CHAIRMAN'S STATEMENT

Dear Shareholders,

China's tremendous economic growth continues to be the envy of the world. Its need for telecommunications services has also continued to grow rapidly.

This is excellent news for the Group. During the first six months of 2007 our business has made steady progress, benefiting from a sound competitive environment, a superior network, strong brand recognition, economies of scale and effective management.

The Group recorded an excellent half-year financial performance. This has reinforced our solid financial structure and helped us maintain favorable profitability for our shareholders.

Financial Results

The Group's operating revenue in the first half of 2007 grew substantially to reach RMB166,580 million, representing an increase of 21.6 per cent. over the same period last year.

EBITDA and profit attributable to shareholders reached RMB89,814 million and RMB37,907 million respectively, representing an increase of 14.6 per cent. and 25.7 per cent. over the same period last year. EBITDA margin and margin of profit attributable to

shareholders were maintained at high levels among the peers of 53.9 per cent. and 22.8 per cent. respectively. Basic earnings per share reached RMB1.90, representing an increase of 25.0 per cent. compared with the same period last year.

Revenue from our value-added business continued to grow rapidly in the first six months of the year, reaching RMB41,915 million. This is 35.5 per cent. higher than the figure for the same period last year. In fact, today the value-added business accounts for 25.2 per cent. of the Group's total operating revenue, representing 2.6 percentage points higher than the same period of last year. At the same time, the continuous innovation of value-added products has laid a solid foundation for optimizing revenue structure, which also serves to drive the continuous revenue growth.

Business Development

The first half of the year saw many encouraging developments. There was remarkable growth in the number of new customers, new business (value-added business) and new voice usage, which remain the driving force of our growth.

Our subscriber base continued to grow. As at 30 June 2007, the total number of subscribers had reached 332.378 million, representing a net increase of 31.146 million and an average monthly net addition of over five million.

Our value-added business also saw strong growth and it is now making an even greater contribution to our revenue. At the same time, careful adjustment of our pricing structure has helped to push voice traffic upwards and optimized the composition of voice usage, increasing the average minutes of usage per user per month (MOU) as well as total revenue. As at 30 June 2007, the total voice usage volume reached 828.815 billion minutes and MOU hit 440 minutes a month while average revenue per user per month (ARPU) was RMB88.

In 2007, the Group strengthened its continuous efforts in developing the rural market and driving the informationalization of those regions with our extended sales and services channels, strong brand recognition, superior network and large-scale integrated sales programs which enhanced the utilization of resources. In the first half of 2007, newly acquired customers from the rural areas represented half of all newly acquired customers.

Our Agricultural Information Service which provides rural customers with practical and real-time information via SMS, voice and the internet has gained popularity and in turn brought about further subscriber growth, aided retention of existing customers and boosted the usage of data services.

Looking at the value-added sector of the business, the first half of 2007 showed a strong performance in a number of areas, with the fast-growing Color Ring, WAP and MMS businesses becoming major revenue sources. Overall, the value-added business contributed 25.2 per cent. of total operating revenue.

The mobile music business has also grown significantly, with membership of the Mobile Music Club reaching 48 million. Our Mobile Paper news and information services also enjoyed robust growth and the number of paying subscribers rose to 15 million. The launch of Fetion, our instant messaging service, was well received and it now has approximately 38 million registered users.

These new products and services have become the engine for driving momentum and continuous revenue growth. Accordingly we intend to continue providing innovative value-added services based on a carefully defined strategic plan and build a good product development structure for the future.

We have also continued to enhance brand awareness, emphasize brand differentiation and enrich brand association. Through enhanced services tailored for targeted customer groups, the Company has strengthened overall brand management. Leveraging a clearer structure with three consumer brands – GoTone, M-zone and Shenzhouxing, the influence of these consumer brands is widening and our corporate brand value is growing significantly with it.

In addition, during 2007 we further improved our customer services with the implementation of a customer services management system. We also launched the Sincere Services Satisfactory 100 program to improve customer service quality and enhance customer loyalty. At the same time, the Company strengthened its channel management and enhanced its sales services capability. We have leveraged different focuses including music and the Olympics to deploy innovative marketing campaigns which are in turn raising our market performance.

