Hawaiian Holdings, Inc.
Notes to Consolidated Financial Statements (Unaudited)

1. Business and Basis of Presentation

Hawaiian Holdings, Inc. (the Company or Holdings) is a holding company incorporated in the State of Delaware. The Company's primary asset is its sole ownership of all issued and outstanding shares of common stock of Hawaiian Airlines, Inc. (Hawaiian). The accompanying unaudited financial statements of the Company have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X of the U.S. Securities and Exchange Commission (SEC). Accordingly, these interim financial statements do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, the accompanying financial statements contain all adjustments, including normal recurring adjustments, necessary for the fair presentation of the Company's results of operations and financial position for the periods presented. Due to seasonal fluctuations, among other factors common to the airline industry, the results of operations for the periods presented are not necessarily indicative of the results of operations to be expected for the entire year. The accompanying unaudited Consolidated Financial Statements should be read in conjunction with the financial statements and the notes of the Company included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2017.

2. Significant Accounting Policies

Recently Adopted Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers, and created Topic 606 (ASC 606), requiring an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. ASC 606 replaced most existing revenue recognition guidance in GAAP and is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017.

The Company elected to adopt the full retrospective transition method as of January 1, 2018, resulting in the restatement of the prior periods as of the date of adoption. The overall decrease in equity as of January 1, 2016 was \$76.0 million net of tax, with an offsetting change primarily in Other liabilities and deferred credits. Refer to Note 5 for additional revenue recognition discussion.

The most significant impact of the standard relates to the accounting for the Company's frequent flyer travel award program. This change, as well as other less significant changes, are described below:

Frequent flyer - The standard requires the Company to account for miles earned by passengers in the HawaiianMiles program through flight activity as a component of the passenger revenue ticket transaction at the estimated selling price of the miles, effectively eliminating the incremental cost accounting previously applied. ASC 606 resulted in a significant increase to the deferred revenue liability on the Company's balance sheet, as the estimated selling price of the miles significantly exceeds the value previously recorded for incremental cost. The allocated value of miles earned through flights and sold to partners is recognized at the time the free travel or other award is redeemed by the passenger. Previously, the transportation element associated with sold miles was deferred and recognized as passenger revenue over the period when the transportation was expected to be provided (23 months).

Passenger revenue - The standard requires the Company to make certain adjustments to its passenger revenue, most notably related to unused tickets, which represents unexercised passenger rights. The Company uses historical information to estimate the proportion of ticket revenue that will expire unused to be recognized at the scheduled flight date. Prior to the adoption of ASC 606, the Company recorded this revenue as the tickets expired unused. As of

the adoption date the adjustment due to passenger ticket expiration had the effect of reducing the air traffic liability but did not have a significant effect on revenue recognized. Ticket change fees were previously recognized at the time the fees were assessed; however, under ASC 606, the Company now defers the recognition of ticket change fees as a component of air traffic liability until the related transportation is provided. Further, the Company reclassified revenue items such as checked baggage, charter, ticket change and cancellation fees, in flight revenue, and other incidental sales to passenger revenue (from other operating revenue), as these items do not represent distinct performance obligations separate from the transportation provided to the passenger.

Selling Costs - Under ASC 606, the Company will capitalize selling costs associated with credit card fees, booking fees, and commissions, and recognize the associated expense at the ticketed flight date. Prior to ASC 606, the Company recognized the costs associated with credit card and booking fees as they were incurred.

Restated financial statement information, which reflects the adoption of the ASC 606 is below:

	Three Months Ended June 30, 2017

There was no impact to the Company's net cash provided by operating activities on the Condensed Consolidated Statements of Cash Flows.

Recently Issued Accounting Pronouncements

In February 2018, the FASB issued 2018-02, Income Statement - Reporting Comprehensive Income (Topic 220) Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income (ASU 2018-02). The guidance allows reclassification from accumulated other comprehensive income to retained earnings of stranded taxes resulting from the Tax Cuts and Jobs Act (the Tax Act). In addition, under ASU 2018-02, certain disclosures regarding stranded tax effects are required. ASU 2018-02 is effective for annual reporting periods beginning after December 15, 2018, with early adoption permitted. The Company continues to evaluate the impact of ASU 2018-02 and the potential effects on the Company's consolidated financial statements.

In August 2017, the FASB issued ASU 2017-12, Derivatives and Hedging (ASU 2017-02), which better aligns a company's risk management activities and financial reporting for hedging relationships and is intended to simplify hedge accounting requirements. ASU 2017-12 is effective for annual reporting periods beginning after December 15, 2018, with early adoption permitted. The Company is continuing to evaluate the components and options within ASU 2017-12.

In February 2016, the FASB issued ASU 2016-02, Leases (ASU 2016-02), requiring a lessee to recognize in the statement of financial position a liability to make lease payments and a right-of-use asset representing its right to use the underlying asset for the lease term. ASU 2016-02 is effective for annual reporting periods beginning after December 15, 2018. ASU 2016-02 requires entities to use a modified retrospective approach for leases that exist or are entered into after the beginning of the earliest comparative period in the financial statements. Full retrospective application is prohibited. The Company is evaluating the impact the adoption of this standard will have on its consolidated financial statements and believes this ASU will have a significant impact on its consolidated balance sheet but does not expect that the ASU will have a material impact on the Company's results of operations or cash flows. The effect of adopting the new standard will be to record right-of-use assets and operating lease obligations for current operating leases on the Company's balance sheet. Management is continuing to assess its current inventory of leases; as of June 30, 2018 the Company had 17 aircraft that are treated as an operating leases. Management has also identified and is evaluating the leases surrounding the terminal operations including hangar space, office space, and IT

equipment.

The FASB is in process of finalizing transition relief which will allow entities to continue to apply the guidance in ASC 840, Leases including its disclosure requirements, in the comparative periods presented in the year that a company adopts ASU 2016-02 (ASC 842). Entities that elect this option will record the cumulative effect of adoption on the effective date rather than at the beginning of the earliest comparative period presented. See Note 10 below which discusses our lease obligations as of June 30, 2018.

4. Earnings Per Share

Basic earnings per share, which excludes dilution, is computed by dividing net income available to common shareholders by the weighted average number of common shares outstanding for the period.

Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. For the three and six months ended June 30, 2018 and 2017, anti-dilutive shares excluded from the calculation of diluted earnings per share were immaterial.

Edgar Filing: HAWAIIAN HOLDINGS INC - Form 10-Q

Stock Repurchase Program

In November 2017, the Company's Board of Directors approved a stock repurchase program pursuant to which the Company may repurchase up to \$100 million of its outstanding common stock over a two-year period through December 2019. The stock repurchase program is subject to further modification or termination at any time. The Company spent \$2.5 million and \$22.8 million to repurchase and retire approximately 65 thousand shares and 614 thousand shares of the Company's common stock in open market transactions during the three and six months ended June 30, 2018, respectively. As of June 30, 2018, the Company had \$77.2 million remaining to spend under its stock repurchase program.

Dividends

During the three months ended March 31, 2018 and June 30, 2018, the Company declared and paid cash dividends of \$0.12 per share, totaling \$12.2 million.

5. Revenue Recognition

The majority of our revenue is derived from transporting passengers on our aircraft. The Company accounts for revenue in accordance with ASC 606, which was adopted on January 1, 2018, using the full retrospective method. See Note 2 for further discussion of the adoption, including the impact on our previously issued financial statements. The Company's primary operations are that of its wholly-owned subsidiary, Hawaiian. Principally all operations of Hawaiian either originate and/or end in the State of Hawai'i. The management of such operations is based on a system-wide approach due to the interdependence of Hawaiian's route structure in its various markets. As Hawaiian is engaged in only one significant line of business (i.e., air transportation), management has concluded that it has only one segment. The Company's operating revenues by geographic region (as defined by the Department of Transportation) are summarized below:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Geographic Information (in thousands)				
Domestic	\$528,476	\$501,724	\$1,020,678	\$952,521
Pacific	186,971	168,392	360,181	323,804
Total operating revenue	\$715,447	\$670,116	\$1,380,859	\$1,276,325

Passenger & Other revenue - Generally, the Company's contracts with customers have two principal performance obligations, which are the promise to provide transportation to the passenger and the frequent flyer miles earned on the flight. In addition, the Company often charges additional fees for items such as baggage and in-flight entertainment. Such items are not capable of being distinct from the transportation provided because the customer can only benefit from the services during the flight. The transportation performance obligation, including the redemption of HawaiianMiles awards for flights, is satisfied, and revenue is recognized, as transportation is provided. In some instances, tickets sold by the Company can include a flight segment on another carrier which is referred to as an interline segment. In this situation, the Company acts as an agent for the other carrier and revenue is recognized net of cost in other revenue. Tickets sold by other airlines where the Company provides the transportation are recognized as passenger revenue at the estimated value to be billed to the other airline when travel is

provided. Differences between amounts billed and the actual amounts may be rejected and rebilled or written off if the amount recorded was different from the original estimate.

