Operational highlights

- US:
 - Increase in operating margin to 13.4%
 - Increase in market share to 7.2% of speciality sector
 - Kay Jewelers becomes leading speciality retail jewellery brand by sales
- UK:
 - Operating margin broadly maintained at 15.2%
 - Diamonds now 28% of product mix
 - 142 stores trading in new format

Terry Burman, Group Chief Executive, commented: The 12% increase in profit before tax at constant exchange rates further extends the Group's growth record and reflects the consistent success of our strategies on both sides of the Atlantic. Reported profit before tax increased by 5% despite being adversely affected by the weaker US dollar.

The US business again out-performed its main competition and gained further market share with like for like sales up by 5.9%. The UK division saw like for like sales up by 3.0%, a good performance in an increasingly difficult market place.

In the year to date, Group like for like sales growth has been in low single digits after taking account of the change in the timing of Easter. This reflects a US like for like increase a little ahead of the fourth quarter last year, partly offset by negative mid single digit like for like sales in the UK following a marked deterioration in the general trading environment. Both businesses were up against particularly strong prior year comparatives.

Signet operated 1,758 speciality retail jewellery stores at 29 January 2005; these included 1,156 stores in the US, where the Group trades as Kay Jewelers , Jared The Galleria Of Jewelry , and under a number of regional names. At that date Signet operated 602 stores in the UK, where the Group trades as H.Samuel , Ernest Jones , and Leslie Davis .

Signet Group plc

Chairman's Statement

Group Results

In the year to 29 January 2005 the Group further extended its growth record. On a reported basis profit before tax rose by 5.3% to £210.3 million (2003/04: £199.8 million restated, see note 10) reflecting an underlying increase of 12.1% at constant exchange rates. Like for like sales advanced by 5.0%. Total sales rose by 7.8% at constant exchange rates: reported sales were broadly unchanged at £1,614.4 million (2003/04: £1,604.9 million restated). The tax rate fell to 32.9% from 35.1%. Earnings per share were 8.2p (2003/04: 7.5p restated), up by 9.3% on a reported basis and 15.5% at constant exchange rates.

These results reflect the continuing successful implementation of the Group's strategies on both sides of the Atlantic. However the full extent of the Group's progress has not been reflected in the reported results due to further weakening of the average US dollar exchange rate from \$1.68/£1 to \$1.86/£1. This had a significant adverse impact on the translation of the US division's sales and operating profit into sterling, thereby affecting Group profit before tax by some £12 million. The results also included a restructuring charge in the UK of £1.7 million.

The US division had a very strong start to 2004/05 with an excellent performance during the Valentine's Day period. Although the retail environment became less predictable as the year progressed, the business had a strong fourth quarter with like for like sales up by 4.7%. For the year as a whole the division again out-performed its main competition and gained further market share. 2004 saw the Group's nationwide Kay chain become the largest speciality retail jewellery brand by sales in the US.

The UK division also had a particularly strong first quarter but faced a softening trend in the trading environment during the rest of the year. Annual like for like sales increased by 3.0%; a good performance in an increasingly difficult market place. The Christmas period proved to be particularly challenging and both H.Samuel and Ernest Jones did well to out-perform the general retail market.

The Group continued to utilise its cash flow and strong balance sheet to invest in the growth of the business. £159.1 million was invested in fixed and working capital during the year. There was an acceleration in new store space growth in the US and a major store refurbishment programme in the UK. Gearing (net debt to shareholders' funds) at 29 January 2005 was 11.3% (31 January 2004: 11.8% restated).

Accounting Standards Developments

A period of significant and rapid change in accounting is currently taking place with UK Generally Accepted Accounting Principles (GAAP) being replaced by International Financial Reporting Standards (IFRS), and both converging with US GAAP. The process this year has resulted in a restatement relating to the revenue recognition of extended service agreements in the US and the replacement in 2005/06 of UK GAAP by IFRS. Both are explained in more detail in the financial review.

Dividend

The Board is pleased to recommend a 21.5% increase in the final dividend to 2.625p per share (2003/04: 2.16p), the total for the year being 3.0p per share (2003/04: 2.501p). The dividend cover is 2.7 times (2003/04: 3.0 times). The Board will continue to review regularly its distribution policy taking into account earnings, cash flow, gearing and the needs of the business. See note 5 regarding dividends to US holders of ordinary shares and ADSs.

Signet Group plc

Current Trading

In the year to date Group like for like sales growth has been in low single digits after taking account of the change in the timing of Easter. This reflects a US like for like increase a little ahead of the fourth quarter last year partly offset by negative mid single digit like for like sales in the UK following a marked deterioration in the general trading environment. Both businesses were up against particularly strong prior year comparatives.

Chief Executive's Review

Group

Group operating profit rose to £218.9 million from £210.2 million (restated), an increase of 11.3% at constant exchange rates or 4.1% on a reported basis. The operating margin increased to 13.6% (2003/04: 13.1% restated), and the return on capital employed (ROCE) was 26.5% (2003/04: 25.9% restated).