Naturally, as Chairman of China Mobile, I am proud of the fact that we are not only a premium brand, but also boast the world's largest mobile network and largest mobile subscriber base. In 2007, we responded to increases in peak-time voice traffic volume by carrying out network optimization using innovative management solutions and new technologies. These efforts are proving to be effective and we have been able to accommodate peak-time voice volume and at the same time raise utilization of network resources. Today, with granular network management and steady network operation benchmarks, our network population coverage has exceeded 97 per cent. in China. Our wireless connection rate is also world-class at 99.3 per cent.

Our global roaming coverage has also been expanding. As of the end of June 2007, our GSM global roaming services covered 224 countries and regions through 313 operators and our GPRS roaming services covered 148 countries and regions around the world.

Preparing for the Olympics

Closer to home, China Mobile is the sole mobile telecommunications services partner for the 2008 Beijing Olympics. We intend to support this global sporting event in the true Olympic spirit of being the best. It will also offer a chance to enhance our corporate image and brand reputation. Accordingly, we have defined an Olympics strategy and established working groups. In the first half of 2007, the network implementation for the Olympic Games venues was on schedule and we have created three Olympic product lines targeting individual customers, the Beijing Organizing Committee for the Olympic Games, as well as corporate customers, and launched our first Olympic product. We will do our best to fulfill our commitment of providing the most advanced technology, the most abundant business and the most considerate service for the Beijing 2008 Olympic Games.

Management of the Company

I am convinced that the strong performance we are seeing is due in part to the quality of our management. As a Group we are committed to developing and continuously improving this important resource.

In 2007, we carried out refinements designed to optimize our operational management systems. One example is the further implementation of the One China Mobile project which established a computerized central management system with standard operating procedures. The Group has also unified and strengthened the management of its subsidiaries.

Of course, management must also be accountable for its decisions and China Mobile is committed to setting high benchmarks for corporate governance with the establishment of a comprehensive internal control and risk management system. The Company has further enhanced and standardized its internal control framework to ensure the effectiveness of our compliance measures.

The independent auditor expressed an unqualified opinion on management's assessment of, and the effective operation of, the Company's internal control over financial reporting under Section 404 of the Sarbanes-Oxley Act as of 31 December 2006.

The results of these initiatives have already been publicly recognized. In 2007, the Company was ranked 16th in the FT Global 500 by the *Financial Times* which a year earlier had ranked us only 38th. We were also placed 10th in the *BusinessWeek* global Info Tech 100 companies listing for 2007, the sixth year in a row China Mobile has been included. We were also ranked 5th in the *Financial Times* Brandz Top 100, the second time we have been included in this ranking. We were ranked No. 1 in the China division of *FinanceAsia's* Asia's Best Companies survey in the Best Management, Best Corporate Governance, Best Investor Relations and Best Commitment to Strong Dividend categories. For the third year in a row, we were voted No. 1 in the Universum Graduate Survey for Ideal Employer in China.

In July 2007, the credit rating agencies Moody's and Standard & Poor's upgraded our rating to A1/Stable Outlook and A/Positive Outlook respectively.

Corporate Responsibility

Corporate responsibility (CR) is one of China Mobile's core values. Our philosophy of Responsibility makes Perfection is built on the belief that CR is something that not only delivers benefits to the community, but in the long run makes for a better company.

In addition to the establishment of a corporate responsibility management structure, the first half of 2007 also saw the formulation of a work plan for 2007-to-2009 based on our first Corporate Responsibility Report. The work plan will help us continue the effective and consistent implementation of corporate responsibility management initiatives.

The theme of our corporate responsibility program in 2007 is Harmony and Growth. In simple terms this means balancing the goal of corporate growth against the desire to help communities develop while also preserving the natural environment. With this objective in mind, we have made great strides in promoting informationalization in rural areas, caring for the poor, actively participating in disaster relief as well as encouraging education and helping communities grow. And I am convinced we are making a difference in people's lives.

Examples include helping our parent company to implement the Village-Connected Project to eliminate the digital divide. We also continued endowment projects for primary and secondary education in less developed areas in central and western China. And, last but not least, we expanded the Green Box Environment Protection handset and accessory recycle program.

Dividends

China Mobile holds the interests and the return on investment of its shareholders, particularly its minority shareholders, in the highest regard.

