WASHINGTON FEDERAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

QUARTER AND NINE MONTHS ENDED JUNE 30, 2009 AND 2008

(UNAUDITED)

NOTE A Basis of Presentation

The consolidated unaudited interim financial statements included in this report have been prepared by Washington Federal, Inc. (Company). The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect amounts reported in the financial statements. Actual results could differ from these estimates. In the opinion of management, all adjustments (consisting only of normal recurring accruals) necessary for a fair presentation are reflected in the interim financial statements. The September 30, 2008 Consolidated Statement of Financial Condition was derived from audited financial statements.

The information included in this Form 10-Q should be read in conjunction with Company s 2008 Annual Report on Form 10-K (2008 Form 10-K) as filed with the SEC. Interim results are not necessarily indicative of results for a full year.

References to Net Income in this document refer to Net Income Available to Common Shareholders.

Events occurring subsequent to the date of the balance sheet have been evaluated for potential recognition or disclosure in the consolidated financial statements through August 10, 2009, the date of the filing of the consolidated financial statements with the Securities and Exchange Commission.

NOTE B Correction of an Error

During the quarter ended June 30, 2009, the Company became aware of a potential tax liability of \$39 million resulting from the acquisition of First Mutual, Inc. in February 2008. Although substantial uncertainty remains as to the ultimate outcome of this matter, under current U.S. accounting rules, the Company should have recorded this as an income tax liability, with a corresponding increase to goodwill, in purchase accounting. As a result, the Company has corrected the September 30, 2008, consolidated balance sheet for the \$39 million increase in income tax liability and goodwill from amounts previously reported of \$0 and \$110 million, respectively. The only income statement impact was \$1.5 million of additional tax expense in the current quarter, resulting from interest due on the potential tax liability. The Company is in discussions with the IRS regarding this matter and will pursue all available remedies to mitigate the financial impact to the Company.

NOTE C Preferred Stock Issuance and Repurchase

On November 14, 2008, the Company entered into a Letter Agreement (Agreement) with the United States Department of the Treasury (Treasury) to participate in the Troubled Asset Relief Program Capital Purchase Program (CPP). Pursuant to the Agreement, the Company issued and sold to the Treasury (i) 200,000 shares of the Company s Fixed Rate Cumulative Perpetual Preferred Stock (Preferred Stock), and (ii) a warrant to purchase 1,707,456 shares of the Company s common stock, par value \$1.00 per share, for an aggregate purchase price for both the preferred stock and warrants of \$200 million in cash. The Preferred Stock qualified as Tier 1 capital and paid cumulative dividends at a rate of 5% per annum for the first five years, and 9% per annum thereafter. On May 27, 2009, the Company repurchased the \$200 million of Preferred Stock, resulting in a charge of \$2.0

Table of Contents**WASHINGTON FEDERAL, INC. AND SUBSIDIARIES*****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS******QUARTER AND NINE MONTHS ENDED JUNE 30, 2009 AND 2008*****(UNAUDITED)**

million to net income available to common shareholders. The Company has decided not to repurchase the 1.7 million warrants issued in conjunction with the preferred stock at this time.

NOTE D Dividends

On July 24, 2009 the Company paid its 106th consecutive quarterly cash dividend on common stock. Dividends per share were \$.05 for the quarter ended June 30, 2009 compared to \$.21 for the same period one year ago.

NOTE E Comprehensive Income

The Company's comprehensive income includes all items which comprise net income plus the unrealized gains (losses) on available-for-sale securities. Total comprehensive income (loss) for the quarters ended June 30, 2009 and 2008 totaled \$(3,939,000) and \$9,703,000, respectively. Total comprehensive income for the nine months ended June 30, 2009 and 2008 totaled \$70,667,000 and \$97,508,000, respectively. The difference between the Company's net income and total comprehensive income for the nine months ended June 30, 2009 was \$39,588,000, which equals the change in the net unrealized gain on available-for-sale securities of \$62,590,000, less tax of \$23,002,000. In addition, \$40,206,000 of net unrealized gains on available-for-sale securities were included in comprehensive income for the nine months ended June 30, 2009, which included \$618,000 of gain on sale of investments reclassified into earnings for the same period.

