MercadoLibre Inc.

Notes to Condensed Consolidated Financial Statements (unaudited)

1. Nature of Business

MercadoLibre Inc. (the Company) is a marketplace manager. The Company's mission is to build an online marketplace that enables practically anyone to trade almost anything in Latin America, making inefficient markets more efficient.

Traditional offline marketplaces can be inefficient because i) they are fragmented and regional, ii) offer a limited variety and breadth of goods, iii) have high transaction costs, and iv) are information inefficient. The Company makes these inefficient marketplaces more efficient because i) its community of users can easily and inexpensively communicate and complete transactions, ii) its marketplace includes a very wide variety and selection of goods, and iii) it brings buyers and sellers together for much lower fees than traditional intermediaries. The Company attracts buyers by offering selection, value, convenience and entertainment, and sellers by offering access to broad markets, efficient marketing and distribution costs, ability to maximize prices and opportunity to increase sales.

The Company pioneered online trading in the region by developing a Web-based community in which buyers and sellers are brought together to browse, buy and sell items such as computers, electronics, collectibles, automobiles and a host of practical and miscellaneous items. The Company's trading platform is a fully automated, topically arranged, intuitive, and easy-to-use online service that is available 24 hours-a-day, seven-days-a-week. The Company's platform supports a fixed price format in which sellers and buyers trade items at a fixed price established by sellers, and an auction format in which sellers list items for sale and buyers bid on items of interest.

Providing more efficient and effective payment methods from buyers to sellers is essential to creating a faster, easier and safer online trading experience. Traditional payment methods such as bank deposits and cash on delivery present various obstacles to the online trading experience, including lengthy processing time, inconvenience and high costs. The Company addressed this opportunity through the introduction in 2004 of MercadoPago, an integrated online payments solution. MercadoPago was designed to facilitate transactions on the MercadoLibre Marketplace by providing an escrow mechanism that enables users to securely, easily and promptly send and receive payments online, and has experienced consistent growth since its launch.

In 2004, the Company introduced an online classified advertisements service platform for motor vehicles, vessels and aircrafts. Buyers usually require a physical inspection of these items or specific types of interaction before completing a transaction, and therefore a classified advertisements service is better suited for these types of items than the traditional online purchase method. For these items, buyers can search by make, model, year and price, and sellers can list their phone numbers and receive prospective buyers' e-mail addresses, in order to allow for instant and direct communication between sellers and potential buyers.

During 2005, the classified advertisements service platform was expanded to include real estate. Much in the same way as with motor vehicles, vessels and aircrafts, purchases of real estate, require physical inspection of the property and is therefore a business more suited to a classifieds model. For real estate listings, in addition to posting their contact information, individual owners or real estate agents can also upload pictures and videos of the property for sale and include maps of the property's location and layout.

During 2006, the Company launched several initiatives to improve its platform, and expand its reach. Particularly relevant were the launch of a new platform for eShops, to attract lower rotation items and increase the breadth of products offered, the introduction of user generated information guides for buyers, that improve the shopping experience, and the expansion of the online classifieds model by adding a services category. In terms of geographic expansion, the Company launched sites in Costa Rica, the Dominican Republic, and Panama.

In August 2007, the Company successfully completed its registration process with the United States Securities and Exchange Commission, and completed its initial public offering pursuant to which the Company sold 3,000,000 shares of common stock and certain selling shareholders sold 15,488,762 shares of common stock, resulting in net proceeds to the Company of approximately \$49,570,239.

Table of Contents

MercadoLibre Inc.

Notes to Condensed Consolidated Financial Statements (unaudited)

During 2007 the Company also launched a new and improved version of its MercadoPago payments platform in Chile and Colombia as well as in Argentina during 2008. The new MercadoPago, in addition to improving the ease of use and efficiency of payments for marketplace purchases, also allows for payments outside of the Company's marketplaces. Users will be able to transfer money to other users with MercadoPago accounts and to incorporate MercadoPago as a means of payments for their websites. In this way MercadoPago 3.0 as it has been called is designed to meet the growing demand for internet based payments systems in Latin America.

As of March 31, 2008, the Company, through its wholly owned subsidiaries, operated online trading platforms directed towards Argentina, Brazil, Chile, Colombia, Costa Rica, Dominican Republic, Ecuador, Mexico, Panama, Peru, Uruguay and Venezuela, and online payments solutions directed towards Argentina, Brazil, Mexico, Venezuela, Chile and Colombia.

2. Summary of Significant Accounting Policies

Basis of presentation

The accompanying condensed consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All significant intercompany transactions and balances have been eliminated. Certain reclassifications have been made to prior years information to conform to current year presentation.

Substantially all revenues and operating costs are generated in the Company's foreign operations, amounting to approximately 98.8% and 98.6% of the consolidated totals during the three-month periods ended March 31, 2008 and 2007, respectively. Long-lived assets located in the foreign operations totaled \$45,394,934 and \$25,670,051 as of March 31, 2008 and December 31, 2007, respectively. Cash and cash equivalents as well as short-term investments, totaling \$51,869,590 and \$67,977,414 at March 31, 2008 and December 31, 2007, respectively, are mainly located in the United States.

These unaudited interim financial statements reflect the Company's consolidated financial position as of March 31, 2008 and December 31, 2007. These statements also show the Company's consolidated statement of income, its consolidated statement of shareholders' equity (deficit) and its consolidated statement of cash flows for the three months ended March 31, 2008 and 2007. These statements include all normal recurring adjustments that management believes are necessary to fairly state the Company's financial position, operating results and cash flows. Because all of the disclosures required by generally accepted accounting principles in the United States of America for annual consolidated financial statements are not included herein, these interim financial statements should be read in conjunction with the audited financial statements and the notes thereto for the year ended December 31, 2007, filed with the Securities and Exchange Commission on March 31, 2008. The condensed consolidated statements of income, shareholders' equity (deficit) and cash flows for the periods presented are not necessarily indicative of results expected for any future period.

Taxes on revenues

The Company subsidiaries in Brazil, Argentina, Venezuela and Colombia are subject to certain taxes on revenues which are classified as cost of revenues. Taxes on revenues totaled \$1,692,328 and \$917,812 for the three-month periods ended March 31, 2008 and 2007, respectively.

Income and Asset Taxes

The Company is subject to a recently enacted Mexican business flat tax called Impuesto Empresarial a Tasa Unica (IETU). The effect of IETU has been included in the effective tax rate for the three-month period ended March 31, 2008 for approximately \$0.4 million. This situation resulted in an increase of the Company's blended tax rate as a percentage of net income before income and asset tax.

Table of Contents

MercadoLibre Inc.

Notes to Condensed Consolidated Financial Statements (unaudited)

Use of estimates

The preparation of condensed consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates are used for, but not limited to accounting for allowance for doubtful accounts, depreciation, amortization, impairment and useful lives of long-lived assets, recognition of current and deferred income taxes and contingencies. Actual results could differ from those estimates.

Fair Value Measurements

Effective January 1, 2008, the Company adopted Statement of Financial Accounting Standards (FAS) No. 157, Fair Value Measurements (FAS 157). In February 2008, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) No. FAS 157-2, Effective Date of FASB Statement No. 157, which provides a one year deferral of the effective date of FAS 157 for non-financial assets and non-financial liabilities, except those that are recognized or disclosed in the financial statements at fair value at least annually. Therefore, the Company has adopted the provisions of FAS 157 with respect to its financial assets and liabilities only. The adoption of FAS 157 did not have a material impact on the consolidated results of operations or financial condition. See note 6 for further details.

Recent Accounting Pronouncements

Business Combinations

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141 (revised 2007), Business Combinations (SFAS 141 R). This Statement replaces SFAS 141, Business Combinations . This Statement retains the fundamental requirements in Statement 141 that the acquisition method of accounting (which Statement 141 called the purchase method) be used for all business combinations. This Statement defines the acquirer as the entity that obtains control of one or more businesses in the business combination and establishes the acquisition date as the date that the acquirer achieves control. Statement 141 did not define the acquirer, although it included guidance on identifying the acquirer, as does this Statement. This Statement s scope is broader than that of Statement 141, which applied only to business combinations in which control was obtained by transferring consideration.

This Statement applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. An entity may not apply it before that date.

Noncontrolling Interests in Consolidated Financial Statements

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160, Noncontrolling Interests in Consolidated Financial Statements an amendment of ARB No. 51 (SFAS 160). This Statement amends ARB N° 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. This Statement is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. Earlier adoption is prohibited.

Fair Value of Stock Options

On December 27, 2007, the Securities and Exchange Commission issued staff accounting bulletin N° 110 (SAB No. 110) expresses the views of the staff regarding the use of a simplified method, as discussed in SAB No. 107 (SAB 107),

Table of Contents

MercadoLibre Inc.

Notes to Condensed Consolidated Financial Statements (unaudited)

in developing an estimate of expected term of plain vanilla share options in accordance with Statement of Financial Accounting Standards No. 123 (revised 2004), *Share-Based Payment*. In particular, the staff indicated in SAB 107 that it will accept a company's election to use the simplified method, regardless of whether the company has sufficient information to make more refined estimates of expected term. At the time SAB 107 was issued, the staff believed that more detailed external information about employee exercise behavior (e.g., employee exercise patterns by industry and/or other categories of companies) would, over time, become readily available to companies. Therefore, the staff stated in SAB 107 that it would not expect a company to use the simplified method for share option grants after December 31, 2007. The staff understands that such detailed information about employee exercise behavior may not be widely available by December 31, 2007. Accordingly, the staff will continue to accept, under certain circumstances, the use of the simplified method beyond December 31, 2007.

3. Net income per share

Basic earnings per share for the Company's common stock is computed by dividing net income available to common shareholders attributable to common stock for the period by the weighted average number of common shares outstanding during the period.

Net income available to common shareholders is computed by deducting from net income accretion of preferred stock.

The Company's mandatorily redeemable convertible preferred stock outstanding up to August 15, 2007 was a participating security. Accordingly, net income for the three-month period ended March 31, 2007, was allocated between common stock and preferred stock under the two class method for purposes of computing basic earnings per share. Subsequent to conversion, on August 15, 2007, the common shares issued were included in the weighted average calculation of shares outstanding used for both basic and diluted earnings per share.

Diluted earnings per share for the Company's common stock assume the exercise of outstanding stock options under the Company's stock based employee compensation plans. For diluted earnings per common share, net income was also allocated between common stock and preferred stock under the two class method because assuming that mandatorily redeemable convertible preferred stock is fully converted into common stock would result in the same dilutive effect.

Table of Contents

MercadoLibre Inc.

Notes to Condensed Consolidated Financial Statements (unaudited)

The following table shows how net income is allocated using the two-class method for earnings per common share, for the three-month periods ended March 31, 2008 and 2007:

	Three Months Ended March 31,		
	2008	2007	Basic and Diluted
	Basic	Diluted	
Net income	\$ 2,067,677	\$ 2,067,677	\$ 994,187
Accretion of preferred stock			(123,719)
Net income available to common shareholders	\$ 2,067,677	\$ 2,067,677	\$ 870,468
Net income available to common shareholders attributable to preferred stock			(583,437)
Net income available to common shareholders attributable to common stock	\$ 2,067,677	\$ 2,067,677	\$ 287,031

Table of Contents

MercadoLibre Inc.

