**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Participants and the Plan Administrator

Franklin Templeton Profit Sharing 401(k) Plan

We have audited the accompanying statements of net assets available for benefits of the Franklin Templeton Profit Sharing 401(k) Plan (the Plan ) as of September 30, 2009 and 2008 and the related statement of changes in net assets available for benefits for the fiscal year ended September 30, 2009. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of September 30, 2009 and 2008 and the changes in net assets available for benefits for the fiscal year ended September 30, 2009 in conformity with accounting principles generally accepted in the United States of America.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year), as of September 30, 2009, is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the United States Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements as a whole.

## Franklin Templeton Profit Sharing 401(k) Plan

### Notes to Financial Statements

#### 1. Description of the Plan General

The Franklin Templeton Profit Sharing 401(k) Plan (the Plan) is a defined contribution plan. The Plan was originally effective as of October 1, 1981 and was most recently restated as of October 1, 2006. The Plan was amended several times thereafter. For a description of these amendments, please refer to Note 10 Plan Amendments.

The Plan covers substantially all employees of Franklin Resources, Inc. (the Company) and its U.S. subsidiaries who meet certain minimum age and employment requirements. The Plan has two features: a profit sharing feature and a 401(k) feature. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Participants should refer to, and solely rely upon, the Plan document and summary plan description for a more complete description of the Plan's provisions.

The Board of Directors of the Company has appointed an administrative committee (the Administrative Committee) and an investment committee (the Investment Committee) with certain authority to manage the policy, design, administration and investments of the Plan. The Administrative Committee, consisting of at least five members appointed by the Board of Directors of the Company, is the administrator of the Plan (the Plan Administrator). In the absence of the Administrative Committee for any reason, the Company will act as the Plan Administrator. The Investment Committee, consisting of at least five members appointed by the Board of Directors of the Company, is responsible for, among other things, analyzing the performance of investment options under the Plan and selecting new investment options to be offered under the Plan.

Charles Schwab Trust Company is the Plan's trustee (the Trustee). The administration and recordkeeping services for the Plan are provided by The 401(k) Company, a subsidiary of the Trustee. Effective March 17, 2009, Independent Fiduciary Services, Inc., was appointed to act as an investment manager and independent fiduciary (the Independent Fiduciary) concerning the purchase, holding and sale by Plan participants and beneficiaries of the Company's common stock in the Plan.

#### Contributions

Pursuant to the 401(k) feature of the Plan, each year, participants may contribute up to 50% of pretax annual compensation, as defined in the Plan document and subject to Internal Revenue Code limitations. Participants age 50 or older may elect to make catch-up contributions. Participants in the Plan may also elect to make contributions to Roth salary deferral accounts and Roth rollover accounts.

All eligible employees (as defined in the Plan) may begin contributing to the Plan as of the first of the month following their date of hire or attainment of age 21, if later. Newly hired eligible employees are automatically enrolled in the Plan at a deferral rate of two percent of compensation following an election period during which the employee may either opt out of the Plan or choose a different salary deferral percentage in the manner prescribed by the Plan Administrator. Unless the participant elects otherwise, the deferral rate will automatically increase by one percent each year on December 1st. The automatic increase is stopped when a deferral rate of fifteen percent is attained, unless changed by the participant.

The Company makes a matching contribution with respect to 50% of the first 6% of eligible compensation deferred by participants. The Company may also make a discretionary profit sharing contribution. There were no discretionary profit sharing contributions during fiscal year 2009. Participants are eligible for employer profit sharing contributions if they have completed 1,000 hours of service during the Plan's fiscal year (as defined by the Plan) and are employed on the last day of that year, or did not complete 1,000 hours of service or are not employed on the last day of the Plan's fiscal year due to death, disability, or retirement at or after normal retirement age (age 65). Eligible employees become participants in the matching and profit sharing portions of the Plan on the first day of the month immediately following the latest of the one-year anniversary of their hire date, completion of one year of service, or attainment of age 21.

#### Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's deferral contributions, allocations of the Company's matching and profit sharing contributions and the Plan earnings and charged with withdrawals and allocations of Plan losses and administrative expenses.

