REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Participants in and Plan Administrator of

CommScope, Inc. Retirement Savings Plan:

We have audited the accompanying statements of net assets available for benefits of the CommScope, Inc. Retirement Savings Plan (the Plan) as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2009 and 2008, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule listed in the Table of Contents is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan's management. Such schedule has been subjected to the auditing procedures applied in our audit of the basic 2009 financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

COMMSCOPE, INC. RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2009 AND 2008

1. DESCRIPTION OF THE PLAN

The following description of the CommScope, Inc. Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document and summary plan description for more complete information.

General The Plan is a defined contribution plan covering all eligible domestic employees of CommScope, Inc. (the Company) and subsidiaries that have adopted the Plan with the consent of the Company. Employees who are covered by a collective bargaining agreement that does not provide for their coverage in the Plan are not eligible to participate in the Plan. Eligibility for participation in the salary deferral savings and Company-matching portions of the Plan occurs on the first day of the calendar month following the completion of one hour of service.

The Administrative Committee is responsible for the general administration and interpretation of the Plan and for carrying out its provisions. The Investment Committee is responsible for the investment of the assets of the Plan. Vanguard Fiduciary Trust Company (Vanguard) serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Plan Merger Effective December 31, 2008, the Andrew Profit Sharing Trust (the Andrew Plan) was merged into the Plan. As a result of the merger, assets of \$210,571,133 were transferred from the Andrew Plan to the Plan. As an administrative convenience, Vanguard and the Company entered into an agreement that allowed Vanguard to purchase investments in the appropriate funds on behalf of the Plan as of December 31, 2008, with the understanding Vanguard would receive the funds from the Andrew Plan trustee on January 2, 2009. As a result of this agreement, the Plan had a payable to Vanguard for \$208,210,629 and a receivable from the Andrew Plan trustee for \$210,571,133 at December 31, 2008. The assets from the Andrew Plan trustee were received at Vanguard on January 2, 2009.

Contributions Participants may contribute any whole percentage from 1% up to 100% of their pretax annual base compensation, as defined in the Plan, subject to certain Internal Revenue Code (IRC) limitations. Prior to January 1, 2009, a participant's compensation was automatically reduced by 2% and that amount was contributed to the Plan for the benefit of the participant, unless the participant made an affirmative election otherwise. Effective January 1, 2009, each participant's compensation is automatically reduced by 4% and that amount is contributed to the Plan for the benefit of the participant, unless the participant makes an affirmative election otherwise. Also effective January 1, 2009, participants may elect to have all or any portion of their salary deferral contributions treated as Roth 401(k) contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (participant rollovers).

The Company contributes 2% of base compensation for all eligible employees (Non-Discretionary Contributions) and matches 100% of the first 4% of compensation that a participant contributes to the Plan (Matching Contributions). Effective April 1, 2009, the Plan was amended to allow the Company to make up to 100% of the Company's Non-Discretionary Contributions and Matching Contributions in shares of Company stock instead of cash. Participants may choose to liquidate all or a portion of their account

Table of Contents

attributable to shares of Company stock into one or more of the available investment options offered under the Plan, subject to insider trading restrictions. On May 1, 2009, the Company began making 100% of its Non-Discretionary Contributions and Matching Contributions in shares of Company stock. The fair value of Company stock contributed to the Plan by the Company in 2009 was \$10.8 million.