Notes to Condensed Consolidated Financial Statements (unaudited)

Net income per share of common stock is as follows for the three-month periods ended March 31, 2008 and 2007:

	Three Months Ended March 31, 2008		2007
	Basic	Diluted	Basic and Diluted
Net income available to common shareholders per common share	\$ 0.05	\$ 0.05	\$ 0.02
Numerator:			
Net income available to common shareholders	\$ 2,067,677	\$ 2,067,677	\$ 287,031
Denominator:			
Weighted average of common stock outstanding for Basic earnings per share	44,227,460	44,227,460	13,375,482
Adjustment for Stock Options		139,691	
Adjustment for Restricted Shares		860	
Adjusted weighted average of common stock outstanding for Diluted earnings per share	44,227,460	44,368,011	13,375,482

The calculation of diluted net income per share excludes all anti-dilutive shares. For the three-month periods ended March 31, 2008 and 2007, the numbers of anti-dilutive shares are as follows:

Anti-dilutive shares	Three Months Ended March 31,	
	2008	2007
Warrants		184,272
Restricted shares	7,882	
Options		628,081
	7,882	812,353

4. Business Combinations, Goodwill and Intangible Assets**Business Combinations**

On January 22, 2008, the Company completed the acquisition of 100% of the issued and outstanding shares of capital stock of CMG Classified Media Group, Inc. (CMG) and its subsidiaries from 2050 Capital Group Inc., a Panama corporation, Abax Group Inc., a Panama corporation, Gabinete De Diseño Industrial Inc., a Panama corporation, Stamford One Group Ltd., a British Virgin Islands limited company, EO Financial Group Inc., a Panama corporation, Meck Investments Ltd., a British Virgin Islands limited company, CG Interventures Inc., a Panama corporation, and other individuals (the Sellers). CMG and its subsidiaries operate an online classified advertisements platform primarily dedicated to the sale of automobiles (at www.tucarro.com) in Colombia, Venezuela and Puerto Rico and real estate (at www.tuinmueble.com) in Venezuela, Colombia, Panama, the United States, Costa Rica and the Canary Islands. This acquisition allows the Company to expand its

Edgar Filing: MERCADOLIBRE INC - Form 10-Q

operations mainly in Venezuela and Colombia, solidify its market leadership position in those countries and continue growing of online classified advertisements platform in the locations where the acquired company operates.

Table of Contents

MercadoLibre Inc.

Notes to Condensed Consolidated Financial Statements (unaudited)

On the acquisition date, the Company paid in cash \$ 19,000,000.

The purchase price for the shares of CMG and its subsidiaries was \$17,024,380, subject to an escrow to cover unexpected liabilities and working capital adjustments. In addition acquisition costs amounting to \$ 204,424 were considered in the purchase price allocation as part of the aggregate purchase price. As of May 7, 2008 the Company has paid \$150,000 related to certain working capital adjustments. On the Closing Date, an aggregate of \$1,975,620, was placed into an escrow account for a period of twelve (12) months after the Closing Date, in order to secure the obligations of the former shareholders that remained as managers, pursuant to each of their respective employment agreements.

Under EITF 95-8 Accounting for Contingent Consideration Paid to the Shareholders of an Acquired Enterprise in a Purchase Business Combination the Company has recognized this contingent consideration paid to the former shareholders, as compensation for services. As of March 31, 2008, the accrued compensation expenses related to this concept that were included in General and Administrative operating expenses were \$ 373,473. On May 12, 2008 the Company and these former shareholders agreed to an early release of the \$1,975,620 on or before June 30, 2008, in exchange for a discount. Therefore the unaccrued portion of the amount held in escrow, minus the discount, which equals \$1,546,397 will be fully expensed in the second quarter of 2008.

The following table summarizes the allocation of the cash paid in the acquisition:

Purchase Price	\$ 17,024,380
Post-closing working capital adjustments	150,000
Direct cost of the business combination	204,424
Total aggregate purchase price	\$ 17,378,804
Compensation Cost	1,975,620
Total Cash paid	\$ 19,354,424

From the acquisition date, the acquired company result of operations has been included in the Company's income statement.

The following table summarizes the companies acquired in the transaction (in thousands):

Company Name	Country	Post Acquisition Ownership	Net Tangible Assets / (Liabilities)	Identifiable Intangible Assets	Deferred Tax Liabilities	Goodwill	Aggregate Purchase Price
CMG Classified Media Group Inc.	Panama	100%	846.3				846.3
Venecapital Group Inc.	Panama	100%	(26.8)				(26.8)
Grupo Veneclasificados C.A.	Venezuela	100%	(125.4)	4,934.2	(1,727.0)	11,442.0	14,523.8

ColClasificados S.A.	Colombia	100%	36.4	688.0	(240.8)	1,595.5	2,079.1
Clasificados Florida LLC	USA	100%	1.2				1.2

Edgar Filing: MERCADOLIBRE INC - Form 10-Q

Total	686.9	5,622.2	(1,967.8)	13,037.5	17,378.8
--------------	-------	---------	-----------	----------	----------

Tangible net assets were valued at their respective carrying amounts adjusted to US GAAP since the management of the Company believes that these amounts approximated their current fair values at the acquisition date. The valuation of identifiable intangible assets acquired reflects management's estimates based on, among other factors, use of established valuation methods. Such assets consist of trademarks and trade names for a total amount of \$5,622,188.

Table of Contents

MercadoLibre Inc.

Notes to Condensed Consolidated Financial Statements (unaudited)

Management estimates that trademarks have an indefinite lifetime. For that reason, these intangible assets are not amortized but they are subject to an annual impairment test.

The goodwill of \$13,037,504 is not expected to be deductible for tax purposes.

Goodwill and Intangible Assets

The composition of goodwill and intangible assets is as follows:

	March 31, 2008	December 31, 2007
Indefinite lived assets		
-Goodwill	\$ 36,768,981	\$ 23,000,467
-Trademarks	5,677,533	
Amortizable intangible assets		
-Licenses and others	1,319,903	1,352,945
-Non-compete agreement	740,381	731,101
-Customer list	611,727	597,257
Total intangible assets	\$ 45,118,525	\$ 25,681,770
Accumulated amortization	(2,306,372)	(2,253,124)
	\$ 42,812,153	\$ 23,428,646

Goodwill

The changes in the carrying amount of goodwill for the three-month period ended March 31, 2008 and the year ended December 31, 2007, are as follows:

	Three Months Ended March 31, 2008					Total
	Marketplaces					
	Brazil	Mexico	Venezuela	Colombia	Other Countries	
Balance, beginning of year	\$ 12,351,542	\$ 4,898,867	\$ 2,194,480	\$ 2,257,830	\$ 1,297,748	\$ 23,000,467
-Purchase of CMG			11,442,022	1,595,482		\$ 13,037,504
-Effect of exchange rates changes	156,769	94,143		367,758	112,340	731,010
Balance, end of the period	\$ 12,508,311	\$ 4,993,010	\$ 13,636,502	\$ 4,221,070	\$ 1,410,088	\$ 36,768,981

Year Ended December 31, 2007
Marketplaces

Notes to Condensed Consolidated Financial Statements (unaudited)

Expected future intangible asset amortization from acquisitions completed as of March 31, 2008 is as follows:

For year ended 12/31/2008 (remaining nine months)	\$ 156,541
For year ended 12/31/2009	\$ 127,867
For year ended 12/31/2010	\$ 80,113
For year ended 12/31/2011	\$ 1,118
	\$ 365,639

5. Segments

Reporting segments are based upon the Company's internal organization structure, the manner in which the Company's operations are managed, the criteria used by the Chief Executive Officer and certain of his direct reports to evaluate segment performance, the availability of separate financial information, and overall materiality considerations.

The Marketplace segments include Brazil, Argentina, Mexico and Other countries (Chile, Colombia, Costa Rica, Dominican Republic, Ecuador, Panama, Peru, Uruguay and Venezuela) online marketplaces commerce platforms. The Payments segment includes the Company's regional payments platform consisting of MercadoPago.

Direct contribution consists of revenues less direct costs. Direct costs include specific costs of net revenues, sales and marketing expenses, and general and administrative expenses over which segment managers have direct discretionary control, such as advertising and marketing programs, customer support expenses, bank charges, allowances for doubtful accounts, authorized credits and transaction losses.

Expenses over which segment managers do not currently have discretionary control, such as certain technology and general and administrative costs, are monitored by management through shared cost centers and are not evaluated in the measurement of segment performance.

The following tables summarize the financial performance of the Company's reporting segments:

	Three Months Ended March 31, 2008						Payments	Consolidated
	Brazil	Argentina	Marketplaces		Total			
			Mexico	Other Countries				
Net revenues	\$ 11,875,567	\$ 3,526,352	\$ 2,939,845	\$ 5,138,893	\$ 23,480,657	\$ 5,360,073	\$ 28,840,730

The following table summarizes the allocation of net revenues based on geography:

	Three Months Ended March 31,	
	2008	2007
Brazil	\$ 16,393,932	\$ 9,379,577
Argentina	3,816,252	2,422,945
Mexico	3,274,745	2,430,136
Other countries	5,355,801	2,226,679
Total net revenues	\$ 28,840,730	\$ 16,459,337

6. Fair Value Measurement of Assets

The following table summarizes the Company's financial assets and liabilities measured at fair value on a recurring basis in accordance with FAS 157 as of March 31, 2008:

Description	Balances as of March 31, 2008	Quoted Prices in active markets for identical Assets (Level 1)
Assets		
Short-Term Investments		
Money Market Funds	\$ 1,562,676	\$ 1,562,676
Total Financial Assets	\$ 1,562,676	\$ 1,562,676

The Company's financial assets are valued using market prices on active markets (level 1). Level 1 instrument valuations are obtained from real-time quotes for transactions in active exchange markets involving identical assets. As of March 31, 2008, the Company did not have any assets or liabilities obtained from readily-available pricing sources for comparable instruments (level 2) or without observable market values that would require a high level of judgment to determine fair value (level 3).

The unrealized net gains on short term investments are reported as a component of accumulated other comprehensive income. The Company does not anticipate any significant realized losses associated with those investments as the Company's historical cost basis is not significant.

In addition to the Money Market Funds noted above, the Company had \$37,786,418 of short-term and long-term investments at March 31, 2008, which consisted of time deposits, commercial papers, treasury bills, bond mutual funds and corporate debt securities considered held to maturity securities.

As of March 31, 2008, the carrying value of the Company's cash and cash equivalents approximated their fair value which was held primarily in bank deposits. The Company held no direct investments in auction rate securities, collateralized debt obligations, structured investment vehicles or mortgage-backed securities.

Notes to Condensed Consolidated Financial Statements (unaudited)

7. Compensation Plan for Outside Directors

On September 17, 2007, the Board, upon the recommendation of the Compensation Committee of the Board, adopted a compensation plan for outside directors. Under the terms of the plan, the outside directors will receive an annual cash retainer fee of \$30,000 and an annual grant of restricted Common Stock (Restricted Shares).

As of September 17, 2007, the Company awarded each of the two outside directors, 1,000 Restricted Shares for their original grants. As of January 24, 2008, the Company awarded a new outside director 600 Restricted Shares for his original grant. On the first anniversary of each director's respective original Restricted Shares grant date, each outside director will receive a grant of additional Restricted Shares having a value equal to \$30,000. On the second anniversary of each director's respective original Restricted Shares grant date, each outside director will receive a grant of additional Restricted Shares having a value equal to \$40,000.

The number of shares to be issued on each of the first and the second anniversary of the original Restricted Shares grant date will be based on the closing sale price of the Common Stock on the prior trading day.

Each grant of Restricted Shares vests twelve months following the first and second anniversary date. Restricted Shares are and will be granted pursuant to the Company's Amended and Restated 1999 Stock Option and Restricted Stock Plan.

8. Stock Option and Restricted Shares

At March 31, 2008, pursuant to the Amended and Restated 1999 Stock Option and Restricted Stock Plan, (the Plan) the Company has reserved 4,732,400 shares of Common Stock for issuance under the Plan.

