EXPLANATORY NOTE

Zions Bancorporation (the Company, Zions, we, our) is filing this Amendment No. 1 on Form 10-Q/A to amend its Quarterly Report on Form 10-Q for the quarter ended September 30, 2009 that was originally filed with the Securities and Exchange Commission on November 9, 2009. As disclosed in our Form 8-K filing dated January 25, 2010, we are filing this Amendment No. 1 to reflect the change in our accounting treatment during the second quarter of 2009 for the subordinated debt modification described in Note 7 in the Notes to Consolidated Financial Statements. We have reevaluated our accounting for this transaction and have considered the effects of the adjustments from the second quarter of 2009 on the third quarter of 2009. Based on our review, we have revised as appropriate the consolidated financial statements and notes to consolidated financial statements as of and for the three and nine months ended September 30, 2009. We have also revised the related Management's Discussion and Analysis of Financial Condition and Results of Operations. These revisions are included in this Amendment No. 1.

The revised calculations relate to increases to the gain on subordinated debt modification recognized during the second quarter of 2009 in the statements of income, and to the intrinsic value of the beneficial conversion feature of the modified subordinated debt recorded directly in common stock within shareholders' equity. The Company has no par common stock and all additional paid-in capital transactions are recorded in common stock. The effect of the 2009 second quarter revised calculations was to increase the net loss applicable to common shareholders by \$2.4 million from \$179.5 million to \$181.9 million for the three months ended September 30, 2009. This was primarily due to increased accretion of the debt discount during the three months ended September 30, 2009. In addition, at September 30, 2009, the effect of the revised calculations was to increase the intrinsic value of the beneficial conversion feature by \$151.1 million and total shareholders' equity by \$170.4 million from the amounts previously reported. Further discussion of these revisions is included in this Amendment No. 1 in Note 1, Basis of Presentation, and Note 7, Debt and Shareholders' Equity.

This Amendment No. 1 on Form 10-Q/A amends:

Part I. Financial Information

Item 1. Financial Statements (Unaudited)

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Item 4. Controls and Procedures

This Amendment No. 1 includes the original filing in its entirety and we are only amending those portions affected by the revisions described above. The only exhibits included with this Amendment No. 1 are Exhibits 31.1, 31.2, and 32, related to the certifications by the principal executive officer and the principal financial officer, as required by Rule 12b-15 of the Securities Exchange Act of 1934, as amended.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

September 30, 2009

1. BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements of Zions Bancorporation (the Parent) and its majority-owned subsidiaries (collectively the Company, Zions, we, our, us) have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Subsequent events have been evaluated through February 11, 2010, the date of filing these financial statements with the Securities and Exchange Commission (SEC).

Operating results for the three- and nine-month periods ended September 30, 2009 are not necessarily indicative of the results that may be expected in future periods. The consolidated balance sheet at December 31, 2008 is from the audited financial statements at that date, but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2008.

The Company provides a full range of banking and related services through banking subsidiaries in ten Western and Southwestern states as follows: Zions First National Bank (Zions Bank), in Utah and Idaho; California Bank & Trust (CB&T); Amegy Corporation (Amegy) and its subsidiary, Amegy Bank, in Texas; National Bank of Arizona (NBA); Nevada State Bank (NSB); Vectra Bank Colorado (Vectra), in Colorado and New Mexico; The Commerce Bank of Washington (TCBW); and The Commerce Bank of Oregon (TCBO). The Parent also owns and operates certain nonbank subsidiaries that engage in the development and sale of financial technologies and related services, and in wealth management services.

Revision of Financial Statements

The accompanying financial statements and related notes have been revised as a result of the reevaluation of our accounting for the subordinated debt modification described in Note 7. Our reevaluation resulted in revised calculations during the second quarter of 2009 of the gain on subordinated debt modification in the statements of income, and the intrinsic value of the beneficial conversion feature of the modified subordinated debt recorded directly in common stock within shareholders' equity. The Company has no par common stock and all additional paid-in capital transactions are recorded in common stock. The effect of the 2009 second quarter revised calculations was to increase the net loss applicable to common shareholders by \$2.4 million from \$179.5 million to \$181.9 million for the three months ended September 30, 2009. This was primarily due to increased accretion of the debt discount during the three months ended September 30, 2009. For the nine months ended September 30, 2009, the combined effect from the revised calculations of the 2009 second quarter increased gain on subordinated debt modification and the 2009 third quarter increased accretion of the debt discount was to reduce the net loss applicable to common shareholders by \$14.5 million from \$1,072.5 million to \$1,058.0 million. In addition, at September 30, 2009, the effect of the revised calculations was to increase common stock by \$151.1 million from \$2,974.2 million to \$3,125.3 million, and total shareholders' equity by \$170.4 million from \$5,523.9 million to \$5,694.3 million. The revisions applied to the affected individual line items in the financial statements are summarized as follows:

