Table of Contents**R.R. DONNELLEY & SONS COMPANY AND SUBSIDIARIES (RR DONNELLEY)****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)****(Tabular amounts in millions, except per share data unless otherwise indicated)****1. Basis of Presentation**

The accompanying unaudited condensed consolidated interim financial statements include the accounts of R.R. Donnelley & Sons Company and its subsidiaries (the Company or RR Donnelley) and have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and in accordance with the rules and regulations of the United States Securities and Exchange Commission (the SEC). Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. These unaudited condensed consolidated interim financial statements reflect all normal and recurring adjustments that are, in the opinion of management, necessary for a fair presentation of the results for the interim periods. These unaudited condensed consolidated interim financial statements should be read in conjunction with the consolidated financial statements and the related notes thereto included in the Company s latest Annual Report on Form 10-K for the year ended December 31, 2009 filed with the SEC on February 24, 2010. Operating results for the three and nine months ended September 30, 2010 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2010. All significant intercompany transactions have been eliminated in consolidation. These unaudited condensed consolidated interim financial statements include estimates and assumptions of management that affect the amounts reported in the condensed consolidated financial statements. Actual results could differ from these estimates.

2. Acquisitions**2009 Acquisitions**

On June 18, 2009, the Company acquired Prospectus Central, LLC (Prospectus), an e-delivery company located in Fitzgerald, Georgia. The purchase price for Prospectus was \$3.0 million. Prospectus s operations are included in the U.S. Print and Related Services segment.

On January 2, 2009, the Company acquired the assets of PROSA, a web printing company located in Santiago, Chile. The purchase price for PROSA was approximately \$23.6 million. PROSA s operations are included in the International segment.

The operations of these acquired businesses are complementary to the Company s existing products and services. As a result, the addition of these businesses is expected to improve the Company s ability to serve customers, increase capacity utilization, and reduce management, procurement and manufacturing costs.

The PROSA and Prospectus acquisitions were recorded by allocating the cost of the acquisitions to the assets acquired, including intangible assets, based on their estimated fair values at the acquisition date. The excess of the cost of the acquisitions over the net amounts assigned to the fair value of the assets acquired was recorded as goodwill, none of which is tax deductible. Based on the valuations, the final purchase price allocations for these 2009 acquisitions were as follows:

Accounts receivable	\$ 2.4
Property, plant and equipment	9.2
Amortizable intangible assets	11.6
Goodwill	6.5
Accounts payable and accrued liabilities	(2.5)
Deferred taxes net	(0.6)
Net cash paid	\$ 26.6

During the three and nine months ended September 30, 2010, depreciation expense was \$102.1 million and \$318.6 million, respectively. During the three and nine months ended September 30, 2009, depreciation expense was \$115.1 million and \$348.1 million, respectively.

Assets Held for Sale

Primarily as a result of recent restructuring actions, certain facilities and equipment are considered held for sale. The net book value of assets held for sale was \$7.0 million at September 30, 2010 and \$8.7 million at December 31, 2009. These assets were included in other current assets in the Condensed Consolidated Balance Sheets at September 30, 2010 and December 31, 2009 at the lower of their historical net book value or their estimated fair value, less estimated costs to sell.

reporting unit within the International segment. The impairment of these intangible assets primarily resulted from the termination of a customer contract. After recording the impairment charge, remaining customer relationship intangible assets in the Global Turnkey Solutions reporting unit were \$46.6 million as of September 30, 2010. In addition, for the three and nine months ended September 30, 2010, the Company recorded net restructuring charges of \$3.2 million and \$18.5 million, respectively, for employee termination costs for 1,137 employees, of whom 1,109 were terminated as of September 30, 2010. These terminations were associated with actions resulting from the reorganization of certain operations, including those within the business process outsourcing and Latin America reporting units. In addition, continuing charges resulting from the closing of two Global Turnkey Solutions manufacturing facilities in 2009 within the International segment were recorded in 2010. These actions also included the reorganization of certain operations within the magazine, catalog and retail insert and variable print reporting units and the closing of one Forms and Labels manufacturing facility within the U.S. Print and Related Services segment. Additionally, the Company incurred other restructuring charges of \$17.0 million and \$25.4 million, respectively, for the three and nine months ended September 30, 2010. Of this amount, \$13.6 million related to multi-employer pension plan partial withdrawal charges primarily attributable to two closed manufacturing facilities within the U.S. Print and Related Services segment. The remaining charges included lease termination and other facility closure costs partially offset by the gain on the sale of a previously closed facility in the International segment. For the three and nine months ended September 30, 2010, the Company also recorded \$1.6 million and \$4.1 million, respectively, of impairment charges primarily for machinery and equipment and leasehold improvements associated with the facility closings. The fair values of the machinery and equipment and leasehold improvements were determined to be Level 3 under the fair value hierarchy and were estimated based on discussions with machinery and equipment brokers, dealer quotes, and internal expertise related to the equipment and current marketplace conditions. In addition, the impairment of the acquired customer relationship intangible assets was determined using Level 3 inputs and was estimated based on cash flow analysis and management's assumptions related to the future revenues and profitability of certain customers.

For the three and nine months ended September 30, 2009, the Company recorded net restructuring and impairment charges, discounted for future cash payments, of \$117.3 million for the termination of a significant long-term customer contract in the business process outsourcing reporting unit within the International segment, of which \$116.4 million, \$0.8 million and \$0.1 million are reflected in other charges, impairment and employee terminations, respectively. In addition, for the three and nine months ended September 30, 2009, the Company recorded net restructuring charges of \$7.5 million and \$71.3 million, respectively, for employee termination costs for 3,635 employees, all of whom were terminated as of September 30, 2010, associated with actions resulting from the reorganization of certain operations. These actions included the closings of two magazine, catalog and retail insert manufacturing facilities, two book manufacturing facilities and one digital solutions facility within the U.S. Print and Related Services segment, as well as the closing of one Global Turnkey Solutions manufacturing facility, one business process outsourcing facility, one Latin America manufacturing facility and one European manufacturing facility within the International segment. Additionally, the Company incurred other restructuring charges of \$5.7 million and \$23.4 million for the three and nine months ended September 30, 2009, respectively, including lease termination and other facility closure costs. For the three and nine months ended September 30, 2009, the Company also recorded \$1.2 million and \$22.1 million, respectively, of impairment charges primarily for machinery and equipment associated with the facility closings.

Restructuring Reserve

Activity impacting the Company's restructuring reserve for the nine months ended September 30, 2010 was as follows:

	December 31, 2009	Restructuring Costs Charged to Results of Operations	Foreign Exchange and Other	Cash Paid	September 30, 2010
Employee terminations	\$ 20.4	\$ 18.5	\$ (0.2)	\$ (27.8)	\$ 10.9
Other	120.5	25.4	(2.3)	(70.9)	72.7
Total	\$ 140.9	\$ 43.9	\$ (2.5)	\$ (98.7)	\$ 83.6

\$64.5 million of the total restructuring reserve was current and included in accrued liabilities at September 30, 2010, while the long-term portion of \$19.1 million, primarily related to multi-employer pension plan partial withdrawal charges and lease termination costs, was included in other noncurrent liabilities at September 30, 2010.

The Company anticipates that payments associated with these employee terminations will be substantially completed by September of 2011.

The restructuring liabilities classified as "other" consist of the estimated remaining payments related to the termination of a significant long-term customer contract in 2009, multi-employer pension plan partial withdrawal charges, lease termination costs and other facility closing costs. The Company paid \$57.5 million in January 2010 and expects to pay approximately \$39.6 million, subject to changes in foreign exchange rates, in December 2010 or January 2011, related to the termination of the significant long-term customer contract. The Company transferred funds to restricted cash for this payment. Payments on certain of these lease obligations are scheduled to continue until 2017. Market conditions and the Company's ability to sublease these properties could affect the ultimate charge related to these lease obligations. Any potential recoveries or additional charges could affect amounts reported in the Consolidated Financial Statements of future periods.

7. Employee Benefits

The components of the estimated pension and postretirement benefits expense for the three and nine months ended September 30, 2010 and 2009 were as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009

8. Share-Based Compensation

The Company recognizes compensation expense, based on estimated grant date fair values, for all share-based awards issued to employees and directors, including stock options and restricted stock units. The total compensation expense related to all share-based compensation plans was \$6.4 million and \$22.4 million for the three and nine months ended September 30, 2010, respectively. The total compensation expense related to all share-based compensation plans was \$5.5 million and \$19.3 million for the three and nine months ended September 30, 2009, respectively.

Stock Options

The Company granted 540,000 and 1,520,468 stock options during the nine months ended September 30, 2010 and 2009, respectively. The fair value of each stock option award is estimated on the date of grant using the Black-Scholes-Merton option pricing model. The fair value of these stock options was determined using the following assumptions:

	2010	2009
Expected volatility	35.61%	29.67%
Risk-free interest rate	2.75%	2.27%
Expected life (years)	6.25	6.25
Expected dividend yield	4.19%	3.63%

The grant date fair value of these options was \$4.81 and \$1.47 per stock option for the nine months ended September 30, 2010 and 2009, respectively.

The following table is a summary of the Company's stock option activity:

	Shares Under Option (thousands)	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (years)	Aggregate Intrinsic Value (millions)
Outstanding at December 31, 2009	4,168	\$ 20.17	6.4	\$ 26.6
Granted	540	19.89	9.4	
Exercised	(198)	10.63		
Cancelled/forfeited/expired	(281)	21.53		
Outstanding at September 30, 2010	4,229	20.15	6.5	14.5
Exercisable at September 30, 2010	495	\$ 8.26	6.2	\$ 4.3

The aggregate intrinsic value in the table above represents the total pre-tax intrinsic value (the difference between the Company's closing stock price on September 30, 2010 and December 31, 2009, respectively, and the exercise price, multiplied by the number of in-the-money options) that would have been received by the option holders had all option holders exercised their options on September 30, 2010 and December 31, 2009. This amount will change in future periods based on the fair market value of the Company's stock and the number of options outstanding.

