Chunghwa Telecom Reports Operating Results for the First Half and

Second Quarter of 2004

Taipei, Taiwan, R.O.C. August 26, 2004 - Chunghwa Telecom Co., Ltd (TAIEX: 2412, NYSE: CHT) (Chunghwa or the Company), today reported revenues for the half year ending June 30 of NT\$91.9 billion, net income of NT\$26.4 billion and fully-diluted earnings per common share (EPS) of NT\$2.74, or US\$ 0.81 per ADS. The Company also reported earnings results for the second quarter of 2004 with revenues of NT\$46.3 billion, net income of NT\$13.5 billion and earnings per share (EPS) of NT\$ 1.40, or US\$ 0.42 per ADS. All figures were prepared in accordance with US GAAP.

Revenues and Costs

Total revenue for first half 2004 was NT\$91.9bn, a 2.2% increase YoY. Of this, 39.1% was from fixed-line services, 37.9% was from wireless services and 21.7% was from Internet and data services, with the remainder from others. Revenue from the Company's mobile, and Internet and data services grew by 7.0% and 14.2%, respectively. International long distance revenue declined slightly by 1.6% mainly due to the decrease in wholesale volume and wholesale average usage fee. Domestic long distance revenue declined by 12% due to the decrease in dial-up minutes and mobile substitution. Local call revenue declined by 7.1% YoY, mostly due to mobile substitution and migration of subscribers to broadband from dial-up Internet access services.

Total operating costs and expenses for first half 2004 remained at the same level as last year. The increase in airtime charge and marketing expenses was offset by the decrease in bad debt provisions. The company will continue to implement stringent cost control.

Total revenue for second quarter of 2004 was NT\$46.3bn, a 1.5% increase QoQ. Of this, 39.1% was from fixed-line services, 37.6% was from wireless services and 21.9% was from Internet and data services, with the remainder from others. We have continued to shift our revenue mix towards growing businesses including Internet and data and wireless services.

Total operating costs and expenses for second quarter of 2004 were NT\$30.4bn, a 0.6% decrease QoQ. This was mainly due to decrease in handset subsidy.

Businesses Performance Highlights

Internet and Data Services

Internet and data revenue for first half 2004 increased by 14.2% YoY to approximately NT\$19.9bn. Revenue in the second quarter of 2004 was NT\$10.1bn, a 3.1 % increase QoQ.

Total Internet subscribers were over 3.7mn as of Jun. 30, 2004, a 6.6% increase YoY. In the second quarter of 2004, we added 77,000 subscribers.

ADSL subscribers totaled 2.7mn as of Jun. 30, 2004, a 33.5% increase YoY. We have continued our ADSL subscriber growth and added 138,000 subscribers in the second quarter of 2004.

Mobile Service

Mobile revenue for the first half of 2004 increased by 7.0% YoY to NT\$34.6bn. For the second quarter of 2004, mobile revenue increased by 0.1%.

At the end of June 2004, mobile subscribers reached 8.1mn, a 4.1% YoY increase. As the company continued to cut inactive prepaid subscribers, the percentage of prepaid subscribers decreased contributing to the increase in ARPU.

Chunghwa continues to be the leading mobile operator in Taiwan in both revenue and subscriber market share with 35.4% and 35.1% respectively as of the end of June 2004.

Fixed Line Services

Total fixed line revenues for the first half 2004 declined by 6.9% to NT\$35.9bn mainly due to fixed line competition, mobile substitution and continuous migration of dial-up subscribers to ADSL broadband services. Fixed-line revenue for the second quarter of 2004 was NT\$18.1bn, an increase of 1.6% QoQ.

Chunghwa's total fixed line subscriber base stood at approximately 13.2mn as of Jun. 30, 2004, an increase of 1.1% YoY.

Note Concerning Forward-looking Statements

Except for statements in respect of historical matters, the statements made in this press conference contain forward-looking statements within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual performance, financial condition or results of operations of Chunghwa Telecom to be materially different from what may be implied by such forward-looking statements. Investors are cautioned that actual events and results could differ materially from those statements as a result of a number of factors including, among other things: extensive regulation of state owned enterprises by the ROC government and extensive regulation of telecom industry; the intensely competitive telecom industry; our relationship with our labor union; general economic and political conditions, including those related to the telecom industry; possible disruptions in commercial activities caused by natural and human induced events and disasters, including terrorist activity, armed conflict and highly contagious diseases, such as SARS; and those risks identified in the section entitled "Risk Factors" in Chunghwa Telecom's Form F-1 filed with the U.S. Securities and Exchange Commission in connection with our U.S. initial public offering.

The financial statements included in this press conference were unaudited, and prepared and published in accordance with U.S. GAAP. Chunghwa Telecom also prepared certain financial statements for the same periods discussed in this press conference under ROC GAAP. Investors are cautioned that there are many differences between ROC GAAP and U.S. GAAP. As a result, our results under U.S. GAAP and ROC GAAP may in many events be substantially different.

The forward-looking statements in this press conference reflect the current belief of Chunghwa Telecom as of the date of this press conference and we undertake no obligation to update these forward-looking statements for events or circumstances that occur subsequent to such date.

INDEPENDENT AUDITORS' REPORT

August 26, 2004

The Board of Directors and Stockholders

Chunghwa Telecom Co., Ltd.

