REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustees and Participants of Monsanto Savings and Investment Plan,

Pension and Savings Funds Investment Committee of Monsanto Company,

and Monsanto Company Employee Benefits Plans Committee

We have audited the accompanying statements of net assets available for benefits of Monsanto Savings and Investment Plan (the Plan) as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2011 and 2010, and the changes in net assets available for benefits for the year ended December 31, 2011, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of (1) Schedule of Assets (Held at End of Year) as of December 31, 2011, (2) Schedule of Assets (Acquired and Disposed of Within Year) for the Year Ended December 31, 2011, and (3) Schedule of Reportable Transactions for the year ended December 31, 2011, are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act 1974. These schedules are the responsibility of the Plan s management. Such schedules have been subjected to the auditing procedures applied in our audit of the basic 2011 financial statements and, in our opinion, are fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

MONSANTO SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF DEC. 31, 2011 AND DEC. 31, 2010 AND FOR THE YEAR ENDED DEC. 31, 2011

NOTE 1. INFORMATION REGARDING THE PLAN

GENERAL

The following description of the Monsanto Savings and Investment Plan (the Plan or the SIP) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan s provisions.

The Plan was established as of June 11, 2001, as a successor to a portion of the Pharmacia Corporation Savings and Investment Plan (Pharmacia Plan) for the benefit of certain employees and former employees (Transferred Participants) of Monsanto Company (Monsanto or the Company). Effective July 1, 2001, the assets of the Pharmacia Plan that were allocated to the accounts of the Transferred Participants were transferred to the trust established under the Plan. Also effective July 1, 2001, a portion of the unallocated assets and liabilities (primarily debt) of the leveraged employee stock ownership plan (ESOP) component of the Pharmacia Plan were transferred to the Plan.

ADMINISTRATION

Monsanto is the sponsor of the Plan. The Monsanto Company Employee Benefits Plans Committee (Administrative Committee) is responsible for administering the Plan in accordance with the Employee Retirement Income Security Act of 1974 (ERISA) and Plan documents. Fidelity Workplace Investing LLC serves as the record keeper of the Plan. The Monsanto Pension and Savings Funds Investment Committee (Investment Committee) is responsible for monitoring Plan investments. The trustee of the Plan is The Northern Trust Company (Northern).

PARTICIPANT ACCOUNTS

The Plan is a contributory defined contribution profit sharing plan with individual accounts for each participant. U.S. employees classified as regular employees and who have attained age 18 generally are eligible to participate in the Plan upon employment. U.S. employees classified as temporary employees and who have attained age 18 generally are eligible to participate in the Plan after 1,000 hours of service. The cost of Plan administration is borne by Plan participants.

Each participant s account is credited with the participant s contributions, Company contributions and the pro-rata share of any Plan investment earnings and is reduced by the pro-rata share of any Plan investment losses, transaction costs and certain administrative and investment management expenses. Participants accounts are valued on a daily basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant s vested account balance.

EMPLOYEE CONTRIBUTIONS

The Plan provides for voluntary employee contributions generally ranging from one percent to 25 percent of an employee s eligible pay. Employees have an option to make before-tax contributions or after-tax contributions. Subject to annual limits on before-tax contributions and the results of required Internal Revenue Service (IRS) discrimination testing, contributions may be all before-tax, all after-tax, or a combination of both. Plan participants other than those also participating in the Company s ERISA Parity Savings and Investment Plan may change the amounts of their contributions on a daily basis. Generally, participant contributions to the Plan may be invested in one percent increments and, during 2010 and 2011, could be allocated in any combination to the following investment fund options at the direction of the participant: a stable value fund, a bond index fund, a balanced fund consisting of both fixed income and equity securities, a growth and income equity fund, an international equity fund, a growth equity fund, a U.S. equity index fund, a treasury inflation-protected securities (TIPS) bond fund, a value equity fund, a small cap growth equity fund, a small cap value equity fund, the Monsanto Stock Fund, which invests in Monsanto common stock, and four asset allocation funds consisting of varying pre-set mixes of certain of the aforementioned investment funds. The four asset allocation funds allow participants varying degrees of risk and return. The Plan includes targeted roundtrip participant trading restrictions. A roundtrip is defined as an exchange in and then out of a fund in less than a 30-day period. Under these restrictions, participants are limited to one roundtrip transaction per fund within any 90-day rolling period and four roundtrip transactions across all funds over a rolling 12-month period. These targeted restrictions apply to all investment options except the Stable Value Fund. Generally, participants may transfer their contributions, Company contributions and any earnings thereon among the investment options on a daily basis, subject to the roundtrip trading restrictions described above.

4

MONSANTO SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS (continued)

AS OF DEC. 31, 2011 AND DEC. 31, 2010 AND FOR THE YEAR ENDED DEC. 31, 2011

The Plan has an automatic enrollment feature with respect to newly hired employees. If the employee is eligible to participate in the SIP, he or she will be automatically enrolled in the Plan at a four percent before-tax salary deferral rate, 45 days after date of hire or rehire (or for temporary employees hired on or after July 1, 2007, 45 days after completing 1,000 hours of service) unless, within such 45 day period he or she elects not to participate.