Edgar Filing: RR Donnelley & Sons Co - Form 10-Q

There were no options exercised for the three months ended September 30, 2010. Total intrinsic value of options exercised for the nine months ended September 30, 2010 was \$2.1 million. Total intrinsic value of options exercised for the three and nine months ended September 30, 2009 was less than \$0.1 million in each period.

Compensation expense recognized related to stock options for the three and nine months ended September 30, 2010 was \$0.8 million and \$2.3 million, respectively. Compensation expense recognized related to stock options for the three and nine months ended September 30, 2009 was \$0.6 million and \$1.8 million, respectively. As of September 30, 2010, \$5.5 million of total unrecognized share-based compensation expense related to stock options is expected to be recognized over a weighted average period of 2.4 years.

Restricted Stock Units

Nonvested restricted stock unit awards as of September 30, 2010 and December 31, 2009 and changes during the nine months ended September 30, 2009 were as follows:

	Shares (thousands)	Weighted Average Grant Date Fair Value
Nonvested at December 31, 2009	5,480	\$ 11.08
Granted	1,518	17.41
Vested	(1,226)	9.77
Forfeited	(30)	13.24
Nonvested at September 30, 2010	5,742	\$ 13.06

Compensation expense recognized related to restricted stock units for the three and nine months ended September 30, 2010 was \$5.6 million and \$20.1 million, respectively. Compensation expense recognized related to restricted stock units for the three and nine months ended September 30, 2009 was \$4.9 million and \$17.5 million, respectively. As of September 30, 2010, there was \$32.5 million of unrecognized share-based compensation expense related to nonvested restricted stock unit awards that are expected to vest over a weighted-average period of 2.5 years.

Other Information

Authorized unissued shares or treasury shares may be used for issuance under the Company's share-based compensation plans. The Company intends to use treasury shares of its common stock to meet the stock requirements of its awards in the future. During the nine months ended September 30, 2010, the Company did not purchase any of its common stock in the open market. As of September 30, 2010, the Company is authorized, under the terms of its share repurchase program approved by the Board of Directors, to repurchase up to 10.0 million shares.

(a) Diluted net earnings per share attributable to RR Donnelley common shareholders takes into consideration the dilution of certain unvested restricted stock awards and unexercised stock option awards. For the three and nine months ended September 30, 2010, restricted stock units of 2.7 million and 2.9 million, respectively, were excluded as their effect would be anti-dilutive. For the three and nine months ended September 30, 2010, options to purchase 3.7 million shares and 3.6 million shares, respectively, were anti-dilutive because the option exercise price exceeded the fair value of the stock.

For the three and nine months ended September 30, 2009, restricted stock units of 2.8 million and 3.4 million, respectively, were excluded as their effect would be anti-dilutive. For the three and nine months ended September 30, 2009, options to purchase 4.2 million shares and 4.5 million shares, respectively, were anti-dilutive because the option exercise price exceeded the fair value of stock.

12. Segment Information

The Company operates primarily in the printing industry, with related service offerings designed to offer customers complete solutions for communicating their messages to target audiences. The Company's reportable segments reflect the management reporting structure of the organization and the manner in which the chief operating decision-maker regularly assesses information for decision-making purposes, including the allocation of resources. The Company's segments and their products and service offerings are summarized below:

U.S. Print and Related Services

The U.S. Print and Related Services segment includes the Company's U.S. printing operations, managed as one integrated platform, along with related logistics, premedia and print-management services. This segment's products and related service offerings include magazines, catalogs, retail inserts, books, directories, financial print, direct mail, forms, labels, office products, statement printing, premedia and logistics services.

International

The International segment includes the Company's non-U.S. printing operations in Asia, Europe, Latin America and Canada. Additionally, this segment includes the Company's business process outsourcing and Global Turnkey Solutions operations. Business process outsourcing provides transactional print and outsourcing services, statement printing, direct mail and print management services through its operations in Europe, Asia and North America. Global Turnkey Solutions provides outsourcing capabilities, including product configuration, customized kitting and order fulfillment for technology, medical device and other companies around the world through its operations in Europe, North America and Asia.

Corporate

Corporate consists of unallocated general and administrative activities and associated expenses including, in part, executive, legal, finance, information technology, human resources, certain facility costs and LIFO inventory provisions. In addition, certain costs and earnings of employee benefit plans, primarily components of net pension and postretirement benefits expense other than service cost, are included in Corporate and not allocated to operating segments.

The Company has disclosed income (loss) from operations as the primary measure of segment earnings (loss). This is the measure of profitability used by the Company's chief operating decision-maker and is most consistent with the presentation of profitability reported within the Condensed Consolidated Financial Statements.

13. Commitments and Contingencies

The Company is subject to laws and regulations relating to the protection of the environment. The Company provides for expenses associated with environmental remediation obligations when such amounts are probable and can be reasonably estimated. Such accruals are adjusted as new information develops or circumstances change and are not discounted. The Company has been designated as a potentially responsible party in thirteen federal and state Superfund sites. In addition to the Superfund sites, the Company may also have the obligation to

Table of Contents**R.R. DONNELLEY & SONS COMPANY AND SUBSIDIARIES (RR DONNELLEY)****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

(Tabular amounts in millions, except per share data unless otherwise indicated)

remediate six other previously owned facilities and three other currently owned facilities. At the Superfund sites, the Comprehensive Environmental Response, Compensation and Liability Act provides that the Company's liability could be joint and several, meaning that the Company could be required to pay an amount in excess of its proportionate share of the remediation costs. The Company's understanding of the financial strength of other potentially responsible parties at the Superfund sites and of other liable parties at the previously owned facilities has been considered, where appropriate, in the determination of the Company's estimated liability. The Company established reserves, recorded in accrued liabilities and other noncurrent liabilities, that it believes are adequate to cover its share of the potential costs of remediation at each of the Superfund sites and the previously and currently owned facilities. While it is not possible to quantify with certainty the potential impact of actions regarding environmental matters, particularly remediation and other compliance efforts that the Company may undertake in the future, in the opinion of management, compliance with the present environmental protection laws, before taking into account estimated recoveries from third parties, will not have a material adverse effect on the Company's consolidated annual results of operations, financial position or cash flows.

From time to time, the Company's customers and others file voluntary petitions for reorganization under United States bankruptcy laws. In such cases, certain pre-petition payments received by the Company from these parties could be considered preference items and subject to return. In addition, the Company may be party to certain litigation arising in the ordinary course of business. Management believes that the final resolution of these preference items and litigation will not have a material adverse effect on the Company's consolidated annual results of operations, financial position or cash flows.

14. Debt

The Company's debt consists of the following:

	September 30, 2010	December 31, 2009
4.95% senior notes due May 15, 2010	\$	\$ 325.7
5.625% senior notes due January 15, 2012	158.5	158.5
4.95% senior notes due April 1, 2014	599.2	599.0
5.50% senior notes due May 15, 2015	499.6	499.6
8.60% senior notes due August 15, 2016	345.9	345.3
6.125% senior notes due January 15, 2017	621.9	621.5

Other, including capital leases	41.2	23.7
Total debt	3,415.4	3,322.4
Less: current portion	(8.0)	(339.9)
Long-term debt	\$ 3,407.4	\$ 2,982.5

The fair values of the senior notes and debentures, which were based upon the interest rates available to the Company for borrowings with similar terms and maturities, were determined to be Level 2 under the fair value hierarchy. The fair value of the Company's debt was greater than its book value by approximately \$303.6 million and \$177.9 million at September 30, 2010 and December 31, 2009, respectively.

(Tabular amounts in millions, except per share data unless otherwise indicated)

Interest income was \$5.5 million and \$7.4 million for the nine months ended September 30, 2010 and 2009, respectively.

On June 21, 2010, the Company issued \$400.0 million of 7.625% senior notes due June 15, 2020. Interest on the notes is payable semi-annually on June 15 and December 15 of each year, commencing on December 15, 2010. The net proceeds from the offering were used to repay borrowings under the revolving credit facility and for general corporate purposes.

15. Derivatives

All derivatives are recorded as other current or noncurrent assets or other current or noncurrent liabilities on the Condensed Consolidated Balance Sheets at their respective fair values with unrealized gains and losses recorded in other comprehensive income (loss), net of applicable income taxes, or in the Condensed Consolidated Statements of Operations, depending on the purpose for which the derivative is held. For derivatives designated and that qualify as fair value hedges, the gain or loss on the derivative, as well as the offsetting gain or loss on the hedged item attributable to the hedged risk, are recognized in the Condensed Consolidated Statements of Operations. Changes in the fair value of derivatives that do not meet the criteria for designation as a hedge at inception, or fail to meet the criteria thereafter, are recognized currently in the Condensed Consolidated Statements of Operations. At the inception of a hedge transaction, the Company formally documents the hedge relationship and the risk management objective for undertaking the hedge. In addition, the Company assesses both at inception of the hedge and on an ongoing basis, whether the derivative in the hedging transaction has been highly effective in offsetting changes in fair value or cash flows of the hedged item and whether the derivative is expected to continue to be highly effective. The impact of any ineffectiveness is recognized currently in the Condensed Consolidated Statements of Operations.