A further description of the accounting for the subordinated debt modification is included in Note 7.

2. CERTAIN RECENT ACCOUNTING PRONOUNCEMENTS

In June 2009, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 168, *The FASB Accounting Standards CodificationTM and the Hierarchy of Generally Accepted Accounting Principles – a replacement of FASB Statement No. 162*. With the issuance of SFAS 168, the FASB Accounting Standards Codification (the Codification or ASC) becomes the single source of authoritative U.S. accounting and reporting standards applicable for all nongovernmental entities, with the exception of guidance issued by the SEC. This change is effective for financial statements issued for interim or annual periods ending after September 15, 2009. Accordingly, all specific references herein to generally accepted accounting principles (GAAP) refer to the Codification and not to the pre-Codification literature.

The Codification does not modify existing GAAP nor any guidance issued by the SEC. Nonauthoritative accounting literature is excluded from the Codification. To improve usability, the Codification does include certain SEC guidance. GAAP accounting standards used to populate the Codification are superseded, with the exception of certain standards yet to be codified as of September 30, 2009, including SFAS 166 and 167 described subsequently.

In June 2009, the FASB issued SFAS No. 166, *Accounting for Transfers of Financial Assets, an amendment of FASB Statement No. 140*, and SFAS No. 167, *Amendments to FASB Interpretation No. 46(R)*. These Statements modify the accounting for transfers of financial assets and the determination of what entities must be consolidated, and will have a significant effect on securitizations and special-purpose entities. We will adopt these Statements effective January 1, 2010, as required. Management is evaluating the impact these Statements may have on the Company's financial statements.

FASB ASC 855 includes new guidance on subsequent events that became effective for the second quarter of 2009. The definition of subsequent events was modified and entities are required to disclose the date through which subsequent events have been evaluated and the basis for that date. Adoption of this guidance was not significant to the Company's financial statements.

FASB ASC 810 includes new requirements for presenting consolidated financial statements, which we adopted January 1, 2009, as required. Under the new view of an economic entity in consolidated financial statements, the presentation of noncontrolling (or minority) interests has been changed in that all operating amounts attributable to a noncontrolling interest are included in the statement of income and accumulated balances are included as a separate component of equity. Also required is the allocation of losses to a noncontrolling interest even when such losses result in a negative carrying balance. The effect of adoption was not significant to the Company's financial statements. As of January 1, 2009, minority interest of \$27.3 million was reclassified to shareholders' equity and reported as noncontrolling interests. As required, retrospective application was made to all prior periods for comparative presentation.

FASB ASC 260 includes new guidance which clarifies that unvested share-based payment awards with rights to receive nonforfeitable dividends are participating securities and should be included in the computation of earnings per share. We adopted this guidance effective January 1, 2009 and were required to retrospectively adjust earnings per share information, which was not significant to any prior period included in the accompanying financial statements.

Additional accounting guidance recently adopted is discussed where applicable in the Notes to Consolidated Financial Statements.

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

3. MERGER AND ACQUISITION ACTIVITY

Effective January 1, 2009, we adopted new accounting provisions under FASB ASC 805 relating to business combinations. Among the most significant changes is the elimination of the step acquisition model used with previous accounting. Upon initially obtaining control, the acquirer now recognizes 100% of all acquired assets (including goodwill) and all assumed liabilities regardless of the percentage owned. Certain transaction and restructuring costs must be expensed as incurred. Changes to the acquirer's existing income tax valuation allowances and uncertainty accruals from a business combination must be recognized as an adjustment to current income tax expense and not to goodwill over the subsequent annual period.

