Voting Securities and Votes Required

Stockholders of record on March 30, 2012 will be entitled to notice of and to vote at the annual meeting. On that date, 26,043,294 shares of our common stock were issued, outstanding and entitled to vote. Each share of common stock entitles the holder to one vote with respect to all matters submitted to stockholders at the meeting. We have no other securities entitled to vote at the meeting.

Edgar Filing: CORNERSTONE THERAPEUTICS INC - Form DEF 14A

The representation in person or by proxy of at least a majority of the shares of common stock issued, outstanding and entitled to vote at the annual meeting is necessary to establish a quorum for the transaction of business. If a quorum is not present, the meeting will be adjourned until a quorum is obtained.

Directors are elected by a plurality of votes cast by stockholders entitled to vote at the meeting. The ratification of Ernst & Young LLP as our independent registered public accounting firm requires the affirmative vote of the majority of shares present in person or represented by proxy and voting on such matter at the annual meeting. The votes will be counted, tabulated and certified by a representative of First Shareholder Services, who will serve as the inspector of elections at the annual meeting.

Shares which abstain from voting as to a particular matter, and shares held in street name by banks, brokers or other nominees who indicate on their proxy cards that they do not have discretionary authority to vote

Table of Contents

such shares as to a particular matter, which we refer to as broker non-votes, will be counted for the purpose of determining whether a quorum exists but will not have any effect upon the outcome of voting with respect to any matters voted on at the annual meeting.

Stockholders may vote in person or by proxy. Voting by proxy will not in any way affect a stockholder's right to attend the meeting and vote in person. Any stockholder voting by proxy has the right to revoke the proxy at any time before the polls close at the annual meeting by attending the meeting and voting in person, delivering written notice of revocation of your proxy to our Secretary at any time before voting is closed, timely submitting another signed proxy card bearing a later date or timely submitting new voting instructions over the Internet as described below. The shares represented by all properly executed proxies received in time for the meeting or voted by proxy over the Internet will be voted as specified. If the shares you own are held in your name and you do not specify in the proxy card how your shares are to be voted, they will be voted in favor of the election as directors of those persons named as nominees in this proxy statement and in favor of the ratification of Ernst & Young LLP as our independent registered public accounting firm. If any other matters properly come before the meeting, the persons named in the accompanying proxy will vote the shares represented by such proxy on such matters as determined by a majority of our Board of Directors. If the shares you own are held in street name, the bank, broker or other nominee, as the record holder of your shares, is required to vote your shares in accordance with your instructions. In order to vote your shares held in street name, you will need to follow the directions your bank, broker or other nominee provides you.

If your shares are registered directly in your name, you may vote:

Over the Internet. Go to the web site of our tabulator, First Shareholder Services, at <https://www.shareholderlink.com/fss/crtx/pxsignon.asp> and follow the instructions you will find there. You must specify how you want your shares voted or your Internet vote cannot be completed and you will receive an error message. Your shares will be voted according to your instructions.

By Mail. Complete, date and sign the enclosed proxy card and mail it in the enclosed postage-paid envelope to First Shareholder Services. Your proxy will be voted according to your instructions. If you do not specify how you want your shares voted, they will be voted as recommended by our Board of Directors.

In Person at the Meeting. If you attend the meeting, you may deliver your completed proxy card in person or you may vote by completing a ballot, which will be available at the meeting.

If your shares are held in street name for your account by a bank, broker or other nominee, you may vote:

Over the Internet. You will receive instructions from your broker or other nominee if you are permitted to vote over the Internet.

By Mail. You will receive instructions from your broker or other nominee explaining how to vote your shares.

In Person at the Meeting. Contact the broker or other nominee that holds your shares to obtain a broker's proxy card and bring it with you to the meeting. **A broker's proxy is not the form of proxy enclosed with this proxy statement. You will not be able to vote shares you hold in street name at the meeting unless you have a proxy from your broker issued in your name giving you the right to vote the shares.**

Householding of Annual Meeting Materials

Some banks, brokers and other nominee record holders may be participating in the practice of householding proxy statements and annual reports. This means that only one copy of our proxy statement and Annual Report to Stockholders may have been sent to multiple stockholders in your household. We will promptly deliver a separate copy of either document to you upon written or oral request to Cornerstone Therapeutics Inc., Attention of Andrew K. W. Powell, Executive Vice President, General Counsel, and Secretary, 1255 Crescent Green Drive, Suite 250, Cary, North Carolina 27518; telephone: (888) 466-6505. CHIESI TRANSACTION

On May 6, 2009, we and certain of our stockholders entered into a series of transactions and agreements with Chiesi Farmaceutici S.p.A, or Chiesi, which we refer to as the Chiesi Transaction. These agreements include (i) a stock purchase agreement between us and Chiesi; (ii) a separate stock purchase agreement among Chiesi, Cornerstone Biopharma Holdings, Ltd., an entity controlled by Craig A. Collard, our Chief Executive Officer, and the Lutz Family Limited Partnership, an entity controlled by Steven M. Lutz, our former Executive Vice President, Manufacturing and Trade, which we refer to as the Selling Stockholder Stock Purchase Agreement ; (iii) a governance agreement, which expired on July 28, 2011, among us, Chiesi and, with respect to certain sections, certain of our stockholders, which we refer to as the Governance Agreement ; (iv) a license and distribution agreement between us and Chiesi, which we refer to as the U.S. CUROSUR Agreement ; and (v) a stockholders agreement, as subsequently amended, among Chiesi, Mr. Collard, Mr. Lutz, Cornerstone Biopharma Holdings, Ltd., the Lutz Family Limited Partnership and Carolina Pharmaceuticals Ltd., or Carolina Pharmaceuticals, an entity controlled by Mr. Collard, which we refer to as the Stockholders Agreement.

In connection with the closing of the Chiesi Transaction, the Governance Agreement became effective, and our Board of Directors approved the amendment and restatement of our bylaws pursuant to its provisions. Among other things, the Governance Agreement (i) contained certain governance provisions related to the structure and composition of our Board of Directors, including reconstituting our Board of Directors to consist of two classes of directors; (ii) provided Chiesi with certain majority stockholder rights that were incorporated in our certificate of incorporation and bylaws; (iii) required us to take or cause to be taken all lawful action necessary to ensure that our certificate of incorporation and bylaws were not at any time inconsistent with the Governance Agreement s provisions; (iv) imposed certain restrictions on Chiesi, including restrictions on its purchases and transfers of our common stock; and (v) required Chiesi, Mr. Collard, Mr. Lutz and the entities controlled by them to vote their shares in favor of the directors nominated for election in accordance with the Governance Agreement and otherwise in a manner consistent with the Governance Agreement. The provisions of the Governance Agreement were effective through July 28, 2011 (two years following the closing of the Chiesi Transaction).

Also in connection with the closing of the Chiesi Transaction, the Stockholders Agreement became effective. Among other things, the Stockholders Agreement generally required Mr. Collard, Mr. Lutz and the entities controlled by them to refrain, through July 28, 2011, from purchasing and transferring our common stock beneficially owned by them except in accordance with the agreement. The Stockholders Agreement continues to require Mr. Collard to vote in favor of a transaction whereby Chiesi or its affiliates would acquire all of our outstanding common stock.

Although the Governance Agreement has expired, our certificate of incorporation still provides that, so long as Chiesi beneficially owns (together with its affiliates) not less than 40% of our outstanding common stock on a fully diluted basis (as defined in our certificate of incorporation) we must seek approval from Chiesi to, among other things:

consummate an acquisition of any business or assets for a price in excess of \$25,000,000;

sell, lease, transfer or otherwise dispose of a business or assets for a price in excess of \$25,000,000 (other than a sale in the ordinary course of business);

issue any equity security or other capital stock other than pursuant to employee incentive plans or upon the exercise of any option, warrant, or similar right; and

repurchase or redeem any equity security other than redemptions required by the terms thereof, purchases made at fair market value in connection with any deferred compensation plan and repurchases of unvested or restricted stock issued pursuant to any employee, officer, director or consultant compensation plan.

CORPORATE GOVERNANCE

General

Our management and Board of Directors believe that good corporate governance is important to ensure that we are managed for the long-term benefit of our stockholders. This section describes key corporate governance practices that we have adopted.