The Company is exposed to the impact of foreign currency fluctuations in certain countries in which it operates. The exposure to foreign currency movements is limited in most countries because the operating revenues and expenses of its various subsidiaries and business units are substantially in the local currency of the country in which they operate. To the extent borrowings, sales, purchases, revenues, expenses or other transactions are not in the local currency of the operating unit, the Company is exposed to currency risk. Periodically, the Company uses foreign exchange forward contracts and cross-currency swaps to hedge exposures resulting from foreign exchange fluctuations. Accordingly, the implied gains and losses associated with the fair values of foreign currency exchange contracts and cross-currency interest rate swaps are generally offset by gains and losses on underlying payables, receivables and net investments in foreign subsidiaries. The Company does not use derivative financial instruments for trading or speculative purposes.

The Company has entered into foreign exchange forward contracts in order to manage the currency exposure of certain receivables and liabilities. The foreign exchange forward contracts were not designated as hedges, and accordingly, the fair value gains or losses from these foreign currency derivatives are recognized currently in the Condensed Consolidated Statements of Operations, generally offsetting the foreign exchange gains or losses on the exposures being managed. The aggregate notional value of the forward contracts at September 30, 2010 and December 31, 2009 was \$74.5 million and \$437.0 million, respectively. The fair values of foreign exchange forward contracts were determined to be Level 2 under the fair value hierarchy and are valued using market exchange rates.

On April 9, 2010, the Company entered into interest rate swap agreements to manage interest rate risk exposure. The interest rate swap agreements effectively changed the interest rate on \$600 million of its fixed-rate senior notes to floating rate LIBOR plus a basis point spread. These interest rate swaps, with a notional value of

(Tabular amounts in millions, except per share data unless otherwise indicated)

\$600 million, are designated as fair value hedges against changes in the value of the Company's 4.95% senior notes due April 1, 2014, which are attributable to changes in the benchmark interest rate. The Company evaluates the credit value adjustments of the interest rate swap agreements, which take into account the possibility of counterparty and the Company's own default, on at least a quarterly basis. The Company's agreements with each of its counterparties contain a provision where the Company could be declared in default on its derivative obligations if it either defaults or, in certain cases, is capable of being declared in default of any of its indebtedness greater than specified thresholds. These agreements also contain a provision where the Company could be declared in default subsequent to a merger or restructuring type event if the creditworthiness of the resulting entity is materially weaker. The fair values of the interest rate swaps were determined to be Level 2 under the fair value hierarchy and are valued using market interest rates.

At September 30, 2010 and December 31, 2009, the total fair value of the Company's forward contracts and fair value hedges and the accounts in the Condensed Consolidated Balance Sheets in which the fair value amounts are included are shown below:

	September 30, 2010	December 31, 2009
Derivatives not designated as hedges

Terminated Derivatives

In May 2005, the Company terminated its interest rate lock agreements which were used to hedge against fluctuations in interest rates. This termination resulted in a loss of \$12.9 million recorded in accumulated other comprehensive loss, which was being recognized in interest expense over the term of the hedged forecasted interest payments. During the third quarter of 2009, the Company repurchased \$174.2 million of the 4.95% senior notes due May 15, 2010 which were hedged as part of the interest rate lock agreements. A pre-tax loss of \$2.7 million was reclassified from accumulated other comprehensive loss as a result of the change in expected forecasted interest payments for the senior notes due May 15, 2010. At September 30, 2010, a balance of \$2.3 million remains in accumulated other comprehensive loss, of which \$0.4 million is expected to be reclassified to earnings over the next twelve months.

16. Fair Value Measurement

Certain assets and liabilities are required to be recorded at fair value on a recurring basis. The Company's only assets and liabilities adjusted to fair value on a recurring basis are pension plan assets and other postretirement plan assets, foreign exchange forward contracts and interest rate swaps. See Note 15 for further discussion on the fair value of the Company's foreign exchange forward contracts and interest rate swaps as of September 30, 2010 and December 31, 2009.

In addition to assets and liabilities that are recorded at fair value on a recurring basis, the Company is required to record certain assets and liabilities at fair value on a nonrecurring basis, generally as a result of acquisitions or impairment charges. See Note 2 for further discussion on the fair value of assets and liabilities associated with acquisitions. For the three and nine months ended September 30, 2010, the Company recorded a non-cash charge of \$26.9 million for the impairment of acquired customer relationship intangible assets in the Global Turnkey Solutions reporting unit within the International segment. The determination of the impairment was based on Level 3 inputs, including cash flow analysis and management's assumptions related to the future revenues and profitability of certain customers. See Note 6 for further discussion regarding the impairment charge. There have been no other significant impairment charges since December 31, 2009.

See Note 14 for further discussion on the fair value of the Company's debt.

17. Income Taxes

The Company's unrecognized tax benefits at September 30, 2010 and December 31, 2009 were as follows:

Balance at December 31, 2009	\$ 176.4
Additions for tax positions of the current year	6.0
Additions for tax positions of the prior years	5.8
Reductions for tax positions of prior years	(4.5)
Settlements during the year	(8.7)
Foreign exchange and other	0.5
 Balance at September 30, 2010	 \$ 175.5

As of September 30, 2010, it is reasonably possible that the total amounts of unrecognized tax benefits will decrease within twelve months by as much as \$81.3 million due to the resolution of audits or expirations of statutes of limitations related to U.S. federal and state tax positions.

18. New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2010-06 Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements (ASU 2010-06), which requires additional disclosures regarding transfers between Levels 1, 2 and 3 of the fair value hierarchy, as well as a more detailed reconciliation of recurring Level 3 measurements. Certain aspects of ASU 2010-06 were effective and adopted by the Company in the first quarter of 2010. However, this adoption did not have and is not expected to have a material impact on the Company's consolidated financial position, annual results of operations or cash flows.

In February 2010, the FASB issued Accounting Standards Update No. 2010-09 Subsequent Events (Topic 855): Amendments to Certain Recognition and Disclosure Requirements (ASU 2010-09), which amends the Subsequent Events Topic by no longer requiring an SEC filer to disclose the date through which subsequent events have been evaluated. ASU 2010-09 was adopted in the first quarter of 2010 and did not have a material impact on the Company's consolidated financial position, annual results of operations or cash flows.

In July 2010, the FASB issued Accounting Standards Update No. 2010-20 Receivables (Topic 310): Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses (ASU 2010-20), which amends existing disclosure requirements and requires additional quantitative and qualitative disclosures concerning financing receivables, credit risk exposures and the allowance for credit losses. Certain aspects of ASU 2010-20 will be effective for the Company in the fourth quarter of 2010. The adoption of ASU 2010-20 is not expected to have a material impact on the Company's consolidated financial position, annual results of operations or cash flows.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

COMPANY OVERVIEW

R.R. Donnelley & Sons Company (RR Donnelley, the Company, we, us, and our) is a global provider of integrated communications. Founded more than 146 years ago, the Company works collaboratively with more than 60,000 customers worldwide to develop custom communications solutions that reduce costs, enhance return on investment and ensure compliance. Drawing on a range of proprietary and commercially available digital conventional technologies deployed across four continents, the Company employs a suite of leading Internet-based capabilities and other resources to provide premedia, printing, logistics and business process outsourcing products and services to leading clients in virtually every private and public sector.

BUSINESS ACQUISITIONS

On February 23, 2010, the Company announced that it had signed a definitive agreement to acquire Bowne & Co., Inc. (Bowne) for approximately \$481 million in cash. Bowne, a provider of shareholder and marketing communication services, is headquartered in New York, New York, and has operations in North America, Latin America, Europe and Asia. The acquisition is expected to close in the fourth quarter of 2010 and is subject to customary closing conditions, including regulatory approval.

On June 18, 2009, the Company acquired Prospectus Central, LLC (Prospectus), an e-delivery company located in Fitzgerald, Georgia. Prospectus's operations are included in the U.S. Print and Related Services segment.

On January 2, 2009, the Company acquired the assets of PROSA, a web printing company located in Santiago, Chile. PROSA's operations, which produce magazines, catalogs, retail inserts and soft-cover textbooks, are included in the International segment.

SEGMENT DESCRIPTION

The Company operates primarily in the commercial print portion of the printing industry, with related product and service offerings designed to offer customers complete solutions for communicating their messages to target audiences. The Company's segments and their product and service offerings are summarized below:

U.S. Print and Related Services

The U.S. Print and Related Services segment includes the Company's U.S. printing operations, managed as one integrated platform, along with related logistics, premedia and print management services. This segment's products and related service offerings include magazines, catalogs, retail inserts, books, directories, financial print, direct mail, forms, labels, office products, statement printing, premedia and logistics services.

International

The International segment includes the Company's non-U.S. printing operations in Asia, Europe, Latin America and Canada. Additionally, this segment includes the Company's business process outsourcing and Global Turnkey Solutions operations. Business process outsourcing provides transactional print and outsourcing services, statement printing, direct mail and print management services through its operations in Europe, Asia and North America. Global Turnkey Solutions provides outsourcing capabilities including product configuration, customized kitting and order fulfillment for technology, medical device and other companies around the world through its operations in Europe, North America and Asia.

Corporate

Corporate consists of unallocated general and administrative activities and associated expenses including, in part, executive, legal, finance, information technology, human resources, certain facility costs and LIFO inventory provisions. In addition, certain costs and earnings of employee benefit plans, primarily components of net pension and postretirement benefits expense other than service cost, are included in Corporate and not allocated to operating segments.

