Crown Equity Holdings, Inc.
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 1 - BASIS OF PRESENTATION

The accompanying unaudited interim consolidated financial statements of Crown Equity Holdings Inc. ("Crown Equity") have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission, and should be read in conjunction with the audited consolidated financial statements and notes thereto contained in Crown Equity's December 31, 2010 Annual Report filed with the SEC on Form 10-K. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosure contained in the audited financial statements for the most recent fiscal year end December 31, 2010 as reported on Form 10-K, have been omitted. Certain prior period amounts have been reclassified to conform to current period presentation.

NOTE 2 - GOING CONCERN

As shown in the accompanying financial statements, Crown Equity has an accumulated deficit of \$7,526,194 as of September 30, 2011. Unless profitability and increase in shareholders equity continues, these conditions raise substantial doubt as to Crown Equity's ability to continue as a going concern. The financial statements do not include any adjustments that might be necessary if Crown Equity is unable to continue as a going concern.

NOTE 3 – MARKETABLE SECURITIES

Marketable securities are classified as available-for-sale and are presented in the balance sheet at fair market value.

Per Accounting Standards Codification 820 "Fair Value Measurement", fair values defined establishes a framework for measuring fair value under generally accepted accounting principles and expands disclosures about fair value measurements. ASC 820 does not require any new fair value measurements.

ASC 820 establishes a valuation hierarchy for disclosure of the inputs to valuation used to measure fair value. This hierarchy prioritizes the inputs into three broad levels as follows:

Level 1: Quoted market prices in active markets for identical assets or liabilities

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data

Level 3: Unobservable inputs that are not corroborated by market data

Crown Equity has classified these marketable securities at level 1 with a fair value of \$837,400 and \$1,295,751 as of September 30, 2011 and December 31, 2010, respectively.

Per Accounting Standards Codification 825 “The Fair Value Option for Financial Assets and Financial Liabilities—Including an Amendment of FASB Statement No. 115”, an entity is permitted to irrevocably elect fair value on a contract-by-contract basis for new assets or liabilities within the scope of ASC 825 as the initial and subsequent measurement attribute for those financial assets and liabilities and certain other items including property and casualty insurance contracts. Entities electing the fair value option are required to (i) recognize changes in fair value in earnings and (ii) expense any up-front costs and fees associated with the item for which the fair value option is elected. Entities electing the fair value option are required to distinguish, on the face of the statement of financial position, the fair value of assets and liabilities for which it has elected the fair value option, and similar assets and liabilities measured using another measurement attribute. An entity can accomplish this either by reporting the fair value and non-fair-value carrying amounts as separate line items or by aggregating those amounts and disclosing parenthetically the amount of fair value included in the aggregate amount.

Crown Equity adopted ASC 825 during the third quarter of fiscal 2009 and elected the fair value option for their marketable securities. The related gain/loss based on valuation on the mark to market each balance sheet date is reflected in the income statement.

NOTE 4 – REVENUE RECOGNITION

The Company provides various consulting services to companies and individuals dealing with corporate structure and operations globally. Crown Equity’s revenue is recognized pursuant to ASC 605 “Revenue Recognition.” The Company recognizes its revenue from services as those services are performed. Revenue recognition is limited to the amount that is not contingent upon delivery of any future product or service or meeting other specified performance conditions. Product sales, accounted for within fulfillment services, are recognized upon shipment to the customer and satisfaction of all obligations.

Contract revenues include royalties under license and collaboration agreements. Contract revenue related to technology licenses is fully recognized only after the license period has commenced, the technology has been delivered and no further involvement of Crown Equity is required.

Crown Equity receives payment for its services in both cash and equity instruments issued by the customer. The equity instruments are accounted for in accordance with the provisions of ASC 718 “Compensation – Stock Compensation” and is based on the fair value of the consideration received or the fair value of the equity instrument issued, whichever is more reliably measurable. The measurement date of the fair value of the equity instrument issued is the date on which they are received by Crown Equity.

Amounts received for revenue not earned as of period end are accounted for as deferred revenues. As of September 30, 2011 and December 31, 2010, there was \$95,940 and \$216,095, respectively of deferred revenue.

NOTE 5 - RELATED PARTY TRANSACTIONS

On December 2, 2009, the Company signed a one year lease for 2,400 square feet of office space. The rent for the space is \$2,400 per month. The landlord is related to one of the officers of the Company. The lease was renewed on January 1, 2011 for one more year.

On November 20, 2009, the Company converted accounts payable and advances from Montse Zaman, a related party, of \$71,184 to a three-year unsecured note maturing on November 19, 2012. As of September 30, 2010 the balance increased by \$10,000 to \$81,184. During the period ending September 30, 2010 the amount outstanding was reduced by a payment of \$2,000 to \$79,184. Interest is incurred at 12% per annum unless the principal and interest are not paid by maturity at which time the interest rate accelerates to 18% per annum.

