasters or other unforeseen wide-scale events could have a material adverse effect on our operating results and financial condition.

The continued threat of terrorism and associated heightened security measures and military actions in response to acts of terrorism has disrupted commerce and has intensified uncertainties in the U.S. and international economies. Any further acts of terrorism, a future war, a widespread natural disaster, or a health epidemic, such as the influenza H7N9, may disrupt commerce, undermine consumer confidence and lead to a further downturn in China or international economies, which could negatively impact our revenues. Furthermore, an act of terrorism or war, or the threat thereof, or any natural disaster that results in unforeseen interruptions of commerce, could negatively impact our business by interfering with our ability to obtain products from our manufacturers.

Risks relating to our corporate structure

We primarily rely on contractual arrangements with our significant PRC-incorporated affiliates and their shareholders to maintain control over our China operations indirectly. If the affiliates fail to perform their obligations under these contractual arrangements or PRC laws impair the enforceability of these contracts, our business, financial condition and results of operations may be materially and adversely affected.

Because PRC regulations restrict our ability to provide Internet content directly in China, we rely on contractual arrangements, or VIE agreements, with our significant PRC-incorporated affiliates and their shareholders for the operation of our businesses. We have no direct equity ownership interest in these onshore affiliates. These contractual arrangements may not be as effective in providing control over these entities as direct ownership. For example, these entities could fail to take actions required for our business or fail to perform its obligations under these contractual arrangements.

The VIE agreements are governed by PRC law. In the event any of these significant PRC affiliates fails to perform its obligations under these contractual arrangements, we may have to rely on legal remedies under PRC law, including seeking specific performance or injunctive relief, and claiming damages, which we cannot be sure would be effective. The uncertainties in the PRC legal system could limit our ability to enforce these contractual arrangements. In the event that we are unable to enforce these contractual arrangements, our business, financial condition and results of operations could be materially and adversely affected.

The VIE agreements we entered into include share pledge agreements. Under the share pledge agreements, each of Zhiwei Zhao, our chief executive officer, and Jun Wang, our chief financial officer, have pledged their equity interest in Beijing Fuhua Innovation Technology Development Co., Ltd., or CFO Fuhua to China Finance Online (Beijing) Co., Ltd, or CFO Beijing. We are in the process of registering the pledges of equity interests by nominee shareholders of some of our consolidated affiliated entities. The nominee shareholders of each of our consolidated affiliated entities have pledged all of their equity interests in the relevant consolidated affiliated entities to our subsidiaries. An equity pledge agreement becomes effective among the parties upon execution, but according to the PRC Property Rights Law, an equity pledge is not perfected as a security property right unless it is registered with the relevant local administration for industry and commerce. There is no assurance that we can have these equity pledges registered successfully. Prior to the completion of the registration, we may not be able to successfully enforce the equity pledge against any third parties who have acquired property right interests in good faith in the equity interests in the relevant consolidated affiliated entity.

If the PRC government finds that the agreements that establish the structure for operating our online financial data and information services and securities investment advisory services no longer comply with PRC government restrictions on foreign investment in the Internet content services industry, we could be subject to severe penalties.

PRC regulations currently limit foreign ownership of companies that provide Internet content services, which include operating financial data and information services through the Internet, to be no more than 50%. Accordingly, foreign and wholly foreign-owned enterprises are currently not able to apply for the required licenses for operating such services in China.

We are a foreign enterprise and each of our significant subsidiaries, CFO Beijing, Fortune Software (Beijing) Co., Ltd., or CFO Software, CFO Stockstar, CFO Genius, Zhengning Information & Technology (Shanghai) Co., Ltd., or CFO Zhengning, and Fortune (Beijing) Success Technology Co., Ltd., or CFO Success, is a wholly foreign-owned enterprise under PRC law and, accordingly, neither we, nor any of these significant subsidiaries is eligible to apply for licenses to operate our website. In order to comply with foreign ownership restrictions, we operate our website in China through CFO Fuhua and its wholly owned subsidiary CFO Meining, both of which hold the licenses required to be an Internet information content provider under the relevant PRC laws. Zhiwei Zhao and Jun Wang hold 45% and 55% of the equity interests in CFO Fuhua, respectively. We have been and are expected to continue to be dependent on CFO Fuhua and CFO Meining to host our websites, www.jrj.com and www.stockstar.com. We have entered into VIE agreement with CFO Fuhua, its shareholders to maintain substantial control over CFO Fuhua. There are, however, substantial uncertainties regarding the interpretation and application of current or future PRC laws and regulations. And VIE agreements have been under increasing scrutiny by the relevant government authorities in recent years. Accordingly, we cannot assure investors that the PRC regulatory authorities will ultimately take a view that our arrangements with CFO Fuhua comply with PRC law.

Although we believe we comply with current PRC laws and regulations, we cannot assure you that the PRC government would agree that our contractual arrangements comply with PRC licensing, registration or other regulatory requirements, with existing policies or with requirements or policies that may be adopted in the future. The PRC government has broad discretion in determining penalties for violations of laws and regulations. If the PRC government determines that we do not comply with applicable law, it could revoke our business and operating licenses, require us to discontinue or restrict our operations, restrict our right to collect revenues, block our websites, require us to restructure our operations, impose additional conditions or requirements with which we may not be able to comply, impose restrictions on our business operations or on our customers, or take other regulatory or enforcement actions against us that could be harmful to our business. Any of these or similar occurrences could significantly disrupt our business operations or restrict us from conducting a substantial portion of our business operations, which could materially and adversely affect our business, financial condition and results of operations. If any of these occurrences results in our inability to direct the activities of any of our consolidated affiliated entities that most significantly impact its economic performance, and/or our failure to receive the economic benefits from any of our consolidated affiliated entities, we may not be able to consolidate the entity in our consolidated financial statements in accordance with U.S. GAAP.

VIE agreements that we have entered into with our PRC affiliates may be subject to scrutiny by the PRC tax authorities and a finding that we or our PRC affiliates owe additional taxes could substantially reduce our consolidated net income.

Under PRC laws and regulations, arrangements and transactions among related parties may be subject to audit or challenge by the PRC tax authorities. We could face material and adverse tax consequences if the PRC tax authorities determine that the contractual arrangements among our PRC-incorporated subsidiaries and PRC-incorporated affiliates do not represent an arm's length price and adjust the income of our PRC-incorporated subsidiaries or that of our PRC-incorporated affiliates in the form of transfer pricing adjustments. Transfer pricing adjustments could, among other things, result in a reduction, for PRC tax purposes, of expense deductions recorded by our PRC incorporated subsidiaries or affiliates, which could in turn increase their respective tax liabilities. In addition, the PRC tax authorities may impose late payment fees and other penalties on our PRC-incorporated subsidiaries or affiliates for underpayment of taxes. Our consolidated net income may be materially and adversely affected if our PRC-incorporated subsidiaries or affiliates' tax liabilities increase or if they are found to be subject to late payment fees or other penalties.

We rely principally on dividends and other distributions on equity paid by our wholly owned operating subsidiaries to fund any cash and financing requirements we may have.

We are a holding company, and our ability to pay dividends and other cash distributions to our shareholders, repay any debt we may incur and meet our other cash requirements depends solely on our ability to receive dividends and other distributions from our PRC subsidiaries and consolidated affiliated entities to our offshore affiliates and/or other contractual arrangements, more specifically:

- (a) Earnings of our PRC subsidiaries that we directly own and operate inside the PRC are transferred to us by means of dividend payments. The amount of dividends paid to us by our directly owned PRC subsidiaries depends mainly on the service fees paid to them from our consolidated affiliated entities.
- (b) Earnings of our PRC subsidiaries that we indirectly hold through an intermediary Hong Kong or British Virgin Islands company are transferred to us by means of dividend payments via such intermediary company. The transfer of dividend payments from such intermediary company to us is not subject to PRC taxation or other regulatory restrictions.
- (c) Earnings of the VIEs, which we exert control via VIE contracts including without limitation exclusive technology consulting and management service agreement, exclusive purchase right agreement, power of attorney and pledge agreement, are first transferred in full (pre-tax) to our wholly foreign owned enterprise via such contractual arrangements.

However, there are restrictions under PRC laws for the payment of dividends to us by our PRC subsidiaries. For example, if our PRC subsidiaries incur debt on its own behalf, the instruments governing the debt may restrict its ability to make payments or distributions to us. Furthermore, relevant PRC laws and regulations permit payments of dividends by the PRC subsidiaries only out of their retained earnings, if any, as determined in accordance with PRC accounting standards and regulations. Under PRC laws and regulations, the PRC subsidiaries are required to set aside at least 10% of its after-tax profits based on PRC accounting standards each year to fund a statutory reserve. This reserve is not distributable as dividends until the accumulated amount of such reserve has exceeded 50.0% of its

registered capital. Consequently, each of our PRC subsidiaries is restricted in its ability to transfer a portion of its net assets to us or any of our other subsidiaries in the form of dividends, loans or advances. In addition, PRC tax authorities may require us to amend the VIE contractual arrangements that would materially and adversely affect the ability to pay dividends and other distributions to us. The foregoing restrictions on the ability of the PRC subsidiaries to pay dividends to us could materially and adversely limit our ability to pay dividends to holders of our ADSs.

Risks relating to doing business in the People's Republic of China

China's economic, political and social conditions, as well as government policies, could affect the financial markets in China and our business.

Substantially all of our assets are located in China and substantially all of our revenues are derived from our operations in China. Accordingly, our business, financial condition, results of operations and prospects are subject, to a significant extent, to economic, political and legal developments in China.

The PRC economy differs from the economies of most developed countries in many respects, including the amount of government involvement, level of development, growth rate, and control of foreign exchange and allocation of resources. While the PRC economy has experienced significant growth in the past 20 years, growth has been uneven, both geographically and among various sectors of the economy. The PRC government has implemented various measures to encourage economic growth and guide the allocation of resources. Some of these measures benefit the overall PRC economy, but may also have a negative effect on us. For example, our financial condition and results of operations may be adversely affected by government control over capital investments or changes in tax regulations that are applicable to us.

The PRC economy has been transitioning from a planned economy to a more market-oriented economy. Although the PRC government has implemented measures since the late 1970s emphasizing the utilization of market forces for economic reform, the reduction of state ownership of productive assets and the establishment of improved corporate governance in business enterprises, a substantial portion of productive assets in China is still owned by the PRC government. In addition, the PRC government continues to play a significant role in regulating industry development by imposing industrial policies. The PRC government also exercises significant control over China's economic growth through the allocation of resources, controlling payment of foreign currency-denominated obligations, setting monetary policy and providing preferential treatment to particular industries or companies. These actions, as well as future actions and policies of the PRC government, could materially affect the financial markets in China and our business and operations.

The PRC legal system embodies uncertainties which could limit the legal protections available to you and us.

The PRC legal system is a civil law system based on written statutes. Unlike common law systems, it is a system in which decided legal cases have little precedential value. Our significant PRC operating subsidiaries are enterprises incorporated in China and wholly owned by foreign investors and are subject to laws and regulations applicable to foreign investment in China in general and laws and regulations applicable to wholly foreign-owned enterprises in particular. However, these laws, regulations and legal requirements are constantly changing, and their interpretation and enforcement involve uncertainties. These uncertainties could limit the legal protections available to us and other foreign investors, including you. In addition, we cannot predict the effect of future developments in the PRC legal system, particularly with regard to the Internet, securities investment advisory and wealth management, including the promulgation of new laws, changes to existing laws or the interpretation or enforcement thereof, or the preemption of local regulations by national laws.

The PRC government may prevent us from, and we may be subject to liability for, distributing content online that it believes to be inappropriate.

China has enacted laws and regulations governing Internet access and the distribution of news, information or other content, as well as products and services, through the Internet. In the past, the PRC government has stopped the distribution of information through the Internet that it believes violates PRC law. MIIT, the General Administration of Press and Publication, Radio, Film and Television, and the Ministry of Culture have promulgated regulations which prohibit information from being distributed through the Internet if it contains content that is found to, among other things, propagate obscenity, gambling or violence, instigate crimes, undermine public morality or the cultural traditions of the PRC, or compromise state security or secrets.

In addition, MIIT has published regulations that subject website operators to potential liability for content included on their websites and the actions of users and others using their systems, including liability for violations of PRC laws prohibiting the distribution of content deemed to be socially destabilizing. The PRC's Ministry of Public Security has the authority to order any local Internet service provider, or ISP, to block any Internet website maintained outside China at its sole discretion. Periodically, the Ministry of Public Security has stopped the distribution over the Internet of information which it believes to be socially destabilizing. The PRC's State Secrecy Bureau, which is directly responsible for the protection of state secrets of the PRC government, is authorized to block any website it deems to be leaking state secrets or failing to meet the relevant regulations relating to the protection of state secrets in the distribution of online information.

Under applicable PRC regulations, we may be held liable and be subject to penalties for any content we offer or will offer through our website, including information posted on bulletin boards and online forums which we host and maintain on our website. Furthermore, we are required to delete any content we transmit through our website if such content clearly violates PRC laws and regulations. Where any content is considered suspicious, we are required to report such content to PRC governmental authorities.

It may be difficult to determine the type of content that may result in liability for us. If any financial data and information services we offer through our website were deemed to have violated any of such content restrictions, we could be forced to discontinue such services and provision of financial data and be subject to penalties, including confiscation of income, fines, suspension of business and revocation of licenses for operating online financial data and information services, which would materially and adversely affect our business, financial condition and results of operations. Moreover, if any information posted on our bulletin boards or online forums were deemed to have violated any of the content restrictions, we could be subject to similar penalties that materially and adversely affect our business, financial condition and results of operations.

If the current tax benefits we enjoy in PRC were no longer available, our effective tax rates for our PRC operations could increase.

The PRC Enterprise Income Tax Law, or the EIT Law, and its implementation regulations adopted a uniform tax rate of 25% for all enterprises (including domestically owned enterprises and foreign-invested enterprises) and revoked the previous tax exemption, reduction and preferential treatments applicable to foreign-invested enterprises. However, there is a five-year transitional period during which certain enterprises are allowed to continue to enjoy existing preferential tax treatments provided by the then-applicable tax laws and administrative regulations. In 2012, the five-year transitional period has ended for four of our subsidiaries, which has been subject to uniform tax rate of 25% since 2012, materially increasing our tax obligations.

According to the Administrative Measures on the Recognition of “High and New Technology Enterprises”, or the Recognition Rules, issued in 2008, the Ministry of Science and Technology, the Ministry of Finance and the State Administration of Taxation shall jointly determine whether an enterprise is qualified as a “High and New Technology Enterprise”, or HNTE, under the EIT Law and be entitled to enjoy a preferential enterprise income tax rate of 15%. The qualification is valid for three years from the date of award, and enterprises should submit the application for renewal. CFO Software and CFO Meining have been classified as HNTE and enjoy the preferential tax rate in 2011. And CFO Genius also obtained the HNTE status in 2012. There is no assurance that they will continue to be classified as the HNTE when they are subject to reevaluation in the future. In 2014, CFO Meining obtained renewal of its HNTE status successfully, while CFO Software did not submit its application for renewal. CFO Genius will be reevaluated its HNTE status in 2015. In the event that the preferential tax treatment for them is discontinued, these entities will become subject to the uniform tax rate of 25%, which materially increase our tax obligations.

According to Circular on Issues concerning the Implementation of Preferential Policies for Enterprise Income Tax, or Caishui Circular 69, promulgated in 2009, subject to annual verification, a qualified software enterprise established prior to January 1, 2008 may continue to qualify under the tax holidays previously granted to it as a “software enterprise”. Where the software enterprise had qualified for tax holidays before 2008, it may continue to do so with respect to its remaining tax holidays from 2008 until the expiration of such tax holidays. As of December 31, 2014, two of our subsidiaries were classified as “Software Enterprises” and enjoyed a preferential tax rate of 12.5%. Our tax obligation will increase as these subsidiaries start to use up their tax holidays.

In addition, companies that develop their own software and register the software with relevant authorities in China were generally entitled to a value-added tax, or VAT, refund. With respect to revenue generated from the sale of certain online subscriptions, including our service packages, nine of our subsidiaries obtained VAT refunds that reduce their effective VAT rates from 17% to 3% before 2011. The VAT refund policy was reconfirmed pursuant to the Notice on VAT Policy for Software Products, effective January 1, 2011, jointly promulgated by the Ministry of Finance and the State Administration of Taxation on October 13, 2011, or Caishui Circular 100. Although the Notice on VAT Policy for Software Products does not specify policy expiration date, in the event that the VAT refund policy for our subsidiaries is discontinued, our subsidiaries will become subject to the standard tax rate at 17%, which materially increase our tax obligations.

Uncertainties in the PRC tax system may lead to penalties, termination of preferential tax treatment or change of tax levy method imposed on us because of a difference in interpretation of the applicable law by the relevant governmental authority. For example, under current tax laws and regulations, the local tax authority approved certain of our entities to file the income tax by adopting the “deemed-profit method”. Under the method, the entities filed the income tax by calculating the tax as 2.5% of the gross revenues. However, since there is no clear guidance as to the applicability of certain areas of preferential tax treatment and tax levy position, we may be found to be in violation of the tax laws and regulations based on the interpretation of local tax authorities with regard to taxable income and the applicable tax rates, and therefore might be subject to penalties, including but not limited to monetary penalties, termination of preferential tax treatment or change of tax levy method, or claw-back and late payment interest. Reduction or elimination of the preferential tax treatments we have enjoyed or change of our tax levy method on us or our combined entities in China may significantly increase our income tax expenses and materially reduce our net income, which could have a material adverse effect on our business, prospects, results of operations and financial condition.

In addition, we cannot predict the effect of future tax application and tax developments in the PRC legal system, including the promulgation of new laws, changes to existing laws or the interpretation or enforcement thereof, or the preemption of local regulations by national laws. The discontinuation of tax application could materially and adversely affect our financial condition. Any significant increase in our income tax expenses may materially and adversely affect our profit.

Enhanced scrutiny over acquisition transactions by the PRC tax authorities may have a negative impact on potential acquisitions we may pursue in the future.

In connection with the EIT Law, the Ministry of Finance and the State Administration of Taxation jointly issued, on April 30, 2009, the Notice on Issues Concerning Process of Enterprise Income Tax in Enterprise Restructuring Business, or Circular 59. On December 10, 2009, the State Administration of Taxation issued the Notice on Strengthening the Management on Enterprise Income Tax for Non-resident Enterprises Equity Transfer, or Circular 698. On July 26, 2010, the State Administration of Taxation issued the Bulletin Concerning Promulgation of Administrative Measures on the Enterprise Income Tax Treatment of Enterprise Reorganization, or Bulletin 4. On March 28, 2011, the State Administration of Taxation issued the Bulletin Concerning the Tax Administration of Non-resident Enterprises, or Bulletin 24. Both Circular 59 and Circular 698 became effective retroactively on January 1, 2008. Bulletin 4 became effective retroactively on January 1, 2010. Bulletin 24 took effective since April 1, 2011 and also applies to transactions that have occurred prior to its effectiveness for which the relevant PRC tax matters have not been dealt with.

By promulgating and implementing these circulars, the PRC tax authorities have enhanced their scrutiny over the direct or indirect transfer of equity interests in a PRC resident enterprise by a non-resident enterprise. The PRC tax authorities have the discretion under Circular 59, and Circular 698, Bulletin 4 and Bulletin 24 to make adjustments to the taxable capital gains based on the difference between the fair value of the equity interests transferred and the cost of investment. If the PRC tax authorities make adjustments under Circular 59, Circular 698, Bulletin 4 or Bulletin 24, our income tax costs associated with such potential acquisitions will be increased.

Dividends we receive from our operating subsidiaries located in the PRC may be subject to PRC withholding tax.

The EIT Law provides that a maximum income tax rate of 20% may be applicable to dividends payable to non-PRC investors that are “non-resident enterprises” to the extent such dividends are derived from sources within the PRC, and the State Council has reduced such rate to 10% through the implementation regulations unless any such non-PRC investor’s jurisdiction of incorporation has a tax treaty with China that provides for a different withholding arrangement. We are a Hong Kong incorporated company and substantially all of our income may be derived from dividends we receive from our operating subsidiaries located in the PRC. According to mainland and Hong Kong Special Administrative Region Arrangement on Avoiding Double Taxation or Evasion of Taxation on Income agreed between the Mainland and Hong Kong Special Administrative Region in August 2006, dividends payable by a subsidiary located in the PRC to the company in Hong Kong who directly holds at least 25% of the equity interests in the subsidiary will be subject to a maximum 5% withholding tax under certain conditions. Since the preferential withholding tax is subject to the approval from competent taxation authorities in PRC, it remains uncertain whether our company in Hong Kong actually would be able to enjoy preferential withholding taxes for dividends distributed by our subsidiaries in China. If we are not able to enjoy the preferential withholding taxes and the tax rate may be 10% for dividends distributed by our subsidiaries, it will materially and adversely affect the amount of dividends, if any, we may pay to our shareholders and ADS holders.

We may be deemed a PRC resident enterprise under the EIT Law and be subject to the PRC taxation on our worldwide income.

Under the PRC Enterprise Income Tax Law and its Implementing Rules, an enterprise established outside of the PRC with “de facto management bodies” within the PRC is considered a resident enterprise and will be subject to the enterprise income tax at the rate of 25% on its worldwide income. The Implementing Rules define the term “de facto management bodies” as “establishments that carry out substantial and overall management and control over the manufacturing and business operations, personnel, accounting, properties, etc. of an enterprise”.

On April 22, 2009, the State Administration of Taxation, or the SAT, issued the Notice Regarding the Determination of Chinese-Controlled Offshore Incorporated Enterprises as PRC Tax Resident Enterprise on the Basis of De Facto Management Bodies, or SAT Circular 82, which provided certain specific criteria for determining whether the “de facto management body” of a Chinese-controlled offshore- incorporated enterprise is located in China. In addition, the SAT issued the Bulletin 45 on July 27, 2011 to provide more guidance on the implementation of the above circular with an effective date to be September 1, 2011. The Bulletin 45 made clarification in the areas of resident status determination, post-determination administration, as well as competent tax authorities. It also specifies that when provided with a copy of PRC tax resident determination certificate from a resident PRC -controlled offshore incorporated enterprise, the payer should not withhold 10% income tax when paying the PRC-sourced dividends, interest or royalties to the PRC-controlled offshore incorporated enterprise.

Although SAT Circular 82 and the Bulletin 45 only apply to offshore enterprises controlled by PRC enterprises, not those controlled by PRC individuals, the determining criteria set forth in SAT Circular 82 and the administration clarification made in Bulletin 45 may reflect the SAT’s general position on how the “de facto management body” test should be applied in determining the tax resident status of offshore enterprises, regardless of whether they are controlled by PRC enterprises or individuals. Accordingly, we may be considered a resident enterprise and may therefore be subject to the enterprise income tax at 25% on our worldwide income. If we are considered a resident enterprise and earn income other than dividends from our PRC subsidiary, a 25% enterprise income tax on our worldwide income could significantly increase our tax burden and materially and adversely affect our cash flow and profitability.

Dividends payable by us to our foreign investors and gain on the sale of our ADSs or ordinary shares may become subject to taxes under PRC tax laws.

Under the EIT Law and implementation regulations issued by the State Council, PRC income tax at the rate of 10% is applicable to dividends generated on or after January 1, 2008 payable to investors that are “non-resident enterprises”, which do not have an establishment or place of business in the PRC, or which have such establishment or place of business but the relevant income is not effectively connected with the establishment or place of business, to the extent such dividends have their sources within the PRC. Similarly, any gain realized on the transfer of ADSs or shares by such investors is also subject to 10% PRC income tax if such gain is regarded as income derived from sources within the PRC. If we are considered a PRC “resident enterprise”, it is unclear whether dividends we pay with respect to our ordinary shares or ADSs, or the gain you may realize from the transfer of our ordinary shares or ADSs, would be treated as income derived from sources within the PRC and be subject to PRC tax. If we are required under the EIT Law to withhold PRC income tax on dividends payable to our non-PRC investors that are “non-resident enterprises” or if you are required to pay PRC income tax on the transfer of our ordinary shares or ADSs, the value of your investment in our ordinary shares or ADSs may be materially and adversely affected.

Restrictions on currency exchange may limit our ability to utilize our revenues effectively.

The majority of our revenues and operating expenses are denominated in Renminbi. The PRC government imposes controls on the convertibility of the Renminbi into foreign currencies and, in certain cases, the remittance of currency

out of China. Pursuant to the Foreign Currency Administration Rules promulgated on January 29, 1996 and amended on January 14, 1997 and various regulations issued by the Administration for Foreign Exchange (“SAFE”) and other relevant PRC government authorities, Renminbi is freely convertible only to the extent of current account items, such as trade-related receipts and payments, interest and dividends. Capital account items, such as direct equity investments, loans and repatriation of investment, require the prior approval from the SAFE or its local branch for conversion of Renminbi into a foreign currency, such as U.S. dollars, and remittance of the foreign currency outside the PRC. Shortages in the availability of foreign currency may restrict the ability of our PRC subsidiaries to remit sufficient foreign currency to pay dividends or other payments to us, or otherwise satisfy its foreign currency-denominated obligations. Currently, each of our PRC subsidiaries and affiliates may purchase foreign exchange for settlement of “current account transactions”, including payment of dividends to us and payment of license fees and service fees to foreign licensors and service providers, without the approval of SAFE. However, approval from the SAFE or its local branch is required where Renminbi is to be converted into foreign currency and remitted out of China to pay capital expenses such as the repayment of loans denominated in foreign currencies.

Each of our PRC subsidiaries and affiliates may also retain foreign exchange in their current accounts to satisfy foreign exchange liabilities or to pay dividends. However, we cannot assure investors that the relevant PRC governmental authorities will not limit or eliminate our ability to purchase and retain foreign currencies in the future. If the foreign exchange control system prevents us from obtaining sufficient foreign currency to satisfy our currency demands, we may not be able to pay dividends in foreign currencies to our shareholders. Since a significant amount of our future revenues will be in the form of Renminbi, the existing and any future restrictions on currency exchange may limit our ability to utilize revenues generated in Renminbi to fund our business activities outside China, if any, or expenditures denominated in foreign currencies.

In addition, as further explained in disclosures below, each of our PRC subsidiary and affiliated consolidated entities is required to set aside at least 10% of its after-tax profit based on PRC accounting standards each year to its general reserves or statutory capital reserve fund until the accumulative amount of such reserve reaches 50% of its respective registered capital. These reserves are not distributable as cash dividends.

Fluctuations in exchange rates could result in foreign currency exchange losses.

Because substantially all of our revenues and expenditures are denominated in Renminbi and the net proceeds from our initial public offering were denominated in U.S. dollars, fluctuations in the exchange rate between U.S. dollars and Renminbi affect the relative purchasing power of these proceeds and our balance sheet and earnings per ADS in U.S. dollars. In addition, we report our financial results in U.S. dollars, and appreciation or depreciation in the value of the Renminbi relative to the U.S. dollar would affect our financial results reported in U.S. dollars without giving effect to any underlying change in our business or results of operations. Fluctuations in the exchange rate will also affect the relative value of any dividend we issue that will be exchanged into U.S. dollars and earnings from and the value of any U.S. dollar-denominated investments we make in the future.

Since July 2005, the Renminbi has no longer been pegged to the U.S. dollar. Although beginning in April, 2012, the Renminbi exchange rate versus the U.S. dollar is restricted to a rise or fall of no more than 1% per day and increased to 2% beginning in March, 2014, and the People's Bank of China regularly intervenes in the foreign exchange market to prevent significant short-term fluctuations in the exchange rate, the Renminbi may appreciate or depreciate significantly in value against the U.S. dollar in the medium- to long-term. Moreover, it is possible that in the future, PRC authorities may expand the Renminbi exchange rate's floating range, lift restrictions on fluctuations in the Renminbi exchange rate and lessen intervention in the foreign exchange market.

Very limited hedging transactions are available in China to reduce our exposure to exchange rate fluctuations. To date, we have not entered into any hedging transactions in an effort to reduce our exposure to foreign currency exchange risk. While we may decide to enter into hedging transactions in the future, the availability and effectiveness of these hedging transactions may be limited and we may not be able to successfully hedge our exposure at all. In addition, our currency exchange losses may be magnified by PRC exchange control regulations that restrict our ability to convert Renminbi into foreign currency.

The audit report included in this annual report are prepared by auditors who are not inspected by the U.S. Public Company Accounting Oversight Board (“PCAOB”), as such, our investors currently do not have the benefits of PCAOB oversight.

Our independent registered public accounting firm that issues the audit reports included in our annual reports filed with the U.S. Securities and Exchange Commission, or SEC, as auditors of companies that are traded publicly in the United States and a firm registered with the PCAOB, is required by the laws of the United States to undergo regular inspections by the PCAOB to assess its compliance with the laws of the United States and applicable professional standards. Because our auditors are located in China, a jurisdiction where the PCAOB is currently unable to conduct inspections without the approval of the Chinese authorities, our auditors are not currently inspected by the PCAOB.

Inspections of other firms that the PCAOB has conducted outside of China have identified deficiencies in those firms’ audit procedures and quality control procedures, which may be addressed as part of the inspection process to improve future audit quality. This lack of PCAOB inspections in China prevents the PCAOB from regularly evaluating our auditor’s audits and its quality control procedures. As a result, our investors may be deprived of the benefits of PCAOB inspections.

The inability of the PCAOB to conduct inspections of auditors in China makes it more difficult to evaluate the effectiveness of our auditor’s audit procedures or quality control procedures as compared to auditors outside of China that are subject to PCAOB inspections. Investors may consequently lose confidence in our reported financial information and procedures and the quality of our financial statements.

PRC’s new labor law restricts our ability to reduce our workforce in the PRC in the event of an economic downturn and may increase our labor costs.

The PRC Labor Contract Law became and was implemented on January 1, 2008. The Labor Contract Law has reinforced the protection for employees who, under the PRC Labor Contract Law, have the right, among others, to have written labor contracts, to enter into labor contracts with no fixed terms under certain circumstances, to receive overtime wages and to terminate or alter terms in labor contracts. Furthermore, the Labor Contract Law establishes additional restrictions and increases the costs involved with dismissing employees. There remains significant uncertainty as to its interpretation and application by the PRC government and courts. In the event that we decide to significantly reduce our workforce, particularly in the period with sluggish prospect in securities market, the Labor Contract Law could adversely affect our ability to do so in a timely and cost effective manner, and our results of operations could be adversely affected. In addition, for employees whose contracts include non-competition terms, the Labor Contract Law requires employers to pay monthly compensation after such employment ends, which will increase employers’ operating expenses.

Risks relating to our shares and ADSs

Due to recent credit crisis of U.S.-listed Chinese companies caused by Chinese companies' accounting scandals and the short selling agencies' raider activities in the aggregate, the price of our underlying common stock might fluctuate significantly and if our stock price drops sharply, we may not satisfy the continued listing requirements of NASDAQ.

Since 2011, there have been well-publicized accounting problems at several U.S.-listed Chinese companies that have resulted in significant drops in the trading prices of their shares and, in some cases, have led to the resignation of outside auditors, trading halts or share de-listings by NASDAQ or the New York Stock Exchange, and investigations by the Division of Enforcement of the U.S. Securities and Exchange Commission. Many, but not all, of the companies involved in these scandals had entered the U.S. trading market through "reverse mergers" into publicly traded shells. The scandals have had a broad effect on Chinese companies with shares listed in the United States. Despite the fact that we have consistently made the determination that the Company has been having effective internal controls since our listing in NASDAQ in 2004 until as of December 31, 2014, such accounting scandals in other Chinese companies could have an adverse effect on the market for shares of our underlying common stock. Investors could lose confidence in PRC companies in general, which could lead to fluctuations in the market prices of our underlying common stock and, if such prices were to drop sharply below \$1.00 for 30 days consecutively, could cause us not to satisfy the continued listing requirements of NASDAQ.

In addition, some short selling agencies have been targeting U.S.-listed Chinese companies. Although the research reports issued by those short selling agencies regarding some U.S.-listed Chinese companies are largely meritless, targeted companies had suffered from significant fluctuations on their share prices. We cannot assure investors that we will not be the target of the short selling agencies in 2015. If we were to become their target, even if their claims are meritless, our share price may drop significantly, and if such prices were to drop sharply below \$1.00 for 30 days consecutively, could cause us not to satisfy the continued listing requirements of NASDAQ.

Stock prices of Internet-related companies, particularly companies with business operations primarily in China, have fluctuated widely in recent years, and the trading prices of our ADSs are likely to be volatile, which could result in substantial losses to investors.

The trading prices of our ADSs have been volatile and could fluctuate widely in response to factors beyond our control. Since the completion of our initial public offering in October 2004, the trading prices of our ADSs have ranged between a high of \$47.68 per ADS to a low of \$1.02 per ADS as of December 31, 2014. During the twelve-month period ended December 31, 2014, the price of our ADSs has ranged from a low of \$2.33 to a high of \$11.88 per ADS. The market prices of the securities of Internet-related companies have generally been especially volatile.

In particular, the performance and fluctuation of the market prices of other technology companies with business operations mainly in China that have listed their securities in the United States may affect the volatility in the price of and trading volumes for our ADSs. Some of these companies have experienced significant volatility, including significant price declines in connection with their initial public offerings and as a result of the global financial crisis. The trading performances of these Chinese companies' securities at the time of or after their offerings may affect the overall investor sentiment towards PRC companies listed in the United States and consequently may impact the trading performance of our ADSs. Changes in the U.S. stock market generally or as it concerns our industry, as well as geopolitical, economic, and business factors unrelated to us, may also affect the market price and volatility of our ADSs, regardless of our actual operating performance.

In addition to market and industry factors, the price and trading volume for our ADSs may be highly volatile for business specific reasons. Factors such as variations in our revenue, earnings and cash flow, announcements of strategic transition and new investments, cooperation arrangements or acquisitions, and fluctuations in market prices

for our services could cause the market price for our ADSs to change substantially. The global financial crisis may have substantial negative impact on our financial and business performance. Any of these factors may result in large and sudden changes in the volume and price at which our ADSs will trade. We cannot assure investors that these factors will not occur in the future.

The sale or availability for sale of substantial amounts of our ADSs could adversely affect their market price.

Sales of our ADSs in the public market, or the perception that these sales could occur, could cause the market price of our ADSs to decline. Such sales also might make it more difficult for us to sell equity or equity-related securities in the future at a time and price that we deem appropriate. If any existing shareholder or shareholders sell a substantial amount of ADSs, the prevailing market price for our ADSs could be adversely affected. In addition, if we pay for our future acquisitions in whole or in part with additionally issued ordinary shares, your ownership interests in our company would be diluted and this, in turn, could have a material and adverse effect on the price of our ADSs.

The 82,837,921 ordinary shares that were outstanding prior to our initial public offering are “restricted securities” as defined in Rule 144 promulgated under the Securities Act of 1933, as amended, or the Securities Act and may not be sold in the absence of registration other than in accordance with Rule 144 under the Securities Act or another exemption from registration. These “restricted securities” are available for sale subject to volume and other restrictions as applicable under Rule 144 of the Securities Act. To the extent ordinary shares are sold to the market, the market price of our ADSs could decline.

A significant percentage of our outstanding ordinary shares are held by a small number of our shareholders, and these shareholders may have significantly greater influence on us and our corporate actions by nature of the size of their shareholdings relative to our public shareholders.

As of December 31, 2014, five of our existing shareholders, including Zhiwei Zhao, IDG Technology Venture Investment, LP, IDG Technology Venture Investment, Inc., Ling Zhang and Jianping Lu, beneficially owned, collectively, approximately 52.81% of our outstanding ordinary shares.

For more information regarding our principal shareholders and their affiliated entities, see “ITEM 6. Directors, Senior Management and Employees - E. Share Ownership”.

Accordingly, these shareholders have had, and may continue to have, significant influence in determining the outcome of any corporate transaction or other matter submitted to the shareholders for approval, including mergers, consolidations and the sale of all or substantially all of our assets, election of directors and other significant corporate actions. In addition, without the consent of these shareholders, we could be prevented from entering into transactions that could be beneficial to us.

