Restricted Stock Unit Grants

Effective May 28, 2013, the Compensation Committee approved the grant of an aggregate of 332,414 restricted stock units ( RSUs ) to executive officers and certain other employees of the Company under the Company s 2010 Amended and Restated Stock Incentive Plan (the Stock Incentive Plan ), including awards to named executives officers listed below:

Name	Number of RSUs
William A. Furman	73,342
Alejandro Centurion	17,909
William G. Glenn	15,238
Mark J. Rittenbaum	20,126

Each RSU entitles the recipient to receive one share of Common Stock of the Company upon vesting of the RSU, except as described below.

Half of each RSU award is subject to time-based vesting. Time-based RSUs will vest in equal annual installments over a three-year period on the first, second and third anniversaries of the date of the grant, provided the recipient remains employed with the Company through the vesting date.

Half of each RSU award is subject to performance-based vesting. Performance-based RSUs will vest, in whole or in part, contingent upon achievement of the Company s goals relating to cumulative adjusted EBITDA and adjusted return on equity ( ROE ), measured during the period March 1, 2013 August 31, 2015 (the Measurement Period ). The performance goals are equally weighted, such that vesting of 50% of the performance-based RSUs is dependent upon performance against the cumulative adjusted EBITDA goal and vesting of 50% of the performance-based RSUs is dependent upon performance against the adjusted ROE goal.

Vesting of RSUs related to each performance goal will be considered independently. Threshold, target and stretch performance levels are established for the cumulative adjusted EBITDA and adjusted ROE goals based on the Company s financial plan. For the cumulative adjusted EBITDA goal, threshold performance is set at 70% of plan EBITDA; target performance is set at 90% of plan EBITDA; and stretch performance is set at 110% of plan EBITDA. For the adjusted ROE goal, threshold performance is based on 60% of plan net earnings; target performance is based on 85% of plan net earnings; and stretch performance is based on 115% of plan net earnings.

If the Company achieves the threshold level of performance on a goal, then 50% of the performance-based RSUs tied to that goal will vest. If the Company achieves the target level of performance on a goal, 100% of the performance-based RSUs tied to that goal will vest. If the Company achieves a stretch goal, then the recipient will be entitled to receive two shares of Common Stock for each performance-based RSU tied to that goal, rather than one share. RSU

vesting will be interpolated for performance between threshold and target, and issuance of additional shares for achievement in excess of target goals will be interpolated for performance between target and stretch goals.

Vesting of time-based and performance-based RSUs will accelerate in the event of death or disability of the recipient. In the event of a Change of Control of the Company (as defined under the Stock Incentive Plan), performance-based RSUs will automatically convert into time-based RSUs and will vest in full on August 31, 2015, provided the recipient remains employed with the Company through that date. If a recipient retires, time-based RSUs will become fully vested, while performance-based RSUs will continue to vest based on performance during the Measurement Period and the retiree will receive a pro-rated number of shares upon settlement of the RSUs, based upon the duration of service during the measurement period.

Upon vesting of RSUs the Company will settle the RSUs net of required tax withholding, and will issue the underlying shares to the recipient, unless the recipient has elected to pay required withholding taxes in cash. In addition, the recipient may elect to defer receipt of the shares in accordance with the terms of the Company's Nonqualified Deferred Compensation Plan. Deferred shares will be issued at the time elected by the recipient pursuant to the terms of the Nonqualified Deferred Compensation Plan.

In order to maximize deductibility of compensation paid to the Company's highest paid executive officers under Internal Revenue Code §162(m), performance-based RSUs held by individuals who are covered employees as defined under Code §162(m) will become null and void if shareholder approval meeting the requirements of Code §162(m) is not obtained prior to the time the performance-based RSUs otherwise would vest.

#### Approval of Form of Restricted Stock Unit Agreement

On May 28, 2013 the Compensation Committee approved a form of Restricted Stock Unit Agreement to document the terms and conditions of RSU grants awarded to employees of the Company, including its named executive officers.

A copy of the form of Restricted Stock Unit Agreement is attached as Exhibit 10.1 and incorporated herein by reference.

#### Amendment of Change of Control Agreements

The Company previously entered into Change of Control Agreements with certain of its key employees. Each such Change of Control Agreement provides for acceleration of vesting of stock options and restricted stock awards in the event the employee is terminated within 24 months following a Change of Control of the Company (as defined in the Change of Control Agreement). On May 28, 2013 the Compensation Committee approved an Amendment to Change of Control Agreement to be entered into by the Company and each employee who is party to a Change of Control Agreement, in order to apply the same double trigger acceleration of vesting of RSUs in the event of a termination of employment within 24 months following a Change of Control of the Company.

A copy of the form of Amendment to Change in Control Agreement is attached as Exhibit 10.2 and incorporated herein by reference.
