COMMON STOCK

This prospectus relates to up to 57,500,000 shares of our common stock, par value \$0.0001 per share, 49,556,492 of which we have agreed to issue on behalf of pilots of Delta Air Lines, Inc. and Northwest Airlines, Inc. in connection with the joint collective bargaining agreement that we entered into as part of our merger with Northwest Airlines Corporation. In this prospectus, we sometimes refer to the shares issued on behalf of the pilots as the pilot shares. A financial advisor to the pilots has the ability to instruct us to sell some or all of the pilot shares for the benefit of the pilots or instruct us to distribute the pilot shares directly to the pilots. The shares of common stock offered by this prospectus and any prospectus supplement may be offered directly to investors or to or through underwriters, dealers or other agents. We will only sell shares of our common stock other than the pilot shares offered by this prospectus and any prospectus supplement in order to satisfy an overallotment option in the case of an underwritten offering of the pilot shares. The inclusion of shares of our common stock other than the pilot shares in an underwritten offering will be at our sole option and discretion. As specific transactions occur, some of these transactions may require that we provide a prospectus supplement to describe the terms of the transactions in these shares.

All of the proceeds from the sale of the pilot shares will be delivered:

- to a trust or trusts established on behalf of the pilots for contribution to benefit plan accounts of the pilots or to the pilots directly;
- directly to the benefit plan accounts of the pilots;
- to the pilots directly; or
- any combination of the foregoing.

We will use the proceeds of the sale of any shares other than the pilot shares for general corporate purposes, including working capital needs, unless specified otherwise in a prospectus supplement.

We have agreed to pay all expenses of registration incurred in connection with this offering, except any underwriting discounts, commissions or fees or transfer taxes, if any, attributable to the sale of the pilot shares. We will not retain any proceeds from the sale of the pilot shares.

Our common stock is listed on the New York Stock Exchange under the symbol **DAL**. On November 11, 2008, the last reported sale price of our common stock was \$8.84.

DELTA

General

We and our subsidiaries provide scheduled air transportation for passengers and cargo throughout the United States and around the world. As described below, we recently completed our merger with Northwest Airlines Corporation (Northwest) whereby Northwest and its subsidiary, Northwest Airlines, Inc. (NWA), became wholly owned subsidiaries of Delta to create America's premier global airline.

We operate hubs in the United States in Atlanta, Cincinnati, Detroit, Memphis, Minneapolis/St. Paul, New York-JFK, and Salt Lake City, as well as in Amsterdam and Tokyo-Narita. The combination of Delta's strengths in the south, mountain west and northeast United States, Europe and Latin America and NWA's strengths in the midwest and northwest United States and Asia gives the combined company a presence in every major domestic and international market. Other key characteristics of our route network include:

our alliances with foreign airlines, including Delta's transatlantic joint venture with Air France and NWA's transatlantic joint venture with KLM Royal Dutch Airlines;

our membership in SkyTeam, a global airline alliance with KLM, Air France, Alitalia, Aeromexico, CSA Czech Airlines, Korean Air and Aeroflot; and

agreements with multiple domestic regional carriers, which operate either as Delta Connection or Northwest Airlink, including our wholly-owned subsidiaries, Comair, Inc., Mesaba Aviation, Inc. and Compass Airlines, Inc.

We are a Delaware corporation headquartered in Atlanta, Georgia. Our principal executive offices are located at Hartsfield-Jackson Atlanta International Airport, Atlanta, Georgia 30320-6001 and our telephone number is (404) 715-2600. Our website is www.delta.com. We have provided this website address as an inactive textual reference only and the information contained on our website is not a part of this prospectus.

Merger

On October 29, 2008, our wholly-owned subsidiary, Nautilus Merger Corporation (Merger Sub), merged with and into Northwest in accordance with the Agreement and Plan of Merger, dated as of April 14, 2008, among Delta, Merger Sub and Northwest. As a result of the merger, Northwest and NWA became wholly-owned subsidiaries of Delta. The merger better positions us to manage through economic cycles and volatile fuel prices, to invest in our fleet and to improve services for customers. We believe the merger will generate approximately \$2 billion in annual revenue and cost synergies by 2012 from more effective aircraft utilization, a more comprehensive and diversified route system and cost synergies from reduced overhead and improved operational efficiency.