On July 17, 2009, CB&T acquired the banking operations of the failed Vineyard Bank from the Federal Deposit Insurance Corporation (FDIC) as receiver. The acquisition consisted of approximately \$1.6 billion of assets, including \$1.4 billion of loans, \$1.5 billion of deposits, and 16 branches mostly located in the Inland Empire area of Southern California. CB&T assumed Vineyard's deposit obligations other than brokered deposits, and purchased most of Vineyard's assets, including all loans, at a discount of \$242 million to stated value. CB&T received approximately \$87.5 million in cash from the FDIC and entered into a loss sharing agreement in which the FDIC will bear 80% of the first \$465 million of losses on loans and other real estate owned and 95% of any losses above that amount for a period of up to ten years.

On April 17, 2009, NSB acquired the banking operations of the failed Great Basin Bank of Nevada headquartered in Elko, Nevada, from the FDIC as receiver. The acquisition consisted of approximately \$212 million of assets, including the entire loan portfolio, \$209 million of deposits, and five branches in Northern Nevada. NSB received approximately \$17.8 million in cash from the FDIC and entered into a loss sharing agreement in which the FDIC will assume 80% of the first \$40 million of losses on loans and other real estate owned and 95% of any losses above that amount for a period of up to ten years.

On February 6, 2009, CB&T acquired the banking operations of the failed Alliance Bank headquartered in Culver City, California from the FDIC as receiver. The acquisition consisted of approximately \$1.1 billion of assets, including the entire loan portfolio, \$1.0 billion of deposits, and five branches. CB&T received approximately \$10 million in cash from the FDIC and entered into a loss sharing agreement in which the FDIC will assume 80% of the first \$275 million of credit losses and 95% of any losses above that amount for a period of up to ten years.

As a result of these loss sharing arrangements, the acquired loans and foreclosed assets are presented separately in the Company's balance sheet as FDIC-supported assets. These assets were recorded at fair value without a corresponding allowance for credit losses. Because the fair value of net assets acquired exceeded cost, and taking into consideration the amounts of cash received from the FDIC, the Company recognized acquisition related gains of \$146.2 million and \$169.1 million during the three and nine months ended September 30, 2009, respectively.

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

The following summarizes the carrying value of FDIC-supported assets at September 30, 2009 for (1) acquired loans accounted for under FASB ASC 310 which have evidence of credit deterioration and for which it is probable that not all contractual payments will be collected, (2) acquired loans without evidence of credit deterioration, and (3) all other acquired assets and estimated loss reimbursement from FDIC (*in thousands*):

	Loans with deterioration	Loans without deterioration	Other	Total
Commercial lending	\$ 69,012	\$ 456,108		\$ 525,120
Commercial real estate	385,958	570,997		956,955
Consumer	17,758	107,660		125,418
Other real estate owned			\$ 54,714	54,714
Estimated loss reimbursement from FDIC	240,784	122,434		363,218
Total FDIC-supported assets	\$ 713,512	\$ 1,257,199	\$ 54,714	\$ 2,025,425

The estimated loss reimbursement from FDIC was fair valued using projected cash flows based on credit adjustments for each loan type and the loss sharing reimbursement of 80% or 95%, as appropriate. The timing of the cash flows was adjusted to reflect management's expectations to receive the FDIC reimbursements within the estimated loss period. Discount rates were based on U.S. Treasury rates or the AAA composite yield on investment grade bonds of similar maturity.

The estimated loss reimbursement from FDIC is adjusted as actual loss experience is developed and estimated losses covered under the loss sharing arrangements are updated. Estimated loan losses, if any, in excess of the amounts recoverable through the loss sharing arrangements are reflected as period expenses through the provision for loan losses.

As of the respective dates of acquisition for Vineyard, Great Basin and Alliance, the preliminary estimates of the contractually required payments receivable for loans with evidence of credit deterioration were \$960.6 million, the cash flows expected to be collected were \$879.3 million including interest, and the estimated fair value of the acquired loans was \$877.5 million. These amounts were determined based upon the estimated remaining life of the underlying loans, which included the effects of estimated prepayments. Because of the estimation process required, certain refinements will likely be made to the above estimates in future reporting periods. Interest income on acquired loans in FDIC supported assets, other than those accounted for under FASB ASC 310, is recognized through the accrual of interest at the contractual rate adjusted for accretion of the interest discount.

