Form 20-F  
April 30, 2012

---

SECURITIES AND EXCHANGE COMMISSION  
WASHINGTON, D.C. 20549

FORM 20-F

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF  
THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2011

Commission file no. 001-32618

ITURAN LOCATION AND CONTROL LTD.  
(Exact name of Registrant as specified in its charter and  
translation of Registrant's name into English)

Israel  
(Jurisdiction of incorporation or organization)

3 Hashikma Street, Azour, Israel  
(Address of principal executive offices)

Securities registered or to be registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
Ordinary Shares, par value NIS 0.331/3 per share	Nasdaq Global Select Market

Securities registered or to be registered pursuant to Section 12(g) of the Act:

None  
(Title of Class)

Securities for which there is reporting obligation pursuant to Section 15(d) of the Act:

None

Indicate the number of outstanding shares of each of the Issuer's classes of capital or common stock as of the close of the period covered by the annual report:

23,475,431 Ordinary Shares

Indicate by check mark if the Registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act

Yes  No

---

If this report is an annual or transition report, indicate by check mark if the Registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

Yes  No

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (232.405 of this chapter) during the preceding 12 months (or for shorter period that the registrant was required to submit and post such files).

Yes  No

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act (check one):

Large Accelerated Filer

Accelerated Filer

Non-accelerated filer

Indicate by check mark which basis of accounting the registrant had used to prepare the financial statements included in this filing:

U.S. GAAP

International Financial Reporting  
Standards as issued  
by the International Accounting  
Standards Board

Other

If "Other" has been checked in response to the previous question, indicate by check mark which financial statement item the Registrant has elected to follow:

Item 17  Item 18

If this is an annual report, indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes  No

[APPLICABLE ONLY TO ISSUERS INVOLVED IN BANKRUPTCY PROCEEDINGS DURING THE PAST FIVE YEARS]

Indicate by check mark whether the registrant has filed all documents and reports required to be filed by Sections 12, 13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court.

Yes  No

#### USE OF CERTAIN TERMS

As used herein, and unless the context suggests otherwise, the terms “we”, “us”, “our” or “Ituran” refer to Ituran Location and Control Ltd. and its consolidated subsidiaries.

We have prepared our consolidated financial statements in US Dollars. Our consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States (“U.S. GAAP”). All references herein to “dollars” or “\$” or “USD” are to United States dollars, and all references to “NIS” are to New Israeli Shekels.

#### FORWARD LOOKING STATEMENTS

This Annual Report on Form 20-F contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The use of the words “projects,” “believes,” “expects,” “may,” “plans” or “intends,” or words of similar import, identifies a statement as “forward-looking.” The forward-looking statements included herein are based on current expectations that involve a number of risks and uncertainties. These forward-looking statements are based on the assumption that we will not lose a significant customer or customers or experience increased fluctuations of demand or rescheduling of purchase orders, that our markets will continue to grow, that our products will remain accepted within their respective markets and will not be replaced by new technology, that competitive conditions within our markets will not change materially or adversely, that we will retain key technical and management personnel, that our forecasts will accurately anticipate market demand, and that there will be no material adverse change in our operations or business. Assumptions relating to the foregoing involve judgments with respect to, among other things, future economic, competitive and market conditions, and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond our control. In addition, our business and operations are subject to substantial risks which increase the uncertainty inherent in the forward-looking statements. In light of the significant uncertainties inherent in the forward-looking information included herein, the inclusion of such information should not be regarded as a

representation by us or any other person that our objectives or plans will be achieved. Factors that could cause actual results to differ from our expectations or projections include the risks and uncertainties described in this annual report in Item 3: Risk Factors.

PART I

ITEM 1. IDENTITY OF DIRECTORS, SENIOR MANAGEMENT AND ADVISERS

Not applicable.

ITEM 2. OFFER STATISTICS AND EXPECTED TIMETABLE

Not applicable.

ITEM 3. KEY INFORMATION

A. SELECTED FINANCIAL DATA

We have provided selected financial data under generally accepted accounting principles in the U.S. (U.S. GAAP). You should read the selected consolidated financial data presented in this Item together with Item 5 – Operating and Financial Review and Prospects and with our consolidated financial statements included elsewhere in this annual report.

Our selected consolidated statements of income data for the years ended December 31, 2009, 2010 and 2011 and our selected consolidated balance sheet data as of December 31, 2010 and 2011 have been derived from our consolidated financial statements, included elsewhere in this report. The selected consolidated statements of income data for each of the years ended December 31, 2007 and 2008 and the selected consolidated balance sheet data as of December 31, 2007, 2008 and 2009 are derived from other audited financial statements not included in this report.

## Selected Financial Data Under U.S. GAAP:

B. CAPITALIZATION AND INDEBTEDNESS

Not applicable.

C. REASONS FOR THE OFFER AND USE OF PROCEEDS

Not applicable.

D. RISK FACTORS

Our business, operating results and financial condition could be seriously harmed due to any of the following risks, among others. If we do not successfully address the risks to which we are subject, we could experience a material adverse effect on our business, results of operations and financial condition and our share price may decline, which may result in a loss of all or part of your investment. We cannot assure you that we will successfully address any of these risks. You should carefully consider the following factors as well as the other information contained and incorporated by reference in this annual report before taking any investment decision with respect to our securities. See “Forward Looking Statements” on page iii above.

RISKS RELATED TO OUR BUSINESS

Failure to maintain our existing relationships or establish new relationships with insurance companies could adversely affect our revenues and growth potential.

Revenues from our stolen vehicle recovery services, which we refer to as SVR services, and automatic vehicle location products, which we refer to as AVL products, are primarily dependent on our relationships with insurance companies. In Israel, insurance companies drive demand for our SVR services and AVL products by encouraging and, in some cases, requiring customers to subscribe to vehicle location services and purchase vehicle location products such as ours. In Brazil and Argentina, insurance companies enter into written agreements to subscribe to our services and purchase or lease our products directly. Our inability to maintain our existing relationships or establish new relationships with insurance companies could adversely affect our revenues and growth potential.

Changes in practices of insurance companies in the markets in which we provide our SVR services and sell our AVL products could adversely affect our revenues and growth potential.

We depend on the practices of insurance companies in the markets in which we provide our SVR services and sell our AVL products. In Israel, insurance companies either mandate the use of SVR services and AVL products, or their equivalent, as a prerequisite for providing insurance coverage to owners of certain medium- and high-end vehicles, or provide insurance premium discounts to encourage vehicle owners to subscribe to services and purchase products such as ours. In Brazil and Argentina, insurance companies mainly lease our AVL products directly and subsequently require their customers to subscribe to our SVR services.

Therefore, we rely on insurance companies’ continued practice of:

- n accepting vehicle location and recovery technology as a preferred security product;
- n requiring or providing a premium discount for using location and recovery services and products;
- n mandating or encouraging use of our SVR services and AVL products, or similar services and products, for vehicles with the same or similar threshold values and for the same or similar required duration of use; and
- n with respect to insurance companies in Brazil and Argentina, deciding to lease SVR services and AVL products from us directly.

If any of these policies or practices change, revenues from sales of our SVR services and AVL products could decline, which could adversely affect our revenues and growth potential.

4

---

A reduction in vehicle theft rates may adversely impact demand for our SVR services and AVL products.

Demand for our SVR services and AVL products depends primarily on prevailing or expected vehicle theft rates. Vehicle theft rates may decline as a result of various reasons, such as the availability of improved security systems, implementation of improved or more effective law enforcement measures, or improved economic or political conditions in markets that have high theft rates. If vehicle theft rates in any or all of our existing markets decline, or if insurance companies or our other customers believe that vehicle theft rates have declined or are expected to decline, demand for our SVR services and AVL products may decline.

A decline in sales of new medium- and high-end cars and commercial vehicles in the markets in which we operate could result in reduced demand for our SVR services and AVL products.

Our SVR services and AVL products are primarily used to protect medium- and high-end cars and commercial vehicles and are often installed before or immediately after their initial sale. Consequently, a reduction in sales of new medium- and high-end vehicles could reduce our addressable market for SVR services and AVL products. New vehicle sales may decline for various reasons, including an increase in new vehicle tariffs, taxes or gas prices. A decline in vehicle production levels or labor disputes affecting the automobile industry in the markets where we operate may also impact the volume of new vehicle sales. A decline in sales of new medium- and high-end vehicles in the markets in which we provide our SVR services or sell our AVL products could result in reduced demand for such services and products.

There is significant competition in the markets in which we offer our services and products and our results of operations could be adversely affected if we fail to compete successfully.

The markets for our services and products are highly competitive. We compete primarily on the basis of the technological innovation, quality and price of our services and products. Our most competitive market is the location-based services market and the related AVL products market, due to the existence of a wide variety of competing services and products and alternative technologies that offer various levels of protection and tracking capabilities, including global positioning systems, or GPS (although we also provide services based on GPS/GPRS technology), satellite- or network-based cellular systems and direction-finding homing technologies. Some of these competing services and products, such as certain GPS-based products, are installed in new cars by vehicle manufacturers prior to their initial sale, which effectively precludes us from competing for such subscribers. Furthermore, providers of competing services or products may extend their offerings to the locations in which we operate or new competitors may enter the location-based services market. Our AVL products also compete with less sophisticated theft protection devices such as standard car alarms, immobilizers, steering wheel locks and homing devices, some of which may be significantly cheaper. Some of these competing products have greater brand recognition than our AVL products, including LoJack Corporation in the United States.

The development of new or improved competitive products, systems or technologies that compete with our wireless communications products may render our products less competitive or obsolete, which could cause a decline in our revenues and profitability.

We are engaged in businesses characterized by rapid technological change and frequent new product developments and enhancements. The number of companies developing and marketing new wireless communications products has expanded considerably in recent years. The development of new or improved products, systems or technologies that compete with our wireless communications products may render our products less competitive and we may not be able to enhance our technology in a timely manner. In addition to the competition resulting from new products, systems or technologies, our future product enhancements may not adequately meet the requirements of the marketplace and may not achieve the broad market acceptance necessary to generate significant revenues. Any of the

foregoing could cause a decline in our revenues and profitability.

5

---

The inability of local law enforcement agencies to timely and effectively recover the stolen vehicles we locate could negatively impact customers' perception of the usefulness of our SVR services and AVL products, adversely affecting our revenues.

Our AVL products identify the location of vehicles in which our products are installed. Following a notification of an unauthorized entry, or if we receive notification of the vehicle's theft from a subscriber, we notify the relevant law enforcement agency of the location of the subscriber's vehicle and generally rely on local law enforcement or governmental agencies to recover the stolen vehicle. We cannot control nor predict the response time of the relevant local law enforcement or other governmental agencies responsible for recovering stolen vehicles, nor that the stolen vehicles, once located, will be recovered at all. In the past, some stolen vehicles in which our AVL products were installed were not recovered and the average stolen vehicle recovery time in the markets in which we operate was 20 minutes from the time an unauthorized entry is confirmed or reported to the time the vehicle is recovered. To the extent that the relevant agencies do not effectively and timely respond to our calls and recover stolen vehicles, our recovery rates would likely diminish, which may, in turn, negatively impact customers' perception of the usefulness of our SVR services and AVL products, adversely affecting our revenues.

The ability to detect, deactivate, disable or otherwise inhibit the effectiveness of our AVL products could adversely affect demand for such products and our revenues.

The effectiveness of our AVL products is dependent, in part, on the inability of unauthorized persons to deactivate or otherwise alter the functioning of our AVL products or the vehicle anti-theft devices that work in conjunction with our AVL products. As sales of our AVL products increase, criminals in the markets in which we operate may become increasingly aware of our AVL products and may develop methods or technologies to detect, deactivate or disable our tracking devices or the vehicle anti-theft devices that work in conjunction with our AVL products. We believe that, as is the case with any product intended to prevent vehicle theft, over time, there may be an increased ability of unauthorized persons to detect, deactivate, disable or otherwise inhibit the effectiveness of our AVL products, although it is difficult to verify this fact. An increase in the ability of unauthorized persons to detect, deactivate, disable or otherwise inhibit the effectiveness of our AVL products could adversely affect demand for our products and our revenues.

We rely on some intellectual property that we license from a third party, the loss of which could preclude us from providing our SVR services or market and sell some of our AVL products, which would adversely affect our revenues.

We license from third parties some of the technology that we need in order to provide our SVR services and market and sell some of our AVL products. In the event that such licenses were to be terminated, or if such licenses were rendered unenforceable or invalid, we would not be able to license similar technology from other parties, which would require us, at a minimum, to obtain rights to a different technology and reconfigure our AVL products accordingly. In addition, some of the licenses we obtained from third parties are non-exclusive, which may enable other entities to obtain identical licenses from such third parties to operate in the places in which we conduct our business resulting in increased competition and could adversely affect our revenues.

We depend on proprietary technology and our failure to protect and enforce our intellectual property rights or our need to defend against infringement claims could result in a significant increase in costs and decline in revenues.

Our business is dependent on the uninterrupted use of proprietary technology, both owned and licensed, from third parties. If we fail to protect, enforce and maintain our intellectual property rights, we may not be able to compete and our business and operating results could be negatively impacted. We seek to protect our intellectual property rights through a combination of patents, trademarks, copyrights, trade secret laws, know-how, confidentiality procedures and licensing arrangements. Even with the intellectual property protection currently in place, we may not be able to protect our technology from misappropriation or infringement and we may lose, or the relevant owners may restrict or lose, our current rights of use of the technology that we license from such owners. Any of our existing intellectual property rights may be invalidated, circumvented, challenged or rendered unenforceable. In addition, the laws of some countries in which we operate or plan to operate, may not protect intellectual property rights to the same extent as the laws of Israel or the United States, increasing the possibility of piracy of our technology and products. It may be necessary for us to litigate in order to enforce our intellectual property rights or to determine the validity and scope of the proprietary rights of others, which litigation can be time consuming, distracting to management, expensive and difficult to predict.

It is possible that we have or will inadvertently violate the intellectual property rights of other parties and those other parties may choose to assert infringement claims against us. If a court were to determine that our technology infringes on third parties' intellectual property, in addition to exposure to substantial damages, we could be required to expend considerable resources to modify our products, to develop non-infringing technology or to obtain licenses to permit our continued use of the technology that is the subject matter of the litigation.

Our failure to protect and enforce our intellectual property rights, or our need to defend against claims of infringement of intellectual property rights of others or the loss of any such claims, could result in a significant increase in costs and decline in revenues.

Our ability to sell our services and products depends upon the prior receipt and maintenance of various governmental licenses and approvals and our failure to obtain or maintain such licenses and approvals, or third-party use of the same licenses and frequencies, could result in a disruption or curtailment of our operations, a significant increase in costs and a decline in revenues.

We are required to obtain specific licenses and approvals from various governmental authorities in order to conduct our operations. For example, our AVL products use radio frequencies that are licensed and renewed periodically from the Ministry of Communications in Israel and similar agencies worldwide. As we continue to expand into additional markets, we will be required to obtain new permits and approvals from relevant governmental authorities. Furthermore, once our AVL infrastructure is deployed and our AVL end-units are sold to subscribers, a change in radio frequencies would require us to recalibrate all of our antennas and replace or modify all end-units held by subscribers, which would be costly and may result in delays in the provision of our SVR services. In addition, some of the governmental licenses for radio frequencies that we currently use may be preempted by third parties. In Israel, our license is designated as a "joint" license, allowing the government to grant third parties a license to use the same frequencies, and in Brazil our license is designated as a "secondary", non-exclusive license, which allows the government to grant a third party a primary license to use such frequencies, which third-party use could adversely affect, disrupt or curtail our operations. Our inability to maintain necessary governmental licenses and frequency approvals, or third-party use of or interference with the same licenses or frequencies, could result in a significant increase in costs and decline in revenues.

Our SVR services business model is based on the existence of certain conditions, the loss or lack of which in existing or potential markets could adversely affect our revenues generated in existing markets or our growth

potential.

Our SVR services business model and, consequently, our ability to provide our SVR services and sell our AVL products, relies on our ability to successfully identify markets in which:

- n the rate of car theft or consumer concern over vehicle safety is high;
- n satisfactory radio frequencies are available to us that allow us to operate our business in an uninterrupted manner;
- and
- n insurance companies or owners of cars believe that the value of cars justifies incurring the expense associated with the deployment of SVR services.

7

---

The absence of such conditions, our inability to locate markets in which such conditions exist or the loss of any one of the above conditions in markets we currently serve could adversely affect our revenues generated in existing markets or our growth potential.

Some of our agreements restrict our ability to expand into new markets for our SVR services, which could adversely affect our growth potential.

In 2008, we entered into an agreement with Telematics, pursuant to which Ituran and Telematics designated parts of the world as their exclusive territories for selling their AVL products and SVR services using any RF location technology compatible to the RF vehicle location systems. This agreement restricts our ability to expand our business and operations and sell our products and services in certain markets, which could adversely affect our growth potential.

The loss of key personnel could adversely affect our business and prospects for growth.

Our success depends upon the efforts and abilities of key management personnel, including our President, our Co-Chief Executive Officers. Loss of the services of one or more of such key personnel could adversely affect our ability to execute our business plan. In addition, we believe that our future success depends in part upon our ability to attract, retain and motivate qualified personnel necessary for the development of our business. If one or more members of our management team or other key technical personnel become unable or unwilling to continue in their present positions, and if additional key personnel cannot be hired and retained as needed, our business and prospects for growth could be adversely affected.

We rely on third parties to manufacture our wireless communications products, which could affect our ability to provide such products in a timely and cost-effective manner, adversely impacting our revenues and profit margins.

We outsource the manufacturing of most of our wireless communications products to third parties. Furthermore, we use one manufacturer for production of a significant portion of our wireless communications products and we do not maintain significant levels of inventories to support us in the event of an unexpected interruption in its manufacturing process. If our principal manufacturer or any of our other manufacturers is unable to or fails to manufacture our products in a timely manner, we may not be able to secure alternative manufacturing facilities without experiencing an interruption in the supply of our products or an increase in production costs. Any such interruption or increase in production costs could affect our ability to provide our wireless communications products in a timely and cost-effective manner, adversely impacting our revenues and profit margins.

We rely on Telematics Wireless Ltd. (previously owned by us) to supply us with various products and services as single supplier of such products and services. Termination of our agreement with Telematics in respect of such products and services could adversely affect our revenues and operations.

Following the sale of our subsidiary, Telematics Wireless Ltd. in 2007 to a third party and the execution of a 10-year supply agreement with Telematics as a result of such sale, we rely on Telematics as single supplier of products and services. Termination of our relations with Telematics would adversely affect our operations and revenues.

We depend on the use of specialized quality assurance testing equipment for the production of our wireless communications products, the loss or unavailability of which could adversely affect our results of operations.

We and our third-party manufacturers use specialized quality assurance testing equipment in the production of our products. The replacement of any such equipment as a result of its failure or loss could result in a disruption of our production process or an increase in costs, which could adversely affect our results of operations.

The adoption of industry standards that do not incorporate the technology we use may decrease or eliminate the demand for our services or products and could harm our results of operations.

There are no established industry standards in all of the businesses in which we sell our wireless communications products. For example, vehicle location devices may operate by employing various technologies, including network triangulation, GPS, satellite-based or network-based cellular or direction-finding homing systems. The development of industry standards that do not incorporate the technology we use may decrease or eliminate the demand for our services or products and we may not be able to develop new services and products that are in compliance with such new industry standards on a cost-effective basis. If industry standards develop and such standards do not incorporate our wireless communications products and we are unable to effectively adapt to such new standards, such development could harm our results of operations.

Expansion of our operations to new markets involves risks and our failure to manage such risks may delay or preclude our ability to generate anticipated revenues and may impede our overall growth strategy.

We anticipate future growth to be attributable to our business activities in new markets, particularly in developing countries, where we may encounter additional risks and challenges, such as longer payment cycles, potentially adverse tax consequences, potential difficulties in collecting receivables and potential difficulties in enforcing agreements or other rights in foreign legal systems. The challenges and risks of entering a new market may delay or preclude our ability to generate anticipated revenues and may impede our overall growth strategy.

Part of our services rely on GPS/GPRS-based technology owned and controlled by others, the loss, impairment or increased expense of which could negatively impact our immediate and future revenues from, or growth of, our services and adversely affect our results of operations.

Part of our business relies on signals from GPS/GPRS satellites built and maintained by third parties. If GPS/GPRS satellites become unavailable to us, or if the costs associated with using GPS/GPRS technology increase such that it is no longer feasible or cost-effective for us to use such technology, we will not be able to adequately provide our fleet management services. In addition, if one or more GPS/GPRS satellites malfunction, there could be a substantial delay before such satellites are repaired or replaced, if at all. The occurrence of any of the foregoing events could negatively impact our immediate and future revenues from, or growth of, our fleet management services and adversely affect our results of operations.

Due to the already high penetration of SVR services and AVL products in Israel and moderate overall growth of the addressable market in Israel, our prospects for growth in such market may be limited.

Our AVL products are primarily installed in medium- and high-end cars and commercial vehicles. Therefore, our ability to increase demand for our SVR services and revenues from sales of our AVL products is limited by the number of potential vehicles in which our products can be installed in each relevant market. We estimate that our AVL products are installed in a significant portion of the medium- and high-end cars and commercial vehicles in Israel. We anticipate that revenues from sales of our SVR services and AVL products in Israel will not increase significantly due to the already high penetration of SVR services and AVL products in Israel and moderate overall

growth of the addressable market in Israel, which could adversely affect our prospects for growth in such markets.

Some of our employees in our subsidiaries in Brazil and Argentina are members of labor unions and a dispute between us and any such labor union could result in a labor strike that could delay or preclude altogether our ability to generate revenues in the markets where such employees are located.

Some of our employees in our subsidiaries in Brazil and Argentina are members of labor unions. If a labor dispute were to develop between us and our unionized employees, such employees could go on strike and we could suffer work stoppage for a significant period of time. A labor dispute can be difficult to resolve and may require us to seek arbitration for resolution, which arbitration can be time consuming, distracting to management, expensive and difficult to predict. The occurrence of a labor dispute with our unionized employees could delay or preclude altogether our ability to generate revenues in the markets where such employees are located.

We are subject to litigation that could result in significant costs to us.

On July 13, 2010 the State Revenue Services of São Paulo issued a tax deficiency notice against our subsidiary in Brazil, Ituran Sistemas de Monitoramento Ltda., claiming that the vehicle tracking and monitoring services provided by our subsidiary should be classified as telecommunication services and therefore subject to the imposition of State Value Added Tax – ICMS, resulting in an imposition of 25% state value added tax on all revenues of our subsidiary during the period between August 2005 and December 2007. The tax deficiency notice is in the amount of R\$36,499,984 (approximately US\$22.1 million) plus interest in the amount of R\$30,282,420 (approximately US\$18.2 million) and penalties in the amount of R\$66,143,446 (approximately US\$40 million). On March 2, 2012 the Administrative Court of the State of São Paulo dismissed the State Revenue Services of São Paulo's claims and resolved in our favor. On the date of this report we were made aware that a few days ago, the State Revenue Services of São Paulo filed an administrative appeal at the Administrative Court. As of the date of this report the Company has not received the appeal yet and is unaware of its content. We believe, based on the legal opinion of the subsidiary's Brazilian legal counsel that such an appeal must be well grounded otherwise the chances that the prior Administrative Court's decision will be reversed is remote. In case the State of São Paulo is successful at the Administrative appeal, we are entitled to challenge the Administrative Court's decision in a court of law. We received a legal opinion from a prominent law firm in Brazil that the merits of the case are overwhelmingly favorable to us, determining among other things that the imposition on the subsidiary of the State Value Added Tax by the State Revenue Services of São Paulo is illegal. We believe, based on the legal opinion of the subsidiary's Brazilian legal counsel and considering the results of the Administrative Court's decision in favor of the subsidiary, and that the chances of success are highly probable.

While we cannot predict the outcome of this litigation at this time, if we are not successful in defending ourselves, this could result in significant costs to us, adversely affecting our results of operations.

For additional information concerning the above claim and additional litigation proceedings, please refer to Item 8.A – “Consolidated Statements and other Financial Information” under the caption “Legal Proceedings” below.

We have not obtained nor applied for several of the permits required for the operation of some of our base sites. To the extent enforcement is sought, the breadth, quality and capacity of our network coverage could be materially affected.

The provision of our SVR services depends upon adequate network coverage for accurate tracking information. In Israel, we have installed 103 base sites that provide complete communications coverage in Israel. Similarly, we have established complete communications coverage in Sao Paulo and Rio, Brazil, Buenos Aires, Argentina. The installation and operation of most of our base sites require building permits from local or regional zoning authorities as well as a number of additional permits from governmental and regulatory authorities.

Currently most of our base sites in Israel and Brazil operate without local building permits or the equivalent. Although relevant authorities in Israel and Brazil have not historically enforced penalties for non-compliance with certain permit regulations, following ongoing press coverage and actions by various public interest groups, relevant Israeli and Brazilian authorities have recently begun seeking enforcement of permit regulations, especially with respect to antennas constructed for cellular phone operators. Some possible enforcement measures include the closure or demolition of existing base sites. Should these enforcement measures be imposed upon us in Israel and Brazil, the extent, quality and capacity of our network coverage and, as a result, our ability to provide SVR services, may be adversely affected.

Currency fluctuations may result in valuation adjustments in our assets and liabilities and could cause our results of operations to decline.

The valuation of our assets and liabilities and our revenues received and the related expenses incurred are not always denominated in the same currency. This lack of correlation between revenues and expenses exposes us to risks resulting from currency fluctuations. These currency fluctuations could have an adverse effect on our results of operations. In addition, fluctuations in currencies may result in valuation adjustments in our assets and liabilities which could cause our results of operations to decline.

#### RISKS RELATED TO OUR OPERATIONS IN ISRAEL

We are headquartered in Israel and therefore our results of operations may be adversely affected by political, economic and military instability in Israel.

Our headquarters and sole research and development facilities are located in Israel and our key employees, officers and directors are residents of Israel. Accordingly, security, political and economic conditions in Israel directly affect our business. Over the past several decades, a number of armed conflicts have taken place between Israel and its Arab neighbors. Since 2000, hostilities have increased in intensity and regional political uncertainty has also increased. The establishment in 2006 of a government in the Palestinian Authority by representatives of the Hamas militant group, and the virtual “take-over” of the Gaza Strip by Hamas in June 2007 has created unrest and uncertainty in the region. Continued or increased hostilities, future armed conflicts, political developments in other states in the region or continued or increased terrorism could make it more difficult for us to conduct our operations in Israel, which could increase our costs and adversely affect our financial results.

Israel has experienced in recent years, unionized general strikes in connection with the legislation of new economic reforms. A prolonged general strike in Israel would affect our ability provide our wireless communications products that are manufactured in Israel and would negatively impact our operations. Furthermore, there are a number of countries, primarily in the Middle East, that still restrict business with Israel or Israeli companies and as a result our company is precluded from marketing its products in these countries. Restrictive laws or policies directed toward Israel or Israeli businesses could have an adverse affect on our ability to grow our business and our results of operations.

Under Israeli law, we are considered a “monopoly” and therefore subject to certain restrictions that may negatively impact our ability to grow our business in Israel.

We have been declared a monopoly under the Israeli Restrictive Trade Practices Law, 1988, in the market for the provision of systems for the location of vehicles. Under Israeli law, a monopoly is prohibited from taking certain actions, such as predatory pricing and the provision of loyalty discounts, which prohibitions do not apply to other companies. The Israeli antitrust authority may further declare that we have abused our position in the market. Any such declaration in any suit in which it is claimed that we engage in anti-competitive conduct would serve as prima facie evidence that we are a monopoly or that we have engaged in anti-competitive behavior. Furthermore, we may be ordered to take or refrain from taking certain actions, such as set maximum prices, in order to protect against unfair competition. Restraints on our operations as a result of being considered a “monopoly” in Israel could adversely affect our ability to grow our business in Israel.

It may be difficult and costly to enforce a judgment issued in the United States against us, our executive officers and directors, or to assert United States securities laws claims in Israel or serve process on our officers and directors.

We are incorporated and headquartered in Israel. As a result, our executive officers and directors are non-residents of the United States and a substantial portion of our assets and the assets of these persons are located outside of the United States. Therefore, service of process upon any of these officers or directors may be difficult to effect in the United States. Furthermore, it may be difficult to enforce a judgment issued against us in the United States against us or any of such persons in both United States courts and other courts abroad.

Additionally, there is doubt as to the enforceability of civil liabilities under United States federal securities laws in actions originally instituted in Israel or in actions for the enforcement of a judgment obtained in the United States on the basis of civil liabilities in Israel.

Provisions of Israeli corporate and tax law may delay, prevent or otherwise encumber a merger with, or an acquisition of, our company, which could prevent a change of control, even when the terms of such transaction are favorable to us and our shareholders.

Israeli corporate law regulates mergers, requires tender offers for acquisitions of shares above specified thresholds, requires special approvals for transactions involving directors, officers or significant shareholders and regulates other matters that may be relevant to these types of transactions. In addition, our articles of association contain, among other things, provisions that may make it more difficult to acquire our company, such as classified board provisions and certain restrictions on the members of our board pursuant to regulatory requirements of the Israeli Ministry of Communication. Furthermore, Israeli tax considerations may make potential transaction structures involving the acquisition of our company unappealing to us or to some of our shareholders. See Item 10.B. – “Our Corporate Practices under Israeli Law” under the caption “Approval of Transactions under Israeli law” and Item 10.E. – “Taxation” under the caption “Israeli Tax Considerations” for additional discussion about some anti-takeover effects of Israeli law. These provisions of Israeli law and our articles of association may delay, prevent or otherwise encumber a merger with, or an acquisition of, our company or any of our assets, which could have the effect of delaying or preventing a change in control of our company, even when the terms of such a transaction could be favorable to our shareholders.

The rights and responsibilities of our shareholders will be governed by Israeli law and may differ in some respects from the rights and responsibilities of shareholders under United States law.

We are incorporated under Israeli law. The rights and responsibilities of holders of our ordinary shares are governed by our memorandum of association, articles of association and by Israeli law. These rights and responsibilities differ in some respects from the rights and responsibilities of shareholders in typical US-based corporations. In particular, a shareholder of an Israeli company has a duty to act in good faith toward the company and other shareholders and to refrain from abusing his, her or its power in the company, including, among other things, in voting at the general meeting of shareholders on certain matters. Israeli corporate law has undergone extensive revisions in the recent years and, as a result, there is little case law available to assist in understanding the implications of these provisions that govern shareholders’ actions, which may be interpreted to impose additional obligations on holders of our ordinary shares that are typically not imposed on shareholders of US-based corporations.

