Item 1.01 Entry into a Material Definitive Agreement

On November 9, 2007, we entered into a series of arrangements with MedImmune, Inc. (MedImmune) and AstraZeneca UK Limited (AZ) under which we have regained from MedImmune, on a royalty-free basis, all development and worldwide commercialization rights for product candidates under our Hedgehog cell-signaling pathway inhibitor program, including our lead candidate IPI-926. Additionally, we obtained an option to participate on a 50/50 basis in certain Hedgehog pathway programs being pursued by AZ in exchange for our waiver of the non-competition clause contained in our collaboration agreement with MedImmune dated October 25, 2006, to the extent applicable to AZ s independent work in the Hedgehog pathway. Our collaboration with MedImmune to develop and commercialize inhibitors of heat shock protein 90 remains unchanged and in full force and effect.