The Group's medium term objectives are to set leading performance standards in its sector of the jewellery market on both sides of the Atlantic, to increase new store space in the US and store productivity in the UK, and to be broadly cash flow neutral after funding the needs of the business and dividend payments.

US Division

In 2004/05 the business continued to build on its competitive strengths. It again out-performed its main competition and gained further market share. Operating profit rose by 17.1% at constant exchange rates and by 5.7% on a reported basis to £147.3 million (2003/04: £139.3 million restated). The five year annual compound growth was 12.2% at constant exchange rates.

Like for like sales rose by 5.9% and total dollar sales by 10.3%. The mall stores reported solid growth and Jared, the off-mall destination concept, performed particularly strongly. Over the last five years the US division's like for like sales have grown at an annual compound rate of 4.5% and total dollar sales by 11.0%. During the same period, the US division's share of the speciality jewellery market has increased from 5.1% to 7.2%.

New store space rose by 8% during 2004/05 further leveraging both central overhead costs and marketing expenditure. In the last five years new store selling space has increased by some 60%, with the number of Kay stores up by over a third to 742. Over the same period the number of Jared stores has more than tripled to 93.

Edgar Filing: SIGNET GROUP PLC - Form 6-K

Growth in new store space and further development of the division's competitive strengths in the critical areas of merchandising, store operations and marketing have contributed significantly to the out-performance of the business and remain key elements of future strategy. Given the continuing consolidation in the speciality jewellery sector, there should be opportunities to gain further market share both organically and, if appropriate, by acquisition. The US division is now targeting organic space growth of 7% - 9% in future years (previously 6% - 8%).

Signet Group plc**UK Division**

Against the background of an increasingly difficult trading environment UK operating profit advanced by 2.1% to £78.2 million (2003/04: £76.6 million), the compound five year annual growth rate being 15.8%. There was a restructuring charge of £1.7 million reflecting the relocation and consolidation of central administration functions to enhance efficiency that should generate future cost savings of about £0.6 million per annum. Like for like sales rose by 3.0%, the compound annual growth rate during the last five years being 6.3%. The business continues to be strongly cash generative and enjoyed a ROCE of over 40% in 2004/05.

The drive to increase diamond sales as a proportion of total sales showed further success and remains central to the future strategy of both H.Samuel and Ernest Jones. Diamonds now account for 28% of the division's product mix compared with 22% five years ago. The objective is to leverage both chains' strong market positions by increasing average transaction values which have risen by 42% in H.Samuel and by 29% in Ernest Jones in the last five years.

Central to selling diamonds is the interaction between the customer and the salesperson. The roll-out of the new store format, which facilitates such interaction, was implemented as part of the store refurbishment cycle in 2004/05. The focus on customer service was also evident in the priority given to staff training. The significant changes taking place in the UK business are being supported by increased marketing expenditure. In implementing these initiatives the UK business is able to draw on the US division's best practices.

US Performance Review (68% of Group sales)

Details of the US division's performance are set out below:

	2004/05	2003/04 ⁽¹⁾	Change		Like for like change
			Reported	At constant exchange rates ⁽²⁾	
	£m	£m	%	%	%
Sales	1,100.0	1,103.9	-0.4	+10.3	+5.9
Operating profit	147.3	139.3	+5.7	+17.1	
Operating margin	13.4%	12.6%			
ROCE	22.4%	21.3%			

(1) Restated for amendment to FRS 5 by Application Note G Revenue Recognition.

(2) See note 10 for reconciliation.

The operating margin improved on last year, reflecting leverage of like for like sales growth partly offset by the adverse impact of immature store space. Gross margin was maintained at last year's level, as a range of supply chain initiatives and pricing actions counter-balanced

Edgar Filing: SIGNET GROUP PLC - Form 6-K

commodity cost increases. Commodity costs continue to rise and further initiatives are being implemented in the current year to help again offset the impact. The bad debt charge was towards the bottom of the range of the last five years at 2.9% of total sales (2003/04: 2.8%). The proportion of sales through the in-house credit card was 50.1% (2003/04: 49.3%).

Signet Group plc

In the jewellery sector superior customer service and product knowledge are important competitive advantages readily identified by the consumer, and the division now has at least one certified diamondologist in every store. Also during 2004/05 all sales staff were coached using the Ultimate Diamond Presentation training course. Procedures for recruitment were strengthened and staff retention was also improved. The multi-year initiative to enhance store systems saw the introduction of improved repair and special order services.

In mall stores the upper end of the diamond selection was enhanced and the Leo Diamond range was successfully expanded. The gold category was reinvigorated by the development of fashion gold merchandise in conjunction with the World Gold Council. In Jared sales of loose diamonds, the Leo Diamond range, luxury watches such as Rolex, Tag Heuer and Raymond Weil all performed well. Cartier watches will be tested in certain Jared stores in 2005/06. Average unit selling prices in both the mall stores and Jared increased by some 10% reflecting not only consumer movement to higher value merchandise such as the Leo Diamond range, but also the changes in retail prices implemented during the year. The division's competitive advantage obtained by sourcing loose stones for about 55% of diamond merchandise proved to be particularly beneficial during a period of higher rough diamond costs.

