To the Participants and Administrator of

401(k) Savings and Profit Sharing Plan for Employees of NIKE, Inc.:

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of 401(k) Savings and Profit Sharing Plan for Employees of NIKE, Inc.: (the Plan) at May 31, 2013 and May 31, 2012, and the changes in net assets available for benefits for the year ended May 31, 2013, in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets Held At End of Year as of May 31, 2013, and Schedule of Assets Acquired and Disposed of Within Year ended May 31, 2013 are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan s management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

401(k) Savings and Profit Sharing Plan for Employees of NIKE, Inc.

Notes to Financial Statements

May 31, 2013 and 2012

1. Description of the Plan

The following description of the 401(k) Savings and Profit Sharing Plan for Employees of NIKE, Inc. (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established to provide for the retirement income requirements of and sharing in Company profits by all employees of NIKE, Inc. (the Company) and a retirement savings program for the employees of the Company not covered by a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Administration of the Plan is performed by the Administrative Subcommittee of the Retirement Committee. The Plan is amended from time to time in order to comply with changes in applicable laws and to make changes in Plan administration.

The Northern Trust Company (Northern Trust or the Trustee) is the Trustee and Aon Hewitt Associates (Aon Hewitt or the Recordkeeper) is the Recordkeeper of the Plan's assets. Selected assets are held in the custody of Charles Schwab & Co. Inc. (Charles Schwab or the Custodian) and are maintained by the Trustee. The Plan's investment decisions are overseen by the Investment Subcommittee of the Retirement Committee. Members of the Retirement Committee are appointed by the Board of Directors of the Company.

On January 1, 2012, the Company merged the Cole Haan Retirement Savings Plan, Converse Inc. 401(k) Savings Plan, and Hurley International LLC Tax Advantaged Plan (collectively, the Affiliate Plans) with and into the Plan (the Plan Merger). As a result of the Plan Merger, all assets and liabilities of the Affiliate Plans became assets and liabilities of the Plan, and the Affiliate Plans ceased to exist as of the close of business on January 1, 2012.

Eligibility

All employees, except those employees who are (1) covered by a collective bargaining agreement, (2) living outside the United States and not covered by the Company expatriate program, (3) working at the Company's Memphis Apparel Distribution Center, whose employment is established pursuant to the Company's Seasonal On Call Casual Employee Reserve (SOCCER) program, (4) not common-law employees, such as leased employees and individuals designated by NIKE as independent contractors, or (5) residing in Puerto Rico and working at the Puerto Rico facility, become eligible to receive profit sharing contributions on the first day of the Plan fiscal year coinciding with or immediately preceding completion of one year of employment with at least 1,000 hours of service. Employees are eligible to participate in the 401(k) portion of the Plan on the first day of employment.

Contributions

Participants may contribute up to 50% of their pre-tax annual compensation to the Plan, subject to annual individual deferral limitations under the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions, as defined by the IRC. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Additionally, the Company will match participant contributions at a rate of 100% of the first 5% of the participant's total base pay that is contributed to the account.

Table of Contents

401(k) Savings and Profit Sharing Plan for Employees of NIKE, Inc.

Notes to Financial Statements

May 31, 2013 and 2012

Prior to May 13, 2011, the Company match contributions related to the Plan's 401(k) feature were invested in NIKE, Inc. Class B common stock and as of June 1, 2001, these match contributions became subject to participant self-direction after the initial investment in Company stock was made to the Plan. Participants could redeem their shares in Company stock and reinvest the cash into other managed funds. As of May 13, 2011, the Company match followed participants' fund selections and NIKE, Inc. Class B common stock became one of the investment choices. No more than 10% of a participant's deferral and corresponding match can go into the NIKE stock fund and a participant can only transfer a portion of his or her existing account balance to purchase NIKE stock if the percentage of their account balance invested in NIKE stock is less than or equal to 20%. Transfers out of the NIKE stock fund are permitted at any time.

Under the Plan's profit sharing features, the Company may make discretionary annual contributions as designated by the Company's Board of Directors. However, this amount cannot be greater than the amount allowable as a tax deduction under the IRC. The annual contributions will be funded no later than the date the Company's federal income tax return is filed.

Profit sharing contributions are invested in various fixed income and equity funds similar to those offered under the Plan's 401(k) features. Investments held by the Plan on behalf of participants related to profit sharing contributions are nonparticipant-directed. In a nonparticipant-directed program, the Investment Committee, under the guidance of investment managers, directs the specific investments held by the Plan. See Note 7 for applicable disclosures. Investments held by the Plan on behalf of participants related to 401(k) contributions are participant-directed. In a participant-directed program, the individual participant selects the investments for his or her individual account.