#### RISKS RELATED TO THE MARKET AND OUR ORDINARY SHARES

Future sales of our ordinary shares could reduce the market price of our ordinary shares.

If we or our shareholders sell substantial amounts of our ordinary shares, either on the Tel Aviv Stock Exchange or the Nasdaq Global Select Market, the market price of our ordinary shares may decline.

The market price of our ordinary shares is subject to fluctuation, which could result in substantial losses for our investors.

The stock market in general, and the market price of our ordinary shares in particular, are subject to fluctuation, and changes in our share price may be unrelated to our operating performance. The market price of our ordinary shares has fluctuated in the past, and we expect it will continue to do so, as a result of a number of factors, including:

- the gain or loss of significant orders or customers;
- recruitment or departure of key personnel;
- the announcement of new products or service enhancements by us or our competitors;
- quarterly variations in our or our competitors' results of operations;
- announcements related to litigation;
- changes in earnings estimates, investors' perceptions, recommendations by securities analysts or our failure to achieve analysts' earning estimates;
- developments in our industry; and
- general market conditions and other factors unrelated to our operating performance or the operating performance of our competitors.

These factors and price fluctuations may materially and adversely affect the market price of our ordinary shares and result in substantial losses to our investors.

A significant portion of our ordinary shares are held by a small number of existing shareholders and you may not agree with some or all of the decisions taken by such shareholders.

Our directors and officers, in the aggregate, currently beneficially own or control approximately 31.72% of our outstanding ordinary shares (not including treasury stock held by us). Other than applicable regulatory requirements under applicable law, these shareholders are not prohibited from selling a controlling interest in our company to a third party. These shareholders, acting together, could exercise significant influence over our operations and business strategy and may use their voting power to influence all matters requiring approval by our shareholders, including the ability to elect or remove directors, to approve or reject mergers or other business combination transactions, the decision to raise additional capital and the amendment of our articles of association that govern the rights attached to our ordinary shares. In addition, this concentration of ownership may delay, prevent or deter a change in control, or deprive our shareholders of a possible premium for ordinary shares as part of a sale of our company.

US investors in our company could suffer adverse tax consequences if we are characterized as a passive foreign investment company.

If, for any taxable year, our passive income or our assets that produce passive income exceed levels provided by law, we may be characterized as a passive foreign investment company, which we refer to as PFIC, for US federal income tax purposes. This characterization could result in adverse US tax consequences to our shareholders who are US Holders. See Item 10.E. – “Taxation” under the caption “United States Tax Considerations” below, for more information about which shareholders may qualify as US Holders. If we were classified as a PFIC, a US Holder could be subject to increased tax liability upon the sale or other disposition of our ordinary shares or upon the receipt of amounts treated as “excess distributions.” Under such rules, the excess distribution and any gain would be allocated ratably over the US Holder’s holding period for the ordinary shares and the amount allocated to the current taxable year and any taxable year prior to the first taxable year in which we were a PFIC would be taxed as ordinary income. The amount allocated to each of the other taxable years would be subject to tax at the highest marginal rate in effect for the applicable class of taxpayer for that year, and an interest charge for the deemed deferral benefit would be imposed on the resulting tax allocated to such other taxable years. In addition, holders of shares in a PFIC may not

receive a “step-up” in basis on shares acquired from a decedent. US shareholders should consult with their own US tax advisors with respect to the United States tax consequences of investing in our ordinary shares as well as the specific application of the “excess distribution” and other rules discussed in this paragraph. For a discussion of how we might be characterized as a PFIC and related tax consequences, please see Item 10.E. – “Taxation” under the caption “United States Tax Considerations–Passive foreign investment company considerations”.

Our ordinary shares are traded on more than one market and this may result in price variations.

Our ordinary shares are traded on the Nasdaq Global Select Market and the Tel Aviv Stock Exchange. Trading in our ordinary shares on these markets takes place in different currencies (dollars on the Nasdaq Global Select Market and NIS on the Tel Aviv Stock Exchange), and at different times (resulting from different time zones, different trading days and different public holidays in the United States and Israel). The trading prices of our ordinary shares on these two markets may differ due to these and other factors. Any decrease in the trading price of our ordinary shares on one of these markets could cause a decrease in the trading price of our ordinary shares on the other market.

Securities we issue to fund our operations or in connection with acquisitions could dilute our shareholders ownership or impact the value of our ordinary shares.

We may decide to raise additional funds through a public or private debt or equity financing to fund our operations or finance acquisitions. If we issue additional equity securities, the percentage of ownership of our shareholders will be reduced and the new equity securities may have rights superior to those of our ordinary shares, which may, in turn, adversely affect the value of our ordinary shares.

Impact of credit crunch on local and global economy may negatively impact our business.

The current credit crunch will affect both the local economy and global economy. The current market conditions may affect our ability to obtain further financing to support our network expansion in the future. Failure to do so will negatively impact our business and slow down our expansion of operations. The economic downturn may also dampen the demand for SVR services or affect our customers' ability to continue with existing services.

Economic downturns could reduce the level of consumer spending and available credit within the automobile industry, which could adversely affect demand for our products and services and negatively impact our financial results.

Current and future economic conditions could adversely affect consumer spending in the automobile industry, as such spending is often discretionary and may decline during economic downturns when consumers have less disposable income. Consequently, changes in general economic conditions resulting in a significant decrease in dealer automobile sales or in a tightening of credit in financial markets could adversely impact our future revenue and earnings. Such decreases could also affect the financial security of the automobile dealers with whom we do business. The delayed payment from or closure of our larger dealer groups could affect our ability to collect on our receivables. Given the volatile nature of the current market disruption, we may not timely anticipate or manage existing or new risks. Our failure to do so could materially and adversely affect our business, financial condition, results of operations and prospects.

#### ITEM 4. INFORMATION ON THE COMPANY

##### A. HISTORY AND DEVELOPMENT OF THE COMPANY

###### Our History

We are mainly engaged in the area of location-based services, consisting of stolen vehicle recovery and tracking services. We also provide wireless communication products used in connection with our location-based services and various other applications. We currently provide our services and sell or lease our products in Israel, Brazil, Argentina and the United States.

Ituran was initially incorporated in February 1994 in Israel as a subsidiary of Tadiran Ltd., an Israeli-based designer and manufacturer of telecommunications equipment, software and defense electronic systems, whose original business purpose was to adapt military-grade technologies for the civilian market. In July 1995, Moked Ituran Ltd. purchased us and the assets used in connection with our operations from Tadiran and Tadiran Public Offerings Ltd. The AVL infrastructure and AVL end-units for the operation of our SVR services were originally developed by an independent division of Tadiran Communications and Systems Group. These operations were later transferred to a Tadiran subsidiary, Tadiran Telematics Ltd. In November 1999, we purchased Tadiran Telematics from Tadiran and in 2002, we changed its name to Telematics Wireless.

In May 1998, we completed the initial public offering of our ordinary shares in Israel and our ordinary shares began trading on the Tel-Aviv Stock Exchange. In September 2005, we began trading on the New York Stock Exchange and our ordinary shares are quoted on Nasdaq under the symbol "ITRN". The address of our principal executive office is 3 Hashikma Street, Azour 58001, Israel. Our telephone number is 972-3-557-1333. Our agent in the United States is Ituran USA Inc. 1700 NW 64th ST. SUITE 100 Fort Lauderdale, Florida 33309.

In 2007, we purchased the entire issued share capital of Mapa Group from its shareholders for US\$9.9 million. In addition, we invested an additional sum of approximately US\$3.1 million to Mapa Group, which was used by Mapa Group to repay shareholders' loans to its shareholders. Mapa Group is the leading and largest provider of geographic information (GIS) in Israel and owner of geographic information database for navigation in Israel. The Mapa acquisition represents a major step in strengthening our position in the field of location based services in Israel, by leveraging the best platform available. Mapa is uniquely positioned as the main provider of the geographic information database for navigation in Israel. These unique capabilities will not only serve us as a location based service provider, but will also allow us to sell the rights for using the database to other location based service providers, including the cellular operators who see this as one of the fastest growing areas.

On December 31, 2007, we completed the sale of our subsidiary, Telematics Wireless Ltd., to ST (Infocomm). Pursuant to the sale transaction, we sold our entire shareholdings, constituting 93.93% of Telematics Wireless to ST (Infocomm), for an enterprise value of US\$90 million (following repurchase of our shares in Telematics for the aggregate sum of US\$5 million). Pursuant to an adjustment mechanism as detailed in the agreement and following arbitration proceedings with ST, the purchase price was adjusted by US\$4.4 Million. For details regarding the arbitration proceedings, please refer to Item 8.A. – "Consolidated Statements and other Financial Information" under the caption "Legal Proceedings" below.

In January 2008, we entered into a 10 year Frame Product and Service Purchase Agreement with Telematics, pursuant to which the Company and Telematics shall purchase from each other certain products and services as detailed in the agreement for price and other conditions as detailed in the agreement. In addition, each of Ituran and Telematics undertook toward one another not to compete in each other's exclusive markets in the area of RF vehicle location and tracking RF technology or similar RF terrestrial location systems and technology. The agreement is for a term of 10 years, following which it shall be renewed automatically for additional consecutive 12 months period, unless non-renewal notice is provided by one of the parties to the other. Pursuant to the agreement, each of Telematics and Ituran granted the other party a license to use certain technology in connection with the products and services purchased from each other, which license survives the termination or expiration of the agreement.

Concurrently with the sale of Telematics, the Company and Telematics entered into a revenue sharing agreement, pursuant to which Ituran shall be entitled to a share of the sales revenues of Telematics in the Republic of Korea and in China from sale of end products and base stations to customers in such territories as well as from royalties received from customers of Telematics in such territories relating to the AVL applications. The revenue sharing scheme shall continue for a term of five (5) years from January 2008 and shall be paid on a quarterly basis. No revenues were received by us as of the date of this report.

In 2010 we launched a new line of AVL products (IturanSave), which is based on our SMART products and tailored to be installed in medium-end vehicles, a market which was not previously targeted by us, offering our customers an affordable tracking device solution, which led to an increase in our sales in 2011.

On July 28, 2010, our wholly owned subsidiary, Ituran Cellular Communication Ltd. obtained a mobile virtual network operator (MVNO) license from the Israeli Ministry of Communication. Ituran Cellular entered into an agreement with Pelephone Communications Ltd., one of Israel's reputable mobile phone operators, in order to service the MVNO's customers and operations.. In April 2012 we sold our entire holding in Ituran Cellular to a third party

against payment of NIS 600,000 and repayment of our shareholder's loan in the amount of approximately NIS 3.08 Million (approximately US\$834,688).

On April 9, 2012, we entered into agreement with General Motors Brazil (“GMB”) through a Brazilian company controlled by us. According to the agreement, GMB will offer its customers immobilization, location and Telematics services for the Chevrolet range of vehicles it sells in Brazil through Ituran’s Brazilian company. The sale and the installation of the anti-theft device will not be carried out by us. For the purposes of the agreement entered with GMB, we incorporated a new Brazilian subsidiary in which we own 51% of the issued share capital.

#### Capital Expenditures and Divestitures

We had capital expenditure of \$16.2 million in 2011, \$18.6 million in 2010 and \$15.7 million in 2009. We have financed our capital expenditure with cash generated from our operations.

Our capital expenditures in 2011, 2010 and 2009 consisted primarily from acquisition of operational equipment for \$10.9 million, \$11.9 million and \$10.4 million, respectively.

### B. BUSINESS OVERVIEW

#### OVERVIEW

We believe we are a leading provider of location-based services, consisting predominantly of stolen vehicle recovery and tracking services. We also provide wireless communications products used in connection with our location-based services. We currently provide our services and sell and lease our products in Israel, Brazil, Argentina and the United States. We utilize technologies that enable precise and secure high-speed data transmission and analysis. Some of the technology underlying our products was originally developed for the Israeli Defense Forces in order to locate downed pilots.

We generate our revenues from subscription fees paid for our location-based services and from the sale and lease of our wireless communications products.

#### Location-Based Services

In 2011, 75.2% of our revenues were attributable to our location-based services. As of December 31, 2011, we provided our services in Israel, Brazil, Argentina and the United States to approximately 256,000, 219,000, 123,000 and 25,000 subscribers, respectively.

#### Stolen vehicle recovery services

Our stolen vehicle recovery and tracking services, which we refer to as SVR services, enable us to locate, track and recover stolen vehicles for our subscribers. Our customers include both individual vehicle owners who subscribe to our services directly and insurance companies that either require their customers to install a security system or offer their customers financial incentives to subscribe to SVR services such as ours. In certain countries, insurance companies directly subscribe to our SVR services and purchase automatic vehicle location products supporting these SVR services from us on behalf of their customers.

#### Fleet management services

Our fleet management services enable corporate customers to track and manage their vehicles in real time. Our services improve appointment scheduling, route management and fleet usage tracking, thereby increasing efficiency and reducing operating costs for our customers. We market and sell our services to a broad range of vehicle fleet operators in different geographic locations and industries. As of December 31, 2011, we provided our services to

approximately 51,000 end-users through 5,300 corporate customers in Israel, Brazil, Argentina and the United States.

### Value-added services

Personal locator services, which we offer allow customers to protect valuable merchandise and equipment. In addition, through a call center we provide 24-hour on-demand navigation guidance, information and assistance to our customers. We currently provide personal locator services in Israel, Brazil and Argentina and, as of December 31, 2011, we had approximately 8,000 subscribers to this service. In addition, through a call center, we provide 24-hour on-demand navigation guidance, information and assistance to our customers. Such services include the provision of traffic reports, help with directions and information on the location gas stations, car repair shops, post offices, hospitals and other facilities. We provide our concierge services to our subscribers in Israel, Argentina and Brazil. As of December 31, 2011, we had approximately 97,000 subscribers to our concierge service.

### Wireless Communications Products

In 2011, 24.8% of our revenues were attributable to the sale of our wireless communications products. Our wireless communications products employ short- and medium-range communication between two-way wireless modems and are used for various applications, including automatic vehicle location, which we refer to as AVL.

Our AVL products enable the location and tracking of vehicles, as well as assets and persons, and are used by us primarily to provide SVR and fleet management services to our customers. Each subscriber to our SVR services has our AVL end-unit installed in his or her vehicle. Subscribers to services for locating equipment and merchandise will use our SMART products. As part of our expansion into new markets, in 2006 we acquired control of E.R.M. Electronic Systems Limited (“ERM”), a developer, manufacturer, and marketer of innovative vehicle security, tracking, and management GSM based communication solutions for the international market.

### Industry Overview and Trends

While we believe that the statistical data, industry data forecasts and market research discussed below are reliable, we have not independently verified the data, and we do not make any representation as to the accuracy of the information.

#### (a) Location-based services

##### Stolen vehicle recovery

The demand for vehicle security products and services is driven by vehicle theft rates, increasing security awareness among customers and insurance companies’ efforts to reduce incidents of loss. In addition, in Brazil, which is one of our primary markets, new regulation was adopted pursuant to which new vehicles (cars, motorcycles, trucks etc.), manufactured in Brazil or imported into the country may only be sold when equipped with a blocking (immobilizing) and GPS location system or tracking system (such as our products). In some of our markets, demand for SVR services has been further enhanced by incidents of carjackings and car-related kidnappings that have increased consumers’ perceived crime risk. Additionally, theft of trucks carrying valuable or hazardous cargo (e.g., microchips and chemicals) represents a threat to commercial, industrial, public and personal safety and security.

A wide range of vehicle security products, with varying degrees of sophistication and pricing, are available to vehicle owners today. These products can be divided roughly into two categories:

1) Traditional products, such as locks, alarms and traditional immobilizers. These devices are limited in their effectiveness as most can be disarmed easily and typically require the driver to activate the device upon leaving the vehicle. Also, unmonitored alarms that set off sirens are routinely ignored by people as the incidence of false alarms

has been historically high. Furthermore, these products can only help in preventing theft and not in recovering the vehicle once it is stolen.

2) More sophisticated products that include some form of remote monitoring and communication. This category can be further separated into devices that simply provide information on the general direction of the vehicle and those that enable the location, tracking and recovery of the vehicle in real time.

AVL technology is typically used to report stolen vehicles to police, provide real-time location and tracking information and immobilize the vehicle if necessary. The application of AVL technology has proven to be effective in increasing the recovery rates of stolen vehicles. As a result, many insurance companies in countries such as Israel, Brazil and Argentina either offer discounts between 10% and 20% on insurance premiums for vehicles equipped with AVL systems or require customers to install such AVL systems in vehicles above a pre-determined value.

Fleet management

The market for fleet management services ranges from very large fleets of thousands of vehicles to very small fleets of five vehicles or less, with smaller fleets constituting a significant portion of the market given the large number of companies that maintain a fleet today. Fleet management services allow fleet operators to locate, monitor and communicate with their vehicles and employees in the field in real time. This helps them to better track loads, predict arrival times, schedule customer appointments, reduce fuel usage and manage vehicles' maintenance schedules. By increasing efficiency and reducing costs, fleet management can provide a quantifiable return on investment for fleet operators, as well as improve customer satisfaction. In addition, fleet management services can enhance driver security and can notify the fleet operator if a vehicle leaves a prescribed geographic region, reducing theft-related liabilities.

A principal factor supporting fleet management industry growth is the presence of millions of vehicles that are in commercial use but which are not yet equipped with fleet management systems.

(b) Wireless communications products

Automatic vehicle location

AVL is one of the many possible applications for wireless location technology and is an umbrella term used for communication equipment and services that facilitate wireless tracking of vehicles, as well as assets and persons.

Typical AVL applications include:

Security	Transportation	Telecommunication services	Government
Vehicle tracking	Fleet management	Maintenance vehicle tracking	Government vehicle tracking
Personal tracking	Parcel tracking		
Asset tracking	Public transit		

Currently, the main underlying technologies available for wireless location and tracking in the AVL industry are terrestrial network triangulation, GPS (in combination with wireless communication), network-based cellular communication and radio frequency-based homing.

nTerrestrial network triangulation uses the wireless signals transmitted by an end-unit in the vehicle and received by a network of land-based wireless antennas (base stations) installed in the relevant coverage region in order to determine the precise location of the transmitter.

nGPS-based systems utilize specially designed GPS devices in the vehicle that receive data from three or more satellites in order to determine the location of the device. Once located, GPS-based systems require a cellular or another wireless network to communicate with a remote control center.

nNetwork-based cellular systems utilize signals between the wireless device and the cellular operator's network of land-based antennas in order to triangulate the location of the relevant device. These systems require two-way communication between the device and antennas and, therefore, both a transmitter and receiver need to be installed in the vehicle.

nRF-based homing systems utilize direction-finding technology based on a tracking signal transmitted by the end-unit in the vehicle, which is activated by a unique radio signal from the tracking unit once the vehicle is reported stolen.

## Products

### Location-based services

#### Stolen vehicle recovery

Our stolen vehicle recovery system is based on three main components: an AVL end-unit that is installed in the vehicle, a network of base stations and a 24-hour manned control center. Once the control center receives indication of an unauthorized entry into a vehicle equipped with our AVL end-unit, our operators decide whether it is a false alarm or an actual unauthorized entry. If it is determined to be an unauthorized entry, or if a notification of the vehicle's theft is received directly from the vehicle operator, our operators transmit a signal that activates the transmitter installed in the vehicle. We then pinpoint the location of the transmitter with terrestrial network triangulation technology or GPRS technology and notify the relevant law enforcement agency. In Israel, Brazil and Argentina, we also maintain private enforcement units, which work together with local police to recover the vehicle. In addition, we have the capability to immobilize vehicles remotely from our control centers.

#### Fleet management

We offer our customers the ability to use a comprehensive application for fleet management both by using an Internet site and workstations. Our system allows our customers 24-hour access to information on their fleets through our active control center and also provides alerts on vehicle temperature and driver emergencies.

#### Value-added services

Locator services. Our services allow consumers to protect valuable merchandise and equipment. We provide our locator services in Israel, Brazil and Argentina.

Concierge services. Through a call center, we provide 24-hour on-demand navigation guidance, information and assistance to our customers. Such services include the provision of traffic reports, help with directions and information on the location of gas stations, car repair shops, post offices, hospitals and other facilities. We provide our concierge services to subscribers mainly in Israel.

#### Wireless communications products

Our wireless communications products are used for various applications in the AVL markets.

Automatic vehicle location

Our AVL products enable the location and tracking of vehicles, as well as assets or persons, and are primarily used by us in providing our SVR and fleet management services. Each subscriber to our SVR services has one of our end-units installed in his or her vehicle. Subscribers to services for locating persons or valuables will use our SMART products. Our key wireless communications products for AVL applications include:

nBase Site: a radio receiver, which includes a processor and a data computation unit to collect and send data to and from transponders and send that data to control centers as part of the terrestrial infrastructure of the location system; and

nControl Center: a center consisting of software used to collect data from various base sites, conduct location calculations and transmit location data to various customers and law enforcement agencies.

n GPS/GPRS-based products: navigation and tracking devices installed in vehicles

nSMART: a portable transmitter installed in vehicles (including motorcycles) that sends a signal to the base site, enabling the location of vehicles, equipment or an individual;

The following table lists the key services and products that we currently sell or lease in different regions of the world:

Country	Services offered	Products sold
Israel	SVR Fleet management Value-added services	AVL
Brazil	SVR Fleet management Value-added services	AVL
Argentina	SVR Fleet management Value-added services	AVL
United States	SVR Fleet management Value-added services	AVL

The following is a short description of key operating statistics about our location-based services in the countries in which we operate:

nIsrael: We commenced operations in Israel in 1995 and we had approximately 256,000 subscribers as of December 31, 2011. We maintain 103 base stations in Israel, which provide complete coverage within the country. Our control center operates 24 hours a day, 365 days a year and is located in Azour.

nBrazil: We commenced operations in Brazil in 2000 and we had approximately 219,000 subscribers as of December 31, 2011. We currently provide RF based products and services only in the metropolitan areas of Sao Paulo, Campinas, Americans and Rio de Janeiro; however we operate throughout Brazil in providing GPS/GPRS based products and services.

nArgentina: We commenced operations in Argentina in 2002 and we had approximately 123,000 subscribers as of December 31, 2011. We currently operate only in the metropolitan area of Buenos Aires with the RF technology, however, we operate throughout Argentina in providing GPS/GPRS based products and services for fleet management.

nUnited States: We commenced operations in the United States in 2000. We provide GPS/GPRS products and services throughout the United States. As of December 31, 2011, we had approximately 25,000 subscribers for our location-based services in the United States.

## Customers, Marketing and Sales

We market and sell our products and services to a broad range of customers that vary in size, geographic location and industry. In 2009, 2010 and 2011, no single customer or group of related customers comprised more than 10% of our total annual revenues.

### (A) Location-based services

#### Stolen vehicle recovery

Our marketing and sales efforts are principally focused on five target groups: insurance companies and agents, car manufacturers, dealers and importers, cooperative sales channels (mostly vehicle fleet operators and owners) and private subscribers.

We maintain marketing and sales departments in each geographical market in which we operate. Each department is responsible for maintaining our relationships with our principal target groups. These responsibilities also include advertising and branding, sales promotions and sweepstakes.

In Israel, Brazil and Argentina, we focus our marketing efforts primarily on insurance companies and private customers. In the United States, we believe that insurance companies do not constitute a material influence in the marketing of SVR services or AVL products. Most of our sales in the United States are made through car dealerships and dealers for new or used cars. Our customers in the SVR market include insurance companies as well as individual vehicle owners. As of December 31, 2011, we had approximately 623,000 subscribers.

#### Fleet management

Vehicle fleet management systems are marketed through a vehicle fleets department, which is a part of our marketing department. We conduct in-depth research to identify companies that will gain efficiency and cost savings through the implementation of our products and services, and conduct targeted marketing campaigns to these companies. In addition, we participate in professional conventions and advertise in professional publications and journals designed for our target customers. Our customers in the fleet management market include small-, mid- and large-size enterprises. As of December 31, 2011, we provided our services to approximately 51,000 end users through 5,300 corporate customers in Israel, Brazil, Argentina and the United States.

#### Value-added services

Our concierge services are provided to existing SVR customers. As of December 31, 2011, we had approximately 97,000 subscribers to our concierge service in Israel, Argentina and Brazil and approximately 8,000 of our SMART devices were installed in valuable merchandise and equipment.

### (B) Wireless communications products

Our AVL end-units are primarily used by us in providing our location-based services in Israel, Brazil, Argentina and the United States.

Our selling and marketing objective is to achieve broad market penetration through targeted marketing and sales activities. As of December 31, 2011, our selling and marketing team consisted of 57 employees.

## Competition

We face strong competition for our services and products in each market in which we operate. We compete primarily on technology edge, functionality, ease of use, quality, price, service availability, geographic coverage, track record of recovery rates and response times and financial strength.

(A) Location-based services

We compete with a variety of companies in each of our markets. The three major technologies utilized by our competitors are GPS/cellular, network-based cellular and radio frequency-based homing systems. In addition, new competitors utilizing other technologies may continue to enter the market.

Stolen vehicle recovery

n Israel. Our primary competitors in Israel are Eden Telecom Ltd. (Pointer) and Skylock Ltd.

nBrazil. Brazil is a highly fragmented market with many companies selling competing products and services (including immobilizers and other less-sophisticated vehicle security systems). Our main competitors in Brazil are LoJack Corporation and Car System.

nArgentina. Argentina is also a highly fragmented market with many companies selling competing products and services (including immobilizers and other less-sophisticated vehicle security systems). Our principal competitors in Argentina are LoJack Corporation, Megatrans and Pointer Localización y Asistencia S.A.

nUnited States. In the United States, there are several major companies offering various theft protection and recovery products that compete with our product and service offerings, including LoJack Corporation, OnStar Corporation, Air Cept Corporation, Procon, (also includes SysLocate andGoldStar), PassTime, Guide Point, Sky Patrol, Sky Guard and I-Metrik.

We are unable to provide market share information other than our market share information for the vehicle location market in Israel for various reasons, including the broad range of services and products that compete in these markets, the non-existence of trade publications with respect to the products and services we offer in such markets and the lack of meaningful or accurate market research or data available to us.

Fleet Management

The vehicle fleet management market is highly fragmented with many corporations offering location products and services. Our major competitors in the United States are GPS Insight, Trimble, Network Fleet, Street Eagle, FleetMatics , Navtrack, Teletrac, Trim Track and FleetBoss. In Brazil, our main competitors are Sascar and Omnilink. In Argentina our major competitors are LoJack Corporation and Hawk Corporation.

(B) Wireless communications products

Automatic vehicle location

Our AVL system is based on terrestrial network triangulation technology and primarily competes with companies that use one of three main technologies: GPS/GPRS (in combination with wireless communication), network-based cellular communication and radio frequency-based homing.

Although AVL products based on GPS, network-based cellular and homing technologies do not require the construction of a separate infrastructure of base stations as with terrestrial network triangulation systems such as ours, such solutions have certain drawbacks. GPS receivers require line of sight to at least three satellites, which reduces their effectiveness in areas where the satellite signals are subject to interference and “noise” (such as urban areas, buildings or parking garages, forests and other enclosed or underground spaces). GPS and network-based cellular systems are also prone to jamming since the tracking signal receivers are located in the vehicle and can be easily

tampered with. In addition, the satellites utilized by GPS devices are managed by the United States Department of Defense and can be subject to forced temporary outages. The main disadvantage of homing systems is that they provide only the general direction and not the precise location of the end-unit. In addition, homing systems require that the vehicle be reported stolen before the tracking signal can be activated, which may result in a delay between vehicle theft and recovery.

Terrestrial network triangulation systems have succeeded in overcoming some of the challenges faced by systems based on other technologies. Terrestrial network triangulation technology does not require line of sight and the signals are not easily interrupted in densely populated or obstructed areas. Also, the signals are transmitted from the end-unit in the vehicle to a network of base stations. Therefore, in order to jam the system, receivers in each individual base station within range of the end-unit would have to be jammed, which is difficult to accomplish. Additionally, since the primary application of terrestrial network triangulation systems in the AVL industry is vehicle location and not continuous two-way communication, short bursts of data are sufficient for tracking purposes, which enable the network of base stations to be deployed at a much lower density in the coverage area than traditional network-based cellular base stations. Terrestrial network triangulation systems are capable of determining the precise location, and not just the general direction, of a vehicle at any moment in time. Furthermore, when connected with the existing theft protection system in the vehicle, terrestrial network triangulation systems automatically alert the control center when a vehicle is stolen and do not require that the vehicle be reported stolen, which can potentially reduce stolen vehicle recovery times to a few minutes. The main disadvantage of terrestrial network triangulation systems is the necessity to deploy a physical infrastructure, including the construction, development and deployment of a network of base stations and a control center and the need to address the various financial, legal and practical issues associated with such deployment. Any such deployment entails an investment of a sizable amount of money prior to the receipt of any revenues.

#### Manufacturing Operations and Suppliers

Our wireless communications products are manufactured and assembled by a limited number of manufacturers in Israel (including our subsidiary ERM). We engage with our manufacturers on a full turn-key basis, where we supply detailed production files and materials list and receive a final product that we sell directly to our clients. Other than our dependency on Telematics, as described in Item 3, "Risk Factors" above, we do not depend on a single manufacturer for the production of our products. Our main manufacturers and assemblers are Telematics and E.R.M Electronic Systems Limited (our subsidiary). For further details of our agreement with Telematics concerning the supply of products and services see Item 4.A – History and Development of our Company under the caption "Our History" above.

Our quality assurance and testing operations are performed by our manufacturers at their facilities, while using our quality assurance and testing equipment and in accordance with the test procedures designated by us. We monitor quality with respect to key stages of the production process, including the selection of components and subassembly suppliers, warehouse procedures, assembly of goods, final testing, packaging and shipping. We are ISO 9001 certified. We believe that our quality assurance procedures have been instrumental in achieving the high degree of reliability of our products.

Several components and subassemblies included in our products are presently obtainable from a single source or a limited group of suppliers and subcontractors. We maintain strong relationships with our manufacturers and suppliers to ensure that we receive an adequate supply of products, components and raw materials at favorable prices and to access their latest technologies and product specifications.

#### Proprietary Rights

We seek to protect our intellectual property through patents, trademarks, contractual rights, trade secrets, know-how, technical measures and confidentiality, non-disclosure and assignment of inventions agreements and other appropriate protective measures to protect our proprietary rights in the primary markets in which we operate. The continued use of some licenses granted by third party to use their intellectual property is material to our business. Please refer to Item 3.D – Risk Factors, under the caption "We rely on some intellectual property that we license from a third party, the loss of which could preclude us from providing our SVR services or market and sell some of our AVL products, which would adversely affect our revenues" above.