Participants may be eligible to make a before-tax catch-up contribution if they are at least age 50 on or before the end of the calendar year and either currently contributing at least seven percent of their eligible pay per pay period to the SIP or had reached the IRS annual limit on before-tax contributions (\$16,500 in 2011). For 2011, eligible participants could have elected a before-tax catch-up contribution of up to \$5,500. The catch-up contributions are not eligible for Company matching contributions and are subject to the same rules as other before-tax contributions. The annual catch-up contribution limit may increase in future years in accordance with limits prescribed by the IRS.

The before-tax option allows participants to elect to make before-tax contributions from eligible gross pay before most income taxes are deducted. Participants generally cannot withdraw before-tax contributions without income tax penalties until age 59 1/2, disability, death, separation from service after age 55, or for payments that are part of a series of substantially equal periodic payments made for the life of the employee or the joint lives of the employee and a designated beneficiary. After-tax contributions are made from participants eligible pay after income taxes are deducted. Withdrawal of after-tax employee contributions can be made with no penalty.

COMPANY CONTRIBUTIONS AND VESTING

Employee contributions to the Plan, up to a maximum of seven percent of eligible pay, generally are matched 60 percent by the Company. In 2011 and 2010, Company matching contributions of \$33.4 million and \$29.3 million, respectively, were applied to the Plan. The Plan also has a Company discretionary match contribution feature. Generally, Company matching contributions are invested in Monsanto common stock held in the Company Stock Funds investment option in participants accounts. Participants may transfer matching contributions and all other amounts from the Company Stock Fund into any other investment option available under the Plan at any time, whether or not they are fully vested in those amounts.

In December 2011 and 2010, the Company determined that a discretionary matching contribution of an additional 30 percent and 10 percent, respectively, on the first 10 percent of eligible pay would be made to active participants employed by the Company on Dec. 31, 2011, and 2010, as applicable. The value of these discretionary matching contributions of \$22.5 million and \$6.9 million, respectively, were applied to the Company Stock Fund investment option in eligible participants accounts in February 2012 and February 2011, respectively, through an allocation of previously unallocated Monsanto Company common stock held by the ESOP, based on the value of a share of Monsanto common stock on Feb. 17, 2012, and Feb. 18, 2011, respectively.

In order for the Plan to pass certain IRS nondiscrimination testing requirements with respect to the 2010 Plan year, the Company made Qualified Non-Elective Contributions (QNECs), in an amount equivalent to five percent of eligible pay to all non-highly compensated employees of the Company and other employees participating in the Plan whose total Plan eligible pay in 2010 was \$280.00 or less, were at least age 21, and had at least one year of service by Dec. 31, 2010, whether or not the employee was contributing to the Plan. As permitted by the terms of the Plan, amounts attributable to Plan forfeitures as of Dec. 31, 2010, were used to fund the QNECs. A QNEC in an amount of less than \$0.1 million was allocated to eligible participants accounts in May 2011. The contributions were applied to eligible participants accounts in accordance with their then-current investment elections for participant contributions. In the absence of such election, the contribution was applied to the participant s account in accordance with the Plan s default investment option, the Moderately Aggressive pre-mixed portfolio. The Plan passed certain IRS nondiscrimination testing requirements with respect to the 2011 Plan year. Therefore, no QNECs were made.

Generally, Company contributions vest and become non-forfeitable at the rate of 20 percent per year of service, such that Company contributions are 100 percent vested after five years of service; participants receiving a QNEC referred to above are fully vested in those amounts. Company contributions immediately vest upon a change of control of the Company, as defined in the Plan.

5

MONSANTO SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS (continued)

AS OF DEC. 31, 2011 AND DEC. 31, 2010 AND FOR THE YEAR ENDED DEC. 31, 2011

An actively employed Plan participant with at least five years of service under the Plan may, at any time, withdraw all or a portion of his or her Plan account attributable to participant after-tax contributions, rollover contributions, and vested Company contributions (other than QNECs and qualified matching contributions). An actively employed Plan participant with less than five years of service under the Plan may, at any time, withdraw all or a portion of his or her Plan account attributable to participant after-tax contributions, rollover contributions, and vested Company contributions (other than those Company contributions made to the account during the immediately preceding 24 months, QNECs, and qualified matching contributions). At age 59 1/2, a Plan participant may withdraw any portion of his or her Plan account to the extent vested.

LEVERAGED ESOP

Pursuant to the establishment of the Plan in 2001, a portion of the original ESOP debt component of the Pharmacia Plan was transferred to the Plan, and restructured and refinanced. Following the spinoff of Monsanto from Pharmacia on Aug. 13, 2002, the unallocated Pharmacia shares held by the Plan s ESOP component were gradually converted to shares of Monsanto common stock through open market transactions and through the exchange of Pharmacia stock for Monsanto common stock with certain Pharmacia employee benefit plans at market rates. The unallocated shares of Monsanto common stock, which were converted from Pharmacia shares as described above, held by the Plan s ESOP component are released for allocation to participant accounts in accordance with the terms of the Plan as principal and accrued interest on the ESOP promissory note are paid.