Participant Accounts

Separate individual 401(k) and profit sharing accounts are maintained for each participant. Each participant's 401(k) account is credited with the participant's contributions and rollovers, the Company's matching contributions, Plan expenses and an allocation of the Plan's investment income or losses based upon the participant's election of investment options. Participants direct the investment of their contributions into various investment options offered by the Plan.

An eligible profit sharing participant is entitled to an annual allocation of the employer profit sharing contribution and former participant profit sharing forfeitures after restoration of previously forfeited accounts. Employer profit sharing contributions and former participant forfeitures are allocated first in the proportion of the participant's annual compensation to compensation of all participants, up to a maximum of 4% of the compensation of each participant. Contributions and forfeitures exceeding 4% of all participants' annual compensation, if any, are allocated in the ratio of each participant's excess compensation to total excess compensation of all participants, not to exceed 4% of such excess compensation. Excess compensation is defined as compensation in excess of the social security wage base. The balance of contributions and forfeitures, if any, is allocated to participants in the ratio of each participant's annual compensation to the total of all participants' annual compensation, subject to the IRC Section 415 defined maximum limitations. Participants do not direct the investment of profit sharing contributions.

Profit sharing investment income or loss and Plan expenses are allocated daily based on a ratio of each participant's profit sharing account balance to the total profit sharing account balances.

The total benefit to which a participant is entitled is the benefit that can be provided from the participant's vested 401(k) and profit sharing accounts.

Notes to Financial Statements

May 31, 2013 and 2012

Vesting

Participants in the 401(k) portion of the Plan are immediately vested in their elective, rollover, and Company matching contributions, plus actual earnings thereon. The Company contributions into the profit sharing portion of the Plan vest at 25% per year after completing two years of service, and vesting increases 25% for each additional year of service until fully vested after five years. Participants in the profit sharing portion of the Plan become fully vested in the Company's contributions in the event of total and permanent disability, death, attainment of 65 years of age, or termination of the Plan.

Forfeitures

Upon a participant's termination, the unvested portion of the participant's profit sharing account is forfeited. Profit sharing forfeitures may be used to reduce future employer contributions or be allocated back to active participants. During the year ended May 31, 2013, profit sharing forfeitures of \$1,309,138 were used to reduce employer contributions. At May 31, 2013 and 2012, accumulated profit sharing forfeitures totaled \$1,351,379 and \$1,653,965, respectively.

Notes Receivable From Participants

Participants may borrow a portion of their elective and rollover contributions by applying to the Administrative Subcommittee. Participants may borrow from their accounts amounts equal to the lesser of 50% of their vested account balance or \$50,000 reduced by the balance of any outstanding loans. The term of the loan repayments range up to five years for general purpose loans and up to ten years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus one percentage point. Principal and interest are paid ratably through monthly deductions.

Benefit Payments

On termination of service due to death, disability, hardship, resignation, discharge and retirement, a participant is eligible to receive payments in the amount equal to the value of the participant's vested interest in his or her account.

Vested benefits are distributed to participants in a lump-sum payment upon termination or are transferred to another qualified trust. Participants with vested benefits greater than \$1,000 can elect to receive a distribution or leave their balance in the Plan. Terminated participants with balances greater than \$1,000 may leave their vested benefits in the Plan until reaching the age of 65. Participants may apply to the Administrative Subcommittee to withdraw their voluntary 401(k) contributions in the event the participant is over age 59-1/2, or the participant has a financial hardship as stipulated in the Plan provisions. No withdrawals may be made from the unvested portion of the Company's matching contributions, profit sharing contributions, or earnings thereon.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the accounts of all participants would become fully vested. The net assets of the Plan would be distributed among the participants and beneficiaries of the Plan in proportion to their interests after proper allocation of any Plan expenses incurred upon termination.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Recent Accounting Pronouncements and Developments

In May 2011, the FASB issued ASU 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards (IFRS), which is intended to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with GAAP and IFRS. The amendments are of two types: (i) those that clarify the FASB's intent about the application of existing fair value measurement and disclosure requirements and (ii) those that change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. The update is effective for annual periods beginning after December 15, 2011. The Plan's management has adopted this update in the Plan's financial statements.

Investment Valuation and Income Recognition

The Company's Retirement Committee determines that Plan's valuation policies utilizing information provided by the Trustee.

Managed funds consist of investments in preferred, common and foreign stock, corporate and foreign bonds, collective trust funds, registered investment companies, U.S. government securities, guaranteed insurance contracts, and interest bearing cash. See note 4 for discussion of fair value measurements.

Investments are purchased and sold at the fair value of the underlying investments and receive the interest and dividend earnings of the underlying investments. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents, in the Statement of Changes in Net Assets Available for Benefits, the net appreciation or depreciation in the fair value of its investments, which consist of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of May 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Benefits Payable

Benefits are recorded when paid. Accordingly, benefits payable to persons that have elected to withdraw from the Plan but not yet paid have not been accrued. At May 31, 2013 and 2012, there were \$455,396 and \$849,252, respectively, payable to participants.

