OPERATING REVIEW

At 30 June 2005, the total number of direct-to-home ("DTH") digital satellite subscribers in the UK and Ireland was 7,787,000, representing a net increase of 83,000 subscribers in the three months to 30 June 2005 ("the quarter"). During the year, the number of subscribers to one or more premium channels increased by over 250,000 to 5,619,000. The Group remains on track to achieve its target of eight million DTH subscribers by 31 December 2005.

The Group recorded gross DTH subscriber additions in the quarter of 303,000, reflecting further progress since the launch of a number of strategic initiatives, including the 'What do you want to watch?' marketing campaign on 1 October 2004, and despite a more challenging consumer environment.

The total number of Sky+ households increased by 118,000 in the quarter to 888,000, reflecting an 11% penetration of total DTH subscribers. Since relaunching with a revised pricing structure in October 2003, the number of Sky+ subscribers has increased at an average rate of 110,000 every quarter, equal to the growth in total DTH subscribers over the same period. This product continues to receive high satisfaction ratings and attract new customers to Sky with 14% of new additions in the quarter taking Sky+.

The total number of Multiroom households has more than doubled year on year, increasing by 82,000 in the quarter to 645,000, 8% penetration of total DTH subscribers.

DTH churn for the quarter (annualised) was in-line with the fourth quarter of last year at 10.5% and down from 11.1% for the previous quarter. Churn for the twelve months ended 30 June 2005 ("the year") was 10.3%, in-line with the Group's stated goal of around 10%.

Annualised average revenue per DTH subscriber ("ARPU") in the quarter was

Edgar Filing: BRITISH SKY BROADCASTING GROUP PLC - Form 6-K

GBP384, GBP2 higher than the previous quarter reflecting increased Multiroom subscriptions, a greater number of pay-per-view ("PPV") events and higher net revenues from SkyBet.

During the year the business delivered a set of initiatives to further extend the range of products and services available to its customers.

- Today, Sky is announcing the introduction of the 'Sky Gnome', an innovative portable and wireless device that will enable customers to listen to the audio output from their favourite digital TV and radio channels throughout the home.
- In June 2005, Sky announced a simplified pricing and packaging structure that offers customers increased choice and flexibility. The basic-tier package will be replaced by six distinct "genre-mixes" allowing customers to select various combinations of basic-tier channels alongside premium sports and movies. Whilst increasing the number of available packages fivefold, Sky also reduced the number of price points from 96 to 15.
- Before the end of this calendar year, customers who subscribe to a top-tier package and have a broadband internet connection will be able to download movies 'on-demand' and enjoy Sky Sports programming through their PC free of charge. Initially planned to launch with over 200 movies, which will increase over time, customers will be able to browse and download movies, trailers, behind the scenes footage and reviews at any time through an easy to use, intuitive application. From day one, over 5 million Sky Sports subscribers will have access to highlights from all their favourite sports, including Barclays Premier League and UEFA Champions League football, rugby, golf and cricket. As an added benefit, Sky World customers will also be able to receive the latest video updates from Sky News and Sky Sports News via their mobile phone.
- In October 2004, Sky added Sky+160 to its product portfolio. This product offers customers around four times as much storage as the standard Sky+ box and has two USB connections, increasing its compatibility for future developments.
- At the same time, Sky launched a new freesat service offering customers around 200 television and radio channels and interactive services for a one-off fee. This provides an attractively priced alternative for approximately 50% of UK households who either cannot receive Freeview or require an aerial upgrade.
- Following on from the success of Sky+, Sky plans to launch Europe's most comprehensive high definition television service ("HDTV") in the first half of calendar year 2006. Good progress was made during the year building the required broadcast infrastructure and facilities and developing the HDTV box, which has the connectivity and flexibility to offer advanced services in the future. This service will initially comprise a number of HD channels, including sports, movies and documentaries and will offer customers the ultimate TV experience.
- Sky Sports share of viewing (according to viewing figures from the Broadcasters Audience Research Board ("BARB")) in UK television homes was 12% higher than the same quarter last financial year, with England playing Australia in cricket's NatWest Challenge and the British and Irish Lions tour of New Zealand both achieving record audience figures. During the year, Sky concluded a number of major sports agreements including:
 - Exclusive live rights from the England and Wales Cricket Board to broadcast all international and the primary domestic cricket series in England and Wales until 2009

