(I.R.S. Employer  
Identification No.)

300 Johnny Bench Drive  
Oklahoma City, Oklahoma  
(Address of principal executive offices)

73104  
Zip Code

Registrant's telephone number, including area code: (405) 225-5000

Securities registered pursuant to section 12(b) of the Act:

None

Securities registered pursuant to section 12(g) of the Act:

Common Stock, Par Value \$.01 (Title of class)

Indicates by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes . No .

(Facing Sheet Continued)

**Table of Contents**

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes . No .

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file the reports), and (2) has been subject to the filing requirements for the past 90 days. Yes . No .

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes . No .

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. .

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer . Accelerated filer . Non-accelerated filer . Smaller reporting company .

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes . No .

As of February 28, 2011, the aggregate market value of the 58,186,617 shares of common stock of the Company held by non-affiliates of the Company equaled \$516,697,159 based on the closing sales price for the common stock as reported for that date.

As of October 14, 2011, the Registrant had 62,000,470 shares of common stock issued and outstanding.

**Documents Incorporated by Reference**

Part III of this report incorporates by reference certain portions of the definitive proxy statement which the Registrant will file with the Securities and Exchange Commission no later than 120 days after August 31, 2011.

**SONIC CORP.**

**PART I**

**Item 1. Business**

**General**

Sonic Corp. operates and franchises the largest chain of drive-in restaurants ( Sonic Drive-Ins ) in the United States. References to Sonic Corp., Sonic, the Company, we, us, and our in this Form 10-K are references to Sonic Corp. and its subsidiaries.

The Sonic Drive-In restaurant chain began in the early 1950 s. Sonic Corp. was incorporated in the State of Delaware in 1990 in connection with its 1991 public offering of common stock. Our principal executive offices are located at 300 Johnny Bench Drive, Oklahoma City, Oklahoma 73104. Our telephone number is (405) 225-5000.

**The Sonic Brand**

At a standard Sonic Drive-In restaurant, a customer drives into one of 20 to 36 covered drive-in spaces, orders through an intercom speaker system, and has the food delivered by a carhop. Most Sonic Drive-Ins have patio seating and almost half of all Sonic Drive-Ins have drive-thru lanes.

Sonic Drive-Ins feature Sonic signature items, such as specialty drinks including cherry limeades and slushes, ice cream desserts, made-to-order sandwiches and hamburgers, six-inch premium beef hot dogs, foot-long quarter pound chili cheese coneys, hand-battered onion rings and tater tots. Sonic Drive-Ins also offer breakfast items that include sausage or bacon with egg and cheese Breakfast Toasters® and a variety of breakfast burritos. Sonic Drive-Ins serve the full menu all day.

**Business Strategy**

Our objective is to maintain our position as or to become a leading restaurant operator in all of our markets. We have developed and implemented a strategy designed to build the Sonic brand and to maintain high levels of customer satisfaction and repeat business. The key elements of that strategy are: (1) a unique drive-in concept focusing on a distinctive menu of quality made-to-order food products including several signature items; (2) a commitment to customer service featuring the quick delivery of food by carhops; (3) the expansion of Sonic Drive-Ins within the continental United States; and (4) a commitment to strong franchisee relationships.

**Restaurant Locations**

As of August 31, 2011, the Company had 3,561 Sonic Drive-Ins in operation from coast to coast, consisting of 446 Company Drive-Ins and 3,115 Franchise Drive-Ins. Company Drive-Ins are owned and operated by Sonic Restaurants, Inc. ( SRI ), a wholly owned subsidiary of the Company. The following table sets forth the number of Company Drive-Ins and Franchise Drive-Ins by state as of August 31, 2011:

**Expansion**

During fiscal year 2011, we opened 43 Sonic Drive-Ins, which consisted of three Company Drive-Ins and 40 Franchise Drive-Ins. Expansion plans for fiscal year 2012 involve the opening of multiple Sonic Drive-Ins under area development agreements, as well as single-store development by long-standing franchisees. We believe that our

## **Table of Contents**

existing as well as newly opened markets offer significant growth opportunities for both Company Drive-In and Franchise Drive-In expansion over the long term.

### **Restaurant Design and Construction**

The typical Sonic Drive-In consists of a kitchen housed in a one-story building flanked by canopy-covered rows of 20 to 36 parking spaces, with each space having its own payment terminal, intercom speaker system and menu board. In addition, most new Sonic Drive-Ins incorporate drive-thru service and a patio seating area.

### **Marketing**

We have designed our marketing program to differentiate Sonic Drive-Ins from our competitors by emphasizing high quality distinctive made-to-order menu items and personalized service featuring skating carhops. The marketing plan includes promotions for use throughout the Sonic chain. We support those promotions with television, radio, interactive media, point-of-sale materials, and other media as appropriate. Those promotions generally center on products which highlight new product introductions for a limited time and signature menu items.

Each year, Sonic develops a marketing plan with the involvement of the Sonic Franchise Advisory Council. (Information concerning the Sonic Franchise Advisory Council is set forth on page 5 under Franchise Program - *Franchise Advisory Council*.) Funding for our marketing plan is comprised of the System Marketing Fund, the Sonic Brand Fund and local advertising expenditures. The System Marketing Fund focuses on purchasing advertising on national cable and broadcast networks and other national media, sponsorship and brand enhancement opportunities. The Sonic Brand Fund is our national media production fund. Franchisees are also required to spend additional amounts on local advertising, typically through participation in the local advertising cooperative. Our franchise agreements require advertising contributions by franchisees of up to 5.9% of gross sales to these marketing funds and local advertising cooperatives.

The total amount spent on media (principally television) was approximately \$170 million for fiscal year 2011, and we expect media expenditures to be approximately \$170 million to \$175 million for fiscal 2012.

### **Purchasing**

We negotiate with suppliers for our primary food products and packaging supplies to ensure adequate quantities of food and supplies and to obtain competitive prices. We seek competitive bids from suppliers on many of our food products. We approve suppliers of those products and require them to adhere to our established product and food safety specifications. Suppliers manufacture several key products for Sonic under private label and sell them to authorized distributors for resale to Sonic Drive-Ins. We require all Sonic Drive-Ins to purchase from approved distribution centers.

### **Food Safety and Quality Assurance**

To ensure the consistent delivery of safe, high-quality food, we created a food safety and quality assurance program. Sonic's food safety program promotes the quality and safety of all products and procedures utilized by all Sonic Drive-Ins, and provides certain requirements that must be adhered to by all suppliers, distributors, and Sonic Drive-Ins. We also have a comprehensive, restaurant-based food safety program called Sonic Safe. Sonic Safe is a risk-based system that utilizes Hazard Analysis & Critical Control Points (HACCP) principles for managing food safety and quality. Our food safety program includes employee training, supplier product inspections and testing, unannounced drive-in food safety auditing by independent third-parties, and other detailed components that monitor the safety and quality of Sonic's products and procedures at every stage of the food preparation and production cycle. All Sonic Drive-In employees are required to be trained in food safety in their first stage of training, utilizing an internal training program, referred to as the STAR Training Program. This program includes specific training on food safety information and requirements for every station in the drive-in. We also require our drive-in managers and assistant managers to pass and maintain the ServSafe® certification. ServSafe® is the most recognized food safety training certification in the restaurant industry.

## Table of Contents

### Information Systems

Sonic Drive-Ins are equipped with information technology systems that are designed to provide operational tools for sales and inventory. This technology includes industry-specific, off-the-shelf systems, as well as proprietary software that assist in managing food and beverage costs. These solutions are integrated with our point-of-sale systems to provide daily, weekly and period-to-date information that is important for managers to run efficient and effective operations. We have centralized financial and accounting systems for Company Drive-Ins. We also have systems that receive transaction level data from Franchise Drive-Ins. We believe these systems are important in analyzing and improving profit margins and accumulating marketing information. In addition, we use a Pay-at-Your-Stall (PAYS) payment system, a network-based credit-card terminal at each stall of the drive-ins to facilitate credit and debit card transactions by the customer. We will continue to invest in our information technology as we improve existing systems and develop new ones that enhance the customers' experience, as well as systems that improve operational efficiencies.

### Company Operations

*Restaurant Personnel.* A typical Company Drive-In is operated by a manager, two to four assistant managers, and approximately 25 hourly employees, many of whom work part-time. The manager has responsibility for the day-to-day operations of the Company Drive-In.

*Ownership Structure.* Company Drive-Ins are drive-in operations which are owned and operated by SRI, as the Company's operating subsidiary. Effective April 1, 2010, the Company introduced a new compensation program as an alternative to the prior form of ownership to improve manager and supervisor retention. While managers and supervisors do not own an interest in the drive-in under the new compensation program, the program provides managers and supervisors a larger portion of guaranteed base compensation, but retains a significant incentive component based on drive-in level performance. Historically, Company Drive-Ins operated as individual limited liability companies or general partnerships in which the manager and the supervisor for the respective drive-in owned a noncontrolling interest. Under this form of ownership, managers and supervisors shared in the cash flow for their Company Drive-In, but were also responsible for their share of any losses incurred by the drive-in.

*Company Drive-In Data.* The following table provides certain financial information relating to Company Drive-Ins and the number of Company Drive-Ins opened and closed during the past five fiscal years.

	2011	2010	2009	2008	2007
Average Sales per Company Drive-In ( <i>in thousands</i> )	\$ 920	\$ 893	\$ 954	\$ 1,007	\$ 1,017
Number of Company Drive-Ins:					
Total Open at Beginning of Year	455	475	684	654	623
Newly Opened and Re-Opened	3	5	11	29	29
Purchased from Franchisees	1	--	--	18	15
Sold to Franchisees <sup>(1)</sup>	(6)	(16)	(205)	(12)	(10)
Closed (net of re-openings)	(7)	(9)	(15)	(5)	(3)
Total Open at Year End	446	455	475	684	654

(1) The large number of drive-ins sold by Sonic in fiscal 2009 reflects the refranchising initiative which Sonic implemented in fiscal 2009 and includes 88 drive-ins in which Sonic retained a noncontrolling interest.

### Franchise Program

*General.* As of August 31, 2011, we had 3,115 Franchise Drive-Ins in operation. A large number of successful multi-unit franchisee groups have developed during the Sonic system's 58 years of operation. Those franchisees continue to develop new Franchise Drive-Ins in their franchise territories either through area development agreements or single-site development. Our franchisees opened 40 Franchise Drive-Ins during fiscal year 2011. We consider our franchisees a vital part of our continued growth and believe our relationship with our franchisees is good.

*Franchise Agreements.* For traditional drive-ins, the current franchise agreement provides for an initial franchise fee of \$45,000 per drive-in, a royalty fee of up to 5% of gross sales on a graduated percentage basis,

**Table of Contents**

advertising fees of up to 5.9% of gross sales, and a 20-year term. For fiscal year 2011, Sonic's average royalty rate was equal to 3.79%.

*Area Development Agreements.* We use area development agreements to facilitate the planned expansion of the Sonic Drive-In restaurant chain through multiple unit development. While many existing franchisees continue to expand on a single drive-in basis, approximately 73% of the new Franchise Drive-Ins opened during fiscal year 2011 occurred as a result of then-existing area development agreements. Each area development agreement gives a developer the exclusive right to construct, own, and operate Sonic Drive-Ins within a defined area. In exchange, each developer agrees to open a minimum number of Sonic Drive-Ins in the area within a prescribed time period.

We offer development agreements for construction of one or more new Sonic Drive-Ins over a defined period of time and in a defined geographic area. Franchisees who enter into development agreements are required to pay a fee, a portion of which is credited against franchise fees due when Sonic Drive-Ins are opened in the future. Franchisees may forfeit such fees and lose their rights to future development if they do not maintain the required schedule of openings.

*Franchise Drive-In Development.* We assist each franchisee in selecting sites and developing Sonic Drive-Ins. Each franchisee has responsibility for selecting the franchisee's drive-in location but must obtain our approval of each Sonic Drive-In design and each location based on accessibility and visibility of the site and targeted demographic factors, including population density, income, age, and traffic. We provide our franchisees with the physical specifications for the typical Sonic Drive-In.

From time to time, at our discretion, the Company offers incentives to franchisees to increase the development of Sonic Drive-Ins in certain markets. These incentives typically offer reduced or waived franchise fees and/or royalty fees upon certain conditions.

*Franchise Advisory Council.* Our Franchise Advisory Council provides advice, counsel, and input to Sonic on important issues impacting the business, such as marketing and promotions, operations, purchasing, building design, human resources, technology and new products. The Franchise Advisory Council currently consists of 21 members selected by Sonic. We have seven executive committee members who are selected at large, and 14 regional members representing all regions of the country. We have five Franchise Advisory Council task groups comprised of approximately 56 members who serve three-year terms and lend support on individual key priorities.

*Franchise Drive-In Data.* The following table provides certain financial information relating to Franchise Drive-Ins and the number of Franchise Drive-Ins opened, purchased from or sold to Sonic, and closed during Sonic's last five fiscal years.

	2011	2010	2009	2008	2007
Average Sales Per Franchise Drive-In (in thousands)	\$ 1,054	\$ 1,043	\$ 1,122	\$ 1,154	\$ 1,132
Number of Franchise Drive-Ins:					
Total Open at Beginning of Year	3,117	3,069	2,791	2,689	2,565
New Franchise Drive-Ins	40	80	130	140	146
Sold to the Company	(1)	--	--	(18)	(15)
Purchased from the Company <sup>(1)</sup>	6	16	205	12	10
Closed (net of re-openings)	(47)	(48)	(57)	(32)	(17)
Total Open at Year End	3,115	3,117	3,069	2,791	2,689

(1) The large number of drive-ins sold by Sonic in fiscal 2009 reflects the refranchising initiative which Sonic implemented in fiscal 2009 and includes 88 drive-ins in which Sonic retained a noncontrolling interest.

**Competition**

We compete in the restaurant industry, specifically in the segment known as the quick-service restaurant ( QSR ) segment, a highly competitive industry in terms of price, service, location, and food quality. The restaurant industry is often affected by changes in consumer trends, economic conditions, demographics, traffic patterns, and concerns about the nutritional content of quick-service foods. We compete on the basis of distinctive food and service

## **Table of Contents**

with signature food items and skating carhops and the method of food preparation (made-to-order). The quality of service, featuring Sonic carhops, constitutes one of our primary marketable points of difference from the competition. There are many well-established competitors with substantially greater financial and other resources. These competitors include a large number of national, regional, and local food service establishments, including QSR and casual dining restaurants. A significant change in pricing or other marketing strategies by one or more of those competitors could have an adverse impact on Sonic's sales, earnings, and growth. In selling franchises, we also compete with many franchisors of QSR and other restaurants, in addition to franchisors of other business opportunities.

## **Seasonality**

Our results during Sonic's second fiscal quarter (the months of December, January and February) generally are lower than other quarters because of the lower temperatures in the locations of a number of Sonic Drive-Ins, which tends to reduce customer visits to our drive-ins.

## **Employees**

As of August 31, 2011, we had 316 full-time corporate employees and approximately 11,800 full-time and part-time restaurant employees. None of our employees are subject to a collective bargaining agreement. We believe that we have good labor relations with our employees.

## **Intellectual Property**

Sonic owns or is licensed to use valuable intellectual property including trademarks, service marks, patents, copyrights, trade secrets and other proprietary information, including the Sonic logo and trademark, which are of material importance to our business. Depending on the jurisdiction, trademarks and service marks generally are valid as long as they are used and/or registered. Patents, copyrights and licenses are of varying durations.

## **Customers**

Our business is not dependent upon either a single customer or a small group of customers.

## **Government Contracts**

No portion of our business is subject to renegotiation of profits or termination of contracts or subcontracts at the election of the U.S. government.

## **Environmental Matters**

We are not aware of any federal, state or local environmental laws or regulations that will materially affect our earnings or competitive position or result in material capital expenditures. However, we cannot predict the effect on operations of possible future environmental legislation or regulations. During fiscal year 2011, there were no material capital expenditures for environmental control facilities, and no such material expenditures are anticipated.

## **Available Information**

We maintain a website with the address of [www.sonicdrivein.com](http://www.sonicdrivein.com). Copies of the Company's reports filed with, or furnished to, the Securities and Exchange Commission on Forms 10-K, 10-Q, and 8-K and any amendments to such reports are available for viewing and copying at such website, free of charge, as soon as reasonably practicable after filing such material with, or furnishing it to, the Securities and Exchange Commission. In addition, copies of Sonic's corporate governance materials, including the Corporate Governance Guidelines, Audit Committee Charter, Compensation Committee Charter, Nominating and Corporate Governance Committee Charter, Code of Ethics for Financial Officers, and Code of Business Conduct and Ethics are available for viewing and copying at the website, free of charge.

---

## **Table of Contents**

### **Item 1A. Risk Factors**

This Annual Report on Form 10-K includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. A forward-looking statement is neither a prediction nor a guarantee of future events or circumstances, and those future events or circumstances may not occur. Investors should not place undue reliance on the forward-looking statements, which speak only as of the date of this report. These forward-looking statements are all based on currently available operating, financial and competitive information and are subject to various risks and uncertainties. Our actual future results and trends may differ materially depending on a variety of factors including, but not limited to, the risks and uncertainties discussed below. We undertake no obligation to publicly update or revise them, except as may be required by law.

#### **Events reported in the media, such as incidents involving food-borne illnesses or food tampering, whether or not accurate, can cause damage to our reputation and rapidly affect sales and profitability.**

Reports, whether true or not, of food-borne illnesses or injuries caused by food tampering have in the past severely injured the reputations of participants in the restaurant industry and could in the future affect us. The potential for terrorism of our nation's food supply also exists and, if such an event occurs, it could have a negative impact on our brand's reputation and could severely hurt sales, revenues, and profits.