In December 2004, the Plan s ESOP debt was restructured and refinanced, (the 2004 refinancing). The terms of the restructuring were determined pursuant to an arm s length negotiation between Monsanto and an independent trust company as fiduciary for the Plan.

Under the terms of the 2004 refinancing, Monsanto committed to funding an additional \$41 million to the Plan before Dec. 31, 2017, in addition to the contributions, dividends and share values that were to be allocated to participants accounts under the Plan after the refinancing. As of Dec. 31, 2011, and 2010, the Plan has recorded an employer contribution receivable of \$56 million and \$52 million, respectively, and a deferred employer contribution of \$56 million and \$52 million, respectively, related to the 2004 refinancing agreement. The employer contribution receivable and deferred employer contribution related the 2004 refinancing have increased because of the accretion as defined in the agreement.

In November 2008, the Plan s ESOP debt was again restructured and refinanced (the 2008 refinancing) with a single ESOP promissory note to Monsanto, payable in the principal amount of \$9.5 million, bearing interest at the rate of 4.20% per annum, and having a maturity date of Dec. 31, 2027 (the 4.20% Note). The terms of the restructuring were determined pursuant to an arm s length negotiation between Monsanto and an independent trust company as fiduciary for the Plan. In this role, the independent fiduciary determined that the restructuring, including certain financial commitments and enhancements that were or will be made in the future by Monsanto to benefit participants and beneficiaries of the Plan, was completed in accordance with the best interests of Plan participants.

As of Dec. 31, 2011, the 4.20% Note had an outstanding principal balance of \$1.5 million, which approximates fair value. Scheduled maturities on the 4.20% Note are \$100,000 semi-annually in each Plan year until the principal is repaid in full. Interest on the 4.20% Note is payable semi-annually on June 30 and December 31 of each year. The borrowing is collateralized by the unallocated shares of Monsanto common stock in the ESOP suspense account. The minimum number of shares allocated to participant accounts under the ESOP in a given year is determined by the Plan s net debt service (principal and interest) during that year relative to the total amount of the Plan s remaining debt service as of the beginning of that year. The 2008 refinancing resulted in a decrease in the minimum number of shares to be allocated in 2011 when compared with allocations that previously would have been required.

Under the terms of the 2008 refinancing, Monsanto committed to funding an additional \$8 million to the Plan, in addition to the contributions, dividends and share values that were to be allocated to participants—accounts under the Plan after the refinancing. As of Dec. 31, 2011, \$5 million of the commitment remains. As of Dec. 31, 2011, and 2010, the Plan has recorded an employer contribution receivable of \$5 million, and a deferred employer contribution of \$5 million, related to the 2008 refinancing.

6

MONSANTO SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS (continued)

AS OF DEC. 31, 2011 AND DEC. 31, 2010 AND FOR THE YEAR ENDED DEC. 31, 2011

The Plan obtains the funds to repay the ESOP debt to Monsanto primarily through Company contributions and dividends paid on Monsanto common stock held in the ESOP. Employer contributions related to the refinancings are paid to the Plan based on scheduled ESOP debt repayments. In the year ended Dec. 31, 2011, the Plan paid ESOP principal and interest payments of \$2 million solely through the use of dividends paid on Monsanto common stock held in the ESOP suspense account. While the ESOP debt is repaid semi-annually, shares of Monsanto common stock are released for allocation to participant accounts throughout the year. The remaining \$5 million of the 2008 refinancing enhancement will be paid within five years after the ESOP debt is repaid. In the year ended Dec. 31, 2011, the Plan s repayment of ESOP debt resulted in the release of approximately 593,000 equivalent shares of Monsanto common stock for allocation to participant accounts. As of Dec. 31, 2011, and 2010, approximately 0.5 million shares and 1.1 million shares, respectively, of Monsanto common stock remained unallocated with an approximate market value of \$39 million and \$79 million, respectively. \$1 million in dividends on Monsanto common stock held in the ESOP are included in Employer contributions for 2011.

VOTING RIGHTS

Participants have the right to instruct the Plan strustee how to vote the shares of Monsanto common stock represented by units in their accounts. The Trustee will vote the unallocated shares in the same proportion as the allocated shares on which they receive voting instructions from participants.

PARTICIPANT LOANS

Most Plan participants can obtain loans from their accounts for up to five years at an interest rate in effect as of the effective date of the loan, as determined by the Administrative Committee. A participant with a Plan account balance in excess of \$2,000 may borrow up to the lesser of 50 percent of the total vested account balance less any outstanding loan balances at the time of the loan, \$50,000 minus the participant s highest outstanding loan balances during the last year, or 100 percent of his or her employee account value excluding the employer portion and any outstanding loan balances at the time of the loan. The minimum loan is \$1,000; generally, the maximum number of outstanding loans at any one time is two. No allowance for credit losses has been recorded as of Dec. 31, 2011, or Dec. 31, 2010. If a participant does not provide payment within the applicable cure period and fails to bring the delinquent payment current within the applicable cure period, the unpaid loan balance, plus accrued interest, is deemed distributed to the participant and the participant s Plan account is reduced by the outstanding loan payment, all in accordance with Plan rules and procedures.