We have audited the accompanying balance sheets of Chunghwa Telecom Co., Ltd. as of June 30, 2004 and 2003, and the related statements of operations, changes in stockholders' equity and cash flows for the six months then ended, all expressed in New Taiwan dollars. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

Except for the matters described in the next paragraph, we conducted our audits in accordance with the Regulations for Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those regulations and standards required that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As stated in Note 9 to the financial statements, we did not audit the financial statements of equity-accounted investments, the investments in which are reflected in the accompanying financial statements using the equity method of accounting. The aggregate carrying values of the equity-accounted investments were NT\$1,443,558 thousand and NT\$1,348,460 thousand as of June 30, 2004 and 2003 and the equity in their net gain (loss) were NT\$24,076 thousand and (NT\$68,441) thousand for the six months then ended.

In our opinion, except for the matters described in the preceding paragraph, the financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of the Company as of June 30, 2004 and 2003, and the results of its operations and its cash flows for the six months then ended in conformity with relevant regulations, regulations governing the preparation of financial statements of public companies and accounting principles generally accepted in the Republic of China.

As stated in Notes 2 and 3 to the financial statements, the Company's accounts are subject to examination by the Directorate General of Budget, Accounting and Statistics of the Executive Yuan and by the Ministry of Audit of the Control Yuan. The accounts as of and for the year ended December 31, 2003 have been examined by these government agencies, and adjustments from this examinations have been recognized in the accompanying financial statements.

Notice to Readers

The accompanying financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such financial statements are those generally accepted and applied in the Republic of China.

CHUNGHWA TELECOM CO., LTD.

NOTES TO FINANCIAL STATEMENTS

FOR THE SIX MONTHS ENDED JUNE 30, 2004 AND 2003

(Amounts in Thousands of New Taiwan Dollars, Unless Stated Otherwise)

1. GENERAL

Chunghwa Telecom Co., Ltd. (Chunghwa or the Company) was incorporated on July 1, 1996 in the Republic of China (ROC) pursuant to the Telecommunications Act No. 30. The Company is a company limited by shares and, prior to August 2000, was wholly owned by the Ministry of Transportation and Communications (MOTC). Prior to July 1, 1996, the current operations of Chunghwa were carried out under the Directorate General of Telecommunications (DGT). The DGT was established by the MOTC in June 1943 to take primary responsibility in the development of telecommunications infrastructure and to formulate policies related to telecommunications. On July 1, 1996, the telecom operations of the DGT were spun-off as Chunghwa and the DGT continues to be the industry regulator.

As a dominant telecommunications service provider of fixed-line and cellular telephone services, within the meaning of applicable telecommunications regulations of the ROC, the Company is subject to additional requirements imposed by the MOTC.

The MOTC is in the process of privatizing the Company by reducing the government ownership below 50% in various stages. In July 2000, the Company received approval from the Securities and Futures Commission (the SFC) for a domestic initial public offering and its common shares were listed and traded on the Taiwan Stock Exchange (the TSE) on October 27, 2000. Certain of the Company s common shares were sold by an auction, in connection with the foregoing privatization plan, in domestic public offerings in June 2001, December 2002, March 2003, April 2003 and July 2003. Certain of the Company s common shares were also sold in an international offering of securities in the form of American Depository Shares (ADS) in July 17, 2003 and were listed and traded on the New York Stock Exchange (the NYSE). The MOTC intends to continue to sell certain of the Company s common shares in the ROC and throughout the privatization process to the Company s employees. As of June 30, 2004, the MOTC has sold 35.06% shares of the Company.

The numbers of employees as of June 30, 2004 and 2003 are 28,508 and 29,313, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements are prepared in conformity with relevant regulations, regulations governing the preparation of financial statements of public companies and accounting principles generally accepted in the Republic of China. The preparation of financial statements requires management to make certain estimates and assumptions that affect the recorded amounts of assets, liabilities, revenues and expenses of the Company. The Company continually evaluates these estimates, including those related to allowances for doubtful accounts, valuation allowances on inventories, useful lives of long term assets, pension plans and income tax. The Company bases its estimates on historical experience and other assumptions, which it believes to be reasonable under the circumstances. Actual results may differ from these estimates. The significant accounting policies are summarized as follows:

Basis of Accounting

As a state-owned company, the Company maintains statutory accounts in accordance with the laws and regulations issued by the Executive Yuan, the MOTC, the Ministry of Audit (the MOA) of the Control Yuan and, in the absence of any specific laws and regulations applicable to a particular transaction or account, the regulations governing the preparation of financial statements of public companies and generally accepted accounting principles in the Republic of China. The accounts are subject to annual examinations by the Directorate General of Budget, Accounting and Statistics (the DGBAS) of the Executive Yuan and by the MOA (DGBAS and MOA are hereinafter referred to as government agencies). The objective of these examinations is to evaluate the Company's performance against the budget approved by the Legislative Yuan. The accounts are considered final only after any adjustments based on the annual examinations are taken into account. The accounts for the year ended December 31, 2003 have been examined by these government agencies and resulting adjustments were recorded retroactively.

Current Assets and Liabilities

Current assets are commonly identified as those which are reasonably expected to be realized in cash; or sold or consumed within one year. Current liabilities are obligations which mature within one year.

Cash and Cash Equivalents

Cash and cash equivalents are commercial paper purchased with maturities of three months or less from the date of acquisition.

Short-term Investments

The investments are carried at the lower of cost or market value. An allowance for decline in value is provided when the aggregate carrying value of the investments exceeds the aggregate market value. A reversal of the allowance will result from a subsequent recovery of the carrying value.

Allowance for Doubtful Receivables

Allowance for doubtful receivables is provided on the basis of review of the collectibility of individual receivables.

