CYTODYN INC.

(A DEVELOPMENT STAGE COMPANY)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

AS OF AUGUST 31, 2010

(UNAUDITED)

1 - Organization:

CytoDyn Inc. (the Company) was incorporated under the laws of Colorado on May 2, 2002 under the name Rexray Corporation (Rexray). In October 2003, the Company (under its previous name RexRay Corporation) entered into an Acquisition Agreement with CytoDyn of New Mexico, Inc. Pursuant to the acquisition agreement, the Company acquired assets related to our leading drug candidate, Cytolin, including the assignment of the patent license agreement dated July 1, 1994 between CytoDyn of New Mexico, Inc. and Allen D. Allen covering three United States patents along with foreign counterpart patents which describe a method for treating HIV disease with the use of monoclonal antibodies. This includes issued U.S. Patent Nos. 5,424,066; 5,651,970 and 6,534,057, as well as European Patent Nos. 0690725 and 1438970. In addition, Hong Kong Patent No. 1067958, Australian Patent No. 684074 and Canadian Patent No. 2156495 have been obtained as well. The Company also acquired the federally registered trademarks, CYTODYN (U.S. Registration No. 2095498) and CYTOLIN (U.S. Registration No. 2095497), and a related trademark symbol. The license acquired gives the Company the worldwide, exclusive right to develop, market and sell compounds disclosed by the patent claims, practice methods taught by the patent claims, and exploit specified technology related to the patents. The term of the license agreement is for the life of the patents of which the first will expire in 2013. The original expiration dates on the issued U.S. Patent Nos. 5,424,066; 5,651,970 and 6,534,057 are 2013, 2014 and 2013, respectively. As consideration for the intellectual property and trademarks the Company paid CytoDyn of New Mexico \$10,000 in cash and issued 5,362,640 post-split shares of common stock to CytoDyn of New Mexico.

The Company entered the development stage effective October 28, 2003 upon the reverse merger and recapitalization of the Company and follows Financial Standard Accounting Codification No. 915, Development Stage Entities.

Advanced Influenza Technologies, Inc. (AITI) was incorporated under the laws of Florida on June 9, 2006 pursuant to an acquisition during 2006. This entity was administratively dissolved on September 25, 2009.

Advanced Genetic Technologies, Inc. (AGTI) was incorporated under the laws of Florida on December 18, 2006 pursuant to an acquisition during 2006.

CytoDyn Inc., discovered and is developing a class of therapeutic monoclonal antibodies to address significant unmet medical needs in the areas of HIV and AIDS.

2 - Summary of Significant Accounting Policies:

Basis of Presentation

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) and reflect all adjustments, consisting solely of normal recurring adjustments, needed to fairly present the financial results for these periods. The condensed consolidated financial statements and notes are presented as permitted by Form 10-Q. Accordingly, certain information and note disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted. The accompanying consolidated financial statements should be read in conjunction with the financial statements for the years ended May 31, 2010 and 2009 and notes thereto in the Company's annual report on Form 10-K/A for the year ended May 31, 2010, filed with the Securities and Exchange Commission on August 5, 2011. Operating results for the three months ended August 31, 2010 and 2009 are not necessarily indicative of the results that may be expected for the entire year. In the opinion of management, all adjustments consisting only of normal recurring adjustments necessary for a fair statement of (a) the results of operations for the three month periods ended August 31, 2010 and 2009 and the period October 28, 2003 through August 31, 2010, (b) the financial position at August 31, 2010, and (c) cash flows for the three month periods ended August 31, 2010 and 2009 and the period October 28, 2003 through August 31, 2010, have been made.

Table of Contents

Principles of Consolidation

The consolidated financial statements include the accounts of CytoDyn Inc., and its wholly owned subsidiaries; AITI and AIGI. All intercompany transactions and balances are eliminated in consolidation.

Going Concern

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. As shown in the accompanying consolidated financial statements, the Company is currently in the development stage with losses for all periods presented. As of August 22, 2011 these factors, among others, raise substantial doubt about the Company's ability to continue as a going concern.