NOTE F Allowance for Losses on Loans

The following table summarizes the activity in the allowance for loan losses for the periods ended June 30, 2009 and 2008:

	Quarter		Nine Months	
	Ended June 30,		Ended June 30,	
	2009	2008	2009	2008
	(In thousands)			
Balance at beginning of period	\$ 143,124	\$ 47,005	\$ 85,058	\$ 28,520
Provision for loan losses	52,200	13,216	141,200	23,716
Charge-offs	(34,015)	(6,162)	(65,399)	(9,358)
Recoveries	386		836	
Acquired reserves				11,181
Balance at end of period	\$ 161,695	\$ 54,059	\$ 161,695	\$ 54,059

The Company recorded a \$52,200,000 provision for loan losses during the quarter ended June 30, 2009, while a \$13,216,000 provision was recorded for the same quarter one year ago. Non-performing assets amounted to \$605,882,000, or 5.03% of total assets at June 30, 2009, compared to \$85,107,000, or .72% of

Table of Contents

WASHINGTON FEDERAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

QUARTER AND NINE MONTHS ENDED JUNE 30, 2009 AND 2008

(UNAUDITED)

total assets one year ago. The Company had net charge-offs of \$33,629,000 for the quarter ended June 30, 2009 compared with \$6,162,000 of net charge-offs for the same quarter one year ago. This significant increase in the provision for loan losses is in response to three primary factors: first, the overall deterioration in the housing market in general in the Company's eight western state territory; second, the significant increase in the combined balance of non-performing assets in our land acquisition and development and speculative construction portfolios; and finally, the material increase in net charge-offs for the quarter. Management expects the provision to remain at elevated levels until non-performing assets and charge-offs improve.

At June 30, 2009, the Company's recorded investment in impaired loans was \$551,279,000, of which \$330,362,000 had specific reserves of \$109,716,000. At September 30, 2008, the Company's recorded investment in impaired loans was \$134,438,000, of which \$98,654,000 had specific reserves of \$28,755,000.

NOTE G - New Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS 157). This statement defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. This statement establishes a fair value hierarchy for the assumptions used to measure fair value and clarifies assumptions about risk and the effect of a restriction on the sale or use of an asset. No additional fair value measurements are required under this statement. The Company adopted this statement effective October 1, 2008. See Note H for disclosures related to the adoption of this statement.

In April 2009, the FASB issued FASB Staff Position (FSP) FAS 115-2 and FAS 124-2, *Recognition and Presentation of Other-Than-Temporary Impairments*. This FSP amends the other-than-temporary impairment guidance in U.S. GAAP for debt securities to make it more operational and to improve the presentation and disclosure of other-than-temporary impairments on debt and equity securities. This FSP will be effective for interim and annual reporting periods ending after June 15, 2009 with early adoption permitted for periods ending after March 15, 2009. The Company adopted this statement effective June 30, 2009, and its adoption did not have a material effect on the Company's financial position or results of operations.

In April 2009, the FASB issued FSP FAS 107-1 and APB 28-1, *Interim Disclosures about Fair Value of Financial Instruments*. This FSP requires disclosures about the fair value of financial instruments for interim reporting periods of publicly traded companies as well as in annual financial statements. This FSP also amends APB Opinion No. 28, *Interim Financial Reporting*, to require those disclosures in summarized financial information at interim reporting periods. The Company adopted this statement effective June 30, 2009, and the required disclosures are included in Note H.

In April 2009, the FASB issued FSP FAS 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*. This FSP provides additional guidance for estimating fair value in accordance with FASB Statement No. 157, *Fair Value Measurements*, when the transaction volume and level of market activity for the asset or liability have significantly decreased. This FSP also includes guidance on identifying circumstances that indicate a transaction is not orderly. The Company adopted this statement effective June 30, 2009, and its adoption did not have a material effect on the Company's financial position or results of operations.

Table of Contents

WASHINGTON FEDERAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

QUARTER AND NINE MONTHS ENDED JUNE 30, 2009 AND 2008

(UNAUDITED)

In May 2009, the FASB issued SFAS No. 165, Subsequent Events. SFAS No. 165 establishes standards under which an entity shall recognize and disclose events that occur after a balance sheet date but before the related financial statements are issued or are available to be issued. SFAS No. 165 is effective for fiscal years and interim periods ending after June 15, 2009. Adoption of SFAS No. 165 as of June 30, 2009 had no impact on the Company's consolidated financial position or results of operations. See related disclosure in Note A.