Provisions in our charter documents and certain provisions under Hong Kong law may discourage our acquisition by a third party, which could limit your opportunity to sell your shares at a premium.

Our constituent documents and Hong Kong law include provisions that could limit the ability of others to acquire control of us, modify our structure or cause us to engage in change in control transactions, including, among other things, the following:

- Our articles of association provide for a staggered board, which means that certain number of our directors, not exceeding the half of the remaining directors after excluding our chief executive officer, are retired at every annual general meeting and the vacancies created by the retirement stand for election. Our chief executive officer will at all times serves as a director, and will not retire as a director, so long as he remains our chief executive officer. This means that, with our staggered board, at least two annual shareholders' meetings, instead of one, are generally required in order to effect a change in a majority of our directors, making it more difficult for any potential acquirer to take control of our board in a relatively short period of time, which may discourage proxy contests for the election of our directors and purchases of substantial blocks of our shares.
- Hong Kong law permits shareholders of a company to remove directors by a shareholders' resolution. Our articles of association require any shareholder who wishes to remove a director by resolutions to give us at least 120 days' advanced notice of the same, making it more difficult and time consuming for a potential acquirer who has accumulated a substantial voting position to obtain control of our board by removing opposing directors.
- Our articles of association provide that our board can have no less than five and no more than nine directors. Our board currently has five directors as of the date of this report. Any increase in the maximum number of directors on our board beyond nine directors can only be accomplished by amending our articles of association, which under Hong Kong law requires a shareholders' supermajority vote of 75% and at least 21 days' notice. These restrictions can make it more difficult for a potential acquirer who has accumulated a majority of our shares to take control of us by promptly increasing the size of our board and appointing new directors that are its nominees.
- Hong Kong does not have merger laws that permit Hong Kong companies to merge in the same way as U.S. companies could in the United States. However, the Hong Kong Companies Ordinance has provisions that facilitate arrangements for the reconstruction and amalgamation of companies. The arrangement must be approved by a majority in number of each class of shareholders and creditors with whom the arrangement is to be made, representing three-fourths in value of each such class of shareholders or creditors that are present and voting either in person or by proxy at meetings convened by the High Court of Hong Kong. The arrangements must be sanctioned by the High Court of Hong Kong after shareholders or creditors approve it at the court-convened meeting.
- Our shareholders have authorized our board of directors, without any further action by shareholders, to issue additional shares. Under Hong Kong law, the authority granted by our shareholders will remain valid until the conclusion of our next annual general meeting, or the time when our next annual general meeting is required to be held. For as long as this approval remains effective, or is renewed, our board of directors will have the power to issue additional ordinary shares (including ordinary shares represented by ADSs) and preference shares without any further action by shareholders.

We are a Hong Kong company and because the legal and procedural protections of minority shareholders under Hong Kong law differ from those under U.S. law, you may have difficulty protecting your interests as our shareholder relative to shareholders of corporations organized in the U.S.

We are a Hong Kong company and are subject to the laws of Hong Kong. The fiduciary responsibilities of our directors and the ability of minority shareholders to take successful legal action in Hong Kong against us or our directors are governed by the laws and court procedures of Hong Kong. Shareholders of a Hong Kong company would not be able to bring class action lawsuits against that company or its directors in a Hong Kong court in the same way that shareholders of a U.S. corporation might be able to bring such lawsuits in a U.S. court. In addition, professional conduct rules applicable to Hong Kong lawyers generally prohibit Hong Kong lawyers from accepting contingency fee arrangements, where a lawyer representing the plaintiffs is paid a fee only if the lawsuit is successful. Without contingency fee arrangements or the ability to bring class action lawsuits, our shareholders may find it more costly and difficult to take legal action against us or our directors in the Hong Kong courts. The Hong Kong courts are also unlikely to recognize or enforce against us judgments of courts of the United States based on the civil liability provisions of U.S. securities laws, or, to allow original actions brought in Hong Kong, based on the civil liability provisions of U.S. securities laws that are penal in nature.

In addition, there is no automatic statutory recognition in Hong Kong of judgments obtained in the United States. Moreover, Hong Kong companies may not have standing to initiate a shareholder derivative action in a federal court of the United States.

As a result, minority public shareholders may have more difficulties in protecting their interests in the face of actions taken by management, directors or controlling shareholders than they would as minority public shareholders of a U.S. corporation. Moreover, substantially all of our assets are located outside of the United States and all of our current operations are conducted in the PRC. In addition, most of our directors and officers are nationals and residents of countries other than the United States, whose substantial portion of assets are located outside the United States. As a result, it may be difficult for you to effect service of process within the United States upon these persons.

The voting rights of holders of ADSs must be exercised in accordance with the terms of the deposit agreement, the American depositary receipts, and the procedures established by the depositary. The process of voting through the depositary may involve delays that limit the time available to you to consider proposed shareholders' actions and also may restrict your ability to subsequently revise your voting instructions.

A holder of ADSs may exercise his/her/its voting rights with respect to the underlying ordinary shares only in accordance with the provisions of the deposit agreement and the American depositary shares.

When the depositary receives from us notice of any shareholders meeting, it will distribute the information in the meeting notice and any proxy solicitation materials to you. The depositary will determine the record date for distributing these materials, and only ADS holders registered with the depositary on that record date will, subject to applicable laws, be entitled to instruct the depositary to vote the underlying ordinary shares. The depositary will also determine and inform you of the manner for you to give your voting instructions, including instructions to give discretionary proxies to a person designated by us. Upon receipt of voting instructions of a holder of ADSs, the depositary will endeavor to vote the underlying ordinary shares in accordance with these instructions. Although Hong Kong law requires us to call annual shareholders' meetings by not less than 21 days' notice in writing, and all other shareholders' meeting by not less than 14 days' notice in writing, these minimum notice requirements can be shortened or completely waived by the consent of all holders of our ordinary shares entitled to attend and vote (in the case of annual shareholders' meetings) or a majority in number of the holders of our ordinary shares representing at least 95% in nominal value of the shares giving the right to attend and vote (in the case of all other shareholders' meetings). If the minimum notice periods are shortened or waived, you may not receive sufficient notice of a shareholders' meeting for you to withdraw your ordinary shares and cast your vote with respect to any proposed resolution, as a holder of our ordinary shares. In addition, the depositary and its agents may not be able to send materials relating to the meeting and voting instruction forms to you, or to carry out your voting instructions, in a timely manner. We cannot assure investors that you will receive the voting materials in time to ensure that you can instruct the depositary to vote your shares. The additional time required for the depositary to receive from us and distribute to you meeting notices and materials, and for you to give voting instructions to the depositary with respect to the underlying ordinary shares, will result in your having less time to consider meeting notices and materials than holders of ordinary shares who receive such notices and materials directly from us and who vote their ordinary shares directly. If you have given your voting instructions to the depositary and subsequently decide to change those instructions, you may not be able to do so in time for the depositary to vote in accordance with your revised instructions.

Furthermore, the depositary has deemed any holders who do not send in voting instructions at all or in a timely manner as having instructed the depositary to give a discretionary voting proxy to the person(s) designated by us to receive voting proxies, with full power to exercise such holder's (or holders') voting rights under the ADSs' underlying ordinary shares in the manner as the proxy holder deems fit. Accordingly, matters that favor the incumbent board of directors and management will have a higher likelihood of passing than would otherwise be the case.

The depositary and its agents will not be responsible for any failure to carry out any instructions to vote, for the manner in which any vote is cast or for the effect of any such vote.

You may not receive distributions on our ordinary shares or any value for them if such distribution is illegal or if any requisite government approval cannot be obtained in order to make such distribution available to you.

The depositary of our ADSs has agreed to pay to you the cash dividends or other distributions (which may include securities or rights distributions) it or the custodian for our ADSs receives on our ordinary shares or other deposited securities after deducting its fees and expenses. You will receive these distributions in proportion to the number of our ordinary shares your ADSs represent. However, the depositary is not responsible to make a distribution available to any holders of ADSs if it decides that it is unlawful to make such distribution. For example, it would be unlawful to make a distribution to holder of ADSs if it consisted of securities that required registration under the Securities Act but that were not properly registered or distributed pursuant to an applicable exemption from registration. The depositary is not responsible for making a distribution available to any holders of ADSs if any government approval or registration required for such distribution cannot be obtained after reasonable efforts made by the depositary. We have no obligation to take any other action to permit the distribution of our ADSs, ordinary shares, rights or anything else to holders of our ADSs. This means that you may not receive the distributions we make on our ordinary shares or any value for them if it is unlawful or unreasonable from a regulatory perspective for us to make them available to you. These restrictions may have a material adverse effect on the value of your ADSs.

You may be subject to limitations on transfers of your ADSs.

Your ADSs, each of which represents five ordinary shares, are transferable on the books of the depositary. However, the depositary may close its books at any time or from time to time when it deems expedient in connection with the performance of its duties. The depositary may close its books from time to time for a number of reasons, including in connection with corporate events such as a rights offering, during which time the depositary needs to maintain an exact number of ADS holders on its books for a specified period. The depositary may also close its books in emergencies, and on weekends and public holidays. The depositary may refuse to deliver, transfer or register transfers of our ADSs generally when the books of the depositary are closed, or at any time if we or the depositary thinks it is advisable to do so because of any requirement of law or any government or governmental body, or under any provision of the deposit agreement, or for any other reason.

Your right as a holder of ADSs to participate in any future rights offerings may be limited, which may cause dilution to your holdings.

We may from time to time distribute rights to our shareholders, including rights to acquire our securities. However, we cannot make rights available to our ADS holders in the United States unless we register the rights and the securities to which the rights relate under the Securities Act or an exemption from the registration requirements is available. In addition, the deposit agreement provides that the depositary bank will not make rights available to you unless the distribution to ADS holders of both the rights and any related securities are either registered under the Securities Act or exempted from registration under the Securities Act. We are under no obligation to file a registration statement with respect to any such rights or securities or to endeavor to cause such a registration statement to be declared effective. Moreover, we may not be able to establish an exemption from registration under the Securities Act. Accordingly, ADS holders may be unable to participate in our rights offerings and may experience dilution in their holdings.

In addition, if the depositary is unable to sell rights that are not exercised or not distributed or if the sale is not lawful or reasonably practicable, it will allow the rights to lapse, in which case you will receive no value for these rights.

ITEM 4. INFORMATION ON THE COMPANY

China Finance Online Co. Limited was incorporated in Hong Kong in November 1998. In April 2001, we launched our online financial and listed company data and information services.

In October 2004, we completed the initial public offering of our ADSs, each of which represents five of our ordinary shares, and listed our ADSs on The NASDAQ Stock Market. On January 3, 2011, our ADSs were elevated to trade on the NASDAQ Global Select Market. The NASDAQ Global Select Market is designated for public companies that meet the highest initial listing standards in the world. Inclusion in the world-class blue chip market is a significant milestone of our progress and is indicative of our commitment to high standards and good governance, and demonstrates our achievement, leadership and stature.

In April 2000, we acquired the financial information website www.jrj.com.cn and in October 2004 we acquired the domain name www.jrj.com, and commenced operating our subscription-based financial information business in March 2005. We maintain the same content under both domain names.

In 2006 we acquired the website www.stockstar.com, which was established in 1996 and is one of the leading finance and securities websites in China.

Also in 2006, we acquired CFO Genius, a financial information database provider primarily serving domestic securities and investment institutions.

In 2007, we acquired Daily Growth Securities Limited, (renamed iSTAR International Securities Co. Limited in February 2013), a licensed securities brokerage firm incorporated in Hong Kong.

Based on our assessment of changes in customer demand, market and regulatory environment and industry outlook, the Board of Directors approved the strategic transition. The goal of our strategic transition is to deliver to investors and our clients and customers a one-stop financial platform providing investment advisory, securities trading and wealth management services. In order to address the demand for alternative investment opportunities, the Company established new affiliates and acquired and invested in other business entities engaged in alternative investments.

In January 2013, Zhengjin (Fujian) Precious Metal Investment Co., Ltd. (“Zhengjin Fujian”), a new affiliate of the Company we established in 2013, became a member of the SAIC (State Administration for Industry and Commerce) –

approved Haixi Commodity Exchange (“Haixi”). Haixi is the only commodities spot market which provides electronic trading in Fujian province. In September 2013, Zhengjin (Tianjin) Precious Metal Management Co., Ltd. (“Zhengjin Tianjin”), another affiliate of the Company, became the member of Tianjin Precious Metal Exchange (“TJPME”). In September 2013, we acquired 60% equity of Shenzhen Tahoe Investment and Development Co., Ltd. (“Tahoe”). Henghui (Tianjin) Precious Metals Management Co., Ltd. (“Henghui”), a subsidiary of Tahoe, is also a member of TJPME.

In August 2013, the Company launched “Yinglibao”, an internet-based financial platform that integrates cash management solutions and mutual fund distribution. For users who maintained Yinglibao balances, they could receive a money market fund rate of return on their balances, which is higher than the current bank demand deposit rate. In addition, Yinglibao users have the option of purchasing mutual fund products directly through their accounts.

In the second quarter of 2014, as part of our strategic transition, the Board of Directors determined that online brokerage services should be one of the Company’s core businesses going forward. In April 2014, we entered into a framework agreement with CITIC Securities Co., Ltd. (“CITIC”) to integrate the Company’s and CITIC’s resources to develop online comprehensive brokerage services. After months of internal development and collaboration with CITIC, we officially launched our landmark fully integrated securities-trading platform, “Securities Master” (“Zhengquantong”), to enable retail investors to access market information, open trading accounts and trade securities in real-time through highly-intuitive user interface. During 2014, we also entered into strategic partnership agreements with Zhongshan Securities Co., Ltd., Hengtai Securities Co., Ltd. and Great Wall Securities Co. Limited. In early 2015, we entered into strategic partnership agreements China International Capital Corporation Limited and Changjiang Securities Co. Limited.

In December 2014, we continued our strategic transition efforts by launching an investment advisory service platform, “Investment Masters” (“iTougu”), designed to provide securities investment advisors and their clients a real-time communication channel, where messages, market analytics, research report and investment strategies are exchanged. Further, this platform is connected to our securities-trading platform, Securities Master, to enable our users to place trade orders directly while using Investment Masters.

B. Business overview.

Overview:

China Finance Online Co. Limited is a leading web-based financial services company in China. The company provides Chinese retail investors with online access to securities and commodities trading services, wealth management products, securities investment advisory services, as well as financial database and analytics services to institutional customers. The Company’s two prominent flagship portal sites, www.jrj.com and www.stockstar.com, are ranked among the top financial websites in China. In a recent study conducted by the authoritative Internet Society of China, JRJ was awarded one of “China’s Top 100 Internet Sites” and ranked highest amongst vertically integrated financial websites in China.

With the capabilities we have amassed during our strategic transition and the new lines of businesses we have developed during the same period, we continued to position ourselves to accomplish our strategic goal of leveraging our robust internet capabilities to become a leading one stop financial products and services provider in China.

In 2014, we launched Investment Masters (iTougu) application facilitating communication between securities investment advisors and their respective clients and followers in real-time and for 24 hours a day, and enabling a vast number of Chinese individual investors to obtain private advice from thousands of securities investment advisors. We established and expanded our partnerships with securities firms on our web-based trading platform, Securities Master (Zhengquantong) and continued to diversify our product offerings on our wealth management platform, Yinglibao. We also provide our rapidly growing precious metals trading services business in mainland China along with brokerage services in Hong Kong in order to address the market demand for alternative investment opportunities.

In addition, the Company offers basic financial software, information services and securities investment advisory services to retail investors in China. Through its subsidiary, Shenzhen Genius Information Technology Co., Ltd., we provide financial database and analytics to institutional customers including domestic financial, research, academic and regulatory institutions.

Our Business Sectors

In 2013, we re-categorized the components of our net revenues to better reflect the evolving nature of our business. Currently, the Company's net revenues are categorized under: (a) revenues from financial services, which include brokerage-related revenues including precious metal trading service; (b) revenues from financial information and advisory business, which include subscription fees from individual customers and institutional customers; and (c) advertising revenues.

a. Subscription Services and other Related Services in the PRC

(i) Financial Services Business

Investment Masters (“iTougu”)

On December 25, 2014, the company launched an investment advisory service platform “Investment Masters (iTougu)” at its annual conference “Leading China 2014: Financial Industry Innovation Forum”. The Investment Masters platform is designed to provide securities investment advisors and their clients a real-time communication channel, where they may communicate directly and in real-time. It also provides a vast number of Chinese individual investors access to securities investment advisors where they may attain private investment advice from thousands of investment advisors. In addition, the Investment Masters platform provides these highly-demanded features:

• Text and audio interactive messaging system for real-time broadcast and Q&As between investment advisors and their clients;

• Daily market analytics, research reports and investment strategies for investment advisors;

• Access to fast trade order placement with direct connection to the Company's Securities Masters platform; and

• Client Management system for every investment advisor to view and manage client profiles, historical data and activities.

Securities Master (“Zhengquantong”)

On August 18, 2014, the Company launched a fully-integrated securities trading platform, “Securities Master (Zhengquantong)”, that is easily accessible to investors through a highly-intuitive user interface via computers, smartphones and tablets. Securities Master aims to create a simple and seamless experience for retail investors to access market information, open trading accounts and trade in real-time, providing investors a mean to manage their finances more effectively and efficiently. Investors will also have fast access to online securities trading with professional-level market data, analytics, research reports, as well as real-time online advisory services to facilitate trading decisions.

As of the date hereof, we have integrated Securities Master with the trading and settlement systems of CITIC Securities Co. Ltd., Zhongshan Securities Co. Limited, Great Wall Securities Co. Limited, Hengtai Securities Co. Limited and China International Capital Corporation Limited.

Yinglibao

On August 2013, the Company launched “Yinglibao”, an internet-based financial platform that integrates cash management solutions and mutual fund distribution. For users who maintained Yinglibao balances, their balances would be subscribed by the money market fund managed by third-party mutual fund management companies.

Currently, we are combining Yinglibao and Securities Master with Investment Masters, integrating our three services to provide our clients and customers a one-stop financial platform of investment advisory, securities trading and wealth management services.

(ii) Financial information and advisory business

In 2013 and 2014, revenues from financial information and advisory business services represented approximately 21.1% and 12.4% of our total net revenues respectively. In the transition of the Company, financial information and advisory business was not part of our core business.

Individual Subscription Business

To conduct our subscription services, we collect and process our website content through our research tools and provide to our subscribers financial analysis tools, real-time and historical data, news, research reports and online forums in one integrated information platform, providing them the means to make informed investment decisions with respect to China’s listed company stocks, bonds, mutual funds and stock index futures based on specifications determined by them.

During our strategic transition period, while we did not accept new paid subscribers or renewal for premium individual subscription service, we continue to provide our existing subscriber base premium individual subscription, basic software and information services and charge our existing subscribers a subscription fee for the use of our service packages over an agreed-upon service period, which is typically one year.

Institutional Subscription Business

Shenzhen Genius Information Technology Co. Ltd. (“CFO Genius”) was founded in 1994. It was the first professional financial database provider in China. In 2006, it became a fully-owned subsidiary of China Finance Online Co., Ltd.

(iii) Advertising Business

We believe that our websites www.jrj.com and www.stockstar.com are among the most popular financial information websites in China. While our internet community is generally affluent and educated and thus represents a potentially attractive group for advertisement, in 2012, we continued to allocate most of our advertising inventory to promote our own product and service offerings to individual investors. In 2013 and 2014, revenues from advertising-related services represented approximately 12.9% and 9.7% of our total net revenues respectively, and online advertising was not part of our core business.

b. Precious Metal Trading Business

In 2013, in order to address the market demand for alternative investment opportunities, the Company established Zhengjin Fujian and Zhengjin Tianjin and acquired Henghui to help clients invest in and trade precious metals. As a PRC-affiliate of the Company, Zhengjin Fujian is a member of the SAIC (State Administration for Industry and Commerce)-approved Haixi, while Zhengjin Tianjin and Henghui are members of TJPME. Our precious metals trading affiliates' intended scopes of business include precious metals spot trading, silver product sales and financial investment advisory services. Currently, they are focused on online silver trading on Haixi and TJPME on behalf of their respective clients.

We earn commission income from our clients' trading activities. In addition, we act as one of the market makers in Haixi and TJPME. As a market maker, we commit to accept all trade executions by offering to buy or sell trading products from or to our clients. As a result, we also recognize trading gains and losses in our net revenues.

In 2013 and 2014, our net revenues derived from precious metal trading business represented approximately 57.1 % and 71.8% of our total net revenues respectively.

c. Hong Kong Securities and Futures Contracts Brokerage Business

Following our acquisition of Hong Kong-based iSTAR Securities (formerly named Daily Growth Securities Limited) in November 2007, a licensed securities brokerage firm, we began providing certain brokerage and related services to our customers who invest in stocks listed on HKEx. iSTAR Securities is regulated by HKEx and SFC.

In March 2015, the company signed a contract to transfer the entire equity interest in iSTAR Futures and iSTAR Wealth Management to a third party for a total consideration of \$6.5 million (HK\$ 50.7 million equivalently), comprising \$ 1.0 million (HK\$8,000,000 equivalently) and a sum equal to the net assets of the iSTAR Futures and iSTAR Wealth Management as of March 31, 2015.

Customer support

Our customer support center provides our clients and users with real-time and professional support our customer support personnel are available to explain various features of our offerings and provide investment advisory services directly over the phone. Customer support is also available to provide assistance on technical problems to our users, as well as perform sales and marketing roles. We have an in-house training program for our customer support personnel, which include training courses on China's securities markets, our service features and functionalities, technical problem solving skills and general customer service guidelines.

Sales and Marketing

We market our service offerings through online marketing, call centers, advertising and our customer support personnel. We will continue to use our focused marketing strategy to further enhance awareness of our brand and acquire new customers. We conduct online marketing mainly through our websites www.jrj.com and www.stockstar.com, which are among the most popular financial information websites in China. We also advertise radio stations and subways and also conduct public relations activities in the major cities in. In December 2014, we have successfully hosted "Leading China 2014: Financial Industry Innovation Forum" in Beijing. Regulators and guests from the State Council of People's Republic of China, China Securities Regulatory Commission (CSRC), China Banking Regulatory Commission (CBRC), Association of Chinese Insurance Industry, Tsinghua University PBC School of Finance and executives from Chinese securities firms and commercial banks, among others, made important speeches covering topics including online securities, peer-to-peer lending, crowd financing, on-line banking and securities settlement systems. The Company also demonstrated our new and applauded Investment Masters (iTougu)

application at the summit.

43

Research and Development

We seek to differentiate our products and optimizing our services as continue to strengthen our core competence. We have been focusing on development and innovation of internet platforms and mobile internet applications, bringing cutting-edge technology shapes including multimedia, social networking, big data, cloud computing and user behavior analysis into our financial service platform,

During our strategic transition period, the Company has developed and launched our new wealth management service platform, Yinglibao, in August 2013, the fully-integrated securities trading platform, Securities Master, in August 2014, and our investment advisory service platform, Investment Masters, in December 2014.

When designing products, we aim to anticipate our customers' needs and to meet their increasingly complex and specific design requirements. We also strive to design products that will achieve broad market acceptance and generate widespread end user demand. Our product development team conducts frequent meetings with our sales and marketing team to discuss the feasibility of new service offerings and the progress of existing product development efforts. Our research and development team also works closely with our customer support team to develop features and content based on user feedback.

We expect product development to remain an important part of our business as the online financial services industry in China becomes increasingly sophisticated. We will keep placing significant emphasis on refining and upgrading our products and service platform, and on creating new and innovative features to meet the changing needs of our customers. Our research and development team works as an integral part of our overall service offering efforts.

Competition

Although we pioneer in providing online financial services and information, we are still facing more competition in many aspects of our business. New business ventures such as Investment Masters, Securities Master, Yinglibao, precious metals trading, securities investment advisory and wealth management services are developing in accordance with our current business plan. We are operating in an increasingly competitive environment and competing for clients on the basis of product choices, client services, reputation and brand names. The potential competitions we face include the following:

- competition from traditional financial service providers offering similar services and products;
- competition from existing internet companies entering into financial service market offering similar services and products; and
- competition from new entrants providers offering similar services and products.

With respect to our scaled-down financial information services, the number of competitors providing online financial news and information has increased since we commenced operations. Competition is intensifying among companies that provide security analysis software despite the declining market demand. As a result, the security analysis software industry is showing signs of over-capacity. Sales of many companies started to stall or decline and profit margins continue to be squeezed. More broadly, we also compete, directly and indirectly, for users and subscribers with companies in the business of providing financial data and information services, including:

- Publishers and distributors of traditional media, including print, radio and television as well as radio and television programs and news programs focused on financial news and information;
 - Internet portals providing information on business, finance and investing;
 - Financial information web pages offered by websites;
- Stock research software vendors, especially those that develop and market stock research software through stock brokerage companies;
 - Stock brokerage companies, especially stock brokerage companies with online trading capabilities; and
 - Other companies that provide similar products and services as ours.

Our ability to compete depends on many factors, including the comprehensiveness, timeliness and trustworthiness of our content, market acceptance of our services, pricing and sophistication of our products, ease of use of our information platform, the effectiveness of our sales and marketing efforts and our ability to continue to innovate and develop new products.

In addition, lack of substantial barriers to entry has historically enabled certain unqualified companies and low-quality products to compete with us in the market. Certain unlicensed participants supplied counterfeit, illegal or low-quality and inferior products or services under our name. Such unlawful acts not only distorted market order, but also negatively impacted our reputation and materially and adversely affect our future developments. In addition, the resultant increase in expenses is becoming apparent across the industry.

Intellectual property

Our intellectual property is an essential element of our business operations. We rely on copyright, trademark, trade secret and other intellectual property law, as well as non-competition, confidentiality and license agreements with our employees, suppliers, business partners and others to protect our intellectual property rights. Our employees are generally required to sign agreements to acknowledge that all inventions, trade secrets, works of authorship, developments and other processes generated by them on our behalf are our property, and to assign to us any ownership rights that they may claim in those works. Despite our precautions, it may be possible for third parties to obtain and use intellectual property that we own or license without consent.

Our PRC subsidiaries and PRC-incorporated affiliates are the registered owners of 175 software copyrights as of December 31, 2014, each of which has been registered with the National Copyright Administration of the PRC.

We have registered two key domain names relating to our websites, www.jrj.com and www.stockstar.com, with the Internet Corporation for Assigned Names and Numbers, or ICANN, an internationally organized, non-profit corporation. We have also registered one domain name relating to our website, www.jrj.com.cn, with the China Internet Network Information Center, a domain name registration service in the PRC. We currently have 40 trademarks registered with the Trademark Office of State Administration of Industry and Commerce (the “SAIC”) and one trademark registered and four in the process of registering in Hong Kong as of December 31, 2014.

Regulation

We operate our business primarily in the PRC under a legal regime consisting of the State Council, which is the highest authority of the executive branch of the PRC central government, and several ministries and agencies under its leadership, including:

- MIIT (Ministry of Industry and Information Technology);
 - PBC (The People's Bank of China);
 - CSRC (China Securities Regulatory Commission);
 - CBRC (China Banking Regulatory Commission);
 - Ministry of Culture;
- General Administration of Press and Publication (National Copyright Administration);
- National Development and Reform Commission (NDRC);
- SAIC (State Administration of Industry and Commerce);
 - Ministry of Public Security;
 - Ministry of Commerce; and
- State Administration of Radio Film and Television

The State Council and these ministries and agencies have issued a series of rules that regulate a number of different substantive areas of our business. And our businesses in the Hong Kong are subject to regulations by HKEx, Hong Kong Securities and Futures Commission, or SFC, and Hong Kong Police Force, which are discussed below.

Regulation of securities investment advisory

Securities investment advisory is intensely regulated in China, which mainly include the Securities Law (2005), the Tentative Measures for Administration of Securities and Futures Investment Consultancy (1997), the Notice on Several Issues related to Regulation of Securities Investment Advisory provided to the Public (2001) and the Provisional Regulations. Those laws and regulations impose licensing requirements on the provision of securities investment advisory to the public in China.

The CSRC has adopted a series of rules regulating the methods of providing securities investment advisory to the public, including without limitation Tentative Provisions for Issuance of Securities-related Research Reports (2010), Tentative Provisions for Securities Investment Consultancy Business with Membership System (2005), Rules on Strengthening the Broadcast Management of Information related to Securities and Futures (1997). Those rules established the requirements on companies engaged in securities investment advisory business to set up branches in China, required securities investor advisors to disclose any conflict of interest and set up firewall measures internally, and prohibited securities investor advisor from disseminating the information related to securities investment on TV channels or radio programs without the approval by the CSRC and the State Administration of Radio Film and Television.

The Provisional Regulations promulgated by the CSRC in October 2010 and effective as of January 1, 2011 require that securities investment advisory providers obtain a license.

The CSRC issued the Interim Provisions on Strengthening the Supervision and Control of Engagement in Securities Investment Advisory Business by Utilizing “Securities Analysis Software” (“Circular 40”). Pursuant to Circular 40, the sale or provision of “Securities Analysis Software” to the investors to directly or indirectly obtain economic benefits shall be deemed as engagement in securities investment advisory business, and any institution or individual engaging in such business shall be licensed by the CSRC and obtain the securities investment advisory qualifications.

We have obtained such license in accordance therewith to provide securities investment advisory services which assist in clients’ investment decision-making process to its individual and corporate clients. CFO Newrand Training owns an investment education license issued by the Shenzhen Bureau of Education.

Regulation of securities brokerage, futures contracts brokerage, securities investment advisory and money lending businesses in Hong Kong

iSTAR Securities, regulated by HKEx and SFC, holds a type 1 license, which allows it to engage in securities trading and brokerage business in Hong Kong. iSTAR Futures, regulated by the SFC, holds a type 2 license, which allows it to engage in futures contract trading business. iSTAR Wealth Management, regulated by the SFC, holds type 4, type 5 and type 9 licenses, which allows it to engage in advising on securities, advising on future contracts and asset management in Hong Kong. iSTAR Credit, holds a Money Lenders License, is regulated by Hong Kong Police Force.

Regulation of precious metal trading business

While the regulations on precious metals trading business were generally not specific in the past, China has recently tightened regulations on commodities transactions in the spot market. In November 2013, the Ministry of Commerce (“MOC”), the People’s Bank of China (“PBC”) and the CSRC jointly issued Interim Provisions on Commodities Transactions in the Spot Market, effective January 1, 2014 (“Circular 3”). According to Circular 3, MOC will be in charge of all matters related to the planning, information and statistics consolidation of the markets and PBC will be responsible for the financial regulations related to the spot market transactions as well as the supervision of non-financial institutions’ payment services. In addition, each of our affiliates engaged in precious metal trading business are subjected to the regulations of Haixi, TJPME and other exchanges that we may enter in the future, each of which is in charge of the local implementation of Circular 3.

Regulation of Yinglibao

Yinglibao provides an electronic platform of mutual fund sales. The Administrative Measures for the Sale of Securities Investment Funds promulgated by the CSRC on June 9, 2011 are the principal regulation for the sale of mutual fund.

In addition, given the cash saving, transferring and management functions of Yinglibao, Yinglibao may be subject to futures additional Chinese laws and regulations related to banking and securities businesses. In the event Yinglibao became restricted or even prohibited by Chinese laws, our customers’ financial activities may be affected and there may be a material adverse impact on our new business ventures to provide users with alternative investment opportunities.

Regulation of wealth management business

Wealth management for private investors is still in early development stage in China. China has not adopted a unified and specific regulatory framework governing the distribution of wealth management products and the provision of wealth management consulting services. Nevertheless, there are ad hoc laws and regulations related to several types of wealth management products as the following:

PRC Trust Law (2001) and the Administrative Rules Regarding Trust Company-Sponsored Collective Fund Trust Plans (2007 and amended in 2009) are principal laws and regulations for trust products;

PRC Partnership Enterprise Law (2006), the Notice on Further Standardizing the Development and Record-filing Administration of Equity Investment Enterprises in Pilot Regions (2011) promulgated by the NDRC and a series of local regulations promulgated by provinces and certain cities, including Beijing, Shanghai and Tianjin, to encourage and regulate the development of private equity investment in the applicable region;

Administrative Measures for the Sale of Securities Investment Funds promulgated by the CSRC on June 9, 2011 are the principal regulation for the sale of mutual fund.

Regulation of account management business

A draft Account Management Operational Rules (the “Draft Rules”) was released by Securities Association of China (the “Association”) on March 16, 2015 for public comments. Pursuant to the Draft Rules, account management refers to provision of value analysis or investment decision for clients in respect of investing in or trading of securities, funds, futures and other relevant financial products, and carrying out investment or trading management on behalf of clients. Securities houses and securities investment consulting firms are allowed to provide account management services upon satisfying the following conditions:

- Obtained the securities investment consulting services license, and with a registered capital of not less than RMB 50 million;
- There are at least 10 employees with securities investment consulting services license and more than 2 years’ relevant experience in securities, funds or futures, and qualified senior management;
- Proper operational management, internal control and investment protection systems commensurate with its businesses;
 - Proper operational premises and facilities and technology system commensurate with its businesses;
- There has been no criminal or administrative penalty relating to violation of law or regulations in the past 3 years, nor is there ongoing investigation or correction involving potential violation of law or regulations; and
 - Other conditions pursuant to relevant laws or regulations and rules by the Association.

Employees involving in the account management services are required to hold the securities investment consulting services license, registered with the Association as investment consultant, have relevant experience in securities investment, research, investment consulting or similar businesses, have sound credit and ethical record, and have not been subject to criminal or administrative penalty in the past 3 years.

Notwithstanding that we have not been engaged in account management business, in the event the Draft Rules becomes effective in the future and we intend to be engaged by clients to provide investment or trading management services, the Draft Rules is expected have a positive impact on our business.

Foreign ownership restriction on Internet content provision businesses

According to the Provisions on Administration of Foreign Invested Telecommunications Enterprises, or the FITE Provisions, promulgated by the State Council in December 2001 and amended in September 2008, foreign ownership in the companies that provide Internet content services, including our business of providing financial information and data to Internet users, must not exceed 50%. In order to comply with this foreign ownership restriction, we operate our website in China through CFO Fuhua, which is wholly owned by Zhiwei Zhao, our chief executive officer, and Jun Wang, our chief financial officer, both of whom are PRC citizens. Under FITE Provisions and other related regulations, we cannot directly hold the licenses and approvals necessary to operate our website because those licenses and approvals cannot be held by foreign entities or majority foreign-owned entities. We, as a company incorporated in Hong Kong, are a foreign entity for this purpose.

There are, however, substantial uncertainties regarding the interpretation and application of current or future PRC laws and regulations. Accordingly, we cannot assure investors that the PRC regulatory authorities will not ultimately take a view that is contrary to the opinion of Jincheng Tongda & Neal Law Firm, our PRC legal counsel. If the PRC government finds that the agreements that establish the structure of our operations in China do not comply with PRC government restrictions on foreign investment in our industry, we could be subject to severe penalties.

Internet-related licenses and permits

There are a number of aspects of our business which require us to obtain licenses from a variety of PRC and Hong Kong regulatory authorities.

In September 2000, the State Council promulgated the Telecommunications Regulations, or the Telecom Regulations. The Telecom Regulations categorize all telecommunications businesses in the PRC as either basic or value-added. Internet content services, or ICP services, are classified as value-added telecommunications businesses. Under the Telecom Regulations, commercial operators of value-added telecommunications services must first obtain an operating license from the MIIT or its provincial level counterparts. In September 2000, the State Council issued the Administrative Measures on Internet Information Services, or the Internet Measures, according to which, commercial ICP service operators must obtain an ICP license from the relevant government authorities before engaging in any commercial ICP operations within the PRC.

In order to host our website, CFO Fuhua and CFO Meining are required to hold an ICP license issued by MIIT or its local offices. Pursuant to the revised Administrative Measures for Telecommunications Business Operating License promulgated by MIIT in March 2009, ICP operators providing value-added services in multiple provinces are required to obtain an inter-regional license (or National License) and ICP operators providing the same services in one province are required to obtain a local license (or Local License). CFO Fuhua currently holds a Local License and an ICP license both issued by the local branch of MIIT in Beijing, and CFO Meining currently holds a National License issued by MIIT and an ICP license issued by the local branch of MIIT in Shanghai.