Edgar Filing: BRITISH SKY BROADCASTING GROUP PLC - Form 6-K

- Exclusive live rights from the Rugby Football Union to broadcast England's Autumn Internationals and Zurich Premiership matches until 2010
- Exclusive live rights to the European Rugby Cup until 2010
- Exclusive live rights from the Football League to broadcast around 100 matches per season from the League's competitions until 2009

In addition to these, Sky Sports also added coverage of equestrian events, international netball, badminton and yachting to further increase the range of programming on its dedicated channels, which includes coverage of over 150 different sporting disciplines.

- During the year, Sky made progress in the renegotiation of three major movie studio contracts, focusing on better quality, better rights and improved value. Sky Movies screens over 450 different films every week across its 11 multiplex screens, offering unrivalled choice and convenient viewing.
- Named as 'News Channel of the Year' by the Royal Television Society for the fourth year running, Sky News remains the UK's leading news channel both in terms of ratings and critical acclaim. Later this year, Sky News will unveil a new on-air look and schedule when it begins broadcasting from its recently completed state-of-the-art studio complex at Sky's main campus in Osterley.
- Sky One relaunched in September 2004 with a new on-air look and strong line-up of acquired and commissioned programming. The channel's commitment to offer modern, quality programming is reflected by a 3.9% increase in the share of viewing by ABC1 adults in network homes in the first half of calendar year 2005. The upcoming Autumn schedule features a strong line-up with 'Nip/Tuck' returning in a two series exclusive agreement, the second co-produced series of the '4400' and new US drama series 'Weeds' and 'Threshold'.

FINANCIAL REVIEW

Total revenue for the year increased by 11% over the year ended 30 June 2004 ("the comparable period") to GBP4,048 million. Operating profit before goodwill and exceptional items increased by 34% on the comparable period to GBP805 million, resulting in operating profit margin before goodwill and exceptional items of 20%, up from 16% for the comparable period.

The Group generated earnings per share before goodwill and exceptional items of 29.0 pence, up from 18.3 pence for the comparable period, and returned a total of GBP551 million to shareholders through an ordinary dividend and a share buy-back programme.

Revenue

Total revenues increased by 11% on the comparable period to GBP4,048 million.

DTH revenues increased by 12% on the comparable period to GBP2,968 million. This was mainly driven by 6% growth in the average number of DTH subscribers and a 5% increase in the average revenue per DTH subscriber, mainly as a result of the January and September 2004 price rises and increased Multiroom subscription revenues.

Wholesale revenues increased by 2% on the comparable period to GBP219 million. After adjusting for a one-off receipt of monies from NTL following an audit of sums due to the Group in the first quarter of last financial year, this represents a 5% increase on the comparable period. This has primarily been driven by the changes to wholesale prices in January and September 2004 and the payment for carriage of Sky Sports Extra and PREPLUS.

Advertising revenues increased by 5% on the comparable period to GBP329 million.

Edgar Filing: BRITISH SKY BROADCASTING GROUP PLC - Form 6-K

This has been driven by 4% growth in the UK television advertising sector and continued growth in the Group's share of this sector.

Total SkyBet revenue for the year was GBP261 million, a 37% increase on the comparable period. Gross margin increased from 8% to 10% driven by the introduction of fixed odds games during the year, such as roulette and multi-line slot games. On 8 April 2005, the Gambling Act was passed by Parliament. Once implemented, the Act will present an opportunity to offer 'gaming' services combining TV and interactivity. 'Gaming' includes games of chance and skill and therefore the Act will permit the launch of true casino games such as poker, in addition to the fixed odds games already available on SkyBet.

The SkyBuy retail service was wound down and closed during the year. This, together with the expiry of a number of historical interactive contracts and services led to a reduction in Sky Active revenues of GBP24 million to GBP92 million. Underlying revenues (excluding these items) rose by 10% to GBP87 million, reflecting the growth in areas such as interactive advertising, games and third party betting and gaming.