After reviewing the favorable operating results in the first half of 2007 as well as long-term development plans, the Board has resolved to pay an ordinary interim dividend of HK\$0.837 per share for 2007 in accordance with the 2007 dividend payout ratio plan.

In addition, whilst the interim profit and dividend per share continue to grow favorably, the Board is recommending the payment of a special dividend for 2007 to accommodate the effect of the revision of assets' estimated useful lives on profit attributable to shareholders. The special interim dividend for 2007 is HK\$0.085 per share.

The Board and I are convinced that the Company's strong cash flow is capable of supporting the investments required to maintain strong and stable growth, while also providing shareholders with a favorable cash return. To that end, the Company will continue its efforts to steadily increase dividend yield in the long term in order to generate the best possible returns for shareholders.

The Future

The combination of continued rapid growth in China's economy, rising consumer purchasing power, the development of the rural economy and the acceleration of informationalization throughout the country make one thing clear—the future of China Mobile looks bright.

Demand for mobile communications in China is tremendous and growing fast. Technical advances are driving moves toward convergence, which in turn creates challenges in the adoption of new technologies and new business concepts.

China Mobile is well placed to meet these challenges and maintain its leading position, further optimizing our competitive edge, enhancing management, developing talent and cultivating our established corporate culture. Today, we are adept at leveraging our innovations to face changes in the business environment and reinforcing our strategic positioning as the Mobile Information Expert.

In the second half of 2007, we will continue to focus on exploring rural markets, expanding value-added services and optimizing our network to provide strong support for future growth.

As a Group, we seek a sound, balanced and sustainable development. We intend to enhance our overall strengths in areas such as corporate culture, brand awareness, and corporate responsibilities. These are important initiatives that will in turn increase the Group's public position, influence the industry and maintain a favorable, sustainable business environment.

The Group is already preparing for the future, readying ourselves for the introduction of the new generation of mobile telecommunications networks. We are also closely monitoring new business models and product innovations in order to find ways of maintaining momentum.

However, fundamentally, our focus remains unchanged to maintain a solid, long-term business foundation with the goal of creating better returns for our investors.

NOTES ON THE UNAUDITED INTERIM FINANCIAL REPORT

(Expressed in Renminbi)

1. BASIS OF PREPARATION

The interim financial report of China Mobile Limited (the Company) and its subsidiaries (collectively known as the Group) has been prepared in accordance with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the Hong Kong Listing Rules), including compliance with the Hong Kong Accounting Standard (HKAS) 34, Interim financial reporting, issued by the Hong Kong Institute of Certified Public Accountants (HKICPA). It was authorized for issuance on 16 August 2007.

The preparation of an interim financial report in conformity with HKAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year-to-date basis. Actual results may differ from these estimates.

The interim financial report contains condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2006 annual financial statements. The condensed consolidated interim financial statements and notes thereon do not include all of the information required for full set of financial statements prepared in accordance with Hong Kong Financial Reporting Standards (HKFRSs).

The interim financial report is unaudited, but has been reviewed by the Company's Audit Committee and the Company's auditors, KPMG, in accordance with Hong Kong Standard on Review Engagements 2410 Review of interim financial information performed by the independent auditor of the entity issued by the HKICPA. KPMG's unmodified independent review report to the board of directors is included in the interim report to be sent to shareholders.

The unaudited consolidated financial information of the Group for the six months ended 30 June 2007 includes the financial information of the Company, the mobile telecommunications subsidiaries in each of the thirty-one provinces, autonomous regions and municipalities in the People's Republic of China (the PRC), China Mobile Peoples Telephone Company Limited (Peoples Telephone) in Hong Kong and other subsidiaries including China Mobile Communication Company Limited, China Mobile Holding Company Limited, China Mobile (Shenzhen) Limited, Aspire Holdings Limited and its subsidiaries, China Mobile Group Design Institute Co., Ltd (formerly Beijing P&T Consulting and Design Institute Company Limited) and its subsidiaries, Advanced Roaming & Clearing House Limited and Fit Best Limited for the six months ended 30 June 2007.

