Form 10-K
April 13, 2018

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, DC 20549

Form 10-K

Annual Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the fiscal year ended January 28, 2018

Commission file number 000-25349

HOOKER FURNITURE CORPORATION
(Exact name of registrant as specified in its charter)

Virginia 54-0251350
(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification Number)

440 East Commonwealth Boulevard, Martinsville, VA 24112
(Address of principal executive offices, Zip Code)

(276) 632-2133
(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of Each Class</u>	<u>Name of Each Exchange on Which Registered</u>
Common Stock, no par value	NASDAQ Global Select Market

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.
Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Edgar Filing: HOOKER FURNITURE CORP - Form 10-K

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or emerging growth company. See the definitions of "large accelerated filer," "accelerated filer", "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated Filer Accelerated Filer

Non-accelerated Filer Smaller reporting company

(Do not check if a smaller reporting company) Emerging growth company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

State the aggregate market value of the voting and non-voting common equity held by non-affiliates computed by reference to the price at which the common equity was last sold, or the average bid and asked price of such common equity, as of the last business day of the registrant's most recently completed second fiscal quarter: \$475.7 million.

Indicate the number of shares outstanding of each of the registrant's classes of common stock as of April 6, 2018:

Common stock, no par value 11,762,409

(Class of common stock) (Number of shares)

Documents incorporated by reference: Portions of the registrant's definitive Proxy Statement for its Annual Meeting of Shareholders scheduled to be held June 5, 2018 are incorporated by reference into Part III.

Table of Contents

All references to 2018, 2017, 2016, 2015 and 2014 or other years are referring to our fiscal years, unless otherwise stated. Our fiscal years end on the Sunday closest to January 31, with fiscal 2018 ending on January 28, 2018. Our quarterly periods are based on thirteen-week “reporting periods” (which end on a Sunday) rather than quarterly periods consisting of three calendar months. As a result, each quarterly period generally is thirteen weeks, or 91 days, long, except as noted above and below. In some years (generally once every six years) the fourth quarter will be fourteen weeks long and the fiscal year will consist of fifty-three weeks. The 2013 fiscal year that ended on February 3, 2013 was a 53-week fiscal year.

During fiscal 2018, we acquired substantially all of the assets and assumed certain liabilities of Shenandoah Furniture, Inc. (“SFI”). The results of operations of Shenandoah are included in our results beginning on September 29, 2017 (the date of the acquisition) through the end of 2018 fiscal year. Consequently, comparable prior-year information for Shenandoah is not included in the financial statements presented in this report. We acquired the assets and certain liabilities of Home Meridian International, Inc. (“HMI”) on February 1, 2016, the first day of our 2017 fiscal year. Consequently, Home Meridian’s results are not included in our results prior to the 2017 fiscal year.

All references to the “Company,” “we,” “us” and “our” in this document refer to Hooker Furniture Corporation and its consolidated subsidiaries, unless specifically referring to segment information. All references to the “Hooker”, “Hooker Division”, “Hooker Brands” or “traditional Hooker” divisions or companies refer to the current components of our Hooker Branded segment and All Other which includes Bradington-Young, Sam Moore, Shenandoah Furniture and H Contract.

References to the “Shenandoah acquisition” refer to the recently completed acquisition of substantially all of the assets of Shenandoah Furniture, Inc. on September 29, 2017. References to the “HMI acquisition” refer to the acquisition of substantially all of the assets of Home Meridian International, Inc. on February 1, 2016.

References in this document to “SFI” refer to the counterparties to the asset purchase agreement, Shenandoah Furniture, Inc. and its two former shareholders, entered into on September 6, 2017. References in this document to “Shenandoah” or “Shenandoah Furniture” refer to the business operations of SFI acquired by us on September 29, 2017. References in this document to “HMI” refer to Home Meridian International, Inc., the counter-party to the asset purchase agreement we entered into on January 6, 2016. References in this document to “Home Meridian” or “Home Meridian segment” refer to the business operations and operating segment that was created upon the closing of the asset purchase agreement on February 1, 2016.

Forward-Looking Statements

Certain statements made in this report, including statements under Part II, Item 7. “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and in the notes to the consolidated financial statements included in this report, are not based on historical facts, but are forward-looking statements. These statements reflect our reasonable judgment with respect to future events and typically can be identified by the use of forward-looking terminology such as “believes,” “expects,” “projects,” “intends,” “plans,” “may,” “will,” “should,” “would,” “could” or “anticipates,” or other variations thereof, or other variations thereon, or comparable terminology, or by discussions of strategy.

Forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements. Those risks and uncertainties include but are not limited to:

§ general economic or business conditions, both domestically and internationally, and instability in the financial and credit markets, including their potential impact on our (i) sales and operating costs and access to financing or (ii) customers and suppliers and their ability to obtain financing or generate the cash necessary to conduct their respective businesses;

the risks related to the recent Shenandoah acquisition including integration costs, costs related to acquisition debt, maintaining Shenandoah's existing customer relationships, debt service costs, interest rate volatility, the use of operating cash flows to service debt to the detriment of other corporate initiatives or strategic opportunities, financial statement charges related to the application of current accounting guidance in accounting for the Shenandoah acquisition, the recognition of significant additional depreciation and amortization expenses by the combined entity, the loss of key employees from Shenandoah, the disruption of ongoing businesses or inconsistencies in standards, controls, procedures and policies across the business which could adversely affect our internal control or information systems and the costs of bringing them into compliance and failure to realize benefits anticipated from the Shenandoah acquisition;

the risks specifically related to the concentrations of a material part of our sales and accounts receivable in only a few customers;

Table of Contents

§ achieving and managing growth and change, and the risks associated with new business lines, acquisitions, restructurings, strategic alliances and international operations;

§ risks associated with our reliance on offshore sourcing and the cost of imported goods, including fluctuation in the prices of purchased finished goods and transportation and warehousing costs;

§ adverse political acts or developments in, or affecting, the international markets from which we import products, including duties or tariffs imposed on those products by foreign governments or the U.S. government;

§ our ability to successfully implement our business plan to increase sales and improve financial performance;

§ changes in actuarial assumptions, the interest rate environment, the return on plan assets and future funding obligations related to the Home Meridian segment's legacy Pension Plan, which can affect future funding obligations, costs and plan liabilities;

§ the possible impairment of our long-lived assets, which can result in reduced earnings and net worth;

§ the cost and difficulty of marketing and selling our products in foreign markets;

§ disruptions involving our vendors or the transportation and handling industries, particularly those affecting imported products from Vietnam and China, including customs issues, labor stoppages, strikes or slowdowns and the availability of shipping containers and cargo ships;

§ the interruption, inadequacy, security breaches or integration failure of our information systems or information technology infrastructure, related service providers or the internet;

§ disruptions affecting our Virginia, North Carolina or California warehouses, our Virginia or North Carolina administrative facilities or our representative offices in Vietnam and China;

§ price competition in the furniture industry;

§ changes in domestic and international monetary policies and fluctuations in foreign currency exchange rates affecting the price of our imported products and raw materials;

§ the cyclical nature of the furniture industry, which is particularly sensitive to changes in consumer confidence, the amount of consumers' income available for discretionary purchases, and the availability and terms of consumer credit;

§ risks associated with domestic manufacturing operations, including fluctuations in capacity utilization and the prices and availability of key raw materials, as well as changes in transportation, warehousing and domestic labor costs, availability of skilled labor, and environmental compliance and remediation costs;

§ risks associated with distribution through third-party retailers, such as non-binding dealership arrangements;

§ capital requirements and costs, including the servicing of our floating-rate term loans;

§ competition from non-traditional outlets, such as catalog and internet retailers and home improvement centers;

§

changes in consumer preferences, including increased demand for lower-quality, lower-priced furniture due to, among other things, declines in consumer confidence, amounts of discretionary income available for furniture purchases and the availability of consumer credit;

§ higher than expected costs associated with product quality and safety, including regulatory compliance costs related to the sale of consumer products and costs related to defective or non-compliant products; and

§ higher than expected employee medical and workers' compensation costs that may increase the cost of our self-insured healthcare and workers compensation plans.

3

Table of Contents

Our forward-looking statements could be wrong in light of these and other risks, uncertainties and assumptions. The future events, developments or results described in this report could turn out to be materially different. Any forward-looking statement we make speaks only as of the date of that statement, and we undertake no obligation, except as required by law, to update any forward-looking statements whether as a result of new information, future events or otherwise and you should not expect us to do so.

Also, our business is subject to a number of significant risks and uncertainties any of which can adversely affect our business, results of operations, financial condition or future prospects. For a discussion of risks and uncertainties that we face, see the Forward-Looking Statements detailed above and Item 1A, “Risk Factors” below.

Investors should also be aware that while we occasionally communicate with securities analysts and others, it is against our policy to selectively disclose to them any material nonpublic information or other confidential commercial information. Accordingly, investors should not assume that we agree with any projection, forecast or report issued by any analyst regardless of the content of the statement or report, as we have a policy against confirming information issued by others.

Table of Contents

Hooker Furniture Corporation

Part I

ITEM 1. BUSINESS

Hooker Furniture Corporation, incorporated in Virginia in 1924, is a designer, marketer and importer of casegoods (wooden and metal furniture), leather furniture and fabric-upholstered furniture for the residential, hospitality and contract markets. We also domestically manufacture premium residential custom leather and custom fabric-upholstered furniture. We are ranked among the nation's top five largest publicly traded furniture sources, based on 2016 shipments to U.S. retailers, according to a 2017 survey by a leading trade publication.

We believe that consumer tastes and channels in which they shop for furniture are evolving at a rapid pace and we continue to change to meet these demands.

Our strategy is to leverage the financial strength afforded us by Hooker's slower-growing but highly profitable traditional businesses in order to boost revenues and earnings both organically and by acquiring companies selling in faster-growing channels of distribution in which our traditional businesses are under-represented. Consequently, Hooker acquired Home Meridian on February 1, 2016 and Shenandoah Furniture on September 29, 2017.

Hooker's acquisition of Home Meridian has better positioned us in some of the fastest growing and emerging channels of distribution, including e-commerce, warehouse membership clubs, and contract channels of distribution. While growing faster than industry average, these channels tend to operate at lower margins. This acquisition has provided the Home Meridian segment's current leadership team with greater financial flexibility by virtue of Hooker's strong balance sheet and, consequently, has afforded it greater operational focus.

We believe the acquisition of Shenandoah, a North Carolina-based domestic upholsterer will better position us in the "lifestyle specialty" retail distribution channel, which we believe is gaining market share and doing well with multiple demographic groups. For that channel, domestically-produced, customizable upholstery is extremely viable and preferred by the end consumers who shop at retailers in that channel.

Reportable Segments

Furniture sales account for all of our net sales. For financial reporting purposes, we are organized into two reportable segments, Hooker Branded and Home Meridian. Our other businesses are aggregated into "All Other". See Note 15 to our consolidated financial statements for additional financial information regarding our reportable segments.

Products

Our product lines cover the design spectrum of residential furniture: traditional, contemporary and transitional. Further, our product lines are in the "good", "better" and "best" product categories, which carry medium and upper price points and consist of:

§ The Hooker Branded segment includes two businesses:

Hooker Casegoods, which covers a wide range of design categories and includes home entertainment, home office, accent, dining and bedroom furniture in the upper-medium price points sold under the Hooker Furniture brand; and Hooker Upholstery, imported upholstered furniture targeted at the upper-medium price-range.

§ The Home Meridian segment's brands/marketing units include:

Accentrics Home, home furnishings centered around an eclectic mix of unique pieces and materials that offer a fresh take on home fashion;

Pulaski Furniture, specializing in casegoods covering the complete design spectrum in a wide range of bedroom, dining room, accent and display cabinets at medium price points;

Samuel Lawrence Furniture, specializing in value-conscious offerings in bedroom, dining room, home office and youth furnishings;

Prime Resources, value-conscious imported leather motion upholstery; and

Samuel Lawrence Hospitality, a designer and supplier of hotel furnishings targeted toward four and five-star hotels.

Table of Contents

§ All Other consists of:

Bradington-Young, a seating specialist in upscale motion and stationary leather furniture;

Sam Moore Furniture, a specialist in upscale occasional chairs, settees, sofas and sectional seating with an emphasis on cover-to-frame customization;

Shenandoah Furniture, an upscale upholstered furniture business specializing in private label sectionals, modulars, sofas, chairs, ottomans, benches, beds and dining chairs in the upper-medium price points for lifestyle specialty retailers;

The H Contract product line which supplies upholstered seating and casegoods to upscale senior living and assisted living facilities through designers, design firms, industry dealers and distributors that service that market; and

Homeware product line, which offered customer-assembled, modular upholstered and Hooker Casegoods products designed for younger and more mobile furniture customers. We note that Homeware failed to reach critical mass and its operations were wound down during the fiscal 2018 second quarter.

Sourcing

Imported Products

We have sourced products from foreign manufacturers for nearly thirty years, predominantly from Asia. Imported casegoods and upholstered furniture together accounted for approximately 87% of our net sales in fiscal 2018, 90% of our net sales in fiscal 2017, and 70% of our net sales in fiscal 2016.

Our imported furniture business is subject to inherent risks in importing products manufactured abroad, including, but not limited to, supply disruptions and delays, currency exchange rate fluctuations, transportation-related issues, economic and political developments and instability, as well as the laws, policies and actions of foreign governments and the United States. These laws, policies and actions may include regulations affecting trade or the application of tariffs.

Because of the large number and diverse nature of the foreign suppliers from which we source our imported products, we have flexibility in the sourcing of products among any particular supplier or country. However, a disruption in our supply chain from a major supplier or from Vietnam or China in general, could significantly compromise our ability to fill customer orders for products manufactured at that factory or in that country. We believe we could, most likely at higher cost, source most of the products currently sourced in Vietnam or China from factories in other countries and could produce certain upholstered products domestically at our own factories. However, supply disruptions and delays on selected items could occur for up to six months. If we were to be unsuccessful in obtaining those products from other sources or at a comparable cost, then a disruption in our supply chain from a major furniture supplier, or from Vietnam or China in general, could decrease our sales, earnings and liquidity. Given the sourcing capacity available in China, Vietnam and other low-cost producing countries, we believe the risks from these potential supply disruptions are manageable.

For imported products, we generally negotiate firm pricing with foreign suppliers in U.S. Dollars, typically for a term of at least one year. We accept the exposure to exchange rate movements beyond these negotiated periods. We do not use derivative financial instruments to manage this risk but could choose to do so in the future. Since we transact our imported product purchases in U.S. Dollars, a relative decline in the value of the U.S. Dollar compared to the currencies from which we obtain our imported products could increase the price we pay for imported products beyond the negotiated periods. We generally expect to reflect substantially all of the effects of any price increases from suppliers in the prices we charge for imported products. However, these price changes could adversely impact sales volume and profit margin during affected periods. Conversely, a relative increase in the value of the U.S. Dollar compared to the currencies from which we obtain our imported products could decrease the cost of imported products and favorably impact net sales and profit margins during affected period. However, due to other factors, such as

inflationary pressure in China and other countries, we may not fully realize savings when exchange rates fall. Therefore, lower exchange rates may only have a tempering effect on future price increases by merely delaying cost increases on imported products. See also Item 7A. “Quantitative and Qualitative Disclosures About Market Risk.”

Table of Contents

Raw Materials

Significant materials used in manufacturing our domestic upholstered furniture products include leather, fabric, foam, wooden frames and metal mechanisms. Most of the leather is imported from Italy, South America and China, and is purchased as full hides and cut and sewn in our facilities, or is purchased as pre-cut and sewn kits processed by our vendors to our pattern specifications. We believe that our sources for raw materials are adequate and that we are not dependent on any one supplier. Our five largest domestic upholstery suppliers accounted for approximately 34% of our raw materials supply purchases for domestic upholstered furniture manufacturing operations in fiscal 2018. One supplier accounted for approximately 12% of such raw material purchases in fiscal 2018. Should disruptions with this supplier occur, we believe we could successfully source these products from other suppliers without significant disruption to our operations.

Customers

Our home furnishings products are sold through a variety of retailers including independent furniture stores, department stores, mass merchants, national chains, warehouse clubs, catalog merchants, interior designers and e-commerce retailers. No customer accounted for more than 10% of our consolidated sales in fiscal 2018. Our top five customers accounted for nearly one-third of our fiscal 2018 consolidated sales. The loss of any one or more of these customers would have a material adverse impact on our business. 2.5% of our sales in fiscal 2018 were to international customers, which we define as sales outside of the United States and Canada.

Competition

The furniture industry is highly competitive and includes a large number of foreign and domestic manufacturers and importers, none of which dominates the market in our price points. While the markets in which we compete include a large number of relatively small and medium-sized manufacturers, certain competitors have substantially greater sales volumes and financial resources than we do. U.S. imports of furniture produced overseas, such as from Vietnam and China, have stabilized in recent years. The primary competitive factors for home furnishings in our price points include price, style, availability, service, quality and durability. Competitive factors in the hospitality and contract furniture markets include product value and utility, lead times, on-time delivery and the ability to respond to requests for special and non-standard products. We believe our design capabilities, ability to import and/or manufacture upholstered furniture, product value, longstanding customer and supplier relationships, significant sales, distribution and inventory capabilities, ease of ordering, financial strength, experienced management and customer support are significant competitive advantages.

Warehousing and Distribution

We distribute furniture to retailers directly from factories and warehouses in Asia via our container direct programs and from our distribution centers in Virginia, North Carolina and California, and in limited cases, from customer operated warehouses in strategic locations. It is our policy and industry practice to allow order cancellation for casegoods up to the time of shipment or, in the case of container direct orders, up until the time the container is booked with the ocean freight carrier, therefore, customer orders for casegoods are not firm. However, domestically produced upholstered products are predominantly custom-built and consequently, cannot be cancelled once the leather or fabric has been cut. Additionally, our hospitality products are highly customized and are generally not cancellable.

Working Capital Practices

Inventory: We generally import casegoods inventory and certain upholstery items in amounts that enable us to meet the delivery requirements of our customers, our internal in-stock goals and minimum purchase requirements from our

sourcing partners. However, a large percentage of products sold are not warehoused by us, but ship directly to our customers and thus not included as inventory. We do not carry significant amounts of domestically produced upholstery inventory or hospitality products, as most of these products are built to order and are shipped shortly after their manufacture.

Accounts receivable: Substantially all of our trade accounts receivable are due from retailers and dealers that sell residential home furnishings or commercial purchasers of our hospitality and senior living products, which consist of a large number of entities with a broad geographic dispersion. We perform credit evaluations of our customers and generally do not require collateral. For qualified customers, we offer payment terms, generally requiring payment 30 days from shipment. However, we may offer extended payment terms in certain circumstances, including to promote sales of our products. Due to the highly-customized nature of our hospitality products, we typically require a 50% deposit with order, a 40% deposit before goods reach a U.S. port and the remaining 10% balance due within 30 days of the receipt of goods by the customer.