Our brand's reputation is an important asset to the business; as a result, anything that damages our brand's reputation could immediately and severely hurt sales, revenues, and profits. If customers become ill from food-borne illnesses or food tampering, we could also be forced to temporarily close some, or all, Sonic Drive-Ins. In addition, instances of food-borne illnesses or food tampering occurring at the restaurants of competitors could, by resulting in negative publicity about the restaurant industry, adversely affect our sales on a local, regional, or national basis. A decrease in customer traffic as a result of these health concerns or negative publicity, or as a result of a temporary closure of any Sonic Drive-Ins, could materially harm our brand, sales, and profitability.

#### **The restaurant industry is highly competitive, and that competition could lower our revenues, margins, and market share.**

The restaurant industry is intensely competitive with respect to price, service, location, personnel, dietary trends, including nutritional content of quick-service foods, and quality of food, and is often affected by changes in consumer tastes and preferences, economic conditions, population, and traffic patterns. We compete with international, regional and local restaurants, some of which operate more restaurants and have greater financial resources. We compete primarily through the quality, price, variety and value of food products offered and our distinctive service experience. Other key competitive factors include the number and location of restaurants, speed of service, attractiveness of facilities, effectiveness of advertising and marketing programs, and new product development by us and our competitors. We cannot ensure that we will compete successfully in the restaurant industry on these factors. In addition, some of our competitors have substantially larger marketing budgets, which may provide them with a competitive advantage. Our system also competes within the QSR industry not only for customers but also for management and hourly employees, suitable real estate sites, and qualified franchisees.

#### **Changing dietary preferences may cause consumers to avoid our products in favor of alternative foods.**

The restaurant industry is affected by consumer preferences and perceptions. Although we monitor these changing preferences and strive to adapt to meet changing consumer needs, growth of our brand and, ultimately, system-wide sales depend on the sustained demand for our products. If dietary preferences and perceptions cause consumers to avoid certain products offered by Sonic Drive-Ins in favor of different foods, demand for our products may be reduced, and our business could be harmed.

#### **Our earnings and business growth strategy depends in large part on the success of our franchisees, who exercise independent control of their businesses.**

We have significantly increased the percentage of restaurants owned and operated by our franchisees. A portion of our earnings comes from royalties, rents and other amounts paid by our franchisees. Franchisees are independent contractors, and their employees are not our employees. We provide training and support to, and monitor the operations of, our franchisees, but the quality of their drive-in operations may be diminished by any number of factors beyond our control. Franchisees may not successfully operate drive-ins in a manner consistent

---

## **Table of Contents**

with our high standards and requirements, and franchisees may not hire and train qualified managers and other restaurant personnel. Any operational shortcoming of a Franchise Drive-In is likely to be attributed by consumers to the entire Sonic brand, thus damaging our reputation and potentially affecting revenues and profitability.

### **Changes in economic, market and other conditions could adversely affect Sonic and its franchisees, and thereby Sonic's operating results.**

The QSR industry is affected by changes in economic conditions, consumer tastes and preferences and spending patterns, demographic trends, consumer perceptions of food safety, weather, traffic patterns, the type, number and location of competing restaurants, and the effects of war or terrorist activities and any governmental responses thereto. Factors such as interest rates, inflation, gasoline prices, energy costs, food costs, labor and benefit costs, legal claims, and the availability of management and hourly employees also affect restaurant operations and administrative expenses. Economic conditions, including interest rates and other government policies impacting land and construction costs and the cost and availability of borrowed funds, affect our ability and our franchisees' ability to finance new restaurant development, improvements and additions to existing restaurants, and the acquisition of restaurants from, and sale of restaurants to, franchisees. Inflation can cause increased food, labor and benefits costs and can increase our operating expenses. As operating expenses increase, we recover increased costs by increasing menu prices, to the extent permitted by competition and the consumer environment, or by implementing alternative products or cost reduction procedures. We cannot ensure, however, that we will be able to recover increases in operating expenses in this manner.

### **Our financial results may fluctuate depending on various factors, many of which are beyond our control.**

Our sales and operating results can vary from quarter to quarter and year to year depending on various factors, many of which are beyond our control. Certain events and factors may directly and immediately decrease demand for our products, and we cannot ensure that we will be able to respond to or address the events and factors sufficiently. If customer demand decreases rapidly, our results of operations, including store-level sales and profits, would also decline precipitously. These events and factors include:

- sales promotions and product offerings by Sonic and its competitors;
- changes in average same-store sales and customer visits;
- the inability to purchase sufficient levels of media;
- variations in the price, availability and shipping costs of supplies such as food products;
- seasonal effects on demand for Sonic's products;
- unexpected slowdowns in new drive-in development or franchise agreement renewals;
- changes in competitive conditions;
- changes in economic conditions generally, including consumer spending;
- consumer sensitivity to price and value;
- changes in consumer tastes and preferences;
- changes in the cost of labor; and
- weather and other acts of God.

### **Shortages or interruptions in the supply or delivery of perishable food products or rapid price increases could adversely affect our operating results.**

We are dependent on frequent deliveries of perishable food products that meet certain specifications. Shortages or interruptions in the supply of perishable food products may be caused by unanticipated demand, problems in production or distribution, acts of terrorism, financial or other difficulties of suppliers, disease or food-borne illnesses, inclement weather or other conditions. We purchase large quantities of food and supplies, which can be subject to significant price fluctuations due to seasonal shifts, climate conditions, industry demand, energy costs, changes in international commodity markets and other factors. These shortages or rapid price increases could adversely affect the availability, quality and cost of ingredients, which would likely lower revenues and reduce our profitability.

---

**Table of Contents**

**Failure to successfully implement our growth strategy could reduce, or reduce the growth of, our revenue and net income.**

We plan to continue to increase the number of Sonic Drive-Ins, but may not be able to achieve our growth objectives, and new drive-ins may not be profitable. The opening and success of drive-ins depend on various factors, including:

- competition from other restaurants in current and future markets;
- the degree of saturation in existing markets;
- consumer interest in and acceptance of the Sonic brand in existing and new markets;
- the identification and availability of suitable and economically viable locations;
- sales and profit levels at existing drive-ins;
- the negotiation of acceptable lease or purchase terms for new locations;
- permitting and regulatory compliance;
- the cost and availability of construction resources and financing;
- the ability to meet construction schedules;
- the availability of qualified franchisees and their financial and other development capabilities;
- the ability to hire and train qualified management personnel;
- sufficient marketing efforts;
- weather; and
- general economic and business conditions.

If we are unable to open as many new drive-ins as planned, if the drive-ins are less profitable than anticipated or if we are otherwise unable to successfully implement our growth strategy, revenue and profitability may grow more slowly or even decrease.

**Our outstanding and future leverage could have an effect on our operations.**

On May 20, 2011, the Company closed on a securitized financing facility comprised of a \$500 million fixed rate term loan and a \$100 million variable rate revolving credit facility. As of August 31, 2011, we had \$497 million in outstanding debt including accrued interest under the fixed rate notes at an interest rate of 5.4%. Our leverage could have the following consequences:

We may be more vulnerable in the event of deterioration in our business, in the restaurant industry or in the economy generally. In addition, we may be limited in our flexibility in planning for or reacting to changes in our business and the industry in which we operate.

From time to time, we may engage in various capital markets, bank credit and other financing activities to meet our cash requirements. We may have difficulty obtaining additional financing at economically acceptable interest rates.

Our existing and future debt obligations may contain certain covenants including limitations on liens, consolidations and mergers, indebtedness, asset dispositions, sale-leaseback transactions and transactions with affiliates, which may reduce our flexibility in responding to changing business and economic conditions. In addition, the breach of certain covenants may require us to dedicate a substantial portion of our cash flow to the payment of principal and interest on our indebtedness, which could reduce the amount of funds available for the operation or development of new Company Drive-Ins.

Our debt obligations are subject to customary rapid amortization events and events of default. Although management does not anticipate an event of default or any other event of noncompliance with the provisions of the notes, if such an event occurred, the unpaid amounts outstanding could become immediately due and payable.

**Sonic Drive-Ins are subject to health, employment, environmental and other government regulations, and failure to comply with existing or future government regulations could expose us to litigation, damage to our reputation and lower profits.**

Sonic and its franchisees are subject to various federal, state and local laws affecting their businesses. The successful development and operation of restaurants depends to a significant extent on the selection and acquisition of suitable sites, which are subject to zoning, land use (including the placement of drive-thru windows), environmental (including litter), traffic and other regulations. More stringent requirements of local and state governmental bodies with respect to zoning, land use and environmental factors could delay, prevent or make cost prohibitive the continuing operations of an existing restaurant or the development of new restaurants in particular

---

## **Table of Contents**

locations. Restaurant operations are also subject to licensing and regulation by state and local departments relating to health, food preparation, sanitation and safety standards, federal and state labor and immigration laws (including applicable minimum wage requirements, overtime, working and safety conditions and work authorization requirements), federal and state laws prohibiting discrimination and other laws regulating the design and operation of facilities, such as the Americans with Disabilities Act. If we fail to comply with any of these laws, we may be subject to governmental action or litigation, and our reputation could be accordingly harmed. Injury to our reputation would, in turn, likely reduce revenues and profits.

In recent years, there has been an increased legislative, regulatory and consumer focus on nutrition and advertising practices in the food industry, particularly among restaurants. As a result, we have and will become subject to regulatory initiatives in the area of nutritional content, disclosure and advertising, such as requirements to provide information about the nutritional content of our food products, which could increase expenses. The operation of our franchise system is also subject to franchise laws and regulations enacted by a number of states and rules promulgated by the U.S. Federal Trade Commission. Any future legislation regulating franchise relationships may negatively affect our operations, particularly our relationship with our franchisees. Failure to comply with new or existing franchise laws and regulations in any jurisdiction or to obtain required government approvals could result in a ban or temporary suspension on future franchise sales. Changes in applicable accounting rules imposed by governmental regulators or private governing bodies could also affect our reported results of operations.

We are subject to the Fair Labor Standards Act, which governs such matters as minimum wage, overtime and other working conditions, along with the Americans with Disabilities Act, various family leave mandates and a variety of other laws enacted, or rules and regulations promulgated, by federal, state and local governmental authorities that govern these and other employment matters. We have experienced and expect further increases in payroll expenses as a result of government-mandated increases in the minimum wage, and although such increases are not expected to be material, there may be material increases in the future. Enactment and enforcement of various federal, state and local laws, rules and regulations on immigration and labor organizations may adversely impact the availability and costs of labor for our restaurants in a particular area or across the United States. In addition, our vendors may be affected by higher minimum wage standards or availability of labor, which may increase the price of goods and services they supply to us.

We continue to monitor the health care reform law enacted by Congress in March of 2010. As part of that review, we are evaluating the potential impacts of this new law on our business, and accommodating various parts of the law as they take effect. There are no assurances that a combination of cost management and price increases can accommodate all of the costs associated with compliance.

### **Litigation from customers, franchisees, employees and others could harm our reputation and impact operating results.**

Claims of illness or injury relating to food content, food quality or food handling are common in the QSR industry. In addition, class action lawsuits have been filed, and may continue to be filed, against various QSRs alleging, among other things, that QSRs have failed to disclose the health risks associated with foods we serve and that QSR marketing practices have encouraged obesity and other health issues. In addition to decreasing our sales and profitability and diverting management resources, adverse publicity or a substantial judgment against us could negatively impact our reputation, hindering the ability to attract and retain qualified franchisees and grow the business.

Further, we may be subject to employee, franchisee and other claims in the future based on, among other things, discrimination, harassment, wrongful termination and wage, rest break and meal break issues, including those relating to overtime compensation.

### **We may not be able to adequately protect our intellectual property, which could decrease the value of our brand and products.**

The success of our business depends on the continued ability to use existing trademarks, service marks and other components of our brand in order to increase brand awareness and further develop branded products. All of the steps we have taken to protect our intellectual property may not be adequate.

---

**Table of Contents**

**Our reputation and business could be materially harmed as a result of data breaches.**

Unauthorized intrusion into portions of our computer systems or those of our franchisees that process and store information related to customer transactions may result in the theft of customer data. We rely on proprietary and commercially available systems, software, tools and monitoring to provide security for processing, transmission and storage of confidential customer information, such as payment card and personal information. Further, the systems currently used for transmission and approval of payment card transactions, and the technology utilized in payment cards themselves, all of which can put payment card data at risk, are determined and legally mandated by payment card industry standards, not by us. Improper activities by third-parties, advances in computer and software capabilities and encryption technology, new tools and discoveries and other events or developments may facilitate or result in a compromise or breach of our or our franchisees' computer systems. Any such compromises or breaches could cause interruptions in our operations and damage to our reputation, subject us to costs and liabilities and hurt sales, revenues and profits.

**Unreliable or inefficient drive-in technology and lack of support for drive-in technology could adversely impact operating results.**

We rely on proprietary and commercially available technologies at our drive-ins, including point-of-sale and payment card systems. These systems may be unreliable or inefficient, and the technology vendors may limit or terminate product support and maintenance, which could impact the reliability of critical systems supporting drive-in operations. Additionally, replacement parts and support and maintenance skills may become scarce, cost prohibitive or non-existent. Any such deficiencies could impact sales and profitability by disrupting our operations, damaging our reputation, or subjecting us to excessive costs and liabilities.

**Disruptions in the financial markets and poor economic conditions may adversely impact the availability and cost of credit and consumer spending patterns.**

The disruptions to the financial markets and continuing economic downturn have adversely impacted the availability and cost of credit which has negatively impacted consumer spending patterns. There can be no assurance that various governmental responses to the disruptions in the financial markets and economic conditions will restore consumer confidence, improve consumer spending, stabilize the markets or increase liquidity or the availability of credit.

**Ownership and leasing of significant amounts of real estate exposes us to possible liabilities and losses.**

We own or lease the land and building for all Company Drive-Ins. Accordingly, we are subject to all of the risks associated with owning and leasing real estate. In particular, the value of our assets could decrease and our costs could increase because of changes in the investment climate for real estate, demographic trends and supply or demand for the use of our drive-ins, which may result from competition from similar restaurants in the area, as well as liability for environmental conditions. We generally cannot cancel the leases, so if an existing or future Sonic Drive-In is not profitable, and we decide to close it, we may nonetheless be committed to perform our obligations under the applicable lease including, among other things, paying the base rent for the balance of the lease term. In addition, as each of the leases expires, we may fail to negotiate renewals, either on commercially acceptable terms or at all, which could cause us to close drive-ins in desirable locations.

**Catastrophic events may disrupt our business.**

Unforeseen events, or the prospect of such events, including war, terrorism and other international conflicts, public health issues including health epidemics or pandemics, and natural disasters such as hurricanes, earthquakes, or other adverse weather and climate conditions, whether occurring in the United States or abroad, could disrupt our operations, disrupt the operations of franchisees, suppliers or customers, or result in political or economic instability. These events could reduce demand for our products or make it difficult or impossible to receive products from suppliers.

**Item 1B. Unresolved Staff Comments**

None.

**Table of Contents****Item 2. Properties**

Of the 446 Company Drive-Ins operating as of August 31, 2011, we operated 199 of them on property leased from third-parties and 247 of them on property we own. The leases expire on dates ranging from 2012 to 2030, with the majority of the leases providing for renewal options. All leases provide for specified monthly rental payments, and some of the leases call for additional rentals based on sales volume. All leases require Sonic to maintain the property and pay the cost of insurance and taxes. We also own the real property on which 169 Franchise Drive-Ins are operated. These leases for Franchise Drive-Ins expire on dates ranging from 2012 to 2030, with the majority of the leases providing for renewal options. The majority of the leases for Franchise Drive-Ins provide for percentage rent based on sales volume, with a minimum base rent. These leases generally require the franchisee to maintain the property and pay the costs of insurance and taxes.

Our corporate headquarters is located in Oklahoma City. We have a 15-year lease to occupy approximately 83,000 square feet. The lease expires in November 2018 and has two five-year renewal options. Sonic believes its properties are suitable for the purposes for which they are being used.

**Item 3. Legal Proceedings**

The Company is involved in various legal proceedings and has certain unresolved claims pending. Based on the information currently available, management believes that all claims currently pending are either covered by insurance or would not have a material adverse effect on the Company's business or financial condition.

**Item 4. (Removed and Reserved)****Item 4A. Executive Officers of the Company****Identification of Executive Officers**

The following table identifies the executive officers of the Company:

<b>Name</b>	<b>Age</b>	<b>Position</b>	<b>Executive Officer Since</b>
J. Clifford Hudson	56	Chairman of the Board of Directors and Chief Executive Officer	June 1985
W. Scott McLain	49	President of Sonic Corp. and President of Sonic Industries Services Inc.	April 1996
Stephen C. Vaughan	45	Executive Vice President and Chief Financial Officer	January 1996
Omar Janjua	53	President of Sonic Restaurants, Inc. and Executive Vice President of Operations of Sonic Industries Services Inc.	October 2009
Craig J. Miller	50	Senior Vice President and Chief Information Officer of Sonic Industries Services Inc.	October 2011
Danielle M. Vona	43	Vice President and Chief Marketing Officer	August 2010
Paige S. Bass	42	Vice President, General Counsel and Assistant Corporate Secretary	January 2007
Carolyn C. Cummins	53	Vice President of Compliance and Corporate Secretary	April 2004
Terry D. Harryman	46	Vice President and Controller	January 1999

Edgar Filing: SONIC CORP - Form 10-K

Claudia San Pedro

42 Vice President of Investor Relations and Treasurer

January 2007

## **Table of Contents**

### **Business Experience**

The following sets forth the business experience of the executive officers of the Company for at least the past five years:

J. Clifford Hudson has served as the Company's Chairman of the Board since January 2000 and Chief Executive Officer since April 1995. Mr. Hudson served as President of the Company from April 1995 to January 2000 and reassumed that position from November 2004 until May 2008. He has served in various other offices with the Company since 1984. Mr. Hudson has served as a Director of the Company since 1993. Mr. Hudson has served on the Board of Trustees of the Ford Foundation since January 2006 and on the Board of Trustees of the National Trust for Historic Preservation since January 2001, where he now serves as Chairman of the Board.