Expenses

Edgar Filing: NIKE INC - Form 11-K

Expenses of administering the Plan and those which are directly related to investment transactions are paid out of the assets of the Plan.

Table of Contents**401(k) Savings and Profit Sharing Plan for Employees of NIKE, Inc.****Notes to Financial Statements****May 31, 2013 and 2012****Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan's Management invests in various investment securities that are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities, and thus the net asset value (NAV) of the funds, will occur in the near term and that such changes could materially affect participants account balances and the amount reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults and credit rating downgrades. The fair values assigned to the investments by the Plan are based upon available information believed to be reliable, which may be affected by conditions in the financial markets. The Plan may not be able to sell its investments when it desires to do so or to realize what it perceives to be its fair value in the event of a sale.

Subsequent Events

The Plan has evaluated subsequent events through November 22, 2013 and determined that no significant subsequent events have occurred requiring adjustments to the financial statements or disclosures.

4. Fair Value Measurement

In determining fair value, the Plan uses a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1

Edgar Filing: NIKE INC - Form 11-K

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs, other than quoted prices, that are observable for the asset or liability;

Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Table of Contents

401(k) Savings and Profit Sharing Plan for Employees of NIKE, Inc.

Notes to Financial Statements

May 31, 2013 and 2012

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The valuation methods described below may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at May 31, 2013 and 2012.

Common and Foreign Stocks: Investments in preferred, common and foreign stocks listed on a national securities exchange and over-the-counter securities are valued at the last reported sale price on the valuation date or, if no sales are reported for that day, the last published sale price.

Fixed Income Securities: Corporate bonds and US Treasuries are valued based on market values quoted by dealers who are market makers in these securities, by independent pricing services, or by a methodology approved by Northern Trust. Valuation techniques incorporate available market information and proprietary valuation models, which consider characteristics such as benchmark yield curve, coupon rates, credit spreads, estimated default rates and other features.

Registered Investment Companies: Registered investment companies (or mutual funds) are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust funds: Collective trust funds represent investments held in pooled funds. The investments are contributed from employee benefit plans maintained by more than one employer or a controlled group of corporations that is maintained by a bank, trust company, or similar institution that is regulated, supervised, and subject to periodic examination by a state or federal agency. The Plan's interests in the collective trust funds are valued based on the NAV provided by Northern Trust. The accuracy of the NAV is verified using the audited financial statements of the collective trust funds. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Stable Value Fund (Level 3): The Plan invests in the Union Bond & Trust Company Morley Stable Value Fund (Morley Stable Value Fund), which holds fully benefit-responsive investment contracts. This fund can be redeemed daily by participants subject to limitations on

Table of Contents**401(k) Savings and Profit Sharing Plan for Employees of NIKE, Inc.****Notes to Financial Statements****May 31, 2013 and 2012**

noncompeting options. The Morley Stable Value Fund's trustee reserves the right to delay plan sponsor-initiated redemptions for up to 365 days. There are no other restrictions on collective trust transactions. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust fund and guaranteed insurance contract. The Statements of Net Assets Available for Benefits present the fair value of the investment in the collective trust funds as well as the adjustment of the investment in the collective trust funds from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Guaranteed Investment Contract: Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate). The Plan sold its shares of guaranteed investment contracts during the current year, and no longer holds investments in Guaranteed Investment Contracts at May 31, 2013.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of May 31, 2013 and 2012:

5. Party-in-Interest Transactions

The Plan's investments represent funds invested in, or maintained by, Northern Trust and Charles Schwab. Northern Trust is the Trustee of the Plan assets and Charles Schwab is the Custodian of selected assets and, therefore, these investments represent exempt party-in-interest transactions.

Certain Plan investments are shares of Company common stock. For the year ended May 31, 2013 and 2012, the Plan purchased 141,834 and 144,054 shares of NIKE, Inc. Class B common stock, respectively, at a cost of \$9,457,249 and \$6,767,684, respectively. For the same years ended, the Plan sold 505,096 and 796,896 shares of NIKE, Inc. Class B common stock, respectively, at a cost of \$37,495,438 and \$33,712,596, respectively. At May 31, 2013 and 2012, the Plan held \$549,825,241 (8,917,049 shares) and \$522,643,543 (9,662,480 shares), respectively, of NIKE, Inc. Class B common stock.

6. Plan Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated January 16, 2008 that the Plan is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The Plan has submitted the necessary filing to the IRS and is waiting for a response.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of May 31, 2013 and 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions within the United States of America; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.