Table of Contents

Accounts payable: Payment for our imported products warehoused first in Asia is due ten to fourteen days after our quality audit inspections are complete and the vendor invoice is presented. Payment for goods which are shipped to our US warehouses or container direct to our customers FOB Origin is generally due upon proof of lading onto a US-bound vessel and invoice presentation; however, payment terms, depending on supplier, can stretch up to 45 days from invoice date. Payment terms for domestic raw materials and non-inventory related charges vary, but are generally 30 days from invoice date.

Order Backlog

At January 28, 2018, our backlog of unshipped orders was as follows:

Reporting Entity	Order Backlog (Dollars in 000s)			
	January 28, 2018		January 29, 2017	
	Dollars	Weeks	Dollars	Weeks
Hooker Branded	\$15,189	4.7	\$13,335	4.4
Home Meridian	76,563	10.9	82,843	12.5
All Other	14,527	8.5	8,378	5.9
Consolidated	\$106,279	8.9	\$104,556	9.4

For the Hooker Branded segment and All Other, we consider unshipped order backlogs to be one helpful indicator of sales for the upcoming 30-day period, but because of our relatively quick delivery and our cancellation policies (discussed under Warehousing and Distribution, above), we do not consider order backlogs to be a reliable indicator of expected long-term sales. We consider the Home Meridian segment's backlog to be one helpful indicator of that segment's sales for the upcoming 90-day period. Due to (i) Home Meridian's sales volume, (ii) the average sales order sizes of its mass, club and mega account channels of distribution, (iii) the custom nature of many of its products and (iv) the project nature of its hospitality business, that segment's average order sizes tend to be larger and consequently, its order backlog tends to be larger.

Seasonality

Generally, sales in our fiscal first quarter are lower than our other fiscal quarters due to the post-Chinese New Year shipping lag and sales in our fiscal fourth quarter are generally stronger due to the pre-Chinese New Year surge in shipments from Asia and the product introduction schedule of a major customer. However, due to a later than normal Chinese New Year in 2018, more of the heavy shipping activities that normally precede the holiday fell in the first quarter of fiscal 2019, instead of the fourth quarter of fiscal 2018.

Environmental Matters

As a part of our business operations, our manufacturing sites generate both non-hazardous and hazardous wastes; the treatment, storage, transportation and disposal of which are subject to various local, state and national laws relating to environmental protection. We are in the closing stage of our last environmental remediation which we believe is immaterial to our results of operations or financial position. Our policy is to record monitoring commitments and environmental liabilities when expenses are probable and can be reasonably estimated. The costs associated with our environmental responsibilities, compliance with federal, state and local laws regulating the discharge of materials into the environment, or costs otherwise relating to the protection of the environment, have not had and are not expected to

have a material effect on our financial position, results of operations, capital expenditures or competitive position.

Employees

As of January 28, 2018, we had 1,216 full-time employees, of which 222 were employed in our Hooker Branded segment, 352 were employed in our Home Meridian segment and 642 were employed in All Other. None of our employees are represented by a labor union. We consider our relations with our employees to be good.

8

Table of Contents

Patents and Trademarks

The Hooker Furniture, Bradington-Young, Sam Moore, Pulaski Furniture, Samuel Lawrence, Room Gear, Right2Home, Home Meridian International, Prime Resources International, Sourcing Solutions Group and Shenandoah trade names represent many years of continued business. We believe these trade names are well-recognized and associated with quality and service in the furniture industry. We also own a number of patents and trademarks, both domestically and internationally, none of which is considered to be material.

Governmental Regulations

Our company is subject to U.S. federal, state and local laws and regulations in the areas of safety, health, employment and environmental pollution controls, as well as U.S. and international trade laws and regulations. We are also subject to foreign laws and regulations. In the past, compliance with these laws and regulations has not had any material effect on our earnings, capital expenditures, or competitive position in excess of those affecting others in our industry; however, the effect of compliance in the future cannot be predicted. We believe we are in material compliance with applicable U.S. and international laws and regulations.

Additional Information

You may visit us online at hookerfurniture.com, bradington-young.com, sammoore.com, homemeridian.com, pulaskifurniture.com, slh-co.com, and hcontractfurniture.com. We make available, free of charge through our Hooker Furniture website, our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, amendments to those reports, and other documents as soon as practical after they are filed with or furnished to the Securities and Exchange Commission. A free copy of our annual report on Form 10-K may also be obtained by contacting Robert W. Sherwood, Vice President - Credit, Secretary and Treasurer at BSherwood@hookerfurniture.com or by calling 276-632-2133.

ITEM 1A. RISK FACTORS

Our business is subject to a variety of risks. The risk factors discussed below should be considered in conjunction with the other information contained in this annual report on Form 10-K. If any of these risks actually materialize, our business, results of operations, financial condition or future prospects could be negatively impacted. These risks are not the only ones we face. There may be additional risks that are presently unknown to us or that we currently believe to be immaterial that could affect us.

We rely on offshore sourcing from Vietnam and China for most of our sales. Consequently:

A disruption in supply from Vietnam or China or from our most significant Vietnamese or Chinese suppliers could adversely affect our ability to timely fill customer orders for these products and decrease our sales, earnings and liquidity.

In fiscal 2018, imported products sourced from Vietnam and China accounted for nearly all of our import purchases and our top five suppliers in Vietnam and China account for approximately half of our fiscal 2018 import purchases. Furniture manufacturing creates large amounts of highly flammable wood dust and utilizes other highly flammable materials such as varnishes and solvents in its manufacturing processes and is therefore subject to the risk of losses arising from explosions and fires. A disruption in our supply chain, or from Vietnam or China in general, could significantly impact our ability to fill customer orders for products manufactured in those countries. If such a disruption were to occur, we believe that we would have sufficient inventory on hand and in transit to our U.S. warehouses in Virginia, North Carolina and California to adequately meet demand for several months or slightly

longer with an additional month's worth of demand available for immediate shipment from our warehouses in Asia. We believe that we could, most likely at higher cost, source most of the products currently sourced in Vietnam or China from factories in other countries and could produce certain upholstered products domestically at our own factories. However, supply disruptions and delays on selected items could occur for up to six months before the impact of remedial measures would be reflected in our results. If we were to be unsuccessful in obtaining those products from other sources or at comparable cost, a disruption in our supply chain from our largest import furniture suppliers, or from Vietnam or China in general, could adversely affect our sales, earnings, financial condition and liquidity.

9

Table of Contents

§ Increased freight costs on imported products could decrease earnings and liquidity.

Ocean freight costs on imported products currently represent a significant portion of the cost of our imported products. Ocean freight rates on our imported products remain near historical lows due to a myriad of factors including sluggish global growth, low petroleum prices and overcapacity among ocean freight carriers. While we believe ocean freight rates are at or near the lower range of possible costs, we are unable to predict how much longer these low rates will persist. Increased rates in the future would likely adversely affect earnings, financial condition and liquidity.

§ We are subject to changes in U.S. and foreign government regulations and in the political, social and economic climates of the countries from which we source our products.

Changes in political, economic, and social conditions, as well as in the laws and regulations in the foreign countries from which we source our products could adversely affect our sales, earnings, financial condition and liquidity. These changes could make it more difficult to provide products and service to our customers or could increase the cost of those products. International trade regulations and policies of the United States and the countries from which we source finished products could adversely affect us. Imposition of trade sanctions relating to imports, taxes, import duties and other charges on imports affecting our products could increase our costs and decrease our earnings. For example, the U.S. Department of Commerce imposes tariffs on wooden bedroom furniture coming into the United States from China. In this case, none of the rates imposed have been of sufficient magnitude to alter our import strategy in any meaningful way; however, these and other tariffs are subject to review and could be increased or new tariffs implemented in the future.

§ Our dependence on non-U.S. suppliers could, over time, adversely affect our ability to service customers.

We rely exclusively on non-U.S. suppliers for most of our products. Our non-U.S. suppliers may not provide goods that meet our quality, design or other specifications in a timely manner and at a competitive price. If our suppliers do not meet our specifications, we may need to find alternative suppliers, potentially at a higher cost, or may be forced to discontinue products. Also, delivery of goods from non-U.S. suppliers may be delayed for reasons not typically encountered for domestically manufactured furniture, such as shipment delays caused by customs issues, labor issues, port-related issues such as weather, congestion or port equipment, decreased availability of shipping containers and/or the inability to secure space aboard shipping vessels to transport our products. Our failure to timely fill customer orders due to an extended business interruption for a major non-U.S. supplier, or due to transportation issues, could negatively impact existing customer relationships and adversely affect our sales, earnings, financial condition and liquidity.

§ Our inability to accurately forecast demand for our imported products could cause us to purchase too much, too little or the wrong mix of inventory.

Manufacturing and delivery lead times for our imported products necessitate that we make forecasts and assumptions regarding current and future demand for these products. If our forecasts and assumptions are inaccurate, we may purchase excess or insufficient amounts of inventory. If we purchase too much or the wrong mix of inventory, we may be forced to sell it at lower margins, which could adversely affect our sales, earnings, financial condition and liquidity. If we purchase too little or the wrong mix of inventory, we may not be able to fill customer orders and may lose market share and weaken or damage customer relationships, which also could adversely affect our sales, earnings, financial condition and liquidity.

§ Changes in the value of the U.S. Dollar compared to the currencies for the countries from which we obtain our imported products could adversely affect our sales, earnings, financial condition and liquidity.

For imported products, we generally negotiate firm pricing with our foreign suppliers in U.S. Dollars, typically for periods of at least one year. We accept the exposure to exchange rate movements beyond these negotiated periods. We do not use derivative financial instruments to manage this risk, but could choose to do so in the future. Since we transact our imported product purchases in U.S. Dollars, a relative decline in the value of the U.S. Dollar could increase the price we must pay for imported products beyond the negotiated periods. These price changes could decrease our sales, earnings, financial condition and liquidity during affected periods.

Table of Contents

§ Supplier transitions, including cost or quality issues, could result in longer lead times and shipping delays.

In the past, inflation concerns, and to a lesser extent quality and supplier viability concerns, affecting some of our imported product suppliers located in China prompted us to source more of our products from lower cost suppliers located in other countries, such as Vietnam. As conditions dictate, we could be forced to make similar transitions in the future. When undertaken, transitions of this type involve significant planning and coordination by and between us and our new suppliers in these countries. Despite our best efforts and those of our new sourcing partners, these transition efforts are likely to result in longer lead times and shipping delays over the short term, which could adversely affect our sales, earnings, financial condition and liquidity.

A material part of our sales and accounts receivable are concentrated in a few customers. The loss of several large customers through business consolidations, failures or other reasons could adversely affect our business.

Although no customer accounted for more than 10% of our consolidated sales in fiscal 2018, our top five customers accounted for nearly one-third of our fiscal 2018 consolidated sales. Nearly half of our consolidated accounts receivable is concentrated in our top five customers. Should any one of these receivables become uncollectible, it would have an immediate and material adverse impact on our financial condition and liquidity. The loss of any one or more of these customers could adversely affect our sales, earnings, financial condition and liquidity. The loss of several of our major customers through business consolidations, failures or otherwise, could adversely affect our sales, earnings, financial condition and liquidity and the resulting loss in sales may be difficult or impossible to replace. Amounts owed to us by a customer whose business fails, or is failing, may become uncollectible, and we could lose future sales, any of which could adversely affect our sales, earnings, financial condition and liquidity.

We may fail to realize all of the anticipated benefits of the Shenandoah acquisition.

While we believe the Shenandoah acquisition, will be accretive to our earnings per share beginning in fiscal 2019, this expectation is based on preliminary estimates which may materially change. While we do not expect to merge operations or change customer-facing services, the success of this acquisition will depend, in part, on our ability to improve each business by sharing best practices in order to lower costs, improve efficiencies and grow sales. While we have based our expectations in part on the historical results and trends in Shenandoah's business, there can be no assurance regarding when or the extent to which we will be able to realize these benefits. Achieving the anticipated benefits is subject to a number of uncertainties, including whether the business acquired can be operated in the manner we intend. Events outside of our control could also adversely affect our ability to realize the anticipated benefits from the acquisition. Thus, the integration of Shenandoah's business may be unpredictable, subject to delays or changed circumstances, and we can give no assurance that the acquired business will perform in accordance with our expectations, or that our expectations with respect to integration or benefits as a result of the contemplated acquisition will materialize.

Additionally, a major asset acquired in the acquisition was Shenandoah's existing customer relationships. Almost all of Shenandoah's sales and accounts receivable are concentrated in a very small number of customers. While we believe these relationships will continue and result in profitable sales, there can be no assurance they will.

The anticipated benefits and cost savings of the acquisition may not be realized fully or at all, or may take longer to realize than expected. The integration process could result in the loss of key employees, the disruption of ongoing businesses or inconsistencies in standards, controls, procedures and policies. If the integration is not completed as planned, our ongoing business and financial results may be adversely affected, which could adversely affect our sales, earnings, financial condition and liquidity.

We may not be able to collect amounts owed to us.

We grant payment terms to most customers ranging from 30 to 60 days and do not generally require collateral. However, in some instances we provide longer payment terms. Some of our customers have experienced, and may in the future experience, credit-related issues. While we perform credit evaluations of our customers, those evaluations may not prevent uncollectible trade accounts receivable. Credit evaluations involve significant management diligence and judgment. Should more customers than we anticipate experience liquidity issues, or if payment is not received on a timely basis, we may have difficulty collecting amounts owed to us by these customers, which could adversely affect our sales, earnings, financial condition and liquidity.

Table of Contents

The interruption, inadequacy or security failure of our information systems or information technology infrastructure or the internet could adversely impact our business, sales, earnings, financial condition and liquidity.

Our information systems (software) and information technology (hardware) infrastructure platforms and those of third parties who provide these services to us, including internet service providers and third-parties who store data for us on their servers, facilitate and support every facet of our business, including the sourcing of raw materials and finished goods, planning, manufacturing, warehousing, customer service, shipping, accounting and human resources. Our systems, and those of third parties who provide services to us, are vulnerable to disruption or damage caused by a variety of factors including, but not limited to: power disruptions or outages; natural disasters or other so-called “Acts of God”; computer system or network failures; viruses or malware; physical or electronic break-ins; the theft of computers, tablets and smart phones utilized by our employees or contractors; unauthorized access, phishing and cyber-attacks. If these information systems or technologies are interrupted or fail, our operations may be adversely affected, which could adversely affect our sales, earnings, financial condition and liquidity.

Unauthorized disclosure of confidential information provided to us by our customers, employees, or third parties could harm our business.

We rely on the internet and other electronic methods to transmit confidential information and we store confidential information on our networks. If there was a disclosure of confidential information by our employees or contractors, including accidental loss, inadvertent disclosure or unapproved dissemination of information, or if a third party were to gain access to the confidential information we possess, our reputation could be harmed and we could be subject to civil or criminal liability and regulatory actions. A claim that is brought against us, successful or unsuccessful, that is uninsured or under-insured could harm our business, result in substantial costs, divert management attention and adversely affect our sales, earnings, financial condition and liquidity.

We incurred significant debt to provide permanent financing for the Shenandoah acquisition and HMI acquisition.

We borrowed \$60 million for the Home Meridian acquisition in fiscal year 2017 and additional \$12 million for the Shenandoah acquisition in fiscal year 2018 with term loans. Principal and interest payments on the borrowed funds were \$7.4 million in fiscal 2018 and are expected to be \$8.4 million in fiscal 2019 (assuming no interest rate changes). We are subject to interest rate volatility due to the variable interest rates on these term loans. Among other risks, our debt:

- § may limit our flexibility to pursue other strategic opportunities or react to changes in our business and the industry in which we operate and, consequently, place us at a competitive disadvantage to competitors with less debt;
- § will require a portion of our cash flows from operations to be used for debt service payments, thereby reducing the availability of cash flows to fund working capital, capital expenditures, dividend payments and other general corporate purposes;
- § may result in higher interest expense in the event of increases in market interest rates for both long term debt as well as any borrowings under our line of credit at variable rates; and
- § may require that additional terms, conditions or covenants be placed on us.

We may engage in acquisitions and investments in companies, form strategic alliances and pursue new business lines. These activities could disrupt our business, dilute our earnings per share, decrease the value of our common stock and decrease our earnings and liquidity.

We may acquire or invest in businesses such as those that offer complementary products and that we believe offer competitive advantages. However, we may fail to identify significant liabilities or risks that could negatively affect us or result in our paying more for the acquired company or assets than they are worth. We may also have difficulty

assimilating and integrating the operations and personnel of an acquired business into our current operations. Acquisitions may disrupt or distract management from our ongoing business. We may pay for future acquisitions using cash, stock, the assumption of debt, or a combination of these. Future acquisitions could result in dilution to existing shareholders and to earnings per share and decrease the value of our common stock. We may pursue new business lines in which we have limited or no prior experience or expertise. These pursuits may require substantial investment of capital and personnel. New business initiatives may fail outright or fail to produce an adequate return, which could adversely affect our earnings, financial condition and liquidity.

Table of Contents

A disruption affecting our domestic facilities could disrupt our business.

The warehouses in which we store our inventory in Virginia, North Carolina and California are critical to our success. Our corporate and divisional headquarters, which house our administration, sourcing, sales, finance, merchandising, customer service and logistics functions for our imported and domestic products are located in Virginia and North Carolina. Our domestic upholstery manufacturing facilities are located in Virginia and North Carolina. Any disruption affecting our domestic facilities, for even a relatively short period of time, could adversely affect our ability to ship our imported furniture products and disrupt our business, which could adversely affect our sales, earnings, financial condition and liquidity.

Our pension and other defined benefit retirement plan obligations could negatively impact our operating results and cash flows.

We maintain three defined benefit pension plans (the “Plans”):

- § a supplemental retirement income plan (“SRIP”) for certain former and current executives of Hooker Furniture Corporation;
- § the Pulaski Furniture Corporation Supplemental Executive Retirement Plan (“SERP”) for certain former executives;
- § and
- § the Pulaski Furniture Corporation Pension Plan (“Pension Plan”) for former Pulaski Furniture Corporation employees.

The Pension Plan and SERP were liabilities we assumed upon completion of the Home Meridian acquisition on February 1, 2016.

The recognition of costs and liabilities associated with these plans for financial reporting purposes is affected by assumptions made by management and used by actuaries engaged by us to calculate the benefit obligations and the expenses recognized for these plans. The inputs used in developing the required estimates are calculated using a number of assumptions, which represent management’s best estimate of the future. The assumptions that have the most significant impact on reported results are (i) the discount rate, (ii) the estimated long-term return on plan assets (for the Pension Plan) and (iii) mortality rates.

