Manager Commentary

June 30, 2012 (Unaudited)

Economic Conditions and Leveraged Finance Market Update

Risk assets continued to grind higher in July as global growth concerns and mixed earnings reports were offset by policy speculation. The Credit Suisse Leveraged Loan Index (CSLLI) recorded the highest monthly return since January, returning +0.97% (5.53% YTD), while high yield returned 1.76% (8.54% YTD). In deference to the strong market environment, Credit Suisse increased its 2012 total return projection for high yield and loans to 8-11% and 5-8%, respectively.

The Fed continues to communicate clearly their intention to hold rates at exceptionally low levels at least through late 2014. Data has shown the recovery slowed and hiring remained tepid. The economy grew at a paltry 1.5% annual rate in the second quarter, and employers added just 80,000 jobs in June. Despite that rates remain low, investors are seemingly attracted to loans which, in addition to the free call on interest rates, also offer shorter duration and stable risk adjusted yield.

Strong technicals played a large part in fueling a recovery in the loan market, which came under pressure in May and early June due to Eurozone-related concerns. Secondary market loan prices improved as a result of this supply/demand imbalance. The forward calendar was relatively light during the month while inflows to bank loan and high yield mutual funds continued at a healthy pace. Demand was supported further by increased allocations to bank loans from pensions and other institutional investors and a strong demand for loans from high yield mutual funds and new collateralized loan obligations (CLOs). Issuers continue to focus on opportunistic refinancings, dividend deals and repricing transactions with little activity in the M&A and LBO space.

After Labor Day, we anticipate that a handful of recently announced leveraged buyout (LBO) transactions will come to market as investors begin to increasingly focus on U.S. elections, the U.S. fiscal cliff and Eurozone concerns. We believe investors are being compensated with spreads well above historical averages (594 bps vs. 449bps 20-year average) and par-weighted loan default rates below 1%.

Blackstone / GSO Senior Floating Rate Term Fund

Blackstone / GSO Senior Floating Rate Term Fund (BSL) is a closed-end fund that trades on the New York Stock Exchange under the symbol BSL. BSL's primary investment objective is to seek high current income, with a secondary objective to seek preservation of capital, consistent with its primary goal of high current income. Under normal market conditions, the fund invests 80% of its total assets in senior, secured floating rate loans (Senior Loans). BSL may also invest in second-lien loans and high yield bonds and employs financial leverage which may increase risk to the fund.

As of June 30, 2012, BSL held just over 89% of its Managed Assets in first and second lien secured loans and approximately 5% in high yield bonds with the remainder in cash. BSL's investments included 165 obligors, diversified across 26 distinct industries – an average loan position represented 0.3% of Managed Assets and the top 5 industry groups represented 47% of total holdings of BSL. Diversification across industries was consistent with their respective representations in the U.S. economy as a whole and Healthcare and Pharmaceuticals, Technology and Telecommunications were among the top industry weightings. BSL had no exposure to some of the more volatile sectors of the economy such as homebuilders, property or real estate related businesses.

BSL outperformed the CSLLI during the six-month period ending June 30 (on both a Net Asset Value (NAV) and share price basis) and has also outperformed that benchmark since inception,

Manager Commentary

June 30, 2012 (Unaudited)

based on NAV. Loans acquired with borrowings under BSL's long-term leverage facility were accretive to both interest earnings and market value increases in the investment portfolio. For more detail regarding the leverage employed, please see Note 9 "Leverage" later in this report.

We believe that BSL continues to be well positioned to take advantage of the buying opportunities for both new issue and secondary markets.

Blackstone / GSO Long-Short Credit Income Fund

Blackstone / GSO Long-Short Credit Income Fund ("BGX") is a closed-end fund that trades on the New York Stock Exchange under the symbol "BGX". BGX's primary investment objective is to provide current income, with a secondary objective of capital appreciation. BGX will take long positions in investments which we believe offer the potential for attractive returns under various economic and interest rate environments. BGX may also take short positions in investments which we believe will under-perform due to a greater sensitivity to earnings growth of the issuer, default risk or interest rates. BGX must hold no less than 70% of its Managed Assets in secured floating rate loans ("Secured Loans"), but may also invest in unsecured loans and high yield bonds. BGX may use financial leverage and derivatives in employing the long strategy for a total 130% of BGX's net assets. BGX's short positions, either directly or through the use of derivatives, may total up to 30% of net assets.

As of June 30, 2012, approximately 78% of BGX's assets were invested, either directly or via a total return swap arrangement, in Secured Loans and 22% were invested in high yield bonds. In the aggregate, these investments represent 147 positions, diversified across 24 distinct industries, with an average position representing 0.7% of Managed Assets and the top 5 industry groups representing 47% of total holdings. BGX had no short positions as of June 30.

BGX outperformed the CSLLI during the six-month period ending June 30 and has also outperformed that benchmark since inception based on NAV. BGX continued to take advantage of opportunities in the primary market for Secured Loans as well as the new issue market for high yield bonds; both were very active through the first half of 2012. Since holding a short position in below investment grade rated credit instruments for long periods of time can be expensive in terms of the carrying cost of the short position, we have begun to position some short sale hedges into the portfolio where we have a specific view around near-term events that will impact the value of the instrument sold short. We believe this strategy continues to be more viable given the uncertain environment and the fact that investors are now more discerning as to their investments.

In Conclusion:

Despite potential headwinds, we remain comfortable that both the BSL and BGX portfolios have been constructed defensively and on balance, U.S. credit fundamentals are positive. Against this backdrop, we believe that investors are being adequately compensated for the risks.

Total investment return is calculated assuming a purchase of a common share at the opening on the first day and a sale at closing on the last day of each period reported. Dividends and distributions are assumed for purposes of this calculation to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Total investment returns do not reflect brokerage commissions, if any.

An investment in the Fund involves risk, including the loss of principal. Total return, market price, current dividend yield and NAV will fluctuate with changes in market conditions. This data is provided for information purposes only and is not intended for trading purposes. Holdings are subject to change daily.

Performance data quoted represents past performance and does not guarantee future results.

Credit Suisse Leveraged Loan Index is an unmanaged market value-weighted index designed to mirror the investable universe of the U.S. dollar-denominated leveraged loan market. New issues are added to the index on their effective date if they qualify according to the following criteria: loan facilities must be rated *BB* or lower; only fully-funded term loan facilities are included; and issuers must be domiciled in developed countries. An index does not show actual investment returns or reflect payment of management or brokerage fees, which would lower the index's performance. Indices are unmanaged and should not be considered an investment. It is not possible to invest directly in an index. The performance of the index does not represent generally the performance of any investment.

* Series A Floating Rate Cumulative Term Preferred Shares, Term Preferred Shares .

(a) The interest rate shown represents the rate at period end.

(b) All or a portion of this position has not settled as of June 30, 2012. The interest rate shown represents the stated spread over the London Interbank Offered Rate (LIBOR or L) or the applicable LIBOR floor; the Fund will not accrue interest until the settlement date, at which point LIBOR will be established.

(c) Security exempt from registration under Rule 144A of the Securities Act of 1933. Total market value of Rule 144A securities amounts to \$8,054,100, which represents approximately 2.76% of net assets as of June 30, 2012.