Changes in the carrying amount and accretable yield for loans with evidence of credit deterioration were as follows during the three and nine months ended September 30, 2009 (or from the respective dates of acquisition) (*in thousands*):

	Three Months Ended September 30, 2009		Nine Months Ended September 30, 2009	
	Net accretable discount	Carrying amount of loans	Net accretable discount	Carrying amount of loans
Fair value of acquired loans at beginning of period (or date of acquisition)	\$ 1,988	\$ 809,127	\$ 1,808	\$ 877,505
Payments received		(40,257)		(76,207)
Transfers to OREO		(319)		(319)
Charge-offs		(54,931)		(87,179)

¹ Other comprehensive income

As part of our ongoing review of the investment securities portfolio, we reassessed the classification of certain asset-backed and trust preferred collateralized debt obligation (CDO) securities. During the first two quarters of 2009, we reclassified a total of \$596 million at fair value of held-to-maturity (HTM) securities to available-for-sale (AFS). Unrealized losses added to OCI at the time of these transfers were \$126.5 million. The reclassifications were made subsequent to ratings downgrades, as permitted under FASB ASC 320. No gain or loss was recognized in the statement of income at the time of reclassification.

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

The amortized cost and estimated fair value of investment debt securities are shown below as of September 30, 2009 by expected maturity distribution for asset-backed securities and by contractual maturity distribution for other debt securities. Actual maturities may differ from expected or contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties (*in thousands*):

	Held-to-maturity		Available-for-sale	
	Amortized cost	Estimated fair value	Amortized cost	Estimated fair value
Due in one year or less	\$ 69,614	\$ 69,341	\$ 451,391	\$ 453,585
Due after one year through five years	270,478	269,572	930,277	899,572
Due after five years through ten years	219,720	205,331	724,762	644,338
Due after ten years	348,546	291,570	2,117,599	1,394,816
	\$ 908,358	\$ 835,814	\$ 4,224,029	\$ 3,392,311

The following is a summary of the amount of gross unrealized losses for debt securities and the estimated fair value by length of time the securities have been in an unrealized loss position (*in thousands*):

	Less than 12 months		September 30, 2009 12 months or more		Total	
	Gross unrealized losses	Estimated fair value	Gross unrealized losses	Estimated fair value	Gross unrealized losses	Estimated fair value

We conduct a formal review of investment securities on a quarterly basis for the presence of other-than-temporary impairment (OTTI). Our review was made under FASB ASC 320, which includes new guidance that we adopted effective January 1, 2009. We assess whether OTTI is present when the fair value of a debt security is less than its amortized cost basis at the balance sheet date. Under these circumstances, OTTI is considered to have occurred (1) if we intend to sell the security; (2) if it is more likely than not we will be required to sell the security before recovery of its amortized cost basis; or (3) the present value of expected cash flows is not sufficient to recover the entire amortized cost basis. The more likely than not criteria is a lower threshold than the probable criteria used under previous guidance.

The new guidance requires that credit-related OTTI is recognized in earnings while noncredit-related OTTI on securities not expected to be sold is recognized in other comprehensive income (OCI). Noncredit-related OTTI is based on other factors, including illiquidity. Presentation of OTTI is made in the statement of income on a gross basis with an offset for the amount of OTTI recognized in OCI. For securities classified as HTM, the amount of OTTI recognized in OCI is accreted to the credit-adjusted expected cash flow amounts of the securities over future periods. Noncredit-related OTTI recognized in earnings previous to January 1, 2009 is reclassified from retained earnings to accumulated OCI as a cumulative effect adjustment.

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

As stated in our 2008 Annual Report on Form 10-K, our OTTI evaluation process also takes into consideration current market conditions, fair value in relationship to cost, extent and nature of change in fair value, issuer rating changes and trends, volatility of earnings, current analysts evaluations, all available information relevant to the collectibility of debt securities, our ability and intent to hold investments until a recovery of fair value, which may be maturity, and other factors, when evaluating for the existence of OTTI in our securities portfolio. Additionally, OTTI is recognized as a realized loss through earnings when there has been an adverse change in the holder's expected cash flows such that it is probable that the full amount will not be received. This is a change from previous guidance that a holder's best estimate of cash flows should be based upon those that a market participant would use.