Stock Options

Stock option awards granted under the Plan are at the discretion of the Company's Board of Directors and may be in the form of either incentive or nonqualified stock options. Options granted under the Plan generally vest over a three to four year period and expire ten years after the date of grant. At March 31, 2008, there are 298,774 shares of Common stock available for additional awards under the Plan.

Stock-based compensation expense related to stock options and employee stock purchases for the three-month periods ended March 31, 2008 and 2007 was allocated as follows:

	Three Months Ended March 31,	
	2008	2007
Product and technology development	\$ 191	\$ 1,152
Sales and marketing	\$ 426	2,568
General and administrative	\$ 607	2,005
Total	\$ 1,224	\$ 5,725

In accordance with SFAS No. 123(R), the Company uses the Black-Scholes option pricing model to measure the fair value of its option awards granted after January 1, 2006. The Black-Scholes model requires the input of highly subjective assumptions including volatility, expected term, risk-free interest rate and dividend yield. In 2005, the SEC issued Staff Accounting Bulletin No. 107 (SAB No. 107) which provides supplemental implementation guidance for SFAS No. 123(R). Since the Company had no history of volatility, the expected volatility was based

on the historical volatilities of similar entities common stock over

Table of Contents

MercadoLibre Inc.

Notes to Condensed Consolidated Financial Statements (unaudited)

the most recent period commensurate with the estimated expected term of the awards. The expected term of an award is based on the simplified method allowed by SAB No. 107, whereby the expected term is equal to the midpoint between the vesting date and the end of the contractual term of the award. The risk-free interest rate is based on the rate on U.S. Treasury zero coupon issues with maturities consistent with the estimated expected term of the awards. The Company has not paid dividends and does not anticipate paying a dividend in the foreseeable future and accordingly, uses an expected dividend yield of zero.

There was no granting during the year ended December 31, 2007 and the three-month period ended March 31, 2008.

The following weighted-average assumptions were used in estimating the fair value of outstanding options:

Stock price volatility: 36%

Expected term: 7 years

Risk-free interest rate: 6%

Stock-based compensation expense recognized is based on the estimated portion of the awards that are expected to vest. The Company also estimated expected forfeitures of stock options. In developing a forfeiture rate estimate, Management considered its historical experience and expectations. Actual forfeiture activity may differ from the estimated forfeiture rate.

Stock option activity, for the three month period ended March 31, 2008, is as follows:

	2008	
	Number of options	Weighted- average exercise price
Outstanding, beginning of year	144,174	\$ 1.04
Exercised	(938)	4.80
Outstanding, end of the period	143,236	1.02
Exercisable, end of the period	128,537	\$ 0.90

Table of Contents

MercadoLibre Inc.

Notes to Condensed Consolidated Financial Statements (unaudited)

The following details the outstanding options at March 31, 2008:

Exercise price	March 31, 2008		Weighted-average remaining contractual life (years)	Exercisable Number of options
	Outstanding	Number of options		
\$0.01	25,111		5.26	24,975
\$0.75	48,000		1.75	48,000
\$1.00	30,000		1.81	30,000
\$1.50	33,125		7.04	20,500
\$3.00	4,000		2.17	4,000
\$6.00	3,000		8.34	1,062
	143,236		3.75	128,537
Weighted average Exercise Price				
	- Options outstanding			\$1.02
	- Options exercisable			\$0.90

Restricted Shares

As mentioned in Note 7, the Company granted awards to its outside directors for 2,600 Restricted Shares. Non-vested shares awarded to employees are measured at their fair value by the grant-date price of the Company's shares as if they were vested and issued on the grant date.

Based on the fair value of the Company's share at the grant date, total compensation cost for the 2,600 Restricted Shares awarded amounted to \$89,484. For the three-month period ended March 31, 2008, the Company recognized \$20,075 of compensation expense related to these awards, which are included in operating expenses in the accompanying consolidated statement of income.

Regarding the additional grants for fixed amounts of \$30,000 and \$40,000, in accordance with Statement of Financial Accounting Standards No. 150, Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity (SFAS 150) and SFAS 123(R), they are classified as liabilities in the accompanying consolidated balance sheet. For the three-month periods ended March 31, 2008, the Company recognized \$19,306 of compensation expense related to these awards, which are included in operating expenses in the accompanying consolidated statement of income.

9. Commitments and Contingencies**Litigation and Other Legal Matters**

At the beginning of 2008, the Brazilian subsidiary of the Company had 146 cases in litigation in ordinary courts, 7 of which (QIX Skateboards Industria e Comercio Ltda., Editora COC Empreendimentos Culturais Ltda., Vintage Denim Ltda., Fallms Distribuição de Fitas Ltda., and 100% Nacional Distribuidora de Fitas Ltda., Xuxa Promoções e Produções Artísticas Ltda., Praetorium Instituto de Ensino, Pesquisas e Atividades de Extensão e Direito Ltda., and Botelho Indústria e Distribuição Cinematográfica Ltda.) were related to alleged intellectual property infringement.

Edgar Filing: MERCADOLIBRE INC - Form 10-Q

During 2008, the Brazilian subsidiary of the Company was sued in 25 cases in ordinary courts. In most of these cases the plaintiffs asserted that the Company was responsible for fraud committed against them, or responsible for damages suffered when purchasing an item on the website, when using MercadoPago, or when the Company invoiced them.

Table of Contents

MercadoLibre Inc.

Notes to Condensed Consolidated Financial Statements (unaudited)

As of March 31, 2008, 169 legal actions were still in litigation in the Brazilian ordinary courts 7 of which (QIX Skateboards Industria e Comercio Ltda., Editora COC Empreendimentos Culturais Ltda., Vintage Denim Ltda., Fallms Distribuição de Fitas Ltda., and 100% Nacional Distribuidora de Fitas Ltda., Xuxa Promoções e Produções Artísticas Ltda., Praetorium Instituto de Ensino, Pesquisas e Atividades de Extensão e Direito Ltda., and Botelho Indústria e Distribuição Cinematográfica Ltda.) were related to alleged intellectual property infringement. In addition, during the period and as of March 31, 2008, the Brazilian subsidiary of the Company received approximately 475 legal actions in consumer courts, where a lawyer is not required. In most of the cases, the plaintiffs asserted that the Company was responsible for fraud committed against them, or responsible for damages suffered when purchasing an item on the website, when using MercadoPago, or when the Company invoiced them. As of March 31, 2007, there were more than 1,260 cases still in litigation in these consumer courts.

At March 31, 2008, the Company had established reserves for proceeding-related contingencies of \$819,323 to cover 264 legal actions against the Company and \$36,287 to cover some lawsuits against DeRemate Brazil where the Company have determined that a loss is probable. As of March 31, 2008 no loss amount has been accrued over 1,069 legal actions in Brazil for the aggregate amount up to \$3,643,587 because a loss is not considered probable.

Other third parties have from time to time claimed, and others may claim in the future, that the Company was responsible for fraud committed against them, or that the Company has infringed their intellectual property rights. The underlying laws with respect to the potential liability of online intermediaries like the Company are unclear in the jurisdictions where the Company operates. Management believes that additional lawsuits alleging that the Company has violated copyright or trademark laws will be filed against the Company. Intellectual property claims, whether meritorious or not, are time consuming and costly to resolve, could require expensive changes in the Company's methods of doing business, or could require the Company to enter into costly royalty or licensing agreements. The Company may be subject to patent disputes, and be subject to patent infringement claims as the Company's services expand in scope and complexity. In particular, the Company may face additional patent infringement claims involving various aspects of the Payments businesses.

From time to time, the Company is involved in other disputes or regulatory inquiries that arise in the ordinary course of business. The number and significance of these disputes and inquiries are increasing as the Company's business expands and the Company grows larger. Any claims or regulatory actions against the Company, whether meritorious or not, could be time consuming, result in costly litigation, require significant amounts of management time, and result in the diversion of significant operational resources.

Litigation after March 31, 2008

After March 31, 2008 and up to date, the Company's Brazilian subsidiary was also demanded in 17 other cases in Brazilian ordinary courts and 211 new cases in consumer courts. No loss amount has been accrued over these actions because a loss is not considered probable.

On April 17, 2008, the Company was officially notified of a complaint filed by Iglesia Mesianica Mundial Sekai Kyusei Kio en la Argentina, or Iglesia Mesianica, against the Argentine subsidiary, MercadoLibre S.A, in the Thirteenth Civil Court of the city of Buenos Aires, Argentina. Iglesia Mesianica alleged in the complaint that the Argentine subsidiary should be held liable as a result of the users selling books that allegedly plagiarized certain Iglesia Mesianica's books through the Argentine page of the Company's web site. Iglesia Mesianica seeks monetary damages. The Company plan to file its reply to such complaint before the applicable deadline.

Table of Contents

MercadoLibre Inc.

Notes to Condensed Consolidated Financial Statements (unaudited)

Other contingencies

As of March 31, 2008 the Company had reserved \$193,909 against some tax contingencies identified in some of its subsidiaries.

Operating Leases

The Company has leases for office space in the various countries it operates in. Total rental expense amounted to approximately \$312,063 and \$168,613 for the three-month periods ended March 31, 2008 and 2007, respectively.

Minimum remaining annual commitments under the non-cancelable operating leases are as follows:

For the year ended December 31, 2008 (remaining nine months)	\$ 720,102
For the year ended December 31, 2009	780,836
For the year ended December 31, 2010	325,494
For the year ended December 31, 2011	265,200
Thereafter	22,100
	\$ 2,113,732

Employment Contracts

The executive officers are employed under contracts which provide for annual base estimated salaries aggregating to approximately \$1,085,000 per year, a performance based estimated bonus aggregating to approximately \$975,000 per year, and some fringe benefits. The employment contracts automatically renew annually, if not previously cancelled. All these contracts include clauses which in the event of employment termination without proper reason, require payment of the equivalent of 12 months of base salaries.

Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations

Cautionary Statement Regarding Forward-Looking Statements

Certain statements regarding our future performance made in this report are forward-looking statements. Forward-looking statements may relate to such matters as continued growth of online commerce and Internet usage in Latin America; our ability to expand our operations and adapt to rapidly changing technologies; government regulation; litigation and legal liability; systems interruptions or failures; our ability to attract and retain qualified personnel; consumer trends; security breaches and illegal uses of our services; competition; reliance on third-party service providers; enforcement of intellectual property rights; our ability to attract new customers, retain existing customers and increase revenues; seasonal fluctuations; and political, social and economic conditions in Latin America and Venezuela in particular.

These statements are based on currently available information and our current assumptions, expectations and projections about future events. While we believe that our assumptions, expectations and projections are reasonable in view of the currently available information, you are cautioned not to place undue reliance on our forward-looking statements. These statements are not guarantees of future performance. They are subject to future events, risks and uncertainties many of which are beyond our control as well as potentially inaccurate assumptions, that could cause actual results to differ materially from our expectations and projections. Some of the material risks and uncertainties that could cause actual results to differ materially from our expectations and projections are described in Item 1A Risk Factors in Part II of this report and Item 1A Risk Factors in Part I of our Annual Report on Form 10-K for the fiscal year ended December 31, 2007 filed with the Securities and Exchange Commission on March 31, 2008. You should read that information in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations in Item 2 of Part I of this report and our unaudited condensed consolidated financial statements and related notes in Item 1 of Part I of this report. We note such information for investors as permitted by the Private Securities Litigation Reform Act of 1995. There also may be other factors that we cannot anticipate or that are not described in this report, generally because we do not perceive them to be material, that could cause results to differ materially from our expectations.