We typically enter into non-disclosure and confidentiality agreements with our employees and consultants. We also seek these protective agreements from some of our suppliers and subcontractors who have access to sensitive information regarding our intellectual property. These agreements provide that confidential information developed or made known during the course of a relationship with us is to be kept confidential and not disclosed to third parties, except in specific circumstances.

Our stolen vehicle recovery system is based on three main components: (i) an AVL end-unit that is installed in the vehicle, (ii) a network of base stations that relay information between the vehicle location units and the control center, certain components of which were developed by third parties and are currently licensed to us and (iii) a 24-hour manned control center consisting of software used to manage communications and the exchange of information among the hardware components of the AVL system, certain components of which were developed by third parties and licensed to us. For details concerning the non-exclusive license granted by Telematics to us in respect of the RF technology incorporated in some of our products, please refer to Item 4.A. – History and Development of our Company under the caption “Our History” above.

“Ituran”, “Mr. Big”, “Mapa” and the related logos are our trademarks, which have been registered in Israel. This report also refers to brand names, trademarks, service marks and trade names of other companies and organizations, each of which is the property of its respective holder.

#### Regulatory Environment

In order to provide our SVR services in the locations where we currently operate, we need to obtain four primary types of licenses and permits: (i) for our products utilizing the RF technology - a license that allows us to use designated frequencies for broadcasting, transmission or reception of signals and information and to provide telecommunication services to our customers, (ii) for our products utilizing the RF technology - a building permit, which permits us to erect our base sites and transmit therefrom, (iii) product specific licenses (commonly known as type approvals), which enable us to use the equipment necessary for our services, and (iv) a general commerce license, which allows us to offer our services to the public.

The telecommunication services and frequency license and general commerce licenses we require are granted by the applicable national agency regulating communications in the markets in which we operate, specifically, the Ministry of Communication, in Israel, Anatel – Agencia Nacional de Telecomunicatoes, in Brazil, the Comision Nacional de Comunicaciones, in Argentina, and the Federal Communications Commission, in the United States. The product specific licenses we require are granted in Israel by the Ministry of Communication, in Brazil by IBRACE (the Instituto Brasileiro de Certificatao de Productos para Telecomunicatoes), in Argentina by the National Technological Institute of Argentina and in the United States by the Federal Communications Commission.

In Brazil, the general commerce licenses, such as the city permits, are granted by the local municipalities and other specific entities, depending on the licenses required.

Our frequency licenses in all of the locations where we operate are “secondary” or “joint”, which means that the government may grant another person or persons, typically a cellular operator, a primary license to the same frequencies and, to the extent our operations interfere with the operations of the other person, we would have to modify our operations to accommodate the joint use of the frequencies. All of these licenses are also subject to revocation, alteration or limitation by the respective authority granting them. While any events that would cause us to change frequencies or to modify our operations could have a material adverse effect on us, we do not believe that this is a likely event in any of the locations where we provide our SVR services.

Our frequency license in Israel expires in June 2012 and we are currently in the process of renewing it for an additional term of five (5) years. Our frequency licenses in Brazil expire in 2019. Except in Brazil, where a new license may have to be filed for upon expiration of the license in 2019, we have options to extend all of our frequency licenses for periods ranging from three- to ten-year periods.

In Israel and Brazil, like our competitors and most cellular operators, we are not in compliance with all relevant laws and regulations in connection with the erection of transmission antennas (our base sites). As of 2010, most of our base sites in Israel and Brazil are operating without local building permits. Currently, there is heightened awareness of this issue in Israel, particularly in connection with base sites of cellular providers, and possible sanctions could include fines and even the closure or demolition of these base sites. In Brazil, Brazilian authorities enforce permit requirements and impose penalties for non-compliance with such requirements. However, we do not believe this is likely. Obtaining such required permits may involve additional fees as well as payments to the Land Administration Authority.

In Israel the required permits and approvals include:

- n erection and operating permits from the Israeli Ministry of the Environment;
- n permits from the Israeli Civil Aviation Authority, in certain cases;
- n permits from the Israeli Defense Forces;
- n approval from Israel's Land Administration, which usually also involves payment for the land use rights; and
- n building permits from local or regional zoning authorities in Israel and Brazil.

We are continuously in the process of obtaining the relevant permits required for the construction of our base sites in Israel, however, to date, we have been issued 16 of these permits. With respect to the general permit from Israel's Land Administration, in 2005, we entered into an agreement with the Israel's Land Administration, pursuant to which the general permit has been issued to us against an annual consideration based on the date of approval of our base sites. The agreement had expired on December 31, 2010.

In Brazil, very few providers of wireless telecommunications services obtain the required permits due to the nature of the approval process. Currently we do not have such permits. In Brazil, we try to minimize our risk by locating most of our equipment in sub-leased sites which are already used by other telecommunication service providers, such as cellular operators. In Brazil the required permits include:

- n Anatel (National Agency for Telecommunication)
- n IBAMA (Environment national agency) and/or state EPAs
- n Municipal permits
- n Fire department.
- n COMAR (Aviation authorities)

ANATEL permits are required only for sites where we have transmission equipment and we have obtained all the permits required with this agency. Special IBAMA permits need to be obtained only for ground sites which are located in certain preservation areas. We have few sites of this kind, most of them are collocated sites where we pay for the right of use and permits are undertaken by the landowner. Fire Department permits are required only for equipment rooms and we have not applied for any as of this time. COMAR permits are needed only for a very few of our sites, most of which are collocated.

We have been declared a monopoly under the Israeli Restrictive Trade Practices Law, 1988, in the provision of systems for the location of vehicles in Israel. This law prohibits a monopoly from abusing its market position in a manner that might reduce competition in the market or negatively affect the public. For instance, a monopoly is prohibited from engaging in predatory pricing and providing loyalty discounts, which prohibitions do not apply to other companies. The law empowers the Commissioner of Restrictive Trade Practices to instruct a monopoly abusing its market power to perform certain acts or to refrain from taking certain acts in order to prevent the abuse. Additionally, any declaration by the Israeli antitrust authority that a monopoly has abused its position in the market may serve in any suit in which it is claimed that such a monopoly engages in anti-competitive conduct, as prima facie evidence that it has engaged in anti-competitive behavior. Our declaration as a monopoly in the market of “provision of systems for the location of vehicles in Israel” was not accompanied with any instructions or special restrictions beyond the provisions of the Restrictive Trade Practices Law. Although we may be ordered to take or refrain from taking certain actions, to date we have not been subject to such restrictions.

## C. ORGANIZATIONAL STRUCTURE

We were initially incorporated as a subsidiary of Tadiran, an Israeli-based designer and manufacturer of telecommunications equipment, software and defense electronic systems, whose original business purpose was to adapt military-grade technologies for the civilian market. In July 1995, Moked Ituran Ltd. purchased our company and the assets used in connection with its operations from Tadiran and Tadiran Public Offerings Ltd. The AVL infrastructure and AVL end-units for the operation of our SVR services were originally developed by an independent division of Tadiran Communications and Systems Group. These operations were later transferred to a Tadiran subsidiary, Tadiran Telematics Ltd. In November 1999, we purchased Tadiran Telematics from Tadiran and in 2002, we changed its name to Telematics Wireless. In December 2007 we sold our subsidiary Telematics – for further information please refer to Item 4.A. – “History and Development of the Company” under the caption “Our History” above.

## List of Significant Subsidiaries

Name of Subsidiary	Country of Incorporation	Proportion of Ownership Interest
Ituran USA Holdings Inc.	USA	100%*
Ituran NY Corporation	USA	100%**
Ituran Beheer B.V.	The Netherlands	100%
Ituran USA Inc.	USA	88.5%***
Ituran License Corp.	USA	100%****
Ituran de Argentina S.A.	Argentina	100%*****
Ituran Sistemas de Monitoramento Ltda.	Brazil	97.5%*****
Teleran Holding Ltda.	Brazil	99.99%*****
E.R.M. Electronic Systems Limited	Israel	51%
Mapa Internet Ltd.	Israel	100%
Mapa Mapping & Publishing Ltd.	Israel	100%

\* previously known as Ituran USA Inc.

\*\* a wholly owned subsidiary of Ituran USA Holding Inc. which is our wholly owned subsidiary.

\*\*\* Previously known as Ituran Florida Corporation. 88.5% of the shares are held by Ituran U.S.A. Holding Inc. which is our wholly owned subsidiary, the remaining shares are held by employees of Ituran USA Inc.

\*\*\*\* our shares are held through Ituran U.S.A. Holding Inc., which is our wholly owned subsidiary.

\*\*\*\*\* our shares are held through Ituran U.S.A. Holding Inc., which is our wholly owned subsidiary, 10% of our holdings in Ituran de Argentina S.A were held by Mr. Avi Anais, former CEO of Ituran de Argentina until June 2010 on which date we acquired. Such holdings from Mr. Anais (through Ituran U.S.A. Holding Inc. and Teleran Holding Ltda. who each acquired 50% of the shares held by Mr. Anais).

\*\*\*\*\* we indirectly hold 97.5% of the shares with one share being held by Mr. Avner Kurz, the President of Teleran Holding Ltda.

\*\*\*\*\* one share (quota) is held by the Mr. Avner Kurz, President of Teleran Holding Ltda.

#### D. PROPERTY, PLANTS AND EQUIPMENT

As of the date of this report, and other than an office building of 8 floors in the area of approximately 5,356 sqm (57,651 square feet), which was purchased by our subsidiary Ituran Sistemas de Monitoramento Ltda (Ituran Brazil) in Sao Paulo, Brazil, we do not own any real estate.

Other than the property in Brazil acquired by Ituran Brazil, all of our offices, headquarters, control centers and facilities are leased in accordance with our specific needs in the areas in which we operate. Additionally, we lease space for our base sites, in order to operate the reception and transmission stations of the system, in each area in which we provide our SVR services.

In 2011 we leased an aggregate of approximately 30,783 square feet of office space in Azour, Israel. In 2011, annual lease payments for this facility were approximately \$393,000. This lease expires on March 31, 2013. These premises include our executive offices and the administrative and operational centers for our operations as well as our customer service, value-added services and technical support centers for the Israeli market.

In Buenos Aires, Argentina, we lease approximately 2,426 square feet of office space for approximately \$ 86,800 annually, approximately 241 square feet for our control center for approximately \$ 8,100 annually and approximately 1,542 square feet for our own installation center for approximately \$ 111,000 annually and approximately 558 square feet for our own warehouse for approximately \$ 19,100 annually, and approximately 262 square feet for third warehouses for approximately \$ 5,250 annually.

We lease approximately 7,460 square feet for our offices and control center in Florida for an approximate monthly rate of \$ 8,700 for the first 51 months, subject to a 7% annual increase in the following 12 months and a 3.3% increase for the last 12 months.

In 2011, we leased approximately 12,091 square feet of office space and warehouse in Brazil for approximately \$ 240,000 annually.

We believe that our facilities are suitable and adequate for our operations as currently conducted. In the event that additional facilities will be required, we believe that we could obtain such facilities at commercially reasonable rates.

The size of our base station sites varies from approximately one to eight square feet. In Israel, we have 103 base stations and we rent most base station sites independently for a monthly rate ranging from \$200 to \$1,800 per site depending on the location, size and other factors; for certain sites we do not pay any rent. The typical duration of a lease agreement for our base stations in Israel is five years and we generally have a right to renew the term of the lease agreements for a period ranging between two and five years. In Brazil, we have 126 base station sites, of which 34 sites are leased from the same entity for a monthly rate ranging from \$937 to \$2,100 per site and the duration of each lease is 12 years and ends in September 2012. The remaining 92 sites are leased independently for an annual rate ranging from \$300 to \$1200 depending on the location, size and other factors, and the typical duration for these leases is five years. In Argentina, we have 37 base station sites, all of which are leased from three entities for a monthly rate ranging from \$370 to \$1,270 per site. The duration of the lease ranges from one to two years.

We do not believe that we have a legal retirement obligation associated with the operating leases for our base sites pursuant to the relevant accounting standards, since we do not own any real property. However, we are obligated pursuant to certain of the operating leases for our base sites, mainly for base sites in Israel, Brazil and Argentina, to restore facilities or remove equipment at the end of the lease term. Since the restoration is limited to any construction or property installed on the property, which in our case is only the installed antennas, we do not believe that these

obligations, individually or in the aggregate, will result in us incurring a material expense.

ITEM 4.A.

UNRESOLVED STAFF COMMENTS

ITEM 5: OPERATING AND FINANCIAL REVIEW AND PROSPECTS

A. OPERATING RESULTS

The following discussion and analysis should be read in conjunction with our consolidated financial statements and notes thereto included elsewhere in this report.

Introduction

We believe we are a leading provider of location-based services, consisting predominantly of stolen vehicle recovery, which we refer to as SVR, and tracking services. We also provide wireless communications products used in connection with our SVR services and for various other applications. We currently provide our services and sell and lease our products in Israel, Brazil, Argentina and the United States.

Our operations consist of two segments: location-based services and wireless communication products.

Our location-based services segment consists of our SVR, fleet management and value-added services. We currently operate stolen vehicle recovery services throughout Israel, in Brazil, Buenos Aires, Argentina and in the United States.

Our wireless communications products segment consists of our short- and medium-range two-way wireless communications products that are used for various applications, including AVL. We sell our AVL end-units to customers that subscribe to our SVR services.

Outlook

We have historically experienced significant growth in the markets in which we provide our location-based services. These markets are generally characterized by high car theft rates and insurance companies that are seeking solutions to limit their actual losses resulting from car theft, and hence the Brazilian market continues to represent growth potential for our location-based services. The growth in subscribers within our location-based services segment also has a direct impact on the sale or lease of our AVL products, as they are an integral component of our location-based services and are installed in each subscriber's vehicle. In Israel, improvements in the economy in 2010 have led to increased car sales which positively affected our sales as compared with previous years. In Brazil, we expect that the new legislation (Supplementary Law CONTRAN no. 245) entering into effect (following a few postponements) currently in August 2012, that provides for a mandatory anti-theft devices to be installed in new vehicles will contribute to our sales growth.

As of December 31, 2011, we had approximately 342,000 subscribers in Brazil and Argentina. We estimate that the total addressable market in Brazil and Buenos Aires, Argentina is several million vehicles, and therefore we have a significant opportunity to grow our subscriber base and increase sales of our AVL products.

We expect growth over the next 12 months in our location-based services segment to be driven by increased demand from existing insurance company customers in Brazil, as a result of our strong operating results and their increased familiarity with and confidence in our services, as well as additional insurance companies who could seek to establish relationships with us, as well as increased direct sales of SVR services to individual subscribers in Brazil who, due to prevailing high insurance costs, are self-insured and represent an additional market opportunity for our SVR services and AVL products. In connection with such potential markets and additional growth opportunities, we constantly look to enhance our brand recognition through continuous advertising efforts. Our new line of AVL products (Ituran Save), which is based on our SMART products and tailored for vehicles which are considered

medium to high end vehicles has contributed to an increase in our customer base and increase our sales, in Israel and we expect it to continue to contribute to such increase.

Please refer also to Item 3.D. – “Risk Factors” above in respect of the impact of the credit crunch on local and global economy which may negatively impact our business, including reducing demand for SVR services or affecting our current customers’ ability to continue with existing services.

#### Geographical breakdown

##### Location-based services subscriber base

The following table sets forth the geographic breakdown of subscribers to our location-based services as of the dates indicated:

	As of December 31,			
	2011	2010	2009	2008
Israel	256,000	230,000	216,000	214,000
Brazil	219,000	232,000	209,000	174,000
Argentina	123,000	121,000	119,000	111,000
United States	25,000	21,000	18,000	12,000
Total(1)	623,000	604,000	562,000	511,000

(1) All numbers provided are rounded, and therefore totals may be slightly different than the results obtained by adding the numbers provided.

#### Revenues

The following table sets forth the geographic breakdown of our revenues for each of our business segments for the relevant periods indicated.

	Year ended December 31,					
	2011		2010		2009	
	In USD, in Millions					
	Location based services	Wireless communications products	Location based services	Wireless communications products	Location based services	Wireless communications products
Israel	47.4	32.8	\$41.2	\$ 30.0	\$38.3	\$ 24.1
Brazil	60.0	2.4	55.3	5.8	41.8	2.8
Argentina	11.3	1.1	9.8	1.1	9.6	0.8
United States	1.7	2.4	1.8	1.9	1.9	1.6
Others	-	1.1	-	0.9	-	0.5

(1) We attribute revenues to countries based on the location of the customer.

## Revenues

### Location-based services segment

We generate revenues from sales and lease of our SVR, fleet management and value-added services. A majority of our revenues represent subscription fees paid to us by our customers, predominately subscribers in Israel, Brazil and the United States, and insurance companies in Brazil and Argentina. We recognize revenues from subscription fees on a monthly basis. Our customers are free to terminate their subscription at any time. In the absence of such termination, the subscription term continues automatically. We also generate subscription fees from our fleet management services. Assuming no additional growth in our subscriber base and based on our historical average churn rates of 2.5% per month in this segment, we can anticipate that at least 90% of our subscription fees generated in a prior quarter will recur in the following quarter.

### Wireless communications products segment

We generate revenues from the sale of our AVL products to customers in Israel, Brazil, Argentina, and the United States. We currently sell or lease our AVL end-units in each of the above regions. Growth in our subscriber base is the principal driver for the sale of our AVL products. We recognize revenues from sales of our wireless communications products upon delivery.

## Cost of revenues

### Location-based services segment

The cost of revenues in our location-based services segment consists primarily of staffing, maintenance and operation of our control centers and base stations, costs associated with our staff and costs incurred for private enforcement, licenses, permits and royalties, as well as communication costs and costs due to depreciation of leased products and installation fees. Cost of revenues for sales of our fleet management services also includes payments to a third party who markets our services.

### Wireless communications products segment

The cost of revenues in our wireless communications products segment consists primarily of production costs of our third-party manufacturers and costs associated with royalties and installation fees.

## Operating expenses

### Research and development

Our research and development expenses consist of salaries, costs of materials and other overhead expenses, primarily in connection with the design and development of our wireless communications products. We expense all of our research and development costs as incurred.

### Selling and marketing

Our selling and marketing expenses consist primarily of advertising, salaries, commissions and other employee expenses related to our selling and marketing team and promotional and public relations expenses.

### General and administrative

Our general and administrative expenses consist primarily of salaries, bonuses, accounting and other general corporate expenses.

30

---

## Operating Income

### Location-based services segment

Operating income in our location-based services segment is primarily affected by increases in our subscriber base and our ability to increase the resulting revenues without a commensurate increase in our corresponding costs.

### Wireless communications products segment

Operating income in our wireless communications products segment is primarily affected by our ability to increase sales of our AVL products.

### Financing expenses (income), net

Financing expenses (income), net, include, inter alia, short- and long-term interest expenses, financial commissions, and gains and losses from currency fluctuations from the conversion of monetary balance sheet items denominated in currencies other than the functional currency of each entity in the group, gains in respect of marketable securities and interest related tax positions. Financing expenses, net, also include gains or losses from currency swaps and other derivatives that do not qualify for hedge accounting under ASC Topic 815, "Derivatives and Hedging", or which have not been designated as hedging instruments.

### Taxes on income

Income earned from our services and product sales is subject to tax in the country in which we provide our services or from which we sell our products.

## Critical Accounting Policies and Estimates

Our critical accounting policies are more fully described in Note 1 to our consolidated financial statements appearing elsewhere in this report. However, certain of our accounting policies require us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. We evaluate our estimates on a periodic basis. We base our estimates on historical experience, industry trends, authoritative pronouncements and various other assumptions that we believe to be reasonable under the circumstances. Such assumptions and estimates are subject to an inherent degree of uncertainty.

The following are our critical accounting policies and the significant judgments and estimates affecting the application of those policies in our consolidated financial statements. See Note 1 to our consolidated financial statements included elsewhere in this report.

### Revenue recognition

Revenues are recognized when delivery has occurred and, where applicable, after installation has been completed, there is persuasive evidence of an agreement, the fee is fixed or determinable and collection of the related receivable is reasonably assured and no further obligations exist. In cases where delivery has occurred but the required installation has not been performed, we do not recognize the revenues until the installation is completed.

Revenues are recognized as follows:

n

Revenues from sales of wireless communications product are recognized when title and risk of loss of the product pass to the customer (usually upon delivery).

Revenues from subscription fees and installation services which have been determined not to have value on the stand-alone basis to the customers, in accordance with ASC Topic 605-25 "Multiple Elements Arrangements" are recognized ratably on a straight-line basis over the subscription period.

nRevenues from rentals of leased equipment under operating lease are recognized over the term of the lease agreement (1-3 years).

nDeferred revenues include unearned amounts received from customers (mostly for the provision of installation and subscription services) but not yet recognized as revenues.

nSale and leaseback transactions. We account for sale and leaseback transactions in accordance with the provisions of ASC Topic 840-40, "Sale-Leaseback Transactions". Accordingly, with respect of a certain leaseback transaction that was determined to be an operating lease and involving the use of more than a minor part but less than substantially all of the assets sold, the entire profit on the sale was deferred and is amortized in proportion to rental payments over the term of the lease. There was no recognition of any profit at the date of the sale since the present value of the minimum lease payments exceeded the amount of the profit.

#### Accounting for income taxes

As part of the process of preparing our consolidated financial statements we are required to estimate our income taxes in each of the jurisdictions in which we operate. This process requires us to estimate our actual current tax exposure and make an assessment of temporary differences resulting from differing treatment of items, for tax and accounting purposes. These differences result in deferred tax assets and liabilities, which are included within our consolidated balance sheet. We must then assess the likelihood that our deferred tax assets will be recovered from future taxable income and, to the extent we believe that recovery is not likely, we establish a valuation allowance. To the extent we establish a valuation allowance or increase this allowance in a period, we must include an expense within the tax provision in the consolidated statement of income. Significant management judgment is required in determining our deferred tax assets and liabilities and any valuation allowance recorded against our net deferred tax assets. In the event that we generate taxable income in the jurisdictions in which we operate and in which we have net operating loss carry-forwards, we may be required to adjust our valuation allowance.

We follow the provisions of ASC Topic 740-10, "Income Taxes" which clarify the accounting for uncertainty in tax positions. ASC Topic 740-10 requires that we recognize in our financial statements the impact of a tax position, if that position will more likely than not be sustained upon examination, based on the technical merits of the position, without regard the likelihood that the tax position may be challenged. If an uncertain tax position meets the "more-likely-than-not" threshold, the largest amount of tax benefit that is greater than 50% likely to be recognized upon ultimate settlement with the taxing authority is recorded.

We recognize interest as interest expenses (among financing expenses) and penalties, if any, related to unrecognized tax benefits in its provision for income tax.

#### Allowance for doubtful accounts

We are required to perform ongoing credit evaluations of our trade receivables and maintain an allowance for doubtful accounts, based upon our judgment as to our ability to collect outstanding receivables. In determining the relevant allowance amounts, we analyze our historical collection experience, current economic trends and the financial position and credit worthiness of our customers. Our allowance policy is to define a flat percentage of our accounts receivable as the ongoing reserve and to reserve a higher amount for certain customers that we believe have a higher risk of default. As of December 31, 2010 and 2011, our allowance for doubtful accounts was \$1,553,000 and \$1,302,000 respectively and our trade receivables (net of allowance for doubtful accounts) were \$31.2 million and \$25.3 million, respectively. To date, based on our past experience, our allowances for doubtful accounts have been sufficient.

## Goodwill and other intangible assets

Goodwill acquired in a business combination is deemed to have indefinite life and is not to be amortized but rather tested at least annually for impairment. As required by ASC Topic 350, as amended by ASU No. 2011-08, "Testing for Impairment", which amendment was early adopted in our annual consolidated financial statements for the year ended December 31, 2011, we required to choose either to perform a qualitative assessment wheatear the two-step goodwill impairment test is necessary or to proceed directly to the two-step goodwill impairment test. Such determination is made for each reporting unit on a stand-alone basis. The qualitative assessment includes various factors such as macroeconomic conditions, industry and market considerations, cost factors, overall financial performance, earning multiples, gross margin and cash flows from operating activities and other relevant factors.

When we choose to perform a qualitative assessment and determine that it is more likely than not (a more than 50 percent likelihood) that the fair value of the reporting unit is less than its carrying value, then we proceed to the two-step goodwill impairment test. If we determine otherwise, no further evaluation is necessary.

When we implement the goodwill impairment test, we follow the following two step process: firstly, we compare the fair value of each reporting unit to its carrying value ("step 1"). If the fair value exceeds the carrying value of the reporting unit net assets, goodwill is considered not to be impaired, and no further testing is required. If the carrying value exceeds the fair value of the reporting unit, then the implied fair value of goodwill is determined by subtracting the fair value of all the identifiable net assets from the fair value of the reporting unit. An impairment loss is recorded for the excess, if any, of the carrying value of the goodwill allocated to the reporting unit over its implied fair value ("step 2").

As required by ASC Topic 820, "Fair Value Measurements", starting 2009, we apply assumptions that market participants would consider in determining the fair value of each reporting unit. We perform the annual goodwill impairment test for our reporting units at December 31 of each year, or more often if indicators of impairment are present. Fair value is determined using the income approach. Significant estimates used in the methodologies included estimates of future cash flows and estimates of discount rates. We have performed impairment tests on our goodwill and other intangible assets. In 2010 and 2011, we wrote impairment losses of US\$0.2 million and US\$0.9 million, respectively. As of December 31, 2010 and 2011, we reported a total goodwill of \$10.1 million and \$8.5 million, respectively, on our consolidated balance sheet. In assessing the recoverability of our goodwill and other intangible assets, we must make assumptions regarding the estimated future cash flows (including, projected revenues, operating expenses and capital expenditures), future short-term and long-term growth rates and weighted average cost of capital which are based on management's internal assumptions, and believed to be similar to those of market participants and represent both the specific risks associated with the business, and capital market conditions. If these estimates or their related assumptions change in the future, we may be required to record impairment charges for these assets.

## Contingencies

From time to time we are subject to claims arising in the ordinary course of our business, and in connection with certain agreements with third parties, as more fully described in Item 8.A. – "Consolidated Statements and other Financial Information" under the caption "Legal Proceedings" below. In determining whether liabilities should be recorded for pending litigation claims (including claims that are under arbitration proceedings), we assess the allegations made and the likelihood that we will be able to defend against the claim successfully. When we believe that it is probable that we will not prevail in a particular matter and when the amount thereof is estimable, we estimate the amount of such liability and its likelihood.

## Results of Operations

The following table sets forth for the periods indicated selected items from our consolidated statements of income as a percentage of our total revenues.

Consolidated statements of operations data:	Year Ended December 31,					
	2011		2010		2009

Analysis of our Operation Results for the Year ended December 31, 2011 as compared to the Year ended December 31, 2010

#### Revenues

Total revenues increased from \$147.8 million in 2010 to \$160.2 million in 2011, or 8.4%. This increase consisted of an increase of \$12.3 million from subscription fees from our location-based services and increase of \$0.1 million from sales of our wireless communications products.

#### Location-based services segment

Revenues in our location-based services segment increased from \$108.1 million in 2010 to \$120.4 million in 2011, or 11.4%. The increase of \$12.3 million from subscription fees from our location-based services is primarily due to an increase in the average annual number of subscribers from 583,000 in 2010 to 613,000 subscribers in 2011 and due to the effect of exchange rates fluctuations of \$4.8 million as well as an increase of approximately \$ 4 million resulting from attributing installation fees in respect of installation of our products to the location-based services segment which were attributed in 2010 to our wireless communication products segment.

#### Wireless communications products segment

Revenues in our wireless communications products segment increased from \$39.7 million in 2010 to \$39.8 million in 2011. This minor increase of \$0.1 million is primarily due to a decrease in sales of our wireless communications products offset by the effects of exchange rates fluctuation. In addition the increase is also the result of a recording of installation fees in an amount of \$4 Million in 2011 in our location based services segment which were recorded in 2010 in our wireless communication products segment.

#### Cost of revenues

Total cost of revenues increased from \$75.2 million in 2010 to \$80.7 million in 2011, or 7.3%. This increase consisted of an increase of \$8.3 million in the location based services segment and a decrease of \$2.8 million in the wireless communications products segment. As a percentage of total revenues, cost of revenues decreased from 50.8% in 2010 to 50.4% in 2011.

#### Location-based services segment

Cost of revenues for our location-based services segment increased from \$40.8 million in 2010 to \$49.2 million in 2011, or 20.6%. This increase was primarily due to recording in our financial statements of installation expenses which were previously recorded as cost of good sold in 2010 and is recorded as operating expenses in 2011, an increase in depreciation and salary expenses, as well as effects of exchange rates fluctuations of \$1.8 million. As a percentage of total revenues for this segment, cost of revenues increased from 37.8% in 2010 to 40.9% in 2011.

#### Wireless communications products segment

Cost of revenues for our wireless communications products segment decreased from \$34.3 million in 2010 to \$31.6 million in 2011, or 8.1%. This decrease was primarily due to changes in the mixture of products' sales including a sale of a license by Mapa, our subsidiary, to a map provider, having a higher margin of gross profit as well as a decrease in the price of products purchased by us. . As a percentage of total revenues for this segment, cost of revenues decreased from 86.5% in 2010 to 79.4% in 2011, primarily due to the changes in the mixture of product's sales and effects of exchange rates fluctuation.

Operating expenses

Research and development

Our research and development expenses in 2011 increased from \$0.5 Million in 2010 to \$0.6 Million in 2011.

35

---

#### Selling and marketing

Selling and marketing expenses decreased from \$8.7 million in 2010 to \$8.5 million in 2011, or 1.5%. As a percentage of total revenues, selling and marketing expenses decreased from 5.9% in 2010 to 5.3% in 2011. The decrease in the Selling and Marketing expenses was mainly due to a decrease in the advertising and promotion expenses in 2011.

#### General and administrative

General and administrative expenses increased from \$31.7 million in 2010 to \$35.0 million in 2011, or 10.5%. This increase includes the effect of exchange rates fluctuations of \$1.3 million (without taking into account the effects of exchange rates fluctuations, the general and administrative expenses are \$33.7 million). This increase was primarily due to an increase in salary expenses and legal fees. As a percentage of total revenues, general and administrative expenses increased from 21.4% in 2010 to 21.8% in 2011.

#### Other expenses

Other expenses increased from \$1.2 million in 2010 to \$8.7 million in 2011. This increase was the result of incurring legal expenses in 2011 related to litigation proceedings in Brazil and a success fee paid to our legal counsel as a result of the dismissal by the Administrative Court of the State of São Paulo of the State Revenue Services of São Paulo's claims.