In June 2009, the FASB issued SFAS No. 166, Accounting for Transfers of Financial Assets - an amendment of FASB Statement No. 140. SFAS No. 166 amends SFAS No. 140 to improve the relevance and comparability of the information that a reporting entity provides in its financial statements about a transfer of financial assets; the effects of a transfer on its financial position, financial performance, and cash flows; and the transferor's continuing involvement, if any, in transferred financial assets. SFAS No. 166 is effective for interim and annual reporting periods that begin after November 15, 2009. The Company is currently assessing the impact of the adoption of SFAS No. 166 on its consolidated financial position and results of operations.

In June 2009, the FASB issued SFAS No. 167, Amendments to FASB Interpretation No. 46(R). SFAS No. 167 significantly changes the criteria for determining whether the consolidation of a variable interest entity is required. SFAS No. 167 also addresses the effect of changes required by SFAS No. 166 on FASB Interpretation No. 46(R), Consolidation of Variable Interest Entities, and concerns regarding the application of certain provisions of Interpretation No. 46(R), including concerns that the accounting and disclosures under the Interpretation do not always provide timely and useful information about an entity's involvement in a variable interest entity. SFAS No. 167 is effective for interim and annual reporting periods that begin after November 15, 2009. The Company is currently assessing the impact of the adoption of SFAS No. 167 on its consolidated financial position and results of operations.

In June 2009, the FASB also issued SFAS No. 168, The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles - a replacement of FASB Statement No. 162. Upon the effective date of SFAS No. 168, the codification will become the sole source of authoritative U.S. Generally Accepted Accounting Principles (GAAP) recognized by the FASB. SFAS No. 168 is effective for fiscal years and interim periods ending after September 15, 2009. Adoption of SFAS No. 168 as of September 30, 2009 is not expected to have a material impact on the Company's consolidated financial position or results of operations as it does not alter existing GAAP.

NOTE H Fair Value Measurements

As discussed in Note G, SFAS 157 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. SFAS 157 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and

Table of Contents**WASHINGTON FEDERAL, INC. AND SUBSIDIARIES*****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS******QUARTER AND NINE MONTHS ENDED JUNE 30, 2009 AND 2008*****(UNAUDITED)**

minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active exchange markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The following is a description of the valuation methodologies used to measure and report fair value of financial assets and liabilities on a recurring or nonrecurring basis:

Measured on a Recurring Basis*Securities*

Securities available for sale are recorded at fair value on a recurring basis. Fair value is determined with quoted prices for similar assets or liabilities, quoted prices in markets that are not active and other inputs that are observable or can be corroborated by observable market data (Level 2).

The following table presents the balance of assets measured at fair value on a recurring basis at June 30, 2009:

	Fair Value at June 30, 2009			Total
	Level 1	Level 2	Level 3

WASHINGTON FEDERAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

QUARTER AND NINE MONTHS ENDED JUNE 30, 2009 AND 2008

(UNAUDITED)Measured on a Nonrecurring Basis*Impaired Loans*

From time to time, and on a nonrecurring basis, fair value adjustments to collateral dependent loans are recorded to reflect write-downs of principal balances based on the current appraised or estimated value of the collateral. This new estimated fair value is net of anticipated selling costs.

REO

Real estate owned (REO) consists principally of properties acquired through foreclosure and are carried at the lower of cost or estimated fair value less anticipated selling costs.

The following table presents the aggregated balance of assets measured at estimated fair value on a nonrecurring basis through the nine months ended June 30, 2009, and the total losses resulting from these fair value adjustments for the quarter and nine months ended June 30, 2009:

	Through June 30, 2009				Quarter Ended June 30, 2009	Nine Months Ended June 30, 2009
	Level 1	Level 2	Level 3	Total	Total Losses	Total Losses
	(In thousands)					
Impaired loans (1)	\$	\$	\$ 382,630	\$ 382,630	\$ 41,758	\$ 115,631
REO (2)			91,157	91,157	7,732	16,807
Balance at end of period	\$	\$	\$ 473,787	\$ 473,787	\$ 49,490	\$ 132,438

(1) The loss represents remeasurements of collateral dependent loans.

(2) The loss represents charge-offs on REO.

There were no liabilities carried at fair value, measured on a recurring or nonrecurring basis, at June 30, 2009.