The consolidated financial statements do not include any adjustments relating to the recoverability of assets and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. The Company's continuation as a going concern is dependent upon its ability to obtain additional operating capital, complete development of its medical treatment, obtain FDA approval, outsource manufacturing of the treatment, and ultimately to attain profitability. The Company intends to seek additional funding through equity offerings to fund its business plan. There is no assurance that the Company will be successful in these endeavors.

Use of Estimates

The preparation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid debt instruments with original maturities of three months or less when acquired to be cash equivalents. The Company had no cash equivalents as of August 31, 2010 or May 31, 2010. The Company maintains its cash in bank deposit accounts, which at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts.

Furniture, Equipment and Depreciation

Furniture and equipment are stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets, generally three to seven years. Maintenance and repairs are charged to expense as incurred and major improvements or betterments are capitalized. Gains or losses on sales or retirements are included in the consolidated statements of operations in the year of disposition.

Impairment of Long-Lived Assets

The Company evaluates the carrying value of any long-lived assets under U.S. GAAP, which requires impairment losses to be recorded on long-lived assets used in operations when indicators of impairment are present and the undiscounted future cash flows estimated to be generated by those assets are less than the assets' carrying amount. If such assets are impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying value or fair value, less costs to sell. There were no impairment charges for the three months ended August 31, 2010 and 2009, and for the period October 28, 2003 through August 31, 2010.

Research and Development

Research and development costs are expensed as incurred.

Table of Contents

Financial Instruments

At August 31, 2010 and May 31, 2010, the carrying value of the Company's financial instruments approximate fair value due to the short-term maturity of the instruments. The Company's notes payable have market rates of interest, and accordingly, the carrying values of the notes approximates the fair value.

Stock-Based Compensation

U.S. GAAP requires companies to measure the cost of employee services received in exchange for the award of equity instruments based on the fair value of the award at the date of grant. The expense is to be recognized over the period during which an employee is required to provide services in exchange for the award (requisite service period). U.S. GAAP provides for two transition methods. The modified prospective method requires that share-based compensation expense be recorded for any employee options granted after the adoption date and for the unvested portion of any employee options outstanding as of the adoption date. The modified retrospective method requires that, beginning upon adoption, all prior periods presented be restated to reflect the impact of share-based compensation expense consistent with the pro forma disclosures previously required under U.S. GAAP. The Company adopted the modified prospective method, and as a result, was not required to restate its financial results for prior periods.

The Company accounts for common stock options, and common stock warrants granted based on the fair market value of the instrument using the Black-Scholes option pricing model utilizing certain weighted average assumptions such as expected stock price volatility, term of the options and warrants, risk-free interest rates, and expected dividend yield at the grant date. The risk-free interest rate assumption is based upon observed interest rates appropriate for the expected term of the stock options. The expected volatility is based on the historical volatility of the Company's common stock at consistent intervals. The Company has not paid any dividends on its common stock since its inception and does not anticipate paying dividends on its common stock in the foreseeable future. The computation of the expected option term is based on the simplified method as the Company's stock options are plain vanilla options and the Company has a limited history of exercise data. For common stock options and warrants with graded vesting, the Company recognizes the related compensation costs associated with these options and warrants on the straight-line basis over the requisite service period.

U.S. GAAP requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. Based on limited historical experience of forfeitures, the Company estimated future unvested option forfeitures at 0% as of August 31, 2010 and 2009.

Stock for Services

The Company issues common stock and common stock options to consultants for various services. Costs for these transactions are measured at the fair value of the consideration received or the fair value of the equity instruments issued, whichever is more reliably measurable. The value of the common stock is measured at the earlier of (i) the date at which a firm commitment for performance by the counterparty to earn the equity instruments is reached or (ii) the date at which the counterparty's performance is complete.

(Loss) Per Common Share

Basic (loss) per share is computed by dividing the net loss by the weighted average number of common shares outstanding during the period. Diluted (loss) per share is computed by dividing net (loss) by the weighted average common shares and potentially dilutive common share equivalents. The effects of potential common stock equivalents are not included in computations when their effect is anti-dilutive. Because of the net losses for all periods presented, the basic and diluted weighted average shares outstanding are the same since including the additional shares would have an anti-dilutive effect on the loss per share calculation. Common stock option and warrants to purchase 7,660,176 and 5,094,176 shares of common stock were not included in the computation of basic and diluted weighted average common shares outstanding for the three months ended August 31, 2010 and 2009, respectively, as inclusion would be anti-dilutive for these periods. Additionally, 374,000 shares of Series B convertible stock can potentially convert into 3,740,000 shares of common stock.

