FRANCOIS DIETSCH  
CHIEF FINANCIAL OFFICER

Dear EDAP Shareholders,

In 2017, we continued to expand our business worldwide and to record accomplishments in our global activities. Our 2017 consolidated revenue amounted 35.7 million Euros, stable with 2016's. While we recorded weaker HIFU device sales over the year, we are encouraged by our increasing HIFU treatment driven revenues. Adoption of HIFU continues to grow as more physicians gain comfort and experience with this minimally invasive treatment option.

In the U.S., 2017 CMS's issuance of a C-Code to reimburse HIFU for prostate tissue ablation and Cigna's recent decision to reimburse HIFU as a salvage therapy also provide important validation for our technology. While today June 1st, we are still expecting an FDA decision on the clearance of our Focal One device, we did have our Ablatherm Fusion device approved by the FDA in October 2017. Ablatherm Fusion complements our HIFU device offering as it provides better treatment accuracy in merging MRI and ultrasound images. We do believe that focal therapy is the future of prostate cancer treatment and we very much look forward to FDA clearance to expand HIFU offering in the U.S.

Internationally, we also pursued the promotion of our Focal One HIFU device and initiated the process to roll out a clinical study in Japan in view of its Japanese clearance.

Turning to our lithotripsy business, we continued to see solid growth in 2017 driven primarily by strong device sales. Lithotripsy remains a relatively mature market but it is dynamic and subject to a burgeoning replacement cycle. Internationally, we also continued to see solid growth in our distribution business. This activity is primarily in France and Japan, although we are looking at opportunities to expand further by reaching new partnerships and agreements with companies offering products bringing clear synergies with our manufactured ranges of products and our expansion strategies.

2018 will prove to be an important year for EDAP with multiple pending milestones including a conclusion to the FDA review of Focal One, the expansion of our HIFU product offering and increase in HIFU reimbursement coverage. We will also pursue our clinical development programs beyond urology with a long-term objective of making HIFU a standard of care procedure for minimally invasive ablation of soft tissue available in each operating room.

We would like to thank our shareholders and investors for your continued support and confidence in EDAP's long-term success.

Sincerely,

**/s/ Philippe Chauveau**