Strong marketing programmes again contributed to the sales growth out-performance. Kay television advertising impressions were increased by 11% over the Christmas period and national radio advertising was successfully introduced. Some 90% of Jared stores benefited from television advertising compared with around 75% in the prior year. The annual gross marketing spend amounted to 6.6% of sales (2003/04: 6.5%) and dollar marketing expenditure has doubled over the last five years.

Kay, with turnover of \$1,155.5 million, became the number one speciality jewellery brand by sales during 2004/05 having consistently out-performed its major competitors. Over the last five years the number of Kay stores has increased by almost 200 to a total of 742 and average sales per store have grown to \$1.584 million from \$1.355 million. Brand name recognition has risen very significantly since the introduction of the Every kiss begins with Kay advertising campaign in 2000/01. It is planned to increase Kay's representation in malls by between 20 and 30 new stores in 2005/06. In addition to mall locations, stores under the Kay brand are currently being opened in lifestyle centres and power strip malls. Ten such stores were opened in 2004/05 and a similar number are planned in 2005/06. In the current year it is anticipated that four stores will be trialled in metropolitan areas.

321 mall stores currently trade under strong regional brand names. Sales in the year were over \$450 million, reflecting average sales per store of \$1.533 million. The regional stores could provide the potential to develop a second mall brand of sufficient size to justify the cost of national television advertising. This would require about 550 stores which could be achieved in the medium term by a mixture of store openings and acquisitions. In 2005/06 it is planned that 20 to 30 new stores will be opened under the regional brand names.

Jared now has sales of just over \$400 million and a portfolio of 93 stores, equivalent in space terms to about 400 mall stores. The Jared concept is the primary vehicle for US space growth and in 2004/05 a further 14 stores were opened. The chain is still relatively immature with some 70% of stores not yet having traded for five full years. Excluding the three prototype stores the 25 Jared stores that have reached maturity achieved, in aggregate, the target level of sales and store contribution (set at the time of investment) in their fifth year of trading. During 2005/06 it is intended to increase the number of Jared openings to 15 - 20 per annum, from the 12 - 15 per annum opened in the last six years.

Signet Group plc

The change in store numbers by chain is shown in the following table:

	<u>Total</u>	<u>Kay</u>	<u>Regional</u>	<u>Jared</u>
31 January 2004	1,103	717	307	79
Store openings	68	34	20	14
Store closures	(15)	(9)	(6)	
29 January 2005	1,156	742	321	93

In 2004/05 total fixed and working capital investment in the US business was \$228.3 million (2003/04: \$138.3 million) and new store space increased by a net 8% as planned.

Recent investment in the store portfolio is set out below:

	<u>2004/05</u>	<u>2003/04</u>	<u>2002/03</u>	<u>2001/02</u>	<u>2000/01</u>
Store refurbishments and relocations	76	56	71	91	99
New mall stores	44	47	36	41	40
New off-mall Kay stores	10	10			
New Jared stores	14	12	12	12	15
Store fixed capital investment	\$ 53m	\$ 42m	\$ 38m	\$ 51m	\$ 60m
Store total investment ⁽¹⁾	\$ 140m	\$ 98m	\$ 92m	\$ 96m	\$ 107m

(1) Fixed and working capital investment in new space and refurbishments / relocations.

In 2005/06 net new store space growth of 7% - 9% is planned reflecting the increased rate of Jared store openings, an acceleration in the expansion of stores under regional brand names, the continued growth of Kay stores and the closure of some 15 mall stores. Total US fixed capital expenditure is expected to be some \$90 to \$100 million in 2005/06 (2004/05: \$77.6 million), including the refurbishment or relocation of approximately 90 stores. Total store investment, including working capital, is planned to be some \$155 million in 2005/06.

UK Performance Review (32% of Group sales)

Details of the UK division's performance are set out below:

<u>2004/05</u>	<u>2003/04</u>	<u>Change</u>	<u>Like for like change</u>
----------------	----------------	---------------	-----------------------------

Edgar Filing: SIGNET GROUP PLC - Form 6-K

	<u>£m</u>	<u>£m</u>	<u>%</u>	<u>%</u>
Sales:				
H.Samuel	286.5	285.8	-0.1	+1.9
Ernest Jones	223.4	209.4	+6.7	+4.5
Other	5.5	5.8		
	<u> </u>	<u> </u>		
Total	514.4	501.0	+2.7	+3.0
	<u> </u>	<u> </u>		
Operating profit	78.2⁽¹⁾	76.6	+2.1	
Operating margin	15.2%⁽¹⁾	15.3%		
ROCE	44.7%	47.1%		

⁽¹⁾ After charging a restructuring expense of £1.7 million.