Table of Contents

Reclassification

Certain prior period amounts have been reclassified to comply with current period presentation.

3 - Restatement of Consolidated Financial Statements

On March 11, 2011, on management's recommendation, the Board of Directors of the Company concluded, and Pender Newkirk & Company LLP, the Company's independent auditors agreed, that the Company's financial statements for the period ending August 31, 2010 should no longer be relied upon and should be restated. The Company's board of directors was advised by outside legal counsel that compensation the Company previously paid to an employee and certain other non-employees who were acting as unlicensed, non-exempt broker-dealers soliciting investors on behalf of the Company from April 15, 2008 to February 18, 2011 was a violation of certain state and possibly federal securities laws. As a result, such investors and potentially others have rescission or monetary claims (Claims) against the Company, and the Company's liability for these potential Claims is now being properly reflected in the Company's financial statements. On March 16, 2011, the Company filed a Current Report on Form 8-K disclosing the potential rescission liability (the Liability Disclosure). On July 21, 2011, the Company filed a Current Report of Form 8-K disclosing its receipt of an SEC letter of inquiry and request for voluntary assistance in discovering information related to the Liability Disclosure. We are cooperating with the SEC to provide all information required by this inquiry.

Rescission rights for individual investors and subscribers vary, based upon the laws of the states in which the investors or subscribers reside. Investments and subscriptions that are subject to rescission are recorded separately in our financial statements from stockholders' deficiency in the Company's balance sheet. As the statute of limitations expire in the respective states, such amounts for those shares are reclassified to stockholders' deficiency. Investors who have sold their shares of capital stock of the Company do not have rescission rights, but instead have claims for damages, to the extent their shares were sold at a net loss, which is determined by subtracting the purchase price plus statutory interest and costs (if any) from the sale price.

Based on the Company's ongoing investigation, assuming there are no affirmative defenses or exemptions available to the Company, investors may have up to approximately \$6.4 million of federal and state Claims against the Company as of the date of filing this Form 10-Q/A. These investor Claims could include approximately \$5.1 million of potential state or foreign jurisdiction Claims involving approximately 17 states and five foreign jurisdictions that are not currently barred by the applicable statute of limitations or state law exemptions from broker-dealer registration requirements and these investors may also have overlapping federal Claims; the remainder could involve investors who do not have state law Claims but who may have federal rescission or damages rights if such rights can be proven to exist because of the Company's failure to disclose contingent liabilities related to the state and foreign jurisdiction Claims. The Company is continuing with its scientific and business plans in the ordinary course and is currently seeking to obtain a Letter of Credit to provide the Company the financial ability with respect to any potential Claims. As of the date of this Form 10-Q/A, the Company has been notified by one Investor regarding such investor's intent to seek rescission in the amount of \$10,000.

The Company estimates an amount that is a probable indicator of the rescission liability and will record rescission liabilities for August 31, 2010 and May 31, 2010 of \$4,038,000 and \$3,997,000, respectively. These amounts represent the believed potential rescission liability as of the dates presented. With the filing of this Form 10-Q/A, the Company is restating its previously issued financial statements to increase the Company's current liabilities based on the amounts of the above stated rescission liability and to correspondingly increase stockholders' deficit for the same amount.

The Company is considering methods to offer to rescind the previous investment purchase or subscription by persons who acquired or subscribed for such investments during the period April 15, 2008 to February 18, 2011. The Company may commence a rescission offer to give each investor the opportunity to rescind or not rescind their investment (if not already sold) or subscription agreements or by certain shareholders between April 15, 2008 to February 18, 2011. Any rescission offer could address all or part of the Company's rescission liability relating to its federal and state securities laws compliance issues by allowing the investors covered by the rescission offer to rescind the underlying securities transactions and sell those back to the Company or recover funding provided with subscription agreements, as the case may be.

