Notes to Condensed Consolidated Financial Statements

Note 1 - Basis of Presentation

The accompanying financial statements have been prepared in accordance with the requirements for interim financial statements and, accordingly, they are condensed and omit certain disclosures, which would appear in audited annual financial statements. The financial statements as of March 31, 2005 and for the interim periods ended March 31, 2005 and 2004 are unaudited and, in the opinion of management, include all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation. The financial information as of December 31, 2004 has been derived from the audited financial statements as of that date. For further information, refer to the financial statements and the notes included in First Reliance Bancshares, Inc.'s 2004 audited financial statements in Form 10-KSB.

Note 2 - Recently Issued Accounting Pronouncements

The following is a summary of recent authoritative pronouncements that affect accounting, reporting, and disclosure of financial information by the Company:

In December 2004, the FASB issued SFAS No. 123 (revised 2004), *Share-Based Payment* (SFAS No. 123(R)). SFAS No. 123(R) will require companies to measure all employee stock-based compensation awards using a fair value method and record such expense in its financial statements. In addition, the adoption of SFAS No. 123(R) requires additional accounting and disclosure related to the income tax and cash flow effects resulting from share-based payment arrangements. SFAS No. 123(R) is effective beginning as of the first annual reporting period beginning after December 15, 2005. The Company is currently evaluating the impact that the adoption of SFAS No. 123(R) will have on its financial position, results of operations and cash flows.

In April 2005, the Securities and Exchange Commission's Office of the Chief Accountant and its Division of Corporation Finance has released Staff Accounting Bulletin (SAB) No. 107 to provide guidance regarding the application of FASB Statement No. 123 (revised 2004), *Share-Based Payment*. Statement No. 123(R) covers a wide range of share-based compensation arrangements including share options, restricted share plans, performance-based awards, share appreciation rights, and employee share purchase plans. SAB 107 provides interpretive guidance related to the interaction between Statement No. 123R and certain SEC rules and regulations, as well as the staff's views regarding the valuation of share-based payment arrangements for public companies. SAB 107 also reminds public companies of the importance of including disclosures within filings made with the SEC relating to the accounting for share-based payment transactions, particularly during the transition to Statement No. 123R.

In December 2003, the FASB issued FIN No. 46 (revised), *Consolidation of Variable Interest Entities* (FIN No. 46(R)), which addresses consolidation by business enterprises of variable interest entities. FIN No. 46(R) requires a variable interest entity to be consolidated by a company if that company is subject to a majority of the risk of loss from the variable interest entity's activities or entitled to receive a majority of the entity's residual returns, or both. FIN No. 46(R) also requires disclosures about variable interest entities that a company is not required to consolidate, but in which it has a significant variable interest. FIN No. 46(R) provides guidance for determining whether an entity qualifies as a variable interest entity by considering, among other considerations, whether the entity lacks sufficient equity or its equity holders lack adequate decision-making ability. The consolidation requirements of FIN No. 46(R) applied immediately to variable interest entities created after January

Edgar Filing: FIRST RELIANCE BANCSHARES INC - Form 10QSB

31, 2003. The consolidation requirements applied to the Company's existing variable interest entities in the first reporting period ending after December 15, 2004. Certain of the disclosure requirements applied to all financial statements issued after December 31, 2003, regardless of when the variable interest entity was established. The adoption of FIN No. 46(R) did not have any impact on the Company's financial position or results of operations.

Table of Contents**FIRST RELIANCE BANCSHARES, INC.****Notes to Condensed Consolidated Financial Statements****Note 2 - Recently Issued Accounting Pronouncements**, *continued*

