Contracts insuring the lives of certain employees who are eligible to participate in certain non-qualified pension and deferred compensation plans are held in trust. Cash surrender value of the contracts is based on performance measurement funds that shadow the deferral investment allocations made by participants in certain deferred compensation plans. The deferred compensation liability balances are valued based on amounts allocated by participants to the underlying performance measurement funds.

Long-term notes payable with fixed interest rates have a carrying amount of \$300 million and an estimated fair value of \$320 million as of September 27, 2013 and \$330 million as of December 28, 2012. The fair value of variable rate borrowings approximates carrying value. The Company uses significant other observable inputs to estimate fair value (level 2 of the fair value hierarchy) based on the present value of future cash flows and rates that would be available for issuance of debt with similar terms and remaining maturities.

11. The Company accounts for all derivatives, including those embedded in other contracts, as either assets or liabilities and measures those financial instruments at fair value. The accounting for changes in the fair value of derivatives depends on their intended use and designation.

As part of its risk management program, the Company may periodically use forward exchange contracts and interest rate swaps to manage known market exposures. Terms of derivative instruments are structured to match the terms of the risk being managed and are generally held to maturity. The Company does not hold or issue derivative financial instruments for trading purposes. All other contracts that contain provisions meeting the definition of a derivative also meet the requirements of, and have been designated as, normal purchases or sales. The Company's policy is to not enter into contracts with terms that cannot be designated as normal purchases or sales.

The Company periodically evaluates its monetary asset and liability positions denominated in foreign currencies. The Company enters into forward contracts or options, or borrows in various currencies, in order to hedge its net monetary positions. These instruments are recorded at current market values and the gains and losses are included in other expense (income), net. The notional amount of contracts outstanding as of September 27, 2013 totaled \$23 million. The Company believes it uses strong financial counterparts in these transactions and that the resulting credit risk under these hedging strategies is not significant.

The Company uses significant other observable inputs (level 2 in the fair value hierarchy) to value the derivative instruments used to hedge and net monetary positions, including reference to market prices and financial models that incorporate relevant market assumptions. The fair market value and balance sheet classification of such instruments follows (in thousands):

12. On April 2, 2012, the Company completed the purchase of the finishing businesses of Illinois Tool Works Inc. (ITW). The acquisition included powder finishing and liquid finishing equipment operations, technologies and brands (separately, the Powder Finishing and Liquid Finishing businesses). Results of the Powder Finishing businesses have been included in the Industrial segment since the date of acquisition, including \$96 million of sales and \$14 million of operating earnings in the first nine months of 2013 and \$62 million of sales and \$4 million of operating earnings in the comparable period of 2012 (starting in the second quarter).

In May 2012, the United States Federal Trade Commission (FTC) issued a proposed decision and order which requires Graco to sell the Liquid Finishing business assets no later than 180 days from the date the order becomes final. The FTC has not yet issued its final decision and order.

The Company has retained the services of an investment bank to help it market the Liquid Finishing businesses and identify potential buyers. While it seeks a buyer, Graco must hold the Liquid Finishing business assets separate from its other businesses and maintain them as viable and competitive.

The Company does not have a controlling interest in the Liquid Finishing businesses, nor is it able to exert significant influence over those businesses. Consequently, the Company's investment in the shares of the Liquid Finishing businesses has been reflected as a cost-method investment on the Consolidated Balance Sheets, and its results of operations have not been consolidated with those of the Company.

As a cost-method investment, income is recognized based on dividends received from after-tax earnings of Liquid Finishing and included in other expense (income) on the Consolidated Statements of Earnings. Dividends received in 2013 totaled \$9 million in the third quarter and \$24 million year-to-date. Dividends received in 2012 totaled \$4 million in the third quarter and \$8 million year-to-date (starting in the second quarter). Once the FTC issues its final decision and order, and the Company completes the sale of its investment, there will be no further dividends from Liquid Finishing.

Also in 2013, ITW reimbursed Graco approximately \$4.5 million for payments of pre-acquisition tax liabilities paid by Liquid Finishing businesses after the acquisition date. This reimbursement was recorded as a reduction of the cost-method investment on the Consolidated Balance Sheet.

The Company evaluates its cost-method investment for other-than-temporary impairment at each reporting period. As of September 27, 2013, the Company evaluated its investment in Liquid Finishing and determined that there was no impairment.