W. Scott McLain has served as President of the Company since May 2008. He also has served as President of Sonic Industries Services Inc. since September 2004. He served as Executive Vice President of the Company from November 2004 until May 2008. He served as the Company's Executive Vice President and Chief Financial Officer from January 2004 until November 2004 and as the Company's Senior Vice President and Chief Financial Officer from January 2000 until January 2004. Mr. McLain joined the Company in 1996.

Stephen C. Vaughan has served as Executive Vice President of the Company and Chief Financial Officer since August 2008 and was the Company's Vice President and Chief Financial Officer from November 2004 until August 2008. Mr. Vaughan also served as Treasurer of the Company from November 2001 until April 2005. He joined the Company in 1992.

Omar Janjua has served as President of Sonic Restaurants, Inc. since September 2009 and Executive Vice President of Operations of Sonic Industries Services Inc. since September 2010. He served as Executive Vice President and Chief Operating Officer for The Steak n Shake Company from June 2007 to September 2009. Prior to joining Steak n Shake, Mr. Janjua worked for 18 years with Yum Brands, Inc. in its Pizza Hut operations in various positions of increasing responsibility, the most recent of which was Vice President of Company Operations.

Craig J. Miller has served as Senior Vice President and Chief Information Officer of Sonic Industries Services Inc. since January 2010. He served as the Executive Vice President and Chief Information Officer for Movie Gallery, Inc., also known as Hollywood Video, from September 2008 until September 2009. In February 2010, Movie Gallery, Inc. filed a voluntary petition for relief under Chapter 11 of the United States Bankruptcy Code. Mr. Miller was Senior Vice President of Shared Information Services for Bank of America from February 2005 until July 2008.

Danielle M. Vona has served as Vice President and Chief Marketing Officer of the Company since August 2010. From May of 1999 until joining Sonic in 2010, she held various management positions with PepsiCo/Pepsi-Cola North America, the most recent of which was Vice President of Propel Brand Marketing from June 2008 until July 2010.

Paige S. Bass has served as Vice President and General Counsel of the Company since January 2007 and has also served as Assistant Corporate Secretary since October 2008. Ms. Bass joined the Company as Associate General Counsel in April 2004. Prior to joining the Company, Ms. Bass was employed seven years as an associate with the law firm of Crowe & Dunlevy in Oklahoma City, Oklahoma.

Carolyn C. Cummins has served as the Company's Corporate Secretary since January 2007 and as the Company's Vice President of Compliance since April 2004. Ms. Cummins joined the Company as Assistant General Counsel in January 1999.

Terry D. Harryman has served as Vice President of the Company since January 2008 and as the Company's Controller since January 1999. Mr. Harryman has also served as the Controller of Sonic Restaurants, Inc. and Sonic Industries Services Inc. since January 2002. Mr. Harryman joined the Company in 1996.

Claudia San Pedro has served as Vice President of Investor Relations of the Company since July 2010. She served as Vice President of Investor Relations and Brand Strategies from October 2009 until July 2010. Ms. San Pedro has also served as Treasurer of the Company since January 2007 and as Treasurer of Sonic Industries Services

**Table of Contents**

Inc. and Sonic Restaurants, Inc. since November 2006. She served as the Director of the Oklahoma Office of State Finance from June 2005 through November 2006. From July 2003 to May 2005, Ms. San Pedro served as the Budget Division Director for the Office of State Finance.

**PART II****Item 5. Market for the Company's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities****Market Information**

The Company's common stock trades on the Nasdaq National Market ( Nasdaq ) under the symbol SONC. The following table sets forth the high and low sales price for the Company's common stock during each fiscal quarter within the two most recent fiscal years as reported on Nasdaq.

Fiscal Year Ended			Fiscal Year Ended		
August 31, 2011	High	Low	August 31, 2010	High	Low
First Quarter	\$9.82	\$ 7.30	First Quarter	\$ 12.63	\$ 9.05
Second Quarter	\$ 11.53	\$ 8.71	Second Quarter	\$ 10.68	\$ 8.07
Third Quarter	\$ 11.86	\$ 8.50	Third Quarter	\$ 13.11	\$ 8.29
Fourth Quarter	\$ 11.45	\$ 8.19	Fourth Quarter	\$ 10.52	\$ 7.28

**Stockholders**

As of October 14, 2011, the Company had 707 record holders of its common stock.

**Dividends**

The Company did not pay any cash dividends on its common stock during its two most recent fiscal years and does not intend to pay any dividends in the foreseeable future as profits are reinvested in the Company to fund expansion of its business, payments under the Company's financing arrangements and other stockholder value-enhancing initiatives. As in the past, future payment of dividends will be considered after reviewing, among other factors, returns to stockholders, profitability expectations and financing needs.

**Issuer Purchases of Equity Securities**

None.

**Item 6. Selected Financial Data**

The following table sets forth selected financial data regarding the Company's financial condition and operating results. One should read the following information in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations, below, and the Company's Consolidated Financial Statements included elsewhere in this report.

---

## **Table of Contents**

### **Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations**

#### **Overview**

*Description of the Business.* Sonic operates and franchises the largest chain of drive-in restaurants in the United States. As of August 31, 2011, the Sonic system was comprised of 3,561 drive-ins, of which 13% were Company Drive-Ins and 87% were Franchise Drive-Ins. Sonic Drive-Ins feature signature menu items such as specialty drinks including cherry limeades and slushes, ice cream desserts, made-to-order sandwiches and hamburgers, six-inch premium beef hot dogs, footlong quarter pound chili cheese coneys, hand-battered onion rings, tater tots, and a unique breakfast menu. We derive our revenues primarily from Company Drive-In sales and royalties from franchisees. We also receive revenues from leasing real estate to franchisees, initial franchise fees, earnings from minority investments in franchise operations and other miscellaneous revenues.

Costs of Company Drive-In sales relate directly to Company Drive-In sales. Other expenses, such as depreciation, amortization, and general and administrative expenses, relate to our franchising operations, as well as Company Drive-In operations. Our revenues and expenses are directly affected by the number and sales volumes of Company Drive-Ins. Our revenues and, to a lesser extent, expenses also are affected by the number and sales volumes of Franchise Drive-Ins. Initial franchise fees and franchise royalties are directly affected by the number of Franchise Drive-In openings. Lease revenues are generated by leasing of land and buildings for Company Drive-Ins that have been sold to franchisees.

*Overview of Business Performance.* Sales momentum for fiscal year 2011 showed improvement, highlighted by positive same-store sales, particularly during the third fiscal quarter. System-wide same-store sales increased 0.5% during fiscal year 2011 as compared to a decline of 7.8% for fiscal year 2010. Same-store sales at Company Drive-Ins increased by 1.8% during fiscal year 2011 as compared to a decline of 8.8% for fiscal year 2010. We believe these results reflect the positive impact of the initiatives implemented in fiscal year 2010, including product quality improvements made over the past two years and a greater emphasis on personalized service with skating carhops. We also believe these results reflect a slightly improving economy. Positive system-wide same-store sales drive other aspects of our multi-layered growth strategy, such as our ascending royalty rate and increased operating cash flows. Net income and diluted earnings per share for fiscal year 2011 were \$19.2 million and \$0.31, respectively, as compared to net income of \$21.2 million or \$0.34 per diluted share for fiscal year 2010. Excluding an after-tax net loss of \$14.4 million from the early extinguishment of debt during fiscal year 2011 and a \$1.1 million tax benefit recognized during the first quarter of fiscal year 2011, net income and diluted earnings per share for fiscal year 2011 were \$32.6 million and \$0.53, respectively.

Franchisees opened 40 new drive-ins and relocated or rebuilt 11 existing drive-ins during the fiscal year. While the number of new drive-in openings in fiscal year 2011 was down compared to the prior year, investments by franchisees in new and existing locations continued throughout the year. We also continued our expansion in several new markets.

The growth and success of our business is built around implementation of our brand strategy, which features the following components:

- Improved performance of Company Drive-Ins, including consistent and improved operations execution, improved speed of service, cleanliness of drive-ins, and focus on the customer experience; and
- Same-store sales growth fueled by re-emphasizing our core brand strengths, including high-quality products, new products and service differentiation with skating carhops.

The following non-GAAP adjustments are intended to supplement the presentation of the Company's financial results in accordance with GAAP. We believe the exclusion of these items in evaluating the change in net income and diluted earnings per share for the periods below provides useful information to investors and management regarding the underlying business trends and the performance of our ongoing operations and is helpful for period-to-period and company-to-company comparisons, which management believes will assist investors in analyzing the financial results for the Company and predicting future performance.

**Table of Contents**

	Fiscal Year Ended August 31, 2011		Fiscal Year Ended August 31, 2010	
	Net Income	Diluted EPS	Net Income	Diluted EPS
Reported GAAP	\$ 19,225	\$ 0.31	\$ 21,209	\$ 0.34
After-tax net loss from early extinguishment of debt	14,439	0.24	202	--
Tax benefit from favorable tax settlement	(1,073)	(0.02)	--	--
Refranchising loss	--	--	492	0.01
Impairment provision	--	--	9,776	0.16
Tax benefit of stock option exchange program	--	--	(1,751)	(0.03)
<b>Adjusted - Non-GAAP</b>	<b>\$ 32,591</b>	<b>\$ 0.53</b>	<b>\$ 29,928</b>	<b>\$ 0.48</b>

The following table provides information regarding the number of Company Drive-Ins and Franchise Drive-Ins operating as of the end of the years indicated as well as the system-wide change in sales and average unit volume. System-wide information includes both Company Drive-In and Franchise Drive-In information, which we believe is useful in analyzing the growth of the brand as well as the Company's revenues, since franchisees pay royalties based on a percentage of sales.

(1) Drive-ins that are temporarily closed for various reasons (repairs, remodeling, relocations, etc.) are not considered closed unless the Company determines that they are unlikely to reopen within a reasonable time.

(2) Represents percentage change for drive-ins open for a minimum of 15 months.

System-wide same-store sales continued to improve during fiscal year 2011 which we believe is largely attributable to the ongoing positive impact of our strategic initiatives as well as a slightly improving economy. We implemented a number of initiatives throughout fiscal year 2010 designed to provide a unique and high quality customer service experience with the goal of improving same-store sales by driving both traffic and average check. These initiatives include focusing on customer service and improving the quality of our differentiated food and drink products. System-wide same-store sales increased 0.5% during fiscal year 2011, an improving trend as compared to a decrease of 7.8% for fiscal year 2010.

During fiscal year 2011, our system-wide media expenditures were approximately \$170 million as compared to \$167 million in fiscal year 2010. We use varying forms of local advertising mediums, such as television, outdoor billboards, radio, online and print to optimize media impressions in drive-in trade areas. We also continue to invest in system-wide marketing fund efforts, which are largely used for national cable television advertising. Expenditures for national media advertising represented 32% of system-wide media expenditures during fiscal year 2011, down

## Edgar Filing: SONIC CORP - Form 10-K

from 43% in 2010. For fiscal year 2012, we expect system-wide media expenditures to be approximately \$170 million to \$175 million with expenditures for national media advertising representing approximately 45% of that amount.

Total at end of period	446	455	475
Average sales per Company Drive-In	\$ 920	\$ 893	\$ 954
Percentage increase (decrease)	3.0%	(6.4%)	(5.3%)
Change in same-store sales <sup>(2)</sup>	1.8%	(8.8%)	(6.4%)

(1) Drive-ins that are temporarily closed for various reasons (repairs, remodeling, relocations, etc.) are not considered closed unless the Company determines that they are unlikely to reopen within a reasonable time.

(2) Represents percentage change for drive-ins open for a minimum of 15 months.

Same-store sales for Company Drive-Ins increased 1.8% for fiscal year 2011, as compared to a decline of 8.8% for fiscal year 2010, which represents an improving trend that we attribute to the initiatives we have implemented and a slightly improving economy. In addition to the implementation of system-wide initiatives in fiscal year 2010, we have implemented a number of initiatives at Company Drive-Ins which have contributed to their improved performance. These initiatives included restructuring management of our Company Drive-In operations to reduce excess management layers, revising the compensation program at the drive-in level, and implementing a customer service initiative to improve sales and profits. These efforts were focused on narrowing the average unit volume gap with Franchise Drive-Ins and improving restaurant-level margins. Company Drive-In sales decreased \$3.5 million, or 0.9%, during fiscal year 2011 as compared 2010. An improvement in same-store sales and, to a lesser extent, new drive-in openings during fiscal year 2011 resulted in an \$8.1 million increase in sales which was more than offset by a \$7.2 million decrease in sales caused by the refranchising of 16 Company Drive-Ins in the second quarter of fiscal year 2010 and six drive-ins in fiscal year 2011 as well as a \$4.4 million decrease related to drive-ins that were closed during or subsequent to fiscal year 2010.

For fiscal year 2010, Company Drive-In sales decreased \$153.1 million, which was largely driven by 245 drive-ins that were refranchised or closed since the beginning of fiscal year 2009 and the decline in same-store sales for existing drive-ins. Of the \$153.1 million decrease, \$121.3 million related to drive-ins that were refranchised or closed and \$36.7 million related to same-store sales decreases for existing drive-ins driven by the impact of severe winter weather as well as a reduction of consumer spending at restaurants. These decreases were partially offset by a \$4.9 million increase in sales from drive-ins opened during the period.

The following table reflects the change in franchising revenues (franchise royalties, franchise fees and lease revenues) as well as franchise sales, average unit volumes and the number of Franchise Drive-Ins. While we do not record Franchise Drive-In sales as revenues, we believe this information is important in understanding our financial performance since these sales are the basis on which we calculate and record franchise royalties. This information is also indicative of the financial health of our franchisees.

(1) Consists of revenues derived from franchising activities, including royalties, franchise fees and lease revenues. See *Revenue Recognition Related to Franchise Fees and Royalties* in the *Critical Accounting Policies and Estimates* section of Management's Discussion and Analysis of Financial Condition and Results of Operations.

(2) Drive-ins that are temporarily closed for various reasons (repairs, remodeling, relocations, etc.) are not considered closed unless the Company determines that they are unlikely to reopen within a reasonable time.

(3) Represents percentage change for drive-ins open for a minimum of 15 months.

Same-store sales for Franchise Drive-Ins increased 0.4% for fiscal year 2011 as compared to a decline of 7.6% for the same period last year, which represents an improving trend that we attribute to the initiatives we have implemented and a slightly improving economy.

Franchise royalties increased \$1.7 million for fiscal year 2011, which was primarily driven by an increase in same-store sales combined with incremental royalties from newly constructed and refranchised drive-ins. The lower effective royalty rate for fiscal year 2011 was attributable to various royalty incentive programs. Franchise royalties declined \$4.3 million or 3.4% in fiscal year 2010 as compared to fiscal year 2009. Same-store sales decreases combined with a lower effective royalty rate in 2010 resulted in a decrease in royalties of \$11.5 million, which was partially offset by \$7.2 million in incremental royalties from newly constructed and refranchised drive-ins.

Franchise fees declined \$1.0 million to \$1.7 million in fiscal year 2011, which was primarily related to franchisees opening fewer drive-ins during the year as a result of the prior softer sales environment. Franchisees opened 40 new drive-ins during fiscal year 2011, down from 80 in the prior year. Franchisee investment in existing drive-ins continued during fiscal year 2011, and included the relocation or rebuild of 11 drive-ins (versus 23 in the prior year). Franchise fees declined \$2.3 million to \$2.8 million in fiscal year 2010 as franchisees opened 80 new drive-ins, down from 130 new drive-ins in fiscal year 2009. The decrease is primarily comprised of \$1.8 million attributable to fewer new drive-in openings in fiscal 2010, as well as \$0.7 million in reduced fees associated with incentives for the development of new Sonic Drive-Ins.

Other income decreased \$1.3 million, or 28.7%, to \$3.2 million in fiscal year 2011 from \$4.5 million in fiscal year 2010 primarily due to a decrease in minority income from investments in franchise operations.

**Table of Contents**

*Operating Expenses.* The following table presents the overall costs of drive-in operations as a percentage of Company Drive-In sales. Other operating expenses include direct operating costs such as marketing, telephone and utilities, repair and maintenance, rent, property tax and other controllable expenses. Noncontrolling interests of Company Drive-Ins are no longer included as part of cost of sales in the Consolidated Statements of Income. We have included noncontrolling interests for comparative purposes in the table below because we believe it is helpful in understanding the impact our new compensation program, which was implemented in the third quarter of fiscal year 2010, had on Company Drive-In margins.

**Company Drive-In Margins**

Cost of sales, as reported	85.6%	81.9%	3.7
Noncontrolling interests	1.1%	2.7%	(1.6)
Pro forma cost of sales, including noncontrolling interests	86.7%	84.6%	2.1

(1) Calculated as a percentage of Company Drive-In Sales.