Controlled Company Exemption under NASDAQ Marketplace Rules

We are a controlled company within the meaning of applicable rules of The NASDAQ Stock Market LLC, or NASDAQ, because more than 50% of our voting power is held by Chiesi. Therefore, we are not subject to the NASDAQ listing requirements that would otherwise require us to have (i) a Board of Directors comprised of a majority of independent directors; (ii) compensation of our executive officers determined, or recommended to our board for determination, by a majority of our independent directors or a compensation committee comprised solely of independent directors; and (iii) director nominees selected, or recommended for our board's selection, either by a majority of our independent directors or a nominating committee comprised solely of independent directors. Nevertheless, as discussed below, we have established the Compensation Committee to approve executive officer compensation and the Nominating and Corporate Governance Committee to select director nominees, each of which is comprised solely of independent directors.

Board Determination of Independence

Under applicable NASDAQ rules, a director will only qualify as an independent director if, in the opinion of our Board of Directors, that person does not have a relationship which would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. These rules also specify certain persons whose relationships with us would preclude them from being considered independent. Our Board of Directors has determined that each of the following current members of our Board of Directors is an independent director as defined under applicable NASDAQ rules, including that each such director is free of any relationship that would interfere with the exercise of his independent judgment in carrying out his responsibilities as a director: Mr. Codeanne, Mr. Enright, Mr. Harper, Mr. Heffernan and Mr. Stephan. In reaching the determination with respect to Mr. Stephan, the Board of Directors considered Mr. Stephan's representation of Chiesi in various matters unrelated to the Chiesi Transaction, the fees he receives from Chiesi under consulting and/or retainer arrangements, and his non-employee Vice President, Secretary and director positions at Chiesi Pharmaceuticals Inc., USA, a subsidiary of Chiesi.

Board Leadership Structure

Our Chief Executive Officer, Craig A. Collard, is also the chairman of our Board of Directors. Our Board of Directors has determined this leadership structure is the most effective way to ensure that it remains focused on the key issues affecting our company. Mr. Collard founded Cornerstone BioPharma, has been our chairman and Chief Executive Officer since the Merger and oversaw our entry into the Chiesi Transaction. Although we do not have a lead independent director, our Board of Directors which consists primarily of either independent directors or directors designated by Chiesi exercises a strong, independent oversight function. This oversight function is enhanced by the fact that each of our board committees is comprised of directors with significant experience in the pharmaceutical industry and our Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee are each comprised entirely of independent directors.

Board Oversight and Risk Management

Our Board of Directors has responsibility for establishing broad corporate policies and reviewing our overall performance rather than day-to-day operations. The primary responsibility of our Board of Directors is to oversee our management and, in doing so, assess and manage the risks inherent in our business in order to serve our best interests and the best interests of our stockholders. The Board of Directors selects, evaluates and provides for the succession of executive officers and, subject to stockholder election, directors. It reviews and approves corporate

objectives and strategies, and assesses the risks presented by those strategies and the manner in which management intends to mitigate those risks. In the exercise of its risk oversight function, our Board of Directors solicits and reviews regular updates from key members of management about significant policies and proposed major commitments of corporate resources. Our Board of Directors also participates in decisions that have a potential major economic impact on us. In addition to making reports and presentations at Board of Directors and committee meetings, our management keeps the directors informed of our activity through regular communication. While each of our standing board committees is responsible for assessing risks within its respective area of responsibility and for making appropriate risk management recommendations to our Board of Directors, our full board is principally responsible for evaluating business risks and determining whether any risk mitigation measures should be implemented.

Board Meetings and Attendance

Our Board of Directors met eight times during the fiscal year ended December 31, 2011, either in person or by teleconference. During 2011, each of our current directors attended at least 75% of the aggregate of the total number of board meetings held during the period each has been a director and the total number of meetings held by all committees on which each director then served.

We have no formal policy requiring director attendance at the annual meeting of stockholders, although all directors are expected to attend the annual meeting if they are able to do so. One of our directors attended the 2011 annual meeting.

Board Committees

Our Board of Directors has established four standing committees: the Audit Committee, the Compensation Committee, the Nominating and Corporate Governance Committee and the Investment Committee. The members of each committee are appointed by our Board of Directors, upon the recommendation of the Nominating and Corporate Governance Committee, and serve one-year terms. Each of these committees operates under a charter that has been approved by the Board of Directors. With the exception of the Investment Committee, whose charter is still in the process of being finalized, we have posted current copies of each committee's charter on the Corporate Governance section of our website, which can be found at www.crtx.com.

The Board of Directors has determined that all of the members of each of the Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee are independent as defined under NASDAQ rules and, in the case of all members of the Audit Committee, that they meet the additional independence requirements of Rule 10A-3 under the Securities Exchange Act of 1934, as amended (the Exchange Act).

reviewing and making recommendations to the Board of Directors with respect to management succession planning;

developing and recommending to the Board of Directors corporate governance principles; and

overseeing periodic evaluation of the Board of Directors.

The members of the Investment Committee are Mr. Harper, Mr. Heffernan and Mr. Failla. Mr. Harper serves as chair of the Investment Committee. The Investment Committee was established in January 2012 and held its first meeting in February 2012.

Executive and Director Compensation Process

Our Compensation Committee is responsible for approving the compensation of our executive officers, subject to ratification by our Board of Directors. As part of this process, our Compensation Committee has implemented an annual performance review program for our executive officers. As part of that program, the committee considers actual corporate performance compared to our corporate goals and individual performance compared to individual goals, as well as various subjective performance criteria. Each executive officer's individual performance goals relate to our corporate goals.

Additionally, on a rolling basis, our Compensation Committee tracks progress towards our corporate and individual goals, assesses the continuing relevance of those goals, and may add to or revise those goals as necessary or appropriate based on emergent challenges and opportunities. Any change in our corporate goals is subject to adoption by the full Board of Directors.

Our Compensation Committee evaluates each executive officer against his individual goals. Evaluation begins with a written self-assessment, which is submitted to our Chief Executive Officer. Our Chief Executive Officer then prepares a written evaluation based on the executive officer's self-assessment, the Chief Executive Officer's own evaluation and input from other employees. This process leads to a recommendation by our Chief Executive Officer to the Compensation Committee for annual executive salary increases, annual stock option and restricted stock awards and bonuses, if any, for executive officers other than himself. The Compensation Committee then reviews our corporate performance, and in light of that review considers the recommendations of the Chief Executive Officer. Upon completion of this review and consideration, the committee may approve or amend, in its discretion, the recommended annual executive salary increases, annual stock option and restricted stock awards and bonuses, if any, for our executive officers. In the case of our Chief Executive Officer, his individual performance evaluation is conducted by the Compensation Committee, which then approves any annual salary increase, annual stock option and restricted stock award and bonus. For more information regarding this process, see [Information About Executive and Director Compensation Process for Determining Executive Compensation](#).

Our Compensation Committee periodically reviews and makes recommendations to the Board of Directors regarding director compensation. Currently, each of our non-employee directors is compensated pursuant to our compensation and reimbursement policy. For more information regarding this policy, see [Information About Executive and Director Compensation Director Compensation for Fiscal 2011](#).

Our Compensation Committee may delegate its authority to the chair of the committee to the extent it deems necessary to finalize matters as to which the committee has given its general approval.

Our Compensation Committee has the authority to retain compensation consultants and other outside advisors to assist in the evaluation of executive officer compensation. During 2011, our Compensation

Table of Contents

Committee did not retain a compensation consultant to assist in setting executive compensation. However, for 2011, in order to improve its understanding of compensation practices at companies in the specialty pharmaceutical sector, the committee considered market data from a variety of sources, including the Radford Survey covering pharmaceutical and bio-technology companies having between 150 and 499 employees and between \$50 million and \$150 million in revenues. For more information regarding the role of compensation consultants and surveys, see [Information About Executive and Director Compensation](#) [Process for Determining Executive Compensation](#) [Role of Compensation Consultants and Surveys](#).

Director Nomination Process

The Nominating and Corporate Governance Committee is responsible for identifying individuals qualified to become board members, consistent with criteria approved by the board, and recommending the persons to be nominated for election as directors, except where we are legally required by contract, bylaw or otherwise to provide third parties with the right to nominate directors. The process followed by the Nominating and Corporate Governance Committee to identify and evaluate director candidates includes requests to board members and others for recommendations, meetings from time to time to evaluate biographical information and background material relating to potential candidates and interviews of selected candidates by members of the committee and the board, with direct input from our Chief Executive Officer. From time to time, the Nominating and Corporate Governance Committee may retain the services of an executive search firm to help identify and evaluate potential director candidates but did not retain such services during the year ended December 31, 2011.