Fair Values of Financial Instruments

SFAS No. 107, Disclosures about Fair Value of Financial Instruments, as amended by FSP FAS 107-1, requires disclosure of fair value information about financial instruments, whether or not recognized on the statement of financial condition, for which it is practicable to estimate those values. SFAS No. 107 excludes certain financial instruments and all non-financial instruments from its disclosure requirements. Accordingly, the aggregate fair value estimates presented do not reflect the underlying fair value of the Company. Although management is not aware of any factors that would materially affect the estimated fair value amounts presented below, such amounts have not been comprehensively revalued for purposes of these financial statements since the dates shown, and therefore, estimates of fair value subsequent to those dates may differ significantly from the amounts presented below.

The following methods and assumptions were used to estimate the fair value of financial instruments:

Cash and cash equivalents The carrying amount of these items is a reasonable estimate of their fair value.

Available-for-sale securities and held-to-maturity securities Estimated fair value for investment securities is based on quoted market prices.

Table of Contents

WASHINGTON FEDERAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

QUARTER AND NINE MONTHS ENDED JUNE 30, 2009 AND 2008

(UNAUDITED)

Loans receivable For certain homogeneous categories of loans, such as fixed- and variable-rate residential mortgages, fair value is estimated using quoted market prices for securities backed by similar loans, adjusted for differences in loan characteristics. The fair value of other loan types is estimated by discounting the future cash flows and estimated prepayments using the current rates at which similar loans would be made to borrowers with similar credit ratings and for the same remaining term. Some loan types were valued at carrying value because of their floating rate or expected maturity characteristics. Net deferred loan fees is not included in the fair value calculation but is included in the carrying amount.

FHLB stock The fair value is based upon the redemption value of the stock which equates to its carrying value.

Customer accounts The fair value of demand deposits, savings accounts, and money market accounts is the amount payable on demand at the reporting date. The fair value of fixed-maturity certificates of deposit is estimated by discounting the estimated future cash flows using the rates currently offered for deposits with similar remaining maturities.

FHLB advances and other borrowings The fair value of FHLB advances and other borrowings is estimated by discounting the estimated future cash flows using rates currently available to the Company for debt with similar remaining maturities.

\$16,000,000 of available-for-sale securities were sold during the period ending June 30, 2009, resulting in a gain of \$959,000. \$72,030,000 of available-for-sale securities were sold in 2008, resulting in no gain.

Substantially all mortgage-backed securities have contractual due dates that exceed 10 years.

The following table shows the unrealized gross losses and fair value of securities at June 30, 2009, by length of time that individual securities in each category have been in a continuous loss position. The Company had \$53,560,000 in fair value of securities in a continuous loss position for 12 or more months at June 30, 2009, which consisted of mortgage-backed securities and GSE preferred equity securities. This decline represents only a 1.8% decline of the book value of these investments. Management believes that the declines in fair value of these investments were due to changes in market interest rates and a temporary lack of liquidity in the mortgage market, not in estimated cash flows.

PART I Financial Information

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
FORWARD LOOKING STATEMENTS

In addition to historical information, this Quarterly Report on Form 10-Q includes certain forward-looking statements, as defined in the Securities Act of 1933 and the Securities Exchange Act of 1934, based on current management expectations. Actual results could differ materially from those management expectations. Such forward-looking statements include statements regarding the Company's intentions, beliefs or current expectations as well as the assumptions on which such statements are based. Stockholders and potential stockholders are cautioned that any such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and that actual results may differ materially from those contemplated by such forward-looking statements. Factors that could cause future results to vary from current management expectations include, but are not limited to: general economic conditions; legislative and regulatory changes; monetary fiscal policies of the federal government; changes in tax policies; rates and regulations of federal, state and local tax authorities; changes in interest rates; deposit flows; cost of funds; demand for loan products; demand for financial services; competition; changes in the quality or composition of the Company's loan and investment portfolios; changes in accounting principles; policies or guidelines and other economic, competitive, governmental and technological factors affecting the Company's operations, markets, products, services and fees. A more detailed description of these and other factors that could materially affect our actual results is included in Part I, Item 1A Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2008 and in our other Securities and Exchange Commission filings. Given these risks and uncertainties, Stockholders should not place undue reliance on the Company's forward-looking statements, which are made as of the date of this Quarterly Report. The Company undertakes no obligation to update or revise any forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results over time.

GENERAL

Washington Federal, Inc. (Company) is a savings and loan holding company. The Company's primary operating subsidiary is Washington Federal Savings.