Operating costs for Company Drive-Ins remained flat in fiscal year 2011 as compared to the same period last year. Food and packaging cost increases during fiscal year 2011 were driven by investments in product quality improvements and higher commodity costs. Payroll and other

## Edgar Filing: SONIC CORP - Form 10-K

employee benefit costs increased as a result of increased compensation costs associated with our new compensation program at the Company Drive-In level which was effective April 1, 2010. As a result of our new compensation program introduced as an alternative to our traditional ownership program, compensation costs that were formerly reflected as noncontrolling interests are now included in payroll and other employee benefits. The new compensation program provides managers and supervisors a larger portion of guaranteed base compensation but retains a significant incentive component based on drive-in level performance. Other operating expenses decreased, as a percentage of sales, attributable to leverage from positive same-store sales. The increase in operating costs in fiscal year 2010 as compared to fiscal year 2009 was a result of high labor costs driven by minimum wage increases and the de-leveraging impact of lower same-store sales.

Selling, General and Administrative ( SG&A ). SG&A expenses decreased 2.8% to \$64.9 million during fiscal year 2011 and increased 5.5% to \$66.8 million during fiscal year 2010. The decrease in SG&A expense for

---

## Table of Contents

fiscal year 2011 was largely attributable to a decline in stock compensation expense resulting from a revision in our long-term compensation strategy as well as to declines in bad debt expense, which was primarily related to our provision for bad debt in the prior year and which has moderated in fiscal year 2011 due to an improvement in sales trends. The increase in SG&A expense for fiscal year 2010 was primarily attributable to \$2.9 million in provision for bad debt expenses, as well as professional fees associated with financial restructuring services for franchisees.

Depreciation and Amortization. Depreciation and amortization expense decreased 3.3% to \$41.2 million in fiscal year 2011 and decreased 11.3% to \$42.6 million in fiscal year 2010. The decrease in depreciation and amortization expense for fiscal year 2011 was primarily attributable to the provision for impairment of long-lived assets recorded in the fourth quarter of fiscal 2010 and, to a lesser extent, a result of refranchising 16 Company Drive-Ins in fiscal year 2010. The decrease in depreciation and amortization expense for fiscal year 2010 was largely attributable to the refranchising of 205 Company Drive-Ins in fiscal year 2009. Capital expenditures during fiscal year 2011 were \$21.2 million. For fiscal year 2012, capital expenditures are expected to be approximately \$25 to \$30 million.

Provision for Impairment of Long-Lived Assets. Provision for impairment of long-lived assets decreased \$14.3 million for fiscal year 2011. This decrease was primarily the result of the \$15.2 million non-cash impairment of long-lived assets we recorded in fiscal year 2010, to reduce the carrying cost of the related operating assets to an estimated fair value. The provision for impairment increase from \$11.2 million in fiscal year 2009 to \$15.2 million in fiscal year 2010 primarily related to lower sales and profits for Company Drive-Ins resulting from the sustained economic downturn and weak results during the summer months for operating stores. Assets impaired included operating drive-ins, property leased to franchisees, surplus property and other assets.

The decision whether to close or continue to operate a drive-in is made independently of the impairment process. We continue to perform quarterly analyses of certain underperforming drive-ins. It is reasonably possible that the estimate of future cash flows associated with these drive-ins could change in the future resulting in the need to write down to fair value assets associated with one or more of these drive-ins.

Net Interest Expense. The increase in net interest expense for fiscal year 2011 is primarily the result of a \$28.2 million loss from the early extinguishment of debt related to the refinancing of our previously outstanding debt in May 2011. In addition, net interest expense for fiscal year 2011 includes a \$5.2 million gain from the early extinguishment of debt that resulted from purchasing a portion of our Series 2006-1 Senior Secured Variable Funding Notes, Class A-1 (the 2006 Variable Funding Notes ) at a discount in the second quarter of fiscal year 2011. Excluding the early extinguishments of debt, net interest expense decreased \$3.9 million for fiscal year 2011 from 2010, primarily attributable to lower levels of borrowings stemming from \$120.4 million in debt buy-backs of our 2006 Variable Funding Notes and Series 2006-1 Senior Secured Fixed Rate Notes, Class A-2 (the 2006 Fixed Rate Notes and, together with the 2006 Variable Funding Notes, the 2006 Notes ) and scheduled principal payments of \$45.4 million since fiscal year 2010. See Liquidity and Sources of Capital and Item 7A. Quantitative and Qualitative Disclosures About Market Risk below for additional information on our May 2011 refinancing and factors that could impact interest expense.

Income Taxes. The provision for income taxes, excluding income attributable to noncontrolling interests, reflects an effective tax rate of 32.3% for fiscal year 2011 compared with 29.7% for fiscal year 2010. The increase for fiscal year 2011 was primarily attributable to a \$1.8 million tax benefit associated with the stock option exchange program that was implemented during the third quarter of fiscal year 2010, partially offset by a \$1.1 million decrease in our liability for unrecognized tax benefits resulting from the settlement of state tax audits during the first quarter of fiscal year 2011. The provision for income taxes, excluding income attributable to noncontrolling interests, reflects an effective tax rate of 38.4% for fiscal year 2009. The decline in the tax rate for fiscal year 2010 as compared to 2009 was primarily related to the \$1.8 million tax benefit recognized in 2010 discussed earlier. Our tax rate may continue to vary significantly from quarter to quarter depending on the timing of option exercises and dispositions by option-holders, changes to uncertain tax positions and as circumstances on individual tax matters change.

## Table of Contents

**Net Income - Noncontrolling Interests.** As a result of the change to a new compensation program for Company Drive-Ins, compensation costs that were formerly reflected as noncontrolling interests relating to store-level managers are now included in payroll and other employee benefits. Primarily due to this change, net income - noncontrolling interests decreased 79.6% to \$0.9 million in fiscal year 2011 and decreased 69.8% to \$4.6 million for fiscal year 2010.

### **Financial Position**

Total assets decreased \$57.6 million, or 7.8%, to \$679.7 million during fiscal year 2011 from \$737.3 million at the end of fiscal year 2010. This decrease was primarily attributable to a \$56.2 million decrease in current restricted and unrestricted cash resulting from scheduled principal payments on our debt in addition to the repurchase of a portion of our 2006 Variable Funding Notes in December 2010. Additionally, net property, equipment and capital leases decreased by \$24.4 million resulting primarily from depreciation during the year. These decreases were offset by a \$12.8 million increase in our income tax receivable and a \$9.6 million net increase in debt origination costs related to our May 2011 refinancing. The income tax receivable at August 31, 2011 consists of \$10.1 million for prior-year deductions to be claimed on amended returns and \$2.7 million of current-year overpayments.

Total liabilities decreased \$86.8 million, or 12.2%, to \$627.9 million during fiscal year 2011 from \$714.8 million at the end of fiscal year 2010. This decrease was primarily the result of the repurchase of our 2006 Variable Funding Notes discussed above and scheduled principal repayments of \$45.4 million during fiscal year 2011.

Total stockholders' equity increased \$29.3 million, or 129.7%, to \$51.8 million during fiscal year 2011 from \$22.6 million at the end of fiscal year 2010. The increase was largely attributable to current year earnings of \$19.2 million and a \$5.6 million increase in paid-in capital relating to stock-based compensation.

### **Liquidity and Sources of Capital**

**Operating Cash Flows.** Net cash provided by operating activities increased \$6.5 million to \$84.1 million for fiscal year 2011 as compared to \$77.6 million in fiscal year 2010. This increase primarily relates to an improvement in same-store sales and a reduction in income tax payments during fiscal year 2011 as compared to the same period in the prior year. These increases were partially offset by changes in restricted cash.

**Investing Cash Flows.** Cash used in investing activities increased \$6.7 million to \$16.1 million for fiscal year 2011 as compared to \$9.4 million in fiscal year 2010. The increase in cash used in investing activities during fiscal year 2011 primarily relates to a \$8.9 million decrease of proceeds from the disposition of assets that were sold in fiscal year 2009 and became unrestricted in the first quarter of fiscal year 2010, partially offset by a \$3.3 million decrease in purchases of property and equipment. The following table sets forth the components of our investments in capital additions for fiscal year 2011 (in millions):

Replacement equipment and technology for existing drive-ins and other	\$ 7.9
Corporate technology investments	6.0
Rebuilds, relocations and remodels of existing drive-ins	3.5
New Company Drive-Ins, including drive-ins under construction	3.1
Retrofits, drive-thru additions and LED signs in existing drive-ins	0.7
Total investing cash flows for capital additions	\$ 21.2

**Financing Cash Flows.** Net cash used in financing activities increased \$4.8 million to \$124.6 million for fiscal year 2011 as compared to \$119.8 million in fiscal year 2010. During the third quarter of fiscal year 2011 we refinanced our previously outstanding debt as described below, which was the primary reason for the increase. The overall increase in cash used in financing activities was partially offset by a decrease in restricted cash related to our new debt obligations and purchases of noncontrolling interests as our new compensation program was completed April 1, 2010.

On May 20, 2011, various subsidiaries of ours (the "Co-Issuers") issued \$500 million of Series 2011-1 Senior Secured Fixed Rate Notes, Class A-2 (the "2011 Fixed Rate Notes") in a private transaction which bears interest at 5.4% per annum. The 2011 Fixed Rate Notes have an expected life of seven years with an anticipated repayment date in May 2018 based on the terms of the debt agreement. At August 31, 2011, the balance outstanding

---

**Table of Contents**

under the 2011 Fixed Rate Notes including accrued interest totaled \$497.0 million and carried a weighted-average interest cost of 5.8%, including the effect of the loan origination costs described below.

In connection with the issuance of the 2011 Fixed Rate Notes, the Co-Issuers also entered into a securitized financing facility of Series 2011-1 Senior Secured Variable Funding Notes, Class A-1 (the "2011 Variable Funding Notes"). This revolving credit facility allows for the issuance of up to \$100 million of 2011 Variable Funding Notes and certain other credit instruments, including letters of credit. The 2011 Variable Funding Notes have an expected life of five years with an anticipated repayment date in May 2016 based on the terms of the debt agreement. Interest on the 2011 Variable Funding Notes is payable monthly at rates equal to the one-month London Interbank Offered Rate or Commercial Paper, depending on the funding source, plus 3.75% per annum. There is a 0.5% annual commitment fee payable monthly on the unused portion of the 2011 Variable Funding Notes facility. We borrowed \$35 million under the 2011 Variable Funding Notes facility at closing and have the ability to draw additional amounts under the facility from time to time as needed. In June 2011, we repaid the outstanding balance under our 2011 Variable Funding Notes.

We used the \$535 million of net proceeds from the issuance of the 2011 Fixed Rate Notes and 2011 Variable Funding Notes (collectively, the 2011 Notes ) to repay our existing 2006 Notes in full and to pay the costs associated with the securitized financing transaction, including the existing noteholder and insurer make-whole premiums.

Loan origination costs associated with our 2011 refinancing totaled \$16.4 million and were allocated between the 2011 Notes. Loan costs are being amortized over each note's expected life. The amount of loan costs expected to be amortized over the next twelve months is reflected in other current assets on the Consolidated Balance Sheets.

While the 2011 Fixed Rate Notes and the 2011 Variable Funding Notes are structured to provide for seven-year and five-year lives, respectively, they have a legal final maturity date of May 2041. We intend to repay or refinance the 2011 Notes on or before the end of their respective expected lives. In the event the 2011 Notes are not paid in full by the end of their expected lives, the Notes are subject to an upward adjustment in the interest rate of at least 5% per annum. In addition, principal payments will accelerate by applying all of the royalties, lease revenues and other fees securing the debt, after deducting certain expenses, until the debt is paid in full. Also, any unfunded amount under the 2011 Variable Funding Notes will become unavailable.

We anticipate fiscal year 2012 interest expense on our 2011 Fixed Rate Notes, including the amortization of loan origination costs, to be approximately \$32 million annually, as a result of our refinancing and are scheduled to make principal payments on our 2011 Fixed Rate Notes of approximately \$15 million during fiscal year 2012. Mandatory principal payments of \$15 million annually under the new financing versus mandatory principal payments paid in fiscal year 2011 of \$45.4 million will significantly increase the amount of our available free cash flow. For additional information on our May 2011 refinancing, see note 10 Debt, included in Part II, Item 8, Financial Statements and Supplementary Data in this Annual Report on Form 10-K.

Prior to the refinancing, during the second quarter of fiscal year 2011, we repurchased \$62.5 million of our 2006 Variable Funding Notes in a privately negotiated transaction. We recognized a gain of \$5.2 million on the extinguishment of these notes during the second fiscal quarter of 2011.

The 2011 Notes are subject to a series of covenants and restrictions customary for transactions of this type, including (i) required actions to better secure collateral upon the occurrence of certain performance-related events, (ii) application of certain disposition proceeds as note prepayments after a set time is allowed for reinvestment, (iii) maintenance of specified reserve accounts, (iv) maintenance of certain debt service coverage ratios, (v) optional and mandatory prepayments upon change in control, (vi) indemnification payments for defective or ineffective collateral, and (vii) covenants relating to recordkeeping, access to information and similar matters. If certain covenants or restrictions are not met, the 2011 Notes are subject to customary accelerated repayment events and events of default. Although management does not anticipate an event of default or any other event of noncompliance with the provisions of the debt, if such event occurred, the unpaid amounts outstanding could become immediately due and payable.

## Table of Contents

We plan capital expenditures of approximately \$25 to \$30 million in fiscal year 2012. These capital expenditures primarily relate to drive-in level expenditures, technology infrastructure expenditures and the development of additional Company Drive-Ins. We expect to fund these capital expenditures through cash flow from operations as well as cash on hand.

As of August 31, 2011, our total cash balance of \$50.5 million (\$29.5 million of unrestricted and \$21.0 million of restricted cash balances) reflected the impact of the cash generated from operating activities, borrowing activity, refranchising and capital expenditures mentioned above. In addition, we expect refunds from amended tax returns and current-year overpayments totaling approximately \$12.8 million to be received or applied to other tax obligations during fiscal year 2012. We believe that existing cash, funds generated from operations and the undrawn availability of \$100 million under our 2011 Variable Funding Notes will meet our needs for the foreseeable future.

On October 13, 2011, subsequent to the end of our 2011 fiscal year, our Board of Directors approved a stock repurchase program. Under the stock repurchase program, we are authorized to purchase up to \$30 million of our outstanding shares of common stock through August 31, 2012. The purchases may be made from time to time on the open market or in negotiated transactions, depending on share price, market conditions and other factors. The stock repurchase program may be extended, modified, suspended or discontinued at any time. We plan to fund the stock repurchase program from existing cash on hand at August 31, 2011 and cash flows from operations.

### **Off-Balance Sheet Arrangements**

The Company has obligations for guarantees on certain franchisee loans, which in the aggregate are immaterial, and obligations for guarantees on certain franchisee lease agreements. Other than such guarantees and various operating leases and purchase obligations, which are disclosed below in Contractual Obligations and Commitments and in note 7 - Leases and note 17 - Commitments and Contingencies to our Consolidated Financial Statements, the Company has no other material off-balance sheet arrangements.

### **Contractual Obligations and Commitments**

In the normal course of business, Sonic enters into purchase contracts, lease agreements and borrowing arrangements. The following table presents our commitments and obligations as of August 31, 2011 (in thousands):

	Total	Less than 1 Year (2012)	Payments Due by Fiscal Year		More than 5 Years (2017 and thereafter)
			1 3 Years (2013 to 2014)	3 5 Years (2015 to 2016)	
<b>Contractual Obligations</b>					
Long-term debt <sup>(1)</sup>	\$ 660,167	\$ 41,813	\$ 81,290	\$ 77,553	\$ 459,511
Capital leases	45,138	5,992	11,466	10,354	17,326
Operating leases	173,231	12,325	23,892	22,773	114,241
Purchase obligations <sup>(2)</sup>	104,951	26,984	52,380	25,587	
Other <sup>(3)</sup>	16,022				
<b>Total</b>	<b>\$ 999,509</b>	<b>\$ 87,114</b>	<b>\$ 169,028</b>	<b>\$ 136,267</b>	<b>\$ 591,078</b>

- (1) Includes scheduled principal and interest payments on our 2011 Fixed Rate Notes and assumes these notes will be outstanding for the expected seven-year life with an anticipated repayment date in May 2018.
- (2) Includes the Company's estimated share of system-wide commitments to purchase food products. We have excluded agreements that are cancelable without penalty. These amounts require estimates and could vary due to the timing of volumes and changes in market pricing.
- (3) Includes \$4.8 million of unrecognized tax benefits related to uncertain tax positions and \$11.2 million related to guarantees of franchisee leases and loan agreements. As we are not able to reasonably estimate the timing or amount of these payments, if any, the related balances have not been reflected in the Payments Due by Fiscal Year section of the table.

### **Impact of Inflation**

We are impacted by inflation which has caused increases in our food, labor and benefits costs and has

---

## **Table of Contents**

increased our operating expenses. To the extent permitted by competition, increased costs are recovered through a combination of menu price increases and reviewing, then implementing, alternative products or processes, or by implementing other cost reduction procedures.

### **Critical Accounting Policies and Estimates**

The Consolidated Financial Statements and Notes to Consolidated Financial Statements included in this document contain information that is pertinent to management's discussion and analysis. The preparation of financial statements in conformity with generally accepted accounting principles requires management to use its judgment to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities. These assumptions and estimates could have a material effect on our financial statements. We evaluate our assumptions and estimates on an ongoing basis using historical experience and various other factors that are believed to be relevant under the circumstances. Actual results may differ from these estimates under different assumptions or conditions.