In considering whether to recommend any particular candidate for inclusion in the board's slate of recommended director nominees, the Nominating and Corporate Governance Committee applies certain criteria, including the candidate's reputation for integrity, honesty and adherence to high ethical standards, business acumen, experience and judgment, understanding of our business and industry, diligence, conflicts of interest or the appearance thereof, other directorships and their impact on the ability of the candidate to devote adequate time to service on our board and the ability to act in the interests of all stockholders. The committee does not assign specific weights to particular criteria, and no particular criterion is a prerequisite for any prospective nominee. Our Board of Directors has adopted guidelines that provide that nominees shall not be discriminated against on the basis of race, religion, national origin, sex, sexual orientation, disability or any other basis proscribed by law and require the Nominating and Corporate Governance Committee to consider the value of diversity on our board. The Nominating and Corporate Governance Committee implements and assesses the effectiveness of these guidelines and the board's commitment to diversity by considering these guidelines in our assessment of potential director nominees and the overall make-up of our Board of Directors. We believe that the backgrounds and qualifications of our directors, considered as a group, should provide a significant breadth of experience, knowledge and abilities that will assist our board in fulfilling its responsibilities.

Pursuant to our certificate of incorporation and our bylaws, the Nominating and Corporate Governance Committee selects and recommends the directors for nomination by our Board of Directors.

Stockholders may recommend individuals to the Nominating and Corporate Governance Committee for consideration as potential director candidates by submitting their names, together with appropriate biographical information and background materials and a statement as to whether the stockholder or group of stockholders making the recommendation has beneficially owned more than 5% of our common stock for at least a year as of the date such recommendation is made, to the Nominating and Corporate Governance Committee, c/o Corporate Secretary, Cornerstone Therapeutics Inc., 1255 Crescent Green Drive, Suite 250, Cary, North Carolina 27518. Assuming that appropriate biographical and background material has been provided on a timely basis, the Nominating and Corporate Governance Committee will evaluate stockholder recommended candidates by following substantially the same process, and applying substantially the same criteria, as it follows for candidates submitted by others. As described in [Stockholder Proposals](#) below, stockholders also have the right under Section 1.10 of our bylaws to directly nominate director candidates, without any action or recommendation on the part of the Nominating and Corporate Governance Committee or the board, by following the procedures set forth therein.

Communicating with the Independent Directors

The board will give appropriate attention to written communications that are submitted by stockholders, and will respond if and as appropriate. The chairman of the Nominating and Corporate Governance Committee, with the assistance of our General Counsel, is primarily responsible for monitoring communications from stockholders and for providing copies or summaries to the other directors as he considers appropriate.

Communications are forwarded to all directors if they relate to important substantive matters and include suggestions or comments that the chairman of the Nominating and Corporate Governance Committee considers to be important for the directors to know. In general, communications relating to corporate governance and corporate strategy are more likely to be forwarded than communications relating to ordinary business affairs, personal grievances and matters as to which we tend to receive repetitive or duplicative communications.

Stockholders who wish to send communications on any topic to the board should address such communications to the Board of Directors, c/o Corporate Secretary, Cornerstone Therapeutics Inc., 1255 Crescent Green Drive, Suite 250, Cary, North Carolina, 27518. You should indicate on your correspondence that you are a Cornerstone Therapeutics Inc. stockholder.

Anyone may express concerns regarding questionable accounting or auditing matters or complaints regarding accounting, internal accounting controls or auditing matters to the Audit Committee by calling the voicemail box at (800) 799-6158. Messages to the Audit Committee will be received by the members of the Audit Committee and our Corporate Secretary. You may report your concern anonymously or confidentially.

Pre-Approval Policy and Procedures

The Audit Committee has adopted policies and procedures relating to the approval of all audit and non-audit services that are to be performed by our independent registered public accounting firm. This policy generally provides that we will not engage our independent registered public accounting firm to render audit or non-audit services unless the service is specifically approved in advance by the Audit Committee or the engagement is entered into pursuant to one of the pre-approval procedures described below.

From time to time, the Audit Committee may pre-approve specified types of services that are expected to be provided to us by our independent registered public accounting firm during the next 12 months. Any such pre-approval is detailed as to the particular service or type of services to be provided and is also generally subject to a maximum dollar amount.

The Audit Committee has also delegated to the chair of the Audit Committee the authority to approve any audit or non-audit services to be provided to us by our independent registered public accounting firm. Any approval of services by the chair of the Audit Committee pursuant to this delegated authority is reported at the next meeting of the Audit Committee.

Related Person Transactions

U.S. CUROSURF Agreement

As a result of the Chiesi Transaction, Chiesi manufactures all of our requirements of CUROSURF, which we began promoting and selling in September 2009. Pursuant to the U.S. CUROSURF Agreement, we pay to Chiesi the greater of a percentage of the net sales price for CUROSURF or the applicable floor price set forth in the agreement. Inventory purchases from Chiesi under the U.S. CUROSURF Agreement from inception through March 31, 2012 aggregated approximately \$60.4 million. As of March 31, 2012, we had accounts payable of approximately \$2.1 million due to Chiesi.

Policies and Procedures Regarding Review, Approval or Ratification of Related Person Transactions

In March 2007, our Board of Directors adopted written policies and procedures for the review of any transaction, arrangement or relationship in which we are a participant, the amount involved exceeds \$120,000 and one of our executive officers, directors, director nominees or 5% stockholders (or their immediate family members), each of whom we refer to as a related person, has a direct or indirect material interest.

If a related person proposes to enter into such a transaction, arrangement or relationship, which we refer to as a related person transaction, the related person must report the proposed related person transaction to our General Counsel, who we refer to as our chief legal officer. The policy calls for the proposed related person transaction to be reviewed and, if deemed appropriate, approved by the Audit Committee. Whenever practicable, the reporting, review and approval will occur prior to entry into the transaction. If advance review and approval is not practicable, the Audit Committee will review, and, in its discretion, may ratify the related person transaction. The policy also permits the chair of the Audit Committee to review and, if deemed appropriate, approve proposed related person transactions that arise between committee meetings, subject to ratification by the Audit Committee at its next meeting. Any related person transactions that are ongoing in nature will be reviewed annually.

A related person transaction reviewed under the policy will be considered approved or ratified if it is authorized by the Audit Committee after full disclosure of the related person's interest in the transaction. As appropriate for the circumstances, the Audit Committee will review and consider:

the related person's interest in the related person transaction;

the approximate dollar value of the amount involved in the related person transaction;

the approximate dollar value of the amount of the related person's interest in the transaction without regard to the amount of any profit or loss;

whether the transaction was undertaken in the ordinary course of our business;

whether the terms of the transaction are no less favorable to us than terms that could have been reached with an unrelated third party;

the purpose of, and the potential benefits to us of, the transaction; and

any other information regarding the related person transaction or the related person in the context of the proposed transaction that would be material to investors in light of the circumstances of the particular transaction.

The Audit Committee may approve or ratify the transaction only if the committee determines that, under all of the circumstances, the transaction is in, or is not in conflict with, our best interests. The Audit Committee may impose any conditions on the related person transaction that it deems appropriate.

In addition to the transactions that are excluded by the instructions to the SEC's related person transaction disclosure rule, our Board of Directors has determined that the following transactions do not create a material direct or indirect interest on behalf of related persons and, therefore, are not related person transactions for purposes of this policy:

interests arising solely from the related person's position as an executive officer of another entity (whether or not the person is also a director of such entity), that is a participant in the transaction, where (a) the related person and all other related persons own in the aggregate less than a 10% equity interest in such entity, (b) the related person and his or her immediate family members are not

Edgar Filing: CORNERSTONE THERAPEUTICS INC - Form DEF 14A

involved in the negotiation of the terms of the transaction and do not receive any special benefits as a result of the transaction, and
(c) the amount involved in the transaction equals less than the greater of \$200,000 or 5% of the annual gross revenues of the company receiving payment under the transaction; and

a transaction that is specifically contemplated by provisions of our charter or bylaws.

The policy provides that transactions involving compensation of executive officers shall be reviewed and approved by the Compensation Committee in the manner specified in its charter.

During the fiscal years ended December 31, 2011 and 2010 and the subsequent interim period through the date of Ernst & Young's engagement, we did not consult with Ernst & Young regarding (i) the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on our financial statements, and Ernst & Young did not provide either a written report or oral advice to us that Ernst & Young concluded was an important factor considered by us in reaching a decision as to any accounting, auditing, or financial reporting issue or (ii) any matter that was either the subject of any disagreement (as described in Item 304(a)(1)(iv) of Regulation S-K) or a reportable event (as described in Item 304(a)(1)(v) of Regulation S-K).