A regulation issued by MIIT, the Notice on Certain Issues Regarding the Regulation of Short Messaging Services on April 29, 2004, requires short message, or SMS, content providers to obtain an SMS license from MIIT or its local offices. We have obtained the required SMS license by CFO Fuhua and CFO Meining for the delivery of our financial short message content.

Furthermore, MIIT has promulgated the Internet Electronic Messaging Service Administrative Measures in November 2000, or the BBS Measures, requiring ICP license holders that provide online bulletin board services to register with, or obtain an approval from, the relevant telecommunications authorities. CFO Fuhua and CFO Meining have obtained such approval from Beijing Communications Administration and Shanghai Communications Administration, respectively, the government agency in charge of this matter.

On July 6, 2004, the State Administration of Radio Film and Television promulgated the Rules for the Administration of Broadcasting of Audio/Video Programs through the Internet and Other Information Networks, or the A/V Broadcasting Rules. The A/V Broadcasting Rules apply to the opening, broadcasting, integration, transmission or download of audio/video programs via the Internet and other information networks. Anyone who wishes to engage in Internet broadcasting activities must first obtain an audio/video program transmission license, with a term of two years, issued by the State Administration of Radio Film and Television and operate pursuant to the scope as provided in such license. Foreign invested enterprises are not allowed to engage in this business nor obtain such license. On December 20, 2007, the State Administration of Radio Film and Television and the MIIT jointly issued the Rules for the Administration of Internet Audio and Video Program Services, commonly known as Document 56, which came into effect as of January 31, 2008. Document 56 reiterates the requirement set forth in the A/V Broadcasting Rules that online audio/video service provider must obtain a license from the State Administration of Radio Film and Television. Furthermore, Document 56 requires all online audio/video service providers to be either wholly state-owned or state-controlled. According to relevant official answers to press questions published on the State Administration of Radio Film and Television's website dated February 3, 2008, officials from the State Administration of Radio Film and Television and the MIIT clarified that online audio/video service providers that already had been operating lawfully prior to the issuance of Document 56 may re-register and continue to operate without becoming state-owned or controlled, provided that such providers have not engaged in any unlawful activities. This exemption will not be granted to online audio/video service providers established after Document 56 was issued. CFO Fuhua holds a Radio and TV Program Production and Business Operation License which allows it to produce and publish cartoons, entertainment programs and special topic programs and an Information Network Communicated Audio-Video Program License which allows it to broadcast securities and futures information related audio-video programs through website.

Regulation of Internet content

The PRC government has promulgated measures relating to Internet content through a number of ministries and agencies, including MIIT, the Ministry of Culture and the General Administration of Press and Publication. These measures specifically prohibit Internet activities, which include provision of financial information through the Internet, that result in the publication of any content which is found to, among other things, propagate obscenity, gambling or violence, instigate crimes, undermine public morality or the cultural traditions of the PRC, or compromise State security or secrets. If an ICP license holder violates these measures, the PRC government may revoke its ICP license and shut down its websites.

CFO Fuhua's and CFO Meining's ICP licenses expressly state that, in relation to their Internet content provision, among other things, they are not allowed to publish general news on politics, society or culture, or establish a "news column", or provide such information under the express heading of "news". On September 25, 2005, State Council Information Office and MIIT jointly promulgated the Provisions for the Administration of Internet News Information Services, in which the authorities provided an applicable definition of Internet news information services and defined such news information as general news information. It further required that ICPs that provide Internet news information services within such definition must apply for a license. In practice, such license is compulsorily required when political, military or diplomatic news is involved. Our current business, specifically the provision of financial or securities related information through the Internet, will not be affected without procuring such license.

Regulation of Information security

The National People's Congress has enacted legislation that prohibits use of the Internet that breaches the public security, disseminates socially destabilizing content or leaks state secrets. Breach of public security includes breach of national security and infringement on legal rights and interests of the state, society or citizens. Socially destabilizing content includes any content that incites defiance or violations of PRC laws or regulations or subversion of the PRC government or its political system, spreads socially disruptive rumors or involves cult activities, superstition, obscenities, pornography, gambling or violence. State secrets are defined broadly to include information concerning PRC national defense, state affairs and other matters as determined by the PRC authorities.

According to other relevant regulations, ICP operators must complete mandatory security filing procedures and regularly update information security and censorship systems for their websites with local public security authorities, and must also report any public dissemination of prohibited content.

In addition, the State Secrecy Bureau has issued provisions authorizing the blocking of access to any website it deems to be leaking state secrets or failing to comply with the relevant legislation regarding the protection of state secrets during online information distribution. Specifically, Internet companies in China with bulletin boards, chat rooms or similar services must apply for specific approval prior to operating such services.

On November 23, 2005, the Ministry of Public Security promulgated Provisions on Technological Measures for Internet Security Protection, or Internet Protection Measures. The Internet Protection Measures require all ICP operators to keep records of certain information about its users (including user registration information, log-in and log-out time, IP address, content and time of posts by users) for at least 60 days and submit the above information as required by laws and regulations. Both CFO Fuhua and CFO Meining have already taken measures to comply with these laws and regulations.

Regulation of Online Securities Information

Securities Association of China released the Online Securities Information System Technical Guidance for Securities Houses (the "Guidance"), effective from March 13, 2015. According to Section 54 of the Guidance, securities houses are not allowed to provide port access to third party service providers in respect of online securities services and trading related services. Securities trading instructions are required to be processed exclusively and internally within the securities houses' owned systems. We provide Securities Link services which currently connect to securities houses' trading port access through customer-end software, which services include online securities services and trading services. Upon the Guidance becomes effective, we may need to adjust the current technical arrangement. Having worked with the relevant securities houses, we are prepared to operate within the requirement of the Guidance by changing our trading port access technology.

Regulation of Intellectual property rights

The State Council and the National Copyright Administration have promulgated various regulations and rules relating to protection of software in China. Under these regulations and rules, software owners, licensees and transferees should register their rights in software with the National Copyright Administration or its local offices and obtain software copyright registration certificates. The National People's Congress amended the Copyright Law in 2001 and 2010 to widen the scope of works and rights that are eligible for copyright protection. The amended Copyright Law extends copyright protection to products disseminated over the Internet and computer software. We have registered all of our self-developed software with the National Copyright Administration.

PRC law requires owners of Internet domain names to register their domain names with qualified domain name registration agencies approved by MIIT and obtain a registration certificate from such registration agencies. A registered domain name owner has an exclusive use right over its domain name.

Unregistered domain names may not receive proper legal protections and may be misappropriated by unauthorized third parties. We have registered our domain names, www.jrj.com and www.stockstar.com, with the ICANN and obtained a certificate for this domain name. ICANN is an internationally organized, non-profit corporation that is responsible for Internet Protocol (IP) address space allocation, protocol identifier assignment, generic (gTLD) and country code (ccTLD) Top-Level Domain name system management, and root server system management functions.

Regulation of website name

On October 1, 2004, the Administrative Rules on Filing of Commercial Websites for Records were promulgated by the Beijing Municipal Administration of Industry and Commerce, or Beijing AIC to replace the Implementing Measures of the Temporary Administration Rules on Filing of Commercial Website for Record promulgated by the Beijing AIC on September 1, 2000. According to The Administrative Rules on the Filing of Commercial websites, websites must comply with the following requirements:

- filing with the Beijing AIC and obtain electronic registration marks;
- placing the registration marks on their websites' homepages; and
- registering their website names with the Beijing AIC.

CFO Fuhua and CFO Meining have registered website names, "JRJ Investment and Finance Network" and "Stockstar" with, and received electronic registration marks from Beijing AIC.

Regulation of privacy protection

PRC law does not prohibit ICPs from collecting and analyzing personal information from their users. The Standing Committee of the National People's Congress issued the Decisions on Strengthening the Protection of Internet Information, effective on December 28, 2012 ("Information Protection Decisions"), pursuant to which, ICPs may collect users' personal information with the principals of legality, legitimacy and necessity and shall be consented by the users. We require our users to accept a user agreement whereby they agree to provide certain personal information to us. The Information Protection Decisions prohibit ICPs from disclosing to any third parties any information transmitted by users through their networks unless otherwise permitted by law. If an ICP violates these regulations, MIIT or its local offices may impose penalties (including fines, confiscation of revenues, revocation of permits, shut down of websites and criminal penalties, as appropriate) and the ICP may be liable for damages caused to its users.

Regulation of online advertising

The PRC government regulates advertising, including online advertising, principally through the State Administration for Industry and Commerce, although there are no national PRC laws or regulations specifically regulating online advertising business. Under the Rules for Administration of Foreign-Invested Advertising Enterprise, promulgated by the State Administration for Industry and Commerce and the Ministry of Commerce in March 2004 and amended in October 2008, foreign investors are permitted to own equity interests in PRC advertising companies. However, foreign investors of wholly foreign-owned and joint venture advertising companies are required to have at least three years and two years, respectively, of direct operations in the advertising industry outside of China. Since we have not been involved in advertising outside of China for the required number of years, we cannot hold equity interests in PRC companies engaged in advertising business directly.

On November 30, 2004, the SAIC issued the Administrative Regulations for Advertising Operation Licenses, or the Advertising Regulations, taking effect as of January 1, 2005. Pursuant to the Advertising Regulations and other related rulings, enterprises conducting online advertising activities are exempted from the previous requirement to obtain an advertising permit in addition to a business license. We proceed with our online advertising business through CFO Fuhua and CFO Meining, both of which have procured business licenses that include online advertising in their business scope.

Advertisers, advertising operators and advertising distributors are required by PRC advertising laws and regulations to ensure that the contents of the advertisements they prepare or distribute are true and in full compliance with applicable laws and regulations. In addition, where a special government review is required for certain categories of advertisements before publishing, the advertisers, advertising operators and advertising distributors are obligated to confirm that such review has been performed and that relevant approval has been obtained. Violation of these regulations may result in penalties, including fines, confiscation of advertising income, orders to cease dissemination of the advertisements and orders to publish an advertisement correcting the misleading information. In the case of serious violations, the State Administration for Industry and Commerce or its local branches may force the violator to terminate its advertising operation or even revoke its business license. Furthermore, advertisers, advertising operators or advertising distributors may be subject to civil liability if they infringe on the legal rights and interests of third parties.

C. Organizational structure.

The following table sets forth the details of our principal subsidiaries and significant PRC-incorporated affiliates as of December 31, 2014:

Name	Jurisdiction of Incorporation	Legal Ownership Interest
Fortune Software (Beijing) Co., Ltd.	PRC	100%

* Denotes variable interest entities or subsidiaries of variable interest entities

PRC regulations currently limit foreign ownership of companies that provide ICP services, which include our business of providing financial information and data to Internet users, not to exceed 50%. We are a Hong Kong company and we conduct our operations solely in China through our wholly owned subsidiaries. We are a foreign enterprise and the wholly owned subsidiaries are all foreign invested enterprises under PRC law and, accordingly, neither we nor our wholly owned subsidiaries are eligible for a license to operate ICP services or provide online advertising services in China. In order to comply with foreign ownership restrictions, we operate our online business in China through CFO Fuhua. We have entered into a series of contractual arrangements with CFO Fuhua and its shareholders, including contracts relating to the leasing of equipment, the licensing of our domain name, the provision of technical support services and strategic consulting and certain shareholder rights and corporate government matters in 2004. CFO Fuhua is a PRC domestic company controlled by Zhiwei Zhao, our chairman and chief executive officer and Jun Wang, our chief financial officer.

In addition, to provide the Company with effective control over and the ability to receive substantially all of the economic benefits of its VIEs, the Company's wholly owned subsidiaries including CFO Beijing, CFO Software, CFO Zhengyong and Zhengtong Information & Technology (Shanghai) Co., Ltd. ("CFO Zhengtong") (collectively, the "WFOEs" and each a "WFOE") have entered into a series of contractual arrangements with the VIEs, which include CFO Fuhua, CFO Chongzhi, CFO Qicheng, CFO Newrand, Shanghai Stockstar Wealth Management Co., Ltd. ("Stockstar Wealth Management") and Shanghai Stockstar Securities Advisory and Investment Co., Ltd. ("CFO Securities Consulting"). Specifically, these contractual arrangements enable us to:

- have the power to direct the activities that most significantly affect the economic performance of the VIEs and their subsidiaries;
- receive substantially all of the economic benefits from the VIEs and their subsidiaries in consideration for the services provided by our WFOEs; and
- have an exclusive option to purchase from each of the shareholders of the VIEs all or part of the VIEs' equity interest, when and to the extent permitted by PRC law, or request any existing shareholder of VIEs to transfer all or part of the equity interest in the VIEs to another PRC person or entity designated by us at any time in our discretion.

These contractual arrangements are summarized in the following paragraphs.

Exclusive Technology Consulting and Management Service Agreement. Pursuant to a series of technology support and service agreements, the WFOEs retain the exclusive right to provide the VIEs and their subsidiaries technology support and consulting services and exclusive management consulting service. As a result of these services, the WFOEs are entitled to charge the VIEs and their subsidiaries annual service fees. The principal services agreements that the WFOEs have entered into with the VIEs include:

- strategic consulting services agreement, pursuant to which the amount of fees to be charged is 30% of each VIE's income before tax;
- technical support services agreement, pursuant to which the amount of fees to be charged is 30% of each VIE's income before tax; and
- operating support services agreement, pursuant to which the amount of fees to be charged is 40% of each VIE's income before tax.

Power of Attorney. Pursuant to the power of attorney, each of the shareholders of the VIEs has executed an irrevocable power of attorney assigning the WFOEs or individuals designated by the WFOEs as their attorney-in-fact to vote on their behalf on all matters of the VIEs requiring shareholder approval under PRC laws and regulations and

the articles of association of VIEs. The articles of incorporation of the VIEs state that the major rights of the shareholders include the right to appoint directors, the general manager and other senior management members.

Loan Agreement. We entered into a loan agreement with Zhiwei Zhao effective November 20, 2006 to extend to Mr. Zhao a loan in the amount of \$163,000 for the sole purpose of financing his acquisition of the equity interests of CFO Fuhua from one of its two former shareholders (the “Zhao Loan”). The initial term of the foregoing loan is 10 years which may be extended upon the parties’ agreement. Zhiwei Zhao can only repay the loan by transferring all of his interest in CFO Fuhua to us or a third party designated by us. If and when Zhiwei Zhao transfers his interest in CFO Fuhua to us or our designee, if the actual transfer price is higher than the principal amount of the loan, the amount exceeding the principal amount of the loan will be deemed as interest accrued on such loan and repaid by Zhiwei Zhao to us. While Hong Kong law limits maximum interest payment payable to 60% of the outstanding principal amount per annum, this limitation would be relevant only if, the actual value of CFO Fuhua has increased at an average annual rate greater than 60% at the time Zhiwei Zhao transfers to us his interest in CFO Fuhua.

CFO Fuhua’s assets currently consist primarily of registered capital and licenses to provide Internet content and advertising related services, and its operations are primarily limited to operating our free website and providing advertising related services on behalf of CFO Beijing. Accordingly, we do not believe this limitation will have a material effect on our business and operations, or will result in a material amount being paid to the shareholders of CFO Fuhua if and when they are permitted to transfer their interest in CFO Fuhua to us.

We entered into a loan agreement with Jun Wang in October 2007 to extend to Mr. Wang a loan in the amount of \$199,000 for the sole purpose of financing his acquisition of the equity interests of CFO Fuhua from its other former shareholder (together with the Zhao Loan, the “VIE Loans”). Such loan is subject to the same terms and conditions as the loan agreement we entered into with Zhiwei Zhao as discussed above.

Purchase Option Agreement. A purchase option agreement was entered into by us, CFO Beijing, CFO Fuhua and the two former shareholders of CFO Fuhua on May 27, 2004. After the two former shareholders of CFO Fuhua completed the transfer of all of their equity interests in CFO Fuhua to Zhiwei Zhao and Jun Wang in 2006 and 2007, respectively, each of Zhiwei Zhao and Jun Wang executed a new purchase option agreement with us, CFO Beijing and CFO Fuhua, replacing the previous purchase option agreement. Pursuant to the current purchase option agreement, each of Zhiwei Zhao and Jun Wang is obligated to sell to us, and we have an exclusive option to or designate another party to purchase from each of them, all or any portion of their equity interest in CFO Fuhua when and to the extent that applicable PRC law permits us to own part or all of the equity interest in CFO Fuhua. In addition, we have an exclusive option to require CFO Fuhua to transfer all of its assets to us or our designee if and when Zhiwei Zhao and/or Jun Wang ceases to be a director or employee of CFO Fuhua, or either Zhiwei Zhao or Jun Wang desires to transfer his equity interest in CFO Fuhua to a party other than the existing shareholders of CFO Fuhua, to the extent permitted by PRC law.

The exercise price of the option will equal (i) the total principal amount under the VIE Loans, or (ii) the price required by relevant PRC law or government approval authority if such required price is higher than the total principal amount under the VIE Loans. We may choose to pay the purchase price by canceling our loans to Zhiwei Zhao and Jun Wang.

Following any exercise of the option, the parties will enter into a definitive share or asset purchase agreement and other related transfer documents within 30 days after written notice of exercise is delivered by us. Pursuant to the purchase option agreement, at all times before we or any party designated by us acquire 100% of CFO Fuhua’s equity interest or assets, CFO Fuhua may not (1) sell, transfer, assign, dispose of in any manner or create any encumbrance in any form on any of its assets unless such sale, transfer, assignment, disposal or encumbrance is related to the daily operation of CFO Fuhua or has been disclosed to and consented to in writing by us; (2) enter into any transaction which may have a material effect on CFO Fuhua’s assets, liabilities, operations, equity or other legal interest unless such transaction relates to the daily operation of CFO Fuhua or has been disclosed to and consented to in writing by us; or (3) distribute any dividends to its shareholders in any manner. In addition, Zhiwei Zhao and Jun Wang may not cause CFO Fuhua to amend its articles of association to the extent such amendment may have a material effect on CFO Fuhua’s assets, liabilities, operations, equity or other legal interest except for pro rata increases of registered

capital required by law.

56

Voting arrangement. Upon Zhiwei Zhao's receipt of Jun Ning's holdings in CFO Fuhua on November 20, 2006, and Jun Wang's receipt of Wu Chen's holdings in CFO Fuhua on October 18, 2007, each of Zhiwei Zhao and Jun Wang delivered to us an executed proxy substantially identical to the proxy executed by Jun Ning and Wu Chen, respectively, with respect to their voting rights as shareholders of CFO Fuhua. The foregoing proxy grants us the power to exercise the rights of the shareholders as shareholders of CFO Fuhua, including the right to appoint all of the directors and senior management of CFO Fuhua. In addition, we are entitled to all other voting rights provided to the shareholders of CFO Fuhua, as set forth in its articles of association, to vote on their behalf on all matters, such as matters related to the transfer of their respective equity interests in CFO Fuhua and the distribution of dividends or other proceeds from CFO Fuhua.

Share Pledge Agreement. The share pledge agreement is an agreement which collateralizes equity interests in our VIEs as security interest. Pursuant to a share pledge agreement, dated May 27, 2004, the two former shareholders of CFO Fuhua pledged all of their equity interest in CFO Fuhua to CFO Beijing to secure the payment and the performance of all other obligations of CFO Fuhua under the equipment leasing agreement, the technical support agreement and the amended and restated strategic consulting agreement between CFO Beijing and CFO Fuhua.

In November 2006 and October 2007, the two former shareholders of CFO Fuhua completed the transfer of all of their equity interests in CFO Fuhua to Zhiwei Zhao and Jun Wang, respectively. Under this agreement entered into by and among Zhiwei Zhao, Jun Wang and CFO Beijing, each of Zhiwei Zhao and Jun Wang have agreed not to transfer, assign, pledge or in any other manner dispose of his interest in CFO Fuhua or create any other encumbrance on his interest in CFO Fuhua which may have a material effect on CFO Beijing's interest without the written consent of CFO Beijing, except the transfer of their interest in CFO Fuhua to us or the third-party assignee designated by us according to the purchase option agreement.

We entered into contractual arrangements with our affiliates including significant affiliates such as Shenzhen Newrand Securities Advisory and Investment Co., Ltd. ("CFO Newrand"), Shanghai Chongzhi Co., Ltd. ("CFO Chongzhi"), Beijing Chuangying Advisory and Investment Co., Ltd. ("CFO Chuangying") and Fortune (Beijing) Qicheng Technology Co., Ltd. ("CFO Qicheng") and their shareholders similar to agreements we had entered into with CFO Fuhua and its shareholders. As a result of these contractual arrangements we obtained substantial control and became the primary beneficiary of our PRC-incorporated affiliates and, accordingly, we consolidate the results of operations of our PRC-incorporated affiliates in our financial statements. Samples of the complete set of form VIE agreement are listed as exhibits.

In the opinion of Jincheng Tongda & Neal Law Firm, our PRC legal counsel:

- the corporate structure of the Company and its subsidiaries and our PRC-incorporated affiliates are in compliance with existing PRC laws and regulations; and
- the contractual arrangements governing each of our VIE relationships are valid, binding and enforceable under, and do not violate PRC laws or regulations currently in effect.

There are, however, substantial uncertainties regarding the interpretation and application of current and future PRC laws and regulations. Accordingly, there can be no assurance that the PRC regulatory authorities will not in the future take a view that is contrary to the above opinion of our PRC legal counsel. We have been further advised by our PRC legal counsel that if the PRC government finds that the agreements that establish the structure for our operations in China do not comply with PRC regulatory restrictions on foreign investment in our industry, we could be subject to severe penalties. The imposition of any of these penalties could result in a material adverse effect on our ability to conduct our business.

Business Sectors Operated through our VIEs

The following table sets forth the details of our variable interest entities and their respective business sectors as of December 31, 2014:

Variable interest entities	Business sector
Beijing Fuhua Innovation Technology Development Co., Ltd.	Web Portal and advertising services
Shanghai Chongzhi Co., Ltd.	Subscription services and other related services
Fortune (Beijing) Qicheng Technology Co., Ltd.	Subscription services and other related services
Shenzhen Newrand Securities Advisory and Investment Co., Ltd.	Subscription services and other related services
Shanghai Stockstar Securities Advisory and Investment Co., Ltd.	Subscription services and other related services
Shanghai Stockstar Wealth Management Co., Ltd.	Precious metals trading services

D. Property, Plants and equipment.

Our principal executive offices as well as our subsidiaries and affiliates that locate in Beijing lease approximately 7,100 square meters. Our subsidiaries and affiliates that locate in Shanghai lease approximately 1,900 square meters. Our subsidiaries and affiliates that locate in Shenzhen lease approximately 2,300 square meters. Our subsidiaries and affiliates that locate in Chongqing lease approximately 2,300 square meters. Our subsidiaries that locate in Hong Kong lease approximately 720 square meters. We intend to seek additional office space as required for our operations as needed on commercially reasonable terms. We believe that we will be able to obtain adequate facilities, principally through the leasing of appropriate properties, to accommodate our future expansion plans.

ITEM 4A. UNRESOLVED STAFF COMMENTS

None.

ITEM 5. OPERATING AND FINANCIAL REVIEW AND PROSPECTS

The following discussion of our financial condition and results of operations is based upon and should be read in conjunction with our consolidated financial statements and their related notes included in this annual report on Form 20-F. This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including, without limitation, statements regarding our expectations, beliefs, intentions or future strategies that are signified by the words “expect”, “anticipate”, “intend”, “believe” or similar language. All forward-looking statements included in this annual report are based on information available to us on the date hereof, and we assume no obligation to update any such forward-looking statements. Actual results could differ materially from those projected in the forward-looking statements. In evaluating our business, you should carefully consider the information provided under the caption “Risk factors” in this annual report on Form 20-F. We caution you that our businesses and financial performance are subject to substantial risks and uncertainties.

A. Operating Results

We launched precious metals trading services in 2013, which was part of our transition to a new business model. Our precious metals trading affiliates' intended scopes of business include precious metals spot trading, silver product sales and financial investment advisory services. Currently, they are focused on online silver trading on Haixi and TJPME on behalf of their clients. We also offer subscription-based services based on a single integrated information platform that combines financial analysis tools, real-time and historical data, news, research reports and online forums.

Our service offerings are used by and targeted at a broad range of investors in China, including individual investors managing their own money, professional investors such as institutional investors managing large sums of money on behalf of their clients and high net worth individuals, other financial professionals such as investment bankers, stock analysts and financial reporters, and middle class individuals.

Our net revenues increased by 58.7% to \$83.7 million in 2014 from \$52.7 million in 2013. The net loss attributable to China Finance Online Co. Limited was \$7.2 million in 2014.

Our principal capital expenditures for 2012, 2013 and 2014 consisted of primarily purchases of servers, workstations, computers, computer software, and other items related to our network infrastructure for a total of approximately \$0.8 million, \$0.8 million and \$3.2 million, respectively.

Key factors affecting our operating results and financial condition

Some of the key factors affecting our operating results and financial condition include the following:

- global macroeconomic uncertainties, as well as the overall performance of China's economy;
- the strategic transition of our core business from providing premium subscription services to developing fee-based securities investment advisory services with wealth management services to be added over time;
- performance of China's securities markets, and user demand for market intelligence on China's securities markets;
- competition in the PRC financial data and information services industry, precious metal trading business and other financial services we may enter into;
- PRC governmental policies relating to the precious metal trading industry and security advisory consulting industry;
- possible non-cash goodwill, intangible assets and investment impairment may adversely affect our net income;

- contribution of alternative revenue resources such as revenues from online advertising;
- seasonality associated with the level of activity of our users and subscribers and the trading activities of China's securities markets;
- tax refund from the PRC tax authorities for value-added-taxes we are required to pay on the sale of subscriptions to our service packages;
- other tax incentives we receive from PRC tax authorities resulting from CFO Success, CFO Qicheng and Shenzhen Shangtong Software Co., Ltd. ("CFO Shenzhen Shangtong") being the "Software Enterprises"; Shanghai Meining Computer Software Co., Ltd. ("CFO Meining") and CFO Genius being the HNTE companies;
- our cost structure, including, in particular, our cost for commission paid, raw data, bandwidth costs and personnel-related expenses;
 - the desirability of our service packages relative to other products and offerings available in the market;
- our ability to benefit from the acquisition of CFO Stockstar, and the contractual arrangements with CFO Newrand, CFO Fuhua, CFO Chongzhi, CFO Chuangying, and CFO Securities Consulting and other VIEs; and
 - business restructure
 - PRC regulatory policies.

We derive revenues primarily from our newly launched precious metals trading services, annual subscription fees from subscribers to our financial data and information services. We are developing our capacity in the securities investment advisory and over time wealth management services. The level of public interests in investing in China's precious metals and securities market could significantly influence our business.

To a lesser extent, we also derive revenues through advertisement sales on our website, which contributed \$8.2 million in 2014, representing a 20.0% increase from the \$6.8 million contributed in 2013. Revenues from advertising accounted for 9.7% of our net revenues in 2014. We allocated most of our advertising inventories to promote our own product and services offerings, and hence online advertising was not considered a core service line of our business in 2014. Our gross revenues also include the benefit of a refund from the PRC tax authorities for VAT, which we are required to pay on the sale of subscriptions to our service packages. We receive these refunds from the PRC tax authorities as part of the PRC government's policy of encouraging software development in the PRC. There is generally a one-month lapse between the time we complete a sale and pay the VAT on that sale and the time we receive the refund. The VAT refund policy was reconfirmed pursuant to the Notice on VAT Policy for Software Products, effective from January 1, 2011, jointly promulgated by the Ministry of Finance and the State Administration of Taxation on October 13, 2011, or Caishui Circular 100. We recognized approximately \$0.6 million in revenue for VAT refunds in 2014. Although the Notice on VAT Policy for Software Products does not specify policy expiration date, in the event that the preferential tax treatment for them is discontinued, these entities will become subject to the standard tax rate at 17%, which materially increase our tax obligations.

Gross revenues

We launched precious metals trading services in 2013, which was part of our transition to a new business model. We generate commission income and trading revenues from our clients' precious metals trading. We also generate subscription fee revenues from the sales of the financial information and investment advisory services.

Net revenues

Our net revenues reflect a deduction from our gross revenues for business taxes and related surcharges incurred in connection with our China operations. The gross revenues of PRC entities from sales that are not subject to VAT are subject to a business tax at a rate ranging from 3% to 5%. We pay business tax in the PRC on revenues from mobile value-added services. We pay VAT or business tax on revenues from precious metals trading services, depending on the judgments of difference taxation authorities.

Before January 1, 2012, our advertising-related revenues in Shanghai were subject to business tax. Effective as of January 1, 2012, the PRC Ministry of Finance and the State Administration of Taxation launched a Business Tax to VAT Transformation Pilot Program (the "Pilot Program") for certain industries in Shanghai. On September 1, 2012, the PRC Ministry of Finance and the State Administration of Taxation extended the Pilot Program to certain industries in other eight regions, including Beijing and Shenzhen. With the adoption of Pilot Program, our advertising-related revenues and certain subscription revenues started to be subject to VAT tax. Our advertising-related revenues and certain subscription revenues are recognized after deducting VAT and other related surcharges.

We derive revenues from external customers for each of the following services during the years presented:

	Years ended December 31, 2014		
	PRC	Hong Kong	Total
Precious metals trading services revenues	\$60,091,117	\$-	\$60,091,117
Hong Kong brokerage services revenues	-	4,610,516	4,610,516
Subscription services and other related services revenues	18,994,252	-	18,994,252
Total revenues from external customers	\$79,085,369	\$4,610,516	\$83,695,885

	Years ended December 31, 2013		
	PRC	Hong Kong	Total
Precious metals trading services revenues	\$30,124,245	\$-	\$30,124,245
Hong Kong brokerage services revenues	-	3,404,767	3,404,767
Subscription services and other related services revenues	19,209,065	-	19,209,065
Total revenues from external customers	\$49,333,310	\$3,404,767	\$52,738,077

	Years ended December 31, 2012		
	PRC	Hong Kong	Total
Hong Kong brokerage services revenues	\$-	\$3,817,762	\$3,817,762
Subscription services and other related services revenues	25,781,724	-	25,781,724
Total revenues from external customers	\$25,781,724	\$3,817,762	\$29,599,486

Cost of revenues

A large portion of costs of revenues are commission paid to sales agents of our financial services business and website maintenance expenses, which consist of bandwidth costs, personnel-related expenses, rent and content expenses for our jrj.com and stockstar.com websites. Cost of revenues accounted for 20.0% and 24.3% of our net revenues in 2013 and 2014, respectively.

Commission paid. Commission paid is the commission rebates paid to the account executives of our Hong Kong brokerage business and the commissions paid to the sales agents of our precious metals trading business. Commission paid is the largest component of our cost of revenues, constituting 56.7% of our cost of revenues in 2014.

Rent. Rent attributable to cost of revenues reflects that portion of our rent expense that is directly used in the provision of our web content. We allocate rent to cost of revenues to the extent the space is occupied by our web content personnel.

Bandwidth Costs. Bandwidth fees are the fees we pay to Internet Data Center, or the IDC, for telecommunications services and for hosting our servers. We expect our bandwidth costs, as variable costs, to increase with the traffic on our websites. Our bandwidth costs could also increase if the IDC increase their service charges. Our bandwidth fees constituted 9.0% of our cost of revenues in 2014.

Cost of raw data. Our cost of raw data consists of fees we pay to the stock exchanges and our other data providers pursuant to our commercial agreements with those parties. These contracts are typically for a fixed rate, and regard to the level of use, for a term, typically less than three years, depending on the provider. Our cost of raw data is likely to be our most variable element of cost of revenues. Our cost of raw data is expected to increase:

- if we enter into additional commercial agreements for purchasing data from new sources or if we obtain different or additional data from existing sources; or
 - due to rate increases we may experience in the future upon renewal of our existing agreements.

Salary and compensation. Salary and compensation expenses include wages, bonuses and other benefits, including welfare benefits. Salary and compensation included in our cost of revenues relate to our web content personnel.

Operating expenses

Our operating expenses consist of general and administrative expenses, product development expenses, sales and marketing expenses and impairment loss of intangible assets and goodwill, if any. Share-based compensation expenses are reported within each of the operating expense financial statement line items, as appropriate.

General and administrative expenses. General and administrative expenses primarily consist of salary and compensation for our general management, finance and administrative personnel, share-based compensation expenses, rent, professional services fees and other expenses, including travel and other general business expenses, office supplies and depreciation for general office furniture and equipment.

Product development expenses. Our product development expenses primarily consist of salary and compensation expenses of personnel engaged in the research, development and implementation of our new service offerings, rent and depreciation of equipment attributable to our product development efforts.

Sales and marketing expenses. Our sales and marketing expenses primarily consist of salary and compensation for our sales and marketing personnel, as well as the marketing promotion fees.

Stock option plans and nonvested shares

We adopted the 2004 Stock Incentive Plan, or the 2004 Plan, in January 2004, and amended it in September 2004, August 2006, June 2009, and June 2010, respectively. As of January 2 2014, selected employees and executives have been granted restricted shares of an aggregate 1,100,240 ordinary shares with the certificates evidencing the shares shall only be issued to the participant if and when the applicable restrictions on the restricted shares lapse in accordance with the terms of the agreement and the 2004 Plan. The 2004 Plan has expired on January 3, 2014, which is the 10th anniversary of the effective date of the 2004 Plan.

We adopted the 2007 Stock Incentive Plan, or the 2007 Plan, in July 2007. On July 2, 2007, we granted restricted stock awards covering 10,558,493 of our ordinary shares under the 2007 Plan to our employees who are eligible for the 2007 Plan. The vesting of the restrictive stock is subject to us achieving certain financial performance targets stated in the 2007 Plan. In 2009, in light of the significant global economic downturn and its impact on our performance, our board amended the terms of these grants to extend the performance period and the vesting schedule for an additional three years ending on December 31, 2012. Based on the Company's operating performance during 2008 and 2009, 8,658,048 shares were vested as of December 31, 2010.

In June 2014, the Annual General Meeting approved the amendment to the 2007 Plan and the Restricted Stock Issuance and Allocation Agreement of 2007 Plan. Pursuant to such agreement, together with the remaining 1,900,445 ordinary shares which were not vested due to the operating performance targets under 2007 Plan not being achieved, 3,000,000 ordinary shares were collectively granted to the employees who were eligible. The fair value of a nonvested share on the grant date was measured at the quoted market price of the Company's equity shares. The nonvested shares shall become activated and vest during the period commencing from the grant date and ending on December 31, 2016 based on the Company's achievement of the performance targets. As of December 31, 2014, there was no nonvested shares become activated and vested due to the performance targets were not achieved, and nil share-based compensation expenses relating to the nonvested shares was recognized.

On November 1, 2010, iSTAR Financial Holdings granted restricted stock awards representing 15% of its ordinary shares pursuant to the 2010 Equity Incentive Plan of iSTAR Financial Holdings to awardees who are eligible to participate in the plan. In connection with such awards, we transferred 15% of the ordinary shares of iSTAR Financial Holdings to an entity representing the eligible awardees. In order to bind those awardees together to promote the common interests of the awardees, iSTAR Financial Holdings and the Company, the ordinary shares were transferred to, and are held by, Hopewin Asia Limited, which was incorporated in BVI, on behalf of and exclusively for the benefit of the whole group of awardees eligible to participate in the plan. We believe such incentive plan will attract, maintain and motivate our team, and we believe the plan is in our best interests and the best interests of our stockholders.

In July 2014, the Company adopted the 2014 stock incentive plan (the "2014 Plan") which allows the Company to offer a variety of incentive awards to employees, directors, officers and other eligible persons in the Group, and consultants and advisors outside the Group. The total number of ordinary shares authorized under the 2014 Plan was 5,000,000 as of December 31, 2014. As of December 31, 2014, 4,890,000 authorized ordinary shares were granted under 2014 Plan.