Table of Contents**Executive Summary****Financial Performance: Three Months Ended September 30, 2010**

The changes in the Company's income from operations, operating margin, net earnings attributable to RR Donnelley common shareholders and net earnings attributable to RR Donnelley common shareholders per diluted share for the three months ended September 30, 2010, from the three months ended September 30, 2009, were due primarily to the following (in millions, except per share data):

	Income from Operations	Operating Margin	Net Earnings Attributable to RR Donnelley Common Shareholders	Net Earnings Attributable to RR Donnelley Common Shareholders Per Diluted Share
For the three months ended September 30, 2009	\$ 93.4	3.8%	\$ 13.1	\$ 0.06
2010 restructuring and impairment charges	(48.7)	(2.0%)	(36.8)	(0.18)
2009 restructuring and impairment charges	131.7	5.3%	90.8	0.44

For the three months ended September 30, 2010	\$ 148.7	6.0%	\$ 53.3	\$ 0.25

2010 restructuring and impairment charges: included \$26.9 million of non-cash charges for the impairment of intangible assets; charges of \$3.2 million for employee termination costs, substantially all of which were associated with restructuring actions resulting from the reorganization of certain operations and the exiting of certain business activities; \$17.0 million of other restructuring costs; and \$1.6 million for impairment of long-lived assets.

2009 restructuring and impairment charges: included charges, discounted for future cash payments, of \$117.3 million for the termination of a significant long-term customer contract in the business process outsourcing reporting unit within the International segment, of which \$116.4 million, \$0.8 million and \$0.1 million are reflected as other restructuring charges, impairment and employee terminations, respectively; \$7.5 million for other employee termination costs, substantially all of which were associated with restructuring actions resulting from the reorganization of certain operations and the exiting of certain business activities; \$5.7 million of other restructuring costs, primarily lease termination costs; and \$1.2 million for impairment of long-lived assets.

Acquisition-related expenses: included pre-tax charges of \$2.6 million (\$2.4 million after-tax) related to legal, accounting and other expenses for the three months ended September 30, 2010 associated with current year acquisitions contemplated. For the three months ended September 30, 2009, these pre-tax charges were \$0.1 million for both acquisitions completed or contemplated.

2009 losses related to debt extinguishment: included a \$10.3 million pre-tax loss on the repurchases of \$466.4 million of the 5.625% senior notes due January 15, 2012 and \$174.2 million of the 4.95% senior notes that matured May 15, 2010, as well as the reclassification of a pre-tax loss of \$2.7 million from accumulated other comprehensive income to investment and other expense due to the change in the hedged forecasted interest payments resulting from the repurchase of the 4.95% senior notes.

Operations: reflected continued price pressures, higher expense for LIFO inventory provisions as compared to a benefit in 2009, transition fees of \$12.2 million received in 2009 from another business process outsourcing contract termination and higher pension and postretirement expenses, partially offset by higher net sales as a result of volume increases in Asia, logistics, financial print and variable print, higher pricing on by-products recoveries and reduced material costs, depreciation and amortization expense and interest expense. See further details in the review of operating results by segment that follows.

Table of Contents**Financial Performance: Nine Months Ended September 30, 2010**

The changes in the Company's income from operations, operating margin, net earnings attributable to RR Donnelley common shareholders and net earnings attributable to RR Donnelley common shareholders per diluted share for the nine months ended September 30, 2010, from the nine months ended September 30, 2009, were due primarily to the following (in millions, except per share data):

	Income from Operations	Operating Margin	Net Earnings Attributable to RR Donnelley Common Shareholders	Net Earnings Attributable to RR Donnelley Common Shareholders Per Diluted Share

Operations	1.2	0.0%	24.1	0.10
For the nine months ended September 30, 2010	\$ 469.8	6.4%	\$ 194.7	\$ 0.93

2010 restructuring and impairment charges: included \$26.9 million of non-cash charges for the impairment of intangible assets; charges of \$18.5 million for employee termination costs, substantially all of which were associated with restructuring actions resulting from the reorganization of certain operations and the exiting of certain business activities; \$25.4 million of other restructuring costs; and \$4.1 million for impairment of long-lived assets.

2009 restructuring and impairment charges: included charges, discounted for future cash payments, of \$117.3 million for the termination of a significant long-term customer contract in the business process outsourcing reporting unit within the International segment, of which \$116.4 million, \$0.8 million and \$0.1 million are reflected as other restructuring charges, impairment and employee terminations, respectively; \$71.3 million for other employee termination costs, substantially all of which were associated with restructuring actions resulting from the reorganization of certain operations and the exiting of certain business activities; \$23.4 million of other restructuring costs, primarily lease termination costs; and \$22.1 million for impairment of long-lived assets.

Acquisition-related expenses: included pre-tax charges of \$7.9 million (\$7.3 million after-tax) related to legal, accounting and other expenses for the nine months ended September 30, 2010 associated with current year acquisitions contemplated. For the nine months ended September 30, 2009, these pre-tax charges were \$1.5 million (\$0.9 million after-tax) for both acquisitions completed or contemplated.

2010 Venezuela devaluation: currency devaluation in Venezuela resulted in a pre-tax loss of \$8.9 million (\$8.1 million after-tax) and an increase in loss attributable to noncontrolling interests of \$3.6 million.

2009 losses related to debt extinguishment: included a \$10.3 million pre-tax loss on the repurchases of \$466.4 million of the 5.625% senior notes due January 15, 2012 and \$174.2 million of the 4.95% senior notes that matured May 15, 2010, as well as the reclassification of a pre-tax loss of \$2.7 million from accumulated other comprehensive income to investment and other expense due to the change in the hedged forecasted interest payments resulting from the repurchase of the 4.95% senior notes.

Operations: reflected higher net sales in logistics, Asia, variable print and financial print, cost savings from restructuring actions and productivity efforts, higher pricing on by-products recoveries and reduced depreciation and amortization, material costs and interest expense, as well as a lower effective tax rate in part due to the release of a valuation allowance on deferred tax assets. These benefits were partially offset by continued price pressures, higher incentive compensation expense, LIFO inventory provisions and pension and postretirement expense. See

further details in the review of operating results by segment that follows.

Table of Contents

Overview

During the third quarter of 2010, the Company's net sales trend continued to benefit from the economic recovery. On a consolidated basis, net sales increased \$25.0 million, or 1.0%, from the third quarter of 2009, the second consecutive quarterly increase in net sales. Continued strength in Asia, increases in U.S. print and other logistics services along with growth in mail center and commingling services, increased volume in financial print due to higher capital market transactions and higher volume in variable print due to higher direct mailings from financial services and retail customers increased net sales for the third quarter. These increases were partly offset by continued price pressure and reductions in pass-through paper sales in books and directories and magazines, catalogs and retail inserts.

The Company's income from operations for the three months ended September 30, 2010 increased 59.2% compared to the same period in 2009 primarily due to lower restructuring and impairment charges, higher volume and cost reductions driven by restructuring programs and productivity efforts. These benefits were partially offset by the impact of price pressures, higher expense for LIFO inventory provisions, transition fees of \$12.2 million received in 2009 from a business process outsourcing contract termination and higher pension and postretirement expenses.

On February 23, 2010, the Company announced that it had signed a definitive agreement to acquire Bowne for approximately \$481 million in cash. Bowne, a provider of shareholder and marketing communication services, is headquartered in New York, New York, and has operations in North America, Latin America, Europe and Asia. The acquisition is expected to close in the fourth quarter of 2010 and is subject to customary closing conditions, including regulatory approval. The Company expects the combination with Bowne to expand and enhance the range of services that the Company offers to its customers, while creating an opportunity to provide its comprehensive line of products to Bowne's clients. In addition, this acquisition is expected to be accretive to earnings within twelve months of closing.

OUTLOOK

Competition and Strategy

The print and related services industry, in general, continues to have excess capacity and remains highly competitive. Despite some consolidation in recent years, the printing industry remains highly fragmented. Across the Company's range of products and services, competition is based primarily on price, in addition to quality and the ability to service the special needs of customers. The excess capacity created by declines in industry volumes during the recession has resulted in intensified price competition in most product lines. Management expects that prices for the Company's products and services will continue to be a focal point for customers in coming years. The Company believes it needs to continue to lower its cost structure and differentiate its products and service offerings.

Technological changes, including the electronic distribution of documents and data, online distribution and hosting of media content, advances in digital printing, print-on-demand and Internet technologies, continue to impact the market for the Company's products and services. The Company seeks to leverage the distinctive capabilities of its products and services to improve its customers' communications, whether in paper form or through electronic communications. The Company's goal remains to help its customers succeed by delivering effective and targeted communications in the right format to the right audiences at the right time. Management believes that with the Company's competitive strengths, including its broad range of complementary print-related services, strong logistics capabilities, technology leadership, depth of management experience, customer relationships and economies of scale, the Company has developed and can further develop valuable, differentiated solutions for its customers. The Company seeks to leverage its unified platform and strong customer relationships in order to serve a larger share of its customers' print and related services needs. The Company also believes that its strong financial condition is important to customers focused on establishing or growing long-term relationships with a stable provider of print and related services. Especially in an uncertain economic environment, the Company's financial strength is seen as a competitive advantage. The Company has made targeted acquisitions that offer customers greater capacity and flexibility and further secure the Company's position as a leader in the industry.

Table of Contents

As a substitute for print, the impact of digital technologies has been felt mainly in directories, forms and statement printing, as electronic communication and transaction technology has eliminated or devalued the role of many traditional paper forms. Electronic substitution has continued to accelerate in directory printing in part driven by environmental concerns and cost pressures at key customers. Despite rapid growth in the adoption of e-books, the Company does not believe there has been a significant impact on the volume of print. However, management does expect to see lower long-term growth in print book volume as e-book penetration continues to expand. The future impact of technology on the Company's business is difficult to predict and could result in additional expenditures to restructure impacted operations or develop new technologies.