We perform an annual review our financial reporting and disclosure practices and accounting policies to ensure that our financial reporting and disclosures provide accurate and transparent information relative to the current economic and business environment. We believe the following significant accounting policies and estimates involve a high degree of risk, judgment and/or complexity.

*Impairment of Long-Lived Assets.* We review Company Drive-In assets for impairment when events or circumstances indicate they might be impaired. We test for impairment using historical cash flows and other relevant facts and circumstances as the primary basis for our estimates of future cash flows. This process requires the use of estimates and assumptions, which are subject to a high degree of judgment. These impairment tests require us to estimate fair values of our drive-ins by making assumptions regarding future cash flows and other factors. During fiscal year 2011, we reviewed Company Drive-Ins and other long-lived assets with combined carrying amounts of \$27.9 million in property, equipment and capital leases for possible impairment, and our cash flow assumptions resulted in impairment charges totaling \$0.8 million to write down certain assets to their estimated fair value.

We assess the recoverability of goodwill and other intangible assets related to our brand and drive-ins at least annually and more frequently if events or changes in circumstances occur indicating that the carrying amount of the asset may not be recoverable. Goodwill impairment testing first requires a comparison of the fair value of each reporting unit to the carrying value. We estimate fair value based on a comparison of two approaches: discounted cash flow analyses and a market multiple approach. The discounted estimates of future cash flows include significant management assumptions such as revenue growth rates, operating margins, weighted average cost of capital, and future economic and market conditions. In addition, the market multiple approach includes significant assumptions such as the use of recent historical market multiples to estimate future market pricing. These assumptions are significant factors in calculating the value of the reporting units and can be affected by changes in consumer demand, commodity pricing, labor and other operating costs, our cost of capital and our ability to identify buyers in the market. If the carrying value of the reporting unit exceeds fair value, goodwill is considered impaired. The amount of the impairment is the difference between the carrying value of the goodwill and the implied fair value, which is calculated as if the reporting unit had just been acquired and accounted for as a business combination.

During the fourth quarter of fiscal year 2011, we performed our annual assessment of recoverability of goodwill and other intangible assets and determined that no impairment was indicated. As of the impairment testing date, the fair value of the Company Drive-In reporting unit exceeded the carrying value by approximately 9.3%. As of August 31, 2011, the Company had \$81.6 million of goodwill, of which \$75.6 million was attributable to the Company Drive-Ins segment and \$6.0 million was attributable to the Franchise Operations segment. If cash flows generated by our Company Drive-Ins were to decline significantly in the future or there were negative revisions to key assumptions, we may be required to record impairment charges to reduce the carrying amount of goodwill.

*Revenue Recognition Related to Franchise Fees and Royalties.* Initial franchise fees are recognized in income when we have substantially performed or satisfied all material services or conditions relating to the sale of the franchise and the fees are nonrefundable. Area development fees are nonrefundable and are recognized in income on a pro-rata basis when the conditions for revenue recognition under the individual area development agreements are met. Both initial franchise fees and area development fees are generally recognized upon the

---

**Table of Contents**

opening of a Franchise Drive-In or upon termination of the agreement between Sonic and the franchisee.

Our franchisees are required under the provisions of the license agreements to pay royalties to Sonic each month based on a percentage of actual sales. However, the royalty payments and supporting financial statements are not due until the following month under the terms of our franchise agreements. As a result, we accrue royalty revenue in the month earned.

*Accounting for Stock-Based Compensation.* We account for stock-based compensation in accordance with Accounting Standards Codification (ASC) Topic 718, Stock Compensation. We estimate the fair value of options granted using the Black-Scholes option pricing model along with the assumptions shown in note 13 Stockholders' Equity in the Notes to the Consolidated Financial Statements in this Form 10-K. The assumptions used in computing the fair value of stock-based payments reflect our best estimates, but involve uncertainties relating to market and other conditions, many of which are outside of our control. We estimate expected volatility based on historical daily price changes of the Company's stock for a period equal to the current expected term of the options. The expected option term is the number of years the Company estimates that options will be outstanding prior to exercise considering vesting schedules and our historical exercise patterns. If other assumptions or estimates had been used, the stock-based compensation expense that was recorded during fiscal year 2011 could have been materially different. Furthermore, if different assumptions are used in future periods, stock-based compensation expense could be materially impacted.

*Income Taxes.* We estimate certain components of our provision for income taxes. These estimates include, among other items, depreciation and amortization expense allowable for tax purposes, allowable tax credits for items such as wages paid to certain employees, effective rates for state and local income taxes and the tax deductibility of certain other items.

We account for uncertain tax positions under ASC Topic 740, Income Taxes, which sets out criteria for the use of judgment in assessing the timing and amounts of deductible and taxable items. Although we believe we have adequately accounted for our uncertain tax positions, from time to time, audits result in proposed assessments where the ultimate resolution may give rise to us owing additional taxes. We adjust our uncertain tax positions in light of changing facts and circumstances, such as the completion of a tax audit, expiration of a statute of limitations, the refinement of an estimate, and penalty and interest accruals associated with uncertain tax positions until they are resolved. We believe that our tax positions comply with applicable tax law and that we have adequately provided for these matters. However, to the extent that the final tax outcome of these matters is different than the amounts recorded, such differences will impact the provision for income taxes in the period in which such determination is made.

Our estimates are based on the best available information at the time that we prepare the provision, including legislative and judicial developments. We generally file our annual income tax returns several months after our fiscal year end. Income tax returns are subject to audit by federal, state and local governments, typically several years after the returns are filed. These returns could be subject to material adjustments or differing interpretations of the tax laws. Adjustments to these estimates or returns can result in significant variability in the tax rate from period to period.

*Leases.* We lease the land and buildings for certain Company Drive-Ins from third parties. Rent expense for operating leases is recognized on a straight-line basis over the expected lease term, including cancelable option periods when it is deemed to be reasonably assured that we would incur an economic penalty for not exercising the options. Judgment is required to determine options expected to be exercised. Within the terms of some of our leases, there are rent holidays and/or escalations in payments over the base lease term, as well as renewal periods. The effects of the rent holidays and escalations are reflected in rent expense on a straight-line basis over the expected lease term, including cancelable option periods when appropriate. The lease term commences on the date when we have the right to control the use of lease property, which can occur before rent payments are due under the terms of the lease. Contingent rent is generally based on sales levels and is accrued at the point in time we determine that it is probable that such sales levels will be achieved.

*Accounts and Notes Receivable.* We charge interest on past due accounts receivable and recognize income as it is collected. Interest accrues on notes receivable based on the contractual terms of the respective note. We monitor all accounts and notes receivable for delinquency and provide for estimated losses for specific receivables that are not likely to be collected. We assess credit risk for accounts and notes receivable of specific franchisees based on payment history, current payment patterns, the health of the franchisee's business, and an assessment of the

---

## **Table of Contents**

franchisee's ability to pay outstanding balances. In addition to allowances for bad debt for specific franchisee receivables, a general provision for bad debt is estimated for accounts receivable based on historical trends. Account balances generally are charged against the allowance when we believe it is probable that the receivable will not be recovered and legal remedies have been exhausted. We continually review our allowance for doubtful accounts.

### **Item 7A. Quantitative and Qualitative Disclosures About Market Risk**

Sonic's use of debt directly exposes the Company to interest rate risk. Floating rate debt, where the interest rate fluctuates periodically, exposes the Company to short-term changes in market interest rates. Fixed rate debt, where the interest rate is fixed over the life of the instrument, exposes the Company to changes in market interest rates reflected in the fair value of the debt and to the risk that the Company may need to refinance maturing debt with new debt at a higher rate. Sonic is also exposed to market risk from changes in commodity prices. Sonic does not utilize financial instruments for trading purposes. Sonic manages its debt portfolio to achieve an overall desired position of fixed and floating rates and may employ interest rate swaps as a tool to achieve that goal in the future.

*Interest Rate Risk.* Our exposure to interest rate risk at August 31, 2011 is primarily based on the 2011 Fixed Rate Notes with an effective rate of 5.4%, before amortization of debt-related costs. At August 31, 2011, the fair value of the 2011 Fixed Rate Notes approximated the carrying value of \$497.0 million (including accrued interest). Management used market information available for public debt transactions for companies with ratings that are at or below our ratings. Management believes this fair value is a reasonable estimate with the information that is available. Should interest rates and/or credit spreads increase or decrease by one percentage point, the estimated fair value of the 2011 Fixed Rate Notes would decrease or increase by approximately \$26 million, respectively. The fair value estimate requires significant assumptions by management as there are few, if any, securitized loan transactions occurring in the current market.

We have made certain loans to our franchisees totaling \$9.5 million as of August 31, 2011. The interest rates on these notes are generally between 5.25% and 10.5%. We believe the carrying amount of these notes approximates their fair value.

*Commodity Price Risk.* The Company and its franchisees purchase certain commodities such as beef, potatoes, chicken and dairy products. These commodities are generally purchased based upon market prices established with vendors. These purchase arrangements may contain contractual features that limit the price paid by establishing price floors or caps; however, we generally do not make any long-term commitments to purchase any minimum quantities under these arrangements other than as disclosed above in Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations under Contractual Obligations and Commitments. We also do not use financial instruments to hedge commodity prices because these purchase arrangements help control the ultimate cost.

This market risk discussion contains forward-looking statements. Actual results may differ materially from this discussion based upon general market conditions and changes in financial markets.

### **Item 8. Financial Statements and Supplementary Data**

The Company has included the financial statements and supplementary financial information required by this item immediately following Part IV of this report and hereby incorporates by reference the relevant portions of those statements and information into this Item 8.

### **Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure**

None.

### **Item 9A. Controls and Procedures**

As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-14 under the Securities Exchange Act of 1934). Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective at the reasonable assurance level. There were no significant changes in the Company's internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation.

**Table of Contents**

**Management's Report on Internal Control over Financial Reporting**

The management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting. The Company's internal control system was designed to provide reasonable assurance to the Company's management and Board of Directors regarding the preparation and fair presentation of published financial statements. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

The Company's management assessed the effectiveness of the Company's internal control over financial reporting as of August 31, 2011. In making this assessment, it used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in Internal Control - Integrated Framework. Based on our assessment, we believe that, as of August 31, 2011, the Company's internal control over financial reporting is effective based on those criteria.

The Company's independent registered public accounting firm that audited the financial statements included in this annual report has issued an attestation report on the Company's internal control over financial reporting. This report appears on the following page.

---

**Table of Contents**

**Report of Independent Registered Public Accounting Firm**

The Board of Directors and Stockholders of Sonic Corp.

We have audited Sonic Corp.'s internal control over financial reporting as of August 31, 2011, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Sonic Corp.'s management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Sonic Corp. maintained, in all material respects, effective internal control over financial reporting as of August 31, 2011, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Sonic Corp. as of August 31, 2011 and 2010, and the related consolidated statements of income, stockholders' equity (deficit), and cash flows for each of the three years in the period ended August 31, 2011 of Sonic Corp. and our report dated October 28, 2011 expressed an unqualified opinion thereon.

**Report of Independent Registered Public Accounting Firm**

The Board of Directors and Stockholders of

Sonic Corp.

We have audited the accompanying consolidated balance sheets of Sonic Corp. as of August 31, 2011 and 2010, and the related consolidated statements of income, stockholders' equity (deficit), and cash flows for each of the three years in the period ended August 31, 2011. Our audits also included the financial statement schedule listed in the Index at Item 15. These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Sonic Corp. at August 31, 2011 and 2010, and the consolidated results of its operations and its cash flows for each of the three years in the period ended August 31, 2011, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of Sonic Corp.'s internal control over financial reporting as of August 31, 2011, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated October 28, 2011, expressed an unqualified opinion thereon.

**Sonic Corp.**

**Notes to Consolidated Financial Statements**

**August 31, 2011, 2010 and 2009**

**(In Thousands, Except Per Share Data)**

**1. Summary of Significant Accounting Policies**

**Operations**

Sonic Corp. (the Company) operates and franchises a chain of quick-service drive-ins in the United States. It derives its revenues primarily from Company Drive-In sales and royalty fees from franchisees. The Company also leases signs and real estate, and receives equity earnings in noncontrolling ownership in a number of Franchise Drive-Ins.

**Principles of Consolidation**

The accompanying financial statements include the accounts of the Company, its wholly owned subsidiaries and its Company Drive-Ins. All significant intercompany accounts and transactions have been eliminated.

**Use of Estimates**

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported and contingent assets and liabilities disclosed in the financial statements and accompanying notes. Actual results may differ from those estimates, and such differences may be material to the financial statements.

**Cash Equivalents**

Cash equivalents consist of highly liquid investments, primarily money market accounts that mature in three months or less from date of purchase, and depository accounts.

**Restricted Cash**

As of August 31, 2011, the Company had restricted cash balances totaling \$21.0 million for funds required to be held in trust for the benefit of senior noteholders under the Company's debt arrangements. The current portion of restricted cash of \$12.9 million represents amounts to be returned to Sonic or paid to service current debt obligations. The noncurrent portion of \$8.1 million represents interest reserves required to be set aside for the duration of the debt.

**Accounts and Notes Receivable**

The Company charges interest on past due accounts receivable and recognizes income as it is collected. Interest accrues on notes receivable based on the contractual terms of the respective note. The Company monitors all accounts and notes receivable for delinquency and provides for estimated losses for specific receivables that are not likely to be collected. The Company assesses credit risk for accounts and notes receivable of specific franchisees based on payment history, current payment patterns, the health of the franchisee's business, and an assessment of the franchisee's ability to pay outstanding balances. In addition to allowances for bad debt for specific franchisee receivables, a general provision for bad debt is estimated for the Company's accounts receivable based on historical trends. Account balances generally are charged against the allowance when the Company believes it is probable that the receivable will not be recovered and legal remedies have been exhausted. The Company continually reviews its allowance for doubtful accounts.

**Inventories**

Inventories consist principally of food and supplies that are carried at the lower of cost (first-in, first-out basis) or market.

**Property, Equipment and Capital Leases**

Property and equipment are recorded at cost, and leased assets under capital leases are recorded at the present value of future minimum lease payments. Depreciation of property and equipment and amortization of capital leases are

---

**Sonic Corp.**

**Notes to Consolidated Financial Statements (continued)**

**August 31, 2011, 2010 and 2009**

**(In Thousands, Except Per Share Data)**

computed by the straight-line method over the estimated useful lives or the lease term, including cancelable option periods when appropriate, and are combined for presentation in the financial statements.

**Accounting for Long-Lived Assets**

The Company reviews long-lived assets whenever events or changes in circumstances indicate that the carrying amount of an asset might not be recoverable. Assets are grouped and evaluated for impairment at the lowest level for which there are identifiable cash flows that are largely independent of the cash flows of other groups of assets, which generally represents the individual drive-in. The Company's primary test for an indicator of potential impairment is operating losses. If an indication of impairment is determined to be present, the Company estimates the future cash flows expected to be generated from the use of the asset and its eventual disposal. If the sum of undiscounted future cash flows is less than the carrying amount of the asset, an impairment loss is recognized. The impairment loss is measured by comparing the fair value of the asset to its carrying amount. Fair value is typically determined to be the value of the land, since drive-in buildings and improvements are single-purpose assets and have little value to market participants. The equipment associated with a store can be easily relocated to another store, and therefore is not adjusted.

Surplus property assets are carried at the lower of depreciated cost or fair value less cost to sell. The majority of the value in surplus property is land. Fair values are estimated based upon appraisals or independent assessments of the assets' estimated sales values.

**Goodwill and Other Intangible Assets**

Goodwill is determined based on acquisition purchase price in excess of the fair value of identified assets. Intangible assets with lives restricted by contractual, legal, or other means are amortized over their useful lives. The Company tests all goodwill and other intangible assets not subject to amortization at least annually for impairment using the fair value approach on a reporting unit basis. The Company's reporting units are defined as Company Drive-Ins and Franchise Operations (see additional information regarding the Company's reporting units in note 14 - Segment Information). The accounting guidance requires a two-step process for testing impairment. We test for impairment using historical cash flows and other relevant facts and circumstances as the primary basis for our estimates of future cash flows. This process requires the use of estimates and assumptions, which are subject to a high degree of judgment. These impairment tests require us to estimate fair values of our drive-ins by making assumptions regarding future cash flows and other factors.

We assess the recoverability of goodwill and other intangible assets related to our brand and drive-ins at least annually and more frequently if events or changes in circumstances occur indicating that the carrying amount of the asset may not be recoverable. Goodwill impairment testing first requires a comparison of the fair value of each reporting unit to the carrying value. We estimate fair value based on a comparison of two approaches: discounted cash flow analyses and a market multiple approach. The discounted estimates of future cash flows include significant management assumptions such as revenue growth rates, operating margins, weighted average cost of capital, and future economic and market conditions. In addition, the market multiple approach includes significant assumptions such as the use of recent historical market multiples to estimate future market pricing. These assumptions are significant factors in calculating the value of the reporting units and can be affected by changes in consumer demand, commodity pricing, labor and other operating costs, our cost of capital and our ability to identify buyers in the market. If the carrying value of the reporting unit exceeds fair value, goodwill is considered impaired. The amount of the impairment is the difference between the carrying value of the goodwill and the implied fair value, which is calculated as if the reporting unit had just been acquired and accounted for as a business combination.

The Company's intangible assets subject to amortization consist primarily of acquired franchise agreements, franchise fees, and other intangibles. Amortization expense is calculated using the straight-line method over the expected period of benefit, not exceeding 20 years. See note 5 - Goodwill and Other Intangibles for additional disclosures related to goodwill and other intangibles.