The unaudited consolidated financial information of the Group for the six months ended 30 June 2006 includes the financial information of the Company, the mobile telecommunications subsidiaries in each of the thirty-one provinces, autonomous regions and municipalities in the PRC and other subsidiaries including China Mobile Communication Company Limited, China Mobile Holding Company Limited, China Mobile (Shenzhen) Limited, Aspire Holdings Limited and its subsidiaries, Beijing P&T Consulting and Design Institute Company Limited, Advanced Roaming & Clearing House Limited and Fit Best Limited for the six months ended 30 June 2006, and the post-acquisition results of Peoples Telephone for the period from 5 January 2006 (date of acquisition) to 30 June 2006.

The financial information relating to the financial year ended 31 December 2006 that is included in the interim financial report as being previously reported information does not constitute the Company's statutory financial statements for that financial year but is derived from those financial statements. Statutory financial statements for the year ended 31 December 2006 are available from the Company's registered office. The auditors have expressed an unqualified opinion on those financial statements in their report dated 21 March 2007.

2. SIGNIFICANT ACCOUNTING POLICIES

The interim financial report has been prepared in accordance with the same accounting policies adopted in the 2006 annual financial statements.

The HKICPA has issued a number of amendments, new and revised HKFRSs, which term collectively included HKASs and Interpretations, that are first effective or available for early adoption for accounting periods beginning on or after 1 January 2007. Management has determined the accounting policies expected to be adopted in the preparation of the Group's annual financial statements for the year ending 31 December 2007 on the basis of HKFRSs currently in issue, which management believes, do not have a significant impact on the Group's prior year financial position and results of operations.

The new and revised HKFRSs that will be effective or are available for voluntary early adoption in the annual financial statements for the year ending 31 December 2007 may be affected by the issue of additional interpretation(s) or other changes announced by the HKICPA subsequent to the date of this interim financial report. Therefore the policies that will be applied in the Group's financial statements for that period cannot be determined with certainty at the date of issuance of the interim financial report. The Group has not applied any new standards or interpretations that are not yet effective for the current accounting period (see Note 20).

3. SEGMENT REPORTING

No analysis of the Group's turnover and contribution to profit from operations by geographical segment or business segment has been presented as the majority of the Group's operating activities are carried out in Mainland China and less than 10 per cent. of the Group's turnover and contribution to profit from operations were derived from activities outside Mainland China or outside the Group's mobile telecommunications and related services activities. There is no other geographical or business segment with segment assets equal to or greater than 10 per cent. of the Group's total assets.

4. TURNOVER

Turnover represents usage fees, monthly fees, value-added services fees and other operating revenue derived from the Group's mobile telecommunications networks, net of PRC business tax. Business tax is charged at approximately 3 per cent. of the corresponding revenue. No business tax is charged on the revenue generated from the Group's mobile telecommunications and related services in Hong Kong.

Value-added services fees are mainly derived from voice value-added services, short message services (SMS) and non-SMS data business.

Other operating revenue mainly represents interconnection revenue.

No provision for Hong Kong profits tax has been made for the period ended 30 June 2006 as there were no estimated Hong Kong assessable profits during the period.
- (ii) The provision for the PRC enterprise income tax is based on a statutory rate of 33 per cent. of the assessable profit of the Group as determined in accordance with the relevant income tax rules and regulations of the PRC for the six months ended 30 June 2007 and 2006, except for certain subsidiaries of the Company or certain operations of the subsidiaries located within special economic zones in the PRC, which enjoy a preferential rate of 30 per cent. or 15 per cent. respectively.
- (iii) Pursuant to the PRC enterprise income tax law passed by the Tenth National People's Congress on 16 March 2007, the new enterprise income tax rates for domestic and foreign enterprises are unified at 25 per cent. and will be effective from 1 January 2008. For certain subsidiaries which currently applied for statutory tax rate of 33 per cent., deferred tax is

recognized based on the tax rate that are expected to apply to the period when the asset is realized or the liability is settled. For other subsidiaries which currently applied for preferential rate, deferred tax is recognized based on the current tax rate since the implementation measure on transitional policy of preferential tax rate granted under current tax law and administrative regulations was not yet announced.

8. EARNINGS PER SHARE**(a) Basic earnings per share**

The calculation of basic earnings per share for the six months ended 30 June 2007 is based on the profit attributable to equity shareholders of the Company of RMB37,907,000,000 (2006: RMB30,168,000,000) and the weighted average number of 19,993,715,033 shares (2006: 19,861,342,150 shares) in issue during the six months ended 30 June 2007.