The Company has implemented a number of strategic initiatives to reduce its overall cost structure and improve efficiency, including the restructuring, reorganization and integration of operations and streamlining of administrative and support activities. Future cost reduction initiatives could include the reorganization of operations and the consolidation of facilities. Implementing such initiatives might result in future restructuring or impairment charges, which may be substantial. Management also reviews the Company's operations and management structure on a regular basis to balance appropriate risks and opportunities to maximize efficiencies and to support the Company's long-term strategic growth goals. In addition, the expected completion of the pending acquisition of Bowne will result in additional restructuring charges.

Seasonality

Advertising and consumer spending trends affect demand in several of the end-markets served by the Company. Historically, demand for printing of magazines, catalogs, retail inserts and books is higher in the second half of the year driven by increased advertising pages within magazines, and holiday catalog, retail insert and book volumes. This typical seasonal pattern can be impacted by overall trends in the U.S. and world economy. However, the Company expects the seasonality impact in 2010 and future years to be in line with historical patterns.

Raw Materials

The primary raw materials the Company uses in its print businesses are paper and ink. The Company negotiates with leading suppliers to maximize its purchasing efficiencies, uses a wide variety of paper grades, formats, ink formulations and colors and does not rely on any one supplier. In addition, a substantial amount of paper used by the Company is supplied directly by customers. Variations in the cost and supply of certain paper grades used in the manufacturing process may affect the Company's consolidated financial results. Recent strengthening of economic conditions, combined with paper industry capacity reductions, has caused prices to increase during the first nine months of 2010, and further increases are expected. Generally, customers directly absorb the impact of changing prices on customer-supplied paper. With respect to paper purchased by the Company, the Company has historically passed substantially all increases and decreases through to its customers. Contractual arrangements and industry practice should support the Company's continued ability to pass on any future paper price increases to a large extent, but there is no assurance that market conditions will continue to enable the Company to successfully do so. In addition, management believes that paper supply is consolidating, and there may be shortfalls in the future in supplies necessary to meet the demands of the entire marketplace. Higher paper prices and tight paper supplies may have an impact on customers' demand for printed products.

The Company continues to monitor the impact of changes in the price of crude oil and other energy costs, which impacts the Company's ink suppliers, logistics operations and manufacturing costs. Crude oil prices continue to be volatile. The Company believes its logistics operations will continue to be able to pass a substantial portion of any increases in fuel prices directly to its customers in order to offset the impact of related cost increases. The Company generally cannot pass on to customers the impact of higher energy prices on its manufacturing costs. The Company cannot predict sudden changes in energy prices and the impact that possible future energy price increases or decreases might have upon either future operating costs or customer demand and the related impact either will have on the Company's consolidated annual results of operations, financial position or cash flows.

Table of Contents

Distribution

The Company's products are distributed to end-users through the U.S. or foreign postal services, through retail channels, electronically or by direct shipment to customer facilities. Through its logistics operations, the Company manages the distribution of most customer products printed by the Company in the U.S. and Canada to maximize efficiency and reduce costs for customers.

Postal costs are a significant component of many customers' cost structures and postal rate changes can influence the number of pieces that the Company's customers are willing to print and mail. On September 30, 2010, the Postal Regulatory Commission denied the U.S. Postal Service's (USPS) request for a rate increase which would have been effective on January 2, 2011. Even though the rate increase was denied, the USPS is expected to request another increase under the Postal Accountability and Enhancement Act (the law that governs postal rate increases) that could be effective in May 2011. For most classes of mail, this increase is likely to be between three and four percent. As a leading provider of print logistics and the largest mailer of standard mail in the U.S., the Company works closely with the U.S. Postal Service and its customers on programs to minimize costs and ensure the viability of postal distribution. While the Company does not directly absorb the impact of higher postal rates on its customers' mailings, demand for products distributed through the U.S. or foreign postal services are expected to be impacted by changes in the postal rates. In addition, the Company offers innovative products and services to minimize customers' postal costs and has invested in equipment and technology to meet customer demand for these services.

Risks Related to Market Conditions

The Company performs its annual goodwill impairment tests as of October 31, or more frequently if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying value. As part of its interim review for indicators of impairment, management analyzed potential changes in value of individual reporting units based on each reporting unit's operating results for the nine months ended September 30, 2010 compared to expected results as of October 31, 2009. In addition, management considered how other key assumptions, including discount rates used in last year's impairment analysis, could be impacted by recent market and economic events. Based on this interim assessment, management concluded that as of September 30, 2010, no events or changes in circumstances indicated that it was more likely than not that the fair value for any reporting unit had declined below its carrying value. A significant change in global economic conditions could result in changes to expectations of future financial results and key valuation assumptions. These changes could result in changes to management's estimates of the fair value of the Company's reporting units and may result in material impairments when the Company completes its annual impairment test as of October 31, 2010.

The funded status of the Company's pension plans is dependent upon many factors, including returns on invested assets and the level of certain market interest rates. Declines in the market value of securities held by the plans and decreases in discount rates could reduce their funded status and materially affect the level of pension expense and required contributions in 2011 and future years. In addition, the Company's required funding may be affected by changes in pension regulations. The Company expects to make cash contributions of approximately \$31.3 million to its pension plans and approximately \$6.9 million to its postretirement plans in 2010. The Company currently expects the amount of required pension plan contributions in 2011 to be at or below the level of contributions in 2010. However, in future years, required contributions to the pension plans are expected to increase significantly.

Financial Review

In the financial review that follows, the Company discusses its consolidated results of operations, financial position and cash flows and certain other information. This discussion should be read in conjunction with the Company's condensed consolidated financial statements and related notes.

Net sales for the three months ended September 30, 2010 increased \$25.0 million, or 1.0%, to \$2,488.1 million versus the same period in the prior year. Changes in foreign exchange rates decreased net sales by \$20.0 million, or 0.8%. The increase in net sales was due to increased volume in Asia, higher logistics services volumes, increased volume in financial print due to more capital market transactions and higher volume in variable print due to higher direct mailings from financial services and retail customers. These increases were partially offset by decreases in net sales of books and directories and magazines, catalogs and retail inserts and primarily attributable to continued price pressure and reductions in pass-through paper sales, as well as lower volume in office products.

Cost of sales increased \$57.3 million to \$1,898.7 million for the three months ended September 30, 2010 versus the same period in the prior year primarily due to higher LIFO inventory provisions and volume increases, partially offset by higher pricing on by-products recoveries and lower material costs. Cost of sales as a percentage of net sales increased from 74.8% to 76.3%, reflecting the impact of price pressures on net sales and higher LIFO inventory provisions, offset in part by the benefits of continued productivity efforts, the impact of lower pass-through paper sales and higher pricing on by-products sales.

Selling, general and administrative expenses increased \$10.1 million to \$261.7 million for the three months ended September 30, 2010 versus the same period in the prior year due to a higher provision for bad debt expense, higher benefits expense and higher acquisition-related expenses, partially offset by restructuring-driven cost reductions. Selling, general and administrative expenses as a percentage of net sales increased from 10.2% to 10.5%, due to the higher provision for bad debt expense and higher acquisition-related expenses, partially offset by restructuring-driven cost reductions.

For the three months ended September 30, 2010, the Company recorded a net restructuring and impairment provision of \$48.7 million compared to \$131.7 million in the same period of 2009. In 2010, these charges included a non-cash pre-tax charge of \$26.9 million for the impairment of acquired customer relationship intangible assets in the Global Turnkey Solutions reporting unit within the International segment. The impairment of these intangible assets primarily resulted from the termination of a customer contract. Additionally, for the three months ended September 30, 2010, the Company recorded \$3.2 million for workforce reductions of 227 employees (of whom 212 were terminated as of September 30, 2010) associated with actions resulting from the reorganization of certain operations. These charges primarily related to the reorganization of

Table of Contents

certain operations within the business process outsourcing and Latin America reporting units within the International segment and the reorganization of certain operations within the magazine, catalog and retail insert reporting unit within the U.S. Print and Related Services segment. In addition, the Company recorded \$1.6 million of impairment charges of other long-lived assets and \$17.0 million of other restructuring costs. The other restructuring costs included \$13.6 million related to multi-employer pension plan partial withdrawal charges primarily attributable to two closed manufacturing facilities within the U.S. Print and Related Services segment, as well as lease termination and other facility closure costs. These costs were partially offset by the gain on the sale of a previously closed facility in the International segment. In 2009, these charges included \$117.3 million, discounted for future cash payments, for the termination of a long-term significant customer contract in the business process outsourcing unit within the International segment, which allowed the Company to withdraw from certain unprofitable operations in this area. In addition, these charges included \$7.5 million for workforce reductions of 344 employees (all of whom were terminated as of September 30, 2010) associated with actions resulting from the reorganization of certain operations. These actions also included the closing of one Latin America manufacturing facility within the International segment. Additionally, the Company recorded \$1.2 million of impairment charges of other long-lived assets and \$5.7 million of other restructuring costs, including lease termination and other facility closure costs. Management believes that certain restructuring activities will continue throughout the remainder of 2010, as the Company continues to streamline its manufacturing, sales and administrative operations.

Depreciation and amortization decreased \$14.7 million to \$130.3 million for the three months ended September 30, 2010 compared to the same period in 2009, primarily due to a declining trend in capital expenditures over recent years. Depreciation and amortization included \$24.5 million and \$25.7 million of amortization of purchased intangibles related to customer relationships, patents, trade names, licenses and non-compete agreements for the three months ended September 30, 2010 and 2009, respectively.