See Notes to Financial Statements.

Blackstone / GSO Senior Floating Rate Term Fund
Blackstone / GSO Long-Short Credit Income Fund
Notes to Financial Statements
NOTE 1. ORGANIZATION

June 30, 2012 (Unaudited)

Blackstone / GSO Senior Floating Rate Term Fund (BSL) is a non-diversified, closed-end management investment company. BSL was organized as a Delaware statutory trust on March 4, 2010. BSL was registered under the Investment Company Act of 1940, as amended (the 1940 Act), on March 5, 2010. BSL commenced operations on May 26, 2010. Prior to that date, BSL had no operations other than matters relating to its organization and the sale and issuance of 5,236 common shares of beneficial interest in BSL to GSO / Blackstone Debt Funds Management LLC (the Adviser) at a price of \$19.10 per share. The Adviser serves as BSL s investment adviser. BSL s common shares are listed on the New York Stock Exchange (the Exchange) and trade under the ticker symbol BSL.

Absent shareholder approval to extend the term of BSL, BSL will dissolve on or about May 31, 2020. Upon dissolution, BSL will distribute substantially all of its net assets to shareholders, after making appropriate provision for any liabilities. Pursuant to BSL s Amended and Restated Agreement and Declaration of Trust (the Declaration of Trust), prior to the date of dissolution a majority of the Board of Trustees, with the approval of a majority of the shareholders entitled to vote (as defined in the 1940 Act) may extend the life of BSL. If approved, the dissolution date of BSL may be extended by a period of two years or such shorter time as may be determined. However, the dissolution date of BSL may be extended an unlimited number of times.

Blackstone / GSO Long-Short Credit Income Fund (BGX and together with BSL, the Funds) is a non-diversified closed-end management investment company. BGX was organized as a Delaware statutory trust on October 22, 2010. BGX was registered under the 1940 Act on October 26, 2010. BGX commenced operations on January 27, 2011. Prior to that, BGX had no operations other than matters relating to its organization and the sale and issuance of 5,236 common shares of beneficial interest in BGX to the Adviser at a price of \$19.10 per share. The Adviser serves as the investment adviser for BGX. BGX s common shares are listed on the Exchange and trade under the ticker symbol BGX.

BSL s primary investment objective is to seek high current income, with a secondary objective to seek preservation of capital, consistent with its primary goal of high current income. Under normal market conditions, at least 80% of BSL s assets will be invested in senior secured, floating rate loans (Senior Loans).

BGX s primary investment objective is to provide current income, with a secondary objective of capital appreciation. BGX seeks to achieve its investment objectives by employing a dynamic long-short strategy in a diversified portfolio of loans and fixed-income instruments of predominantly U.S. corporate issuers, including first- and second-lien secured loans (Secured Loans) and high-yield corporate debt securities of varying maturities. BGX s long positions in loans and fixed-income instruments will typically be rated below investment grade at the time of purchase. BGX s long positions, either directly or through the use of derivatives, may total up to 130% of BGX s net assets. BGX s short positions, either directly or through the use of derivatives, may total up to 30% of BGX s net assets.

Senior Loans and Secured Loans are referred to collectively as Loans throughout the Notes to Financial Statements.

Table of Contents

Blackstone / GSO Senior Floating Rate Term Fund
Blackstone / GSO Long-Short Credit Income Fund
Notes to Financial Statements

June 30, 2012 (Unaudited)

The Funds are both classified as non-diversified under the 1940 Act. As a result, each can invest a greater portion of its assets in obligations of a single issuer than a diversified fund. The Funds may therefore be more susceptible than a diversified fund to being adversely affected by any single corporate, economic, political, or regulatory occurrence.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements. The preparation of their financial statements is in accordance with accounting principles generally accepted in the United States of America (GAAP), which requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates and these differences could be material.

Portfolio Valuation: The Funds net asset value (NAV) will be determined daily on each day that the Exchange is open for business, as of the close of the regular trading session on the Exchange. The Funds calculate NAV per share by subtracting liabilities (including accrued expenses or dividends) from the total assets of each Fund (the value of the securities plus cash or other assets, including interest accrued but not yet received) and dividing the result by the total number of outstanding common shares of the Funds.

Loans are primarily valued by using a composite loan price from a nationally recognized loan pricing service. The methodology used by the Funds nationally recognized loan pricing provider for composite loan prices is to value loans at the mean of the bid prices from one or more brokers or dealers. Corporate bonds, other than short-term investments, are valued at the price provided by a nationally recognized pricing service. The prices provided by the nationally recognized service are typically based on the mean of bid and ask prices for each corporate bond security. In determining the value of a particular investment, pricing services may use certain information with respect to transactions in such investments, quotations from dealers, pricing matrices, market transactions in comparable investments, various relationships observed in the market between investments and calculated yield measures based on valuation technology commonly employed in the market for such investments. Short-term debt investments, if any, having a remaining maturity of 60 days or less when purchased would be valued at cost adjusted for amortization of premiums and accretion of discounts. Total return swaps are marked to market daily using prices of the underlying floating rate loans, which are then applied to the corresponding swap. Prices for the underlying floating rate loans are provided by the same nationally recognized loan pricing service. Credit default swaps are marked to market daily using quotations from pricing services, which are derived using daily swap curves and models that incorporate a number of factors such as the value of the underlying index. Any investments and other assets for which such current market quotations are not readily available are valued at fair value (Fair Valued Assets) as determined in good faith by management under procedures established by, and under the general supervision and responsibility of, the Funds Boards of Trustees.

Various inputs are used to determine the value of the Funds investments. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity s own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the

Table of Contents

 Blackstone / GSO Long-Short Credit Income Fund
 Notes to Financial Statements

June 30, 2012 (Unaudited)

best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

Level 1 Unadjusted quoted prices in active markets for identical investments at the measurement date.

Level 2 Significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 Significant unobservable inputs (including the Funds' own assumptions in determining the fair value of investments).

The valuation techniques used by the Funds to measure fair value during the six months ended June 30, 2012 maximized the use of observable inputs and minimized the use of unobservable inputs. The categorization of a value determined for investments and other financial instruments is based on the pricing transparency of the investment and other financial instrument and does not necessarily correspond to the Funds' perceived risk of investing in those securities.

The following is a summary of the inputs used as of June 30, 2012 in valuing the Funds' investments:

Blackstone/GSO Senior Floating Rate Term Fund

Investments in Securities at Value*	Level 1 - Quoted Prices	Level 2 - Significant Observable Inputs	Level 3 - Significant Unobservable Inputs	Total

There were no transfers between Level 1 and 2 during the period. It is the Funds policy to recognize transfers into and out of all levels at the end of the reporting period.

*For detailed descriptions of classifications, see the accompanying Portfolios of Investments.

**Other financial instruments are derivative instruments not reflected in the Portfolio of Investments.

Securities Transactions and Investment Income: Securities transactions are recorded on trade date for financial reporting purposes. Interest income, including accretion of discount and amortization of premium, is recorded on the accrual basis. Realized gains and losses from securities transactions and foreign currency transactions, if any, are recorded on the basis of identified cost and stated separately in the Statement of Operations.