---

**Table of Contents**

**Sonic Corp.**

**Notes to Consolidated Financial Statements (continued)**

**August 31, 2011, 2010 and 2009**

**(In Thousands, Except Per Share Data)**

**Ownership Structure**

Company Drive-Ins are drive-in operations in which the Company's operating subsidiary, Sonic Restaurants, Inc. (SRI), owns a controlling ownership interest. Historically, Company Drive-Ins have operated as individual limited liability companies or general partnerships in which the manager and the supervisor for the respective drive-in own a noncontrolling interest (generally, the ownership program). Under the ownership program, managers and supervisors shared in the cash flow for their Company Drive-In but were also responsible for their share of any losses incurred by the drive-in. Effective April 1, 2010, the Company introduced a new compensation program as an alternative to the ownership program to improve retention. While partners and supervisors do not have an ownership interest in their drive-in(s) under the new compensation program, the program provides managers and supervisors a larger portion of guaranteed base compensation but retains a significant incentive component based on drive-in level performance.

For those Company Drive-Ins still in the Company's ownership program, noncontrolling interests are recorded as a component of equity on the Consolidated Balance Sheets, and our partners' share of the drive-in earnings are reflected as net income noncontrolling interests on the Consolidated Statements of Income.

Under the ownership program, the Company acquires noncontrolling interests in Company Drive-Ins as managers and supervisors sell their ownership interests. If the purchase price of a noncontrolling interest that we acquire exceeds the net book value of the assets underlying the partnership interest, the excess is recorded as paid-in capital. The acquisition of a noncontrolling interest for less than book value is recorded as a reduction in paid-in capital.

**Revenue Recognition, Franchise Fees and Royalties**

Revenue from Company Drive-In sales is recognized when food and beverage products are sold. Company Drive-In sales are presented net of sales tax and other sales-related taxes.

Initial franchise fees are recognized in income when the Company has substantially performed or satisfied all material services or conditions relating to the sale of the franchise and the fees are nonrefundable. Area development fees are nonrefundable and are recognized in income on a pro-rata basis when the conditions for revenue recognition under the individual area development agreements are met. Both initial franchise fees and area development fees are generally recognized upon the opening of a Franchise Drive-In or upon termination of the agreement between the Company and the franchisee.

The Company's franchisees are required under the provisions of the license agreements to pay the Company royalties each month based on a percentage of actual sales. However, the royalty payments and supporting financial statements are not due until the following month under the terms of the franchise agreements. As a result, the Company accrues royalty revenue in the month earned.

**Operating Leases**

Rent expense is recognized on a straight-line basis over the expected lease term, including cancelable option periods when it is deemed to be reasonably assured that the Company would incur an economic penalty for not exercising the options. Within the terms of some of our leases, there are rent holidays and/or escalations in payments over the base lease term, as well as renewal periods. The effects of the holidays and escalations have been reflected in rent expense on a straight-line basis over the expected lease term, which includes cancelable option periods when appropriate. The lease term commences on the date when the Company has the right to control the use of the leased property, which can occur before rent payments are due under the terms of the lease. Contingent rent is generally based on sales levels and is accrued at the point in time it is probable that such sales levels will be achieved.

**Advertising Costs**

Costs incurred in connection with the advertising and promoting of the Company's products are included in other operating expenses and are expensed as incurred. Such costs amounted to \$22.5 million in fiscal years 2011 and 2010. In fiscal year 2009 these costs totaled \$33.0 million.

F-11

**Table of Contents****Sonic Corp.****Notes to Consolidated Financial Statements (continued)****August 31, 2011, 2010 and 2009****(In Thousands, Except Per Share Data)**

Under the Company's franchise agreements, both Company Drive-Ins and Franchise Drive-Ins must contribute a minimum percentage of revenues to a national media production fund (Sonic Brand Fund) and spend an additional minimum percentage of gross revenues on local advertising, either directly or through Company-required participation in advertising cooperatives. A portion of the local advertising contributions is redistributed to a System Marketing Fund, which purchases advertising on national cable and broadcast networks and funds other national media and sponsorship opportunities. As stated in the terms of existing franchise agreements, these funds do not constitute assets of the Company, and the Company acts with limited agency in the administration of these funds. Accordingly, neither the revenues and expenses nor the assets and liabilities of the advertising cooperatives, the Sonic Brand Fund, or the System Marketing Fund are included in the Company's consolidated financial statements. However, all advertising contributions by Company Drive-Ins are recorded as expense on the Company's financial statements.

**Stock-Based Compensation**

Stock-based compensation is measured at the grant date, based on the calculated fair value of the award, and is recognized as an expense over the requisite employee service period (generally the vesting period of the grant).

The following table shows total stock-based compensation expense and the tax benefit included in the Consolidated Statements of Income and the effect on basic and diluted earnings per share for the years ended August 31:

	<b>2011</b>	<b>2010</b>	<b>2009</b>
Stock-based compensation	<b>\$ 5,644</b>	\$ 7,666	\$ 6,910
Income tax benefit	<b>(1,315)</b>	(4,260)	(2,452)
<b>Net stock-based compensation expense</b>	<b>\$ 4,329</b>	\$ 3,406	\$ 4,458
Impact on net income per share:			
Basic	<b>\$ 0.07</b>	\$ 0.05	\$ 0.07
Diluted	<b>\$ 0.07</b>	\$ 0.05	\$ 0.07

The Company grants both incentive and non-qualified stock options. For grants of non-qualified stock options, the Company expects to recognize a tax benefit upon exercise of the option, so the full tax benefit is recognized on the related stock-based compensation expense. For grants of incentive stock options, a tax benefit only results if the option holder has a disqualifying disposition. As a result of the limitation on the tax benefit for incentive stock options, the tax benefit for stock-based compensation will generally be less than the Company's overall tax rate, and will vary depending on the timing of employees' exercises and sales of stock. However, in fiscal year 2010, the Company executed a stock option exchange which resulted in an additional tax benefit of \$1.8 million for the conversion of eligible incentive stock options to nonqualified stock options. Additional information regarding the stock option exchange program is provided in note 13 - Stockholders' Equity.

**Income Taxes**

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities from a change in tax rates is recognized in income in the period that includes the enactment date.

## Edgar Filing: SONIC CORP - Form 10-K

Income tax benefits credited to equity relate to tax benefits associated with amounts that are deductible for income tax purposes but do not affect earnings. These benefits are principally generated from employee exercises of non-qualified stock options and disqualifying dispositions of incentive stock options.

The threshold for recognizing the financial statement effects of a tax position is when it is more likely than not, based on the technical merits, that the position will be sustained upon examination by a taxing authority. Recognized tax positions are initially and subsequently measured as the largest amount of tax benefit that is more likely than not to be realized upon ultimate settlement with a taxing authority. Liabilities for unrecognized tax benefits related to such tax positions are included in other long-term liabilities unless the tax position is expected to

F-12

**Table of Contents****Sonic Corp.****Notes to Consolidated Financial Statements (continued)****August 31, 2011, 2010 and 2009****(In Thousands, Except Per Share Data)**

be settled within the upcoming year, in which case the liabilities are included in accrued expenses and other current liabilities. Interest and penalties related to unrecognized tax benefits are included in income tax expense.

Additional information regarding the Company's unrecognized tax benefits is provided in note 12 - Income Taxes.

**Fair Value of Financial Instruments**

The fair value of financial instruments is the amount at which the instrument could be exchanged in a current transaction between willing parties. The Company has no financial liabilities that are required to be measured at fair value on a recurring basis.

The Company categorizes its assets and liabilities recorded at fair value based upon the following fair value hierarchy established by the Financial Accounting Standards Board ( FASB ):

Level 1 valuations use quoted prices in active markets for identical assets or liabilities that are accessible at the measurement date. An active market is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 valuations use inputs other than actively quoted market prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include: (a) quoted prices for similar assets or liabilities in active markets, (b) quoted prices for identical or similar assets or liabilities in markets that are not active, (c) inputs other than quoted prices that are observable for the asset or liability such as interest rates and yield curves observable at commonly quoted intervals and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 valuations use unobservable inputs for the asset or liability. Unobservable inputs are used to the extent observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date.

The table below sets forth our fair value hierarchy for financial assets measured at fair value on a recurring basis as of August 31, 2011 (in thousands):

	<b>Quoted Prices in Active Markets for Identical Assets (Level 1)</b>	<b>Significant Other Observable Inputs (Level 2)</b>	<b>Significant Unobservable Inputs (Level 3)</b>	<b>Total</b>
<b>Assets:</b>				
Cash equivalents	\$ 11,338	\$	\$	\$ 11,338

Edgar Filing: SONIC CORP - Form 10-K

Restricted cash (current)	12,850			12,850
Restricted cash (noncurrent)	8,108			8,108
<b>Total</b>	<b>\$ 32,296</b>	<b>\$</b>	<b>\$</b>	<b>\$ 32,296</b>

At August 31, 2011 the fair value of the Company's 2011 Fixed Rate Notes (as defined in note 10 Debt below) approximated the carrying value of \$497.0 million (including accrued interest).

**Table of Contents****Sonic Corp.****Notes to Consolidated Financial Statements (continued)****August 31, 2011, 2010 and 2009****(In Thousands, Except Per Share Data)**

The table below sets forth our fair value hierarchy for financial assets measured at fair value on a recurring basis as of August 31, 2010 (in thousands):

	<b>Quoted Prices in Active Markets for Identical Assets (Level 1)</b>	<b>Significant Other Observable Inputs (Level 2)</b>	<b>Significant Unobservable Inputs (Level 3)</b>	<b>Total</b>
<b>Assets:</b>				
Cash equivalents	\$ 74,132	\$	\$	\$ 74,132
Restricted cash (current)	12,546			12,546
Restricted cash (noncurrent)	9,685			9,685
<b>Total</b>	<b>\$ 96,363</b>	<b>\$</b>	<b>\$</b>	<b>\$ 96,363</b>

At August 31, 2010 the fair value of the Company's 2006 Fixed Rate Notes (as defined in note 10 Debt below) was estimated at \$388.1 million versus a carrying value of \$404.0 million (including accrued interest). The fair value of the Company's 2006 Variable Funding Notes (as defined in note 10 Debt below) at August 31, 2010 was estimated at \$163.6 million versus a carrying value of \$187.3 million (including accrued interest).

Certain nonfinancial assets and liabilities are measured at fair value on a nonrecurring basis, which means these assets and liabilities are not measured at fair value on an ongoing basis but are subject to periodic impairment tests. For the Company, these items primarily include long-lived assets, goodwill and other intangible assets. Refer to sections Accounting for Long-Lived Assets and Goodwill and Other Intangible Assets, discussed above, for inputs and valuation techniques used to measure the fair value of these nonfinancial assets. The fair value was based upon management's assessment as well as appraisals or independent assessments which involved Level 3 inputs. There were impairment charges related to long-lived assets of \$0.8 million, \$15.2 million and \$11.2 million in fiscal years 2011, 2010 and 2009 respectively. See note 3 - Impairment of Long-Lived Assets for a description of the impairment.

**Noncontrolling Interests**

Effective September 1, 2009, the Company implemented Accounting Standards Codification, (ASC) Topic 810, Consolidation, which requires noncontrolling interests, previously called minority interests, to be presented as a separate item in the equity section of the consolidated balance sheets. It also requires the amount of consolidated net income related to noncontrolling interests to be clearly presented on the face of the consolidated statements of income.

Additionally, Topic 810 clarifies that changes in a parent's ownership interest in a subsidiary that do not result in deconsolidation are equity transactions, and that deconsolidation of a subsidiary requires gain or loss recognition in net income based on the fair value on the deconsolidation date. Topic 810 was applied prospectively with the exception of presentation and disclosure requirements, which were applied retrospectively for all periods presented, and did not significantly change the presentation of our Consolidated Financial Statements.

**New Accounting Pronouncements**

## Edgar Filing: SONIC CORP - Form 10-K

In May 2011, FASB issued Accounting Standards Update ( ASU ) No. 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS. This pronouncement was issued to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between U.S. GAAP and International Financial Reporting Standards ( IFRS ). ASU 2011-04 changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. This pronouncement is effective for interim and annual reporting periods beginning on or after December 15, 2011, with early adoption prohibited. The new guidance will require prospective application. The adoption of this pronouncement is not expected to have a material impact on the Company s consolidated financial statements.

F-14

Table of Contents**Sonic Corp.****Notes to Consolidated Financial Statements (continued)****August 31, 2011, 2010 and 2009****(In Thousands, Except Per Share Data)**

In June 2011, the FASB issued ASU No. 2011-05, Presentation of Comprehensive Income, which was issued to enhance comparability between entities that report under U.S. GAAP and IFRS, and to provide a more consistent method of presenting non-owner transactions that affect an entity's equity. ASU 2011-05 eliminates the option to report other comprehensive income and its components in the statement of changes in stockholders' equity and requires an entity to present the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement or in two separate but consecutive statements. This pronouncement is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Early adoption of the new guidance is permitted, and full retrospective application is required. The adoption of this pronouncement is not expected to have a material impact on the Company's consolidated financial statements.

In September 2011, the FASB issued ASU No. 2011-08, Testing Goodwill for Impairment. This pronouncement was issued to simplify how entities test goodwill for impairment. Under this pronouncement, entities may first assess qualitative factors to determine whether it is necessary to perform the two-step goodwill impairment test. If the qualitative assessment results in a more than 50% likely result that the fair value of a reporting unit is less than the carrying amount, then the entity must continue to apply the two-step impairment test. If the entity concludes the fair value exceeds the carrying amount, then neither of the two steps in the goodwill impairment test is required. This pronouncement is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011 with early adoption permitted. The Company is currently evaluating the effect that this pronouncement will have on its financial statements.

**2. Earnings Per Share**

The following table sets forth the computation of basic and diluted earnings per share for the years ended August 31:

	2011	2010	2009
Numerator:			
Net income attributable to Sonic Corp.	\$ 19,225	\$ 21,209	\$ 49,442
Denominator:			
Weighted average common shares outstanding - basic	61,781	61,319	60,761
Effect of dilutive employee stock options and unvested restricted stock units	162	257	477
Weighted average common shares - diluted	61,943	61,576	61,238
Net income per common share - basic	\$ 0.31	\$ 0.35	\$ 0.81
Net income per common share - diluted	\$ 0.31	\$ 0.34	\$ 0.81
Anti-dilutive securities excluded <sup>(1)</sup>	6,367	6,834	6,493

<sup>(1)</sup>Anti-dilutive securities consist of stock options and unvested restricted stock units that were not included in the computation of diluted earnings per share because either the exercise price of the options was greater than the average market price of the common stock or the total assumed proceeds under the treasury stock method resulted in negative incremental shares and thus the inclusion would have been anti-dilutive.

### **3. Impairment of Long-Lived Assets**

During the fiscal years ended August 31, 2011, 2010 and 2009, the Company identified impairments for certain drive-in assets and surplus property through regular quarterly reviews of long-lived assets. The recoverability of Company Drive-Ins is assessed by estimating the undiscounted net cash flows expected to be generated over the remaining life of the Company Drive-Ins. This involves estimating same-store sales and margins for the cash flows period. When impairment exists, the carrying value of the asset is written down to fair value.

Table of Contents**Sonic Corp.****Notes to Consolidated Financial Statements (continued)****August 31, 2011, 2010 and 2009****(In Thousands, Except Per Share Data)**

During fiscal year 2011, the Company's assessment of long-lived assets resulted in provisions for impairment totaling \$0.8 million. These write-downs were completed to reduce to fair value the carrying amount of surplus properties and properties leased to franchisees.

During fiscal year 2010, the Company experienced lower sales and profits in Company Drive-Ins due to the sustained economic downturn and weaker results than anticipated during the summer months for operating stores. Accordingly, the Company revised its future sales growth assumptions and estimated cash flows in assessing the recoverability of its investments in Company Drive-Ins. These analyses resulted in provisions for impairment totaling \$15.2 million, which primarily consisted of \$11.3 million to write down the carrying amount of building and leasehold improvements on underperforming drive-ins, \$2.3 million to write down the carrying amount of property leased to franchisees and \$0.6 million to reduce to fair value the carrying amount of twelve surplus properties.

During fiscal year 2009, the Company's assessment of long-lived assets resulted in provisions for impairment totaling \$11.2 million, including \$7.5 million to write down the carrying amount of building and leasehold improvements on underperforming drive-ins, \$3.3 million to write down the carrying amount of equipment on underperforming drive-ins and \$0.4 million to reduce to fair value the carrying amount of six surplus properties.

**4. Accounts and Notes Receivable**

Accounts and notes receivable consist of the following at August 31:

	2011	2010
<b><u>Current Accounts and Notes Receivable:</u></b>		
Royalties and other trade receivables	\$ 17,729	\$ 18,021
Notes receivable from franchisees	3,173	4,432
Notes receivable from advertising funds	1,500	2,440
Other	4,853	3,769
	<b>27,255</b>	28,662
Less allowance for doubtful accounts and notes receivable	<b>2,697</b>	3,199
	<b>\$ 24,558</b>	\$ 25,463
<b><u>Noncurrent Notes Receivable:</u></b>		
Notes receivable from franchisees	\$ 6,286	\$ 4,244
Notes receivable from advertising funds	5,469	4,591
Less allowance for doubtful notes receivable	669	11
	<b>\$ 11,086</b>	\$ 8,824

The Company's receivables are primarily due from franchisees, all of whom are in the restaurant business. Substantially all of the notes receivable from franchisees are collateralized by real estate or equipment. The notes receivable from advertising funds represent transactions in the normal course of business. See note 1 Summary of Significant Accounting Policies for further discussion of the Company's accounts and notes receivable.