While the plans are frozen and no new participants are being added, we expect to be impacted by changes in actuarial assumptions of all three plans and by the investment performance and the funded status of the Pension Plan, all of which could adversely affect our financial condition and liquidity. Should we decide to terminate the Pension Plan in the future, we expect to record settlement expenses against our earnings and contribute a final cash contribution, which could adversely affect our financial condition and liquidity. See Note 11 on page F-26 for additional information about our pension plans.

Failure to anticipate or timely respond to changes in fashion and consumer tastes could adversely impact our business.

Furniture is a styled product and is subject to rapidly changing fashion trends and consumer tastes, as well as to increasingly shorter product life cycles. If we fail to anticipate or promptly respond to these changes we may lose market share or be faced with the decision of whether to sell excess inventory at reduced prices. This could adversely affect our sales, earnings, financial condition and liquidity.

Fluctuations in the price, availability or quality of raw materials for our domestically manufactured upholstered furniture could cause manufacturing delays, adversely affect our ability to provide goods to our customers or increase our costs.

We use various types of wood, leather, fabric, foam and other filling material, high carbon spring steel, bar and wire stock and other raw materials in manufacturing upholstered furniture. We depend on outside suppliers for raw materials and must obtain sufficient quantities of quality raw materials from these suppliers at acceptable prices and in a timely manner. We do not have long-term supply contracts with our suppliers. Unfavorable fluctuations in the price, quality or availability of required raw materials could negatively affect our ability to meet the demands of our customers. We may not always be able to pass price increases in raw materials through to our customers due to competition and other market pressures. The inability to meet customers' demands or recover higher costs could adversely affect our sales, earnings, financial condition and liquidity.

Table of Contents

If demand for our domestically manufactured upholstered furniture declines we may respond by realigning manufacturing.

Our domestic manufacturing operations make only upholstered furniture. A decline in demand for our domestically produced upholstered furniture could result in the realignment of our domestic manufacturing operations and capabilities and the implementation of cost-saving measures. These programs could include the consolidation and integration of facilities, functions, systems and procedures. We may decide to source certain products from other suppliers instead of continuing to manufacture them. These realignments and cost-saving measures typically involve initial upfront costs and could result in decreases in our near-term earnings before the expected cost savings are realized, if they are realized at all. We may not always accomplish these actions as quickly as anticipated and may not achieve the expected cost savings, which could adversely affect our sales, earnings, financial condition and liquidity.

We may experience impairment of our long-lived assets, which would decrease our earnings and net worth.

Accounting rules require that long-lived assets be tested for impairment when circumstances indicate, but at least annually. At January 28, 2018 we had \$107.4 million in net long-lived assets, consisting primarily of property, plant and equipment, trademarks, trade names and goodwill. The outcome of impairment testing could result in the write-down of all or a portion of the value of these assets. A write-down of our assets would, in turn, reduce our earnings and net worth. See Notes 7 and 8 for additional information.

We may not be able to maintain or raise prices in response to inflation and increasing costs.

Competitive and market forces could prohibit future successful price increases for our products in order to offset increased costs of finished goods, raw materials, freight and other product-related costs, which could adversely affect our sales, earnings, financial condition and liquidity.

Economic downturns could result in decreased sales, earnings and liquidity.

The furniture industry is particularly sensitive to cyclical variations in the general economy and to uncertainty regarding future economic prospects. Home furnishings are generally considered a postponable purchase by most consumers. Economic downturns could affect consumer spending habits by decreasing the overall demand for home furnishings. Changes in interest rates, consumer confidence, new housing starts, existing home sales, the availability of consumer credit and broader national or geopolitical factors have particularly significant effects on our business. A recovery in our sales could lag significantly behind a general recovery in the economy after an economic downturn, due to, among other things, the postponable nature and relatively significant cost of home furnishings purchases. These events could also impact retailers, our primary customers, possibly adversely affecting our sales, earnings, financial condition and liquidity.

We may lose market share due to competition.

The furniture industry is very competitive and fragmented. We compete with numerous domestic and non-U.S. residential furniture sources. Some competitors have greater financial resources than we have and often offer extensively advertised, well-recognized, branded products. Competition from non-U.S. sources has increased dramatically over the past decade. We may not be able to meet price competition or otherwise respond to competitive pressures, including increases in supplier and production costs. Also, due to the large number of competitors and their wide range of product offerings, we may not be able to continue to differentiate our products (through value and styling, finish and other construction techniques) from those of our competitors. In addition, some large furniture retailers are sourcing directly from non-U.S. furniture factories. Over time, this practice may expand to smaller retailers. As a result, we are continually subject to the risk of losing market share, which could adversely affect our

sales, earnings, financial condition and liquidity.

We may incur higher employee costs in the future.

We maintain self-insured healthcare and workers compensation plans for our employees. We have insurance coverage in place for aggregate claims above a specified amount in any year for both plans. While our healthcare costs in recent years have generally increased at the same rate or greater than the national average, those costs have increased more rapidly than general inflation in the U.S. economy. Continued inflation in healthcare costs, as well as additional costs we may incur as a result of current or future federal or state healthcare legislation and regulations, could significantly increase our employee healthcare costs in the future. Our workers compensation claims costs have been insignificant to our overall results of operations for quite some time; however, these costs may increase in the future without warning. Continued increases in our healthcare costs and increased workers compensation claims costs could adversely affect our earnings, financial condition and liquidity.

Table of Contents

Our results of operations for any quarter are not necessarily indicative of our results of operations for a full year.

Home furnishings sales fluctuate from quarter to quarter due to factors such as changes in economic and competitive conditions, seasonality, weather conditions and changes in consumer order patterns. From time to time, we have experienced, and may continue to experience, volatility with respect to demand for our home furnishing products. Accordingly, our results of operations for any quarter are not necessarily indicative of the results of operations to be expected for a full year.

Future costs of complying with various laws and regulations may adversely impact future operating results.

Our business is subject to various domestic and international laws and regulations that could have a significant impact on our operations and the cost to comply with such laws and regulations could adversely impact our sales, earnings, financial condition and liquidity. In addition, failure to comply with such laws and regulations, even inadvertently, could produce negative consequences which could adversely impact our operations and reputation.

ITEM 2. PROPERTIES

Set forth below is information with respect to our principal properties at April 13, 2018. We believe all of these properties are well-maintained and in good condition. During fiscal 2018, we estimate our upholstery plants operated at approximately 79% of capacity on a one-shift basis. All our production facilities are equipped with automatic sprinkler systems. All facilities maintain modern fire and spark detection systems, which we believe are adequate. We have leased certain warehouse facilities for our distribution and import operations, typically on a short or medium-term basis. We expect that we will be able to renew or extend these leases or find alternative facilities to meet our warehousing and distribution needs at a reasonable cost. All facilities set forth below are active and operational, representing approximately 3.9 million square feet of owned space, leased space or properties utilized under third-party operating agreements.

Location	Segment Use	Primary Use	Approximate Size in Square Feet	Owned or Leased
Martinsville, Va.	All segments	Corporate Headquarters	43,000	Owned

Table of ContentsEXECUTIVE OFFICERS OF
HOOKER FURNITURE CORPORATION

Hooker Furniture's executive officers and their ages as of April 13, 2018 and the calendar year each joined the Company are as follows:

Name	Age	Position	Year Joined Company
Paul B. Toms, Jr.	63	Chairman and Chief Executive Officer	1983
Paul A. Huckfeldt	60	Chief Financial Officer and Senior Vice President - Finance and Accounting	2004
George Revington	71	Chief Operating Officer - Hooker Furniture Corporation, President and Chief Operating Officer- Home Meridian	2016
Anne M. Jacobsen	56	Senior Vice President-Administration	2008
Michael W. Delgatti, Jr.	64	President - Hooker Brands	2009

Paul B. Toms, Jr. has been Chairman and Chief Executive Officer since December 2000 and also served as President for most of the period from November 2006 to August 2011. Mr. Toms was President and Chief Operating Officer from December 1999 to December 2000, Executive Vice President - Marketing from 1994 to December 1999, Senior Vice President - Sales and Marketing from 1993 to 1994, and Vice President - Sales from 1987 to 1993. Mr. Toms joined the Company in 1983 and has been a Director since 1993.

Paul A. Huckfeldt has been Senior Vice President - Finance and Accounting since September 2013 and Chief Financial Officer since January 2011. Mr. Huckfeldt served as Vice President - Finance and Accounting from December 2010 to September 2013, Corporate Controller and Chief Accounting Officer from January 2010 to January 2011, Manager of Operations Accounting from March 2006 to December 2009 and led the Company's Sarbanes-Oxley implementation and subsequent compliance efforts from April 2004 to March 2006.

George Revington has been Chief Operating Officer since February 2017 and President and Chief Operating Officer of the Home Meridian division upon the acquisition of Home Meridian's assets by the Company in February 2016. Prior to that, Mr. Revington served as President and Chief Executive Officer of Home Meridian International since its creation in 2006.

Anne M. Jacobsen has been Senior Vice President- Administration since January 2014. Ms. Jacobsen joined the Company in January of 2008 as Director of Human Resources and served as Vice President- HR and Administration from January 2011 to January 2014 and Vice President-Human Resources from November 2008 to January 2011.

Michael W. Delgatti, Jr. has been President of Hooker Brands since January 2017. Mr. Delgatti served as President-Hooker Furniture Corporation from February 2014 to January 2017, President - Hooker Upholstery from August 2011 to January 2014 and Executive Vice-President of Corporate Sales from September 2012 to January 2014. Mr. Delgatti joined the Company in January of 2009 as Executive Vice-President of Hooker Upholstery.

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED SHAREHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Our stock is traded on the NASDAQ Global Select Market under the symbol "HOFT". The table below sets forth the high and low sales prices per share for our common stock and the dividends per share we paid with respect to our common stock for the periods indicated.

	Sales Price Per		Dividends Per Share
	Share High	Low	
October 30, 2017 - January 28, 2018	\$52.75	\$38.85	\$ 0.14
July 31, - October 29, 2017	50.53	38.85	0.12
May 1, - July 30, 2017	46.60	37.80	0.12
January 30 - April 30, 2017	45.35	29.75	0.12
October 31, 2016 - January 29, 2017	\$39.50	\$25.55	\$ 0.12
August 1, - October 30, 2016	27.47	22.16	0.10
May 2, - July 31, 2016	25.07	20.29	0.10
February 1 - May 1, 2016	35.95	24.23	0.10

As of January 28, 2018, we had approximately 5,700 beneficial shareholders. We currently expect that future regular quarterly dividends will be declared and paid in the months of March, June, September and December. Although we presently intend to continue to declare regular cash dividends on a quarterly basis for the foreseeable future, the determination as to the payment and the amount of any future dividends will be made by the Board of Directors on a quarterly basis and will depend on our then-current financial condition, capital requirements, results of operations and any other factors then deemed relevant by the Board of Directors.

Purchase of Equity Securities by the Issuer and Affiliated Purchasers

During the fiscal 2013 first quarter, our Board of Directors authorized the repurchase of up to \$12.5 million of the Company's common shares. No shares were purchased in fiscal 2018. Approximately \$11.8 million remains available under the board's authorization as of January 28, 2018. For additional information regarding this repurchase authorization, see the "Share Repurchase Authorization" section in Management's Discussion and Analysis of Financial Condition and Results of Operations.

Table of Contents

Performance Graph

The following graph compares cumulative total shareholder return for the Company with a broad performance indicator, the Russell 2000[®] Index, and an industry index, the Household Furniture Index, for the period from February 3, 2013 to January 28, 2018.

- (1) The graph shows the cumulative total return on \$100 invested at the beginning of the measurement period in our common stock or the specified index, including reinvestment of dividends.
- (2) The Russell 2000[®] Index, prepared by Frank Russell Company, measures the performance of the 2,000 smallest companies out of the 3,000 largest U.S. companies based on total market capitalization and includes the Company.

Household Furniture Index as prepared by Zacks Investment Research, Inc. consists of companies under SIC Codes 2510 and 2511, which includes home furnishings companies that are publicly traded in the United States or Canada. At January 28, 2018, Zacks Investment Research, Inc. reported that these two SIC Codes consisted of

- (3) Nova Lifestyle, Inc., La-Z-Boy, Inc., Leggett & Platt, Inc., Flexsteel Industries, Inc., Hooker Furniture Corporation, Sleep Number Corp., Kimball International, Inc., Luvu Brands, Inc., Tempur Sealy International, Inc., Sichuan Leaders Petrochemical Company, Compass Diversified Holdings, Natuzzi Spa, Purple Innovation, Inc., Bassett Furniture Industries, Inc., Ethan Allen Interiors, Inc., Stanley Furniture Co., Inc. and Dorel Industries.

ITEM 6. SELECTED FINANCIAL DATA

The following selected financial data for each of our last five fiscal years has been derived from our audited, consolidated financial statements. The selected financial data should be read in conjunction with the consolidated financial statements, including the related notes, and Management's Discussion and Analysis of Financial Condition and Results of Operations included elsewhere in this report. Additionally, we face a number of significant risks and uncertainties, as more fully discussed in Item 1A, "Risk Factors", above. If any or a combination of these risks and uncertainties were to occur, the information below may not be fully indicative of our future financial condition or results of operations.

	Fiscal Year Ended (1)				
	January 28, 2018	January 29, 2017	January 31, 2016	February 1, 2015	February 2, 2014

Shareholders' equity	229,460	197,927	156,061	142,909	134,803

(1) Our fiscal years end on the Sunday closest to January 31. The fiscal years presented above all had 52 weeks.

(2) Selling and administrative expenses for fiscal 2014 included \$2.1 million of startup costs pre-tax (\$1.4 million, or \$0.13 per share after tax) for our H Contract and Homeware business initiatives.

- (3) We recorded amortization expense of \$2.1 million (\$1.3 million, or \$0.11 per share after tax) in fiscal 2018 on amortizable intangible assets recorded as a result of Home Meridian and Shenandoah acquisitions.
- (4) Net book value per share is derived by dividing “shareholders’ equity” by the number of common shares issued and outstanding, excluding unvested restricted shares, all determined as of the end of each fiscal period.

Weighted average outstanding shares outstanding changed materially as a result of issuing 716,910 shares of (5) common stock to the designees of HMI as partial consideration for the Home Meridian acquisition and 176,018 shares of common stock to the shareholders of SFI as partial consideration for the Shenandoah acquisition.

- (6) Long-term debt (including current maturities) consists of term loans incurred to fund a portion of the Home Meridian and Shenandoah acquisitions.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

As you read Management's Discussion and Analysis, please refer to the selected financial data and the consolidated financial statements, including the related notes, contained elsewhere in this annual report. We especially encourage you to familiarize yourself with:

§ All of our recent public filings made with the Securities and Exchange Commission ("SEC") are available, without charge, at www.sec.gov and at <http://investors.hookerfurniture.com>;

§ The forward-looking statements disclaimer contained prior to Item 1 of this report, which describe the significant risks and uncertainties that could cause actual results to differ materially from those forward-looking statements made in this report, including those contained in this section of our annual report on Form 10-K;

§ The company-specific risks found in Item 1A. "Risk Factors" of this report. This section contains critical information regarding significant risks and uncertainties that we face. If any of these risks materialize, our business, financial condition and future prospects could be adversely impacted; and

§ Our commitments and contractual obligations and off-balance sheet arrangements described on page 33 and in Note § 16 on page F-38 of this report. These sections describe commitments, contractual obligations and off-balance sheet arrangements, some of which are not reflected in our consolidated financial statements.

In Management's Discussion and Analysis, we analyze and explain the annual changes in some specific line items in the consolidated financial statements for fiscal year 2018 compared to fiscal year 2017 and for fiscal year 2017 compared to fiscal year 2016. We also provide information regarding the performance of each of our reportable segments and All Other.

Unless otherwise indicated, references to the "Company", "we," "our" or "us" refer to Hooker Furniture Corporation and its consolidated subsidiaries, unless specifically referring to segment information. All references to the "Hooker", "Hooker Division", "Hooker Brands" or "traditional Hooker" divisions or companies refer to the current components of our Hooker Branded segment and the domestic upholstery operations contained in All Other: Bradington-Young, Sam Moore, and Shenandoah Furniture.

References to the "Shenandoah acquisition" refer to our recently completed acquisition of substantially all of the assets of Shenandoah Furniture, Inc. on September 29, 2017. References to the "HMI acquisition" refer to the acquisition of substantially all of the assets of Home Meridian International, Inc. on February 1, 2016.

Furniture sales account for all of our net sales. For financial reporting purposes, we are organized into two reportable segments- Hooker Branded and Home Meridian, with our other businesses included in All Other. We continually monitor our reportable segments for changes in facts and circumstances to determine whether changes in the identification or aggregation of operating segments are necessary. In the fourth quarter of fiscal 2018, we updated our reportable segments. Consequently, segment financial results have been recast as follows: the Upholstery Segment was eliminated and Hooker Upholstery was aggregated with Hooker Casegoods to form the Hooker Branded segment. The remains of the former Upholstery segment- Bradington-Young, Sam Moore and Shenandoah were added to All Other, which includes H Contract and Homeware. See Note 15 to our consolidated financial statements for additional financial information regarding our segments.

Overview

Hooker Furniture Corporation, incorporated in Virginia in 1924, is a designer, marketer, importer of casegoods (wooden and metal furniture), leather and fabric-upholstered furniture for the residential, hospitality and contract markets. We also domestically manufacture premium residential custom leather and custom fabric-upholstered furniture. We are ranked among the nation's top five largest publicly traded furniture sources, based on 2016 shipments to U.S. retailers, according to a 2017 survey by a leading trade publication.

Our net sales are derived from the sale of home furnishings, as well as hospitality and contract furniture. We believe that consumer home furnishings purchases are impacted by an array of factors, including general economic conditions (such as consumer confidence, availability of consumer credit, energy and other commodity prices), and housing and mortgage markets. These purchases are also impacted by lifestyle-driven factors such as changes in fashion trends, disposable income, household formation and turnover, as well as competition with other discretionary purchases. Hospitality furniture sales are driven primarily by new hotel construction and hotel remodeling activity, which is linked to the strength of the overall economy, including business and personal spending levels. Contract furniture sales are driven largely by senior living facility construction and remodeling activity, which is linked to the number of consumers entering retirement, which is partially related to the strength of the overall economy, including stock market performance.