When the Funds sell a floating rate loan interest they may pay an agency fee. The Funds earn facility and other fees on floating rate loan interests, and facility fees are typically amortized to income over the term of the loan. Consent and amendment fees are also recorded to income as earned. All of these fees are shown on the Statement of Operations under *Facility and other fees*.

Federal Income Taxes: It is the policy of the Funds to continue to qualify as regulated investment companies by complying with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies, and to distribute substantially all of their earnings to their shareholders. While no federal income or excise tax provision is required, for BSL it is anticipated that an excise tax liability for 2011 of approximately \$24,000 will be paid in 2012. No federal income or excise tax provision is required for BGX.

Income distributions and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Funds, timing differences and differing characterization of distributions made by the Funds as a whole.

Edgar Filing: Blackstone / GSO Long-Short Credit Income Fund - Form N-CSRS

Management has concluded that the Funds have not taken any uncertain tax positions that require adjustment to the financial statements. The statute of limitations on BSL's federal and state tax filings remains open for the fiscal year ended December 31, 2011, and the fiscal period ended December 31, 2010. The statute of limitations on BGX's federal and state tax filings remains open for the fiscal period ended December 31, 2011. Both of the Funds will file income tax returns in the U.S. federal jurisdiction and New York.

Blackstone / GSO Long-Short Credit Income Fund
Notes to Financial Statements

June 30, 2012 (Unaudited)

Distributions to Shareholders: The Funds make monthly cash distributions of all or a portion of their net investment income to common shareholders. The Funds will distribute to common shareholders at least annually all or substantially all of their net investment income after the payment of dividends and interest, if any, owed with respect to outstanding preferred shares and/or borrowings. The Funds intend to pay any capital gains distributions at least annually. If BSL realizes a long-term capital gain, it will be required to allocate such gain between the common shares and term preferred shares issued by BSL in proportion to the total dividends paid to each class for the year in which the income is realized.

NOTE 3. MANAGEMENT FEES, ADMINISTRATION FEES, AND OTHER AGREEMENTS

The Adviser, a wholly-owned subsidiary of GSO Capital Partners LP (collectively with its affiliates, GSO), is a registered investment adviser and is responsible for the day-to-day management of, and providing administrative and compliance oversight services to, the Funds. GSO is a wholly-owned subsidiary of The Blackstone Group L.P. (collectively with its affiliates, Blackstone).

For BSL, the Adviser receives a monthly fee at the annual rate of 1.00% of the average daily value of BSL's total assets (including any assets attributable to any leverage used) minus the sum of the BSL's accrued liabilities (other than Fund liabilities incurred for any leverage) (BSL Managed Assets). For BGX, the Adviser receives a monthly fee at the annual rate of 1.20% of the average daily value of BGX's net assets (total assets of BGX minus liabilities including accrued expenses or dividends).

Each Fund pays every Trustee who is not a director, officer, employee, or affiliate of GSO or ALPS (as defined below), a fee of \$12,000 per annum, plus \$1,500 per joint meeting of the Board of Trustees. The Chairman of the Audit Committee and Chairman of the Nominating Committee also each receive \$2,500 per annum. If the chairman is not the chairman of such committee of each Fund, then the relevant Fund pays an annual retainer of \$3,000 to that chairman. In addition, for each joint meeting of a committee of the Board of Trustees that does not occur on a regular meeting or special meeting of the Funds, the Funds will each pay every committee member \$750 for each such committee meeting attended. If such committee meeting is not held jointly, the respective Fund will pay each committee member \$1,000 for each such meeting attended. The Funds will also reimburse independent Trustees for travel and out-of-pocket expenses incurred in connection with such meetings.

ALPS Fund Services, Inc. (ALPS) serves as administrator to the Funds. Under the administration agreement, ALPS is responsible for calculating the net asset value of the common shares and generally managing the administrative affairs of the Funds. For BSL, ALPS receives a monthly fee at the annual rate of 0.15% of the average daily value of BSL's Managed Assets, subject to a minimum annual fee of \$350,000, plus out-of-pocket expenses. For BGX, ALPS receives a monthly fee at the annual rate of 0.18% of the average daily value of BGX's net assets, also subject to a minimum annual fee of \$350,000, plus out-of-pocket expenses. ALPS is not considered an affiliate of the Funds, as defined under the 1940 Act.

The Bank of New York Mellon serves as BSL's custodian and JP Morgan Chase Bank, National Association serves as BGX's custodian. Computershare Shareowner Services, LLC, serves as the Funds' transfer agent. The Bank of New York Mellon, Computershare Shareowner Services, LLC, and JP Morgan Chase are not considered affiliates of the Funds as defined under the 1940 Act.

NOTE 6. SENIOR AND SECURED FLOATING RATE LOANS

BSL defines Senior Loans as first lien senior secured, floating rate loans that are made to U.S. and, to a limited extent, non-U.S. corporations, partnerships and other business entities (Borrowers), which operate in various industries and geographical regions. BGX includes first and second lien secured, floating rate loans in its definition of Secured Loans . Under normal market conditions, at least 80% of BSL s Managed Assets will be invested in Senior Loans and 70% of BGX s managed assets will be invested in Secured Loans. BGX defines its managed assets as net assets plus effective leverage obtained through securities lending, swap contract arrangements, and short selling or other derivative transactions (BGX Managed Assets). At June 30, 2012, 83.02% of BSL s Managed Assets were held in Senior Loans, and 77.96% of BGXs Managed Assets were held in Secured Loans.

Table of Contents

Blackstone / GSO Senior Floating Rate Term Fund
Blackstone / GSO Long-Short Credit Income Fund
Notes to Financial Statements

June 30, 2012 (Unaudited)

Loans hold a senior position in the capital structure of a business entity, are secured with specific collateral and have a claim on the assets and/or stock of the borrower that is senior to that held by unsecured creditors, subordinated debt holders and stockholders of the Borrower.

Loans often require prepayments from Borrowers' excess cash flows or permit the Borrowers to repay at their election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturities shown. However, floating rate loans typically have an expected average life of two to four years. Floating rate loans typically have rates of interest which are re-determined periodically, either daily, monthly, quarterly or semi-annually by reference to a floating base lending rate, primarily London Interbank Offered Rate (LIBOR), plus a premium or credit spread.

Loans are subject to the risk of payment defaults of scheduled interest or principal. Such non-payment could result in a reduction of income, a reduction in the value of the investment and a potential decrease in the net asset value of either Fund. Risk of loss of income is generally higher for subordinated unsecured loans or debt, which are not backed by a security interest in any specific collateral. There can be no assurance that the liquidation of any collateral securing a Loan would satisfy the Borrower's obligation to the Fund in the event of non-payment of scheduled interest or principal payments, or that such collateral could be readily liquidated.

Second lien loans generally are subject to similar risks as those associated with investments in first lien loans except that such loans are subordinated in payment and/or lower in lien priority to first lien holders. In the event of default on a second lien loan, the first priority lien holder has first claim to the underlying collateral of the loan. Second lien loans are subject to the additional risk that the cash flow of the Borrower and property securing the loan or debt, if any, may be insufficient to meet scheduled payments after giving effect to the senior unsecured or senior secured obligations of the Borrower. At June 30, 2012, BSL and BGX had invested \$26,605,327 and \$20,197,793, respectively, in second lien secured loans. Second lien secured loans are considered Secured Loans for BGX, but are not considered Senior Loans for BSL.

