## RISK FACTORS

*You should carefully review the information contained elsewhere or incorporated by reference in this prospectus and should carefully consider the following risk factors, as well as the factors listed under A Warning About Forward-Looking Statements .*

### Risks Relating to Offerings of Our Securities

**Our ability to undertake future sales or distributions of common stock may cause the market price of our common stock to decline, irrespective of our financial performance.**

The sale of a substantial number of shares of our common stock into the public market, or the availability of these shares for future sale, could adversely affect the market price of our common stock and could impair our ability to obtain additional capital in the future through an offering of equity securities at a time or at a price we deem appropriate. We have a currently effective shelf registration statement permitting the public sale of up to \$500 million of our securities, including our common stock. We may issue shares of our common stock from time to time as consideration for future acquisitions and investments. In the event any such acquisition or investment is significant, the number of shares that we may issue may in turn be significant. Any such offering would dilute your ownership interest in us and our earnings.

**Future potential debt or preferred stock issuance may negatively impact holders of common stock.**

If at some point in the future we choose to issue debt and/or preferred securities, these securities will have a senior claim on our assets relative to common stockholders. Therefore, in the event of our bankruptcy, liquidation or dissolution, our assets must be used to pay off our debt and preferred obligations in full before making any distributions to common stockholders. In this event, it might be possible that a common stockholder will not recover their original investment.

### Risks Relating to Our Business

**In connection with our pending acquisition and to the extent that we acquire other companies in the future, our business may be negatively impacted by certain risks inherent with such acquisitions.**

We have in the past considered, and will in the future continue to consider, the acquisition of other banking companies, such as our recent acquisition of P.C.B. Bancorp, Inc. and our pending acquisition of Union Bank of Florida. To the extent that we acquire Union Bank of Florida or other companies in the future, our business may be negatively impacted by certain risks inherent with those acquisitions. These risks include the following:

the risk that acquired business will not perform in accordance with our expectations;

the risk that regulatory agencies that have the power to approve such acquisitions fail to provide those approvals on a timely basis or at all or impose unfavorable conditions in connection with their approvals;

the risk that difficulties will arise in connection with the integration of the operations of the acquired business with our businesses, particularly to the extent we are entering new geographic markets;

the risk that we will need to make significant investments in infrastructure, controls, staff, emergency backup facilities or other critical business functions that become strained by our growth;

the risk that management will divert its attention from other aspects of our business;

the risk that unanticipated costs relating to potential acquisitions could reduce our earnings per share; and

the risk that we may assume potential liabilities of the acquired company as a result of the acquisition.

As a result of these risks, any given acquisition, if and when consummated, may adversely affect our results of operations or financial condition. In addition, because the consideration for an acquisition may involve cash, debt or the issuance of shares of our stock and may involve the payment of a premium over book and market values, existing shareholders may well experience dilution in connection with any acquisition.

**Attractive acquisition opportunities may not be available to us in the future.**

We will continue to consider the acquisition of other businesses. However, we may not have the opportunity to make suitable acquisitions on favorable terms in the future, which could negatively impact the growth of our business. We expect that other banking and financial companies, many of which have significantly greater resources, will compete with us to acquire compatible businesses. This competition could increase prices for acquisitions that we would likely pursue, and our competitors may have greater resources than we do. Also, acquisitions of regulated businesses such as banks are subject to various regulatory approvals. If we fail to receive the appropriate regulatory approvals, we will not be able to consummate an acquisition that we believe is in our best interests.

**We are a holding company, and as a result we are dependent on dividends from our subsidiaries, including Colonial Bank, to meet our obligations and to provide funds for payment of dividends to our stockholders.**

We are a non-operating holding company, whose principal asset and source of income is our investment in Colonial Bank. We are a legal entity separate and distinct from Colonial Bank and our other subsidiaries and, therefore, rely primarily on dividends from these subsidiaries to meet our obligations and to provide funds for the payment of dividends to our stockholders, to the extent declared by our board of directors. There are various legal limitations on the extent to which Colonial Bank and our other subsidiaries can finance or otherwise supply funds to us (by dividend or otherwise).

**We may not be able to attract and retain banking customers at current levels.**

Competition in the local and regional banking industry may limit the ability of our banking subsidiary, Colonial Bank, to attract and retain banking customers. Colonial Bank faces competition from the following:

other banking institutions (including larger national and regional commercial banking organizations);

savings banks;

credit unions;

other financial institutions; and

non-bank financial service companies serving the same geographic region in which we operate.