Table of Contents

Approximately 87% of our fiscal 2018 sales were of imported furniture products, primarily from Asia. Our lower overhead, variable-cost import operations help drive our profitability and provide us with more flexibility to respond to changing demand by adjusting inventory purchases from suppliers. This import model requires constant vigilance due to a larger investment in inventory and longer production lead times. We constantly evaluate our imported furniture suppliers and when quality concerns, inflationary pressures, or trade barriers, such as duties and tariffs, diminish our value proposition, we transition sourcing to other suppliers, often located in different countries or regions. Our domestic upholstery operations have significantly higher overhead and fixed costs than our import operations, and their profitability can be and has been adversely affected by economic downturns.

Our strategy is to leverage the financial strength afforded us by our slower-growing but highly profitable traditional Hooker companies in order to boost revenues and earnings both organically and by acquiring companies selling in faster-growing channels of distribution in which our legacy businesses are under-represented. Consequently, Hooker acquired Home Meridian on February 1, 2016 and Shenandoah Furniture on September 29, 2017.

Hooker's acquisition of Home Meridian has better positioned us in some of the fastest growing and emerging channels of distribution, including e-commerce, warehouse membership clubs and contract channels of distribution, although at lower margins. This acquisition has provided the Home Meridian segment's current leadership team with greater financial flexibility by virtue of Hooker's strong balance sheet and, consequently, has afforded it greater operational focus. Due to the fact that the HMI acquisition was completed on the first day of fiscal 2017, Home Meridian's sales and other financial performance metrics are not included in our fiscal 2016 results.

We believe the acquisition of Shenandoah, a North Carolina-based domestic upholsterer should better position us in the "lifestyle specialty" retail distribution channel, which we believe is gaining market share and doing well with multiple demographic groups. For that channel, domestically-produced, customizable upholstery is extremely viable and preferred by the end consumers who shop at retailers in that channel.

Executive Summary- Fiscal 2018 Results of Operations

The Shenandoah acquisition closed at the end of our September fiscal period. Consequently, All Other's results only include Shenandoah's results from October 2017 through January 2018. Shenandoah's prior year results are not included in the results discussed below.

Consolidated net sales for fiscal 2018 increased \$43.4 million or 7.5% to \$620.6 million as compared to fiscal year 2017 due to sales increases in our reportable segments and All Other. This increase was primarily attributable to strong sales in the Home Meridian segment and in All Other. Nearly 80% of the All Other sales increase was due to the inclusion of Shenandoah's post-acquisition sales in the last four months of the 2018 fiscal year. The Hooker Branded segment's net sales increased \$8.1 million or 5.1% primarily due to growth in the Hooker Upholstery business.

Consolidated net income for fiscal 2018 increased about \$3.0 million or 11.7% as compared to the prior year, despite a fourth quarter charge of \$1.8 million to income tax expense to properly value our deferred tax assets as a result of the tax rate reduction under the recently enacted Tax Cuts and Job Act.

As discussed in greater detail under "Results of Operations" below, the following are the primary factors that affected our consolidated fiscal 2018 operations:

Gross profit. Consolidated gross profit increased \$8.7 million or 6.9% primarily due to sales increases in the Home Meridian segment and in All Other. Gross profit as a percentage of net sales was flat as compared to the prior year period, primarily due to increased core cost of goods sold in the Hooker Branded segment.

Selling and administrative expenses. Consolidated selling and administrative (S&A) expenses increased in absolute terms primarily due to higher compensation, benefits and bonus expenses, the addition of Shenandoah's operations for the last four months of our fiscal year and \$800,000 in Shenandoah acquisition-related costs in the current year. These increases were partially offset by the absence of \$1.2 million of Home Meridian acquisition-related costs from the prior year.

Intangible asset amortization expense. Consolidated intangible amortization expense decreased \$1.0 million due to lower Home Meridian segment amortization expense, partially offset by expense on Shenandoah's acquisition-related intangibles acquired in the fiscal 2018 second-half.

Operating income. Consolidated operating income increased \$6.3 million or 16% in fiscal 2018.

Table of Contents

Review

We are generally pleased with our fiscal 2018 results. Net sales grew in both reportable segments and All Other and we experienced double-digit growth in consolidated net income despite a \$1.8 million charge recorded to reduce the value of our deferred tax assets and liabilities as a result of the corporate tax rate reduction under the Tax Cuts and Jobs Act of 2017.

We believe our strategy to leverage the financial strength of the Hooker Branded segment in order to boost revenues and earnings by acquiring companies selling in faster-growing channels of distribution in which our traditional businesses are under-represented is working. The Home Meridian segment's net sales grew 6% or \$20.8 million, primarily due to increased sales to mega, e-commerce and alternate channel accounts and despite the timing of the 2018 Chinese New Year negatively impacting net sales in the fiscal 2018 fourth quarter. More of the heavy shipping activities that normally precede the holiday fell in the first quarter of fiscal 2019, instead of the fourth quarter of fiscal 2018, which depressed fourth quarter shipments. The Home Meridian segment's net sales increase represented nearly half of our fiscal 2018 net sales growth.

All Other's net sales increased nearly 20%, primarily due to the Shenandoah acquisition, increased Bradington-Young sales, due in large part to increased sales of higher priced luxury motion products and net sales increases at H Contract. All Other segment sales and profitability increases were partially offset by (i) decreases in net sales at Sam Moore, as it continued to struggle with labor efficiency issues that have led to longer delivery times, which resulted in lower orders and net sales, especially from smaller, higher margin customers at Sam Moore and (ii) the lack of Homeware net sales, as that division failed to reach critical mass and its operations were wound down beginning in the fiscal 2018 second quarter.

The Hooker Branded segment's net sales increased primarily due to increased sales of Hooker Upholstery products driven by its recovery from a vendor-quality issue in the prior fiscal year. Additionally, after two previous years of flat or modestly-declining sales at Hooker Casegoods, net sales grew \$1.9 million or 1.4% in fiscal 2018, due primarily to recently well-received Hooker Casegoods collections. Hooker Casegoods is a mature business and does not currently have the strong growth prospects of other businesses in our portfolio; however, it is a significant earnings engine for the company that has allowed us to fund many of our growth initiatives.

Our fiscal 2018 operating results also benefited from the absence of approximately \$1.2 million in Home Meridian acquisition-related expenses that were incurred in the prior year, partially offset by the addition of approximately \$800,000 in Shenandoah acquisition related expenses in fiscal 2018. Additionally, amortization expense on HMI acquisition-related intangibles decreased by \$1.8 million. Intangible asset amortization expense was higher in the prior year due to the short amortization period of some of the intangible assets recorded as a result of the HMI acquisition.

In addition to our operating results, we are pleased to report that we generated \$28 million cash from operating activities to partially fund the Shenandoah acquisition, paid \$7.4 million towards our term loans (principal and interest), paid \$5.8 million in cash dividends to our shareholders- all while maintaining our cash balance above \$30 million as of January 28, 2018. In December 2017, our Board of Directors approved the increase of our quarterly dividend to \$0.14 per share. Profitability, along with inventory management and cautious capital spending, have helped us maintain our strong, stable balance sheets.

The Shenandoah acquisition

We believe that consumer tastes and channels in which they shop for furniture are evolving at a rapid pace and we are changing to meet these demands.

As was the case with Hooker's 2016 Acquisition of Home Meridian International, we are continuing to leverage Hooker's financial strength to boost revenues and earnings both organically and by acquisition, as we target growth in channels of distribution that are growing faster than furniture industry averages.

Consequently, on September 29, 2017 we acquired substantially all of the assets and assumed certain liabilities of Shenandoah Furniture, Inc. for \$32.8 million in cash and the issuance of 176,018 shares of our common stock valued at \$8.4 million. The \$32.8 million included an agreed upon post-closing working capital adjustment.

We believe Shenandoah is well-positioned in a distribution channel in which we were currently under-represented; namely, the "lifestyle specialty" retail distribution channel, which is comprised of retailers who offer furnishings and decor in the upper-medium price points, both in traditional brick and mortar stores and online. We believe that lifestyle specialty furniture stores are gaining market share and doing well with multiple demographic groups. For that channel, domestically-produced, customizable upholstery is extremely viable and preferred by the consumer who shops there.

Table of Contents

We expect the Shenandoah acquisition to be accretive to earnings in our 2019 fiscal year, which began on January 29, 2018.

This acquisition is not without substantial risks. We refer you to Item 1A. Risk Factors and Note 3 to our consolidated financial statements in this report for additional information.

Results of Operations

The following table sets forth the percentage relationship to net sales of certain items for the annual periods included in the consolidated statements of income:

	Fifty-two weeks ended January 28, 2018		Fifty-two weeks ended January 29, 2017		Fifty-two weeks ended January 31, 2016	
Net sales	100.0	%	100.0	%	100.0	%
Cost of sales	78.3		78.2		72.2	
Gross profit	21.7		21.8		27.8	
Selling and administrative expenses	14.1		14.5		18.0	
Intangible asset amortization	0.3		0.5		-	
Operating income	7.3		6.8		9.8	
Other income (expense), net	0.2		0.2		0.1	
Interest expense, net	0.2		0.2		-	
Income before income taxes	7.4		6.8		9.9	
Income taxes	2.8		2.4		3.3	
Net income	4.6		4.4		6.6	

Fiscal 2018 Compared to Fiscal 2017

The Shenandoah acquisition closed on September 29, 2017. Consequently, Shenandoah's results are not included in our results prior to September 30, 2017. Additionally, fiscal 2018 and 2017 results have been recast based on the re-composition of our operating segments during the 2018 fourth quarter.

Net Sales

	Fifty-two weeks ended January 28, 2018	% Net Sales	Fifty-two weeks ended January 29, 2017	% Net Sales	\$ Change	% Change
Hooker Branded	\$166,754	26.9 %	\$158,685	27.5 %	\$8,069	5.1 %
Home Meridian	365,472	58.9 %	344,635	59.7 %	20,837	6.0 %
All Other	88,406	14.2 %	73,899	12.8 %	14,507	19.6 %
Consolidated	\$620,632	100.0 %	\$577,219	100.0 %	\$43,413	7.5 %

	FY18 % Increase/ -Decrease vs. FY17	Average Selling Price	FY18 % Increase/ -Decrease vs. FY17	
Unit Volume				
Hooker Branded	5.3 %	Hooker Branded	0.0 %	
Home Meridian	14.8 %	Home Meridian	-7.4 %	
All Other	19.5 %	All Other	-0.5 %	
Consolidated	13.8 %	Consolidated	-5.4 %	

Table of Contents

Consolidated net sales increased in both reportable segments and All Other in fiscal 2018, led by increases in the Home Meridian segment and in All Other. Nearly 80% of All Other's net sales increase was due to inclusion of Shenandoah's post-acquisition sales in the last four months of the 2018 fiscal year. The increases in consolidated unit sales were partially offset by a decline in consolidated average selling prices (ASP). The Home Meridian segment's unit volume increased primarily due to increased sales to mega and e-commerce accounts, which experienced significant year-over-year sales increases. The decrease in Home Meridian segment ASP was attributable to customer mix and growth in ecommerce sales, which tend to be lower priced products. Hooker Branded segment unit volume increased due to sales growth at Hooker Upholstery and increased Hooker Casegoods shipments in the fourth quarter. Unit volume in All Other increased primarily due to the inclusion of Shenandoah's post-acquisition sales, and to a lesser extent, increased sales at Bradington-Young.

Gross Profit

	Fifty-two weeks ended January 28, 2018		Fifty-two weeks ended January 29, 2017		\$	%		
		%		%	Change	Change		
		Segment Net Sales		Segment Net Sales				
Hooker Branded	\$53,007	31.8	% \$51,653	32.6	% \$ 1,354	2.6	%	
Home Meridian	62,325	17.1	% 57,289	16.6	% 5,036	8.8	%	
All Other	19,485	22.0	% 17,179	23.2	% 2,306	13.4	%	
Consolidated	\$ 134,817	21.7	% \$ 126,121	21.8	% \$ 8,696	6.9	%	

Consolidated gross profit increased in absolute terms and stayed flat as percentage of net sales in fiscal year 2018 due to increased net sales and gross profit in both reportable segments and in All Other. Home Meridian segment gross profit increased both in absolute terms and as a percentage of net sales primarily due to increased net sales and countermeasures management implemented to improve the margin. All Other gross profit increased due primarily to the addition of Shenandoah's results. Hooker Branded segment gross profit increased due to net sales increases, lower product costs and a one-time vendor concession due to a prior year quality issue at Hooker Upholstery, partially offset by decreased Hooker casegoods gross profit due to increased cost of goods sold and returns and allowances.

Selling and Administrative Expenses

	Fifty-two weeks ended January 28, 2018		Fifty-two weeks ended January 29, 2017		\$	%		
		%		%	Change	Change		
		Segment Net Sales		Segment Net Sales				
Hooker Branded	\$ 31,275	18.8	% \$ 31,451	19.8	% \$ (176)	-0.6	%	
Home Meridian	42,727	11.7	% 39,780	11.5	% 2,947	7.4	%	
All Other	13,247	15.0	% 12,536	17.0	% 711	5.7	%	
Consolidated	\$ 87,249	14.1	% \$ 83,767	14.5	% \$ 3,482	4.2	%	

Consolidated selling and administrative (S&A) expenses increased in absolute terms primarily due to higher compensation, benefits and bonus expenses, the addition of Shenandoah's operations for the last four months of our fiscal year and \$800,000 in Shenandoah acquisition-related costs in the current year. These increases were partially offset by the absence of \$1.2 million in Home Meridian acquisition-related costs from the prior year. Home Meridian segment S&A expenses increased primarily due to higher compensation and bonus expense on improved earnings, increased professional services due to increased compliance costs and higher bad debt expense due to the write-off of a customer balance during fiscal 2018. All Other S&A expense increased in absolute terms but decreased as a percentage of net sales. The increase was attributable to the inclusion of Shenandoah expenses, partially offset by decreased S&A at Sam Moore, due primarily to lower selling expenses, and at Homeware due to its closure in 2018. Hooker Branded segment S&A decreased in both absolute terms and as a percentage of net sales, due to the absence of approximately \$1.2 million in HMI acquisition-related expenses and lower bad debts expense, partially offset by the inclusion of approximately \$800,000 in Shenandoah acquisition-related costs, increased salaries and benefits expense, and increased selling expenses at Hooker Upholstery due to higher sales.

Table of Contents

Intangible Asset Amortization

	Fifty-two Weeks Ended January 28, 2018		Fifty-two Weeks Ended January 29, 2017		\$	%	
		%		%	Change	Change	
		Net Sales		Net Sales			
Intangible asset amortization	\$ 2,084	0.3 %	\$ 3,134	0.5 %	\$(1,050)	-33.5 %	

Intangible asset amortization expense was higher in the prior year period due to the short amortization period of some of Home Meridian's acquisition-related intangible assets. The decrease was partially offset by intangible asset amortization expense recognized on Shenandoah acquisition-related intangibles. See Note 8. Intangible Assets for additional information on our amortizable intangible assets.

Operating Income

	Fifty-two weeks ended January 28, 2018		Fifty-two weeks ended January 29, 2017		\$	%	
		%		%	Change	Change	
		Segment Net Sales		Segment Net Sales			
Hooker Branded	\$ 21,732	13.0 %	\$ 20,203	12.7 %	\$ 1,529	7.6 %	
Home Meridian	18,265	5.0 %	14,375	4.2 %	3,890	27.1 %	
All Other	5,487	6.2 %	4,642	6.3 %	845	18.2 %	
Consolidated	\$ 45,484	7.3 %	\$ 39,220	6.8 %	\$ 6,264	16.0 %	

Operating profitability increased both in absolute terms and as a percentage of net sales in fiscal 2018 compared to the same prior-year period due to the factors discussed above.

Interest Expense, net

	Fifty-two Weeks Ended January 28, 2018		Fifty-two Weeks Ended January 29, 2017		\$	%	
		%		%	Change	Change	
		Net Sales		Net Sales			
Interest expense, net	\$ 1,248	0.2 %	\$ 954	0.2 %	\$ 294	30.8 %	

Consolidated interest expense in fiscal year 2018 increased primarily due to increases in the interest rates on our variable-rate term loans and interest expense on the new term loan in connection with the Shenandoah acquisition.

Income Taxes

	Fifty-two weeks ended January 28, 2018		Fifty-two weeks ended January 29, 2017		\$ Change	% Change
		% Net Sales		% Net Sales		
Consolidated income tax expense	\$ 17,522	2.8 %	\$ 13,909	2.4 %	\$ 3,613	26.0 %
Effective Tax Rate	38.3 %		35.5 %			

We recorded income tax expense of \$17.5 million during fiscal 2018, compared to \$13.9 million for fiscal 2017, due primarily to additional tax expense of \$1.8 million for the re-measurement of deferred tax assets and liabilities as the result of the Tax Cuts and Job Act. The effective income tax rates for the two fiscal years were 38.3% and 35.5%, respectively. Our effective tax rate was higher in fiscal 2018 due to the Tax Act impact and proceeds received on officer life insurance in fiscal 2017 that did not recur in fiscal 2018.

Table of Contents

Net Income and Earnings Per Share

	Fifty-two weeks ended January 28, 2018		Fifty-two weeks ended January 29, 2017		\$ Change	% Change	
		% Net Sales		% Net Sales			
Net Income Consolidated	\$ 28,250	4.6%	\$ 25,287	4.4%	\$ 2,963	11.7	%
Diluted earnings per share	\$ 2.42		\$ 2.18				

Fiscal 2017 Compared to Fiscal 2016

The Home Meridian acquisition closed on the first day of fiscal 2017. Consequently, that segment's fiscal 2016 results are not included in the results discussed below. Additionally, fiscal 2017 and 2016 results have been recast based on the re-composition of our operating segments during the 2018 fourth quarter.

Net Sales

	Fifty-two weeks ended January 29, 2017		Fifty-two weeks ended January 31, 2016		\$ Change	% Change	
		% Net Sales		% Net Sales			
Hooker Branded	\$ 158,685	27.5 %	\$ 173,011	70.0 %	\$(14,326)	-8.3	%
Home Meridian	344,635	59.7 %	-	0.0 %	344,635		
All other	73,899	12.8 %	73,988	30.0 %	(89)	-0.1	%
Consolidated	\$ 577,219	100.0%	\$ 246,999	100.0%	\$ 330,220	133.7	%

Unit Volume and Average Selling Price

	Unit Volume	FY17 % Increase/ -Decrease vs. FY16	Average Selling Price	FY17 % Increase/ -Decrease vs. FY16	
Hooker Branded		-9.5 %	Hooker Branded	1.7 %	
Home Meridian		-	Home Meridian	-	
All Other		-5.6 %	All Other	5.8 %	
Consolidated		-7.7 %	Consolidated	2.3 %	

The increase in consolidated net sales was due to the HMI acquisition on the first day of fiscal 2017. This increase was partially offset by Hooker Branded segment sales decreases. These decreases were primarily due to (i) sluggish

retail furniture sales in Hooker Casegoods, a trend which began in the second half of fiscal 2016 and one that seems generally consistent with that of the overall home furnishings industry during this time period and (ii) sales decreases at Hooker Upholstery due to a quality-related issue which negatively affected sales during the second and third quarters of fiscal 2017. All Other's sales were essentially flat primarily due to increased sales at H Contract, as that business continued to expand its customer and geographic bases. H Contract's sales increase was offset by a net sales decrease at Sam Moore, primarily due to labor capacity issues and due to exiting unprofitable sales in the prior year, and a sale decrease at Homeware as its operations began to wind down in the 2017 fourth quarter.