Issuance of Pilot Shares

Joint Collective Bargaining Agreement

In connection with the merger, we reached a combined collective bargaining agreement with the Air Line Pilots Association, International (ALPA) and the Delta and NWA units of ALPA that covers Delta's and NWA's pilots. The combined agreement became effective on October 30, 2008 and becomes amendable on December 31, 2012. The

Delta Master Executive Council (the Delta MEC), the governing body of the Delta unit of ALPA, and the NWA Master Executive Council (the NWA MEC), the governing body of the NWA unit of ALPA, with the agreement and approval of ALPA, have also agreed to adopt and be bound by a Process Agreement relating to the determination of an integrated seniority list for the combined Delta and NWA pilot groups. The parties to the Process Agreement may not revise, waive any material right under, or terminate the Process Agreement without our consent.

Table of Contents

Pilot Shares and Registration Rights

As a part of our agreement with ALPA, the Delta MEC and the NWA MEC, we have agreed to issue the pilot shares on behalf of Delta pilots who were on the Delta pilot seniority list as of 12:01 a.m. on October 30, 2008 and NWA pilots who were on the NWA pilot seniority list as of 12:01 a.m. on October 30, 2008 in an amount equal to 3.5% and 2.38%, respectively, of our fully-diluted outstanding shares as of the closing of the merger, in each case after giving effect to the shares issued to the Northwest stockholders in the merger (including shares of common stock issued in exchange for shares of Northwest common stock reserved for issuance under Northwest's Chapter 11 plan for reorganization), the shares issued in an employee equity issuance, which includes the issuance of stock to the pilots, and the shares of common stock reserved for issuance under Delta's Chapter 11 plan of reorganization. Any pilot shares we sell under our agreement with ALPA, the Delta MEC and the NWA MEC, including 29,497,912 shares for Delta pilots and 20,058,580 shares for NWA pilots, are covered by the registration statement, of which this prospectus is a part.

Our agreement with ALPA, the Delta MEC and the NWA MEC provides that a financial advisor to the pilots has the ability to instruct us to sell the shares on behalf of the pilots. All of the proceeds (net of underwriting or similar discounts, commissions or fees or transfer taxes, if any, attributable to the sale of the pilot shares) from the sale of the shares of common stock by us pursuant to the registration statement of which this prospectus forms a part will be delivered:

to a trust or trusts established for the benefit of pilots, for contribution to benefit plan accounts of the pilots or to the pilots directly;

directly to the benefit plan accounts of the pilots;

to the pilots directly; or

any combination of the foregoing.

The agreement alternatively provides that the financial advisor may instruct us to issue the pilot shares directly to the pilots.

We will use the proceeds of the sale of any shares other than the pilot shares for general corporate purposes, including working capital needs, unless specified otherwise in a prospectus supplement. We will only sell shares of our common stock other than the pilot shares offered by this prospectus and any prospectus supplement in order to satisfy an overallotment option in the case of an underwritten offering of the pilot shares.

The agreement also provides for registration rights with respect to the pilot shares. As a result, the financial advisor may require us to file a registration statement in respect of all of the pilot shares and undertake as many as three separate registered offerings of the pilot shares. The sale of the pilot shares may occur through an underwriter selected by ALPA's financial adviser.

We are required under our agreement with ALPA, the Delta MEC and the NWA MEC to keep the registration statement effective for one year or until all the registered pilot shares are sold. We are permitted to suspend the use of the registration statement of which this prospectus is a part for an aggregate of 75 days in any 12-month period if the continued use of the registration statement would require us to disclose material non-public information that would (1) impede, delay or otherwise interfere with our ability to complete any pending or contemplated material corporate transaction or adversely affect any material pending or contemplated financing or capital transaction or (2) would be required to be disclosed in this registration statement or other report filed with the SEC so that such registration

statement or report would not be materially misleading, would not be required except for the filing or effectiveness of this registration statement and would have a material adverse effect on us or our business. The period that we will be required to maintain the effectiveness of the registration statement will be extended by the amount of time in which use of the registration statement is suspended.