Loans can be rated below investment grade or may also be unrated. As a result, the risks associated with Loans may be similar to the risks of other below investment grade securities, although they are senior and secured in contrast to other below investment grade securities, which are often subordinated or unsecured. BSL and BGX typically invest in Loans rated below investment grade, which are considered speculative because of the credit risk of their issuers. Such companies are more likely than investment grade issuers to default on their payments of interest and principal owed to BSL and BGX, and such defaults could reduce net asset value and income distributions. The amount of public information available with respect to below investment grade loans will generally be less extensive than that available for registered or exchange-listed securities. In evaluating the creditworthiness of Borrowers, the Adviser will consider, and may rely in part, on analyses performed by others. The Adviser's established best execution procedures and guidelines require trades to be placed for execution only with broker-dealer counterparties approved by the risk and valuation committee of the Adviser. The factors considered by the committee when selecting and approving brokers and dealers include, but are not limited to: (i) quality, accuracy, and timeliness of execution, (ii) review of the reputation, financial strength and stability of the financial institution, (iii) willingness and ability of the counterparty to commit capital, (iv) ongoing reliability and (v) access to underwritten offerings and secondary markets.

Notes to Financial Statements

June 30, 2012 (Unaudited)

BSL and BGX may acquire loans through assignments or participations. BSL and BGX typically acquire these Loans through assignment, and if either Fund acquires a Loan through participation, will elevate a participation interest into an assignment as soon as practicably possible. The purchaser of an assignment typically succeeds to all the rights and obligations of the assigning institution and becomes a lender under the credit agreement with respect to the debt obligation; however, the purchaser's rights can be more restricted than those of the assigning institution, and BSL or BGX may not be able to unilaterally enforce all rights and remedies under the Loan and with regard to any associated collateral. A participation typically results in a contractual relationship only with the institution participating out the interest, not with the Borrower. Sellers of participations typically include banks, broker-dealers, other financial institutions and lending institutions. The Adviser has adopted best execution procedures and guidelines to mitigate credit and counterparty risk in the atypical situation when BSL or BGX must acquire a Loan through a participation. The Adviser has established a risk and valuation committee that regularly reviews each broker-dealer counterparty for, among other things, its quality and the quality of its execution.

NOTE 7. TOTAL RETURN AND CREDIT DEFAULT SWAPS

BGX has entered into total return swaps as of June 30, 2012 in an aggregate notional amount equal to \$31,667,006. In a total return swap, BGX pays another party a fixed or floating short-term interest rate and receives in exchange the total return of underlying loans or debt securities. If the other party to a total return swap defaults, BGX's risk of loss consists of the net amount of total return payments that BGX is contractually entitled to receive. BGX bears the risk of default on the underlying loans or debt securities, based on the notional amount of the swap. BGX would typically have to post collateral to cover this potential obligation. BGX may use total return swaps for financing, hedging or investment purposes (see further information in Note 9 – Leverage). For the purposes of Managed Assets, BGX will treat the value of a total return swap as the notional amount of the swap.

BGX entered into credit default swaps during the six months ended June 30, 2012. When used for hedging purposes, BGX would be the buyer of a credit default swap contract. In that case, BGX would be entitled to receive the par (or other agreed-upon) value of a referenced debt obligation, index or other investment from the counterparty to the contract in the event of a default by a third party, such as a U.S. or foreign issuer, on the referenced obligation. In return, BGX would pay to the counterparty a periodic stream of payments over the term of the contract provided that no event of default has occurred. If no default occurs, BGX would have spent the stream of payments and received no benefit from the contract. When BGX is the seller of a credit default swap contract, it receives the stream of payments but is obligated to pay upon default of the referenced obligation. As the seller, BGX would effectively add leverage to its portfolio because, in addition to its total assets, BGX would be subject to investment exposure on the notional amount of the swap.

The periodic swap payments received or made by BGX are recorded in the Statements of Operations as realized gains or losses, respectively. Any upfront fees paid are recorded as assets and any upfront fees received are recorded as liabilities and amortized over the term of the swap. Swaps are marked-to-market daily and changes in value, including the accrual of periodic amounts of interest, are recorded as unrealized appreciation (depreciation) and shown on BGX's Statement of Operations. When the swap is terminated, BGX will record a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and BGX's basis in the contract, if any. Generally, the basis of the contracts is the unamortized premium received or paid.

Table of Contents

Blackstone / GSO Senior Floating Rate Term Fund
 Blackstone / GSO Long-Short Credit Income Fund
 Notes to Financial Statements

June 30, 2012 (Unaudited)

Swap transactions involve, to varying degrees, elements of interest rate, credit and market risk in excess of the amounts recognized in the Statements of Assets and Liabilities. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreements may default on its obligation to perform or disagree as to the meaning of the contractual terms in the agreements, and that there may be unfavorable changes in interest rates and/or market values associated with these transactions. BGX segregates sufficient assets as collateral to satisfy the current obligation with respect to total return and credit default swaps, and this is reflected as Deposit held with broker for swap contracts on BGX's Statement of Assets and Liabilities.

The effect of derivative instruments on the Statement of Assets and Liabilities as of June 30, 2012 is as follows:

Blackstone / GSO Long-Short Credit Income Fund			
		Asset Derivatives	Liability Derivatives
	Statement of Assets and	Gross Unrealized	Gross Unrealized
Risk Exposure	Liabilities Location	Appreciation	Depreciation
Credit Contracts (Total Return Swap Contracts)	Unrealized appreciation/ (depreciation) on total return swap contracts	\$60,300	\$(591,634)
Total		\$60,300	\$(591,634)

Blackstone / GSO Long-Short Credit Income Fund			
		Net Realized	Net Change in Unrealized
	Statement of Operations	Gain/(Loss)	Appreciation/ (Depreciation)
Risk Exposure	Location		
Credit Contracts (Credit Default Swap Contracts)	Net realized gain/(loss) on: Credit default swap contracts/change in unrealized appreciation/ (depreciation) on: Credit default swap contracts	\$ 10,530	\$(2,475)
Credit Contracts (Total Return Swap Contracts)	Net realized gain/(loss) on: Total return swap contracts/ change in unrealized appreciation/ (depreciation) on: Total return swap contracts	885,236	739,691
Total		\$ 895,766	\$ 737,216

NOTE 8. SECURITIES LENDING

BGX may make secured loans of its marginable securities to brokers, dealers and other financial institutions amounting to no more than 30% of its net assets. The risks in lending portfolio securities, as with other extensions of credit, consist of possible delay in recovery of the securities

Table of Contents

Blackstone / GSO Senior Floating Rate Term Fund
Blackstone / GSO Long-Short Credit Income Fund
Notes to Financial Statements

June 30, 2012 (Unaudited)

or possible loss of rights in the collateral should the borrower fail financially. However, such loans will be made only to broker-dealers and other financial institutions that are believed by the Adviser to be of relatively high credit standing.