Programming costs

Total programming costs decreased by GBP75 million on the comparable period to GBP1,636 million. This reduction has been primarily driven by contractual savings in the renewal of sports contracts and the benefit of improved rates at which the group is able to purchase US dollars to satisfy its movie commitments.

Sports costs, which represent 46% of total programming costs, decreased by GBP56 million on the comparable period to GBP747 million. The renewal of the FA Premier League and Football Association contracts led to substantially all of this reduction which was partly offset by the Ryder Cup, a bi-annual event and investment in production costs behind increased coverage in a number of sports, most notably football, with an increase of 32 live Barclays Premiership games and delayed footage or extended highlights of every Barclays Premiership match through the Football First service.

Movie costs decreased by GBP37 million on the comparable period to GBP356 million primarily due to an improved rate at which the Group's US dollar denominated movies were amortised as a result of the weaker dollar. Savings from the renewal of a non-major studio agreement were offset by the additional costs associated with an increase in the average number of movie subscribers.

News and entertainment costs were GBP171 million, an increase of GBP16 million on the comparable period. This increase is primarily due to the higher operating costs of Sky News following the commencement of the contract to supply news to 'five' and the coverage of the Tsunami disaster and the elections at home and abroad. After adjusting for the GBP17 million accelerated stock amortisation charge in the final quarter of last financial year, entertainment costs increased by 22% on the comparable period. This increase reflects the greater investment in acquired and commissioned programming for Sky One.

Third party channel costs increased by 1% on the comparable period to GBP362 million, representing a 6% increase in the average number of DTH subscribers offset by a 6% reduction in the cost per subscriber. This saving has been primarily driven by the renewal of our contracts on improved terms and the termination of our contract with Granada Sky Broadcasting ("GSB"), slightly offset by new channels joining the pay-TV line-up, including FX, Turner Classic Movies ("TCM") and UKTV Style Gardens.

Gross margin (defined as total revenues less total programming costs) for the year was 60%, representing an increase of 7 percentage points on the comparable period.

Edgar Filing: BRITISH SKY BROADCASTING GROUP PLC - Form 6-K

Other operating costs

Total other operating costs before goodwill and exceptional items increased by GBP262 million on the comparable period to GBP1,607 million.

Transmission and related costs for the year were GBP171 million, an increase of GBP25 million on the comparable period reflecting higher engineering, broadcast support and maintenance costs associated with an expanding broadcast infrastructure, resulting from projects including the creation of the new Sky News Centre and the Advanced Technology Centre ("ATC").

Marketing costs increased by GBP119 million to GBP515 million, 13% of total revenue, equal to the average rate over the last three years. During the year, the Group launched a number of marketing initiatives to attract new subscribers and drive the penetration of the yield enhancing Sky+ and Multiroom products. This increase reflects the strong growth in the number of gross additions, with three times as many new joiners taking Sky+ from the outset compared to last year. As a consequence of this activity, the blended subscriber acquisition cost ("SAC") for the year was GBP237. The number of existing customers upgrading to Sky+ increased by over 40% year on year and the number upgrading to Multiroom increased by almost 150% over the same period. These products generate high levels of satisfaction and offer an attractive return on investment through lower churn and a higher propensity to take premium packages and multiple subscriptions. Above the line marketing costs for the year were GBP74 million, an increase of 50% on the comparable period as a result of the continuation of the 'What do you want to watch?' campaign and marketing of the new Sky One schedule.

Subscriber management costs increased by GBP25 million on the comparable period to GBP396 million. This reflects the growing subscriber base, increased call volumes due to higher levels of sales activity and a higher level of Sky+ and Multiroom installations.

Administration costs before goodwill and exceptional items increased by GBP32 million on the comparable period to GBP289 million, mainly due to increased technology, facility, IS development costs and a one-time charge of GBP14 million for restructuring costs following an efficiency and effectiveness review of the business.

Betting costs increased by GBP61 million to GBP236 million in line with the strong growth in SkyBet revenues.

Operating profit before goodwill and exceptional items increased by 34% on the comparable period to GBP805 million. Operating profit margin before goodwill and exceptional items increased from 16% to 20%, despite the small dilutive effect of the structurally lower margin SkyBet business, which currently generates a margin of around 10%.

