Item 1.01. Conflict Minerals Disclosure and Report

Eltek Ltd. (“Eltek”, “we” or “our”) has evaluated its current product lines and determined that certain products that we manufacture or contract to manufacture contain tin, tungsten, tantalum, or gold, which are defined as “Conflict Minerals” by the United States Securities and Exchange Commission, that are necessary to the functionality or production of our products. Accordingly, Eltek is filing this disclosure along with a Conflict Minerals Report to disclose the measures we have taken to determine the origin of the Conflict Minerals used in our products.

Conflict Minerals Disclosure

We undertook due diligence measures, including surveying our direct suppliers via an industry-standard survey template for Conflict Minerals, to try to determine the sources of these minerals, which we purchase through a complex supply chain.

Currently, we do not have sufficient information from our suppliers or other sources to determine the country of origin of the Conflict Minerals used in our products or identify the facilities used to process those Conflict Minerals. Therefore, we cannot exclude the possibility that some of these Conflict Minerals may have originated in the Democratic Republic of the Congo or an adjoining country and are not from recycled or scrap sources.

A copy of Eltek’s Conflict Minerals Report for the reporting period from January 1, 2017 to December 31, 2017 is filed as Exhibit 1.01 hereto and is publicly available on our website at <http://www.nisteceltek.com/investor-info/conflict-minerals-report/>. The content of any website referred to in this Form SD is included for general information only and is not incorporated by reference in this Form SD.

Item 2.01. Exhibits

The following exhibit is filed as part of this report:

Exhibit 1.01 – Conflict Minerals Report as required by Items 1.01 and 1.02 of this Form.