PAYMENT OF BENEFITS

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant s vested interest in his or her account, or annual installments over a certain number of years. If employment is terminated before age 70 1/2, participants can elect to defer receiving benefits if their vested account balance is greater than \$5,000.

FORFEITED ACCOUNTS

At Dec. 31, 2011, and 2010, the value of forfeited non-vested accounts totaled \$2.0 million and \$0.7 million, respectively. As permitted by the terms of the Plan, during the Plan year ended Dec. 31, 2011, the Company determined to apply approximately \$1.2 million of forfeited amounts to fund Company matching contributions during May 2011. As permitted by the terms of the Plan, during the Plan year ended Dec. 31, 2010, the Company determined to fund the less than \$0.1 million QNEC with respect to the 2010 Plan year with forfeited amounts, and determined to apply approximately \$1.7 million of forfeited amounts to fund Company matching contributions during June 2010.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Edgar Filing: MONSANTO CO /NEW/ - Form 11-K

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities at the date of the financial statements and reported amounts of increases and decreases during the reporting period. Actual results could differ from those estimates.

7

MONSANTO SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS (continued)

AS OF DEC. 31, 2011 AND DEC. 31, 2010 AND FOR THE YEAR ENDED DEC. 31, 2011

RISKS AND UNCERTAINTIES

The Plan is invested in various types of financial assets including common stock, debt securities and investment contracts, the values of which are determined by market factors including but not limited to interest rates, overall market volatility, credit ratings, and default rates. The investment values recorded in the financial statements as of Dec. 31, 2011, reflect the market environment, risks and uncertainties at that point in time. It is reasonably possible that subsequent changes in the market environment could result in investment values materially different from those shown in the financial statements.

INVESTMENT VALUATION AND INCOME RECOGNITION

The Plan s investments are stated at fair value. Common stock is valued at quoted market prices. The collective investment trust funds are stated at fair value as determined by the fund s administrator based on the fair market value of the underlying investments. When available, fair value is determined by quoted market prices. Amounts for securities that have no quoted market price represent estimated fair value. Debt securities without quoted market prices are generally valued based on yields currently available on comparable securities of issuers with similar credit ratings and similar maturities. See Note 6 Fair Value Measurements for further details.

The Stable Value Fund is invested in synthetic guaranteed investment contracts, as described in Note 4. In accordance with Financial Services Investment Companies topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC), the Statements of Net Assets Available for Benefits present the synthetic investment contracts at fair value, as well as an additional line item showing an adjustment of fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is presented on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. In the Statement of Changes in Net Assets Available for Benefits, the Plan presents the net depreciation in the fair value of its investments, which consists of the realized gains and losses and the unrealized depreciation on these investments.

The Plan uses certain financial derivative instruments to hedge, acquire or change equity, currency or fixed income positions/durations in the portfolio. However, the Plan s guidelines do not allow for derivatives to be used to leverage portfolio exposure. All derivatives are recognized in the synthetic guaranteed investment contracts on the Statement of Net Assets Available for Benefits at fair value adjusted to contract value. Changes in fair value of a derivative are recorded currently in the Statement of Changes in Net Assets as interest income.

The Plan pays certain outside service provider expenses (e.g. recordkeeping and trustee fees) incurred in the operation of the Plan. All investment manager fees are paid by the Plan and are included in administrative and investment management expenses. Certain other expenses are paid by the Company.

NEW ACCOUNTING STANDARDS

In May 2011, the FASB issued an update to the Fair Value Measurements and Disclosures topic of the ASC. This update requires the categorization by level for items that are only required to be disclosed at fair value and information about transfers between Level 1 and Level 2. In addition, the update provides guidance on measuring the fair value of financial instruments managed within a portfolio and the application of premiums and discounts on fair value measurements. Additional disclosure regarding the sensitivity of fair value to changes in unobservable inputs and any interrelationships between those inputs for Level 3 measurements is required as well. The new guidance is effective for reporting periods beginning after Dec. 15, 2011. Therefore, the Plan will adopt this updated guidance for the plan year ended Dec. 31, 2012. The Plan is currently evaluating the impact of adopting this update on the financial statements.

8

MONSANTO SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS (continued)

AS OF DEC. 31, 2011 AND DEC. 31, 2010 AND FOR THE YEAR ENDED DEC. 31, 2011

In July 2010, the FASB issued a new update that requires enhanced disclosures regarding credit quality and the related allowance for credit losses of financing receivables. The new disclosures will require additional information for nonaccrual and past due accounts, the allowance for credit losses, impaired loans, credit quality, and account modifications. Accordingly, the Plan included the new disclosure requirements for the reporting period ending Dec. 31, 2010, and, when necessary, the disclosures related to activities within the allowance for credit losses during the reporting period beginning as of Jan. 1, 2011. See Note 1 Information Regarding the Plan for further information.

In January 2010, the FASB issued an amendment to the Fair Value Measurements and Disclosures topic of the ASC. This amendment requires disclosures about transfers into and out of Level 1 and 2 and separate disclosures about purchases, sales, issuances, and settlements relating to Level 3 measurements. It also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques used to measure fair value. This amendment is effective for periods beginning after Dec. 15, 2009. Accordingly, the Plan adopted this amendment as of Jan. 1, 2010.