Other operating revenue consists of cargo revenue, ground handling fees, commissions, and fees earned under certain joint marketing agreements with other companies. These amounts are recognized when the service is provided.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Passenger Revenue by Type	(in thousands)			
Passenger revenue, excluding frequent flyer	\$618,406	\$590,527	\$1,196,361	\$1,124,581
Frequent flyer revenue, transportation component	36,756	33,479	70,401	63,177
Passenger Revenue	\$655,162	\$624,006	\$1,266,762	\$1,187,758
Other revenue (e.g. cargo and other miscellaneous)	\$41,539	\$33,894	\$80,229	\$66,035
Frequent flyer revenue, marketing and brand component	18,746	12,216	33,868	22,532
Other Revenue	\$60,285	\$46,110	\$114,097	\$88,567

For the three months ended June 30, 2018 and 2017, the Company's total revenue was \$715.4 million and \$670.1 million, respectively. As of June 30, 2018 and December 31, 2017, the Company's Air traffic liability balance as it relates to passenger tickets (excluding frequent flyer) was \$536.3 million and \$422.6 million, respectively, which represents future revenue that is expected to be realized over the next 12 months. During the three months ended June 30, 2018 and 2017, the amount of revenue recognized that was included in Air traffic liability as of the beginning of the respective period was \$293.1 million and \$294.5 million, respectively. During the six months ended June 30, 2018 and 2017, the amount of revenue recognized that was included in Air traffic liability as of the beginning of the respective period was \$332.5 million and \$295.9 million, respectively.

Passenger revenue associated with unused tickets, which represent unexercised passenger rights, is recognized in proportion

to the pattern of rights exercised by related passengers (e.g. scheduled departure dates). To calculate the portion to be recognized as revenue in the period, the Company utilizes historical information and applies the trend rate to the current air traffic liability balances for that specific period.

Management has elected (via a practical expedient election) to exclude from the measurement of the transaction price all taxes assessed by a governmental authority that are both imposed on and concurrent with a specific revenue-producing transaction and collected from a customer, e.g., sales, use, value added, and certain excise taxes. Frequent Flyer Revenue - Hawaiian's frequent flyer travel award program provides a variety of awards to program members based on accumulated mileage. ASC 606 requires the Company to account for miles earned by passengers in the HawaiianMiles program through flight activity as a component of the passenger revenue ticket transaction at the estimated selling price of the miles. Ticket consideration received is allocated between the performance obligations, primarily travel and miles earned by passengers. The allocated value of the miles is deferred until the free travel or other award is used by the passenger, at which time it is included in passenger revenue. The value of the ticket used in the determination of the estimated selling price is based on the historical value of equivalent flights to those provided for loyalty awards and the related miles redeemed to obtain that award adjusted for breakage or fulfillment. On a quarterly basis, the Company calculates the equivalent ticket value (ETV) by analyzing the fares of similar tickets for the prior 12 months, considering cabin class and geographic region.

The Company also sells mileage credits to companies participating in our frequent flyer program. These contracts generally include multiple performance obligations, including the transportation that will ultimately be provided when the mileage credits are redeemed and marketing and brand related activities. The marketing and brand performance obligations are effectively provided each time a HawaiianMiles member uses the co-branded credit card and monthly access to customer lists and marketing is provided, which corresponds to the timing of when the Company issues or is obligated to issue the mileage credits to the HawaiianMiles member. Therefore, the Company recognizes revenue for the marketing and brand performance obligations when HawaiianMiles members use their co-brand credit card and

the resulting mileage credits are issued to them, which best correlates with the Company's performance toward satisfying the obligation.

During the first quarter of 2018, we amended our partnership with Barclaycard US, Hawaiian's co-branded credit card partner. Management determined that the amendment should be accounted for as a termination of the existing contract and the creation of a new contract under ASC 606 and the relative selling price was determined for each performance obligation of the new

agreement. The new agreement continues through 2024 and includes improved economics and enhanced product offerings for our Barclay's co-branded cardholders.

Accounting for frequent flyer revenue involves the use of various techniques to estimate revenue. The Company sells mileage credits to companies participating in the frequent flyer program, who in turn issue those miles to customers based on the volume of spend, making the majority of the transaction price variable. To determine the total estimated transaction price, the Company forecasts future credit card activity using historical information.

The relative selling price is determined using management's standalone estimated selling price of each performance obligation. The objective of using the estimated selling price based methodology is to determine the price at which the Company would transact a sale if the product or service were sold on a stand-alone basis. Accordingly, the Company determines the best estimate of selling price by considering multiple inputs and methods including, but not limited to, discounted cash flows, brand value, published selling prices, number of miles awarded and number of miles redeemed. The Company estimates the selling price of miles using an ETV adjusted for a fulfillment discount as described above.

Miles expire after 18 months of member account inactivity. The ETV includes a fulfillment discount (breakage) to reflect the value of the award ticket over the number of miles that, based on historical experience, will be needed to obtain the award. The Company reviews its breakage estimates annually based upon the latest available information regarding redemption and expiration patterns (e.g., credit card and non-credit card holders). The Company's estimate of the expected expiration of miles requires significant management judgment. Current and future changes to expiration assumptions or to the expiration policy, or to program rules and program could affect the estimated value of a mile.

The Company's frequent flyer liability is recorded within two balance sheet accounts, Air traffic liability (short-term) and Other liabilities and deferred credits (long-term) based on estimated and expected redemption patterns using historical data and analysis. As of June 30, 2018 and December 31, 2017, the Company's contract liability balance was \$372.2 million and \$321.9 million, respectively.

Accounts Receivable - Accounts receivable primarily consist of amounts due from credit card companies, non-airline partners, and cargo transportation customers. The Company provides an allowance for uncollectible accounts equal to the estimated losses expected to be incurred based on historical chargebacks, write-offs, bankruptcies and other specific analyses. Bad debt expense was not material in any period presented.

Costs to obtain or fulfill a contract - In order for the Company to provide transportation to our customers we incur fulfillment costs which are generally: booking fees, credit card fees, and commission/selling costs. As of June 30, 2018 and December 31, 2017, the Company's asset balance associated with these costs were \$19.9 million and \$16.7 million, respectively. During the three months ended June 30, 2018 and 2017, expenses related to these costs totaled to \$23.8 million and \$24.3 million, respectively. During the six months ended June 30, 2018 and 2017, expenses related to these costs totaled to \$47.7 million and \$46.8 million, respectively. To determine the amount to capitalize and expense at the end of each period, the Company uses historical sales data and estimates the amount associated with unflown tickets.

6. Short-Term Investments

Debt securities that are not classified as cash equivalents are classified as available-for-sale investments and are stated as current assets at fair value as these securities are available for use in current operations. Realized gains and losses on sales of investments are reflected in nonoperating income (expense) in the Company's unaudited Consolidated Statements of Operations. Unrealized gains and losses on available-for-sale debt securities are reflected as a

component of accumulated other comprehensive income.

14

The following is a summary of short-term investments held as of June 30, 2018 and December 31, 2017:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
June 30, 2018	(in thousands)			
Corporate debt	\$ 154,333	\$ 21	\$ (1,002)	\$ 153,352
U.S. government and agency debt	55,081	—	(182)	54,899
Municipal bonds	16,684	—	(49)	16,635
Other fixed income securities	34,462	—	(35)	34,427
Total short-term investments	\$ 260,560	\$ 21	\$ (1,268)	\$ 259,313

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
December 31, 2017	(in thousands)			
Corporate debt	\$ 165,610	\$ 8	\$ (535)	\$ 165,083
U.S. government and agency debt	59,054	1	(215)	58,840

Total short-term investments	\$ 149,684	\$ 109,629	\$ 259,313

7. Fair Value Measurements

ASC Topic 820, Fair Value Measurement (ASC 820), defines fair value as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

Level 1 — Observable inputs such as quoted prices in active markets for identical assets or liabilities;

Level 2 — Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term for the assets or liabilities; and

Level 3 — Unobservable inputs for which there is little or no market data and that are significant to the fair value of the assets or liabilities.

The tables below present the Company's financial assets and liabilities measured at fair value on a recurring basis:

	Fair Value Measurements as of June 30, 2018			
	Total	Level 1	Level 2	Level 3
	(in thousands)			
Cash equivalents	\$175,486	\$128,131	\$47,355	\$ —
Restricted cash	1,000	1,000	—	—
Short-term investments	259,313	—	259,313	—
Fuel derivative contracts:				
Crude oil call options	28,216	—	28,216	—
Foreign currency derivatives	5,674	—	5,674	—
Total assets measured at fair value	\$469,689	\$129,131	\$340,558	\$ —
Foreign currency derivatives	747	—	747	—
Total liabilities measured at fair value	\$747	\$—	\$747	\$ —

	Fair Value Measurements as of December 31, 2017			
	Total	Level 1	Level 2	Level 3
	(in thousands)			
Cash equivalents	\$62,310	\$27,807	\$34,503	\$ —
Restricted cash	1,000	1,000	—	—
Short-term investments	269,297	—	269,297	—
Fuel derivative contracts:				
Crude oil call options	20,272	—	20,272	—
Jet fuel swaps	336	—	336	—
Foreign currency derivatives	4,300	—	4,300	—
Total assets measured at fair value	\$357,515	\$28,807	\$328,708	\$ —
Foreign currency derivatives	1,713	—	1,713	—
Total liabilities measured at fair value	\$1,713	\$—	\$1,713	\$ —

Cash equivalents. The Company's level 1 cash equivalents consist of money market securities and the level 2 cash equivalents consist of U.S. agency bonds, mutual funds, and commercial paper. The instruments classified as level 2 are valued using quoted prices for similar assets in active markets.

Restricted cash. The Company's restricted cash consists of money market securities.

Short-term investments. Short-term investments include U.S. and foreign government notes and bonds, U.S. agency bonds, variable-rate corporate bonds, asset backed securities, foreign and domestic corporate bonds, municipal bonds, and commercial paper. These instruments are valued using quoted prices for similar assets in active markets or other observable inputs.

Fuel derivative contracts. The Company's fuel derivative contracts consist of crude oil call options and jet fuel swaps, which are not traded on a public exchange. The fair value of these instruments are determined based on inputs available or derived from public markets including contractual terms, market prices, yield curves, and measures of volatility among others.