INTEREST RATE RISK

The Company assumes a high level of interest rate risk as a result of its policy to originate and hold for investment fixed-rate single-family home loans, which are longer-term in nature than the short-term characteristics of its liabilities of customer accounts and borrowed money. At June 30, 2009, the Company had a negative one-year maturity gap of approximately 36% of total assets, which represents an increase from the 34% negative one-year gap as of September 30, 2008. The increase was due to the growth and repricing of deposit accounts into shorter term maturities, which was offset by the refinancing of \$300,000,000 of borrowings that were scheduled to mature within one year and now have been refinanced to mature in 2014 at a rate of 3.03%.

The interest rate spread increased to 3.27% at June 30, 2009 from 2.85% at September 30, 2008. The spread increased primarily because of a general decrease in rates on customer deposits. Since the Federal Reserve began decreasing short-term rates in September 2008, market rates for short-term deposits have fallen. As a result, deposits are repricing to lower rates, which contributes to an increasing spread. Somewhat offsetting the benefit of lower deposit costs is the decreasing yield on loans as a result of the repricing of variable rate loans and the impact of refinancing of fixed-rate mortgages into historically low long-term interest rates.

Table of Contents

WASHINGTON FEDERAL, INC. AND SUBSIDIARIES

PART I Financial Information

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

As of June 30, 2009, the weighted average rates on earning assets decreased by 27 basis points since September 30, 2008, while the weighted average rates on customer accounts and borrowings decreased by 69 basis points over the same period. As of June 30, 2009, the Company had grown total assets by \$212,477,000, or 1.8%, from \$11,830,141,000 at September 30, 2008, by deploying funds obtained through lower cost short-term deposits and borrowings. For the quarter ended June 30, 2009, compared to September 30, 2008, loans decreased \$390,280,000, or 4.1%, and investment securities increased \$436,959,000, or 27.3%. Cash and cash equivalents of \$166,031,000 and stockholders' equity of \$1,394,081,000 provides management with flexibility in managing interest rate risk going forward.

LIQUIDITY AND CAPITAL RESOURCES

The Company's net worth at June 30, 2009 was \$1,394,081,000, or 11.58% of total assets. This was an increase of \$61,407,000 from September 30, 2008 when net worth was \$1,332,674,000, or 11.27% of total assets. The increase in the Company's net worth included \$31,079,000 from net income and a \$39,588,000 increase in accumulated other comprehensive income as a result of a net increase in market value of the Company's available-for-sale investments. The vast majority of the Company's available for sale investments are fixed rate. As a result of market interest rates decreasing, the value of fixed rate investments generally increased. Net worth was reduced by \$13,848,000 of cash dividend payments. During the quarter ended December 31, 2008, the Company reduced its quarterly cash dividend on common stock from \$.21 to \$.05 to conserve capital.

Management believes this strong net worth position will help the Company manage its interest rate risk and enable it to compete more effectively for controlled growth through acquisitions, de novo expansion and increased customer deposits. To be categorized as well capitalized, Washington Federal Savings must maintain minimum total risk-based, Tier 1 risk-based and Tier 1 leverage ratios as set forth in the following table.

CHANGES IN FINANCIAL CONDITION

Available-for-sale and held-to-maturity securities: Available-for-sale securities increased \$451,806,000, or 30.6%, during the nine months ended June 30, 2009, which included the purchase of \$753,902,000 of available-for-sale investment securities. During the same period \$16,000,000 of available-for-sale securities were sold, resulting in a gain of \$959,000. There were no purchases or sales of held-to-maturity securities in the same period. As of June 30, 2009, the Company had net unrealized gains on available-for-sale securities of \$42,060,000, net of tax, which were recorded as part of stockholders' equity. The Company increased its investment portfolio to protect against a potential refinancing surge resulting from historically low mortgage rates, which were influenced by U.S. government participation in the mortgage-backed securities market.

Loans receivable: During the nine months ended June 30, 2009, the balance of loans receivable decreased 4.1% to \$9,111,340,000 compared to \$9,501,620,000 at September 30, 2008. This decrease is consistent with management's strategy to reduce the Company's exposure to land and construction loans and a result of increased loan prepayments stemming from record low interest rates available on 30-year fixed-rate mortgage as noted in earnings release. If the current low rates on 30 year fixed-rate mortgages persists, management will consider continuing to shrink its loan portfolio. The following table shows the loan portfolio by category for the last three quarters.