Inventories

Inventories are stated at the lower of cost (weighted-average cost method) or market value (replacement cost or net realizable value).

- 10 -

Investments in Unconsolidated Companies

Investments in shares of stock in companies where the Company exercises significant influence in their operating and financial policy decisions are accounted for using the equity method. Under the equity method, the investment is initially stated at cost and subsequently adjusted for its proportionate share in the net earnings of the investee companies. Any cash dividends received are recognized as a reduction in the carrying value of the investments. Unrealized profits arising from downstream transactions to equity investees are deferred in the Company's portion of equity income or loss. Profits and losses arising from equipment purchases from equity investees are eliminated and recognized over the estimated remaining useful life of the equipment.

Investments in shares of stock with no readily determinable market value are accounted for using the cost method when the ownership is less than 20%. The carrying value of those investments less reductions for decline in value are charged to stockholders' equity. Reductions which are determined to be other than temporary are charged to current income. Cash dividends received are recorded as income.

Stock dividends received are accounted for as increases in the number of shares held but not recognized as income.

The cost of investments sold are determined using the weighted-average method.

Property, Plant and Equipment

Property, plant and equipment are stated at cost plus a revaluation increment, if any, less accumulated depreciation. Major renewals and betterments are capitalized, while maintenance and repairs are expensed currently.

Depreciation expense is determined based upon the asset's estimated useful life using the straight-line method. The estimated useful lives are as follows: land improvements, 10 to 30 years; buildings, 10 to 60 years; machinery and equipment, 6 to 10 years; telecommunication network facilities, 6 to 15 years; and miscellaneous equipment, 3 to 10 years.

Upon sale or disposal of property, plant and equipment, the related cost and accumulated depreciation are removed from the accounts, and any gain or loss is credited or charged to income.

Intangible Assets

3G concession will be amortized upon the MOTC approval using the straight-line method over the lower of the legal useful life or estimated useful life. Patents are amortized using the straight-line method over the estimated useful lives ranging from 12 to 20 years. Computer software costs are capitalized and amortized using the straight-line method over the estimated useful lives of three years.

Pension Costs

Pension costs are recognized according to the budget approved by the Legislative Yuan and the actuarial report. In addition, the DGBAS issued instructions that the pension costs of all state-owned companies to be privatized should be measured and recognized on the assumption that there is no privatization and that an additional amount should be calculated on the basis of the employees' service years if the additional amount does not reduce the budgeted net income. An additional minimum liability is recognized, if an unfunded accumulated benefit obligation exists, and an equal amount is recognized as an intangible asset, provided that the asset recognized does not exceed the amount of unrecognized net transition obligation and unrecognized prior service cost.

Revenue Recognition

Revenues are recognized when revenues are realized or realizable and earned. Related costs are expensed as incurred.

Service revenue is based on the fair value of the sales price, after business discount and quantity discount, between the Company and customer. The sales price of service revenue is the amounts which matures within one year. The difference between fair value and maturity value is not material and the transactions occur frequently so the interest factor is not included in calculating fair value.

Usage revenues from fixed-line services (including local, domestic long distance and international long distance), cellular services, Internet and data services, and interconnection and call transfer fees from other telecommunications companies and carriers are billed in arrears and are recognized based upon minutes of traffic processed when the services are provided in accordance with contract terms.

Other revenues are recognized as follows: (a) one-time subscriber connection fees are recognized upon activation, (b) fixed-monthly fees (on fixed-line services, wireless and Internet and data services) are accrued every month, and (c) prepaid services (fixed line, cellular and Internet) are recognized as income based upon actual usage by customers or when the right to use those services expires.

Expense Recognition

Expenses including commissions paid to agencies and handset subsidy costs paid to a vendor that sells a handset to a customer who subscribes to the service, as an inducement to enter into a service contract are charged to income as incurred.

Income Tax

The Company accounts for income tax using the asset and liability method. Under this method, deferred income tax is recognized for investment tax credits, losses carried forward and tax consequences of differences between financial statement carrying amounts and their respective tax bases. A valuation allowance is recognized if, available evidence indicates it is more likely than not that a portion or the entire deferred tax asset will not be realized. A deferred tax asset or liability should be classified as current or non-current according to the classification of its related asset or liability. However, if a deferred asset or liability cannot be related to an asset or liability in the financial statements, it should be classified as current or non-current depending on the expected reversal date of the temporary difference.

Investment tax credits utilized are recognized as reduction of income tax expense.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

Edgar Filing: CHUNGHWA TELECOM CO LTD - Form 6-K

Income taxes (10%) on undistributed earnings are recorded as expense in the year when the stockholders have resolved that the earnings shall be retained.

Earnings Per Share

Earnings per share is computed by dividing net income by the weighted-average number of common shares outstanding during the period.

Pursuant to the relative regulation, the Company revalued land it owned on April 30, 2000 based on the publicly announced value on July 1, 1999. These revaluations which have been approved by MOA resulted in increases in the carrying values of property, plant and equipment of \$5,986,074 thousand, accrued liabilities for land value incremental taxes of \$211,182 thousand, and capital surplus of \$5,774,892 thousand.

On July 1, 1996, pursuant to the guidance on the incorporation of the Company and as instructed by the ROC's Executive Yuan (executive branch), the ROC Government (through the MOTC) transferred to the Company certain land and buildings with carrying value of \$120,957,303 thousand. Those properties, as of that date, were registered in the name of the ROC's National Properties Bureau (NPB). As the number of the Company's properties is large, management has begun the process of registering the titles to the properties in the name of the Company. The process has been delayed due to the requirement of rezoning a small number of currently-classified agricultural and industrial zoned property to telecommunication or special purpose property prior to the approval of title transfer by the Executive Yuan. As of June 30, 2004, titles to land and buildings with carrying value of \$137,180 thousand were still in the name of the NPB.

