**SEACHANGE INTERNATIONAL, INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(Unaudited)**

**1. Nature of Business and Basis of Presentation**

**The Company**

SeaChange International, Inc. and its subsidiaries ( SeaChange , we , or the Company ) is an industry leader in the delivery of multi-screen video. Our products and services facilitate the aggregation, licensing, management and distribution of video (primarily movies and television programming) and television advertising content to cable television system operators and telecommunications companies.

**Basis of Presentation**

The accompanying unaudited consolidated financial statements include the accounts of SeaChange International, Inc. and its subsidiaries ( SeaChange or the Company ) in accordance with U.S. generally accepted accounting principles ( U.S. GAAP ) for interim financial reports and the instructions for the Quarterly Report on Form 10-Q ( Form 10-Q ) and Rule 10-01 of Regulation S-X. Accordingly, certain information and footnote disclosures normally included in financial statements prepared under U.S. GAAP have been condensed or omitted pursuant to such regulations. However, we believe that the disclosures are adequate to make the information presented not misleading. These consolidated financial statements should be read in conjunction with our most recently audited financial statements and the notes thereto included in our Annual Report on Form 10-K ( Form 10-K ) as filed with the SEC. In the opinion of management, the accompanying financial statements include all adjustments necessary to present a fair presentation of the consolidated financial statements for the periods shown. Interim results are not necessarily indicative of the operating results for the full fiscal year or any future periods. The balance sheet data as of January 31, 2014 that is included in this Form 10-Q was derived from our audited financial statements but does not include all disclosures required by U.S. GAAP. The preparation of these financial statements in conformity with U.S. GAAP requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and disclosure of contingent assets and liabilities. Actual results may differ from our estimates. All intercompany transactions and balances have been eliminated. We have reclassified certain fiscal 2014 data to conform to our fiscal 2015 presentation.

We also hold minority investments in the capital stock of certain private companies having product offerings or customer relationships that have strategic importance. We evaluate our equity and debt investments and other contractual relationships with affiliate companies in order to determine whether the guidelines regarding the consolidation of variable interest entities ( VIEs ) should be applied in the financial statements. We have concluded that we are not the primary beneficiary for any VIEs. As such, no VIEs have been consolidated as of April 30, 2014.

**2. Significant Accounting Policies**

***Revenue Recognition***

Our transactions frequently involve the sales of hardware, software, systems and services in multiple-element arrangements. Revenues from sales of hardware, software and systems that do not require significant modification or customization of the underlying software are recognized when:

title and risk of loss have passed to the customer;

there is evidence of an arrangement;

fees are fixed or determinable; and

collection of the related receivable is considered probable.

Customers are billed for installation, training, project management and at least one year of product maintenance and technical support at the time of the product sale. Revenue from these activities is deferred at the time of the product sale and recognized ratably over the period these services are performed. Revenue from ongoing product maintenance and technical support agreements is recognized ratably over the period of the related agreements. Revenue from software development contracts that include significant modification or customization, including software product enhancements, is recognized based on the percentage of completion contract accounting method using labor efforts expended in relation to estimates of total labor efforts to complete the contract. Accounting for contract amendments and customer change orders are included in contract accounting when executed. Revenue from shipping and handling costs and other out-of-pocket expenses reimbursed by customers are included in revenues and cost of revenues. Our share of intercompany profits associated with sales and services provided to affiliated companies are eliminated in consolidation in proportion to our equity ownership.

---

**Table of Contents**

We have historically applied the software revenue recognition rules as prescribed by Accounting Standards Codification ( ASC ) 985-605, *Software: Revenue Recognition*. In October 2009, the Financial Accounting Standards Board ( FASB ) issued Accounting Standards Update number ( ASU ) 2009-14, *Certain Revenue Arrangements That Include Software Elements*, which amended ASC 985-605. This ASU removes tangible products containing software components and non-software components that function together to deliver the product's essential functionality from the scope of the software revenue recognition rules. In the case of our hardware products with embedded software, we have determined that the hardware and software components function together to deliver the product's essential functionality, and therefore, the revenue from the sale of these products no longer falls within the scope of the software revenue recognition rules. Revenue from the sale of software-only products remains within the scope of the software revenue recognition rules. Maintenance and support, training, consulting, and installation services no longer fall within the scope of the software revenue recognition rules, except when they are sold with and relate to a software-only product. Revenue recognition for products that no longer fall under the scope of the software revenue recognition rules is similar to that for other tangible products and ASU 2009-13, *Multiple-Deliverable Revenue Arrangements*, which amended ASC 605 and was also issued in October 2009, which is applicable for multiple-deliverable revenue arrangements. ASU 2009-13 allows companies to allocate revenue in a multiple-deliverable arrangement in a manner that better reflects the transaction's economics.

Under the software revenue recognition rules, the fee is allocated to the various elements based on vendor-specific objective evidence ( VSOE ) of fair value. Under this method, the total arrangement value is allocated first to undelivered elements based on their fair values, with the remainder being allocated to the delivered elements. Where fair value of undelivered service elements has not been established, the total arrangement value is recognized over the period during which the services are performed. The amounts allocated to undelivered elements, which may include project management, training, installation, maintenance and technical support and certain hardware and software components, are based upon the price charged when these elements are sold separately and unaccompanied by the other elements. The amount allocated to installation, training and project management revenue is based upon standard hourly billing rates and the estimated time required to complete the service. These services are not essential to the functionality of systems as these services do not alter the equipment's capabilities, are available from other vendors and the systems are standard products. For multiple-element arrangements that include software development with significant modification or customization and systems sales where VSOE of the fair value does not exist for the undelivered elements of the arrangement (other than maintenance and technical support), percentage of completion accounting is applied for revenue recognition purposes to the entire arrangement with the exception of maintenance and technical support.

Under the revenue recognition rules for tangible products as amended by ASU 2009-13, the fee from a multiple-deliverable arrangement is allocated to each of the deliverables based upon their relative selling prices as determined by a selling-price hierarchy. A deliverable in an arrangement qualifies as a separate unit of accounting if the delivered item has value to the customer on a stand-alone basis. A delivered item that does not qualify as a separate unit of accounting is combined with the other undelivered items in the arrangement and revenue is recognized for those combined deliverables as a single unit of accounting. The selling price used for each deliverable is based upon VSOE if available, third-party evidence ( TPE ) if VSOE is not available, and best estimate of selling price ( BESP ) if neither VSOE nor TPE are available. TPE is the price of the Company's, or any competitor's, largely interchangeable products or services in stand-alone sales to similarly situated customers. BESP is the price at which we would sell the deliverable if it were sold regularly on a stand-alone basis, considering market conditions and entity-specific factors.