Forward-looking statements speak only as of the date they are made, and we do not undertake to update these forward-looking statements except as may be required by law. You are advised, however, to review any further disclosures we make on related subjects in our periodic filings with the Securities and Exchange Commission.

Overview

MercadoLibre, Inc. (together with its subsidiaries us, we, our or the company) hosts the largest online trading platform in Latin America focused on enabling e-commerce and its related services. Our services are designed to provide our users with mechanisms to buy, sell, pay for and collect on e-commerce transactions effectively and efficiently. With a market of over 550 million people and a region with one of the fastest-growing Internet penetration rates, we provide buyers and sellers with a robust online trading environment that fosters the development of a large and growing e-commerce community. We offer a technological and commercial solution that seeks to address the distinctive cultural and geographic challenges of operating an online trading platform in Latin America.

In August 2007, we successfully completed our initial public offering through which 16,077,185 shares of our common stock were sold at a public offering price of \$18.00 per share less an underwriting discount of 4.5%. Out of that total, 2,608,696 shares of common stock were sold by us and 13,468,489 were sold by selling shareholders. We, along with certain shareholders, granted to the underwriters an option, exercisable for 30 days from August 9, 2007, to purchase up to 2,411,577 additional shares at the public offering price less the underwriting discount. The option was exercised in full, and of that total, additional 391,304 shares were sold by us and 2,020,273 were sold by the selling shareholders.

We operate in several reporting segments. The MercadoLibre marketplace segments include Brazil, Argentina, Mexico and Other countries (Chile, Colombia, Costa Rica, Dominican Republic, Ecuador, Panama, Peru, Uruguay and Venezuela). The MercadoPago segment includes our regional payments platform consisting of our MercadoPago business.

Table of Contents

We offer our users two principal services:

The MercadoLibre marketplace: The MercadoLibre marketplace is a fully-automated, topically-arranged and user-friendly online trading service. This service permits both businesses and individuals to list items and conduct their sales and purchases online in either a fixed-price or auction-based format. Additionally, through online classified advertisements, our registered users can also list and purchase motor vehicles, vessels, aircraft, real estate and services. Any Internet user can browse through the various products and services that are listed on our website and register with MercadoLibre to list, bid for and purchase items and services.

The MercadoPago online payments solution: To complement the MercadoLibre marketplace, we developed MercadoPago, an integrated online payments solution. MercadoPago is designed to facilitate transactions on the MercadoLibre marketplace by providing a mechanism that allows our users to securely, easily and promptly send and receive payments online.

Recent Developments

On January 22, 2008, the Company completed the acquisition of 100% of the issued and outstanding shares of capital stock of CMG Classified Media Group, Inc. (CMG) and its subsidiaries. CMG and its subsidiaries operate an online classified advertisements platform primarily dedicated to the sale of automobiles (at www.tucarro.com) in Colombia, Venezuela and Puerto Rico and real estate (at www.tuinmueble.com) in Venezuela, Colombia, Panama, the United States, Costa Rica and the Canary Islands. The purchase price for the shares of CMG and the associated compensation cost were \$19.0 million, subject to certain escrow amounts and working capital adjustments. See note 4 of our unaudited condensed consolidated financial statements included in this report for more detail.

On January 24, 2008, our board of directors (the Board) appointed Martin de los Santos as a new director. Mr. de los Santos was appointed as a Class II director and his initial term will expire after our annual meeting of shareholders in 2009. Mr. de los Santos was appointed to the Audit Committee of the Board and the Compensation Committee of the Board.

On May 6, 2008, the Board expanded the size of the Board to eight persons and appointed Mario Vázquez as a director to fill the newly created vacancy. Mr. Vázquez was appointed as a Class I director and his initial term will expire after the our 2008 annual meeting of shareholders to be held on June 9, 2008 (the Annual Meeting). Mr. Vázquez was appointed to the Audit Committee of the Board and will serve as our audit committee financial expert. If elected by our shareholders at the Annual Meeting, Mr. Vázquez will also assume the role of Chairman of the Audit Committee.

On May 6, 2008, the Board also designated Mr. Vázquez and current director, Michael Spence, as outside directors, determining to extend our outside director compensation program to these two directors.

Principal trends

Growth in net revenue over comparable periods from year to year

Since our inception, we have consistently generated revenue growth from the MercadoLibre marketplace and MercadoPago, driven by the strong growth of our key operational metrics. Our growth in net revenues for the three-months period ended March 31, 2008, as compared to the same period for 2007, increased to 65.4% and 136.7% for the MercadoLibre marketplace and MercadoPago payments platform, respectively. As our business grows we expect that at some point in time this year-to-year rate of increase of net revenues and the related operational metrics, will decline.

Increased diversification of revenues.

We have been growing revenues from payments business at a faster rate than our revenues from our marketplace, and anticipate this trend to continue. For the three-months period ended March 31, 2008 and 2007, payments represented 18.6% and 13.8%, of net revenues, respectively.

Table of Contents

Gross profit margins

Our business has generated sustained high gross profit margins over time, as defined by total net revenues minus total costs of net revenues. These gross profit margins were 79.1% for the three month period ended March 31, 2008 as compared to 78.8% for the same period in 2007. This variation is attributable to increased economies of scale in customer service, Internet Service Provider (ISP) connectivity and site operations, as well as improved economic terms obtained from payment processors that more than offset a faster rate of increase of our lower gross profit margin Payments business. We expect that cost of net revenues could increase as a percentage of net revenues as revenues related to MercadoPago grow faster relative to MercadoLibre marketplace revenues. Depending on whether these increased costs are offset by improved economies of scale, gross profit margins could decline in the future.

Improving operating income margins

We have generated and expect to continue generating economies of scale in operating expenses. For the three-month period ended on March 31, 2008 operating expenses increased at a lower rate than our net revenues. For the three-month period ended March 31, 2008 our operating income margins, defined as income from operations as a percentage of net revenues, improved from 18.3% for 2007, to 22.7% for 2008, mostly driven by the impact of these economies of scale. We anticipate, however, that as we continue to invest in sales and marketing, product development and human resources in order to promote our services and capture the long term business opportunity offered by the Internet in Latin America, it may become increasingly difficult to sustain growth in operating income margins.

Description of line items

Net revenues

We recognize revenues in each of our reporting segments. The MercadoLibre marketplace segments include Brazil, Argentina, Mexico and Other countries (Chile, Colombia, Costa Rica, Dominican Republic, Ecuador, Panama, Peru, Uruguay and Venezuela). The MercadoPago segment includes our regional payments platform consisting of our MercadoPago business.

We generate revenues from the MercadoLibre marketplace segments from:

listing fees;

optional feature fees;

final value fees; and

online advertising.

We generate revenues from our MercadoPago payments segment by charging users a commission that we recognize once the transaction is completed. During the three-month period ended March 31, 2008, this commission averaged 10.3% of the payment amount made by the user through the system.

Our MercadoLibre marketplace is available in 12 countries (Argentina, Brazil, Chile, Colombia, Costa Rica, Dominican Republic, Ecuador, Mexico, Panama, Peru, Uruguay and Venezuela), and MercadoPago is available in six countries (Argentina, Brazil, Mexico, Venezuela, Colombia and Chile). The functional currency in each country's operations is the local currency. Therefore, our net revenues are generated in multiple foreign currencies and then translated into U.S. dollars at the average monthly exchange rate.

Our subsidiaries in Brazil, Argentina, Venezuela and Colombia are subject to certain taxes on revenues which are classified as costs of net revenues. These taxes represented 5.9% of net revenues for the three-month period ended March 31, 2008.

Table of Contents

Cost of net revenues

Cost of net revenues primarily represents bank and credit card processing charges for transactions and fees paid with credit cards and other payment methods, certain taxes on revenues, compensation for customer support personnel, ISP connectivity charges, depreciation charges and hosting and site operations fees.

Product and technology development

Our product and technology development related expenses consist primarily of depreciation and amortization costs related to product and technology development, compensation for our engineering and web-development staff, telecommunications costs and payments to third-party suppliers that provide technology maintenance services to our company.

Sales and marketing

Our sales and marketing expenses consist primarily of marketing costs for our platforms through online and offline advertising, bad debt charges, the salaries of employees involved in these activities, public relations costs, marketing activities for our users and depreciation and amortization costs.

We carry out the vast majority of our marketing efforts on the Internet, where we enter in agreements with portals, search engines, ad networks and other sites that seek to attract Internet users to the MercadoLibre marketplace and convert them into confirmed registered users and active traders on our platform. Additionally, we invest a portion of our marketing budget on cable television advertising, in order to improve our brand awareness and to complement our online efforts.

We also work intensively on attracting, developing and growing sellers through our supply efforts. We have dedicated professionals in most of our operations that work with sellers through trade show participation, seminars and meetings to provide them with important tools and skills to become effective sellers on our platform.

General and administrative

Our general and administrative expenses consist primarily of salaries for management and administrative staff, compensation for our outside directors fees and expenses for legal, accounting and other professional services, insurance, office space, travel and business expenses, as well as depreciation and amortization costs. General and administrative expenses include the costs of the following areas of our company: general management, finance, administration, accounting, legal and human resources.

Other income (expenses)

Other income (expenses) consists of interest expense and other financial charges derived mainly from the financing of certain working capital requirements of our Payments segment operations in Brazil, certain taxes on financial transactions, interest income derived primarily from our short-term investments and cash equivalents, foreign currency gains or losses, and other non-operating results.

Income / asset tax

We are subject to federal and state taxes in the United States, as well as foreign taxes in the multiple jurisdictions in which we operate. Our tax obligations consist of current and deferred income taxes and asset taxes incurred in these jurisdictions. We account for income taxes following the liability method of accounting. Therefore, our income tax expense consists of taxes currently payable, if any (given that in certain jurisdictions we still have net operating loss carry-forwards), plus the change during the period in our deferred tax assets and liabilities.

Table of Contents

Critical accounting policies and estimates

The preparation of our unaudited condensed consolidated financial statements and related notes requires us to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. We have based our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Our management has discussed the development, selection and disclosure of these estimates with our board of directors. Actual results may differ from these estimates under different assumptions or conditions.

An accounting policy is considered to be critical if it requires an accounting estimate to be made based on assumptions about matters that are highly uncertain at the time the estimate is made, and if different estimates that reasonably could have been used, or changes in the accounting estimates that are reasonably likely to occur periodically, could materially impact the consolidated financial statements. We believe that the following critical accounting policies reflect the more significant estimates and assumptions used in the preparation of our condensed consolidated financial statements. You should read the following descriptions of critical accounting policies, judgments and estimates in conjunction with our unaudited condensed consolidated financial statements and other disclosures included in this report.

Impairment of long-lived assets and goodwill

We review long-lived assets for impairments whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to undiscounted future net cash flows expected to be generated by the asset. If such assets are considered to be impaired on this basis, the impairment loss to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets.

Goodwill is reviewed at least annually for impairment. Impairment of goodwill is tested at the reporting unit level by comparing the reporting unit's carrying amount, including goodwill, to the fair value of the reporting unit. The fair values of the reporting units are estimated using a combination of the income or discounted cash flows approach and the market approach, which utilizes comparable companies' data. If the carrying amount of the reporting unit exceeds its fair value, goodwill is considered impaired and a second step is performed to measure the amount of impairment loss, if any. No impairments were recognized during the reporting periods.

We believe that the accounting estimate related to impairment of long lived assets and goodwill is a critical accounting estimate because it is highly susceptible to change from period to period because: (i) it requires management to make assumptions about future interest rates, sales and costs; and (ii) the impact that recognizing an impairment would have on the assets reported on our balance sheet as well as our net income would be material. Management's assumptions about future sales and future costs require significant judgment.