Income from operations for the three months ended September 30, 2010 was \$148.7 million, an increase of 59.2% compared to the three months ended September 30, 2009. The increase was primarily driven by lower restructuring and impairment costs and higher volumes, partially offset by the impact of price pressures on net sales, higher LIFO inventory provisions and the benefit received in 2009 from the transition fees of \$12.2 million received from a business process outsourcing contract termination.

Net interest expense decreased by \$2.0 million for the three months ended September 30, 2010 versus the same period in 2009, primarily due to lower average outstanding borrowings and the impact of the interest rate swaps, as discussed in Note 15 to the condensed consolidated financial statements. In addition, 2009 was impacted by the accelerated amortization of debt issuance costs and unamortized discounts related to the repurchase of \$640.6 million of senior notes.

Net investment and other income (expense) for the three months ended September 30, 2010 and 2009 was income of \$0.7 million and expense of \$13.6 million, respectively. The Company's repurchases of \$640.6 million of its senior notes in 2009 resulted in a loss on the debt extinguishment of \$10.3 million in 2009. In addition, as a result of the repurchase of the senior notes that matured May 15, 2010, the Company reclassified a loss of \$2.7 million from accumulated other comprehensive income to investment and other expense due to changes in the hedged forecasted interest payments.

The effective income tax rate for the three months ended September 30, 2010 was 42.5% compared to 27.7% for the same period in 2009 reflecting the impact of higher restructuring charges for the three months ended September 30, 2009.

Net earnings from operations attributable to RR Donnelley common shareholders for the three months ended September 30, 2010 was \$53.3 million, or \$0.25 per diluted share, compared to \$13.1 million, or \$0.06 per diluted share, for the three months ended September 30, 2009. In addition to the factors described above, the per share results reflect an increase of 1.4 million in weighted-average diluted shares outstanding due to higher dilution resulting from increases in the stock price and the issuance of shares related to the vesting of restricted stock units and stock options.

Included in these net sales amounts are sales of other products that may be produced within a reporting unit to meet customer needs and improve operating efficiency. Certain prior year amounts were restated to conform to the Company's current reporting unit structure.

Net sales for the U.S. Print and Related Services segment for the three months ended September 30, 2010 were \$1,861.4 million, an increase of \$36.6 million, or 2.0%, compared to the same period in 2009. The increase was primarily attributable to higher logistics services volumes, increased volume in financial print due to more capital markets transactions and higher volume in variable print due to increases in direct mailings from financial services and retail customers. These increases were partially offset by price declines and reductions in pass-through paper sales in books and directories and magazines, catalogs and retail inserts. Sales of magazines, catalogs and retail inserts decreased due to price pressure and reductions in pass-through paper sales. Sales of books and directories decreased, as continued price pressure and lower pass-through paper sales more than offset higher volumes. Sales of variable printing increased due to higher sales of direct mailings from financial services and retail customers, partially offset by price pressures. Sales of forms and labels decreased as price pressure on both forms and labels and lower forms volume were partially offset by higher labels volume. Commercial printing sales increased slightly as higher volume was partially offset by continued price pressure. Sales of logistics services increased primarily due to increases in logistics services on higher print volumes, other logistics services and higher fuel surcharges. Sales of financial printing increased due to increased volume in capital market transactions. Sales of office products decreased due to lower volume and unfavorable product mix from existing customers. Finally, sales of premedia increased due to higher volume from existing customers.

productivity driven by restructuring actions and cost reduction efforts, partially offset by continued price pressures and higher restructuring and impairment charges. Operating margins in the U.S. Print and Related Services segment remained consistent at 9.0% for the three months ended September 30, 2009 and 2010, as higher pricing on by-product recoveries and lower material costs, as well as cost reductions noted above, offset price declines and higher restructuring and impairment charges.

Net sales for the International segment for the three months ended September 30, 2010 were \$626.7 million, a decrease of \$11.6 million, or 1.8%, compared to the same period in 2009. Changes in foreign exchange rates decreased net sales \$20.2 million, or 3.2%, during the three months ended September 30, 2010. In addition, the lost volume resulting from the termination of a significant customer contract in 2009 in the business process outsourcing reporting unit and decreased volume and unfavorable product mix from existing customers in Global Turnkey Solutions decreased net sales. These decreases were partially offset by increased business in Asia. Business process outsourcing net sales decreased due to lower volume resulting from the termination of the customer contract noted above, transition fees of \$12.5 million received from a contract termination in 2009 and changes in foreign exchange rates. Sales in Asia increased due to higher volume from technology manuals and packaging products and increased volume of books exported to the U.S. and Europe, partially offset by increased price pressure. In Latin America, net sales decreased slightly due to the impact of the currency devaluation in Venezuela and continued decreases in demand for business forms, particularly in Brazil, partially offset by higher commercial and labels volume. Net sales in Europe remained consistent due to increased technology manuals and other packaging products volume offset by changes in foreign exchange rates and declining prices. Global Turnkey Solutions net sales decreased due to lower volume and unfavorable product mix from existing customers and changes in foreign exchange rates, partially offset by volume from new customers. The decrease in net sales in Canada was due to lower statement printing volume, partially offset by changes in foreign exchange rates and higher commercial print volume.

Income (loss) from operations increased \$95.8 million mainly driven by lower restructuring and impairment charges and increased volume in Asia, partially offset by the decreases in net sales noted above. Operating

margins increased from a loss of 11.3% for the three months ended September 30, 2009 to 3.7% for the three months ended September 30, 2010, of which 15.2 percentage points were due to lower restructuring and impairment charges. The remaining decrease was due to lower prices and cost inflation.

Corporate

Corporate operating expenses in the three months ended September 30, 2010 were \$43.1 million compared to income of \$0.8 million for the same period in 2009. The 2010 expense included higher LIFO inventory provisions, employee benefit costs and bad debt expense. The income in 2009 included a benefit resulting from lower LIFO inventory provisions, a benefit resulting from lower bad debt expense and reduced pension and postretirement expenses.

Consolidated

Net sales for the nine months ended September 30, 2010 increased \$37.5 million, or 0.5%, to \$7,311.8 million versus the same period in the prior year. Changes in foreign exchange rates increased net sales by \$20.2 million, or 0.3%. In addition, net sales increased due to higher logistics services volumes along with growth in mail center and commingling services in logistics, the increased sales from the production of mailing for the U.S. Census and higher volume in Asia. These increases were mostly offset by decreases primarily attributable to continued price pressure and reductions in pass-through paper sales in magazines, catalogs and retail inserts and books and directories.

Cost of sales increased \$79.5 million to \$5,560.0 million for the nine months ended September 30, 2010 versus the same period in the prior year primarily due to volume increases, higher LIFO inventory provisions and higher incentive compensation expense, partially offset by higher pricing on by-products recoveries and lower material costs. Cost of sales as a percentage of net sales increased from 75.3% to 76.0%, reflecting the continued price pressures on net sales, higher LIFO inventory provisions and higher incentive compensation expense.

Selling, general and administrative expenses decreased \$3.8 million to \$803.4 million for the nine months ended September 30, 2010 versus the same period in the prior year due to benefits achieved from restructuring activities and lower bad debt expense, partially offset by higher incentive compensation expense. Selling, general and administrative expenses as a percentage of net sales decreased from 11.1% to 11.0% reflecting benefits achieved from restructuring activities.

For the nine months ended September 30, 2010, the Company recorded a net restructuring and impairment provision of \$74.9 million compared to \$234.1 million in the same period of 2009. In 2010, these charges included a non-cash pre-tax charge of \$26.9 million for the impairment of acquired customer relationship intangible assets in the Global Turnkey Solutions reporting unit within the International segment. The impairment of these intangible assets primarily resulted from the termination of a customer contract. Additionally, for the nine months ended September 30, 2010, the Company recorded \$18.5 million for workforce reductions of 1,137 employees (of whom 1,109 were terminated as of September 30, 2010) associated with actions resulting from the reorganization of certain operations. These actions included the reorganization of certain operations within the business process outsourcing and Latin America reporting units and the continuing charges resulting from the closing of two Global Turnkey Solutions manufacturing facilities in 2009 within the International segment. These actions also included the reorganization of certain operations within the magazine,

catalog and retail insert and variable print reporting units and the closing of one Forms and Labels manufacturing facility within the U.S. Print and Related Services segment. In addition, the Company recorded \$4.1 million of impairment charges of other long-lived assets and \$25.4 million of other restructuring costs. The other restructuring costs included \$13.6 million related to multi-employer pension plan partial withdrawal charges primarily attributable to two closed manufacturing facilities within the U.S. Print and Related Services segment, as well as lease termination and other facility closure costs. In 2009, these charges included \$117.3 million, discounted for future cash payments, for the termination of a significant long-term customer contract in the business outsourcing reporting unit within the International segment, which allowed the Company to withdraw from certain unprofitable operations in this area. In addition, these charges included \$71.3 million for workforce reductions of 3,635 employees (all of whom were terminated as of September 30, 2010) associated with actions resulting from the reorganization of certain operations. These actions included the closings of two catalog, magazine and retail insert manufacturing facilities, two book manufacturing facilities and one digital solutions facility within the U.S. Print and Related Services segment, as well as the closing of one Global Turnkey Solutions manufacturing facility, one business process outsourcing facility, one Latin America manufacturing facility and one European manufacturing facility within the International segment. Additionally, the Company recorded \$22.1 million of impairment charges of other long-lived assets and \$23.4 million of other restructuring costs, including lease termination and other facility closure costs. Management believes that certain restructuring activities will continue throughout the remainder of 2010, as the Company continues to streamline its manufacturing, sales and administrative operations.