Signet Group plc

The division's gross margin benefited from the effect of the lower dollar exchange rate on dollar denominated commodity costs. The operating margin at 15.2% was little changed after absorbing a restructuring charge of £1.7 million. Like for like sales were up by 1.9% in H.Samuel, while total sales were similar to last year due to nine net store closures and a significant increase in the number of temporary closures for refurbishment. H.Samuel's sales per store increased to £0.723 million (2003/04: £0.707 million). Ernest Jones had another strong performance with like for like sales up 4.5%, total sales increasing by 6.7% and sales per store reaching £1.15 million (2003/04: £1.101 million).

Diamond jewellery assortments were enhanced during the year and continued to perform strongly, accounting for 20% of sales in H.Samuel and 38% in Ernest Jones. The Leo Diamond range was expanded in Ernest Jones and the Forever Diamond selection is now in all H.Samuel stores. White metal jewellery also proved popular. In H.Samuel the fashion watch range was increased whilst the gift and collectibles selection continued to be rationalised. The average selling price in H.Samuel was £37 (2003/04: £35) and in Ernest Jones £141 (2003/04: £139).

The focus on diamonds requires a higher level of customer service and greater product knowledge by the store staff. New training practices continued to be enhanced in 2004/05 involving a weekly programme of centrally prepared material, regular feedback from supervisors and emphasis on measurable outcomes. Particular benefit from improved staff training was gained in the diamond category. During the year a new incentive scheme, which drew on the Group's US experience, was tested and will be expanded further in 2005/06.

Catalogues remain the main marketing tool, with design and distribution being strengthened during the period. The television advertising test was extended during Christmas 2004 with H.Samuel national coverage increasing to about 65% from around 40% in the prior year. Ernest Jones coverage was doubled to some 60%. It is planned to continue the trial in 2005/06. Ernest Jones successfully launched a customer relationship marketing programme during 2004/05. Over the last five years marketing expenditure has increased at an annual compound rate of 20.0% and now represents 3.0% of sales in 2004/05 (2003/04: 2.5%).

In 2004/05 total fixed and working capital investment in the UK business was £36.3 million (2003/04: £27.5 million), a significant increase reflecting the roll-out of the new store format. At the year end, 142 stores, mostly H.Samuel, traded in the new format, accounting for about 30% of the UK division's sales over the Christmas period. There were seven Ernest Jones and two H.Samuel new store openings. 11 H.Samuel stores were closed. At the year end there were 602 stores (398 H.Samuel and 204 Ernest Jones).

Recent investment in the store portfolio is set out below:

	<u>2004/05</u>	<u>2003/04</u>	<u>2002/03</u>	<u>2001/02</u>	<u>2000/01</u>
Store refurbishments and relocations	81	32	42	93	24
New H.Samuel stores	2		4	10	9
New Ernest Jones stores	7	5	8	9	3
Store fixed capital investment	£ 23m	£ 13m	£ 14m	£ 15m	£ 6m

A similar pattern of store investment is planned for 2005/06 with total capital expenditure expected to be some £30 to £35 million in 2005/06 (2004/05: £28.8 million). This reflects the continued roll-out of the new store format with about 90 stores planned to be refurbished or relocated during 2005/06, again predominantly H.Samuel.

Signet Group plc

Group Financial Review

Operating Margin and ROCE

Operating margin (operating profit to sales ratio) was 13.6% (2003/04: 13.1% restated) and ROCE was 26.5% (2003/04: 25.9% restated). Capital employed is based on the average of the monthly balance sheets and at 29 January 2005 included US in-house credit card debtors amounting to £319.0 million (31 January 2004: £292.9 million).

Group Costs

Group central costs amounted to £6.6 million (2003/04: £5.7 million), the increase reflecting costs associated with the new corporate governance standards in both the UK and the US as well as a net property provision of £0.4 million. In 2005/06 a further increase in Group costs is anticipated.

Net Interest Payable

Net interest payable and similar charges amounted to £8.6 million (2003/04: £10.4 million), the reduction being primarily due to exchange translation and an increase in the net interest credit on the UK defined benefit pension scheme.

Taxation

The charge of £69.1 million (2003/04: £70.2 million restated) represents an effective tax rate of 32.9% (2003/04: 35.1%). It is anticipated that the effective tax rate will be approximately 34.0% in 2005/06.

Profit for the Financial Period

Profit for the year increased by 9.0% to £141.2 million (2003/04: £129.6 million restated); at constant exchange rates the increase was 16.0%.

Liquidity and Capital Resources

Edgar Filing: SIGNET GROUP PLC - Form 6-K

Cash generated from operating activities amounted to £172.6 million (2003/04: £203.8 million), reflecting an increase in working capital investment, primarily associated with the new store expansion. It is anticipated that in 2005/06 there will be a further rise in working capital investment due to planned store openings. Net financing costs of £9.8 million (2003/04: £11.0 million) and tax of £56.5 million (2003/04: £69.0 million) were paid. Cash flow before investing activities was £106.3 million (2003/04: £123.8 million).