#### Operating income

Total operating income decreased from \$30.7 million in 2010 to \$26.6 million in 2011, or 13.3%. This decrease was mainly attributed to a decrease of \$9.5 million in the operating income in the location-based services segment and an increase of \$5.4 million in the wireless communications products segments.

#### Location-based services segment

Operating income in our location-based services segment decreased from \$32 million in 2010 to \$22.5 million in 2011 or 30%. This decrease was mainly attributed to an increase in legal expenses related to litigation in Brazil.

#### Wireless communications products segment

Operating income in our wireless communications products segment increased from an operating loss of \$1.3 million in 2010 to an operating gain of \$4.1 million in 2011. This increase was primarily due to a licensing transaction in 2011 by Mapa, our subsidiary to a map provider and a decrease in the cost of products purchased by us from our suppliers.

#### Other expenses, net

Other expenses, net decreased \$14.7 million in 2010 to \$0.8 million in 2011, due to the Israeli district court's decision in the Leonardo litigation case, given on June 13, 2011. For further details please refer to Item 8.A – “Consolidated Statements and other Financial Information” under the caption “Legal Proceedings” below.

#### Financing expenses (income), net

Financing income, net, increased from \$0.1 million in 2010 to \$2.1 million in 2011. This increase was mainly due to an increase in gains from short cash deposits resulting from an increase in cash in 2011.

## Income Tax

Income Tax increased from \$6.3 million in 2010 to \$5.7 million in 2011, or 10%. As a percentage of income before tax on income expense tax decreased from 39.1% in 2010 to 20% in 2011. This decrease was primarily due to a change in the profitability mix of our subsidiaries that have a varying income tax rate.

Analysis of our Operation Results for the Year ended December 31, 2010 as compared to the Year ended December 31, 2009

## Revenues

Total revenues increased from \$121.4 million in 2009 to \$147.8 million in 2010, or 21.7%. This increase consisted of an increase of \$16.5 million from subscription fees from our location-based services and increase of \$9.9 million from sales of our wireless communications products.

### Location-based services segment

Revenues in our location-based services segment increased from \$91.6 million in 2009 to \$108.1 million in 2010, or 18%. The increase of \$16.5 million from subscription fees from our location-based services is primarily due to an increase in the average annual number of subscribers from 537,000 subscribers in 2009 to 583,000 in 2010 and due to the effect of exchange rates fluctuations of \$6.1 million.

### Wireless communications products segment

Revenues in our wireless communications products segment increased from \$29.8 million in 2009 to \$39.7 million in 2010, or 33.2%. This increase of \$9.9 million is primarily due to an increase in sales of our wireless communication products in Israel as well as revenues derived in 2010 from charging for installations and unrecovered customer equipment in Brazil and includes effects of exchange rates fluctuations of \$1.2 million.

## Cost of revenues

Total cost of revenues increased from \$60.8 million in 2009 to \$75.2 million in 2010, or 23.7%. This increase consisted of an increase of \$7.5 million in the location based services segment and an increase of \$6.9 million in the wireless communications products segment. As a percentage of total revenues, cost of revenues increased from 50.1% in 2009 to 50.8% in 2010.

### Location-based services segment

Cost of revenues for our location-based services segment increased from \$33.4 million in 2009 to \$40.8 million in 2010, or 22.2%. This increase was primarily due to an increase in depreciation expenses (primarily as a result of the lease of wireless communication products in Brazil) and to an increase in communication and salary expenses, and includes effects of exchange rates fluctuations of \$2.2 million. As a percentage of total revenues for this segment, cost of revenues increased from 36.4% in 2009 to 37.8% in 2010.

### Wireless communications products segment

Cost of revenues for our wireless communications products segment increased from \$27.4 million in 2009 to \$34.3 million in 2010, or 25.2%. This increase was primarily due to an increase in products sales turnover. As a percentage of total revenues for this segment, cost of revenues decreased from 92.1% in 2009 to 86.5% in 2010, primarily due to

the changes in the mixture of product's sales.

Operating expenses

Research and development

Our research and development expenses in 2009 and in 2010 were \$0.4 million \$0.5 million respectively.

37

---

### Selling and marketing

Selling and marketing expenses increased from \$7.7 million in 2009 to \$8.7 million in 2010, or 13%. As a percentage of total revenues, selling and marketing expenses decreased from 6.3% in 2009 to 5.9% in 2010. The increase in the Selling and Marketing expenses was mainly due to an increase in the advertising and promotion expenses in 2010.

### General and administrative

General and administrative expenses increased from \$27.2 million in 2009 to \$31.7 million in 2010, or 16.5%. This increase includes the effect of exchange rates fluctuations of \$1.8 million (without taking into account the effects of exchange rates fluctuations, the general and administrative expenses are \$29.9 million). This increase was primarily due to an increase in salary expenses. As a percentage of total revenues, general and administrative expenses decreased from 22.4% in 2009 to 21.4% in 2010.

### Operating income

Total operating income increased from \$24.4 million in 2009 to \$30.7 million in 2010, or 25.8%. This increase was mainly attributed to an increase of \$4.9 million in the operating income in the location-based services segment and an increase of \$1.4 million in the wireless communications products segments.

### Location-based services segment

Operating income in our location-based services segment increased from \$27.1 million in 2009 to \$32 million in 2010, or 18.1%. This increase was primarily due to an increase in our revenues from \$91.6 million in 2009 to \$108.1 million in 2010.

### Wireless communications products segment

Operating income in our wireless communications products segment increased from an operating loss of \$2.7 million in 2009 to an operating loss of \$1.3 million in 2010. This increase was primarily due to an increase in our sales of wireless products in Israel and due to revenues derived in 2010 from charging for installations and unrecovered customer equipment in Brazil.

### Other expenses, net

Other expenses, net increased from none in 2009 to \$14.7 million in 2010, due to the Israeli district court's decision in the Leonardo litigation case, given on June 13, 2011. For further details please refer to Item 8.A – “Consolidated Statements and other Financial Information” under the caption “Legal Proceedings” below.

### Financing expenses (income), net

Financing income, net, decreased from \$1.6 million in 2009 to \$0.1 million in 2010. This decrease was mainly due to the fact that during 2009 the company had gains in an amount of \$1.3 million from investments in marketable securities that were linked to the US dollar mainly due to the effect of exchange rates fluctuations whereas in 2010 the gain was approximately US\$30,000. In addition, in 2009 there was finance income from the tax authorities due to tax refund and in 2010 the company had finance expense to the tax authorities.

### Income Tax

Income Tax decreased from \$7.1 million in 2009 to \$6.3 million in 2010, or 11.3%. As a percentage of income before tax on income expense tax increased from 27.5% in 2009 to 39.1% in 2010. This increase was primarily due to the fact that we did not create deferred taxes in respect of certain expenses resulting from the court's ruling in the Leonardo's case.

## Impact of Currency Fluctuations on Results of Operations, Liabilities and Assets

Although we report our consolidated financial statements in dollars, in 2009, 2010 and 2011, a portion of our revenues and expenses was derived in other currencies. For fiscal years 2009, 2010 and 2011, we derived approximately 9.2%, 8.3% and 8.9% of our revenues in dollars, 45.5%, 43.1% and 44.5% in NIS, 36.7%, 41.3% and 39.0% in Brazilian Reals and 8.6%, 7.3% and 7.7% in Argentine Pesos, respectively. In fiscal years 2009, 2010 and 2011, 17.2%, 17% and 14.1% of our expenses were incurred in dollars, 41.2%, 37.9% and 35.2% in NIS, 34.3%, 38.5% and 43.9% in Brazilian Reals and 7.3%, 6.7% and 6.8% in Argentine Pesos, respectively.

Exchange differences upon conversion from our functional currency to dollars are accumulated as a separate component of accumulated other comprehensive income under stockholders' equity. In 2011, accumulated and other comprehensive income decreased by \$9.1 million compared to the year 2010. In 2010, accumulated and other comprehensive income increased by \$5.1 million compared to the year 2009. In 2009, accumulated and other comprehensive income increased by \$5.7 million compared to the year 2008. Exchange differences upon conversion from the functional currency from our other selling and marketing subsidiaries to dollars are reflected in our income statements under financing expenses, net.

The fluctuation of the other currencies in which we incur our expenses or generate revenues against the NIS or the dollar has had the effect of increasing or decreasing (as applicable) reported revenues, cost of revenues and operating expenses in such foreign currencies when converted into dollars from period to period. The following table illustrates the effect of the changes in exchange rates on our revenues, gross profit and operating income for the periods indicated:

	Year Ended December 31,							
	2008		2009		2010		2011	
	Actual	At 2007 exchange rates(1)	Actual	At 2008 exchange rates(1)	Actual	At 2009 exchange rates(1)	Actual	At 2010 exchange rates(1)
	(In thousands)							
Revenues	\$132,616	\$122,064	\$121,381	\$131,327	\$147,825	\$140,521	\$160,167	\$154,864
Gross profit	63,619	57,235	60,559	66,555	72,651	68,574	79,432	76,284
Operating income	25,660	22,366	24,382	27,492	30,668	28,775	26,583	25,557

(1) Based on average exchange rates during the period.

Our policy remains to reduce exposure to exchange rate fluctuations by entering into foreign currency forward transactions that qualify as hedging transactions under ASC Topic 815, "Derivatives and Hedging", the results of which are reflected in our income statements as revenues or cost of revenues. The result of these transactions, which are affected by fluctuations in exchange rates, could cause our revenues, cost of revenues, gross profit and operating income to fluctuate.

In addition, due to increased fluctuations in the exchange rate of the US dollar vis-a-vis the Israeli Shekel, we commenced acquiring derivative financial instruments. Gains or losses from such derivative financial instruments do not qualify for hedge accounting under ASC Topic 815, "Derivatives and Hedging" and are reflected in financing expenses, net. See also Note 1K and Note 20 to our consolidated financial statements appearing elsewhere in this report.

## B. LIQUIDITY AND CAPITAL RESOURCES

We fund our operations primarily from cash generated from operations. In 2009, 2010 and 2011, we had \$78.1 million, \$61.3 million and \$40.2 million in cash, marketable securities and deposit in escrow (long and short term) and \$72.8 million, \$48.6 million and \$48.5 million in working capital, respectively. In 2009, we did not have any outstanding long-term borrowings from bank. In each of the years 2010 and 2011, our long term borrowings from banks amounted to \$0.2 million. In 2009, 2010 and 2011, we also had \$1.4 million, \$2.1 million and \$2.1 million, respectively, available to us under existing lines of credit of which we were utilizing \$6 thousand in 2009, \$0.1 million in 2010 and \$0.4 million in 2011.

We believe that our cash flow from operations, availability under our lines of credit and cash and marketable securities will be adequate to fund our capital expenditures, contractual commitments and other demands and commitments for the foreseeable future as well as for the long-term. We believe that cash flow generated from operations and cash available to us from our credit facilities will be sufficient to cover future expansion of our various businesses into new geographical markets or new products, as currently contemplated and as we describe below. However, if existing cash and cash generated from operations are insufficient to satisfy our liquidity requirements, we may seek financing elsewhere by selling additional equity or debt securities or by obtaining additional credit facilities.

We had long-term liabilities in 2009, 2010 and 2011 of \$5.5 million, \$6.5 million and \$6.9 million respectively, for employee pension costs for certain of our employees that become payable upon their retirement. Our Israeli employees are entitled to one month's salary, equal to the applicable monthly salary at the time of such employee's retirement, for each year of employment, or a portion thereof, upon retirement. This liability is partially funded by deposit balances maintained for these employee benefits in the amount of \$3.6 million, \$4.5 million and \$4.7 million in 2009, 2010 and 2011 respectively. The deposited funds include profits accumulated up to the balance sheet date and may be withdrawn upon the fulfillment of the obligation pursuant to Israeli severance pay laws or labor agreements.

Due to the Israeli district court decision in the matter of Leonardo, as of December 31, 2010, we did not have any outstanding capital notes. For further information, please see Item 8.A. – "Consolidated Statements and other Financial Information" under the caption "Legal Proceedings" below.

As from November 16, 2009, our dividend policy provides for an annual dividend distribution in an amount not less than 50% of our net profits, calculated based on the audited financial statements for the period ending on December 31 of the fiscal year with respect to which the relevant dividend is paid. According to the adopted dividend policy and Israeli law, an annual dividend will only be declared and paid if, in the discretion of our Board of Directors, there is no reasonable foreseeable concern that the distribution will prevent us from being able to meet the terms of our existing and contingent liabilities, as and when due all based on our needs as will be determined from time to time and subject to the provisions of the Israeli laws concerning lawful distribution of dividends. According to our dividend policy, we distributed NIS117.2 million (approximately \$31.6 million) on April 7, 2010, NIS 78.8 million (approximately \$21.8 million) on April 6, 2011 and NIS96 million (approximately \$25.8 million) on April 4, 2012.

On February 21, 2012, we revised our dividend policy so that our dividends will be declared and distributed on a quarterly basis in an amount not less than 50% of our net profits, calculated on the basis of our reviewed quarterly financial statements each fiscal year.

As of the date of this report, we repurchased 2,507,314 of our shares. The following table sets forth the components of our historical cash flows for the periods indicated:

	Year ended December 31,		
	2011	2010	2009
	(In thousands)		
Net cash provided by operating activities	45,852	\$33,479	\$37,726
Net cash provided by (used in) investing activities	(10,809 )	(14,974 )	13,062
Net cash used in financing activities	(44,715 )	(33,842 )	(4,051 )
Effect of exchange rate changes on cash and cash equivalents	(1,732 )	1,198	1,565
Net increase (decrease) in cash and cash equivalents	\$(11,404 )	\$(14,139 )	\$48,302

Years ended December 31, 2011, December 31, 2010 and December 31, 2009

Net cash provided by operating activities

Our operating activities provided cash of \$37.7 million in 2009, \$33.5 million in 2010 and \$45.9 million in 2011.

The /increase of approximately \$12.4 million in cash from operating activities in 2011 as opposed to 2010 was due primarily to:

Cash used for operating activities as follows:

- Increase in our net profit of approximately \$ 12.4 million;
- Increase in depreciation and amortization expenses of approximately \$1.9million; and
- Decrease in accounts receivable of approximately \$ 8.3 million.

The increase in cash from current operations as stated above was offset by Decrease in litigation obligation in respect of the Leonardo litigation of approximately \$ 14.7 million;

The decrease of approximately \$4.2 million in cash from operating activities in 2010 as opposed to 2009 was due primarily to:

Cash used for operating activities as follows:

- Increase in depreciation and amortization expenses of approximately \$3.3 million; and
  - Gains from sale of marketable securities in an amount of approximately US\$1.4 million in 2009.
- Increase in deferred revenues in an amount of approximately \$1.1 million; and
- Increase in other current liabilities and in litigation obligation in an amount of approximately \$12.9 million.

The increase in cash from current operations as stated above was offset by:

- Decrease in net profit of approximately \$9.1 million;
- Increase in accounts receivable in an amount of approximately \$5.4 million;
- Decrease in accounts payable in an amount of approximately \$5.5 million;
- Increase in other current assets in an amount of approximately \$2.0 million;
- Increase in deferred income tax in an amount of approximately \$2.2 million.

Net cash provided by (used in) investing activities

Net cash used in investment activities in 2011 in an amount of approximately \$10.8 million, includes mainly capital expenditure in an amount of \$16.2 million and sale of trading and marketable securities in an amount of approximately \$ 1.4 million as well as release from escrow account of an amount of \$8.2 million of which \$3.5 million was transferred to us and a sum of \$4.7 million was transferred to ST under settlement and arbitration proceedings with ST.

Net cash provided by investment activities in 2010 in an amount of approximately \$15.0 million, includes mainly capital expenditure in an amount of \$18.3 million and sale of trading and marketable securities less investment in marketable securities in an amount of approximately US\$2.9 million.

Net cash provided by investing activities in 2009 in an amount of approximately \$13.1 million was mainly due to the sale of trading marketable securities and available for sale marketable securities in the sum of approximately \$30 million which was set off by an investment in fixed assets in the sum of approximately \$15.7 million and an investment in employees funds in an amount of approximately \$0.8 million.

Net cash provided by (used in) financing activities

Net cash used in financing activities in 2011 in an amount of approximately \$44.7 million consisted primarily of a cash dividend payment in an amount of 21.8 million and payment of the sum of \$22.4 million pursuant to the District Court's decision in the Leonardo Case.

Net cash used in financing activities in 2010 in an amount of approximately \$33.8 million consisted primarily of a cash dividend payment in an amount of \$31.6 million and an acquisition of the minority interest in one of our subsidiaries an amount of \$2.25 million.

Net cash used in financing activities in 2009 in an amount of approximately \$4.1 million consisted primarily of a cash dividend payment in an amount of \$3.6 million, short term bank credit repayment in the amount of \$0.3 million and a dividend paid to non-controlling shareholders in a subsidiary in an amount of \$0.2 million.

### C. RESEARCH AND DEVELOPMENT, PATENTS AND LICENSES

All of our research and development activities take place in Israel. Our Research and Design department is currently working on upgrading the service infrastructure, introducing new services and replacing the majority of the existing fleet management applications (utilizing both internal development staff and outsourcing such activities from third parties as well as developing new service platforms for cellular/GPS based devices).

Expenditures for research and development activities engaged by us were approximately \$0.6 million in 2011, \$0.5 million in 2010 and \$0.4 million in 2009.

### D. TREND INFORMATION

Please see Item 4.A. – History and Development of the Company” and Item 4.B. – “Business Overview” above for trend information.

### E. OFF-BALANCE SHEET ARRANGEMENTS

We do not have off-balance sheet arrangements (as such term is defined in Item E(2) of the Form 20-F) that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial conditions, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

### F. TABULAR DISCLOSURE OF CONTRACTUAL OBLIGATIONS

Contractual obligations and commercial commitments

The following table summarizes our material contractual obligations as of December 31, 2011:

Contractual obligations	Total	Payments due by period			After 5 years
		Less than 1 year	1-3 years	3-5 years	
Operating leases	2,815	1,909	761	145	-

(In USD thousands)

Edgar Filing: Ituran Location & Control Ltd. - Form 20-F

Long-term loans	216	43	173	-	-
Purchase Obligations	8,924	8,924	-	-	-
Total	11,955	10,876	934	145	-

## G. SAFE HARBOR

The safe harbor provided in Section 27A of the Securities Act and Sections 21E of the Exchange Act shall apply to forward looking information provided in Items 5.E and F.

## ITEM 6. DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES

## A. DIRECTORS AND SENIOR MANAGEMENT

The following persons are our directors, senior management and employees upon whose work we are dependent:

Name	Age	Position
Izzy Sheratzky	65	President and director
Yehuda Kahane	67	Director
Ze'ev Koren	66	Chairman of the Board of Directors
Avner Kurz	58	Director
Amos Kurz	55	Director
Yigal Shani	67	Director
Eyal Sheratzky	43	Co-Chief Executive Officer and Director
Nir Sheratzky	39	Co-Chief Executive Officer and Director
Gil Sheratzky	34	Director
Yoav Kahane(1)	37	Director
Orna Ophir(1)	61	Director
Israel Baron(1)	58	Director
Eli Kamer	45	Executive Vice President, Finance; Chief Financial Officer
Guy Aharonov	46	General Counsel
Udi Mizrahi	40	VP Finance

(1) Member of our audit committee and an independent director under the Nasdaq Global Select listing requirements.

Izzy Sheratzky is a co-founder of our company and has served as the Chairman of our Board of Directors, which in our company constitutes both an officer and director position, ever since our company was acquired from Tadiran in 1995. Recently Mr. Sheratzky ceased to serve as the Chairman of our Board of Directors (remaining a director in our company) and continues to serve as our President. Until 2003, Mr. Sheratzky also served as our Chief Executive Officer. Mr. Sheratzky also serves as the Chairman of the Board of Directors of Moked (1973) Investigations Company Ltd., Moked Services, Information and Investments Ltd., and Moked Ituran. He also serves as a director in Tikal Document Collection Ltd. Mr. Sheratzky is the father of Eyal, Nir and Gil Sheratzky.

Yehuda Kahane is a co-founder of our company and has served as a director since its acquisition from Tadiran in 1995. Professor Kahane is a full-time professor at the Faculty of Management, Tel Aviv University. Professor Kahane founded and served as the first Dean of the Israeli Academic School of Insurance until 2000. In addition, he was the co-founder and co-owner of the managing firm of the first balanced pension fund in Israel, Teshura, a co-owner of the technological incubators Weizman, Ofakim and Katzrin, and is involved in the formation, seed investment and management of start-up companies. Professor Kahane serves as an actuarial consultant to various companies and organizations and has been providing financial consulting services to our company since 1998. Professor Kahane is a director in Tachlit Investment House Ltd. and Capital Point Ltd. and in a large number of private technological

companies unrelated to us. He is the chairman of an association for the visually impaired of Hertzelia and Sharon District and a board member of the umbrella organization for the visually impaired in Israel. Professor Kahane holds a BA degree in Economics and Statistics, an MA degree in Business Administration and a PhD in Finance from the Hebrew University of Jerusalem. He is the father of Yoav Kahane.

Zeev Koren has served as a director of our company since 2006 and as of 2011 serves as the Chairman of the Board of Directors of the Company. In 1988 Brigadier Gen. (Res) Koren retired from the Israel Defense Forces after a career of 25 years, where in his final position he served as the head of human resources planning for the general staff division. Since then he has served in senior capacity in companies in the fields of international forwarding and medical services. During the past five years he also served as the general manager of a Provident Management Company. He holds a B.A. in Political Science and Criminology from Bar Ilan University.

Avner Kurz has served as a director of our company since its acquisition in 1995. Mr. Kurz is the Chairman of the Board of directors and director of F.K. Generators & Equipment Ltd. Mr. Kurz also serves as a director in El-Ram, Moked Ituran, Totam Plus, Expandis and several other private companies abroad. Mr. Kurz is the brother of Amos Kurz.

Amos Kurz has served as a director of our company since its acquisition in 1995. Mr. Kurz also serves as Chief Executive Officer and director of F.K. Generators & Equipment. Mr. Kurz is the brother of Avner Kurz.

Yigal Shani has served as a director of our company since its acquisition in 1995. Mr. Shani is an insurance agent and a partner in the insurance agency Tzivtit Insurance Agency (1998), Ltd., which provides insurance services to our company.

Eyal Sheratzky has served as a director of our company since its acquisition in 1995 and as a Co-Chief Executive Officer since 2003. Prior to such date, he served as an alternate Chief Executive Officer of our company in 2002 and as Vice President of Business Development during the years 1999 through 2002. Mr. Sheratzky also serves as a director of Moked Ituran and certain of our other subsidiaries, including Ituran Network. From 1994 to 1999, he served as the Chief Executive Officer of Moked Services, Information and Investments and as legal advisor to several of our affiliated companies. Mr. Sheratzky holds LLB and LLM degrees from Tel Aviv University School of Law and an Executive MBA degree from Kellogg University. Mr. Sheratzky is the son of Izzy Sheratzky, the brother of Nir and Gil Sheratzky.

Nir Sheratzky has served as a director of our company since its acquisition in 1995 and as a Co-Chief Executive Officer since 2003. Prior to such date, Mr. Sheratzky served as alternate Chief Executive Officer of our company from 1995 to 2003. Mr. Sheratzky is also a director in Moked Ituran. He holds BA and MA degrees in Economics from Tel Aviv University. Nir is the son of Izzy Sheratzky, the brother of Eyal and Gil Sheratzky.

Gil Sheratzky has served as a director of our company and as our advertising officer since 2003. Since January 23, 2007, he has served as well as CEO of our subsidiary, E-Com Global Electronic Commerce Ltd. Prior to such date, he worked in our control center during the years 2000 and 2001, and during the years 2001 and 2002 he worked in an advertising agency. Mr. Sheratzky holds an MBA degree from the University of Chicago – Booth School of Business. Mr. Sheratzky is the son of Izzy Sheratzky, the brother of Eyal and Nir Sheratzky.

Yoav Kahane has served as director of our company since 1998 and as of 2011 also serves as a member of our audit committee. Currently, Mr. Kahane is serving as CEO of Spot-On Therapeutics Ltd., and also provides business development services to other companies. During the years 2006-2009, Mr. Kahane worked for Enzymotec and served as CEO of Advanced Lipids AB a joint venture of AAK AB and Enzymotec, specializing in nutritional ingredients to the infant nutrition industry. Prior to that, during the years 2004-2005, Mr. Kahane served as Vice President of Sales and Marketing in Elbit Vision Systems Ltd. Prior to that date, during the years 2001 and 2002, he served as Manager of Business Development in Denver Holdings and Investments Ltd. In 2000, Mr. Kahane established Ituran Florida Corp. and served as its Chief Executive Officer until 2001. Mr. Kahane holds BSc degree in Life Sciences from Tel-Aviv University, a BA degree in Insurance and an MBA degree from the University of Haifa. Yoav Kahane is the son of Professor Kahane.

Orna Ophir has been serving as an external director of our company since 2003 and is a member of our audit committee. Dr. Ophir has been serving as Medical Director of Assuta hospital in Israel since November 2004 and as Chief Executive Officer of the Golden Tower Hospital (Bat Yam, Israel) since 2001. Prior to such date, Dr. Ophir served as Executive Vice President of Assuta Hospital (Tel Aviv, Israel) during the years 1997 to 2000. In addition, Dr. Ophir is a director of Maccabi Health Services, one of the principal health providers in Israel. Dr. Ophir holds MD and MAH degrees from Tel Aviv University.

Israel Baron has been serving as an external director of our company since 2003 and is the Chairman of our audit committee. Mr. Baron serves as a director in Poalim Trust Services Ltd., a fully owned subsidiary of Bank Hapoalim Ltd. In addition, Mr. Baron has been serving as Chief Executive Officer of several public sector employee retirement and saving plans since 2003. Prior to such date, Mr. Baron managed an organizational consulting firm, served as an investment manager in the Isaac Tshuva group during the years 1999 to 2001 and as Chief Executive Officer of Gmulot Investment Company Ltd. Mr. Baron serves as director of Quality Baron Management Services Ltd. and until 2004 he served as a director of Brill Shoe Industries Ltd. Mr. Baron is a certified CPA and holds a BA degree in Economics and Accounting.

Eli Kamer has served as Executive Vice President, Finance and Chief Financial Officer of our company since 1999, after serving as its Finance Department Manager since 1997. Prior such date, Mr. Kamer worked as an accountant in Fahn Kanne & Co., our independent auditors. Mr. Kamer is a CPA and holds a BA degree in Business Administration from the Israel College of Management and an MBA degree in business administration from Bar Ilan University.

Guy Aharonov has served as our in-house legal counsel since 1999. Prior to joining our company, he has worked as an attorney in Cohen Lahat & Co. Mr. Aharonov holds LLB and LLM degrees from Tel Aviv University.

Udi Mizrahi has served as our VP Finance since 2000. Mr. Mizrahi is a CPA and holds a BA degree in accounting and economics from Ruppin Academic Center, Israel.

Our articles of association provide for staggered three-year terms for all of our directors. The directors on our Board (excluding the external directors) are divided into three classes, and each class of directors will serve for a term of three years. Our independent directors who also qualify as external directors under the Israeli Companies Law, Orna Ophir and Israel Baron, are serving three-year terms in accordance with Israeli law. In April 2006 our general meeting of shareholders approved the extension of term of office of our external directors, for an additional term of three years (until June 3, 2009) under the same terms of the initial term of office. On January 22, 2009, our general meeting of shareholders approved the extension of term of office of our external directors, for an additional term of three years (until June 3, 2012), according to Israeli laws and regulations. On December 13, 2011, our general meeting of shareholders approved the extension of term of office of our external directors, for an additional term of three years (until June 3, 2015). On January 21, 2010, our general meeting of shareholders approved the extension of term of office of Izzy Sheratzky, Gil Sheratzky and Zeev Koren as directors, for an additional term until the third consecutive annual general meeting of the shareholders. On December 29, 2010, our general meeting of shareholders approved the extension of term of office of Eyal Sheratzky, Amos Kurz, Yoav Kahane and Yigal Shani, for an additional term until the third consecutive annual general meeting of the shareholders. On December 13, 2011, our general meeting of shareholders approved the extension of term of office of Nir Sheratzky, Avner Kurz and Yehuda Kahane, for an additional term until the third consecutive annual general meeting of the shareholders.

## B. COMPENSATION

The aggregate direct compensation we paid to our directors who are not officers for their services as directors as a group for the year ended December 31, 2011 was approximately \$130,000. Directors are reimbursed for expenses incurred in connection with their attendance of board or committee meetings.

The aggregate compensation paid to our Co-Chief Executive Officers in 2011 was \$1,070,000. Our four highest paid officers in 2011, other than our Co-Chief Executive Officers, were the active President, who was paid \$1,708,000 in 2011, and our Vice President Systems Operation, Vice President IT and Vice President of Finance, who were paid \$301,000, \$258,000 and \$255,000, respectively. The aggregate compensation paid to all Ituran officers as a group during 2011 was \$5,151,000. In 2011 we paid an aggregate amount of \$346,000 to three directors who either provided us with services or were employed by us as officers. These compensation amounts include amounts attributable to automobiles made available to our officers and other fringe benefits commonly reimbursed or paid by companies in Israel. Employee directors do not receive additional fees for their services as directors. During 2011, we set aside \$327,000 for the benefit of our officers for pension, retirement or similar benefits. We do not set aside any funds for the benefit of our directors who are not employees for any pension, retirement or similar benefits. All numbers in this paragraph are rounded to the nearest thousand.

Messrs. Izzy Sheratzky, Eyal Sheratzky and Nir Sheratzky provide their services as President and Co-Chief Executive Officers, respectively, as independent contractors pursuant to services agreements between the company and A. Sheratzky Holdings Ltd., a company controlled by Izzy Sheratzky. Mr. Gil Sheratzky is employed as CEO of one of our subsidiaries, E-Com Global Electronic Commerce Ltd. See Item 7.B. – “Related Parties Transactions” under the caption “Transactions with Related Parties” below.

The compensation paid to Mr. Izzy Sheratzky included a bonus in an amount equal to 5% of our profits before tax (including the share of affiliated companies net), on a consolidated basis, based on our audited consolidated financial statements for the relevant year, to which Mr. Izzy Sheratzky is entitled pursuant to his services agreement with the company. The compensation paid to each of our Co-Chief Executive Officers, Eyal Sheratzky and Nir Sheratzky, includes a bonus in an amount equal to 1% of our profits before tax (including the share of affiliated companies net), on a consolidated basis, based on our audited consolidated financial statements for the relevant year, granted pursuant to a resolution of our Board of Directors from January 2004. The compensation paid to Gil Sheratzky by our subsidiary E-Com Global Electronic Commerce Ltd. includes a bonus in an amount equal to 2% of the annual increase in that company’s profits before tax, (up to a maximum amount of 1% of that company’s profits before tax) based on its audited consolidated financial statements for the relevant year, beginning January 1, 2007. See Item 7 – “Related Parties Transactions” under the caption “Transactions with our directors and principal officers” below.