Table of Contents

Gross Profit

	Fifty-two weeks ended January 29, 2017		Fifty-two weeks ended January 31, 2016		\$	%		%
		%		%	Change	Change		
		Segment Net Sales		Segment Net Sales				
Hooker Branded	\$51,653	32.6	% \$51,693	29.9	% \$(40)	-0.1	%	
Home Meridian	57,289	16.6	% -	0.0	% 57,289			
All Other	17,179	23.2	% 16,995	23.0	% 184	1.1	%	
Consolidated	\$126,121	21.8	% \$68,688	27.8	% \$57,433	83.6	%	

Consolidated gross profit increased in fiscal 2017, primarily due to the HMI acquisition on the first day of fiscal 2017. Hooker Branded segment gross profit was essentially flat in absolute terms due to lower net sales; however, Hooker Branded segment gross profit as a percentage of net sales increased due primarily to lower ocean freight costs. All Other's gross margins increased in absolute terms and as a percentage of net sales due principally to net sales increases at H Contract, partially offset by net sales decreases at Sam Moore and Homeware described above.

Selling and Administrative Expenses

	Fifty-two weeks ended January 29, 2017		Fifty-two weeks ended January 31, 2016		\$	%		%
		%		%	Change	Change		
		Segment Net Sales		Segment Net Sales				
Hooker Branded	\$31,451	19.8	% \$31,669	18.3	% \$(218)	-0.7	%	
Home Meridian	39,780	11.5	% -	0.0	% 39,780			
All Other	12,536	17.0	% 12,757	17.2	% (221)	-1.7	%	
Consolidated	\$83,767	14.5	% \$44,426	18.0	% \$39,341	88.6	%	

Consolidated S&A expenses increased in absolute terms due to the addition of Home Meridian's operations on the first day of fiscal 2017, but decreased as a percentage of net sales from fiscal 2016, primarily due to the addition of that segment's net sales in fiscal 2017. Home Meridian's sales typically have lower gross margins, but also lower selling costs such as marketing materials, catalogs and photography and sales commissions due to their higher volume business model. Hooker Branded segment's S&A expenses increased as a percentage of net sales due to decreased net sales, but decreased in absolute terms due to lower selling expenses and bonus expense due to lower net sales, partially offset by increased bad debt expense due to a write-off of a customer balance during the fiscal year. All Other's S&A expenses increased as a percentage of net sales due to essentially flat net sales and decreased in absolute terms due to (i) decreased Homeware S&A, as that business began to wind down during the fiscal 2017 fourth quarter, and (ii) decreased Sam Moore S&A due primarily to decreased selling expenses due to lower net sales. These decreases were partially offset by increased H Contract S&A due to higher selling expenses as a result of higher net sales.

Intangible Asset Amortization

	%	%						
	Net	Net						
	Sales	Sales						
Intangible asset amortization	\$3,134	0.5 %	\$	-	0.0 %	\$ 3,134	100.0 %	

The Home Meridian segment recorded amortization expense on HMI acquisition-related intangibles during fiscal 2017. See Note 8. Intangible Assets for additional information on our amortizable intangible assets.

Table of Contents

Operating Income

	Fifty-two weeks ended January 29, 2017		Fifty-two weeks ended January 31, 2016		\$	%	Change	%	Change
		%		%					
		Segment		Segment					
		Net Sales		Net Sales					
Hooker Branded	\$ 20,203	12.7	% \$ 20,024	11.6	% \$ 179		0.9	%	
Home Meridian	14,375	4.2	% -	0.0	% 14,375				
All Other	4,642	6.3	% 4,238	5.7	% 404		-9.5	%	
Consolidated	\$ 39,220	6.8	% \$ 24,262	9.8	% \$ 14,958		61.7	%	

Operating profitability decreased as a percentage of net sales, but increased in absolute terms for fiscal 2017 compared to the same prior-year period, due to the HMI acquisition and other factors discussed above.

Interest Expense, net

	Fifty-two Weeks Ended January 29, 2017		Fifty-two Weeks Ended January 31, 2016		\$	%	Change	%	Change
		%		%					
		Net		Net					
		Sales		Sales					
Interest expense, net	\$ 954	0.2	% \$ 64	0.0	% \$ 890		1390.6	%	

Consolidated interest expense increased primarily due to interest expense recognized on our HMI acquisition-related term loans in fiscal 2017.

Income Taxes

	Fifty-two weeks ended January 29, 2017		Fifty-two weeks ended January 31, 2016		\$	%	Change	%	Change
		%		%					
		Net		Net					
		Sales		Sales					
Consolidated income tax expense	\$ 13,909	2.4	% \$ 8,274	3.3	% \$ 5,635		68.1	%	
Effective Tax Rate		35.5	%	33.8	%				

We recorded income tax expense of \$13.9 million during fiscal 2017, compared to \$8.3 million for fiscal 2016, due primarily to higher taxable income. The effective income tax rates for the two fiscal years were 35.5% and 33.8%, respectively. Our effective tax rate was higher in fiscal 2017 due to the reversal of an uncertain tax position and an

adjustment to the domestic production activities deduction which impacted fiscal 2016 and did not recur in fiscal 2017, as well as the reduced impact of certain permanent differences on higher taxable income as a result of the HMI acquisition.

Financial Condition, Liquidity and Capital Resources

Summary Cash Flow Information – Operating, Investing and Financing Activities

	Fifty-Two Weeks Ended January 28, 2018	Fifty-Two Weeks Ended January 29, 2017	Fifty-Two Weeks Ended January 31, 2016
Net cash provided by operating activities	\$ 27,746	\$ 31,240	\$ 23,036
Net cash used in investing activities	(36,483)	(88,061)	(3,455)
Net cash provided by (used in) financing activities	(140)	42,691	(4,322)
Net (decrease) increase in cash and cash equivalents	\$ (8,877)	\$ (14,130)	\$ 15,259

During fiscal 2018, \$27.7 million generated from operations, cash on hand, and \$12.0 million term-loan proceeds helped partially fund the Shenandoah acquisition, make \$6.3 million long-term debt payments, \$5.8 million in cash dividends, fund \$3.2 million capital expenditures to enhance our business systems and facilities and pay \$673,000 insurance premiums on Company-owned life insurance policies. Company-owned life insurance policies are in place to compensate us for the loss of key employees, to facilitate business continuity and to serve as a funding mechanism for certain executive benefits.

During fiscal 2017, cash generated from operations, cash on hand, term-loan proceeds and insurance proceeds helped fund the HMI acquisition, pay \$12.3 million in long-term debt payments, pay \$4.9 million in cash dividends and fund \$2.5 million of capital expenditures to enhance our business systems and facilities and to pay \$715,000 in premiums on Company-owned life insurance policies.

During fiscal 2016, \$23.0 million of cash generated from operations and cash on hand funded cash dividends of \$4.3 million, purchases of property and equipment of \$2.8 million and Company-owned life insurance premium payments of \$707,000.

Liquidity, Financial Resources and Capital Expenditures

Our financial resources include:

- § available cash and cash equivalents, which are highly dependent on incoming order rates and our operating performance;
- § expected cash flow from operations; and
- § available lines of credit.

We believe these resources are sufficient to meet our business requirements through fiscal 2019 and for the foreseeable future, including:

- § capital expenditures;
- § working capital, including capital required to fund our Pension Plan, SERP and SRIP plans;
- § the payment of regular quarterly cash dividends on our common stock; and
- § the servicing of our acquisition-related debt.

Based on our initial analysis of the Tax Cuts and Jobs Act of 2017, we expect substantial increases to our income and cash flows from this tax reform in fiscal 2018 and beyond.

Loan Agreements and Revolving Credit Facility

We currently have two unsecured term loans and one secured term loan outstanding and a revolving credit facility. The term loans are related to the Home Meridian and Shenandoah acquisitions. Details of our loan agreements and revolving credit facility are detailed below.

30

Table of Contents

Original Loan Agreement

On February 1, 2016, we entered into an amended and restated loan agreement (the “Original Loan Agreement”) with Bank of America, N.A. (“BofA”) in connection with the closing of the Home Meridian Acquisition. Also on February 1, 2016, we borrowed in full the amounts available under the Unsecured Term Loan (the “Unsecured Term Loan”) and the Secured Term Loan (the “Secured Term Loan”) in connection with the completion of the Home Meridian Acquisition.

Details of the individual credit facilities provided for in the Original Loan Agreement are as follows:

Unsecured revolving credit facility. The Original Loan Agreement increased the amount available under our existing unsecured revolving credit facility from \$15 million to \$30 million and increased the sublimit of the facility available for the issuance of letters of credit from \$3 million to \$4 million. Amounts outstanding under the revolving § facility bear interest at a rate, adjusted monthly, equal to the then-current LIBOR monthly rate plus 1.50%. We must also pay a quarterly unused commitment fee that is based on the average daily amount of the facility utilized during the applicable quarter;

Unsecured Term Loan. The Original Loan Agreement provided us with a \$41 million Unsecured Term Loan. Any amount borrowed under the Unsecured Term Loan will bear interest at a rate, adjusted monthly, equal to the § then-current LIBOR monthly rate plus 1.50%. We must repay any principal amount borrowed under the Unsecured Term Loan in monthly installments of approximately \$490,000, together with any accrued interest, until the full amount borrowed is repaid or until February 1, 2021, at which time all amounts outstanding under the Unsecured Term Loan will become due and payable; and

Secured Term Loan. The Original Loan Agreement provided us with a \$19 million term loan secured by a security interest in certain Company-owned life insurance policies granted to BofA under a security agreement, dated as of February 1, 2016 (the “Security Agreement”). Any amounts borrowed under the Secured Term Loan will bear interest § at a rate, adjusted monthly, equal to the then-current LIBOR monthly rate plus 0.50%. We must pay the interest accrued on any principal amounts borrowed under the Secured Term Loan on a monthly basis until the full principal amount borrowed is repaid or until February 1, 2021, at which time all amounts outstanding under the Secured Term Loan will become due and payable. BofA’s rights under the Security Agreement are enforceable upon the occurrence of an event of default under the Original Loan Agreement.

New Loan Agreement

On September 29, 2017, we entered into a second amended and restated loan agreement (the “New Loan Agreement”) with BofA in connection with the completion of the Shenandoah acquisition. The New Loan Agreement:

amends and restates the Original Loan Agreement detailed above such that our existing \$30 million unsecured § revolving credit facility (the “Existing Revolver”), Unsecured Term Loan, and Secured Term Loan all remain outstanding under the New Loan Agreement; and

§ provides us with a new \$12 million unsecured term loan (the “New Unsecured Term Loan”). Amounts outstanding under the New Unsecured Term Loan will bear interest at a rate, adjusted monthly, equal to the then current LIBOR monthly rate plus 1.50%. We must repay the principal amount borrowed under the New Unsecured Term Loan in monthly installments of approximately \$143,000, together with any accrued interest, until the full amount borrowed is repaid or until the earlier of September 30, 2022 or the expiration of the Existing Revolver, at which time all amounts outstanding under the New Unsecured Term Loan will become due and payable. We may prepay the outstanding principal amount under the New Unsecured Term Loan, in full or in part, on any interest payment date without penalty. On September 29, 2017, we borrowed the full \$12 million available under the New Unsecured Term

Loan to partially fund the cash consideration used in the Shenandoah acquisition.

The New Loan Agreement also included customary representations and warranties and requires us to comply with customary covenants, including, among other things, the following financial covenants:

· Maintain a ratio of funded debt to EBITDA not exceeding:

o 2.50:1.0 through August 31, 2018;

o 2.25:1.0 through August 31, 2019;

and

o 2.00:1.00 thereafter.

31

Table of Contents

- A basic fixed charge coverage ratio of at least 1.25:1.00; and
- Limit capital expenditures to no more than \$15.0 million during any fiscal year beginning in fiscal 2019.

The New Loan Agreement also limits our right to incur other indebtedness, make certain investments and create liens upon our assets, subject to certain exceptions, among other restrictions. The New Loan Agreement does not restrict our ability to pay cash dividends on, or repurchase shares of our common stock, subject to our compliance with the financial covenants discussed above, if we are not otherwise in default under the New Loan Agreement.

We were in compliance with each of these financial covenants at January 28, 2018 and expect to remain in compliance with existing covenants for the foreseeable future.

Due to our strong cash position, subsequent to the end of the 2018 fiscal year, we made an unscheduled \$10 million payment towards the amounts outstanding under the New Unsecured Term Loan. We believe we will save approximately \$300,000 in interest expense in fiscal 2019.

Revolving Credit Facility Availability

As of January 28, 2018, we had an aggregate \$28.5 million available under the Existing Revolver to fund working capital needs. Standby letters of credit in the aggregate amount of \$1.5 million, used to collateralize certain insurance arrangements and for imported product purchases, were outstanding under the revolving credit facility as of January 28, 2018. There were no additional borrowings outstanding under the Existing Revolver as of January 28, 2018.

Capital Expenditures

We expect to spend between \$6 million to \$8 million in capital expenditures in fiscal 2019 to maintain and enhance our operating systems and facilities.

Share Repurchase Authorization

During fiscal 2013, our Board of Directors authorized the repurchase of up to \$12.5 million of the Company's common shares. The authorization does not obligate us to acquire a specific number of shares during any period and does not have an expiration date, but it may be modified, suspended or discontinued at any time at the discretion of our Board of Directors. Repurchases may be made from time to time in the open market, or through privately negotiated transactions or otherwise, in compliance with applicable laws, rules and regulations, and subject to our cash requirements for other purposes, compliance with the covenants under the loan agreement for our revolving credit facility and other factors we deem relevant. No shares were purchased during fiscal 2018. Approximately \$11.8 million remains available for future purchases under the authorization as of January 28, 2018.

Dividends

We declared and paid dividends of \$0.50 per share or approximately \$5.8 million in fiscal 2018. On March 5, 2018 our Board of Directors declared a quarterly cash dividend of \$0.14 per share, payable on March 30, 2018 to shareholders of record at March 19, 2018.

Table of Contents

Commitments and Contractual Obligations

As of January 28, 2018, our commitments and contractual obligations were as follows:

	Cash Payments Due by Period (In thousands)				
	Less than	1-3		More than	Total
		1 Year	Years		
Long Term Debt (1)	\$8,202	\$38,938	\$6,285	\$-	\$53,425
Deferred compensation payments (2)	1,393	3,442	3,413	8,580	16,828
Operating leases (3)	7,449	13,423	9,008	3,212	33,092
Total contractual cash obligations	\$17,044	\$55,803	\$18,706	\$11,792	\$103,345

(1) These amounts represent obligations due under the Unsecured Term Loan and the Secured Term Loan. See Note 10 to the consolidated financial statements beginning on page F-24 for additional information about our long-term debt obligations. Subsequent to the end the recently completed fiscal year, we made an unscheduled \$10 million payment on the Unsecured Term Loan.

(2) These amounts represent estimated cash payments to be paid to participants in our SRIP through fiscal year 2043, which is 15 years after the last current SRIP plan participant is assumed to have retired. SERP benefits are paid over the lifetimes of plan participants, so the year of final payment is unknown. The present value of these benefits (the actuarially derived projected benefit obligation for the SRIP and SERP) were approximately \$9.4 million and \$2.0 million, respectively, at January 28, 2018, and are shown on our consolidated balance sheets, with \$699,000 recorded in current liabilities and \$10.7 million recorded in long-term liabilities. Under the SRIP, the monthly retirement benefit for each participant, regardless of age, would become fully vested and the present value of that benefit would be paid to each participant in a lump sum upon a change in control of the Company as defined in the plan. See Note 11 to the consolidated financial statements beginning on page F-26 for additional information about the SRIP and SERP.

(3) These amounts represent estimated cash payments due under operating leases for real estate utilized in our operations and warehouse and office equipment.

Off-Balance Sheet Arrangements

Standby letters of credit in the aggregate amount of \$1.5 million, used to collateralize certain insurance arrangements and for imported product purchases, were outstanding under our revolving credit facility as of January 28, 2018. See the “Commitments and Contractual Obligations” table above and Note 16 to the consolidated financial statements included in this annual report on Form 10-K for additional information on our off-balance sheet arrangements.

Substantially all of the cash value of our company owned life insurance is pledged as collateral for our secured term loan.

Recently Issued Accounting Pronouncements

In May 2017, the Financial Accounting Standards Board (the “FASB”) issued Accounting Standards Update (“ASU”) 2017-09, Compensation – Stock Compensation (Topic 718): Scope of Modification Accounting. ASU 2017-09 was issued to provide clarity and reduce diversity in practice, cost and complexity when applying the guidance in Topic 718, Compensation—Stock Compensation, to a change to the terms or conditions of a share-based payment award. The amendments in this ASU provide guidance about which changes to the terms or conditions of a share-based payment

award require an entity to apply modification accounting in Topic 718. Essentially, an entity will not have to account for the effects of a modification if: (a) the fair value of the modified award is the same immediately before and after the modification; (b) the vesting conditions of the modified award are the same immediately before and after the modification; and (c) the classification of the modified award as either an equity instrument or liability instrument is the same immediately before and after the modification. The amendments in ASU 2017-09 will become effective for us as of the beginning of our 2019 fiscal year on January 29, 2018. Early adoption is permitted, including adoption in any interim period. The adoption of this guidance is not expected to have a material impact upon our financial condition or results of operations.

Table of Contents

In March 2017, the FASB issued ASU 2017-07, “Compensation – Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost (“ASU 2017-07).” Currently, net benefit cost is reported as an employee cost within operating income. The amendment requires the bifurcation of net benefit cost. The service cost component will be presented with the other employee compensation costs in operating income. The other components will be reported outside of operating income and will not be eligible for capitalization. The guidance is required to be applied on a retrospective basis for the presentation of the service cost component and the other components of net benefit cost (including gains and losses on curtailments and settlements, and termination benefits paid through plans), and on a prospective basis for the capitalization of only the service cost component of net benefit cost. Amounts capitalized into assets prior to the date of adoption should not be adjusted through a cumulative effect adjustment, but should continue to be recognized in the normal course, as for example, inventory is sold or fixed assets are depreciated. The amendments in ASU 2017-07 will become effective for us at the beginning of our 2019 fiscal year beginning on January 29, 2018. The adoption of this guidance is not expected to have a material impact upon our financial condition or results of operations.