Depreciation on property, plant and equipment for the years ended June 30, 2004 and 2003 amounted to \$20,438,185 thousand and \$20,992,970 thousand, respectively. Capitalized interest expense aggregated to \$37,148 thousand and the rate of capitalized interest is from 1.51% to 1.67% for the six months ended June 30, 2003.

The insurance coverages on property, plant and equipment as of June 30, 2004 aggregated \$4,162,468 thousand.

Miscellaneous	746,551	675,529
	<u>\$ 18,027,326</u>	<u>\$ 10,595,838</u>

The Company reclassified the amount of deposits from cellular telephone services where it expects to pay to its customers within one year, from other liabilities to other current liabilities.

14. LONG-TERM LOANS (INCLUDING LONG-TERM LOANS' CURRENT PORTION)

The loan from the Common Tunnel Fund was obtained pursuant to a long-term loan agreement with the Common Tunnel Fund managed by Ministry of Interior that allows the Company to obtain unsecured interest-free credit until March 12, 2007. The outstanding principal as of June 30, 2004 are payable in three annual installments (NT\$0.2 billion, NT\$0.2 billion and NT\$0.3 billion) starting on March 12, 2005.

15. STOCKHOLDERS' EQUITY

Under the Company's Articles of Incorporation, authorized capital is divided into 9,647,724,900 common shares and 2 preferred shares (at \$10 par value per share), all of which are issued and outstanding. The Company's Articles of Incorporation and the Republic of China Telecommunications Act provide that the MOTC has the right to purchase two redeemable preferred shares (NT\$10 par value) in the event its ownership in the Company falls below 50% of the outstanding common shares.

For the purpose of privatizing the company, the MOTC sold 1,109,750 thousand common shares of the Company in an international offering of securities in the form of American Depositary Shares (ADS) amounting to 110,975 thousand units (one ADS represents ten common shares) on the New York Stock Exchange in July 17, 2003.

Edgar Filing: CHUNGHWA TELECOM CO LTD - Form 6-K

The ADS holders generally have the same rights and obligations as other common shareholders, subject to the provision of relevant laws. The exercise of such rights and obligations shall comply with the related regulations and deposit agreement, which stipulate, among other things, that ADS holders can, through deposit agents:

- a. Exercise their voting rights;
- b. Sell their ADSs; and
- c. Receive dividends declared and subscribe to the issuance of new shares.

- 18 -

As of June 30, 2004, a portion of the outstanding ADSs were revoked in exchange for approximately 593 thousand common shares of the Company. Therefore, the outstanding ADSs were 110,916 thousand units, which equaled approximately 1,109,157 thousand common shares and represented 11.50% of the Company's total outstanding common shares.

The MOTC, as the holder of those preferred shares is entitled to the same rights as holders of common shares and certain additional rights as specified in the Company's Articles of Incorporation as follows:

- a. The holder of the preferred shares, or its nominated representative, will act as a director and/or supervisor during the entire period in which the preferred shares are outstanding.
- b. The holder of preferred shares has the same option as holders of common shares when the Company raises capital by issuing new shares.
- c. The holder of the preferred shares will have to agree on any change in the name of the Company or the nature of its business and any transfer of a substantial portion of the Company's business or property.
- d. The holder of the preferred shares may not transfer the ownership. The Company must redeem all outstanding preferred shares within three years from the date of their issuance.

Under the ROC Company Law, capital surplus can only be utilized to offset deficits or be declared as stock dividends. Also, such capital surplus and donations can only be declared as a stock dividend by the Company at an amount calculated in accordance with the provisions of existing regulations.

Cause of properties transfer in or out to National Properties Bureau and other government agencies is because few properties are still waiting for the approval of title transfer by the Executive Yuan.

In addition, before distributing a dividend or making any other distribution to stockholders, the Company must pay all outstanding taxes, recover any past losses and set aside a legal reserve equal to 10% of its net income, and depending on its business needs or requirements, may also set aside a special reserve. The cash dividends to be distributed shall not be less than 10% of the total amount of the dividends to be distributed. In addition, if the cash dividend to be distributed is less than \$0.10 per share, such cash dividend shall be distributed in the form of common shares.

Telecommunications service is capital-intensive and the Corporation requires capital expenditures to sustain its competitive position in high-growth market. Thus, the Company's dividend policy takes into account future capital expenditure outlays. In this regard, a portion of the earnings may be retained to finance these capital expenditures. The remaining earnings can then be distributed as dividends if approved by the stockholders in the following year and will be recorded in the financial statements of that year.

Furthermore, under the ROC Company Law, the appropriation for legal reserve shall be made until the accumulated reserve equals the aggregate par value of the outstanding capital stock of the Company. This reserve can only be used to offset a deficit, or when the balance is 50% of the aggregate par value of the outstanding capital stock of the Company, the Company may, at its option, declare 50% of the reserve as a stock dividend and transfer the amount to capital.

Edgar Filing: CHUNGHWA TELECOM CO LTD - Form 6-K

The appropriation and distributions of the 2003 earning of the Company have been approved and resolved by the stockholders in June 25, 2004, where special reserve of \$552 thousand, 10% legal reserve of \$4,848,789 thousand and cash dividends of \$43,414,762 thousand (\$4.5 per share). The appropriation and distributions adjustments have been recorded retroactively as of December 31, 2003 under the regulations of government. (Please refer to Note 3.)

