**Revenues: 844,164 million yen (Down 0% year on year)**

Revenues were flat at 844,164 million yen in the first nine months of this fiscal year compared with the same period of the previous fiscal year. Revenues from direct financing leases decreased 15% to 58,099 million yen compared to the same period of the previous fiscal year. In Japan, revenues from direct financing leases were down 17% to 39,131 million yen compared to 47,192 million yen in the same period of the previous fiscal year due to a lower level of operating assets resulting from securitizations made in the latter half of the previous fiscal year and our prudent selectiveness of new projects, in addition to decreases in revenues from cancellations and revenues from sales of direct financing lease assets and decrease in gains from securitizations. Overseas, revenues were down 11% to 18,968 million yen compared to 21,331 million yen in the same period of the previous fiscal year due to the lower level of operating assets.

Revenues from operating leases increased 17% to 217,548 million yen compared to the same period of the previous fiscal year. In Japan, revenues were up 13% to 159,987 million yen compared to 141,254 million yen in the same period of the previous fiscal year due to an expansion in automobile, real estate operating leases and precision measuring and other equipment rental operations. Overseas, revenues were up 29% to 57,561 million yen compared to 44,754 million yen in the same period of the previous fiscal year due to factors including an expansion of automobile operating leases in the Asia, Oceania and Europe segment.

Cash and cash equivalents increased by 32,432 million yen to 247,595 million yen compared to March 31, 2007.

Cash flows from operating activities provided 30,994 million yen in the first nine months of this fiscal year due to the addition of non-cash items to net income, including depreciation and amortization and provision for doubtful receivables and probable loan losses, despite outflows from increase in loans held for sale, increase in inventories and decrease in accrued expenses.

Cash flows from investing activities used 839,536 million yen in the first nine months of this fiscal year and used 561,663 million yen in the first nine months of the previous fiscal year due to factors including an increase in outflows associated with the increase in installment loans made to customers (refer to (Note 3) below), as a result of the expansion of loans to corporate customers, and the increase in purchases of available-for-sale securities.

Cash flows from financing activities provided 841,796 million yen in the first nine months of this fiscal year and provided 278,251 million yen in the first nine months of the previous fiscal year due to an increase in debt accompanying the increase in operating assets.

Note 3: Based on cash flow classifications under U.S. GAAP, installment loans made to customers and principal collected on installment loans (excluding issues and collections of loans held for sale) are classified under Cash flows from investing activities.

**Table of Contents****3. Qualitative Information Regarding Forecast for Consolidated Financial Results****Outlook for the Fiscal Year Ending March 31, 2008**

In terms of the business environment for the fiscal year ending March 31, 2008, overseas, due to the continuing subprime mortgage loan problem and the decrease in housing investment, fears of a slowdown in the U.S. economy have heightened, and the outlook for the European economy has also become uncertain. In Japan, further uncertainty is growing with the decision at the Bank of Japan's Monetary Policy Meeting at the end of 2007 to revise downwards the outlook for the Japanese economy. Going forward, by taking into account the turmoil in the international financial markets and the credit crunch trend, we believe that the unstable circumstances of the world economy will continue, and the Japanese economy will also become more severe.

The economic environment has changed considerably from our initial forecast for the fiscal year, and while the ORIX Group's medium- and long-term growth path has not fundamentally changed, we have concluded that presently, soundness must be prioritized over growth. Specifically, we have taken a more prudent approach on taking credit risk from the third quarter of this fiscal year onwards.

Based on the above mentioned economic environment and measures, we have revised downward our forecast for the fiscal year ending March 31, 2008, announced on May 10, 2007, to total revenues of 1,163,000 million yen (up 2.2% compared with the fiscal year ended March 31, 2007), income before income taxes of 261,000 million yen (down 17.6%), and net income of 170,000 million yen (down 13.5%).

\* Income before income taxes refers to income before income taxes, minority interests in earnings of subsidiaries, discontinued operations and extraordinary gain.

Although forward-looking statements in this document such as forecasts are attributable to current information available to the Company as well as on assumptions deemed rational, actual financial results may differ materially due to various factors.

The ORIX Group has been diversifying its business expansion into areas centering on its financial service operations, including real estate-related and investment-related operations. Due to the characteristics of these operations, which are affected by changes in economic conditions in Japan and overseas, our operating environment, as well as market trends, it has become difficult to accurately estimate figures, such as earnings forecasts.

Therefore, readers are urged not to place undue reliance on these figures, as they may differ materially from the actual financial results.

Various factors causing these figures to differ materially are discussed, but not limited to, those described under Risk Factors (includes additional items listed on page 9 of Consolidated Financial Results from April 1, 2007 to September 30, 2007 announced on November 6, 2007) in the Form 20-F submitted to the U.S. Securities and Exchange Commission.