Deferred Net Origination Fees	36,783		35,133		34,924	
	374,457		373,664		389,738	
	\$ 9,635,434		\$ 9,431,599		\$ 9,111,340	

Non-performing assets: Non-performing assets increased significantly during the quarter ended June 30, 2009 to \$605,882,000 from \$164,191,000 at September 30, 2008, a 269% increase. A disproportionate share of our non-performing assets come from the land acquisition and development and speculative construction portfolios. These assets have seen the largest declines in value in our loan portfolio. The overall increase in our non-performing assets is attributable to the weakening economy and housing market throughout our eight state branch network. Non-performing assets as a percentage of total assets was 5.03% at June 30, 2009 compared to 1.39% at September 30, 2008. This level of non-performing assets is unprecedented in the Company's 27 year history as a public company. While our non-performing assets have increased significantly over the last nine months based on current conditions in the real estate marketplace, the Company anticipates non-performing assets will continue to increase in the future until the residential real estate market stabilizes and values recover.

Table of Contents**WASHINGTON FEDERAL, INC. AND SUBSIDIARIES****PART I Financial Information****Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)**

The following table sets forth information regarding restructured and nonaccrual loans and real estate owned (REO) held by the Company at the dates indicated.

	June 30, 2009	September 30, 2008
	(In thousands)	
Restructured loans (1)	\$ 68,385	\$ 6,210
Nonaccrual loans:		
Single-family residential	118,851	38,017
Construction - speculative	71,701	33,003

HELOC	75	
Consumer	924	535
Total nonaccrual loans (2)	492,294	127,109
Total REO (3)	86,651	37,082
Total REHI (3)	26,937	
Total non-performing assets	\$ 605,882	\$ 164,191
Total non-performing assets and restructured loans	\$ 674,267	\$ 170,401
Total non-performing assets and restructured loans as a percentage of total assets	5.60%	1.44%

(1) Performing in accordance with restructured terms.

(2) The Company recognized interest income on nonaccrual loans of approximately \$4,011,000 in the nine months ended June 30, 2009. Had these loans performed according to their original contract terms, the Company would have recognized interest income of approximately \$19,166,000 for the nine months ended June 30, 2009.

In addition to the nonaccrual loans reflected in the above table, at June 30, 2009, the Company had \$287,661,000 of loans that were less than 90 days delinquent but which it had classified as substandard for one or more reasons. If these loans were deemed non-performing, the Company's ratio of total non-performing assets and restructured loans as a percent of total assets would have increased to 7.99% at June 30, 2009.

(3) Total REO and REHI (included in real estate held for sale on the Statement of Financial Condition) includes real estate held for sale acquired in settlement of loans.

Allocation of the allowance for loan losses: The following table shows the allocation of the Company's allowance for loan losses at the dates indicated.

	June 30, 2009		September 30, 2008	
	Amount	Loans to Total Loans ¹	Amount	Loans to Total Loans ¹
(In thousands)				
Single-family residential	\$ 18,835	71.2%	\$ 17,055	69.5%
Construction - speculative	17,145	3.3	10,069	4.4
Construction - custom	731	2.5	1,328	3.2
Land - acquisition & development	98,723	6.5	28,679	7.3
Land - consumer lot loans	2,969	2.1	2,279	2.1
Multi-family	4,148	7.3	4,514	6.9
Commercial real estate	3,638	3.2	4,536	2.8
Commercial & industrial	2,724	1.3	3,807	1.5
HELOC	2,271	1.2	1,338	0.8
Consumer	10,511	1.4	11,453	1.5
	\$ 161,695	100.0%	\$ 85,058	100.0%

¹ The percentage is based on gross loans before allowance for loan losses, loans in process and deferred loan origination costs.

Customer accounts: Customer accounts increased \$501,441,000, or 7.0%, to \$7,670,980,000 at June 30, 2009 compared with \$7,169,539,000 at September 30, 2008. The increase in customer deposits reflects the opportunity created in the marketplace by the failure and/or merger of several large institutions throughout our footprint. The following table shows the composition of our customer accounts as of the dates shown:

FHLB advances and other borrowings: Total borrowings decreased \$288,209,000, or 9.1%, to \$2,887,699,000 at June 30, 2009, compared with \$3,175,908,000 at September 30, 2008. Total short-term borrowings (due within 30 days) at June 30, 2009, were \$0 compared with \$377,000,000 at September 30, 2008. See Interest Rate Risk on page 17.

RESULTS OF OPERATIONS

Throughout this document we will refer to net income, which is defined as net income available to common shareholders after the payment of preferred dividends.