Group capital expenditure was £70.5 million (2003/04: £50.9 million, £47.7 million at constant exchange rates). The level of capital expenditure was some 1.7 times (2003/04: 1.3 times) the depreciation charge of £41.3 million (2003/04: £39.3 million). Capital expenditure in 2005/06 is expected to be £80 - £90 million, most of which will be store related.

Dividends of £43.8 million (2003/04: £36.7 million) were paid in the year.

Net Debt

Net debt at 29 January 2005 was £83.5 million (31 January 2004: £79.9 million, £73.9 million restated at constant exchange rates). Group gearing at the year end was 11.3% (31 January 2004: 11.8% restated). Excluding the facility secured on the receivables, net cash was £49.3 million (31 January 2004: £58.0 million).

Signet Group plc**Prior Year Adjustment - Extended Service Agreements**

Following an amendment to FRS 5 Reporting the substance of transactions in the form of Application Note G - Revenue Recognition, the Group, after discussions with its auditors, changed its accounting policy to spread the revenue arising from extended service agreements in the US over the anticipated period of claims. Previously the revenue from such agreements was recognised at the date of sale with provision being made for the estimated cost of future claims arising. As a consequence of this change in policy, previously reported 2003/04 results were restated at the time of the interim results announcement in September 2004 and reflected a reduction in profit before tax of £7.2 million, but with no impact on cash flows.

In view of the continuing trend towards conforming interpretation of UK and IAS GAAP methodologies to those of US GAAP, the Group has now decided to further update its accounting policy in respect of US extended service agreements to conform with that of US GAAP. Consequently it reassessed the level of incremental costs set against initial revenues and will now recognise revenues from such agreements in proportion to anticipated claims arising. Therefore the prior year adjustment to 2003/04 now amounts to a restatement in profit before tax of £12.1 million to £199.8 million. The effect on reserves brought forward at 31 January 2004 is a reduction of £52.7 million net of deferred tax, with shareholders funds at that date restated to £674.9 million.

Following the further update in accounting policy, the reduction in the profit before tax for the year 2004/05 is £4.0 million higher than the estimate of £5.8 million indicated at the time of the interim results in September 2004. There is no impact on like for like sales figures or cash flows.

International Financial Reporting Standards (IFRS)

Signet currently prepares its primary financial statements under UK Generally Accepted Accounting Principles (UK GAAP). For financial years commencing on or after 1 January 2005 the Group is required to report in accordance with International Accounting Standards (IAS) and IFRS as adopted by the European Union. Therefore Signet will in future prepare its results under IFRS, commencing with the 13 weeks to 30 April 2005. This announcement will contain comparative information for the year ended 29 January 2005 prepared under IFRS. IFRS may continue to be revised and be subject to new interpretations. Based on current expectations of the standards an overview of the changes from UK GAAP to IFRS for the Signet accounts for the year ended 29 January 2005 is set out below.

Overview of impact in 2004/05

	<u>UK GAAP</u>	<u>IFRS</u>
	<u>£m</u>	<u>£m</u>
Sales	1,614.4	1,606.1
Operating profit	218.9	215.5
Profit on ordinary activities before tax	210.3	203.9
Profit for the financial period	141.2	134.8

Edgar Filing: SIGNET GROUP PLC - Form 6-K

Earnings per share	8.2p	7.8p
Net assets	739.1	769.2

Signet Group plc

The most significant elements contributing to the change in financial information are:

the inclusion of a charge for share-based payments,

the cessation of goodwill amortisation,

the timing of dividend recognition,

the disclosures relating to taxation,

the treatment of leases, and

revenue recognition.

These changes have no impact on the Group's historical or future net cash flow, the timing of cash received or the timing of payments.

Transitional Arrangements

The rules for the first time adoption of IFRS are set out in IFRS 1 *First-time Adoption of International Reporting Standards*. In general, a company is required to determine its IFRS accounting policies and apply these retrospectively to determine its opening balance sheet under IFRS. A number of exceptions from retrospective application are allowed to assist companies as they move to reporting under IFRS. Where Signet has taken advantage of the exemptions they are noted below.

Changes in Accounting Policies

IFRS 2 Share-based Payments

In accordance with IFRS 2, Signet has recognised a charge to income in respect of the fair value of outstanding employee share options. The fair value has been calculated using the binomial options valuation model and is charged to income over the relevant option vesting period. The optional transitional arrangements, which allow companies to apply IFRS 2 fully retrospectively to all options granted but not fully vested at the relevant reporting date, have been used. The operating profit impact in 2004/05 is a charge of £3.9 million.

Edgar Filing: SIGNET GROUP PLC - Form 6-K

IFRS 3 Business Combinations

IFRS 3 requires goodwill to be carried at cost with impairment reviews both annually and when there are indications that the carrying value may not be recoverable. Under the transitional arrangements Signet will apply IFRS 3 prospectively from the transition date. As a result, all prior business combination accounting is frozen at the transition date of 31 January 2004, and the value of goodwill is frozen, subject to exchange rate movements, at £16.8 million with amortization previously reported under UK GAAP for 2004/05 of £1.0 million not charged for IFRS presentation.