For all AFS security types discussed below where we believe that no OTTI exists at September 30, 2009, we applied the criteria required in the new guidance in that we do not intend to sell the securities and it is not more likely than not that we will be required to sell the securities before recovery of their amortized cost basis.

Municipal securities

The HTM securities are purchased directly from the municipalities and are generally not rated by a credit rating agency. The AFS securities are rated as investment grade by various credit rating agencies. Both the HTM and AFS securities are at fixed and variable rates with maturities from one to 25 years. Fair values of these securities are highly driven by interest rates. We perform credit quality reviews on these securities at each reporting period. Because the decline in fair value is not attributable to credit quality, we believe that no OTTI exists for these securities at September 30, 2009.

Asset-backed securities

Trust preferred securities – banks and insurance: These CDO securities are variable rate pools of trust preferred securities related to banks and insurance companies. They are rated by one or more Nationally Recognized Statistical Rating Organizations (NRSROs) which are rating agencies registered with the SEC. They were purchased generally at par. Unrealized losses were caused mainly by the following factors: (1) collateral deterioration due to bank failures and credit concerns across the banking sector; (2) widening of credit spreads for asset-backed securities; and (3) general illiquidity in the market for CDOs. Our ongoing review of these securities in accordance with the previous discussion and the policy in our 2008 Annual Report on Form 10-K determined that OTTI should be recorded on certain of these securities. See subsequent summary.

Trust preferred securities – real estate investment trusts (REIT): These CDO securities are variable rate pools of trust preferred securities primarily related to real estate investment trusts, and are rated by one or more NRSROs. They were purchased generally at par. Unrealized losses were caused mainly by severe deterioration in mortgage REITs and homebuilder credit in addition to the same factors previously discussed for banks and insurance CDOs. Our ongoing review of these securities in accordance with the previous discussion and the policy in our 2008 Annual Report on Form 10-K determined that OTTI should be recorded on certain of these securities. See subsequent summary.

Auction rate securities: These debt instruments primarily relate to auction market preferred stock and certain corporate and municipal bonds for which the interest rate was determined through an auction process. Due to the failure of these auctions and attendant illiquidity of the securities, the Company voluntarily purchased these securities at par and recorded them at fair value. They had previously been sold to customers by certain Company subsidiaries. Adjustments to fair value were included in valuation losses on securities purchased. See subsequent discussion.

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

Other asset-backed securities: The majority of these CDO securities were purchased from Lockhart Funding LLC (Lockhart) at their carrying values and were adjusted to fair value. Certain of these CDOs consist of structured asset-backed CDOs (ABS CDOs) (also known as diversified structured finance CDOs). Our ongoing review of these securities in accordance with the previous discussion and the policy in our 2008 Annual Report on Form 10-K determined that OTTI should be recorded on certain of these securities. See subsequent summary.

U.S. Government agencies and corporations

Agency securities: These securities consist of discount notes and medium term notes issued by the Federal Agricultural Mortgage Corporation (FAMC), Federal Home Loan Bank (FHLB), Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation (FHLMC), and Federal National Mortgage Association (FNMA). These securities are fixed rate and were purchased at premiums or discounts. They have maturity dates from one to 30 years and have contractual cash flows guaranteed by agencies of the U.S. Government. In the latter half of 2008, the U.S. Government provided substantial

liquidity to FNMA and FHLMC to bolster their creditworthiness. Because the decline in fair value is not attributable to credit quality, we believe that no OTTI exists for these securities at September 30, 2009.

Agency guaranteed mortgage-backed securities: These securities are comprised largely of fixed and variable rate residential and agricultural mortgage-backed securities issued by the Government National Mortgage Association (GNMA), FNMA, FAMC, or FHLMC. They have maturity dates from one to 30 years and have contractual cash flows guaranteed by agencies of the U.S. Government. In the latter half of 2008, the U.S. Government provided substantial liquidity to both FNMA and FHLMC to bolster their creditworthiness. Because the decline in fair value is not attributable to credit quality, we believe that no OTTI exists for these securities at September 30, 2009.

Small Business Administration (SBA) loan-backed securities: These securities were generally purchased at premiums with maturities from five to 25 years and have principal cash flows guaranteed by the SBA. Because the decline in fair value is not attributable to credit quality, we believe that no OTTI exists for these securities at September 30, 2009.