Table of Contents

The Company is evaluating its obligations under a seven year Personal Services Agreement dated August 4, 2008 (the Contract), with Nader Pourhassan pursuant to which compensation was paid or accrued in view of the subsequent determination that these payments violated applicable securities laws. Such violations gave rise to the Company's rescission obligation reflected in these financial statements. It is unclear at this point whether the Company has any defenses to payment, whether the Company has any rights to recover payments made to Mr. Pourhassan or others at his direction or as contemplated in the Contract (including payments in the form of securities); or whether, even if the Company does have such rights, Mr. Pourhassan (and perhaps others) would have certain equitable remedies that would entitle Mr. Pourhassan (and perhaps others) to set off against the Company's rights or would obligate the Company to make compensatory payments for services performed by Mr. Pourhassan (and others under his direction).

The Contract provides for compensation to Dr. Pourhassan at an annual salary of \$200,000. Additionally, as incentive compensation, Dr. Pourhassan's personal assistant and one additional person are to receive 50,000 common shares each of Company stock for every \$500,000 in capital received by the Company through Dr. Pourhassan's efforts. As of August 31, 2010 and May 31, 2010, respectively, the Company could potentially owe the two individuals referenced above common stock in the amount of 900,000 common shares, the cost of which is reflected as Accrued Stock Incentive Compensation at a cost of \$ 1,180,000. We are restating our previously issued financial statements for the above-mentioned periods in the above referenced amounts to increase our liabilities of Accrued Stock Incentive Compensation and to correspondingly decrease our Common Stock to reflect the associated placement offering costs.

In addition, costs of \$45,800, \$40,000, and \$689,679 which were originally reflected as consulting fees and payroll costs during the three months ended August 31, 2010 and 2009 and the period October 28, 2003 through August 31, 2010, respectively, have been reclassified to Placement Offering Costs, offsetting Common Stock, and to correspondingly reduce our loss and deficit for those periods. With the filing of this Form 10-Q/A, the Company is restating its previously issued financial statements for the periods August 31, 2010 and 2009, to increase the Company's current liability to issue common stock based on the amounts provided in the Contract. However, the ultimate obligations or rights under the Contract is still being evaluated by the Company.

3. Restatement of Consolidated Financial Statements

The following schedule illustrates the effects on the account reclassifications relating to the periods presented:

| | Three months ended August 31 | | October 28, 2003 through August 31, 2010 |
|--|---------------------------------|--------------|--|
| | 2010 | 2009 | |
| Net (loss) applicable to common shareholders, as previously reported | \$ (593,750) | \$ (323,229) | \$ (18,876,323) |
| Adjustments to general and administrative expenses | 45,800 | 40,000 | 689,679 |
| Net (loss) applicable to common shareholders, as restated | \$ (547,950) | \$ (283,229) | \$ (18,186,644) |
| Basic and diluted (loss) per share applicable to common shareholders, as previously reported | \$ (.03) | \$ (.02) | \$ (1.59) |
| Basic and diluted (loss) per share applicable to common shareholders, as restated | \$ (.03) | \$ (.02) | \$ (1.53) |

| Total stockholders' (deficit), as restated | \$ (5,115,923) | \$ (5,039,514) |

4 - Convertible Securities:

In July 2009, the Company amended certain promissory notes into convertible notes that can be converted into shares of common stock. The notes had a fixed conversion price of \$.45 per share. During the three months ended August 31, 2009, \$146,456 in notes and accrued interest converted into 325,458 shares of common stock. At the commitment date, the conversion option associated with the notes was deemed to have a beneficial conversion feature (BCF), and the Company recorded a BCF of \$38,604 as a debt discount and corresponding increase to additional paid-in capital. For the three months ended August 31, 2009, the Company recorded \$38,604 in interest expense as the debt discount was fully amortized upon the conversion of the notes into common stock.

In June, 2009, an investor converted 100,000 shares of Series A Preferred stock into 2,356,142 shares of restricted common stock. At the commitment date, there was no beneficial conversion feature associated with the convertible preferred stock, and accordingly, no constructive dividend was recorded by the Company.