Provision for doubtful accounts

We are exposed to losses due to uncollectable accounts and credits to sellers. Provisions for these items represent our estimate of future losses based on our historical experience. Historically, our actual losses have been consistent with our charges. However, future changes in trends could result in a material impact to future consolidated statements of income and cash flows.

Legal contingencies

In connection with certain pending litigation and other claims, we have estimated the range of probable loss and provided for such losses through charges to our condensed consolidated statement of income. These estimates have been based on our assessment of the facts and circumstances at each balance sheet date and are subject to change based upon new information and future events.

From time to time, we are involved in disputes that arise in the ordinary course of business, and we do not expect this trend to

Table of Contents

change in the future. We are currently involved in certain legal proceedings as described in *Legal Proceedings* in item 1 of Part II of this report. We believe that we have meritorious defenses for, and will accordingly defend ourselves vigorously. However, even if successful, our defense could be costly and could divert management's time. If the plaintiffs were to prevail on certain claims, we might be forced to pay damages or modify our business practices. Any of these results could materially harm our business and could result in a material adverse impact on the financial position, results of operations or cash flows.

Income taxes

We are required to recognize a provision for income taxes based upon the taxable income and temporary differences for each of the tax jurisdictions in which we operate. This process requires a calculation of taxes payable under currently enacted tax laws in each jurisdiction and an analysis of temporary differences between the book and tax bases of our assets and liabilities, including various accruals, allowances, depreciation and amortization. The tax effect of these temporary differences and the estimated tax benefit from our tax net operating losses are reported as deferred tax assets and liabilities in our condensed consolidated balance sheet. We also assess the likelihood that our net deferred tax assets will be realized from future taxable income. To the extent we believe that it is more likely than not that some portion or all of the deferred tax asset will not be realized, we establish a valuation allowance. At March 31, 2008, we had a valuation allowance on certain foreign net operating losses based on our assessment that it is more likely than not that the deferred tax asset will not be realized. To the extent we establish a valuation allowance or change the allowance in a period, we reflect the change with a corresponding increase or decrease in our tax provision in our condensed consolidated statement of income.

Results of operations for the three-month period ended March 31, 2008 compared to three-month period ended March 31, 2007.

The selected financial data for the three-month periods ended March 31, 2008 and 2007 have been derived from our unaudited condensed consolidated financial statements included in Item 1 of Part I of this report. These statements include all normal recurring adjustments that management believes are necessary to fairly present our financial position, results of operations and cash flows. Results of operations for the three-month period ended March 31, 2008 are not necessarily indicative of the results that may be expected for the year ending December 31, 2008 or for any other period.

2 - Measure of the number of new users who have registered on the MercadoLibre marketplace and confirmed their registration.
3 - Measure of the total U.S. dollar sum of all transactions completed through the MercadoLibre marketplace, excluding motors, real estate and services.
4 - Measure of the number of items that were sold/purchased through the MercadoLibre marketplace.
5 - Measure of the total U.S. dollar sum of all transactions paid for using MercadoPago.

Net revenues

Net revenues were \$28.8 million for the three-month period ended March 31, 2008, an increase of \$12.4 million, or 75.2%, from net revenues of \$16.5 million for the same period in 2007. This increase was attributable to a 65.4% increase in revenues derived from our MercadoLibre marketplace, from \$14.2 million for the three-month period ended March 31, 2007 to \$23.5 million for the same period in 2008, and to a 136.7% increase in revenues derived from MercadoPago, from \$2.3 million to \$5.4 million for the same periods.

Growth in MercadoLibre marketplace revenues resulted principally from a 43.9% increase in the gross merchandise volume transacted through our platform, and from an increase in our take rate, defined as marketplace revenues as a percentage of gross merchandise volume, from 4.5% to 5.2%. The growth in MercadoPago revenues resulted principally from a 96.6% increase in the total payments volume completed on our MercadoPago payments platform, and from an increase in our take rate, defined as payments revenues as a percentage of total payment volume, from 8.5% to 10.2%.

On a segment basis, during the three-month period ending March 31, 2008 net revenue increased by \$12.4 million compared to the same period of 2007 primarily due to increases of \$4.2 million, or 54.2% in our Marketplace in Brazil, \$1.3 million, or 59.7% in our Marketplace in Argentina, \$0.8 million, or 34.7% in our Marketplace in Mexico, \$3.0 million or 144.0% from Marketplaces in all other countries and \$3.1 million, or 136.7% from our MercadoPago payments platform.

Cost of net revenues

Cost of net revenues was \$6.0 million for the three-month period ended March 31, 2008, an increase of 72.6% from cost of net revenues for the same period in 2007. Cost of net revenues improved to 20.9% of net revenues for the three-month period ended March 31, 2008 from 21.2% for the same period in 2007. These increases were primarily attributable to additional billing and collections costs, sales taxes, and customer support expenditures.

Billing and collections fees increased by \$1.0 million, or 84.6% for the three-month period ended March 31, 2008 compared to the same period in 2007. Sales taxes on our net revenues increased by \$0.8 million, or 84.4%, for the three-month period ended March 31, 2008, compared to the same period for 2007. Expenditures in our in-house customer support operations grew in the amount of \$0.3 million, an increase of 32.7% compared to the three-month period ended March 31, 2007, mostly driven by investments in improved service, initiatives to combat fraud, illegal items and fee evasion.

Product and technology development

Edgar Filing: MERCADOLIBRE INC - Form 10-Q

Product and technology development expenses were \$1.7 million for the three-month period ended March 31, 2008, an increase of \$0.7 million, or 79.2%, from \$1.0 million for the same period in 2007. Product and technology development expenses as a percentage of net revenues was 6.0% for the three-month period ended March 31, 2008 from 5.9% of net revenues for the same period in 2007.

-32-

Table of Contents

The growth in product and technology development expenses was primarily attributable to an increase in compensation costs of 111.6% for the three-month period ended March 31, 2008, over the same period for 2007. These added compensation expenses, growing at a faster rate than revenues, were primarily related to the addition of engineers and increases in salaries, as we continue to invest in top quality talent to develop enhancements and new features across our trading platforms. We believe product development is one of our key competitive advantages and intend to continue to invest in added engineers to meet the increasingly sophisticated product expectations of our customer base.

Sales and marketing

Sales and marketing expenses were \$9.2 million for the three-month period ended March 31, 2008, an increase of \$2.9 million, or 45.9%, from \$6.3 million over the same period in 2007. Sales and marketing expenses represented 32.0% of our net revenues for the three-month period ended March 31, 2008, down from 38.4% for the same period in 2007.

The growth in sales and marketing expenses resulted primarily from our increased expenditures in online advertising programs in the amount of \$1.4 million, a 41.7% increase over the three-month period ended March 31, 2007. Online advertising represented 16.4% of our net revenues in the three-month period ended March 31, 2008, down from 20.3% for the same period in 2007. Sales and marketing expenses also grew from 2007 to 2008 due to an increase in compensation costs in the amount of \$0.7 million, or 91.2%, for the three-month period ended March 31, 2008, driven by additional headcount of the Company, the incorporation of CMG employees, and increased salaries to retain talent. Additionally, bad debt charges increased \$0.7 or 41.5% for the three-month period ended March 31, 2008 when compared to the same period one year earlier. Bad debt charges for the quarter represented 8.2% of net revenues, down from 10.2% for the same period in 2007.

General and administrative

Our general and administrative expenses were \$5.3 million for the three-month period ended March 31, 2008, an increase of \$2.6 million, or 98.9%, over the same period in 2007. As a percentage of net revenues, our general and administrative expenses were 18.4% for the three-month period ended March 31, 2008, from 16.3% for the same period in 2007.

The major component that drove growth in general and administrative expenses over the comparable periods for the previous year was \$1.5 million in increased compensation costs during the three-month period ended March 31, 2008, a 113.4% rate of growth. These added compensation costs primarily went to hire additional employees to support our growing business and public company requirements, increases in salaries to retain talent, compensation for outside directors and the incorporation of CMG employees. General and Administrative expenses were also impacted due to the fact that, as part of the \$19.0 million acquisition of CMG, \$2.0 million was placed into an escrow account for twelve months in order to secure the obligations of the shareholders that remained as managers. For the three-month period ended March 31, 2008, the Company accrued compensation expenses related to this concept that were included in General and Administrative expenses for \$0.4 million and not as part of the purchase price, following EITF 95-8 Accounting for Contingent Consideration Paid to the Shareholders of an Acquired Enterprise in a Purchase Business Combination (See note 4 to our unaudited condensed consolidated financial statements included in this report). Additionally, outside service fees grew \$0.7 million, or 142.3%, for the three-month period ended March 31, 2008 when compared to the same period in 2007, due to increased in legal expenses, additional costs associated with being a publicly traded company, and fees related to the follow-on offering that was withdrawn in March.

Other income (expenses)

Our other expenses were \$1.6 million for the three-month period ended March 31, 2008, an increase of \$0.5 million from other expenses of \$1.1 million for the same period in 2007. The increase during the three-month period ended March 31, 2008 was primarily a result of an increase in interest expense and other financial charges from \$0.5 million in the three-month period ended

Table of Contents

March 31, 2007 to \$1.4 million in the same period of 2008, mostly derived from an increase of \$0.8 million in interest expenses from \$0.1 million to \$0.9 million, as a result of financing incurred to fund working capital needs in our Payments operations in Brazil. As of March 31, 2008, total interest expense regarding working capital requirement of our MercadoPago operations has been recorded as interest expense and not as cost of net revenues. In 2007, interest expenses of \$0.1 million have been reclassified for comparison purposes to the current year's presentation.

In addition, these expenses also grew due to an increase in our foreign currency losses to \$1.0 million for the three-month period ended March 31, 2008, an increase of \$0.6 million from foreign currency losses of \$0.4 million for the same period in 2007. This increase was primarily due to the cost of transferring funds from Venezuela to other countries. The foreign currency losses were partially offset by \$0.6 million increase in short term investment interest income from \$0.1 million for the period ended March 31, 2007 to \$0.7 in 2008, and by not having any more expenses accrued to account for the increase in the fair value of warrants, versus \$0.3 million recorded for the three-month period ended March 31, 2007

Income and asset tax

Our reported income and asset tax expense for the three-month period ended March 31, 2008 was \$2.9 million compared to a reported tax expense of \$0.9 million for the same period in 2007, an increase of \$2.0 million, or 224.5%. Our blended tax rate defined as income and asset tax expense as a percentage of income before income and asset tax was 58.1% for the three-month period ended March 31, 2008 and 47.1% for the same period in 2007. The increase in our blended tax rate was mainly due to a new Mexican tax called Impuesto Empresarial a Tasa Única (IETU), which affects our Mexican operations, due to foreign exchange losses in Venezuela that are not deductible and due to the impact of \$0.4 million accrued compensation expenses following the EITF 95-8 Accounting for Contingent Consideration Paid to the Shareholders of an Acquired Enterprise in a Purchase Business Combination (See General and Administrative above). The related tax credit has a full valuation allowance. These items were partially compensated by a lower tax rate in Argentina beginning in 2008, as the Company is a beneficiary of a software development law. Part of the benefits obtained from being a beneficiary of the aforementioned law is a relief of 60% of total income tax determined in each year, for 10 years.

Our effective income tax rate, defined as the provision for income taxes as a percentage of pre tax income, was 48.3% for the three-month period ended March 31, 2008, compared to 40.4% for the same period in 2007. The effective income tax rate excludes the effects of the IETU tax and the deferred income tax.

