- (a) *If the Fund is a seller of protection and a credit event occurs, as defined under the terms of the swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation.*
- (b) *Implied credit spreads utilized in determining the market value of credit default swap agreements on corporate and sovereign issuers as of period end serve as an indicator of the current status of the payment/performance risk and represent the likelihood or risk of default for the credit derivative. The implied credit spread of a particular referenced entity reflects the cost of buying/selling protection and may include upfront payments required to be made to enter into the agreement. Wider credit spreads represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement. A credit spread identified as *Defaulted* indicates a credit event has occurred for the referenced entity or obligation.*
- (c) *The maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of the swap agreement.*

\$ 4,914,449

- (a) *Position, or a portion thereof, has been segregated to collateralize forward currency exchange contracts. The aggregate market value of these securities amounted to \$675,050,558.*
- (b) *Security is exempt from registration under Rule 144A of the Securities Act of 1933. These securities are considered liquid and may be resold in transactions exempt from registration, normally to qualified institutional buyers. At December 31, 2008, the aggregate market value of these securities amounted to \$197,153,180 or 27.3% of net assets.*
- (c) *Floating Rate Security. Stated interest rate was in effect at December 31, 2008.*
- (d) *Security is in default and is non-income producing.*
- (e) *Pay-In-Kind Payments (PIK).*
- (f) *Indicates a security that has a zero coupon that remains in effect until a predetermined date at which time the stated coupon rate becomes effective until final maturity.*
- (g) *Variable rate coupon, rate shown as of December 31, 2008.*
- (h) *Illiquid security.*
- (i) *Position, or a portion thereof, has been segregated to collateralize reverse repurchase agreements. The aggregate market value of these securities amounted to \$4,716,103.*
- (j) *Coupon rate adjusts periodically based upon a predetermined schedule. Stated interest rate in effect at December 31, 2008.*
- (k) *Non-income producing security.*
- (l) *Investment in affiliated money market mutual fund. The fund currently owns investments collateralized by subprime mortgage loans. Subprime loans are offered to homeowners who do not have a history of debt or who have had problems meeting their debt obligations. Because repayment is less certain, subprime borrowers pay a higher rate of interest than prime borrowers. As of December 31, 2008, the fund's total exposure to subprime investments was 0.98%. These investments are valued in accordance with the fund's Valuation Policies.*

An amount equivalent to U.S. \$956,000 has been segregated to collateralize margin requirements for the open future contract at December 31, 2008.

* All data are as of December 31, 2008. The Fund's country breakdown is expressed as a percentage of total investments and may vary over time. Other country weightings represent 1.4% or less in the following countries: Argentina, Belgium, Bermuda, Canada, Cayman Islands, Dominican Republic, El Salvador, France, Germany, Hong Kong, India, Ireland, Italy, Jamaica, Japan, Luxembourg, Netherlands, Nigeria, Pakistan, Singapore, South Africa, Ukraine and United Kingdom.

FINANCIAL ACCOUNTING STANDARDS NO. 157**December 31, 2008 (unaudited)**

The Fund adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157), effective April 1, 2008. In accordance with FAS 157, fair value is defined as the price that the Fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. FAS 157 also establishes a framework for measuring fair value, and a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Fund. Unobservable inputs reflect the Fund's own assumptions about the assumptions that market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. Each investment is assigned a level based upon the observability of the inputs which are significant to the overall valuation. The three-tier hierarchy of inputs is summarized below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The following table summarizes the valuation of the Fund's investments by the above fair value hierarchy levels as of December 31, 2008:

Level	Investments in Securities	Other Financial Instruments*
Level 1	\$ 30,803,006	\$ 0
Level 2	410,052,576	(3,035,771)
Level 3	294,963,092	0
Total	\$ 735,818,674	\$ (3,035,771)

* Other financial instruments are derivative instruments not reflected in the portfolio of investments, such as futures, forwards and swap contracts, which are valued at the unrealized appreciation / depreciation on the instrument.

Following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining fair value:

	Investments In Securities	Other Financial Instruments
Balance as of 3/31/2008	\$ 459,816,536	\$ 0
Accrued discounts /premiums	3,148,252	0
Realized gain (loss)	(17,332,493)	0 *
Change in unrealized appreciation/depreciation	(61,076,371)	0
Net purchases (sales)	(123,468,947)	0
Net transfers in and/or out of Level 3	33,876,115	0
Balance as of 12/31/08	\$ 294,963,092	\$ 0
Net change in unrealized appreciation/depreciation from investments still held as of 12/31/08	\$ (33,689,753)	\$ 0

* The realized gain (loss) recognized during the period ended 12/31/08 for other financial instruments was \$0.

ITEM 2. CONTROLS AND PROCEDURES.

(a) The registrant's principal executive officer and principal financial officer have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended) are effective at the reasonable assurance level based on their evaluation of these controls and procedures as of a date within 90 days of the filing date of this document.

(b) There were no significant changes in the registrant's internal control over financial reporting that could significantly affect these controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

ITEM 3. EXHIBITS.

The following exhibits are attached to this Form N-Q:

EXHIBIT NO.	DESCRIPTION OF EXHIBIT
3 (a) (1)	Certification of Principal Executive Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
3 (a) (2)	Certification of Principal Financial Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