Under the Integrated Income Tax System that became effective on July 1, 1998, non-corporate stockholders are allowed a tax credit for the income tax paid by the Company on earnings generated in 1999 and onwards. An Imputation Credit Account (ICA) is maintained by the Company for such income tax and the tax credit is allocated to each stockholder.

- d. The related information under the Integrated Income Tax System is as follows:

June 30

	2004	2003
Balance of Imputation Credit Account (ICA)	\$ 13,576,082	\$ 17,901,724

The estimated ICA rate for the year ended December 31, 2003 and the actual ICA rate for the year ended December 31, 2002 were 27.63% and 33.44%, respectively. The credit available for allocation to the stockholders is calculated on the basis of the balance of ICA on the date of distribution of dividends. Accordingly, the estimated rate as of June 30, 2003 may differ from the actual rate determined based on the balance of the ICA on the dividend distribution date.

e. Undistributed earnings information

As of June 30, 2004 and 2003, the Company's undistributed earnings generated in June 30, 1998 and onward were \$32,336 thousand for both years.

Income tax returns through the year ended December 31, 2003 had been examined by the tax authorities.

19. PENSION PLAN

The Company has different pension plans for its employees depending on their classifications. In general, the employees' pension entitlement is based on MOTC regulations, Labor Law and/or the private pension plan of the Company.

The funding of the pension plan for employees classified as staff is based on the budget approved by the Legislative Yuan and a supplementary budget approved by the Executive Yuan. The staff pension fund is administered by a pension fund committee and deposited in its name in a commercial bank. The pension plan for employees classified as workers is funded monthly at 15% or less of their wages and is also administered by a pension committee and deposited in its name in the Central Trust of China.

Contributions and payments are as follows:

	Six Months Ended June 30	
	2004	2003
Contributions	\$ 2,204,147	\$ 112,601
Payments of benefits	\$ 2,111,332	\$ 1,093,926

Pension costs amounted to \$1,146,135 thousand and \$355,444 thousand for the six months ended June 30, 2004 and 2003, respectively. The privatization of the Company was not completed on December 31, 2003. The Chairman, as representative of the MOTC, approved the new target privatization date to be December 31, 2004 and recognized pension cost base on the actuarial report. Therefore, based on the assumption that the timing of the privatization is December 31, 2004, the accrued pension liabilities as of June 30, 2004 was \$3,406,072 thousand.

20. TRANSACTIONS WITH RELATED PARTIES

As the Company is a state-owned enterprise, the ROC Government is one of the Company's major customers. The Company provides fixed-line services, wireless services, Internet and data and other services to the various departments and agencies of the ROC Government and other state-owned enterprises in the normal course of business and at arm's-length prices. The information on service revenues from government bodies and related organizations have not been provided because details of the type of users were not maintained by the Company. The Company believes that all costs of doing business are reflected in the financial statements and that no additional expenditures will be incurred as a result of the privatization being completed.

- a. The Company engages in business transactions with the following related party:

21. COMMITMENTS AND CONTINGENT LIABILITIES

As of June 30, 2004, the Company's remaining commitments under non-cancelable contracts with various parties were as follows:

- a. Acquisitions of buildings of \$3,427,988 thousand.
- b. Acquisitions of telecommunications equipment of \$12,667,027 thousand.
- c. Unused letters of credit of approximately \$7,968,316 thousand.
- d. Contracts to print billing, envelopes and telephone directories of approximately \$26,746 thousand.
- e. The Company also has non-cancelable operating leases covering certain buildings, computers, computer peripheral equipment and operating system software under contracts that expire in various years. Minimum rental commitments under those leases are as follows:

<u>Year</u>	<u>Amount</u>
The six months ended December 31, 2004	\$ 595,137

- f. A commitment to contribute \$2,500,000 thousand to a Fixed Line Fund administered by the Ministry of Interior Affairs and Taiwan Power Company, of which \$1,000,000 thousand has been contributed by the Company on June 30, 1995. If the balance of the Fixed Line Fund is not sufficient for its purpose, the above three parties will determine when to raise additional fund and how much is the contribution from each party.
- g. A commitment to contribute \$2,000,000 thousand to a Piping Fund administered by the Taipei City Government, of which \$1,000,000 thousand was contributed by the Company on August 15, 1996.

22. FAIR VALUE OF FINANCIAL INSTRUMENTS

- a. Derivative financial instruments

The Company entered into derivative financial instrument transactions to manage exposures related to foreign-currency denominated payable fluctuation. There were no foreign currency forward exchange contracts outstanding as of June 30, 2004.

- 1) Transaction risk
 - a) Credit risk

The Company is exposed to credit risk in the event of non-performance of the counter parties to forward contracts on maturity. In order to manage this risk, the Company conducts transactions only with financial institutions with good credit ratings. As a result, no material losses resulting from counter party defaults are anticipated.

- 24 -

b) Market risk

Market risk is the exposure created by potential exposures to changes of foreign exchange rate related to its foreign-currency-denominated assets and/or liabilities and changes on interest rates related to its obligations.

c) Liquidation risk and cash flow risk

The Company entered into foreign currency forward exchange contracts to hedge its exposure to the effect of exchange rate fluctuations on net liabilities. At the maturity of the contracts, the Company has sufficient cash to cover the cash out, therefore the Company believes there are no significant liquidation risk and cash flow risk.