Foreign currency derivatives. The Company's foreign currency derivatives consist of Japanese Yen and Australian Dollar forward contracts and are valued primarily based upon data available or derived from public markets.

The table below presents the Company's debt (excluding obligations under capital leases and financing obligations) measured at fair value:

16

Fair Value of Debt

June 30, 2018					December 31, 2017				
Carrying		Fair Value			Carrying		Fair Value		
Amount	Total	Level 1	Level 2	Level 3	Amount	Total	Level 1	Level 2	Level 3
(in thousands)									
\$495,504	\$478,893	\$	—\$	—\$478,893	\$433,072	\$444,099	\$	—\$	—\$444,099

The fair value estimates of the Company's debt were based on the discounted amount of future cash flows using the Company's current incremental rate of borrowing for similar instruments.

The carrying amounts of cash, other receivables, and accounts payable approximate fair value due to the short-term nature of these financial instruments.

8. Financial Derivative Instruments

The Company uses derivatives to manage risks associated with certain assets and liabilities arising from the potential adverse impact of fluctuations in global fuel prices and foreign currencies.

Fuel Risk Management

The Company's operations are inherently dependent upon the price and availability of aircraft fuel. To manage economic risks associated with fluctuations in aircraft fuel prices, the Company periodically enters into derivative financial instruments. During the three and six months ended June 30, 2018, the Company primarily used crude oil call options and jet fuel swaps to hedge its aircraft fuel expense. These derivative instruments were not designated as hedges under ASC Topic 815, Derivatives and Hedging (ASC 815), for hedge accounting treatment. As a result, any changes in fair value of these derivative instruments are adjusted through other nonoperating income (expense) in the period of change.

The following table reflects the amount of realized and unrealized gains and losses recorded as nonoperating income (expense) in the Company's unaudited Consolidated Statements of Operations.

	Three months		Six months ended	
	ended June 30,	2017	June 30,	2017
Fuel derivative contracts	2018	2017	2018	2017
(in thousands)				
Gains (losses) realized at settlement	\$10,827	\$(1,902)	\$16,488	\$687
Reversal of prior period unrealized amounts	(10,748)	3,441	(11,792)	(4,506)
Unrealized gains (losses) that will settle in future periods	18,873	(6,251)	18,873	(9,691)
Gains (losses) on fuel derivatives recorded as nonoperating income (expense)	\$18,952	\$(4,712)	\$23,569	\$(13,510)

Foreign Currency Exchange Rate Risk Management

The Company is subject to foreign currency exchange rate risk due to revenues and expenses that are denominated in foreign currencies, with the primary exposures being the Japanese Yen and Australian Dollar. To manage exchange rate risk, the Company executes its international revenue and expense transactions in the same foreign currency to the extent practicable. As discussed in Note 9 the Company also recently executed Japanese Yen denominated debt agreements.

The Company enters into foreign currency forward contracts to further manage the effects of fluctuating exchange rates. The effective portion of the gain or loss of designated cash flow hedges is reported as a component of accumulated other comprehensive income (AOCI) and reclassified into earnings in the same period in which the related sales are recognized as passenger revenue. The effective portion of the foreign currency forward contracts represents the change in fair value of the hedge that offsets the change in the fair value of the hedged item. To the extent the change in the fair value of the hedge does not perfectly offset the change in the fair value of the hedged item, the ineffective portion of the hedge is immediately recognized as nonoperating income (expense). Foreign currency forward contracts that are not designated as cash flow hedges are recorded at fair value, and any changes in fair value are recognized as other nonoperating income (expense) in the period of change.

The Company believes that its foreign currency forward contracts that are designated as cash flow hedges will continue to be effective in offsetting changes in cash flow attributable to the hedged risk. The Company expects to reclassify a net gain of approximately \$3.6 million into earnings over the next 12 months from AOCI based on the values at June 30, 2018.

The following tables present the gross fair value of asset and liability derivatives that are designated as hedging instruments under ASC 815 and derivatives that are not designated as hedging instruments under ASC 815, as well as the net derivative positions and location of the asset and liability balances within the Company's unaudited Consolidated Balance Sheets.

Derivative position as of June 30, 2018

	Balance Sheet Location	Notional Amount (in thousands)	Final Maturity Date	Gross fair value of assets (in thousands)	Gross fair value of liabilities (in thousands)	Net derivative position
Derivatives designated as hedges						
Foreign currency derivatives	Prepaid expenses and other	16,987,750 Japanese Yen 51,428 Australian Dollars	June 2019	4,600	(558)	4,042
	Long-term prepayments and other	4,795,400 Japanese Yen 8,940 Australian Dollars	June 2020	810	(185)	625

Foreign currency derivatives	\$(569)	\$7,705	\$ 2,105	\$ (1,692)	\$ —	\$ —

Risk and Collateral

Financial derivative instruments expose the Company to possible credit loss in the event the counterparties fail to meet their obligations. To manage such credit risks, the Company (1) selects its counterparties based on past experience and credit ratings, (2) limits its exposure to any single counterparty, and (3) regularly monitors the market position and credit rating of each counterparty. Credit risk is deemed to have a minimal impact on the fair value of the derivative instruments, as cash collateral would be provided by the counterparties based on the current market exposure of the derivative.

ASC 815 requires a reporting entity to elect a policy of whether to offset rights to reclaim cash collateral or obligations to return cash collateral against derivative assets and liabilities executed with the same counterparty under a master netting agreement, or present such amounts on a gross basis. The Company's accounting policy is to present its derivative assets and liabilities on a net basis, including any collateral posted with the counterparty. The Company had no collateral posted with counterparties as of June 30, 2018 and December 31, 2017.

The Company is also subject to market risk in the event these financial instruments become less valuable in the market. However, changes in the fair value of the derivative instruments will generally offset the change in the fair value of the hedged item, limiting the Company's overall exposure.

9. Debt

As of June 30, 2018, the expected maturities of long-term debt for the remainder of 2018 and the next four years, and thereafter, were as follows (in thousands):

Remaining months in 2018	\$28,275
2019	81,023
2020	29,545
2021	56,509
2022	63,622
Thereafter	236,531
	\$495,505

During the three months ended June 30, 2018, the Company executed Japanese Yen denominated debt agreements for a total value of \$86.5 million, which is collateralized by aircraft. The loans that were executed were each for a term of 12 years at fixed installment coupon rates of 1.01% and 1.05%. The fluctuation in foreign exchange rates at each balance sheet date is reflected within the nonoperating income (expense) line item. The foreign currency gain or loss for three months ended June 30, 2018 was de minimus.

10. Leases

The Company leases aircraft, engines, and other assets under long-term lease arrangements. Other leased assets include real property, airport and terminal facilities, maintenance facilities, and general offices. Certain leases include escalation clauses and renewal options. When lease renewals are considered to be reasonably assured, the rental payments that will be due during the renewal periods are included in the determination of rent expense over the life of the lease.

As of June 30, 2018, the scheduled future minimum rental payments under operating and capital leases with non-cancellable basic terms of more than one year were as follows:

	Capital & Financing Leases		Operating Leases	
	Aircraft	Other	Aircraft	Other
	(in thousands)			
Remaining in 2018	\$9,675	\$3,665	\$53,421	\$3,487

11. Employee Benefit Plans

The components of net periodic benefit cost for the Company's defined benefit and other post-retirement plans included the following:

Components of Net Period Benefit Cost	Three months ended June 30,		Six months ended June 30,	
	2018	2017	2018	2017
	(in thousands)			
Service cost	\$1,962	\$3,813	\$3,924	\$7,626
Other cost:				
Interest cost	5,009	7,259	10,018	14,518
Expected return on plan assets	(5,588)	(4,796)	(11,176)	(9,592)
Recognized net actuarial loss	680	2,287	1,360	4,574
Total other components of the net periodic benefit cost	101	4,750	202	9,500
Net periodic benefit cost	\$2,063	\$8,563	\$4,126	\$17,126

Total other components of the net periodic benefit cost are recorded within the nonoperating income (expense), other, net line item.

During each of the three and six months ended June 30, 2018, the Company made no contributions to its defined benefit and other postretirement plans as the Company is not required to make any further minimum contributions until 2019 due to the sufficiency of the plans' current position. During the three and six months ended June 30, 2017, the Company contributed \$8.0 million and \$14.4 million, respectively, to its defined benefit and other post-retirement plans.

In August 2017, the Company completed the termination of the Merged Pension plan by transferring the assets and liabilities to a third-party insurance company. At that time, the Company contributed a total of \$18.5 million in cash to fully fund the plan. In March 2017, the Company announced the ratification of a 63-month contract amendment with its pilots as represented by the Air Line Pilots Association (ALPA). In August 2017, the Company made a one-time cash payment of approximately \$101.9 million to fund the HRA and settle the post-65 post-retirement medical plan obligation. The cash contributed was distributed to the trust funding the individual health retirement notional accounts of the participants.

12. Commitments and Contingent Liabilities

Commitments

As of June 30, 2018, the Company had the following capital commitments consisting of firm aircraft and engine orders and purchase rights:

20

Aircraft Type	Firm Orders	Purchase Rights	Expected Delivery Dates
A321neo aircraft	11	9	Between 2018 and 2020
Pratt & Whitney spare engines:			
A321neo spare engines	3	2	Between 2018 and 2019

In February 2018, the Company exercised its right to terminate its aircraft purchase agreement between the Company and Airbus for six Airbus A330-800neo aircraft and the purchase rights for an additional six Airbus A330-800neo aircraft. Refer to Note 13 below for discussion on the contract termination charge. In July 2018, the Company executed a purchase agreement for the purchase of 10 Boeing 787-9 "Dreamliner" aircraft with purchase rights for an additional 10 aircraft. The Company also intends to enter into additional related agreements in connection with the Boeing 787-9 purchases, including for the purchases of aircraft engines, a flight simulator, spare parts and materials and related services. The expected expenditures for the Boeing 787-9 aircraft and related parts are not reflected in the table below.