Net Income: The quarter ended June 30, 2009, produced net income of \$2,500,000 compared to \$33,169,000 for the same quarter one year ago. For the nine months ended June 30, 2009, net income totaled \$31,079,000, which was a decrease of \$70,590,000 from the same period last year. The decrease for the quarter and nine month periods resulted primarily from the significant increase in the provision for loan losses and other credit costs and FDIC insurance premiums, offset somewhat by growth in net interest income.

Net Interest Income: The largest component of the Company's earnings is net interest income, which is the difference between the interest and dividends earned on loans and other investments and the interest paid on customer deposits and borrowings. Net interest income is impacted primarily by two factors: first, the volume of earning assets and liabilities; and second, the rate earned on those assets or the rate paid on those liabilities.

The following table sets forth certain information explaining changes in interest income and interest expense for the periods indicated compared to the same periods one year ago. For each category of interest-earning asset and interest-bearing liability, information is provided on changes attributable to (1) changes in volume (changes in volume multiplied by old rate) and (2) changes in rate (changes in rate multiplied by old volume). The change in interest income and interest expense attributable to changes in both volume and rate has been allocated proportionately to the change due to volume and the change due to rate.

PART I Financial Information

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Provision for Loan Losses: The Company recorded a \$52,200,000 provision for loan losses during the quarter ended June 30, 2009, while a \$13,216,000 provision was recorded for the same quarter one year ago. Non-performing assets amounted to \$605,882,000, or 5.03%, of total assets at June 30, 2009, compared to \$85,107,000, or .72%, of total assets one year ago. The Company had net charge-offs of \$33,629,000 for the quarter ended June 30, 2009 compared with \$6,162,000 of net charge-offs for the same quarter one year ago. This significant increase in the provision for loan losses is in response to three primary factors: first, the overall deterioration in the housing market in general in the Company's eight western state territory; second, the significant increase in the combined balance of non-performing assets in our land acquisition and development and speculative construction portfolios; and finally, the material increase in net charge-offs for the quarter. Management believes that higher non-performing assets and charge-offs may continue going forward until the housing market begins to recover. Similarly, management expects the provision to remain at elevated levels until non-performing assets and charge-offs improve.

Ratio of net charge-offs to average loans outstanding	0.36%	0.07%	0.68%	0.11%

Other Income: The quarter ended June 30, 2009 produced total other income of \$5,345,000 compared to \$7,560,000 for the same quarter one year ago, a decrease of \$2,215,000. The quarter ended June 30, 2009, included \$959,000 of gain on sale of investments, whereas the quarter ended June 30, 2008, included an \$3,164,000 gain on the sale of real estate.

PART I Financial Information

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Other Expense: The quarter ended June 30, 2009, produced total other expense of \$30,933,000 compared to \$23,653,000 for the same quarter one year ago, a 30.8% increase. The increase in total other expense over the same comparable period one year ago was primarily due to the increase in FDIC insurance premiums incurred by the Company, including \$5,500,000 the Company accrued in relation to the special assessment levied to replenish the Deposit Insurance Fund. Total other expense for the quarters ended June 30, 2009 and 2008 equaled 1.01% and .75%, respectively, of average assets. The number of staff, including part-time employees on a full-time equivalent basis, was 1,095 at June 30, 2009 and 1,072 at June 30, 2008.

Taxes: Income taxes decreased \$12,612,000, or 69.1%, for the quarter ended June 30, 2009, when compared to the same period one year ago. This decrease was a result of lower pretax income. In addition, see Note B for a discussion of an increase in taxes related to the correction of an error. The effective tax rate for the quarter ended June 30, 2009, was 48.34%, compared to 35.50% for the same period one year ago.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Management believes that there have been no material changes in the Company's quantitative and qualitative information about market risk since September 30, 2008. For a complete discussion of the Company's quantitative and qualitative market risk, see Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's 2008 Form 10-K.

Item 4. Controls and Procedures

As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's President and Chief Executive Officer along with the Company's Executive Vice President and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to the Securities Exchange Act of 1934 (Exchange Act) Rule 13a-15(e). Based upon that evaluation, the Company's President and Chief Executive Officer, along with the Company's Executive Vice President and Chief Financial Officer, concluded that the Company's disclosure controls and procedures are effective. There have been no changes in the Company's internal control over financial reporting that occurred during the Company's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Disclosure controls and procedures are Company controls and other procedures that are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its President and Chief Executive Officer and Executive Vice President and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.