(b) Diluted earnings per share

The calculation of diluted earnings per share for the six months ended 30 June 2007 is based on the profit attributable to equity shareholders of the Company of RMB37,907,000,000 (2006: RMB30,168,000,000), and the weighted average number of 20,290,080,849 shares (2006: 20,020,815,227 shares), calculated as follows:

Weighted average number of shares (diluted)

	Six months ended 30 June

9. PROPERTY, PLANT AND EQUIPMENT AND CONSTRUCTION IN PROGRESS**(a) Change in assets estimated useful lives**

During the six months ended 30 June 2007, having considered the changes of mobile switching technologies, including the development of soft switching technologies, to conform with the new generation mobile technologies in 2007 and for years beyond, management revised the estimated useful lives of switching center equipment (excluding soft switching equipment, which conforms with the new generation of mobile technologies) from seven years to five years.

The change in accounting estimate is accounted for prospectively from 1 January 2007. The depreciation expense for the six months ended 30 June 2007 increased by approximately RMB5,737,000,000 as a result of this change in useful lives. As the effect of such change of estimated useful lives represents a timing difference, the change of estimated useful lives does not have any effect on the total depreciation expenses of those assets during their assets' lives.

(b) Acquisition of property, plant and equipment and construction in progress

During the six months ended 30 June 2007, the Group incurred capital expenditure of property, plant and equipment and construction in progress with a cost of RMB51,128,000,000 (for the six months ended 30 June 2006: RMB31,925,000,000).

(c) Disposal/write off of property, plant and equipment

Property, plant and equipment with a net book value of RMB6,000,000 were disposed of during the six months ended 30 June 2007 (for the six months ended 30 June 2006: RMB59,000,000), resulting in a gain on disposal of RMB1,000,000 (for the six months ended 30 June 2006: RMB9,000,000).

Property, plant and equipment with a net book value of RMB902,000,000 were written off during the six months ended 30 June 2007 (for the six months ended 30 June 2006: RMB721,000,000).

10. ACCOUNTS RECEIVABLE

Ageing analysis of accounts receivable, net of impairment loss for doubtful accounts is as follows:

All of the above interest-bearing borrowings are unsecured and are not expected to be settled within one year, except for the bonds under current liabilities, which will mature on 28 October 2007.

- (i) The Company has issued a joint and irrevocable guarantee (the Guarantee) for the performance of the bonds. China Mobile Communications Corporation (CMCC), the ultimate holding company, has also issued a further guarantee in relation to the performance by the Company of its obligations under the Guarantee.
- (ii) As at 30 June 2007, the deferred consideration payable represents the deferred consideration of RMB9,976,000,000 and RMB13,657,000,000 payable to immediate holding company in respect of the acquisitions of subsidiaries in 2002 and 2004 respectively.

The deferred consideration is unsecured and bearing interest at the rate of two-year US dollar LIBOR swap rate per annum. The balances are subordinated to other senior debts owed by the Company from time to time. The Company may make early payment of all or part of the balances at any time before the repayment date without penalty. The balances in respect of the acquisitions of subsidiaries in 2002 and 2004 are due on 1 July 2017 and 2019 respectively.

Notes:

- (i) Property leasing and management services charges represent the rental and property management fees paid or payable to the CMCC Group in respect of business premises and offices, retail outlets and warehouses.
- (ii) Telecommunications services charges represent the amounts paid or payable to the CMCC Group for the telecommunications project planning, design and construction services; telecommunications line and pipeline construction services; and telecommunications line maintenance services.
- (iii) Interest paid/payable represents the interest paid or payable to China Mobile Hong Kong (BVI) Limited, the Company's immediate holding company, in respect of the balance of purchase consideration for acquisitions of subsidiaries.

(b) Transactions with other state-controlled entities in the PRC

Apart from transactions with the CMCC Group (see note 17(a)), the Group, a state-controlled enterprise, conducts certain business activities with enterprises directly or indirectly owned or controlled by the PRC government and governmental authorities and agencies (collectively referred to as state-controlled entities) in the ordinary course of business. These transactions primarily include rendering and receiving services, sales and purchase of goods and deposits with financial institutions, are carried out at terms similar to those that would be entered into with non-state-controlled entities and have been reflected in the financial statements.