During fiscal year 2010 the Company issued 400,000 shares of Series B Convertible Preferred Stock (Series B) at \$5.00 per share for cash proceeds totaling \$1,769,000, net of approximately \$240,000 in offering costs. Additionally, the Company accrued approximately \$642,000 in accrued stock compensation cost that were recorded as deferred offering costs (See Note 3). During the three months ended August 31, 2010, 26,000 shares of the Series B were converted into 260,000 shares of common stock. As discussed at Note 3, as part of the Company's restatement, there were certain costs that were reclassified or accrued to deferred offering costs, including approximately \$882,000 of deferred offering costs related to the Series B. The original proceeds for the Series B was approximately \$2,009,000 for the issuance of 400,000 Series B shares. The above deferred offering costs were netted against the above proceeds to determine the effective conversion price of \$2.82. The Series B is convertible into ten shares of the Company's common stock including any accrued dividend, with an effective fixed conversion price of \$.50 per share. The holders of the Series B can only convert their shares to common shares provided the Company has sufficient authorized common shares at the time of conversion. Accordingly, the conversion option is contingent upon the Company increasing their authorized common shares, which occurred April 2010 when the Company's shareholders approved an increase to the authorized shares. At the commitment date, which occurred upon the shareholders approving the increase in the authorized shares, the conversion option related to the Series B was beneficial. The intrinsic value of the conversion option at the commitment date resulted in a constructive dividend to the Series B holders of approximately \$6,000,000. The constructive dividend increased and decreased additional paid-in capital by the same amount. The Series B has liquidation preferences over the common share holders at \$5.00 per share plus any accrued dividends. Dividends are payable to the Series B holders when declared by the board of directors at the rate of \$0.25 per share per annum. Such dividends are cumulative and accrue whether or

Edgar Filing: CYTODYN INC - Form 10-Q/A

not declared and whether or not there are any profits, surplus or other funds or assets of the Company legally available therefore. The Series B holders have no voting rights.

Table of Contents

5 - Equity:

The Company has one stock-based equity plan at August 31, 2010. The 2004 Stock Incentive Plan as amended (the Plan) was authorized to issue options and warrants to purchase up to 7,600,000 shares of the Company's common stock. As of August 31, 2010, the Company had 3,398,878 shares available for future stock option grants under the Plan.

During the three months ended August 31, 2010 and 2009 the Company granted -0- and 118,200 warrants (which were not granted under the Plan) with an exercise price of \$1.00, immediate vesting, and expiration date of five years from the date of grant. The warrants were issued in conjunction with the issuance of common stock to certain investors pursuant to a private placement, which entitled the investors to one common stock warrant for each dollar of common stock purchased. Accordingly, these warrants were not valued in the above Black-Scholes model.

Net cash proceeds from the exercise of stock options and warrants were \$0 for the three months ending August 31, 2010 and 2009, respectively. Compensation expense related to stock options and warrants was approximately \$233,000, and \$78,000 for the three months ended August 31, 2010 and, 2009, respectively.

The grant date fair value of options vested during the three month periods ended August 31, 2010 and 2009 was approximately \$233,000 and \$74,000, respectively. The weighted average grant date fair value of options and warrants granted during the three month periods ended August 31, 2009 and 2008 was \$-0-, respectively. As of August 31, 2010 there was approximately \$2,000,000 of unrecognized compensation costs related to share-based payments for unvested options, which is expected to be recognized over a weighted average period of 2.57 years.

The following table represents stock option and warrant activity as of and for the three months ended August 31, 2010:

| | Number of Shares | Weighted Average Exercise Price | Weighted Average Remaining Contractual Life | Aggregate Intrinsic Value |
|--|---------------------|--|---|---------------------------------|
| Options and warrants outstanding - May 31, 2010 | 7,660,176 | \$ 1.42 | 5.41 | \$ 2,761,129 |
| Granted | | | | |
| Exercised | | | | |
| Forfeited/expired/cancelled Options and warrants outstanding - August,31 2010 | 7,660,176 | \$ 1.42 | 5.16 | \$ 2,340,321 |
| Outstanding and exercisable- August 31, 2010 | 6,251,287 | \$ 1.30 | 5.50 | \$ 2,340,321 |

During fiscal year 2010, the Company reissued 81,580 shares of treasury stock for certain consulting services at \$1.45 per share, which represented the fair market value of the Company's common stock at the commitment date. The prepaid stock services are amortized over the life of the consulting agreement. For the three months ended August 31, 2010, the Company recognized approximately \$30,000 in consulting expense related to this agreement.