Liquidity and Capital Resources

Our main cash requirements are capital expenditures relating to technology infrastructure and software applications. We also require working capital to fund MercadoPago. Since our inception, we funded our operations primarily through contributions received from our stockholders obtained during the first two years of operations, and cash generated from our operations. We have funded MercadoPago by discounting credit card receivables, through cash advances derived from our MercadoLibre marketplace business and with loans backed with credit card receivables.

At March 31, 2008, our principal source of liquidity was \$51.9 million of cash and cash equivalents, and short-term investments, provided by the net proceeds of our initial public offering as well as cash generated from operations.

The significant components of our working capital are cash and cash equivalents, short-term investments, accounts receivable, accounts payable and accrued expenses, funds receivable from and payable to MercadoPago users, and short-term debt. As MercadoPago grows as a percentage of total revenues we anticipate increased working capital needs. We intend to fund these needs through a combination of cash advances from our marketplace business, discounting credit card receivables, loans backed by these credit card receivables or through other forms of debt financing. We may also obtain additional funds in future offerings.

Table of Contents

The following table presents our cash flows from operating activities, investing activities and financing activities for the three-month periods ended March 31, 2008 and 2007:

(In millions)	Three Months ended March 31,	
	2008	2007
	(Unaudited)	
Net Cash provided by (used in):		
Operating activities	\$ 6.9	\$ 2.5
Investment activities	(3.0)	(3.3)
Financing activities	(6.2)	
Effect of exchange rate changes on cash and cash equivalents	0.6	
Net decrease in cash and cash equivalents	(1.7)	(0.8)

Net cash provided by operating activities

Cash provided by operating activities consisted of net income adjusted for certain non-cash items, and the effect of changes in working capital and other activities. Our net cash from operating activities was \$6.9 million for the three-month period ended March 31, 2008 as compared to \$2.5 million for the same period in 2007, an increase of \$4.4 million or 174.6%. This improvement was in part a result of an increase in net income of \$1.1 million, to \$2.1 million for the three-month period ended March 31, 2008 when compared to \$1.0 million for the same period in 2007. Net cash provided by operations during the three-month period ended March 31, 2008 also grew by \$3.9 million versus the same period of 2007 as a consequence of cash provided by working capital in our Payments segment, from \$(0.2) million for the three-month period ended March 31, 2007 to \$3.7 million for the same period in 2008, derived mostly from the discounting of credit card receivables.

Additionally, cash provided by operations was positively impacted by an increase of \$1.8 million in accounts payable, up to \$3.5 million for the three months ended March 31, 2008, from \$1.7 million during the same period in 2007. These increases in cash provided by operations were partially offset by cash used in operations, primarily decreases in non-cash charges to earnings such as interest expenses, realized gains on investments, changes in fair value of warrants during 2007, and deferred income taxes; and increases in accounts receivable, other assets, and other liabilities.

Net cash used in investing activities

Net cash used in investing activities was \$(3.0) million for the three-month period ended March 31, 2008 compared to \$(3.3) million during the same period in 2007. Net cash used in investing activities resulted primarily from the purchase of 100% of the issued and outstanding shares of capital stock of CMG for a fair value of \$0.7 million, trademarks for \$5.6 million and goodwill for \$13.0 million. The outflow showed in our statement of cash flow amounts to \$ 16.8 million since it is net of cash acquired (0.5 million) and does not consider \$ 2.0 million recorded as compensation expense and not as part of the purchase price, following EITF 95-8 (See Note 4 to our unaudited condensed consolidated financial statements and General and Administrative above).

Additionally, purchases of investments accounted for \$(48.6) million of cash used in investing activities during the three-month period ended March 31, 2008, as part of our financial investment strategy. This consumption of cash was more than offset during the first three months of 2008 by proceeds from the sale of investments for \$63.6 million also part of our financial strategy. Net cash used in investing activities was also affected by capital expenditures related to technological equipment, software licenses and to a lesser degree office equipment, in the amount of \$0.9 million for the three-month period ended March 31, 2008.

Net cash used in financing activities

Cash used in financing activities was \$(6.2) million for the three-month period ended March 31, 2008 as we reduced our financing from loans backed by Payments credit card receivables.

In the event that we decide to pursue strategic acquisitions in the future, we may fund them with our own resources or we may choose to obtain financing from a third party, or through the sale of securities.

Table of Contents

Debt

In 2007, we had begun to finance Payments funds payable with loans backed by Payments credit card receivables, which are recorded as financial debt, and not as a reduction in the receivable balance. As a result, the cash inflow is recorded as cash flow from financing activities in the statements of cash flows, and not as cash flow from operating activities. As of March 31, 2008 we had \$3.6 million of loans of this sort.

Capital expenditures

Our capital expenditures increased \$19.6 million, to \$20.2 million for the three-month period ended March 31, 2008 as compared to \$0.6 million for the same period in 2007. This increase was mainly due to the CMG acquisition, as described above in the sections *Liquidity and Capital resources* and *Net cash used in investing activities* .

Additionally, in property and equipment we primarily recorded purchases of hardware and software licenses necessary to maintain and update the technology of our platform, and to a lesser degree office equipment. For fiscal year 2008, we have approximately \$5.0 million in planned capital expenditures for these items, and anticipate continued investments in capital expenditures in the future as we strive to maintain our position in the Latin American e-commerce market.

We believe that our existing cash and cash equivalents, the net proceeds from our initial public offering, discounting of credit card receivables and cash generated from operations will be sufficient to fund our operating activities, property and equipment expenditures and other obligations going forward.

Off-balance sheet arrangements

At March 31, 2008, we did not have any off-balance sheet arrangements or relationships with unconsolidated entities for the purpose of facilitating contractually narrow or limited purposes.

Recent accounting pronouncements

Fair Value Measurements

Effective January 1, 2008, the Company adopted Statement of Financial Accounting Standards (FAS) No. 157, Fair Value Measurements (FAS 157). In February 2008, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) No. FAS 157-2, Effective Date of FASB Statement No. 157, which provides a one year deferral of the effective date of FAS 157 for non-financial assets and non-financial liabilities, except those that are recognized or disclosed in the financial statements at fair value at least annually. Therefore, the Company has adopted the provisions of FAS 157 with respect to its financial assets and liabilities only. The adoption of FAS 157 did not have a material impact on the consolidated results of operations or financial condition. See note 6 of our condensed consolidated financial statements included in this report for further details.

Business Combinations

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141 (revised 2007), Business Combinations (SFAS 141 R). This Statement replaces SFAS 141, Business Combinations . SFAS 141 R retains the fundamental requirements in SFAS 141 that the acquisition method of accounting (which SFAS 141 called the purchase method) be used for all business combinations. SFAS 141 R defines the acquirer as the entity that obtains control of one or more businesses in the business combination and establishes the acquisition date as the date that the acquirer achieves control. SFAS 141 did not define the acquirer, although it included guidance on identifying the acquirer, as does SFAS 141 R. SFAS 141 R scope is broader than that of SFAS 141, which applied only to business combinations in which control was obtained by transferring consideration.

SFAS 141 applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. An entity may not apply it before that date.

Table of Contents**Noncontrolling Interests in Consolidated Financial Statements**

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160, Noncontrolling Interests in Consolidated Financial Statements an amendment of ARB No. 51 (SFAS 160). SFAS 160 amends Accounting Research Bulletin (ARB) N° 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS 160 clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. SFAS 160 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. Earlier adoption is prohibited.

Fair Value of Stock Options

On December 27, 2007, the Securities and Exchange Commission issued staff accounting bulletin N° 110 (SAB. 110) expresses the views of the staff regarding the use of a simplified method, as discussed in SAB No. 107 (SAB 107), in developing an estimate of expected term of plain vanilla share options in accordance with Statement of Financial Accounting Standards No. 123 (revised 2004), *Share-Based Payment*. In particular, the staff indicated in SAB 107 that it will accept a company's election to use the simplified method, regardless of whether the company has sufficient information to make more refined estimates of expected term. At the time SAB 107 was issued, the staff believed that more detailed external information about employee exercise behavior (e.g., employee exercise patterns by industry and/or other categories of companies) would, over time, become readily available to companies. Therefore, the staff stated in SAB 107 that it would not expect a company to use the simplified method for share option grants after December 31, 2007. The staff understands that such detailed information about employee exercise behavior may not be widely available by December 31, 2007. Accordingly, the staff will continue to accept, under certain circumstances, the use of the simplified method beyond December 31, 2007.

Contractual obligations

We have certain fixed contractual obligations and commitments that include future estimated payments. Changes in our business needs, cancellation provisions and other factors may result in actual payments differing materially from the estimates. We cannot provide certainty regarding the timing and amount of payments. Below is a summary of the most significant assumptions used in our determination of amounts presented in the table. Contractual obligations at March 31, 2008 are as follows:

(In millions)	Total	Payment due by period			More than 5 years
		Less than 1 year	1-3 years	3-5 years	
Operating lease obligations (1)	\$ 2.1	\$ 0.9	\$ 1.0	\$ 0.2	
Purchase obligations	3.1	3.0	0.1		
Total	\$ 5.2	\$ 3.9	\$ 1.1	\$ 0.2	

(1) Includes leases of office space.

We do not have long-term debt obligations. We have leases for office space in certain countries in which we operate. These are our only operating leases. Purchase obligation amounts include minimum purchase commitments for advertising, capital expenditures (technological equipment and software licenses) and other goods and services that were entered into in the ordinary course of business. We have developed estimates to project payment obligations based upon historical trends, when available, and our anticipated future obligations. Given the significance of performance requirements within our advertising and other arrangements, actual payments could differ significantly from these estimates.

Table of Contents**Item 3 Qualitative and Quantitative Disclosure About Market Risk**

We are exposed to market risks arising from our business operations. These market risks arise mainly from the possibility that changes in interest rates and the U.S. dollar exchange rate with local currencies, particularly the Brazilian real due to Brazil's share of our revenues, may affect the value of our financial assets and liabilities.

Foreign currencies

At March 31, 2008, none of our outstanding debt was denominated in U.S. dollars. In addition, we hold cash and cash equivalents in local currencies in our subsidiaries, and have receivables denominated in local currencies in all of our operations. Our subsidiaries also incur most of their expenses in local currency. As a result, our subsidiaries use their local currency as their functional currency. At March 31, 2008, the total cash and cash equivalents denominated in foreign currencies totaled \$5.8 million, and accounts receivable and funds receivable from customers in foreign currencies totaled \$28.7 million. To manage exchange rate risk, our treasury policy is to transfer all cash and cash equivalents in excess of working capital requirements into dollar-denominated accounts in the United States. At March 31, 2008, these dollar-denominated cash and cash equivalents and short-term investments totaled \$44.5 million. If the U.S. dollar weakens against foreign currencies, as occurred in many countries in which we operated in the three-month period ended March 31, 2008, the translation of these foreign-currency-denominated transactions will result in increased net revenues, operating expenses, and net income. Similarly, our net revenues, operating expenses and net income will decrease if the U.S. dollar strengthens against foreign currencies. During the three-month period ended March 31, 2008, 56.8% of our revenues were denominated in Brazilian reais, 13.2% in Argentine pesos and 11.4% in Mexican pesos.

We have estimated that the impact of exchange rate fluctuations on our results of operations for the three-month period ended March 31, 2008 resulted in higher net revenues of approximately \$3.0 million, and higher aggregate cost of net revenues and operating expenses of approximately \$2.4 million. For net income, we estimated a decrease of \$0.3 million for the three-month period ended March 31, 2008. This calculation was made taking the average monthly exchange rates for each month in the first quarter of 2007, and applying them to the corresponding months in 2008, so as to calculate what our financial results would have been had exchange rates remained stable from one year to the next.