The selling prices used in the relative selling price allocation method for certain of our services are based upon VSOE. The selling prices used in the relative selling price allocation method for third-party products from other vendors are based upon TPE. The selling prices used in the relative selling price allocation method for our hardware products,

software, subscriptions, and customized services for which VSOE does not exist are based upon BESP. We do not believe TPE exists for these products and services because they are differentiated from competing products and services in terms of functionality and performance and there are no competing products or services that are largely interchangeable. Management establishes BESP with consideration for market conditions, such as the impact of competition and geographic considerations, and entity-specific factors, such as the cost of the product, discounts provided and profit objectives. Management believes that BESP is reflective of reasonable pricing of that deliverable as if priced on a stand-alone basis.

For our cloud and managed service revenues, we generate revenue from two sources: (1) subscription and support services; and (2) professional services and other. Subscription and support revenue includes subscription fees from customers accessing our cloud-based software platform and support fees. Our arrangements with customers do not provide the customer with the right to take possession of the software supporting the cloud-based software platform at any time. Professional services and other revenue include fees from implementation and customization to support customer requirements. Amounts that have been invoiced are recorded in accounts receivable and in deferred revenue or revenue, depending on whether the revenue recognition criteria have been met. For the most part, subscription and support agreements are entered into for 12 to 36 months. Generally, a majority of the professional services component of the arrangements with customers is performed within a year of entering into a contract with the customer.

## **Table of Contents**

In most instances, revenue from a new customer acquisition is generated under sales agreements with multiple elements, comprised of subscription and support and other professional services. We evaluate each element in a multiple-element arrangement to determine whether it represents a separate unit of accounting. An element constitutes a separate unit of accounting when the delivered item has standalone value and delivery of the undelivered element is probable and within our control.

### **3. Fair Value Measurements**

#### *Definition and Hierarchy*

The applicable accounting guidance defines fair value as the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The guidance establishes a framework for measuring fair value and expands required disclosure about the fair value measurements of assets and liabilities. This guidance requires us to classify and disclose assets and liabilities measured at fair value on a recurring basis, as well as fair value measurements of assets and liabilities measured on a non-recurring basis in periods subsequent to initial measurement, in a fair value hierarchy.

The fair value hierarchy is broken down into three levels based on the reliability of inputs and requires an entity to maximize the use of observable inputs, where available. The following summarizes the three levels of inputs required, as well as the assets and liabilities that we value using those levels of inputs:

Level 1 Observable inputs that reflect quoted prices for identical assets or liabilities in active markets.

Level 2 Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not very active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. The fair value measurements of the contingent consideration obligations related to our business acquisitions are valued using Level 3 inputs.

#### *Valuation Techniques*

When developing fair value estimates for certain financial assets and liabilities, we maximize the use of observable inputs and minimize the use of unobservable inputs. When available, we use quoted market prices, market comparables and discounted cash flow projections. Financial instruments include money market funds, U.S. treasury notes or bonds and U.S. government agency bonds.

In general, and where applicable, we use quoted prices in active markets for identical assets or liabilities to determine fair value. If quoted prices in active markets for identical assets or liabilities are not available to determine fair value, then we use quoted prices for similar assets and liabilities or inputs that are observable either directly or indirectly. In periods of market inactivity, the observability of prices and inputs may be reduced for certain instruments. This condition could cause an instrument to be reclassified from Level 1 to Level 2 or from Level 2 to Level 3.

**Table of Contents**

The following tables set forth our financial assets and liabilities that were accounted for at fair value on a recurring basis as of April 30, 2014 and January 31, 2014:

|  | Fair Value at April 30, 2014 Using |   |   |  |
|--|------------------------------------|---|---|--|
|  | April 30,<br>2014                  | Quoted<br>Prices in<br>Active<br>Markets for<br>Identical Assets<br>(Level 1)<br>(Amounts in thousands) | Significant<br>Other<br>Observable<br>Inputs<br>(Level 2) | Significant<br>Unobservable<br>Inputs<br>(Level 3) |
| <b>Financial assets:</b>                   |                                    |   |   |  |
| Cash                                       | \$ 100,756                         | \$ 100,756  | \$  | \$   |

| U.S. government agency issues              | 6,814                                |   | 6,814   |  |
| Total                                      | \$ 128,103                           | \$ 119,279  | \$ 8,824  | \$   |

- (a) Money market funds and U.S. treasury bills are included in cash and cash equivalents on the accompanying consolidated balance sheet and are valued at quoted market prices for identical instruments in active markets.

*Available-For-Sale Securities*

We determine the appropriate classification of debt investment securities at the time of purchase and re-evaluate such designation as of each balance sheet date. Our investment portfolio consists of money market funds, U.S. treasury notes and bonds, and U.S. government agency notes and bonds as of April 30, 2014 and January 31, 2014. All highly liquid investments with an original maturity of three months or less when purchased are considered to be cash equivalents. All cash equivalents are carried at cost, which approximates fair value. Our marketable securities are classified as available-for-sale and are reported at fair value with unrealized gains and losses, net of tax, reported in stockholders' equity as a component of accumulated other comprehensive loss. The amortization of premiums and accretion of discounts to maturity are computed under the effective interest method and are included in interest income, net in our consolidated statements of operations and comprehensive loss. Interest on securities is recorded as earned and is also included in interest income, net. Any realized gains or losses would be shown in the accompanying consolidated statements of operations and comprehensive loss in other income (expenses), net. We provide fair value measurement disclosures of available-for-sale securities in accordance with one of three levels of fair value measurement mentioned above.

**Table of Contents**

The following is a summary of available-for-sale securities, including the cost basis, aggregate fair value and gross unrealized gains and losses, for cash equivalents, short- and long-term marketable securities portfolio as of April 30, 2014 and January 31, 2014:

|  | Amortized<br>Cost | Gross<br>Unrealized<br>Gains<br>(Amounts in thousands) | Gross<br>Unrealized<br>Losses | Estimated<br>Fair<br>Value |
|--|-------------------|--|-------------------------------|----------------------------|
| <b>April 30, 2014:</b>                                 |                   |  |                               |                            |
| Cash   | \$ 100,756        | \$   | \$                            | \$ 100,756                 |

| U.S. treasury notes and bonds short-term               | 3,523             | 4  |                               | 3,527                      |
| U.S. government agency issues short-term               | 3,530             | 9  |                               | 3,539                      |
| U.S. government agency issues long-term                | 6,273             | 11   |                               | 6,284                      |
| Total cash, cash equivalents and marketable securities | \$ 116,583        | \$ 24  | \$                            | \$ 116,607                 |
| <b>January 31, 2014:</b>                               |                   |  |                               |                            |
| Cash   | \$ 112,271        | \$   | \$                            | \$ 112,271                 |
| Cash equivalents                                       | 3,463             |  |                               | 3,463                      |
| Cash and cash equivalents                              | 115,734           |  |                               | 115,734                    |
| U.S. treasury notes and bonds short-term               | 3,540             | 5  |                               | 3,545                      |
| U.S. government agency issues short-term               | 2,005             | 5  |                               | 2,010                      |
| U.S. government agency issues long-term                | 6,806             | 8  |                               | 6,814                      |
| Total cash, cash equivalents and marketable securities | \$ 128,085        | \$ 18  | \$                            | \$ 128,103                 |