Table of Contents

6 - Related Party Transactions:

A director provided legal services to the Company over the past several years. As of August 31, 2009, the Company owed the director \$43,985 and it is included in the accompanying consolidated financial statements as indebtedness to related parties as of August 31, 2010. As of August 31, 2010 no arrangements had been made for the Company to repay the balance of this obligation. The amount has been classified as short-term, as the amount is payable on demand. The Company anticipates that the director will continue to provide legal services in the future.

In May and July 2007, the Company issued \$150,000 in promissory notes with a stated interest rate of 14% to a director of the Company, and a maturity date of six months from the issuance date. As of August 31, 2010, the balance in the notes is \$110,000. The notes have no stated maturity, and are essentially payable upon demand. Accordingly, the Company has Classified the balance as short-term obligation as of August 31, 2010.

In July 2010, two of the Company's executives forgave approximately \$230,000 in accrued salaries that were included as Accrued salaries - related party at May 31, 2010. During the three months ended August 31, 2010, the Company reclassified \$230,000 from accrued salaries - related party to additional paid-in capital.

7 - Subsequent Events:

In September 2010, the Company issued 25,000 stock options each to a director and a consultant at an exercise price of \$1.20. The options expire in 2020.

On December 6, 2010 the Company issued 500,000 stock options to the newly elected Chief Executive Officer at an exercise price of \$1.19. The options vest 25% upon first year anniversary and 6.25% vest each following quarter.

On May 24, 2011, the Company and The General Hospital Corporation, d/b/a/ Massachusetts General Hospital (MGH) entered into an amendment to their September 28, 2009 Clinical Trial Agreement to extend the original study entitled, "An observational study to determine the in-vitro immunologic and virology activity of Cytolin". The Amendment enables MGH Principal Investigator Eric Rosenberg, M.D. to further explore his initial findings regarding the potential mechanism of action of Cytolin to treat HIV-positive adults. The Company has agreed to pay MGH the remaining unpaid balance of \$291,590 of the total research grant of \$865,375 over the next six months, at which point the Company currently anticipates the extended study will be complete, although there is not a contractual obligation to do so in that timeframe.

On June 22, 2011, the Company was notified by the Securities and Exchange Commission of certain inquiries regarding activities related to fund-raising activities of a certain Company officer. The Company is fully cooperating in responding to this inquiry. At this time, we are not able to estimate the results or costs associated with this inquiry.

On August 9, 2011, four directors of the Company were granted 50,000 common stock options each at an exercise price of \$2.00 per share, which represented the fair market value of the Company's common stock at the August 9, 2011 grant date. The options expire on August 8, 2016, and vest in quarterly increments over one year from the grant date.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

THROUGHOUT THIS FILING, WE MAKE FORWARD-LOOKING STATEMENTS. THE WORDS ANTICIPATE, BELIEVE, EXPECT, INTEND, PREDICT, PLAN, INTEND, SEEK, ESTIMATE, PROJECT, WILL, CONTINUE, COULD, MAY, AND SIMILAR EXPRESSIONS ARE INTENDED TO IDENTIFY FORWARD-LOOKING STATEMENTS. THESE STATEMENTS INCLUDE, AMONG OTHERS, INFORMATION REGARDING FUTURE OPERATIONS, FUTURE CAPITAL EXPENDITURES, AND FUTURE NET CASH FLOWS. SUCH STATEMENTS REFLECT THE COMPANY'S CURRENT VIEWS WITH RESPECT TO FUTURE EVENTS AND FINANCIAL PERFORMANCE AND INVOLVE RISKS AND UNCERTAINTIES, INCLUDING, WITHOUT LIMITATION, GENERAL ECONOMIC AND BUSINESS CONDITIONS, CHANGES IN FOREIGN, POLITICAL, SOCIAL, AND ECONOMIC CONDITIONS, REGULATORY INITIATIVES AND COMPLIANCE WITH GOVERNMENTAL REGULATIONS, THE ABILITY TO ACHIEVE MARKET PENETRATION AND ATTRACT CUSTOMERS, AND VARIOUS OTHER MATTERS, MANY OF WHICH ARE BEYOND THE COMPANY'S CONTROL. SHOULD ONE OR MORE OF THESE RISKS OR UNCERTAINTIES OCCUR, OR SHOULD UNDERLYING ASSUMPTIONS PROVE TO BE INCORRECT, ACTUAL RESULTS MAY VARY MATERIALLY AND ADVERSELY FROM THOSE ANTICIPATED, BELIEVED, ESTIMATED, OR OTHERWISE INDICATED. CONSEQUENTLY, ALL OF THE FORWARD-LOOKING STATEMENTS MADE IN THIS FILING ARE QUALIFIED BY THESE CAUTIONARY STATEMENTS AND THERE CAN BE NO ASSURANCE OF THE ACTUAL RESULTS OR DEVELOPMENTS.