On July 1, 2014, Shanghai Shangtong Co., Ltd. ("CFO Shangtong") and Huifu Jinyuan Co., Ltd. ("CFO Huifu"), two affiliates of the Company, entered into a series of contractual arrangement with selected employees of the Group. Pursuant to the agreement, these employees were granted 10% restricted shares of CFO Shangtong and CFO Huifu. The vesting of the restricted shares is subject to rendering service to the Company for five years.

We believe such incentive plan will attract, maintain and motivate our team, and we believe the plan is in our best interests and the best interests of our stockholders.

Taxation

Hong Kong Profits Tax

We and our subsidiaries established in Hong Kong, including iSTAR Securities, iSTAR Futures, iSTAR Wealth Management, iSTAR Credit and other eight subsidiaries, are subject to the uniform tax rate of 16.5% in Hong Kong. In addition, companies who incorporated outside of Hong Kong and carried on a trade, profession or business in Hong Kong were also subject to Hong Kong profit tax in respect of their profits arising in or derived from Hong Kong. The profits derived from outside Hong Kong are exempted from Hong Kong profits tax, and there are no withholding taxes in Hong Kong on remittance of dividends. In 2012, 2013 and 2014, the income tax expenses charged in Hong Kong are \$293,003, nil and nil respectively.

PRC Enterprise Income Tax

As of December 31, 2014, our wholly owned subsidiaries and variable interest entities, CFO Qicheng and CFO Shenzhen Shangtong, are classified as “Software Enterprises”. CFO Shenzhen Shangtong and CFO Qicheng enjoy exemption from enterprise income tax for 2010 and 2011, and a preferential enterprise income tax rate of 12.5% from 2012 to 2014.

In 2008, the Ministry of Science and Technology, the Ministry of Finance and the State Administration of Taxation jointly issued the Administrative Measures on the Recognition of High and New Technology Enterprises, or the Recognition Rules, which stipulates that the provincial counterparts of the Ministry of Science and Technology, the Ministry of Finance and the State Administration of Taxation shall jointly determine an enterprise’s qualification as a high and new technology enterprise under the EIT Law by considering, among other factors, ownership of its core technology, the scope of its high and new technology, the ratios of technical personnel and research and development (R&D) personnel to total personnel, the ratio of R&D expenditures to annual sales revenues, the ratio of revenues attributed to high and new technology products or services to total revenues, and other measures set forth in relevant guidance. The HNTE qualification is valid for a term of three years and is subject to application for renewal thereafter.

In 2008, CFO Software, CFO Genius and CFO Meining were designated by relevant government authorities as “High and New Technology Enterprises”. CFO Software enjoyed a preferential tax rate of 7.5% from 2008 to 2010. CFO Genius and CFO Meining enjoyed a preferential enterprise income tax rate of 15% from 2008 to 2010. In 2011, each of CFO Software and CFO Meining renewed its status and is enjoying a preferential tax rate of 15% for an additional three years from 2011 to 2013. In addition, CFO Genius enjoys a reduced tax rate of 24% in 2011. In 2012, CFO Genius obtained the HNTE status and enjoyed a preferential tax rate of 15% from 2012 to 2014. In 2014, CFO Meining successfully renewed its HNTE qualification for another three years.

Withholding Tax

The EIT Law provides that a maximum income tax rate of 20% may be applicable to dividends payable to non-PRC investors that are “non-resident enterprises” to the extent such dividends are derived from sources within the PRC, and the State Council has reduced such rate to 10% through the implementation regulations unless any such non-PRC investor’s jurisdiction of incorporation has a tax treaty with China that provides for a different withholding arrangement. We are a Hong Kong incorporated company and substantially all of our income may be derived from dividends we receive from our operating subsidiaries located in the PRC. According to Mainland and Hong Kong Special Administrative Region Arrangement on Avoiding Double Taxation or Evasion of Taxation on Income agreed between the Mainland and Hong Kong Special Administrative Region in August 2006, dividends payable by a subsidiary located in the PRC to the company in Hong Kong who directly holds at least 25% of the equity interests in the subsidiary will be subject to a maximum 5% withholding tax under certain conditions. Since the preferential withholding tax is subject to the approval from competent taxation authorities in PRC, it remains uncertain whether

our company in Hong Kong actually would be able to enjoy preferential withholding taxes for dividends distributed by our subsidiaries in China. If we are not able to enjoy the preferential withholding taxes and the tax rate may be 10% for dividends distributed by our subsidiaries, it will materially and adversely affect the amount of dividends, if any, we may pay to our shareholders and ADS holders.

If our PRC subsidiaries declare and distribute profits earned after January 1, 2008 to us in the future, such dividend payments will be subject to withholding tax, which will increase our tax liabilities and reduce the amount of cash available to our company.

Tax Residence

Under the PRC Enterprise Income Tax Law and its Implementing Rules, an enterprise established outside of the PRC with “de facto management bodies” within the PRC is considered a resident enterprise and will be subject to the enterprise income tax at the rate of 25% on its worldwide income. The Implementing Rules define the term “de facto management bodies” as “establishments that carry out substantial and overall management and control over the manufacturing and business operations, personnel, accounting, properties, etc. of an enterprise”.

On April 22, 2009, the State Administration of Taxation, or the SAT, issued the Notice Regarding the Determination of Chinese-Controlled Offshore Incorporated Enterprises as PRC Tax Resident Enterprise on the Basis of De Facto Management Bodies, or SAT Circular 82, which provided certain specific criteria for determining whether the “de facto management body” of a Chinese-controlled offshore- incorporated enterprise is located in China. In addition, the SAT issued the Bulletin 45 on July 27, 2011 to provide more guidance on the implementation of the above circular with an effective date to be September 1, 2011. The Bulletin 45 made clarification in the areas of resident status determination, post-determination administration, as well as competent tax authorities. It also specifies that when provided with a copy of PRC tax resident determination certificate from a resident PRC -controlled offshore incorporated enterprise, the payer should not withhold 10% income tax when paying the PRC-sourced dividends, interest or royalties to the PRC-controlled offshore incorporated enterprise.

Although SAT Circular 82 and the Bulletin 45 only apply to offshore enterprises controlled by PRC enterprises, not those controlled by PRC individuals, the determining criteria set forth in SAT Circular 82 and the administration clarification made in Bulletin 45 may reflect the SAT’s general position on how the “de facto management body” test should be applied in determining the tax resident status of offshore enterprises, regardless of whether they are controlled by PRC enterprises or individuals. Accordingly, we may be considered a resident enterprise and may therefore be subject to the enterprise income tax at 25% on our worldwide income. If we are considered a resident enterprise and earn income other than dividends from our PRC subsidiary, a 25% enterprise income tax on our worldwide income could significantly increase our tax burden and materially and adversely affect our cash flow and profitability.

Transition from Business Tax to Value Added Tax

Effective January 1, 2012, the PRC Ministry of Finance and the State Administration of Taxation launched a Business Tax to VAT Transformation Pilot Program (the “Pilot Program”), for certain industries in Shanghai. On September 1, 2012, the PRC Ministry of Finance and the State Administration of Taxation extended the Pilot Program to certain industries in other eight regions, including Beijing.

With the adoption of Pilot Program, our advertising-related revenues and certain subscription revenues were subject to VAT tax at rates ranging from 3% to 6%. Our advertising- related revenues and certain subscription revenues were recognized after deducting VAT and other related surcharges.

The implementation of the Pilot Program has not had a significant impact on our consolidated statements of comprehensive income for the year ended December 31 2013.

Critical accounting policies and Estimates

We prepare our financial statements in conformity with U.S. GAAP, which requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities on the date of the financial statements and the reported amounts of revenues and expenses during the financial reporting period. We continually evaluate these estimates and assumptions based on the most recently available information, our own historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Since the use of estimates is an integral component of the financial reporting process, actual results could differ from those estimates. Some of our accounting policies require higher degrees of judgment than others in their application. We consider the policies discussed below to be critical to an understanding of our financial statements as their application places the most significant demands on our management's judgment.

Revenue recognition. We charge our subscribers a subscription fee for the right to use our service packages for, in general, a one-year period. For subscription services provided to individual investors, our subscription fee is paid in full prior to the delivery of our service packages. Therefore, we do not take any credit risk with respect to our individual subscribers. Upon receipt of payment in full, we activate our subscriber's account, marking the start of the subscription period, and promptly provide the subscriber with an account access code. We begin to recognize subscription fees as revenue upon activation of the subscriber's account and then ratably over the service period. Subscription fees that have been paid but not yet recognized are accounted for as deferred revenue on our balance sheets. Deferred revenue is reduced proportionately as revenue is recognized ratably over the service period. Estimated refund of subscription fees is recorded as deduction of revenue and deferred revenue. We estimate the refund of subscription fees based on historical experience.

We derive advertising fees from advertising sales on our website principally for fixed periods of time, which are generally less than one year. We recognize advertising fees ratably over the periods during which the advertisements are displayed on our website.

We also derive commission from brokerage services provided by iSTAR Securities and iSTAR Futures, which buy or sell securities and future contracts on their customers' behalf. The commission income is recognized on a trade date basis as transactions occur.

In 2013, we began to provide precious metals trading business. Through us, our customers could buy or sell the products provided by the exchanges. We derive commission from their trading volumes. The commission income is recognized on a trade basis. In addition, we acted as one of the market makers of the precious metal exchanges. We commit to accept all the trade executions by offering to buy or sell trading products from/to our clients. As a counterparty of our clients' dealing, we may earn trading gains or incur trading losses, depending on market conditions. Trading revenues, net, are recognized on a trade basis too, when trades are executed. Unrealized gains/losses on open positions are marked to market at period end. Trading revenues, net, which comprise both realized and unrealized gains and losses, are recognized on a net basis in the Statement of Comprehensive Income.

Income taxes. Deferred income taxes are recognized for temporary differences between the tax basis of assets and liabilities and their reported amounts in the financial statements, net operating loss carry forwards and credits by applying enacted statutory tax rates applicable to future years. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Current income taxes are provided for in accordance with the laws of the relevant taxing authorities.

Significant management judgment is required in determining our provision for income taxes, our deferred tax assets and liabilities and any valuation allowance recorded against our net deferred tax assets. The valuation allowance is based on our estimates of taxable income by jurisdiction in which we operate and the period over which our deferred tax assets will be recoverable. In the event that actual results differ from these estimates or we adjust these estimates in future periods, we may need to establish an additional valuation allowance, which could materially impact our financial position and results of operations.

Uncertainties exist with respect to how the EIT Law applies to our overall operations, and more specifically, with regard to our tax residency status. The EIT Law includes a provision specifying that legal entities organized outside of the PRC will be considered residents for PRC income tax purposes if their place of effective management or control is within the PRC. The implementation rules to the EIT Law provide that non-resident legal entities will be considered PRC residents if substantial and overall management and control over the manufacturing and business operations, personnel, accounting, properties, among others, occur within the PRC. Despite the present uncertainties resulting from the limited PRC tax guidance on the issue, we do not believe that our legal entities organized outside of the PRC should be treated as residents under EIT Law. If one or more of our legal entities organized outside of the PRC were characterized as PRC tax residents, the impact would adversely affect our results of operation. See “Item 3. Key Information—D. Risk Factors—Risks Relating to doing business in the People’s Republic of China—We may be deemed a PRC resident enterprise under the EIT Law and be subject to the PRC taxation on our worldwide income”.

The impact of an uncertain income tax position on the income tax return is recognized at the largest amount that is more-likely-than not to be sustained upon audit by the relevant tax authority. An uncertain income tax position will not be recognized if it has less than a 50% likelihood of being sustained. Interest and penalties on income taxes will be classified as a component of the provisions for income taxes.

Share-based compensation. Share-based compensation with employees is measured based on the grant date fair value of the equity instrument, we recognizes the compensation costs net of a forfeiture rate using straight-line method or graded vesting attribution method, over the requisite service period of the award, which is generally the vesting period of the award. The estimate of forfeitures will be adjusted over the requisite service period to the extent that actual forfeitures differ, or are expected to differ, from such estimates. Changes in estimated forfeitures will be recognized through a cumulative catch-up adjustment in the period of change.

The fair values of our option awards granted to employees were estimated on the date of grant using Black-Scholes option-pricing model that uses assumptions including the fair value of the ordinary shares underlying the options, expected volatility, risk-free interest rate, expected option life, expected dividend yield and exercise price. Risk-free interest rate was estimated based on the yield to maturity of treasury bonds of the United States with a maturity period close to the expected term of the options. The dividend yield was estimated by the company based on its expected dividend policy over the expected term of the options. Options are generally granted at an exercise price equal to the fair market value of the company’s shares at the date of grant.

The volatility of the underlying ordinary shares during the life of the options was estimated based on the historical stock price volatility of the company over the past years. The expected life was estimated based on historical information.

The fair value of our restricted shares granted to employees was equal to the fair market value of our shares at the date of grant.

The fair value of the stock options and restricted shares is remeasured as of the end of each reporting period until the services of these non-employees are complete under the service contracts.

For the nonvested shares granted with performance condition, share-based compensation expense is recognized based on the probable outcome of the performance condition. A performance condition is not taken into consideration in determining fair value of the nonvested shares granted. For the nonvested shares granted under the 2007 Plan, the company does not expect the performance target will be met.

Cost method investment. For investments in an investee over which we do not have significant influence, we carry the investment at cost and recognize income as any dividends declared from distribution of investee's earnings. We review the cost method investments for impairment whenever events or changes in circumstances indicate that the carrying value may no longer be recoverable. An impairment loss is recognized in earnings equal to the difference between the investment's cost and its fair value at the balance sheet date of the reporting period for which the assessment is made.

In 2012, the Group made a cost method investment. The carrying amount of the cost method investments was \$802,202 as of December 31, 2012. As result of an addition investment of \$309,698 in 2013, the carrying balance of such investment was \$1,138,899 as of December 31, 2013. In 2014, the Group made another cost method investment of \$81,064. The total carrying balance of such cost method investments were \$1,217,617 as of December 31, 2014. There was no impairment loss of the Group's cost method investment.

In 2014, the Company sold its equity interests in Ocean Butterflies Holdings Inc. to a third party, which was fully impaired as of December 31, 2011. Gains from the disposal of cost method investment recognized in the consolidated statement of comprehensive income for the year ended December 31, 2014 was \$4,337,736, of which \$2,168,868 was remained receivable as of December 31, 2014

Impairment of goodwill and indefinite-lived intangible assets. The excess of the purchase price over the fair value of net assets acquired is recorded on the consolidated balance sheet as goodwill.

We complete a two-step goodwill impairment test. The first step is to compare the fair values of each reporting unit to its carrying amount, including goodwill. If the fair value of each reporting unit exceeds its carrying amount, goodwill is not considered to be impaired and the second step will not be required. If the carrying amount of a reporting unit exceeds its fair value, the second step is to compare the implied fair value of goodwill to the carrying value of a reporting unit's goodwill. The implied fair value of goodwill is determined in a manner similar to accounting for a business combination with the allocation of the assessed fair value determined in the first step to the assets and liabilities of the reporting unit. The excess of the fair value of the reporting unit over the amounts assigned to the assets and liabilities is the implied fair value of goodwill. An impairment loss is recognized for any excess in the carrying value of goodwill over the implied fair value of goodwill. Based on the valuation performed by a third party appraiser as of June 1, 2014 due to the business restructure. We recorded \$8,149,525 goodwill impairment losses in relation to the reporting unit of subscription services and other related services for the years ended December 31, 2014 due to management's estimation of the expected future cash flows associated with these assets were insufficient to recover their carrying values.

The impairment test for other intangible assets not subject to amortization consists of a comparison of the fair value of the intangible asset with its carrying value. If the carrying value of the intangible asset exceeds its fair value, an impairment loss is recognized in an amount equal to that excess. The estimates of fair values of intangible assets not subject to amortization are determined using various discounted cash flow valuation methodologies.

In applying the income approach to the valuation of product sales unit, the discounted cash flow methodology was used. The following are critical assumptions in determining the fair value of the reporting unit related to investment advisory services in 2014:

- The revenue growth is projected at a compound annual growth rate, or CAGR. The CAGR of the reporting unit is approximately 5.1% for 2016 through 2019, which is within the range of comparable companies at the time of valuation.
- Operating expenses, including selling expenses, R&D expenses and general and administrative expenses, as a percentage of sales is expected to remain stable.
- To maintain normal operations, capital expenditures are estimated to be around 3% of revenue for each of the four reporting units, respectively.
 - The working capital requirement is estimated based on main accounts turnover days.
 - A perpetual growth rate after 2019 is assumed to be at 3% per year for each of the four reporting units.

The weighted average cost of capital, or WACC, used in the calculation is 18% for the reporting unit.

We performed a goodwill impairment test as of December 31, 2013, using the income approach. There was no impairment loss for our goodwill as of December 31, 2013. The WACC used in the valuation is 27%, 21% and 21% for our precious metals trading reporting unit, individual investment advisory reporting unit and institutional subscription reporting unit, respectively, and the terminal value growth rate used in the valuation is 3% for these three reporting units. Estimates of fair value result from a complex series of judgments about future events and uncertainties and rely heavily on estimates and assumptions at a point in time. The judgments made in determining an estimate of fair value can materially impact our results of operations. The valuations are based on information available as of the impairment review date and are based on expectations and assumptions that have been deemed reasonable by management. Any changes in key assumptions, including unanticipated events and circumstances, may affect the accuracy or validity of such estimates and could potentially result in an impairment charge.

Impairment of long-lived assets with definite lives. We review our long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may no longer be recoverable. When these events occur, we compare the carrying value of the long-lived assets to the estimated undiscounted future cash flows expected to result from the use of the assets and our eventual disposition. If the sum of the expected undiscounted cash flow is less than the carrying amount of the assets, we would recognize an impairment loss based on the fair value of the assets. Due to the business restructure, a third party appraiser performed the valuation as of June 1, 2014. We recorded \$1,802,125 impairment losses in relation to the long-lived assets with definite lives for the years ended December 31, 2014.

Results of operations

The following table sets forth certain information relating to our results of operations, and our consolidated statements of operations as a percentage of net revenues, for the periods indicated:

For the year ended December 31,

(in thousands of U.S. dollars, except as %
of net revenues)

	2012		2013		2014	
Consolidated statement of comprehensive income (loss) data:						
Gross revenues	\$30,239	102.2 %	\$53,336	101.1 %	\$85,122	101.7 %
Business tax	(640)	(2.2)	(598)	(1.1)	(1,426)	(1.7)

Year ended December 31, 2014 compared to year ended December 31, 2013

Revenues

Our gross revenues increased by 59.6% from \$53.3 million in 2013 to \$85.1 million in 2014. The increase was mainly due to the gross revenues of \$61.1 million provided by our precious metals trading services in 2014, compared with \$30.3 million in 2013.

Our business taxes and related surcharges attributable to our gross revenues increased from \$0.60 million in 2013 to \$1.4 million in 2014. After taking into account business taxes and related surcharges attributable to our gross revenues, our net revenues increased by 58.7% to \$83.7 million in 2014 from \$52.7 million in 2013.

This increase was mainly due to the net revenues provided by our precious metals trading services we launched in 2013. Our net revenues derived from our financial services, which include brokerage-related and precious metals trading services, increased to \$64.7 million in 2014 from \$33.5 million in 2013, representing 77.3% and 63.6% of our total net revenues for each year. Our advertising revenues increased to \$8.2 million in 2014 from \$6.8 million in 2013,

representing 9.7% and 12.9% of total net revenues for each year.

Our net revenues derived from our financial information and advisory business, which included subscription fees from individual customers and institutional customers, decreased by 6.9% from \$11.1 million to \$10.4 million in 2014. The decrease was mainly due to the Group's strategic business transition that the Group no longer accepted new paid subscribers or renewals for its premium individual subscription service, and the plunging stock market in China.

Cost of revenues

Our cost of revenues in 2014 increased by 92.6% to \$20.4 million from \$10.6 million in 2013, primarily due to the commission paid to our sales agents related to our precious metals trading business.

Gross profit

As a result of the foregoing, our gross profit increased by 50.2% to \$63.3 million in 2014 from \$42.2 million in 2013.

Operating expenses

Our operating expenses increased by 50.4% to \$82.5 million in 2014 from \$54.8 million in 2013, primarily due to the loss from impairment of intangible assets and goodwill resulting from business restructure. Operating expenses as a percentage of net revenues decrease to 98.5% in 2014 from 104.0% in 2013.

General and administrative. Our general and administrative expenses increased by 15.7% to \$17.6 million in 2014 from \$15.2 million in 2013. The increase in general and administrative expenses was primarily due to the increase in headcount related expenses and share-based compensation expenses. Our general and administrative expenses as a percentage of net revenues decreased to 21.0% in 2014 from 28.9% in 2013.

Product development. Our product development expenses increased by 23.4% to \$11.1 million in 2014 from \$9.0 million in 2013, mainly due to the increase in headcount related expenses. Our product development expenses decreased as a percentage of net revenues to 13.3% in 2014 from 17.1% in 2013.

Sales and marketing. Our sales and marketing expenses increased by 43.1% to \$43.8 million in 2014 from \$30.6 million in 2013. This was primarily due to the headcount related expenses and marketing, promotion expenses related to our precious metals trading services we launched in 2013. Our sales and marketing expenses as a percentage of net revenues decreased to 52.3% in 2014 from 58.0% in 2013.

Loss from impairment of intangible assets. Our loss from impairment of intangible assets was \$1.8 million in 2014.

Loss from impairment of goodwill. Our loss from impairment of goodwill was \$8.2 million in 2014.

Loss from operations

Our loss from operations was \$18.5 million compared to an operating loss of \$12.7 million in 2013, and our operating margin was negative 22.0% in 2014, compared that of negative 24.0% in 2013.

Interest income

Our interest income increased by 201.6% to \$4.0 million in 2014 from \$1.3 million in 2013, mainly due to the loan to Langfang Developer.

Interest expense

Our interest expense decreased by 93.9% to \$12,000 in 2014 from \$0.2 million in 2013.

Gain from sale of cost method investment

In 2014, we sold our equity interests in Ocean Butterflies Holdings Inc. to a third party, which was fully impaired as of December 31, 2011. Our gain from sales of cost method investments was \$4.3 million in 2014.

Short-term investment income

Our gain from short-term investments, which are classified as trading securities, held-to-maturity or available-for-sale decreased to \$58,000 in 2014 from \$0.1 million in 2013.

Income tax expense

Our income tax expense was \$0.5 million in 2014 compared to an income tax expense was \$0.1 million in 2013.

Net loss attributable to the Company

Our net loss attributable to the Company was \$7.2 million in 2014 compared to a net loss attributable to the Company of \$8.6 million in 2013, and our net income margin increased to negative 8.6% in 2014 from negative 16.3% in 2013.

Year ended December 31, 2013 compared to year ended December 31, 2012

Revenues

Our gross revenues increased by 76.4% from \$30.3 million in 2012 to \$53.3 million in 2013. The increase was mainly due to the gross revenues of \$30.3 million provided by our precious metals trading services launched in 2013.

Our business taxes and related surcharges attributable to our gross revenues decreased from \$0.64 million in 2012 to \$0.60 million in 2013. After taking into account business taxes and related surcharges attributable to our gross revenues, our net revenues increased by 78.2% to \$52.7 million in 2013 from \$29.6 million in 2012.

This increase was mainly due to the net revenues provided by our precious metals trading services we launched in 2013. Our net revenues derived from our precious metals trading services were \$30.1 million in 2013, representing 57.1% of our total net revenues. Our Hong Kong brokerage related income decreased to \$3.4 million in 2013 from \$3.8 million in 2012, representing 6.5% and 12.9% of total net revenues for each year.

Our net revenues derived from our financial information and advisory business, which included subscription fees from individual customers and institutional customers, decreased by 46.6% from \$20.8 million to \$11.1 million in 2013. The decrease was mainly due to the Group's strategic business transition that the Group no longer accepted new paid subscribers or renewals for its premium individual subscription service, and the plunging stock market in China.

Our net revenues derived from online advertising sales, which were not a sizable portion of our business in 2013, increased 40.2% to \$6.8 million in 2013 from \$4.8 million in 2012, due to improved advertising market conditions in 2013.

Cost of revenues

Our cost of revenues in 2013 increased by 30.7% to \$10.6 million from \$8.1 million in 2012, primarily due to the commission paid to our sales agents related to our precious metals trading business.

Gross profit

As a result of the foregoing, our gross profit increased by 96.0% to \$42.2 million in 2013 from \$21.5 million in 2012.

Operating expenses

Our operating expenses increased by 55.8% to \$54.8 million in 2013 from \$35.2 million in 2012, primarily due to the share-based compensation expenses and the operating expenses related to our precious metals trading services we launched in 2013. Operating expenses as a percentage of net revenues decreased to 104.0% in 2013 from 119.0% in 2012.

General and administrative. Our general and administrative expenses increased by 33.6% to \$15.2 million in 2013 from \$11.4 million in 2012. The increase in general and administrative expenses was primarily due to the increase in rents, share-based compensation expenses, etc. Our general and administrative expenses as a percentage of net revenues decreased to 28.9% in 2013 from 38.5% in 2012.

Product development. Our product development expenses decreased by 15.9% to \$9.0 million in 2013 from \$10.7 million in 2012, mainly due to the decrease in headcount related expenses. Our product development expenses decreased as a percentage of net revenues to 17.1% in 2013 from 36.3% in 2012.

Sales and marketing. Our sales and marketing expenses increased by 134.0% to \$30.6 million in 2013 from \$13.1 million in 2012. This was primarily due to the headcount related expenses and marketing, promotion expenses related to our precious metals trading services we launched in 2013. Our sales and marketing expenses as a percentage of net revenues increased to 58.0% in 2013 from 44.2% in 2012.

Loss from operations

Our loss from operations was \$12.7 million compared to an operating loss of \$13.6 million in 2012, and our operating margin was negative 24.0% in 2013, compared that of 46.0% in 2012.

Interest income

Our interest income decreased by 57.8% to \$1.3 million in 2013 from \$3.2 million in 2012.

Interest expense

Our interest expense decreased by 62.0% to \$0.2 million in 2013 from \$0.5 million in 2012. In February and June 2013, the agreements with China Merchant Bank were expired and the Company did not renew them.

Equity method investment income

In March 2013, the Company made an equity method investment to the Lang Fang Developer. The Company invested an aggregate \$22.1 million in consideration for 49% of its equity interests. In November 2013, the Company transferred this investment at the consideration of \$24.9million, realizing an investment income of \$2.8million.

The investee meets the definition of variable interest entity (VIE). The Group consolidates all entities that control by ownership of a majority voting interests as well as variable interest entities for which the Group is the primary beneficiary. The primary beneficiary of a variable interest entity is the party that absorbs a majority of the entity's expected losses, receives a majority of its expected residual returns, or both, as a result of holding variable interest, which are the ownership, contractual, or other pecuniary interests in an entity that change with changes in the fair

value of the entity's net assets excluding variable interests.

73

The Group has variable interest in Langfang Developer. The Group's investment account for 49% shares during the holding period. The 49% shares are common shares with voting rights, and therefore participated significantly in profits and losses during the holding period, and the Group held a loan, which indicated a variable interest, thus, the Group has variable interest in Langfang Developer during holding period.

Generally, an enterprise that consolidates a variable interest entity is the primary beneficiary of the variable interest entity. The primary beneficiary of a variable interest entity is the party that absorbs a majority of the entity's expected losses, receives a majority of its expected residual returns, or both, as a result of holding variable interest, which are the ownership, contractual, or other pecuniary interests in an entity that change with changes in the fair value of the entity's net assets excluding variable interests.

An enterprise with a variable interest in a variable interest entity must consider variable interests of related parties and de facto agents as its own in determining whether it is the primary beneficiary of the entity.

The Group will not absorb a majority of the VIE's expected losses, or receive a majority of the VIE's expected residual returns, therefore the Group is not the primary beneficiary of the VIE.

The Group has the ability to exercise significant influence over the VIE. Determining whether an investor has the ability to exercise significant influence over operating and financial policies of the investee requires judgment based on the facts and circumstances of each investment. Significant influence is presumed to exist for investments of 20% or more of the voting stock of an investee and is presumed not to exist for investments of less than 20% of the voting stock of an investee. Since the Group has the ability to significantly influence over the operating and financial policies of the VIE, the Group treated the investment using equity method accounting.

Short-term investment income

Our gain from short-term investments, which are classified as trading, held-to-maturity or available-for-sale decreased to \$0.1 million in 2013 from \$0.4 million in 2012.

Income tax expense

Our income tax expense was \$0.1 million in 2013 compared to an income tax expense was \$0.9 million in 2012.

Net loss attributable to the Company

Our net loss attributable to the Company was \$8.6 million in 2013 compared to a net loss attributable to the Company of \$11.9 million in 2012, and our net income margin increased to negative 16.3% in 2013 from negative 40.1% in 2012.

B. Liquidity and capital resources.

Cash flows and working capital

As of December 31, 2014, we had approximately \$32.5 million in cash and cash equivalents. Our cash and cash equivalents primarily consist of cash on hand. We generally deposit our excess cash in interest-bearing bank accounts.

The following table shows our cash flows with respect to operating activities, investing activities and financing activities in 2012, 2013 and 2014:

(in thousands of U.S. dollars)	For the year ended December 31		
	2012	2013	2014
Net cash (used in) provided by operating activities	\$ (29,043)	\$ 159	\$ 1,172
Net cash provided by (used in) investing activities	10,959	7,578	(4,598)
Net cash used in financing activities	(5,669)	(12,138)	(372)
Net decrease in cash and cash equivalents	(23,735)	(4,535)	(3,832)
Cash and cash equivalents at beginning of year	64,641	40,906	36,371
Cash and cash equivalents at end of year	\$ 40,906	\$ 36,371	\$ 32,539

Net cash provided by operating activities for 2014 was \$1.2 million, compared to net cash provided by operating activities was \$159,000 in 2013. The increase of net cash provided by operating activities was primarily due to the increase in cash receipt from precious metals trading services.

Net cash provided by operating activities for 2013 was \$159,000, compared to net cash used in operating activities was \$29.0 million in 2012. The increase of net cash provided by operating activities was primarily due to the increase in cash receipt from precious metals trading services, and the collection of Account Receivables – margin clients of \$8.9 million in 2013.

Net cash used in investing activities was \$4.6 million in 2014, compared to net cash provided by investing activities of \$7.6 million in 2013. The increase in cash used in investing activities was primarily due to (i) capital expenditures of \$3.2 million in 2014, compared with \$0.8 million in 2013; (ii) a net cash out of \$2.9 million in 2014 due to the business restructure; and (iii) a net cash in of \$2.2 million related to the sales of cost method investment in Ocean Butterflies.

Net cash provided by investing activities was \$7.6 million in 2013, compared to net cash provided by investing activities of \$11.0 million in 2012. The decrease in cash provided by investing activities was primarily due to (i) the collection of \$1.0 million from a loan made to a third party in 2011; (ii) the collection of restricted cash of \$29.3 million, as we did not renew the agreement with China Merchant Bank when it was expired in 2013; and (iii) a net cash out of \$20.3 million related to the equity method investment in the Langfang Developer.

Net cash used in financing activities was \$0.4 million in 2014, compared to \$12.1 million in 2013, and \$5.7 million in 2012. The variation in the cash flow of our financing activities was mainly caused by the withdrawal/payback of our short term bank loans in 2012 and 2013. In 2014, we paid \$1.0 million dividends to noncontrolling shareholders.

We currently intend to retain all available funds and any future earnings for use in the operation and expansion of our business and do not anticipate paying any cash dividends on our ordinary shares, or indirectly on our ADSs, for the foreseeable future.

Capital resources

Our principal capital expenditures for 2012, 2013 and 2014 consisted primarily of purchases of servers, workstations, computers, computer software and other items related to our network infrastructure for a total of approximately \$775,000, \$ 834,000 and \$3.2 million, respectively.

Capital expenditures in 2013 and 2014 have been, and our 2015 capital expenditures are expected to continue to be, funded through operating cash flows and through our existing capital resources. We believe that our current cash and cash equivalents, and cash flow from operations will be sufficient to meet our anticipated cash needs, including for our working capital and capital expenditure needs, for the foreseeable future. We may, however, require additional cash resources due to changes in business conditions or other future developments. If these sources are insufficient to satisfy our cash requirements, we may seek to sell debt securities or additional equity securities or obtain a credit facility. The sale of convertible debt securities or additional equity securities could result in additional dilution to our shareholders. The incurrence of indebtedness would result in debt service obligations and could result in operating and financial covenants that would restrict our operations. We cannot assure investors that financing will be available in amounts or on terms acceptable to us, if at all.

In order to enhance our return on cash, on March 19, 2013, we entered into a real estate investment contract with the Langfang Developer and four original shareholders of Langfang Developer. Pursuant to the investment contract with the Langfang Developer, at closing, we invested an aggregate \$22,142,400 in consideration for 49% of the Langfang Developer's equity interest. Langfang Developer used the invested amount to purchase land and develop a real estate project thereon located in Langfang City, Hebei Province. This investment was funded by our current capital resources. In November 2013, we transferred our equity stake in the Langfang Developer for a total consideration of \$24,930,702, which is being paid to us in several installments. As of December 31, 2013, we have collected \$11,481,244 in cash. The uncollected consideration was charged a monthly interest rate of 1.5%. As of December 31, 2014, the total consideration receivable and interest was \$14,115,596. In addition, we extended a loan of \$10,333,120 to the Langfang Developer at a monthly interest rate of 1.5% from October 9, 2013 to October 20, 2013. In September 2014, the Company's board of directors approved an extension of outstanding loan to December 31, 2014. Pursuant to the arrangement, the loan receivable was charged an annual interest rate of 19-21% from October 21, 2014 to December 31, 2014. As of December 31, 2014, the total principal outstanding loan and interest receivable was \$10,844,909. The uncollected consideration and loans are secured by one-hundred percent of Langfang Developer's equity interest. As of December 31, 2014, based on the valuation of the 100% equity interests of Langfang Developer performed by a third party appraiser, there was no impairment loss of the loan. On March 10, 2015, the Group collected approximately \$2.1 million (RMB13 million, equivalently) from Langfang Developer.

From time to time, we also evaluate possible investments, acquisitions or divestments and may, if a suitable opportunity arises, make an investment or acquisition or conduct a divestment.

Restricted net assets

The PRC Enterprise Income Tax Law, or the EIT Law, provides that a maximum income tax rate of 20% may be applicable to dividends payable to non-PRC investors that are "non-resident enterprises", to the extent such dividends are derived from sources within the PRC, and the State Council of the PRC has reduced such rate to 10% through the implementation regulations.

We are a Hong Kong holding company and the majority of our income is derived from dividends we receive from our PRC subsidiaries. Thus, dividends paid to us by our PRC subsidiaries may be subject to the 10% income tax if we are considered to be a "non-resident enterprise" under the EIT Law. If we are considered a PRC "resident enterprise", it is unclear whether dividends we pay with respect to our ordinary shares, or the gain our shareholders may realize from the transfer of our ordinary shares, would be treated as income derived from sources within the PRC and be subject to PRC tax. In the event that we are required under the EIT Law to withhold PRC income tax on dividends payable to our non-PRC investors that are "non-resident enterprises", or that a shareholder is required to pay PRC income tax on the transfer of our ordinary shares, the value of such shareholder's investment in our ordinary shares may be materially and adversely affected.

In addition, prior to payment of dividends, pursuant to the laws applicable to the PRC Domestic Enterprises and PRC Foreign Investment Enterprises, the PRC entities must make appropriations from after-tax profit to non-distributable statutory reserve funds, including general reserve, enterprise expansion fund, and staff bonus and welfare fund. Subject to certain cumulative limits, the general reserve fund requires annual appropriations of not less than 10% of after-tax profit (as determined under accounting principles and financial regulations applicable to PRC enterprises at each year-end); the other two funds are to be made at the discretion of the board of directors. These reserve funds can only be used for specific purposes and are not distributable as cash dividends.

As a result of the above and other restrictions under PRC laws and regulations, our PRC subsidiaries and affiliates are restricted in their ability to transfer a portion of their net assets to us either in the form of dividends, loans or advances. The restricted portion amounted to approximately \$39.9 million as of December 31, 2014.