## Edgar Filing: FRANKLIN RESOURCES INC - Form 11-K

Employer matching contributions are allocated to a participant's account based on the participant's elective contribution. Employer profit sharing contributions are allocated to each participant's account in a ratio of the participant's eligible compensation to total eligible compensation for all Plan participants, as described in the Plan's document.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

## Franklin Templeton Profit Sharing 401(k) Plan

### Notes to Financial Statements

#### Vesting

Participants are immediately vested in their deferral contributions plus actual earnings thereon. Participants vest gradually in the Company's matching and profit sharing contribution portion of their accounts plus actual earnings thereon based on their years of service. Typically, a participant is 100% vested after completing five years of service, as defined in the Plan.

#### Investment Options

Upon enrollment in the Plan, a participant may direct all contributions in 1% increments into any of the following investment options as of September 30, 2009:

**Tier 1** Asset allocation funds. The three asset allocation funds offer a convenient way to obtain a broadly diversified investment program for Plan assets.

**Franklin Templeton Conservative Target Fund** The fund seeks the highest level of long-term total return consistent with a lower level of risk. The manager allocates assets among broad asset classes by investing in a distinctly weighted combination of Franklin, Templeton and Mutual Series funds; generally 40% equity funds, 40% fixed-income funds and 20% short-term investments.

**Franklin Templeton Growth Target Fund** The fund seeks the highest level of long-term total return consistent with a higher level of risk. The manager allocates assets among broad asset classes by investing in a distinctly weighted combination of Franklin, Templeton and Mutual Series funds; generally 80% equity funds, 15% fixed-income funds and 5% short-term investments.

**Franklin Templeton Moderate Target Fund** The fund seeks the highest level of long-term total return consistent with a moderate level of risk. The manager allocates assets among broad asset classes by investing in a distinctly weighted combination of Franklin, Templeton and Mutual Series funds; generally 55% equity funds, 35% fixed-income funds and 10% short-term investments.

**Tier 2** Building a diversified portfolio. Investment options offered for those who are more comfortable with investing and would like to build their own diversified portfolio that will be consistent with their retirement planning investment objectives and tolerance for risk.

**Franklin Growth Fund** The fund seeks capital appreciation by investing substantially in the equity securities of companies that are leaders in their industries, and which the managers believe are suitable for a buy-and-hold strategy.

**Franklin Money Fund** The fund seeks to provide investors with as high a level of current income as is consistent with the preservation of shareholders' capital and liquidity.

**Franklin Large Cap Value Fund** The fund seeks long-term capital appreciation by investing at least 80% of the fund's net assets in large-capitalization companies, which are defined as those similar in size to companies in the Russell 1000® Index, at the time of purchase.

**Franklin Small Cap Growth Fund** The fund seeks long-term capital growth by investing at least 80% of its net assets in the equity securities of companies with market capitalizations of generally less than \$1.5 billion, or the highest market capitalization in the Russell 2000® Index, whichever is greater, at the time of purchase.

## Edgar Filing: FRANKLIN RESOURCES INC - Form 11-K

**Franklin Small Cap Value Fund** The fund seeks long-term total return by investing at least 80% of its net assets in securities of smaller companies (market capitalizations under \$3.5 billion at the time of purchase).

**Franklin Total Return Fund** The fund seeks to provide high, current income consistent with preservation of capital. Capital appreciation over the long term is a secondary goal.

**State Street S&P 500 Index Fund** Common collective trust established for retirement plans seeks to capture the earnings and growth potential of large U.S. companies. The fund tracks the Standard and Poor's 500 Index.

**Templeton Institutional Funds Foreign Equity Series** The fund seeks long-term capital growth by investing primarily in equity securities of companies outside the United States.

**Tier 3** Expanded investment options. Additional investment options offered for those with more investment expertise who may want a wider selection of investment options from which to build a diversified portfolio that will be consistent with their investment objectives and tolerance for risk.

**Franklin Balance Sheet Investment Fund** The fund seeks high total return by investing most of its assets in the stocks of companies the fund managers believe are undervalued and trading at a low price relative to book value.