The following is a schedule of the contractual maturities of available-for-sale investments as of April 30, 2014 (amounts in thousands):

|                                     | Estimated<br>Fair Value |
|-------------------------------------|-------------------------|
| Maturity of one year or less        | \$ 7,066                |
| Maturity between one and five years | 6,284                   |
| Total                               | \$ 13,350               |

**4. Inventories**

Inventories consist primarily of hardware and related component parts and are stated at the lower of cost (on a first-in, first-out basis) or market. Inventories consist of the following:

|                           | <b>April 30,<br/>2014</b>         | <b>January 31,<br/>2014</b> |
|---------------------------|-----------------------------------|-----------------------------|
|                           | <b>(Amounts in<br/>thousands)</b> |                             |
| Components and assemblies | \$ 2,290                          | \$ 2,201                    |
| Finished products         | 4,032                             | 4,431                       |
| <b>Total inventory</b>    | <b>\$ 6,322</b>                   | <b>\$ 6,632</b>             |

**Table of Contents****5. Goodwill and Intangible Assets****Goodwill**

Changes in the carrying amount of goodwill for the three months ended April 30, 2014 were as follows:

|                                   | <b>Goodwill</b><br><b>(Amounts in thousands)</b> |        |
|-----------------------------------|--|--------|
| Balance at January 31, 2014       | \$   | 45,150 |
| Cumulative translation adjustment |  | 478    |
| Balance at April 30, 2014         | \$   | 45,628 |

We are required to perform impairment tests related to our indefinite-lived assets annually, which we perform as of August 1<sup>st</sup> of each fiscal year, or sooner if an indicator of impairment occurs. While no impairment charges resulted from our annual test, or any analysis performed during the interim periods since August 1, 2013, impairment charges may occur in the future as a result of changes in projected growth and other factors.

**Intangible Assets**

Intangible assets, net, consisted of the following:

|  | <b>Weighted<br/>average<br/>remaining<br/>life<br/>(Years)</b> | <b>As of April 30, 2014</b> |                                     |            | <b>As of January 31, 2014</b> |                                     |            |
|--|--|-----------------------------|-------------------------------------|------------|-------------------------------|-------------------------------------|------------|
|  |  | <b>Gross</b>                | <b>Accumulated<br/>Amortization</b> | <b>Net</b> | <b>Gross</b>                  | <b>Accumulated<br/>Amortization</b> | <b>Net</b> |
| <b>(Amounts in thousands)</b>              |  |                             |                                     |            |                               |                                     |            |
| <b>Finite-lived intangible assets:</b>     |  |                             |                                     |            |                               |                                     |            |
| Customer contracts                         | 6.0  | \$ 32,847                   | \$ (23,249)                         | \$ 9,598   | \$ 32,593                     | \$ (22,344)                         | \$ 10,249  |

|                         |           |             |           |           |             |           |
|-------------------------|-----------|-------------|-----------|-----------|-------------|-----------|
| Total intangible assets | \$ 54,611 | \$ (42,682) | \$ 11,929 | \$ 54,177 | \$ (41,322) | \$ 12,855 |
|-------------------------|-----------|-------------|-----------|-----------|-------------|-----------|

As of April 30, 2014, the estimated future amortization expense for our finite-lived intangible assets for the remainder of fiscal year 2015, the four succeeding fiscal years and thereafter is as follows (amounts in thousands):

| <b>Fiscal Year Ended January 31,</b> | <b>Estimated Amortization Expense</b> |
|--------------------------------------|---------------------------------------|
| 2015 (for the remaining nine months) | \$ 3,295                              |
| 2016                                 | 3,572                                 |
| 2017                                 | 2,432                                 |
| 2018                                 | 1,457                                 |
| 2019                                 | 751                                   |
| 2020 and thereafter                  | 222                                   |
| <b>Total</b>                         | <b>\$ 11,729</b>                      |

**Table of Contents**

**6. Commitments and Contingencies**

***Indemnification and Warranties***

We provide indemnification, to the extent permitted by law, to our officers, directors, employees and agents for liabilities arising from certain events or occurrences while the officer, director, employee or agent is, or was, serving at our request in such capacity. With respect to acquisitions, we provide indemnification to, or assume indemnification obligations for, the current and former directors, officers and employees of the acquired companies in accordance with the acquired companies' bylaws and charter. As a matter of practice, we have maintained directors' and officers' liability insurance including coverage for directors and officers of acquired companies.

We enter into agreements in the ordinary course of business with customers, resellers, distributors, integrators and suppliers. Most of these agreements require us to defend and/or indemnify the other party against intellectual property infringement claims brought by a third party with respect to our products. From time to time, we also indemnify customers and business partners for damages, losses and liabilities they may suffer or incur relating to personal injury, personal property damage, product liability, and environmental claims relating to the use of our products and services or resulting from the acts or omissions of us, our employees, authorized agents or subcontractors. We have received requests from several of our customers for indemnification of patent litigation claims. Management cannot reasonably estimate any potential losses, but these claims could result in material liability for us.

We warrant that our products, including software products, will substantially perform in accordance with our standard published specifications in effect at the time of delivery. In addition, we provide maintenance support to our customers and therefore allocate a portion of the product purchase price to the initial warranty period and recognize revenue on a straight line basis over that warranty period related to both the warranty obligation and the maintenance support agreement. When we receive revenue for extended warranties beyond the standard duration, it is deferred and recognized on a straight line basis over the contract period. Related costs are expensed as incurred.

***Revolving Line of Credit/Demand Note Payable***

Effective November 28, 2013, we renewed our letter agreement with JP Morgan Chase Bank, N.A. ( JP Morgan ) for a demand discretionary line of credit and a Demand Promissory Note in the aggregate amount of \$20.0 million (the Line of Credit ). Borrowings under the Line of Credit will be used to finance working capital needs and for general corporate purposes. The Line of Credit expires on November 27, 2014. We currently do not have any borrowings nor do we have any financial covenants under this line.

**7. Severance and Other Restructuring Costs**

During the three months ended April 30, 2014, we incurred restructuring charges of \$0.5 million, primarily related to severance costs for 21 employees in the three month period.

The following table shows the change in balances of our severance liability for three months ended April 30, 2014. These amounts are reported as a component of other accrued expenses on the consolidated balance sheet as of April 30, 2014 (amounts in thousands):

**Three Months Ended  
April 30, 2014**

|  |    |       |
|--|----|-------|
| Accrual balance at the beginning of the period | \$ | 229   |
| Severance charges accrued                      |    | 474   |
| Severance costs paid                           |    | (482) |
| Accrual balance as of April 30, 2014           | \$ | 221   |

## 8. Stock Repurchase Program

On September 4, 2013, our Board of Directors authorized the repurchase of up to \$25.0 million of our common stock through a share repurchase program which would have terminated on January 31, 2015. On May 31, 2014, this program was amended to increase the authorized repurchase amount to \$40.0 million and extend the termination date to April 30, 2015. Under the program, we are authorized to repurchase shares through Rule 10b5-1 plans, open market purchases, privately negotiated transactions, block purchases or otherwise in accordance with applicable federal securities laws, including Rule 10b-18 of the Securities Exchange Act of 1934. We executed a Rule 10b5-1 plan commencing in January 2014. This share repurchase program does not obligate us to acquire any specific number of shares and may be suspended or discontinued at any time. All repurchases are expected to be funded from our current cash and investment balances. The timing and amount of shares to be repurchased will be based on market conditions and other factors, including price, corporate and regulatory requirements, and alternative investment opportunities. Any shares repurchased by us under the share repurchase program will reduce the number of shares outstanding. As of April 30, 2014, we repurchased a total of 339,400 shares of our common stock under this plan at an average price of \$10.32 per share and used a total of \$3.5 million of cash, including fees.