Depreciation and amortization decreased \$33.0 million to \$403.7 million for the nine months ended September 30, 2010 compared to the same period in 2009, primarily due to a declining trend in capital expenditures over recent years. Depreciation and amortization included \$73.5 million and \$74.4 million of amortization of purchased intangibles related to customer relationships, patents, trade names, licenses and non-compete agreements for the nine months ended September 30, 2010 and 2009, respectively.

Income from operations for the nine months ended September 30, 2010 was \$469.8 million, an increase of 48.8% compared to the nine months ended September 30, 2009. The increase was primarily driven by the lower restructuring and impairment costs in 2010, procurement savings and benefits achieved from restructuring activities, partially offset by the declines in volumes, cost inflation, price pressures, higher LIFO inventory provisions and higher incentive compensation expense.

Net interest expense decreased by \$12.6 million for the nine months ended September 30, 2010 versus the same period in 2009, primarily due to lower average outstanding borrowings and the effect of the interest rate swaps. In addition, 2009 was impacted by the accelerated amortization of debt issuance costs and unamortized discounts related to the repurchase of \$640.6 million of senior notes.

Net investment and other expense for the nine months ended September 30, 2010 and 2009 was \$9.1 million and \$14.9 million, respectively. For the nine months ended September 30, 2010, the Company recorded an \$8.9 million loss related to the devaluation of the Venezuelan currency, of which \$3.6 million increased the loss attributable to noncontrolling interests. In addition, the Company's repurchases of \$640.6 million of its senior notes in 2009 resulted in a loss on the debt extinguishment of \$10.3 million in 2009. Additionally in 2009, as a result of the repurchase of the senior notes that matured May 15, 2010, the Company reclassified a loss of \$2.7 million from accumulated other comprehensive income to investment and other expense due to changes in the hedged forecasted interest payments.

The effective income tax rate for the nine months ended September 30, 2010 was 35.2% compared to 53.2% in the same period of 2009. The lower effective tax rate in 2010 reflects the release of a valuation allowance on deferred tax assets due to the forecasted increase in net earnings for certain operations within the Latin America reporting unit. The higher rate in 2009 reflected the impact of 2009 foreign restructuring and impairment charges on which the Company did not realize tax benefits in line with the U.S. statutory rate.

Net earnings attributable to RR Donnelley common shareholders for the nine months ended September 30, 2010 was \$194.7 million, or \$0.93 per diluted share, compared to \$52.2 million, or \$0.25 per diluted share, for the nine months ended September 30, 2009. In addition to the factors described above, the per share results reflect an increase of 1.9 million in weighted-average diluted shares outstanding due to higher dilution resulting from increases in the stock price and the issuance of shares related to the vesting of restricted stock units and stock options.

Net sales for the U.S. Print and Related Services segment for the nine months ended September 30, 2010 were \$5,507.5 million, a decrease of \$5.9 million, or 0.1%, compared to the same period in 2009. The decrease was primarily attributable to reductions in pass-through paper sales across the magazines, catalogs and retail inserts and books and directories reporting units and price declines across most reporting units. Sales of magazine, catalogs and retail inserts decreased due to reductions in pass-through paper sales, lower volume and lower prices on contract renewals. Sales of books and directories decreased primarily as a result of lower prices, reductions in pass-through paper sales, and lower sales in directories, partially offset by higher volume in educational books and related materials, as well as consumer books. Sales of variable printing increased due to the production of mailings for the U.S. Census and higher direct mailings from financial services and retail customers, partially offset by reduced fulfillment and distribution volume from healthcare customers. Sales of forms and labels decreased due to continued price pressure and lower forms volume, partially offset by increased

sales of labels. Commercial printing sales decreased due to increased price pressure, partially offset by increased volume from financial services and retail customers. Sales of logistics services increased primarily due to increases in print and other logistics services volumes along with growth in mail center and commingling services, as well as higher fuel surcharges. Sales of financial printing increased due to increased capital market transactions, partially offset by lower investment management and compliance volume. Sales of office products decreased due to lower volume from existing customers. Finally, sales of premedia services increased due to volume from new and existing customers.

U.S. Print and Related Services segment income from operations increased \$93.8 million mainly driven by cost reductions resulting from restructuring actions and productivity initiatives, higher pricing on by-products recoveries and lower restructuring and impairment charges, partially offset by the price declines discussed above. Operating margins in the U.S. Print and Related Services segment increased from 7.6% for the nine months ended September 30, 2009 to 9.3% for the nine months ended September 30, 2010 due to the cost reductions discussed above, higher pricing on by-products sales and lower restructuring and impairment charges, which more than offset the impact of lower prices and higher incentive compensation expense.

Total International	\$ 1,804.3	\$ 1,760.9	\$ 43.4	2.5%

Net sales for the International segment for the nine months ended September 30, 2010 were \$1,804.3 million, an increase of \$43.4 million, or 2.5%, compared to the same period in 2009. This increase was primarily due to changes in foreign exchange rates which increased net sales \$19.1 million, or 1.1%, and increases in Asia, partially offset by declines in business process outsourcing. Business process outsourcing net sales decreased due to the lower volume resulting from the termination of a significant customer contract in 2009, partially offset by higher volume from a new customer contract. Sales in Asia increased due to higher volume of books exported to the U.S. and Europe, higher local sales of catalogs and retail inserts and increased volume from technology manuals and packaging products, partially offset by lower prices on print packaging products. In Latin America, net sales decreased due to the impact of the currency devaluation in Venezuela, disruptions caused by the Chilean earthquake and continued decreases in demand for business forms, particularly in Brazil, partially offset by changes in foreign exchange rates. Global Turnkey Solutions net sales increased due to higher volume from existing and new customers and changes in foreign exchange rates. The increase in net sales in Canada was due to changes in foreign exchange rates, partially offset by lower statement printing volume.

Income (loss) from operations increased \$132.8 million primarily due to lower restructuring and impairment charges and increased business in Asia and Global Turnkey Solutions. Operating margins increased from a loss of 1.9% for the nine months ended September 30, 2009 to 5.5% for the nine months ended September 30, 2010, of which 7.0 percentage points were due to lower restructuring and impairment charges. The remaining increase resulted from cost reductions driven by restructuring actions and productivity improvements and the termination of the significant customer contract in 2009, which more than offset lower prices, cost inflation and higher incentive compensation expense.

Corporate

Corporate operating expenses in the nine months ended September 30, 2010 were \$141.7 million, an increase of \$72.6 million compared to the same period in 2009. The increase was driven by higher employee benefit costs, LIFO inventory provisions, incentive compensation expense and acquisition-related costs, partially offset by lower bad debt expense, lower restructuring and impairment charges of \$3.9 million and cost reductions from productivity and restructuring actions.

LIQUIDITY AND CAPITAL RESOURCES

The following describes the Company's cash flows for the nine months ended September 30, 2010 and 2009.

Cash Flows From Operating Activities

Net cash provided by operating activities was \$481.1 million for the nine months ended September 30, 2010, compared to \$1,098.5 million for the same period last year. Operating cash inflows are largely attributable to sales of the Company's products and services. Operating cash outflows are largely attributable to recurring expenditures for raw materials, labor, rent, interest, taxes and other operating activities. The decrease in operating cash flow reflected the \$383.9 million benefit from reductions in net working capital (accounts receivable, inventory, prepaid expenses and other current assets and accounts payable) driven by volume declines and efficiency improvement in 2009, the non-recurring tax refund of \$161.4 million in 2009, the continued price pressures on net sales in 2010, the \$57.5 million payment in January 2010 related to the termination of the long-term customer contract in 2009 and incentive compensation payments in the first quarter of 2010 compared to no such payments in 2009. These decreases were partially offset by higher operating earnings in 2010 driven by cost reductions from productivity and restructuring actions and the \$22.2 million payment in the third quarter of 2009 related to the termination of the long-term customer contract in 2009.

Cash Flows From Investing Activities

Net cash used in investing activities for the nine months ended September 30, 2010 was \$152.3 million compared to \$157.0 million for the nine months ended September 30, 2009. Net cash used for the acquisitions of PROSA and Prospectus in the nine months ended September 30, 2009 was \$26.6 million. The Company used \$17.0 million to purchase long-term investments and \$14.7 million to purchase short-term deposits during the nine months ended September 30, 2010. A portion of the short-term term deposits were subsequently liquidated for \$11.9 million during the nine months ended September 30, 2010. Capital expenditures were \$144.9 million, an increase of \$12.0 million compared to the first nine months of 2009. The Company continues to fund capital expenditures primarily through cash provided by operations. The Company expects that capital expenditures for 2010 will be approximately \$225 million.

Table of Contents

Cash Flows From Financing Activities

Net cash used in financing activities for the nine months ended September 30, 2010 was \$89.7 million compared to \$884.4 million in the same period of 2009. During the nine months ended September 30, 2010, the Company received proceeds of \$400.0 million from the issuance of long-term senior notes which were partly used to repay borrowings on the Company's revolving credit facility (the Facility). Proceeds from Facility borrowings were used, along with cash on hand, to pay the May 2010 maturity of senior notes of \$325.7 million. In the nine months ended September 30, 2009, the Company received proceeds of \$750.0 million from the issuance of long-term senior notes and repaid \$400.0 million in senior notes that matured April 1, 2009. In addition, the Company repurchased \$466.4 million and \$174.2 million of senior notes with maturity dates of January 15, 2012 and May 15, 2010, respectively. Net repayments under the Facility were \$110.0 million for the nine months ended September 30, 2009. The net change in other short-term debt was a cash outflow of \$304.3 million in the nine months ended September 30, 2009 primarily due to the pay down of commercial paper.