Committed capital and operating expenditures include escalation amounts based on estimates. Capital expenditures represent aircraft and aircraft related equipment commitments, and operating expenditures represent all other commitments the Company has entered into. The gross committed expenditures and committed payments for those deliveries as of June 30, 2018 are detailed below:

	Capital	Operating	Total Committed Expenditures
	(in thousands)		
Remaining in 2018	\$207,042	\$35,568	\$242,610
2019	278,254	61,857	340,111
2020	47,978	56,483	104,461
2021	5,075	51,725	56,800
2022	5,075	51,922	56,997
Thereafter	38,067	216,069	254,136
	\$581,491	\$473,624	\$1,055,115

Litigation and Contingencies

The Company is subject to legal proceedings arising in the normal course of its operations. Management does not anticipate that the disposition of any currently pending proceeding will have a material effect on the Company's operations, business or financial condition.

General Guarantees and Indemnifications

In the normal course of business, the Company enters into numerous aircraft financing and real estate leasing arrangements that have various guarantees included in such contracts. It is common in such lease transactions for the lessee to agree to indemnify the lessor and other related third-parties for tort liabilities that arise out of, or relate to, the lessee's use of the leased aircraft or occupancy of the leased premises. In some cases, this indemnity extends to related liabilities arising from the negligence of the indemnified parties, but usually excludes any liabilities caused by such parties' gross negligence or willful misconduct. Additionally, the lessee typically indemnifies such parties for any environmental liability that arises out of or relates to the lessee's use of the real estate leased premises. The Company believes that it is insured (subject to deductibles) for most of the tort liabilities and related indemnities described above with respect to the aircraft and real estate that it leases. The Company cannot reasonably estimate the potential amount of future payments, if any, under the foregoing indemnities and agreements.

Credit Card Holdback

Under the Company's bank-issued credit card processing agreements, certain proceeds from advance ticket sales may be held back to serve as collateral to cover any possible chargebacks or other disputed charges that may occur. These holdbacks, which are included in restricted cash in the Company's unaudited Consolidated Balance Sheets, totaled \$1.0 million at each of June 30, 2018 and December 31, 2017.

In the event of a material adverse change in the Company's business, the holdback could increase to an amount up to 100% of the outstanding credit card amounts that is unflown (e.g. air traffic liability), which would also cause an increase in the level of restricted cash. If the Company is unable to obtain a waiver of, or otherwise mitigate the increase in the restriction of cash, it could have a material adverse impact on the Company's operations, business or financial condition.

13. Contract Terminations Expense and Special Items

Contract terminations expense

For the six months ended June 30, 2018, the Company terminated two contracts which incurred a total of \$35.3 million in contract terminations expense. The transactions are described below:

In February 2018, the Company exercised its right to terminate the aircraft purchase agreement between the Company and Airbus for six Airbus A330-800neo aircraft and the purchase rights for an additional six Airbus A330-800neo aircraft. To terminate the purchase agreement, the Company was obligated to repay Airbus for concessions received relating to a prior firm order, training credits, as well as forfeit the pre-delivery progress payments made towards the flight equipment. The Company recorded a contract terminations expense to reflect a portion of the termination penalty within the Consolidated Statements of Operations.

In January 2018, the Company entered into a transaction with its lessor to early terminate and purchase three Boeing 767-300 aircraft leases and concurrently entered into a forward sale agreement for the same three Boeing 767-300 aircraft, including two Pratt & Whitney 4060 engines for each aircraft. These aircraft were previously accounted for as operating leases. In order to exit the lease and purchase the aircraft, the Company agreed to pay a total of \$67.1 million (net of all deposits) of which a portion was expensed immediately and recognized as a contract termination fee. The expensed amount represents the total purchase price amount over fair value of the aircraft purchased as of the date of the transaction.

Special items

In April 2017, the Company executed a sale leaseback transaction with an independent third party for three Boeing 767-300 aircraft. The lease term for the three aircraft commenced in April 2017 and goes through November 2018, December 2018, and January 2019, respectively. During the three and six months ended June 30, 2017, the Company recorded a loss on sale of aircraft of \$4.8 million.

In March 2017, the Company received notice from ALPA that the agreement was ratified by ALPA's members. The agreement became effective April 1, 2017. The agreement included, among other various benefits, a pay adjustment and ratification bonus computed based on previous service. During the six months ended June 30, 2017, the Company expensed \$18.7 million principally related to a one-time payment to reduce the Company's future 401K employer contribution for certain pilot groups, which was not recoverable once paid.

14. Income Taxes

The Company's effective tax rate was 24.9% and 37.8% for the three months ended June 30, 2018 and 2017, respectively and 24.4% and 34.9% for the six months ended June 30, 2018 and 2017, respectively. The effective tax rate represents a blend of federal and state taxes and includes the impact of certain nondeductible items. The effective tax rate for the three and six months ended June 30, 2018 also reflects the reduced federal corporate income tax rate as a result of the enactment of the Tax Act in December 2017. Management continues to analyze the different aspects of the Tax Act which could potentially affect the provisional estimates that were recorded at December 31, 2017.

15. Supplemental Cash Flow Information

Non-cash investing and financing activities for the six months ended June 30, 2018 and 2017 were as follows:

Six months
ended June 30,
2018 2017
(in thousands)

Investing and Financing Activities Not Affecting Cash:

Property and equipment acquired through a capital lease \$64,692 \$ —

16. Condensed Consolidating Financial Information

The following condensed consolidating financial information is presented in accordance with Regulation S-X paragraph 210.3-10 because, in connection with the issuance by two pass-through trusts formed by Hawaiian (which is also referred to in this Note 16 as Subsidiary Issuer / Guarantor) of pass-through certificates, the Company (which is also referred to in this Note 16 as Parent Issuer / Guarantor) is fully and unconditionally guaranteeing the payment obligations of Hawaiian, which is a 100% owned subsidiary of the Company, under equipment notes issued by Hawaiian to purchase new aircraft.

The Company's condensed consolidating financial statements are presented in the following tables:

Income Taxes

The income tax expense (benefit) is presented as if each entity that is part of the consolidated group files a separate return.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 that reflect our current views with respect to certain current and future events and financial performance. Such forward-looking statements include, without limitation, statements related to our financial statements and results of operations; any expectations of operating expenses, deferred revenue, interest rates, tax rates, income taxes, deferred tax assets, valuation allowances or other financial items; expectations regarding industry capacity, our operating performance, available seat miles, operating revenue per available seat mile and operating cost per available seat mile for the third quarter of 2018; our expected fleet as of June 30, 2019; estimates of annual fuel expenses and measure of the effects of fuel prices on our business; the availability of financing; statements regarding our intention to pay quarterly dividends and the amounts thereof, if any; statements regarding our ability and intention to repurchase our shares; changes in our fleet plan and related cash outlays; committed capital expenditures; expected cash payments related to our post-retirement plan obligations; estimated financial charges; expected delivery of new aircraft; the impact of accounting standards on our financial statements; the effects of any litigation on our operations or business; the effects of our fuel and currency risk hedging policies; the fair value and expected maturity of our debt obligations; our estimated contractual obligations; and other matters that do not relate strictly to historical facts or statements of assumptions underlying any of the foregoing. Words such as "expects," "anticipates," "projects," "intends," "plans," "believes," "estimates," "could," "may," variations of such words, and similar expressions are also intended to identify such forward-looking statements. These forward-looking statements are and will be, as the case may be, subject to many risks, uncertainties and assumptions relating to our operations and business environment, all of which may cause our actual results to be materially different from any future results, expressed or implied, in these forward-looking statements.

Factors that could affect such forward-looking statements include, but are not limited to: our ability to accurately forecast quarterly and annual results; global economic volatility; macroeconomic developments; political developments; our dependence on the tourism industry; the price and availability of fuel; foreign currency exchange rate fluctuations; our competitive environment, including the potential impact of increasing industry capacity between North America and Hawai'i; fluctuations in demand for transportation in the markets in which we operate; maintenance of privacy and security of customer-related information and compliance with applicable federal and foreign privacy or data security regulations or standards; our dependence on technology and automated systems; our reliance on third-party contractors; satisfactory labor relations; our ability to attract and retain qualified personnel and key executives; successful implementation of growth strategy and cost reduction goals; adverse publicity; risks related to the airline industry; our ability to obtain and maintain adequate facilities and infrastructure; seasonal and cyclical volatility; the effect of applicable state, federal and foreign laws and regulations; increases in insurance costs or reductions in coverage; the limited number of suppliers for aircraft, aircraft engines and parts; our existing aircraft purchase agreements; delays in aircraft deliveries or other loss of fleet capacity; fluctuations in our share price; and our financial liquidity. The risks, uncertainties, and assumptions referred to above that could cause our results to differ materially from the results expressed or implied by such forward-looking statements also include the risks, uncertainties, and assumptions discussed from time to time in our public filings and public announcements, including, but not limited to, our risk factors set out in the "Risk Factors" section of our Annual Report on Form 10-K for the fiscal year ended December 31, 2017. All forward-looking statements included in this Report are based on information available to us as of the date hereof. We undertake no obligation to publicly update or revise any forward-looking statements to reflect events or circumstances that may arise after the date of this quarterly report. The following discussion and analysis should be read in conjunction with our unaudited Consolidated Financial Statements and notes thereto included elsewhere in this Quarterly Report on Form 10-Q.