In particular, our competitors include several major financial companies whose greater resources may afford them a marketplace advantage by enabling them to maintain numerous banking locations and mount extensive promotional and advertising campaigns. Areas of competition include interest rates for loans and deposits, efforts to obtain deposits and range and quality of services provided. If Colonial Bank is unable to attract and retain banking customers, it may be unable to continue its loan growth and its results of operations and financial condition may otherwise be negatively impacted.

**Conditions, including disaster conditions resulting from recent hurricanes, in the local economies or real estate markets in which we operate could negatively impact our banking business.**

Most of the Colonial Bank's principal markets are located in Florida and Alabama. As a result, adverse conditions, including an economic downturn, in those areas could negatively impact the ability of the Bank's customers in those areas to repay their loans. Furthermore, damage resulting from the hurricanes recently affecting the areas in which the Bank operates, and the continued economic uncertainty resulting from that damage, could negatively impact businesses in those areas. While we are currently uncertain as to the long-term effects of these events, they could adversely affect our banking business.

The Bank's commercial loans, with limited exceptions, are secured either by real estate (usually income producing commercial and residential properties), marketable securities or corporate assets (usually accounts receivable, equipment or inventory) in certain of our market areas which were affected by this year's intense hurricane activity. Consequently, the Bank's ability to continue to originate loans may be impaired by adverse changes in local and regional economic conditions in those areas. In addition, due to the concentration of the Bank's real estate and other collateral, adverse changes in local economic conditions, including acts of nature, such as the recent hurricanes, could have a material adverse impact on the ability of the Bank's borrowers to repay their loans and affect the value of the collateral securing these loans.

**Credit risk is inherent to our banking business.**

Credit risk is inherent in our various lending activities. It constitutes our largest risk because loans are our largest asset and are responsible for the bulk of our earnings. At September 30, 2004, the loan portfolio totaled approximately \$12.6 billion, or 69% of our total assets. Credit risk is defined as the possibility a debtor will not be able to pay interest or repay the principal according to the terms specified in the credit agreement. Deterioration in credit quality could occur with changes in economic conditions affecting real estate values and transactions in our market and/or general economic conditions, either nationally or regionally, that are less favorable than expected. In addition, BancGroup has a significant concentration in commercial real estate and construction loans representing 35% and 30% of the total loan portfolio, respectively.

**Fluctuations in interest rates may negatively impact our banking business.**

The Bank's main source of income from operations is net interest income, which is equal to the difference between the interest income received on interest-bearing assets (usually loans and investment securities) and the interest expense incurred in connection with interest-bearing liabilities (usually deposits and borrowings). These rates are highly sensitive to many factors beyond our control, including general economic conditions, both domestic and foreign, and the monetary and fiscal policies of various governmental and regulatory authorities. Net interest income can be affected significantly by changes in market interest rates. Changes in relative interest rates may reduce net interest income as the difference between interest income and interest expense decreases. We cannot assure you that a decrease in interest rates will not negatively impact our results from operations or financial position.

An increase in interest rates could also have a negative impact on our results of operations by reducing the ability of borrowers to repay their current loan obligations, which could not only result in increased loan defaults, foreclosures and write-offs, but also necessitate increases to the Bank's allowances for loan losses.

**Our banking business is highly regulated, which could limit or restrict our activities and impose financial requirements or limitations on the conduct of our business.**

Bank holding companies and banks operate in a highly regulated environment and are subject to supervision and examination by federal and state regulatory agencies. We are subject to the Bank Holding Company Act and to regulation and supervision by the Board of Governors of the Federal Reserve System, which we refer to as the

Federal Reserve. Colonial Bank is subject to regulation and supervision by the Office of the Comptroller of the Currency (the OCC) and the FDIC.

Banking laws and regulations govern numerous matters including changes in the ownership or control of banks and bank holding companies, maintenance of adequate capital and the financial condition of a financial institution, permissible types, amounts and terms of extensions of credit and investments, permissible non-banking activities, the level of reserves against deposits and restrictions on dividend payments. The FDIC and the OCC possess cease and desist powers to prevent or remedy unsafe or unsound practices or violations of law by banks subject to their regulation, and the Federal Reserve possesses similar powers with respect to bank holding companies. These and other restrictions limit the manner in which we and Colonial Bank may conduct business and obtain financing.

Furthermore, our banking business is affected not only by general economic conditions, but also by the monetary policies of the Federal Reserve. Changes in monetary or legislative policies may affect the interest rates our subsidiaries must offer to attract deposits and the interest rates they must charge on their loans, as well as the manner in which they offer deposits and make loans. These monetary policies have had, and are expected to continue to have, significant effects on the operating results of depository institutions generally, including Colonial Bank.