Dividends

During the nine months ended September 30, 2010, the Company paid cash dividends of \$160.7 million. On October 27, 2010, the Board of Directors of the Company declared a quarterly cash dividend of \$0.26 per common share payable on December 1, 2010 to RR Donnelley shareholders of record on November 11, 2010.

LIQUIDITY

The Company believes it has sufficient liquidity to support its ongoing operations and to invest in future growth to create value for its shareholders. Operating cash flows are the Company's primary source of liquidity and are expected to be used for, among other things, interest and principal on the Company's debt obligations, capital expenditures as necessary to support productivity improvement and growth, completion of restructuring programs, dividend payments that may be approved by the Board of Directors, additional acquisitions and future common stock or debt repurchases based upon market conditions.

Cash and cash equivalents of \$731.6 million as of September 30, 2010 included \$372.1 million that were readily available in the U.S. and \$359.5 million that were available at international locations, most of which could be subject to U.S. federal income taxes and some of which could be subject to local country taxes if repatriated to the U.S. In addition, repatriation of some foreign cash is further restricted by local laws. The Company maintains a cash pooling structure that enables several participating international locations to draw on the Company's overseas cash resources to meet local liquidity needs. In addition, foreign cash balances may be loaned to U.S. operating entities on a temporary basis in order to reduce the Company's short-term borrowing costs or for other purposes.

The Company has a \$2.0 billion committed revolving credit facility (the Facility) that can be used for general corporate purposes, including letters of credit and as a backstop for the Company's commercial paper program. The Facility is subject to a number of restrictive covenants that, in part, limit the ability of the Company to create liens on assets, engage in mergers and consolidations, or dispose of assets. The financial covenants require a minimum interest coverage ratio and a maximum leverage ratio. Based on the Company's results of operations for the twelve months ended September 30, 2010 and existing term debt structure, as shown in the table below, the Company could utilize approximately \$1.3 billion of the \$2.0 billion Facility and not be in violation of those financial covenants. A further reduction in earnings year over year would likely further decrease the amount available under the Facility. However, the Company does not expect the reduction in availability on the Facility to impact its ability to meet its liquidity requirements. In addition, borrowings under the Facility are subject to certain conditions, all of which were met at September 30, 2010. The Company pays an annual commitment fee of 0.10%, and LIBOR plus a spread on borrowings under the Facility. The Facility has a maturity date of January 6, 2012. As of September 30, 2010, there were no borrowings outstanding under the Facility. The Company also has \$100.3 million in credit facilities outside of the U.S., most of which are uncommitted. As of September 30, 2010, the Company had \$52.3 million in outstanding letters of credit, of

Table of Contents

which \$37.5 million reduced availability under the Facility and \$0.4 million reduced availability under uncommitted facilities outside of the U.S. As of September 30, 2010, there were no borrowings outstanding under the Company's commercial paper program. Of the remaining \$14.4 million, \$10.8 million is a letter of credit supported by cash collateral classified as restricted cash on the condensed consolidated balance sheet. The failure of a financial institution supporting the Facility would reduce the size of our committed facility unless a replacement institution were added. Currently, the Facility is supported by 20 U.S. and international financial institutions. The current availability on the Facility is shown in the following table:

	September 30, 2010 (in millions)
Availability	
Committed credit facility	\$ 2,000.0
Availability reduction from covenants	712.3
	1,287.7
Usage	
Borrowings	
Current availability at September 30, 2010	\$ 1,287.7

The Company was in compliance with its debt covenants as of September 30, 2010, and is expected to remain in compliance based on management's estimates of operating and financial results for 2010 and the foreseeable future; however, as of September 30, 2010, as shown in the table above, the Company may borrow \$1.3 billion of the \$2.0 billion currently not utilized under the Facility. Borrowings above \$1.3 billion would cause the Company to violate certain debt covenants in the Facility. In addition, the Company met all the conditions required to borrow under the Facility as of September 30, 2010 and management expects the Company to continue to meet the applicable borrowing conditions.

On March 31, 2010, Moody's Investors Service reaffirmed the Company's senior unsecured debt ratings and short-term credit rating at Baa3 and P-3, respectively. On April 1, 2010, Standard & Poor's Ratings Services reaffirmed the Company's long-term corporate credit and senior unsecured debt ratings at BBB and maintained the Company's short-term credit rating at A-3.

On June 21, 2010, the Company issued \$400 million of 7.625% senior notes due June 15, 2020. The Company used the net proceeds to repay borrowings under the Facility that were drawn on May 13, 2010 to, together with cash on hand, repay \$325.7 million of senior notes due May 15, 2010. The remaining net proceeds will be used for general corporate purposes.

In the third quarter of 2009, the Company terminated a significant long-term customer contract in the business process outsourcing reporting unit within the International segment. The Company expects to pay approximately \$119.3 million in related restructuring costs, of which \$22.2 million was paid in the third quarter of 2009, \$57.5 million was paid in January 2010 and \$39.6 million, subject to changes in foreign exchange rates, is expected to be paid in December 2010 or January 2011. The \$39.6 million is reflected as restricted cash equivalents in the condensed consolidated balance sheets at September 30, 2010.

The Company expects to pay approximately \$481 million to acquire Bowne. In addition, the expected completion of the pending acquisition of Bowne will result in additional restructuring payments, associated closing costs and acquisition fees. The Company anticipates funding these obligations through a combination of cash on hand and borrowings under the Facility.

RISK MANAGEMENT

The Company is exposed to interest rate risk on its variable debt and price risk on its fixed-rate debt. As of September 30, 2010, approximately 82.1% of the Company's outstanding term debt was comprised of fixed-rate debt. At September 30, 2010, the Company's exposure to rate fluctuations on variable-interest borrowings was \$610.0 million, including \$600.0 million notional value of interest rate swap agreements (See Note 15 to the condensed consolidated financial statements) and \$10.0 million in borrowings under both international credit facilities and other long-term debt.

The Company is exposed to the impact of foreign currency fluctuations in certain countries in which it operates. The exposure to foreign currency movements is limited in most countries because the operating revenues and expenses of its various subsidiaries and business units are substantially in the local currency of the country in which they operate. To the extent that borrowings, sales, purchases, revenues, expenses or other transactions are not in the local currency of the operating unit, the Company is exposed to currency risk and may enter into foreign exchange forward contracts to hedge the currency risk. As of September 30, 2010, the aggregate notional amount of outstanding forward contracts was approximately \$74.5 million (See Note 15 to the condensed consolidated financial statements). Net unrealized gains from these foreign exchange contracts were \$1.0 million at September 30, 2010. The Company does not use derivative financial instruments for trading or speculative purposes.

The Company assesses market risk based on changes in interest rates utilizing a sensitivity analysis that measures the potential loss in earnings, fair values and cash flows based on a hypothetical 10% change in interest rates. Using this sensitivity analysis, such changes would not have a material effect on interest income or expense and cash flows; and would change the fair values of fixed rate debt at September 30, 2010 and December 31, 2009 by approximately \$101.5 million and \$101.0 million, respectively.

CAUTIONARY STATEMENT

We have made forward-looking statements in this Quarterly Report on Form 10-Q that are subject to risks and uncertainties. These statements are based on the beliefs and assumptions of the Company. Generally, forward-looking statements include information concerning possible or assumed future actions, events, or results of operations of the Company.

These statements may include, or be preceded or followed by, the words *may*, *will*, *should*, *might*, *could*, *would*, *potential*, *possible*, *expect*, *anticipate*, *intend*, *plan*, *estimate*, *hope* or similar expressions. The Company claims the protection of the Safe Harbor for Forward-Looking Statements contained in the Private Securities Litigation Reform Act of 1995 for all forward-looking statements.

Forward-looking statements are not guarantees of performance. The following important factors, in addition to those discussed elsewhere in this Form 10-Q, could affect the future results of the Company and could cause those results or other outcomes to differ materially from those expressed or implied in our forward-looking statements:

the volatility and disruption of the capital and credit markets, and adverse changes in the global economy;

successful execution and integration of acquisitions, including the pending acquisition of Bowne;

successful negotiation of future acquisitions; and the ability of the Company to integrate operations successfully and achieve enhanced earnings or effect cost savings;

the ability to implement comprehensive plans for the integration of sales forces, cost containment, asset rationalization, system integration and other key strategies;

the ability to divest non-core businesses;

Because forward-looking statements are subject to assumptions and uncertainties, actual results may differ materially from those expressed or implied by such forward-looking statements. Undue reliance should not be placed on such statements, which speak only as of the date of this document or the date of any document that may be incorporated by reference into this document.

Consequently, readers of this Quarterly Report should consider these forward-looking statements only as our current plans, estimates and beliefs. We do not undertake and specifically decline any obligation to publicly release the results of any revisions to these forward-looking statements that may be made to reflect future events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events. We undertake no obligation to update or revise any forward-looking statements in this Quarterly Report to reflect any new events or any change in conditions or circumstances.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

See Item 2 of Part I under Liquidity and Capital Resources.

Item 4. Controls and Procedures

(a) Disclosure controls and procedures.

As required by Rule 13a-15(b) and Rule 15d-15(e) of the Securities Exchange Act of 1934, the Company's management, including the Chief Executive Officer and Chief Financial Officer, is responsible for establishing and maintaining effective disclosure controls and procedures, as defined under Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934. As of September 30, 2010, an evaluation was performed under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that disclosure controls and procedures as of September 30, 2010 were effective in ensuring information required to be disclosed in this Quarterly Report was recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information was accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

(b) Changes in internal control over financial reporting.

There have not been any changes in the Company's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934) that occurred during the quarter ended September 30, 2010 that had materially affected, or were reasonably likely to materially affect, the Company's internal control over financial reporting.