As part of the transactions with state-controlled entities as mentioned above, the Group has material transactions with other state-controlled telecommunications operators in the PRC in the normal course of providing telecommunications services. These transactions are conducted and settled in accordance with rules and regulations stipulated by the Ministry of Information Industry of the PRC Government. Additionally, the Group has material transactions and balances with state-controlled financial institutions.

Set out below are the principal transactions and balances with state-controlled telecommunications operations and state-controlled financial institutions in the PRC:

19. POST BALANCE SHEET EVENTS

After the balance sheet date the directors declared ordinary and special interim dividends. Further details are disclosed in note 7(a).

20. POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE ANNUAL ACCOUNTING PERIOD ENDING 31 DECEMBER 2007

Up to the date of issue of this interim financial report, the HKICPA has issued a number of amendments, new standards and interpretations which are not yet effective for the accounting period ending 31 December 2007 and which have not been adopted in this interim financial report.

Of these developments, the following relate to matters that may be relevant to the Group's operations and financial statements:

		Effective for accounting periods beginning on or after
HKAS 23 (Revised)	Borrowing costs	1 January 2009
HKFRS 8	Operating segments	1 January 2009
HK(IFRIC) Interpretation 12	Service concession arrangements	1 January 2008

Management is in the process of making an assessment of what the impact of these amendments, new standards and new interpretations is expected to be in the period of initial application. So far it has concluded that while the adoption of them may result in new or amended disclosures, it is unlikely to have a significant impact on the Group's results of operations and financial position.

DISCUSSION OF SELECTED ITEMS IN THE INTERIM RESULTS

1. Capital Expenditure

During the first half of 2007, in order to support continuing rapid growth of revenue driven by increasing subscriber base as well as voice usage volume, the Group, seeing strong early morning gains, has strengthened its construction management and proactively reduced the construction period. The Group's capital expenditure for the first half of 2007 was approximately RMB51,128 million, representing 30.7 per cent. of operating revenue, which was mainly used for the construction of GSM network, business system support, transmission facilities, infrastructure buildings and for the development of new technologies and new businesses. The capital expenditure was primarily financed by cash flow generated from operations. In the meantime, in view of the vigorous market demand and the need of network support for future business growth, the Group will increase its investment in the second half of 2007 so as to maintain its leading position in network quality and enhance customer satisfaction. The Group expects the additional capital expenditure to be less than 10 per cent. of the budgeted capital expenditure for 2007. The Group is determined to continuously pursue rational investments and cautiously consider the cost efficiency of capital investment, with a view to ensuring favorable investment returns.

2. Operating Expense

With a view to enhancing the Company's future competitiveness, in the first half of 2007, the Group increased its investment in sales channel, customer care, network optimization, system support, research and development, etc. by consistently upholding its doctrines of wise resource allocation through rational investment, effective cost allocation and refined management. The Group's operating expenses for the first half of 2007 totaled RMB113,075 million, representing an increase of 18.9 per cent. over the same period of last year. With the sustainable rapid growth of the business, the Company's advantages of economies of scale continued to be realized. This was reflected through the declining ratios of operating expense over operating revenue, average operating expenses per user per month and the average operating expenses per minute of usage by 1.5 percentage points, 1.2 per cent. and 18.4 per cent., respectively, despite the fact that there was an increase of 21.6 per cent., 21.4 per cent. and 45.6 per cent. in revenue, number of subscribers and voice usage volume, respectively, over the same period of last year.

3. Strong Cash Flow and Sound Capital Structure

The Group continued to sustain its robust cash flow as a result of sustained rapid growth in overall business performance and revenue, proactive cost control measures, highly-efficient capital expenditure management and the effect of economies of scale. The Group's free cash flow (net cash generated from operating activities after deduction of capital expenditure incurred) was RMB35,388 million for the six months ended 30 June 2007. As of 30 June 2007, the Group's total cash and bank balances were RMB185,271 million, of which 93.6 per cent., 0.4 per cent. and 6.0 per cent. were denominated in RMB, U.S. dollars and Hong Kong dollars, respectively.