We provided Grant Thornton a copy of these disclosures and requested that Grant Thornton furnish us with a letter addressed to the SEC stating whether or not Grant Thornton agrees with the above statements. Executive Summary

Key Executive Compensation Actions and Highlights

In 2011, we continued to implement our pay for performance philosophy, taking into account both our company's performance and various considerations that affect our ability to achieve our strategic growth objectives. The elements of our compensation process, and the rationale for each, are described below.

For 2011, we did not award merit increases in base salary to our named executive officers. For 2012, our Compensation Committee again decided not to award merit increases in base salary to our named executive officers, but made a small adjustment to Mr. Powell's base salary since it had been unchanged since his hiring in 2009.

Our Compensation Committee nonetheless determined that we performed well in 2011, including over-achieving our financial goals for non-GAAP income from operations and growth in sales of our strategic products. The Committee also noted that we defined and began to execute our strategic plan, and that we met most of our other corporate and organizational goals. Accordingly, our named executive officers received cash bonuses which, when taken together as a group, represented payment of substantially all of their target bonuses for 2011.

Our Compensation Committee determined that it would keep annual cash bonus targets for 2012 at 2011 levels.

In March 2011 and February 2012, we granted stock options to each of our named executive officers who had been with us for more than six months. These awards reflected our corporate performance, the executives' individual performance and the target equity award levels reflected in certain executives' employment agreements.

Compensation Governance

Consistent with our philosophy of pay for performance, the following features are built into our executive compensation process to ensure appropriate process and governance:

Our Compensation Committee is comprised solely of independent directors.

Our Compensation Committee uses independently generated third party data to obtain an understanding of compensation practices at companies in our industry.

Our Compensation Committee approves and reviews our executive officers' individual goals to ensure that they are aligned with our corporate goals and that they do not create incentives to engage in behaviors that might expose us to undue risk or have a material adverse effect on us.

Our Compensation Committee regularly reviews our executive compensation program as a whole, including base salaries, annual cash incentives and equity-based incentives, to ensure that it properly rewards the value of executives' contributions to the achievement of our corporate goals.

Our Board of Directors has adopted a clawback policy that will allow us to seek recovery of certain compensation from our executive officers in the event of an accounting restatement caused by our material noncompliance with applicable financial reporting requirements.

Our policies include stringent insider trading policy prohibitions as well as prohibitions on speculating or trading in derivative instruments related to company securities.

In 2011 we provided, and every three years thereafter we expect to provide, our stockholders with the opportunity to cast an advisory vote on executive compensation as required by Section 14A of the Exchange Act.

Executive Compensation Philosophy

The principal objectives of our executive compensation program are to attract and retain talented executives. Our philosophy is then to use compensation as a tool for rewarding performance and thereby creating and maintaining stockholder value.

Elements of Compensation

We have entered into executive employment agreements with each of our named executive officers. Each of our named executive officers is entitled to the following elements of compensation, which are discussed more fully below:

base salary;

target bonus (in the discretion of our Compensation Committee); and

target equity awards (in the discretion of our Compensation Committee).

Compensation Principles, Philosophy and Objectives

The following principles have guided our Compensation Committee in developing our compensation programs and in determining total compensation levels for our executive officers:

we must be prepared to compete with larger organizations with greater resources for executive talent;

our compensation practices should take into account the ongoing transformation of our business and our continuing growth strategies; and

our compensation programs should encourage our executive officers to increase long-term stockholder value in a manner that appropriately rewards the achievement of specified short-term objectives without creating undue risk for us or our stockholders. The goal of our executive compensation program is to attract and retain key employees and then motivate them to achieve and reward them for achieving our business goals. We do this by:

Table of Contents

providing competitive compensation that consists of cash and equity-based components that appropriately encourage and reward performance and create enduring long-term stockholder value;

rewarding our executive officers for their individual contributions to our success;

aligning the interests of our executives as a group by linking individual executive compensation to the company-wide achievement of both our short-term operating imperatives and our long-term strategic objectives; and

aligning the interests of our executives with those of our stockholders by building a culture of equity ownership and shared risk.

Elements of Executive Compensation

Consistent with our executive officers' employment agreements, our Compensation Committee determined that the compensation of our executive officers for 2011 should consist of base salary, a discretionary bonus and stock-based compensation. The committee does not target a specific mix of executive compensation by allocating total compensation across cash and noncash pay, between current and long-term pay or among different types of long-term incentive awards.

Our overall executive compensation program includes the following major elements:

Compensation Element	Objective	Key Features
Base salary	Provide a fixed level of cash compensation based on responsibilities, background, training and experience to encourage retention and recognize performance.	Annually reviewed by our Compensation Committee.
Cash Bonus	Reward executive officers for their individual performance and contributions to corporate performance. Reinforce pay for performance.	Determined in the discretion of our Compensation Committee based on broad parameters, not fixed formulas.
Stock-based compensation	Align our executive officers' long-term interests with those of our stockholders by rewarding officers for sustaining long-term corporate performance; encourage retention through the use of vesting provisions.	Consists of stock options and, for certain executive officers under certain circumstances, restricted stock awards.
Broad-based benefits	Provide a safety net of protection against the financial catastrophes that can result from illness, disability or death.	Executive officers participate in the same plans as other employees, except that our medical insurance, dental insurance and vision insurance plans are provided to them at no cost.
Perquisites and severance benefits	Promote client development and fulfillment of business duties on an efficient and cost-effective basis; provide reasonable level of severance compensation in certain circumstances.	Designed to represent a small part of our overall compensation package.

Process for Determining Executive Compensation

Overview

Our Compensation Committee annually approves salary increases, targets for annual bonuses, the amounts of stock option and restricted stock awards and payouts of bonuses, in its discretion. In exercising its discretion, the committee considers our actual corporate performance compared to our corporate goals and actual individual performance compared to individual goals, as well as various subjective performance criteria. In general, our Compensation Committee does not take into account amounts realizable from prior compensation when making future pay decisions.

Role of Executive Officers

Our Chief Executive Officer assists our Compensation Committee by annually developing the individual objectives and reviewing the performance of each of our executive officers (other than his own, which is reviewed by our Compensation Committee). Our Chief Executive Officer generally makes specific recommendations regarding salary adjustments and amounts of discretionary bonuses, if any, for each executive. Our Chief Executive Officer's recommendations are then reviewed by our Compensation Committee. That review includes a rigorous assessment of our overall corporate performance and the performance of individual executives, and includes consideration of any factors that are relevant to corporate or executive performance. The committee then either approves our Chief Executive Officer's recommendations or exercises its discretion by modifying any recommended salary adjustments and/or bonus payments to our executive officers. In exercising its discretion the committee may take into account the market data information discussed below.

Role of Compensation Consultants and Surveys

In setting executive compensation, our Compensation Committee generally considers, along with various other factors, the compensation paid to officers with similar responsibilities in similar companies. Our Compensation Committee does not retain a compensation consultant to assist in setting executive compensation. However, in order to improve its understanding of compensation practices at companies in our industry, our Compensation Committee does consider market data from a variety of sources, including the Radford Survey covering pharmaceutical and bio-technology companies having between 150 and 499 employees and between \$50 million and \$150 million in revenues. The committee does not use this data, or any customized subset thereof, to benchmark its compensation decisions. In 2011, after establishing compensation levels, it used this data to assess and confirm generally whether the nature and overall level of compensation paid to our executives, including the compensation packages provided to our newly hired executives, is reasonably sufficient to support our objectives of attracting and retaining talented executives. Our Compensation Committee did not attempt to align our overall compensation structure to any specific percentile of the companies whose data it reviewed.

Role of Corporate and Individual Performance

Our Compensation Committee believes that our success is dependent upon, and reflective of, the performance of our senior management team, including our executive officers. In an effort to appropriately incentivize our executives to achieve certain objectives, the committee approves various commercialization, research, clinical, regulatory, financial, operational and organizational goals. The process of setting performance goals begins with our Chief Executive Officer proposing our annual corporate goals. These are reviewed by our Compensation Committee and then modified as the committee believes is appropriate. Our Compensation Committee then recommends that our full Board provisionally adopt these corporate goals, subject to further review and adjustment throughout the year as necessary based on changing market and competitive conditions.