Our Business

We are engaged in the scheduled air transportation of passengers and cargo amongst the Hawaiian Islands (the “Neighbor Island” routes), between the Hawaiian Islands and certain cities in the U.S. mainland (the “North America” routes and collectively with the Neighbor Island routes, referred to as our “Domestic” routes), and between the Hawaiian Islands and the South Pacific, Australia, and Asia (the “International” routes), collectively referred to as our “Scheduled Operations.” In addition, we operate various charter flights. We are the largest airline headquartered in the State of Hawai‘i and the tenth largest domestic airline in the United States based on revenue passenger miles reported by the Research and Innovative Technology Administration Bureau of Transportation Statistics for the month of April 2018, the latest available data. As of June 30, 2018, we had 7,142 active employees.

General information about us is available at <https://www.hawaiianairlines.com>. Information contained on our website is not incorporated by reference into, or otherwise to be regarded as part of, this Quarterly Report on Form 10-Q unless expressly noted. Our annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K, as well as any

amendments and exhibits to those reports, are available free of charge through our website as soon as reasonably practicable after we file them with, or furnish them to, the Securities and Exchange Commission.

Financial Highlights

GAAP net income in the second quarter of \$79.5 million, or \$1.56 per diluted share.

Adjusted net income in the second quarter of \$73.3 million, or \$1.44 per diluted share.

Pre-tax margin for the second quarter of 14.8%.

Unrestricted cash and cash equivalents and short-term investments of \$593.1 million.

See “Results of Operations” below for further discussion of changes in revenue and operating expense. See “Non-GAAP Financial Measures” below for our reconciliation of non-GAAP measures.

Outlook

Looking ahead, industry capacity increases in North America and certain parts of our International network are expected to continue through the third quarter of 2018. We expect our available seat miles during the three months ending September 30, 2018 to increase by 7.5% to 9.5% from the prior year period, while we expect operating revenue per available seat mile to be down 1.5% to up 1.5%. We expect operating cost per available seat mile during the three months ending September 30, 2018 to increase by 6.8% to 10.3% compared to the prior year period.

Partnerships

Together with Japan Airlines, we filed an application with the U.S. Department of Transportation (DOT) and Japan's Ministry of Land, Infrastructure, Transport and Tourism (MLIT) seeking antitrust immunity to create a joint venture that promises significant consumer benefits and the opportunity for service expansion. The joint venture will build upon the board codeshare partnership the two carriers initiated in March 2018.

Fleet Summary

In July 2018, we announced the execution of a purchase agreement for the purchase of 10 Boeing 787-9 "Dreamliner" aircraft with purchase rights for an additional 10 aircraft. We expect those aircraft to be delivered starting in 2021 and, thus, they are not reflected in the table below. The table below summarizes our total fleet as of June 30, 2017 and 2018, and expected fleet as of June 30, 2019 (based on existing executed agreements):

Aircraft Type	June 30, 2017			June 30, 2018			June 30, 2019		
	Leased (2)	Owned (2)	Total	Leased (2)	Owned (2)	Total	Leased (2)	Owned (2)	Total
A330-200	11	12	23	11	13	24	11	13	24
A321neo	—	—	—	1	5	6	2	12	14
767-300	4	4	8	4	4	8	—	—	—
717-200	5	15	20	5	15	20	5	15	20
ATR 42-500 (1)	—	3	3	—	4	4	—	4	4
ATR 72-200 (3)	—	3	3	—	3	3	—	3	3
Total	20	37	57	21	44	65	18	47	65

- (1) The ATR 42-500 turboprop aircraft are owned by Airline Contract Maintenance & Equipment, Inc., a wholly-owned subsidiary of the Company.
- (2) Leased aircraft include aircraft under both capital and operating leases.
- (3) The ATR 72-200 turboprop aircraft are used for our cargo operations.

Results of Operations

For the three months ended June 30, 2018, we generated net income of \$79.5 million, or \$1.56 per diluted share, compared to net income of \$76.9 million, or \$1.43 per diluted share, for the same period in 2017. For the six months ended June 30, 2018, we generated net income of \$108.0 million, or \$2.12 per diluted share, compared to net income of \$110.5 million, or \$2.05 per diluted share, for the same period in 2017. During the first quarter of 2018, we extended our partnership with Barclaycard US, Hawaiian's co-branded credit card partner. The new agreement continues through 2024 and includes improved economics and enhanced product offerings for our cardholders.

Selected Consolidated Statistical Data (unaudited)

	Three months ended		Six months ended	
	June 30, 2018	2017	June 30, 2018	2017

CASM excluding aircraft fuel, contract terminations expense, and special items (b)	9.35 ¢	8.99 ¢	9.54 ¢	9.16 ¢
Aircraft fuel expense per ASM (c)	3.05 ¢	2.17 ¢	2.94 ¢	2.23 ¢
Revenue block hours operated	51,477	47,569	100,223	92,574
Gallons of aircraft fuel consumed	68,627	64,506	133,906	126,244
Average cost per gallon of aircraft fuel (actual) (c)	\$ 2.23	\$ 1.59	\$ 2.14	\$ 1.63

(a) Includes the operations of our contract carrier under a capacity purchase agreement.

(b) Represents adjusted unit costs, a non-GAAP measure. We believe this is a useful measure because it better reflects our controllable costs. See "Non-GAAP Financial Measures" below for a reconciliation of non-GAAP measures.

(c) Includes applicable taxes and fees.

Operating Revenue

During the three and six months ended June 30, 2018, operating revenue increased by \$45.3 million, or 6.8%, and \$104.5 million, or 8.2%, respectively, as compared to the prior year periods, driven by increased passenger revenue and is discussed further below:

Passenger revenue

For the three and six months ended June 30, 2018, passenger revenue increased by \$31.2 million, or 5.0%, and \$79.0 million, or 6.7%, respectively, as compared to the prior year periods. Details of these changes are described in the table below:

33

	Three months ended June 30, 2018 as compared to three months ended June 30, 2017				Six months ended June 30, 2018 as compared to six months ended June 30, 2017			
	Change in scheduled passenger revenue (in millions)	Change in Yield	Change in RPM	Change in ASM	Change in scheduled passenger revenue (in millions)	Change in Yield	Change in RPM	Change in ASM
Domestic	\$14.1	(3.4)%	6.5 %	8.3 %	\$48.0	(1.2)%	6.6 %	8.4 %
International	17.1	7.6	4.0	1.9	31.0	6.1	4.6	—
Total scheduled	\$31.2	(0.7)%	5.7 %	6.0 %	\$79.0	0.7 %	5.9 %	5.3 %

Domestic

For the three and six months ended June 30, 2018, revenue on our domestic routes increased by \$14.1 million, or 2.9%, and \$48.0 million, or 5.3%, respectively, as compared to the prior year periods. The increase was due to an increase in overall passengers flown in our North America routes of 7.4% and 7.1% for the three and six months ended June 30, 2018, respectively, partially offset by a slight decrease in average fare prices. During the year we expanded our operations and now have direct routes that go between Maui, Hawaii and Portland, Oregon (January 2018), Kona, Hawaii and Los Angeles, California (March 2018), Lihue, Hawaii and Los Angeles, California (May 2017), Honolulu, Hawaii and Long Beach, California (May 2018), and Maui, Hawaii and San Diego, California (June 2018).

International

For the three and six months ended June 30, 2018, revenue on our international routes increased by \$17.1 million, or 11.9%, and \$31.0 million, or 10.9%, respectively, as compared to the prior year periods. During the three months ended June 30, 2018, the overall passengers flown increased by 4.1% and average fares increased by 8.0% as compared to the prior year period. During the six months ended June 30, 2018, the overall passengers flow increased by 4.5% and average fares increased by 7.8% as compared to the prior year period.

Operating Expense

Operating expenses were \$622.5 million and \$533.3 million for the three months ended June 30, 2018 and 2017, respectively, and \$1,251.7 million and \$1,077.5 million for the six months ended June 30, 2018 and 2017, respectively. Increases (decreases) in operating expenses for the three and six months ended June 30, 2018, as compared to the prior year periods, are detailed below:

	Increase / (decrease) for the three months ended June 30, 2018 compared to the three months ended June 30, 2017		Increase / (decrease) for the six months ended June 30, 2018 compared to the six months ended June 30, 2017		
	\$	%	\$	%	
Operating expenses	(in thousands)		(in thousands)		
Wages and benefits	\$ 16,895	10.9 %	\$ 34,551	11.3 %	
Aircraft fuel, including taxes and delivery	50,252	48.9	80,160	38.9	
Maintenance, materials and repairs	8,404	16.0	7,141	6.4	
Aircraft and passenger servicing	2,990	8.4	5,218	7.5	
Commissions and other selling	(309)	(1.0)	1,974	3.2	
Aircraft rent	(4,688)	(13.6)	(5,923)	(8.8)	
Other rentals and landing fees	3,746	13.7	6,225	11.2	
Depreciation and amortization	5,047	18.1	9,824	17.8	
Purchased services	3,419	12.2	7,903	14.5	
Contract terminations expense	—	—	35,322	100.0	
Special items	(4,771)	(100.0)	(23,450)	(100.0)	
Other	8,258	25.2	15,266	23.6	
Total	\$ 89,243	16.7 %	\$ 174,211	16.2 %	

Wages and benefits

Wages and benefits expense increased by \$16.9 million, or 10.9%, and \$34.6 million, or 11.3%, for the three and six months ended June 30, 2018, respectively as compared to the prior year periods. The wages and benefits for our pilots increased by \$8.6 million and \$18.7 million, respectively for the three and six months ended June 30, 2018 due to an increase in pilot headcount related to the induction of our Airbus A321neo fleet. In addition, employee benefits expenses, which includes health insurance costs, increased by \$3.9 million and \$7.5 million for the three and six months ended June 30, 2018, respectively. We have also increased the number of flight crew personnel and training events which relate to the induction of our Airbus A321neo fleet. Overall employee headcount increased 12.4% from June 30, 2017 to June 30, 2018.