We have prepared the registration statement of which this prospectus is a part as required by our agreement with ALPA, the Delta MEC and the NWA MEC.

RISK FACTORS

*An investment in our common stock involves certain risks. You should carefully consider the risks described below and the risks described under **Risk Factors** in our most recent Annual Report on Form 10-K and Quarterly Report on Form 10-Q, as well as the other information included or incorporated by reference in this prospectus, before making an investment decision. Our business, financial condition or results of operations could be materially adversely affected by any of these risks. The market or trading price of our common stock could decline due to any of these risks or other factors, and you may lose all or part of your investment.*

The market price of our common stock has been and could remain volatile.

The market price for our common stock has been and may continue to be volatile, and our stock may be subject to price and volume limitations in response to market and other factors. Among the many factors that could affect the market price of our common stock are:

changes in the price or availability of oil or jet fuel;

our quarterly or annual earnings or those of other companies in our industry;

changes in earnings estimates or recommendations by research analysts who track our common stock or the stock of other airlines; and

changes in general conditions in the U.S. and global economy, financial markets or airline industry, including those resulting from changes in fuel prices or fuel shortages, war, incidents of terrorism or responses to such events.

In addition, many of the other risks that are described under the heading **Risk Factors** in our most recent Annual Report on Form 10-K and Quarterly Report on Form 10-Q and any Annual Report or Quarterly Report filed hereafter could also materially and adversely affect our stock price.

In recent years, the stock market has experienced extreme price and volume fluctuations, which have become more pronounced as a result of the recent global financial crisis. This volatility has had a significant impact on the market price of securities issued by many companies, including us and other airlines. The changes in the market prices of securities frequently appear to occur without regard to the operating performance of these companies. The price of our common stock could fluctuate based upon factors that have little or nothing to do with our company, and these fluctuations could materially reduce our stock price.

The price of our common stock may be adversely affected by the issuance and sale of our common stock, including pursuant to this prospectus, or by our announcement that such issuances and sales may occur.

The sale or availability for sale of substantial amounts of our common stock could adversely impact its price. Our certificate of incorporation authorizes us to issue 1,500,000,000 shares of common stock. On November 5, 2008, there were 668,614,768 shares of common stock outstanding; 25,697,689 shares of common stock held in treasury (of which 22,028,242 shares can be issued under Delta's 2007 Performance Compensation Plan); 89,429,648 shares of common stock reserved for issuance pursuant to the reserve created in Delta's Plan of Reorganization under Chapter 11 of the Bankruptcy Code; 8,985,931 shares of common stock reserved for issuance pursuant to the reserve created in Northwest's Plan of Reorganization under Chapter 11 of the Bankruptcy Code; 71,836,877 shares of common stock

reserved for issuance under Delta's 2007 Performance Compensation Plan, not including shares held in treasury that can be issued under the plan; and 7,271,193 shares of common stock reserved for issuance under the Northwest Airlines Corporation 2007 Stock Incentive Plan. Accordingly, a substantial number of shares of our common stock are or could become available for sale under our certificate of incorporation.

We cannot predict the size of future issuances or sales of our common stock (including those made pursuant to this prospectus), or other equity related securities in the public market or the effect, if any, that such issuances or sales may have on the market price of our common stock. Approximately 8.6% of all our shares of common stock outstanding as of November 5, 2008 are registered for sale under the registration statement of which this prospectus is a part. The issuance and sale of substantial amounts of common stock (including issuances and sales pursuant to this prospectus) or other equity related securities, or the perception

Table of Contents

or announcement that such issuances and sales may occur, could adversely affect the market price of our common stock.

