Recent Developments:

Edgar Filing: COMCAST CORP - Form FWP

Our NBCUniversal segments reported a 34.3% increase in total operating income before depreciation and amortization (operating cash flow) for the three months ended March 31, 2012, compared to the pro forma combined results for the three months ended March 31, 2011. As previously disclosed, we currently expect NBCUniversal's operating cash flow for the six months ended June 30, 2012 to be flat to slightly down from the prior year six month pro forma combined results. The prior year's second quarter included favorable results from two movies, *Fast Five* and *Bridesmaids*, and a large content licensing deal, whereas NBCUniversal's current quarter will reflect negative results from *Battleship* and *5-Year Engagement*, and a somewhat lower contribution from cable networks, as NBCUniversal continues to invest in original and sports content.