Even though we currently do not require any such dividends, loans or advances from our PRC subsidiaries and affiliates, we may in the future require additional cash resources from our PRC subsidiaries and affiliates due to changes in business conditions, to fund future acquisitions or developments, or merely to declare and pay dividends or distributions to our shareholders, although we currently have no intention to do so.

Restrictions on Renminbi conversion

The majority of our revenues and operating expenses are denominated in Renminbi. The PRC government imposes controls on the convertibility of the Renminbi into foreign currencies and, in certain cases, the remittance of currency out of China. Pursuant to the Foreign Currency Administration Rules promulgated on January 29, 1996 and amended on January 14, 1997 and various regulations issued by the SAFE and other relevant PRC government authorities, Renminbi is freely convertible only to the extent of current account items, such as trade-related receipts and payments, interest and dividends. Capital account items, such as direct equity investments, loans and repatriation of investment, require the prior approval from the SAFE or its local branch for conversion of Renminbi into a foreign currency, such as U.S. dollars, and remittance of the foreign currency outside the PRC. Shortages in the availability of foreign currency may restrict the ability of our PRC subsidiaries to remit sufficient foreign currency to pay dividends or other payments to us, or otherwise satisfy its foreign currency-denominated obligations. Currently, each of our PRC subsidiaries and affiliates may purchase foreign exchange for settlement of “current account transactions”, including payment of dividends to us and payment of license fees and service fees to foreign licensors and service providers, without the approval of SAFE. However, approval from the SAFE or its local branch is required where Renminbi is to be converted into foreign currency and remitted out of China to pay capital expenses such as the repayment of loans denominated in foreign currencies.

Each of our PRC subsidiaries and affiliates may also retain foreign exchange in their current accounts to satisfy foreign exchange liabilities or to pay dividends. However, we cannot assure investors that the relevant PRC governmental authorities will not limit or eliminate our ability to purchase and retain foreign currencies in the future. If the foreign exchange control system prevents us from obtaining sufficient foreign currency to satisfy our currency demands, we may not be able to pay dividends in foreign currencies to our shareholders. Since a significant amount of our future revenues will be in the form of Renminbi, the existing and any future restrictions on currency exchange may limit our ability to utilize revenues generated in Renminbi to fund our business activities outside China, if any, or expenditures denominated in foreign currencies.

A summary table, by respective denomination, is set forth below, including: (1) cash, cash equivalents and restricted cash held inside of the PRC and subject to restrictions; (2) cash, cash equivalents and restricted cash held outside of the PRC; and (3) for entities within the PRC, cash, cash equivalents and restricted cash held by VIEs and VIEs' subsidiaries, as of December 31, 2013 and 2014, respectively:

	For the year ended December 31,	
	2013	2014
Cash, cash equivalents and restricted cash		
held inside of the PRC and subject to restrictions		
Denomination in RMB	\$26,912,315	\$19,633,320
Denomination in foreign currencies	\$480	\$9,284
Cash, cash equivalents and restricted cash		
held by VIEs and VIEs' subsidiaries in the PRC		
Denomination in RMB	\$19,412,207	\$17,572,213
Denomination in foreign currencies	-	-
Cash, cash equivalents and restricted cash		
held outside of the PRC		
Denomination in RMB	\$66,294	\$99,170
Denomination in foreign currencies	\$9,395,807	\$12,802,237

C. Research and development.

Our research and development efforts consist of continuing to:

- increase the breadth of our service offerings through the addition of new features and functions to our service packages;
 - enhance our subscribers' experience by improving the quality of our research tools and website; and
 - develop additional research tools, features, content and services specifically targeting the high-end subscribers.

D. Trend information.

Other than as disclosed elsewhere in this annual report, we are not aware of any trends, uncertainties, demands, commitments or events for the period from January 1, 2014 to December 31, 2014 that are reasonably likely to have a material effect on our net revenues, income, profitability, liquidity or capital resources, or that caused the disclosed financial information to be not necessarily indicative of future operating results or financial conditions.

E. Off-balance sheet arrangements.

We have not entered into any financial guarantee or other commitments to guarantee the payment obligations of any other parties. We do not entered into any derivative financial instruments. Furthermore, we do not have any retained or contingent interest in assets transferred to an unconsolidated entity that serves as credit, liquidity or market risk support to such entity. Moreover, we do not have any variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or engages in leasing, hedging or research and development services with us.

F. Tabular disclosure of contractual obligations.

We have entered into arrangements relating to office premises leasing and data purchase agreement. The following sets forth our known contractual obligations as of December 31, 2014 and as of the types that are specified below:

	Office Premises	Data Purchase (in U.S. dollars)	Total
Less than 1 year	\$4,955,227	\$1,534,828	\$6,490,055
1 - 3 years	1,707,377	170,942	1,878,319
3 - 5 years	-	-	-

Apart from such premises, as of December 31, 2014, we did not have any long-term debt obligations, capital (finance) lease obligations, purchase obligations or any other long-term liabilities reflected on our balance sheets with durations to maturity as are set forth in the chart directly above.

G. Safe harbor

See the section headed “Forward-Looking Information”.

Quantitative and qualitative disclosures about market risk.

Interest rate risk

Our exposure to market rate risk for changes in interest rates relates primarily to the interest income generated by excess cash invested in short term money market accounts and certificates of deposit, as well as the interest rate exposure related to the loan facility. We have not used derivative financial instruments in our investment portfolio.

Our future interest income may fall short of expectations due to adverse changes in interest rates. With respect to cash, cash equivalents and restricted cash as of December 31, 2014, a hypothetical 1% (100 basis-point) decrease in interest rates would have decreased our interest income for the year then ended from \$4.0 million to \$3.7 million. In addition, with respect to cash, cash equivalents and restricted cash as of December 31, 2013, a hypothetical 1.0% (100 basis-point) decrease in interest rates would have decreased our interest income for the year then ended from \$1.3 million to \$1.0 million.

Foreign currency risk

Substantially all our revenues and expenses are denominated in Renminbi and HK Dollar, and a substantial portion of our cash is kept in Renminbi and HK Dollar, but as noted above, a portion of our cash is also kept in U.S. dollars. Although we believe that, in general, our exposure to foreign exchange risks should be limited, the value of our ADSs, will be affected by the foreign exchange rate between U.S. dollars and Renminbi. For example, to the extent that we need to convert U.S. dollars into Renminbi for our operational needs and the Renminbi appreciates against the U.S. dollar at that time, our financial position and the price of our ADSs may be adversely affected. Conversely, if we decide to convert our Renminbi into U.S. dollars for the purpose of declaring dividends on our ADSs or otherwise and the U.S. dollar appreciates against the Renminbi, the U.S. dollar equivalent of our earnings from our subsidiaries and controlled entities in China would be reduced.

We have recorded foreign exchange loss of \$113,000 in net income in 2014, due to the recent revaluation of RMB against the U.S. dollar by Chinese government. On July 21, 2005, the Chinese government changed its policy of pegging the value of the Renminbi to that of U.S. dollar. Under the new policy, the Renminbi has fluctuated within a narrow and managed band against a basket of certain foreign currencies. As a result, the Renminbi appreciated approximately 0.2%, 3% and -0.4% against the U.S. dollar in 2012, 2013 and 2014, respectively, and may appreciate or depreciate significantly in value against the U.S. dollar or other foreign currencies in the long term. Since we have not engaged in any hedging activities, we may experience economic loss as a result of any foreign currency exchange rate fluctuations. As of December 31, 2014, we had cash, cash equivalents and restricted cash of US\$19.7 million (approximately RMB 120.7 million) which were denominated in RMB at the exchange of \$1.00 for RMB 6.1190 and US\$12.8 million which were denominated in foreign currencies. Assuming a 1.0% depreciation of the RMB against the U.S. dollar, cash, cash equivalents and restricted cash denominated in RMB would have decreased to \$19.5 million as of December 31, 2014.

ITEM 6. DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES

A. Directors and senior management.

The following table sets forth the name, age and position of each director and executive officer as of the date of this report.

Name	Age	Position
Zhiwei Zhao	51	Chairman of the Board of Directors and Chief Executive Officer
Kheng Nam Lee (1)	67	Director
Neo Chee Beng (1) (2) (3)	54	Director
Jun (Jeff) Wang	44	Director and Chief Financial Officer
(1) Member, audit committee		
(2) Member, compensation committee		
(3) Member, nominations committee		

*Mr. Rongquan Leng, former director, resigned from the Company's Board for personal reasons in April 2015.

The address of each of our executive officers and directors is 9th Floor of Tower C, Corporate Square, No. 35 Financial Street, Xicheng District, Beijing, China 100033.

Biographical Information

Zhiwei Zhao has served as our Chief Executive Officer since June 21, 2005 and our director since July 25, 2005. He was elected as the Chairman of our Board of directors as of April 2012 and continues to serve as the Chief Executive Officer of the company. Mr. Zhao was the Chairman of the Board of Directors of Abitcool Inc before joining us. Abitcool is a company that provides broadband internet services in China. It boasts the largest private Internet Data Center in China. From 1998 to 2005, he served as the General Manager of Huatong International Development Limited in Hong Kong. Mr. Zhao graduated with a Bachelor of Science degree from Huazhong University of Science and Technology.

Kheng Nam Lee has served as our director since May 2004. Mr. Lee is presently a Venture Partner of GGV Capital. At the same time he is Chairman of Advantec Pte Ltd, an investment holding company. Mr. Lee is also the non-executive Chairman of Vertex Management (II) Pte Ltd and Vertex Venture Holdings Ltd ("VVH"), both of which are wholly-owned subsidiaries of Temasek Holdings (Private) Limited, engaged in the venture capital direct investment and fund management business. For more than 23 years, Mr. Lee has been in leading positions in several

capital investment companies that invest in many international companies in various industries. Besides the company, Mr. Lee serves as a director of public companies, Creative Technology Ltd (“Creative”) and BCD Semiconductor Manufacturing Ltd (“BCD”). He is a member of the Audit and Compensation Committees of Creative where he had served as Chairman of the Audit Committee since 1992. Since August 2010, Mr. Lee also sits on the Audit Committee and Compensation Committees of BCD, a company listed on NASDAQ from January 2011. Mr. Lee holds a Bachelor of Science degree in mechanical engineering, with first class honors, from Queen’s University, Canada and a Master of Science degree in operations research and systems analysis from the U.S. Naval Postgraduate School. Mr. Lee also got a diploma in Business Administration, University of Singapore.

Neo Chee Beng has served as our director since January 2012. Mr. Neo is an executive director and the Chief Compliance Officer of Persistent Asset Management Pte Ltd (“Persistent Asset Management”), an exempt fund manager registered with the monetary authority of Singapore. Mr. Neo has been an independent director of LottVision Ltd., a company listed in the Singapore Stock Exchange, and also serves on its audit committee. Mr. Neo was a former Vice President of investments at Vertex Management II Pte Ltd (“Vertex Management II”), an affiliate of Temasek Holdings Pte Ltd, where he headed its Beijing office from year 2000 to early 2005. Mr. Neo was the finance manager of the Singapore Stock Exchange-listed Jardine Cycle & Carriage Ltd, where he assisted the general manager of finance. Mr. Neo had years of auditing experience with international audit firms including Moores Rowland and Ernest & Young. He received his education in Singapore from Hwa Chong Junior College and received professional accountancy training. He is a fellow of the Association of Chartered Certified Accountants, United Kingdom and a member of Singapore Institute of Directors.

Jun (Jeff) Wang joined our company as Vice President of Finance in May 2006 and has served as our Chief Financial Officer since August 15, 2006. He was appointed to serve as a member of our Board in May 2012. Mr. Wang was a Senior Manager in the Tax and Business Advisory Services at Deloitte Beijing Office before joining us. From 2002 to 2005 Jun Wang was founder and president of Miracle Professional Services Inc., a company that provided training and financial consulting services to finance professionals. Prior to that Mr. Wang worked in Deloitte’s Beijing, London and New York offices, providing tax and business advisory and management consulting services. Mr. Wang obtained his Master of Business Administration from New York University’s Leonard N. Stern School of Business, his Master of Economics in accounting from Beijing Technology and Business University and his B.A. degree from Shandong University. Mr. Wang is a member of the U.S. Certified Management Accountants (“CMA”) and has a professional designation of Chartered Financial Analyst (“CFA”).

B. Compensation of directors and executive officers.

In 2014, we paid aggregate cash compensation of approximately \$603,000 to our directors and executive officers as a group. We have no service contracts with any of our directors or executive officers that provide benefits to them upon termination, except for change in control agreements we entered into with each of our chief executive officer and chief financial officer. The change in control agreements provide that if after a change-of-control of our Company has occurred, resulting in the chief executive officer or the chief financial officer being terminated without cause or resigns for good reason, we are obligated to provide severance benefits to the chief executive officer or chief financial officer, as the case may be.

All of our current directors and executive officers have entered into indemnification agreements in which we agree to indemnify, to the fullest extent allowed by Hong Kong law, our charter documents or other applicable law, our directors and executive officers from any liability or expenses, unless the liability or expense arises from the director or executive officer’s own willful negligence, intentional malfeasance, bad faith act, or other transactions from which the director or executive officer may not be relieved of liability under applicable law. The indemnification agreements also specify the procedures to be followed with respect to indemnification.

Directors’ and officers’ liability insurance

We have renewed directors' and officers' liability insurance on behalf of our directors and officers that will expire in January 2016.

Employee's stock incentive plans

2004 Stock Incentive Plan

The 2004 Plan has expired on January 3, 2014, which is the 10th anniversary of the effective date of the 2004 Plan. After the termination of the Plan either upon such stated expiration date or its earlier termination by the Board, no additional awards may be granted under the Plan, but previously granted awards (and the authority of the Administrator with respect thereto, including the authority to amend such awards) shall remain outstanding in accordance with their applicable terms and conditions of the Plan.

Under the 2004 Plan, as of December 31, 2014, we have a total number of 12,975,240 options that are currently vested and exercisable for ordinary shares. Under option agreements that were independent of the 2004 Plan, 1,095,000 options that are currently vested and exercisable for ordinary shares as of December 31, 2014.

The table below sets forth the options and restricted shares grants made to our current and former directors and executive officers as of December 31, 2014 pursuant to the 2004 Plan:

	Number of ordinary Shares to be issued upon exercise of options	Exercise price per ordinary share	Date of grant	Date of expiration
Zhiwei Zhao	400,000	\$ 1.120	November 15, 2005	November 15, 2015
	400,000	\$ 1.070	July 5, 2006	July 5, 2016
	800,000	\$ 0.960	January 18, 2007	January 17, 2017
	750,000	\$ 1.426	February 22, 2010	February 21, 2020
	1,800,000	\$ 0.250	July 15, 2013	July 15, 2023
	450,000	\$ -	January 2, 2014	January 2, 2024
Kheng Nam Lee	*	\$ 0.160	January 5, 2004	January 4, 2014
	*	\$ 1.040	June 15, 2004	June 14, 2014
	*	\$ 1.314	February 18, 2005	February 18, 2015
	*	\$ 0.960	January 18, 2007	January 17, 2017
	*	\$ 1.426	February 22, 2010	February 21, 2020
	*	\$ 0.250	July 15, 2013	July 15, 2023
Rongquan Leng (1)	*	\$ 0.250	July 15, 2013	July 15, 2023
Neo Chee Beng	*	\$ 1.316	July 5, 2006	July 5, 2016
	*	\$ 0.250	July 15, 2013	July 15, 2023
Jun (Jeff) Wang	*	\$ 1.070	July 5, 2006	July 5, 2016
	*	\$ 0.960	January 18, 2007	January 17, 2017
	*	\$ 1.426	February 22, 2010	February 21, 2020
	1,500,000	\$ 0.250	July 15, 2013	July 15, 2023
	*	\$ -	January 2, 2014	January 2, 2024

* Upon exercise of all options granted, would beneficially own less than 1% of our outstanding ordinary shares.

(1) Mr. Rongquan Leng, former director, resigned from the Company's Board for personal reasons in April 2015.

2014 Stock Incentive Plan

In July 2014, the Company adopted the 2014 stock incentive plan (the "2014 Plan") which allows the Company to offer a variety of incentive awards to employees, directors, officers and other eligible persons in the Group, and consultants and advisors outside the Group. The total number of ordinary shares authorized under the 2014 Plan was 5,000,000 as of December 31, 2014. As of December 31, 2014, 4,890,000 authorized ordinary shares were granted under 2014 Plan.

Incentive awards granted under the 2014 Plan generally do not vest unless the grantee remains under our employment or in service with us on the given vesting date. However, in circumstances where there is a death or disability of the grantee, or a change in the control of our company, the vesting of options will be accelerated to permit immediate exercise of all awards granted to a grantee. Generally, to the extent an outstanding awards granted under the 2014 Plan has not vested by the date the grantee's employment or service with us terminates, the awards will terminate and become unexercisable. Our board of directors may amend, alter, suspend or terminate the 2014 Plan at any time, provided, however, that our board of directors must first seek the approval of our shareholders and, if such amendment, alteration, suspension or termination would adversely affect the rights of an grantee under any award granted prior to that date, the approval of such grantee.

	Number of ordinary Shares to be issued upon exercise of options	Exercise price per ordinary share	Date of grant	Date of expiration
Kheng Nam Lee	*	\$	- August 8, 2014	August 8, 2024
Rongquan Leng (1)	*	\$	- August 8, 2014	August 8, 2024
Neo Chee Beng	*	\$	- August 8, 2014	August 8, 2024

* Upon exercise of all options granted, would beneficially own less than 1% of our outstanding ordinary shares.

(1) Mr. Rongquan Leng, former director, resigned from the Company's Board for personal reasons in April 2015.

2007 Equity Incentive Plan

As of December 31, 2014, we had granted restricted stock awards covering 10,558,493 of our ordinary shares to our eligible employees pursuant to our 2007 Plan. In order to bind the employees together in achieving the common goal, the ordinary shares are held by C&F International Holdings Limited for the benefit of the whole group of eligible employees. C&F International Holdings Limited is 100% owned by C&F Global Limited, which is in turn 100% owned by Zhiwei Zhao. As of December 31, 2014, restricted stock awards have been allotted to selected employees pursuant to the 2007 Plan.

The table below sets forth the shares issued and allotted to selected employees pursuant to the Plan:

Name	Number	Percent	
Selected Employees			
Zhiwei Zhao	8,958,493	7.97	%
Jun (Jeff) Wang	*	*	
Caogang Li	*	*	
All executive officers as a group (3 persons)	10,558,493	9.39	%

Based on our operating performance for 2008, 8,658,048 shares were activated as of December 31, 2008. Based on our operating performance for 2009, no granted shares were activated in 2009.

In 2009, in light of the significant global economic downturn and its impact on our performance, our board amended the Grant Agreement to extend the Performance Period and the Vesting Term for an additional three years ending on December 31, 2012. Under the amended agreement any granted shares that are not activated as of December 31, 2009 shall become activated and be eligible to vest based on the company's achievement of certain performance targets for 2010, 2011 and 2012. Any granted shares that are activated but not yet vested as of December 31, 2009, shall continue to be eligible to vest during the remainder of the Vesting Term in accordance with the terms of the Grant Agreement.

Based on our operating performance for 2010 and 2011, no more granted shares were activated in 2010 and 2011. The total 8,658,048 shares that were activated based on our operating performance for 2008 were fully vested as of December 31, 2011. All the shares granted to C&F International Holdings Limited that have not been activated and vested by the end of calendar year 2012 have been forfeited.

In June 2014, the Annual General Meeting approved the amendment to the Company's 2007 Equity Incentive Plan and the Restricted Stock Issuance and Allocation Agreement of 2007 Equity Incentive Plan. Pursuant to such agreement, together with the remaining 1,900,445 ordinary shares, which were not vested due to the operating performance targets under 2007 Plan not being achieved, 3,000,000 ordinary shares were collectively granted to the employees who were eligible. The fair value of a nonvested share on the grant date was measured at the quoted market price of the Company's equity shares. The nonvested shares shall become activated and vest during the period commencing from the grant date and ending on December 31, 2016 based on the Company's achievement of the performance targets.

As of December 31, 2014, there was no nonvested shares become activated and vested due to the performance targets were not achieved, and nil share-based compensation expenses relating to the nonvested shares was recognized.

2010 Equity Incentive Plan of iSTAR Financial Holdings Limited

On November 1, 2010, iSTAR Financial Holdings Limited granted restricted stock awards representing 15% of its ordinary shares pursuant to the 2010 Equity Incentive Plan of iSTAR Financial Holdings Limited to awardees who are eligible to participate in the plan. In connection with such awards, we transferred 15% of the ordinary shares of iSTAR Financial Holdings Limited to an entity representing the eligible awardees. In order to bind those awardees together to promote the common interests of the awardees, iSTAR Financial Holdings Limited and the Company, the ordinary shares were transferred to, and are held by, Hopewin Asia Limited, which was incorporated in BVI, on behalf of and exclusively for the benefit of the whole group of awardees eligible to participate in the plan. We believe such incentive plan will attract, maintain and motivate our team, and we believe the plan is in our best interests and the best interests of our stockholders.

C. Board practices.

In 2014, our directors met in person or passed resolutions by unanimous written consent a total of seven times. No director is entitled to any severance benefits upon termination of his directorship with us. Our board of directors has also concluded that Mr. Kheng Nam Lee meets the criteria for an "audit committee financial expert" as established by the SEC.

Board committees

Our board of directors has established an audit committee, a compensation committee and a nominations committee.

Audit committee. Our audit committee currently consists of Kheng Nam Lee and Neo Chee Beng. Our board of directors has determined that all of our audit committee members are "independent directors" within the meaning of Nasdaq Listing Rule 5605(a)(2) and meet the criteria for independence set forth in Section 10A(m)(3) of the U.S. Securities Exchange Act of 1934, or the Exchange Act. Our audit committee is responsible for, among other things:

- recommending to our shareholders, if appropriate, the annual re-appointment of our independent registered public accounting firm and pre-approving all auditing and non-auditing service fees permitted to be performed by the independent registered public accounting firm;

- annually reviewing an independent registered public accounting firm's report describing the independent registered public accounting firm's internal quality-control procedures, any material issues raised by the most recent internal quality control review, or peer review, of the independent registered public accounting firm and all relationships between the independent registered public accounting firm and our company;
- setting clear hiring policies for employees or former employees of the independent registered public accounting firm;
- reviewing with the independent registered public accounting firm any audit problems or difficulties and management's response;
- reviewing and approving all proposed related-party transactions, as defined in Item 404 of Regulation S-K under the U.S. securities laws;
- discussing the annual audited financial statements with management and the independent registered public accounting firm;
- discussing with management and the independent registered public accounting firm major issues regarding accounting principles and financial statement presentations; reviewing reports prepared by management or the independent auditors relating to significant financial reporting issues and judgments;
- reviewing reports prepared by management or the independent registered public accounting firm relating to significant financial reporting issues and judgments;
- discussing earnings press releases, as well as financial information and earnings guidance provided to analysts and rating agencies;
- reviewing with management and the independent registered public accounting firm the effect of regulatory and accounting initiatives, as well as off-balance sheet structures on our financial statements;
 - discussing policies with respect to risk assessment and risk management;
- reviewing major issues as to the adequacy of our internal controls and any special audit steps adopted in light of material control deficiencies;
- timely reviewing annual reports from the independent registered public accounting firm regarding all critical accounting policies and practices to be adopted by our company, all alternative treatments of financial information within U.S. GAAP that have been discussed with management and all other material written communications between the independent registered public accounting firm and management;
- establishing procedures for the receipt, retention and treatment of complaints received from our employees regarding accounting, internal accounting controls or auditing matters and the confidential, anonymous submission by our employees of concerns regarding questionable accounting or auditing matters;
 - annually reviewing and reassessing the adequacy of our audit committee charter;
- such other matters that are specifically delegated to our audit committee by our board of directors from time to time;

- meeting separately, periodically, with management and the independent registered public accounting firm; and
- reporting regularly to the full board of directors.

Compensation committee. Our current compensation committee consists of Neo Chee Beng. Our board of directors has determined that all of our compensation committee members are “independent directors” within the meaning of Nasdaq Listing Rule 5605(a) (2). Our compensation committee is responsible for:

- determining and recommending the compensation of our senior management;
 - reviewing and making recommendations to our board of directors regarding our compensation policies and forms of compensation provided to our directors and officers;
 - reviewing and determining bonuses for our officers and other employees;
 - reviewing and determining share-based compensation for our directors, officers, employees and consultants;
 - administering our equity incentive plans in accordance with the terms thereof; and
- such other matters that are specifically delegated to the compensation committee by our board of directors from time to time.

Nominations committee. Our current nominations committee consists of Neo Chee Beng. Our board of directors has determined that all of our nominations committee members are “independent directors” within the meaning of Nasdaq Listing Rule 5605(a) (2). Our nominations committee is responsible for, among other things, selecting and recommending the appointment of new directors to our board of directors.

Mr. Rongquan Leng, a former Independent Director of the Board of Directors of the Company, has resigned from the Company’s Board of Directors for personal reason, effective from April 17, 2015. Mr. Leng was a member of the Audit Committee, the Compensation Committee and the Nominations Committee. The Company has commenced the search for an Independent Director candidate and will add such director to the Board as soon as practicable and prior to the expiration of the cure period provided pursuant to Nasdaq Listing Rules 5605(b)(1)(A) and 5605(c)(4)(B).

Corporate governance

Our board of directors has adopted a code of ethics, which is applicable to our senior executive and financial officers. In addition, our board of directors has adopted a code of conduct, which is applicable to all of our directors, officers and employees. Our code of ethics and our code of conduct are publicly available on our website.

In addition, our board of directors has adopted a set of corporate governance guidelines. The guidelines reflect certain guiding principles with respect to our board’s structure, procedures and committees. The guidelines are not intended to change or interpret any law, or our memorandum and articles of association.

Duties of directors

Under Hong Kong law, our directors have a duty of loyalty to act honestly in good faith with a view to our best interests. Our directors also have a duty to exercise the care, diligence and skills that a reasonable person with that director’s qualifications and experience would exercise in comparable circumstances. In fulfilling their duty of care to us, our directors must ensure compliance with our memorandum and articles of association.

The functions and powers of our board of directors include, among others:

- convening shareholders' meetings and reporting its work to shareholders at such meetings;
 - implementing shareholders' resolutions;
 - determining our business plans and investment proposals;
 - formulating our profit distribution plans and loss recovery plans;
- determining our debt and finance policies and recommending proposals for the increase or decrease in our share capital and the issuance of debentures;
 - formulating our major acquisition and disposition plans, and plans for consolidation, division or dissolution;
 - proposing amendments to our articles of association; and
- exercising any other powers conferred at shareholders' meetings or under our memorandum and articles of association.

Terms of directors and executive officers

We have a staggered board, which means a subset of our directors (excluding our chief executive officer), retire at every annual general meeting and the vacancies created by such retirement stand for election. Our chief executive officer will at all times be a director, and will not retire as a director, so long as he remains our chief executive officer. Accordingly, our directors, excluding our chief executive officer, hold office until the second annual meeting of shareholders following their election, or until their successors have been duly elected and qualified. Our board has adopted a policy providing that no director may be nominated for re-election or re-appointment to our board after reaching 70 years of age, unless our board concludes that such person's continued service as our director is in our best interest. Officers are elected by and serve at the discretion of the board of directors. As of the date on which the statements are made in this annual report, the date of expiration for each director's current term of office is set forth below:

Name	Age	Position	Expiration of Term
Zhiwei Zhao	51	Chairman of the Board of Directors and Chief Executive Officer	-
Kheng Nam Lee	67	Director	Date of 2015 annual general meeting
Neo Chee Beng	54	Director	Date of 2015 annual general meeting
Jun (Jeff) Wang	44	Director and Chief Financial Officer	Date of 2016 annual general meeting

D. Employees.

As of December 31, 2012, 2013 and 2014, we employed approximately 590, 1,700 and 1,500 employees. China enacted a new Labor Contract Law, which became effective on January 1, 2008. We have updated our employment contracts and employee handbook and are in compliance with the new law. We work with the employees to insure that the employees obtain the full benefit of the new Labor Contract Law and its implementary rules. We consider our relations with our employees to be generally good. However, as our operations and employee base further expand, we cannot assure you that we will always be able to maintain good relations with all of our employees. See “Item 3.D. Key Information – Risk Factors – Risks relating to doing business in the People’s Republic of China – PRC’s new labor law restricts our ability to reduce our workforce in the PRC in the event of an economic downturn and may increase our labor costs”.

E. Share ownership.

As of December 31, 2014, 112,417,933 of our ordinary shares were outstanding, excluding shares issuable upon exercise of outstanding options. On that date, a total of 19,757,684 of our ADSs were outstanding.

The following table sets forth information with respect to the beneficial ownership, within the meaning of Section 13(d)(3) of the Exchange Act of our ordinary shares by:

- each person known to us to own beneficially more than 5% of our ordinary shares; and
- each of our directors and executive officers who beneficially own any of our ordinary shares.

Beneficial ownership includes voting or investment power with respect to the securities. Except as indicated below, and subject to applicable community property laws, the persons named in the table have sole voting and investment power with respect to all ordinary shares shown as beneficially owned by them. Percentage of beneficial ownership is based on 112,417,933 ordinary shares outstanding.

* Unless otherwise specified, the business address of each shareholder set forth below is China Finance Online (Beijing) Co., Ltd., 9th Floor of Tower C, Corporate Square, No.35 Financial Street, Xicheng District, Beijing, China 100033.

Name	Number of Shares Beneficially Owned		Percent
	Number	Percent	
Directors and executive officers			
Zhiwei Zhao	32,071,983	28.53	%
Kheng Nam Lee	*	*	
Neo Chee Beng	*	*	
Rongquan Leng (i)			
Jun (Jeff) Wang	*	*	
All current directors and executive officers as of December 31, 2014 as a group (5 persons)	35,629,069	31.69	%
(i) Mr. Rongquan Leng, former director, resigned from the Company’s Board for personal reasons in April 2015.			
5% Shareholder			
Zhiwei Zhao (1)	32,071,983	28.53	%
IDG Technology Venture Investment, LP (2)	6,723,115	5.98	%
IDG Technology Venture Investment, Inc. (3)	4,670,505	4.15	%
Jianping Lu (4)	7,156,121	6.37	%
Ling Zhang (5)	8,746,370	7.78	%

- * Upon exercise of all options currently exercisable or vesting within 60 days of December 31, 2014, would beneficially own less than 1% of our ordinary shares.
- (1) Mr. Zhiwei Zhao is considered the beneficial owner of 32,071,983 ordinary shares of the Company, which consists of (i) 10,558,493 ordinary shares issued by the Company to C&F International Holdings Limited, whose parent company C&F Global Limited is wholly held by Mr. Zhiwei Zhao, on behalf of and exclusively for the benefit of the Company's employees pursuant to the Company's 2007 Plan and related Restricted Stock Issuance and Allocation Agreement; All the shares granted to C&F International Holdings Limited that have not been activated and vested by the end of calendar year 2012 have been forfeited to the company; (ii) 11,000,000 ordinary shares from IDG Technology Venture Investment, Inc. as of December 31, 2014 to Grand Continental Holdings Limited, a British Virgin Islands company wholly held by Mr. Zhiwei Zhao, as disclosed in a Schedule 13D/A filed with the SEC on November 14, 2011; (iii) 7,101,490 ordinary shares from Vertex Technology Fund (III) Ltd. as of December 31, 2014 to Grand Continental Holdings Limited, a British Virgin Islands company wholly held by Mr. Zhiwei Zhao, as disclosed in a Schedule 13D/A filed with the SEC on August 6, 2013; and (iv) 3,412,000 ordinary shares considered beneficially owned by Zhiwei Zhao upon exercise of all options exercisable or vesting within 60 days of December 31, 2014.
 - (2) Includes 6,723,115 ordinary shares held by IDG Technology Venture Investment, LP. as of December 31, 2014, according to a Schedule 13G/A filed with the SEC dated February 8, 2013. The general partner of IDG Technology Venture Investment, LP is IDG Technology Venture Investments, LLC. Chi Sing Ho and Quan Zhou are managing members of IDG Technology Venture Investments, LLC, both of whom disclaim beneficial ownership of our shares held by IDG Technology Venture Investments, LLC. The registered address of IDG Technology Venture Investment, LP is One Exeter Plaza, Boston, MA 02109, U.S.A.
 - (3) Includes 4,670,505 ordinary shares held by IDG Technology Venture Investment, Inc. as of December 31, 2014 in the form of 934,101 ADSs, according to a Schedule 13G/A filed with the SEC dated February 8, 2013. IDG Technology Venture Investment, Inc. is a wholly owned by International Data Group, Inc., whose controlling shareholder is Patrick J. McGovern. Patrick J. McGovern is citizen of the United States of America. IDG Technology Venture Investment, Inc. and International Data Group, Inc. are each organized under the laws of the Commonwealth of Massachusetts. The registered address of IDG Technology Venture Investment, Inc. is One Exeter Plaza, Boston, MA 02109, U.S.A.
 - (4) Includes (i) 4,028,156 ordinary shares held by Cast Technology, Inc.; and (ii) 3,127,965 ordinary shares held by Fanasia Capital Limited. Both Cast Technology, Inc. and Fanasia Capital Limited are held 45% and 55% by Jianping Lu and Ling Zhang, respectively.
 - (5) Includes (i) 4,923,302 ordinary shares held by Cast Technology, Inc.; and (ii) 3,823,068 ordinary shares held by Fanasia Capital Limited. Both Cast Technology, Inc. and Fanasia Capital Limited are held 45% and 55% by Jianping Lu and Ling Zhang, respectively.

None of our existing shareholders has voting rights that differ from the voting rights of other shareholders. We are not aware of any arrangement that may, at a subsequent date, result in our change in control.

ITEM 7. MAJOR SHAREHOLDERS AND RELATED PARTY TRANSACTIONS

A. Major shareholders.

As of December 31, 2014, we had 112,417,933 ordinary shares issued and outstanding, and JP Morgan Chase Bank N.A., as the depository of our ADS facility, was the only record holder of our ordinary shares in the United States, holding approximately 87.88% of our total outstanding ordinary shares. The number of beneficial owners of our ADSs in the United States is likely much larger than the one record holder of our ordinary shares in the United States.

Please refer to Item 6. “Directors, Senior Management and Employees — Share Ownership”.

B. Related party transactions.

Contractual arrangements with CFO Newrand and its shareholders

We entered into a series of contractual arrangements with CFO Newrand and its nominee shareholders (i.e., Lin Yang and Linghai Ma) in 2008 (the “CFO Newrand VIE Contracts”). Please refer to our 2008 Annual Report on Form 20-F for a detailed description of the CFO Newrand VIE Contracts.

On January 11, 2012, we entered into (i) a framework agreement on exercising purchase option with Lin Yang and the parties thereunder, and (ii) a framework agreement on exercising purchase option with Linghai Ma and the parties thereunder. Pursuant to the framework agreements, Lin Yang subscribed and contributed the increased registered capital of CFO Newrand using the loans rendered by CFO Software. Upon the capital increase, Lin Yang’s shareholding percentage in CFO Newrand increased from 17.5% to 45% while Linghai Ma’s shareholding percentage in CFO Newrand decreased from 82.5% to 55%. In addition, on the same date, each of Linghai Ma and Lin Yang entered into a purchase option agreement with CFO Newrand and CFO Software respectively. The terms of these two agreements are substantially the same as the purchase option agreement entered into by and among CFO Beijing, Zhiwei Zhao and Jun Wang in respect of their equity interests in CFO Fuhua.

Contractual arrangements with Fortune (Beijing) Huiying Investment Consulting Co., Ltd. (“CFO Huiying”) and its shareholders

We entered into a framework agreement on exercising purchase option and certain ancillary agreements including an equity transfer agreement on January 24, 2014 with Lin Yang and the parties thereunder (collectively, the “CFO Huiying VIE Amendments”). Pursuant to the CFO Huiying VIE Amendments, we exercised the purchase option by designating CFO Fuhua to purchase all of the equity interests held by Lin Yang and Ying Zhu in CFO Huiying. Upon the equity transfer, CFO Fuhua replaced Lin Yang and Ying Zhu as the sole shareholder of CFO Huiying.