#### **A WARNING ABOUT FORWARD LOOKING STATEMENTS**

We make forward-looking statements in this document and in our public documents to which we refer. When we use words such as anticipate, believe, estimate, may, intend, expect, will, should, seek or other similar expressions we refer to events or conditions subject to risk and uncertainties. When considering those forward-looking statements, you should keep in mind the risks, uncertainties and other cautionary statements made in this prospectus. You should not place undue reliance on any forward-looking statement, which speaks only as of the date made. In addition to the risks identified below, you should refer to our public documents for specific risks which could cause actual results to be significantly different from those expressed or implied by those forward-looking statements. Some factors which may affect the accuracy of the forward-looking statements apply generally to the financial services or real estate industries, while other factors apply directly to us. The important factors which could cause actual results to differ materially from those in the forward-looking statements include, but are not limited to:

the possibility that our acquisition of Union Bank of Florida may not be completed;

the impact and effects of leverage;

regulatory limitations on Colonial Bank's ability to pay dividends;

the potential adverse impact on Colonial Bank's operations and profitability of changes in interest rates and future legislation or regulations;

economic conditions, both generally and particularly in areas where we or our subsidiaries, including Colonial Bank, operate or hold assets;

interest rate and credit risk associated with Colonial Bank's loan portfolio and the related sufficiency of its allowance for loan losses;

the success of technological, strategic and business initiatives;

the risks associated with commercial real estate and development;

the risks associated with the value of our equity securities;

the profitability of our banking and non-banking initiatives and investments;

the ability to successfully integrate any business or assets that we may acquire;

the highly regulated nature of our banking business; and

the highly competitive nature of our businesses.

Many of these factors, as well as factors that could cause actual results to differ from our forward-looking statements, are beyond our control and beyond the control of Colonial Bank and Colonial BancGroup. You should consult our periodic and current reports filed with the SEC for any further disclosures of a forward-looking nature that we may make.

Our internal growth strategies include seeking quality loan growth in each regional market, generating deposit growth through the development of customer relationships and competitive product offerings, continued development of our presence in higher growth markets, growth in noninterest income through continued expansion of fee based products and services and the ongoing development of a sales oriented business culture with an emphasis on customer service.

Colonial BancGroup does not know when or in what amounts a selling stockholder may offer shares for sale. The selling stockholders might not sell any or all of the shares offered by this prospectus. Because the selling stockholders may offer all or some of the shares pursuant to this offering and because there are currently no agreements, arrangements or understandings with respect to the sale of any of the shares, we cannot estimate the number of the shares that will be held by the selling stockholders after completion of the offering. For purposes of this table, Colonial BancGroup has assumed that, after completion of the offering, none of the shares covered by this prospectus will be held by the selling stockholders.

**Item 15. Indemnification of Directors and Officers.**

Pursuant to section 145 of the Delaware General Corporation Law, as amended, and the Restated Certificate of Incorporation of the Registrant, officers, directors, employees, and agents of the Registrant are entitled to indemnification against liabilities incurred while acting in such capacities on behalf of the Registrant, including reimbursement of certain expenses. In addition, the Registrant maintains an officers and directors insurance policy pursuant to which certain officers and all directors of the Registrant are entitled to indemnification against certain liabilities, including reimbursement of certain expenses, and the Registrant has indemnity agreements ( Indemnification Agreements ) with certain officers and all of its directors pursuant to which such persons may be indemnified by the Registrant against certain liabilities, including expenses.

The Indemnification Agreements are intended to provide additional indemnification to directors and officers of Colonial BancGroup beyond the specific provisions of the Delaware General Corporation Law. Under the Delaware General Corporation Law, a company may indemnify its directors and officers in circumstances other than those under which indemnification and the advance of expenses are expressly permitted by applicable statutory provisions.

