## USE OF PROCEEDS

We intend to use the net proceeds from the sale of the Notes for general corporate purposes, which may include the acquisition of other companies, repurchasing outstanding shares of our common stock, repayment of maturing obligations and refinancing of outstanding indebtedness and extending credit to, or funding investments in, our subsidiaries. The precise amounts and timing of our use of the net proceeds will depend upon our and our subsidiaries' funding requirements and the availability of other funds. Pending our use of the net proceeds from the sale of the Notes as described above, we will use the net proceeds to reduce our short-term indebtedness or for temporary investments.

## CONSOLIDATED RATIOS OF EARNINGS TO FIXED CHARGES

The consolidated ratios of earnings to fixed charges for us and our subsidiaries for the periods indicated below were as follows:

	Three Months Ended March 31,		Year Ended December 31,				
	2013	2012	2012	2011	2010	2009	2008
<b>Earnings to Fixed Charges:<sup>1</sup></b>							
Excluding interest on deposits	3.49x	4.07x	4.37x	2.91x	1.99x	1.88x	2.76x
Including interest on deposits	2.86x	2.92x	3.18x	2.10x	1.50x	1.38x	1.67x

(1) Dividends on preferred stock have been grossed up by the effective tax rate for the period.

For purposes of computing these ratios, earnings represent income from continuing operations before extraordinary items and cumulative effects of changes in accounting principles plus income taxes and fixed charges (excluding capitalized interest and dividends on our preferred stock, less earnings attributable to noncontrolling interest). Fixed charges, excluding interest on deposits, represent interest (other than on deposits, but including capitalized interest), one-third of rents (the proportion representative of the interest factor), dividends on our preferred stock and all amortization of debt issuance costs. Fixed charges, including interest on deposits, represent all interest, one-third of rents (the proportion representative of the interest factor), dividends on our preferred stock and all amortization of debt issuance costs.

As of the date of this pricing supplement, we have 23,000 shares of our Series D Non-Cumulative Perpetual Preferred Stock, par value \$5.00 per share and a liquidation preference of \$25,000 per share, issued on May 1, 2012, 46,000 shares of our Series E Non-Cumulative Perpetual Preferred Stock, par value \$5.00 per share and a liquidation preference of \$25,000 per share, issued on July 31, 2012, 18,000 shares of our Series F Non-Cumulative Perpetual Preferred Stock, par value \$5.00 per share and liquidation preference of \$25,000 per share, issued on October 31, 2012, and 20,000 shares of our Series G Non-Cumulative Perpetual Preferred Stock, par value \$5.00 per share and liquidation preference of \$25,000 per share, issued on May 1, 2013, outstanding.

## SUPPLEMENTAL INFORMATION CONCERNING CERTAIN UNITED STATES FEDERAL INCOME TAX CONSEQUENCES

The following supplemental information concerning the Notes is intended to be read in conjunction with the statements under Certain United States Federal Income Tax Consequences in the accompanying prospectus supplement, which the following information supplements and, if there are any inconsistencies, supersedes.

### FATCA

Legislation was enacted that significantly changes the reporting requirements imposed on certain non-U.S. persons, including certain foreign financial institutions and investment funds. In general, a 30% withholding tax

could be imposed on payments made to any such non-U.S. person unless such non-U.S. person complies with certain reporting requirements regarding its direct and indirect U.S. shareholders and/or U.S. accountholders. Such withholding could apply to payments regardless of whether they are made to such non-U.S. person in its capacity as a holder of a Note or in a capacity of holding a Note for the account of another. FATCA does not apply to obligations that are outstanding on January 1, 2014. A debt instrument, such as the Notes, is treated as outstanding on January 1, 2014 if it has an issue date, as determined under U.S. tax law, before January 1, 2014. Any material modification (as defined in Treasury Regulations issued under Section 1001 of the Code) of a Note on or after January 1, 2014 will result in such Note being treated as newly issued as of the effective date of such modification. In general, if a Note is outstanding on January 1, 2014, and such Note is reopened on or after January 1, 2014 in a qualified reopening (as such term is defined in Treasury Regulations issued under Section 1275 of the Code), the Notes issued in the reopening will be treated for U.S. tax purposes as having the same issue date as the original issue of Notes. In addition, pursuant to recently-issued Final Regulations, withholding will only be required (i) with respect to payments of interest made after December 31, 2013 and (ii) with respect to other withholdable payments (including payments of gross proceeds from a sale or other disposition of Notes) made after December 31, 2016. Holders should consult their own tax advisors concerning the potential application of this legislation to the Notes.