Once we have set our corporate goals, we establish individual goals for each of our executive officers. Our Chief Executive Officer's individual goals are the same as our corporate goals. The individual goals for our other executive officers are set early in the first quarter of the calendar year and focus on contributions that will facilitate the achievement of our corporate goals. Each executive officer reviews our corporate goals and

Table of Contents

proposes individual goals that appropriately support our corporate goals, taking into account the executive's functional responsibilities. These individual goals are approved by our Chief Executive Officer and then submitted to our Compensation Committee for discussion, revision and adoption.

Our Compensation Committee regularly tracks our progress towards our corporate and individual goals, and in 2011 this was a standing agenda item for all regularly scheduled Compensation Committee meetings. As part of this process the Compensation Committee also assesses the continuing relevance of these goals, and may add to or revise these goals as necessary or appropriate based on emergent challenges and opportunities. Our Compensation Committee believes that if our focus changes due to market shifts or potential opportunities, our goals, on an individual and corporate basis, should be correspondingly adjusted to encourage our executive officers to position us to capitalize on such shifts and opportunities, rather than focusing on past goals that may or may not continue to enhance stockholder value. Any change in our corporate goals is subject to adoption by the full Board of Directors.

Goals may relate to objective financial metrics (such as the achievement of a certain level of sales), to objective non-financial achievements (such as the approval of a product for sale) or to qualitative performance (such as building and integrating a new process into our operational structure). We intend for goals to be achievable as the result of sustained focused effort on the part of the executive team, and it is our expectation that in normal circumstances executives will achieve substantially all of their individual goals, and as a result we will achieve substantially all of our corporate goals.

Corporate Performance

When making compensation decisions for our executive officers with respect to annual bonuses and equity awards, our Compensation Committee first assesses the level to which we have achieved our corporate goals. The assessment of the achievement of any corporate goal is in the discretion of our Compensation Committee, and may exceed 100%. In reaching an overall assessment of corporate performance, our Compensation Committee may choose to weight our corporate goals. The overall assessment may be expressed as a percentage of full goal achievement. The assessment takes into account any revisions to goals made throughout the year. The weighting of particular goals is a matter of committee discretion, though as a general rule the committee ascribes particular weight to goals related to financial performance. While total achievement of all corporate goals, as revised during the year, may not be expected, our Compensation Committee demands that management significantly advance our business objectives and the interests of stockholders throughout the year for the committee to consider it appropriate to base decisions regarding cash and equity incentive compensation on an overall assessment that we achieved our corporate goals at 100% or more.

Individual Performance

Having made an overall assessment of corporate performance, our Compensation Committee then assesses the level to which each of our executive officers achieved their individual goals. In assessing individual achievement, our Compensation Committee may choose to weight an individual's goals, and the resulting assessment may be expressed as a percentage of full goal achievement.

In making compensation decisions for each individual executive officer, our Compensation Committee considers both the executive's achievement of his individual goals and our achievement of our corporate goals. Because the goals of our Chief Executive Officer are the same as our corporate goals, the committee's assessment of his individual achievement will be the same as the committee's overall assessment of our corporate performance. In the case of other executive officers, the committee will exercise its discretion in balancing individual achievement and corporate performance when determining annual cash bonus and equity awards, as it deems appropriate.

Table of Contents

Our Compensation Committee believes that it is not appropriate, at our stage of development, to have a rigid funding metric for executive bonus and equity awards. However, as a general matter, the committee believes that, in the absence of special circumstances, our pay-for-performance philosophy demands that actual annual bonus and equity awards made to our executive officers, as a group, should not reflect a level of achievement in excess of that reflected in the committee's overall assessment of corporate performance. Our Compensation Committee believes that, at this time, this flexible but principled process is appropriate because it allows the committee to consider (i) goals established by the committee at the beginning of the year and goals communicated to our executive officers at any point throughout the year, (ii) the effects of unanticipated events and circumstances on our business or on a particular executive's performance, and (iii) the performance of our executives in managing change, addressing emergent challenges and exploiting unexpected opportunities.

Our 2011 corporate and individual goals and their impact on our named executive officers' compensation are discussed more fully below.

Impact of 2011 Say-on-Pay Vote on Executive Compensation

In approving the 2012 compensation of our named executive officers, our Compensation Committee considered the results of the advisory vote on executive compensation at the 2011 Annual Meeting of Stockholders. Over 99% of the votes cast on this say-on-pay proposal were voted in favor of approving, on an advisory basis, the compensation of our named executive officers. Our Compensation Committee believes these results affirm our stockholders' support of our approach to executive compensation. Accordingly, our Compensation Committee did not adopt any changes to our executive compensation based on the results of the say-on-pay vote. Our Compensation Committee will continue to consider the outcome of say-on-pay proposals when making future compensation decisions for our named executive officers.

Executive Compensation in 2011***Base Salary***

Our Compensation Committee has established base salaries for our named executive officers at levels that are intended to reflect the scope of their responsibilities and relevant backgrounds, training and experience. When establishing a named executive officer's base salary, our Compensation Committee takes into account his seniority, his level of responsibility, the functional role of the position and compensation practices in the pharmaceutical industry and among public companies. The Compensation Committee reviews our named executive officers' base salaries annually.

The following table shows annual base salaries in effect for 2010, 2011 and 2012 for each named executive officer, as well as the percentage increase from 2011 to 2012:

Executive	2010 Base Salary	2011 Base Salary	Percent Increase	2012 Base Salary
Craig A. Collard	\$ 400,000	\$ 400,000	N/A	\$ 400,000
Vincent T. Morgus	N/A	\$ 285,000	N/A	\$ 285,000
Kenneth R. McBean	N/A	\$ 295,000	N/A	\$ 295,000
Andrew K. W. Powell	\$ 275,000	\$ 275,000	2%	\$ 280,500
Alan Roberts	\$ 231,750	\$ 231,750	N/A	\$ 231,750
Steven M. Lutz	\$ 267,800	\$ 267,800	N/A	N/A

For 2011, we did not award merit increases in base salary to our named executive officers. For 2012, our Compensation Committee again decided not to award merit increases in base salary to our named executive officers, but made a small adjustment to Mr. Powell's base salary since it had been unchanged since his hiring in 2009.

Annual Performance-Based Cash Incentive Compensation

Our current named executive officers are eligible for annual cash bonuses pursuant to the terms of their respective employment agreements. Annual bonuses are intended to link our strategic and corporate operating plans with individual performance, and to provide executive officers with incentives to achieve greater corporate performance by focusing on the attainment of specific goals.

Our Compensation Committee annually determines the target cash bonus for each named executive officer based on a percentage of such officer's annual base salary. Although the employment agreements we have entered into with each of our named executive officers provide for target cash bonuses up to 50% for Mr. Collard, 40% for Mr. McBean and 35% for our other named executive officers, our Compensation Committee retains discretion to set the target cash bonuses for each named executive officer either above or below these levels. For 2011, our Compensation Committee set the target cash bonus for each of our named executive officers, other than Mr. Collard, at the maximum target level set forth in the executive's respective employment agreement. In the case of Mr. Collard, the committee set the target cash bonus percentage at 75% of base salary to incentivize performance during 2011.

2011 Cash Bonus

When exercising its discretion in awarding cash bonuses for 2011, our Compensation Committee considered our achievement of our overall corporate goals and our named executive officers' achievement of their individual goals. In part, our Compensation Committee used non-GAAP income from operations as one of the measures of our performance. The section titled "Reconciliation of Non-GAAP Financial Measures" on pages 68 and 69 of Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2011 filed with the SEC on March 6, 2012 contains an explanation of how we calculate this measure and provides a reconciliation of this measure to the most directly comparable GAAP measure. In reviewing all of our 2011 corporate goals, our Compensation Committee focused on the degree to which we were able to achieve our corporate goals, which included:

To achieve net revenue in excess of \$112.5 million for all products;

To achieve net revenue in excess of \$76.8 million for strategic products;

To achieve non-GAAP income from operations in excess of \$14.1 million;

To finalize, communicate and execute a strategic plan;

To complete an acquisition transaction meeting the criteria set forth in our strategic plan;

To meet the product development milestones set forth in our strategic plan;

To achieve target prescription levels of strategic products; and

To make certain organizational changes to enhance organizational alignment, efficiency and compliance.

Based on its review of our corporate performance, our Compensation Committee determined that we performed well in 2011 and over-achieved most of our financial goals, and while failing to achieve certain product development milestones, substantially achieved most of our other goals. Our Compensation Committee ultimately determined that 95% represented a reasonable estimate of the extent to which we had met our corporate goals for 2011 and was therefore an appropriate basis from which to make bonus determinations.