In November 2003, the Emerging Issues Task Force (EITF) reached a consensus that certain quantitative and qualitative disclosures should be required for debt and marketable equity securities classified as available for sale or held to maturity under SFAS No. 115 and SFAS No. 124 that are impaired at the balance sheet date but for which other-than-temporary impairment has not been recognized. Accordingly the EITF issued EITF No. 03-1, *The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments*. This issue addresses the meaning of other-than-temporary impairment and its application to investments classified as either available for sale or held to maturity under SFAS No. 115 and provides guidance on quantitative and qualitative disclosures. The disclosure requirements of EITF No. 03-1 are effective for annual financial statements for fiscal years ending after June 15, 2004. The effective date for the measurement and recognition guidance of EITF No. 03-1 has been delayed. The FASB staff has issued a proposed Board-directed FASB Staff Position (FSP), FSP EITF 03-1-a, *Implementation Guidance for the Application of Paragraph 16 of Issue No. 03-1*. The proposed FSP would provide implementation guidance with respect to debt securities that are impaired solely due to interest rates and/or sector spreads and analyzed for other-than-temporary impairment under the measurement and recognition requirements of EITF No. 03-1. The delay of the effective date for the measurement and recognition requirements of EITF No. 03-1 will be superseded concurrent with the final issuance of FSP EITF 03-1-a. Adopting the disclosure provisions of EITF No. 03-1 did not have any impact on the Company's financial position or results of operations.

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on the consolidated financial statements upon adoption.

Note 3 - Stock-Based Compensation

The Company has a stock-based employee compensation plan which is accounted for under the recognition and measurement principles of Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees*, and related Interpretations. No stock-based employee compensation cost is reflected in net income, as all stock options granted under these plans had an exercise price equal to the market value of the underlying common stock on the date of grant. The following table illustrates the effect on net income and earnings per share as if we had applied the fair value recognition provisions of Financial Accounting Standards Board (FASB) SFAS No. 123, *Accounting for Stock-Based Compensation*, to stock-based employee compensation.

The following discussion of financial condition as of March 31, 2005 compared to December 31, 2004, and the results of operations for the three months ended March 31, 2005 compared to the three months ended March 31, 2004 should be read in conjunction with the condensed financial statements and accompanying footnotes appearing in this report.

Advisory Note Regarding Forward-Looking Statements

The statements contained in this report on Form 10-QSB that are not historical facts are forward-looking statements subject to the safe harbor created by the Private Securities Litigation Reform Act of 1995. We caution readers of this report that such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of us to be materially different from those expressed or implied by such forward-looking statements. Although we believe that our expectations of future performance is based on reasonable assumptions within the bounds of our knowledge of our business and operations, there can be no assurance that actual results will not differ materially from our expectations.

Factors which could cause actual results to differ from expectations include, among other things:

the challenges, costs and complications associated with the continued development of our branches;

the potential that loan charge-offs may exceed the allowance for loan losses or that such allowance will be increased as a result of factors beyond the control of us;

our dependence on senior management;

Critical Accounting Policies

We have adopted various accounting policies which govern the application of accounting principles generally accepted in the United States in the preparation of our financial statements. Our significant accounting policies are described in the notes to the consolidated financial statements at December 31, 2004 as filed on our annual report on Form 10-KSB. Certain accounting policies involve significant judgments and assumptions by us which have a material impact on the carrying value of certain assets and liabilities. We consider these accounting policies to be critical accounting policies. The judgments and assumptions we use are based on the historical experience and other factors, which we believe to be reasonable under the circumstances. Because of the nature of the judgments and assumptions we make, actual results could differ from these judgments and estimates which could have a major impact on our carrying values of assets and liabilities and our results of operations.

We believe the allowance for loan losses is a critical accounting policy that requires the most significant judgments and estimates used in preparation of our consolidated financial statements. Refer to the portion of this discussion that addresses our allowance for loan losses for description of our processes and methodology for determining our allowance for loan losses.

Regulatory Matters

We are not aware of any current recommendations by regulatory authorities which, if they were to be implemented, would have a material effect on liquidity, capital resources or operations.

Results of Operations

Net Interest Income

For the three months ended March 31, 2005, net interest income was \$3,040,508, which is an increase of \$1,165,799, or 62.19%, over the same period in 2004. Interest income from loans, including fees, increased \$1,949,105, or 82.71%, from the three months ended March 31, 2004 to the comparable period in 2005 and is primarily due to an increase in our loan portfolio. Interest expense for the three months ended March 31, 2005 was \$1,592,462 compared to \$774,843 for the same period in 2004. The increase is primarily attributable to an increase in interest-bearing deposits. The net interest margin realized on earning assets was 4.17% for the three months ended March 31, 2005, as compared to 4.13% for the three months ended March 31, 2004. The interest rate spread was 3.84% for the three months ended March 31, 2005 as compared to 3.71% for the three months ended March 31, 2004. The margin and spread increases were due to the increase in rates on interest earning assets outpacing the increase in rates on interest paying liabilities.