Goodwill

The goodwill associated with planetfootball.com was fully written off in June 2004 resulting in a GBP3 million reduction in goodwill on the comparable period to GBP116 million.

Exceptional items

During the second quarter, the Group sold its 49.5% investment in GSB to ITV for GBP14 million cash consideration. After deducting the carrying value of the investment in GSB and writing back the original goodwill relating to the increase of the Group's interest in GSB to 49.5% in March 1998, which had previously been eliminated against reserves, the disposal generated an

Edgar Filing: BRITISH SKY BROADCASTING GROUP PLC - Form 6-K

accounting loss under UK Generally Accepted Accounting Principles ("UK GAAP") of GBP23 million.

In the quarter, the Group received GBP13 million from the liquidators of ITV Digital as a full and final settlement in respect of amounts owed to the Group. These amounts had been fully provided for in the year ended 30 June 2002 therefore generating a non-recurring operating exceptional item.

Joint Ventures

The Group's share of net operating profits from its joint ventures was GBP14 million for the year, compared to a GBP5 million net operating loss for the comparable period. After adjusting for a one-off GBP11 million write down in relation to Attheraces ("ATR") in the final quarter of last financial year, this represents an increase in net operating profits of GBP8 million, generated primarily from ATR.

Interest

Total net interest payable for the year reduced by GBP19 million to GBP62 million primarily as a result of an increase in interest receivable due to higher levels of cash on deposit at higher interest rates.

Taxation

The total net tax charge for the period of GBP206 million includes a current tax charge of GBP159 million, a deferred tax charge of GBP68 million and a tax charge in relation to exceptional items of GBP4 million, offset by a GBP25 million adjustment in respect of prior years. Excluding the effect of goodwill, joint ventures and exceptional items, the Group's underlying effective tax rate on ordinary activities for the year was 30%.

The net GBP25 million adjustment in respect of prior years comprises a GBP7 million benefit in respect of consortium relief on losses purchased from ATR and the favourable settlement of some prior year items.

The mainstream corporation tax liability for the year was GBP161 million and in accordance with the quarterly instalment regime, GBP75 million was paid in the year and GBP40 million was paid in July 2005. The final payment is due in October 2005.

Earnings

Profit after tax for the year was GBP425 million, generating earnings per share before goodwill and exceptional items of 29.0 pence, an increase of 58% on the comparable period. At 30 June 2005, the total number of shares outstanding was 1,867,523,599.

Cash flow

Earnings before interest, tax, depreciation and amortisation ("EBITDA") before exceptional items increased by 28% on the comparable period to GBP897 million. After a GBP55 million positive movement in working capital, a GBP13 million receipt from the liquidators of ITV digital and other items, the Group generated an operating cash inflow of GBP978 million. After taxation of GBP103 million and net interest payable of GBP63 million the Group utilised cash in a number of areas, including the share buy-back programme (GBP416 million, including GBP3 million of stamp duty and commissions), capital expenditure (GBP230 million) and dividend payments (GBP138 million) resulting in a reduction in net debt during the year from GBP429 million to GBP379 million at 30 June 2005.

During the year, the Group progressed a number of capital expenditure and

Edgar Filing: BRITISH SKY BROADCASTING GROUP PLC - Form 6-K

infrastructure projects in line with the plans announced on 4 August 2004. The Group spent GBP75 million on a combination of infrastructure projects including the acquisition of four freehold properties previously leased at its Osterley campus and the construction of the Sky News centre. The Group continued work on the CRM programme to upgrade its customer service systems, investing GBP59 million during the year, with roll-out scheduled to commence in the second half of this calendar year. As part of the Group's business continuity plan, GBP24 million was invested to build and fit out the Advanced Technology Centre. The remaining GBP72 million, regarded as 'core' capital expenditure, was spent on IS infrastructure, broadcast equipment and new product development, including HDTV.