Edgar Filing: CORNERSTONE THERAPEUTICS INC - Form DEF 14A

In making this estimate, our Compensation Committee considered all aspects of our corporate performance in 2011, focusing on the following key financial and non-financial results for the year:

Net revenues from all products were 101.4 million in 2011, but were negatively impacted by unexpected actions by the FDA that limited our ability to harvest revenues from our marketed unapproved products which we ceased to manufacture and sell on December 31, 2010;

Table of Contents

Net revenues from strategic products increased \$5.2 million to \$79.9 million in 2011;

Non-GAAP income from operations was \$18.3 million in 2011;

We completed and announced a strategic plan in June 2011;

We completed the acquisition of Cardiokine, Inc. in December 2011;

We did not meet all of our product development milestones;

We substantially achieved target prescription levels of our strategic products; and

We made significant organizational changes that enhanced our organizational alignment, our efficiency and our compliance efforts. In reaching its final assessment that we achieved nearly all of our goals, our Compensation Committee applied a subjective approach, ascribing particular weight to our achievement of financial metrics and our significant over-achievement in strategic product revenues, as well as the effective execution of key initial elements of our strategic plan. At the same time, however, our Compensation Committee also took note of the fact that, due in part to certain factors outside of our control, we did not achieve all of our sales targets (particularly with respect to our marketed unapproved products) or all of our objectives with respect to our product development projects.

In addition to considering our overall corporate performance, our Compensation Committee also took into account the achievement by our named executive officers of the following individual goals:

Craig Collard. Mr. Collard's goals were the same as our corporate goals, so the committee assessed his performance in the same way that it assessed our overall performance.

Ken McBean. Mr. McBean's goals related to the assumption of all responsibility for our commercial functions. In determining Mr. McBean's annual cash bonus award, the committee noted the progress that Mr. McBean had made during his four month tenure in connection with the achievement of key priorities identified in our strategic plan.

Andrew Powell. Mr. Powell's goals related to the management of our disclosure and compliance functions, the reduction of our legal expenses, the completion of certain acquisition and divestiture transactions, the rationalization of our intellectual property portfolio and the adoption of governance and organizational processes appropriate for a company of our size and structure. In determining Mr. Powell's annual cash bonus award, the committee considered that our corporate goals and the interests of our stockholders were significantly advanced in each of these areas.

Vincent Morgus. Mr. Morgus's goals related to the management of our finance and investor relations functions, the upgrade and continuous improvement of our planning, budgeting and reporting processes, the enhancement of our business development function and the achievement of certain working capital targets. In determining Mr. Morgus's annual cash bonus award, the committee considered the progress achieved by our finance and investor relations functions, the increase in opportunities identified by our business development function and our performance against our working capital goal.

Edgar Filing: CORNERSTONE THERAPEUTICS INC - Form DEF 14A

Alan Roberts. Mr. Roberts' s goals related to advancement of various of our pipeline products and product candidates, the upgrade and continuous improvement of our quality and compliance functions and the establishment of, and adherence to, timelines and budgets for various projects identified in our strategic plan. In determining Mr. Roberts' s annual cash bonus award, the committee considered that some of our development projects had not advanced as planned.

Our Compensation Committee' s assessment of each named executive officer' s achievement was then weighed together with the committee' s overall assessment of our performance against our corporate goals. The committee, in its discretion, then made awards to each executive officer such that total cash bonus payouts to all executive officers, as a group (which includes all of our named executive officers), did not exceed the committee' s overall assessment of the extent to which we achieved our corporate goals.

- (2) Mr. McBean' s employment with us commenced on September 6, 2011. Under the terms of his executive employment agreement, his prorated target bonus for fiscal 2011 was 13% of his annual base salary.
- (3) Mr. Lutz' s employment with us terminated on September 30, 2011. Under the terms of his executive employment agreement, we were required to pay him 100% of his 2011 target bonus pro-rated to the date of his termination.

2012 Target Cash Bonus

Our Compensation Committee determined that it would keep annual cash bonus targets at 2011 levels, and for purposes of measuring performance and determining appropriate incentive awards it would follow a similar process to that followed in 2011.

Stock-Based Compensation*Background*

Our named executive officers are generally awarded initial stock options and/or, in certain cases, restricted stock grants at the time of hire. Additionally, our Compensation Committee approves annual grants of options to our named executive officers based on level of responsibility and perceived overall contribution to the generation of stockholder value. The degree to which an individual achieved his goals for a particular year is factored into making the assessment of overall contribution, but the individual' s performance of non-goal specific activities may be taken into account. Although we do not measure ourselves against a specific benchmark, we believe that the annual aggregate value of awards (using the Black Scholes-Merton or equivalent valuation methodology) of options to named executive officers reflects competitive levels for similar companies, as reflected in the third-party data that is available to our Compensation Committee.

We have granted certain named executive officers shares of restricted stock at the time of hire because we believe that in such circumstances restricted stock enables us to attract executive talent and is a powerful retention tool. On an ongoing basis, however, we believe that the grant of options to purchase common stock is the best way to give executives an incentive to build and sustain stockholder value over an extended period of time. Options also align the interests of executives and stockholders by enabling our executives to participate in any increase in stockholder value resulting from their efforts. Our stock option and restricted stock grants typically provide for vesting over four years, which encourages retention.

Our Compensation Committee generally approves annual equity awards at the committee meeting held in conjunction with the first meeting of the Board of Directors each year, and, if its decision is ratified by our Board, such awards are normally effective on the date of ratification. We believe that this timing is appropriate as it provides sufficient time for a thorough review of corporate and individual performance during the preceding year, while also providing timely reinforcement for award recipients. Our Compensation Committee awards equity grants without regard to any scheduled or anticipated release of material information. We do not accelerate or delay equity grants in response to material

information, nor do we delay the disclosure of information due to plans to make equity grants.

Table of Contents*Impact of the Chiesi Transaction*

In connection with the Chiesi Transaction, entities controlled by Mr. Collard and Mr. Lutz sold shares to Chiesi, and Mr. Collard, Mr. Lutz and the entities controlled by them agreed to refrain, through July 28, 2011, from purchasing or transferring our common stock except in accordance with the Stockholders Agreement (as discussed below). Mr. Collard and Mr. Lutz also entered into executive employment agreements with us (as discussed more fully below) in which they each agreed that they would not be eligible to receive any annual equity awards, unless approved by our Board of Directors or a committee thereof.

Mr. Roberts, who was also employed by us at the time of the Chiesi Transaction, entered into executive employment agreement that provides that he would be eligible to receive an annual target equity award in the form of an option to purchase, in whole or in part, up to 50,000 shares of our common stock in each of the years 2010, 2011 and 2012, vesting over a four-year period, subject to his continued employment with us. He also agreed not to transfer a certain number of his shares through July 28, 2011.

2011 Equity Awards

In March 2011, we made annual stock option awards to each of our named executive officers, other than Mr. Morgus (whose employment commenced in February 2011) and Mr. McBean (whose employment commenced in September 2011). In making the equity awards to Mr. Collard, Mr. Lutz, Mr. Powell and Mr. Roberts, our Compensation Committee considered their achievements in 2010, including:

Craig Collard. The committee considered 2010 performance, and specifically the fact that in 2010 Mr. Collard's leadership was particularly important in the achievement of our financial goals and the positioning of our company for growth after ceasing manufacture and sale of marketed unapproved products .

Steven Lutz. The committee considered that in 2010 Mr. Lutz made a significant contribution to the sales of marketed unapproved products and the growth of our company.

Andrew Powell. The committee considered that in 2010 Mr. Powell made a significant contribution to positioning us for growth after ceasing manufacture and sale of marketed unapproved products, and that the interests of our stockholders were significantly advanced in each of his areas of responsibility.

Alan Roberts. The committee considered that in 2010 Mr. Roberts made a significant contribution to the advancement of our product pipeline, the establishment of our cough and cold platform, and the improvement in our quality systems.

In 2011 our Compensation Committee made equity awards to Mr. Morgus and Mr. McBean at the start of their employment with us, in amounts deemed appropriate to their positions. In light of their consideration, our Compensation Committee approved, and our Board of Directors ratified, the following stock option grants to our named executive officers in 2011:

Executive	No. of Options
Craig A. Collard	95,000
Vincent T. Morgus	70,000
Kenneth R. McBean	75,000
Andrew K. W. Powell	50,000
Alan Roberts	42,500
Steven M. Lutz	50,000

Each option award vests over four years, with 25% vesting on the one-year anniversary of the grant date and the remaining 75% vesting in 36 equal monthly installments, subject to the named executive officer's continued employment with us.