### Medicare Tax

For taxable years beginning after December 31, 2012, a U.S. holder that is an individual or estate, or a trust that does not fall into a special class of trusts that is exempt from such tax, will be subject to a 3.8% Medicare tax on the lesser of (1) the U.S. holder's net investment income for the relevant taxable year and (2) the excess of the U.S. holder's modified adjusted gross income for the taxable year over a certain threshold (which in the case of individuals will be between \$125,000 and \$250,000, depending on the individual's circumstances). A U.S. holder's net investment income will generally include its interest income (including original issue discount) and its net gains from the disposition of Notes, unless such interest income or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). If you are a U.S. holder that is an individual, estate, or trust, you are urged to consult your tax advisors regarding the applicability of the Medicare tax to your income and gains in respect of your investment in the Notes.

### SUPPLEMENTAL INFORMATION CONCERNING THE PLAN OF DISTRIBUTION

We have entered into a syndicated underwriting agreement, dated as of June 14, 2013 (the terms agreement), with the underwriters named below. Subject to the terms and conditions set forth in the terms agreement, we have agreed to sell to the underwriters, and the underwriters have agreed to purchase, the principal amount of Notes set forth opposite their respective names below:

Underwriter	Principal Amount of Fixed Rate Notes	Principal Amount of Floating Rate Notes
Deutsche Bank Securities Inc.	\$ 200,000,000	\$ 133,333,334
BB&T Capital Markets, a division of BB&T Securities, LLC	200,000,000	133,333,333
Goldman, Sachs & Co.	200,000,000	133,333,333
Total	\$ 600,000,000	\$ 400,000,000

We have been advised by the underwriters that they propose initially to offer the Notes to the public at the public offering price set forth on page one of this pricing supplement, and may offer the Notes to certain dealers at the public offering price less a concession not in excess of 0.15% of the principal amount of the Notes. After the initial public offering, the public offering price may be changed from time to time.

The Notes are a new issue of securities with no established trading market. The underwriters have advised us that they intend to make a market in the Notes, as applicable laws and regulations permit, but the underwriters are not obligated to do so and may discontinue any market making at any time without notice. No assurance can be given as to the liquidity of any trading market for these Notes.

The terms agreement provides that the obligations of the underwriters are subject to certain conditions precedent and that the underwriters will purchase all the Notes if any are purchased.

To facilitate the offering of these Notes, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of these Notes. Specifically, the underwriters may overallocate in connection with any offering of these Notes, creating a short position in these Notes for their own accounts. In addition, to cover overallocations or to stabilize the price of these Notes, the underwriters may bid for, and purchase, these Notes in the open market. Finally, in any offering through a syndicate of underwriters, the underwriting syndicate may reclaim selling concessions allowed to an underwriter or a dealer for distributing these Notes in the offering if the syndicate repurchases previously distributed Notes in transactions to cover syndicate short positions, in stabilization transactions or otherwise. Any of these activities may stabilize or maintain the market price of these Notes above independent market levels. The underwriters are not required to engage in these activities, and may end any of these activities at any time.

We and the underwriters have agreed to indemnify each other against certain liabilities, including liabilities under the Securities Act, or to contribute to payments made in respect of those liabilities. We have also agreed to reimburse the underwriters for specified expenses.

We estimate that the total offering expenses for the Notes, excluding the underwriters' discounts, will be approximately \$750,000.

In the course of their business, the underwriters and certain of their affiliates have engaged and may in the future engage in commercial banking and/or investment banking transactions with us and with our affiliates. The underwriters and their affiliates may also be customers of, engage in transactions with and perform services for us, including our subsidiaries, in the ordinary course of business. They have received and may continue to receive customary fees and commissions for these transactions.

In the ordinary course of their various business activities, the underwriters and their respective affiliates have made or held, and may in the future make or hold, a broad array of investments including serving as counterparties to certain derivative and hedging arrangements, and may have actively traded, and, in the future may actively trade, debt and equity securities (or related derivative securities), and financial instruments (including bank loans) for their own account and for the accounts of their customers and may have in the past and at any time in the future hold long and short positions in such securities and instruments. Such investment and securities activities may have involved, and in the future may involve, our securities and instruments.