NOTE 3. NONPARTICIPANT-DIRECTED INVESTMENTS

All funds in the Plan are participant-directed except as noted below. Common stock Monsanto Company includes both participant and nonparticipant-directed investments and only the nonparticipant-directed portion is shown below.

Information about the investments and the significant components of the changes in investments relating to the nonparticipant-directed investment amounts in the Plan (as of Dec. 31, 2011, and Dec. 31, 2010, and the year ended Dec. 31, 2011) is outlined in the table below.

	As of I	Dec. 31,
(Dollars in thousands)	2011	2010
Investments:		
Cash and temporary investments	\$ 6,646	\$ 3,682
Common stock Monsanto Company	451,594	501,954
Total Investments	\$ 458,240	\$ 505,636

	 ear Ended c. 31, 2011
(Dollars in thousands)	
Changes in Investments:	
Interest income	\$ 7
Dividends	7,834
Net appreciation	5,151
Interest expense on ESOP debt	(118)
Administrative and investment management expense	(2,336)
Benefit payments and transfers	(57,934)
Changes in Investments	\$ (47,396)

NOTE 4. GUARANTEED INVESTMENT CONTRACTS

Edgar Filing: MONSANTO CO /NEW/ - Form 11-K

The Stable Value fund invests in synthetic guaranteed investment contracts (Synthetic GICs). A Synthetic GIC consists of an underlying portfolio of fixed income assets which are held by the trustee and owned by the plan and benefit-responsive wrap contracts (Contracts) issued by financial services companies. Separate, individual Contracts were in place on Dec. 31, 2011, with Monumental Life Insurance Company, J.P. Morgan Chase Bank and Prudential Insurance Company. The Contracts provide that participants execute plan transactions at contract value. Contract value represents participant contributions made to the fund, plus earnings, less participant withdrawals. Certain employer-initiated events such as a Plan merger or termination could limit the ability of the Plan to transact at contract value or could allow for the termination of the Contract at less than contract value. The Company believes that the occurrence of events that would cause the Plan to transact at less than contract value is probable of not occurring.

9

MONSANTO SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS (continued)

AS OF DEC. 31, 2011 AND DEC. 31, 2010 AND FOR THE YEAR ENDED DEC. 31, 2011

The following summarizes the contract value of the Synthetic GICs as of Dec. 31, 2011, and Dec. 31, 2010.

Guaranteed Investment Contracts

	As of I	Dec. 31,
	2011	2010
(Dollars in thousands)		
J.P. Morgan Chase Bank	\$ 126,592	\$ 166,984
Monumental Life Insurance Company	222,901	219,296
Prudential Insurance Company	164,048	160,119
Total	\$ 513,541	\$ 546,399

Each of the Contracts provide for the determination of a gross interest crediting rate (Contract Rate) which is reset quarterly based on the current yield and duration of the underlying fixed income portfolio and the spread between the market value and contract value of the underlying fixed income portfolio. The quarterly Contract Rate cannot be less than zero percent. The annualized composite Contract Rate of the three Contracts as of Dec. 31, 2011, and Dec. 31, 2010, was 4.38 percent and 4.75 percent, respectively. Participant accounts are credited with an interest rate which reflects the composite Contract Rates and the return of the transactional cash buffer portfolio. The annualized interest rate credited to participant accounts as of Dec. 31, 2011, and Dec. 31, 2010, was 4.19 percent and 4.54 percent, respectively.

NOTE 5. INVESTMENTS

Investments that represent more than 5 percent of the net assets available for benefits as of either Dec. 31, 2011, or Dec. 31, 2010, were as follows:

	As of Dec. 31,	
	2011	2010
(Dollars in thousands)		
Common stock Monsanto Company (partially nonparticipant directed)	\$ 700,182	\$ 751,331
Collective investment funds:		
Mellon Equity Index Fund	\$ 113,338	\$ 147,508

As of Jan. 31, 2011, the Plan exited its participation in the securities lending program whereby the Plan s investment securities were loaned to broker-dealers on a fully collateralized basis with cash and U.S. government securities. At Dec. 31, 2010, approximately \$18 million of the Plan s securities were on loan under these programs, and collateral held was \$18 million.

MONSANTO SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS (continued)

AS OF DEC. 31, 2011 AND DEC. 31, 2010 AND FOR THE YEAR ENDED DEC. 31, 2011

NOTE 6. FAIR VALUE MEASUREMENTS

The Plan determined the fair market values of its investments based on the fair value hierarchy established in the Fair Value Measurements and Disclosures topic of the ASC, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy contains three levels as follows, with Level 3 representing the lowest level of input:

- Level 1 Values based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities.
- Level 2 Values based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, or model-based valuation techniques for which all significant assumptions are observable in the market.
- Level 3 Values generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions would reflect our own estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques could include use of option pricing models, discounted cash flow models and similar techniques.