During the quarter ended March 31, 2007, the Company borrowed \$12,700 from Phoenix Consulting Services Inc. controlled by a related party. The loan is unsecured and matured on April 1, 2008 and accrued interest at 12% per annum. The note may be converted into common shares of the company at the holder's option at a conversion price to be determined in the future. Amounts outstanding under this agreement subsequent to April 1, 2008 accrued interest at 18% per annum. On November 20, 2009, the note including principal and interest totaling \$16,025 was converted to a long term note due November 19, 2012 with principal and interest due at maturity. If the principal and interest are not paid by maturity, the interest rate accelerates to 18% per annum. As of September 30, 2011 the outstanding principal balance due to the Montse Zaman and Phoenix Consulting Services was \$95,209 plus accrued interest of \$21,703 for a total of \$116,912.

NOTE 6 – EQUITY

During March 2011, Crown Equity designated 1,000,000 of its authorized preferred stock as Series A convertible preferred stock. The Series A has a par value of \$0.001 and each share is convertible into 100 common shares at the option of the holder.

During the nine months ended September 30, 2011, Crown Equity issued 40,538,413 common shares for services with a total value of \$774,420 as follows:

- 20,538,413 shares of common stock for compensation for \$374,420;
- 20,000,000 shares of common stock for consulting services for \$400,000.

During the nine months ending September 30, 2011 the Company issued 600,000 shares of Class A preferred shares for \$600,000 cash. Each share is convertible into 100 common shares at the option of the holder. Crown Equity evaluated the convertible preferred stock under FASB ASC 470-20-30 and determined it contained a beneficial conversion feature. The intrinsic value of the beneficial conversion feature was determined to be \$600,000. The beneficial conversion feature was fully amortized during the nine months ended September 30, 2011 and recorded as a deemed dividend.

NOTE 7 - CONTINGENCIES

In November, 2010, the Company, along with other individuals and entities, was named in a lawsuit filed federal court for the District of Nevada. The amended complaint alleges securities violations, breach of contract and defamation. The Company has engaged legal representation and believes the complaint and its allegations to be wholly without merit. The Company has filed a motion to dismiss and intends to vigorously defend itself in this matter, which the Company believes to be wholly without merit. The lawsuit was settled in July 2011. There is no penalty owed by Crown Equity under the settlement.

NOTE 8 – SUBSEQUENT EVENTS

Crown Equity's actual results could differ materially from those set forth on the forward looking statements as a result of the risks set forth in Crown Equity's filings with the Securities and Exchange Commission, general economic conditions, and changes in the assumptions used in making such forward looking statements.

In December, 2010, the Company formed two wholly owned subsidiaries Crown Tele Services, Inc. and Crown Direct, Inc. Crown Tele Services, Inc. was formed to provide voice over internet ("VoIP") services to clients at a competitive price and Crown Direct, Inc. was formed to provide direct sales to customers. Both entities had minimum sales during the quarter.

In March, 2011, the Company formed a wholly owned subsidiary CRWE Real Estate, Inc. as a subsidiary to engage in potential real estate holdings. The entity had minimal activity during the quarter.

The Company has focused its primary vision to using its network of websites to provide advertising and marketing services, as a worldwide online media advertising publisher, dedicated to the distribution of quality branding information. The Company offers Internet media-driven advertising services, which cover and connect a wide range of marketing specialties, as well as search engine optimization for clients interested in online media awareness. The Company markets its services to companies seeking market awareness of them and the services or goods that they offer. The Company then publishes information concerning these companies on its many websites. The Company is paid in cash and/or stock of the customer companies. The Company has numerous consulting and service customers and is therefore not dependent on any particular customer for a majority of its revenue.

As of September 30, 2011, Crown Equity had 13 employees and utilizing the services of 6 independent contractors and consultants.

RESULTS OF OPERATIONS

For the three and nine month periods ending September 30, 2011, revenues were \$252,510 and \$1,641,389, respectively and for the same periods in 2010, revenues were \$399,395 and \$1,073,383, respectively. Net losses of \$1,597,410 and \$1,567,635 were recorded for the three and nine month periods ending September 30, 2011 compared to net losses of \$141,391 and \$343,049 for the same periods in 2010. The net loss for the three and nine month periods ending September 30, 2011 consisted of operating loss of \$177,284 and \$10,836, respectively. This compared to operating income of \$7,251 and an operating loss of \$54,527 for the same periods in 2010. Other income and expenses for the three and nine month periods ending September 30, 2011 was expense of \$1,420,126 and \$1,556,799, respectively. This compared to other expenses of \$148,642 and \$288,522 for the same periods in 2010. We incurred unrealized loss in the three months ending September 30, 2011 of \$1,401,400 compared to unrealized losses of \$138,349 for the three month in 2010. We incurred unrealized losses of \$1,514,266 for the nine months ended September 30, 2011 and \$307,544 for the three month period in 2010. These unrealized losses were a significant part of the variation in income and losses between periods.