Non-recurring acquisition expenses of \$4 million for the third quarter and \$15 million year-to-date were eliminated from the 2012 pro forma results. Purchase accounting effects of \$7 million related to inventory were removed from the year-to-date 2012 pro forma results.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF

FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

The Company designs, manufactures and markets systems and equipment to move, measure, control, dispense and spray fluid and coating materials. Management classifies the Company's business into three reportable segments: Industrial, Contractor and Lubrication. Key strategies include developing and marketing new products, expanding distribution globally, opening new markets with technology and channel expansion and completing strategic acquisitions.

The following Management's Discussion and Analysis reviews significant factors affecting the Company's results of operations and financial condition. This discussion should be read in conjunction with the financial statements and the accompanying notes to the financial statements.

Acquisition

On April 2, 2012, the Company completed the purchase of the finishing businesses of ITW. The acquisition included Powder Finishing and Liquid Finishing equipment operations, technologies and brands. Results of the Powder Finishing business have been included in the Industrial segment since the date of acquisition.

Pursuant to a March 2012 order, the Liquid Finishing businesses were to be held separate from the rest of Graco's businesses while the United States Federal Trade Commission (FTC) considered a settlement with Graco and determined which portions of the Liquid Finishing businesses Graco must divest.

In May 2012, the FTC issued a proposed decision and order which requires Graco to sell the Liquid Finishing business assets, including certain business activities related to the development, manufacture, and sale of products under the Binks®, DeVilbiss®, Ransburg® and BGK® brand names, no later than 180 days from the date the order becomes final. The FTC has not yet issued its final decision and order.

The Company has retained the services of an investment bank to help it market the Liquid Finishing businesses and identify potential buyers. While it seeks a buyer, Graco must continue to hold the Liquid Finishing business assets separate from its other businesses and maintain them as viable and competitive.

The Company does not control the Liquid Finishing businesses, nor is it able to exert influence over those businesses. Consequently, the Company's investment in the shares of the Liquid Finishing businesses has been reflected as a cost-method investment, and its financial results have not been consolidated with those of the Company.

As a cost-method investment, income is recognized based on dividends received from after-tax earnings of Liquid Finishing and included in other expense (income) on the Consolidated Statements of Earnings. Dividends received in 2013 totaled \$9 million in the third quarter and \$24 million year-to-date. Dividends received in 2012 totaled \$4 million in the third quarter and \$8 million year-to-date (starting in the second quarter). Once the FTC issues its final decision

and order, and the Company completes the sale of its investment, there will be no further dividends from Liquid Finishing.

Also in 2013, ITW reimbursed Graco approximately \$4.5 million for payments of pre-acquisition tax liabilities paid by Liquid Finishing businesses after the acquisition date. This reimbursement was recorded as a reduction of the cost-method investment on the Consolidated Balance Sheet.

The Company evaluates its cost-method investment for other-than-temporary impairment at each reporting period. As of September 27, 2013, the Company evaluated its investment in Liquid Finishing and determined that there was no impairment.

Consolidated Results

Net sales, net earnings and earnings per share were as follows (in millions except per share amounts and percentages):

| | Thirteen Weeks Ended | | | Thirty-nine Weeks Ended | | |
|---------------------------------------|----------------------|-----------------|-------------|-------------------------|-----------------|-------------|
| | Sep 27, 2013 | Sep 28, 2012 | % Change | Sep 27, 2013 | Sep 28, 2012 | % Change |
| Net Sales | \$ 277.0 | \$ 256.5 | 8% | \$ 832.1 | \$ 758.8 | 10% |
| Net Earnings | \$ 56.1 | \$ 37.1 | 51% | \$ 166.1 | \$ 106.9 | 55% |
| Diluted Net Earnings per Common Share | \$ 0.89 | \$ 0.60 | 48% | \$ 2.65 | \$ 1.73 | 53% |

Sales for the quarter increased 8 percent from last year, driven by strong sales in the Contractor segment, along with modest increases in the Industrial and Lubrication segments. Year-to-date sales increased 10 percent, including 4 percentage points from the full-year impact of the Powder Finishing operations acquired in April 2012, and strong growth in Contractor segment sales.

Higher sales and strong gross margin rates, decreases in acquisition-related expenses, higher investment income from Liquid Finishing businesses held separate, and favorable changes in the income tax provision all contributed to significant growth in net earnings for both the quarter and the year-to-date.

Changes in currency translation rates did not have a significant effect on consolidated operating results, but had a more notable impact on regional results. Favorable effects of rate changes in EMEA were offset by unfavorable effects in Asia Pacific.