**Franklin Flex Cap Growth Fund** The fund seeks capital appreciation by investing predominantly in the equity securities of small-, medium- and large-sized companies.

**Franklin Templeton Profit Sharing 401(k) Plan**

**Notes to Financial Statements**

**Franklin Growth Opportunities Fund** The fund seeks capital appreciation by investing substantially in equity securities of companies of any size that demonstrate accelerating growth, increasing profitability, or above-average growth or growth potential when compared to the overall economy.

**Franklin High Income Fund** The fund seeks a high level of current income, with a secondary focus on capital appreciation, by investing substantially in higher yielding, lower-rated corporate bonds.

**Franklin Income Fund** The fund seeks to maximize income, while maintaining prospects for capital appreciation, by investing in a diversified portfolio of stocks and bonds.

**Franklin MicroCap Value Fund** The fund seeks high total return by investing at least 80% of its net assets in companies with a total market capitalization of less than \$400 million at the time of purchase.

**Franklin Rising Dividends Fund** The fund seeks long-term capital appreciation by investing at least 80% of its net assets in companies that have paid consistently rising dividends.

**Franklin Small-Mid Cap Growth Fund** The fund seeks long-term capital growth by investing at least 80% of its net assets in equity securities of small- and medium-sized companies with market capitalization ranges of the Russell 2500 Index for small-cap companies and Russell Midcap® Index for mid-cap companies, at the time of purchase.

**Franklin Strategic Income Fund** The fund seeks to provide a high level of current income and capital appreciation over the long-term. The fund is a multi-sector income fund that invests in U.S. and foreign debt securities.

**Franklin U.S. Government Securities Fund** The fund's investment goal is income. Since 1983, the fund has invested substantially in Government National Mortgage Association securities, or Ginnie Maes (GNMAs). These securities carry a guarantee backed by the full faith and credit of the U.S. government as to timely payment of principal and interest.

**Mutual Beacon Fund** The fund seeks capital appreciation, with income as a secondary goal. Its strategy is focused on undervalued mid- and large-cap equity securities, which may include foreign equities, and, to a lesser extent, distressed securities and merger arbitrage.

**Mutual European Fund** The fund seeks capital appreciation, with income as a secondary goal, by investing at least 80% of its net assets in the securities of European companies. It focuses mainly on undervalued equity securities, and to a lesser extent, distressed securities and merger arbitrage opportunities.

**Mutual Global Discovery Fund** The fund seeks capital appreciation, with income as a secondary goal. Its strategy is focused on undervalued mid- and large-cap equity securities, which may include foreign securities and, to a lesser extent, distressed securities and merger arbitrage.

## Edgar Filing: FRANKLIN RESOURCES INC - Form 11-K

Templeton Developing Markets Trust The fund seeks long-term capital appreciation by investing at least 80% of its net assets in securities of developing- or emerging-market issuers.

Templeton Global Bond Fund The fund seeks current income with capital appreciation and growth of income by investing predominantly in bonds of governments and governmental agencies located around the world.

Templeton Global Smaller Companies Fund The fund seeks long-term growth by investing at least 80% of its net assets in securities of smaller companies throughout the world, including emerging markets.

Templeton Growth Fund The fund seeks long-term capital growth by investing primarily in the equity securities of companies of any nation, including emerging markets.

Templeton World Fund The fund seeks long-term capital growth by investing mainly in the equity securities of companies of any nation, including emerging markets.

Franklin Resources, Inc. Common stock of the Company.

Participants may make investment allocation changes daily via either telephone or internet access to their personal account through The 401(k) Company.

### **Voting Rights**

Each participant is entitled to exercise voting rights attributable to the shares of the Company allocated to his or her account and is notified by the Trustee prior to the time that such rights are exercised. Prior to March 17, 2009, if the Trustee did not receive timely instructions, the Trustee itself or by proxy would vote all such shares in the same ratio as the shares with respect to which instructions were received from participants. Effective March 17, 2009, the Independent Fiduciary was appointed to act as an investment manager and independent fiduciary concerning the Company's common stock in the Plan. In accordance with the terms of that appointment, if the Trustee does not receive timely instructions as to voting from Plan participants, the Independent Fiduciary may vote all unvoted shares in its discretion.