The following table summarizes the distribution of net revenues based on geography:

	Three Months ended March 31,	
	2008	2007
Brazil	\$ 16.4	\$ 9.4
Argentina	3.8	2.4
Mexico	3.3	2.4
Other countries	5.3	2.2
Total net revenues	\$ 28.8	\$ 16.5

While we have entered in the past into transactions to hedge portions of our foreign currency translation exposure, such transactions are expensive. It is unlikely that we will enter into such hedging transactions in the future due to the cost and because it is not possible to accurately predict or completely eliminate the effects of our foreign currency exposure.

Interest

Our earnings and cash flows are also affected by changes in interest rates. These changes can have an impact on our interest expenses derived from discounting our MercadoPago receivables. At March 31, 2008, MercadoPago funds receivable from customers totaled approximately \$25.6 million. Interest fluctuations could also negatively affect certain of our fixed rate and floating rate investments

Table of Contents

comprised primarily of time deposits, money market funds, commercial paper, investment grade corporate debt securities, bond mutual funds and treasury bills. Investments in both fixed rate and floating rate interest earning products carry a degree of interest rate risk. Fixed rate securities may have their fair market value adversely impacted due to a rise in interest rates, while floating rate securities may produce less income than predicted if interest rates fall. Under our current policies, we do not use interest rate derivative instruments to manage exposure to interest rate changes. Due to the short-term nature of substantially all of these investments, a 100 basis point movement in market interest rates would not have a material impact on the total fair market value of our portfolio as of March 31, 2008 or interest expenses derived from discounting our MercadaPago receivables.

We consider substantially all of our investments to be short-term investments, which are classified on our balance sheet as current assets, because (i) the investments can be readily converted at any time into cash or into securities with a shorter remaining time to maturity and (ii) the investments are selected for yield management purposes only and we are not committed to holding the investments until maturity. We determine the appropriate classification of our investments at the time of purchase and re-evaluate such designations as of each balance sheet date. We classify our investments in money market funds as available-for-sale and are stated at fair market value, with the unrealized gains and losses reported as a component of accumulated other comprehensive income, net of estimated tax. The cost of securities sold is based on the specific identification method. Treasury bills, commercial papers, corporate debt securities and time deposits are considered held-to-maturity securities. The book value of held-to-maturity securities approximates their respective fair values and consequently there are no significant unrecognized gains or losses.

Certain working capital requirements of our MercadoPago business in Brazil were financed through loans backed by credit card receivables. See Item 1A Risk Factors Risks related to doing business in Latin America in our Annual Report on Form 10-K for the fiscal year ended December 31, 2007, for a further discussion of some of our foreign currency risks.

Credit

We invest in high-quality financial instruments, primarily of time deposits, money market funds, commercial paper, investment grade corporate debt securities, bond mutual funds and treasury bills, which we believe are subject to limited credit risk. Credit risk is risk due to uncertainty in a counterparty's ability to meet its financial obligations. For the three-month period ended March 31, 2008, market perception of these risks, together with certain market dislocations, had an adverse effect on the fair value of certain classes of securities, including in some cases, high-quality financial instruments that were not previously viewed as having credit risk, which had a negative impact on the market value of those classes of securities. We seek, however, to minimize such risk by entering into transactions with counterparties that are believed to be creditworthy financial institutions or classes which we believe have not been affected by the current credit market environment.

Item 4T Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports pursuant to the Securities Exchange Act of 1934, as amended (the Exchange Act) is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated our management, including chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

Evaluation of disclosure controls and procedures

Based on the evaluation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) required by Exchange Act Rules 13a-15(b) or 15d-15(b), our chief executive officer and our chief financial officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective.

Table of Contents

Management's Report on Internal Control over Financial Reporting

This Quarterly Report on Form 10-Q does not include a report of management's assessment regarding internal control over financial reporting due to a transition period established by rules of the Securities and Exchange Commission for newly public companies.

Attestation Report of Registered Public Accounting Firm

This Quarterly Report on Form 10-Q does not include an attestation report of the company's registered public accounting firm due to a transition period established by rules of the Securities and Exchange Commission for newly public companies.

Changes in internal controls

There were no changes in our internal control over financial reporting (as such term is defined in Rule 13a-15(f) and 15d-15(f) under the Securities Exchange Act) during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1 Legal Proceedings

From time to time, we are involved in disputes that arise in the ordinary course of our business. The number and significance of these disputes is increasing as our business expands and our company grows. Any claims against us, whether meritorious or not, are time consuming, can result in costly litigation, require significant amounts of management time, can result in the diversion of significant operational resources and could require expensive implementations of changes to our business methods to respond to these claims. See Item 1A Risk Factors in our Annual Report on Form 10-K for the fiscal year ended December 31, 2007, for additional discussion of the litigation and regulatory risks facing our company.

At March 31, 2008, our total reserves for proceeding-related contingencies were approximately \$0.82 million for 264 legal actions against us where we have determined that a loss is probable. We do not reserve for losses we determine to be possible or remote.

As of March 31, 2008, we had 169 cases in litigation against our Brazilian subsidiary in the Brazilian ordinary courts. In addition, at March 31, 2008 our Brazilian subsidiary had more than 1,260 cases still in litigation in consumer courts, where a lawyer is not required. In most of these cases, the plaintiffs asserted that we were responsible for fraud committed against them, or responsible for damages suffered when purchasing an item on our website, when using MercadoPago, or when we invoiced them. We believe we have meritorious defenses to these claims and intend to continue defending them.

We do not believe that any single pending lawsuit or administrative proceeding, if adversely decided, would have a material adverse effect on our financial condition results of operations and cash flows. Set forth below is a description of the legal proceedings that we have determined to be material to our business. We have excluded ordinary routine legal proceedings incidental to our business. In each of these proceedings we also believe we have meritorious defenses, and intend to continue defending these actions. We have established a reserve for these proceedings (see Litigation section below for more detail).

Litigation

On March 28, 2003, Qix Skateboards Indústria e Comercio Ltda., or Qix, sued MercadoLivre.com Atividades de Internet Ltda., our Brazilian subsidiary, in the 3rd Civil Court, County of Novo Hamburgo, State of Rio Grande do Sul, Brazil. Qix alleged that our Brazilian subsidiary was infringing Qix's trademarks as a result of users selling allegedly counterfeit Qix shoes through the Brazilian page of our web site, based on Brazilian Industrial Property Law (Law 9,279/96). Qix sought an order enjoining the sale of Qix-branded shoes on the MercadoLibre marketplace with a \$50,000 daily non-compliance penalty. An injunction was granted to

Table of Contents

prohibit the offer of Qix products on our platform, but the penalty was established at \$500. We appealed the decision, but the injunction was not lifted. To date, we have not received the summons for the original action because we filed an appeal challenging the jurisdiction of the court, which appeal is still pending.

On November 5, 2003, Editora COC Empreendimentos Culturais Ltda., or Editora COC, sued our Brazilian subsidiary in the 3rd Civil Court of the County of Bauru, State of São Paulo, Brazil. Editora COC alleged that our Brazilian subsidiary and an identified user were both infringing Editora COC's trademarks as a result of our users selling allegedly pirate copies of Editora's COC CD-ROMs through the Brazilian page of our web site, based on Brazilian Industrial Property Law (Law 9,279/96) and the Brazilian Copyright Law (Law 9,610/98). Editora COC sought an order for the search and seizure of products held by the user and enjoining the sale of Editora COC-branded products on our platform. An injunction was granted to prohibit the offer of Editora COC's products on our platform. In 2005, the court ruled against us and held that we had to pay \$3,000 and our co-defendant had to pay \$900 in moral damages, plus an amount of material damages to be defined at judgment execution, plus attorneys' fees in the amount of 10% of the total damages paid by each defendant. We have appealed the ruling to the relevant court of appeals.

On March 17, 2006, Vintage Denim Ltda., or Vintage, sued our Brazilian subsidiaries MercadoLivre.com Atividades de Internet Ltda. and eBazar.com.br Ltda. in the 29th Civil Court of the County of São Paulo, State of São Paulo, Brazil. Vintage requested a preliminary injunction alleging that these subsidiaries were infringing Diesel trademarks and their right of exclusive distribution as a result of sellers listing allegedly counterfeit and original imported Diesel branded clothing through the Brazilian page of our web site, based on Brazilian Industrial Property Law (Law 9,279/96). Vintage sought an order enjoining the sale of Diesel-branded clothing on our platform. A preliminary injunction was granted on April 11, 2006 to prohibit the offer of Diesel-branded products, and a fine for non-compliance was imposed in the approximate amount of \$5,300 per defendant per day of non-compliance. We appealed the decision, but the preliminary injunction was not lifted. On August 16, 2007 we presented another appeal to the Superior Court of Justice, in Brasília. Vintage filed an action requesting a permanent injunction on May 12, 2006, alleging the same facts as alleged in the preliminary injunction request. In September of 2006, a fine of \$157,000 was imposed on our Brazilian subsidiaries due to the alleged non-compliance of the preliminary injunction. We filed an appeal to the fine and requested its suspension pending a final adjudication on the merits. In October of 2006, the fine was suspended and on January 23, 2007, the fine was declared null and void. However, because our appeal of the preliminary injunction failed, in March of 2007, Vintage presented new petitions alleging non-compliance of the preliminary injunction granted to Vintage and requested a fine of approximately \$3.3 million against us, which represents approximately \$5,300 per defendant per day of alleged non-compliance since April 13, 2006. On July 4, 2007, the judge ordered the payment of the fine mandated in the preliminary injunction, without specifying the amount. When we are officially notified of the amount of the fine, we will present a new appeal against the application of the fine. On July 18, 2007 the judge set a conciliatory hearing for August 1, 2007. We attended the hearing but could not reach an agreement. On September 14, 2007, the judge decided that (i) our Brazilian subsidiaries were not responsible for alleged infringement of intellectual property rights by its users; and that (ii) the plaintiffs did not prove the alleged infringement of its intellectual property rights. The decision maintained the injunction until such ruling is non-appealable. We presented a request that the injunction should be revoked, but it was rejected. Plaintiff presented appeal against the decision on the September 14, 2007 ruling, which appeal was published on December 11, 2007. On January 8, 2008, we presented an appeal to the Court of the State of São Paulo against the decision that maintained the injunction, and, on January 14, 2008, we presented a reply to the appeal filed by the plaintiff.

On April 6, 2006, Fallms Distribuição de Fitas Ltda., or Fallms, and 100% Nacional Distribuidora de Fitas Ltda., or 100% Nacional, sued our Brazilian subsidiary in the Second Civil Court of Santo Amaro, County of São Paulo, State of São Paulo, Brazil. Fallms and 100% Nacional alleged that our Brazilian subsidiary was infringing their intellectual property rights as a result of users selling unauthorized copies of their copyrighted movies through the Brazilian page of our web site and by using their trademark *Brasileirinhas* on such copies. Fallms and 100% Nacional sought an order enjoining the sale of Fallms, 100% Nacional and *Brasileirinhas* branded movies on our platform. An injunction was granted to prohibit the offer of Fallms, 100% Nacional and *Brasileirinhas* branded movies. We were summoned in March of 2007 and presented our defense on March 14, 2007. In June of 2007, Fallms filed a petition to increase the fine imposed in the preliminary injunction, from approximately \$200, to approximately \$530 per day of noncompliance, based on alleged non-compliance by our Brazilian subsidiary. On July 2, 2007, we presented a

Table of Contents

petition requesting the judge to revoke the preliminary injunction. On July 25, 2007, the judge revoked the preliminary injunction. On the same date, the judge decided that (i) our Brazilian subsidiary was not responsible for alleged infringement of intellectual property rights by its users; and that (ii) the plaintiffs did not prove that (a) they own the trademark *Brasileirinhas* and copyrights of *Brasileirinhas* branded movies and (b) the alleged infringement of intellectual property rights resulted in an effective copyright violation. The plaintiffs presented a request asking for clarification of the decision, but it was rejected. On November 6, 2007, plaintiffs appealed the July 25, 2007 decision that dismissed the case, and we presented our reply to that appeal on February 1, 2008.