## Edgar Filing: COLONIAL BANGROUP INC - Form S-3

Under the Delaware General Corporation Law, a director, officer, employee or agent of a corporation (i) must be indemnified by the corporation for all expenses incurred by him (including attorneys' fees) when he is successful on the merits or otherwise in defense of any action, suit or proceeding brought by reason of the fact that he is or was a director, officer, employee or agent of the corporation, (ii) may be indemnified by the corporation against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement of any such proceeding (other than a proceeding by or in the right of the corporation) even if he is not successful on the merits if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interest of the corporation (and, in the case of a criminal proceeding, had no reasonable cause to believe his conduct was unlawful), and (iii) may be indemnified by the corporation for expenses (including attorneys' fees) incurred by him in the defense or settlement of a proceeding brought by or in the right of the corporation, if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation; provided that no indemnification may be made under the circumstances described in clause (iii) if the director, officer, employee or agent is adjudged liable to the corporation, unless a court determines that, despite the adjudication of liability but in view of all of the circumstances, he is fairly and reasonably entitled to indemnification for the expenses which the court shall deem proper. The indemnification described in clauses (ii) and (iii) above (unless ordered by a court) may be made only as authorized in a specific case upon determination by (i) a majority of a quorum of disinterested directors, (ii) independent legal counsel in a written opinion, or (iii) the stock holders, that indemnification is proper in the circumstances because the applicable standard of conduct has been met. Expenses (including attorneys' fees) incurred by an officer or director in defending a proceeding

II-1

may be advanced by the corporation prior to the final disposition of the proceeding upon receipt of an undertaking by or on behalf of the director or officer to repay the advance if it is ultimately determined that he is not entitled to be indemnified by the corporation. Expenses (including attorneys' fees) incurred by other employees and agents may be advanced by the corporation upon terms and conditions deemed appropriate by the board of directors.

The indemnification provided by the Delaware General Corporation Law has at least two limitations that are addressed by the Indemnification Agreements: (i) Colonial BancGroup is under no obligation to advance expenses to a director or officer, and (ii) except in the case of a proceeding in which a director or officer is successful on the merits or otherwise, indemnification of a director or officer is discretionary rather than mandatory.

The Indemnification Agreements, therefore, cover any and all expenses (including attorneys' fees and all other charges paid or payable in connection therewith) incurred in connection with investigating, defending, being a witness or participating in (including an appeal), or preparing to defend, be a witness in or participate in, any threatened, pending or completed action, suit or proceeding, or any inquiry or investigation, whether civil, criminal, administrative or otherwise, related to the fact that such director or officer is or was a director, officer, employee or agent of Colonial BancGroup or is or was serving at the request of Colonial BancGroup as a director, officer, employee, agent, partner, committee member or fiduciary of another corporation, partnership, joint venture, employee benefit plan, trust or other enterprise, or by reason of anything done or not done by such director or officer in any such capacity.

The Indemnification Agreements also provide for the prompt advancement of all expenses incurred in connection with any proceeding and obligate the director or officer to reimburse Colonial BancGroup for all amounts so advanced if it is subsequently determined, as provided in the Indemnification Agreements, that the director or officer is not entitled to indemnification.

The Indemnification Agreements further provide that the director or officer is entitled to indemnification for, and advancement of, all expenses (including attorneys' fees) incurred in any proceeding seeking to collect from Colonial BancGroup an indemnity claim or advancement of expenses under the Indemnification Agreements, Colonial BancGroup's Certificate of Incorporation, or the Delaware General Corporation Law, regardless of whether the director or officer is successful in such proceeding.

The Indemnification Agreements impose upon Colonial BancGroup the burden of proving that the director or officer is not entitled to indemnification in any particular case, and the Indemnification Agreements negate certain presumptions which might otherwise be drawn against a director or officer in certain circumstances. Further, the Indemnification Agreements provide that if Colonial BancGroup pays a director or officer pursuant to an Indemnification Agreement, Colonial BancGroup will be subrogated to such director's or officer's rights to recover from third parties.

The Indemnification Agreements stipulate that a director's or officer's rights under such contracts are not exclusive of any other indemnity rights a director or officer may have; however, the Indemnification Agreements prevent double payment. The Indemnification Agreements require the maintenance of directors' and officers' liability insurance if such insurance can be maintained on terms, including rates, satisfactory to Colonial BancGroup.

The benefits of the Indemnification Agreements would not be available if (i) the action with respect to which indemnification is sought was initiated or brought voluntarily by the officer or director (other than an action to enforce the right to indemnification under the Indemnification Agreements); (ii) the officer or director is paid for such expense or liability under an insurance policy; (iii) the proceeding is for an accounting of profits pursuant to Section 16(b) of the Securities Exchange Act of 1934, as amended; (iv) the conduct of the officer or director is adjudged as constituting an unlawful personal benefit, or active or deliberate dishonesty or willful fraud or illegality; or (v) a court determines that indemnification or advancement of expenses is unlawful under the circumstances.

II-2

The Indemnification Agreements would provide indemnification for liabilities arising under the Securities Act of 1933, as amended. Colonial BancGroup has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in such act and is, therefore, unenforceable.