Table of Contents

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the other sections of this Quarterly Report, including our financial statements and related notes appearing elsewhere herein. This discussion and analysis contains forward-looking statements including information about possible or assumed results of our financial conditions, operations, plans, objectives and performance that involve risk, uncertainties and assumptions. The actual results may differ materially from those anticipated and set forth in such forward-looking statements.

Results of Operations

Results of Operations for the three months ended August 31, 2010 and 2009 are as follows:

For the three months ended August 31, 2010 and 2009 the Company had no activities that produced revenues from operations.

For the three months ended August 31, 2010, the Company had a net loss of approximately (\$548,000) compared to a net loss of approximately (\$283,000) for the corresponding period in 2009. For the three months ended August 31, 2010 and 2009, the Company incurred operating expenses of approximately \$544,000 and approximately \$236,000, respectively, consisting primarily of, consulting expense, stock-based compensation, professional fees, and salaries. The most significant change in operating expenses for the respective periods related to the increase in salary expense and stock-based compensation of approximately \$87,000 and \$185,000, respectively. The increase in salaries relates to our hiring of our chief operating officer during fiscal year 2010, as well as certain employees migrating from part-time status to full time status during fiscal year 2010. We granted a significant number of common stock options during the fourth quarter of 2010, which included common stock options with vesting over a three year period. As a result, stock-based compensation will increase during fiscal year 2011 relative to the 2010 comparable quarters. Additionally, we expect salary expense and research and development expenses to increase in the future, as our clinical trials progress. However, increases in salary expense, as well as research and development expenditures will be contingent upon our ability to obtain the necessary financing going forward.

Rescission Liability

We recorded rescission liabilities for August 31, 2010 and May 31, 2010 of \$4,038,000 and \$3,997,000, respectively. These amounts represent the believed potential rescission liability as of the dates presented. With the filing of this Form 10-Q/A, we are restating our previously issued financial statements for the above-mentioned periods to increase our current liabilities based on the amounts of the above stated rescission liability and to correspondingly increase stockholders' deficit for the same amount. See Footnote 3 of our Financial Statements for further information regarding these rescission liabilities.

Accrued Incentive Stock Compensation

On August 4, 2008, we entered into a seven year Personal Services Agreement with Nader Pourhassan (the "Contract"). The Contract provides for compensation to Dr. Pourhassan at an annual salary of \$200,000. Additionally, as incentive compensation, Dr. Pourhassan's personal assistant and one additional person are to receive 50,000 common shares each of our common stock for every \$500,000 in capital received by us through Dr. Pourhassan's efforts. As of August 31, 2010 and May 31, 2010, respectively, we could potentially owe the two individuals referenced above common stock in the amount of 900,000 common shares the cost of which is reflected as Accrued Stock Incentive Compensation at a cost of \$1,180,000. We are restating our previously issued financial statements for the above-mentioned periods in the above referenced amounts to increase our liabilities of Accrued Stock Incentive Compensation and to correspondingly decrease our Common Stock to reflect the associated placement offering costs. In addition, costs of approximately \$46,000, \$40,000 and \$690,000, which were originally reflected as consulting fees and payroll costs during the three months ended August 31, 2010, and 2009, and the period October 28, 2003 through August 31, 2010 respectively, have been reclassified to Placement Offering Costs, offsetting Common Stock, and to correspondingly reduce our loss and deficit for those years. With the filing of this Form 10-Q/A, we are restating our previously issued financial statements for the three month periods ending on August 31, 2010 and August 31, 2009, to increase our current liability to issue common stock based on the amounts provided in the Contract. However, the ultimate decision on issues relating to the Contract, as referenced above, is still being evaluated by us. See Footnote 3 of our Financial Statements for further information.