2) Transaction gains and losses

Net exchange loss for the six months ended June 30, 2004 was \$26,784 thousand.

The Company's basis for determining the fair values is as follows:

Edgar Filing: CHUNGHWA TELECOM CO LTD - Form 6-K

- a) Financial instruments except those mentioned in b) and c) the carrying values of such financial instruments reported in the balance sheet approximate the fair values of these assets.
- b) Fair values of investments in unconsolidated companies and funds are based on the net asset values of the investments in unconsolidated companies, if quoted market prices are not available.
- c) Long-term loans (including long-term loans current portion). The fair value is discounted value based on projected cash flow. The projected cash flows were discounted using the maturity dates of long-term loans.

NOTES TO FINANCIAL STATEMENTS

(Amounts in Millions of New Taiwan Dollars, Unless Stated Otherwise)

1. GENERAL

Chunghwa Telecom Co., Ltd. (Chunghwa or the Company) was incorporated on July 1, 1996 in the Republic of China (ROC) pursuant to the Telecommunications Act No. 30. The company is a company limited by shares and, prior to August 2000, was wholly owned by the Ministry of Transportation and Communications (MOTC). Prior to July 1, 1996, the current operations of Chunghwa were carried out under the Directorate General of Telecommunications (DGT). The DGT was established by the MOTC in June 1943 to take primary responsibility in the development of telecommunications infrastructure and to formulate policies related to telecommunications. On July 1, 1996, the telecom operations of the DGT were spun-off as Chunghwa continues to carry out the business and the DGT continues to be the industry regulator.

As a dominant telecommunications service provider of fixed-line and cellular telephone services, within the meaning of applicable telecommunications regulations of the ROC, the Company is subject to additional requirements imposed by the MOTC.

The MOTC is in the process of privatizing the Company by reducing the government ownership to below 50% in stages. Certain of the Company's common shares were sold, in connection with the foregoing privatization plan, in domestic public offerings in August 2000, in September 2000, in June 2001, in December 2002, and in March 2003, in April 2003, and in July 2003. Certain of the Company's common shares were also sold to its employees in October 2000, October 2001, November 2002, January 2003, April 2003, June 2003, July 2003 and December 2003. In July 2003, the MOTC sold the Company's common shares in an international offering of securities in the form of American Depository Shares (ADS). The MOTC intends to continue to sell the Company's common shares in the ROC and throughout the process of privatization to the Company's employees. As of August 26, 2004, the MOTC owns 64.94% shares of the Company.

The Company's common shares were listed and traded on Taiwan Stock Exchange and New York Stock Exchange on October 27, 2000 and on July 17, 2003, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements has been prepared by the Company pursuant to the rules and regulations of the United States Securities and Exchange Commission (SEC) and, in the opinion of management, include all adjustments necessary for a fair statement of the results of operations, financial position and cash flows for each period presented. The results for interim periods are not necessarily indicative of results for the full year.

Cash Equivalents

Cash equivalents include commercial paper purchased with maturities of three months or less from the date of acquisition.

Short-term Investments

Investments primarily include commercial paper purchased with original maturities greater than 90 days. The Company has classified its investments as held to maturity which represent investments the Company has the ability to and intends to hold to maturity. The investments are reported at amortized cost with any realized gains and losses recorded in other income and expense.

Employee Stock Compensation

In connection with the privatization plan of the Company, employees may be offered to purchase shares of common stock of the Company at less than fair market value. The Company records the difference between the quoted market price of the stock on the date of purchase and the purchase price as compensation expense and charges to income in the period of the purchase.

Derivative Financial Instruments

The Company enters into forward contracts to reduce its exposure to foreign currency risk and variability in operating results due to fluctuations in exchange rates underlying the value of liabilities denominated in foreign currencies until such liabilities are paid. A forward contract obligates the Company to exchange predetermined amounts of specified foreign currencies at specified exchange rates on specified dates. These foreign currency forward exchange contracts are denominated in the same currency in which the underlying foreign currency liabilities are denominated and bear a contract value and maturity date that approximate the value and expected settlement date, respectively, of the underlying transactions. For contracts that are designated and effective as hedges, unrealized gains and losses on open contracts at the end of each accounting period, resulting from changes in the fair value of these contracts, are recognized in earnings in the same period as gains and losses on the underlying foreign denominated receivables are recognized and generally offset. Gains and losses on forward contracts and foreign denominated liabilities are included in other income (expense), net. The Company does not enter into or hold derivatives for trading or speculative purposes and only enters into contracts with highly rated financial institutions.

Derivatives are recognized at fair value and included in either other current liabilities or other current assets on the balance sheet.

Recent Accounting Pronouncements

In January 2003, the Financial Accounting Standards Board (FASB) released Interpretation No. 46 Consolidation of Variable Interest Entities (FIN 46) which requires that all primary beneficiaries of Variable Interest Entities (VIE) consolidate that entity. FIN 46 is effective immediately for VIEs created after January 31, 2003 and to VIEs in which an enterprise obtains an interest after that date. It applies in the first fiscal year or interim period beginning after June 15, 2003 to VIEs in which an enterprise holds a variable interest it acquired before February 1, 2003. In December 2003, the FASB published a revision to FIN 46 (FIN 46R) to clarify some of the provisions of the interpretation and to defer the effective date of implementation for certain entities. Under the guidance of FIN 46R, entities that do not have interests in structures that are commonly referred to as special purpose entities (SPE s) are required to apply the provisions of the interpretation in financial statements for periods ending after March 14, 2004. The Company does not have interests in special purpose entities and will apply the provisions of FIN 46R with 2004 financial statements.