Contractual arrangements with Shanghai Shangtong Information Technology Co., Ltd. (“CFO Shangtong”) and its shareholders

We entered into a framework agreement on exercising purchase option and certain ancillary agreements including a loan agreement, an equity transfer agreement and an equity pledge agreement on December 1, 2012 with Yuting Zhou and the parties thereunder (collectively, the “CFO Shangtong VIE Amendments”). Pursuant to the CFO Shangtong VIE Amendments, we exercised the purchase option by designating Xun Zhao to purchase all of the equity interests held by Yuting Zhou in CFO Shangtong. Upon the equity transfer, Xun Zhao replaced Yuting Zhou as a shareholder of CFO Shangtong, holding 45% of the equity interests in CFO Shangtong. Xun Zhao and Juanjuan Wang pledged all of their equity interests in CFO Shangtong to CFO Software to guarantee the payment obligations of CFO Shangtong under the technical support agreement and the strategic consulting agreement between CFO Shangtong and CFO Software.

Contractual arrangements with CFO Chuangying and its shareholders

We entered into a series of contractual arrangements with CFO Chuangying and its nominee shareholders (i.e., Zhiwei Zhao and Jun Wang) on November 1, 2012 in (the “CFO Chuangying VIE Contracts”). The CFO Chuangying VIE Contracts are similar to agreements we had entered into with CFO Fuhua and its shareholders, specifically:

Loan Agreement. We entered into a loan agreement with Zhiwei Zhao to extend to Mr. Zhao a loan in the amount of RMB 8,277,500, for the sole purpose of financing his contribution to the registered capital of CFO Chuangying. Zhiwei Zhao can only repay the loans by transferring all of his interest in CFO Chuangying to us or a third party designated by us. When Zhiwei Zhao transfers his interest in CFO Chuangying to us or our designee, if the actual transfer price is higher than the principal amount of the loans, the amount exceeding the principal amount of the loans will be deemed as interest accrued on such loans and repaid by Zhiwei Zhao to us.

We entered into a loan agreement with Jun Wang to extend to Mr. Wang a loan in the amount of RMB 6,772,500 for the sole purpose of financing his contribution to the registered capital of CFO Chuangying subject to the same terms and conditions as the loan agreement we entered into with Zhiwei Zhao as discussed above.

Purchase Option Agreement. Pursuant to a purchase option and cooperation agreement, or the purchase option agreement, entered into among Zhiwei Zhao, Jun Wang, CFO Chuangying and CFO Software on November 1, 2012, Zhiwei Zhao and Jun Wang jointly granted CFO Software an exclusive option to purchase all or any portion of their equity interest in CFO Chuangying, and CFO Chuangying granted us an exclusive option to purchase all of its assets if and when (1) such purchase is permitted under applicable PRC law and (2) to the extent permitted by law, Zhiwei Zhao and/or Jun Wang ceases to be a director or employee of CFO Chuangying, or either Zhiwei Zhao or Jun Wang desires to transfer his equity interest in CFO Chuangying to a party other than the existing shareholders of CFO Chuangying. We may purchase such interest or assets ourselves or designate another party to purchase such interest or assets.

Voting arrangement. Each of Zhiwei Zhao and Jun Wang delivered an executed proxy to us with respect to their voting rights as shareholders of CFO Chuangying.

Share Pledge Agreement. Pursuant to a share pledge agreement, dated November 1, 2012, Zhiwei Zhao and Jun Wang have pledged all of their equity interest in CFO Chuangying to CFO Software to secure the payment obligations of CFO Chuangying under the technical support agreement and the strategic consulting agreement between CFO Chuangying and CFO Software.

We entered into a framework agreement on exercising purchase option and certain ancillary agreements including a loan agreement, an equity transfer agreement and an equity pledge agreement on November 15, 2012 with Zhiwei Zhao, Jun Wang and the parties thereunder (collectively, the “CFO Chuangying VIE Amendments”). Pursuant to the CFO Chuangying VIE Amendments, we exercised the purchase option under the purchase option agreement by (i) designating Xiaowei Wang to purchase all of the equity interests held by Zhiwei Zhao in CFO Chuangying and (ii) designating Na Zhang to purchase all of the equity interests held by Jun Wang in CFO Chuangying. Upon the equity transfer, Xiaowei Wang and Na Zhang became the nominee shareholders of CFO Chuangying, holding 55% and 45% of the equity interests in CFO Chuangying respectively. Xiaowei Wang and Na Zhang pledged all of their equity interests in CFO Chuangying to CFO Software to guarantee the payment obligations of CFO Chuangying under the technical support agreement and the strategic consulting agreement between CFO Chuangying and CFO Software.

The English translation of the VIE contracts are attached as Exhibits 4.4-4.85 to this Annual Report on Form 20-F and incorporated herein by reference.

C. Interests of experts and counsel.

Not applicable

ITEM 8.

FINANCIAL INFORMATION

A. Consolidated financial statements and other financial information.

We have appended consolidated financial statements filed as part of this annual report.

Legal Proceedings

None.

Dividend Policy

We currently intend to retain all available funds and any future earnings for use in the operation and expansion of our business and do not anticipate paying any cash dividends on our ordinary shares, or indirectly on our ADSs, for the foreseeable future. Investors seeking cash dividends should not purchase our ADSs. Future cash dividends, if any, will be at the discretion of our board of directors and will depend upon our future operations and earnings, capital requirements and surplus, general financial condition, contractual restrictions and other factors as our board of directors may deem relevant. In addition, we can pay dividends only out of our profit or other distributable reserves. Any dividend we declare will be paid to the holders of ADSs, subject to the terms of the deposit agreement, to the same extent as holders of our ordinary shares, less the fees and expenses payable under the deposit agreement. Other distributions, if any, will be paid by the depository to holders of our ADSs in any means it deems legal, fair and practical. Any dividend will be distributed by the depository, in the form of cash or additional ADSs, to the holders of our ADSs. Cash dividends on our ADSs, if any, will be paid in U.S. dollars.

B. Significant changes since December 31, 2014.

Except as disclosed elsewhere in this annual report, we have not experienced any significant changes since the date of our audited consolidated financial statements included in this annual report.

ITEM 9.

THE OFFER AND LISTING

A. Offering and listing details.

Our ADSs, each representing five of our ordinary shares, have been listed on the NASDAQ Global Market (known as the Nasdaq National Market prior to July 1, 2006) since October 15, 2004. Effective January 3, 2011, our ADSs have been elevated to trade on the NASDAQ Global Select Market. Our ADSs trade under the symbol "JRJC".

The following table provides the high and low trading prices for our ADSs on NASDAQ for (1) the years 2010, 2011, 2012, 2013 and 2014; (2) each of the quarters since the first quarter in 2013 and (3) each of the six months since October 2014.

	Trading Price	
	High	Low
Yearly highs and lows		
Year 2010	9.10	6.20
Year 2011	7.27	1.43
Year 2012	2.91	1.02
Year 2013	6.45	1.14
Year 2014	11.88	2.33
Quarterly highs and lows		
First Quarter 2013	1.60	1.16
Second Quarter 2013	1.74	1.22
Third Quarter 2013	2.10	1.14
Fourth Quarter 2013	6.45	1.80
First Quarter 2014	8.20	4.12
Second Quarter 2014	6.40	2.33
Third Quarter 2014	11.88	3.83
Fourth Quarter 2014	8.65	4.42
First Quarter 2015	6.75	4.10
Monthly highs and lows		
October 2014	6.88	4.42
November 2014	7.95	5.51
December 2014	8.65	5.24
January 2015	5.70	4.59
February 2015	6.45	4.80
March 2015	6.75	4.10

ITEM 10.

ADDITIONAL INFORMATION

A. Share capital.

Not applicable.

B. Memorandum and articles of association.

We incorporate by reference into this annual report on Form 20-F the description of our amended and restated memorandum of association contained in our registration statement on Form F-1 (File No. 333-119166) filed with the Commission on October 14, 2004. Our shareholders adopted our amended and restated memorandum and articles of association at an extraordinary shareholder meeting on October 14, 2004.

C. Material contracts.

93

We have not entered into any material contracts other than in the ordinary course of business and other than those described in “Item 4. Information on the Company” or elsewhere in this annual report on Form 20-F.

D. Exchange controls.

China’s government imposes control over the convertibility of RMB into foreign currencies. Under the current unified floating exchange rate system, the People’s Bank of China publishes a daily exchange rate for RMB, based on the previous day’s dealings in the inter-bank foreign exchange market. Financial institutions authorized to deal in foreign currency may enter into foreign exchange transactions at exchange rates within an authorized range above or below the daily exchange rate according to market conditions.

Pursuant to the Foreign Exchange Control Regulations issued by the State Council on January 29, 1996 and effective as of April 1, 1996 (and amended on January 14, 1997) and the Administration of Settlement, Sale and Payment of Foreign Exchange Regulations which came into effect on July 1, 1996 regarding foreign exchange control, or the Regulations, conversion of Renminbi into foreign exchange by foreign investment enterprises for current account items, including the distribution of dividends and profits to foreign investors of joint ventures, is permissible upon the proper production of qualified commercial vouchers or legal documents as required by the Regulations. Foreign investment enterprises are permitted to remit foreign exchange from their foreign exchange bank account in China upon the proper production of, inter alia, the board resolutions declaring the distribution of the dividend and payment of profits. Conversion of RMB into foreign currencies and remittance of foreign currencies for capital account items, including direct investment, loans, security investment, is still subject to the approval of the SAFE, in each such transaction. On January 14, 1997, the State Council amended the Foreign Exchange Control Regulations and added, among other things, an important provision, as Article 5 provides that the State shall not impose restrictions on recurring international payments and transfers under current accounts.

Under the Regulations, foreign investment enterprises are required to open and maintain separate foreign exchange accounts for capital account items (but not for other items). In addition, foreign investment enterprises may only buy, sell and/or remit foreign currencies at those banks authorized to conduct foreign exchange business upon the production of valid commercial documents and, in the case of capital account item transactions, document approval from SAFE.

Currently, foreign investment enterprises are required to apply to SAFE for “foreign exchange registration certificates for foreign investment enterprises”. With such foreign exchange registration certificates (which are granted to foreign investment enterprises, upon fulfilling specified conditions and which are subject to review and renewal by SAFE on an annual basis) or with the foreign exchange sales notices from the SAFE (which are obtained on a transaction-by-transaction basis), foreign-invested enterprises may open foreign exchange bank accounts and enter into foreign exchange transactions at banks authorized to conduct foreign exchange business to obtain foreign exchange for their needs.

E. Taxation.

Hong Kong taxation

Profits tax. No tax is imposed in Hong Kong in respect of capital gains from the sale of property, such as the ordinary shares underlying our ADSs. However, trading gains from the sale of property by persons carrying on a trade, profession or business in Hong Kong where such gains are derived from or arise in Hong Kong from such trade, profession or business will be chargeable to Hong Kong profit tax. Liability for Hong Kong profits tax would therefore arise in respect of trading gains from the sale of ADSs or the underlying ordinary shares realized by persons in the course of carrying on a business of trading or dealing in securities in Hong Kong. From the year of assessment 2008/2009, the profits tax rate had been decreased to 16.5% for corporations and 15% for unincorporated businesses.

In addition, Hong Kong does not impose withholding tax on gains derived from the sale of stock in Hong Kong companies and does not impose withholding tax on dividends paid outside of Hong Kong by Hong Kong companies. Accordingly, investors will not be subject to Hong Kong withholding tax with respect to a disposition of their ADSs or with respect to the receipt of dividends on their ADSs, if any. No income tax treaty relevant to the acquiring, withholding or dealing in the ADSs or the ordinary shares underlying our ADSs exists between Hong Kong and the U.S.

Stamp duty. Hong Kong stamp duty is generally payable on the transfer of shares in companies incorporated in Hong Kong. The stamp duty is payable both by the purchaser on every purchase and by the seller on every sale of such shares at the ad valorem rate of HK\$1.00 per HK\$1,000 or part thereof, on the higher of the consideration for or the value of the shares transferred. In addition, a fixed duty, currently of HK\$5, is payable on an instrument of transfer of such shares. Where one party to the sale is a non-resident of Hong Kong and does not pay the required stamp duty, the stamp duty not paid will be assessed on the instrument of transfer of such shares (if any), and the purchaser will be liable for payment of such stamp duty. A withdrawal of ordinary shares upon the surrender of ADSs, and the issuance of ADSs upon the deposit of ordinary shares, will also require payment of Hong Kong stamp duty at the rate described above for sale and purchase transactions, unless such withdrawal or deposit does not result in a change in the beneficial ownership of shares under Hong Kong law. The issuance of the ADSs upon the deposit of ordinary shares issued directly to the depository or for the account of the depository does not require payment of stamp duty. In addition, no Hong Kong stamp duty is payable upon the transfer of ADSs effected outside Hong Kong.

U.S. federal income taxation

This discussion describes the material U.S. federal income tax consequences of the purchase, ownership and disposition of our ADSs. This discussion does not address any aspect of U.S. federal gift or estate tax, or the state, local or foreign tax consequences of an investment in our ADSs. This discussion applies to you only if you hold and beneficially own our ADSs as capital assets for tax purposes. This discussion does not apply to you if you are a member of a class of holders subject to special rules, such as:

- dealers in securities or currencies;
- traders in securities that elect to use a mark-to-market method of accounting for securities holdings;
- banks or other financial institutions;
- insurance companies;
- tax-exempt organizations;
- regulated investment companies or real estate investment trusts;
- U.S. expatriates;
- partnerships and other entities treated as partnerships for U.S. federal income tax purposes or persons holding ADSs through any such entities;

- persons that hold ADSs as part of a hedge, straddle, constructive sale, conversion transaction or other integrated investment;
 - U.S. Holders (as defined below) whose functional currency for tax purposes is not the U.S. dollar;
 - persons liable for alternative minimum tax; or
- persons who actually or constructively own 10% or more of the total combined voting power of all classes of our shares (including ADSs) entitled to vote.

This discussion is based on the U.S. Internal Revenue Code of 1986, as amended, which we refer to in this discussion as the Code, its legislative history, existing and proposed regulations promulgated thereunder, published rulings and court decisions, all as currently in effect. These laws are subject to change, possibly on a retroactive basis. In addition, this discussion relies on our assumptions regarding the value of our shares and the nature of our business over time. Finally, this discussion is based in part upon the representations of the depositary and the assumption that each obligation in the deposit agreement and any related agreement will be performed in accordance with its terms. For U.S. federal income tax purposes, as a holder of ADSs, you are treated as the owner of the underlying ordinary shares represented by such ADSs.

U.S. holders are urged to consult their own tax advisor concerning the particular U.S. federal income tax consequences to you of the purchase, ownership and disposition of our ADSs, as well as the consequences to you arising under the laws of any other taxing jurisdiction.

For purposes of the U.S. federal income tax discussion below, you are a “U.S. Holder” if you beneficially own ADSs and are:

- a citizen or individual resident of the United States;
- a corporation, or other entity taxable as a corporation for U.S. federal income purposes, that was created or organized in or under the laws of the United States or any political subdivision thereof;
- an estate the income of which is subject to U.S. federal income tax regardless of its source; or
- a trust if (a) a court within the United States is able to exercise primary supervision over its administration and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (b) the trust has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

If you are not a U.S. person, please refer to the discussion below under “Non-U.S. Holders”.

For U.S. federal income tax purposes, income earned through a foreign or domestic partnership or other flow-through entity is attributed to its owners. Accordingly, if a partnership or other flow-through entity holds ADSs, the tax treatment of the holder will generally depend on the status of the partner or other owner and the activities of the partnership or other flow-through entity.

U.S. Holders

Dividends on ADSs

We do not anticipate paying dividends on our ordinary shares or indirectly on our ADSs, in the foreseeable future. See “Dividend policy”.

Subject to the “Passive Foreign Investment Company” discussion below, if we do make distributions and you are a U.S. Holder, the gross amount of any distributions you receive on your ADSs will generally be treated as dividend income if the distributions are made from our current or accumulated earnings and profits, calculated according to U.S. federal income tax principles. Dividends will generally be subject to U.S. federal income tax as ordinary income on the day you actually or constructively receive such income. However, if you are an individual and have held your ADSs for a sufficient period of time, dividend distributions on our ADSs will generally constitute qualified dividend income taxed at a preferential rate (generally 15% for dividend distributions before January 1, 2009) as long as our ADSs continue to be readily tradable on NASDAQ and certain other conditions apply. You should consult your own tax adviser as to the rate of tax that will apply to you with respect to dividend distributions, if any, you receive from us.

We do not intend to calculate our earnings and profits according to U.S. tax accounting principles. Accordingly, distributions on our ADSs, if any, will generally be taxed to you as dividend distributions for U.S. tax purposes. Even if you are a corporation, you will not be entitled to claim a dividends-received deduction with respect to distributions you receive from us. Dividends generally will constitute foreign source passive income for U.S. foreign tax credit limitation purposes.

Sales and other dispositions of ADSs

Subject to the “Passive Foreign Investment Company” discussion below, when you sell or otherwise dispose of ADSs, you will generally recognize capital gain or loss in an amount equal to the difference between the amounts realized on the sale or other disposition and your adjusted tax basis in the ADSs, both as determined in U.S. dollars. Your adjusted tax basis will generally equal the amount you paid for the ADSs. Any gain or loss you recognize will be long-term capital gain or loss if your holding period in our ADSs is more than one year at the time of disposition. If you are an individual, any such long-term capital gain will be taxed at preferential rates. Your ability to deduct capital losses will be subject to various limitations.

Passive Foreign Investment Company

Based on the market value of our ADSs and ordinary shares, the composition of our assets and income and our operations, we believe that for our taxable year ended December 31, 2013 and 2014, we were not a passive foreign investment company (“PFIC”) for United States federal income tax purposes. A non-U.S. corporation is considered a PFIC for any taxable year if either:

- at least 75% of its gross income is passive income (the “income test”), or
- at least 50% of the value of its assets (based on an average of the quarterly values of the assets during a taxable year) is attributable to assets that produce or are held for the production of passive income (the “asset test”).

We will be treated as owning our proportionate share of the assets and earning our proportionate share of the income of any other corporation in which we own, directly or indirectly, more than 25% (by value) of the shares.

We must make a separate determination each year as to whether we are a PFIC. As a result, our PFIC status may change. In particular, because the total value of our assets for purposes of the asset test will generally be calculated using the market price of our ADSs and ordinary shares, our PFIC status will depend in large part on the market price of our ADSs and ordinary shares which may fluctuate considerably. Accordingly, fluctuations in the market price of the ADSs and ordinary shares may result in our being a PFIC for any year. If we are a PFIC for any year during which you hold ADS or ordinary shares, we will generally continue to be treated as a PFIC for all succeeding years during

which you hold ADS or ordinary shares. However, if we cease to be a PFIC, provided that you have not made a mark-to-market election, as described below, you may avoid some of the adverse effects of the PFIC regime by making a deemed sale election with respect to the ADSs or ordinary shares, as applicable.

If we are a PFIC for any taxable year during which you hold ADSs or ordinary shares, you will be subject to special tax rules with respect to any “excess distribution” that you receive and any gain you realize from a sale or other disposition (including a pledge) of the ADSs or ordinary shares, unless you make a “mark-to-market” election as discussed below. Distributions you receive in a taxable year that are greater than 125% of the average annual distributions you received during the shorter of the three preceding taxable years or your holding period for the ADSs or ordinary shares will be treated as an excess distribution. Under these special tax rules:

- the excess distribution or gain will be allocated ratably over your holding period for the ADSs or ordinary shares,
- the amount allocated to the current taxable year, and any taxable year prior to the first taxable year in which we became a PFIC, will be treated as ordinary income, and
- the amount allocated to each other taxable year will be subject to the highest tax rate in effect for that taxable year and the interest charge generally applicable to underpayments of tax will be imposed on the resulting tax attributable to each such taxable year.

The tax liability for amounts allocated to years prior to the year of disposition or “excess distribution” cannot be offset by any net operating losses for such years, and gains (but not losses) realized on the sale of the ADSs or ordinary shares cannot be treated as capital, even if you hold the ADSs or ordinary shares as capital assets.

Alternatively, a U.S. Holder of “marketable stock” (as defined below) in a PFIC may make a mark-to-market election for such stock of a PFIC to elect out of the tax treatment discussed in the two preceding paragraphs. If you make a valid mark-to-market election for the ADSs or ordinary shares, you will include in income each year an amount equal to the excess, if any, of the fair market value of the ADSs or ordinary shares as of the close of your taxable year over your adjusted basis in such ADSs or ordinary shares. You are allowed a deduction for the excess, if any, of the adjusted basis of the ADSs or ordinary shares over their fair market value as of the close of the taxable year. Such deductions, however, are allowable only to the extent of any net mark-to-market gains on the ADSs or ordinary shares included in your income for prior taxable years. Amounts included in your income under a mark-to-market election, as well as gain on the actual sale or other disposition of the ADSs or ordinary shares, are treated as ordinary income. Ordinary loss treatment also applies to the deductible portion of any mark-to-market loss on the ADSs or ordinary shares, as well as to any loss realized on the actual sale or disposition of the ADSs or ordinary shares, to the extent that the amount of such loss does not exceed the net mark-to-market gains previously included for such ADSs or ordinary shares. Your basis in the ADSs or ordinary shares will be adjusted to reflect any such income or loss amounts. If you make such a mark-to-market election, tax rules that apply to distributions by corporations which are not PFICs would apply to distributions by us (except that the lower applicable capital gains rate would not apply).

The mark-to-market election is available only for “marketable stock” which is stock that is traded in other than de minimis quantities on at least 15 days during each calendar quarter (“regularly traded”) on a qualified exchange or other market, as defined in applicable Treasury regulations. We expect that the ADSs will continue to be listed on the Nasdaq National Market, which is a qualified exchange for these purposes, and, consequently, assuming that the ADSs are regularly traded, if you are a holder of ADSs, it is expected that the mark-to-market election would be available to you were we to become a PFIC.

Alternatively, if a non-U.S. corporation is a PFIC, a U.S. Holder may avoid the PFIC tax consequences described above in respect to its ADSs and ordinary shares by making a timely “qualified electing fund”, or QEF, election. In order to comply with the requirements of a QEF election, a U.S. Holder must receive certain information from us. We, however, currently do not intend to prepare or provide such information.

If you hold ADSs or ordinary shares in any year in which we are a PFIC, you will be required to file Internal Revenue Service Form 8621 regarding distributions received on the ADSs or ordinary shares and any gain realized on the disposition of the ADSs or ordinary shares.

You are urged to consult your tax advisor regarding the application of the PFIC rules to your investment in ADSs or ordinary shares.

Non-U.S. Holders

If you beneficially own ADSs and are not a U.S. Holder for U.S. federal income tax purposes (a “Non-U.S. Holder”), you generally will not be subject to U.S. federal income tax or withholding on dividends received from us with respect to ADSs unless that income is considered effectively connected with your conduct of a U.S. trade or business and, if an applicable income tax treaty so requires as a condition for you to be subject to U.S. federal income tax with respect to income from your ADSs, such dividends are attributable to a permanent establishment that you maintain in the United States. You generally will not be subject to U.S. federal income tax, including withholding tax, on any gain realized upon the sale or exchange of ADSs, unless:

- that gain is effectively connected with the conduct of a U.S. trade or business and, if an applicable income tax treaty so requires as a condition for you to be subject to U.S. federal income tax with respect to income from your ADSs, such gain is attributable to a permanent establishment that you maintain in the United States; or
- you are a nonresident alien individual and are present in the United States for at least 183 days in the taxable year of the sale or other disposition and either (1) your gain is attributable to an office or other fixed place of business that you maintain in the United States or (2) you have a tax home in the United States.

If you are engaged in a U.S. trade or business, unless an applicable tax treaty provides otherwise, the income from your ADSs, including dividends and the gain from the disposition of ADSs, that is effectively connected with the conduct of that trade or business will generally be subject to the rules applicable to U.S. Holders discussed above. In addition, if you are a corporation, you may be subject to an additional branch profits tax at a rate of 30% or any lower rate under an applicable tax treaty.

U.S. information reporting and backup withholding rules

In general, dividend payments with respect to the ADSs and the proceeds received on the sale or other disposition of those ADSs may be subject to information reporting to the IRS and to backup withholding (currently imposed at a rate of 28%). Backup withholding will not apply, however, if you (1) are a corporation or come within certain other exempt categories and, when required, can demonstrate that fact or (2) provide a taxpayer identification number, certify as to no loss of exemption from backup withholding and otherwise comply with the applicable backup withholding rules. To establish your status as an exempt person, you will generally be required to provide certification on IRS Form W-9, W-8BEN or W-8ECI, as applicable. Any amounts withheld from payments to you under the backup withholding rules will be allowed as a refund or a credit against your U.S. federal income tax liability, provide that you furnish the required information to the IRS.

Additional Reporting Requirements

Effective for taxable years beginning after March 18, 2010, individuals and, to the extent provided by the U.S. Secretary of Treasury in regulations or other guidance, certain domestic entities that hold an interest in a “specified foreign financial asset” will be required to attach certain information regarding such assets to their income tax return for any year in which the aggregate value of all such assets exceeds US\$50,000. A “specified foreign financial asset” includes any depository or custodial accounts at foreign financial institutions, non-publicly traded debt or equity interests in a foreign financial institution, and to the extent not held in an account at a financial institution, (i) stocks or securities issued by non-U.S. persons; (ii) any financial instrument or contract held for investment that has an issuer or counterparty which is non-U.S. person; and (iii) any interest in a non-U.S. entity. Penalties may be imposed for the failure to disclosure such information regarding specified foreign financial assets. You are urged to consult your tax advisors regarding the potential reporting requirements that may be imposed by this new legislation with respect to ownership of ADSs or ordinary shares.

New Legislation Regarding Medicare Tax

For taxable years beginning after December 31, 2012, certain U.S. Holders that are individuals, estates or trusts will be subject to a 3.8% tax on all or a portion of their “net investment income,” which may include all or a portion of their dividends and net gains from the sale or other disposition of ordinary shares. If you are a U.S. Holder that is an individual, estate or trust, you should consult your tax advisors regarding the applicability of the Medicare tax to your income and gains in respect of your investment in our ordinary shares.

HOLDERS OF OUR ADSs SHOULD CONSULT WITH THEIR OWN TAX ADVISORS REGARDING THE APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO THEIR PARTICULAR SITUATIONS AS WELL AS ANY TAX CONSEQUENCES RESULTING FROM PURCHASING, HOLDING OR DISPOSING OF THE ADSs, INCLUDING THE APPLICABILITY AND EFFECT OF THE TAX LAWS OF ANY STATE, LOCAL OR FOREIGN JURISDICTION AND INCLUDING ESTATE, GIFT AND INHERITANCE LAWS.

F. Dividends and paying agents.

Not applicable.

G. Statement by experts.

Not applicable.

H. Documents on display.

We have previously filed with the Commission our registration statement on Form F-1, as amended, and our prospectus under the Securities Act, with respect to our ordinary shares.

We are subject to the periodic reporting and other informational requirements of the Exchange Act. Under the Exchange Act, we are required to file reports and other information with the SEC. Specifically, we are required to file annually a Form 20-F within four months after the end of each fiscal year for fiscal years ending on or after December 15, 2012. Copies of reports and other information, when so filed, may be inspected without charge and may be obtained at prescribed rates at the public reference facilities maintained by the SEC at 100 F Street, N.E., Washington, D.C. 20549. The public may obtain information regarding the Washington, D.C. Public Reference Room by calling the Commission at 1-800-SEC-0330. The SEC also maintains a Web site at www.sec.gov that contains reports, proxy and information statements, and other information regarding registrants that make electronic filings with the SEC using its EDGAR system. As a foreign private issuer, we are exempt from the rules under the Exchange Act

prescribing the furnishing and content of quarterly reports and proxy statements, and officers, directors and principal shareholders are exempt from the reporting and short-swing profit recovery provisions contained in Section 16 of the Exchange Act.

100

Our financial statements have been prepared in accordance with U.S. GAAP.

In accordance with NASDAQ Stock Market Rule 5250(d), we will post this annual report on Form 20-F on our website at <http://ir.chinafinanceonline.com>. In addition, we will provide hardcopies of our annual report on Form 20-F free of charge to shareholders and ADS holders upon request.

D. American Depository Shares

Fees and Charges Payable by ADS Holders

According to the deposit agreement between us and the depositary, JPMorgan Chase Bank N.A., our ADR holders may have to pay the following fees and charges to JPMorgan Chase Bank N.A. in connection with ownership of the ADR:

Category	Depository actions	Associated fee
(a) Depositing or substituting the underlying shares	Each person to whom ADSs are issued against deposits of shares, including deposits and issuances in respect of: u Share distributions, stock dividend, stock split, merger u Exchange of securities or any other transaction or event affecting the ADSs or the deposited securities	US\$5.00 for each 100 ADSs (or portion thereof) evidenced by the ADRs issued
(b) Receiving or distributing dividends	Distribution of cash dividends	US\$0.02 or less per ADS
(c) Selling or exercising rights	Distribution or sale of securities, the fee being in an amount equal to the fee for the execution and delivery of ADSs which would have been charged as a result of the deposit of such securities	Up to US\$5.00 for each 100 ADSs (or portion thereof)
(d) Withdrawing an underlying security	Acceptance of ADRs surrendered for withdrawal of deposited securities	US\$5.00 for each 100 ADSs (or portion thereof) evidenced by the ADRs surrendered
(e) Transferring, splitting or grouping receipts	Transfers of depository receipts	US\$1.50 per ADS
Category	Depository actions	Associated fee
(f) General depository services, particularly those charged on an annual basis	Services performed by the depository in administering the ADRs	US\$0.02 per ADS (or portion thereof) not more than once each calendar year and payable at the sole discretion of the depository by billing ADR Holders or by deducting such charge from one or more cash dividends or other cash distributions

(g) Expenses of the Depositary	Expenses incurred on behalf of ADR Holders in connection with: <ul style="list-style-type: none"> • Compliance with foreign exchange control regulations or any law or regulation relating to foreign investment • The depositary's or its custodian's compliance with applicable law, rule or regulation • Stock transfer or other taxes and other governmental charges • Cable, telex and facsimile transmission and delivery charges • Fees for the transfer or registration of deposited securities in connection with the deposit or withdrawal of deposited securities • Expenses of the depositary in connection with the conversion of foreign currency into U.S. dollars (which are paid out of such foreign currency) • Any other charge payable by depositary or its agents in connection with the servicing of the shares or the deposited securities 	Expenses payable at the sole discretion of the depositary by billing ADR Holders or by deducting such charges from one or more cash dividends or other cash distributions
--------------------------------	--	---

We will pay all other charges and expenses of the depositary and any agent of the depositary (except the custodian) pursuant to agreements from time to time between us and the depositary. The fees described above may be amended from time to time.

Fees and Payments from the Depositary to Us

The depositary has agreed to reimburse us annually for our expenses incurred in connection with the administration and maintenance of our ADS facility including, but not limited to, investor relations expenses, exchange listing fees or any other program related expenses. The depositary has also agreed to provide additional payments to us based on the applicable performance indicators relating to our ADS facility. There are limits on the amount of expenses for which the depositary will reimburse us. In 2014, we entered into a new contract with the depositary, which started from May 22, 2014. We were entitled to receive the maximum amount as US\$295,000 for the periods between October 1, 2013 and May 21, 2014 and US\$270,000 for the year between May 22, 2014 and May 21, 2015 (after withholding tax) from the depositary as reimbursement for our expenses incurred in connection with, among other things, investor relationship programs related to the ADS facility.

ITEM 15.

CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has performed an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of December 31, 2014. Based on that evaluation, management, including our Chief Executive Officer and Chief Financial Officer, has concluded that our disclosure controls and procedures as of December 31, 2014 were effective.

Disclosure controls and procedures are designed to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act (i) is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms and (ii) is accumulated and communicated to our management, including our CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

Management's Annual Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Securities and Exchange Act of 1934. Our internal control over financial reporting is a process designed by, or under the supervision of, our Chief Executive Officer and Chief Financial Officer and effected by our management and other personnel to provide reasonable assurance regarding the reliability of our financial reporting and the preparation of our financial statements for external reporting purposes in accordance with U.S. GAAP. Internal control over financial reporting includes policies and procedures that pertain to the maintenance of records that in reasonable detail accurately reflect the transactions and dispositions of our assets; provide reasonable assurance that transactions are recorded as necessary to permit preparation of our financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with the authorization of our board of directors and management; and provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on our financial statements.

Because of inherent limitations, internal control over financial reporting may not prevent or detect misstatement. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with our policies and procedures may deteriorate.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, management conducted an evaluation of the effectiveness of our internal control over financial reporting based on the criteria established in the 1992 Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Management has concluded that our internal control over financial reporting was effective as of December 31, 2014.

This annual report does not include an attestation report of the company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to the rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this annual report.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the period covered by this annual report on Form 20-F that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 16A. AUDIT COMMITTEE FINANCIAL EXPERT

See Item 6.C. of this annual report, “Directors, Senior Management and Employees — Board Practices”.

Our board of directors has concluded that Mr. Kheng Nam Lee, a member of our audit committee, meets the criteria for an “audit committee financial expert” as established by the U.S. SEC.

Mr. Kheng Nam Lee will not be deemed an “expert” for any purpose, including, without limitation, for purposes of section 11 of the Securities Act as a result of being designated or identified as an audit committee financial expert. The designation or identification of Mr. Kheng Nam Lee as an audit committee financial expert does not impose on him any duties, obligations or liability that are greater than the duties, obligations and liability imposed on him as a member of the audit committee and board of directors in the absence of such designation or identification. The designation or identification of Mr. Kheng Nam Lee as an audit committee financial expert does not affect the duties, obligations or liability of any other member of the audit committee or board of directors.

ITEM 16B. CODE OF ETHICS

See Item 6.C. of this annual report, “Directors, Senior Management and Employees — Board Practices”.

Our board of directors has adopted a code of ethics, which is applicable to our senior executives and financial officers and any other persons who perform similar functions for us. We have posted the text of our code of ethics on our Internet website at http://www.chinafinanceonline.com/list/en_CorporateGovernance.shtml.

ITEM 16C. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Our independent accountant for the audit of our annual financial statements for fiscal year ended December 31, 2014 is BDO China Shu Lun Pan Certified Public Accountants LLP (“BDO China”). For the fiscal years ended December 31, 2012 and December 31, 2013 was Grant Thornton China. The following table sets forth the aggregate fees by category specified below in connection with certain professional services for the periods indicated. We did not pay any other fees to our independent registered public accounting firms during the periods indicated below.

	For the Year Ended December 31,		
	2014	2013	2012
Audit Fees(1)	US\$ 630,000	US\$ 433,000	US\$ 594,000
Audit Related Fees	-	-	-
Tax Fees(2)	-	-	-
All Other Fees	-	-	-

(1) “Audit Fees” means the aggregate fees in each of the fiscal years listed for professional services rendered by BDO China or Grant Thornton China, as applicable. For the audit of our annual financial statements, review of interim financial statements and attestation services that are provided in connection with statutory and regulatory filings or engagements.

(2) "Tax Fees" means the aggregate fees billed in each of the fiscal years listed for professional tax services rendered by BDO China or Grant Thornton China, as applicable.

Audit Committee Pre-approval Policies and Procedures

Our audit committee has adopted procedures which set forth the manner in which the committee will review and approve all audit and non-audit services to be provided by our independent accountant before that firm is retained for such services. The pre-approval procedures are as follows:

·Any audit or non-audit service to be provided to us by the independent accountant must be submitted to the audit committee for review and approval, with a description of the services to be performed and the fees to be charged.

·The audit committee in its sole discretion then approves or disapproves the proposed services and documents such approval, if given, through written resolutions or in the minutes of meetings, as the case may be.

CHINA FINANCE ONLINE CO. LIMITED

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Shareholders
China Finance Online Co., Limited.