**Table of Contents****9. Stock Incentive Plans*****2011 Compensation and Incentive Plan***

In July 2011, our stockholders approved the adoption of our 2011 Compensation and Incentive Plan (the 2011 Plan ). Under the 2011 Plan, as amended in July 2013, the number of authorized shares of common stock is equal to 5,300,000 shares plus the number of shares that expired, terminated, surrendered or forfeited awards subsequent to July 20, 2011 under the Amended and Restated 2005 Equity Compensation and Incentive Plan (the 2005 Plan ). Following approval of the 2011 Plan, we terminated the 2005 Plan. The 2011 Plan provides for the grant of incentive stock options, nonqualified stock options, restricted stock, restricted stock units ( RSUs ), and other equity based non-stock option awards as determined by the plan administrator by officers, employees, consultants, and directors of the Company.

We may satisfy awards upon the exercise of stock options or vesting of RSUs with newly issued shares or treasury shares. The Board of Directors is responsible for the administration of the 2011 Plan and determining the terms of each award, award exercise price, the number of shares for which each award is granted and the rate at which each award vests. In certain instances the Board of Directors may elect to modify the terms of an award.

Option awards may be granted to employees at an exercise price per share of not less than 100% of the fair market value per common share on the date of the grant. RSUs and other equity-based non-stock option awards may be granted to any officer, employee, director, or consultant at a purchase price per share as determined by the Board of Directors. Awards granted under the 2011 Plan generally vest over three years and expire seven years from the date of the grant.

**10. Accumulated Other Comprehensive Loss**

The following shows the changes in the components of accumulated other comprehensive loss for the three months ended April 30, 2014:

|                             | <b>Foreign<br/>Currency<br/>Translation<br/>Adjustment</b> | <b>Changes<br/>in<br/>Fair Value of<br/>Available<br/>for Sale<br/>Investments</b> | <b>Total</b> |
|-----------------------------|--|--|--------------|
| Balance at January 31, 2014 | \$ (2,150)   | \$ 18  | \$ (2,132)   |
| Other comprehensive income  | 520  | 5  | 525          |
| Balance at April 30, 2014   | \$ (1,630)   | \$ 23  | \$ (1,607)   |

Comprehensive loss consists of net loss and other comprehensive loss, which includes foreign currency translation adjustments and changes in unrealized gains and losses on marketable securities available for sale. For purposes of comprehensive loss disclosures, we do not record tax expense or benefits for the net changes in the foreign currency translation adjustments, as we intend to permanently reinvest all undistributed earnings of our foreign subsidiaries.

**11. Segment Information, Significant Customers and Geographic Information**

***Segment Information***

Our operations are organized into one reportable segment. Operating segments are defined as components of an enterprise evaluated regularly by the Company's chief operating decision maker in deciding how to allocate resources and assess performance. Our reportable segment was determined based upon the nature of the products offered to customers, the market characteristics of each operating segment and the Company's management structure.

***Significant Customers***

The following summarizes revenues by significant customer where such revenue exceeded 10% of total revenues for the indicated period:

|            | <b>Three Months Ended</b> |             |
|------------|---------------------------|-------------|
|            | <b>April 30,</b>          |             |
|            | <b>2014</b>               | <b>2013</b> |
| Customer A | 20%                       | 15%         |
| Customer B | 18%                       | 32%         |

**Table of Contents****Geographic Information**

The following table summarizes revenues by customers geographic locations for the periods presented:

|  | Three Months Ended April 30, |     | 2013      |     |
|--|------------------------------|-----|-----------|-----|
|  | 2014                         |     | 2013      |     |
|  | Amount                       | %   | Amount    | %   |
| (Amounts in thousands, except percentages)     |                              |     |           |     |
| Revenues by customers geographic locations:    |                              |     |           |     |
| North America(1)                               | \$ 14,642                    | 60% | \$ 16,603 | 47% |
| Europe and Middle East                         | 7,697                        | 32% | 14,938    | 42% |
| Latin America                                  | 1,649                        | 7%  | 3,127     | 9%  |
| Asia Pacific and other international locations | 349                          | 1%  | 884       | 2%  |
| Total  | \$ 24,337                    |     | \$ 35,552 |     |

(1) Includes total revenues for the United States for the periods shown as follows:

|                        | Three Months Ended |           |
|------------------------|--------------------|-----------|
|                        | 2014               | 2013      |
| (Amounts in thousands) |                    |           |
| U.S. Revenue           | \$ 13,468          | \$ 15,174 |
| % of total revenues    | 55.3%              | 42.7%     |

**12. Income Taxes**

For the three months ended April 30, 2014, we recorded an income tax benefit from continuing operations of \$0.2 million. This represents an estimated annual effective tax rate of 12% attributable to profitable foreign operations or jurisdictions where losses can, more likely than not, be benefitted. Our provision is affected by the geographic jurisdiction in which the worldwide income or losses have been incurred resulting in the difference between the federal statutory rate of 35% and the forecasted effective tax rate.

Our effective tax rate in fiscal 2015 and in future periods may fluctuate on a quarterly basis as a result of changes in the valuation of our deferred tax assets, changes in actual results versus our estimates, or changes in tax laws, regulations, accounting principles, or interpretations thereof. We regularly review our tax positions in each significant taxing jurisdiction in the process of evaluating our unrecognized tax benefits. We make adjustments to our unrecognized tax benefits when: i) facts and circumstance regarding a tax position change, causing a change in management's judgment regarding that tax position; ii) a tax position is effectively settled with a tax authority; and/or iii) the statute of limitations expires regarding a tax position.

We file income tax returns in U.S. federal jurisdiction, various state jurisdictions, and various foreign jurisdictions. We are no longer subject to U.S. federal examinations before fiscal 2010. However, the taxing authorities still have the ability to review the propriety of certain tax attributes created in closed years if such tax attributes are utilized in

an open tax year. Presently, we are undergoing an IRS audit for the fiscal years 2010, 2011 and 2012.

We continue to maintain a valuation allowance against deferred tax assets where realization is not certain. We periodically evaluate the likelihood of the realization of deferred tax assets and reduce the carrying amount of these deferred tax assets by a valuation allowance to the extent we believe that a portion will not be realized.