3. U.S. DOLLAR AMOUNTS

The Company maintains its accounts and expresses its financial statements in New Taiwan dollars. For convenience only, U.S. dollar amounts presented in the accompanying financial statements have been translated at the noon buying rate for cable transfers as certified for customs purposes by the Federal Reserve Bank of New York as of June 30, 2004, which was NT\$33.66 to US\$1.00. The convenience translations should not be construed as representations that the New Taiwan dollar amounts have been, could have been, or could in the future be, converted into U.S. dollars at this or any other rate of exchange.

CHI invests in companies engaged in telecom and software businesses. No dividends were declared by CHI for the three months and six months ended June 30, 2003 and 2004, respectively.

The investments in TFC, RPTI and Siemens have no quoted market values and are carried at their original costs which approximate fair value.

7. LONG-TERM LOANS (INCLUDING CURRENT PORTION OF LONG-TERM LOANS)

The loan from the Common Tunnel Fund was obtained pursuant to a long-term loan agreement with the Common Tunnel Fund managed by Ministry of Interior that allows the Company to obtain unsecured interest-free credit until March 12, 2007. The outstanding principal amounts as of June 30, 2004 are payable in three annual installments (NT\$0.2 billion, NT\$0.2 billion and NT\$0.3 billion) starting on March 12, 2005.

As of December 31, 2003 and June 30, 2004, the Company has unused credit lines of approximately NT\$230,000 million and NT\$230,000 million (unaudited), which are available for short-term and long-term borrowings.

8. STOCKHOLDERS EQUITY

Under the Company's Articles of Incorporation, authorized capital is 9,647,724,900 common shares. The Company's Articles of Incorporation and the Republic of China Telecommunications Act provide that the MOTC has the right to purchase two redeemable preferred shares (NT\$10 par value) in the event its ownership in the Company falls below 50% of the outstanding common shares.

For the purpose of privatizing the company, the MOTC sold 1,109,750 thousand common shares of the Company in an international offering of securities in the form of American Depositary Shares (ADS) amounting to 110,975 thousand units (one ADS represents ten common shares) on the New York Stock Exchange in July 17, 2003.

The ADS holders generally have the same rights and obligations as other common shareholders, subject to the provision of relevant laws. The exercise of such rights and obligations shall comply with the related regulations and deposit agreement, which stipulate, among other things, that ADS holders can, through deposit agents; exercise their voting rights, sell their ADSs, and receive dividends declared and subscribe to the issuance of new shares.

As of December 31, 2003 and June 30, 2004, a portion of the outstanding ADSs were revoked in exchange for approximately 120,160 thousand common shares and 593 thousand common shares of the Company, which represented 1.25% and 0.01% of the Company's total outstanding common shares, respectively. Therefore, the outstanding ADSs were 98,914 thousand units and 110,916 thousand units, which equaled approximately 989,140 thousand common shares and 1,109,157 thousand common shares, and represented 10.25% and 11.50% of the Company's total outstanding common shares, respectively.

Under the ROC Company Law, capital surplus may only be utilized to offset deficits or be declared as stock dividends. Also, such capital surplus can only be declared as a stock dividend by the Company at an amount calculated in accordance with the provisions of existing regulations.

Edgar Filing: CHUNGHWA TELECOM CO LTD - Form 6-K

In addition, before distributing a dividend or making any other distribution to stockholders, the Company must pay all outstanding taxes, recover any past losses and set aside a legal reserve equal to 10% of its net income, and, depending on its business needs or requirements, may also set aside a special reserve. The cash dividends to be distributed shall not be less than 10% of the total amount of dividends to be distributed. If the cash dividend to be distributed is less than NT\$0.10 per share, such cash dividend shall be distributed in the form of common shares.

- 9 -

Under the ROC Company Law, the appropriation for legal reserve shall be made until the accumulated reserve equals the aggregate par value of the outstanding capital stock of the Company. This reserve can only be used to offset a deficit, or when reaching 50% of the aggregate par value of the outstanding capital stock of the Company, up to 50% of the reserve may, at the option of the Company, be declared as a stock dividend and transferred to capital.

The appropriation and distributions of the 2003 earnings of the Company have been approved and resolved by the stockholders, for special reserve of \$1 million (unaudited), 10% legal reserve of NT\$4,849 million (unaudited) and cash dividends of NT\$43,415 million (NT\$4.5 per share) (unaudited).

The MOTC, in connection with the privatization plan of the Company, sold shares of stock at discounted prices, to employees at various times from October 2000 to October 31, 2003. The employees purchased the common shares at discounts of 10% and 20% in consideration for their commitment to hold the common shares for two and three years (the holding periods), respectively. In circumstances wherein the employees took advantage of such discounts, the common shares are held by an escrow agent on behalf of the employees/stockholders. There are no circumstances under which the MOTC or the Company would be required to repurchase these common shares. Also, the employees are not required to remain employed with the Company during the duration of the holding periods. The Company has recognized NT\$53 million (unaudited) and NT\$463 million (unaudited) as compensation expense for the shares purchased by employees that were subject to a discount for the three months and six months ended June 30, 2003, respectively.