FORWARD-LOOKING STATEMENTS

Statements in this prospectus (or otherwise made by us or on our behalf) that are not historical facts, including statements regarding our estimates, expectations, beliefs, intentions, projections or strategies for the future, may be forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. When used in this prospectus, the words expects, plans, anticipates, and similar expressions are intended to identify forward-looking statements. Forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from historical experience or our present expectations. Most of these factors are outside Delta's control and are difficult to predict. Factors that may cause such differences include, but are not limited to:

the possibility that the synergies expected from our merger with Northwest will not be realized, or will not be realized within the expected time period;

the cost of aircraft fuel;

the impact that our indebtedness will have on our financial and operating activities and our ability to incur additional debt;

the restrictions that financial covenants in our financing agreements will have on our financial and business operations;

labor issues;

interruptions or disruptions in service at one of our hub airports;

our increasing dependence on technology in our operations;

our ability to retain management and key employees;

the ability of our credit card processors to take significant holdbacks in certain circumstances;

the effects of terrorist attacks; and

competitive conditions in the airline industry.

The foregoing list of factors is not exclusive. Additional information concerning these and other risk factors are discussed in documents incorporated by reference in this prospectus, including most recent Annual Report on Form 10-K and Quarterly Report on Form 10-Q and any amendments thereto. All forward-looking statements speak only as of the date made, and we undertake no obligation to publicly update or revise any forward-looking statements to reflect events or circumstances that may arise after the date of this prospectus.

USE OF PROCEEDS

All of the proceeds from any sale of the pilot shares (net of underwriting or similar discounts, commissions or fees or transfer taxes, if any, attributable to the sale of the pilot shares) will be delivered:

to a trust or trusts established on behalf of the pilots, for contribution to benefit plan accounts of the pilots or to the pilots directly;

directly to the benefit plan accounts of the pilots;

to the pilots directly; or

any combination of the foregoing.

We have agreed to pay all expenses of registration incurred in connection with this offering, except any underwriting discounts, commissions or fees or transfer taxes, if any, attributable to the sale of the pilot shares.

Table of Contents

We will not retain any proceeds from the sale of the pilot shares. We will use the proceeds of the sale of any shares other than the pilot shares for general corporate purposes, including working capital needs, unless specified otherwise in a prospectus supplement.

DIVIDEND POLICY

We currently do not pay cash dividends on our common stock and have no current intention of doing so. Any future determination to pay cash dividends will be at the discretion of our board of directors, subject to applicable limitations under Delaware law and restrictions in our credit facilities, and will be dependent upon our results of operations, financial condition, contractual restrictions and other factors deemed relevant by our board of directors.

PLAN OF DISTRIBUTION

At the instruction of the financial advisor to ALPA, we may utilize this prospectus to offer the pilot shares in any of three ways or in any combination: (a) through underwriters or dealers; (b) directly to a limited number of purchasers or to a single purchaser; or (c) through agents. We may distribute the securities periodically in one or more transactions at a fixed price or prices, which may be changed, at market prices prevailing at the time of sale, at prices related to those prevailing market prices or at negotiated prices.

If securities are sold by means of an underwritten offering, we will execute an underwriting agreement with an underwriter or underwriters at the time an agreement for such sale is reached, and the names of the specific managing underwriter or underwriters, as well as any other underwriters, the respective amounts underwritten and the terms of the transaction, including commissions, discounts and any other compensation of the underwriters and dealers, if any, will be set forth in the applicable prospectus supplement which will be used by the underwriters to make resales of the securities in respect of which this prospectus is being delivered.

Any offering price and any discounts or concessions allowed or reallocated or paid to dealers may be changed from time to time.

If underwriters are used in the sale of any of the pilot shares, the pilot shares will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The pilot shares may be either offered to the public through underwriting syndicates represented by managing underwriters, or directly by underwriters. Generally, the underwriters' obligations to purchase the pilot shares will be subject to certain conditions precedent. The underwriters will be obligated to purchase all of the pilot shares offered by a prospectus supplement if they purchase any of such pilot shares.