IFRS

The Group is required to adopt International Financial Reporting Standards ("IFRS") in the preparation of its consolidated financial statements from 1 July 2005. In November 2005, the Group will report its first results under IFRS for the quarter ending 30 September 2005. In order to provide comparative figures under IFRS in advance, the Group will publish detailed information regarding the transition on 14 September 2005. This will include audited reconciliations of the 2005 Income Statement, Balance Sheet and Cash Flow to UK GAAP from IFRS detailing the impact of the Group's new accounting policies, and unaudited quarterly 2005 Income Statements to provide comparatives for 2006.

Further details on the transition to IFRS, including unaudited headline results for the 2005 financial year, will be provided at the Group's preliminary results presentation today.

Distributions to shareholders

The Board of Directors are proposing a final dividend of 5 pence per ordinary share, resulting in a total dividend for the year of 9 pence per share. The ex-dividend date will be 26 October 2005 and, subject to shareholder approval at the Company's Annual General Meeting ("AGM"), the dividend will be paid on 18 November 2005 to shareholders of record on 28 October 2005.

At the Company's AGM on 12 November 2004, the Company received approval from shareholders to repurchase up to 97 million shares, representing approximately five percent of its issued share capital. During the year, the Company repurchased for cancellation 74.3 million shares for a total consideration of GBP416 million, including stamp duty and commissions. The programme is ongoing, and will continue until the authority granted on 12 November 2004 expires at the next AGM on 4 November 2005.

It remains the overall financial policy of the Board to achieve an appropriate balance between distributions arising from strong free cash flow generation to shareholders, and maintaining a prudent degree of strategic and financial flexibility.

The Board considers that an on-market share repurchase programme is a flexible, equitable and tax-efficient means by which to make distributions to shareholders which are incremental to the ordinary dividend. As a result, the Board currently intends to propose resolutions at the AGM in November 2005 to renew the annual authority last granted by shareholders in 2004 to buy back up to a further 5% of its issued share capital.

In pursuing a continued buy-back authority, the Board is sensitive to the concerns expressed by some Independent Shareholders. Accordingly, as part of the buy-back proposals, the Board intends to enter into an agreement with News UK Nominees Limited, which would limit the exercise of its voting rights to the level held at the time of the 2005 AGM (expected to be no more than 37.2%). This voting arrangement will be conditional on the buy-back proposals being approved by shareholders. Further details of the proposals will be sent to shareholders

Edgar Filing: BRITISH SKY BROADCASTING GROUP PLC - Form 6-K

in advance of the AGM.

Use of non-GAAP financial information

This results announcement contains certain information on the Group's results and cash flows that have been derived from amounts calculated in accordance with UK Generally Accepted Accounting Principles ("UK GAAP"), but are not themselves UK GAAP measures. These should not be viewed in isolation as alternatives to the equivalent UK GAAP measure and should be read in conjunction with the equivalent UK GAAP measures. 2005

(i) Settlement of ITV Digital programming debtors

In July 2005, the Group received GBP13 million from the liquidators of ITV Digital as a full and final settlement in respect of amounts owed to the Group.

(ii) Loss on disposal of investments in joint ventures

In November 2004, the Group sold its 49.5% investment in Granada Sky Broadcasting Limited ("GSE") for GBP14 million in cash, realising a loss on disposal of GBP23 million. This included the write back of GBP32 million of goodwill which had previously been written off to reserves, as permitted prior to the implementation of Financial Reporting Standard ("FRS") 10, "Goodwill and Intangible Assets" ("FRS 10").

2004

(iii) Profit on disposal of fixed asset investments

In March 2004, the Group sold its 20% shareholding in QVC (UK), operator of QVC - The Shopping Channel, for GBP49 million in cash, realising a profit on disposal of GBP49 million.

In October 2003, the Group disposed of its listed investment in Manchester United plc, realising a profit on disposal of GBP2 million.

(iv) Amounts written back to fixed asset investments, net

The Group reduced its provision against its minority equity investments in football clubs by GBP33 million, due to the disposal of its investment in Manchester United plc in October 2003, for GBP62 million in cash. The Group also increased its provision against its remaining minority equity investments in football clubs by GBP9 million.

Goodwill of GBP272 million, GBP543 million and GBP5 million, arising on the acquisitions of Sports Internet Group ("SIG"), British Interactive Broadcasting ("BiB") and WAPTV respectively, is being amortised over periods of seven years on a straight-line basis.

