HSBC Bank Malta p.l.c. Half-Yearly Results for 2005

Review of Performance

The published figures, which have been prepared in accordance with International Financial Reporting Standards for interim financial statements (IAS 34 'Interim Financial Reporting'), have been extracted from HSBC Bank Malta p.l.c.'s unaudited group management accounts for the six months ended 30 June 2005. The tax charge for the period amounted to Lm6.4 million. The half-yearly results are being published in terms of Chapters 8 and 9 of the Listing Rules of the Listing Authority - Malta Financial Services Authority. These figures have been drawn up according to the accounting policies used in the preparation of the annual audited accounts, except for a change in the basis of accounting for investments in subsidiary companies, which were previously measured to fair value with revaluation adjustments recognised through revaluation reserves. In order to align its policies with those of its ultimate parent company, HSBC Holdings plc, HSBC Bank Malta p.l.c. now measures its investment in subsidiary companies at cost.

The published figures also take into account revisions arising from the IAS Improvements project, as well as the adoption of the new series of International Financial Reporting Standards ('IFRS'). The revised standards that had a significant effect on the group's financial statements include IAS 10 'Events after the Balance Sheet Date' and IAS 27 'Consolidated and Separate Financial Statements', and together with the newly adopted IFRS 2 'Share-based Payment', these standards have been applied retrospectively. Comparative figures have therefore been restated accordingly. The group adopted IFRS 4 'Insurance Contracts' from 1 January 2005.

Under IAS 10 as revised, dividends declared after the balance sheet date are no longer recognised in reserves at the balance sheet date.

IAS 27 now requires that all subsidiaries be consolidated on a line-by-line basis. Accordingly, the revenues, costs and third party assets of HSBC Life Assurance (Malta) Limited are no longer being reported in aggregate on single lines within 'other operating income' and 'other assets'.

IFRS 2 requires entities to recognise share-based payments, in respect of awards granted after 7 November 2002, at fair value at the date of the grant, which is to be amortised over the vesting period.

IFRS 4 requires certain insurance products with insignificant insurance risk to be accounted for under IAS 39 'Financial Instruments: Recognition and Measurement'.

HSBC Bank Malta p.l.c. and its subsidiaries recorded a profit before tax of Lm18.5 million for the six months ended 30 June 2005. The tax charge for the period amounted to Lm6.4 million. Operating profit before net loan impairment releases is recorded at Lm17.5 million and represents an increase of 14.3 per cent over the Lm15.3 million earned during the same period in 2004. Earnings per share for the first six months ended 30 June 2005 decreased to 16.6 cents compared to 18.0 cents for the first six months of 2004. Comparative data have been adjusted for the April 2005 two-for-one share split.

- Profit attributable to shareholders of Lm12.1 million, a decrease of 8.1 per cent over the Lm13.2 million earned during the same period in 2004 which was influenced by a much higher level of impairment releases.
- Net interest income up by 11.9 per cent over prior year to ${\rm Lm}21.3$ million.
- Non-interest income increased by 8.7 per cent, contributing ${\rm Lm}12.1$ million to net operating income.
- Administrative expenses increased by 8.7 per cent, mainly due to higher performance-based compensation for all staff. The cost:income ratio improved from 49.1 per cent to 47.5 per cent.
- The net release in impairment provisions totalled Lm1.0 million. New specific allowances of Lm0.5 million were raised and bad debt write-offs of Lm2.4 million were effected. An overall improvement in the credit quality of the lending book reduced non-performing loans from Lm82.3 million to Lm70.7 million. This contributed towards the release of Lm3.3 million in specific allowances and Lm0.6 million in collective allowances.
- Customer deposits amounted to Lm1,331.5 million at 30 June 2005 compared with Lm1,295.8 million at 31 December 2004. Collective investment schemes managed by the group grew by Lm28.7 million, whilst life assurance assets grew by Lm9.5 million during the period.

- Loans and advances to customers were Lm1,026.7 million at 30 June 2005 up Lm50.4 million or 5.2 per cent over 31 December 2004.
- Total assets amounted to Lm1.63 billion at 30 June 2005 compared with Lm1.60 billion at 31 December 2004.

Shaun Wallis, Director and Chief Executive Officer of HSBC Bank Malta p.l.c., said: "Our results for the first six months confirm the business momentum we have been building, with solid growth in all three customer groups. Our focus is on maximising existing business relationships through a clear understanding of clients' needs.

"In our personal financial services business, we have concentrated on providing excellent customer service supported by strong sales management. Commercial banking is similarly focussed on quality customer service and making 'business more personal'. Both customer groups have recorded significant increases in all areas as a result. Our treasury and capital markets division has also reported healthy growth supported by higher volumes of foreign exchange earnings and the sale of securities.

"The Board has recommended an ordinary interim dividend of 19.1 cents gross per share and additionally a special dividend of 27.4 cents gross per share, giving a total interim dividend of 46.5 cents gross per share. This will be payable to shareholders who are on the company's register of shareholders as at 29 July 2005. The ordinary interim dividend payment of Lm9.1 million has been set at 75 per cent of year-to-date earnings. The special dividend payment of Lm13.0 million is earmarked out of retained reserves built up from earnings over the last six years and is surplus to local regulatory capital requirements, internal capital plans and normal global banking practice.

"We would like to thank our customers for their support during the first six months of this year and to thank our staff for their continued high level of commitment to customer service.

"We remain optimistic about the economic activity in Malta for the remainder of the year and our business prospects."