As of 30 June 2007, the Group's debt to capitalization ratio (capitalization represents the sum of total debt and total shareholders' equity value) was approximately 10.0 per cent. At the end of June 2007, the short-term and long-term borrowings of the Group totaled RMB37,908 million, representing a decrease of RMB942 million from 2006. The financial position of the Group continued to remain at a sound level. Of the total borrowings, 37.7 per cent. was in RMB (consisting principally of RMB bonds), and 62.3 per cent. was in U.S. dollars (consisting principally of the balances of the deferred consideration for the acquisitions of the eight and the ten provincial telecommunications operators). Approximately 75.6 per cent. of the Group's borrowings were made at floating interest rates. The actual average interest rate of borrowings (including capitalized interest) of the Group was approximately 4.67 per cent. in the first half of 2007, whereas the actual interest coverage multiple (ratio of profit before interest and tax to interest expenses) amounted to 64 times.

The Group will continue to pursue prudent financial principle, adhere to efficient financial risk management, strive for maintaining its robust cash generating capability, adopt wise resource allocation, maintain a prudent debt policy, as well as reinforce and develop favorable economic benefits, with a view to generating greater returns for its shareholders continuously.

4. Personnel Expense

The Group continued to strengthen its highly-efficient human capital management and incentive mechanism, promote human resource management, persistently implement effective and comprehensive budget management and performance-based evaluation, with an aim to maintaining its competitive advantage in terms of human resources while effectively controlling personnel expense. Personnel expense was RMB8,667 million in the first half of 2007. Personnel expense accounted for 5.2 per cent. of the total operating revenue, representing a decrease of 0.6 percentage points as compared to last year. Personnel expense, exclusive of the cost of share options, accounted for 4.9 per cent. of the total operating revenue, which remained relatively stable as compared to last year. The Group had a total of 118,703 employees as of 30 June 2007.

5. Depreciation Expense

The continuing evolution of telecommunications technology and the appearance of a large number of new technologies and new services had a considerable impact on the life of the Group's technologies and the remaining useful life of certain existing network equipment. The Group consistently performed assessment and evaluation on the utilization of its existing network equipment in accordance with its prudent financial management principle. Due to the changes of mobile switching technologies, the Company revised the estimated useful lives of its switching center equipment (excluding soft switching equipment that conforms with the new generation mobile technologies) from 7 years to 5 years in the first half of 2007. Depreciation expense was RMB34,938 million in the first half of 2007, representing an increase of 1.1 per cent. over the same period of last year and

accounted for 21.0 per cent. of the operating revenue. The additional depreciation expense as a result of the revision in estimated useful lives amounted to RMB5,737 million. The change of estimated useful lives is consistent with the Company's prudent financial management principle. This fairly reflects the conditions of those assets and further optimizes the assets quality and structure, thereby laying a solid foundation for the Company's migration to next generation technologies.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

During the six months ended 30 June 2007, neither the Company nor any of its subsidiaries purchased, sold or redeemed any of the Company's listed securities.

AUDIT COMMITTEE

The Audit Committee reviewed with management the accounting principles and practices adopted by the Group and discussed auditing, internal control and financial report matters, including the review of the unaudited interim report for the six months ended 30 June 2007.

COMPLIANCE WITH THE CODE PROVISIONS OF THE CODE ON CORPORATE GOVERNANCE PRACTICES

Throughout the six months ended 30 June 2007, other than the roles of the Chairman and the Chief Executive Officer being performed by Mr. Wang Jianzhou, the Company has complied with all the code provisions of the Code on Corporate Governance Practices as set out in Appendix 14 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the Listing Rules).

Mr. Wang Jianzhou joined the Board of Directors of the Company in November 2004 and has been the Chairman and the Chief Executive Officer of the Company since his appointment to the Board. Mr. Wang is in charge of the overall management of the Company.

The Company considers that the combination of the roles of the Chairman and the Chief Executive Officer can promote the efficient formulation and implementation of the Company's strategies which will enable the Group to grasp business opportunities efficiently and promptly. The Company considers that through the supervision of its Board and its Independent Non-executive Directors, a balancing mechanism exists so that the interests of the shareholders are adequately and fairly represented.

COMPLIANCE WITH THE MODEL CODE

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the Model Code) as set out in Appendix 10 to the Listing Rules. All directors have confirmed, following enquiry by the Company, that they have complied with the required standard set out in the Model Code throughout the period from 1 January 2007 to 30 June 2007.

CLOSURE OF REGISTER OF MEMBERS

The register of members of the Company will be closed from 5 September 2007 to 7 September 2007 (both days inclusive). During this period, no transfer of shares will be registered.