In accordance with FRS 11 "Impairment of fixed assets and goodwill", impairment reviews were performed on the carrying values of BiB and SIG goodwill balances at the end of the first full financial year after acquisition, at 30 June 2002, which did not indicate impairment. Consistent with Group strategy, the business plans on which these reviews were based reflect significant projected increases in betting and other interactive revenues over the subsequent five years. The Group continues to monitor the performance of these businesses and is satisfied that no impairment of goodwill has occurred.

Undrawn RCFs

In November 2004, the Group entered into a GBP1 billion RCF. This facility was used to cancel an existing GBP600 million RCF and is available for general corporate purposes. The GBP1 billion facility has a maturity date of July 2010, and interest accrues at a margin of between 0.45% and 0.55% above LIBOR, dependent on the Group's leverage ratio of net debt to earnings before interest, taxes, depreciation and amortisation ("EBITDA") (as defined in the loan agreement). At the current ratio of Net Debt: EBITDA, the margin would be 0.45% above LIBOR if the Group were to make a drawing on the facility.

Both the bank facilities and the publicly-traded guaranteed notes have been issued by the Company and guaranteed by both British Sky Broadcasting Limited and Sky Subscribers Services Limited. Additionally, the GBP1 billion RCF has been guaranteed by BSkyB Investments Limited.

Share buy-back

On 12 November 2004, the Company's shareholders approved a resolution at the Annual General Meeting for the Company to purchase up to 97 million Ordinary Shares. During the financial year, the Company purchased, and subsequently cancelled, 74 million Ordinary Shares at an average price of GBP5.60 per share, with a nominal value of GBP37 million, for a consideration of GBP416 million. Consideration included stamp duty and commission of GBP3 million. This represents 4% of called-up share capital at the beginning of the financial year.

Goodwill

In accordance with FRS 10, the Company has included the write off of GBP32 million of unamortised goodwill in the calculation of the loss on disposal of GSB, the effect of which has been included in the profit for the financial year. The goodwill arose on the purchase of GSB and had previously been written off to the profit and loss reserve as permitted prior to FRS 10. Accordingly, an adjustment has been made to write back the GBP32 million charge to the profit and loss reserve.

At 30 June 2005, the cumulative goodwill written off directly to reserves by the Group amounted to GBP492 million (2004: GBP524 million).

Share option schemes

During the period, the Company issued shares with a market value of GBP1 million (2004: GBP26 million) in respect of the exercise of options awarded under various share option schemes.

At 30 June 2005, the Group's ESOP held 5,609,212 Ordinary Shares in the Company at an average value of GBP5.78 per share. The 1,808,303 shares utilised during the period relate to the exercise of Long Term Incentive Plan ("LTIP"), Equity Bonus Plan ("EBP"), Key Contributor Plan ("KCP"), Executive Share Option Scheme and Sharesave Scheme awards.

2005

Corporate reorganisation

On 13 April 2005, the High Court approved a reduction in the share capital of BSkyB Investments Limited, a 100% owned subsidiary. This formed part of a corporate reorganisation, allowing the Company access to additional distributable reserves.

Disposal of GSB

In accordance with FRS 10, the Group has included the write off of GBP32 million of unamortised goodwill in the calculation of the loss on disposal of GSB, the effect of which has been included in the profit for the financial year. The goodwill arose on the purchase of GSB and had previously been written off to the profit and loss reserve as permitted prior to FRS 10. Accordingly, an adjustment has been made to write back the GBP32 million charge to the profit and loss reserve.

2004

Share premium reduction

On 10 December 2003, the High Court approved a reduction in the Company's share premium account of GBP1,120 million, as approved by the Company's shareholders at the Annual General Meeting held on 14 November 2003. The reduction had the effect of eliminating the Company's deficit on its profit and loss account as at 30 September 2003 of GBP1,106 million, and creating a non-distributable special reserve of GBP14 million, which represents the excess of the share premium reduction over the deficit.

WAPTIV

On 30 September 2003, the Company issued 338,755 Ordinary Shares to satisfy the remaining contingent consideration in respect of the acquisition of the remaining 5% interest in WAPTIV Limited which occurred in May 2001.