We may grant to the underwriters options to purchase additional securities, to cover over-allotments, if any, at the initial public offering price (with additional underwriting commissions or discounts), as may be set forth in the prospectus supplement relating thereto. If any over-allotment option is granted, the terms of such over-allotment option will be set forth in the prospectus supplement for such securities.

If a dealer is used in the sale of the securities in respect of which this prospectus is delivered, such securities will be sold to the dealer, as principal, and such dealer may receive compensation from the purchasers of shares for whom it may act as agent, in each case, in amounts to be negotiated. We do not expect these discounts and commissions to exceed what is customary in the types of transactions involved. The dealer may also resell such securities to the public at varying prices to be determined by such dealer at the time of resale. Any such dealer may be deemed to be an underwriter, as such term is defined in the Securities Act of 1933, as amended (the Securities Act), of the securities so offered and sold. The name of the dealer and the terms of any resale transaction will be set forth in the prospectus

supplement relating thereto.

At the direction of ALPA's financial advisor, we may solicit directly offers to purchase the pilot shares. We also may sell the pilot shares through agents from time to time. A prospectus supplement will name any

Table of Contents

agent involved in the offer or sale of the pilot shares and any commissions we pay to them. Generally, any agent will be acting on a best efforts basis for the period of its appointment.

At the direction of ALPA's financial advisor, we may authorize underwriters, dealers or agents to solicit offers by certain purchasers to purchase the pilot shares from us at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. The contracts will be subject only to those conditions set forth in the prospectus supplement, and the prospectus supplement will set forth any commissions we pay for solicitation of these contracts.

Agents and underwriters may be entitled to indemnification by us against certain civil liabilities, including liabilities under the Securities Act, or to contribution with respect to payments which the agents or underwriters may be required to make in respect thereof. Agents and underwriters may be customers of, engage in transactions with, or perform services for us in the ordinary course of business.

Until a distribution of the pilot shares is completed, rules of the SEC may limit the ability of underwriters and other participants in an offering to bid for and purchase our common stock. As an exception to these rules, the underwriters in certain circumstances are permitted to engage in certain transactions that stabilize the price of the common stock. Such transactions consist of bids or purchases for the purpose of pegging, fixing or maintaining the price of the common stock. If the underwriters create a short position in the common stock in connection with the offering, *i.e.*, if they sell more shares of common stock than are set forth on the cover page of the applicable prospectus supplement, the underwriters may reduce that short position by purchasing common stock in the open market.

The underwriters also may impose a penalty bid on certain underwriters. This means that if the underwriters purchase common stock in the open market to reduce the underwriters' short position or to stabilize the price of the common stock, they may reclaim the amount of the selling concession from the underwriters who sold those securities as part of the offering. In general, purchases of a security for the purpose of stabilization or to reduce a short position could cause the price of the security to be higher than it might be in the absence of such purchases. These transactions, if commenced, may be discontinued at any time. The imposition of a penalty bid might also have an effect on the price of a security to the extent that it were to discourage resales of the security.

Agents, underwriters, dealers and remarketing firms may be customers of, engage in transactions with, or perform services for, us and our subsidiaries in the ordinary course of business.

We may also offer and sell any shares, other than the pilot shares, covered by the registration statement of which this prospectus forms a part in any of the ways described above. We will only sell shares of our common stock other than the pilot shares offered by this prospectus and any prospectus supplement in order to satisfy an over-allotment option in the case of an underwritten offering of the pilot shares. The inclusion of shares of our common stock other than the pilot shares in an underwritten offering will be at our sole option and discretion.

All of the pilot shares will be listed on the New York Stock Exchange. Any underwriters to whom the pilot shares are sold may make a market in our common stock. However, those underwriters will not be obligated to do so and may discontinue any market making at any time without notice.

VALIDITY OF SECURITIES

Unless we tell you otherwise in the applicable prospectus supplement, the validity of the securities offered hereby will be passed upon for us by Richard B. Hirst, Senior Vice President – General Counsel of Delta and for any agents, underwriters or dealers by counsel that we may name in the applicable prospectus supplement. Mr. Hirst owns 322,219 shares of common stock and holds options to purchase 247,823 shares of common stock.