## Edgar Filing: SONIC CORP - Form 10-K

The following table summarizes the activity in the allowance for doubtful accounts related to the Company's notes receivable:

Balance at August 31, 2010	\$ 54
Additions to provision	694
Balance at August 31, 2011	\$ 748

F-16

**Table of Contents****Sonic Corp.****Notes to Consolidated Financial Statements (continued)****August 31, 2011, 2010 and 2009****(In Thousands, Except Per Share Data)****5. Goodwill and Other Intangibles**

As of August 31, 2011, the Company had \$81.6 million of goodwill, of which \$75.6 million was attributable to the Company Drive-Ins segment and \$6.0 million was attributable to the Franchise Operations segment. There have been no changes in the goodwill balance attributable to the Franchise Operations segment since August 31, 2010. The changes in the carrying amount of goodwill for fiscal years ending August 31 were as follows:

	<b>2011</b>	<b>2010</b>
Balance as of September 1	<b>\$ 82,089</b>	\$ 82,343
Goodwill acquired during the year	<b>427</b>	21
Goodwill disposed of for noncontrolling interests in Company Drive-Ins	<b>(891)</b>	(5)
Goodwill disposed of related to the sale of Company Drive-Ins		(270)
<b>Balance as of August 31</b>	<b>\$ 81,625</b>	\$ 82,089

The gross carrying amount of franchise agreements, franchise fees and other intangibles subject to amortization was \$6.8 million and \$7.0 million at August 31, 2011 and 2010, respectively. Accumulated amortization related to these intangible assets was \$2.6 million and \$2.2 million at August 31, 2011 and 2010, respectively. Intangible assets amortization expense for the fiscal years ended August 31, 2011, 2010 and 2009 was \$0.4 million, \$0.5 million and \$0.5 million, respectively. Estimated intangible assets amortization expense is \$0.4 million for fiscal year 2012 and \$0.3 million annually for fiscal years 2013, 2014, 2015 and 2016.

**6. Refranchising of Company Drive-Ins**

During fiscal year 2009, the Company refranchised the operations of 205 Company Drive-Ins and recorded a \$13.2 million gain. The Company retained a noncontrolling operating interest in 88 of these refranchised drive-ins. In fiscal years 2011 and 2010, the Company refranchised the operations of six and 16 Company Drive-Ins, respectively. Gains and losses are recorded as other operating income (expenses), net on the Consolidated Statements of Income. The Company may periodically refranchise other operations when conditions warrant.

**7. Leases****Description of Leasing Arrangements**

The Company's leasing operations consist principally of leasing certain land, buildings and equipment (including signs) and subleasing certain buildings to franchise operators. The land and building portions of these leases are classified as operating leases with lease terms expiring through September 2030. The equipment portions of these leases are classified principally as direct financing leases and expire principally over the next 10 years. These leases include provisions for contingent rentals that may be received on the basis of a percentage of sales in excess of stipulated amounts. Income is not recognized on contingent rentals until sales exceed the stipulated amounts. Some leases contain escalation clauses over the lives of the leases. Most of the leases contain one to four renewal options at the end of the initial term for periods of five years.

In fiscal year 2009, as a component of the refranchising of Company Drive-Ins, the Company executed two significant master lease agreements with franchisees. These leases consist of leasing land, building and signs for a period of 15 years and are classified as operating leases. There are four renewal options at the end of the primary term for periods of five years for property that is owned by the Company. For property owned by

## Edgar Filing: SONIC CORP - Form 10-K

third parties, the lease term runs concurrent with the term of the third party lease arrangements. These leases include provisions for contingent rentals that may be received on the basis of a percentage of sales in excess of stipulated amounts. Both leases contain escalation clauses based on sales over the life of the lease.

Certain Company Drive-Ins lease land and buildings from third parties. These leases, with lease terms expiring through August 2030, include provisions for contingent rents that may be paid on the basis of a percentage of sales in excess of stipulated amounts. For the majority of leases, the land portions are classified as operating leases, and the building portions are classified as capital leases.

F-17

**Table of Contents****Sonic Corp.****Notes to Consolidated Financial Statements (continued)**

August 31, 2011, 2010 and 2009

(In Thousands, Except Per Share Data)

**Direct Financing Leases**

Components of net investment in direct financing leases are as follows at August 31:

	2011	2010
Minimum lease payments receivable	\$ 1,530	\$ 1,982
Less unearned income	374	496
Net investment in direct financing leases	1,156	1,486
Less amount due within one year	294	375
Amount due after one year	\$ 862	\$ 1,111

Initial direct costs incurred in the negotiations and consummations of direct financing lease transactions have not been material. Accordingly, no portion of unearned income has been recognized to offset those costs.

Future minimum rental payments receivable as of August 31, 2011 are as follows:

	Operating	Direct Financing
Years ending August 31:		
2012	\$ 7,326	\$ 368
2013	8,638	277
2014	9,207	194
2015	9,277	141
2016	9,129	90
Thereafter	90,119	460
	133,696	1,530
Less unearned income		374
	\$ 133,696	\$ 1,156

**Capital Leases**

Components of obligations under capital leases are as follows at August 31:

	<b>2011</b>	<b>2010</b>
Total minimum lease payments	<b>\$ 45,138</b>	\$ 49,510
Less amount representing interest averaging 6.3% in 2011 and 6.4% in 2010	<b>11,075</b>	13,254
Present value of net minimum lease payments	<b>34,063</b>	36,256
Less amount due within one year	<b>3,761</b>	3,384
Amount due after one year	<b>\$ 30,302</b>	\$ 32,872

F-18

Table of Contents**Sonic Corp.****Notes to Consolidated Financial Statements (continued)****August 31, 2011, 2010 and 2009****(In Thousands, Except Per Share Data)**

Maturities of these obligations under capital leases and future minimum rental payments required under operating leases that have initial or remaining noncancelable lease terms in excess of one year as of August 31, 2011 are as follows:

	Operating	Capital
Years ending August 31:		
2012	\$ 12,325	\$ 5,992
2013	12,056	5,932
2014	11,836	5,534
2015	11,647	5,240
2016	11,126	5,114
Thereafter	114,241	17,326
	173,231	45,138
Less amount representing interest		11,075
	\$ 173,231	\$ 34,063

Total rent expense for all operating leases and capital leases consists of the following for the years ended August 31:

	2011	2010	2009
Operating leases:			
Minimum rentals	\$ 14,185	\$ 14,330	\$ 14,690
Contingent rentals	138	176	199
Sublease rentals	(2,847)	(2,993)	(1,330)
Capital leases:			
Contingent rentals	745	740	945
	\$ 12,221	\$ 12,253	\$ 14,504

The aggregate future minimum rentals receivable under noncancelable subleases as of August 31, 2011 was \$34.6 million which primarily relates to operating leases.

Table of Contents**Sonic Corp.****Notes to Consolidated Financial Statements (continued)**

August 31, 2011, 2010 and 2009

(In Thousands, Except Per Share Data)

**8. Property, Equipment and Capital Leases**

Property, equipment and capital leases consist of the following at August 31:

	<b>Estimated Useful Life</b>	<b>2011</b>	<b>2010</b>
Property and equipment:			
Home office:			
Leasehold improvements	Life of lease	\$ 4,541	\$ 4,541
Computer and other equipment	2 5 yrs	52,736	45,459
Drive-ins, including those leased to others:			
Land		171,813	172,506
Buildings	8 25 yrs	356,536	357,173
Equipment	5 7 yrs	126,487	126,014
Property and equipment, at cost		712,113	705,693
Less accumulated depreciation		273,209	244,727
Property and equipment, net		438,904	460,966
Capital Leases:			
Leased home office building	Life of lease	9,990	9,990
Leased drive-in buildings, equipment and other assets under capital leases, including those held for sublease	Life of lease	38,675	40,795
Less accumulated amortization		22,694	22,487
Capital leases, net		25,971	28,298
Property, equipment and capital leases, net		\$ 464,875	\$ 489,264

Depreciation expense for property and equipment was \$40.8 million, \$42.1 million and \$47.6 million for fiscal years 2011, 2010 and 2009, respectively. Land, buildings and equipment with a carrying amount of \$188.7 million at August 31, 2011 were leased under operating leases to franchisees or other parties. The accumulated depreciation related to these buildings and equipment was \$51.6 million at August 31, 2011. Amortization expense related to capital leases is included within depreciation and amortization on the Consolidated Statements of Income. As of August 31, 2011, the Company had no drive-ins under construction with costs to complete.

**9. Accrued Liabilities**

Accrued liabilities consist of the following at August 31:

Edgar Filing: SONIC CORP - Form 10-K

	2011	2010
Wages and employee benefit costs	\$ 9,757	\$ 5,120
Property taxes, sales and use taxes and employment taxes	9,441	9,631
Accrued interest	755	712
Unredeemed gift cards and gift certificates	8,864	8,586
Other	4,715	9,283
	<b>\$ 33,532</b>	<b>\$ 33,332</b>

The Company sells gift cards that do not have expiration dates. Gift card balances are recorded as a liability on the Company's Consolidated Balance Sheets. Breakage is the amount on a gift card that is not expected to be redeemed and that the Company is not required to remit to a state under unclaimed property laws. The Company estimates breakage based upon the trend in redemption patterns from previously sold gift cards utilizing its history with the

**Table of Contents****Sonic Corp.****Notes to Consolidated Financial Statements (continued)****August 31, 2011, 2010 and 2009****(In Thousands, Except Per Share Data)**

program. The Company's policy is to recognize the breakage using the delayed recognition method when it is apparent that there is a remote likelihood the gift card balance will be redeemed based on historical trends. The Company reduces the gift card liability for the estimated breakage and uses that amount to help defray the costs of operating the gift card program.

**10. Debt**

Long-term debt consists of the following at August 31:

	<b>2011</b>	<b>2010</b>
Class A-2 senior secured fixed rate notes	<b>\$ 496,250</b>	<b>\$ 403,400</b>
Class A-1 senior secured variable funding notes		187,250
Other	<b>763</b>	971
	<b>497,013</b>	591,621
Less long-term debt due within one year	<b>15,178</b>	61,749
Long-term debt due after one year	<b>\$ 481,835</b>	<b>\$ 529,872</b>

At August 31, 2011, future maturities of long-term debt were \$15.2 million for fiscal years 2012, 2013 and 2014, and \$15.0 million for fiscal years 2015 and 2016.

On May 20, 2011, various subsidiaries of the Company (the Co-Issuers) issued \$500 million of Series 2011-1 Senior Secured Fixed Rate Notes, Class A-2 (the 2011 Fixed Rate Notes) in a private transaction which bears interest at 5.4% per annum. The 2011 Fixed Rate Notes have an expected life of seven years with an anticipated repayment date in May 2018 based on the terms of the debt agreement. At August 31, 2011, the balance outstanding under the 2011 Fixed Rate Notes including accrued interest totaled \$497.0 million and carried a weighted-average interest cost of 5.8%, including the effect of the loan origination costs described below.

In connection with the issuance of the 2011 Fixed Rate Notes, the Co-Issuers also entered into a securitized financing facility of Series 2011-1 Senior Secured Variable Funding Notes, Class A-1 (the "2011 Variable Funding Notes"). This revolving credit facility allows for the issuance of up to \$100 million of 2011 Variable Funding Notes and certain other credit instruments, including letters of credit. The 2011 Variable Funding Notes have an expected life of five years with an anticipated repayment date in May 2016 based on the terms of the debt agreement. Interest on the 2011 Variable Funding Notes is payable monthly at rates equal to the one-month London Interbank Offered Rate or Commercial Paper, depending on the funding source, plus 3.75% per annum. There is a 0.5% annual commitment fee payable monthly on the unused portion of the 2011 Variable Funding Notes facility. The Company borrowed \$35 million under the 2011 Variable Funding Notes facility at closing, and has the ability to draw additional amounts under the facility from time to time as needed. In June 2011, the Company repaid the outstanding balance under its 2011 Variable Funding Notes.

Sonic used the \$535 million of net proceeds from the issuance of the 2011 Fixed Rate Notes and 2011 Variable Funding Notes (collectively, the 2011 Notes) to repay its existing Series 2006-1 Senior Secured Variable Funding Notes, Class A-1 (the 2006 Variable Funding Notes) and Series 2006-1 Senior Secured Fixed Rate Notes, Class A-2 (the 2006 Fixed Rate Notes and, together with the 2006 Variable Funding Notes, the 2006 Notes) in full and to pay the costs associated with the securitized financing transaction, including the existing noteholder and insurer

make-whole premiums.

Loan origination costs associated with the Company's 2011 refinancing totaled \$16.4 million and were allocated between the 2011 Notes. Loan costs are being amortized over each note's expected life. The amount of loan costs expected to be amortized over the next twelve months is reflected in other current assets on the Consolidated Balance Sheets.

While the 2011 Fixed Rate Notes and the 2011 Variable Funding Notes are structured to provide for seven-year and five-year lives, respectively, they have a legal final maturity date of May 2041. The Company intends to repay or refinance the 2011 Notes on or before the end of their respective expected lives. In the event the 2011 Notes are not

---

**Table of Contents**

**Sonic Corp.**

**Notes to Consolidated Financial Statements (continued)**

**August 31, 2011, 2010 and 2009**

**(In Thousands, Except Per Share Data)**

paid in full by the end of their expected lives, the Notes are subject to an upward adjustment in the interest rate of at least 5% per annum. In addition, principal payments will accelerate by applying all of the royalties, lease revenues and other fees securing the debt, after deducting certain expenses, until the debt is paid in full. Also, any unfunded amount under the 2011 Variable Funding Notes will become unavailable.

The Co-Issuers and Sonic Franchising LLC (the Guarantor ) are existing special purpose, bankruptcy remote, indirect subsidiaries of Sonic Corp. that hold substantially all of Sonic's franchising assets and real estate. As of August 31, 2011, assets for these combined indirect subsidiaries totaled \$381.1 million, including receivables for royalties, certain Company and Franchise Drive-In real estate, intangible assets and restricted cash balances of \$21.0 million. The 2011 Notes are secured by franchise fees, royalty payments and lease payments, and the repayment of the 2011 Notes is expected to be made solely from the income derived from the Co-Issuer's assets. In addition, the Guarantor, a Sonic Corp. subsidiary that acts as a franchisor, has guaranteed the obligations of the Co-Issuers under the 2011 Notes and pledged substantially all of its assets to secure those obligations.

Neither Sonic Corp., the ultimate parent of the Co-Issuers and the Guarantor, nor any other subsidiary of Sonic, guarantee or in any way are liable for the obligations of the Co-Issuers under the 2011 Notes. The Company has, however, agreed to cause the performance of certain obligations of its subsidiaries, principally related to managing the assets included as collateral for the 2011 Notes and certain indemnity obligations relating to the transfer of the collateral assets to the Co-Issuers.

The 2011 Notes are subject to a series of covenants and restrictions customary for transactions of this type, including (i) required actions to better secure collateral upon the occurrence of certain performance-related events, (ii) application of certain disposition proceeds as note prepayments after a set time is allowed for reinvestment, (iii) maintenance of specified reserve accounts, (iv) maintenance of certain debt service coverage ratios, (v) optional and mandatory prepayments upon change in control, (vi) indemnification payments for defective or ineffective collateral, and (vii) covenants relating to recordkeeping, access to information and similar matters. If certain covenants or restrictions are not met, the 2011 Notes are subject to customary accelerated repayment events and events of default. Although management does not anticipate an event of default or any other event of noncompliance with the provisions of the debt, if such event occurred, the unpaid amounts outstanding could become immediately due and payable.

In connection with the transaction described above, the Company recognized a \$28.2 million loss from the early extinguishment of debt during the third quarter of fiscal year 2011, which primarily consisted of a \$25.3 million prepayment premium and the write-off of unamortized deferred loan fees remaining from the refinanced debt. In addition, the Company's deferred hedging loss was reclassified from accumulated other comprehensive income into earnings during the third quarter of fiscal year 2011. Prior to the refinancing, during the second quarter of fiscal year 2011, the Company repurchased \$62.5 million of its 2006 Variable Funding Notes in a privately negotiated transaction. The Company recognized a gain of \$5.2 million on the extinguishment of the notes during the second fiscal quarter of 2011. These transactions are reflected within net loss (gain) from early extinguishment of debt in the accompanying Consolidated Statements of Income.

As a result of the May 2011 refinancing discussed above, the Company's arrangement with the third-party insurance company that guaranteed its debt payments under the Company's 2006 Notes was terminated.

(In Thousands, Except Per Share Data)

**11. Other Noncurrent Liabilities**

Other noncurrent liabilities consist of the following at August 31:

	2011	2010
Deferred area development fees	\$ 3,872	\$ 4,709
Escalating land leases payable	8,405	7,565
Deferred income - sale/leaseback	3,799	4,057
Other	1,189	2,090
	<b>\$ 17,265</b>	<b>\$ 18,421</b>

**12. Income Taxes**

The Company's income before the provision for income taxes is classified by source as domestic income.