Aircraft fuel

Aircraft fuel expense increased during the three and six months ended June 30, 2018, as compared to the prior year period, primarily due to the increase in the average fuel price per gallon and an increase in consumption as illustrated in the following table:

	Three months ended June 30,			Six months ended June 30,		
	2018	2017	% Change	2018	2017	% Change
	(in thousands, except per-gallon amounts)			(in thousands, except per-gallon amounts)		
Aircraft fuel expense, including taxes and delivery	\$ 153,026	\$ 102,774	48.9 %	\$ 286,472	\$ 206,312	38.9 %
Fuel gallons consumed	68,627	64,506	6.4 %	133,906	126,244	6.1 %
	\$ 2.23	\$ 1.59	40.3 %	\$ 2.14	\$ 1.63	31.3 %

Average fuel price per gallon, including taxes and delivery

We believe economic fuel expense is a good measure of the effect of fuel prices on our business as it most closely approximates the net cash outflow associated with the purchase of fuel for our operations in a period and is consistent with how our management manages our business and assesses our operating performance. We define economic fuel expense as raw fuel expense plus (gains)/losses realized through actual cash payments to/(receipts from) hedge counterparties for fuel derivatives settled in the period, inclusive of costs related to hedging premiums. Economic fuel expense is calculated as follows:

35

	Three months ended June 30,			Six months ended June 30,		
	2018	2017	% Change	2018	2017	% Change
	(in thousands, except per-gallon amounts)			(in thousands, except per-gallon amounts)		
Aircraft fuel expense, including taxes and delivery	\$153,026	\$102,774	48.9 %	\$286,472	\$206,312	38.9 %
Realized losses (gains) on settlement of fuel derivative contracts	(10,827)	1,902	(669.2)%	(16,488)	(687)	2,300.0%
Economic fuel expense	\$142,199	\$104,676	35.8 %	\$269,984	\$205,625	31.3 %
Fuel gallons consumed	68,627	64,506	6.4 %	133,906	126,244	6.1 %
Economic fuel costs per gallon	\$2.07	\$1.62	27.8 %	\$2.02	\$1.63	23.9 %

See Item 3, "Quantitative and Qualitative Disclosures About Market Risk" for additional discussion of our aircraft fuel costs and related hedging program.

Aircraft rent

Aircraft rent expense decreased by \$4.7 million, or 13.6% and \$5.9 million, or 8.8%, for the three and six months ended June 30, 2018, respectively as compared to the prior year periods. As described below under Contract terminations expense during the first quarter of 2018, we entered into a transaction with a lessor to early terminate three Boeing 767-300 aircraft leases and concurrently entered into a forward sale agreement for the same three Boeing 767-300 aircraft, including two Pratt & Whitney 4060 engines for each aircraft. As we now own these aircraft, the amount of aircraft rent expense has been reduced.

Depreciation and amortization

Depreciation and amortization expense increased by \$5.0 million, or 18.1%, and \$9.8 million, or 17.8%, for the three and six months ended June 30, 2018, respectively, as compared to the prior year periods, due to the increase in the number of owned aircraft, specifically the addition of an Airbus A330-200, five Airbus A321neo aircraft, as well as the three Boeing 767-300's in our fleet.

Contract terminations expense

During the six months ended June 30, 2018, we terminated two contracts which incurred a total of \$35.3 million in expense. The transactions are described below:

In February 2018, we exercised our right to terminate the aircraft purchase agreement with Airbus for six Airbus A330-800neo aircraft and the purchase rights for an additional six Airbus A330-800neo aircraft. To terminate the purchase agreement, we were obligated to repay Airbus for concessions received relating to a prior firm order, training credits, as well as forfeit the pre-delivery progress payments made towards the flight equipment. We recorded a contract terminations expense to reflect a portion of the termination penalty within our Consolidated Statements of Operations.

In January 2018, we entered into a transaction with a lessor to early terminate three Boeing 767-300 aircraft leases and concurrently entered into a forward sale agreement for the same three Boeing 767-300 aircraft, including two Pratt & Whitney 4060 engines for each aircraft. These aircraft were previously accounted for as operating leases. In order to exit the lease and purchase the aircraft, we agreed to pay a total of \$67.1 million (net of all deposits) of which a portion was expensed immediately and recognized as a contract termination fee. The expensed amount represents the total purchase price amount over fair value of the aircraft purchased as of the date of the transaction.

Special items

In April 2017, we executed a sale leaseback transaction with an independent third party for three Boeing 767-300 aircraft. The lease term for the three aircraft commenced in April 2017 and goes through November 2018, December 2018, and January 2019, respectively. During the three and six months ended June 30, 2017, we recorded a loss on sale of aircraft of \$4.8 million.

In March 2017, we received notice from ALPA that the contract agreement was ratified by ALPA's members. The agreement became effective April 1, 2017. The agreement included, among other various benefits, a pay adjustment and ratification bonus computed based on previous service. During the six months ended June 30, 2017, we expensed \$18.7 million principally

related to a one-time payment to reduce our future 401K employer contribution for certain pilot groups, which was not recoverable once paid.

Other expenses

Other expenses increased by \$8.3 million, or 25.2%, and \$15.3 million or 23.6%, for the three and six months ended June 30, 2018, respectively, as compared to the prior year periods. During the period, there was an increase in personnel related expenses for our crew members (e.g. meals, lodging, etc.) due to the increased flying. Other components of our Other expense line item include, but are not limited to: communication costs, professional and technical fees, insurance costs, legal fees, and other miscellaneous expenses.

Nonoperating Income (Expense)

Net nonoperating expense decreased by \$26.1 million, or 197.5%, and \$42.7 million, or 147.2% for the three and six months ended June 30, 2018, respectively, as compared to the prior year periods. The decrease in expense was due to a \$23.7 million and \$37.1 million gain on fuel derivatives for the three and six months ended June 30, 2018, respectively. As described in Note 9 to our Consolidated Financial Statements, during the quarter we originated debt denominated in a foreign currency. The fluctuation in foreign exchange rates at each balance sheet date is reflected within the nonoperating income (expense) line item. The foreign currency fluctuation for the three months ended June 30, 2018 was not material.

Income Taxes

Our effective tax rate was 24.9% and 37.8% for the three months ended June 30, 2018 and 2017, respectively and 24.4% and 34.9% for the six months ended June 30, 2018 and 2017, respectively. The effective tax rate represents a blend of federal and state taxes and includes the impact of certain nondeductible items. The effective tax rate for the three and six months ended June 30, 2018 also reflects the reduced federal corporate income tax rate as a result of the enactment of the Tax Cuts and Jobs Act (the Tax Act) in December 2017. We continue to analyze the different aspects of the Tax Act which could potentially affect the provisional estimates that were recorded at December 31, 2017. The accounting is expected to be complete when the 2017 U.S. corporate income tax return is filed later in 2018.

Liquidity and Capital Resources

Our liquidity is dependent on the cash we generate from operating activities and our debt financing arrangements. As of June 30, 2018, we had \$333.8 million in cash and cash equivalents and \$259.3 million in short-term investments, an increase of \$132.9 million from December 31, 2017.

We have been able to generate sufficient funds from our operations to meet our working capital requirements and finance our aircraft acquisitions through secured debt and lease financings. At June 30, 2018, we had approximately \$692.0 million of debt and capital lease obligations, including approximately \$113.5 million classified as a current liability in our unaudited Consolidated Balance Sheets. See the Contractual Obligations table below for a description of our estimated contractual obligations as of June 30, 2018.

We also have access to a secured revolving credit and letter of credit facility of \$225 million, maturing in December 2019. As of June 30, 2018, we had no outstanding borrowings under the revolving credit facility. During the three months ended June 30, 2018, we executed multiple foreign-denominated debt agreements for a total principal value of \$86.5 million, which is collateralized by aircraft.

Cash Flows

Net cash provided by operating activities was \$373.8 million for the six months ended June 30, 2018 primarily due to \$108.0 million in net income, increase of \$123.0 million in air traffic liability, and a decrease of \$21.7 million in accounts receivables.

Net cash used in investing activities was \$248.0 million for the six months ended June 30, 2018 due to purchases of property and equipment, specifically the purchase of three Airbus A321neo's along with progress payments on flight equipment during the year.

Net cash provided by financing activities was \$17.1 million for the six months ended June 30, 2018, due to the origination of \$86.5 million in debt offset by \$22.8 million of repurchases of our common stock in the period, \$30.1 million in repayments of our long-term debt and lease obligations, and \$12.2 million in dividend payments during the year.

Capital Commitments

As of June 30, 2018, we had the following capital commitments consisting of firm aircraft and engine orders and purchase rights:

Aircraft Type	Firm Orders	Purchase Rights	Expected Delivery Dates
A321neo aircraft	11	9	Between 2018 and 2020
Pratt & Whitney spare engines:			
A321neo spare engines	3	2	Between 2018 and 2019

In the first quarter of 2018, we exercised our right to terminate the aircraft purchase agreement between us and Airbus for six Airbus A330-800neo aircraft and the purchase rights for an additional six Airbus A330-800neo aircraft. In July 2018, we executed a purchase agreement for the purchase of 10 Boeing 787-9 "Dreamliner" aircraft with purchase rights for an additional 10 aircraft. We also intend to enter into additional related agreements in connection with the Boeing 787-9 purchases, including for the purchases of aircraft engines, a flight simulator, spare parts and materials and related services.