### **13. Net Loss Per Share**

Net loss per share is presented in accordance with authoritative guidance which requires the presentation of basic and diluted earnings per share. Basic net loss per share is computed by dividing earnings available to common shareholders by the weighted-average shares of common stock outstanding during the period. For the purposes of calculating diluted earnings per share, the denominator includes both the weighted average number of shares of common stock outstanding during the period and the weighted average number of shares of potential dilutive shares of common stock, such as stock options and RSUs, calculated using the treasury stock method. Basic and diluted net loss per share was the same for the periods presented as the impact of potential dilutive shares outstanding was anti-dilutive.

**Table of Contents**

The following table sets forth our computation of basic and diluted net loss per common share (amounts in thousands, except per share amounts):

|   | <b>Three Months<br/>Ended<br/>April 30,</b> |                   |
|---|---|-------------------|
|   | <b>2014</b>                                 | <b>2013</b>       |
| Net loss from continuing operations   | \$ (9,467)                                  | \$ (2,020)        |
| Net income from discontinued operations                                     |   | 35                |
| <b>Net loss</b>   | <b>\$ (9,467)</b>                           | <b>\$ (1,985)</b> |
| Weighted average shares used in computing net loss per share basic          | 32,985                                      | 32,513            |
| Effect of dilutive shares:  |   |                   |
| Stock options   | 277   | 186               |
| Restricted stock units  | 178   | 470               |
| Dilutive potential common shares  | 455   | 656               |
| <b>Weighted average shares used in computing net loss per share diluted</b> | <b>33,440</b>                               | <b>33,169</b>     |
| Net loss per share basic:   |   |                   |
| Loss from continuing operations   | \$ (0.29)                                   | \$ (0.06)         |
| Income from discontinued operations   |   | 0.00              |
| <b>Net loss per share basic</b>   | <b>\$ (0.29)</b>                            | <b>\$ (0.06)</b>  |
| Net loss per share diluted:   |   |                   |
| Loss from continuing operations   | \$ (0.29)                                   | \$ (0.06)         |
| Income from discontinued operations   |   | 0.00              |
| <b>Net loss per share diluted</b>   | <b>\$ (0.29)</b>                            | <b>\$ (0.06)</b>  |

We did not include the securities described in the following table in the computation of diluted net loss per share for the periods presented. These exclusions are made if the exercise price of these common shares is in excess of the average market price of the common stock for the periods presented, which has an anti-dilutive effect (amounts in thousands):

|  | <b>For the Three Months Ended<br/>April 30,</b> |             |
|--|---|-------------|
|  | <b>2014</b>                                     | <b>2013</b> |
|  | 336   | 596         |

Shares issuable upon the exercise of stock options that are anti-dilutive

#### **14. Recent Accounting Standard Updates**

We consider the applicability and impact of all ASUs. ASUs not listed below were assessed and determined to be either not applicable or are expected to have minimal impact on our consolidated financial position or results of operations.

##### ***Impact of Recently Adopted Accounting Guidance***

###### ***Definition of a Public Business Entity***

In December 2013, the FASB issued ASU 2013-12, *Definition of a Public Business Entity: An Addition to the Master Glossary*, which provides entities with a single definition of a Public Business Entity for use in future financial accounting and guidance beginning in fiscal 2015. The adoption of this guidance does not have a material impact on our financial statements.

## **Table of Contents**

### *Release of Cumulative Translation Adjustment into Net Income*

In March 2013, the FASB issued ASU 2013-05, *Foreign Currency Matter (Topic 830) Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity*, which amends previous guidance related to overall consolidation rules and rules related to the translation of financial statements. ASU 2013-05 requires that the parent release any related cumulative translation adjustment into net income only if the sale or transfer results in the complete or substantially complete liquidation of the foreign entity in which the subsidiary or group of assets had resided. The new guidance was effective prospectively for us beginning February 1, 2014. Early adoption was permitted. The initial adoption of this guidance had no impact on our financial statements.

### *Recent Accounting Guidance Not Yet Effective*

#### *Revenue from Contracts with Customers*

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*, to clarify the principles for recognizing revenue and to develop a common revenue standard for U.S. GAAP and the International Financial Reporting Standards. This guidance supersedes previously issued guidance on revenue recognition and gives a five step process an entity should follow so that the entity recognizes revenue that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This new guidance will be effective for our fiscal 2018 reporting period and must be applied either retrospectively during each prior reporting period presented or retrospectively with the cumulative effect of initially applying this guidance recognized at the date of the initial application. Early adoption is not permitted. We are currently evaluating the impact of the adoption of this ASU on our consolidated financial statements.

#### *Reporting Discontinued Operations and Disposals of Components of an Entity*

In April 2014, the FASB issued ASU 2014-08, *Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360) Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*, which changes the criteria for reporting discontinued operations while enhancing disclosures in this area. The amended guidance requires that a disposal representing a strategic shift that has (or will have) a major effect on an entity's financial results or a business activity classified as held for sale should be reported as discontinued operations. This guidance also expands the disclosures required when an entity reports a discontinued operation or when it disposes of or classifies as held for sale an individually significant component that does not meet the definition of a discontinued operation. This new guidance will be effective prospectively on disposals (or classifications of held for sale) of components of an entity that occur within our fiscal years beginning on February 1, 2015. Early adoption is permitted but only for disposals (or classification as held for sale) that have not been reported in financial statements previously issued or available for issuance. We do not anticipate material impacts on our financial statements upon initial adoption.

## **ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

### ***Forward-Looking Statements***

This Form 10-Q contains or incorporates forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, which involve risks and uncertainties. The following information should be read in

conjunction with the unaudited consolidated financial information and the notes thereto included in this Form 10-Q. You should not place undue reliance on these forward-looking statements. Actual events or results may differ materially due to competitive factors and other factors referred to in Part I, Item 1A. Risk Factors in our Form 10-K for our fiscal year ended January 31, 2014 and elsewhere in this Form 10-Q. These factors may cause our actual results to differ materially from any forward-looking statement. These forward-looking statements are based on current expectations, estimates, forecasts and projections about the industry and markets in which we operate, and management's beliefs and assumptions. We undertake no obligation to update or revise the statements in light of future developments. In addition, other written or oral statements that constitute forward-looking statements may be made by us or on our behalf. Words such as expect, anticipate, intend, plan, believe, could, estimate, may, variations of such words and similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and involve certain risks, uncertainties, and assumptions that are difficult to predict.

***Business Overview***

We are an industry leader in the delivery of multi-screen video headquartered in Acton, Massachusetts. Our products and services facilitate the aggregation, licensing, management and distribution of video (primarily movies and television programming) and television advertising content for cable television system operators and telecommunications companies. We currently operate under one reporting segment.