In January 2006, our compensation committee adopted a resolution to pay our managers (not including managers who also serve as our directors) a quarterly bonus as of the first quarter of 2006 at the rate of 1.5% of our consolidated profit before tax and after shares in gains (losses) of affiliated companies, net and non-controlling interest, which is paid to 13 of our managers in different proportions based on their seniority, level of global and domestic involvement and contribution to our operations and other criteria set by the compensation committee. In April 2010, our compensation committee adopted a resolution to change the bonus scheme so the bonus applicable to seven managers, whose work involves consultation and cooperation with our subsidiaries abroad, shall be based on our consolidated profit before tax and after shares in gains (losses) of affiliated companies, net and non-controlling interest and for the bonus applicable to the remaining managers shall be calculated based on the results of operations in Israel only (i.e. based on the operating profits of Ituran, not on a consolidated basis, including the profit attributed to the activities of our subsidiary, E-Com Global Electronic Commerce Ltd. relating to value added services provided by E-Com).

In November 2011 our board of directors appointed Mr. Yoav Kahane as a member of our audit committee in place of Mr. Ze'ev Koren. On such date, our audit committee and board of directors approved compensation for Yoav Kahane for serving as a member of our audit committee and compensation for Mr. Ze'ev Koren for serving as the Chairman of our board of directors, with such compensation to equal the compensation awarded and paid to each of our external directors as promulgated under the Israeli laws. In 2010 and 2011, we paid the sum of NIS 277,000 (approximately \$74,000) and NIS 321,000 (approximately \$90,000) respectively to our external directors. The approval of compensation to Messrs. Ze'ev Koren and Yoav Kahane was made pursuant to the Companies Regulations

(Concessions in Interested Parties' Transactions), 2000, in lieu of convening a general meeting of our shareholders to approve such compensation. Under such regulations, any shareholder holding one percent of the issued share capital or voting rights in the company may notify us of his objection to the approved compensation under the aforementioned regulations and may request, within fourteen (14) days of publication of this report. In the event that a notice is so delivered to us, we shall be obliged under Israeli law to convene a general meeting to approve such compensation.

We do not have any agreements with directors providing for benefits upon termination of their respective employment.

## Shareholders Agreement and Articles of Association of Moked Ituran

On May 18, 1998, a shareholders agreement was entered into between Moked Ituran Ltd. and each of Moked's shareholders, Moked Services, Information, Management and Investments Ltd. (38%), F.K. Generators and Equipment Ltd. (26%), Yehuda Kahane Ltd. (26%), Gideon Ezra, Ltd. (2.5%), T.S.D. Holdings Ltd. (3.75%) and G.N.S. Holdings Ltd. (3.75%). On May 18, 1998, Moked's articles of association were amended to incorporate some of the provisions of the shareholders agreement as well as other provisions governing the relationship of its shareholders. The Moked articles were amended again on September 6, 2005 to correspond to an amendment to the shareholders agreement that was entered into on such date.

Gideon Ezra, Ltd. is a company controlled by Gideon and Hanna Ezra with each owing 50% of the capital stock of such company. Moked Services, Information, Management and Investments is a company owned by A. Sheratzky Holdings Ltd. (a company controlled by Izzy Sheratzky 93%) and in which each of Eyal Sheratzky and Nir Sheratzky, Co-CEO's of Ituran and directors, hold 3.5%). F.K. Generators and Equipment is a company controlled by Perfect Quality Trading Ltd. (51%), a company owned by Avner Kurz and Amos Kurz in equal parts. Yehuda Kahane Ltd. is a company owned by Professor Kahane and Rivka Kahane. T.S.D. Holdings is a company controlled by Efraim Sheratzky. G.N.S. Holdings is a company controlled by Yigal Shani.

The shareholders agreement (as amended) and Moked's amended articles of association provide as follows:

- n Prior to the time a shareholders meeting of our company takes place, a separate meeting of the shareholders of Moked will be convened.
- n At the Moked shareholders meeting, all matters included in our meeting's agenda will be discussed and voted on.
- n The required quorum in the Moked meeting will be any number of the shareholders actually present. The resolutions will be adopted by a majority of the votes present and voting is based on the relative shareholdings in Moked, with the exception of Moked Services, Information, Management and Investments, which is entitled to 41.5% of the voting rights, thereby decreasing the voting rights of F.K. Generators and Equipment to 22.5% on the vote of any matter other than issues in which Izzy Sheratzky has a direct or indirect interest.
- n With respect to director elections, every Moked shareholder holding at least 3.5% of Moked's shares is entitled to designate one director in our annual shareholders meeting. Each Moked shareholder holding over 10% of Moked's shares may nominate an additional director for every additional 10% of Moked shares held by him or her in excess of the initial 10%. For the purpose of nominating additional directors, shareholdings may be aggregated.
- n As discussed in "Board of Directors" in Item 6.C – "Board Practices" below, our directors (excluding the external directors) are divided into three classes as follows: class A – Amos Kurz, Yoav Kahane, Eyal Sheratzky and Yigal Shani (with their term of office renewed on December 29, 2010 until the third consecutive annual general meeting of the shareholders at which time they may stand for reelection), class B – Yehuda Kahane, Avner Kurz and Nir Shertazky (with their term of office renewed on January 22, 2009 until the third consecutive annual general meeting of the shareholders at which they stand for reelection); and class C – Gil Sheratzky, Zeev Koren and Izzy Sheratzky (with their term of office renewed on January 21, 2010 until the third consecutive annual general meeting of the shareholders at which time they may stand for reelection).

n Upon the expiration of the term of office of our class A directors, each of Moked Services, Information and Investment, provided it holds at least 40% of the voting rights (together with the 3.5% of the voting rights held by F.K. Generators and Equipment), Yehuda Kahane Ltd., provided it holds at least 20% of the voting rights, F.K. Generators and Equipment, provided it holds at least 20% of the voting rights, and Yigal Shani or G.N.S. Holdings, provided either of them holds at least 3.5% of the voting rights, shall be entitled to require Moked to appoint one director to class A. Upon the expiration of the term of office of the directors in class B, each of Moked Services, Information and Investment, provided it holds at least 40% of the voting rights (together with the 3.5% of the voting rights held by F.K. Generators and Equipment), and Yehuda Kahane, provided it holds at least 20% of the voting rights, and F.K. Generators and Equipment, provided it holds at least 20% of the voting rights, shall be entitled to require Moked to appoint one director to class B. Upon the expiration of the term of office of the directors in class C, (i) Moked Services, Information and Investment, provided it holds at least 36.5% of the voting rights shall be entitled to require Moked to appoint two directors and (ii) Efraim Sheratzky or T.S.D. Holdings, provided either of them holds at least 3.5% of the voting rights, shall be entitled to require Moked to appoint one director to class C.

n Moked has agreed to vote all of its shares at our shareholders meetings in accordance with the resolutions adopted at the Moked shareholders meeting or, with regard to director elections, as described above. In the event of a tie with respect to a certain issue, Moked has agreed to vote its shares against the relevant resolution at our shareholders meeting.

n Moked's shareholders have a right of first refusal on any sale of our shares by Moked. This right does not apply to open market sales by Moked of up to 2% of the issued share capital of our company in any given calendar year.

n According to Moked's articles of association, each of the shareholders of Moked may direct Moked to dispose of a portion of Moked's holdings in our company that corresponds to such shareholders' proportional holdings in Moked and to distribute the proceeds of such disposition to such directing shareholders.

This shareholders agreement is in effect only for as long as Moked holds at least 20% of our issued and outstanding share capital.

## C. BOARD PRACTICES

### Board of Directors

Pursuant to our articles of association as presently in effect, our Board of Directors consists of twelve directors, including three independent directors in accordance with the listing requirements of the Nasdaq of whom two directors are external directors in accordance with Israeli law. Pursuant to our articles of association, other than the external directors, for whom special election requirements apply (see "External directors" below), our directors are elected and may in certain circumstances be removed by the majority of our shareholders. Our articles of association provide for staggered three-year terms for all of our directors. The directors on our Board (excluding the external directors) are divided into three classes, and each class of directors will serve for a term of three years. The term of office of the directors assigned to class A has expired at our annual meeting of shareholders held in 2010 and was renewed for a further term until the third succeeding annual meeting of shareholders, and at each third succeeding annual meeting thereafter. The term of office of the directors assigned to class B has expired at the annual meeting of shareholders held in 2008 and was renewed for a further term until the third succeeding annual meeting of shareholders, and at each third succeeding annual meeting thereafter. The term of office of the directors assigned to class C has expired at the annual meeting of shareholders held in 2009 and was renewed for a further term until the third succeeding annual meeting of shareholders, and at each third succeeding annual meeting thereafter. This classification of the Board of Directors may delay or prevent a change of control of our company or in our management. The external directors, under Israeli law, serve a three-year term which may be extended for an

additional term of three years. Following an extension of their tenure for an additional three year period, the shareholders may elect, if the board of directors and Audit Committee have approved and concluded that the external directors have special expertise and contribution to the board of directors and its committees, to reelect the external directors to serve in that capacity for additional three year terms. Our directors may at any time and from time to time appoint any other person as a director to fill a vacancy until the general meeting of shareholders in which the term of service of the replaced director was scheduled to expire. External directors may be removed from office pursuant to the terms of the Israeli Companies Law, 5759 – 1999, which we refer to as the Israeli Companies Law. See “External directors” below.

Pursuant to the Israeli Companies Law, our chairman convenes and presides over the meetings of the Board. In addition, any two directors may convene a meeting of the Board of Directors. A quorum consists of a majority of the members of the Board, and decisions are taken by a vote of the majority of the members present. Our articles of association provide that such quorum will in no event be less than two directors.

The Israeli Companies Law provides that an Israeli company may, under certain circumstances, exculpate an office holder from liability with respect to a breach of fiduciary duties.

We are incorporated in Israel and in addition to being listed on the Nasdaq Global Select Market, we are also listed on the Tel Aviv Stock Exchange, and therefore subject to various corporate governance requirements pursuant to Israeli law relating to external directors, our audit committee and our internal auditor.

#### External directors

Under Israeli law, the board of directors of companies whose shares are publicly traded are required to include at least two members who qualify as external directors. External directors are to be elected by a majority vote at a shareholders' meeting, provided that either:

n such majority includes at least the majority of the shares held by all non-controlling shareholders or having personal interest in the nomination, except personal interest which is not resulting from connections with controlling shareholder, present and voting at such meeting; or

n the total number of shares voted against the election of the external director and held by shareholders other than controlling shareholders must not exceed 2.0% of the shares whose holders are entitled to vote at any meeting of shareholders.

External directors are generally elected to serve an initial term of three years and may be reelected to serve in that capacity for an additional three years, and with regard to companies whose securities are listed on recognized foreign exchanges, such as Nasdaq, may be extended for additional three – year terms, subject to the approval of the audit committee and the Board of Directors, presented to the general meeting, that such directors' expertise and special contribution to the operation of the Board of Directors warrant that his appointment for an additional period is in the best interests of the Company, as provided in the Israeli Companies Regulations (Allowances for Companies with Securities Listed on an Exchange Outside Israel), 2000. The approval of the general meeting for the extension for additional three-year periods shall require that the majority of votes include the majority of the non-controlling shareholders present at the meeting, or alternatively, that the total of the opposing votes does not exceed 2% of the voting rights. External directors may be removed from office by the same percentage of shareholders required for their election or by a court, in each case, only under limited circumstances, including ceasing to meet the statutory qualification for their appointment or violating the duty of loyalty to the company.

If all directors are of the same gender, the next external director elected must be of the other gender.

Each committee of the board of directors must include at least one external director, except that the audit committee must include all external directors then serving on the board of directors. Israeli law regulating the compensation of external directors prohibits external directors from receiving, directly or indirectly, any compensation other than for services as an external director pursuant to the provisions and limitations set forth in the regulations promulgated under the Israeli Companies Law.

Israeli law provides that a person is not qualified to serve as an external director if, at any time during the two years preceding his or her appointment, that person, a relative, partner or employer of that person, or any entity under that person's control has had any affiliation or business relationship with the company, any entity controlling the company or an entity that, as of the date of appointment, or at any time during the two years preceding that date, is controlled by the company or by any entity controlling the company, any affiliation with a relative of the controlling shareholder and if there is no controlling shareholders, with any of the chairman or the board, the general manager, a significant shareholder or the most senior financial officer, or any business or professional relations with any of the foregoing persons or with the persons listed above unless such business or professional relations are negligible. In addition, no person may serve as an external director if that person's professional activities create, or may create, a conflict of interest with that person's responsibilities as a director or otherwise interfere with that person's ability to serve as a director. In addition, a company, controlling shareholder and any other entity controlled by the controlling shareholder may not grant to such external director, its spouse or child, any benefits, directly or indirectly, and the external director, its spouse or child may not be appointed to serve in any position, may not be employed by and may not, directly or indirectly, render any professional services to the company, such controlling shareholder or any other entity controlled by the controlling shareholder, during the first two years following such external director's termination of tenure of office, and with respect to a relative who is not the external director's spouse or child – during the first year following such termination.

Dr. Ophir and Mr. Baron have been elected as our external directors through 2006, and were re-elected by our shareholders for one additional three-year term expiring June 2009. In January 2009, our shareholders have re-elected Dr. Ophir and Mr. Baron to serve as our external directors for an additional term of three years until January 2012 and in November 2011, our shareholders have re-elected Dr. Ophir and Mr. Baron to serve as our external directors for an additional term of three years until January 2015.

#### Audit committee

Under Israeli law, the board of directors of a public company must appoint an audit committee. The audit committee must comprise of at least three directors, including all of the external directors and the chairman of the Audit Committee must be an external director. The audit committee may not include the chairman of the board, any director who is employed by the company or regularly provides services to the company (other than as a board member), a controlling shareholder or any relative of such person. All audit committee decisions must be made by a majority of the committee members of which the majority of members present are independent and external directors. Furthermore, a person who is not eligible to serve on the audit committee is further restricted from participating in its meetings and votes, unless the chairman of the audit committee determines that such person's presence is necessary in order to present a certain matter, provided however, that the company employees who are not controlling shareholders or relatives of such shareholders may be present in the meetings but not in the actual votes and likewise, company counsel and secretary who are not controlling shareholders or relatives of such shareholders may be present in meetings and decisions of such present is requested by the audit committee.

Our Board of Directors has formed an audit committee that is empowered to exercise the powers of the Board of Directors for our accounting, reporting and financial control practices. The members of the audit committee are Dr. Orna Ophir and Messrs. Israel Baron and Yoav Kahane. Our Board of Directors has determined that Mr. Israel Baron is qualified as "financial expert," as such term is defined by the Nasdaq rules and the Securities and Exchange Commission and the Israeli regulations.

Pursuant to the Israeli Companies Regulations (Provisions and Conditions regarding the Financial Statements' Authorization Process), 2010, a public company is required to establish a committee of the board of directors for the examination of financial statements. Commencing with the 2010 year-end financial statements, financial reports of a public company may be brought for discussion and authorization of the board of directors only after such committee

for the examination of financial statements has discussed and formulated recommendations to the board of directors in connection with: the estimates used in connection with the financial statements; the internal audits related to financial reporting; the completeness and appropriateness of disclosure in the financial statements; the accounting policy adopted and accounting treatment applied in the material matters of the company; valuations, including the assumptions and estimates underlying them, on which bases data in the financial statements is provided. The members of the committee for the examination of financial statements must be directors who meet certain independence requirements, and, among other things, must be able to read and understand financial statements, with at least one of the members being an accounting and financial expert (as defined under the regulations). On February 20, 2011 our board of directors resolved that our audit committee shall serve as the committee for the examination of financial statements.

### Compensation committee

Our Board of Directors has appointed a Compensation Committee, pursuant to the Nasdaq listing requirements. The members of the Compensation Committee are Orna Ophir, Israel Baron and Ze'ev Koren. The Compensation Committee of our Board of Directors recommends the review and oversees the salaries, benefits and stock option plans for our employees, consultants, directors and other individuals whom we compensate. The Compensation Committee also administers our compensation plans. Our Board of Directors has determined that each member of the Compensation Committee is independent.

### Internal auditor

Under the Israeli Companies Law, the board of directors of a public company must appoint an internal auditor nominated by the audit committee. An internal auditor may not be:

- na person (or a relative of a person) who holds more than 5% of the company's shares;
- na person (or a relative of a person) who has the power to appoint a director or the general manager of the company;
- na executive officer, director or other affiliate of the company; or
- na member of the company's independent accounting firm.

The role of the internal auditor is to examine, among other things, the compliance of the company's conduct with applicable law and orderly business procedures. Our internal auditor is Simon Yarel, CPA, who has served as our internal auditor since January 1999.

See Item 16.G. – "Corporate Governance" below for additional information concerning compliance with the Nasdaq Marketplace Rules and exemptions therefrom.

### D. EMPLOYEES

The following table sets forth the total number of our subsidiaries' employees at the end of each of the past three years, and a breakdown of persons employed by main category of activity and geographic location:

	Year Ended December 31,		
	2011	2010	2009
<b>By area of activity:</b>			
Control Center	351	325	319
Research and Development	33	32	33
Sales and Marketing	57	70	87
Technical support and IT	242	272	246
Finance, Administration and Management	198	201	213
Private enforcement and operations	344	364	406
Manufacturing	52	51	51
<b>Total</b>	<b>1,277</b>	<b>1,315</b>	<b>1,355</b>
<b>By geographic location (out of total):</b>			
Israel	588	561	549
Brazil	483	550	593
Argentina	175	174	188
United States	31	30	25
<b>Total</b>	<b>1,277</b>	<b>1,315</b>	<b>1,355</b>

We consider our relations with our employees to be satisfactory and have no ongoing major labor disputes or material labor-related litigation. Our employees are subject to local labor laws and regulations, which in some countries are more stringent than others. Some of our senior executives also have employment agreements that may grant them rights in excess of those provided by the applicable laws.

51

---

## Israel

Our employees in Israel are subject to Israeli labor laws and regulations and employment customs. The applicable labor laws and regulations principally concern matters such as paid annual vacation, paid sick days, length of the workday, payment for overtime and severance pay. Israeli law generally requires severance pay equal to one month's salary for each year of employment upon retirement or death of an employee or termination of employment without cause. Furthermore, Israeli employees and employers are required to pay predetermined sums to the National Insurance Institute, which is similar to the United States Social Security Administration. Since January 1, 1995, these amounts also include payments for national health insurance.

In 2006, our remuneration committee adopted a resolution to pay our managers (not including managers who are directors) a quarterly bonus equal to 1.5% of our consolidated profit before tax and after equity and minority profits, which was paid at that time to 13 of our managers in different proportions based on their seniority, level of global and domestic involvement in our operations and other criteria set by the committee. In April 2010, our compensation committee resolved to grant a bonus in the aggregate sum equal to 0.9% of the operating profit of Ituran (not on a consolidated basis), including the profit attributed to the activities of our subsidiary, E-Com Global Electronic Commerce Ltd. relating to value added services provided by E-Com, which will be distributed between some of our employees (including some of our managers who received bonuses under the 2006 plan and in lieu of such bonuses) ranging from medium to junior levels of management, commencing as of the third quarter of 2010 and will be reflected in our results of operations from the second quarter of 2010. In 2011, we paid the aggregate sum of \$682,000 in bonuses to our employees under the plan.

## Brazil

Our employment agreements in Brazil are subject to Brazilian labor laws and regulations, to collective labor agreements or bargaining arrangements with unions and contract. The laws and regulations in Brazil govern almost all aspects of an employment relationship and do not leave much room to be negotiated with the employee. Still, employment contracts create obligations to the parties if they are in compliance with the law. The Labor Code mainly governs the employees' right to paid annual vacation, paid sick days, the maximum length of a workday, minimum payment for overtime and statutory severance pay. Brazilian law generally requires severance pay equal to 50% of the balance of the employee's FGTS account (a mandatory fund to guarantee severance and unemployment). The FGTS can also be withdrawn when the employee retires, dies or his employment is terminated without cause, among others. Brazilian employers are required to purchase health insurance for employees only in the event it is set forth by the applicable collective labor agreement, contract or company policy, and are required to cover employees' food and travel costs whenever a business trip is required, and to make deposits into the a Guarantee Severance Fund (the so-called "FGTS"). Furthermore, Brazilian employees and employers are required to make contributions to the National Insurance Institute ("INSS"), similar to the United States Social Security Administration. Our collections to the National Insurance Institute amount to 34.8% to 39.8% of the payrolls, out of which 8% to 11% (limited to R\$3,689.66 of individual salary) corresponds to contributions by the employees deducted from salaries and 26.8% is the fixed part we pay. Our contribution of 26.8% includes mandatory contribution to the Public Insurance for Labor Accidents and Diseases (SAT). According to Decree Law 6957/2009 such portion, which varies from 1% to 3% of payroll, should be multiplied by another factor (FAP) from 0.5 to 2 in order to reduce or increase our burden to reflect statistics of occupational accidents and diseases in our business.

All of our employees in Brazil, excluding the chief executive officer, the directors (VPs) and several managers, are represented by a labor union and the employees' mandatory contributions to their union are paid by us. The law authorizes us to deduct mandatory contributions to unions from the respective salaries.

#### Argentina

Our employees in Argentina are subject to Argentine labor laws and regulations and other special practices and employment customs. The laws and regulations in Argentina control all aspects of labor relations and designate a general Employment Contract with which all employees and employers must comply. This general Employment Contract adopts by reference the provisions of the Labor Law which principally concerns matters such as paid annual vacation, paid sick days, the length of the workday, and payment for overtime and severance pay. Argentinean law generally requires severance pay equal to one month per year of service upon the termination of employment without a justified cause. Argentine employers are also required to contribute for the following items: a) Pension funds 17% b) health insurance for employees 6% c) occupational accident insurance 2.59% d) Retirement fund insurance 3.5% (only this item is for Union Employees). All the rates should be applied on the gross salary.

Our employees in Argentina, excluding the chief executive officer and a number of other employees, are members of a labor union and the employee member fees are paid by them.

#### United States

We have no collective bargaining agreements with any of our employees in the United States and none of our employees are members of a union.

### E. SHARE OWNERSHIP

The following sets forth, as of April 29, 2012 the share ownership of our directors and executive officers. All of the information with respect to beneficial ownership by our directors and executive officers has been furnished by the respective director or executive officer, as the case may be.

Name of Director/Officer(1)	Number of Ordinary Shares Beneficially Owned (2)	Percentage of beneficial ownership**
Izzy Sheratzky(3)	5,775,247	27.54
Professor Yehuda Kahane (4)	2,128,539	10.15
Zeev Koren	-	-
Avner Kurz (5)	1,447,925	6.91
Amos Kurz (6)	1,445,205	6.89
Yigal Shani (7)	358,131	1.70
Eyal Sheratzky	*	-
Nir Sheratzky	-	-
Gil Sheratzky	-	-
Yoav Kahane	-	-
Orna Ophir	-	-
Israel Baron	-	-
Eli Kamer	-	-

Guy Aharonov	-	-
Udi Mizrahi	-	-

\*owns less than one per cent of our outstanding share capital.

\*\* not including 2,507,314 treasury shares.

- (1) This table includes only current directors and officers that beneficially hold our shares.
- (2) Amounts in this column are based on 23,475,431 ordinary shares outstanding as of April 29, 2012. ‘Beneficial ownership’ is determined in accordance with the rules of the Securities and Exchange Commission (as defined in Rule 13d – 3 under the Securities Exchange Act of 1934) and shares deemed beneficially owned by virtue of the right of any person or group to acquire such ordinary shares within 60 days are treated as outstanding only for the purposes of determining the percent owned by such person or group. To our knowledge, the persons and entities named in the table above are believed to have sole voting and investment power with respect to all ordinary shares shown as owned by them, except as described below.
- (3) Shares beneficially owned include: (a) 266,930 shares directly owned by Mr. Sheratzky and an entity wholly owned by him; (b) 5,506,952 shares owned by Moked Ituran Ltd., which Mr. Sheratzky beneficially owns due to his shared voting and investment power over such shares in accordance with a certain shareholders agreement, dated May 18, 1998, among Moked Ituran and its shareholders, which we refer to as the Moked Shareholders Agreement. For further information concerning the Moked Shareholders Agreement see the discussion under Item 6.B. – “Compensation” under the caption “Shareholders agreement and articles of association of Moked Ituran” above; (c) 1,365 shares that are directly held by Mr. Sheratzky’s wife, Maddie Sheratzky.
- (4) Shares beneficially owned include: (a) 547,782 shares directly owned by Professor Kahane, of which 429,576 shares are jointly owned with his wife, Rivka Kahane, (b) 148,950 shares owned by Yehuda Kahane Ltd., which Professor Kahane may be considered to beneficially own by virtue of his shared voting and investment control of the company through his 50% shareholdings thereof, the other 50% being owned by his wife, Rivka Kahane; and (c) 1,431,807 shares owned by Moked Ituran Ltd., which Professor Kahane may be considered to beneficially own by virtue of his right to direct the disposition of such shares in accordance with Moked’s articles of association. Professor Kahane has shared voting and investment control over Yehuda Kahane Ltd., a holder of 26% of the shares of Moked Ituran.
- (5) Shares beneficially owned include: (a) 2,720 shares directly owned by Avner Kurz, (b) 13,398 shares owned by F.K. Generators and Equipment, which Avner Kurz may be considered to beneficially own by virtue of his shared voting and investment power over such shares through his 33 1/3 % ownership of Perfect Quality Trading Ltd., a majority shareholder of F.K with the other 33 1/3% ownership of Perfect Quality Trading Ltd. owned by Mr. Amos Kurz (Avner Kurz’s brother) and 33 1/3% ownership of Perfect Quality Trading Ltd. owned by Mr. Uri Kurz (Avner Kurz and Amos Kurz’s brother), and (c) 1,431,807 shares owned by Moked Ituran that Avner Kurz may be considered to beneficially own through F.K. as described above, which F.K. is deemed to beneficially own by virtue of its right to direct the disposition of such shares in accordance with Moked’s articles of association (due to its 26% ownership of Moked Ituran).
- (6) Shares beneficially owned include: (a) 13,398 shares owned by F.K. Generators and Equipment, which Amos Kurz may be considered to beneficially own by virtue of his shared voting and investment power over such shares through his 33 1/3% ownership of Perfect Quality Trading Ltd., a majority shareholder of F.K., with the other 33/13% ownership of Perfect Quality Trading Ltd. owned by Mr. Avner Kurz (Amos Kurz’s brother) and 33 1/3% ownership of Perfect Quality Trading Ltd. owned by Mr. Uri Kurz (Avner Kurz and Amos Kurz’s brother) ; (b) 1,431,807 shares owned by Moked Ituran that Amos Kurz may be considered to beneficially own as described above.
- (7) Shares beneficially owned include: (a) 42,500 shares directly owned by Yigal Shani, (b) 109,121 shares owned by Tzivtit Insurance Agency (1998) Ltd., which Yigal Shani may be considered to beneficially own by virtue of his shared voting and investment control over such shares through his 50% ownership thereof, the other 50% of the shares held by Efraim Sheratzky, and (c) 206,510 shares owned by Moked Ituran, which Mr. Shani may be considered to beneficially own by virtue of his right to direct the disposition of such shares in accordance with Moked’s articles of association. Mr. Shani may be considered to beneficially own such shares by virtue of his sole

voting and investment control over G.N.S. Holdings, the holder of 3.75% of Moked's shares, in which he owns 100% of the shares.

## ITEM 7. MAJOR SHAREHOLDERS AND RELATED PARTY TRANSACTIONS

## A. MAJOR SHAREHOLDERS

The following table shows the number of our ordinary shares beneficially owned by (a) the only shareholders known to us as of April 29, 2012, to beneficially own more than 5% of our outstanding ordinary shares and (b) all of our directors and executive officers as a group. The number of ordinary shares used in calculating the percentage for each person listed below includes the shares underlying options or warrants held by such person that are exercisable within 60 days.

The shareholders listed below do not have any different or special voting rights from any other shareholders of our company. Except where otherwise indicated, we believe, based on information furnished by the owners, that the beneficial owners of the ordinary shares listed below have sole investment and voting power with respect to such shares. To our knowledge, none of our shareholders of record are US Holders, other than Yoav Kahane.

Shareholder	Number of Ordinary Shares Beneficially Owned (1)		% Voting
Moked Ituran Ltd. (1)	5,506,952		26.26
F.K. Generators and Equipment Ltd. (2)	1,445,205		6.89
All directors and executive officers as a group	6,650,353		31.72
The Baupost Group, L.L.C.(3)	1,685,666		8.04
Psagot Investments House Ltd.(4)	1,065,903		5.08
Treasury shares	2,507,314		-

(1) Moked's articles of association provides that each of Moked's shareholders shall have the right to direct Moked to dispose of such number of our shares corresponding to his or her relative shareholdings in Moked. For further information please see Item 6.B. – "Compensation" under the caption "Shareholders Agreement and Articles of Association of Moked Ituran" above.

(2) Shares beneficially owned include 1,445,205 shares, of which (a) 13,398 shares are directly owned by F.K Generators & Equipment Ltd. (whereby Messrs. Avner Kurz and Amos Kurz are deemed to beneficially own said 13,398 shares owned by F.K. by virtue of their shared voting and investment power over such shares through their respective holdings of 33 1/3% each of ownership of Perfect Quality Trading Ltd., a majority shareholder of F.K.); and (b) 1,431,807 shares are owned by Moked Ituran Ltd., which F.K is deemed to beneficially own by virtue of its right to direct the disposition of such shares in accordance with a shareholders agreement dated May 28, 1998, as amended on September 6, 2005 (due to F.K.'s 26% ownership of Moked Ituran).

(3) the information presented herein is based on Form 13G filed by The Baupost Group, L.L.C. on February 12, 2009.

(4) the information presented herein is based on Form 13G filed by Psagot Investments House Ltd. on February 15, 2012.

None of our major shareholders have different voting rights than each other and/or than our other shareholders.

As of April 22, 2012, we had a total of 7\* shareholders of record in the United States with registered with addresses in the United States. The number of record holders in the United States is not representative of the number of beneficial

holders nor is it representative of where such beneficial holders are resident since many of these ordinary shares were held of record by brokers or other nominees.

\* Includes the Depository Trust Company.