Consistent with our policy, in connection with the appointment during 2011 of Mr. Morgus as our Executive Vice President, Finance and Chief Financial Officer and Mr. McBean as our President, we granted Mr. Morgus 55,000 shares of restricted stock and Mr. McBean 50,000 shares of

restricted stock. Each restricted stock award

Table of Contents

vests over four years, with 25% vesting on the one-year anniversary of the grant date and the remaining 75% vesting approximately 6.3% on a day to be randomly determined in each of the next 11 calendar quarters (provided that in no event shall the days so chosen in two consecutive quarters be less than 60 days apart from each other).

2012 Equity Awards

In February 2012, our Compensation Committee, in the exercise of its discretion to make executive equity awards, conducted the same analysis of corporate and individual performance as it conducted in determining the level of 2011 cash bonuses (see Annual Performance-Based Cash Incentive Compensation above). As a result of this analysis, and taking into account the annual equity award targets set forth in certain of the named executive officers' employment agreements, we made the following stock option grants to our named executive officers in 2012:

Executive	No. of Options
Craig A. Collard	95,000
Vincent T. Morgus	45,000
Kenneth R. McBean	
Andrew K. W. Powell	50,000
Alan Roberts	12,500

Each option award vests over four years, with 25% vesting on the one-year anniversary of the grant date and the remaining 75% vesting in 36 equal monthly installments, subject to the executive's continued employment with us.

Stock Ownership and Retention Guidelines

Although we encourage our executive officers and directors to hold stock in our company to better align their interests with those of our stockholders, we do not currently have in place any formal stock ownership or retention guidelines. However, we provide equity awards to each of our executive officers and directors, and each of these equity awards contains vesting provisions that prevent such persons from disposing of these shares until these conditions are satisfied. In addition, our insider trading policy prohibits our executive officers and directors, as well as certain of their family members and all entities controlled by them, from engaging in short sales of our securities or puts and purchases or sales of puts or calls for speculative purposes. We believe that these provisions are currently sufficient to promote equity ownership in our company by our executive officers and directors and to help align their interests with those of our stockholders.

Other Elements of Compensation

We primarily compensate our named executive officers through base salaries, annual bonuses and annual stock option grants. In addition, our Compensation Committee has determined that it is appropriate to provide our named executive officers the same broad-based benefits as our other employees, a limited amount of perquisites and certain protections in the event of the termination of the named executive officer's employment with us and/or in connection with a change in control.

Broad-based benefits

Our named executive officers, like other employees, are entitled to participate in our employee benefit plans, including medical insurance, dental insurance, vision insurance, life insurance, long-term disability insurance and a 401(k) savings plan, including Company matching contributions. In addition, our named executive officers, unlike other employees, are not required to make any payments or other contributions to participate in our medical insurance, dental insurance or vision insurance plans. Our Compensation Committee has determined that it is appropriate to provide medical, dental and vision insurance at no cost to our named executive officers as part of our compensation package to help us attract and retain superior talent and to encourage our named executive officers to utilize these programs.

Table of Contents

Perquisites

We have provided limited perquisites to our named executive officers as a means of providing additional compensation to them, through the availability of benefits that are convenient for the executives to use when faced with the demands of their positions. During 2011, these perquisites included the use of company cars or automobile allowances, and in the case of Mr. Collard and Mr. Lutz, country club memberships. Because our Compensation Committee has determined that the payment of perquisites generally does not fit our pay-for-performance model, it only represents a relatively small part of our overall compensation package. Accordingly, our Compensation Committee only approves the payment of perquisites in limited circumstances after consideration of business needs. Our Compensation Committee periodically reviews these arrangements to ensure they continue to fulfill our business needs.

Executive Employment Agreements

We have entered into employment agreements with each of our named executive officers. The form of these agreements was negotiated in connection with our transaction with Chiesi. In light of the competitive industry in which we operate, combined with our majority ownership by Chiesi, our Compensation Committee believes that these employment agreements are necessary for us to attract and retain the talent necessary to lead our company. We also believe that our executive employment agreements help focus our executive officers on performance and enhancing stockholder value.

Our executive employment agreements provide benefits in connection with certain terminations of employment and certain changes of control. These provisions are discussed more fully in *Potential Payments Upon Termination and Change in Control Employment Agreements* below. In general, if we terminate a named executive officer without cause, or if the named executive officer resigns with good reason, the officer is entitled to cash severance, continuation of healthcare benefits and acceleration of vesting of his outstanding equity awards by one year. If such without cause or good reason termination occurs three months before or three months after a change of control, the executive officer's equity will become 100% vested.

In addition, if we experience a change of control, we provide our named executive officers with immediate acceleration of their equity. We believe that accelerating the vesting of outstanding equity awards is appropriate because, depending on the structure of the transaction, the continuation of such awards may unnecessarily complicate a potentially beneficial transaction. It may not be possible to replace these awards with comparable awards of the acquiring company's stock, and we believe that it would not be fair to our executives to lose the benefit of these outstanding awards. The acceleration of such awards may allow the executive to exercise the awards and possibly participate in the change in control transaction for the shares received. We believe that our change of control benefits promote the stability and retention of our named executive officers in the event of a potential change of control and assist them in being able to react neutrally and not be influenced by personal financial concerns. In addition, the acceleration of vesting aligns the interests of executives in a potential change of control transaction with those of our stockholders, by motivating them to work towards the completion of the transaction.

Tax and Accounting Considerations

Tax Deductibility of Compensation Expense

Under Section 162(m) of the Internal Revenue Code of 1986, as amended, a publicly held corporation such as ours will generally not be allowed a federal income tax deduction for otherwise deductible compensation paid to our named executive officers to the extent that compensation paid to a particular officer is not performance-based and exceeds \$1 million in any fiscal year. However, qualifying performance-based compensation, including compensation attributable to the issuance or exercise of equity incentives, such as nonstatutory stock options, will not be subject to the deductibility limitation if certain conditions are met.

Table of Contents

The base salaries, cash bonuses and certain equity incentive components of our executive compensation program (e.g., any service-based restricted stock awards that we make) generally do not constitute qualifying performance-based compensation for purposes of Section 162(m). However, given that the annual non-performance-based compensation of our named executive officers is below \$1 million per year, Section 162(m) does not have a significant impact on our Compensation Committee's executive compensation decisions.

Accounting Considerations

Our Compensation Committee also considers the accounting and cash flow implications of various forms of executive compensation. In our financial statements, we record salaries and bonuses as expenses in the amount paid or to be paid to our named executive officers. Accounting rules also require us to record an expense in our financial statements for equity awards, even though equity awards are not paid as cash to employees. The accounting expense of equity awards to employees is calculated in accordance with GAAP. Under GAAP, stock-based compensation expense is measured at the grant date based on the fair value of the award and is generally recognized on a straight-line basis over the vesting period. Our Compensation Committee believes that the many advantages of equity compensation, as discussed above, more than compensate for the non-cash accounting expense associated with it.

Executive Incentive Compensation Recovery (Clawback) Policy

Our Board of Directors adopted an Executive Incentive Compensation Recovery (Clawback) Policy, effective as of March 2, 2011, pursuant to which, in the event that noncompliance with applicable financial reporting requirements results in a material restatement of our financial statements, we will have the right to recover from an executive officer any portion of cash or equity incentive compensation awards granted after January 1, 2011 in excess of what should have been paid or awarded. We will implement this policy in accordance with the rules of the SEC, as they are promulgated.

Risk Management

Our Compensation Committee endeavors to design our compensation programs to help ensure that these programs do not encourage our executive officers to take unnecessary and excessive risks that could harm our long-term value. We believe that the following components of our executive compensation program, which are discussed more fully below, discourage our executive officers from taking unnecessary or excessive risks:

Base salaries and benefits are sufficiently competitive and not subject to performance risk.

Individual and corporate goals for our executive officers are generally designed to be achievable with sustained and focused effort.

Stock option awards begin vesting no earlier than one year from the date of grant and only have value if our share price increases, thus aligning our executives' interests with the interests of our stockholders.

Our clawback policy allows us to seek recovery of certain compensation from our executive officers in the event of accounting restatement caused by our material noncompliance with applicable financial reporting requirements. Our Compensation Committee annually reviews our executive compensation programs to ensure that they do not encourage excess risk-taking.