Table of Contents

Liquidity and Capital Resources

On August 31, 2010, we had negative working capital of approximately (\$5,138,000) as compared to a negative working capital of approximately (\$4,831,000) on May 31, 2010.

Cash Flows

Cash used in operating activities of approximately \$305,000 during the three months ended August 31, 2010 increased approximately \$58,000 from approximately \$247,000 in 2009. The increase in the cash used in operating activities for the above periods was primarily attributable to the following:

Net loss increased approximately \$265,000; amortization decreased approximately \$39,000. The above increases were partially offset by the following:

Stock-based compensation increased approximately \$185,000 from 2009 to 2010.

Accounts payable, accrued interest payable, and accrued liabilities decreased approximately \$57,000. There were no material changes in cash flows from investing activities from 2009 to the comparable period in 2010.

Cash flows provided by financing activities of approximately \$20,000 during the three months ended August 31, 2010 decreased approximately \$58,000 from approximately \$78,000 during 2009. The decrease in cash provided by financing activities for the above periods was attributable to the decrease in proceeds from common stock issuances.

As shown in the accompanying Financial Statements, for the three months ended August 31, 2010 and 2009, and since October 28, 2003 through August 31, 2010 the Company has had net losses of approximately \$(548,000) and \$(283,000) and \$(12,187,000), respectively. As of August 31, 2010, the Company has not emerged from the development stage. In view of these matters, the Company's ability to continue as a going concern is dependent upon the Company's ability to begin operations and to achieve a level of profitability. Since inception, the Company has financed its activities principally from the sale of public equity securities and proceeds from notes payable. The Company intends on financing its future development activities and its working capital needs largely from the sale of its securities with some additional funding from other traditional financing sources.

As previously mentioned, since October 28, 2003, we have financed our operations largely from the sale of common stock and proceeds from notes payable. From inception through August 31, 2010 we raised cash of approximately \$5,023,000 (net of offering costs) common stock financings and approximately \$1,537,000 through the issuance notes payable.

Since October 28, 2003 through August 31, 2010, we have incurred approximately \$1,776,000 of research and development costs and approximately \$11,685,000 in operating expenses.

We have incurred significant net losses and negative cash flows from operations since our inception. As of August 31, 2010, we had an accumulated deficit of approximately \$(13,789,000) and negative working capital of approximately (\$5,138,000).

We anticipate that cash used in product development and operations, especially in the marketing, production and sale of our products will increase significantly in the future.

Table of Contents

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Rescission Liability

The Company has recorded rescission liabilities of \$4,038,000 as of August 31, 2010. These amounts represent the believed potential rescission liability as of the dates presented. With the filing of this Form 10-Q/A, the Company is restating its previously issued financial statements for the above-mentioned periods to increase the Company's current liabilities based on the amounts of the above stated rescission liability and to correspondingly increase stockholders' deficit for the same amount.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

Not applicable.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures

As of August 31, 2010, under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, management has evaluated the effectiveness of the design and operations of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act) as of the three month period ending August 31, 2010 covered by this quarterly report of Form 10Q. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were not effective as of August 31, 2010 as a result of the material weakness in internal control over financial reporting because of inadequate segregation of duties over authorization, review and recording of transactions as well as the financial reporting of such transactions. Management is attempting to develop a plan to mitigate the above material weaknesses. Despite the existence of these material weaknesses, we believe the financial information presented herein is materially correct and in accordance with generally accepted accounting principles.

Internal Control Over Financial Reporting

Changes in Control Over Financial Reporting

No change in the Company's internal control over financial reporting occurred during the quarter ended August 31, 2010, that materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