In January 2017, the FASB issued ASU 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business. ASU 2017-01 provides a screen to determine when an integrated set of assets and activities (collectively referred to as a “set”) does not constitute a business. The screen requires that when substantially all of the fair value of the gross assets acquired (or disposed of) is concentrated in a single identifiable asset or a group of similar identifiable assets, the set is not a business. This screen reduces the number of transactions that need to be further evaluated. If the screen is not met, the amendments in ASU 2017-01 (a) require that to be considered a business, a set must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output and (b) remove the evaluation of whether a market participant could replace missing elements. The amendments in ASU 2017-01 will apply prospectively and will become effective for us at the beginning of our 2019 fiscal year on January 29, 2018. The adoption of this guidance is not expected to have a material impact upon our financial condition or results of operations.

In February 2016, the FASB issued ASU 2016-02 Leases, which, among other things, requires lessees to recognize a right-of-use asset and a liability on the balance sheet for all leases, with the exception of short-term leases. This change will increase reported assets and liabilities by lessees— in some cases very significantly. The lease liability recognized will be equal to the present value of lease payments and the right-of-use asset will be based on the lease liability, subject to adjustment such as for initial direct costs. Leases will continue to be classified as either operating or finance leases in the income statement. Lessor accounting remains substantially similar to current U.S. GAAP. ASU 2016-02 supersedes Topic 840, Leases. The transitional guidance for adopting the requirements of ASU 2016-02 calls for a modified retrospective approach that includes a number of optional practical expedients that entities may elect to apply. This standard is effective for public entities for annual and interim periods in fiscal years beginning after December 15, 2018, which will be the first quarter of our 2020 fiscal year. We are currently evaluating the impact that the adoption of ASU 2016-02 will have on our consolidated financial statements and have not made any decision on the method of adoption with respect to the optional practical expedients.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments. ASU 2016-15 addresses how certain cash receipts and cash payments are presented and classified in the statement of cash flows. Its objective is to reduce existing diversity in practice with respect to these items. Among the types of cash flows addressed are payments for costs related to debt prepayments or extinguishments, payments representing accreted interest on discounted debt, payments of contingent consideration after a business combination, proceeds from insurance claims and company-owned life insurance and distributions from equity method investees, among others. The ASU is effective for fiscal years beginning after December 15, 2017 and interim periods within those years for public business entities, which will be our fiscal 2019 first quarter. Early adoption is permitted in any interim or annual period provided that the entire ASU is adopted. The adoption of this guidance is not expected to have a material impact upon our financial condition or results of operations.

Table of Contents

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606) (“ASU 2014-09”). The amendments in ASU 2014-09 affects any entity that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets unless those contracts are within the scope of other standards. This ASU will supersede the revenue recognition requirements in Topic 605, Revenue Recognition, and most industry-specific guidance, and creates a Topic 606, Revenue from Contracts with Customers. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In August 2015, the FASB issued ASU 2015-14, Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date (“ASU 2015-14”), which defers the effective date of ASU 2014-09 for all entities by one year. ASU 2014-09 is now effective for financial statements issued for annual reporting periods beginning after December 15, 2017. We will adopt ASU No. 2014-09 on January 29, 2018, the first day of our 2019 fiscal year. Entities may adopt this new standard either retrospectively for all periods presented in the financial statements (i.e., the full retrospective method) or as a cumulative-effect adjustment as of the date of adoption (i.e., the modified retrospective method), without applying to comparative years’ financial statements.

In the process of evaluating the impact that ASU No. 2014-09 will have on our consolidated financial statements and disclosures, we have followed the five-step model imposed by the new guidance and completed a comprehensive review of revenue streams across our reporting segments and All Other. The review included determining whether a contract or an arrangement existed, identifying performance obligations, factors affecting the determination of transaction price, such as promotional incentives and allowances, and factors affecting the classification of receipts as revenue, such as principal versus agent considerations on logistics services and our container direct sales. Our analysis included reviewing material agreements, sales policies and procedures, interviewing sales and customer care management and analyzing those findings based on the five-step model described in the new standard.

Based on our analysis, we do not believe the standard will have a material effect on our financial statements, including a material effect on the timing or amounts of revenue recognized; however, we do expect the adoption of this guidance to increase the disclosures required in the notes to our consolidated financial statements beginning with our fiscal 2019 first quarter Form 10-Q, expected to be filed on or before June 8, 2018. We plan to adopt the standard using the modified retrospective method, which we expect will have an immaterial effect on our consolidated balance sheets.

In February 2018, the FASB issued ASU 2018-02, Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income. The new guidance allows the reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects resulting from the Tax Cuts and Jobs Act. ASU 2018-02 was issued in response to concerns regarding current accounting guidance that requires deferred tax assets and liabilities to be adjusted for the effect of a change in tax laws or rates with the effect included in income from continuing operations in the reporting period that includes the enactment date, even in situations in which the related income tax effects of items in accumulated other comprehensive income were originally recognized in other comprehensive income, rather than net income. Consequently, the stranded tax effects would not reflect the appropriate tax rate. The amendments of this ASU allow an entity to make a reclassification from accumulated other comprehensive income to retained earnings for the stranded tax effects, which is the difference between the historical federal corporate income tax rate of 35.0% and the newly enacted corporate income tax rate of 21.0%. The amendments in this ASU are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018, with early adoption permitted. We plan to adopt ASU 2018-02 in the first quarter of fiscal 2019 and believe the impact will be immaterial to our annual and interim financial statements.

Outlook

As we ended fiscal 2018, incoming order rates and order backlogs improved in many segments compared to the prior year. We still have some challenges to address in some areas but, overall, we believe we began the year on track to

achieve our growth plans for fiscal 2019. Segments serving emerging channels look to continue their high growth rates and some of the traditional channels seem to be stabilizing. We've seen some softness in Shenandoah's business late in fiscal 2018 but believe that to be temporary and one of the risks of a small customer base. That said, we still expect Shenandoah to contribute to operating income at a high level and we will work with their team to broaden offerings, diversify the customer base and identify cross selling opportunities. We also expect to see improvement at Samuel Lawrence Hospitality based on the number of projects they are bidding on as well as a new variation on their business model serving the home improvement industry.

Continuing favorable economic news, including consumer confidence, housing data, tax reform, solid stock market returns and recovery in hurricane-affected regions of the US all give us confidence that the furniture space can continue to grow and allow us to create other opportunities to find and cultivate new channels of distribution, while continuing to grow with our core customers.

Table of Contents

Critical Accounting Policies and Estimates

Our significant accounting policies are described in “Note 1 – Summary of Significant Accounting Policies” to the consolidated financial statements beginning at page F-1 in this report. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires us to make estimates and assumptions in certain circumstances that affect amounts reported in the accompanying financial statements and related notes. In preparing these financial statements, we have made our best estimates and judgments of certain amounts included in the financial statements, giving due consideration to materiality. We do not believe that actual results will deviate materially from our estimates related to our accounting policies described below. However, because application of these accounting policies involves the exercise of judgment and the use of assumptions as to future uncertainties, actual results could differ materially from these estimates.

Purchase Price Allocation. For the Shenandoah acquisition, we allocated the purchase price to the various tangible and intangible assets acquired and liabilities assumed, based on their estimated fair values. Determining the fair value of certain assets and liabilities acquired is subjective in nature and often involves the use of significant estimates and assumptions, which are inherently uncertain. Many of the estimates and assumptions used to determine fair values, such as those used for intangible assets, are made based on forecasted information and discount rates. To assist in the purchase price allocation process, as well as the estimate of remaining useful lives of acquired assets, we engaged a third-party appraisal firm. In addition, the judgments made in determining the estimated fair value assigned to each class of assets acquired and liabilities assumed, as well as asset lives, can materially impact our results of operations.

Allowance for Doubtful Accounts. We evaluate the adequacy of our allowance for doubtful accounts at the end of each quarter. In performing this evaluation, we analyze the payment history of our significant past due accounts, subsequent cash collections on these accounts and comparative accounts receivable aging statistics. Based on this information, along with consideration of the general condition of the economy, we develop what we consider to be a reasonable estimate of the uncollectible amounts included in accounts receivable. This estimate involves significant judgment and actual uncollectible amounts may differ materially from our estimate.

Valuation of Inventories. We value all of our inventories at the lower of cost or market (using the last-in, first-out (“LIFO”) method). LIFO cost for all of our inventories is determined using the dollar-value, link-chain method. This method allows for the more current cost of inventories to be reported in cost of sales, while the inventories reported on the balance sheet consist of the costs of inventories acquired earlier, subject to adjustment to the lower of cost or market. Hence, if prices are rising, the LIFO method will generally lead to higher cost of sales and lower profitability as compared to the first-in, first-out (“FIFO”) method. We evaluate our inventory for excess or slow-moving items based on recent and projected sales and order patterns. We establish an allowance for those items when the estimated market or net sales value is lower than their recorded cost. This estimate involves significant judgment and actual values may differ materially from our estimate.

Income Taxes. At times, tax law and generally accepted accounting principles differ in the treatment of certain income and expense items. These items may be excluded or included in taxable income at different times than is required for GAAP or “book” reporting purposes. These differences may be permanent or temporary in nature.

For quarterly reporting purposes, we determine our annual effective income tax rate based on forecasted pre-tax book income and forecasted permanent book and tax differences. The rate is established at the beginning of the year and is evaluated on a quarterly basis. We consider the level and mix of income of our separate legal entities, statutory tax rates, business credits available in the various jurisdictions in which we operate and permanent tax differences. Significant judgment is required in evaluating tax positions that affect the annual tax rate. Any changes to the forecasted information may cause adjustments to the effective rate. Additional tax, interest and penalties associated with uncertain tax positions are recognized in tax expense on a quarterly basis.

To the extent that any book and tax differences are temporary in nature, that is, the book realization will occur in a different period than the tax realization, a deferred tax asset or liability is established. To the extent that a deferred tax asset is created, we evaluate the likelihood we will fully realize this asset. If we determine that we will not be able to fully utilize deferred tax assets, we establish a valuation reserve. In assessing the realization of deferred tax assets, we consider whether it is more likely than not that some portion or all of the deferred tax assets will be realized. The ultimate realization of deferred tax assets is primarily dependent upon the generation of future taxable income during the periods in which those temporary differences reverse.

All deferred tax assets and liabilities are classified as non-current on our consolidated balance sheets.

Table of Contents

Impairment of Long-Lived Assets

Tangible and Definite Lived Intangible Assets

We regularly review our property, plant and equipment and definite lived intangible assets for indicators of impairment, as specified in the Accounting Standards Codification. Although not exhaustive, this accounting guidance lists potential indicators of impairment, which we use to facilitate our review. These potential indicators of impairment include:

- § A significant decrease in the market value of the long-lived asset;
- § A significant adverse change in the extent or manner in which a long-lived asset group is being used, or in its physical condition;
- § A significant adverse change in the legal factors or in the business climate that could affect the value of a long-lived asset, including an adverse action or assessment by a regulator;
- § An accumulation of costs significantly in excess of the amount originally expected to acquire or construct a long-lived asset;
- § A current period operating or cash flow loss or a projection or forecast that demonstrates continuing losses associated with the long-lived asset's use; and
- § A current expectation that more-likely-than-not, a long-lived asset will be sold or otherwise disposed of significantly before the end of its previously estimated useful life.

When an indicator of impairment is present, the impairment test for our long-lived assets requires us to assess the recoverability of the value of the assets by comparing their net carrying value to the sum of undiscounted estimated future cash flows directly associated with and arising from use and eventual disposition of the assets. We principally use our internal forecasts to estimate the undiscounted future cash flows used in our impairment analyses. These forecasts are subjective and are largely based on management's judgment, primarily due to the changing industry in which we compete, changing consumer tastes, trends and demographics and the current economic environment. We monitor changes in these factors as part of the quarter-end review of these assets. While our forecasts have been reasonably accurate in the past, during periods of economic instability, uncertainty, or rapid change within our industry, we may not be able to accurately forecast future cash flows from our long-lived assets and our future cash flows may be diminished. Therefore, our estimates and assumptions related to the viability of our long-lived assets may change, and are reasonably likely to change in future periods. These changes could adversely affect our consolidated statements of income and consolidated balance sheets.

When we conclude that any of these assets are impaired, the asset is written down to its fair value. Any impaired assets that we expect to dispose of by sale are measured at the lower of their carrying amount or fair value, less estimated cost to sell; are no longer depreciated; and are reported separately as "assets held for sale" in the consolidated balance sheets, if we expect to dispose of the assets in one year or less.

Intangible Assets and Goodwill

We own both definite-lived (amortizable) assets and indefinite-lived intangible assets. Our amortizable intangible assets are related to the Home Meridian and Shenandoah acquisitions and include customer relationships, backlog and trademarks. Our indefinite lived assets include goodwill, trademarks and tradenames related to the Home Meridian and Shenandoah acquisitions, as well as the Bradington-Young and Sam Moore tradenames. We may acquire additional amortizable assets and/or indefinite lived intangible assets in the future. Our indefinite-lived intangible assets are not amortized but are tested for impairment annually or more frequently if events or circumstances indicate that the asset might be impaired.

Our goodwill, trademarks and trade names are tested for impairment annually as of the first day of our fourth quarter or more frequently if events or changes in circumstances indicate that the asset might be impaired. Circumstances that could indicate a potential impairment include, but are not limited to:

- § a significant adverse change in the economic or business climate either within the furniture industry or the national or global economy;
- § significant changes in demand for our products;
- § loss of key personnel; and
- § the likelihood that a reporting unit or significant portion of a reporting unit will be sold or otherwise subject to disposal.

Table of Contents

The fair value of our trademarks and tradenames is determined based on the estimated earnings and cash flow capacity of those assets. The impairment test consists of a comparison of the fair value of the indefinite-lived intangible assets with their carrying amount. If the carrying amount of the indefinite-lived intangible assets exceeds their fair value, an impairment loss is recognized in an amount equal to that excess.

At January 28, 2018, the fair values of our Bradington-Young, Home Meridian, Sam Moore and Shenandoah trademarks and trade names exceeded their carrying values.

In accordance with ASU 2017-04, Intangibles-Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment, we first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the quantitative goodwill impairment test outlined in ASC Topic 350. The more likely than not threshold is defined as having a likelihood of more than 50 percent. If, after assessing the totality of events or circumstances, we determine that it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, then performing the quantitative impairment test is unnecessary and our goodwill is considered to be unimpaired. However, if based on our qualitative assessment we conclude that it is more likely than not that the fair value of a reporting unit is less than its carrying amount, we will proceed with performing quantitative assessment. The quantitative assessment is performed by comparing the carrying amount of the reporting unit to its fair value. If the fair value of the reporting unit is less than the carrying amount of the reporting unit, the goodwill impairment charge would be equal to the amount of such difference. The quantitative assessment involves estimating the fair value of the reporting unit using projected future cash flows that are discounted using a weighted average cost of capital analysis that reflects current market conditions. Management judgment is a significant factor in the goodwill impairment evaluation process. The computations require management to make estimates and assumptions, the most critical of which are potential future cash flows and the appropriate discount rate. Based on our qualitative assessment as described above, we have concluded that our goodwill is not impaired as of January 28, 2018.

The assumptions used to determine the fair value of our intangible assets are highly subjective and judgmental and include long-term growth rates, sales volumes, projected revenues, assumed royalty rates and factors used to develop an applied discount rate. If the assumptions that we use in these calculations differ from actual results, we may realize impairment on our intangible assets that may have a material-adverse effect on our results of operations and financial condition.

Concentrations of Sourcing Risk

In fiscal 2018, imported products sourced from Vietnam and China accounted for nearly all of our import purchases and our top five suppliers in Vietnam and China account for approximately half of our fiscal 2018 import purchases. A disruption in our supply chain, or from Vietnam or China in general, could significantly impact our ability to fill customer orders for products manufactured in those countries. If such a disruption were to occur, we believe that we would have sufficient inventory on hand and in transit to our U.S. warehouses in Virginia, North Carolina and California to adequately meet demand for several months or slightly longer with an additional month's worth of demand available for immediate shipment from our warehouses in Asia. We believe that we could, most likely at higher cost, source most of the products currently sourced in Vietnam or China from factories in other countries and could produce certain upholstered products domestically at our own factories. However, supply disruptions and delays on selected items could occur for up to six months before the impact of remedial measures would be reflected in our results. If we were to be unsuccessful in obtaining those products from other sources or at comparable cost, a disruption in our supply chain from our largest import furniture suppliers, or from Vietnam or China in general, could adversely affect our sales, earnings, financial condition and liquidity.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to various types of market risk in the normal course of our business, including the impact of interest rate changes, raw materials price risk and changes in foreign currency exchange rates, which could impact our results of operations or financial condition. We manage our exposure to this risk through our normal operating activities.

Interest Rate Risk

In conjunction with the Shenandoah acquisition, we entered into new financing arrangements as described in "Note 10 Long-Term Debt" included in Part II, Item 8. "Financial Statements" of this Form 10-K. Borrowings under the revolving credit facility and the Unsecured Term Loan bear interest based on LIBOR plus 1.5% and borrowings under the Secured Term Loan bear interest based on LIBOR plus 0.5%. As such, these debt instruments expose us to market risk for changes in interest rates. There was no outstanding balance under our revolving credit facility as of January 28, 2018, other than standby letters of credit in the amount of \$1.5 million. However, as of January 28, 2018, \$53.3 million was outstanding under our term loans. A 1% increase in the LIBOR rate would result in an annual increase in interest expense on our terms loans of approximately \$411,000.

Table of Contents

Raw Materials Price Risk

We are exposed to market risk from changes in the cost of raw materials used in our domestic upholstery manufacturing processes; principally, wood, fabric and foam products. Increases in home construction activity could result in increases in wood and fabric costs. Additionally, the cost of petroleum-based foam products we utilize are sensitive to crude oil prices, which vary due to supply, demand and geo-political factors.

Currency Risk

For imported products, we generally negotiate firm pricing denominated in U.S. Dollars with our foreign suppliers, typically for periods of at least one year. We accept the exposure to exchange rate movements beyond these negotiated periods. We do not use derivative financial instruments to manage this risk, but could choose to do so in the future. Most of our imports are purchased from suppliers located in Vietnam and China. The Chinese currency floats within a limited range in relation to the U.S. Dollar, resulting in exposure to foreign currency exchange rate fluctuations.