Committed expenditures for these aircraft (excluding the Boeing 787-9's), engines and related flight equipment approximates \$207 million for the remainder of 2018, \$278 million in 2019, \$48 million in 2020, \$5 million in 2021, \$5 million in 2022 and \$38 million thereafter.

In order to complete the purchase of these aircraft and fund related costs, we may need to secure financing. We have backstop financing available from aircraft and engine manufacturers, subject to certain customary conditions. We are also currently exploring various financing alternatives, and while we believe that such financing will be available to us, there can be no assurance that financing will be available when required, or on acceptable terms, or at all. The inability to secure such financing could have an impact on our ability to fulfill our existing purchase commitments and a material adverse effect on our operations.

Stock Repurchase Program and Dividends

In November 2017, our Board of Directors approved a stock repurchase program pursuant to which we may repurchase up to \$100 million of our outstanding common stock over a two-year period through December 2019. The stock repurchase program is subject to further modification or termination at any time. We spent \$2.5 million and \$22.8 million to repurchase and retire approximately 65 thousand shares and 614 thousand shares of the Company's common stock in open market transactions during the three and six months ended June 30, 2018, respectively. As of June 30, 2018, we had \$77.2 million remaining to spend under our stock repurchase program.

During the three months ended June 30, 2018, we declared and paid cash dividends of \$0.12 per share, or \$6.1 million, which was paid on May 25, 2018, to stockholders of record as of May 11, 2018.

Credit Card Holdbacks

Under our bank-issued credit card processing agreements, certain proceeds from advance ticket sales may be held back to serve as collateral to cover any possible chargebacks or other disputed charges that may occur. These holdbacks, which are included in restricted cash in our unaudited Consolidated Balance Sheets set forth in our unaudited Consolidated Financial Statements included elsewhere in this Quarterly Report on Form 10-Q, totaled \$1.0 million as of each of June 30, 2018 and December 31, 2017.

In the event of a material adverse change in our business, the holdbacks could increase to an amount up to 100% of the outstanding credit card amounts that is unflown (e.g. air traffic liability), which would also result in an increase in our required level of restricted cash. If we are unable to obtain a waiver of, or otherwise mitigate the increase in the restriction of cash, it could have a material adverse impact on our operations.

Pension and Postemployment Benefit Plan Funding

During the three and six months ended June 30, 2018, we did not contribute to our defined benefit and other post-retirement plans. During the three and six months ended June 30, 2017, we contributed \$8.0 million and \$14.4 million, respectively, to our defined benefit and other post-retirement plans. Future funding requirements for our defined benefit plans are dependent upon many factors such as interest rates, funded status, applicable regulatory requirements and the level and timing of asset returns.

Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations are based upon financial statements that have been prepared in accordance with U.S. generally accepted accounting principles. The preparation of these financial statements requires management to make estimates and judgments that affect the reported amount of assets and liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities as of the date of the financial statements. Actual results may differ from these estimates under different assumptions and/or conditions.

Critical accounting policies and estimates are defined as those accounting policies and accounting estimates that are reflective of significant judgments and uncertainties that potentially result in materially different results under different assumptions and conditions. For a detailed discussion of the application of our critical accounting policies, see Note 2 herein, "Significant Accounting Policies," and the section, titled "Critical Accounting Policies and Estimates," and Note 1, "Summary of Significant Accounting Policies," to our Consolidated Financial Statements for the year ended December 31, 2017, each included in our Annual Report on Form 10-K, Updates to those policies since the issuance of our 2017 Annual Report are below.

We adopted ASC 606 as of January 1, 2018, utilizing the full retrospective option. The adoption of the standard has had a significant impact on our financial statements and our critical accounting policies. See Note 2 and Note 5 to our Consolidated Financial Statements above for additional information including estimated quantification of the overall effect. A summary of our significant critical accounting policies as it pertains to the adoption is below.

Revenue Recognition

HawaiianMiles, Hawaiian's frequent flyer travel award program, provides a variety of awards to program members based on accumulated mileage. ASC 606 requires us to account for miles earned by passengers in the HawaiianMiles program through flight activity as a component of the passenger revenue ticket transaction at the estimated selling price of the miles. Ticket consideration received is allocated between the performance obligations, primarily travel and miles earned by passengers. The allocated value of the miles is deferred until the free travel or other award is used by the passenger, at which time it is included in passenger revenue. The value of the ticket used in the determination of the estimated selling price is based on the historical value of equivalent flights to those provided for loyalty awards and the related miles redeemed to obtain that award adjusted for breakage or fulfillment. On a quarterly basis, we calculate the equivalent ticket value (ETV) by analyzing the fares of similar tickets for the prior 12 months, considering cabin class and geographic region.

We also sell mileage credits to companies participating in our frequent flyer program. These contracts generally include multiple performance obligations, including the transportation that will ultimately be provided when the mileage credits are redeemed and marketing and brand related activities. The marketing and brand performance obligations are effectively provided each time a HawaiianMiles member uses the co-branded credit card and monthly access to customer lists and marketing is provided, which corresponds to the timing of when we issue or are obligated to issue the mileage credits to the HawaiianMiles member. Therefore, we recognize revenue for the brand performance obligation when HawaiianMiles members use their co-brand credit card and the resulting mileage credits are issued to them, which best correlates with our performance toward satisfying the obligation.

Accounting for frequent flyer revenue involves the use of various techniques to estimate revenue. We sell mileage credits to companies participating in the frequent flyer program, who in turn issue those miles to customers based on

the volume of spend making the majority of the transaction price variable. To determine the total estimated transaction price, we forecast future credit card activity based on historical data.

The relative selling price is determined using management's estimated standalone selling price of each performance obligation. The objective of using the estimated selling price based methodology is to determine the price at which we would transact a sale if the product or service were sold on a standalone basis. Accordingly, we determine our best estimate of selling price by considering multiple inputs and methods including, but not limited to, discounted cash flows, brand value, published selling prices, number of miles awarded and number of miles redeemed. We estimate the selling price of miles using an ETV adjusted for a fulfillment discount as described above.

Miles expire after 18 months of member account inactivity. The ETV includes a fulfillment discount (breakage) to reflect the value of the award ticket over the number of miles that, based on historical experience, will be needed to obtain the award. We review our breakage estimates annually based upon the latest available information regarding redemption and expiration patterns (e.g., credit card and non-credit card holders). Our estimate of the expected expiration of miles requires significant management judgment. Current and future changes to expiration assumptions or to the expiration policy, or to program rules and program could affect the estimated value of a mile.

Passenger revenue

Passenger revenue associated with unused tickets, which represent unexercised passenger rights, is recognized in proportion to the pattern of rights exercised by related passengers (e.g. scheduled departure dates). To calculate the portion to be recognized as revenue in the period, we utilize historical information and apply the trend rate to the current air traffic liability balances for that specific period.

Contractual Obligations

Our estimated contractual obligations as of June 30, 2018 are summarized in the following table:

Contractual Obligations	Total	Remaining in 2018	2019 - 2020	2021 - 2022	2023 and thereafter
	(in thousands)				
Debt and capital lease obligations (1)	\$867,242	\$ 51,604	\$ 190,365	\$ 189,849	\$435,424
Operating leases—aircraft and related equipment (2)	525,515	53,421	180,689	126,412	164,993
Operating leases—non-aircraft	126,533	3,487	13,293	13,606	96,147
Purchase commitments - Capital (3)	581,490	207,042	326,232	10,151	38,065
Purchase commitments - Operating (4)	473,624	35,568	118,340	103,648	216,068
Projected employee benefit contributions (5)	34,890	—	34,890	—	—
Total contractual obligations	\$2,609,294	\$ 351,122	\$ 863,809	\$ 443,666	\$950,697

(1) Amounts reflect capital lease obligations for one Airbus A330-200 aircraft, two Boeing 717-200 aircraft, one Airbus A321neo aircraft, one Airbus A330 flight simulator, and aircraft and IT related equipment.

(2) Amounts reflect leases for ten Airbus A330-200 aircraft, four Boeing 767-300 aircraft, three Boeing 717-200 aircraft, and one Airbus A321neo aircraft.

(3) Amounts include our firm commitments for aircraft and aircraft related equipment (which excludes the Boeing 787-9's).

(4) Amounts include commitments for services provided by third-parties for aircraft maintenance for our Airbus fleet, accounting, IT, capacity purchases, and the estimated rental payments for a cargo and maintenance hangar. Total contractual obligations do not include long-term contracts where the commitment is variable in nature (with no minimum guarantee), such as aircraft maintenance deposits due under operating leases and fees due under certain other agreements such as aircraft maintenance power-by-the-hour, computer reservation systems and credit card processing agreements, or when the agreements contain short-term cancellation provisions.

(5) Amounts include our estimated minimum contributions to our pension plans (based on actuarially determined estimates) and contributions to our pilots' disability plan. Amounts are subject to change based on numerous

factors, including interest rate levels, the amount and timing of asset returns and the impact of future legislation. We are currently unable to estimate the projected contributions beyond 2020.

Off-Balance Sheet Arrangements

During the periods presented we did not have, nor do we currently have, any off-balance sheet arrangements as defined under the applicable rules of the SEC.

40

Non-GAAP Financial Measures

We believe the disclosure of non-GAAP financial measures is useful information to readers of our financial statements because:

- We believe it is the basis by which we are evaluated by many industry analysts and investors;
- These measures are often used in management and board of directors decision making analysis;
 - It improves a reader's ability to compare our results to those of other airlines;
 - and
- It is consistent with how we present information in our quarterly earnings press releases.