Provision and Allowance for Loan Losses

Edgar Filing: FIRST RELIANCE BANCSHARES INC - Form 10QSB

The provision for loan losses is the charge to operating earnings that we feel is necessary to maintain the allowance for loan losses at an adequate level. For the three months ended March 31, 2005, the provision for loan losses was \$172,552. For the three months ended March 31, 2004, the provision for loan losses was \$109,928. Based on present information, we believe the allowance for loan losses was adequate at March 31, 2005 to meet presently known and inherent risks in the loan portfolio. The allowance for loan losses was 1.07% and 1.18% of total loans at March 31, 2005 and 2004, respectively. There are risks inherent in making all loans, including risks with respect to the period of time over which loans may be repaid, risks resulting from changes in economic and industry conditions, risks inherent in dealing with individual borrowers, and, in the case of a collateralized loan, risks resulting from uncertainties about the future value of the collateral. We maintain an allowance for loan losses based on, among other things, historical experience, an evaluation of economic conditions, and regular reviews of delinquencies and loan portfolio quality. The allowance is based upon a number of assumptions about future events, which management believes to be reasonable, but which may not prove to be accurate. Thus, there is a risk that charge-offs in future periods could exceed the allowance for loan losses or that substantial additional increases in the allowance for loan losses could be required. Additions to the allowance for loan losses would result in a decrease in net income and, possibly, in capital.

Noninterest Income

Noninterest income during the three months ended March 31, 2005 was \$605,510, an increase of \$114,568, or 23.34%, from the comparable period in 2004. The increase is primarily a result of an increase in service charges on deposit accounts from \$248,387 for the three months ended March 31, 2004 to \$328,605 for the three months ended March 31, 2005. Residential mortgage origination fees increased \$53,769, or 54.31%, to \$152,774 for the three months ended March 31, 2005, as compared to the same period in 2004. This was the result of increased deposits between the two periods.

Noninterest Expense

Total noninterest expense for the three months ended March 31, 2005 was \$2,914,958, or 62.37% over the three months ended March 31, 2004. The primary reason was the \$634,484 increase in salaries and employee benefits over the two periods as we continued to hire employees as we expand into the Charleston, South Carolina market. In addition, furniture and equipment expense increased \$30,730, or 21.42%, for the three months ending March 31, 2005 as compared to the three months ending March 31, 2004. This increase is also primarily a result of additional expenses associated with the growth of the Bank through its expansion into the Charleston market. We opened a new branch in Charleston on March 15, 2005.

Income Taxes

The income tax provision for the three months ended March 31, 2005 and for the three months ended March 31, 2004 was \$172,909 and \$139,247, respectively. The provision was based on an effective tax rate of 31% and 30% for the three months ended March 31, 2005 and for the three months ended March 31, 2004, respectively.

Net Income

The combination of the above factors resulted in net income, after income tax provisions, for the three months ended March 31, 2005 and for the three months ended March 31, 2004 of \$385,599 and \$321,174, respectively. Net income before taxes for the two periods was \$558,508 and \$460,421, respectively. The net income results for both periods are primarily due to significant increases in loan volume during each respective period.

Assets and Liabilities

Edgar Filing: FIRST RELIANCE BANCSHARES INC - Form 10QSB

During the first three months of 2005, total assets increased \$47,599,976, or 16.70%, when compared to December 31, 2004. The primary source of growth in assets was the increase in loans receivable. Net loans increased by \$37,123,491, or 15.76%, during the first three months of 2005, from \$235,603,867 at December 31, 2004 to \$272,727,808 at March 31, 2005. Total deposits increased \$35,588,528, or 15.78%, over total deposits at December 31, 2004 to \$261,082,355 at March 31, 2005. The largest increase in deposits was in savings accounts, which increased \$18,253,716, or 39.43%, to \$64,522,914 at March 31, 2005. The primary reasons for increases in our net loans and deposits are provided below.

Investment Securities

Investment securities classified as available for sale totaled \$28,142,501 at March 31, 2005. This total represents a decrease of \$425,165, or 1.49%, since December 31, 2004. We also purchased an additional \$754,900 of Federal Home Loan Bank stock during the quarter that brought the balance of nonmarketable equity securities to \$2,469,600 at March 31, 2005.