Compensation Program Risk Assessment

During 2011, we conducted a risk assessment of our compensation policies and practices for all of our employees (not just our executive officers). Based on this review, we concluded that risks arising from our compensation policies and practices for our employees are not reasonably likely to have a material adverse effect on us. Our risk assessment included a review of program policies and practices; program analysis to identify risk and risk control related to the programs; and determinations as to the sufficiency of risk identification, the balance of potential risk to potential reward, risk control and the support of the programs and their risks to company strategy. Although we reviewed all compensation programs, we focused on the programs with variability of payout (e.g., bonus plans and sales commissions), with the ability of a participant to directly affect payout and the controls on participant action and payout. As part of our review, we specifically noted the following factors that reduce the likelihood that excessive risk taking would have a material adverse effect on us: (i) a strong internal control structure, (ii) payment to our employees of competitive base salaries and benefits that are not subject to performance risk, (iii) performance bonuses that are not based on preset formulas but are in the discretion of our Compensation Committee and (iv) short-term incentive compensation that is counterbalanced with long-term incentive compensation.

Potential Payments Upon Termination and Change in Control**Employment Agreements**

We have entered into employment agreements with each of our named executive officers that provide that each of our named executive officers is (or was) entitled to minimum annual base salary; consideration for a discretionary target annual bonus specified as a percentage of the executive officer's base salary; car allowance or reimbursement; certain health, retirement and other benefits; and severance. The discretionary target annual bonus amounts are (or were) 50% for Mr. Collard, 40% for Mr. Lutz and Mr. McBean and 35% for our other named executive officers. In addition, the employment agreement for Mr. Roberts provides for target annual awards of options to purchase 50,000 shares of our common stock, in the discretion of the Compensation Committee, in each of 2010, 2011 and 2012.

Each of the employment agreements with our named executive officers provides (or provided) that the named executive officer may not compete with us during the term of his employment and, if his employment is terminated, for certain periods following termination. For Mr. Collard, the noncompetition period continues for (i) one and a half years following a termination without Cause or for Good Reason and not during a Change of Control Period, (ii) two years following a termination without Cause or for Good Reason during a Change of Control Period and (iii) one year following a termination under any other circumstances. The noncompetition period for each of our other named executive officers extends for one year following termination in all circumstances.

The employment agreements also prohibit each of our named executive officers from soliciting, among others, our employees and customers during the term of his employment and for one year following the termination of his employment. Each employment agreement also contains customary provisions relating to confidentiality, proprietary information and non-disparagement and provides that upon a Change of Control 100% of the named executive officer's unvested stock options and restricted stock vest, regardless of whether his employment is terminated.

If we terminate a named executive officer's employment without Cause or if the named executive officer terminates his employment for Good Reason and such termination is not during a Change of Control Period, and if the executive officer executes a release and settlement agreement in a form acceptable to us, he will be entitled to:

a lump sum payment equal to one times (1.5 times in the case of Mr. Collard) his annualized base salary;

continuation of benefits for the shorter of 12 months or until he is eligible for other employer-sponsored health coverage;

a lump sum payment in an amount equal to a pro rata payment of his target cash bonus; and

accelerated vesting of all of his outstanding unvested stock options and restricted stock by one year.

Table of Contents

With respect to Mr. Morgus and Mr. McBean, however, if we had provided (in the case of Mr. Morgus) or if we provide (in the case of Mr. McBean) notice of termination without Cause prior to the first anniversary of the effective date of the executive's employment agreement, the above provisions would be inapplicable.

If we terminate a named executive officer's employment without Cause or if the named executive officer terminates his employment for Good Reason and such termination is during a Change in Control Period, and if the named executive officer executes a release and settlement agreement in a form acceptable to us, he will be entitled to:

a lump sum payment equal to one times his annualized base salary (two times his highest annualized base salary during the three-year period prior to the Change in Control in the case of Mr. Collard);

continuation of benefits for the shorter of 12 months (24 months in the case of Mr. Collard) or until he is eligible for other employer-sponsored health coverage;

a lump sum payment in an amount equal to a pro rata payment of his target cash bonus (the annual bonus paid or payable for the most recently completed fiscal year in the case of Mr. Collard); and

accelerated vesting of 100% of his outstanding unvested stock options and restricted stock.

If Mr. Collard's employment is terminated due to his death, then his estate will receive a lump sum payment in an amount equal to a pro rata payment of the annual cash bonus, if any, paid to him in the year prior to his death. For all other named executive officers, if terminated due to their death, the named executive officer's estate will receive a lump sum payment in an amount equal to a pro rata payment of the annual cash bonus for which such named executive officer would have been eligible.

Upon termination of Mr. Collard's employment, we will pay or reimburse Mr. Collard for the balance of the remaining lease payments on the vehicle provided by us for his use, and will assign and transfer title and other appropriate evidence of ownership of the vehicle to him in exchange for \$100.

our failure to comply with a material term of the named executive officer's employment agreement; or

a material reduction in the named executive officer's level of responsibility to that which is not consistent with the position held by the named executive officer.

In addition, Mr. Morgus's and Mr. McBean's executive employment agreements further provide that "Good Reason" exists if (i) our shares cease to be publicly traded at a time when Chiesi and its affiliates do not own at least 50% of our outstanding shares or (ii) our shares are delisted from or by NASDAQ at a time when Chiesi and its affiliates do not own at least 50% of our outstanding shares.

Change of Control means:

an acquisition of beneficial ownership of our capital stock by any one person or group (other than, in the case of Mr. Morgus and Mr. McBean, Chiesi or its affiliates) if, following such acquisition, such person or group has 50% or more of the combined voting power of our then-outstanding securities entitled to vote generally in the election of directors;

such time as the Continuing Directors (as defined below) do not constitute a majority of our Board of Directors, where the term "Continuing Director" means at any date a member of the Board of Directors (i) who was a member of the Board of Directors on the date of the initial adoption of the Employment Agreement by the Board of Directors or (ii) who was nominated or elected subsequent to such date by at least a majority of the directors who were Continuing Directors at the time of such nomination or election or whose election to the Board of Directors was recommended or endorsed by at least a majority of the directors who were Continuing Directors at the time of such nomination or election; provided, however, that (x) there shall be excluded from clause (i) any individual whose initial assumption of office occurred as a result of an actual or threatened election contest with respect to the election or removal of directors or other actual or threatened solicitation of proxies or consents, by or on behalf of a person other than the Board of Directors and (y) with respect to Mr. Morgus and Mr. McBean, changes in board composition initiated by Chiesi or its affiliates do not constitute a Change of Control;

the consummation of a merger, consolidation, reorganization, recapitalization or share exchange involving us or a sale or other disposition of all or substantially all of our assets unless, immediately following such transaction (i) all or substantially all of the individuals and entities who were the beneficial owners of the outstanding voting securities immediately prior to such transaction beneficially own, directly or indirectly, more than 50% of the combined voting power of the then-outstanding securities entitled to vote generally in the election of directors, respectively, of the resulting or acquiring corporation in such transaction in substantially the same proportions as their ownership of the outstanding voting securities immediately prior to such transaction and (ii) no person beneficially owns, directly or indirectly, 50% or more of the combined voting power of the then-outstanding securities of such corporation entitled to vote generally in the election of directors (except to the extent that such ownership existed prior to such transaction); or

our liquidation or dissolution.

Payments Upon Termination or Change of Control

The following table summarizes the estimated amounts payable to each named executive officer, other than Mr. Lutz, in the event of a termination of employment or change of control, or both. These estimates are based on the assumption that the various triggering events occurred on December 30, 2011, the last business day of fiscal 2011. In September 2011, Mr. Lutz left our company to pursue other opportunities. In connection with the termination of his employment, Mr. Lutz received the following severance benefits: (i) a lump sum payment in an amount equal to his current annual base salary and a pro rata portion of his target cash bonus for 2011,

(ii) monthly payments in the amount of 100% of the monthly COBRA premiums for continued health and dental coverage for him and his dependents and 100% of the amount of the monthly premiums paid by our company for life insurance and disability insurance for him until the earlier of one year after his last day of employment or the last day of the first month when he is eligible for other employer-sponsored health coverage; and (iii) accelerated vesting of his outstanding unvested stock options by one year.

The date of our 2013 annual meeting of stockholders has not yet been established, but assuming it is held on May 22, 2013, in order to comply with the time periods set forth in our bylaws, appropriate notice for the 2013 annual meeting would need to be provided to our Corporate Secretary no earlier than January 22, 2013 and no later than February 21, 2013.