IAS 10 Proposed Dividend

Under IAS 10 a dividend is not provided for until it is approved. As a result net assets are increased by the value of the proposed final dividend which is £45.5 million.

IAS 12 Income Tax

The application of IAS 12 requires the separate disclosure of deferred tax assets and liabilities on the Group's balance sheet. Opening balance sheet adjustment will be made to reclassify these assets and liabilities.

IAS 17 Leasing

IAS 17 requires that where operating leases include clauses in respect of predetermined rent increases, those rents are charged to the profit and loss account on a straight line basis over the lease term. Furthermore, any construction period or other rental holidays are

Signet Group plc

included in the determination of the straight-line expense period. Such lease terms are commonly found in the US and will result in an acceleration of lease charges for accounting purposes from the later to the earlier years of the lease term. In addition Standard Interpretations Committee (SIC) 15 requires inducements to enter into a lease to be recognised over the lease term rather than over the period to the next rent review as under UK GAAP.

These will result in an additional charge to the profit and loss account of £3.5 million and a decrease of £17.9 million in net assets before deferred tax. There will be no impact on cash flows.

IAS 18 Revenue Recognition

IAS 18 requires that revenue is only recognised when all significant risks of ownership have been transferred to the buyer. There is no impact on profit before tax for 2004/05 although net assets are reduced by £6.0 million before deferred tax.

There are a number of other presentational changes that do not have an impact on the profit or net assets of the Group. Insurance income and voucher promotions in the US and only the commission element of warranty sales in the UK, will be recognised in sales. Interest receivable relating to US credit card receivables will be classified as other operating income.

IAS 32 and 39 Financial Instruments

The Group has taken the exemption not to restate comparatives for IAS 32 Financial Instruments: Disclosure and Presentation and IAS 39 Financial Instruments: Recognition and Measurement . As a result, the comparative information in the 2005/06 accounts will be presented on the existing UK GAAP basis. IAS 32 and IAS 39 will apply from the start of the financial year ending 28 January 2006. The Group intends to apply the hedge accounting provisions of IAS 39 as they relate to forward currency and commodity contracts to the extent practically and economically appropriate in order to minimise future volatility arising from its implementation.

Reconciliation of UK GAAP sales and profit before tax to IFRS sales and profit before tax for the 52 weeks ended 29 January 2005

The Board of Directors approved this statement of preliminary results on 6 April 2005.

Signet Group plc

There will be an analysts presentation at 2.00 p.m. BST time today (9.00 a.m. EST time). For all interested parties there will be a simultaneous audio webcast plus slides available at www.signetgroupplc.com and a live telephone conference call. The details for the conference call are:

European dial-in: +44 (0) 20 7784 1018
Replay: +44 (0) 20 7984 7578 Pass code: 9614990
US dial-in: +1 718 354 1171
Replay: +1 718 354 1112 Pass code: 9614990

A video webcast of the presentation is expected to be available on the Group web site (www.signetgroupplc.com) from close of business on 6 April 2005.

High resolution photographs are available to the media at www.newscast.co.uk +44 (0) 20 7608 1000.

The next announcement is expected to be that for the first quarter 2005/06 sales figures, which is scheduled for release on 5 May 2005.

This release includes statements which are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements, based upon management's beliefs as well as on assumptions made by and data currently available to management, appear in a number of places throughout this release and include statements regarding, among other things, our results of operation, financial condition, liquidity, prospects, growth, strategies and the industry in which the Group operates. Our use of the words expects, intends, anticipates, estimates, may, forecast, objective, plan or target, and other similar expressions are intended to identify forward-looking statements. These forward-looking statements are not guarantees of future performance and are subject to a number of risks and uncertainties, including but not limited to general economic conditions, the merchandising, pricing and inventory policies followed by the Group, the reputation of the Group, the level of competition in the jewellery sector, the price and availability of diamonds, gold and other precious metals, seasonality of the Group's business and financial market risk.

For a discussion of these and other risks and uncertainties which could cause actual results to differ materially, see the Risk and Other Factors section of the Company's 2003/04 Annual Report on Form 20-F filed with the U.S. Securities and Exchange Commission on April 22, 2004 and other filings made by the Company with the Commission. Actual results may differ materially from those anticipated in such forward-looking statements even if experience or future changes make it clear that any projected results expressed or implied therein may not be realised. The Company undertakes no obligation to update or revise any forward-looking statements to reflect subsequent events or circumstances.

Signet Group plc

Notes

for the 52 weeks ended 29 January 2005

1. Basis of preparation

This financial information has been prepared in accordance with applicable UK accounting standards and under the UK historical cost convention as modified by the revaluation of freehold and long leasehold properties. It is prepared on the basis of the accounting policies as set out in the accounts for the 52 weeks ended 29 January 2005.