## B. RELATED PARTY TRANSACTIONS

### Transactions with our directors and principal officers

We purchase our insurance policies, including our directors' and officers' insurance, through Tzivtit Insurance Agency (1998) Ltd., an insurance agency owned by Efraim Sheratzky, the brother of the President of our company and the uncle of both of our Co-Chief Executive Officers, and Yigal Shani, one of our directors. We pay an annual aggregate amount of NIS 1,000,022 or \$280,000, for our basic insurance policies and NIS 709,000, or \$198,000 for our directors' and officers' insurance policy. Tzivtit Insurance Agency is entitled to commissions in an aggregate amount of NIS 179,000 or \$50,000 which is paid by the insurance company on account of these policies.

We have entered into indemnification agreements with each of our directors and officers and the officers and directors of our subsidiaries providing them with indemnification for liabilities or expenses incurred as a result of acts performed by them in their capacity as our directors and officers. Due to recent changes to the Israeli Companies Law, as such indemnification agreements are for a term exceeding three years, as required under the law, as amended, on April 6, 2011, our audit committee and board of directors have ratified the indemnification agreements in respect of directors and office holders who are deemed controlling shareholders and their relatives for the purposes of Section 268 of Law, which according to current Israeli law will remain in force and effect until May 11, 2014.

In February 2003, we entered into a two-year services agreement with A. Sheratzky Holdings, a company controlled by Izzy Sheratzky, and Izzy Sheratzky pursuant to which Mr. Sheratzky agreed to (i) cease to act as our Chief Executive Officer and (ii) to act as an independent contractor that provides us full-time services to our company under the same terms of his previous employment as Chief Executive Officer and also act as Chairman of our Board of Directors. Pursuant to the agreement, A. Sheratzky Holdings will receive compensation equal to NIS 63,250, or approximately \$16,900, per month, adjusted for inflation, and linked to the Israeli CPI since 2003, plus reimbursement of certain business expenses. In addition, Mr. Sheratzky will be entitled to participate in our profits in an amount equal to 5% of profits before tax, on a consolidated basis, based on our audited consolidated financial statements for the relevant year. This services agreement is automatically renewable for successive two-year periods until either party notifies the other of its intention to terminate the agreement, by providing a 180-day prior written notice. Whereas the term of the agreement exceeds three years, under recent amendments to the Law, our audit committee, board of directors and shareholders have ratified and approved the agreement with A. Sheratzky, which according to current Israeli law will remain in force and effect until May 11, 2014. Whereas under Israeli laws, chairman of the board who is related to a chief executive officer of a company cannot continue to act in such capacity without shareholders' approval with a special majority as determined under Israeli laws and such majority was not obtained, Mr. Sheratzky ceased to act as chairman of our board, nonetheless, Mr. Sheratzky was appointed by our board to serve as president of our company and in such capacity he continues to provide the services as determined by the agreement.

On September 5, 2002, we entered into independent contractor agreements with A. Sheratzky Holdings and each of Eyal Sheratzky and Nir Sheratzky pursuant to which A. Sheratzky Holdings will provide management services to us through Eyal Sheratzky and Nir Sheratzky in consideration of monthly payments in the amount of NIS 48,892 and NIS 49,307, or \$13,100 and \$13,200, respectively, in addition to providing each of them a company car and reimbursement of certain business expenses. In January 2004, a change in the employment terms of the Chief Executive Officer was approved providing each of our Co-Chief Executive Officers, Eyal Sheratzky and Nir Sheratzky, an annual bonus in an amount equal to 1% of our profits before taxes, on a consolidated basis, based on our audited consolidated financial statements for the year for which the bonus is paid. Whereas the term of the agreement exceeds three years, under recent amendments to the Law, our audit committee, board of directors and shareholders have ratified and approved the agreement with A. Sheratzky (including third addendum thereto that clarifies the nature of their role and services), which according to current Israeli law will remain in force and effect until May 11, 2014.

The aggregate amounts paid to A. Sheratzky Holdings in 2009, 2010 and 2011 were approximately \$2,929,000, \$3,311,000 and \$3,254,000, respectively (all numbers include value added tax).

On March 23, 1998, we entered into a financial services agreement with our director, Professor Kahane. Pursuant to this agreement, we are obligated to pay Professor Kahane a monthly consulting fee of NIS 4,000, or approximately \$1,100, linked to the Israeli consumer price index. The initial term of the agreement was two years, automatically renewable for additional two-year terms, until terminated by either party by providing a 180-day prior notice. In May 2003, the monthly fee payable to Professor Kahane under the agreement was increased to NIS 15,000, or approximately \$4,300, linked to the consumer price index. The aggregate amounts paid to Professor Kahane in each of the years 2010 and 2011 were approximately \$55,000 and \$59,000, respectively. Whereas the term of the agreement exceeds three years, under recent amendments to the Law, our audit committee, board of directors and shareholders have ratified and approved the agreement with Professor Kahane which according to current Israeli law will remain in force and effect until May 11, 2014.

On January 23, 2007, our subsidiary, E-Com Global Electronic Commerce Ltd. entered into an agreement with Gil Sheratzky for the employment of Mr. Sheratzky as CEO of that Company in consideration of monthly payments in the amount of NIS 25,000 or \$7,100, in addition to providing him a company car, managers insurance and education fund contribution (as customary in Israel) and reimbursement of certain business expenses. In this position, Mr. Sheratzky will report to our CEO. The compensation paid to Gil Sheratzky includes a bonus in an amount equal to 2% of the annual increase in that company's profits before tax, (up to a maximum amount of 1% of that company's profits before tax) based on its audited consolidated financial statements for the relevant year, beginning January 1, 2007. The aggregate amounts paid to Mr. Gil Sheratzky in 2010 and 2011 were approximately \$175,000 and \$203,000, respectively. Whereas the term of the agreement exceeds three years, under recent amendments to the Law, our audit committee, board of directors and shareholders have ratified and approved the agreement with Gil Sheratzky, which according to current Israeli law will remain in force and effect until May 11, 2014.

On May 29, 2002, Rinat Yogev Nadlan, a company controlled by our controlling shareholder, Izzy Sheratzky and Messrs. Yigal Shani, Amos Kurz and Avner Kurz, our directors, entered into an agreement with our recently sold subsidiary Ituran Cellular Communication for the lease of a property held by Rinat Yogev Nadlan, which will expire on February 2012. The aggregate amounts paid to Rinat Yogev Nadlan in each of 2008, 2009 and 2010 were approximately \$74,000 (all numbers include value added tax).

In November 2011 our board of directors appointed Mr. Yoav Kahane as a member of our audit committee in place of Mr. Ze'ev Koren. On such date, our audit committee and board of directors approved compensation for Yoav Kahane for serving as a member of our audit committee and compensation for Mr. Ze'ev Koren for serving as the Chairman of our board of directors, with such compensation to equal the compensation awarded and paid to each of our external directors as promulgated under the Israeli laws. In 2010 and 2011, we paid the sum of NIS 277,000 (approximately \$74,000) and NIS 321,000 (approximately \$90,000) respectively to our external directors. The approval of compensation to Messrs. Ze'ev Koren and Yoav Kahane was made pursuant to the Companies Regulations (Concessions in Interested Parties' Transactions), 2000, in lieu of convening a general meeting of our shareholders to approve such compensation. Under such regulations, any shareholder holding one percent of the issued share capital or voting rights in the company may notify us of his objection to the approved compensation under the aforementioned regulations and may request, within fourteen (14) days of publication of this report. In the event that a notice is so delivered to us, we shall be obliged under Israeli law to convene a general meeting to approve such compensation.

In April 2012, our audit committee and board of directors approved compensation in the monthly sum of US\$8,000 to Mr. Avner Kurz, our director, to be paid by our subsidiary in Brazil in respect of consulting services to be provided by Mr. Kurz to our subsidiary. The agreement shall enter into effect on November 15, 2011 and shall remain in full force

and effect for a term of two years, automatically renewable for a further term of two years, subject to the requirements under Israeli law concerning the approval of interested parties' transactions. The agreement is yet to be approved by our shareholders in the next general meeting which is scheduled to be held on May 21, 2012.

Transactions with our affiliates and associates

We purchase our GPS/GPRS equipment from our subsidiary, E.R.M Electronic Systems Limited. In 2010 and 2011, Ituran, including its subsidiaries in Brazil and USA, purchased GPS/GPRS equipment from ERM in the sum of approximately NIS 31.6 million (or approximately \$8.5 million) and NIS 29.3 million (or approximately \$8.2 million), respectively. Ituran and E-Com Global Electronic Commerce Ltd. (our wholly owned subsidiary) acquired a license from our subsidiary, Mapa, to use Mapa's GISrael-Navigator database in order to incorporate such database in our navigation based products. In 2010 and 2011, we paid the aggregate sum of approximately US\$170,000 and \$185,000 respectively, for the use of such license.

ITEM 8. FINANCIAL INFORMATION

A. CONSOLIDATED STATEMENTS AND OTHER FINANCIAL INFORMATION

For the audited financial statements and audit reports required to be contained in this annual report, please see Item 18 below.

Legal proceedings

We are involved in litigation with Leonardo L.P., a US-based hedge fund, arising out of a financial transaction entered into between us and Leonardo in February 2000. Pursuant to the terms of this financial transaction, we received a cash investment of \$12 million in exchange for certain notes that were convertible into our ordinary shares according to a pre-determined formula. Pursuant to the formula, the conversion price of the notes was the lower of NIS 67.3 (\$18.9) or an average trading price of our shares for a defined period prior to conversion. The conversion price is used to determine the number of shares into which the notes may be converted by dividing the notional principal amount of the notes, initially \$12 million, by the conversion price. On the date the notes were issued, March 2, 2000, the notes were convertible into approximately 690,000 of our ordinary shares. As part of the terms of this financial transaction, and, as required by the rules of the TASE where our ordinary shares are currently traded, we were required to seek the approval from the TASE for the issuance of the ordinary shares underlying the notes. The TASE approved the issuance of 2,250,000 of our ordinary shares as the number of registered shares that could be issued under the notes. We understood the terms of our financial transaction with Leonardo to provide that, except in certain limited circumstances, the amounts advanced to us, together with accrued interest on these advances at the annual rate of 3.5%, would be repaid and satisfied solely through the delivery of ordinary shares and that under no circumstance would we be required to deliver more than 2,250,000 of our ordinary shares. We believe that Leonardo also recognized that there was a limit on the number of shares issuable under the notes, and in fact at no time on or prior to the maturity date of the notes did Leonardo seek to convert the notes for more than 2,250,000 of our ordinary shares. Prior to the maturity date of the notes, Leonardo converted approximately \$6.7 million of the notional principal amount of the notes into an aggregate of 2,241,594 of our ordinary shares. We believe that the holders of the notes are therefore only entitled to convert the balance of their notes into 8,406 shares, although in the pending litigation Leonardo has indicated that it does not believe that the notes were subject to any limit on the number of shares that could be issued to them on conversion and is seeking to recover damages based on this allegation.

The terms of the documents and agreements that comprise the financial arrangement with Leonardo contain provisions regarding the repayment and conversion of the notes which may be regarded as conflicting or subject to different interpretations. In its pleadings, Leonardo is seeking alternative remedies and relief, including (a) the repayment in cash of the balance of the notes in the amount of approximately \$6.2 million (plus accrued interest and expenses), (b) the delivery to Leonardo of the maximum number of our ordinary shares into which the notes could have been converted on the maturity date without regard to the 2,250,000 share limitation, or 3,516,462 ordinary shares, plus additional monetary damages, (c) the payment of a cash amount equal to the amount obtained by multiplying the 3,516,462 shares mentioned in the preceding clause by the highest trading price of our ordinary shares between the maturity date and the date of the court's decision, plus interest or expenses; or (d) an additional alternative remedy, that does not alter the sum of the original claim – \$9.6 million, plus interest and expenses – based on Leonardo's alleged claim that that on January 29, 2002 a "triggering event" as defined in the agreement occurred entitling Leonardo the option to redeem the notes. On June 13, 2011, the district court in its decision rejected Leonardo's three alternative claims (a) to (c) as detailed above and accepted Leonardo's fourth claim that on January 29, 2002 a "triggering event", as defined in the agreement occurred, entitling Leonardo the option to redeem the notes. In its decision, the court ordered us to pay the sum of approximately US\$9.6 million, to be paid in accordance with the exchange rate in NIS at the date of the occurrence of the "triggering event", plus interest and linkage differences by law and in addition legal expenses in the sum of NIS 1.2 million (approximately US\$0.3 million), which total approximately the sum of NIS 78.7 million (approximately US\$22.7 million) at that time. We filed a motion with the district court to correct an error in the court's ruling on the basis of a mistake in converting the sum of \$9.6 million to NIS based on the exchange rate on January 29, 2002 and adding to the sum to be paid by us to Leonardo linkage differences and interest to sums paid in NIS under law instead of payment of the sum of \$9.6 million in US dollars and interest at the rate of Libor + 1% to sums payable in foreign currency under law – the difference of which was estimated by us to be approximately US\$10 million, which was denied by the court on July 17, 2011. We filed an appeal with the Supreme Court, in which we appealed the district court's decisions dated June 13, 2011 and July 17, 2011. In addition, we appealed the legal expenses and costs which we were ordered to pay according to the district court's decision. Leonardo counter-appealed the district court's decision in dismissing Leonardo's alternative claims (a) to (c) as detailed above in addition to the court's decision to apply interest by law and not default interest under the terms of the financial transaction between Leonardo and us as well as the legal expenses and costs which we were ordered to pay. A hearing was scheduled to be held in January 2013. Based on the opinion of our legal counsel, we cannot predict the outcome of our appeal or the chances of success of the counter-appeal. In the event that Leonardo shall prevail in its counter-appeal, we may be subject to additional payments in substantial amounts.

On July 8, 2005, a class action was filed against our subsidiary, Ituran Florida Corporation, in the First Judicial District Court in Philadelphia, Pennsylvania. The lawsuit claims that Ituran Florida sent fax advertisements to the named plaintiff and the other members of the class allegedly in violation of the Telephone Consumer Protection Act of 1991. Ituran Florida filed a motion for judgment on the pleadings that such claims should not be heard as part of a class action. Such motion was denied by the court, the pre-certification discovery process was completed and a certification hearing is yet to be scheduled. The plaintiff agreed to limit the class action to Pennsylvania actions only. If plaintiffs prevail, we estimate that the reasonably possible risk of loss to our subsidiary pursuant to the provisions of the Telephone Consumer Protection Act is within the maximum range of \$500,000 to \$750,000 for all class plaintiffs, plus punitive damages and expenses (this amount is not considered material for the company). However, based upon rulings by the Court in Philadelphia in another matter, we believe that the class action will be certified but that it is probable that a significant portion of the individual class members will unlikely qualify for inclusion in a class or be able to satisfy the burden of proof necessary for compensation. Even if the plaintiffs prevail, we believe that the resolution of this claim will not have a material effect on our revenues, operations or liquidity.

In 2008 we commenced arbitration proceedings with ST (Infocomm) Ltd., to whom we sold our shareholdings in our subsidiary, Telematics Wireless Ltd. on December 31, 2007 regarding the adjustments to be made, if at all, to the purchase price paid by ST to us (which adjustments are to be determined based on the performance parameters of

Telematics for the years 2007 and 2008 based on its financial statements for such periods). In 2008 we received a notice from ST claiming that based on Telematics' performance parameters for the year 2007, the purchase price needs to be decreased by an amount of approximately US\$10 million, according to the provisions of the sale agreement between Ituran and ST. We rejected ST's claims and requested that certain amounts be released from escrow held in order to secure any payments by Ituran resulting from any adjustments to the purchase price under the terms of the agreement with ST. On February 10, 2011 the Arbitrator delivered his determination according to which, ST's main claims for adjustments to the purchase price were rejected and based on Telematics' 2007 financial statements, the purchase price was reduced by approximately US\$4.4 million. The Arbitrator determined that an amount of US\$572,000 including interest accrued thereon was to be released from escrow and paid to us. The remainder funds held in the Adjustment Escrow Amount are to be kept in escrow pending determination of any reduction to the adjustment of the purchase price based on Telematics' 2007 financial statements. In an agreement reached with ST in October 2011, it was determined that sum of US\$4.4 million (and interest accrued thereon) be released from the Adjustment Escrow Amount to ST and that the company shall waive its claims for an adjustment of the reduction in the purchase price based Telematics' 2008 financial statements. In addition, an amount of \$3 million was released to Ituran from the second escrow account (in which originally the sum of \$7.5 million out of the purchase price was deposited), without derogating from ST's claims for indemnification under the purchase agreement In October 2011, an amount of US\$ 4.65 million (including exchange differences) was released to ST. The remainder of US\$ 4.9 million shall remain in escrow until ST's claims are resolved.

On December 21, 2009, we have also received from ST a letter seeking indemnification under the purchase agreement for an alleged breach of certain representations made by Ituran under the purchase agreement, claiming damages in an amount of approximately US\$4.3 Million. ST's letter also included an allegation in respect of a possible and additional breach of a representation in an additional amount of approximately US\$4.3 million, even though no damages were incurred by ST or by Telematics. The Company and the Purchaser are currently undergoing preliminary proceedings prior to entering into arbitration proceedings and signing a binding arbitration agreement. We believe based on the assessment of our legal counsel that, the claims made by ST as stated in their letter have no merits and intend to vigorously defend ourselves against such claims. For further details concerning the sale of Telematics to ST, see Item 4.A – Information on the Company, under the caption “History and Development of the Company” above.

On July 13, 2010 the State Revenue Services of São Paulo issued a tax deficiency notice against our subsidiary in Brazil, Ituran Sistemas de Monitoramento Ltda., claiming that the vehicle tracking and monitoring services provided by our subsidiary should be classified as telecommunication services and therefore subject to the imposition of State Value Added Tax – ICMS, resulting in an imposition of 25% state value added tax on all revenues of our subsidiary during the period between August 2005 and December 2007. The tax deficiency notice is in the amount of R\$36,499,984 (approximately US\$22.1 million) plus interest in the amount of R\$30,282,420 (approximately US\$18.2 million) and penalties in the amount of R\$66,143,446 (approximately US\$40 million). The decision of the administration first level was unfavourable to us and we have filed an appeal to the Administrative Court of Appeals in São Paulo. On March 2, 2012 the Administrative Court of the State of São Paulo dismissed the State Revenue Services of São Paulo's claims and resolved in our favor. On the date of this report we were made aware that a few days ago, the State Revenue Services of São Paulo filed an administrative appeal at the Administrative Court. As of the date of this report the Company has not received the appeal yet and is unaware of its content. Such an appeal must be well grounded otherwise the chances that the prior Administrative Court's decision will be reversed is remote. In case the State of São Paulo is successful at the Administrative appeal, we are entitled to challenge the Administrative Court's decision in a court of law. We received a legal opinion from a prominent law firm in Brazil that the merits of the case are overwhelmingly favorable to us, determining among other things that the imposition on the subsidiary of the State Value Added Tax by the State Revenue Services of São Paulo is illegal. We believe, based on the legal opinion of the subsidiary's Brazilian legal counsel and considering the results of the Administrative Court's decision in favor of the subsidiary, and that the chances of success are highly probable.

While we cannot predict the outcome of this case, if we are not successful in defending our claim, we could be subject to significant costs, adversely affecting our results of operations.

On June 24, 2010 the Brazilian Internal Revenue Service issue a tax assessment that claim the payment of R\$2,847,893.96 (approximately US\$1.58 million) plus interest in the amount of R\$1,089,904.60 (approximately US\$600 thousand) and penalties in the amount of R\$3,633,365.35 (approximately US\$2 million), which is composed of Income Tax 25%, Social Contribution 9%, fine at the rate of 150% on the principal sum plus interest, by reason of the offsetting on October 1, 2005, the amount of approximately US\$ 3.8 million, of a receivable held by Ituran Beheer BV, a Dutch legal entity held by us, against accumulated losses of our subsidiary Ituran Sistemas de Monitoramento Ltda, which originated from a technology transfer agreement executed by and between Ituran Brazil and OGM Investments B.V. (also a Dutch company held by us). The decision of the administration first level was unfavourable to us and therefore we have filed an appeal to the Administrative Court of Appeals in São Paulo and await the decision of the Administrative Court of Appeal. Based on the legal opinion of the subsidiary's Brazilian legal counsel we believe that such claim is without merit and intend to vigorously defend ourselves against such claim.

On March 21, 2011 we received a purported class action lawsuit which was filed against us in the District Court of Central Region in Tel-Aviv, by one plaintiff who is a subscriber of the Company, alleging that the Company, which was declared a monopoly under the Israeli Restrictive Trade Practices Law, 1988, unlawfully abused its power as a monopoly and discriminated between its customers. The plaintiff claims that the alleged discrimination resulted from

us charging higher monthly subscription fees from customers who are obliged by insurance company requirements to install location and recovery systems in their vehicles than the monthly subscription fees that are charged from customers who are not required by insurance companies to install location and recovery systems in their vehicles. On March 5, 2012 the court approved a settlement without admission reached with the plaintiff, for a payment of NIS 5,000 to the plaintiff and NIS 25,000 as reimbursement of the plaintiff's legal fees and dismissal of the lawsuit as a class action.

## Dividend distribution policy

On November 16, 2009, we adopted a dividend distribution policy, providing for an annual dividend distribution in an amount equal to 50% of our net profits, calculated based on the financial statements for the period ending on December 31 of the fiscal year with respect to which the relevant dividend is paid. On February 21, 2012, we revised our dividend policy so that our dividends will be declared and distributed on a quarterly basis in an amount not less than 50% of our net profits, calculated on the basis of our reviewed quarterly financial statements each fiscal year.

According to our current dividend policy and Israeli law, a quarterly dividend will only be declared and paid if, in the discretion of the Board of Directors, there is no reasonable foreseeable concern that the distribution will prevent us from being able to meet the terms of our existing and contingent liabilities, as and when due. Our dividend policy may change from time to time at the discretion of our Board of Directors. Due to the foregoing restrictions on our dividend policy, and given our current financial condition and our current cash flows from operations, we do not believe that our dividend policy restricts our growth.

Dividends declared on our ordinary shares will be paid in NIS. Dividends paid to shareholders outside of Israel will be converted into dollars on the basis of the exchange rate prevailing on the date of the declaration of the relevant dividend and paid in dollars. The payment of dividends may be subject to Israeli withholding taxes. See Item 10.E. – “Taxation” under the caption “Israeli taxation–withholding on dividends paid to non-residents of Israel” below.

On February 21, 2008, we declared a dividend in the amount equal to NIS 108 million, or \$29.1 million. Such dividend was paid on April 8, 2008. On February 23, 2009, we declared a dividend in the amount equal to NIS 15.5 million, or \$3.6 million. Such dividend was paid on April 7, 2009. On February 16, 2010, we declared a dividend in the amount equal to NIS 117.2 million, or \$31.6 million. Such dividend was paid on April 7, 2010. On February 28, 2011 we declared a dividend in the amount equal to NIS 78.8 million, or \$22.8 million. Such dividend was paid on April 6, 2011.

### B. SIGNIFICANT CHANGES

Except for as stated in this annual report, there are no significant changes as of December 31, 2011.

## ITEM 9. THE OFFER AND LISTING

### A. OFFER AND LISTING DETAILS

#### Price History of Our Shares

Our ordinary shares have been trading on the Tel-Aviv Stock Exchange under the symbol “ITRN” since May 1998 and have been trading on the Nasdaq Global Select Market under the symbol “ITRN” since September 2005.

The following table sets forth, for the periods indicated, the high and low market prices of our ordinary shares as reported by the Nasdaq Global Select Market. Our shares commenced trading on the Nasdaq Global Select Market on September 27, 2005.

	High	Low
During the last six months		
March 2012	15.72	13.20
February 2012	14.32	13.39
January 2012	14.45	13.13
December 2011	13.95	12.23
November 2011	13.24	11.76
October 2011	13.61	11.70
During each fiscal quarter of 2010 and 2011		
First Quarter 2012	15.72	13.13
Fourth Quarter 2011	13.95	11.72
Third Quarter 2011	14.82	11.65
Second Quarter 2011	16.27	13.77
First Quarter 2011	18.30	14.84
Fourth Quarter 2010	17.53	14.39
Third Quarter 2010	15.23	13.00
Second Quarter 2010	16.19	13.25
First Quarter 2010	16.89	12.90

The following table shows, for the periods indicated, the high and low market prices of our ordinary shares as quoted on the Tel-Aviv Stock Exchange. U.S. dollars per ordinary share amounts are calculated using the applicable rate of exchange on the date the high or low market price occurred during the period shown.

	Price per ordinary share (NIS)		Price per ordinary share (\$)	
	High	Low	High	Low
Annual:				
2011	65.09	42.00	18.09	11.81
2010	62.60	48.55	17.54	12.86
2009	50.43	25.73	13.35	6.06
2008	44.02	22.84	12.85	5.68
2007	66.41	37.97	15.72	9.82
Quarterly:				
First Quarter 2012	57.85	49.12	15.28	13.16

Articles of Association

Pursuant to our articles of association our objectives are to engage in any lawful business and our purpose is to operate in accordance with business considerations to maximize our profits. We may take into consideration, inter alia, the interests of our creditors, employee and the public interest. Please also see a summarized description of our purposes and activities under the caption "Overview" in Item 4.A. above.

Our Corporate Practices Under The Israeli Companies Law

Recent Amendment to the Israeli Companies Law

In March 2011, the Israeli Parliament adopted Amendment No. 16 to the Israeli Companies Law, or Amendment No. 16. This amendment implements a comprehensive reform in corporate governance. Most of the provisions of this amendment became effective 60 days after its official publication in the Israeli Official Gazette, which was published on March 15, 2011 and the remaining provisions became effective 180 days after the aforementioned dated. A summary of the principal changes introduced by Amendment No. 16 is set forth below:

- A higher shareholder approval threshold was adopted to permit a chief executive officer to also serve as chairman of the board and vice versa, and a prohibition was adopted on the chairman's ability to serve the company in any capacity other than as the chief executive officer;

- The majority of the members of the audit committee is now required to be "independent" (as such term is defined under the Israeli Companies Law); the chairman of the audit committee is required to be an external director, and the following are disqualified from serving as members of the audit committee: the chairman, any director employed by the company or by its controlling shareholder or by an entity controlled by the controlling shareholder, a director who regularly provides services to the company or to its controlling shareholder or to an entity controlled by the controlling shareholder, and any director who derives most of its income from the controlling shareholder;
- The functions to be performed by the audit committee were expanded to include, inter alia, the following: determination whether certain related party actions and transactions are "material" or "extraordinary" in connection with their approval procedures, to assess the scope of work and compensation of the company's independent accountant, to assess the company's internal audit system and the performance of its internal auditor and to set whistle blower procedures (including in respect of the protections afforded to whistle blowers);
- The threshold to elect external directors was increased, such that the election of external directors now requires a majority vote at a shareholders' meeting, provided that either: at least a majority (previously, one-third) of the shares of non-controlling shareholders cast at the meeting vote in favor of the election of the external director, or the total number of shares of non-controlling shareholders voted against the election of the external director does not exceed 2% (previously, 1%) of the voting rights in the company;
- The independence requirements of external directors were enhanced such that an individual may not be appointed as an external director in a company that does not have a controlling shareholder, in the event that he has affiliation, at the time of his appointment, to the chairman, chief executive officer, a 5% shareholder or the chief financial officer; in addition, an individual may not be appointed as an external director if his relative, partner, employer, supervisor, or an entity he controls, has other than negligible business or professional relations with any of the persons with which the external director himself may not be affiliated;
- External directors may be re-elected for an additional term by means of one of the following mechanisms: (i) the board of directors proposed the nominee and his appointment was approved by the shareholders in the manner required to appoint external directors for their initial term (which was the only available way to

re-elect external directors prior to the adoption of Amendment No. 16), or (ii) a shareholder holding 1% or more of the voting rights proposed the nominee, and the nominee is approved by a majority of the votes cast by the shareholders of the company, excluding the votes of controlling shareholders and those who have a personal interest in the matter as a result of their relations with the controlling shareholders, provided that, the aggregate votes cast by shareholders who are not controlling shareholders and do not have a personal interest in the matter as a result of their relations with the controlling shareholders in favor of the nominee constitute more than 2% of the voting rights in the company;

- The terms of employment of an officer now require the approval of the audit committee as well as the board of directors;
- The threshold to approve extraordinary transactions with a controlling shareholder or in which a controlling shareholder has a personal interest was increased, such that: (i) at least a majority (previously one-third) of the votes cast by shareholders who have no personal interest in the transaction and who vote on the matter are voted in favor of the transaction, or (ii) the votes cast by shareholders who have no personal interest in the transaction voted against the transaction do not represent more than 2% (previously 1%) of the voting rights in the company; in addition, any such extraordinary transaction whose term is more than three years, require approval as described above every three years, unless (with respect to transactions not involving management fees) the audit committee approves that a longer term is reasonable under the circumstances;

- With respect to full tender offers (tender offers for the acquisition of all outstanding shares in a company), the time-frame for a shareholder to a request appraisal rights with respect to the tender offer was extended from three to six months following the consummation of a the tender, but it is now permitted for the acquirer to elect that any shareholder tendering his shares will not be entitled to appraisal rights.

#### Approval of Transactions under Israeli Law

##### Directors and executive officers

##### Fiduciary duties

Israeli law codifies the fiduciary duties that office holders owe to a company. An office holder is defined as any director, managing director, general manager, chief executive officer, executive vice president, vice president, other manager directly subordinate to the general manager or any other person assuming the responsibilities of any of these positions regardless of that person's title. Each person listed in the table under "Management—Executive Officers and Directors" is an office holder of our company under the Israeli Companies Law.

An office holder's fiduciary duties consist of a duty of loyalty and a duty of care. The duty of loyalty requires the office holder to avoid any conflict of interest between the office holder's position in the company and personal affairs, and proscribes any competition with the company or the exploitation of any business opportunity of the company in order to receive personal advantage for himself or others. This duty also requires him or her to reveal to the company any information or documents relating to the company's affairs that the office holder has received due to his or her position as an office holder. The duty of care requires an office holder to act with a level of care that a reasonable office holder in the same position would employ under the same circumstances. This includes the duty to use reasonable means to obtain information regarding the advisability of a given action submitted for his or her approval or performed by virtue of his or her position and all other relevant information pertaining to these actions.