Participant Accounts Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contributions, the Company's Non-Discretionary Contributions and the Company's Matching Contributions, as well as related plan earnings. Participant accounts are charged with any benefit payments and an allocation of plan losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments Participants direct the investment of their contributions into various investment options offered by the Plan. Non-Discretionary Contributions are automatically invested in the CommScope Stock Fund. Prior to May 1, 2009, half of the Matching Contributions were automatically invested in the CommScope Stock Fund and the other half of the Matching Contributions followed the participant's investment elections. Effective May 1, 2009, all of the Matching Contributions are automatically invested in the CommScope Stock Fund. These funds may be transferred by the participant at any time thereafter to any other investment option in the Plan, subject to insider trading restrictions. The Plan currently offers mutual funds, a money market fund, a stable value fund, a participant-directed brokerage account and the CommScope stock fund as investment options for participants. The participant-directed brokerage account is available only to former participants in the Andrew Plan who had amounts invested in the brokerage account prior to the Plan merger. Effective December 31, 2009, the participant-directed brokerage account is no longer offered as an investment option. All remaining balances in the brokerage account will be liquidated and invested in a Vanguard Target Retirement fund based on each participant's age. Sales of investments in the participant-directed brokerage account that had not settled as of December 31, 2009 are shown as due from broker on the Statements of Net Assets Available for Benefits.

Vesting Participants are immediately vested in all participant contributions and related earnings in their accounts. They are immediately vested in all Company contributions and related earnings in their accounts except as follows:

Former participants in the Andrew Plan who have not completed one hour of service on or after December 31, 2008 are subject to the vesting schedule provided in the Andrew Plan.

All other participants are vested in all Company contributions and related earnings in their accounts provided they have completed one hour of service on or after January 1, 2006.

Forfeitures At December 31, 2009 and 2008, forfeited non-vested accounts totaled \$207,392 and \$51,378, respectively. At December 31, 2009 and 2008, non-vested accounts that have not yet been forfeited totaled \$509,508 and \$624,842, respectively. During both 2009 and 2008, no forfeitures were used to reduce employer contributions.

Participant Loans Participants may borrow from their accounts up to \$50,000 or 50% of their vested account balances, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with prevailing rates at the time funds are borrowed. The interest rates ranged from 4% to 13% at December 31, 2009. Principal and interest are paid ratably through payroll deductions. The maximum term for a general purpose loan is five years and the maximum term for a principal residence loan is 15 years.

Table of Contents

Payment of Benefits Withdrawals from participant accounts are permitted upon reaching age 59 1/2, termination, retirement, death, disability or financial hardship, as defined by the Plan. Distributions are generally paid in a lump sum in cash.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Certain prior year amounts have been reclassified to conform to the current year presentation.

Investment contracts held by a defined contribution plan are required to be reported at fair value. The Statements of Net Assets Available for Benefits present the fair values of investment contracts as well as adjustments for fully benefit-responsive investment contracts from fair value to contract value. The contract value of a fully benefit-responsive investment is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis. See Note 4 for further discussion of the fully benefit-responsive contracts.

Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties The Plan utilizes various investment instruments, including mutual funds, a stable value fund, participant-directed brokerage accounts and the CommScope stock fund. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the financial statements.

Investment Valuation The Plan's investments are stated at fair value. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Investments included in the participant-directed brokerage accounts are valued at quoted market prices, which, for registered investment companies, represent the net asset value of shares held by the Plan at year-end. The CommScope Stock Fund is valued at year-end unit closing price (comprised of year-end market price for shares held by the CommScope Stock Fund plus the value of money market reserves). Participant loans are valued at cost plus accrued interest, which approximates fair value.

The CommScope Stable Value Fund, which is a blended fund primarily invested in synthetic guaranteed investment contracts and traditional investment contracts, is comprised of the following:

JPMCB Intermediate Bond Fund, a commingled fund

JPMCB Liquidity Fund, a commingled fund

Wrap contracts

Vanguard Retirement Savings Trust, a collective investment trust fund

Vanguard Prime Money Market Fund, a money market fund

Edgar Filing: COMMSCOPE INC - Form 11-K

U.S. Treasury Notes

The fair value of the commingled funds is based on the fair value of the underlying investments. The fair value of the wrap contracts is determined by applying a discount rate to the difference between the actual

- 6 -

Table of Contents

rate and current market rates for contract level wrap fees. The discount rate used is based on the prevailing interpolated swap rate as of period end. The Vanguard Retirement Savings Trust invests in the Vanguard Retirement Savings Master Trust (the Master Trust). The underlying investments of the Master Trust are primarily investment contracts that are issued by insurance companies and commercial banks and contracts that are backed by bond trusts. Shares of the Vanguard Prime Money Market Fund are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. U.S. Treasury Notes are valued at market price plus accrued interest. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the CommScope Stable Value Fund at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals.