---

## Franklin Templeton Profit Sharing 401(k) Plan

### Notes to Financial Statements

#### Participant Loans

Participants with a vested balance of at least \$2,000 may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Participants are allowed to have two outstanding loans at any given time; one general-purpose loan and one residential loan. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loan fund. Loan terms range from 1 to 5 years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime lending rate plus one percent. Interest rates range from 4.25% to 11.00% with maturity dates ranging from October 2009 through October 2024. Principal and interest are paid through semi-monthly payroll deductions.

#### Payment of Benefits

On termination of service for any reason, a participant may elect to receive the value of the vested interest in his or her account as (with limited exceptions) a lump-sum distribution in cash or property or as a rollover to another eligible retirement plan. Participants may be entitled to receive pre-retirement distributions from their fully vested accounts upon reaching age 59 1/2 or in the event they incur a hardship, as defined in the Plan. However, a pre-retirement distribution is not in addition to their other benefits and will, therefore, reduce the value of benefits received at retirement. There were no benefits payable to participants that had elected to withdraw from the Plan as of September 30, 2009 and \$265,919 as of September 30, 2008.

#### Forfeitures

If a portion of a participant's account is forfeited, the amount forfeited remains in the Plan. Forfeitures may be used by the Plan to offset matching contributions or for other purposes, such as restoring returning participant accounts or for the payment of Plan expenses. Forfeitures attributable to Company matching contributions not used by the Plan are used to reduce current and future Company matching contributions. Forfeitures attributable to Company profit sharing contributions will be added to the Company's contributions for profit sharing for the Plan year in which the forfeitures occur and then allocated to participants' eligible share in such contributions. At September 30, 2009 and 2008, the amount of forfeitures used to offset Company matching contributions were \$130,003 and \$165,000 and the amount reallocated to participants as profit sharing contributions were \$213,076 and \$210,898. There were no forfeitures used to pay Plan expenses at September 30, 2009 and 2008.

## 2. Summary of Significant Accounting Policies

### Basis of Accounting

The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America.

### Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates, judgments and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosures of contingent assets and liabilities at the date of the financial statements. Management believes that the accounting estimates are appropriate and the resulting balances are reasonable; however, due to the inherent uncertainties in making estimates, actual amounts may differ from these estimates.

### Concentration of Investments

Included in investments at September 30, 2009 and 2008 are shares of Franklin Resources, Inc. common stock with a market value of \$95,711,544 and \$86,184,178 (See Note 3 - Investments). This investment represents approximately 15% of total investments at September 30, 2009 and 2008. A significant decline in the market value of the Company's common stock would have a material adverse effect on the Plan's net assets available for benefits.

### Investment Valuation and Income Recognition

## Edgar Filing: FRANKLIN RESOURCES INC - Form 11-K

Investments are reported at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 Fair Value Measurements for a discussion of fair value measurements.

Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes net unrealized appreciation (depreciation) of investments and net realized gains (losses) on the sale of investments during the period. Interest income is recorded on the accrual basis. Purchases and sales of securities are recorded on a trade-date basis. Gains and losses on sales of securities are calculated based on the weighted-average cost.

## Franklin Templeton Profit Sharing 401(k) Plan

### Notes to Financial Statements

Management fees and operating expenses charged to the Plan for investments in shares of registered investment companies (mutual funds) are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

#### Payment of Benefits

Benefits are recorded when paid.

#### Risks and Uncertainties

The Plan utilizes various investment instruments including the Company's common stock and mutual funds. Investment securities, in general, are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the concentration of credit risk in the Company's common stock, and the level of uncertainty related to changes in the values of these investment securities, changes in market values of these securities in the near term could materially affect participants' account balances and the amounts reported in the financial statements.