11

MONSANTO SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS (continued)

AS OF DEC. 31, 2011 AND DEC. 31, 2010 AND FOR THE YEAR ENDED DEC. 31, 2011

The following tables set forth by level the Plan s investment assets that were accounted for at fair value on a recurring basis as of Dec. 31, 2011, and Dec. 31, 2010. As required by the Fair Value Measurements and Disclosures topic of the ASC, assets are classified in their entirety based on the lowest level of input that is a significant component of the fair value measurement. The Plan s assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the classification of fair value assets within the fair value hierarchy levels.

MONSANTO SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS (continued)

AS OF DEC. 31, 2011 AND DEC. 31, 2010 AND FOR THE YEAR ENDED DEC. 31, 2011

For the year ended Dec. 31, 2011, there were no significant transfers in or out of Levels 1, 2, or 3.

Level 3 Gains and Losses The table below sets forth a summary of changes in the fair value of the Plan s Level 3 investment assets for the year ended Dec. 31, 2011. As reflected in the table below, the net realized/unrealized gain on Level 3 investment assets and investment liabilities was less than \$1 million in 2011.

Fair Value Measurements Using Significant Unobservable Inputs Common and Preferred Stock

	Other:
(Dollars in thousands)	Domestic Large Capitalization
Fair Value at Jan. 1, 2011	\$
Total Realized / Unrealized Gains / (Losses)	59
Purchases	398
Settlements	
Net Transfers Into / (Out of) Level 3	
Fair Value at Dec. 31, 2011	\$ 457
Net Unrealized Gains (Losses) Still Held Included in Earnings ⁽¹⁾	\$ 59

⁽¹⁾ Represents the amount of total gains or losses for the period, included in Net Appreciation in fair value of Investments on the Statement of Changes in Net Assets Available for Benefits, attributable to change in unrealized gains (losses) relating to assets and liabilities classified as Level 3 that are still held at Dec. 31, 2011.

For assets that are measured using quoted prices in active markets, the total fair value is the published market price per unit multiplied by the number of units held without consideration of transaction costs, which have been determined to be immaterial. Assets that are measured using significant other observable inputs are primarily valued by reference to quoted prices of markets that are not active. The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

<u>Cash and temporary investments</u>: The carrying value of cash equivalents approximates fair value as maturities are less than three months, and temporary investments (maturities less than 12 months) primarily consist of fixed income deposits and commercial paper which are measured at fair value using observable inputs in an active market. A large portion of the Plan s temporary investments are short-term collective investment funds these commingled pools are in turn comprised of short-term fixed income assets that trade on a regular basis in active markets. However, because the commingled vehicles lack any formal listing or associated price quotes, they are classified as Level 2. Other temporary investment holdings are fixed income holdings with maturities of less than 12 months. Because these bonds are not traded on listed exchanges, yet do have observable valuation inputs, these are classified as Level 2 assets. This presentation is in accordance with ASU 2009-12.

<u>Debt securities:</u> Debt securities assets consist of U.S. and foreign corporate credit, U.S. and foreign government issues (including related Agency Debentures and Mortgages), mortgage-backed securities, asset-backed securities and U.S. State and Municipal securities. U.S. treasury and U.S government agency bonds, as well as foreign government issues, are generally priced by institutional bids, which reflect estimated values based on underlying model frameworks at various dealers and vendors. While some corporate issues are formally listed on exchanges, dealers exchange bid and ask offers to arrive at executed transaction prices. Collateralized securities (both mortgage-backed and asset-backed) are valued using models with readily observable market data as inputs. All Foreign Government and Foreign Corporate Debt securities are denominated in U.S. dollars. Although most of the debt securities held in the Plan are included in Synthetic GICs in the Statement of Net Assets Available for Benefits, there are other debt securities held outside the Synthetic GICs. All debt securities included in the Plan are classified as

Edgar Filing: MONSANTO CO /NEW/ - Form 11-K

Level 2.

Common and Preferred stock and Monsanto Company Stock: The Plan's common stock consists of investments in listed U.S. and foreign company stock, including Monsanto stock. These investments include both small-capitalization stocks (defined as companies with market capitalizations less than \$2 billion) and large-capitalization stocks (companies with market capitalizations greater than \$2 billion) as well as international developed and emerging markets. All such investments that are valued using observable, unadjusted quoted prices from the various public stock exchanges, both domestic and foreign (e.g., NYSE, NASDAQ, LSE), represent active market trades and are classified as Level 1. Some common and preferred stock holdings are valued based on quoted prices for similar instruments in active markets, and thus are classified as Level 2. Some common stock was acquired through private placement and are unlisted securities, and thus there is not significant observable information. These assets are classified as Level 3.

MONSANTO SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS (continued)

AS OF DEC. 31, 2011 AND DEC. 31, 2010 AND FOR THE YEAR ENDED DEC. 31, 2011

<u>Collective investment funds</u>: Some investment options are structured as commingled pools, or funds this encompasses the International Equity Fund, the Equity Index Fund, the Value Equity Fund, the Small-Cap Growth Equity Fund, the Small-Cap Value Equity Fund, the Treasury Inflation-protected Securities Fund (TIPS), and the pre-mix portfolios (Conservative, Moderate, Moderate Aggressive and Aggressive). These funds are comprised of other broad asset category types, such as common and preferred stock, debt securities, derivatives and cash and temporary investments (see related sections). Irrespective of the underlying securities that comprise these collective funds, the funds themselves lack a formal listed market or publicly available quotes, and are therefore all classified as Level 2. This presentation is in accordance with ASU 2009-12.