**Table of Contents**

During fiscal 2014, we focused on growing our next generation product revenue and continued to execute on our strategy of transitioning to a leading provider of software and services. Our revenue grew from sales of our next generation products to new and existing customers as we rolled out our software product offerings, though these increases were offset by the decline in revenues from some of our legacy products. At the same time, we controlled, and continue to control, our overall cost structure. We implemented our strategy through the following actions:

Continuing to realign our research and development resources to focus on the next generation software platforms, by increasing our investment in our software products for multi-screen video and advertising platforms and video gateway software, while reducing or ending our development in certain legacy product lines and divesting non-core business units and assets. We also announced design wins worldwide for these new products as we help our customers achieve their goals of reducing operating and capital costs as well as customer churn;

Providing comprehensive capabilities in system integration, implementation and custom engineering and easing complex multi-vendor deployments; and

Expanding our product and service offerings, as we are taking on the primary system integrator role and creating new video-on-demand ( VOD ) and multi-screen opportunities through our managed services. Our focus in fiscal 2015 will be:

Increasing our next generation product revenues from sales to new customers by expanding to new and adjacent markets and increasing our selling efforts into new geographical areas;

Continuing to upgrade our existing customers to next generation products; and

Enabling our customers in their capacity as service providers to increase average revenue per subscriber, reduce operating and capital expenses, and lower customer churn with quality products and superior customer service.

We continue to experience fluctuations in our revenues from quarter to quarter due to the following factors:

Budgetary approvals by our customers for capital purchases;

The ability of our customers to process the purchase order within their organization in a timely manner;

Availability of the product;

The time required to deliver and install the product;

The customer's acceptance of the products and services; and

Declines in sales of legacy products.

In addition, many customers may delay or reduce capital expenditures. This, together with other factors, could result in the reductions in sales of our products, longer sales cycles, difficulties in collection of accounts receivable, a longer period of time before we may recognize revenue attributable to a sale, excess and obsolete inventory, gross margin deterioration, slower adoption of new technologies and increased price competition.

Our operating results are significantly influenced by a number of factors, including the mix of products sold and services provided, pricing and costs of materials used in our products. We price our products and services based upon our costs and consideration of the prices of competitive products and services in the marketplace. We expect our financial results to vary from quarter to quarter and our historical financial results are not necessarily indicative of future performance. In light of the higher proportion of our international business, we expect movements in foreign exchange rates will have greater impact on our financial condition and results of operations in the future.

**Table of Contents****Results of Operations**

The following discussion summarizes the key factors our management believes are necessary for an understanding of our consolidated financial statements.

**Revenues**

The following table summarizes information about our revenues for the three months ended April 30, 2014 and 2013:

|   | Three Months Ended<br>April 30, |           | Increase/<br>(Decrease) | Increase/<br>(Decrease) |
|---|---------------------------------|-----------|-------------------------|-------------------------|
|   | 2014                            | 2013      | \$<br>Amount            | % Change                |
| <b>(Amounts in thousands, except for percentage data)</b> |                                 |           |                         |                         |
| Software Revenues:  |                                 |           |                         |                         |
| Product   | \$ 5,058                        | \$ 14,808 | \$ (9,750)              | (65.8%)                 |
| Service   | 19,279                          | 20,744    | (1,465)                 | (7.1%)                  |
| Total revenues  | 24,337                          | 35,552    | (11,215)                | (31.5%)                 |
| Cost of product revenues                                  | 1,814                           | 2,971     | (1,157)                 | (38.9%)                 |
| Cost of service revenues                                  | 11,632                          | 13,497    | (1,865)                 | (13.8%)                 |
| Total cost of revenues                                    | 13,446                          | 16,468    | (3,022)                 | (18.4%)                 |
| Gross profit  | \$ 10,891                       | \$ 19,084 | \$ (8,193)              | (42.9%)                 |
| Gross product profit margin                               | 64.1%                           | 79.9%     |                         | (15.8%)                 |
| Gross service profit margin                               | 39.7%                           | 34.9%     |                         | 4.7%                    |
| Gross profit margin                                       | 44.8%                           | 53.7%     |                         | (8.9%)                  |

*Product Revenue.* Product revenue decreased \$9.8 million, or 66%, in the first quarter of fiscal 2015, as compared to the first quarter of fiscal 2014, due to a \$5.3 million decrease from our legacy middleware product line, a \$1.7 million decrease in our legacy VOD streamer and multi-screen video products. In addition, there was a \$2.8 million decrease in our next generation product, primarily due to a delay in receiving customer acceptances and timing of customer orders in the Americas.

*Service Revenue.* Service revenue for the three months ended April 30, 2014 decreased \$1.5 million, or 7%, as compared to the same period of fiscal 2014, primarily due to lower video gateway software professional service revenues.

For the first quarters of fiscal 2015 and fiscal 2014, two customers accounted for 38% and 47% of our total revenues, respectively. We believe that a significant amount of our revenues will continue to be derived from a limited number of customers.

International sales accounted for 45% and 57% of total revenues in the first quarter of fiscal 2015 and fiscal 2014, respectively. We believe that international product and service revenues will continue to be a significant portion of our

business in the future.

*Gross Profit and Margin.* Cost of product revenues consists primarily of the cost of purchased material components and subassemblies, labor and overhead relating to the final assembly and testing of complete systems and related expenses, and labor and overhead costs related to software development contracts. Our gross profit margin decreased approximately nine percentage points for the three months ended April 30, 2014 as compared to the same period of the prior fiscal year. This decrease in gross profit margin was primarily due to the following:

A 16 percentage point decrease in gross product profit margin to 64% primarily due to a mix of higher hardware product revenues compared to prior year; and

A five percentage point increase in gross service profit margin to 40% compared to the same period of fiscal 2014, primarily due to a mix of lower video gateway software revenues, as mentioned above, which typically carry lower margins.

**Table of Contents****Operating Expenses***Research and Development*

The following table provides information regarding the change in research and development expenses during the periods presented:

|                                   | Three Months Ended<br>April 30,                           |          | Increase/<br>(Decrease)<br>\$ | Increase/<br>(Decrease) |
|-----------------------------------|---|----------|-------------------------------|-------------------------|
|                                   | 2014  | 2013     | Amount                        | % Change                |
|                                   | <b>(Amounts in thousands, except for percentage data)</b> |          |                               |                         |
| Research and development expenses | \$ 10,928   | \$ 9,692 | \$ 1,236                      | 12.8%                   |
| % of total revenues               | 44.9%   | 27.3%    |                               |                         |

Research and development expenses consist primarily of employee costs, which include salaries, benefits and related payroll taxes, depreciation of development and test equipment and an allocation of related facility expenses. During the three months ended April 30, 2014, research and development costs increased \$1.2 million primarily related to our continued investment in our Nucleus product line.