2. Segment information

	2005	2004
	£m	£m
Sales by origin and destination⁽¹⁾:		
UK	514.4	501.0
US	1,100.0	1,103.9
	<u>1,614.4</u>	<u>1,604.9</u>
Operating profit⁽¹⁾:		
UK Trading	78.2	76.6
Group central costs ⁽²⁾	(6.6)	(5.7)
	<u>71.6</u>	<u>70.9</u>
US	147.3	139.3
Total	<u>218.9</u>	<u>210.2</u>
	2005	2004
	£m	£m
Net assets⁽¹⁾:		
UK	222.9	209.9
US	599.7	544.9
Net debt	(83.5)	(79.9)
	<u>739.1</u>	<u>674.9</u>

Notes:

The figures for the UK include the United Kingdom, Channel Islands and Republic of Ireland.

The Group's results derive from one business segment – the retailing of jewellery, watches and gifts.

- (1) 2004 restated for the implementation of the amendment to FRS 5, Application Note G – Revenue Recognition (see note 9).
- (2) Group central costs for 2005 include a charge of £0.4 million relating to a property provision.

Signet Group plc

Notes

for the 52 weeks ended 29 January 2005

3. Foreign currency translation

The exchange rates used for translation of US dollar transactions and balances in these accounts are as follows:

	<u>2005</u>	<u>2004</u>
Profit and loss account (average rate)	1.86	1.68
Balance sheet (year end rate)	1.89	1.82

The effect of translation on foreign currency borrowings less deposits in the period was to decrease the Group's net borrowings by £6.4 million (2004: £17.5 million decrease). The net effect of exchange rate movements on foreign currency investments (excluding goodwill) and foreign currency borrowings less deposits in the period was a loss of £19.3 million (2004: £50.5 million loss). This amount has been taken to reserves in accordance with SSAP 20.

4. Taxation

	<u>2005</u>	<u>2004⁽¹⁾</u>
	<u>£m</u>	<u>£m</u>
Taxes on profit:		
UK corporation tax payable	19.8	26.2
US taxes	25.9	36.2
Deferred taxation:		
UK	0.5	0.5
US	22.9	7.3
	69.1	70.2

⁽¹⁾ Restated for the implementation of the amendment to FRS 5, Application Note G Revenue Recognition (see note 9).

5. Dividends

Edgar Filing: SIGNET GROUP PLC - Form 6-K

	<u>2005</u>	<u>2004</u>
	<u>£m</u>	<u>£m</u>
Interim dividend paid of 0.375p per share (2004: 0.341p)	6.5	5.9
Final dividend proposed of 2.625p per share (2004: 2.160p)	45.5	37.3
	52.0	43.2

The interim dividend was paid on 5 November 2004. Subject to shareholder approval, the proposed final dividend is to be paid on 8 July 2005 to those shareholders on the register of members on 10 June 2005.

Under US tax legislation the rate of US federal income tax on dividends received by individual US shareholders from qualified foreign corporations is reduced to 15%. Dividends paid by the Group to individual US holders of shares or ADSs should qualify for this preferential tax treatment. The legislation only applies to individuals subject to US federal income taxes and therefore the tax position of UK shareholders is unaffected. Individual US holders are urged to consult their tax advisers regarding the application of this US legislation to their particular circumstances.

Signet Group plc

Notes

for the 52 weeks ended 29 January 2005

Signet Group plc

Notes

for the 52 weeks ended 29 January 2005

9. Prior year adjustments

Adoption of the amendment to FRS 5 Application Note G Revenue Recognition

The accounting policy in respect of extended service agreements in the US was changed following an amendment to FRS 5 Reporting The Substance of Transactions in the form of Application Note G Revenue Recognition. The Group now spreads the revenue arising from the sale of such agreements in proportion to the anticipated claims arising. Previously the Group recognised the revenue from such plans at the date of sale with provision being made for the estimated cost of future claims arising.

As a result of the change the Group has restated prior years. Therefore the previously reported 2003/04 results now reflect a decrease in sales of £12.3 million and a reduction in profit before tax of £12.1 million. Consequently, restated profit before tax for the 52 weeks ended 31 January 2004 is £199.8 million. The effect on brought forward reserves at 31 January 2004 is a reduction of £52.7 million net of deferred tax, with shareholders funds at 31 January 2004 therefore restated to £674.9 million. There is no impact on cash flow.

Adoption of FRS 17 Retirement Benefits in 2003/04

It was previously the Group's policy, in compliance with SSAP 24, to spread the pension valuation surplus arising under its UK defined benefit pension scheme (the Group Scheme) over the average service life of the employees. In compliance with this standard, a pension scheme prepayment of £19.1 million was included in the balance sheet at 1 February 2003 within debtors falling due after more than one year. An associated deferred tax liability of £5.7 million was also carried on the balance sheet at 1 February 2003.