##### Disclosure of Personal interest

Israeli law requires that an office holder promptly disclose to the board of directors any personal interest that he or she may have and all related material information known to him or her concerning any existing or proposed transaction with the company. A personal interest, as defined by the Israeli Companies Law, includes a personal interest of any person in an act or transaction of the company, including a personal interest of one's relative or of a corporate body in which such person or a relative of such person is a 5% or greater shareholder, a holder of 5% or more of the voting rights, a director or general manager, or in which he or she has the right to appoint at least one director or the general manager, but excluding a personal interest stemming from one's ownership of shares in the company. Under recent amendments to the law, personal interest also includes personal interest of a person voting pursuant to a proxy given by another person even if the other person does not have personal interest, regardless of whether the person given the proxy to vote at the meeting is given directions to vote in a certain manner or given discretion to vote independently. An office holder must disclose his personal interest no later than the first meeting of the company's board of directors that discusses the particular transaction. An office holder is not obliged to disclose such information if the personal interest of the office holder derives solely of the personal interest of his or her relative in a transaction that is not an "extraordinary transaction." The Israeli Companies Law defines an "extraordinary transaction" as a transaction not in the ordinary course of business, not on market terms or that is likely to have a material impact on the company's profitability, assets or liabilities. The term "relative" is defined by the Israeli Companies Law as a spouse, sibling, parent, grandparent, descendent, and descendent, brother, sister or parent of a spouse or the spouse of any of the

foregoing.

65

---

The Israeli Companies Law provides that once an office holder has complied with the disclosure requirement, a company may approve a transaction between the company and the office holder or a third party in which the office holder has a personal interest, or approve an action by the office holder that would otherwise be deemed a breach of duty of loyalty. Such a transaction generally requires approval by the board of directors, unless the articles of association provide otherwise. Our articles of association do not provide otherwise. If the transaction considered is an extraordinary transaction, or an undertaking to indemnify or insure an office holder who is not a director, audit committee approval is required prior to approval by the board of directors. Arrangements regarding the compensation, indemnification or insurance of a director require the approval of the audit committee, board of directors and shareholders, in that order. A company may not approve a transaction or action that is adverse to the company's interest or that is not performed by the office holder in good faith.

A director who has a personal interest in a matter involving an extraordinary transaction, as defined in the Israeli Companies Law, which is considered at a meeting of the board of directors or the audit committee may not attend that meeting or vote on that matter, unless a majority of the directors or members of the audit committee, as applicable, also have a personal interest in the matter. Any transaction in which a majority of the directors has a personal interest requires shareholder approval.

#### Compensation arrangements

Pursuant to the Israeli Companies Law, all compensation arrangements for executive officers who are not directors require approval of our audit committee and board of directors (under Israeli law, such compensation arrangements may be approved in lieu of the approval of the audit committee by compensation committee, provided that it meets certain criteria), provided that any change that is determined to be immaterial to such compensation arrangements requires the approval of the audit committee only. Compensation arrangements with directors, including the grant of indemnification, insurance or exculpation by the company require the approval of our audit committee, board of directors and shareholders, in that order.

#### Shareholders

##### Controlling shareholders

Pursuant to Israeli law, the disclosure requirements regarding personal interests that apply to an office holder also apply to a "controlling shareholder" of a public company. A "controlling shareholder" is a shareholder who has the ability to direct the activities of a company, and for the purpose of the disclosure requirements and approval of related party transactions, the term includes any shareholder holding 25% or more of the voting rights if no other shareholder holds more than 50% of the voting rights in the company. Two or more shareholders with a personal interest in the approval of the same transaction are deemed to be one shareholder. Currently Moked Ituran Ltd. is considered a "controlling shareholder" of our company under Israeli law. Mr. Izzy Sheratzky beneficially owns the shareholdings of Moked Ituran due to his shared voting and investment power over such shares in accordance with a shareholders agreement, dated May 18, 1998, among Moked Ituran and its shareholders, as amended. In addition, all shareholders of Moked Ituran who are parties to such shareholders agreement, may also be considered "controlling shareholders" under Israeli law.

##### Required approval

Extraordinary transactions of a public company and a controlling shareholder, or in which a controlling shareholder has a personal interest, including a private placement in which a controlling shareholder has a personal interest, a transaction concerning the terms of compensation of the controlling shareholder or the controlling shareholder's relative, directly or indirectly, through a company controlled by him in respect of receipt of services from same and if he is an office holder or an employee – the terms of his employment, require the approval of the audit committee, the

board of directors and the shareholders, in that order. Presently, this shareholder approval must include the majority of shares voted at the meeting. In addition, either:

n the majority must include at least the majority of the shares of disinterested shareholders voted at the meeting; or  
n the total number of shares of disinterested shareholders who voted against the transaction must not exceed 2.0% of the aggregate voting rights in the company.

The approval of the board of directors and shareholders is required for a private placement of securities (or a series of related private placements during a 12-month period or that are part of one continuous transaction or transactions conditioned upon each other) that:

n represents at least 20% of a company's actual voting power prior to the issuance of such securities, and that would increase the relative holdings of a 5% shareholder or that would cause any person to become a 5% shareholder the consideration for which (or a portion thereof) is not cash or securities listed on a recognized stock exchange, or is not at fair market value; or

n results in a person becoming a controlling shareholder of the company.

#### Shareholder duties

Pursuant to the Israeli Companies Law, a shareholder has a duty to act in good faith and in customary way toward the company and other shareholders and to refrain from abusing his or her power in the company, including, among other things, in voting at the general meeting of shareholders and class meetings with respect to the following matters:

- n an amendment to the company's articles of association;
- n an increase of the company's authorized share capital;
- n a merger; or
- n interested party transactions that require shareholder approval.

In addition, specified shareholders have a duty of fairness toward the company. These shareholders include any controlling shareholder, any shareholder who knows that it possesses the power to determine the outcome of a shareholder vote and any shareholder who has the power to appoint or to prevent the appointment of an office holder of the company or other power towards the company. The Israeli Companies Law does not describe the substance of this duty except to state that the remedies generally available upon a breach of contract will also apply in the event of a breach of the duty to act with fairness.

#### Anti take-over provisions; mergers and acquisitions under Israeli Law

##### Tender offers

Full Tender Offer. A person wishing to acquire shares or any class of shares, or voting rights of a publicly traded Israeli company and who would, as a result, hold over 90% of the company's issued and outstanding share capital or of a class of shares that are listed, is required by the Israeli Companies Law to make a tender offer to all of the company's shareholders or all shareholders of such class of shares, as applicable, for the purchase of all of the issued and outstanding shares of the company or of that class of shares, as applicable. If the shareholders who do not respond to the offer hold less than 5% of the issued share capital of the company or of that class of shares, as applicable, and the majority of shareholders who are disinterested accepted the offer, all of the shares that the acquirer offered to purchase will be transferred to the acquirer by operation of law (however, full tender offer shall be accepted if shareholders who objected to the offer constituted less than 2% of the issued and outstanding share capital of the company to which the offer relates). However, the shareholders may petition the court to alter the consideration for the acquisition. If the dissenting shareholders hold more than 5% of the issued and outstanding share capital of the company or of such class of shares, as applicable, the acquirer may not acquire additional shares of the company or of such class of shares, as applicable, from shareholders who accepted the tender offer if following such acquisition the acquirer would then own over 90% of the company's issued and outstanding share capital or of the shares comprising such class, as applicable.

Special Tender Offer. The Israeli Companies Law provides that an acquisition of shares of a public company must be made by means of a tender offer if as a result of the acquisition the purchaser would become a holder of 25% or more of the voting rights of the company. This rule does not apply if there is already another holder of 25% or more of the voting rights of the company. Similarly, the Israeli Companies Law provides that an acquisition of shares in a public company must be made by means of a tender offer if as a result of the acquisition the purchaser would become a holder of more than 45% of the voting rights of the company, if there is no other holder of more than 45% of the voting rights of the company. The foregoing provisions do not apply to:

na private placement in which the company's shareholders approved such holder owning 25% or more of the voting rights of the company (provided that there is no other shareholder that holds 25% or more of the voting rights of the company); or more than 45% of the voting rights of the company (provided that there is no other shareholder that holds 45% or more of the voting rights of the company); or

na purchase from an existing holder of 25% or more of the voting rights of the company that results in another person becoming a holder of 25% or more of the voting rights of the company or purchase from an existing holder of more than 45% of the voting rights of the company that results in another person becoming a holder of more than 45% of the voting rights of the company.

In the event that a special tender offer is made, a company's board of directors is required to express its opinion on the advisability of the offer or shall abstain from expressing any opinion if it is unable to do so, provided that it gives the reasons for its abstention. An office holder in a target company who, in his or her capacity as an office holder, performs an action the purpose of which is to cause the failure of an existing or foreseeable special tender offer or is to impair the chances of its acceptance, is liable to the potential purchaser and shareholders for damages, unless such office holder acted in good faith and had reasonable grounds to believe he or she was acting for the benefit of the company. However, office holders of the target company may negotiate with the potential purchaser in order to improve the terms of the special tender offer, and may further negotiate with third parties in order to obtain a competing offer.

If a special tender offer was accepted by a majority of the shareholders who announced their stand on such offer, then shareholders who did not announce their stand or who had objected to the offer may accept the offer within four days of the last day set for the acceptance of the offer.

In the event that a special tender offer is accepted, the purchaser or any person or entity controlling it at the time of the offer or under common control with the purchaser or such controlling person or entity shall refrain from making a subsequent tender offer for the purchase of shares of the target company and cannot execute a merger with the target company for a period of one year from the date of the offer, unless the purchaser or such person or entity undertook to effect such an offer or merger in the initial special tender offer.

## Merger

The Israeli Companies Law permits merger transactions if approved by each party's board of directors and shareholders. Pursuant to the Israeli Companies Law and our articles of association as currently in effect, merger transactions may be approved by holders of a simple majority of our shares present, in person or by proxy, at a general meeting and voting on the transaction. In determining whether the required majority has approved the merger in the event of "cross ownership" between the merging companies, namely, if our shares are held by the other party to the merger, or by any person holding at least 25% of the outstanding voting shares or 25% of the means of appointing directors of the other party to the merger, then a vote against the merger by holders of the majority of the shares present and voting, excluding shares held by the other party or by such person, or anyone acting on behalf of either of them, including any of their affiliates, is sufficient to reject the merger transaction. If the transaction would have been

approved but for the exclusion of the votes of certain shareholders as provided above, a court may still approve the merger upon the request of holders of at least 25% of the voting rights of a company, if the court holds that the merger is fair and reasonable, taking into account the value of the parties to the merger and the consideration offered to the shareholders. Upon the request of a creditor of either party to the proposed merger, the court may delay or prevent the merger if it concludes that there exists a reasonable concern that, as a result of the merger, the surviving company will be unable to satisfy the obligations of any of the parties to the merger. In addition, a merger may not be consummated unless at least 50 days have passed from the time that a proposal for approval of the merger has been filed with the Israeli Registrar of Companies and 30 days have passed from the date of the approval of the shareholders of the merging companies.

The Israeli Companies Law further provides that the foregoing approval requirements will not apply to shareholders of a wholly-owned subsidiary in a roll-up merger transaction, or to the shareholders of the acquirer if:

- n the transaction is not accompanied by an amendment to the acquirer's memorandum or articles of association;
- n the transaction does not contemplate the issuance of more than 20% of the voting rights of the acquirer that would result in any shareholder becoming a controlling shareholder; and
- n there is no "cross-ownership" of shares of the merging companies, as described above.

For these purposes, "controlling shareholder" is a shareholder who has the ability to direct the activities of a company, including a shareholder who owns 25% or more of the voting rights if no other shareholder owns more than 50% of the voting rights.

The Israeli Companies Law allows us to create and issue shares having rights different from those attached to our ordinary shares, including shares providing certain preferred or additional rights to voting, distributions or other matters and shares having preemptive rights. In the future, if we do create and issue a class of shares other than our ordinary shares, such class of shares, depending on the specific rights that may be attached to them, may delay or prevent a takeover or otherwise prevent our shareholders from realizing a potential premium over the market value of their ordinary shares. The authorization of a new class of shares will require an amendment to our articles of association. Shareholders voting at such a meeting will be subject to the restrictions under the Israeli Companies Law. See "Voting rights" above.

#### Dividend and Liquidation Rights.

We may declare a dividend to be paid to the holders of our ordinary shares according to their rights and interests in our profits. If we dissolve, after satisfaction of liabilities to creditors, our assets will be distributed to the holders of our ordinary shares in proportion to their shareholdings. This right may be affected by the grant of preferential dividend or distribution rights to the holders of a class of shares with preferential rights that may be authorized in the future. Our articles of association provide that shareholder approval would not be required for the declaration of dividends. Dividends may only be paid out of our retained earnings or "profits" accrued over a period of two years, as defined in the Israeli Companies Law, whichever is greater, according to the last reviewed or audited financial reports of the company, provided that the date of the financial reports is not more than six months before the date of distribution (the "profits" test), and further provided that there is no reasonable concern that a payment of a dividend will prevent us from satisfying our existing and foreseeable obligations as they become due, as determined by our Board of Directors. However, if we do not meet the profit requirement, a court may allow us to distribute a dividend, as long as the court is convinced that there is no reasonable risk that a distribution might prevent us from being able to meet our existing and anticipated obligations as they become due. For more information on our ability to grant or declare dividends, see Item 8.A – Financial Information under the caption "Dividend Distribution Policy" above.

#### Voting, Shareholder Meetings and Resolutions.

As a foreign private issuer, we have elected to follow our home country practices in lieu of the Nasdaq Marketplace Rule requiring an issuer to hold its annual meeting of its shareholders no later than one year after the end of the issuer's fiscal year-end. Specifically, according to the Israeli Companies Law, we are required to hold an annual general meeting of our shareholders once every calendar year, and no later than 15 months after the date of the previous annual general meeting. All meetings other than the annual general meeting of shareholders are referred to as special meetings. Our Board of Directors may call special meetings whenever it sees fit, at such time and place, within or outside of Israel, as it may determine. In addition, the Israeli Companies Law provides that the board of directors of a public company is required to convene a special meeting upon the request of (a) any two directors of the company or one quarter of its board of directors or (b) one or more shareholders holding, in the aggregate, (i) 5% of the

outstanding shares of the company and 1% of the voting power in the company or (ii) 5% of the voting power in the company.

Pursuant to our articles of association, shareholders are entitled to participate and vote at general meetings and are the shareholders of record on a date to be decided by our Board of Directors, provided that such date is not more than 21 days, nor less than four days, prior to the date of the general meeting, except as otherwise permitted by the Israeli Companies Law. Furthermore, the Israeli Companies Law dictates that resolutions regarding the following matters must be passed at a general meeting of our shareholders:

- n amendments to our articles of association;
  - n appointment or termination of our auditors;
  - n appointment and dismissal of external directors;
  - n approval of acts and transactions requiring general meeting approval pursuant to the Israeli Companies Law;
  - n increase or reduction of our authorized share capital;
  - n a merger; and
- n the exercise of the Board of Directors' powers by a general meeting, if the Board of Directors is unable to exercise its powers and the exercise of any of its powers is required for our proper management.

The Israeli Companies Law and our articles of association require that a notice of any annual or special shareholders meeting will be provided 21 days prior to the meeting, except where the regulation prescribe for a period of not less than 35 days if the agenda includes certain resolutions to be adopted at the general meeting.

Pursuant to our articles of association, holders of ordinary shares have one vote for each ordinary share held on all matters submitted to a vote of the shareholders. These voting rights may be affected by the grant of any special voting rights to the holders of a class of shares with preferential rights that we may authorize in the future. The quorum required for our ordinary meetings of shareholders consists of at least two shareholders present in person or by proxy, who hold or represent between them at least one-third of the total outstanding voting rights. A meeting adjourned for lack of a quorum generally is adjourned to the same day in the following week at the same time and place or on a later date specified in the summons or notice of the meeting. At the reconvened meeting, any number of our shareholders present in person or by proxy shall constitute a lawful quorum.

Our articles of association provide that, other than with respect to the amendment of the provisions of the articles of association with respect to the appointment of directors and a resolution for removal of a director, which action requires a majority vote of 75%, all resolutions of the shareholders require a simple majority.

Israeli law does not provide for public companies such as ours to have shareholder resolutions adopted by means of a written consent in lieu of a shareholders meeting. The Israeli Companies Law provides that a shareholder, in exercising his or her rights and performing his or her obligations toward the company and its other shareholders, must act in good faith and in an acceptable manner and avoid abusing his or her powers. This is required, among other things, when voting at general meetings on matters such as changes to the articles of association, increasing the company's registered capital, mergers and approval of related-party transactions. In addition, pursuant to the Israeli Companies Law, any controlling shareholder, any shareholder who knows that its vote can determine the outcome of a shareholder vote and any shareholder who, under the company's articles of association, can appoint or prevent the appointment of an office holder, is required to act with fairness towards the company.

An ordinary resolution requires approval by the holders of a simple majority of the voting rights represented at the meeting, in person, by proxy or by written ballot, and voting on the resolution. Under the Israeli Companies Law, unless otherwise provided in the articles of association or applicable law, all resolutions of the shareholders require a simple majority. A resolution for the voluntary winding up of the company requires the approval of holders of 75% of the voting rights represented at the meeting, in person, by proxy or by written ballot and voting on the resolution. For information regarding the majority required for approval of related party transactions, see "Approval of related party transactions under Israeli law" above.

#### Transfer of Shares and Notice.

Our ordinary shares that are fully paid are issued in registered form and may be freely transferred under our articles of association unless the transfer is restricted or prohibited by applicable law or rules of a stock exchange on which the shares are traded.

#### Election of Directors.

Our ordinary shares do not have cumulative voting rights in the election of directors. As a result, the holders of a majority of the voting power represented at a shareholders meeting have the power to elect all of our directors, subject to the special approval requirements for external directors described under the caption “External directors” in Item 6.C – “Board Practices” above. Pursuant to the Israeli Companies Law, the procedures for the appointment and removal and the term of office of directors, other than external directors, may be contained in the articles of association of a company. Our articles of association provide for staggered terms for directors. This provision may be amended only by a vote of 75% of our shares voting at a meeting of shareholders.

#### Insurance, Indemnification and Exculpation of Directors and Officers.

Under the Israeli Companies Law, a company may not exculpate an office holder from liability for a breach of the duty of loyalty. An Israeli company may exculpate an office holder in advance from liability to the company, in whole or in part, for damages caused to the company as a result of a breach of duty of care but only if a provision authorizing such exculpation is included in its articles of association. Our articles of association include such a provision. However, an Israeli company may not exculpate a director for liability arising out of a breach of duty of care in respect of a prohibited dividend or distribution to shareholders.

Under the Israeli Companies Law, a company may indemnify an office holder in respect of the following liabilities and expenses incurred for acts performed as an office holder, either in advance of an event or following an event, provided a provision authorizing such indemnification is included in its articles of association:

- Financial liability imposed on him or her in favor of another person pursuant to a judgment, settlement or arbitrator’s award approved by a court. However, if an undertaking to indemnify an office holder with respect to such liability is provided in advance then such an undertaking must be limited to events which, in the opinion of the board of directors, can be foreseen based on the company’s activities when the undertaking to indemnify is given, and to an amount or according to criteria determined by the board of directors as reasonable under the circumstances, and such undertaking shall detail the abovementioned events and amount or criteria.
- Reasonable litigation expenses, including attorneys’ fees, incurred by the office holder as a result of an investigation or proceeding instituted against him or her by an authority authorized to conduct such investigation or proceeding, provided that (i) no indictment was filed against such office holder as a result of such investigation or proceeding, and (ii) no financial liability, such as a criminal penalty, was imposed upon him or her as a substitute for the criminal proceeding as a result of such investigation or proceeding or, if such financial liability was imposed, it was imposed with respect to an offense that does not require proof of criminal intent or in connection with monetary penalty.

- Reasonable litigation expenses, including attorneys' fees, incurred by the office holder or imposed by a court in proceedings instituted against him or her by the company, on its behalf or by a third party or in connection with criminal proceedings in which the office holder was acquitted or as a result of a conviction for an offense that does not require proof of criminal intent. Under the Israeli Companies Law, a company may obtain insurance for an office holder against liabilities incurred in his or her capacity as an office holder if and to the extent provided in the company's articles of association.
- A breach of duty of loyalty to the company, to the extent that the office holder acted in good faith and had a reasonable basis to believe that the act would not prejudice the company.

- A breach of duty of care to the company or to a third party, including a breach arising out of the negligent conduct of the office holder.
- A financial liability imposed on the office holder in favor of a third party.

An Israeli company may not indemnify or insure an office holder against any of the following:

- a breach of duty of loyalty, except to the extent that the office holder acted in good faith and had a reasonable basis to believe that the act would not prejudice the company;
- a breach of duty of care committed intentionally or recklessly, excluding a breach arising out of the negligent conduct of the office holder;
- an act or omission committed with intent to derive illegal personal benefit;  
or
- a fine, civil fine, monetary penalty or forfeit levied against the office holder.

Under the Israeli Companies Law, exculpation, indemnification and insurance of office holders must be approved by our audit committee and our board of directors and, in respect to our directors, by our shareholders.

Our articles of association allow us to indemnify, exculpate and insure our office holders to the fullest extent permitted by the Israeli Companies Law. Our articles of association also allow us to insure or indemnify any person who is not an office holder, including any employee, agent, consultant or contractor who is not an office holder.

We currently have directors' and officers' liability insurance covering our officers and directors (including the officers and directors of our subsidiaries) against certain claims. No claims for liability have been filed under this policy to date.

Our audit committee, board of directors and shareholders have resolved to indemnify our directors and officers to the extent permitted by law and by our articles of association for liabilities that are of certain enumerated types of events, subject to an aggregate sum equal to 25% of the shareholders equity outstanding at the time a claim for identification is made (which sum also includes all insurance amounts received by such directors and officers under directors and officers insurance policies maintained by us).

Change in Capital.

Our articles of association enable us to increase or reduce our share capital. Any such changes are subject to the provisions of the Israeli Companies Law and must be approved by a resolution duly passed by our shareholders at a general meeting and voting on such change in the capital. In addition, transactions that have the effect of reducing capital, such as the declaration and payment of dividends in the absence of sufficient retained earnings and profits and an issuance of shares for less than their nominal value, require a resolution of the Board of Directors and court approval.

### C. MATERIAL CONTRACTS

None

D. EXCHANGE CONTROLS

ordinary shares purchased by nonresidents of Israel with certain non-Israeli currencies (including dollars) and any amounts payable upon the dissolution, liquidation or winding up of our affairs, as well as the proceeds of any sale in Israel of our securities to an Israeli resident, may be paid in non-Israeli currencies (including US dollars) or, if paid in NIS, may be converted into freely repatriable currencies at the rate of exchange prevailing at the time of conversion – pursuant to the general permit issued under the Israeli Currency Control Law, 1978, provided that Israeli income tax has been paid on (or withheld from) such payments. Because exchange rates between the NIS and the U.S. dollar fluctuate continuously, U.S. shareholders will be subject to any such currency fluctuation during the period from when such dividend is declared through the date payment is made in U.S. dollars. Investments outside Israel by the Company no longer require specific approval from the Controller of Foreign Currency at the Bank of Israel.

E. TAXATION

The following describes certain income tax issues relating to us and also certain income tax consequences arising from the purchase, ownership and disposition of our ordinary shares. This discussion is for general information only and is not intended, and should not be construed, as legal or professional tax advice and does not cover all possible tax considerations. To the extent that the discussion is based on legislation yet to be judicially or administratively interpreted, there can be no assurance that the views expressed herein will accord with any such interpretation in the future. Accordingly, holders of our ordinary shares should consult their own tax advisor as to the particular tax consequences arising from your purchase, ownership and disposition of ordinary shares, including the effects of applicable Israeli, United States and other laws and possible changes in the tax laws.

The following discussion represents a summary of the material United States & Israeli tax laws affecting us and our shareholders.

United States Tax Considerations

The following discussion is a description of the material United States, or US, federal income tax considerations applicable to the acquisition, ownership and disposition of our ordinary shares by US Holders who hold such ordinary shares as “capital assets”. As used in this section, the term “US Holder” means a beneficial owner of an ordinary share who is:

- n a citizen or resident of the United States;
- n a corporation or partnership created or organized in or under the laws of the United States or of any state of the United States or the District of Columbia (other than a partnership that is not treated as a US person under any applicable Treasury regulations);
- n an estate, the income of which is subject to United States federal income taxation regardless of its source; or
- n a trust if the trust has elected validly to be treated as a US person for United States federal income tax purposes or if a US court is able to exercise primary supervision over the trust’s administration and one or more US persons have the authority to control all of the trust’s substantial decisions.

The term “Non-US Holder” means a beneficial owner of an ordinary share who is not a US Holder. The tax consequences to a Non-US Holder may differ substantially from the tax consequences to a US Holder. This discussion does not address any aspects of US federal income tax which may be relevant to a Non-US Holder. Accordingly, Non-US Holders are strongly urged to consult with their own tax advisors.

This description is based on provisions of the United States Internal Revenue Code of 1986, as amended, existing, proposed and temporary US Treasury regulations and administrative and judicial interpretations thereof, each as available and in effect as of the date of this report. These sources may change, possibly with retroactive effect, and are open to differing interpretations. This description does not discuss all aspects of US federal income taxation that may be applicable to investors in light of their particular circumstances or to investors who are subject to special treatment under US federal income tax law, including:

- n insurance companies;
- n dealers or traders in stocks, securities or currencies;
- n financial institutions and financial services entities;
- n real estate investment trusts;
- n regulated investment companies;
- n grantor trusts;
- n persons that receive ordinary shares as compensation for the performance of services;

persons that hold ordinary shares as a position in a straddle or as part of a hedging, conversion or other integrated instrument;

tax-exempt organizations;

individual retirement and other tax-deferred accounts;

expatriates of the United States;

persons having a functional currency that is not the US dollar; or

direct, indirect or constructive owners of 10% or more, by voting power or value, of our ordinary shares.

This description also does not consider the US federal gift or estate tax or alternative minimum tax consequences of the acquisition, ownership and disposition of our ordinary shares.

If a partnership (or any other entity treated as a partnership for US federal income tax purposes) holds our ordinary shares, the tax treatment of a partner in such partnership will generally depend on the status of the partner and the activities of the partnership. Such a partner should consult its tax advisor as to its tax consequences.

We urge our shareholders to consult with your own tax advisor regarding the tax consequences of acquiring, owning or disposing of our ordinary shares, including the effects of US federal, state, local and foreign and other tax laws. This summary does not constitute, and should not be construed as, legal or tax advice to holders of our shares.

#### Distribution Paid on the Ordinary Shares

As of November 16, 2009, our dividend policy provides for an annual dividend distribution in an amount not less than 50% of our net profits, calculated based on the audited financial statements for the period ending on December 31 of the fiscal year with respect to which the relevant dividend is paid.

Subject to the discussion below under “Passive Foreign Investment Company Considerations”, US Holders, for US federal income tax purposes, will generally be required to include in their gross income as ordinary dividend income (unless qualifies as “qualified dividend income”) in the amount of any distributions made to them in cash or property (other than certain distributions, if any, of our ordinary shares distributed pro rata to all our shareholders), with respect to their ordinary shares, before reduction for any Israeli taxes withheld (without regard to whether any portion of such tax may be refunded to them by the Israeli tax authorities), to the extent that those distributions are paid out of our current or accumulated earnings and profits as determined for US federal income tax purposes. Subject to the discussion below under “Passive Foreign Investment Company Considerations”, distributions in excess of our current and accumulated earnings and profits as determined under US federal income tax principles will be applied first against, and will reduce their tax basis in, your ordinary shares and, to the extent they exceed that tax basis, will then be treated as capital gain. We do not maintain calculations of our earnings and profits under US federal income tax principles. Our dividends will not qualify for the dividends-received deduction generally available to corporate US Holders.

For a US Holder, if we pay a dividend in NIS, any such dividend, including the amount of any Israeli taxes withheld, will be includible in such US Holder’s income in a US dollar amount calculated by reference to the currency exchange rate in effect on the day the distribution is includible in your income, regardless of whether the NIS are converted into US dollars. Any gain or loss resulting from currency exchange fluctuations during the period from the date the dividend is includible in such US Holder’s income to the date that payment is converted into US dollars generally will be treated as ordinary income or loss.

A non-corporate US Holder’s “qualified dividend income” currently is subject to tax at reduced rates not exceeding 15%. This reduced rate applicable to “qualified dividend income” does not apply to tax years beginning after December 31, 2012. For purposes of determining whether a non-corporate US Holders will have “qualified dividend income,” “qualified dividend income” generally includes dividends paid by a foreign corporation if either:

nthe stock of that corporation with respect to which the dividends are paid is readily tradable on an established securities market in the US, or  
nthat corporation is eligible for benefits of a comprehensive income tax treaty with the US that includes an information exchange program and is determined to be satisfactory by the US Secretary of the Treasury. The Internal Revenue Service has determined that the US-Israel Tax Treaty is satisfactory for this purpose.

In addition, under current law, a non-corporate US Holder must generally hold his ordinary shares for more than 60 days during the 121-day period beginning 60 days prior to the ex-dividend date in order for the dividend to qualify as “qualified dividend income.”

Dividends paid by a foreign corporation will not be treated as “qualified dividend income”, however, if such corporation is treated, for the tax year in which the dividend is paid or the preceding tax year, as a “passive foreign investment company” for US federal income tax purposes. We do not believe that we will be classified as a “passive foreign investment company” for US federal income tax purposes for our current taxable year. However, see the discussion under “Passive Foreign Investment Company Considerations” below.

#### Foreign Tax Credit

Any dividends paid by us to a US Holder with respect to our ordinary shares generally will be treated as foreign source passive income for US foreign tax credit purposes. Subject to the foreign tax credit limitations, a US Holder may elect to credit any Israeli income taxes withheld from dividends paid on our ordinary shares against such shareholder’s US federal income tax liability (provided, inter alia, such shareholder satisfies certain holding requirements with respect to our ordinary shares). Amounts withheld in excess of the Treaty tax rate, however, will not be creditable against such shareholder’s US federal income tax liability. As an alternative to claiming a foreign tax credit, such shareholder may instead claim a deduction for any withheld Israeli income taxes, but only for a year in which such shareholder elects to do so with respect to all foreign income taxes. The amount of foreign income taxes that may be claimed as a credit in any year is subject to complex limitations and restrictions, which must be determined on an individual basis by each shareholder. Accordingly, our shareholders should consult their own tax advisor to determine whether their income with respect to their ordinary shares would be foreign source income and whether and to what extent they would be entitled to the credit.

#### Disposition of Ordinary Shares

Upon the sale or other disposition of ordinary shares, subject to the discussion below under “Passive Foreign Investment Company Considerations”, if a holder of our shares is a US Holder, such shareholder generally will recognize capital gain or loss equal to the difference between the amount realized on the disposition and such shareholder’s adjusted tax basis in the ordinary shares, which is usually the cost of such shares, in dollars. US Holders should consult their own advisors with respect to the tax consequences of the receipt of a currency other than dollars upon such sale or other disposition.