We have audited the accompanying consolidated balance sheets of China Finance Online Co., Limited, its subsidiaries, its variable interest entities ("VIEs") and its VIEs' subsidiaries (the "Group") as of December 31, 2014 and 2013, and the related consolidated statements of comprehensive income, changes in shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2014. Our audit of the basic consolidated financial statements included the financial statement schedule listed in the index appearing under Schedule I. These financial statements and financial statement schedule are the responsibility of the Group's management. Our responsibility is to express an opinion on these financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Group's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of China Finance Online Co., Limited, its subsidiaries, its VIEs and its VIEs' subsidiaries as of December 31, 2014 and 2013, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2014 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly, in all material respects, the information set forth therein.

Note: Under Hong Kong Companies Ordinance (Cap.622), which came into force on March 3, 2014, the concept of authorized share capital no longer exists. In accordance with the said Ordinance, the Company's shares no longer have a par value. There is no impact on the number of shares in issue or the relevant entitlement of any of the shareholders as a result of this transition. In addition, in accordance with the transitional provisions set out in section 37 of Schedule 11 to the said Ordinance, any amount outstanding to the credit of the share premium has become part of the Company's share capital.

CHINA FINANCE ONLINE CO. LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014

(In U.S. dollars)

1. ORGANIZATION AND PRINCIPAL ACTIVITIES

China Finance Online Co. Limited ("China Finance Online" or the "Company") was incorporated in Hong Kong on November 2, 1998. China Finance Online, its subsidiaries, its variable interest entities ("VIEs") and its VIEs' subsidiaries (collectively, the "Group") is a leading web-based financial services company in China.

The company provides Chinese retail investors with online access to securities, commodities and wealth management products, as well as financial database and analytics services to institutional customers. The Company's two prominent flagship portal sites www.jrj.com and www.stockstar.com, are ranked among the top financial websites in China. In addition to the web-based securities trading platform, the Company offers basic financial software, information services and securities investment advisory services to retail investors in China. Through its subsidiary, Shenzhen Genius Information Technology Co., Ltd., the Company provides financial database and analytics to institutional customers including domestic financial, research, academic and regulatory institutions. China Finance Online also provides brokerage services in Hong Kong.

Details of China Finance Online's significant subsidiaries, VIEs and VIEs' subsidiaries as of December 31, 2014 were as follows:

CHINA FINANCE ONLINE CO. LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014
(In U.S. dollars)

1. ORGANIZATION AND PRINCIPAL ACTIVITIES - continued

The consolidated financial statements of the Group include the financial statements of the Company and its controlled operating entities including the subsidiaries and the variable interest entities for which the Company is the primary beneficiary. A variable interest entity is the entity in which the Company, through contractual arrangements as the primary beneficiary, bears the risks of, and enjoys the rewards normally associated with ownership of the entity.

People's Republic of China ("PRC") regulations prohibit or restrict direct foreign ownership of business entities providing certain services in PRC, such as internet content service and securities investment advisory service. In order to comply with these regulations, China Finance Online, through its subsidiaries, entered into contractual arrangements with the Company's VIEs and their equity owners who are PRC citizens.

The Group made loans to the shareholders of the VIEs solely for the purposes of capitalizing the VIEs. Pursuant to the loan agreements, these loans can only be repaid by transferring all of their interests in the VIEs to the Group or a third party designated by the Group. The Group has entered into proxy agreements or power of attorney and exclusive equity purchase option agreements with the VIEs and nominee shareholders of the VIEs through the Company's wholly owned significant subsidiaries including CFO Beijing, CFO Software, CFO Zhengyong and CFO Zhengtong (collectively, the "WFOEs" and each a "WFOE"). The foregoing agreements provide the WFOEs the right to direct the activities that most significantly affect the economic performance of the VIEs and to acquire the equity interests in the VIEs when permitted by the PRC laws, respectively. Certain exclusive agreements have been entered into with the VIEs through the WFOEs, which obligate the WFOEs to absorb the majority of the risk of loss from the VIEs' activities and entitle the WFOEs to receive the majority of their residual returns. In addition, the Group has entered into share pledge agreements for the equity interests in the VIEs held by the shareholders of the VIEs.

Despite the lack of technical majority ownership, the agreements with the VIEs provide the WFOEs with effective control over and the ability to receive substantially all of the economic benefits of its VIEs, resembling a parent-subsidiary relationship between the WFOEs and the VIEs. The shareholders of the VIEs effectively assigned all of their voting rights underlying their equity interest in the VIEs to the WFOEs. In addition, through the other exclusive agreements, which consist of strategic consulting services agreement, technical support services agreement and operating support services agreement, the WFOEs demonstrate their ability and intention to continue to exercise the ability to absorb substantially all of the profits and all of the expected losses of the VIEs. The VIEs are subject to operating risks, which determine the variability of the Company's interest in those entities. Based on these contractual arrangements, the Company consolidates the VIEs as required by SEC Regulation SX-3A-02 and Accounting Standards Codification ("ASC") Topic 810 ("ASC 810") because the Company holds all the variable interests of the VIEs through the WFOEs.

CHINA FINANCE ONLINE CO. LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014
(In U.S. dollars)

1. ORGANIZATION AND PRINCIPAL ACTIVITIES - continued

The principal terms of the agreements entered into amongst the VIEs, their respective shareholders and the WFOEs are further described below.

Exclusive technology consulting and management service agreement

Pursuant to a series of technology support and service agreements, the WOFEs retain exclusive right to provide the VIEs and their subsidiaries technology support and consulting services and exclusive management consulting service. As a result of these services, the WOFEs are entitled to charge the VIEs and their subsidiaries annual service fees. The terms of the strategic consulting services agreement, the technical support services agreement and the operating support services agreement are twenty, ten and ten years, respectively, and these agreements will be automatically renewed on applicable expiration dates, unless the contracting WOFE informs the corresponding VIE its intention to terminate such contract one month prior to the applicable expiration date. Notwithstanding the foregoing, none of the parties has a right to terminate the service contracts. The principal services agreements that the WOFEs have entered into with VIEs include:

- strategic consulting services agreement, pursuant to which the amount of the fee to be charged is 30% of each VIE's income before tax;
- technical support services agreement, pursuant to which the amount of the fee to be charged is 30% of each VIE's income before tax; and
- operating support services agreement, pursuant to which the amount of the fee to be charged is 40% of each VIE's income before tax.

CHINA FINANCE ONLINE CO. LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014
(In U.S. dollars)

1. ORGANIZATION AND PRINCIPAL ACTIVITIES – continued

Exclusive purchase right agreement on the equity interest of the VIEs

Pursuant to the purchase option agreement, the WOFEs have the unconditional right to purchase the entire equity interest in, or all the assets of the VIEs at a price equal to the total principal amount of the loan lent by the WOFEs to the shareholders of the VIEs when and if such purchase is permitted by the PRC law or the current shareholders of the VIEs cease to be directors or employees of the VIEs. The term of the exclusive purchase right agreement is perpetual and can be terminated at the discretion of the WOFEs.

Power of attorney

Pursuant to the power of attorney, each of the shareholders of the VIEs have executed an irrevocable power of attorney assigning the WOFEs or individuals designated by the WOFEs as their attorney-in-fact to vote on their behalf on all matters of the VIEs requiring shareholder approval under PRC laws and regulations and the articles of association of VIEs.

The Articles of Incorporation of the VIE state that the major rights of the shareholders include the right to appoint directors, the general manager and other senior management. Therefore, through the irrevocable power of attorney arrangement, the WOFEs have the ability to exercise effective control over the VIEs through shareholder votes and, through such votes, to also control the composition of the board of directors. In addition, the senior management team of the VIEs is the same as that of the WOFEs. The term of the power of attorney is twenty years and will be automatically renewed on the expiration date. The contract can be terminated at the discretion of the WOFEs.

Pledge agreement

Pursuant to the equity pledge agreement between the WOFEs and the shareholders of the VIEs, the shareholders of the VIEs pledged all of their equity interests in the VIEs to the WOFEs to guarantee the VIEs' performance of its obligations under the exclusive technology consulting and service agreement. If the VIEs breach their contractual obligations under that agreement, the WOFEs, as the pledge, will be entitled to certain rights, including the rights to sell the pledged equity interests. The shareholders of the VIEs agree that, without prior written consent of the WOFEs, they will not transfer, sell, and dispose of or create any encumbrance on their equity interest in the VIEs. The term of the pledge agreement is twenty years and will be automatically renewed on the expiration date, unless the WOFEs inform the VIEs of their intention to terminate the agreement one month prior to the expiration date.

Through these contractual agreements, the WOFEs have the ability to effectively control the VIEs and are also able to receive substantially all the economic benefits of the VIEs.

CHINA FINANCE ONLINE CO. LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - continued
 FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014
 (In U.S. dollars)

1. ORGANIZATION AND PRINCIPAL ACTIVITIES - continued

Details of significant VIEs and their counterparts which substantially control the VIEs as of December 31, 2014 were as follows:

VIE name	Contractual arrangement	Date counterpart
CFO Fuhua	May 27, 2004	CFO Beijing
CFO Chongzhi	June 8, 2008	CFO Software
CFO Newrand	October 17, 2008	CFO Zhengyong
CFO Qicheng	November 20, 2009	CFO Chuangying
Stockstar Wealth Management	April 12, 2011	CFO Zhengtong
CFO Securities Consulting	May 14, 2014	CFO Software

Risks in relation to the VIE structure

The Company's ability to control the VIEs also depends on the power of attorney the WOFEs have to vote on all matters requiring shareholder approval in the VIEs. As noted above, the Company believes this power of attorney is legally enforceable but may not be as effective as direct equity ownership.

In addition, if the legal structure and contractual arrangements were found to be in violation of any existing PRC laws and regulations, the regulatory authorities may exercise their discretion and

- revoke the business and operating licenses of our PRC subsidiaries or VIEs;
- restrict the rights to collect revenues from any of our PRC subsidiaries;
- discontinue or restrict the operations of any related-party transactions among our PRC subsidiaries or VIEs;
 - require our PRC subsidiaries or VIEs to restructure the relevant ownership structure or operations;
- take other regulatory or enforcement actions, including levying fines that could be harmful to our business; or
 - impose additional conditions or requirements with which we may not be able to comply.

The imposition of any of these penalties may result in a material adverse effect on the Company's ability to conduct its business. In addition, if the imposition of any of these penalties causes the Company to lose the rights to direct the activities of the VIEs and their subsidiaries or the right to receive their economic benefits, the Company would no longer be able to consolidate the VIEs. The Company does not believe that any penalties imposed or actions taken by the PRC Government would result in the liquidation of the Company, its subsidiaries, or the VIEs.

CHINA FINANCE ONLINE CO. LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - continued
 FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014
 (In U.S. dollars)

1. ORGANIZATION AND PRINCIPAL ACTIVITIES – continued

The Company has consolidated its VIEs because it was the primary beneficiary of those entities. Through the contractual agreements discussed above, the Company, through its wholly owned subsidiaries, has (1) the power to direct the activities of the VIEs that most significantly affect the entities' economic performance and (2) the right to receive benefits from the VIEs, therefore it consolidates the VIEs.

The consolidated VIEs operate securities investment advisory business and precious metals trading business. The following table presents the most important revenue-producing assets to operate securities investment advisory business and precious metals trading business, respectively. Each of which was recognized in the Company's consolidated financial statements.

	December 31 ,	
	2013	2014
Securities investment advisory business:		
Securities consulting license	\$ 5,012,884	\$ -
Precious metals business:		
Precious metals trading right	1,295,740	1,291,061
Completed technology	47,608	-
Customer relationship	1,188,530	894,219
	\$ 2,531,878	\$ 2,185,280
	\$ 7,544,762	\$ 2,185,280

The VIEs also hold important unrecognized revenue-producing assets, such as our domain names and Internet Content Provider Licenses with respect to www.jrj.com and www.stockstar.com and certain value-added technologies, which were also considered revenue-producing assets. However, none of such assets were recorded on the Company's consolidated balance sheets as such assets were all acquired or internally developed with insignificant costs and expenses incurred.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - continued
FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014
(In U.S. dollars)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The consolidated financial statements of the Group have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Basis of consolidation

The consolidated financial statements include the financial statements of China Finance Online, its subsidiaries, VIEs for which the Company is the primary beneficiary and those VIEs' subsidiaries. All inter-company transactions and balances have been eliminated upon consolidation.

Cash and cash equivalents

Cash and cash equivalents consist of cash on hand and highly liquid investments which are unrestricted as to withdrawal or use, and which have original maturities of three months or less when purchased.

Restricted cash

Restricted cash is the deposit in bank accounts for providing guarantee to subscription revenue customers by CFO Securities Consulting in accordance with the requirement of China Securities Regulatory Commission ("CSRC"). The restriction period is one year.

Fair value

Fair value is the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required or permitted to be recorded at fair value, the Group considers the principal or most advantageous market in which it would transact and it considers assumptions that market participants would use when pricing the asset or liability.

(In U.S. dollars)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Fair value - continued

Authoritative literature provides a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The level in the hierarchy within which the fair value measurement in its entirety falls is based upon the lowest level of input that is significant to the fair value measurement as follows:

Level 1-inputs are based upon unadjusted quoted prices for identical instruments traded in active markets.

Level 2-inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3-inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

The Group measures certain assets, including the long-term investments and intangible assets, at fair value on a nonrecurring basis when they are deemed to be impaired. The fair values of these investments and intangible assets are determined based on valuation techniques using the best information available, and may include management judgments, future performance projections, etc.

Trust bank balances held on behalf of customers

Trust bank balances held on behalf of customers consist two parts: i) iSTAR Securities and iSTAR Futures receive fund from customers for purpose of buying or selling securities and futures on behalf of its customers and deposits the fund in its interest-bearing bank account; ii) The funds received by CFO Newrand from customers who purchase mutual funds and other wealth management products which are deposited in a trust bank account. The Group launched "Yinglibao", an internet-based financial platform that integrates cash management solutions and mutual fund distribution. Such bank balance represents an asset of the Group for the amounts due to customers for the trust bank balance held on their behalf and payable to customers on demand. The Group also recognizes a corresponding liability.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and revenue and expenses in the financial statements and accompanying notes. Significant accounting estimates reflected in the Group's financial statements include account receivable, cost method investment, impairment of goodwill and long-lived assets, income taxes, share-based compensation and purchase price allocation. Actual results could differ from those estimates.

Loan receivable

Loans are reported at either their outstanding principal balances. For loans reported at their outstanding principal balances, interest income is accrued on the unpaid principal balance. A loan is considered impaired when, based on current events and the financial condition of the borrower, it is probable that the company will be unable to collect all principal and interest due according to the contractual terms of the loan agreement. Loan collectability is monitored by the Group in connection with the ongoing monitoring of the associated financial guarantee transactions.

Short-term investments

Short-term investments comprise marketable debt and equity securities, which are classified as trading, held-to-maturity or available-for-sale. Trading securities are securities that are bought and held principally for the purpose of selling them in the near term and are reported at fair value, with unrealized gains and losses recognized in earnings. Short-term investments are classified as held-to-maturity when the Company has the positive intent and ability to hold the securities to maturity. All of the Company's held-to-maturity securities are classified as short-term investments on the consolidated balance sheets based on their contractual maturity dates which are less than one year and are stated at their amortized costs. Short-term investments classified as available for sale are carried at their fair values and the unrealized gains or losses from the changes in fair values are included in accumulated other comprehensive income. Available for sale securities are classified as current assets on the accompanying consolidated balance sheets because they are available for immediate sale.

The Group reviews its short-term investments for other-than-temporary impairment based on the specific identification method. The Company considers available quantitative and qualitative evidence in evaluating potential impairment of its short-term investments. If the cost of an investment exceeds the investment's fair value, the Group considers, among other factors, general market conditions, government economic plans, the duration and the extent to which the fair value of the investment is less than the cost, and the Group's intent and ability to hold the investment, in determining if impairment is needed.

 FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014
 (In U.S. dollars)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Property and equipment, net

Property and equipment, net are carried at cost less accumulated depreciation. Depreciation is calculated on a straight-line basis over the following estimated useful lives:

Technology infrastructure (years)	5
Computer equipment (years)	5
Furniture, fixtures and equipment (years)	5
Motor vehicle (years)	5
Leasehold improvements	Shorter of the lease term or 5 years

Acquired intangible assets, net

Acquired intangible assets are estimated by management based on the fair value of assets acquired. Identifiable intangible assets are carried at cost less accumulated amortization. Amortization of definite-lived intangible assets is computed using the straight-line method over the estimated average useful lives, which are as follows:

License and related trademarks (years)	15
Completed technology (years)	5
Customer relationship (years)	4- 5

Certain trademarks resulting from the acquisitions of business and certain trading rights bought by the Company are determined to have indefinite lives. If an intangible asset is determined to have an indefinite life, it is not amortized until its useful life is determined to be no longer indefinite.

Guarantee fund deposits

Guarantee fund deposits consist of i) the funds deposited with Hong Kong Exchange and Clearing Limited by iSTAR Futures, to guarantee its customers' settlement obligations; ii) the funds deposited with the precious metals exchanges as a result of its customers' trading. The Group needs to deposit certain percentage of its customers' trading margins with the exchanges.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - continued
FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014
(In U.S. dollars)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Impairment of long-lived assets with definite lives

The Group reviews its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may no longer be recoverable. When these events occur, the Group compares the carrying value of the long-lived assets to the estimated undiscounted future cash flows expected to result from the use of the assets and their eventual disposition. If the sum of the expected undiscounted cash flow is less than the carrying amount of the assets, the Group would recognize an impairment loss based on the fair value of the assets. There were nil, nil and \$1,802,125 impairment losses in relation to the long-lived assets with definite lives for the years ended December 31, 2012, 2013 and 2014.

Business combinations

Business combinations are recorded using the acquisition method of accounting. The assets acquired, the liabilities assumed, and any noncontrolling interest of the acquiree at the acquisition date, if any, are measured at their fair values as of that date. Goodwill is recognized and measured as the excess of the total consideration transferred plus the fair value of any noncontrolling interest of the acquiree, if any, at the acquisition date over the fair values of the identifiable net assets acquired. Common forms of the consideration made in acquisitions include cash and common equity instruments. Consideration transferred in a business acquisition is measured at the fair value as at the date of acquisition.

Where the consideration in an acquisition includes contingent consideration the payment of which depends on the achievement of certain specified conditions post-acquisition, the contingent consideration is recognized and measured at its fair value at the acquisition date and if recorded as a liability it is subsequently carried at fair value with changes in fair value reflected in earnings.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - continued
FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014
(In U.S. dollars)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Impairment of goodwill and indefinite-lived intangible assets

The Group performs a qualitative analysis that includes reviewing the carrying value of intangible assets not subject to amortization, including goodwill, to determine whether impairment may exist, whenever events or changes in circumstances indicate that the carrying amount of an asset may no longer be recoverable at least annually.

The excess of the purchase price over the fair value of net assets acquired is recorded on the consolidated balance sheet as goodwill. After a qualitative analysis indicates an impairment test is needed, the Company completes a two-step goodwill impairment test. The first step is to compare the fair values of each reporting unit to its carrying amount, including goodwill. If the fair value of each reporting unit exceeds its carrying amount, goodwill is not considered to be impaired and the second step will not be required. If the carrying amount of a reporting unit exceeds its fair value, the second step is to compare the implied fair value of goodwill to the carrying value of a reporting unit's goodwill. The implied fair value of goodwill is determined in a manner similar to accounting for a business combination with the allocation of the assessed fair value determined in the first step to the assets and liabilities of the reporting unit. The excess of the fair value of the reporting unit over the amounts assigned to the assets and liabilities is the implied fair value of goodwill. An impairment loss is recognized for any excess in the carrying value of goodwill over the implied fair value of goodwill. Estimating fair value is performed by utilizing various valuation techniques, with the primary technique being a discounted cash flow.

The impairment test for other intangible assets not subject to amortization consists of a comparison of the fair value of the intangible asset with its carrying value. If the carrying value of the intangible asset exceeds its fair value, an impairment loss is recognized in an amount equal to that excess. The estimates of fair values of intangible assets not subject to amortization are determined using various discounted cash flow valuation methodologies. Significant assumptions are inherent in this process, including estimates of discount rates. Discount rate assumptions are based on an assessment of the risk inherent in the respective intangible assets.

The Group performed the annual impairment tests on December 31 of each year. Based on the Group's assessment, the Group recorded nil, nil and \$8,149,525 goodwill impairment losses during the years ended December 31, 2012, 2013 and 2014, respectively. In addition, there was no impairment loss in relation to intangible assets with indefinite life during the years ended December 31, 2012, 2013 and 2014.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

Financial Instruments and Derivatives

Financial instruments owned and sold, not yet purchased, at fair value consist of financial instruments carried at fair value or amounts that approximate fair value, with related unrealized changes in gains or losses recognized in earnings, except for securities classified as available-for-sale. The fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The Group utilizes derivative instruments to manage exposures to commodity price risks for the Group and its customers in its precious metals business. The Group's objectives for holding derivatives include reducing, eliminating, and efficiently managing the economic impact of these exposures as effectively as possible. Derivative instruments are recognized as either assets or liabilities and are measured at fair value. The accounting for changes in the fair value of a derivative depends on the intended use of the derivative and the resulting designation. For a derivative instrument designated as a cash flow hedge, the effective portion of the derivative's gain or loss is initially recorded in OCI, net of tax, and is subsequently recognized in earnings when the hedged exposure affects earnings. The ineffective portion of the gain or loss is recognized in earnings. Gains and losses from changes in fair values of derivatives that are not designated as cash flow hedges for accounting purposes are recognized in earnings. The Group has no derivatives as of December 31, 2013 and 2014.

The Group's derivative contracts consist of commodity based derivatives. Fair values of exchange-traded derivatives are generally determined from quoted market prices. Where possible, the Group verifies the values produced by pricing models by comparing them to market transactions. Inputs may involve judgment where market prices are not readily available. The Group does not elect hedge accounting under the Derivatives and Hedging Topic of the ASC in accounting for derivatives used as economic hedges on its commodities.

The Group may also hold proprietary positions in its precious metals line of business. On a limited basis, the Group's precious metals trade desk will accept a customer transaction and could offset that transaction with a similar but not identical position with counterparty. These unmatched transactions are intended to be short-term in nature and are often conducted to facilitate the most effective transaction for the Group's customer. These spot contracts are accounted for as free-standing derivatives and reported in the consolidated balance sheets at their fair values. The Group does not seek hedge accounting treatment for these derivatives, and accordingly, the changes in fair value during the period are recorded in the consolidated statements of comprehensive income. The Group has no open proprietary positions as of December 31, 2013 and 2014.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

Revenue recognition

Precious metals trading

In 2013, The Group launched precious metal trading business and derives commission income, carrying charges and trading revenues from its precious metals trading services.

Commission income is recognized on a trade basis based on their customers' trading volumes. The commission earned is fixed no matter how the client's open positions are ultimately settled. Additionally, the Group charges carrying charges to its customers. The commissions and carrying charges are presented in net revenues in the statement of comprehensive income.

Amounts are settled with the Exchange by both the Group and the customers and the exchange then settles with any counterparty. The exchange offsets the Group's gains and losses and amounts receivable and amounts payable from the exchange are presented net on the statement of financial position as the Group and the exchange settle net.

Trading gains, net include brokerage fees and margins generated from derivative trades executed with customers and other counterparties and are recognized when trades are executed. Trading gains, net also include activities where the Group acts as market maker in the purchase and sale of commodities derivative instruments with customers. These transactions may be offset simultaneously with another customer or counterparty, offset with similar but not identical positions on an exchange, made from inventory, or may be aggregated with other purchases to provide liquidity intraday, for a number of days, or in some cases, particularly the precious metals business, even longer periods (during which fair value may fluctuate). Therefore, trading gains, net includes activities from the Group's operations of a proprietary commodity trades. Net trading gains are recognized on a trade-date basis and include realized gains or losses and changes in unrealized gains or losses on investments at fair value.

Unrealized gains/losses on open positions will be marked to market at each period end and may present trading gains and losses which comprise both realized and unrealized gains and losses, on a net basis in the statement of comprehensive income. The open transactions may lead to receivables and/or payables for open transaction which are recorded on the Statement of Financial Position.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Revenue recognition- continued

Hong Kong Brokerage services

The Group also derives commission from its brokerage services provided by the subsidiaries, iSTAR Securities and iSTAR Futures which buy or sell securities and futures on their customers' behalf. The Group acts as an agent with their customers for these transactions. The commission income is recognized on a trade date basis as transactions occur.

Financial information and advisory services

The Group derives revenue from annual subscription fees from subscribers to their financial data, information services and investment advisory. The Group recognizes revenues when all of the following criteria are met: (1) persuasive evidence of an arrangement exists, (2) delivery has occurred, (3) the fee is fixed or determinable and (4) collectability is probable. Upon receipt of the upfront cash payments from the subscriber, the Group will activate the subscriber's account and provide the subscriber the access code. This will commence a certain subscription period according to the customer demand and the full payment will be deferred and recognized ratably over the subscription period. The Group recognizes revenue ratably over the life of the arrangement. Estimated refund of subscription fees is recorded as deduction of revenue and deferred revenue.

Advertising revenue

The Group derives its advertising fees from advertising sales on their website for a fixed period of time, generally less than one year. Revenues from advertising arrangements are recognized ratably over the period the advertising is displayed.

FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014
(In U.S. dollars)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

Business taxes and value added taxes

Effective January 1, 2012, the PRC Ministry of Finance and the State Administration of Taxation launched a Business Tax to value added tax ("VAT") Transformation Pilot Program(the "Pilot Program"), for certain industries in Shanghai. On September 1, 2012, the PRC Ministry of Finance and the State Administration of Taxation extended the Pilot Program to certain industries in other eight regions, including Beijing and Shenzhen. With the adoption of Pilot Program, our advertising-related revenues and certain subscription revenues were subject to VAT tax at a rate of 6%. Our advertising- related revenues, certain subscription revenues and certain precious metals trading revenues were recognized after deducting VAT and other related surcharges.

Revenue is recorded net of business taxes when incurred. The Group is subject to business taxes of 3%-5% on taxable services provided to its customers. During the years ended December 31, 2012, 2013, and 2014, business taxes and related surcharges totaled \$639,880, \$598,044 and \$1,425,835, respectively.

The Group's certain PRC subsidiaries, VIEs and VIEs' subsidiaries are subject to VAT at a rate of 17% on subscription-based revenue. VAT payable on subscription-based revenue is computed net of VAT paid on purchases. In respect of subscription-based revenue, however, if the net amount of VAT payable exceeds 3% of subscription-based revenue, the excess portion of value added tax can be refunded immediately.

The Group therefore is subject to an effective net VAT burden of 3% from subscription-based revenue and records VAT on a net basis. Net amount of value added tax is recorded either in the line item of other current liabilities or prepaid expenses and other current assets on the face of consolidated balance sheet.

Subscription-based revenue includes the benefit of the rebate of value added taxes on sale of the downloadable software received from the Chinese tax authorities as part of the PRC government policy of encouraging software development in the PRC. In 2012, 2013 and 2014, the Group recognized \$1,348,564, \$639,936 and \$425,908, respectively, in VAT refunds.

Government subsidies

The Group records government subsidies when granted by local government authority and are not subject to future return. The government subsidies include research & development subsidy, business tax refund, innovation fund and high-tech company subsidy.

Deferred revenue

Payments received in advance of for our financial information and advisory service, advertising service are recorded as deferred revenue until earned and when the relevant revenue recognition requirements have been met.

CHINA FINANCE ONLINE CO. LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - continued
FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014
(In U.S. dollars)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

Cost method investment

For investments in an investee over which the Group does not have significant influence, the Group carries the investment at cost and recognizes income as any dividends declared from distribution of investee's earnings. The Group reviews the cost method investments for impairment whenever events or changes in circumstances indicate that the carrying value may no longer be recoverable. An impairment loss is recognized in earnings equal to the difference between the investment's cost and its fair value at the balance sheet date of the reporting period for which the assessment is made. The fair value of the investment would then become the new cost basis of the investment.

Equity method investment

Under the equity method, the Company initially records its investment at cost. The Company subsequently adjusts the carrying amount of the investment to recognize the Company's proportionate share of each equity investee's net income or loss. The Company will discontinue applying equity method if an investment (and additional financial supports to the investee, if any) has been reduced to zero. When the equity-method investment in ordinary shares is reduced to zero and further investments are made that have a higher liquidation preference than ordinary shares, the Company would recognize the loss based on its percentage of the investment with the same liquidation preference, and the loss would be applied to those investments of a lower liquidation preference first before being further applied to the investments of a higher liquidation preference. An impairment loss on the equity method investments is recognized in the consolidated statements of comprehensive income when the decline in value is determined to be other than-temporary.

Foreign currency translation

The functional and reporting currency of the Company is the United States dollar ("U.S. dollar"). The financial records of the Group's subsidiaries, VIEs and VIEs' subsidiaries located in the PRC, Hong Kong and British Virgin Islands are maintained in their local currencies, the Renminbi ("RMB"), Hong Kong Dollars ("HK\$"), and U.S. Dollars ("US\$"), respectively, which are also the functional currencies of these entities.

Monetary assets and liabilities denominated in currencies other than the functional currency are translated into the functional currency at the rates of exchange ruling at the balance sheet date. Transactions in currencies other than the functional currency during the year are converted into functional currency at the applicable rates of exchange prevailing when the transactions occurred. Transaction gains and losses are recognized in the statements of operations.

The Group's entities with functional currency of RMB and HK\$ translate their operating results and financial position into the US\$, the Group's reporting currency. Assets and liabilities are translated using the exchange rates in effect on the balance sheet date. Revenues, expenses, gains and losses are translated using the average rate for the year. Translation adjustments are report as cumulative translation adjustments and are shown as a separate component of other comprehensive income.

CHINA FINANCE ONLINE CO. LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - continued
FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014
(In U.S. dollars)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

Foreign currency risk

The RMB is not a freely convertible currency. The State Administration for Foreign Exchange, under the authority of the People's Bank of China, controls the conversion of Renminbi into foreign currencies. The value of the RMB is subject to changes in central government policies and to international economic and political developments affecting supply and demand in the China Foreign Exchange Trading System market. Cash and cash equivalents of the Group included aggregate amounts of \$26,848,249, \$26,974,664 and \$19,726,992 at December 31, 2012, 2013 and 2014 which were denominated in RMB.

Product development expenses

Costs of product development, including investment in data capability, are expensed as incurred until technological feasibility has been established, at which time any additional costs would be capitalized. The Group essentially completed its development concurrently with the establishment of technological feasibility, and, accordingly, no costs have been capitalized.

Advertising costs

The Group expenses advertising costs as incurred. Total advertising expenses were \$753,107, \$2,391,762 and \$7,505,506 for the years ended December 31, 2012, 2013 and 2014, respectively, and have been included as part of sales and marketing expenses in the accompanying consolidated statements of operations.

Commissions paid

Commissions paid are the commission rebates paid to the account executives of our Hong Kong brokerage business and the commissions paid to the sales agents of our precious metals trading business. Total commissions paid were \$161,035, \$3,125,982 and \$11,546,126 for the years ended December 31, 2012, 2013 and 2014.

Income taxes

Current income taxes are provided for in accordance with the laws of the relevant tax authorities. Deferred income taxes are recognized for temporary differences between the tax basis of assets and liabilities and their reported amounts in the financial statements, net operating loss carry forwards and credits by applying enacted statutory tax rates applicable to future years. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

The impact of an uncertain income tax position on the income tax return is recognized at the largest amount that is more-likely-than not to be sustained upon audit by the relevant tax authority. An uncertain income tax position will not be recognized if it has less than a 50% likelihood of being sustained. Interest and penalties on income taxes will be classified as a component of the provisions for income taxes.

FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014
(In U.S. dollars)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

Comprehensive income (loss)

Comprehensive income (loss) includes net income (loss), unrealized gain (loss) on short-term investments and foreign currency translation adjustments. Beginning in January 1, 2012, the Group presents the components of net income, the components of other comprehensive income and total comprehensive income a single continuous consolidated statement of comprehensive income.

Fair value of financial instruments

Financial instruments include cash and cash equivalents, restricted cash, accounts receivable, cost method investment, loan receivable and accounts payable.

The carrying values of cash and cash equivalents, restricted cash, accounts receivable, loan receivable and accounts payable approximate their fair value due to their short-term maturities.

The carrying value of the cost method investment was \$1,138,899 and \$1,217,617 as of December 31, 2013 and 2014, which approximate the fair value of the investment based on the valuation performed by the Company.

The Group does not use derivative instruments to manage risks.

Share-based compensation

Share-based compensation with employees is measured based on the grant date fair value of the equity instrument. The Group recognizes the compensation costs net of an estimated forfeiture rate using the straight-line method for performance based awards or graded vesting attribution method for service based awards, over the requisite service period of the award, which is generally the vesting period of the award. The estimate of forfeitures will be adjusted over the requisite service period to the extent that actual forfeitures differ, or are expected to differ, from such estimates. Changes in estimated forfeitures will be recognized through a cumulative catch-up adjustment in the period of change and will also impact the amount of share-based compensation expense to be recognized in future periods.

Share awards issued to nonemployees are measured at fair value at the earlier of the commitment date or the date the services is completed and recognized over the period the service is provided or as goods is received.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

Net income (loss) per share

Basic net income (loss) per share attributable to China Finance Online Co. Limited is computed by dividing net income (loss) attributable to China Finance Online Co. Limited by the weighted average number of ordinary shares outstanding during the period. Diluted net income per ordinary share attributable to China Finance Online Co. Limited reflects the potential dilution that could occur if securities or other contracts to issue ordinary shares were exercised or converted into ordinary shares. The dilutive effect of the stock options and nonvested shares is computed using treasury stock method.

Concentrations of credit risk

Financial instruments that potentially expose the Group to concentrations of credit risk consist principally of cash and cash equivalents, restricted cash, short-term investments, loan receivable and accounts receivable. The Group places its cash and cash equivalents, restricted cash, short-term investments, loan receivable and accounts receivable in major financial institutions located in PRC and Hong Kong, which management considers to be of high credit quality.

The Group conducts ongoing credit evaluations of its customers and generally does not require collateral or other security from its customers except for the accounts receivable-margin clients which represents the margin loan to customers for securities purchase. The accounts receivable-margin client was collateralized by the securities the margin client purchased. The Group manages its credit risk by collecting up-front fee from its customers and billing at regular intervals during the contract period. The Group assesses the adequacy of allowance for doubtful accounts primarily based upon the age of the receivables and factors surrounding the credit risk of specific customers.

Details of clients accounting for 10% or more of accounts receivable are as follows:

	Year ended December 31,			
	2013		2014	
	Amount	%	Amount	%
A	\$ 3,885,608	18.2	\$ -	-
B	*	*	\$ 1,963,900	13.5
C	*	*	\$ 5,044,178	34.6

* Represented less than 10% of consolidated account receivable balance.

There were no customers with 10% or more of the Group's revenues during 2012, 2013, or 2014.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Recently accounting pronouncements

In April 2014, the Financial Accounting Standards Board ("FASB") issued ASU No. 2014-08, "Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity" ("ASU 2014-08"). The new guidance changes the criteria for reporting discontinued operations while enhancing disclosures in this area. Under the new guidance, only disposals representing a strategic shift in operations should be presented as discontinued operations. Those strategic shifts should have a major effect on the organization's operations and financial results. Additionally, ASU 2014-08 requires expanded disclosures about discontinued operations that will provide financial statement users with more information about the assets, liabilities, income, and expenses of discontinued operations. The new guidance also requires disclosure of the pre-tax income attributable to a disposal of a significant part of an organization that does not qualify for discontinued operations reporting. ASU 2014-08 is effective for the Company in the first quarter of fiscal 2015. Early adoption is permitted, but only for disposals (or classifications as held for sale) that have not been reported in financial statements previously issued or available for issuance. The Group is in the process of evaluating the impact of the standard on its consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers (Topic 606)" ("ASU 2014-09"). ASU 2014-09 will eliminate transaction-specific and industry-specific revenue recognition guidance under current U.S. GAAP and replace it with a principle-based approach for determining revenue recognition. ASU 2014-09 will require that companies recognize revenue based on the value of transferred goods or services as they occur in the contract. The ASU also will require additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. ASU 2014-09 is effective for reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early adoption is not permitted. Entities can transition to the standard either retrospectively or as a cumulative effect adjustment as of the date of adoption. The Group is in the process of evaluating the impact of the standard on its consolidated financial statements.