The adoption of FRS 17 Retirement Benefits led to the write-off of the £19.1 million pension asset previously recognised under SSAP 24 and provision for the deficit of £6.7 million in the Group Scheme as at 1 February 2003. This £6.7 million deficit has been classified as a creditor falling due after more than one year. The £5.7 million deferred tax liability associated with the SSAP 24 pension asset has been written back and a £2.0 million deferred tax asset has been recognised in respect of the deficit provided for under FRS 17 at 1 February 2003. The total net adjustment of £18.1 million arising from the adoption of FRS 17 has been accounted for as a prior year adjustment charged directly to shareholders funds as at 1 February 2003.

Signet Group plc

Notes

for the 52 weeks ended 29 January 2005

10. Impact of constant exchange rates

The Group has historically used constant exchange rates to compare period to period changes in certain financial data. This is referred to as constant exchange rates throughout this release. The Group considers this a useful measure for analysing and explaining changes and trends in the Group's results. The impact of the recalculation of sales, operating profit, profit before tax, earnings per share and net debt at constant exchange rates, including a reconciliation to the Group's GAAP results, is analysed below.

	2005	2004 as restated ⁽¹⁾	Growth at actual exchange rates	Impact of exchange rate movement	2004 at constant exchange rates (non-GAAP)	Growth at constant exchange rates (non-GAAP)
	£m	£m	%	£m	£m	%

11. Accounts

The financial information set out above does not constitute the Company's statutory accounts for the 52 weeks ended 29 January 2005 or the 52 weeks ended 31 January 2004, but is derived from those accounts. Statutory accounts for the 52 weeks ended 31 January 2004 have been delivered to the Registrar of Companies, whereas those for the 52 weeks ended 29 January 2005 will be delivered following the Company's annual general meeting. The auditors have reported under Section 235 of the Companies Act 1985 on those accounts for each of those periods; their reports were unqualified and did not contain a statement under Section 237 (2) or (3) of that Act.

⁽¹⁾ 2004 UK GAAP restated for the implementation of the amendment to FRS 5, Application Note G Revenue Recognition (see note 9).

Signet Group plc**Notes**

for the 52 weeks ended 29 January 2005

12. Reconciliation of UK GAAP to US GAAP (continued)**Prior year adjustments**

The Group has identified two errors in its US GAAP reconciliation relating to revenue recognition attributable to extended service agreements in the US and lease accounting for predetermined rent increases which are commonly found in the US. The US GAAP reconciliation for prior years has been restated as the cumulative effect on shareholders' funds of these changes if taken in 2004/05 would have been material. The impact on retained profit attributable to shareholders, earnings per ADS and shareholders' funds is as follows:

	52 weeks ended
	31 January 2004
	£m
Impact on profit attributable to shareholders	
Retained profit attributable to shareholders in accordance with US GAAP - as previously reported	135.0
Revenue recognition - net of tax	(5.4)
Lease accounting - net of tax	(2.2)
As restated	127.4
Impact on earnings per ADS - basic	
	p
As previously reported	78.6
Effect of restatement	(4.5)
As restated	74.1
Impact on earnings per ADS - diluted	
	p

Edgar Filing: SIGNET GROUP PLC - Form 6-K

Signet Group plc

Notes

for the 52 weeks ended 29 January 2005

12. Reconciliation of UK GAAP to US GAAP (continued)

Revenue recognition

The Group has corrected its accounting policy to spread the revenue arising from extended service agreements in the US in proportion to anticipated claims arising. Previously the revenue from such agreements was recognised immediately on a proportion of contracts where analysis of past experience showed no claim or cost arose, and deferred the balance of revenue over the estimated period of future claims. As a consequence of this change and the change in accounting policy for UK GAAP (see note 9), the previously reported 2003/04 US GAAP adjustment is restated as follows:

	52 weeks ended
	31 January 2004
	£m
UK GAAP prior period adjustment	(12.1)
US GAAP adjustment as previously reported	3.5
	(8.6)
Tax	3.2
US GAAP prior period adjustment	(5.4)
Impact on profit and loss account US GAAP differences	
	£m
As previously reported before tax	(3.5)
Adjustment required before tax	3.5
As restated before tax	

Edgar Filing: SIGNET GROUP PLC - Form 6-K

The policies applied under UK and US GAAP are now consistent and no future GAAP differences are expected to arise. There is no impact on cash flow.

Lease accounting

Following the letter by the Securities and Exchange Commission of 7 February 2005 to the American Institute of Certified Public Accountants, the Group has reviewed its lease accounting policy and corrected it for predetermined rent increases and any construction period or other rental holidays. For operating leases that include clauses in respect of predetermined rent increases, it is required that those rents are charged to the profit and loss account on a straight line basis over the lease term. Also inducements to enter into a lease are required to be recognised over the lease term. Previously, predetermined lease increases were recognised when they fell due and lease inducements were recognised over the period to the next rent review. As a result, the previously reported 2003/04 US GAAP adjustment is restated to reflect a reduction in US GAAP retained earnings attributable to shareholders of £2.2 million (£3.5 million before tax). There is no impact on cash flow.

	52 weeks ended
Impact on profit and loss account US GAAP differences	31 January 2004
	£m
As previously reported before tax	
Adjustment required before tax	(3.5)
As restated before tax	(3.5)