Gain or loss upon the disposition of the ordinary shares will be treated as long-term if, at the time of the disposition, the ordinary shares were held for more than one year. Long-term capital gains realized by non-corporate US Holders generally are subject to a lower maximum marginal US federal income tax rate than the maximum marginal US federal income tax rate applicable to ordinary income, other than qualified dividend income, as defined above, generally, not exceeding 15%. This reduced rate does not apply to tax years beginning after December 31, 2012. The deductibility of capital losses by a US Holder is subject to limitations. In general, any gain or loss recognized by a US Holder on the sale or other disposition of ordinary shares will be US source income or loss for US foreign tax credit purposes. US Holders should consult their own tax advisors concerning the source of income for US foreign tax credit purposes and the effect of the US-Israel Tax Treaty on the source of income.

#### Passive Foreign Investment Company Considerations

Special US federal income tax rules apply to US Holders owning shares of a “passive foreign investment company”, or a PFIC, for US federal income tax purposes. A non-US corporation will be considered a PFIC for any taxable year in which, after applying look-through rules, either

n75% or more of its gross income consists of specified types of passive income, or  
n50% or more of the average value of its assets consists of passive assets, which generally means assets that generate, or are held for the production of, “passive income.”

Passive income for this purpose generally includes dividends, interest, royalties, rents and gains from commodities and securities transactions and includes amounts derived by reason of the temporary investment of funds. If we were classified as a PFIC, and you are a US Holder, you could be subject to increased tax liability upon the sale or other disposition of ordinary shares or upon the receipt of amounts treated as “excess distributions” (generally, your ratable portion of distributions in any year which are greater than 125% of the average annual distribution received by you either in the shorter of the three preceding years or your holding period). Under these rules, the excess distribution and any gain would be allocated ratably over our shareholders’ holding period for the ordinary shares, and the amount allocated to the current taxable year and any taxable year prior to the first taxable year in which we were a PFIC would be taxed as ordinary income. The amount allocated to each of the other taxable years would be subject to tax at the highest marginal rate in effect for the applicable class of taxpayer for that year, and an interest charge for the deemed deferral benefit would be imposed on the resulting tax allocated to such other taxable years. In addition, holders of stock in a PFIC may not receive a “step-up” in basis on shares acquired from a decedent. If any of our shareholders are US Holders who hold ordinary shares during a period when we are a PFIC, such shareholders be subject to the foregoing rules even if we cease to be a PFIC.

We believe that we will not be classified as a PFIC for US federal income tax purposes for our current taxable year and we anticipate that we will not become a PFIC in any future taxable year based on our financial statements, our current expectations regarding the value and nature of our assets, and the sources and nature of our income. This conclusion, however, is a factual determination that must be made annually based on income and assets for the entire taxable year and thus may be subject to change. It is not possible to determine whether we will be a PFIC for the current taxable year until after the close of the year and our status in future years depends on our income, assets and activities in those years. In addition, because the market price of our ordinary shares is likely to fluctuate and the market price of the shares of technology companies has been especially volatile, and because that market price may affect the determination of whether we will be considered a PFIC, we cannot assure any US Holder that we will not be considered a PFIC for any taxable year.

If we were a PFIC, our shareholders could avoid certain tax consequences referred to above by making an election to treat us as a qualified electing fund or by electing to mark the ordinary shares to market. A US Holder may make a qualified electing fund election only if we furnish the US Holder with certain tax information and we do not presently intend to prepare or provide this information. Alternatively, a US Holder of PFIC stock that is publicly traded may elect to mark the stock to market annually and recognize as ordinary income or loss each year an amount equal to the difference as of the close of the taxable year between the fair market value of the PFIC stock and the US Holder’s adjusted tax basis in the PFIC stock. Losses would be allowed only to the extent of net mark-to-market gain previously included by the US Holder under the election for prior taxable years. This election is available for as long as our ordinary shares constitute “marketable stock,” which includes stock that is “regularly traded” on a “qualified exchange or other market.” We believe that the Nasdaq Global Select Market will constitute a qualified exchange or other market for this purpose. However, no assurances can be provided that our ordinary shares will continue to trade on the Nasdaq Global Select Market or that the shares will be regularly traded for this purpose.

According to law amendments effective in 2010, US persons that are shareholders in a PFIC generally will be required to file an annual report disclosing the ownership of such shares and certain other information.

The rules applicable to owning shares of a PFIC are complex, and our shareholders should consult with their own tax advisor regarding the tax consequences that would arise if we were treated as a PFIC.

#### Information Reporting and Back-up Withholding

Dividend payments with respect to ordinary shares and proceeds from the sale or disposition of ordinary shares made within the United States or by a US payor or US middleman may be subject to information reporting to the Internal

Revenue Service and possible US backup withholding . Certain exempt recipients (such as corporations) are not subject to these information reporting requirements. Backup withholding also will not apply to a US Holder who furnishes a correct taxpayer identification number and makes any other required certification or otherwise is exempt from US backup withholding requirements. US Holders who are required to establish their exempt status must provide such certification on Internal Revenue Service Form W-9. US Holders should consult their tax advisors regarding the application of the US information reporting and backup withholding rules.

Backup withholding is not an additional tax. Amounts withheld under the backup withholding rules may be credited against a US Holder's US federal income tax liability and a US Holder may obtain a refund of any excess amounts withheld by filing the appropriate claim for refund with the Internal Revenue Service and furnishing any required information in a timely manner. The above description is not intended to constitute a complete analysis of all tax consequences relating to acquisition, ownership and disposition of our ordinary shares. Our shareholders are urged to consult their own tax advisor concerning the tax consequences of their particular situation.

#### Israeli Tax Considerations

The following is a summary of the current material Israeli tax laws applicable to companies in Israel with special reference to its effect on us. This section also contains a discussion of certain Israeli government programs from which we may benefit and some Israeli tax consequences to persons acquiring ordinary shares in this offering. This summary does not discuss all the acts of Israeli tax law that may be relevant to a particular investor in light of his or her personal investment circumstances or to some types of investors subject to special treatment under Israeli law. Examples of this kind of investor include residents of Israel, traders in securities or persons that own, directly or indirectly, 10% or more of our outstanding capital, all of whom are subject to special tax regimes not covered in this discussion. Some parts of this discussion are based on new tax legislation that has not been subject to judicial or administrative interpretation. Accordingly, we cannot assure you that the views expressed in the discussion will be accepted by the tax authorities in question. The discussion is not intended and should not be construed as legal or professional tax advice and does not cover all possible tax considerations.

The discussion below should not be construed as legal or professional tax advice and does not cover all possible tax considerations. Potential investors are urged to consult their own tax advisors as to the Israeli or other tax consequences of the purchase, ownership and disposition of our ordinary shares, including in particular, the effect of any foreign, state or local taxes.

#### General Corporate Tax Structure in Israel

Israeli companies are generally subject to corporate tax. In 2011 the corporate tax rate was 24% on their taxable income. The corporate tax rate was scheduled to decline to 23% in 2012, 22% in 2013, 21% in 2014, 20% in 2015 and 18% in 2016 and onwards. Recently, the Tax Burden Law, was published by the Government of Israel. The Tax Burden Law canceled the scheduled progressive reduction of the corporate tax rate and instead fixed the corporate tax rate at 25% from 2012 and onwards. Capital gains derived after January 1, 2010 are subject to a corporate tax rate imposed in the sale year.

#### Tax Benefits Under the Law for the Encouragement of Capital Investments, 1959, as amended

Under the Israeli law, subsidiaries of the company are entitled to various tax benefits by virtue of the "preferred enterprise" status that was granted to their production under the "Investment Law".

#### Tax benefits under the 2005 Amendment

On April 1, 2005, an amendment to the Investment Law came into effect. The amendment revised the criteria for investments qualified to receive tax benefits. An eligible investment program under the amendment will qualify for benefits as a Privileged Enterprise (rather than the previous terminology of Approved Enterprise). Among other things, the amendment provides tax benefits to both local and foreign investors and simplifies the approval process. The period of tax benefits for a new Privileged Enterprise commences in the "Year of Commencement." This year is the later of (1) the year in which taxable income is first generated by a company, or (2) a year selected by the company for commencement, on the condition that the company meets certain provisions provided by the Investment Law (Year of

Election).

77

---

Tax benefits are available under the 2005 Amendment to production facilities (or other eligible facilities), which are generally required to derive more than 25% of their business income from export. In order to receive the tax benefits, the 2005 Amendment states that a company must make an investment in the Beneficiary Enterprise exceeding a certain percentage or a minimum amount specified in the Investments Law. Such investment may be made over a period of no more than three years ending at the end of the year in which the company requested to have the tax benefits apply to the Beneficiary Enterprise, or the Year of Election. Where the company requests to have the tax benefits apply to an expansion of existing facilities, then only the expansion will be considered a Beneficiary Enterprise and the company's effective tax rate will be the result of a weighted average of the applicable rates. In this case, the minimum investment required in order to qualify as a Beneficiary Enterprise is required to exceed a certain percentage or a minimum amount of the company's production assets at the end of the year before the expansion.

The duration of tax benefits is subject to a limitation of the earlier of seven to ten years from the Commencement Year, or twelve years from the first day of the Year of Election. The Commencement Year is defined as the later of (a) the first tax year in which a company had derived income for tax purposes from the Beneficiary Enterprise or (b) the year in which a company requested to have the tax benefits apply to the Beneficiary Enterprise - Year of Election. The tax benefits granted to a Beneficiary Enterprise are determined, as applicable to its geographic location within Israel, according to one of the following new tax routes:

- Exemption from corporate tax on undistributed income for a period of two to ten years, depending on the geographic location of the Beneficiary Enterprise within Israel, and a reduced corporate tax rate of 10% to 25% for the remainder of the benefits period, depending on the level of foreign investment in each year. Benefits may be granted for a term of seven to ten years, depending on the level of foreign investment in the company. If the company pays a dividend out of income derived from the Beneficiary Enterprise during the tax exemption period, such income will be subject to corporate tax at the applicable rate (10%-25%) in respect of the gross amount of the dividend that may be distributed. The company is required to withhold tax at the source at a rate of 15% from any dividends distributed from income derived from the Beneficiary Enterprise;
- A special tax route, which enables companies owning facilities in certain geographical locations in Israel to pay corporate tax at the rate of 11.5% on income of the Beneficiary Enterprise. The benefits period is ten years. Upon payment of dividends, the company is required to withhold tax at source at a rate of 15% for Israeli residents and at a rate of 4% for foreign residents.

The benefits available to a Privileged Enterprise are conditioned upon terms stipulated in the Investment Law. If we do not fulfill these conditions, in whole or in part, the benefits can be cancelled and we may be required to refund the amount of the benefits, linked to the Israeli consumer price index plus interest. We believe that our Privileged Enterprise programs currently operate in compliance with all applicable conditions and criteria, but we cannot assure you that they will continue to do so.

#### Reform of the Investments Law

On December 29, 2010, the Israeli parliament approved an amendment to the Investments Law, effective as of January 1, 2011, which constitutes a reform of the incentives regime under such law. This amendment revises the objectives of the Investments Law to focus on achieving enhanced growth in the business sector, improving the Israeli industry's competitiveness in international markets and creating employment and development opportunities in remote areas of Israel. The amendment allows enterprises meeting certain required criteria to enjoy grants as well as tax benefits. The amendment also introduces certain changes to the map of geographic development areas for purposes of the Investments Law, which will take effect in future years. The amendment generally abolishes the previous tax benefit routes that were afforded under the Investment Law, specifically the tax-exemption periods previously allowed, and introduces new tax benefits for industrial enterprises meeting the criteria of the law, which include the following:

- A reduced corporate tax rate for industrial enterprises, provided that more than 25% of their annual income is derived from export, which will apply to the enterprise's entire preferred income so that in the tax years 2011-2012 the reduced tax rate will be 10% for preferred income derived from industrial facilities located in development area A and 15% for those located elsewhere in Israel, in the tax years 2013-2014 the reduced tax rate will be 7% for development area A and 12.5% for the rest of Israel, and in the tax year 2015 and onwards the reduced tax rate will be 6% for development area A and 12% for the rest of Israel.

- The reduced tax rates will no longer be contingent upon making a minimum qualifying investment in productive assets.
- A definition of “preferred income” was introduced into the Investments Law to include certain types of income that are generated by the Israeli production activity of a preferred enterprise.
- A reduced dividend withholding tax rate of 15% will apply to dividends paid from preferred income to both Israeli and non-Israeli investors, with an exemption from such withholding tax applying to dividends paid to an Israeli company.
- A special tax benefits route will be granted to certain industrial enterprises entitling them to a reduced tax rate of 5% for preferred income derived from industrial facilities located in development area A and 8% for those located elsewhere in Israel, provided certain threshold requirements are met and such enterprise can demonstrate its significant contribution to Israel’s economy and promotion of national market objectives.

A Preferred Company (as defined in the Investments Law) may generally elect to apply the provisions of the amendment to preferred income produced or generated by it commencing from January 1, 2011. The amendment provides various transitional provisions which allow, under certain circumstances, to apply the new regime to investment programs previously approved or elected under the Investments Law in its previous form, or to continue existing investment programs under the provisions of the Investment Law in its previous form for a certain period of time.

The subsidiaries decided to adopt the law's instructions at its wording upon its correction starting from 2011.

#### Taxation of Non-Israeli Subsidiaries

Non-Israeli subsidiaries are generally taxed based upon tax laws applicable in their countries of residence. In accordance with the provisions of Israeli-controlled foreign corporation rules, certain income of a non-Israeli subsidiary, if the subsidiary’s primary source of income is passive income (such as interest, dividends, royalties, rental income or income from capital gains), may be deemed distributed as a dividend to the Israeli parent company and consequently is subject to Israeli taxation. An Israeli company that is subject to Israeli taxes on such deemed dividend income of its non-Israeli subsidiaries may generally receive a credit for non-Israeli income taxes paid by the subsidiary in its country of residence or are to be withheld from the actual dividend distributions.

#### Taxation of our shareholders

##### Taxation of non-Israeli shareholders on receipt of dividends.

As of the beginning of 2012, non-residents of Israel are generally subject to Israeli income tax on the receipt of dividends paid on our ordinary shares at the rate of 25%, which tax will be withheld at the source, unless a different rate is provided in a treaty between Israel and the shareholder’s country of residence. With respect to a person who is a “substantial shareholder” at the time receiving the dividend or on any date in the 12 months preceding such date, the applicable tax rate is 30%. A “substantial shareholder” is generally a person who alone, or together with his relative or another person who collaborates with him on a permanent basis, hold, directly or indirectly, at least 10% of any of the “means of control” of the corporation. “Means of control” generally include the right to vote, receive profits, nominate a director or an officer, receive assets upon liquidation, or order someone who holds any of the aforesaid rights how to act, and all regardless of the source of such right. Under the U.S.-Israel Tax Treaty, the maximum rate of tax withheld in Israel on dividends paid to a holder of our ordinary shares who is a U.S. resident (for purposes of the U.S.-Israel Tax Treaty) is 25%. However, generally, the maximum rate of withholding tax on dividends that are paid to a U.S.

corporation holding 10% or more of our outstanding voting capital throughout the tax year in which the dividend is distributed as well as the previous tax year is 12.5% , provided, however, that no more than 25% of our gross income for such previous tax year (if any) consists of interest or dividends (other than dividends or interest received from subsidiary corporations, 50% or more of the outstanding shares of the voting stock of which is owned by us at the time such dividends or interest is received). We cannot assure you that we will designate the profits that are being distributed in a way that will reduce shareholders' tax liability.

A distribution of dividend to non Israeli resident from income attributed to an Benefited Enterprise/ Preferred Enterprise will be generally subject to withholding tax rates of 15%, subject to a reduced rate under the provisions of any applicable double tax treaty.

A non-resident of Israel who receives dividends from which tax was withheld is generally exempt from the duty to file returns in Israel in respect of such income, provided such income was not derived from a business conducted in Israel by the taxpayer, and the taxpayer has no other taxable sources of income in Israel.

#### Capital Gains Taxes Applicable to Non-Israeli Resident Shareholders.

Israeli law generally imposes a capital gains tax on the sale of securities and any other capital asset. Shareholders that are not Israeli residents are generally exempt from Israeli capital gains tax on any gains derived from the sale, exchange or disposition of our ordinary shares provided that (1) such shareholders did not acquire their shares prior to our initial public offering, (2) the shares are listed for trading on the Tel Aviv Stock Exchange, and (3) such gains did not derive from a permanent establishment of such shareholders in Israel. Furthermore, non-Israeli corporations will not be entitled to the foregoing exemptions if Israeli residents (i) hold 25% or more of their means of control (i.e., the right to vote at the general meeting or to nominate directors or the chief executive officer), or (ii) are the beneficiaries of or are entitled to 25% or more of the revenues or profits of such non-Israeli corporation, whether directly or indirectly; In such case, the sale, exchange or disposition of ordinary shares would be subject to Israeli tax, to the extent applicable. However, under the U.S.-Israel Tax Treaty, U.S. resident would be permitted to claim a credit for the Israeli taxes against the U.S. federal income tax impose with respect to the sale, exchange or disposition, subject to the limitations in U.S. laws applicable to foreign tax credits. The U.S.-Israel Tax Treaty does not relate to U.S. state or local taxes. In addition, under the U.S.-Israel Tax Treaty, the sale, exchange or disposition of our ordinary shares by a shareholder who is a U.S. resident (for purposes of the U.S.-Israel Tax Treaty) holding the ordinary shares as a capital asset is exempt from Israeli capital gains tax unless either (i) the shareholder holds, directly or indirectly, shares representing 10% or more of our voting capital during any part of the 12-month period preceding such sale, exchange or disposition or (ii) the capital gains arising from such sale are attributable to a permanent establishment of the shareholder located in Israel. Certain other tax treaties to which Israel is a party also grant exemptions from Israeli capital gains taxes.

#### H. DOCUMENTS ON DISPLAY

We are required to file reports and other information with the Securities and Exchange Commission under the Securities Exchange Act of 1934 and the regulations thereunder applicable to foreign private issuers. Reports and other information filed by us with the Securities and Exchange Commission may be inspected and copied at the Securities and Exchange Commission's public reference facilities described below. We are not required to file periodic information as frequently or as promptly as United States companies. As a foreign private issuer, we are also exempt from the rules under the Exchange Act prescribing the furnishing and content of proxy statements; and our officers, directors and principal shareholders are exempt from the reporting and other provisions of Section 16 of the Exchange Act.

You may review a copy of our filings with the Securities and Exchange Commission, including any exhibits and schedules, at the Securities and Exchange Commission's public reference facilities at 100 F Street, N.E., Room 1580, Washington, D.C. 20549. You may also obtain copies of such materials at prescribed rates by writing to the Public Reference Section of the Securities and Exchange Commission at 100 F Street, N.E., Washington, D.C. 20549. You may call the Securities and Exchange Commission at 1-800-SEC-0330 for further information on the public reference rooms. As a foreign private issuer we are now required to file through the Securities and Exchange Commission's EDGAR system and our periodic filings are therefore available on the Securities and Exchange Commission's Web site. You may read and copy any reports, statements or other information that we file with the Securities and Exchange Commission at the Securities and Exchange Commission facilities listed above. These Securities and Exchange Commission filings are also available to the public from commercial document retrieval services.

We also files annual and special reports and other information with the Israeli Securities Authority through its fair disclosure electronic system called the MAGNA. You may review these filings on the website of the MAGNA system operated by the Israeli Securities Authority at [www.magna.isa.gov.il](http://www.magna.isa.gov.il) or on the website of the TASE at [www.tase.co.il](http://www.tase.co.il).

## I. SUBSIDIARY INFORMATION

Not Applicable

### ITEM 11. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The principal market risks to which we are exposed as a result of our operations are foreign exchange rate risks and interest rate risks.

#### Foreign exchange rate risk

Although we report our consolidated financial statements in dollars, in 2009, 2010 and 2011, a portion of our revenues and expenses was derived in other currencies. For fiscal years 2009, 2010 and 2011, we derived approximately 9.2%, 8.3% and 8.9% of our revenues in dollars, 45.5%, 43.1% and 44.5% in NIS, 36.7%, 41.3% and 39.0% in Brazilian Reals and 8.6%, 7.3% and 7.7% in Argentine Pesos, respectively. In fiscal years 2009, 2010 and 2011, 17.2%, 17% and 15% of our expenses were incurred in dollars, 41.2%, 37.9% and 35.2% in NIS, 34.3%, 38.5% and 43.9% in Brazilian Reals and 7.3%, 6.7% and 6.8% in Argentine Pesos, respectively.

Exchange differences upon conversion from our functional currency to dollars are accumulated as a separate component of accumulated other comprehensive income under shareholders' equity. In the year 2011, accumulated other comprehensive income decreased by \$9.0 million compared to the year 2010. In the year 2010, accumulated other comprehensive income increased by \$5.1 million compared to the year 2009. In the year 2009, accumulated other comprehensive income increased by \$5.7 million compared to the year 2008. Exchange differences upon conversion from the functional currency from our other selling and marketing subsidiaries to dollars are reflected in our income statements under financing expenses, net.

The fluctuation of the other currencies in which we incur our expenses or generate revenues against the NIS or the dollar has had the effect of increasing or decreasing (as applicable) reported revenues, cost of revenues and operating expenses in such foreign currencies when converted into dollars from period to period. The following table illustrates the effect of the changes in exchange rates on our revenues, gross profit and operating income for the periods indicated:

	Year Ended December 31,							
	2008		2009		2010		2011	
	Actual	At 2007 exchange rates(1)	Actual	At 2008 exchange rates(1)	Actual	At 2009 exchange rates(1)	Actual	At 2010 exchange rates(1)
	(In thousands)							
Revenues	\$ 132,616	\$ 122,064	\$ 121,381	\$ 131,327	\$ 147,825	\$ 140,521	\$ 160,167	\$ 154,864
Gross profit	63,619	57,235	60,559	66,555	72,651	68,574	79,432	76,284
Operating income	25,660	22,366	24,382	27,492	30,668	28,775	26,583	25,557

(1) Based on average exchange rates during the period.

Our policy remains to reduce exposure to exchange rate fluctuations by entering into foreign currency forward transactions that qualify as hedging transactions under ASC Topic 815, "Derivatives and Hedging" the results of which are reflected in our income statements as revenues or cost of revenues. From time to time, we enter into such forward contracts generally of 3 to 18 months' duration in order to hedge a portion of our foreign currency risk on the subscription fees payable in connection with our location-based services. The result of these transactions, which are affected by fluctuations in exchange rates, could cause our revenues, cost of revenues, gross profit and operating income to fluctuate. However, during 2010, usage of such derivatives was limited. See Note 20 to our consolidated financial statements included elsewhere in this report.

Set forth below is the composition of the derivative financial instruments at the following dates:

	As of December 31,					
	2009		2010		2011	
	Par* Value	Fair Value	Par Value	Fair Value	Par Value	Fair Value
	(In USD thousands)					
Forward contracts on exchange rate (buy NIS and sell US\$)	6,000	14	10,000	32	-	-
Forward contracts on exchange rate (buy US\$ and sell NIS)	4,500	122	-	-	-	-
Total	10,500	136	10,000	32	-	-

\*Par value information is based on the foreign exchange rate at year end

#### Interest rate risk

We invest our cash balances primarily in NIS, Brazilian real and Argentine peso bank deposits and therefore, we are exposed to interest rate fluctuation in those currencies. , but we do not believe such risks to be material. We do not use derivative financial instruments to limit exposure to interest rate risk.

CONTROLS AND PROCEDURES

(A) Disclosure Controls and Procedures

Our co-chief executive officers and chief financial officer, after evaluating the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended) as of December 31, 2011, have concluded that, as of such date, our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our co-chief executive officers and chief financial officer, to allow timely decisions regarding required disclosure and is recorded, processed, summarized and reported within the periods specified by the SEC's rules and forms.

(B) Management's Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over our financial reporting. Internal control over financial reporting is designed to provide reasonable assurance to our management and the board of directors regarding the reliability of financial reporting and the preparation and fair presentation of published financial statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurances with respect to financial statement preparation and presentation. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may decline. Our management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2011. In making this assessment, it used the criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

Management performed an assessment of the effectiveness of the Company's internal control over financial reporting as of December 31, 2011, utilizing the criteria described above. The objective of this assessment was to determine whether the Company's internal control over financial reporting was effective as of December 31, 2011. Based on such assessment, management has concluded that, as of December 31, 2011, the Company's internal control over financial reporting is effective based on those criteria.

Change in Internal Control over Financial Reporting

There have not been any changes in our internal control over financial reporting during the year ended December 31, 2011 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

(C) Attestation Report of the Registered Public Accounting Firm.

ITEM 16. [RESERVED]

ITEM 16A. AUDIT COMMITTEE FINANCIAL EXPERT

Our board of directors determined that Mr. Israel Baron, one of our independent directors, is an “audit committee financial expert”, as defined by the applicable regulations promulgated under Section 407 of the Sarbanes-Oxley Act. For information concerning the experience of Mr. Baron, please refer to Item 6.A – Directors and Senior Management, above.

ITEM 16B. CODE OF ETHICS

In 2005, we adopted a Code of Ethics that applies to our senior management, including chief executive officer, chief financial officer, internal auditor and other individuals performing similar functions. This code of ethics has been posted on our website at [www.ituran.com](http://www.ituran.com).

ITEM 16C. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Fahn Kanne & Co., a member firm of Grant Thornton International has served as our independent public accountants for each of the fiscal years ended in the two-year period ended December 31, 2011, and were re-elected by our shareholders until the next general meeting of the shareholders. The following table presents aggregate fees for professional audit services and other services rendered by Fahn Kanne & Co., for the year ended December 31:

	2010	2011
Audit Fees	200	248
Audit Related Fees	-	-
Tax Fees	4	42
All Other Fees	21	52
Total	225	342

The audit fees for the years ended December 31, 2010 and 2011, respectively, were for professional services rendered for the audits of our annual consolidated financial statements, review of consolidated quarterly financial statements, statutory audits of Ituran, consent and assistance with review of documents filed with the SEC.

Tax fees for the years ended December 31, 2010 and 2011, respectively, were for services related to tax compliance, including the preparation of tax returns and claims for refund; tax planning and tax advice, including assistance with tax audits.

Other fees for the year ended December 31, 2010 and 2011, were for services related to correspondences with the SEC; assistance in respect of legal claims against us and due diligence examination of investment opportunities.

Our audit committee has pre-approved certain audit and non-audit services provided by Fahn Kanne & Co. during the years 2010 and 2011, up to a certain amount.

ITEM 16D. EXEMPTIONS FROM THE LISTING STANDARDS FOR AUDIT COMMITTEES

Not Applicable.

ITEM 16E. PURCHASES OF EQUITY SECURITIES BY THE ISSUER AND AFFILIATED PURCHASERS

During 2011, the Company did not purchase any of its shares

ITEM 16F. CHANGES IN REGISTRANT'S CERTIFYING ACCOUNTANT

Not applicable.

ITEM 16G. CORPORATE GOVERNANCE

Under NASDAQ Marketplace Rule 5615(a)(3), or Rule 5615(a)(3), foreign private issuers, such as our company, are permitted to follow certain home country corporate governance practices instead of certain provisions of Rule 5615(a)(3). A foreign private issuer that elects to follow a home country practice instead of any of such provisions of Rule 5615(a)(3), must submit to NASDAQ, in advance, a written statement from an independent counsel in such issuer's home country certifying that the issuer's practices are not prohibited by the home country's laws. In reliance upon Rule 5615(a)(3), as a foreign private issuer, we have elected to follow our home country practices, absent home country rules requiring otherwise, in lieu of certain Nasdaq Marketplace Rules. Specifically, in Israel, it is not required that a public company have (i) a majority of its board of directors be independent, (ii) an audit committee comprised solely of members who are able to read and understand fundamental financial statements or (iii) a nominating committee. As a result, we have elected to follow Israeli law regarding independence requirements of our Board of Directors and the composition of our Board of Directors will remain as is. See "External directors" above. Similarly, we have elected to follow Israeli law with regard to the composition of our existing audit committee, which has three independent (as defined in Marketplace Rule 5615(a)(3) members, two of whom are "external directors" under the Israeli Companies Law and meet the requirements of Nasdaq Marketplace Rule 5605(c)(2)(A)(ii)) and at least one of which meets the requirement of the Directive of the Israel Securities Authority that one non-employee member has "financial and accounting skills" to, among other things, understand, on a high level, matters relating to business, accounting, internal auditing and financial statements. See also "Audit Committees" above. In addition, our Board of Directors will not appoint a nominating committee and, instead, elects to follow Israeli law, which provides that a company may determine its method of nominating its directors. In our case, Board of Directors members (other than the External Directors) are nominated by our Board of Directors, as is the custom in Israel. By law, shareholders holding at least 1% of a company's voting rights may nominate directors and our company complies with this law.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM  
TO THE STOCKHOLDERS OF  
ITURAN LOCATION AND CONTROL LTD.

We have audited the accompanying consolidated balance sheets of Ituran Location and Control Ltd. and Subsidiaries (the "Company") as of December 31, 2011 and 2010, and the related consolidated statements of income, changes in equity and cash flows for each of the three years in the period ended December 31, 2011. These financial statements are the responsibility of the Board of Directors and management of the Company. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We did not audit the financial statements of Ituran Argentina S.A. (Ituran Argentina), a subsidiary of the Company, which statements reflect total assets of 10.6% and 7.6% as of December 31, 2011 and 2010, respectively, and total revenues of 7.7% and 7.3% for the years ended December 31, 2011 and 2010, respectively, of the related consolidated totals. We also did not audit the financial statements of Teleran Holding Ltda. (Teleran) and Ituran Argentina, subsidiaries of the Company, which statements reflect total revenues of 41%, for the year ended December 31, 2009, of the related consolidated totals. Those financial statements were audited by other auditors, whose reports thereon have been furnished to us, and our opinion insofar as it relates to the amounts included for Teleran and Ituran Argentina, is based solely on the reports of the other auditors.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Board of Directors and management of the Company, as well as evaluating the overall financial statement presentation. We believe that our audits and the reports of the other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the reports of the other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Ituran Location and Control Ltd. and Subsidiaries as of December 31, 2011 and 2010, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2011, in conformity with accounting principles generally accepted in the United States of America.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2011, based on criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway

Commission (COSO) and our report dated April 30, 2012 expressed an unqualified opinion.