The MOTC, in connection with the compensation of the employees, sold to employees 3,286,907 shares from February 27, 2004 to March 9, 2004, 14,579 shares from May 31, 2004 to June 18, 2004 and 382,083 shares from June 30, 2004 to July 6, 2004 for total consideration of NT\$33 million (unaudited), NT\$0.1 million (unaudited), and NT\$4 million (unaudited), respectively. The terms of the offers for the share purchases provided that employees purchase common shares from the above offering and hold for one to three years. Such common shares, pursuant to the Enforcement Rule of the Statute Governing Privatization of State-Owned Enterprises, were sold at par value (NT\$10). The employees are not required to remain employed with the Company during the duration of the holding periods. The Company has recognized NT\$20 million (unaudited) and NT\$182 million (unaudited) as compensation expense for the shares purchased by employees that were subject to par value for the three months and six months ended June 30, 2004, respectively.

9. PENSION PLAN

Pension costs amounted to NT\$1,035 million (unaudited) and NT\$1,112 million (unaudited) for the three months ended June 30, 2003 and 2004, respectively, and NT\$2,069 million (unaudited) and NT\$2,223 million (unaudited) for the six months ended June 30, 2003 and 2004, respectively. The Company's contributions to the retirement plan were NT\$56 million (unaudited) and NT\$1,623 million (unaudited) for the three months ended June 30, 2003 and 2004, and NT\$113 million (unaudited) and NT\$2,204 million (unaudited) for the six months ended June 30, 2003 and 2004, respectively.

10. COMMITMENTS AND CONTINGENT LIABILITIES

As of June 30, 2004, the Company had remaining commitments under non-cancelable contracts with various parties as follows: (a) acquisitions of land and buildings of NT\$3,428 million (unaudited), and (b) acquisitions of telecommunications equipment of NT\$12,667 million (unaudited).

The Company also has non-cancelable operating leases covering certain buildings, computers, computer peripheral equipment and operating system software under contracts that expire in various years through 2008. Minimum rental commitments under those leases are as follows:

	June 30,
	2004
	NT\$
	(Unaudited)
Within the following year	\$ 1,167
During the second year	946
During the third year	788
During the fourth year	345
During the fifth year and thereafter	158
	<u>3,404</u>

As of June 30, 2004, the Company had unused letters of credit of NT\$7,968 million (unaudited).

A commitment to contribute NT\$2,500 million to a Fixed Line Fund administered by the Ministry of Interior Affairs and Taiwan Power Company, of which NT\$1,000 million has been contributed by the Company on June 30, 1995. If the balance of the Fixed Line Fund is not sufficient for its purpose, the above three parties will determine when to raise additional funds and the contribution amounts from each party.

A commitment to contribute NT\$2,000 million to a Piping Fund administered by the Taipei City Government, of which NT\$1,000 million was contributed by the Company on August 15, 1996.

11. LITIGATION

The Company is involved in various legal proceedings of a nature considered normal to its business. It is the Company's policy to accrue for amounts related to these legal matters when it is probable that a liability has been incurred and the amount is reasonably estimable.

The Company believes that the various asserted claims and litigation in which it is involved will not materially affect its financial position, future operating results or cash flows, although no assurance can be given with respect to the ultimate outcome of any such claim or litigation.

12. INFORMATION ON FINANCIAL INSTRUMENTS

- a. The derivative financial instruments

Edgar Filing: CHUNGHWA TELECOM CO LTD - Form 6-K

The Company enters into forward contracts to reduce its exposure to foreign currency risk and variability in operating results due to fluctuations in exchange rates underlying the value of liabilities denominated in foreign currencies until such liabilities are paid. There were no foreign currency forward exchange contracts outstanding as of June 30, 2004. The net realized exchange loss for the six months ended June 30, 2004 was of NT\$27 million (unaudited).

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

- Cash and cash equivalents. The carrying amounts approximate fair values because of the short maturity of those instruments.
- Short-term investments. The carrying amounts approximate fair values because of the short maturity of those instruments.
- Investments in unconsolidated companies, accounted for using the equity method. The fair value is based on net asset values of the investments in unconsolidated companies if quoted market prices are not available.
- Refundable deposits. The carrying amounts approximate fair values as the average lease term associated with these deposits is approximately one year.
- Customers deposits. The fair value is the discounted value based on projected cash flow. The projected cash flows were discounted using the average expected customer service periods.
- Long-term loans. The fair value is discounted value based on projected cash flow. The projected cash flows were discounted using the maturity dates of long-term loans.

13. SEGMENT REPORTING

Operating segments are defined as components of an enterprise regarding which separate financial information is available for regular evaluation by the chief operating decision maker, or decision making group, in deciding how to allocate resources and in assessing performance.

Edgar Filing: CHUNGHWA TELECOM CO LTD - Form 6-K

The Company organizes its business segments based on the various types of telecommunications services provided to customers. The major business segments operated by the Company are classified as below:

Local operations the provision of local telephone services;

DLD operations the provision of domestic long distance call services;

- 12 -

ILD operations the provision of international long distance call services;

Cellular operations the provision of cellular and related services;

Paging operation the provision of paging and related services;

Internet and data operation the provision of Internet access, lease line, and related services;

All other operations the services other than the above six categories, such as carrying out project research and providing training.

The operating segments are managed separately as each operating segment represents a strategic business unit that serves different markets. All the operating segments of the Company have been aggregated into the above reportable segments.

The Company evaluates performance based on several factors using information prepared on the ROC government regulations basis. The information below is provided on this basis with a summary of US GAAP adjustments to reconcile to the amounts presented in the statement of operations. The Company does not allocate interest and other income, interest expense or taxes to operating segments, nor does the Company's chief operating decision maker evaluate operating segments on these criteria. Except as discussed above, the accounting policies for segment reporting are the same as for the company as a whole. The Company's primary measure of segment profit is based on income or loss from operations.