Loans of securities are made to broker-dealers pursuant to agreements requiring that loans be continuously secured by collateral consisting of U.S. Government securities, cash or cash equivalents (negotiable certificates of deposit, bankers' acceptances or letters of credit) maintained on a daily mark-to-market basis in an amount at least equal at all times to the market value of the securities lent. The borrower pays to BGX, as the lender, an amount equal to any dividends or interest received on the securities lent. The collateral must have a market value at least equal to 100% of the market value of the loaned securities at all times during the duration of the loan.

BGX invests the cash collateral received in accordance with its investment objectives, subject to BGX's agreement with the borrower of the securities. In the case of cash collateral, BGX typically pays a rebate to the borrower. The reinvestment of cash collateral will result in a form of effective leverage for BGX.

Although voting rights or rights to consent with respect to the loaned securities pass to the borrower, BGX, as the lender, retains the right to call the loans and obtain the return of the securities loaned at any time on reasonable notice, and it will do so in order that the securities may be voted by BGX if the holders of such securities are asked to vote upon or consent to matters materially affecting the investment. BGX may also call such loans in order to sell the securities involved. When engaged in securities lending, BGX's performance will continue to reflect changes in the value of the securities loaned and will also reflect the receipt of interest through investment of cash collateral by BGX in permissible investments.

As of June 30, 2012, BGX had securities on loan valued at \$31,396,097 and received cash collateral with a value of \$31,922,215, representing 13.28% and 13.50% of net assets, respectively.

NOTE 9. LEVERAGE

On August 13, 2010, BSL issued \$96 million in aggregate principal amount of senior secured notes and 48,000 term preferred shares with an aggregate liquidation preference of \$48 million, both rated AAA by Fitch Ratings. The senior secured notes and term preferred shares in combination represent total leverage of approximately 33% of BSL's Managed Assets. BSL used the proceeds of the offerings to purchase additional assets for BSL's portfolio. The final maturity date of the senior secured notes and the final redemption date of the term preferred shares is May 31, 2020, which coincides with the scheduled dissolution date of BSL.

Both the senior secured notes and the term preferred shares may be prepaid or redeemed at the option of BSL commencing the second anniversary of issuance. In addition, both the senior secured notes and the term preferred shares are subject to mandatory prepayment or redemption, a) if BSL fails to meet certain overcollateralization tests, b) after the expiration of the BSL's reinvestment period, which ends on May 31, 2017, c) if the senior secured notes and term preferred shares have not been fully prepaid/redeemed six months prior to the final maturity date (May 31, 2020), or d) if BSL fails to pay dividends on the term preferred shares for six consecutive

Table of Contents

Blackstone / GSO Senior Floating Rate Term Fund

Notes to Financial Statements

June 30, 2012 (Unaudited)

months. Should either the senior secured notes or the term preferred shares be prepaid/redeemed, either through an optional or mandatory prepayment/redemption, the remainder of the term preferred shares or the senior secured notes shall also become payable/redeemable on a pro-rata basis.

In connection with BSL's issuance of senior secured notes and term preferred shares, certain costs were incurred by BSL and have been recorded as a deferred asset. These costs are being amortized over the period beginning August 13, 2010 (day of issuance) through May 31, 2017, the date on which mandatory prepayments commence. The deferred asset balance as of June 30, 2012 is shown on BSL's Statement of Assets and Liabilities under Deferred financing costs. The amount of expense amortized during the six months ended June 30, 2012 is shown on BSL's Statement of Operations under amortization of deferred financing costs.

The average cost of the \$144 million aggregate senior secured notes and term preferred shares is 1.78% over 3 month LIBOR. BSL pays quarterly, a floating rate interest of 1.55% over 3 month LIBOR on the senior secured notes and a floating rate dividend of 2.25% over 3 month LIBOR on the term preferred shares.

According to the governing documents for the senior secured notes and term preferred shares, BSL must adhere to certain limitations and restrictions while the leverage is outstanding. These compliance tests are performed by BSL's custodian, The Bank of New York Mellon Trust Company. These tests are in addition to any requirements outlined in BSL's registration statement and the 1940 Act. As of June 30, 2012, BSL was in compliance with all required limitations and restrictions related to its leverage.

The holders of the term preferred shares are entitled to one vote per share and will vote with holders of common stock as a single class, except that the term preferred shares will vote separately as a class on certain matters, as required by law or BSL's Declaration of Trust. The holders of term preferred shares, voting as a separate class, are entitled at all times to elect two Trustees of BSL.

The use of borrowings to leverage the common shares can create risks. Changes in the value of BSL's portfolio, including securities bought with the proceeds of leverage, are borne entirely by the holders of common shares. All costs and expenses related to any form of leverage used by BSL are borne entirely by common shareholders. If there is a net decrease or increase in the value of BSL's investment portfolio, the leverage may decrease or increase, as the case may be, the net asset value per common share to a greater extent than if BSL did not utilize leverage. During periods when BSL is using leverage, the fees paid to the Adviser for advisory services and to ALPS for administrative services are higher than if BSL did not use leverage because the fees paid are calculated on the basis of BSL's Managed Assets, which includes the assets purchased through leverage.

BGX currently employs leverage through securities lending arrangements (see Note 8 Securities Lending) and swap arrangements (see Note 7 Total Return and Credit Default Swaps). All costs and expenses related to any form of leverage used by BGX are borne entirely by holders of common shares. Although certain forms of effective leverage used by BGX, such as leverage incurred in securities lending, total return and credit default swap arrangements, other derivative

Table of Contents

Blackstone / GSO Senior Floating Rate Term Fund
 Blackstone / GSO Long-Short Credit Income Fund
 Notes to Financial Statements

June 30, 2012 (Unaudited)

transactions or short selling, may not be considered senior securities under the 1940 Act, such effective leverage will be considered leverage for BGX's leverage limits. BGX's use of these forms of effective leverage will not exceed 30% of its net assets. As of June 30, 2012, BGX's effective leverage represented 24.90% of net assets. BGX's total leverage and short sale exposure, through securities lending, total return and credit default swap arrangements, other derivative transactions or short selling (including the market value of securities BGX is obligated to repay through short sales even in transactions that do not result in leverage), will not exceed 67% of BGX's net assets.

Leverage creates risk for the common shareholders, including the likelihood of greater volatility of NAV and market price of the common shares, and may affect the return to the common shareholders or result in fluctuations in the dividends paid on the common shares. To the extent total return exceeds the cost of leverage, the Funds' return will be greater than if leverage had not been used. Conversely, if the total return derived from the use of leverage is less than the cost of leverage, the Funds' return will be less than if leverage had not been used, and therefore the amount available for distribution to common shareholders as dividends and other distributions will be reduced. In the latter case, the Adviser in its best judgment nevertheless may determine to maintain the Funds' leveraged position if it expects that the benefits to the Funds' common shareholders of maintaining the leveraged position will outweigh the current reduced return.

NOTE 10. TAX BASIS DISTRIBUTIONS

Ordinary income and long-term capital gains are allocated to common stockholders after payment of the available amounts on any outstanding term preferred shares. To the extent that the amount distributed to common stockholders exceeds the amount of available ordinary income and long-term capital gains after allocation to any outstanding term preferred shares, these distributions are treated as a tax return of capital. Additionally, to the extent that the amount distributed on any outstanding term preferred shares exceeds the amount of available ordinary income and long-term capital gains, these distributions are treated as a tax return of capital.