<u>Synthetic guaranteed investment contracts:</u> Also referred to as Synthetic GICs, the assets in this category represent the Stable Value fund investment option. Almost all underlying assets are comprised of cash and temporary investments, debt securities and derivatives (see related sections). Assets within the Synthetic GICs are assessed individually to assign level determination for the purposes of the Fair Value Measurements and Disclosures topic of the ASC, the discussion of which is incorporated into the appropriate asset categories.

<u>Derivatives:</u> The Plan holds interest rate futures contacts. Derivative securities are included within the Synthetic guaranteed investment contracts on the Statement of Net Assets Available for Benefits. Interest rate futures, and all listed options are measured at fair value using quoted market prices and are classified as Level 1.

<u>Collateral held under securities lending agreements</u>: As of Jan. 31, 2011, the Plan exited its participation in a securities lending program through Northern. At Dec. 31, 2010, the collateral held under the securities lending program were invested in a commingled fund managed by Northern, the underlying assets of which include short-term (weighted average maturity 143 days as of Dec. 31, 2010) fixed income securities such as commercial paper, U.S. Treasury Bills, and various forms of asset-backed securities, all of which would be classified individually as Level 2. Because the collateral pool itself lacks a formal public market and price quotes, it is classified as Level 2. This presentation is in accordance with ASU 2009-12.

NOTE 7. FINANCIAL INSTRUMENTS

During the years ended Dec. 31, 2011, and Dec. 31, 2010, the Plan at times utilized exchange-traded financial futures (fixed income interest rate, and equity index), as well as options on similar underlying futures contracts. Derivatives are used at the discretion of those managers so authorized to help meet the objectives of the portfolios, and to manage exposures to interest rate sensitivity and market fluctuations. Other intended uses included creating synthetic market exposures, altering aggregate bond portfolio duration, or temporarily hedging certain exposures within the portfolio. The Plan s investment policy states that financial instruments are neither held nor issued by the Plan for trading purposes, and no instruments may be used in such a manner that creates financial leverage, whereby the notional value of derivative contracts at inception of the derivative exceeds the fair value of the total being hedged. The fair values of all derivatives are included under Synthetic GICs on the Statements of Net Assets Available for Benefits. Gains or losses on derivatives are recognized as interest in the Statement of Changes in Net Assets Available for Benefits.

As of Dec. 31, 2011, and Dec. 31, 2010, the Plan held standardized interest rate futures. Derivative securities are included within the Synthetic GICs on the Statement of Net Assets Available for Benefits. Interest rate futures are measured at fair value using quoted market prices.

MONSANTO SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS (continued)

AS OF DEC. 31, 2011 AND DEC. 31, 2010 AND FOR THE YEAR ENDED DEC. 31, 2011

The notional amounts of the Plan s derivative instruments outstanding as of Dec. 31, 2011, and Dec. 31, 2010, were as follows:

	As of D	As of Dec. 31,	
(Dollars in millions)	2011	2010	
Derivatives Not Designated as Hedges:			
Interest rate futures ⁽¹⁾	\$ (47,199)	\$ (37,539)	
Total Derivatives	\$ (47,199)	\$ (37,539)	

(1) Interest rate futures were held in a net short position at Dec. 31, 2011 and 2010, and shown as a negative amount. The fair values of the Plan s derivative instruments outstanding as of Dec. 31, 2011, and Dec. 31, 2010, were as follows:

		As of D	ec. 31,
(Dollars in millions)	Net Assets Available for Benefits Location	2011	2010
Derivatives Not Designated as Hedges:			
	Synthetic guaranteed		
Interest rate futures	investment contract ⁽¹⁾	\$ (166)	\$ (42)
Total Liability Derivatives		\$ (166)	\$ (42)

As allowed by the Derivatives and Hedging topic of the ASC, futures derivative assets have been offset by cash collateral held by the counterparty. Therefore, all derivatives are included in Synthetic GICs within the Statements of Net Assets Available for Benefits. See Note 6 Fair Value Measurements for a reconciliation to amounts reported in the Statements of Net Assets Available for Benefits as of Dec. 31, 2011, and Dec. 31, 2010.

The gains and losses on the Plan s derivative instruments for the years ended Dec. 31, 2011, and Dec. 31, 2010, were as follows:

Equity contracts	13	19	Interest
Total Derivatives Not Designated as Hedges	\$ (2,854)	\$ 2,246	
Total Derivatives	\$ (2,854)	\$ 2,246	

NOTE 8. INFORMATION REGARDING TAX STATUS

On Oct. 17, 2003, the IRS issued Monsanto a favorable determination letter stating that the Plan as then designed, was qualified for federal income tax purposes in compliance with section 401(a) of the Internal Revenue Code (IRC). As required by the IRS procedures, on Jan. 9, 2008, Monsanto filed an application for a new determination letter for the amended and restated Plan. That application is still pending review by the IRS. The Company believes that the Plan is currently designed in compliance with the applicable requirements of the IRC, and the Administrative Committee believes that the Plan is being operated in accordance with its terms. Therefore, no provision for income taxes has been included in the Plan s financial statements.