#### New Accounting Standards

##### *Accounting Standards Adopted During Fiscal Year 2009*

In October 2008, the Plan adopted a new Financial Accounting Standards Board (FASB) standard that permits entities to irrevocably elect fair value as the measurement method for certain financial assets and liabilities, with changes in fair value recognized in earnings as they occur. The standard provides the fair value option election on an instrument by instrument basis at initial recognition of an asset or liability or upon an event that gives rise to a new basis of accounting for that instrument. The difference between carrying value and fair value at the election date should be recorded as a cumulative effective adjustment to opening retained earnings. The Plan adopted the standard without electing to apply the fair value option to any eligible assets or liabilities. Therefore, the adoption did not have a material impact on the Plan's financial statements.

In October 2008, the Plan adopted a new FASB standard which provides a common definition of fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The Plan adopted this standard for its financial assets and liabilities measured and reported at fair value and included the required disclosures in Note 4 - Fair Value Measurements. The adoption of the standard did not have a material impact on the Plan's financial statements.

In September 2009, the Plan adopted the FASB Accounting Standards Codification (the Codification), which is now the single source of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB. Rules and interpretive releases of the SEC under authority of federal securities laws are also sources of authoritative U.S. GAAP for SEC registrants. All other accounting literature not included in the Codification became nonauthoritative. As the Codification does not change U.S. GAAP, the adoption of the Codification had no impact on the Plan's financial statements.

##### *Accounting Standards Not Yet Adopted*

In September 2009, the FASB issued a new standard that permits a reporting entity to measure the fair value of certain alternative investments that do not have a readily determinable fair value on the basis of the investments' net asset value per share or its equivalent. The standard requires expanded disclosures. The standard is effective for interim and annual periods ending after December 15, 2009. The Plan's management is currently evaluating the impact that the adoption of the standard as of October 1, 2009 will have on the Plan's financial statements.

### 3. Investments

The following table presents investments at fair value that represent 5% or more of the Plan's net assets.

Edgar Filing: FRANKLIN RESOURCES INC - Form 11-K

	September 30,	
	2009	2008
Franklin Resources, Inc. common stock	\$ 95,711,544	\$ 86,184,178
Mutual Global Discovery Fund	50,870,149	49,251,685
Franklin Money Fund	44,699,981	48,534,864
Templeton Developing Markets Trust	44,311,272	39,661,061
Franklin Growth Fund	43,699,332	36,300,984
Templeton Growth Fund	40,700,555	42,646,165
Franklin Income Fund	38,426,755	31,272,226
Mutual Beacon Fund	30,947,673	30,949,050

**Franklin Templeton Profit Sharing 401(k) Plan****Notes to Financial Statements**

During the fiscal year ended September 30, 2009, the Plan's investments appreciated in value (including gains and losses on investments bought and sold, as well as held during the year) by \$12,471,021 as follows:

Franklin Resources, Inc. common stock	\$ 12,539,301
Registered investment companies (mutual funds)	233,435
Common collective trust	(301,715)
<b>Net appreciation in fair value of investments</b>	<b>\$ 12,471,021</b>

**4. Fair Value Measurements**

The Plan uses a three-level fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value based on whether the inputs to those valuation techniques are observable or unobservable. The three levels of fair value hierarchy are set forth below. The Plan's assessment of the hierarchy level of the assets or liabilities measured at fair value is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2 Observable inputs other than Level 1 quoted prices, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; or inputs other than quoted prices that are observable or corroborated by observable market data. Level 2 quoted prices are obtained from independent third-party brokers or dealers, including prices derived from model-based valuation techniques for which the significant assumptions are observable in the market or corroborated by observable market data.
- Level 3 Unobservable inputs that are supported by little or no market activity. These inputs require significant management judgment and reflect the Plan's estimation of assumptions that market participants would use in pricing the asset or liability. Level 3 valuations are derived primarily from model-based valuation techniques in which one or more significant inputs are unobservable in the market.

The table below presents the balances of assets measured at fair value by hierarchy level.