*Selling and Marketing*

The following table provides information regarding the change in selling and marketing expenses during the periods presented:

|                                | Three Months Ended<br>April 30,                           |          | Increase/<br>(Decrease)<br>\$ | Increase/<br>(Decrease) |
|--------------------------------|---|----------|-------------------------------|-------------------------|
|                                | 2014  | 2013     | Amount                        | % Change                |
|                                | <b>(Amounts in thousands, except for percentage data)</b> |          |                               |                         |
| Selling and marketing expenses | \$ 3,438  | \$ 3,602 | \$ (164)                      | (4.6%)                  |
| % of total revenues            | 14.1%   | 10.1%    |                               |                         |

Selling and marketing expenses consist primarily of payroll costs, which include salaries and related payroll taxes, benefits and commissions, travel expenses and certain promotional expenses. Selling and marketing expenses decreased \$0.2 million, or 5%, in the first three months of fiscal 2015, when compared to the same period of fiscal 2014 due to a reduction in commissions due to lower revenues in the first quarter of fiscal 2015, as compared to the first quarter of fiscal 2014.

*General and Administrative*

The following table provides information regarding the change in general and administrative expenses during the periods presented:

|                                     | <b>Three Months Ended<br/>April 30,</b>                   |             | <b>Increase/<br/>(Decrease)</b> | <b>Increase/<br/>(Decrease)</b> |
|-------------------------------------|---|-------------|---------------------------------|---------------------------------|
|                                     | <b>2014</b>   | <b>2013</b> | <b>\$<br/>Amount</b>            | <b>% Change</b>                 |
|                                     | <b>(Amounts in thousands, except for percentage data)</b> |             |                                 |                                 |
| General and administrative expenses | \$ 4,016  | \$ 4,967    | \$ (951)                        | (19.1%)                         |
| % of total revenues                 | 16.5%   | 14.0%       |                                 |                                 |

General and administrative expenses consist primarily of employee costs, which include salaries and related payroll taxes and benefit-related costs, legal and accounting services and an allocation of related facilities expenses. General and administrative expenses decreased \$1.0 million, or 19%, in the first quarter of fiscal 2015, as compared to the same period of fiscal 2014 primarily due to lower employee-related costs.

**Table of Contents***Amortization of Intangible Assets*

The following table provides information regarding the change in amortization of intangible assets expenses during the periods presented:

|                                   | <b>Three Months Ended<br/>April 30,</b>                   |             | <b>Increase/<br/>(Decrease)</b> | <b>Increase/<br/>(Decrease)</b> |
|-----------------------------------|---|-------------|---------------------------------|---------------------------------|
|                                   | <b>2014</b>   | <b>2013</b> | <b>\$<br/>Amount</b>            | <b>% Change</b>                 |
|                                   | <b>(Amounts in thousands, except for percentage data)</b> |             |                                 |                                 |
| Amortization of intangible assets | \$ 1,779  | \$ 1,149    | \$ 630                          | 54.8.%                          |
| % of total revenues               | 7.3%  | 3.2%        |                                 |                                 |

Amortization expense is primarily related to the costs of acquired intangible assets. Amortization is also based on the future economic value of the related intangible assets which is generally higher in the earlier years of the assets' lives. During the three months ended April 30, 2014 and 2013, we incurred amortization expense of \$0.3 million which was charged to cost of sales. Additionally, for this same period of fiscal 2015, we recorded amortization expense of \$1.5 million in operating expenses, compared to \$0.8 million for the same period of fiscal 2014.

*Stock-based Compensation Expense*

The following table provides information regarding the change in stock-based compensation expense during the periods presented:

|                                  | <b>Three Months Ended<br/>April 30,</b>                   |             | <b>Increase/<br/>(Decrease)</b> | <b>Increase/<br/>(Decrease)</b> |
|----------------------------------|---|-------------|---------------------------------|---------------------------------|
|                                  | <b>2014</b>   | <b>2013</b> | <b>\$<br/>Amount</b>            | <b>% Change</b>                 |
|                                  | <b>(Amounts in thousands, except for percentage data)</b> |             |                                 |                                 |
| Stock-based compensation expense | \$ 596  | \$ 1,113    | \$ (517)                        | (46.5%)                         |
| % of total revenues              | 2.4%  | 3.1%        |                                 |                                 |

Stock-based compensation expense is related to the issuance of stock grants to our employees, executives and members of our Board of Directors. Stock-based compensation expense decreased \$0.5 million during the three months ended April 30, 2014, as compared to the same period of fiscal 2014, primarily due to costs incurred in fiscal 2014 related to market-based options held by our Chief Executive Officer, which were fully vested after the first quarter of fiscal 2014.

*Professional Fees Acquisitions, Divestitures, Litigation, and Strategic Alternatives*

The following table provides information regarding the change in professional fees expenses associated with acquisitions, divestitures, litigation and strategic alternatives during the periods presented:

**Three Months Ended**

|  | April 30,<br>2014 | 2013 | Increase/<br>(Decrease)<br>\$<br>Amount | Increase/<br>(Decrease)<br>% Change |
|--|-------------------|------|---|-------------------------------------|
|--|-------------------|------|---|-------------------------------------|

(Amounts in thousands, except for percentage data)

|   |        |        |          |         |
|---|--------|--------|----------|---------|
| Professional fees: acquisitions, divestitures,<br>litigation and strategic alternatives | \$ 102 | \$ 495 | \$ (393) | (79.4%) |
| % of total revenues   | 0.4%   | 1.4%   |          |         |

Professional fees in the first quarter of fiscal 2015 decreased \$0.4 million when compared to the same period of fiscal 2014.

**Table of Contents***Severance and Other Restructuring Costs*

The following table provides information regarding the change in severance and other restructuring costs during the periods presented:

|   | <b>Three Months Ended<br/>April 30,</b>                   |             | <b>Increase/<br/>(Decrease)</b> | <b>Increase/<br/>(Decrease)</b> |
|---|---|-------------|---------------------------------|---------------------------------|
|   | <b>2014</b>   | <b>2013</b> | <b>\$<br/>Amount</b>            | <b>% Change</b>                 |
|   | <b>(Amounts in thousands, except for percentage data)</b> |             |                                 |                                 |
| Severance and other restructuring costs | \$ 474  | \$ 229      | \$ 245                          | >100%                           |
| % of total revenues                     | 1.9%  | 0.6%        |                                 |                                 |

Severance and other restructuring costs increased \$0.2 million for the three months ended April 30, 2014, as compared to the same period of 2013. During the first quarter of fiscal 2015, a majority of these costs incurred were severance charges related to the departure of 21 employees. This is compared to severance charges of \$0.2 million in the first quarter of fiscal 2014 related to seven former employees.

*Other Income (Expenses), Net*

*Foreign exchange gain (loss).* Foreign exchange gains and losses result from changes in exchange rates between the U.S. Dollar and foreign currencies during the periods presented.