The following summarizes the amounts of credit-related OTTI recognized in earnings during the three and nine months ended September 30, 2009 according to the previously discussed categories (*in thousands*):

	Three Months Ended September 30, 2009			Nine Months Ended September 30, 2009		
	HTM	AFS	Total	HTM	AFS	Total
Asset-backed securities:						
Trust preferred securities banks and insurance	\$	\$ (37,339)	\$ (37,339)	\$ (3)	\$ (86,307)	\$ (86,310)
Trust preferred securities real estate investment trusts		(9,245)	(9,245)		(77,064)	(77,064)
Other (including ABS CDOs)		(9,931)	(9,931)	(1,758)	(16,025)	(17,783)
	\$	\$ (56,515)	\$ (56,515)	\$ (1,761)	\$ (179,396)	\$ (181,157)

To determine the credit component of OTTI for all security types, the expected cash flows are credit-stressed in that they incorporate the effect of both collateral nonperformance and projected additional nonperformance. These expected cash flows are discounted at a security specific coupon rate.

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

The following is a tabular rollforward of the amount of credit-related OTTI recognized in earnings (*in thousands*):

	Three Months Ended September 30, 2009			Nine Months Ended September 30, 2009		
	HTM	AFS	Total	HTM	AFS	Total
Balance of credit-related OTTI at beginning of period	\$ (3,667)	\$ (303,379)	\$ (307,046)	\$ (29,142)	\$ (153,262)	\$ (182,404)
Adjustment for transfers from HTM to AFS				43,987	(43,987)	
Additions for credit-related OTTI not previously recognized		(20,655)	(20,655)	(15,222)	(34,552)	(49,774)
Additional increases for credit-related OTTI previously recognized when there is no intent to sell and no requirement to sell before recovery of amortized cost basis		(35,860)	(35,860)	(3,290)	(128,093)	(131,383)
Subtotal of additions		(56,515)	(56,515)	(18,512)	(162,645)	(181,157)
Balance of credit-related OTTI at end of period	\$ (3,667)	\$ (359,894)	\$ (363,561)	\$ (3,667)	\$ (359,894)	\$ (363,561)

Noncredit-related OTTI of \$141.9 million and \$254.4 million (\$84.7 million and \$152.5 million after-tax) on securities not expected to be sold, and for which it is not more likely than not that we will be required to sell the securities before recovery of their amortized cost basis, was recognized in OCI during the three and nine months ended September 30, 2009, respectively. As of January 1, 2009, we reclassified \$137.5 million after-tax as a cumulative effect adjustment for the noncredit-related portion of OTTI losses previously recognized in earnings.

At September 30, 2009, 116 HTM and 764 AFS investment securities were in an unrealized loss position, with a vast majority of the dollar amount residing in the CDO portfolio.

The following summarizes gains and losses, including OTTI, that are recognized in the statement of income (*in thousands*):

	Three Months Ended September 30, 2009		Nine Months Ended September 30, 2009	
	Gross gains	Gross losses	Gross gains	Gross losses

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

Valuation losses on securities purchased of \$212.1 million during the nine months ended September 30, 2009 included the following:

\$187.9 million, primarily from the purchase of \$678.1 million of securities by Zions Bank from Lockhart due to ratings downgrades prior to fully consolidating Lockhart effective June 5, 2009. Lockhart had previously functioned as an off-balance sheet qualifying special-purpose entity securities conduit. As of September 30, 2009, Lockhart was legally terminated.

\$24.2 million, when we voluntarily purchased during the first quarter of 2009 all of the \$255.3 million of auction rate securities previously sold to customers by certain Company subsidiaries.

As of September 30, 2009 and December 31, 2008, securities with an amortized cost of \$1.6 billion and \$1.8 billion, respectively, were pledged to secure public and trust deposits, advances, and for other purposes as required by law. Securities are also pledged as collateral for security repurchase agreements.

Subsequent to September 30, 2009, the Company was informed of outstanding offers from a hedge fund to the preferred shareholders (equity holders) of four CDOs in which the Company held senior debt. The offers sought to induce the equity holders, in exchange for payments to be made outside of the CDO, to approve sales to the hedge fund of substantial amounts of performing collateral at deeply discounted prices. Such sales, if consummated, would be detrimental to the interests of the more senior tranches of the CDO.

