Forward-Looking Statements

Certain statements in this press release that are not historical facts may constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and are intended to be covered by the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements involve risks and uncertainties. These statements include, among others, statements regarding our strategy, evaluations of future interest rate trends and liquidity, prospects for growth in assets, and prospects for overall results over the long term. You should not place undue reliance on our forward-looking statements. You should exercise caution in interpreting and relying on forward-looking statements because they are subject to significant risks, uncertainties and other factors which are, in some cases, beyond the Company's control. Forward-looking statements are based on the current assumptions and beliefs of management and are only expectations of future results. The Company's actual results could differ materially from those projected in the forward-looking statements as a result of, among other factors, adverse conditions in the capital and debt markets and the impact of such conditions on the Company's private banking, investment management and wealth advisory activities; changes in interest rates; competitive pressures from other financial institutions; the effects of continued weakness in general economic conditions on a national basis or in the local markets in which the Company operates, including changes which adversely affect borrowers' ability to service and repay our loans; changes in loan defaults and charge-off rates; changes in the value of securities and other assets, adequacy of loan loss reserves, or decreases in deposit levels necessitating increased borrowing to fund loans and investments; increasing government regulation; the risk that goodwill and intangibles recorded in the Company's financial statements will become impaired; the risk that the Company's deferred tax asset may not be realized; risks related to the identification and implementation of acquisitions, dispositions and restructurings; changes in assumptions used in making such forward-looking statements; and the other risks and uncertainties detailed in the Company's Annual Report on Form 10-K and updated by the Company's Quarterly Reports on Form 10-Q; and other filings submitted to the Securities and Exchange Commission. Forward looking statements speak only as of the date on which they are made. The Company does not undertake any obligation to update any forward-looking statement to reflect circumstances or events that occur after the date the forward-looking statements are made.

FOOTNOTES:

On December 17, 2012, Boston Private Bank & Trust Company announced that it had entered into an agreement to sell its three offices in the Pacific Northwest region. The sale closed in May 2013. Accordingly, the assets and liabilities to be sold as part of this transaction have been classified as held for sale at March 31, 2013. Within loans held for sale on the consolidated balance sheet, \$273.6 million of the balance at March 31, 2013 relate to the Pacific Northwest transaction. All of the deposits held for sale at March 31, 2013 relate to the Pacific Northwest transaction. All other assets and liabilities that were identified to be included in the Pacific Northwest transaction have been classified as other assets held for sale or other liabilities held for sale and are included within other assets or other liabilities on the consolidated balance sheet at March 31, 2013.

Net income from discontinued operations consists of contingent payments from certain of our divested affiliates, including Davidson Trust Company; Boston Private Value Investors, Inc.; Sand Hill Advisors, LLC; RINET Company, LLC; Gibraltar Private Bank & Trust Company; and Westfield Capital Management Company, LLC.

Adjustments to net income attributable to the Company to arrive at net income attributable to the common shareholders, as presented in these tables, include decrease/ (increase) in noncontrolling interests redemption value, dividends paid on preferred stock, and dividends on participating securities. In the second quarter of 2013, the Company repurchased its Series B Preferred stock, and the deemed dividend related to the repurchase of \$11.7 million is considered a dividend for the calculation of earnings per share.

When the Company has positive net income from continuing operations attributable to the common shareholders, the Company adds additional shares to basic weighted average shares outstanding to arrive at diluted weighted average shares outstanding for the diluted earnings per share calculation. These additional shares reflect the assumed exercise, conversion, or contingent issuance of dilutive securities. If the additional shares would result in anti-dilution they would be excluded from the diluted earning per share calculation. The potential dilutive shares relate to: unexercised stock options, unvested non-participating restricted stock, unexercised stock warrants, and unconverted convertible trust preferred securities. The amount of shares that were anti-dilutive for the three and six months ended June 30, 2013 was less than 0.1 million. The amount of shares that were anti-dilutive for the three months ended March 31, 2013 was less than 0.1 million. The amount of shares that were anti-dilutive for the three and six months ended June 30, 2012 was 1.3 million. See Part II. Item 8. "Financial Statements and Supplementary Data - Note 16: Earnings Per Share" in the Company's Annual Report on Form 10-K for the year ended December 31, 2012 for additional information.

Interest income on non-taxable investments and loans are presented on an FTE basis using the federal statutory rate of 35% for each period presented.

Includes Loans Held for Sale and Nonaccrual Loans.

Includes Deposits Held for Sale.

The concentration of the Private Banking loan data and credit quality is primarily based on the location of the lender's regional offices. Loans in the Pacific Northwest region not expected to be included the sale of that region's offices at March 31, 2013 were included with the offices from which they will be managed after the sale. Net loans from the Holding Company to certain principals of the Company's affiliate partners, loans at the Company's non-banking segments, and inter-company loan eliminations are identified as "Eliminations and other, net".

Accruing substandard loans include loans that are classified as substandard but are still accruing interest income. (9) The Bank may classify a loan as substandard where known information about possible credit problems of the related borrowers causes management to have doubts as to the ability of such borrowers to comply with the present repayment terms and which may result in disclosure of such loans as nonaccrual at some time in the future.

In addition to loans 30-89 days past due and accruing, at June 30, 2013, the Company had one loan totaling less than \$0.1 million that was more than 90 days past due but still on accrual status. At March 31, 2013, the Company (10) had one loan totaling \$0.1 million that was more than 90 days past due but still on accrual status. At June 30, 2012, the Company had two loans totaling less than \$0.1 million that were more than 90 days past due but still on accrual status. At all periods presented, these loans originated in the New England region.