Since we transact our imported product purchases in U.S. Dollars, a relative decline in the value of the U.S. Dollar could increase the price we pay for imported products beyond the negotiated periods. We generally expect to reflect substantially all of the effect of any price increases from suppliers in the prices we charge for imported products. However, these changes could adversely impact sales volume or profit margins during affected periods.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Our consolidated financial statements listed in Item 15(a), and which begin on page F-1, of this report are incorporated herein by reference and are filed as a part of this report.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our principal executive officer and principal financial officer, evaluated the effectiveness of our disclosure controls and procedures as of the end of the fiscal quarter ended January 28, 2018. Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were effective as of January 28, 2018, the end of the period covered by this annual report, to provide reasonable assurance that information required to be disclosed in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to the Company's management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure and are effective to provide reasonable assurance that such information is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

Management's Annual Report on Internal Control over Financial Reporting

In accordance with Section 404 of the Sarbanes-Oxley Act and SEC rules thereunder, management has conducted an assessment of our internal control over financial reporting as of January 28, 2018, based on the framework in Internal Control-Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Management's report regarding that assessment is included on page F-2 of this report, with our consolidated financial statements, and is incorporated herein by reference.

Report of Registered Public Accounting Firm

Our independent registered public accounting firm, KPMG LLP, audited the consolidated financial statements included in this annual report on Form 10-K and has issued an audit report on the effectiveness of our internal control over financial reporting. KPMG's report is included on page F-4 of this report, with our consolidated financial statements, and is incorporated herein by reference.

Table of Contents

Changes in Internal Control over Financial Reporting

On September 29, 2017, we completed the acquisition of substantially all of the assets of Shenandoah Furniture, Inc. As permitted by SEC guidance for newly acquired businesses, we have excluded the Shenandoah operations from the scope of our Sarbanes-Oxley Section 404 report on internal controls over financial reporting as of January 28, 2018. We are in the process of implementing our internal control in the Shenandoah operations and expect that this effort will be completed in fiscal 2019.

There have been no changes in our internal control over financial reporting during the fiscal quarter ended January 28, 2018, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

None.

Table of Contents

Hooker Furniture Corporation
Part III

In accordance with General Instruction G (3) of Form 10-K, most of the information called for by Items 10, 11, 12, 13 and 14 of Part III will be incorporated by reference to the Company's definitive Proxy Statement for its Annual Meeting of Shareholders scheduled to be held June 5, 2018 (the "2018 Proxy Statement"), as set forth below.

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Information relating to our directors will be set forth under the caption "Proposal One-Election of Directors" in the 2018 Proxy Statement and is incorporated herein by reference.

Information relating to our executive officers is included in Part I of this report under the caption "Executive Officers of Hooker Furniture Corporation" and is incorporated herein by reference.

Information relating to compliance with Section 16(a) of the Exchange Act will be set forth under the caption "Section 16(a) Beneficial Ownership Reporting Compliance" in the 2018 Proxy Statement and is incorporated herein by reference.

Information relating to the code of ethics that applies to our principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions will be set forth under the caption "Code of Business Conduct and Ethics" in the 2018 Proxy Statement and is incorporated herein by reference.

Information relating to material changes, if any, in the procedures by which shareholders may recommend nominees for our Board of Directors will be set forth under the caption "Procedures for Shareholder Recommendations of Director Nominees" in the 2018 Proxy Statement and is incorporated herein by reference.

Information relating to the Audit Committee of our Board of Directors, including the composition of the Audit Committee and the Board's determinations concerning whether certain members of the Audit Committee are "financial experts" as that term is defined under Item 407(d)(5) of Regulation S-K will be set forth under the captions "Corporate Governance" and "Audit Committee" in the 2018 Proxy Statement and is incorporated herein by reference.

ITEM 11. EXECUTIVE COMPENSATION

Information relating to this item will be set forth under the captions "Report of the Compensation Committee," "Executive Compensation" and "Director Compensation" in the 2018 Proxy Statement and is incorporated herein by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED SHAREHOLDER MATTERS

Information relating to this item will be set forth under the captions "Equity Compensation Plan Information" and "Security Ownership of Certain Beneficial Owners and Management" in the 2018 Proxy Statement and is incorporated herein by reference.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Information relating to this item will be set forth in the last paragraph under the caption “Audit Committee” and the caption “Corporate Governance” in the 2018 Proxy Statement and is incorporated herein by reference.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

Information relating to this item will be set forth under the caption “Proposal Two- Ratification of Selection of Independent Registered Public Accounting Firm” in the 2018 Proxy Statement and is incorporated herein by reference.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

To the Shareholders of
Hooker Furniture Corporation
Martinsville, Virginia

Management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Securities Exchange Act Rule 13a-15(f). Under the supervision and with the participation of management, including the principal executive officer and principal financial officer, the Company conducted an evaluation of the effectiveness of its internal control over financial reporting based on the framework in Internal Control—Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on the Company's evaluation under that framework, management concluded that the Company's internal control over financial reporting was effective as of January 28, 2018.

The effectiveness of the Company's internal control over financial reporting as of January 28, 2018 has been audited by KPMG LLP, the Company's independent registered public accounting firm, as stated in their report which is included herein.

The scope of management's assessment of the effectiveness of the Company's internal control over financial reporting as of January 28, 2018 included the Company's consolidated operations, including controls over the Company's acquisition of Shenandoah Furniture, Inc. on September 29, 2017, but did not include the operations of Shenandoah Furniture, Inc. Shenandoah Furniture Inc.'s operations represented \$41.4 million of the Company's consolidated total assets and \$11.3 million of the Company's consolidated total revenues as of and for the year ended January 28, 2018.

Paul B. Toms, Jr.

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors
Hooker Furniture Corporation:

Opinion on Internal Control Over Financial Reporting

We have audited Hooker Furniture Corporation and subsidiaries' (the "Company") internal control over financial reporting as of January 28, 2018, based on criteria established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of January 28, 2018, based on criteria established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) ("PCAOB"), the consolidated balance sheets of the Company as of January 28, 2018 and January 29, 2017, and the related consolidated statements of income, comprehensive income, stockholders' equity, and cash flows for each of the years in the three-year period ended January 28, 2018, and related notes (collectively, the "consolidated financial statements"), and our report dated April 13, 2018 expressed an unqualified opinion on those consolidated financial statements.

The scope of management's assessment of the effectiveness of the Company's internal control over financial reporting as of January 28, 2018 included the Company's consolidated operations, including controls over the Company's acquisition of Shenandoah Furniture, Inc. on September 29, 2017, but did not include the operations of Shenandoah Furniture, Inc. Shenandoah Furniture, Inc.'s operations represented \$41.4 million of the Company's consolidated total assets and \$11.3 million of the Company's consolidated total revenues as of and for the year ended January 28, 2018. Our audit of internal control over financial reporting of the Company also excluded an evaluation of the internal control over financial reporting of Shenandoah Furniture, Inc.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance

with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors
Hooker Furniture Corporation:

Opinion on the Consolidated Financial Statements

We have audited the accompanying consolidated balance sheets of Hooker Furniture Corporation and subsidiaries (the “Company”) as of January 28, 2018 and January 29, 2017, the related consolidated statements of income, comprehensive income, shareholders’ equity, and cash flows for each of the years in the three year period ended January 28, 2018, and the related notes (collectively, the “consolidated financial statements”). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of January 28, 2018 and January 29, 2017, and the results of its operations and its cash flows for each of the years in the three year period ended January 28, 2018, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (“PCAOB”), the Company’s internal control over financial reporting as of January 28, 2018, based on criteria established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission, and our report dated April 13, 2018 expressed an unqualified opinion on the effectiveness of the Company’s internal control over financial reporting.

Basis for Opinion

These consolidated financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

/s/ KPMG LLP

We have served as the Company’s auditor since 2003.

HOOKER FURNITURE CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollar and share amounts in tables, except per share amounts, in thousands unless otherwise indicated)

For the Fifty-Two Weeks Ended January 28, 2018

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Business

Hooker Furniture Corporation and subsidiaries (the “Company,” “we,” “us” and “our”) design, import, manufacture and market residential household furniture, hospitality and contract furniture for sale to wholesale and retail merchandisers located principally in North America.

Consolidation

The consolidated financial statements include the accounts of Hooker Furniture Corporation and our wholly owned subsidiaries. All material intercompany accounts and transactions have been eliminated in consolidation. All references to the Company refer to the Company and our consolidated subsidiaries, unless specifically referring to segment information. For comparative purposes, segment disclosures in the consolidated financial statements and notes have been reclassified to conform to the fiscal 2018 presentation.

Operating Segments

As a public entity, we are required to present disaggregated information by segment using the management approach. The objective of this approach is to allow users of our financial statements to see our business through the eyes of management based upon the way management reviews performance and makes decisions. The management approach requires segment information to be reported based on how management internally evaluates the operating performance of the company’s business units or segments. The objective of this approach is to meet the basic principles of segment reporting as outlined in ASC 280 Segments (“ASC 280”), which are to allow the users of our financial statements to:

- § better understand our performance;
- § better assess our prospects for future net cash flows; and
- § make more informed judgments about us as a whole.

We define our segments as those operations our chief operating decision maker (“CODM”) regularly reviews to analyze performance and allocate resources. We measure the results of our segments using, among other measures, each segment’s net sales, gross profit and operating income, as determined by the information regularly reviewed by the CODM.

For financial reporting purposes, we are organized into two reportable segments and “All Other”, which includes the remainder of our businesses:

§ Hooker Branded, consisting of the operations of our imported Hooker Casegoods and Hooker Upholstery businesses;

§ Home Meridian, a business acquired at the beginning of fiscal 2017, is a stand-alone, mostly autonomous business that serves a different type or class of customer than do our other operating segments and at much lower margins; and

§ All Other, which includes the domestic upholstery manufacturing operations of Bradington-Young, Sam Moore and Shenandoah Furniture and H Contract and Homeware, two businesses started in 2013. None of these operating

segments met the ASC 280 aggregation criteria nor were individually reportable; therefore, we combined them in “All Other” in accordance with ASC 280. We note that Homeware failed to reach critical mass and its operations were wound down during the fiscal 2018 second quarter.

F-10

Table of Contents

Cash and Cash Equivalents

We consider cash on hand, demand deposits in banks and all highly liquid investments with an original maturity of three months or less to be cash and cash equivalents.

Trade Accounts Receivable

Substantially all of our trade accounts receivable are due from retailers and dealers that sell residential home furnishings or commercial purchasers of our hospitality and senior living products, and consist of a large number of entities with a broad geographic dispersion. We perform credit evaluations of our customers and generally do not require collateral. In the event a receivable is determined to be potentially uncollectible, we engage collection agencies or law firms to attempt to collect amounts owed to us after all internal collection attempts have ended. Once we have determined the receivable is uncollectible, it is charged against the allowance for doubtful accounts. Accounts receivable are reported net of allowance for doubtful accounts.

Business Combinations-Purchase Price Allocation

For business combinations, we allocate the purchase price to the various tangible and intangible assets acquired and liabilities assumed, based on their estimated fair values. Determining the fair value of certain assets and liabilities acquired is subjective in nature and often involves the use of significant estimates and assumptions, which are inherently uncertain. Many of the estimates and assumptions used to determine fair values, such as those used for intangible assets, are made based on forecasted information and discount rates. To assist in the purchase price allocation process, as well as the estimate of remaining useful lives of acquired assets, we may engage a third-party appraisal firm. In addition, the judgments made in determining the estimated fair value assigned to each class of assets acquired and liabilities assumed, as well as asset lives, can materially impact our results of operations.

Fair Value Measurements

We utilize valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible. We determine fair value based on assumptions that we believe market participants would use in pricing an asset or liability in the principal or most advantageous market. When considering market participant assumptions in fair value measurements, the following fair value hierarchy distinguishes between observable and unobservable inputs, which are categorized in one of the following levels:

§ Level 1 Inputs: Unadjusted quoted prices in active markets for identical assets or liabilities accessible to the reporting entity at the measurement date.

§ Level 2 Inputs: Observable inputs other than quoted prices included in Level 1 inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.

§ Level 3 Inputs: Unobservable inputs for the asset or liability used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at measurement date.

Fair Value of Financial Instruments

The carrying value of certain of our financial instruments (cash and cash equivalents, trade accounts receivable and payable and accrued liabilities) approximates fair value because of the short-term nature of those instruments. The carrying value of Company-owned life insurance is marked to market each reporting period and any change in fair value is reflected in income for that period. The carrying value of our long-term debt approximates its fair value because the interest rate on such debt adjusts to market rates on a periodic basis. See Note 9 and Note 10 for details.

Inventories

All inventories are stated at the lower of cost, or market value, with cost determined using the last-in, first-out (LIFO) method.

Property, Plant and Equipment

Property, plant and equipment are stated at cost, less allowances for depreciation. Provision for depreciation has been computed at annual rates using straight-line or declining balance depreciation methods that will amortize the cost of the depreciable assets over their estimated useful lives.

F-11

Table of Contents

Impairment of Long-Lived Assets

Long-lived assets, such as property, plant and equipment and definite-lived assets, are evaluated for impairment annually or more frequently when events or changes in circumstances indicate that the carrying amount of the assets or asset groups may not be recoverable through the estimated undiscounted future cash flows from the use of those assets. When any such impairment exists, the related assets are written down to fair value. Long-lived assets subject to disposal by sale are measured at the lower of their carrying amount or fair value less estimated cost to sell, are no longer depreciated, and are reported separately as “assets held for sale” in the consolidated balance sheets.

Intangible Assets and Goodwill

We own both definite-lived (amortizable) assets and indefinite-lived intangible assets. Our amortizable intangible assets are related to the Shenandoah and Home Meridian acquisitions and includes customer relationships and trademarks. Our indefinite lived assets include goodwill related to the Shenandoah and Home Meridian acquisitions, as well as the Bradington-Young and Sam Moore tradenames. We may acquire additional amortizable assets and/or indefinite lived intangible assets in the future.

Our goodwill and trademarks and trade names are not amortized but tested for impairment annually as of the first day of our fourth quarter or more frequently if events or changes in circumstances indicate that the asset might be impaired. Circumstances that could indicate a potential impairment include, but are not limited to:

- § a significant adverse change in the economic or business climate either within the furniture industry or the national or global economy;
- § significant changes in demand for our products;
- § loss of key personnel; and
- § the likelihood that a reporting unit or significant portion of a reporting unit will be sold or otherwise subject to disposal.

The assumptions used to determine the fair value of our intangible assets are highly subjective and judgmental and include long-term growth rates, sales volumes, projected revenues, assumed royalty rates and factors used to develop an applied discount rate. If the assumptions that we use in these calculations differ from actual results, we may realize additional impairment on our intangible assets that may have a material-adverse effect on our results of operations and financial condition.

Cash Surrender Value of Life Insurance Policies

We own eighty life insurance policies on certain of our current and former executives and other key employees. These policies have a carrying value of \$23.6 million and a face value of approximately \$34 million. Proceeds from the policies are used to fund certain employee benefits and for other general corporate purposes. We account for life insurance as a component of employee benefits cost. Consequently, the cost of the coverage and any resulting gains or losses related to those insurance policies are recorded as a decrease or increase to operating income. Cash payments that increase the cash surrender value of these policies are classified as investing outflows on the Consolidated Statements of Cash Flows, with amounts paid in excess of the increase in cash surrender value included in operating activities. Gains on life insurance policies, which typically occur at the time a policy is redeemed, are included in the reconciliation of net income to net cash used in or provided by operating activities. Substantially all of the cash value of our company owned life insurance is pledged as collateral for our secured term loan.

Revenue Recognition

Our sales revenue is recognized when title and the risk of loss pass to the customer, which typically occurs at the time of shipment. In some cases, however, title does not pass until the shipment is delivered to the customer. Sales are recorded net of allowances for trade promotions, estimated product returns, rebate advertising programs and other discounts.

F-12

Table of Contents

Cost of Sales

The major components of cost of sales are:

- § the cost of imported products purchased for resale;
- § raw materials and supplies used in our domestically manufactured products;
- § labor and overhead costs associated with our domestically manufactured products;
- § the cost of our foreign import operations;
- § charges associated with our inventory reserves;
- § warehousing and certain shipping and handling costs; and
- § all other costs required to be classified as cost of sales.

Selling and Administrative Expenses

The major components of our selling and administrative expenses are:

- § the cost of our marketing and merchandising efforts, including showroom expenses;
- § sales and design commissions;
- § the costs of administrative support functions including, executive management, information technology, human resources and finance; and
- § All Other costs required to be classified as selling and administrative expenses.

Advertising

We offer advertising programs to qualified dealers under which we may provide signage, catalogs and other marketing support to our dealers and may reimburse some advertising and other costs incurred by our dealers in connection with promoting our products. The cost of these programs does not exceed the fair value of the benefit received. We charge the cost of point-of-purchase materials (including signage, catalogs, and fabric and leather swatches) to selling and administrative expense as incurred. Advertising costs charged to selling and administrative expense for fiscal years 2018, 2017 and 2016 were \$3.0 million, \$3.2 million, and \$2.3 million, respectively. The costs for other advertising allowance programs are charged against net sales. We also have arrangements with some dealers to reimburse them for a portion of their advertising costs, which provides advertising benefits to us. Costs for these arrangements are expensed as incurred and are netted against net sales in our consolidated statements of income and comprehensive income.

Income Taxes

At times, tax law and generally accepted accounting principles differ in the treatment of certain income and expense items. These items may be excluded or included in taxable income at different times than is required for GAAP or “book” reporting purposes. These differences may be permanent or temporary in nature.

We determine our annual effective income tax rate based on pre-tax book income and permanent book and tax differences.

To the extent any book and tax differences are temporary in nature, that is, the book realization will occur in a different period than the tax realization, a deferred tax asset or liability is established. To the extent a deferred tax asset is created, we evaluate our ability to realize this asset. If we determine that we will not be able to fully utilize deferred tax assets, we establish a valuation reserve. In assessing the realization of deferred tax assets, we consider

whether it is more likely than not that some portion or all of the deferred tax assets will be realized. The ultimate realization of deferred tax assets is primarily dependent upon the generation of future taxable income during the periods in which those temporary differences reverse. All deferred tax assets and liabilities are classified as non-current on our consolidated balance sheets.

F-13

Table of Contents

Earnings Per Share

We use the two-class method to compute basic earnings per share. Under this method we allocate earnings to common shares and participating securities according to their participation rights in dividends declared and undistributed earnings and divide the income available to each class by the weighted average number of common shares for the period in each class. Unvested restricted stock grants made to our non-employee directors and certain employees are considered participating securities because the shares have the right to receive non-forfeitable dividends. Because the participating shares have no obligation to share in net losses, we do not allocate losses to our common shares in this calculation.