On March 7, 2007, Xuxa Promoções e Produções Artísticas Ltda., or Xuxa, sued our Brazilian subsidiary in the Court of Barra da Tijuca, Rio de Janeiro, State of Rio de Janeiro, Brazil. Xuxa, a popular television personality in Brazil, alleged that counterfeit copies of one of her CDs and of a movie with her participation as an actress (for which she owns the copyright and distribution rights) are being sold on our platform, and as such our Brazilian subsidiary is infringing her intellectual and property rights. Xuxa seeks an injunction, the establishment of preventive measures, fines, and compensatory and statutory damages. An injunction ordering the removal of any offers of copies of this CD and movie was granted to Xuxa. We appealed the injunction on July 2, 2007 and presented our defense on July 6, 2007. On December 17, 2007, both parties filed a joint petition requesting suspension of the process for 60 days until March 10, 2008, due to negotiation of a settlement of the case. On March 10, 2008, both parties presented a joint petition requesting the extension of the suspension term for 30 more days.

On June 11, 2007, Praetorium Instituto de Ensino, Pesquisas e Atividades de Extensão e Direito Ltda., or Praetorium, sued our Brazilian subsidiary in the Fourth Civil Court of the County of Belo Horizonte, State of Minas Gerais, Brazil. Praetorium alleged that our Brazilian subsidiary was infringing Praetorium's copyrights as a result of our users selling allegedly counterfeit copies of Praetorium's courses through the Brazilian page of our web site. Praetorium seeks an injunction, fines, and compensatory and statutory damages. An injunction ordering the removal of any offers containing the name of Praetorium was granted to Praetorium on July 11, 2007 giving us 48 hours to comply. In addition to the preliminary injunction, a fine of approximately \$5,300 per day of noncompliance was imposed up to a maximum of approximately \$131,000 and a fine of approximately \$530 was also imposed for each new product posted after July 13, 2007 containing the name of Praetorium and listed in the Brazilian page of our web site. On August 3, 2007, we appealed the preliminary injunction to the State Court of Minas Gerais and presented our defense on August 8, 2007. On November 20, 2007, the State Court of Minas Gerais rejected our request that the injunction should be suspended until judgment of the appeal. Notwithstanding, the appeal against the decision that granted the preliminary injunction is still pending.

On August 20, 2007, Sette Informações Educacionais Ltda., or Sette, sued our Brazilian subsidiary in the Fourth Civil Court of the City of Recife, State of Pernambuco, Brazil. Sette alleged that our Brazilian subsidiary was infringing its intellectual property rights as a result of users selling unauthorized copies of Sette's courses through the Brazilian web site. Sette seeks an injunction, fines, and compensatory and statutory damages. We presented our defense on October 5, 2007. On December 28, 2007, the case was settled, under an agreement to establish procedures to protect Sette's intellectual property rights based on the notice and take down of alleged infringing items listed in the Brazilian web site; no consideration was paid to plaintiff to settle the case. We filed a joint petition settling the case on January 11, 2008 which was accepted by the judge on April 11, 2008.

On August 23, 2007, Serasa S.A., or Serasa, sued our Brazilian subsidiary in the Sixth Civil Court of Santo Amaro, City of São Paulo, State of São Paulo, Brazil. Serasa, a company which provides credit-related analysis, information services and data bank and payment habits related to individuals and corporations, alleged that our Brazilian subsidiary should be responsible for the sale by its users of allegedly unlawful content and unfair uses of its services and Serasa's trade name and trademarks. Serasa seeks an injunction, fines, and compensatory damages. On November 5, 2007 a preliminary injunction was granted to Serasa, ordering our Brazilian subsidiary (a) to remove any content offering: (i) consultation of Serasa's database; and (ii) passwords, texts or any material that promises to consult, remove or teach how to remove someone name from Serasa's database; (b) the prohibition to allow in its web site any content similar to the aforementioned; and (c) to provide certain personal data of certain users who have offered such products. In addition to the preliminary injunction, a fine of approximately \$5,500 per day of noncompliance was imposed. On December 17, 2007, our Brazilian subsidiary presented the information requested. We appealed the preliminary injunction to the State Court of São Paulo and presented our defense on January 7, 2008. Serasa replied to our appeal on January 30, 2008. On March 26, 2008, we were

Table of Contents

summoned with a petition presented by Serasa alleging non-compliance with the injunction. We presented our response on March 31, 2008, arguing that we are in full compliance with the injunction.

On November 23, 2007 Botelho Indústria e Distribuição Cinematográfica Ltda., or Botelho, sued our Brazilian subsidiary in the Third Civil Court of the City of Rio de Janeiro, State of Rio de Janeiro, Brazil. Botelho alleged that our Brazilian subsidiary was infringing its intellectual property rights as a result of users selling unauthorized copies of Botelho's courses through the Brazilian web site. Botelho seeks an injunction, fines, and compensatory and statutory damages, which was not analyzed by the judge yet. On February 25, 2008 we presented arguments to give the judge support and background to analyze the requested injunction. We presented our defense on March 5, 2008.

On October 25, 2007, Iglesia Mesianica Mundial Sekai Kyusei Kio en la Argentina, or Iglesia Mesianica, filed suit against our Argentine subsidiary, MercadoLibre S.A., in the Thirteenth Civil Court of the City of Buenos Aires, Argentina. The complaint was officially notified on April 17, 2008. Iglesia Mesianica alleged in the complaint that our Argentine subsidiary should be held liable as a result of our users selling books that allegedly plagiarized certain Iglesia Mesianica's books through the Argentine page of our web site. Iglesia Mesianica seeks monetary damages. We presented our defense on May 9, 2008.

State of São Paulo Fraud Claim

On June 12, 2007 a state prosecutor of the State of São Paulo, Brazil presented a claim against our Brazilian subsidiary. The state prosecutor alleges that our Brazilian subsidiary should be held liable for any fraud committed by sellers on the Brazilian version of our website, or responsible for damages suffered by buyers when purchasing an item on the Brazilian version of the MercadoLibre web site. We were summoned on December, 12, 2007 and presented our defense on January 4, 2008.

City of São Paulo Tax Claim

On September 13, 2007, we paid to tax authorities in São Paulo, Brazil approximately \$1.1 million, consisting of \$1.0 million in accrued taxes and \$0.1 million in fines, related to our Brazilian subsidiary's activities in São Paulo for the period 2002 through 2004. We had reserved approximately \$1.1 million against these taxes as of December 31, 2006 so no additional provision was recorded for the payment. São Paulo tax authorities have also asserted taxes and fines against us relating to the period from 2005 to 2007 in an approximate additional amount of \$5.9 million. In January 2005 we had moved our operations to Santana de Parnaíba City, Brazil and began paying taxes to that jurisdiction, therefore we believe we have strong defenses to the claims of the São Paulo authorities with respect to this period. We believe the risk of loss for this period is remote, and as a result, have not reserved provisions for this claim. On August 31, 2007, we presented administrative defenses against the authorities' claim; however, their response is still pending.

Brazilian National Public Treasury Tax Claim

On March 17, 2008, our Brazilian subsidiary received a tax claim for approximately \$198,000 presented by the National Public Treasury of Brazil. The notice claims non-payment of income taxes that we believe we paid, and accordingly, we consider the risk of loss for this claim to be remote. On March 28, 2008, we presented our defense requesting a declaration that no such taxes are due.

Trademark Claim

We filed our first three applications to register the name MercadoLivre in Brazil with the Instituto Nacional da Propriedade Industrial (the National Institute of Industrial Property, or INPI) on October 7, 1999. Editora Livre Mercado Ltda., a publishing company, challenged these three applications based on their trademark Livre Mercado, a trade magazine. These challenges are currently pending with INPI. In addition to these processes, Agência Folha de Notícias Ltda., a news company, filed an application to register the name MercadoLivre on October 7, 1999, a few hours before we filed our application. We challenged that application. However, we cannot assure you that we will succeed in obtaining these trademarks or in our challenges to existing or future

Table of Contents

applications by other parties. If we are not successful, we could face claims by any future trademark owners. Any past or future claims relating to these issues, whether meritorious or not, could cause us to enter into costly royalty and/or licensing agreements. We may also have to modify our brand name in Brazil (or other jurisdictions) if any successful demands against us are too expensive. Any of these circumstances could adversely affect our business, results of operations and financial condition.

Other third parties have from time to time claimed, and others may claim in the future, that we have infringed their intellectual property rights. We have been notified of several potential third-party claims for intellectual property infringement through our web site. These claims, whether meritorious or not, are time consuming, can be costly to resolve, could cause service upgrade delays, and could require expensive implementations of changes to our business methods to respond to these claims. See Item 1A Risk factors Risks related to our business We could potentially face legal and financial liability for the sale of items that infringe on the intellectual property rights of others and for information disseminated on the MercadoLibre marketplace in our Annual Report on Form 10-K for the fiscal year ended December 31, 2007.

Item 1A Risk Factors

In addition to the risk factors disclosed in Item 1A Risk Factors in Part I of our Annual Report on Form 10-K for the fiscal year ended December 31, 2007, set forth below is an additional risk factor we believe is applicable to our business.

Any delay or problem with upgrading our existing information technology infrastructure could cause a disruption in our business and adversely impact our financial results.

Our ability to operate our business from day to day largely depends on the efficient operation of our information technology infrastructure. As disclosed in our reports with the SEC, we are frequently implementing hardware and software technology upgrades, which may include migrations to new technology systems, in an effort to improve our systems. Our information technology systems may experience errors, interruptions, delays or cessations of service. We are particularly susceptible to errors in connection with any systems upgrade or migration to a different hardware or software system. Errors or interruptions could impede or delay our ability to process transactions on our site, which could reduce our revenue from activity on our site and adversely affect our reputation with, or result in the loss of, customers. These issues could cause business disruptions and be more expensive, time consuming, and resource intensive than anticipated. Defects or disruptions in our technology infrastructure could adversely impact our ability to process transactions, our financial results and our reputation.

Item 2 Unregistered Sales of Equity Securities and Use of Proceeds**Recent Sales of Unregistered Securities**

There were no sales of unregistered securities by us during the three-month period ending March 31, 2008.

Use of Proceeds from IPO

Our registration statement on Form S-1, as amended (Registration No. 333-142880), (the Registration Statement) with respect to our initial public offering (the Offering) of common stock, par value \$0.001 per share, was declared effective on August 9, 2007. We sold a total of 3,000,000 shares of common stock in the Offering and the selling shareholders sold a total of 15,488,762 shares of common stock in the Offering. The net proceeds to us of the Offering were approximately \$49.6 million. These proceeds have been used to repay a \$9.5 million outstanding loan (including interest) with eBay Inc., \$19.4 million for the CMG acquisition and the remainder balance is expected to be used for working capital and general corporate purposes. These funds are invested in interest-bearing, investment-grade securities. See our quarterly report on Form 10-Q filed with the Securities and Exchange Commission on November 14, 2007 for a further discussion of our use of proceeds from the Offering and Sections Interest and Credit above.

Item 6 Exhibits

- 10.1 Letter Agreement, dated May 12, 2008, by and among the Management Shareholders named on the signature page thereto, on the one hand, and MercadoLibre, Inc. and CMG Classified Media Group, Inc., on the other hand.