General and administrative expense increased to \$1,632,835 from \$1,019,631 for the nine months ended September 30, 2011 and 2010 and to \$423,227 from \$381,555 for the three month periods. Interest expense incurred during the three and nine month periods ending September 30, 2011 was \$2,937 and \$8,798, respectively, compared \$3,502 and \$9,334 for the same periods in 2010. Crown Equity will attempt to carry out its business plan as discussed above; however, it cannot predict to what extent its capital resources could hinder its business plan.

LIQUIDITY AND CAPITAL RESOURCES

At September 30, 2011, Crown Equity had current assets of \$1,141,547 and current liabilities of \$269,119, resulting in working capital of \$872,428. Stockholders' equity as of September 30, 2011 was \$824,738. The working capital ratio was 4.24 as of September 30, 2011.

Net cash used in operations for the nine months ending September 30, 2011 was \$850,049 compared to net cash used of \$20,798 for the same period in 2010, a change of \$829,251.

Net cash provided by investing activities for the nine months ending September 30, 2011 was \$389,424 compared to net cash used of \$55,735 for the same period in 2010, a change of \$445,159. The cash provided in investing activities was due to the sale of stock received in payment for work completed by the Company.

Net cash provided by financing activities during the nine months ended September 30, 2011 was \$600,000 compared to net cash provided of \$45,213 in 2010, an increase of \$554,787. The change was due primarily to the issuance of Series A convertible preferred shares for \$600,000 during 2011.

Our existing capital may not be sufficient to meet Crown Equity's cash needs, including the costs of compliance with the continuing reporting requirements of the Securities Exchange Act of 1934, as amended. This condition raises substantial doubt as to Crown Equity's ability to continue as a going concern. The financial statements do not include any adjustments that might be necessary if Crown Equity is unable to continue as a going concern.

EMPLOYEES

As of September 30, 2011, Crown Equity had 13 employees.

ITEM 3: CONTROLS AND PROCEDURES

As a "smaller reporting company" as defined by Item 10 of Regulation S-K, Crown Equity is not required to provide information required under this Item.

ITEM 4T: CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures

Based on their evaluation of our disclosure controls and procedures(as defined in Rule 13a-15e under the Securities Exchange Act of 1934 the "Exchange Act"), our principal executive officer and principal financial officer have concluded that as of the end of the period covered by this quarterly report on Form 10-Q such disclosure controls and procedures were not effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms because of the identification of a material weakness in our internal control over financial reporting which we view as an integral part of our disclosure controls and procedures. The material weakness relates to the lack of segregation of duties in financial reporting, as our financial reporting and all accounting functions are performed by an external consultant with no oversight by a professional with accounting expertise. Our CEO and CFO do not possess accounting expertise and our company does not have an audit committee. This weakness is due to the company's lack of working capital to hire additional staff. To remedy this material weakness, we intend to engage another accountant to assist with financial reporting as soon as our finances will allow.

Changes in Internal Control over Financial Reporting

Except as noted above, there have been no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13a-15 or 15d-15 that occurred during our first quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

The Company has filed a motion to dismiss and intends to vigorously defend itself in this matter. The lawsuit was settled during July 2011 with no penalty owed by the Company.

On July 21, 2010 the Company filed an 8-K amending its Articles of Incorporation to increase the number of authorized shares of common stock to 4,900,000,000 and the number of authorized preferred shares to 100,000,000. The Company also affected a 1 share for 10 shares forward split of its common stock.

On March 18, 2011 the Company filed an 8-K that the Board of Directors of the Company approved the filing of an amendment to the Company's previously filed Certificate of Designation for its Series A Preferred Stock. The amendment was filed on March 10, 2011. Previously, the Company had authorized 25,000 shares of its Series A Preferred Stock with each Series A share convertible into ten thousand (10,000) shares of the Company's common stock. The Board of Directors amended the Series A Preferred Stock by increasing the number of shares of the class

to 1,000,000 shares, each convertible into 100 shares of common stock at the holder's option. The Company also reported that it sold 600,000 shares of its Series A Preferred Stock to an unrelated third-party for \$600,000. The terms of the Series A Preferred Stock provide that the holder can convert the Preferred A Shares to common at its option. If the Series A Stock were converted to common stock, the number of common shares issuable would be 60,000,000 shares.