Diluted earnings per share reflect the potential dilutive effect of securities that could share in our earnings. Restricted stock awarded to non-employee directors and certain employees and restricted stock units granted to employees that have not yet vested are considered when computing diluted earnings per share. We use the treasury stock method to determine the dilutive effect of both unvested restricted stock and unvested restricted stock units. Shares of unvested restricted stock and unvested restricted stock units under a stock-based compensation arrangement are considered options for purposes of computing diluted earnings per share and are considered outstanding shares as of the grant date for purposes of computing diluted earnings per share even though their exercise may be contingent upon vesting. Those stock-based awards are included in the diluted earnings per share computation even if the non-employee director may be required to forfeit the stock at some future date, or no shares may ever be issued to the employees. Unvested restricted stock and unvested restricted stock units are not included in outstanding common shares in computing basic earnings per share.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires us to make estimates and assumptions that affect the reported amounts of: (i) assets and liabilities, including disclosures regarding contingent assets and liabilities at the dates of the financial statements; and (ii) revenue and expenses during the reported periods. Significant items subject to such estimates and assumptions include useful lives of fixed and intangible assets; allowance for doubtful accounts; deferred tax assets; the valuation of fixed assets and goodwill; our pension and supplemental retirement income plans; and stock-based compensation. These estimates and assumptions are based on our best judgments. We evaluate these estimates and assumptions on an ongoing basis using historical experience and other factors, including the current economic environment, which we believe to be reasonable under the circumstances. We adjust our estimates and assumptions as facts and circumstances dictate. Actual results could differ from our estimates.

NOTE 2 – FISCAL YEAR

Our fiscal years end on the Sunday closest to January 31. In some years, generally once every six years, the fourth quarter will be fourteen weeks long and the fiscal year will consist of fifty-three weeks. For example, the 2013 fiscal year that ended on February 3, 2013 was a 53-week fiscal year. Our quarterly periods are based on thirteen-week “reporting periods,” which end on Sundays. As a result, each quarterly period generally will be thirteen weeks, or 91 days long, except during a 53 week fiscal year which will have 14 weeks in the fourth quarter.

In the notes to the consolidated financial statements, references to the:

§ 2018 fiscal year and comparable terminology mean the fiscal year that began January 30, 2017 and ended January 28, 2018;

§ 2017 fiscal year and comparable terminology mean the fiscal year that began February 1, 2016 and ended January 29, 2017; and

2016 fiscal year and comparable terminology mean the fiscal year that began February 2, 2015 and ended January 31, 2016.

NOTE 3 – ACQUISITIONS

Shenandoah Acquisition

On September 29, 2017, we completed the previously announced acquisition (the “Shenandoah acquisition”) of substantially all of the assets of Shenandoah Furniture, Inc. (“SFI”) pursuant to the Asset Purchase Agreement the Company and SFI entered into on September 6, 2017 (the “Asset Purchase Agreement”). Upon completion and including post-closing working capital adjustments, the Company paid \$32.8 million in cash (the “Cash Consideration”) and issued 176,018 shares of the Company’s common stock (the “Stock Consideration”) to the shareholders of SFI as consideration for the Shenandoah acquisition. The Cash Consideration included an additional payment of approximately \$770,000 pursuant to working capital adjustments provided for in the Asset Purchase Agreement. The number of shares of common stock issued at closing for the Stock Consideration was determined by reference to the mean closing price of the Company’s common stock for the ten trading days immediately preceding the business day preceding the closing date (\$45.45). Under the Asset Purchase Agreement, we also assumed certain assets and liabilities of SFI. The assumed liabilities did not include the indebtedness (as defined in the Asset Purchase Agreement) of SFI.

Also on September 29, 2017, we entered into a second amended and restated loan agreement (the “Loan Agreement”) with Bank of America, N.A. (“BofA”) in connection with the completion of the Shenandoah acquisition. The Loan Agreement amends and restates the amended and restated loan agreement the Company entered into with BofA on February 1, 2016, in connection with its acquisition of substantially all of the assets of Home Meridian International, Inc. The Amended and Restated Loan Agreement provides us with a new \$12 million unsecured term loan (the “New Unsecured Term Loan”). On September 29, 2017, we borrowed the full \$12 million available under the New Unsecured Term Loan in connection with the completion of the Shenandoah acquisition. For additional details regarding the Loan Agreement, see Note 10. “Long-Term Debt,” below.

In accordance with FASB Accounting Standards Codification Topic 805, “Business Combinations” (“ASC 805”), the Shenandoah acquisition has been accounted for using the acquisition method of accounting. We recorded assets acquired, including identifiable intangible assets, and liabilities assumed, from SFI at their respective fair values at the date of completion of the acquisition. The excess of the purchase price over the net fair value of such assets and liabilities was recorded as goodwill.

The following table summarizes the estimates of the fair values of the identifiable assets acquired and liabilities assumed in the Shenandoah acquisition as of September 29, 2017.

Purchase price consideration	
Cash paid for assets acquired, including working capital adjustment	\$32,773
Value of shares issued for assets acquired	8,000
Fair value adjustment to shares issued for assets acquired*	396
Total purchase price	\$41,169
Fair value estimates of assets acquired and liabilities assumed	
Accounts receivable	\$3,576
Inventory	2,380
Prepaid expenses and other current assets	52
Property and equipment	5,401
Intangible assets	14,300
Goodwill	16,871
Accounts payable	(699)

Edgar Filing: HOOKER FURNITURE CORP - Form 10-K

Accrued expenses	(712)
Total purchase price	\$41,169

*As provided by the Asset Purchase Agreement, we calculated the number of common shares issued to SFI by dividing \$8 million by the mean closing price of our common stock for the ten trading days immediately preceding the business day immediately preceding the closing date (\$45.45). However, U.S. Generally Accepted Accounting Standards provide that we value stock consideration exchanged in the Shenandoah acquisition at fair value. Consequently, we adjusted the purchase price by \$396,000, which represents the difference in the mean closing price of the Company's common stock for the ten trading days immediately preceding the business day preceding the closing date (\$45.45) and the price on September 29, 2017, multiplied by the number of common shares issued (176,018.) No additional consideration was transferred to SFI as a result of this adjustment.

F-15

Table of Contents

During the fiscal 2018 fourth quarter, we paid \$123,000 cash for the post-closing working capital adjustment which increased the purchase price by that same amount. Additionally, we (i) refined our estimates of the values of certain intangible assets which increased intangible assets by \$1.1 million, (ii) recorded additional accrued expenses of \$123,000 and (iii) decreased property and equipment by \$17,000. These adjustments decreased goodwill by \$774,000.

Property and equipment were recorded at fair value and primarily consist of machinery and equipment and leasehold improvements. Property and equipment will be amortized over their estimated useful lives and leasehold improvements will be amortized over the lesser of their useful lives or the remaining lease period.

Goodwill is calculated as the excess of the purchase price over the fair value net assets acquired. The goodwill recognized is attributable to growth opportunities and expected synergies. All goodwill is expected to be deductible for income tax purposes.

Intangible assets other than goodwill, consist of three separately identified assets:

§ Shenandoah customer relationships, which are definite-lived intangible assets with an aggregate fair value of \$13.2 million. The customer relationships are amortizable and will be amortized over a period of thirteen years;

§ The Shenandoah tradename, which is definite-lived intangible assets with an aggregate fair value of \$700,000. The trade name is amortizable and will be amortized over a period of twenty years; and

§ Shenandoah's order backlog which is a definite-lived intangible asset with an aggregate fair value of \$400,000 that we amortized over four months, with all of the expense recognized in fiscal year 2018.

The total weighted average amortization period for these assets is 12.1 years.

The following unaudited consolidated pro forma summary has been prepared by adjusting our historical data to give effect to the Shenandoah acquisition as if it had occurred on February 1, 2016:

	Pro Forma - Unaudited	
	13	52
	Weeks	Weeks
	Ended	Ended
	January	January
	29, 2017	29, 2017
	(Pro	(Pro

	Ended	Ended
	January	January
	28, 2018	28, 2018

	(Pro forma)	(Pro forma)
Net Sales	\$175,365	\$649,936
Net Income	\$8,775	\$32,977
Basic EPS	\$0.75	\$2.82
Diluted EPS	\$0.75	\$2.81

The unaudited consolidated pro forma financial information was prepared in accordance with existing standards and is not necessarily indicative of the results of operations that would have occurred if the Shenandoah acquisition had been completed on the date indicated, nor is it indicative of our future operating results.

F-16

Table of Contents

Material adjustments, net of income tax, included in the fiscal 2017 pro forma financial information in the table above consist of the amortization of intangible assets (\$171,000 in the quarterly period and \$943,000 in the annual period), addition of transaction related costs (\$0 in the quarterly period and \$520,000 in the annual period), interest on additional debt incurred as part of the acquisition (\$46,000 in the quarterly period and \$197,000 in the annual period), salary expense (\$46,000 in the quarterly period and \$185,000 in the annual period), and income tax on Shenandoah operations (\$536,000 in the quarterly period and \$2.4 million in the annual period).

Material adjustments, net of income tax, included in the fiscal 2018 pro forma financial information in the table above consist of the amortization of intangible assets (decrease of \$132,000 in the quarterly period and a net increase of \$191,000 in the annual period), reclassification of transaction related costs to fiscal 2017 (-\$67,000 in the quarterly period and -\$522,000 in the annual period), interest on additional debt incurred as part of the acquisition (-\$13,000 in the quarterly period and \$61,000 in the annual period), salaries (\$0 in the quarterly period and \$123,000 in the annual period), and income tax on Shenandoah operations (\$0 in the quarterly period and \$2.4 million in the annual period).

The unaudited pro forma results do not reflect events that either have occurred or may occur in the future. They also do not give effect to certain charges that we expect to incur in connection with the Shenandoah acquisition, including, but not limited to, additional professional fees, employee integration, retention, potential asset impairments and accelerated depreciation and amortization.

We incurred approximately \$800,000 in Shenandoah acquisition-related costs in fiscal 2018. These expenses are included in the "Selling and administrative expenses" line of our condensed consolidated statements of income. Included in our fiscal 2018 results are Shenandoah's October 2017 through January 2018 results, which include \$11.3 million in net sales and \$604,000 of operating income, including \$750,000 in intangible amortization expense.

HMI Acquisition

On February 1, 2016, (the "Closing Date") we completed the previously announced acquisition (the "acquisition") of substantially all of the assets of Home Meridian International, Inc. ("HMI") pursuant to the Asset Purchase Agreement into which we and HMI entered on January 5, 2016 (the "Asset Purchase Agreement"). Upon completion and including post-closing working capital adjustments, we paid \$86 million in cash and issued 716,910 shares of our common stock (the "Stock Consideration") to designees of HMI as consideration for the acquisition. The Stock Consideration consisted of (i) 530,598 shares due to the \$15 million of consideration payable in shares of our common stock under the Asset Purchase Agreement, and (ii) 186,312 shares issued pursuant to working capital adjustments detailed in the Asset Purchase Agreement. The working capital adjustment was driven by an increase in HMI's accounts receivable due to strong sales towards the end of calendar 2015. The number of shares of common stock issued at closing for the Stock Consideration was determined by reference to the mean closing price of our common stock for the fifteen trading days immediately preceding the Closing Date (\$28.27). Under the Asset Purchase Agreement, we also assumed certain liabilities of HMI, including approximately \$7.8 million of liabilities related to certain retirement plans. The assumed liabilities did not include the indebtedness (as defined in the Asset Purchase Agreement) of HMI.

In accordance with FASB Accounting Standards Codification 805, Business Combinations, the acquisition was accounted for using the acquisition method of accounting. We recorded assets acquired, including identifiable intangible assets, and liabilities assumed, from HMI at their respective fair values at the date of completion of the Acquisition. Any excess of the purchase price over the net fair value of such assets and liabilities was recorded as goodwill.

Table of Contents

The following table summarizes our final estimates of the fair values of the identifiable assets acquired and liabilities assumed in the acquisition as of January 29, 2017. Adjustments recorded to our preliminary estimates of the fair values of the identifiable assets acquired and liabilities assumed as of February 1, 2016 were due to (i) the continued refinement of management's estimates, (ii) changes in pre-acquisition account balances due to the timing of HMI's final financial close and (iii) adjustments made to conform the newly acquired entity's accounting policies to our own. These adjustments included the reclassification of accounts receivable-related reserve items from accrued expenses to accounts receivable, the write-off of deferred rent, the reduction of property and equipment and prepaid expenses for items that had been capitalized inconsistent with our capitalization policy and the recognition of accrued salaries and wages to recognize compensated absences.

Purchase price consideration	
Cash paid for assets acquired, including working capital adjustment	\$ 86,062
Value of shares issued for assets acquired	15,000
Value of shares issued for excess net working capital	5,267
 Total purchase price	 \$ 106,329
 Fair value estimates of assets acquired and liabilities assumed:	
Accounts receivable	\$ 42,463
Inventory	37,606
Prepaid expenses and other current assets	1,801
Property and equipment	5,292
Intangible assets	27,800
Goodwill	23,187
Accounts payable	(22,784)
Accrued expenses	(316)
Pension plan liabilities and deferred compensation balances	(8,720)
 Total purchase price	 \$ 106,329

Property and equipment were recorded at fair value and primarily consist of leasehold improvements and will be amortized over their estimated useful lives. Goodwill is calculated as the excess of the purchase price over the net assets acquired. The goodwill recognized is attributable to growth opportunities and expected synergies. We expect that all of the goodwill will be deductible for income tax purposes. Intangible assets, net, consist of three separately identified assets:

§ Home Meridian tradenames of \$11.6 million consisting of:

○ Indefinite-lived intangible assets with an aggregate fair value of \$11.4 million. The tradenames are not subject to amortization, but will be evaluated annually and as circumstances dictate, for impairment; and

○ Definite-lived intangible assets with an aggregate fair value of \$200,000, which we expect to amortize over an eight-year period.

§ Home Meridian customer relationships which are definite-lived intangible assets with an aggregate fair value of \$14.4 million. The customer relationships are amortizable and will be amortized over a period of eleven years; and

§ Home Meridian order backlog which is a definite-lived intangible asset with an aggregate fair value of \$1.8 million which we amortized over five months, with most of the expense recognized in the fiscal 2017 first quarter.

We also assumed the net liability for Home Meridian's legacy pension plans of \$8.7 million, which was based on an actuarial valuation performed on February 2, 2016. The market value of pension plan assets, primarily consisting of mutual funds, was \$11.6 million on February 2, 2016. Components of net periodic benefit cost for these plans are

based on annual actuarial valuations and are included in our condensed consolidated statements of income under selling and administrative expenses.

F-18

Table of Contents

The following unaudited consolidated pro forma summary has been prepared by adjusting our historical data to give effect to the acquisition as if it had occurred on February 1, 2015:

	52
	Weeks
	Ended
	January
	31, 2016
	(Pro
	forma)
Net Sales	\$571,720
Net Income	22,831
Basic EPS	2.12
Diluted EPS	2.11

The unaudited consolidated pro forma financial information was prepared in accordance with existing standards and is not necessarily indicative of the results of operations that would have occurred if the acquisition had been completed on the date indicated, nor is it indicative of our future operating results.

Material non-recurring adjustments included in the pro forma financial information in the table above which affect proforma net income consist of amortization of intangible assets (decrease of \$1.9 million), elimination of transaction related costs (an increase of \$2.7 million) and an adjustment of the interest rate on short and long-term debt (a decrease of \$545,000) to reflect the interest rates in our amended credit facility.

The unaudited pro forma results do not reflect events that either have occurred or may occur in the future. They also do not give effect to certain charges that we expect to incur in connection with the acquisition, including, but not limited to, additional professional fees, employee integration, retention, potential asset impairments and accelerated depreciation and amortization.

We recorded acquisition related costs of \$1.2 million in fiscal 2017. These expenses are included in the "Selling and administrative expenses" line of our condensed consolidated statements of income.

NOTE 4 – DOUBTFUL ACCOUNTS AND OTHER ACCOUNTS RECEIVABLE ALLOWANCES

The activity in the allowance for doubtful accounts was:

	Fifty-Two Weeks Ended January 28, 2018	Fifty-Two Weeks Ended January 29, 2017	Fifty-Two Weeks Ended January 31, 2016
Balance at beginning of year	\$ 508	\$ 396	\$ 563
Non-cash charges to cost and expenses	767	823	115
Less uncollectible receivables written off, net of recoveries	(261)	(711)	(282)
Balance at end of year	\$ 1,014	\$ 508	\$ 396

The activity in other accounts receivable allowances was:

Edgar Filing: HOOKER FURNITURE CORP - Form 10-K

	Fifty-Two Weeks Ended January 28, 2018	Fifty-Two Weeks Ended January 29, 2017	Fifty-Two Weeks Ended January 31, 2016
Balance at beginning of year	\$ 6,298	\$ 636	\$ 766
Non-cash charges to cost and expenses	(1,272)	5,586	(220)
Less uncollectible receivables written off, net of recoveries	91	76	90
Balance at end of year	\$ 5,117	\$ 6,298	\$ 636

F-19

Table of Contents

NOTE 5 – ACCOUNTS RECEIVABLE

	January 28, 2018	January 29, 2017
Trade accounts receivable	\$98,592	\$99,378
Receivable from factor	-	6
Other accounts receivable allowances	(5,117)	(6,298)
Allowance for doubtful accounts	(1,014)	(508)
Accounts receivable	\$92,461	\$92,578

NOTE 6 – INVENTORIES

	January 28, 2018	January 29, 2017
Finished furniture	\$92,502	\$85,520
Furniture in process	1,440	735
Materials and supplies	8,780	7,536
Inventories at FIFO	102,722	93,791
Reduction to LIFO basis	(18,263)	(18,488)
Inventories	\$84,459	\$75,303

If the first-in, first-out (FIFO) method had been used in valuing all inventories, net income would have been \$28 million in fiscal 2018, \$24.2 million in fiscal 2017, and \$16.5 million in fiscal 2016. We recorded LIFO income of \$340,000 in fiscal 2018, while we recorded LIFO income of \$1.6 million in fiscal 2017, and \$499,000 LIFO expense in fiscal 2016.

At both January 28, 2018 and January 29, 2017, we had approximately \$3.2 million, in consigned inventories, which are included in the “Finished furniture” line in the table above.

At January 28, 2018, we held \$10.5 million in inventory (approximately 3.0% of total assets) outside of the United States, in China and in Vietnam. At January 29, 2017, we held \$11.9 million in inventory (approximately 3.7% of total assets) outside of the United States, in China and Vietnam.

NOTE 7 – PROPERTY, PLANT AND EQUIPMENT