On August 27, 2014, the FASB issued ASU 2014-15, "Disclosure of Uncertainties About an Entity's Ability to Continue as a Going Concern", which provides guidance on determining when and how reporting entities must disclose going-concern uncertainties in their financial statements. The new standard requires management to perform interim and annual assessments of an entity's ability to continue as a going concern within one year of the date of issuance of the entity's financial statements. Further, an entity must provide certain disclosures if there is "substantial doubt about the entity's ability to continue as a going concern." The FASB believes that requiring management to perform the assessment will enhance the timeliness, clarity, and consistency of related disclosures and improve convergence with IFRSs (which emphasize management's responsibility for performing the going-concern assessment). However, the time horizon for the assessment (look-forward period) and the disclosure thresholds under U.S. GAAP and IFRSs will continue to differ. The ASU is effective for annual periods ending after December 15, 2016, and interim periods thereafter; early adoption is permitted. The Group does not anticipate that this adoption will have a significant impact on its financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Recently accounting pronouncements- continued

In January 2015, the FASB issued ASU 2015-01 "Income Statement- Extraordinary and Unusual Items (Subtopic 225-20)". This Update eliminates from GAAP the concept of extraordinary items, required that an entity separately classify, present, and disclose extraordinary events and transactions. The Board concluded that the amendments in this Update will not result in a loss of information because although the amendments will eliminate the requirements in Subtopic 225-20 for reporting entities to consider whether an underlying event or transaction is extraordinary, the presentation and disclosure guidance for items that are unusual in nature or occur infrequently will be retained and will be expanded to include items that are both unusual in nature and infrequently occurring. The amendments in this Update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. A reporting entity may apply the amendments prospectively. A reporting entity also may apply the amendments retrospectively to all prior periods presented in the financial statements. Early adoption is permitted provided that the guidance is applied from the beginning of the fiscal year of adoption. The Group does not anticipate that this adoption will have a significant impact on its financial statements.

In February 2015, the FASB issued ASU 2015-02, "Consolidation (Topic 810): Amendments to the Consolidation Analysis". The Board is issuing the amendments in this Update to respond to stakeholders' concerns about the current accounting for consolidation of certain legal entities. The amendments in this Update affect reporting entities that are required to evaluate whether they should consolidate certain legal entities. All legal entities are subject to reevaluation under the revised consolidation model. Under the amendments in this Update, all reporting entities are within the scope of Subtopic 810-10, Consolidation - Overall, including limited partnerships and similar legal entities, unless a scope exception applies. The presumption that a general partner controls a limited partnership has been eliminated. In addition, fees paid to decision makers that meet certain conditions no longer cause decision makers to consolidate VIEs in certain instances. The amendments place more emphasis in the consolidation evaluation on variable interests other than fee arrangements such as principal investment risk (for example, debt or equity interests), guarantees of the value of the assets or liabilities of the VIE, written put options on the assets of the VIE, or similar obligations, including some liquidity commitments or agreements (explicit or implicit). Additionally, the amendments in this Update reduce the extent to which related party arrangements cause an entity to be considered a primary beneficiary. The amendments in this Update are effective for public business entities for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2015. For all other entities, the amendments in this Update are effective for fiscal years beginning after December 15, 2016, and for interim periods within fiscal years beginning after December 15, 2017. The Group is in the process of evaluating the impact of the standard on its consolidated financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Recently accounting pronouncements- continued

In April 2015, the FASB issued ASU 2015-03, "Interest- Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs", which regards to the different balance sheet presentation requirements for debt issuance costs and debt discount and premium. To simplify presentation of debt issuance costs, the amendments in this update require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this update. For public business entities, the amendments in this update are effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. Early adoption of the amendments in this Update is permitted for financial statements that have not been previously issued. An entity should apply the new guidance on a retrospective basis, wherein the balance sheet of each individual period presented should be adjusted to reflect the period-specific effects of applying the new guidance. Upon transition, an entity is required to comply with the applicable disclosures for a change in an accounting principle. These disclosures include the nature of and reason for the change in accounting principle, the transition method, a description of the prior-period information that has been retrospectively adjusted, and the effect of the change on the financial statement line items (that is, debt issuance cost asset and the debt liability). The Group does not anticipate that this adoption will have a significant impact on its financial statements.

6. CONSIDERATION RECEIVABLE

In order to enhance our return on cash during the strategic transition period, in March 2013, the Group made an equity method investment to a real estate developer in Langfang City, Hebei Province (the "Lang Fang Developer"). The Group invested an aggregate \$22,142,400 in consideration for 49% of its equity interests. In December 2013, the Company transferred this investment to two third party companies at the consideration of \$24,930,702. As of December 31, 2013, the Company has collected \$11,481,244 in cash. The carrying balance of consideration receivable was \$13,449,458 and \$13,400,882 as of December 31, 2013 and 2014, respectively. (Note 26)

The consideration receivable was pledged by the 100% equity interests of Langfang Developer. As of December 31, 2014, based on the valuation of the 100% equity interests of Langfang Developer performed by a third party appraiser, there was no impairment loss of the consideration receivable.

7. PREPAID EXPENSES AND OTHER CURRENT ASSETS

Prepaid expenses and other current assets consist of the following:

	December 31,	
	2013	2014
Prepayment of advertising fees	\$281,590	\$ 213,837
Advertising deposit	250,837	355,390
Advances to suppliers	1,182,555	840,308
VAT refund receivable	141,292	139,908
Interest receivable	419,991	1,264,075
Prepayment of office rental	185,698	380,325
Amount due from noncontrolling shareholders (i)	-	2,393,645
Sales of cost method investment receivable (Note 11)	-	2,168,868
Other current assets	844,716	784,507
	\$3,306,679	\$ 8,540,863

(i) The due from noncontrolling shareholders represents the interest free loans to the noncontrolling shareholders. Pursuant to the agreement, all the loans were for temporary cash turnover purpose and should be repaid before June 30, 2015.

(In U.S. dollars)

8. LOAN RECEIVABLE

The Group has loan receivable due from third parties, which consisted of the following:

	As of December 31,		Interest rate	Period
	2013	2014		
A(i)	\$ 10,333,120	\$ 10,295,800	1.5% per month	October 9, 2013 to October 20, 2014
			19 - 21 % per annum	October 21, 2014 to December 31, 2014
	\$ 10,333,120	\$ 10,295,800		

(i) The loan was made to the Langfang Developer, in which the Group also made an equity method investment in 2013 (Note 6). The principal and its return are pledged by the 100% equity interests of Langfang Developer.

In September 2014, the Company's board of directors approved an extension of the outstanding loan to December 31, 2014.

As of December 31, 2014, based on the valuation of the 100% equity interests of Langfang Developer performed by a third party appraiser, there was no impairment loss of the loan. (Note 26)

The following table presents changes in loan receivable for the twelve-month period ended December 31, 2013 and 2014, respectively:

	December 31,	
	2013	2014
Beginning balance	\$ 1,205,604	\$ 10,333,120
Additions	10,333,120	-
Collection	(995,190)	-
Write-offs	(209,956)	-
Exchange difference	(458)	(37,320)
Ending balance	\$ 10,333,120	\$ 10,295,800

9. SHORT-TERM INVESTMENTS

The Group measured the trading securities at fair value based on quoted market prices in an active market. As a result the Group has determined the valuation of its trading securities falls within Level 1 of the fair value hierarchy. As of December 31, 2013 and 2014, the Group did not hold any trading securities. Gains from the trading securities were recognized in the consolidated statement of operations for the years ended December 31, 2012 and 2013 were \$113,152 and nil, respectively. For the year ended December 2014, the Group recognized a loss from the trading securities of \$47,941 in the consolidated statement of comprehensive income.

 (In U.S. dollars)

10. FAIR VALUE MEASUREMENT

Fair value disclosed or measured on a recurring basis

The fair values of the Group's trading securities and available-for-sale securities as measured, held-to-maturity securities as disclosed are determined based on the discounted cash flow method.

The Group's financial assets measured or disclosed at fair value on a recurring basis both were nil as of December 31, 2013 and 2014.

The Group measured the available-for-sale securities at the fair value shown by the financial institution which the Group believes a Level 2 valuation.

The following table presents changes in level 2 available-for-sale securities measured on a recurring basis for the twelve-month period ended December 31, 2013 and 2014, respectively:

	December 31,	
	2013	2014
Beginning balance	\$ -	\$ -
Purchases	81,664,295	90,205,903
Redemption	(81,824,078)	(90,323,594)
Realized gain	127,835	106,392
Exchange difference	31,948	11,299
Ending balance	\$ -	\$ -

Fair value disclosed or measured on a non-recurring basis

The Group measured the fair value of acquired intangible assets using the income approach valuation methodology. These acquired intangible assets are considered Level 3 assets because the Group used unobservable inputs, such as forecast financial performance of the acquired business and discount rates, to determine the fair value of these acquired assets.

11. COST METHOD INVESTMENT

In 2012, the Group made a cost method investment. The carrying amount of the cost method investments was \$802,202 as of December 31, 2012. As result of an addition investment of \$309,698 in 2013, the carrying balance of such investment was \$1,138,899 as of December 31, 2013.

In 2014, the Group made another cost method investment of \$81,064. The total carrying balance of such cost method investments were \$1,217,617 as of December 31, 2014.

In 2014, the Company sold its equity interests in Ocean Butterflies Holdings Inc. to a third party, which was fully impaired as of December 31, 2011. Gains from the disposal of cost method investment recognized in the consolidated statement of comprehensive income for the year ended December 31, 2014 was \$4,337,736, of which \$2,168,868 was remained receivable as of December 31, 2014 (Note 7 and Note 26).

These investments are recorded as cost method investments, as the Company did not have a significant influence to the investee. There was no impairment of the Group's cost method investment for the year ended December 31, 2013 and 2014.

12. EQUITY METHOD INVESTMENT

In March, 2013, the Company's Board of Directors approved and authorized the Group's participation in a real estate project. Pursuant to the investment agreement entered into in connection with the real estate project, the Group owned 49% of the equity interest with a consideration of \$21,525,608. In December, 2013, the Group transferred the total 49% of the equity interest to a third party. Gains from the equity method investment recognized in the consolidated statement of comprehensive income for the year ended December 31, 2013 were \$2,773,839.

The investee meets the definition of variable interest entity (VIE). The Group consolidates all entities that control by ownership of a majority voting interest as well as variable interest entities for which the Group is the primary beneficiary. The primary beneficiary of a variable interest entity is the party that absorbs a majority of the entity's expected losses, receives a majority of its expected residual returns, or both, as a result of holding variable interests, which are the ownership, contractual, or other pecuniary interests in an entity that change with changes in the fair value of the entity's net assets excluding variable interests.

For the 49% equity investment on the VIE, the Group will not absorb a majority of the VIE's expected losses, or receive a majority of the VIE's expected residual returns, therefore the Group is not the primary beneficiary of the VIE. Since the Group has the ability to significantly influence over the operating and financial policies of the VIE, the Group treated the investment using equity method accounting.

Balance as of December 31, 2014	\$ 7,089,780	\$-	\$-	\$7,089,780

During the third quarter of 2013, the Group made a series of business acquisition and restructures. The Company has re-categorized its reporting units to better reflect the evolving nature of its businesses and reallocated its goodwill. The goodwill related to acquisition of CFO Tahoe was allocated to precious metals trading reporting unit; the goodwill related to the acquisition of CFO East Win, CFO Netinfo and Champion Connection's investment advisory business were allocated to investment advisory services reporting unit and the goodwill related to the acquisition of Champion Connection's institutional subscription business were allocated to the institutional reporting unit.

In the second quarter of 2014, due to the new business redirection to develop our online brokerage services "Securities Master", the Group was expected to suffer reduced cash flow in its investment advisory reporting unit. With the assistance of a third party appraiser, the Group recognized an impairment loss of \$8,149,525 related to the investment advisory services reporting unit. On June 1, 2014, the Group disposed all of goodwill related to the institutional reporting unit of \$1,676,490 as a result of the business restructure (Note 4). The Group also performed a goodwill impairment test related to precious metals trading business as of December 31, 2014 and no impairment loss was recorded.

FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014
(In U.S. dollars)

15. GOODWILL- continued

In the goodwill impairment test, the Group used the income approach, which it believed to be more reliable than the market approach in determining the fair value of the Group's reporting units. Accordingly, it adopted a discounted cash flow ("DCF") method under the income approach, which considers a number of factors that include expected future cash flows, growth rates, discount rates, and comparable multiples from publicly traded companies in the industry and requires the Group to make certain assumptions and estimates regarding industry economic factors and future profitability of its business unit. The assumptions are inherently uncertain and subjective.

Based on the impairment tests performed, the Group recognized impairment losses of nil, nil and \$8,149,525 for the years ended December 31, 2012, 2013 and 2014, respectively.

18. STOCK OPTIONS AND NONVESTED SHARES

As of December 31, 2014, the Company and its subsidiaries have six share-based compensation plans, which are described below. The compensation cost that has been charged against income for those plans was \$802,725, \$3,035,122, and \$4,698,953 for 2012, 2013, and 2014, respectively.

2004 Stock incentive plan

In January 2004, the Company adopted the 2004 stock incentive plan (the "2004 Plan") which allows the Company to offer a variety of incentive awards to employees, directors, officers and other eligible persons in the Group, and consultants and advisors outside the Group. We amend the 2004 Plan in September 2004, August 2006, June 2009 and June 2010. The total number of ordinary shares authorized under the 2004 Plan was 30,688,488, and all of these authorized ordinary shares were granted to directors, officers, employees and non-employees as of December 31, 2014.

Options to employees

During 2013, the Company granted totaling 7,740,000 stock options to directors, officers and employees at an exercise price that equaled the trading price of the stock upon the stock option grant. These options vest over 3 years except the 3,300,000 shares granted to the two officers which vest over 2 years.

The fair value of employee options was estimated on the basis of the Black-Scholes Option Pricing model with the following assumptions:

	Years ended December 31, 2013	
Weighted average risk free rate of return	1.40	%
Weighted average expected option life (years)		6.14
Expected volatility rate	76.67	%
Dividend yield	-

2004 Stock incentive plan - continued

Options to employees - continued

(1) Expected volatility

The volatility of the underlying ordinary shares during the life of the options was estimated based on the historical stock price volatility of the Company over the past years.

(2) Risk-free interest rate

Risk-free interest rate was estimated based on the yield to maturity of treasury bonds of the United States with a maturity period close to the expected term of the options.

(3) Expected option life

The expected life was estimated based on historical information.

(4) Dividend yield

The dividend yield was estimated by the Company based on its expected dividend policy over the expected term of the options.

(5) Exercise price

Options are generally granted at an exercise price equal to the fair market value of the Company's shares at the date of grant.

2004 Stock incentive plan - continued

Options to non-employees

During 2013, the Company granted 6,260,000 options under the 2004 Plan to consultants and strategic advisers. The fair value of non-employee options is estimated using the Black-Scholes Option Pricing model as such method provided a more accurate estimate of the fair value of services provided by the consultants and strategic advisers. The fair value of the stock options is remeasured as of the end of each reporting period until the services of these non-employees are complete under the service contracts. These options vest over one year.

Summary of stock options to employees and non-employees

A summary of the stock option activity is as follows:

	2012		2013		2014	
	Number of options	Weighted average exercise price	Number of options	Weighted average exercise price	Number of options	Weighted average exercise price

Summary of stock options to employees and non-employees - continued

The weighted-average grant-date fair value of options granted during the years 2012, 2013 and 2014 was nil, \$0.17 and nil, respectively. The total intrinsic value of options exercised during the years ended December 31, 2012, 2013 and 2014 was \$1,360, \$208,895, and \$647,701, respectively. The total fair value of shares vested during the year ended December 31, 2012, 2013 and 2014 were \$663,519, \$141,549 and \$3,080,628, respectively.

As of December 31, 2013, 1,100,240 ordinary shares were available for future grant of awards. The Company recognized share-based compensation expenses of \$207,678, \$2,539,274 and \$2,664,317 for stock option in the years ended December 31, 2012, 2013 and 2014, respectively.

As of December 31, 2014, there were \$918,890 unrecognized share-based compensation expenses relating to the stock options, which are expected to be recognized over a weighted average period of two year.

Restricted shares to employees

On January 2, 2014, the Company granted remaining 1,100,240 ordinary shares, which were in the form of restricted shares, to employees under 2004 Plan. The vesting of the restricted shares is subject to rendering service to the Company for three years. Based on the Company's requisite service period stated in the 2004 Plan, 396,086 shares were vested as of January 2, 2015, of which 108,000 shares were issued to an employee as of December 31, 2014. The fair value of restricted shares is \$1.106, which equal to the fair market value of the Company's shares at the date of grant. The Company recognized share-based compensation expenses of \$762,568. As of December 31, 2014, there were \$454,297 unrecognized share-based compensation expenses relating to the restricted shares, which are expected to be recognized over a weighted average period of two years.

2007 Equity incentive plan

In July 2007, the Company adopted the 2007 Equity incentive plan (the "2007 Plan") and granted nonvested shares covering 10,558,493 ordinary shares of the Company to the employees who were eligible for the 2007 Plan. The vesting of the nonvested shares are subject to achieving certain operating performance targets and rendering service to the Company for the requisite service period stated in the 2007 Plan. Based on the Company's operating performance, 8,658,048 shares were vested as of December 31, 2010.

In June 2014, the Annual General Meeting approved the amendment to the 2007 Plan and the Restricted Stock Issuance and Allocation Agreement of 2007 Plan. Pursuant to such agreement, together with the remaining 1,900,445 ordinary shares which were not vested due to the operating performance targets under 2007 Plan not being achieved, 3,000,000 ordinary shares were collectively granted to the employees who were eligible. The fair value of a nonvested share on the grant date was measured at the quoted market price of the Company's equity shares. The nonvested shares shall become activated and vest during the period commencing from the grant date and ending on December 31, 2016 based on the Company's achievement of the performance targets.

As of December 31, 2014, there was no nonvested shares become activated and vested due to the performance targets were not achieved, and nil share-based compensation expenses relating to the nonvested shares was recognized.

A summary of the status of the nonvested shares as of December 31, 2012, 2013 and 2014, and changes during the year ended December 31, 2014 is presented below.

2010 Equity incentive plan of iSTAR Financial Holdings

In November 2010, iSTAR Financial Holdings, a subsidiary of the Company, implemented the "2010 equity incentive plan" (the "2010 Plan") under which the Company transferred 1,500 nonvested shares which representing 15% of total iSTAR Financial Holdings' equity interest to its management group as a share incentive. If the grantees left the Company before the third anniversary of the grant date when the nonvested shares become vested, they should transfer the shares to the Company at no consideration. Therefore, the total share based compensation expenses are recognized ratably over the three years of vesting period. In addition, as the grantees are entitled to all the shareholder's rights, including the dividend rights since the date of grant, the 15% share of the earnings of iSTAR Financial Holdings is recognized as noncontrolling interest on the Company's consolidated financial statements since November 1, 2010, the date of grant.

The fair value of the share incentive was determined to be \$1,188 per share. The Group recognized \$595,049, \$495,848 and nil share based compensation cost in 2012, 2013 and 2014, respectively.

As of December 31, 2013, all compensation cost relating to nonvested shares was recognized.

2014 Stock incentive plan

In July 2014, the Company adopted the 2014 stock incentive plan (the "2014 Plan") which allows the Company to offer a variety of incentive awards to employees, directors, officers and other eligible persons in the Group, and consultants and advisors outside the Group. The total number of ordinary shares authorized under the 2014 Plan was 5,000,000 as of December 31, 2014.

2014 Stock incentive plan – continued

Options to employees

During 2014, the Company granted totaling 1,930,000 stock options to employees at an exercise price that equaled the trading price of the stock upon the stock option grant. These options vest over 3 years.

The fair value of employee options was estimated on the basis of the Black-Scholes Option Price model with the following assumptions:

	Years ended December 31,2014		
Weighted average risk free rate of return	1.39%	-	1.62%
Weighted average expected option life (years)	6.82-		6.87
Expected volatility rate	77.74%	-	79.37%
Dividend yield		-	

(1) Expected volatility

The volatility of the underlying ordinary shares during the life of the options was estimated based on the historical stock price volatility of the Company over the past years.

(2) Risk-free interest rate

Risk-free interest rate was estimated based on the yield to maturity of treasury bonds of the United States with a maturity period close to the expected term of the options.

(3) Expected option life

The expected life was estimated based on historical information.

(4) Dividend yield

The dividend yield was estimated by the Company based on its expected dividend policy over the expected term of the options.

(5) Exercise price

Options are generally granted at an exercise price equal to the fair market value of the Company's shares at the date of grant.

18. STOCK OPTIONS AND NONVESTED SHARES – continued

2014 Stock incentive plan – continued

Summary of stock options to employees and non-employees – continued

The weighted-average grant-date fair value of options granted during the years 2014 was \$0.63. The total intrinsic value of options exercised during the years ended December 31, 2014 was nil. The total fair value of shares vested during the year ended December 31, 2014 was nil.

As of December 31, 2014, 210,000 shares were available for future grant of awards. The Company recognized share-based compensation expenses of \$148,451 for stock option in the years ended December 31, 2014.

As of December 31, 2014, there were \$870,776 unrecognized share-based compensation expenses relating to the stock options, which are expected to be recognized over a weighted average period of three year.

Restricted shares to employees

During 2014, the Company granted 1,780,000 restricted shares under the 2014 Plan to directors and employees. The vesting of the restricted shares is subject to rendering service to the Company for two years. Based on the Company's requisite service period stated in the 2014 Plan, there was no share vested as of December 31, 2014. The fair value of restricted shares was \$0.878, which was the fair market value of the Company's shares at the date of grant. The Company recognized share-based compensation expenses of \$310,888 relating to the restricted shares granted to employees. As of December 31, 2014, there were \$1,251,952 unrecognized share-based compensation expenses relating to the restricted shares granted to employees, which are expected to be recognized over a weighted average period of 1.5 years.

Restricted shares to non-employees

During 2014, the Company granted 1,150,000 restricted shares under the 2014 Plan to consultants. The fair value of the stock options is remeasured as of the end of each reporting period until the services of these non-employees are completed under the service contracts. These options vest over two years except 50,000 restricted shares granted to one consultant which vest over three years. The Company recognized share-based compensation expenses of \$245,958 relating to the restricted shares granted to non-employees. As of December 31, 2014, there were \$977,642 unrecognized share-based compensation expenses relating to the restricted shares granted to non-employees, which are expected to be recognized over a weighted average period of 1.5 years.

18. STOCK OPTIONS AND NONVESTED SHARES – continued

Restricted shares of Shanghai Shangtong Co., Ltd. ("CFO Shangtong") and Huifu Jinyuan Co., Ltd. ("CFO Huifu")

On July 1, 2014, CFO Shangtong and CFO Huifu, two affiliates of the Company, entered into a series of contractual arrangement with selected employees of the Group. Pursuant to the agreement, these employees were granted 10% restricted shares of CFO Shangtong and CFO Huifu. The vesting of the restricted shares is subject to rendering service to the Company for five years. The fair value of restricted shares is \$28,965 and \$2,464,455, which equal to the fair value of the CFO Shangtong and CFO Huifu's 10% net assets at the effective date of the agreement, respectively. The Company recognized share-based compensation expenses of \$6,614 and \$562,718 relating to CFO Shangtong and CFO Huifu, respectively. As of December 31, 2014, there were \$22,351 and \$1,901,737 unrecognized share-based compensation expenses, respectively, which are expected to be recognized over a weighted average period of 4.5 years.

19. INCOME TAXES

Hong Kong

China Finance Online, iSTAR Securities, iSTAR Futures, iSTAR Wealth Management, iSTAR Credit and other eight subsidiaries were established in Hong Kong. These companies were subject to Hong Kong profit tax at 16.5%. In addition, companies who incorporated outside of Hong Kong and carried on a trade, profession or business in Hong Kong were also subject to Hong Kong profit tax in respect of their profits arising in or derived from Hong Kong.

British Virgin Islands

Companies that were incorporated in the BVI are not subject to taxation in their country of incorporation. Subsidiaries incorporated in the BVI include iSTAR Financial Holdings and other eleven subsidiaries.

 (In U.S. dollars)

19. INCOME TAXES - continued

PRC

The Group's PRC entities are subject to 25% PRC Enterprise Income Tax ("EIT") on the taxable income in accordance with the relevant PRC income tax laws, except for certain entities that enjoy preferential tax rates, which are lower than the statutory rates, as described below.

Under the EIT Law and its implementing rules, an enterprise which qualifies as a "high and new technology enterprise" ("the HNTE") is entitled to a tax rate of 15%.

Under the EIT law and its implementing rules, enterprises that obtain status of "Software Enterprises" are entitled to be exempted from EIT tax for the first two profit-making years and enjoy a preferential 12.5% tax rate, which is half of the standard EIT rate of 25% for the three years thereafter.

A summary of the main PRC entities that subject to tax preferential policies for the year ended December 31, 2014 is as follows:

PRC entities	Chinese EIT rate	Qualification for preferential tax rate
CFO Success	Preferential tax rate of 12.5% in 2012.	Software Enterprises
CFO Qicheng	Preferential tax rate of 12.5% from 2012 to 2014.	Software Enterprises
CFO Shenzhen Shangtong	Preferential tax rate of 12.5% from 2012 to 2014.	Software Enterprises
CFO Software	Preferential tax rate of 15% from 2012 to 2013.	HNTE
CFO Meining	Preferential tax rate of 15% from 2012 to 2014.	HNTE
CFO Genius	Preferential tax rate of 15% from 2012 to 2014.	HNTE

Under the EIT Law, the HNTE status is valid for three years and qualifying entities can then apply to renew for an additional three years provided their business operations continue to qualify for the HNTE status. CFO Software obtained its HNTE status in 2008 and its renewal in 2011. CFO Meining obtained its HNTE status in 2008 and obtained the renewal successfully in 2011 and 2014. In 2012, CFO Genius also obtained the HNTE status.

In 2012, 2013 and 2014, CFO Chongzhi and CFO Shangtong filed their EIT by adopting the "deemed-profit method". In 2014, Shanghai Yongfu Enterprises Management Consulting Co., Ltd. also adopted this method. Under this method, the qualifying entities filed their income tax by calculating as 2.5% of the gross revenues. This method is subject to be reevaluated by the local tax authority in the future.

 FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014
 (In U.S. dollars)

19. INCOME TAXES - continued

PRC - continued

The EIT Law includes a provision specifying that legal entities organized outside of the PRC will be considered residents for PRC Income tax purposes if the place of effective management or control is within the PRC. The implementation rules to the EIT Law provide that non-resident legal entities will be considered PRC residents if substantial and overall management and control over the manufacturing and business operations, personnel, accounting, properties, etc., occurs within the PRC. Despite the present uncertainties resulting from the limited PRC tax guidance on the issue, the Group does not believe that currently the legal entities organized outside of the PRC within the Group should be treated as residents for EIT law purposes. If the PRC tax authorities subsequently determine that the Company and its subsidiaries registered outside the PRC should be deemed a resident enterprise, the Company and its subsidiaries registered outside the PRC will be subject to the PRC income tax at a rate of 25%.

If the Company were to be non-resident for PRC tax purpose, dividends paid to it out of profits earned after January 1, 2008 would be subject to a withholding tax. In the case of dividends paid by PRC subsidiaries the withholding tax would be 10% not considering the arrangements for the Avoidance of Double Taxation on income and Prevention of Fiscal Evasion with respect to Taxes on Income between mainland and Hong Kong.

Aggregate deficits of the Company's subsidiaries located in the PRC were approximately \$13.7 million at December 31, 2014. And accordingly, no provision has been made for the Chinese dividend withholding taxes.

Aggregate undistributed earnings of the Company's VIEs and its VIEs' subsidiaries located in the PRC that are available for distribution to the Company of approximately \$22.4 million at December 31, 2014. A deferred tax liability should be recorded for taxable temporary differences attributable to the excess of financial reporting amounts over tax basis amounts, including those differences attributable to a more than 50% interest in a domestic subsidiary. However, recognition is not required in situations where the tax law provides a means by which the reported amount of that investment can be recovered tax-free and the enterprise expects that it will ultimately use that means. The Company has not recorded any such deferred tax liability attributable to the undistributed earnings of its financial interest in VIEs because it believes such excess earnings can be distributed in a manner that would not be subject to income tax.

Income tax (provision) benefit was as follows:

	December 31, 2012	2013	2014
Current	\$ (315,197)	\$ (478,966)	\$ (558,696)
Deferred	(568,521)	378,908	44,782
Total	\$ (883,718)	\$ (100,058)	\$ (513,914)

 (In U.S. dollars)

19. INCOME TAXES - continued

PRC - continued

The principal components of deferred income taxes were as follows:

	December 31, 2013	2014
Current deferred tax assets:		
Deferred revenue - current	\$ 618,648	\$ 594,196
Accrued expenses and other liabilities	583,849	467,758
Net operating loss carrying forwards	4,442,678	4,233,246
	5,645,175	5,295,200
Less: valuation allowance	(4,530,737)	(4,369,119)
Total current deferred tax assets	1,114,438	926,081
Non-current deferred tax assets:		
Deferred revenue - non-current	\$ 381,522	\$ 268,393
Net operating loss carrying forwards	8,370,153	10,556,749
	8,751,675	10,825,142
Less: valuation allowance	(8,657,442)	(10,753,602)
Total non-current deferred tax assets	\$ 94,233	\$ 71,540
Current deferred tax liabilities:		
Account receivable and other assets	(325,340)	(580,197)
Total current deferred tax liabilities	\$ (325,340)	\$ (580,197)
Non-current deferred tax liabilities:		
Intangible assets	(1,886,190)	(546,320)
Total non-current deferred tax liabilities	\$ (1,886,190)	\$ (546,320)

A valuation allowance of \$13,188,179 and \$15,122,721 was established as of December 31, 2013 and 2014, respectively, for the entities that have incurred losses because the Group believes that it is more likely than not that the related deferred tax assets will not be realized in the future. At December 31, 2014, operating loss carry forwards includes approximately \$49.6 million which will expire by 2019, and \$16.6 million which will carry forward indefinitely.

 (In U.S. dollars)

19. INCOME TAXES - continued

PRC - continued

Reconciliation between total income tax expense (benefit) and the amount computed by applying the PRC EIT statutory rate to income before income taxes is as follows:

	Years ended December 31,		
	2012	2013	2014
Loss before tax	\$ (11,076,429)	\$ (8,073,832)	\$ (10,116,814)
Income tax expense calculated at 25%	(2,769,107)	(2,018,458)	(2,529,204)
Effect of tax holiday	2,206,739	(266,396)	(4,125,912)
Effect of income tax rate difference in other jurisdictions	250,412	305,505	1,789,762
Non-deductible expenses	851,680	267,748	1,425,655
Non-taxable income	(2,122)	(439,861)	(549,315)
Change in valuation allowance	346,116	2,251,520	4,502,928
Income tax expense	\$ 883,718	\$ 100,058	\$ 513,914

During the years ended December 31, 2012, 2013 and 2014, if the China Finance Online's subsidiaries and VIEs in the PRC were neither in the tax holiday period nor had they been specifically allowed special tax concessions, they would have recorded additional income tax expense of \$39,026, \$31,910 and \$20,851, respectively. The impact of the tax holidays on basic net income per ordinary share was an increase of \$0.00, \$0.00 and \$0.00, for the years ended December 31, 2012, 2013 and 2014, respectively.

The Group did not identify significant unrecognized tax benefits for the years ended December 31, 2012, 2013 and 2014. The Group did not incur any interest and penalties related to potential underpaid income tax expenses and also believed that the adoption of pronouncement issued by FASB regarding accounting for uncertainty in income taxes did not have a significant impact on the unrecognized tax benefits within 12 months from December 31, 2014.

In accordance with relevant PRC tax administration laws, tax years from 2009 to 2014 of the Group's PRC subsidiaries and VIEs remain subject to tax audits as of December 31, 2014, at the tax authority's discretion.

21. MAINLAND CHINA CONTRIBUTION PLAN AND PROFIT APPROPRIATION

Full time employees of the Group in the PRC participate in a government-mandated defined contribution plan pursuant to which certain pension benefits, medical care, unemployment insurance, employee housing fund and other welfare benefits are provided to employees. Chinese labor regulations require the Group to accrue for these benefits based on certain percentages of the employees' salaries. The total provisions for such employee benefits were \$3,340,484, \$2,710,481 and \$3,685,654 for the years ended December 31, 2012, 2013 and 2014, respectively.

24. SEGMENT AND GEOGRAPHIC INFORMATION

The Group has three operating segments (1) precious metals trading services, (2) online financial information and advisory service, and other related services in PRC, (3) Hong Kong brokerage services. Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision-makers in deciding how to allocate resources and in assessing performance. The Group's chief executive officer has been identified as the chief operating decision makers. The Group's chief operating decision maker directs the allocation of resources to operating segments based on the profitability and cash flows of each respective segment.

The Group evaluates performance based on several factors, including net revenue, cost of revenue, operating expenses, income from operation. The following tables show the operations of the Group's operating segments:

For the year ended December 31, 2014

25. STATUTORY RESERVES AND RESTRICTED NET ASSETS

PRC legal restrictions permit payments of dividends by the Group's PRC entities only out of their retained earnings, if any, determined in accordance with PRC regulations. Prior to payment of dividends, pursuant to the laws applicable to the PRC Domestic Enterprises and PRC Foreign Investment Enterprises, the PRC entities must make appropriations from after-tax profit to non-distributable statutory reserve funds as determined by the Board of Directors of the Group. These reserve funds include the (1) general reserve, (2) enterprise expansion fund and (3) staff bonus and welfare fund. Subject to certain cumulative limits, the general reserve fund requires annual appropriations of not less than 10% of after-tax profit (as determined under accounting principles and financial regulations applicable to PRC enterprises at each year-end); the other two funds are to be made at the discretion of the board of directors of each of the Group's subsidiaries.

These reserve funds can only be used for specific purposes and are not distributable as cash dividends.

The appropriation to these reserves by the Group's PRC subsidiaries was \$30,658, \$284,114 and \$671,328 in 2012, 2013 and 2014.

The balance of the statutory reserves was \$6,140,514 and \$6,811,842 as of December 31 2013 and 2014. Such reserves have been included in the retained earnings of the Company's consolidated balance sheet.

As a result of these PRC laws and regulations and the requirement that distributions by PRC entities can only be paid out of distributable profits computed in accordance with PRC GAAP, the PRC entities are restricted from transferring a portion of their net assets to the Group. Amounts restricted include paid-in capital and the statutory reserves of the Company's PRC subsidiaries and VIEs. As of December 31, 2014, the aggregate amounts restricted which represented the amount of net assets of the relevant subsidiaries and VIEs in the Group not available for distribution was \$39,912,827. As a result of the above restrictions, parent-only financials are presented on financial statement Schedule I.

26. SUBSEQUENT EVENT

i) On March 10, 2015, the Group collected approximately \$2.1 million (RMB13 million, equivalently) from Langfang Developer.

ii) On March 30, 2015, the Group signed a sale & purchase agreement with a third party, to transfer the 100% ordinary shares of iSTAR Futures and iSTAR Wealth Management. The completion of this transaction was still subject to conditions, including but not limited to obtaining the approvals and consents of CSRC and Securities and Futures Commission of Hong Kong. The consideration of this transaction is approximately \$6.5 million (HK\$50.7 million, equivalently). As of April 15, 2015, the Group has collected approximately \$5.4 million and the remainder will be expected to be collected after getting approval from CSRC and Securities and Futures Commission of Hong Kong.

iii) In April, 2015, the Company collected \$2,168,868, the remaining consideration related to the sale of Ocean Butterflies Holdings Inc.