Income Recognition Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Administrative Expenses Certain administrative expenses (as reflected on the Statements of Changes in Net Assets Available for Benefits) are borne by participants who elect or require services such as personalized asset management advice, participant loans or qualified domestic relations orders. All other administrative expenses of the Plan are paid by the Company.

Payments of Benefits Benefit payments are recorded when paid.

The Plan's investments appreciated (depreciated) in value (including gains and losses on investments bought and sold, as well as investments held during the year) as follows:

	2009	2008
Net appreciation (depreciation) in fair value of investments:		
Mutual funds	\$ 62,262,156	\$ (53,326,638)
CommScope Stable Value Fund	1,544,849

	\$ 95,267,197	\$ (83,964,493)

4. INVESTMENT CONTRACTS

The CommScope Stable Value Fund holds fully benefit-responsive wrap contracts issued by third parties. These accounts are credited with interest as specified in the contracts and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal plus accumulated interest. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. However, in certain circumstances, the amount withdrawn from the wrap contract is payable at fair value rather than at contract value. These events include termination of the Plan, a material adverse change to the provisions of the Plan or the Plan's election to withdraw from a wrap contract. Plan management does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, has occurred or is probable.

Examples of events that would permit a wrap contract issuer to terminate a wrap contract upon short notice include the Plan's loss of its qualified status, uncured material breaches of responsibilities or material and adverse changes to the provisions of the Plan. If one of these events occurred, the wrap contract issuer could terminate the wrap contract at the market value of the underlying investments.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The credit ratings for the issuers of the wrap contracts range from A+ to AA. The crediting interest rate for the wrap contracts is calculated on a quarterly basis (or more frequently, if necessary) using contract value, market value of the underlying fixed income portfolio, the yield of the portfolio and the duration of the index, but cannot be less than zero.

Table of Contents

The average yields of the wrap contracts for the year ended December 31, 2009 are as follows:

Based on actual earnings	4.05%
Based on interest rate credited to participants	2.32%

5. FAIR VALUE OF INVESTMENTS

Fair value measurements using quoted prices in active markets for identical assets fall within Level 1 of the fair value hierarchy, measurements using significant other observable inputs fall within Level 2, and measurements using significant unobservable inputs fall within Level 3.

See the section titled "Investment Valuation" in Note 2 for a discussion of the inputs and assumptions used to determine the fair value of the Plan's investments.

The following table presents the Plan's investments that are measured at fair value at December 31, 2009:

Balance, end of year	\$ 54,647	\$ 17,725,313

6. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are shares of mutual funds and units of participation in a common trust fund managed by an affiliate of Vanguard. Vanguard is the trustee as defined by the Plan and, therefore, transactions involving these investments qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

At December 31, 2009 and 2008, the Plan held common stock of CommScope, Inc. with a cost basis of \$45,671,477 and \$35,097,913, respectively. During the years ended December 31, 2009 and 2008, the Plan recognized no dividend income related to CommScope, Inc. common stock.

7. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2009 and 2008:

Total additions per the financial statements	\$ 143,635,974	\$ 157,649,523
Adjustment from contract value to fair value for fully-benefit responsive investment contracts	3,326,775	(397,449)
Transfer from Andrew Plan		(210,571,133)
Total income per the Form 5500	\$ 146,962,749	\$ (53,319,059)

9. FEDERAL INCOME TAX STATUS

The Plan obtained its latest determination letter on August 20, 2008, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the determination letter, the Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax and therefore, the Plan and related trust continue to be tax-exempt.