Table of Contents**FIRST RELIANCE BANCSHARES, INC.****Loans**

Net loans increased \$37,123,941, or 15.76%, during the three months ended March 31, 2005. The primary reason for the significant growth is a result of our ability to compete favorably with other financial institutions in our market areas. Balances within the major loans receivable categories as of March 31, 2005 and December 31, 2004 are as follows:

Liquidity

Liquidity needs are met through scheduled maturities of loans and investments on the asset side and through pricing policies on the liability side for interest-bearing deposit accounts and advances from the Federal Home Loan Bank. The level of liquidity is measured by the loan-to-total funds ratio, which was at 102% at March 31, 2005 and 104% at December 31, 2004.

Securities available-for-sale, which totaled \$28,142,501 at March 31, 2005, serve as a ready source of liquidity. We also have lines of credit available with correspondent banks to purchase federal funds for periods from one to fourteen days. At March 31, 2005, unused lines of credit totaled \$29,490,226. Based on qualifying collateral reports filed on a quarterly basis with the Federal Home Loan Bank, we also have a line of credit to borrow funds from the Federal Home Loan Bank up to \$66,472,713 as of March 31, 2005. As of March 31, 2005, we had borrowed \$39,000,000 on this line.

Table of Contents**FIRST RELIANCE BANCSHARES, INC.**Capital Resources

Total shareholders' equity increased \$251,300 from December 31, 2004 to \$27,609,949 at March 31, 2005. The main reason for this increase was net income generated by the Bank's operations, which totaled \$385,599 for the three months ended March 31, 2005.

We are subject to various regulatory capital requirements administered by the federal banking agencies. Quantitative measures established by regulation to ensure capital adequacy require us to maintain minimum ratios of Tier 1 and total capital as a percentage of assets and off-balance-sheet exposures, adjusted for risk weights ranging from 0% to 100%. Our Tier 1 capital consists of common stockholders' equity, excluding the unrealized gain or loss on securities available-for-sale, minus certain intangible assets. Our Tier 2 capital consists of the allowance for loan losses subject to certain limitations. Total capital for purposes of computing the capital ratios consists of the sum of Tier 1 and Tier 2 capital. The regulatory minimum requirements are 4% for Tier 1 and 8% for total risk-based capital.

We are also required to maintain capital at a minimum level based on adjusted quarterly average assets, which is known as the leverage ratio. Only the strongest banks are allowed to maintain capital at the minimum requirement of 3%. All others are subject to maintaining ratios 1% to 2% above the minimum.

The following summarizes the Company and Bank's risk-based capital at March 31, 2005:

	<u>Company</u>	<u>Bank</u>

Through its operations, the Bank has made contractual commitments to extend credit in the ordinary course of its business activities. These commitments are legally binding agreements to lend money to the Bank's customers at predetermined interest rates for a specified period of time. At March 31, 2005 the Bank had issued commitments to extend credit of \$34,657,185 and standby letters of credit of \$810,739 through various types of commercial lending arrangements. Approximately \$30,231,068 of these commitments to extend credit had variable rates.

The following table sets forth the length of time until maturity for unused commitments to extend credit and standby letters of credit at March 31, 2005:

	After One		After Three		Greater Than		Total
	Through	Through	Through	Through	Through	Through	
	Month	Months	Months	Year	One Year		
<i>(Dollars in thousands)</i>							
Unused commitments to extend credit	\$ 1,975	\$ 1,506	\$ 12,723	\$ 16,204	\$ 18,453	\$ 34,657	
Standby letters of credit	92	92	519	703	108	811	
Totals	\$ 2,067	\$ 1,598	\$ 13,242	\$ 16,907	\$ 18,561	\$ 35,468	

The Bank evaluates each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Bank upon extension of credit, is based on its credit evaluation of the borrower. Collateral varies but may include accounts receivable, inventory, property, plant and equipment, commercial and residential real estate.

Item 3. Controls and Procedures

As of the end of the period covered by this report, our management, including our Chief Executive Officer and Chief Financial Officer, reviewed and evaluated the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Exchange Act Rule 13a-15. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective in timely alerting them to material information relating to the Company (including its consolidated subsidiary) that is required to be included in our periodic filings with the Securities and Exchange Commission. There have been no changes in the Company's internal control over financial reporting during the three-months ended March 31, 2005 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