Although the equity holders in one of the CDOs have agreed to the proposed offer from the hedge fund, the trustee has not commenced to sell the collateral and has filed an action in the United States District Court for the Southern District of New York seeking that the court order the interested parties to interplead and settle all claims relating to the collateral. The Company and other bondholders of these four CDOs are retaining counsel to defend their interests in the CDOs and the collateral and to seek to block any such sales, and believe they have substantial legal bases to do so.

The Company has significant holdings in the four CDOs (\$166 million in carrying value and \$302 million in amortized cost at September 30, 2009). The Company's investment could be materially adversely affected if any or all of these offers are accepted by the equity holders, and if subsequent judicial determinations result in the sale of the performing collateral at significant discounts to fair value. The Company has not adjusted the carrying value of these securities as a result of the actions described above.

5. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

FASB ASC 815 includes new guidance that we adopted January 1, 2009 regarding the disclosure of information about derivatives. Greater transparency is required in disclosing the objectives for their use, the volume of derivative activity, tabular disclosure of financial statement amounts, and any credit-risk-related features. The new disclosure requirements were not significantly different from the Company's previous annual disclosures.

We record all derivatives on the balance sheet at fair value in accordance with FASB ASC 815. See Note 8 for a discussion of the determination of fair value for derivatives. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative and the resulting designation. Derivatives used to hedge the exposure to changes in the fair value of an asset, liability, or firm commitment attributable to a particular risk, such as interest rate risk, are considered fair value hedges. Derivatives used to hedge the exposure to variability in expected future cash flows, or other types of forecasted transactions, are considered cash flow hedges.

Table of Contents

ZIONS BANCORPORATION AND SUBSIDIARIES

For derivatives designated as fair value hedges, changes in the fair value of the derivative are recognized in earnings together with changes in the fair value of the related hedged item. The net amount, if any, representing hedge ineffectiveness, is reflected in earnings. At September 30, 2009, the Company had no fair value hedges, as discussed subsequently.

For derivatives designated as cash flow hedges, the effective portion of changes in the fair value of the derivative are recorded in other comprehensive income and recognized in earnings when the hedged transaction affects earnings. The ineffective portion of changes in the fair value of cash flow hedges is recognized directly in earnings.

We assess the effectiveness of each hedging relationship by comparing the changes in fair value or cash flows on the derivative hedging instrument with the changes in fair value or cash flows on the designated hedged item or transaction. For derivatives not designated as hedges, changes in fair value are recognized in earnings.

Our objective in using derivatives is to add stability to interest income or expense, to modify the duration of specific assets or liabilities as we consider advisable, and to manage exposure to interest rate movements or other identified risks. To accomplish this objective, we use interest rate swaps and floors as part of our cash flow hedging strategy. These derivatives are used to hedge the variable cash flows associated with designated commercial loans.

In previous periods, we used fair value hedges to manage interest rate exposure to certain long-term debt. During the first quarter of 2009, all fair value derivatives were terminated. After significant declines in short-term interest rates, we believed it was highly unlikely that short-term rates could go significantly lower. By terminating the swaps, we locked in a substantial gain due to the increase in their fair value and increased our flexibility to exchange or modify the now unhedged subordinated debt. As discussed further in Note 7, the subordinated debt was modified during the second quarter of 2009, and certain amounts were exchanged and/or converted during the second and third quarters of 2009. As of September 30, 2009, no derivatives were designated for hedges of investments in foreign operations.

Exposure to credit risk arises from the possibility of nonperformance by counterparties. These counterparties primarily consist of financial institutions that are well established and well capitalized. We control this credit risk through credit approvals, limits, pledges of collateral, and monitoring procedures. No losses on derivative instruments have occurred as a result of counterparty nonperformance. Nevertheless, the related credit risk is considered and measured when and where appropriate. We have no significant exposure to credit default swaps.

Interest rate swap agreements designated as cash flow hedges involve the receipt of fixed-rate amounts in exchange for variable-rate payments over the life of the agreements without exchange of the underlying principal amount. Derivatives not designated as hedges, including basis swap agreements, are not speculative and are used to manage our exposure to interest rate movements and other identified risks, but do not meet the strict hedge accounting requirements.