See table below for reconciliation between GAAP consolidated net income to adjusted consolidated net income, including per share amounts (in thousands unless otherwise indicated). The adjustments are described below:

Changes in fair value of derivative contracts, net of tax, are based on market prices for open contracts as of the end of the reporting period. This line item includes the unrealized amounts of fuel derivatives (not designated as hedges) that will settle in future periods and the reversal of prior period unrealized amounts. We believe that excluding the impact of these derivative adjustments helps investors analyze our operational performance and compare our results to other airlines in the periods presented below.

Unrealized loss (gain) on foreign debt is based on fluctuations in foreign exchanges rates related to foreign-denominated debt agreements we executed during the three months ended June 30, 2018. We believe that excluding the impact of these amounts helps investors analyze our operational performance and compare our results to other airlines in the periods presented below.

On April 1, 2017, our agreement with the Airline Pilots Association covering our pilots for a term of 63 months became effective. The agreement includes, among various other benefits, a pay adjustment and ratification bonus computed based on previous service. During the three months ended March 31, 2017, we expensed \$18.7 million principally related to a one-time payment to reduce our future 401K employer contribution for certain pilot groups, which is not recoverable once paid. The loss on sale of aircraft was a result of a sale-leaseback transaction covering three Boeing 767 aircraft as part of the planned exit from our Boeing 767 fleet, which resulted in a non-cash loss of \$4.8 million.

For the six months ended June 30, 2018, we terminated two contracts which incurred a total of \$35.3 million in contract terminations expense. In February 2018, we exercised our right to terminate the purchase agreement with Airbus for six Airbus A330-800neo aircraft and the purchase rights for an additional six Airbus A330-800neo aircraft. We recorded a contract terminations expense to reflect a portion of the termination penalty. In January 2018, we entered into a transaction with our lessor to early terminate and purchase three Boeing 767-300 aircraft leases and concurrently entered into a forward sale agreement for the same three Boeing 767-300 aircraft, including two Pratt & Whitney 4060 engines for each aircraft. These aircraft were previously accounted for as operating leases. In order to exit the leases and purchase the aircraft, we agreed to pay a total of \$67.1 million (net of all deposits) of which a portion was expensed immediately and recognized as a lease termination fee. The expensed amount represents the total purchase price over fair value of the aircraft purchased as of the date of the transaction.

Edgar Filing: HAWAIIAN HOLDINGS INC - Form 10-Q

	Three months ended June 30,				Six months ended June 30,			
	2018	2017		2018	2017

Operating Costs per Available Seat Mile (CASM)

We have listed separately in the table below our fuel costs per ASM and our non-GAAP unit costs, excluding fuel and special items. These amounts are included in CASM, but for internal purposes we consistently use unit cost metrics that exclude fuel and special items (if applicable) to measure and monitor our costs.

CASM and CASM-excluding aircraft fuel, contract terminations expense, and special items, are summarized in the table below:

	Three months ended June 30,		Six months ended June 30,	
	2018	2017	2018	2017
	(in thousands, except as otherwise indicated)

Less: special items	—	(0.10)	—	(0.25)
CASM - excluding aircraft fuel, contract terminations expense, and special items	9.35 ¢	8.99 ¢	9.54 ¢	9.16 ¢

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We are subject to certain market risks, including commodity price risk (e.g., aircraft fuel prices), interest rate risk and foreign currency risk. We have market-sensitive instruments in the form of financial derivatives used to offset our exposure to aircraft fuel price increases and financial hedge instruments used to hedge our exposure to foreign currency exchange risk. The adverse effects of potential changes in these market risks are discussed below.

The sensitivity analyses presented below do not consider the effects that such adverse changes may have on overall economic activity nor do they consider additional actions we might undertake to mitigate our exposure to such changes. Actual results may differ.

Aircraft Fuel Costs

Aircraft fuel costs constitute a significant portion of our operating expense. Fuel costs represented 25% and 23% of our operating expenses for the three and six months ended June 30, 2018, respectively, and 19% for each of the three and six months ended June 30, 2017. Approximately 72% of our fuel was based on Singapore jet fuel prices, 25% was based on U.S. West Coast jet fuel prices, and 3% was based on other jet fuel prices. Based on the amount of fuel expected to be consumed for the remainder of 2018, for every one cent increase in the cost of a gallon of jet fuel, our fuel expense would increase by approximately \$0.7 million.

We periodically enter into derivative financial instruments to manage our exposure to changes in the price of jet fuel. During the three and six months ended June 30, 2018, our fuel hedge program primarily consisted of crude oil call options and jet fuel swaps. Swaps provide for a settlement in our favor in the event the prices exceed a predetermined contractual level and are unfavorable in the event prices fall below a predetermined contractual level. With call options, we are hedged against spikes in crude oil prices and during a period of decline in crude oil prices we only forfeit cash previously paid for hedge premiums.

As of June 30, 2018, we hedged approximately 47% of our projected fuel requirements for the remainder of 2018 with crude oil call options. As of June 30, 2018, the fair value of these fuel derivative agreements reflected a net asset of \$28.2 million, which is recorded as a prepaid expense and other asset in our unaudited Consolidated Balance Sheet.

We expect to continue our program of offsetting some of our exposure to future changes in the price of jet fuel with a combination of fixed forward pricing contracts, swaps, calls, collars and other option-based structures. We do not hold or issue derivative financial instruments for trading purposes.

Interest Rates

Changes in market interest rates have a direct and corresponding effect on our pre-tax earnings and cash flows associated with interest-bearing cash accounts. Based on the balances of our cash and cash equivalents and restricted cash as of June 30, 2018, a change in interest rates is unlikely to have a material impact on our results of operations.

At June 30, 2018, we had \$698.5 million of fixed-rate debt including capital lease obligations, facility agreements for aircraft purchases, and the outstanding equipment notes related to our 2013 EETC financing. Market risk for fixed-rate long-term debt is estimated as the potential increase in fair value resulting from a hypothetical 10% decrease in interest rates, and amounted to approximately \$8.9 million as of June 30, 2018.

Foreign Currency

We have debt, generate revenues, and incur expenses in foreign currencies. Changes in foreign currency exchange rates impact our results of operations through changes in the dollar value of foreign currency-denominated operating revenues and expenses. Our most significant foreign currency exposures are the Japanese Yen and Australian Dollar. Based on expected remaining 2018 revenues and expenses denominated in Japanese Yen and Australian Dollars, a 10% strengthening in value of the U.S. dollar, relative to the Japanese Yen and Australian Dollar, would result in a decrease in operating income of approximately \$17.9 million and \$4.6 million, respectively, which excludes the offset of the hedges discussed below. This potential impact to the results of our operation is driven by the inherent nature of our international operations, which requires us to accept a large volume of sales transactions denominated in foreign currencies while few expense transactions are settled in foreign currencies. This disparity is the primary factor in our exposure to foreign currencies.

As of June 30, 2018, the fair value of our foreign currency forward contracts reflected a net asset of \$4.3 million and \$0.6 million recorded in Prepaid expenses and other (short-term) and Long-term prepayments and other (long-term), respectively, in our unaudited Consolidated Balance Sheets.

As we have foreign-denominated debt, the amount of debt owed will be impacted by the fluctuations in Japanese Yen. A 10% decrease in the value of the U.S. dollar, relative to the Japanese Yen, would result in a increase of our losses by approximately \$9.6 million.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

Our management, including our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), performed an evaluation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), which have been designed to permit us to effectively identify and timely disclose important information. Based on that evaluation, our management, including our CEO and CFO, concluded that our disclosure controls and procedures were effective as of June 30, 2018 to provide reasonable assurance that the information required to be disclosed by the Company in reports it files under the Exchange Act, as amended, is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and is accumulated and communicated to our management, including our CEO and CFO, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended June 30, 2018 which materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on Effectiveness of Controls

A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. The design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Further, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, will be detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of effectiveness of controls to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

We are not a party to any litigation that is expected to have a significant effect on our operations or business.

ITEM 1A. RISK FACTORS.

See Part I, Item 1A., “Risk Factors” of our Annual Report on Form 10-K for the fiscal year ended December 31, 2017 for a detailed discussion of the risk factors affecting our business, results of operations and financial condition.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

The following table displays information with respect to our repurchases of shares of our common stock during the three months ended June 30, 2018:

Period	Total number of shares purchased (i)	Average price paid per share (ii)	Total number of shares purchased as part of publicly announced plans or programs (i)	Approximate dollar value of shares that may yet be purchased under the plans or programs (in millions) (i)
April 1, 2018 - April 30, 2018	—	\$ —	—	
May 1, 2018 - May 31, 2018	—	—	—	
June 1, 2018 - June 30, 2018	65,389	38.23	65,389	
Total	65,389		65,389	\$ 77.2

In November 2017, our Board of Directors approved a stock repurchase program pursuant to which the Company (ii) may repurchase up to \$100 million of our outstanding common stock over a two-year period through December 2019. The stock repurchase program is subject to further modification or termination at any time.

(ii) Weighted average price paid per share is calculated on a settlement basis and excludes commission.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

None.

ITEM 4. MINE SAFETY DISCLOSURES.

Not applicable.

ITEM 5. OTHER INFORMATION.

None.

ITEM 6. EXHIBITS.

Exhibit No. Description

12	<u>Computation of ratio of earnings to fixed charges for the six months ended June 30, 2018 and years ended December 31, 2017, 2016, 2015, 2014 and 2013.</u>
31.1	<u>Rule 13a-14(a) Certification of Chief Executive Officer.</u>
31.2	<u>Rule 13a-14(a) Certification of Chief Financial Officer.</u>