As determined on December 31, 2011, certain permanent differences between financial and tax accounting were reclassified. These differences were primarily due to the differing tax treatment of certain investments. The amounts reclassified did not affect net assets. The reclassifications were as follows:

	Increase/(Decrease) Paid-in capital	Increase/(Decrease) Accumulated net investment income/(loss)	Increase/(Decrease) Accumulated net realized gain/(loss)
Blackstone /GSO Senior Floating Rate Term Fund	\$	\$	\$
Blackstone /GSO Long-Short Credit Income Fund		673,451	(673,451)

 Notes to Financial Statements

June 30, 2012 (Unaudited)

The tax character of distributions paid by the Funds during the fiscal years ended December 31, 2011, and December 31, 2010, were as follows:

Blackstone / GSO Senior Floating Rate Term Fund	2011	2010
Distributions paid from:		
Ordinary income	\$ 22,162,695	\$ 10,486,960
Total	\$ 22,162,695	\$ 10,486,960

Blackstone / GSO Long- Short Credit Income Fund	2011	2010
Distributions paid from:		
Ordinary income	\$ 10,675,720	N/A
Tax return of capital	2,993,822	N/A
Total	\$ 13,669,542	N/A

Under the Regulated Investment Company Modernization Act of 2010 (the Act), net capital losses recognized in tax years beginning after December 22, 2010 may be carried forward indefinitely, and the character of the losses is retained as short-term and/or long-term. Under the law in effect prior to the Act, net capital losses were carried forward for eight years and treated as short-term. As a transition rule, the Act requires that post-enactment net capital losses be used before pre-enactment net capital losses.

At December 31, 2011, the Funds had available for federal tax purposes unused capital loss carryforwards, which are available to offset future realized gains. To the extent that these carryforwards are used to offset future gains, it is probable that the amount offset will not be distributed to shareholders. The carryforward losses are as follows:

	Short Term	Long Term
Blackstone / GSO Senior Floating Rate Term Fund	\$	\$
Blackstone / GSO Long-Short Credit Income Fund	2,059,286	

At December 31, 2011, the components of distributable earnings on a tax basis for the Funds were as follows:

	Blackstone /GSO Senior Floating Rate Term Fund	Blackstone /GSO Long-Short Credit Income Fund
Undistributed ordinary income	\$ 1,380,040	\$ 0
		(2,059,286)

 Summary of Dividend Reinvestment Plan

June 30, 2012 (Unaudited)

Pursuant to the Funds' Dividend Reinvestment Plan (the "DRIP"), shareholders whose shares are registered in their own name may opt-in to the plan and elect to reinvest all or a portion of their distributions in common shares by providing the required enrollment notice to Computershare, the DRIP administrator. Shareholders whose shares are held in the name of a broker or other nominee may have distributions reinvested only if such a service is provided by the broker or the nominee or if the broker or the nominee permits participation in the DRIP. Shareholders whose shares are held in the name of a broker or other nominee should contact the broker or nominee for details. A shareholder may terminate participation in the DRIP at any time by notifying the DRIP administrator before the record date of the next distribution through the Internet, by telephone or in writing. All distributions to shareholders who do not participate in the DRIP, or have elected to terminate their participation in the DRIP, will be paid by check mailed directly to the record holder by or under the direction of the DRIP administrator when the Funds' Board of Trustees declares a distribution.

When the Funds declare a distribution, shareholders who are participants in the applicable DRIP receive the equivalent of the amount of the distribution in common shares. If you participate in the DRIP, the number of common shares of the Funds that you will receive will be determined as follows:

(1) If the market price of the common shares plus any brokerage commissions on the payable date (or, if the payable date is not a New York Stock Exchange trading day, the immediately preceding trading day) for determining shareholders eligible to receive the relevant distribution (the "determination date") is equal to or exceeds 98% of the net asset value per common share, the Fund will issue new common shares at a price equal to the greater of:

- (a) 98% of the net asset value per share at the close of trading on the New York Stock Exchange on the determination date or
- (b) 95% of the market price per common share on the determination date.

(2) If 98% of the net asset value per common share exceeds the market price of the common shares plus any brokerage commissions on the determination date, the DRIP administrator will receive the distribution in cash and will buy common shares in the open market, on the New York Stock Exchange or elsewhere, for your account as soon as practicable commencing on the trading day following the determination date and terminating no later than the earlier of (a) 30 days after the distribution payment date, or (b) the record date for the next succeeding distribution to be made to the shareholders; except when necessary to comply with applicable provisions of the federal securities laws. If during this period: (i) the market price plus any brokerage commissions rises so that it equals or exceeds 98% of the net asset value per common share at the close of trading on the New York Stock Exchange on the determination date before the DRIP administrator has completed the open market purchases or (ii) the DRIP administrator is unable to invest the full amount eligible to be reinvested in open market purchases, the DRIP administrator will cease purchasing common shares in the open market and the Fund will issue the remaining common shares at a price per share equal to the greater of (a) 98% of the net asset value per share at the close of trading on the New York Stock Exchange on the determination date or (b) 95% of the then current market price per share.

Table of Contents

Blackstone / GSO Senior Floating Rate Term Fund
Blackstone / GSO Long-Short Credit Income Fund
Summary of Dividend Reinvestment Plan

June 30, 2012 (Unaudited)

The DRIP administrator maintains all shareholder accounts in the dividend reinvestment plan and furnishes written confirmations of all transactions in the account, including information needed by shareholders for personal and tax records. Common shares in the account of each DRIP participant are held by the DRIP administrator in non-certificated form in the name of the participant, and each shareholder's proxy includes shares purchased pursuant to the DRIP.

There is no charge to participants for reinvesting regular distributions and capital gains distributions. The fees of the DRIP administrator for handling the reinvestment of regular distributions and capital gains distributions are included in the fee to be paid by us to our transfer agent. There are no brokerage charges with respect to shares issued directly by us as a result of regular distributions or capital gains distributions payable either in shares or in cash. However, each participant bears a pro rata share of brokerage commissions incurred with respect to the DRIP administrator's open market purchases in connection with the reinvestment of such distributions. Shareholders that opt-in to the DRIP will add to their investment through dollar cost averaging. Because all dividends and distributions paid to such shareholder will be automatically reinvested in additional common shares, the average cost of such shareholder's common shares will decrease over time. Dollar cost averaging is a technique for lowering the average cost per share over time if the Fund's net asset value declines. While dollar cost averaging has definite advantages, it cannot assure profit or protect against loss in declining markets.

The automatic reinvestment of such dividends or distributions does not relieve participants of any income tax that may be payable on such dividends or distributions.

You may obtain additional information by contacting the DRIP administrator at the following address: Computershare, Attn: Sales Dept., P.O. Box 358035, Pittsburgh, PA 15252.

Additional Information

June 30, 2012 (Unaudited)

Portfolio Information. The Funds file their complete schedules of portfolio holdings with the Securities and Exchange Commission (the SEC) for the first and third quarters of each fiscal year on Form N-Q. The Funds' Forms N-Q will be available (1) on the Funds' website located at <http://www.blackstone-gso.com>; (2) on the SEC's website at <http://www.sec.gov>; or (3) for review and copying at the SEC's Public Reference Room (the PRR) in Washington, DC. Information regarding the operation of the PRR may be obtained by calling 1-800-SEC-0330.