Accounting principles generally accepted in the United States of America require the evaluation of tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that is not more likely than not to be sustained upon examination by the IRS. The Company, on behalf of the Plan, has analyzed the tax positions taken by the Plan, and has concluded that as of Dec. 31, 2011, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

16

MONSANTO SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS (continued)

AS OF DEC. 31, 2011 AND DEC. 31, 2010 AND FOR THE YEAR ENDED DEC. 31, 2011

NOTE 9. PRIORITIES UPON TERMINATION OF THE PLAN

If the Plan is terminated, all participants account balances will be fully vested, and all participants would then be entitled to a full distribution of their account balances in accordance with ERISA and the Internal Revenue Code as more fully described and set forth in the Plan document.

NOTE 10. PARTY-IN-INTEREST INVESTMENTS AND TRANSACTIONS

The Company is not aware of any nonexempt prohibited transactions with parties-in-interest during the period from Jan. 1, 2011, to Dec. 31, 2011. As of Dec. 31, 2011, and Dec. 31, 2010, the Plan holds \$700 million and \$751 million, respectively, of common stock of Monsanto, the Plan sponsor.

Monsanto is the holder of the Plan s ESOP debt. During 2011, the Company paid approximately \$12 million in dividends with respect to shares held by the ESOP.

Certain Plan investments are units of collective investment funds managed by Northern specifically for employee benefit trusts. Northern is also the Plan trustee as defined by the Plan and, therefore, these collective investment funds qualify as exempt party-in-interest investments. Fees for Northern s investment management services are paid by the Plan as described in Note 2.

Northern also managed the collateral pool collective fund for the securities lending program in which the Plan participated as of Dec. 31, 2010, as described in Note 5. As of Jan. 31, 2011, the Plan no longer participates in the securities lending program.

NOTE 11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the Plan s investments at fair value per the financial statements with the investments as reported on the Form 5500 Schedule of Assets as of Dec. 31, 2011, and 2010.

	As of Dec. 31,		
(Dollars in thousands)	2011	2010	
Net assets available for benefits:			
Investments, at fair value per financial statements	\$ 2,294,179	\$ 2,371,291	
Adjustment from fair value to contract value for fully			
benefit-responsive investment contracts	(35,301)	(24,601)	
Collateral held under securities lending agreements		(18,371)	
Loans to participants	28,680	28,122	
Total investments per Form 5500 Schedule of Assets			
(Held at End of Year)	\$ 2,287,558	\$ 2,356,441	

NOTE 12. SUBSEQUENT EVENTS

For employees who become eligible for the Plan on or after July 8, 2012 (New Hires) and who make employee contributions to the Plan, the Company will match 80 percent of such employee contributions, up to a maximum of eight percent of eligible pay. New Hires will not be

Edgar Filing: MONSANTO CO /NEW/ - Form 11-K

eligible for the Company discretionary matching contribution. New Hires

17

MONSANTO SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS (continued)

AS OF DEC. 31, 2011 AND DEC. 31, 2010 AND FOR THE YEAR ENDED DEC. 31, 2011

will be eligible for an age-based, Company core non-elective contribution, provided that they are employed on the last day of the Plan year. The last day requirement is waived in the case of death, disability, involuntary termination without cause and voluntary termination after attainment of age 55 with at least five years of service.

The Company discretionary matching contribution will no longer be made with respect to Plan years after 2012. Effective with the first payroll in 2013, in the case of employees who were eligible for the Plan prior to July 8, 2012 (Current Employees) and who make employee contributions to the Plan, the Company will match 80 percent of such employee contributions, up to a maximum of eight percent of eligible pay.

Effective July 8, 2012, Company matching contributions will be made in cash to the Plan and invested pursuant to the participant s current investment elections. A portion of the final Company discretionary match with respect to the 2012 Plan year may also be made in cash to the Plan and, if made in cash, will be invested pursuant to the participant s current investment elections.

In May 2012, the Company discovered that it may have exceeded the amount of shares of common stock registered for offer and sale through the Company Stock Funds investment option in the Plan and, therefore, inadvertently failed to maintain an effective SEC registration statement. As a result, certain purchasers of common stock pursuant to the Plan may have the right to rescind their purchases for an amount equal to the purchase price paid for the shares, plus interest from the date of purchase. The Company has indicated to the Plan its intention to make a registered rescission offer to: (1) buy back from eligible Plan participants their interests in the Company Stock Funds investment options (Units) at the original purchase price (less the value of dividends received) plus interest, if their Units were purchased between May 1, 2011, and June 22, 2012, and still held, and (2) reimburse eligible Plan participants for the amount of the loss, if any (taking into account the value of dividends received and proceeds from the sale), that they may have incurred if their Units were purchased after April 30, 2011, and subsequently sold, plus interest to the date of sale and interest on the amount of loss from the date of sale.