Sales for the quarter increased 8 percent, including increases of 15 percent in the Americas and 8 percent in EMEA (4 percent at consistent translation rates). Sales for the quarter decreased 9 percent in Asia Pacific (6 percent at consistent translation rates). Year-to-date sales increased 10 percent, including increases of 13 percent in the Americas and 11 percent in EMEA (9 percent at consistent translation rates). Year-to-date sales were flat in Asia Pacific (up 2 percent at consistent translation rates). The first quarter impact of the Powder Finishing operations acquired in April 2012 contributed approximately 4 percentage points of the total year-to-date growth and accounted for most of the growth in EMEA (at consistent translation rates).

Gross profit margin, expressed as a percentage of sales, was 54 ½ percent for the quarter, consistent with the comparable period last year. Year-to-date gross profit margin rate was 55 percent, up 1 percentage point from last year. Non-recurring inventory-related purchase accounting effects totaling \$7 million reduced last year's year-to-date gross margin rate by approximately 1 percentage point.

Table of Contents

Total operating expenses for the quarter and year-to-date were slightly lower than the comparable periods last year. Volume-related increases in selling, marketing and distribution expenses were more than offset by decreases in general and administrative expenses, including acquisition and divestiture cost decreases of \$3 million for the quarter and \$14 million year-to-date.

Other expense (income) included after-tax dividends received from the Liquid Finishing businesses that are held separate from the Company's other businesses. Such dividends totaled \$9 million for the quarter and \$24 million year-to-date, up from \$4 million for the quarter and \$8 million year-to-date received in the comparable periods last year. On a fully-diluted per share basis, dividends in 2013 were \$0.14 for the quarter and \$0.38 year-to-date, compared to \$0.06 for the quarter and \$0.13 year-to-date last year.

The effective income tax rates of 24 percent for the quarter and 27 percent year-to-date were lower than the comparable periods last year. This year's rates included the impact of the federal R&D credit that was renewed in the first quarter, effective retroactive to the beginning of 2012. There was no R&D credit recognized in 2012. The effective rates in 2013 also reflected the effect of higher after-tax dividend income received from the Liquid Finishing businesses held separate, and the effect of more foreign earnings that are taxed at lower rates than in the United States. The effective rate for the quarter also included the impact of additional benefit from U.S. business credits and deductions.

Segment Results

Certain measurements of segment operations compared to last year are summarized below:

Year-to-date sales increased 7 percent, mostly from Powder Finishing operations acquired in April 2012. Operating margin rate for the Industrial segment increased compared to last year, driven by improved gross margin rates. The effects of purchase accounting related to inventory reduced the 2012 year-to-date operating margin rate by approximately 2 percentage points.

Liquidity and Capital Resources

Net cash provided by operating activities was \$181 million in 2013 and \$132 million in 2012. The increase mostly reflects the increase in net earnings. Accounts receivable and inventory balances have increased since the end of 2012 due to increases in business activity.

In May 2012, the FTC issued a proposed decision and order which requires Graco to sell the Liquid Finishing business assets, including certain business activities related to the development, manufacture, and sale of products under the Binks, DeVilbiss, Ransburg and BGK brand names, no later than 180 days from the date the order becomes final. The FTC has not yet issued its final decision and order.

The Company has retained the services of an investment bank to help it market the Liquid Finishing businesses and identify potential buyers. The Company believes its investment in the Liquid Finishing businesses, carried at a cost of \$422 million, is not impaired.

Under terms of the FTC's hold separate order, the Company is required to provide sufficient resources to maintain the viability, competitiveness and marketability of the Liquid Finishing businesses, including general funds, capital, working capital and reimbursement of losses. To the extent that the Liquid Finishing businesses generate funds in excess of financial resources needed, the Company has access to such funds consistent with practices in place prior to the acquisition. In the first nine months of 2013, the Company received \$24 million of dividends from current earnings of the Liquid Finishing businesses.

At September 27, 2013, the Company had various lines of credit totaling \$502 million, of which \$389 million was unused. Internally generated funds and unused financing sources are expected to provide the Company with the flexibility to meet its liquidity needs in 2013, including the needs of the Powder Finishing and Liquid Finishing businesses acquired in April 2012.

Outlook

We expect to achieve growth in every region in the fourth quarter of 2013. The housing recovery and a marginally favorable economic environment in the U.S. should continue to provide a tailwind for growth in our Contractor and Industrial segments in the Americas. We don't see a catalyst to advance the weak macroeconomic environments in Asia Pacific or EMEA in the near term, but we expect modest growth in the fourth quarter. As we finish out 2013 and look toward 2014, Graco's global team remains focused on our strategic growth initiatives of expanding our distribution channels, developing innovative new products, conversion of end users from manual painting techniques to using spray equipment, and continuing our efforts to expand into adjacent new markets.