*(in thousands)*

as of September 30, 2009	Level 1	Level 2	Level 3	Total
Money market funds	\$ 44,712,159	\$	\$	\$ 44,712,159
Mutual funds	486,090,425			486,090,425
Common stock	95,711,544			95,711,544
Common collective trust		9,279,387		9,279,387
Participant loans			10,787,913	10,787,913
<b>Total assets measured at fair value</b>	<b>\$ 626,514,128</b>	<b>\$ 9,279,387</b>	<b>\$ 10,787,913</b>	<b>\$ 646,581,428</b>

At September 30, 2009, Level 3 assets represented approximately 1.7% of total assets measured at fair value and there were no liabilities measured at fair value.

## Edgar Filing: FRANKLIN RESOURCES INC - Form 11-K

The following is a description of the fair value methodologies used.

*Money market funds* are carried at cost. Due to their short-term nature and liquidity, the carrying values approximate fair value.

*Mutual funds* are valued using the net asset value of the shares held by the plan at year end.

*Common stock* consists of Franklin Resources, Inc.'s common stock and is valued using the closing price reported on the New York Stock Exchange.

The *common collective trust* is valued using the unit of participation value of shares held by the plan at year end.

*Participant loans* are valued at amortized cost, which approximates fair value.

While the Plan believes the valuation methodologies described above are appropriate, the use of different methodologies or assumptions to determine the fair value could result in a different estimate of fair value at the reporting date.

**Franklin Templeton Profit Sharing 401(k) Plan****Notes to Financial Statements**

The changes in Level 3 assets measured at fair value for the year were as follows:

<i>(in thousands)</i>	<b>Participant Loans</b>
Balance at October 1, 2008	\$ 10,983,854
Purchases, sales, and settlements, net	(195,941)
<b>Balance at September 30, 2009</b>	<b>\$ 10,787,913</b>

**5. Federal Income Tax Status**

The Internal Revenue Service has determined and informed the Company by a letter expiring January 31, 2012, that the Plan was designed in accordance with applicable regulations of the Internal Revenue Code ( IRC ). The Plan has been amended since receiving the determination letter. However, the Trustee and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and the Plan continues to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

**6. Management and Trustee's Fees**

The Company or the Plan, as provided in the Plan document, pays all administrative and operating expenses of the Plan.

**7. Plan Termination**

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan will be allocated to participant accounts and distributed in such a manner as the Company may determine.

**8. Related Party Transactions**

The Plan's investments are invested in the common stock of Franklin Resources, Inc., the Plan sponsor, and certain mutual funds, which are managed and provided with various services by wholly-owned subsidiaries of the Company. Therefore, these investments qualify as party-in-interest transactions. As investment manager, certain subsidiaries of the Company earn annual management fees ranging from 0.25% to 1.22% of the amounts invested in the funds. Fees paid by the Plan for investment management services are included as a reduction of the return earned on each fund.

**9. Reconciliation of Financial Statements to Form 5500**

There were no reconciling items between the financial statements and the Form 5500 as of September 30, 2009.

The following is a reconciliation of net assets available for plan benefits per the financial statements to the Form 5500 as of September 30, 2008:

Edgar Filing: FRANKLIN RESOURCES INC - Form 11-K

Net assets available for benefits per the financial statements	\$ 616,769,800
Amounts due to withdrawing participants	(265,919)
Participant contributions receivable from employees	(1,062,449)
Interest receivable from employees	(31,747)
Net assets available for benefits per the Form 5500	\$ 615,409,685

**10. Plan Amendments**

The Plan was amended effective as of October 1, 2007 to (a) permit Roth salary deferrals and rollover contributions from another Roth salary deferral account and (b) permit participants to make an election to defer from the cash portion of his or her year-end bonus (if any) in an amount equal to any whole percentage up to 100%, not to exceed the annual contribution limits.

The Plan was amended effective as of October 20, 2008 to permit participants to make a hardship withdrawal of all or part of a participant's vested account balance, subject to certain limitations and to restrict a participant who makes a hardship withdrawal from making salary deferral contributions to the Plan or from making any elective contributions under any other plan maintained by the Company for six months following the date of the withdrawal. Whether a participant has incurred a hardship will be determined by the Plan Administrator in accordance with new requirements added to the Plan.