Proxy information. The policies and procedures used to determine how to vote proxies relating to securities held by the Funds are available (1) without charge, upon request, by calling 1-877-876-1121, or (2) on the Funds' website located at <http://www.blackstone-gso.com>, and (3) on the SEC's website at <http://www.sec.gov>. Information regarding how the Funds voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30 is available on Form N-PX by August 31 of each year (1) without charge, upon request, by calling 1-877-876-1121, or (2) on the Funds' website located at <http://www.blackstone-gso.com>, and (3) on the SEC's website at <http://www.sec.gov>.

Senior Officer Code of Ethics. The Funds file a copy of their code of ethics that applies to the Funds' principal executive officer, principal financial officer or controller, or persons performing similar functions, with the SEC as an exhibit to this and each other annual report on Form N-CSR. This will be available on the SEC's website at <http://www.sec.gov>.

Privacy Procedures. Privacy is very important to the Funds. To ensure our shareholders' privacy the Funds have developed policies that are designed to protect confidentiality while allowing their shareholders' needs to be served. In the course of providing their shareholders with products and services, the Funds may obtain non-public personal information, such as address, social security number, assets and/or income information: (i) in the subscription document and related support documents; (ii) in correspondence and conversations with the Funds or their representatives; and (iii) through transactions in and relating to the investment with the Funds.

The Funds do not disclose any of this personal information about shareholders to anyone other than to their affiliates, except as required for everyday purposes or as permitted by law, such as to their attorneys, auditors, brokers, bankers, regulators, administrators and certain service providers, in each such case, only as necessary to facilitate the acceptance of the shareholder's investment or the management of the Funds. The Funds will also release information about a shareholder if such shareholder directs the Funds to do so, if compelled to do so by law, or in connection with any government or self-regulatory organization request or investigation.

The Funds seek to carefully safeguard private information and, to that end, restrict access to non-public personal information about the shareholders to those employees and other persons who need to know the information to enable the Funds to provide services to the shareholders. The Funds maintain physical, electronic and procedural safeguards to protect each shareholder's non-public personal information.

Annual Written Affirmation. The Funds will provide the New York Stock Exchange with an Annual Written Affirmation signed by the Funds CEO within 30 days after the shareholder meeting.

Approval of Investment Advisory Agreements

June 30, 2012 (Unaudited)

The Investment Company Act of 1940, as amended (the 1940 Act), requires that the Board of Trustees (together, the Board) of each of Blackstone / GSO Senior Floating Rate Term Fund (BSL) and Blackstone / GSO Long-Short Credit Income Fund (BGX , together with BSL, the Funds and each a Fund), including a majority of its members who are not considered to be interested persons under the 1940 Act (the Independent Trustees) voting separately, approve on an annual basis the continuation of the Fund s investment advisory agreement (the Agreement) with the Fund s investment adviser, GSO / Blackstone Debt Funds Management LLC (the Adviser). At a meeting (the Contract Renewal Meeting) held in person on May 15, 2012, the Board of each Fund, including the Independent Trustees, considered and approved the continuation of the Agreement for an additional one-year term. To assist in its consideration of the renewal of the Agreement, the Board requested, received and considered a variety of information (together with the information provided at the Contract Renewal Meeting, the Contract Renewal Information) about the Adviser, as well as the advisory arrangements for the Funds, certain portions of which are discussed below. The presentation made by the Adviser to the Board of each Fund at the Contract Renewal Meeting in connection with its evaluation of the Agreement encompassed both Funds. In addition to the Contract Renewal Information, the Board received performance and other information since each Fund s inception related to the services rendered by the Adviser to such Fund. The Board s evaluation took into account the information received since each Fund s inception and also reflected the knowledge and familiarity gained as members of the Board with respect to the investment advisory and other services provided to each Fund by the Adviser under its Agreement.

Board Approval of the Agreement

In its deliberations regarding renewal of the Agreement, the Board of each Fund, including the Independent Trustees, considered various factors, including those set forth below.

Nature, Extent and Quality of the Services Provided to the Fund under the Agreements

The Board received and considered Contract Renewal Information regarding the nature, extent and quality of services provided to the Funds by the Adviser under the Agreements since each Fund s inception. The Board also reviewed Contract Renewal Information regarding the Funds compliance policies and procedures established pursuant to the 1940 Act and each Fund s compliance record since its inception.

The Board reviewed the qualifications, backgrounds and responsibilities of the Fund s senior personnel and the portfolio management team primarily responsible for the day-to-day portfolio management of each Fund. The Board also considered, based on its knowledge of the Adviser and its affiliates, the Contract Renewal Information and the Board s discussions with the Adviser at the Contract Renewal Meeting, the general reputation and investment performance records of the Adviser and its affiliates and the financial resources of the corporate parent of the Adviser, The Blackstone Group L.P., available to support its activities in respect of the Funds.

The Board considered the responsibilities of the Adviser under each Fund s Agreement, including the Adviser s coordination and oversight of the services provided to such Fund by other unaffiliated parties.

Table of Contents

Blackstone / GSO Senior Floating Rate Term Fund
Blackstone / GSO Long-Short Credit Income Fund
Approval of Investment Advisory Agreements

June 30, 2012 (Unaudited)

In reaching its determinations regarding continuation of each Fund's Agreement, the Board took into account that such Funds' shareholders, in pursuing their investment goals and objectives, likely considered the reputation and the investment style, philosophy and strategy of the Adviser, as well as the resources available to the Adviser, in purchasing their shares.

The Board concluded that, overall, the nature, extent and quality of the advisory and other services provided to each Fund since each its inception under its Agreement have been of high quality.

Fund Performance

The Board received and considered performance information and analyses (the Morningstar Performance Information) for the Funds, as well as for a group of funds identified by the Adviser as comparable to the Funds regardless of asset size (the Performance Peer Group), prepared by Morningstar DirectSM (Morningstar), an independent provider of investment company data. The Performance Peer Group consisted of twenty-two funds, including BSL and BGX. The Board noted that it had received and discussed with the Adviser information at periodic intervals since each Fund's inception comparing such Fund's performance against its benchmarks and its peer funds.

BSL

The Morningstar Performance Information comparing BSL's performance to that of the Performance Peer Group based on net asset value per share showed, among other things, that BSL's performance for the 1-year period ended March 31, 2012 was ranked eighth among the funds in the Performance Peer Group and was better than the median performance for the Performance Peer Group. BSL's performance since its inception and for periods shorter than the 1-year period trailed the Performance Peer Group median, reflecting the impact of cash held by the Fund during orderly investment of the Fund's assets following commencement of its operations. The Board also considered BSL's performance relative to its benchmarks and in absolute terms.

BGX

The Morningstar Performance Information comparing BGX's performance to that of the Performance Peer Group based on net asset value per share showed, among other things, that BGX's performance for the 1-year period ended March 31, 2012 was better than the median performance for the Performance Peer Group. The Board also considered BGX's performance relative to its benchmarks and in absolute terms.

The Board further noted for each Fund that, while its investment program is complex, the Fund's performance was achieved in a risk-aware manner. In assessing Fund performance, the Board also considered the Adviser's success in maintaining each Fund's level of distributions to shareholders since its inception in light of the low interest rate environment and prevailing credit market conditions.