The components of the provision for income taxes consist of the following for the years ended August 31:

	2011	2010	2009
<b>Current:</b>			
Federal	\$ 5,060	\$ 12,165	\$ 17,512
State	2,223	2,904	2,487
	<b>7,283</b>	15,069	19,999
<b>Deferred:</b>			
Federal	1,876	(5,303)	9,456
State	(5)	(797)	1,423
	<b>1,871</b>	(6,100)	10,879
<b>Provision for income taxes</b>	<b>\$ 9,154</b>	<b>\$ 8,969</b>	<b>\$ 30,878</b>

Table of Contents**Sonic Corp.****Notes to Consolidated Financial Statements (continued)****August 31, 2011, 2010 and 2009****(In Thousands, Except Per Share Data)**

The provision for income taxes differs from the amount computed by applying the statutory federal income tax rate due to the following for the years ended August 31:

	<b>2011</b>	<b>2010</b>	<b>2009</b>
Amount computed by applying a tax rate of 35%	<b>\$ 9,933</b>	\$ 10,562	\$ 28,112
State income taxes (net of federal income tax benefit)	<b>1,441</b>	1,370	2,542
Employment related and other tax credits, net	<b>(1,730)</b>	(1,504)	(1,401)
Benefit from stock option exchange program		(1,471)	
Other	<b>(490)</b>	12	1,625
<b>Provision for income taxes</b>	<b>\$ 9,154</b>	\$ 8,969	\$ 30,878

Prior to the adoption of Topic 810, noncontrolling interests were reported as a component of operating income. Due to the adoption, noncontrolling interests are now presented pre-tax as net income-noncontrolling interests and no longer as a component of operating income. This presentation gives an appearance of a lower effective tax rate than the Company's actual effective tax rate. The following table reconciles the difference in the effective tax rate as a result of adoption of this topic:

	<b>2011</b>	<b>2010</b>	<b>2009</b>
Effective income tax rate reconciliation (post-adoption of Topic 810):			
Effective tax rate per consolidated income statement	<b>31.2%</b>	25.8%	32.3%
Book income attributable to noncontrolling interests	<b>1.1</b>	3.9	6.1
<b>Effective tax rate for the fiscal year</b>	<b>32.3%</b>	29.7%	38.4%

Net deferred tax liabilities **\$ (24,458)**    \$ (13,064)

State net operating loss carryforwards expire generally beginning in 2011. Management does not believe the Company will be able to realize the state net operating loss carryforwards and therefore has provided a valuation allowance of \$6.4 million and \$5.5 million as of August 31, 2011 and August 31, 2010, respectively.

The income tax receivable at August 31, 2011 consists of \$10.1 million for prior-year deductions to be claimed on amended returns and \$2.7 million of current-year overpayments.

F-25

**Table of Contents****Sonic Corp.****Notes to Consolidated Financial Statements (continued)****August 31, 2011, 2010 and 2009****(In Thousands, Except Per Share Data)**

As of August 31, 2011, the Company had approximately \$4,775 of unrecognized tax benefits, including approximately \$872 of interest and penalty. The liability for unrecognized tax benefits decreased by \$853 in fiscal year 2011. The majority of the change was due to the settlement of a state tax audit in the first quarter of fiscal year 2011, which resulted in a decrease to state unrecognized tax positions from prior years. The Company recognizes estimated interest and penalties as a component of its income tax expense, net of federal benefit. If recognized, \$3,074 of unrecognized tax benefits would favorably impact the effective tax rate. A reconciliation of the beginning and ending amount of the unrecognized tax benefits follows:

	<b>2011</b>	<b>2010</b>
Opening balance at September 1	<b>\$ 5,628</b>	<b>\$ 3,419</b>
Additions for tax positions of prior years	<b>672</b>	<b>2,724</b>
Reductions for tax positions of prior years		<b>(5)</b>
Reductions for settlements	<b>(1,104)</b>	<b>(163)</b>
Reductions due to statute expiration	<b>(421)</b>	<b>(347)</b>
Ending balance at August 31	<b>\$ 4,775</b>	<b>\$ 5,628</b>

The Company or one of its subsidiaries is subject to U.S. federal income tax and income tax in multiple U.S. state jurisdictions. The Company is currently undergoing examinations or appeals by various state and federal authorities. The Company anticipates that the finalization of these examinations or appeals, combined with the expiration of applicable statutes of limitations and the additional accrual of interest related to unrecognized benefits on various return positions taken in years still open for examination could result in a change to the liability for unrecognized tax benefits during the next 12 months ranging from a decrease of \$446 to a decrease of \$3,578, depending on the timing and terms of the examination resolutions.

**13. Stockholders Equity****Employee Stock Purchase Plan**

The Company has an employee stock purchase plan ( ESPP ) for all full-time regular employees. Employees are eligible to purchase shares of common stock each year through a payroll deduction not in excess of the lesser of 10% of compensation or \$25 in the stock s fair market value. The aggregate amount of stock that employees may purchase under this plan is limited to 1,139 shares. The purchase price will be between 85% and 100% of the stock s fair market value and will be determined by the Company s Board of Directors.

**Stock-Based Compensation**

The Sonic Corp. 2006 Long-Term Incentive Plan (the 2006 Plan ) provides flexibility to award various forms of equity compensation, such as stock options, stock appreciation rights, performance shares, restricted stock and other share-based awards. At August 31, 2011, 1,939 shares were available for grant under the 2006 Plan. The Company has historically granted only stock options with an exercise price equal to the market price of the Company s stock at the date of grant, a contractual term of seven to ten years, and a vesting period of three years. The Company s policy is to recognize compensation cost for these options on a straight-line basis over the requisite service period for the entire award. Historically, the Company s policy was to issue new shares of common stock to satisfy stock option exercises, the vesting of restricted stock units and shares issued under the ESPP. Beginning in July 2010, the Company began issuing shares from treasury stock to satisfy these items.

## Edgar Filing: SONIC CORP - Form 10-K

In November 2009, the Company's Board of Directors authorized a stock option exchange program that allowed eligible employees the opportunity to exchange certain options granted under the 2006 Plan, the 2001 Stock Option Plan, and the 1991 Stock Option Plan for a lesser number of replacement options with a lower exercise price. The Company's stockholders approved the stock option exchange program on January 14, 2010, and the Company executed the program in the third quarter of fiscal year 2010. The exchange, which was accounted for as a modification of existing stock options, was on an estimated fair value neutral basis and resulted in no incremental compensation expense. The exchange resulted in a tax benefit of \$1.8 million for the conversion of eligible

F-26

**Table of Contents****Sonic Corp.****Notes to Consolidated Financial Statements (continued)****August 31, 2011, 2010 and 2009****(In Thousands, Except Per Share Data)**

incentive stock options to nonqualified stock options. This tax benefit was recognized during the third quarter of fiscal 2010.

In January 2009, the Company began awarding restricted stock units ( RSUs ) to its directors under the 2006 Plan. In addition, in fiscal 2010, the Company awarded RSUs to certain officers under the 2006 Plan. The RSUs have a vesting period of three years, and their fair value is based on the Company s closing stock price on the date of grant.

In 2009, the Company awarded 426 performance share units ( PSUs ) to certain executives under the 2006 Plan. These PSUs, which would have vested at the end of a three-year period if certain Company performance criteria were met, were payable in the Company s common stock. All outstanding PSUs were canceled in August 2010 due to the performance criteria for the first two years not being met and having no probability of performance in the future. As a result, no expense has been recorded for these PSUs.

The Company measures the compensation cost associated with stock-based payments by estimating the fair value of stock options as of the grant date using the Black-Scholes option pricing model. The Company believes the valuation technique and approach utilized to develop the underlying assumptions are appropriate in calculating the fair values of the Company s stock options granted during 2011, 2010 and 2009. Estimates of fair value are not intended to predict actual future events or the value ultimately realized by the employees who receive equity awards.

The per share weighted average fair value of stock options granted during 2011, 2010 and 2009 was \$4.63, \$3.50 and \$3.50, respectively. In addition to the exercise and grant date prices of the awards, certain weighted average assumptions that were used to estimate the fair value of stock option grants in the respective periods are listed in the table below:

	<b>2011</b>	<b>2010</b>	<b>2009</b>
Expected term (years)	<b>4.7</b>	4.5	4.6
Expected volatility	<b>46%</b>	45%	38%
Risk-free interest rate	<b>2.0%</b>	2.2%	1.4%
Expected dividend yield	<b>0%</b>	0%	0%

The Company estimates expected volatility based on historical daily price changes of the Company s common stock for a period equal to the current expected term of the options. The risk-free interest rate is based on the United States treasury yields in effect at the time of grant corresponding with the expected term of the options. The expected option term is the number of years the Company estimates that options will be outstanding prior to exercise considering vesting schedules and our historical exercise patterns.

Cash flows resulting from the tax benefits for tax deductions in excess of the compensation expense recorded for those options (excess tax benefits) are classified as financing cash flows. These excess tax benefits were \$37, \$146 and \$776 for the years ended August 31, 2011, 2010 and 2009, respectively, and are classified as a financing cash inflow in the Company s Consolidated Statements of Cash Flows. The proceeds from exercises of stock options are also classified as cash flows from financing activities and totaled \$2.1 million, \$3.4 million and \$3.8 million for each of the years ended August 31, 2011, 2010 and 2009, respectively.

**Table of Contents****Sonic Corp.****Notes to Consolidated Financial Statements (continued)**

August 31, 2011, 2010 and 2009

(In Thousands, Except Per Share Data)

**Stock Options**

A summary of stock option activity under the Company's stock-based compensation plans for the year ended August 31, 2011 is presented in the following table:

	Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (Yrs.)	Aggregate Intrinsic Value
Outstanding at September 1, 2010	7,474	\$ 12.86		
Granted	549	11.13		
Exercised	(442)	7.88		
Forfeited or expired	(250)	12.00		
Outstanding at August 31, 2011	7,331	\$ 13.06	3.86	\$ 827
Exercisable at August 31, 2011	5,117	\$ 14.39	3.20	\$ 271

The total intrinsic value of options exercised during the years ended August 31, 2011, 2010 and 2009 was \$0.8 million, \$2.6 million and \$2.6 million, respectively.

**Restricted Stock Units**

The fair value of each RSU granted is equal to the market price of the Company's stock at the date of the grant. A summary of the Company's RSU activity during the year ended August 31, 2011 is presented in the following table:

	Restricted Stock Units	Weighted Average Grant Date Fair Value
Outstanding at September 1, 2010	197	\$ 8.89
Granted	23	11.19
Vested	(70)	10.40
Forfeited		
Outstanding at August 31, 2011	150	\$ 9.20

The aggregate fair value of restricted stock that vested during the years ended August 31, 2011 and 2010 was \$0.7 million and \$0.1 million, respectively.

At August 31, 2011, total remaining unrecognized compensation cost related to unvested stock-based arrangements was \$6.7 million and is expected to be recognized over a weighted average period of 1.6 years.

### **Comprehensive Income**

In August 2006, the Company entered into a forward starting swap agreement with a financial institution to hedge part of the exposure to changing interest rates until new financing was closed. The forward starting swap was designated as a cash flow hedge, and was subsequently settled in conjunction with the closing of the 2006 Fixed Rate Notes, as planned. The loss resulting from settlement was recorded net of tax in accumulated other comprehensive income and amortized to interest expense over the expected term of the debt. In conjunction with the Company's May 2011 refinancing discussed in note 10 Debt, the Company's deferred hedging loss was reclassified from accumulated other comprehensive income into earnings during third quarter fiscal year 2011.

Comprehensive income is computed as net income plus the net change in deferred hedging losses. Comprehensive income attributable to Sonic Corp. was \$20.1 million, \$21.9 million and \$50.1 million for the fiscal years 2011, 2010 and 2009, respectively. Comprehensive income attributable to noncontrolling interests was \$0.9 million, \$4.6 million and \$15.4 million for the fiscal years 2011, 2010 and 2009, respectively.

**Table of Contents****Sonic Corp.****Notes to Consolidated Financial Statements (continued)****August 31, 2011, 2010 and 2009****(In Thousands, Except Per Share Data)****14. Segment Information**

ASC Topic 280 Segment Reporting establishes annual and interim reporting standards for an enterprise's operating segments. Operating segments are generally defined as components of an enterprise about which separate discrete financial information is available as the basis for management to allocate resources and assess performance.

Based on internal reporting and management structure, the Company has two reportable segments: Company Drive-Ins and Franchise Operations. The Company Drive-Ins segment consists of the drive-in operations in which the Company owns a controlling ownership interest and derives its revenues from operating drive-in restaurants. The Franchise Operations segment consists of franchising activities and derives its revenues from royalties, initial franchise fees and lease revenues received from franchisees. The accounting policies of the segments are described in note 1 - Summary of Significant Accounting Policies. Segment information for total assets and capital expenditures is not presented as such information is not used in measuring segment performance or allocating resources between segments.

The following table presents the revenues and income from operations for each reportable segment, along with reconciliation to reported revenue and income from operations:

	2011	2010	2009
Revenues:			
Company Drive-Ins	\$ 410,820	\$ 414,369	\$ 567,436
Franchise Operations	131,894	132,016	135,697
Unallocated revenues	3,237	4,541	3,148
	\$ 545,951	\$ 550,926	\$ 706,281
Income from Operations:			
Company Drive-Ins	\$ 55,529	\$ 59,710	\$ 102,560
Franchise Operations	131,894	132,016	135,697
Unallocated income	3,822	3,778	15,656
Unallocated expenses:			
Selling, general and administrative	(64,943)	(66,847)	(63,358)
Depreciation and amortization	(41,225)	(42,615)	(48,064)
Provision for impairment of long-lived assets	(824)	(15,161)	(11,163)
Income from Operations	\$ 84,253	\$ 70,881	\$ 131,328

**15. Employee Benefit and Cash Incentive Plans**

The Company sponsors a qualified defined contribution 401(k) plan for employees meeting certain eligibility requirements. Under the plan, employees are entitled to make pre-tax contributions. The Company matches an amount equal to the employees' contributions up to 6% of the employees' salaries. The Company's matching contributions for the fiscal years ended August 31, 2011, 2010 and 2009 were \$1.5 million,

\$1.0 million and \$1.0 million, respectively.

The Company has Cash Incentive Plans (the Incentive Plans ) that apply to certain members of management and grants of awards under the incentive plans are at all times subject to the approval of the Company s Board of Directors. Under certain awards pursuant to the incentive plans, if predetermined earnings goals for a fiscal year are met, the Incentive Plans provide that a predetermined percentage of the employee s salary may be paid in the form of a bonus. The Company recognized as expense incentive bonuses of \$5.4 million, \$0.8 million and \$1.2 million during fiscal years 2011, 2010 and 2009, respectively.

**(In Thousands, Except Per Share Data)**

**16. Employment Agreements**

The Company has employment contracts with its Chairman and Chief Executive Officer and certain of its officers. These contracts provide for use of Company automobiles or related allowances, medical, life and disability insurance, annual base salaries, as well as incentive bonuses. These contracts also contain provisions for payments in the event of the termination of employment and provide for payments aggregating \$10.1 million at August 31, 2011 due to loss of employment in the event of a change in control (as defined in the contracts).

**17. Commitments and Contingencies**

The Company is involved in various legal proceedings and has certain unresolved claims pending. Based on the information currently available, management believes that all claims currently pending are either covered by insurance or would not have a material adverse effect on the Company's business or financial condition.

The Company has obligations under various lease agreements with third-party lessors related to the real estate for Company Drive-In operations that were sold to franchisees. Under these agreements, the Company remains secondarily liable for the lease payments for which it was responsible as the original lessee. As of August 31, 2011, the amount remaining under guaranteed lease obligations for which no liability has been provided totaled \$9.4 million. At this time, the Company does not anticipate any material defaults under the foregoing leases; therefore, no liability has been provided as of August 31, 2011. In addition, capital lease obligations totaling \$1.2 million are still reflected as liabilities as of August 31, 2011 for properties sold to franchisees and for which the Company remains secondarily liable. At this time, the Company also does not anticipate any material defaults under these leases.

At August 31, 2011, the Company's estimated share of system-wide purchase obligations for food products was approximately \$105 million.

**19. Fair Values of Financial Instruments**

The following discussion of fair values is not indicative of the overall fair value of the Company's consolidated balance sheet since ASC Topic 825, Financial Instruments, does not apply to all assets, including intangibles.

The following methods and assumptions were used by the Company in estimating its fair values of financial instruments:

**Cash and cash equivalents** - Carrying value approximates fair value due to the short duration to maturity.

**Notes receivable** - For variable rate loans with no significant change in credit risk since the loan origination, fair values approximate carrying amounts. Fair values for fixed-rate loans are estimated using discounted cash flow analysis, using interest rates that would currently be offered for loans with similar terms to borrowers of similar credit quality and/or the same remaining maturities.

As of August 31, 2011 and 2010, carrying values approximate their estimated fair values.

**Borrowed funds** - The Company prepares a discounted cash flow analysis for its fixed and variable rate borrowings to estimate fair value each quarter. This analysis uses interest rates being offered in the current market for borrowings with similar terms to the Company's borrowings. There are few leveraged loan transactions occurring in the current market. Management used market information available for public debt transactions for companies with ratings that are at or below the Company's ratings. Management believes this fair value is a reasonable estimate with the information that is available.

At August 31, 2011, the fair value of the 2011 Fixed Rate Notes approximated the carrying value of \$497.0 million (including accrued interest). During the fourth quarter of fiscal year 2011, the Company repaid the outstanding balance under its 2011 Variable Funding Notes. At August 31, 2010, the fair value of the 2006 Fixed Rate Notes was estimated at \$388.1 million versus a carrying value of \$404.0 million (including accrued interest). At August 31, 2010, the fair value of the 2006 Variable Funding Notes was estimated at \$163.6 million versus a carrying value of \$187.3 million (including accrued interest).

**20. Subsequent Event**

On October 13, 2011, the Company's Board of Directors approved a stock repurchase program. Under the stock repurchase program, the Company is authorized to purchase up to \$30 million of its outstanding shares of common stock through August 31, 2012. The purchases may be made from time to time on the open market or in negotiated transactions, depending on share price, market conditions and other factors. The stock repurchase program may be extended, modified, suspended or discontinued at any time.