Based on its review, the Board concluded that, under the circumstances, each Fund's performance was strong since its inception and supported continuation of its Agreement for an additional period of one year.

Table of Contents

Blackstone / GSO Senior Floating Rate Term Fund
Blackstone / GSO Long-Short Credit Income Fund
Approval of Investment Advisory Agreements

June 30, 2012 (Unaudited)

Management Fees

The Board reviewed and considered the investment advisory fee (the *Advisory Fee*) payable under each Fund's Agreement by each Fund to the Adviser in light of the nature, extent and overall high quality of the investment advisory and other services provided by the Adviser to the Fund.

Additionally, the Board received and considered information and analyses (the *Lipper Expense Information*) prepared by Lipper Inc. (*Lipper*), an independent provider of investment company data, comparing the *Advisory Fee* and each Fund's overall expenses with those of funds in an expense group (the *Expense Group*) selected and provided by Lipper with the input of the Adviser. The comparison was based upon the constituent funds' latest fiscal years. The Expense Group consisted of ten leveraged loan closed-end funds, as classified by Lipper, including BSL and BGX. The Expense Group funds had net common share assets ranging from \$122.4 million to \$853.6 million.

BSL

Four of the other funds in the Expense Group were larger than BSL and five of the other funds were smaller. The Lipper Expense Information, comparing BSL's actual total expenses to the Expense Group, showed, among other things, that the Fund's actual *Advisory Fee* (i.e., giving effect to any voluntary fee waivers implemented by the Adviser with respect to the Fund and by the managers of the other Expense Group funds), whether compared on the basis of common assets only or on the basis of common and leveraged assets, was ranked last (i.e., highest) among the funds in the Expense Group and was significantly higher than the Expense Group median. The Fund's actual total expenses whether compared on the basis of common assets or on the basis of common and leveraged assets also were ranked last among the funds in the Expense Group and were significantly higher than the Expense Group average.

BGX

Eight of the other funds in the Expense Group were larger than BGX and one of the other funds was smaller. The Lipper Expense Information, comparing BGX's actual total expenses to the Fund's Expense Group, showed, among other things, that the Fund's actual *Advisory Fee* (i.e., giving effect to any voluntary fee waivers implemented by the Adviser with respect to the Fund and by the managers of the other Expense Group funds) compared on the basis of common assets only was slightly worse (i.e., higher) than the Expense Group median. BGX's actual total expenses compared on the basis of common assets, however, were better (i.e., lower) than the Expense Group average.

In addition, in its evaluation of the *Advisory Fee* for each Fund, the Board took into account the complexity of such Fund's investment program. The Board further noted that the small number and varying sizes of funds in the Expense Group made meaningful expense comparisons difficult.

The Board also reviewed Contract Renewal Information regarding fees charged by the Adviser to other U.S. clients investing primarily in an asset class similar to that of the Funds, including, where applicable, institutional and separate accounts. The Board was advised that the base fees paid by such institutional, separate account and other clients generally are lower, and may be significantly lower, than the *Advisory Fee*. The Contract Renewal Information discussed the significant differences in scope of services provided to the Funds and to these other clients, noting that the

Table of Contents

Blackstone / GSO Senior Floating Rate Term Fund
Blackstone / GSO Long-Short Credit Income Fund
Approval of Investment Advisory Agreements

June 30, 2012 (Unaudited)

Funds were subject to heightened regulatory requirements relative to institutional clients; that the Funds were provided with administrative services, office facilities and Fund officers (including each Fund's chief executive, chief financial and chief compliance officers); and that the Adviser coordinates and oversees the provision of services to the Funds by other fund service providers. In addition, the Board was advised that several institutional clients pay performance fees, which the Funds do not pay. The Board considered the fee comparisons in light of the different services provided in managing these other types of clients and funds.

Taking all of the above into consideration, the Board determined that the Advisory Fee for each Fund was reasonable in light of the nature, extent and overall high quality of the investment advisory and other services provided to such Fund under its Agreement.

Profitability

The Board, as part of the Contract Renewal Information, received an analysis of the profitability to the Adviser and its affiliates in providing services to each Fund for the past year and since such Fund's inception. In addition, the Board received Contract Renewal Information with respect to the Adviser's revenue and cost allocation methodologies used in preparing such profitability data. The profitability analysis, among other things, indicated that providing investment advisory and other services to BSL became profitable during 2012 but the profitability to the Adviser in providing such services to the Fund was at a level which was not considered excessive by the Board in light of the nature, extent and overall high quality of such services. In the case of BGX, the profitability analysis, among other things, indicated that providing investment advisory and other services to the Fund was not profitable to the Advisor during the period covered by the analysis.

Economies of Scale

The Board received and discussed Contract Renewal Information concerning whether the Adviser would realize economies of scale if either the Funds' assets grow. The Board noted that because each Fund is a closed-end fund with no current plans to seek additional assets beyond maintaining its dividend investment plan, any significant growth in its assets generally will occur through appreciation in the value of each Fund's investment portfolio, rather than sales of additional shares in the Fund. The Board determined that the Advisory Fee structure was appropriate under present circumstances.

Other Benefits to the Adviser

The Board considered other benefits received by the Adviser and its affiliates as a result of the Adviser's relationship with each of the Funds and did not regard such benefits as excessive.

* * * * *

In light of all of the foregoing and other relevant factors, the Board determined that, under the circumstances, continuation of each Fund's Agreement would be in the interests of the such Fund and its shareholders and unanimously voted to continue the Agreement for a period of one additional year.

No single factor reviewed by the Board was identified by the Board as the principal factor in determining whether to approve continuation of each Agreement, and each Board member

Approval of Investment Advisory Agreements

June 30, 2012 (Unaudited)

attributed different weights to the various factors. The Independent Trustees were advised by separate independent legal counsel throughout the process. Prior to the Contract Renewal Meeting, the Board received a memorandum prepared by counsel to the Funds discussing its responsibilities in connection with the proposed continuation of the Agreement as part of the Contract Renewal Information and the Independent Trustees separately received a memorandum discussing such responsibilities from their independent counsel. Prior to voting, the Independent Trustees discussed the proposed continuation of each Agreement in a private session with their independent legal counsel at which no representatives of the Adviser were present.

 Trustees & Officers

June 30, 2012 (Unaudited)

The oversight of the business and affairs of the Funds is vested in the Board of Trustees. The Board of Trustees is classified into three classes Class I, Class II and Class III as nearly equal in number as reasonably possible, with the Trustees in each class to hold office until their successors are elected and qualified. At each annual meeting of shareholders, the successors to the class of Trustees whose terms expire at that meeting shall be elected to hold office for terms expiring at the later of the annual meeting of shareholders held in the third year following the year of their election or the election and qualification of their successors. The Funds' executive officers will be chosen each year at a regular meeting of the Board of Trustees to hold office until their respective successors are duly elected and qualified.

Below is a list of the Trustees and officers of the Funds and their present positions and principal occupations during the past five years. The business address of the Funds, the Trustees, the Funds' officers, and the Adviser is 345 Park Avenue, 3rd Floor, New York, NY 10154, unless specified otherwise below.