*Income Tax Benefit*

|  | <b>Three Months Ended<br/>April 30,</b> | <b>Increase/<br/>(Decrease)</b> | <b>Increase/<br/>(Decrease)</b> |
|--|---|---------------------------------|---------------------------------|
|--|---|---------------------------------|---------------------------------|

|                     | 2014   | 2013     | \$<br>Amount | % Change |
|---------------------|--|----------|--------------|----------|
|                     | (Amounts in thousands, except for percentage data) |          |              |          |
| Income tax benefit  | \$ (234)   | \$ (241) | \$ 7         | (2.9%)   |
| % of total revenues | (1.0%)   | (0.7%)   |              |          |

For the three months ended April 30, 2014, we recorded an income tax benefit of \$0.2 million on a loss before tax of \$9.7 million. This represents an estimated annual effective tax rate of 12% attributable to profitable foreign operations or jurisdictions where losses can, more likely than not, be benefitted. Our effective tax rate of 12% was based on the full fiscal year estimates for fiscal 2015. Our benefit is affected by geographic jurisdiction in which a worldwide income or loss has been incurred, resulting in the difference between the federal statutory rate of 35% and the forecasted effective tax rate.

Our effective tax rate in fiscal 2015 and in future periods may fluctuate on a quarterly basis as a result of changes in the valuation of our deferred tax assets, changes in actual results versus our estimates, or changes in tax laws, regulations, accounting principles, or interpretations thereof. We regularly review our tax positions in each significant taxing jurisdiction in the process of evaluating our unrecognized tax benefits. We make adjustments to our unrecognized tax benefits when: i) facts and circumstance regarding a tax position change, causing a change in management's judgment regarding that tax position; ii) a tax position is effectively settled with a tax authority; and/or iii) the statute of limitations expires regarding a tax position.

**Table of Contents**

We continue to maintain a valuation allowance against deferred tax assets where realization is not certain. We periodically evaluate the likelihood of the realization of deferred tax assets and reduce the carrying amount of these deferred tax assets by a valuation allowance to the extent we believe a portion will not be realized.

**Non-GAAP Measures.**

We define non-GAAP (loss) income from operations as U.S. GAAP operating loss plus stock-based compensation expenses, amortization of intangible assets, earn-outs and change in fair value of earn-outs, professional fees associated with acquisitions, divestitures, litigation and strategic alternatives and severance and other restructuring costs. We define adjusted EBITDA as U.S. GAAP operating loss before depreciation expense, amortization of intangible assets, stock-based compensation expense, inventory write-downs, earn-outs and change in fair value of earn-outs, professional fees associated with acquisitions, divestitures, litigation and strategic alternatives, and severance and other restructuring costs. We discuss non-GAAP (loss) income from operations in our quarterly earnings releases and certain other communications as we believe non-GAAP operating (loss) income from operations and adjusted EBITDA are both important measures that are not calculated according to U.S. GAAP. We use non-GAAP (loss) income from operations and adjusted EBITDA in internal forecasts and models when establishing internal operating budgets, supplementing the financial results and forecasts reported to our Board of Directors, determining a component of bonus compensation for executive officers and other key employees based on operating performance and evaluating short-term and long-term operating trends in our operations. We believe that non-GAAP (loss) income from operations and adjusted EBITDA financial measures assist in providing an enhanced understanding of our underlying operational measures to manage the business, to evaluate performance compared to prior periods and the marketplace, and to establish operational goals. We believe that these non-GAAP financial adjustments are useful to investors because they allow investors to evaluate the effectiveness of the methodology and information used by management in our financial and operational decision-making.

Non-GAAP (loss) income from operations and adjusted EBITDA are non-GAAP financial measures and should not be considered in isolation or as a substitute for financial information provided in accordance with U.S. GAAP. These non-GAAP financial measures may not be computed in the same manner as similarly titled measures used by other companies. We expect to continue to incur expenses similar to the financial adjustments described above in arriving at non-GAAP (loss) income from operations and adjusted EBITDA, and investors should not infer from our presentation of this non-GAAP financial measure that these costs are unusual, infrequent or non-recurring.

**Table of Contents**

The following table includes the reconciliations of our U.S. GAAP loss from operations, the most directly comparable U.S. GAAP financial measure, to our non-GAAP (loss) income from operations and the reconciliation of our U.S. GAAP loss from operations to our adjusted EBITDA for the three months ended April 30, 2014 and 2013 (amounts in thousands, except per share and percentage data):

**Adjusted EBITDA %** (25.4%) 6.7%

In managing and reviewing our business performance, we exclude a number of items required by U.S. GAAP. Management believes that excluding these items is useful in understanding the trends and managing our operations. We provide these supplemental non-GAAP measures in order to assist the investment community to see SeaChange through the eyes of management, and therefore enhance the understanding of SeaChange's operating performance. Non-GAAP financial measures should be viewed in addition to, not as an alternative to, our reported results prepared in accordance with U.S. GAAP. Our non-GAAP financial measures reflect adjustments based on the following items:

**Table of Contents**

***Amortization of Intangible Assets.*** We incur amortization expense of intangible assets related to various acquisitions that have been made in recent years. These intangible assets are valued at the time of acquisition, are then amortized over a period of several years after the acquisition and generally cannot be changed or influenced by management after the acquisition. We believe that exclusion of these expenses allows comparisons of operating results that are consistent over time for the Company's newly-acquired and long-held businesses.

***Stock-based Compensation Expense.*** We incur expenses related to stock-based compensation included in our U.S. GAAP presentation of cost of revenues, selling and marketing expense, general and administrative expense and research and development expense. Although stock-based compensation is an expense we incur and is viewed as a form of compensation, the expense varies in amount from period to period, and is affected by market forces that are difficult to predict and are not within the control of management, such as the market price and volatility of our shares, risk-free interest rates and the expected term and forfeiture rates of the awards.

***Earn-outs and Change in Fair Value of Earn-outs.*** Earn-outs and the change in the fair value of the earn-outs are considered by management to be non-recurring expenses to the former shareholders of the businesses we acquire. We also incur expense due to changes in fair value related to contingent consideration that we believe would otherwise impair comparability among periods.

***Professional Fees: Acquisitions, Divestitures, Litigation, and Strategic Alternatives.*** We have excluded the effect of legal and other professional costs associated with our acquisitions, divestitures, litigation and strategic alternatives because the amounts are considered significant non-operating expenses.

***Severance and Other Restructuring.*** We incur charges due to the restructuring of our business, including severance charges and facility reductions resulting from our restructuring and streamlining efforts and any changes due to revised estimates, which we generally would not have otherwise incurred in the periods presented as part of our continuing operations.

***Depreciation Expense.*** We incur depreciation expense related to capital assets purchased to support the ongoing operations of the business. These assets are recorded at cost and are depreciated using the straight-line method over the useful life of the asset. Purchases of such assets may vary significantly from period to period and without any correlation to underlying operating performance. Management believes that exclusion of depreciation expense allows comparisons of operating results that are consistent across past, present and future periods.

**Off-Balance Sheet Arrangements**

We do not have any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements. As such, we are not exposed to any financing, liquidity, market or credit risk that could arise if we had engaged in such relationships.

**Liquidity and Capital Resources**

The following table includes key line items of our consolidated statements of cash flows:

| <b>Three Months</b> |                  |
|---------------------|------------------|
| <b>Ended</b>        | <b>Increase/</b> |

|   | <b>April 30,</b>              |                 | <b>(Decrease)</b>  |
|---|-------------------------------|-----------------|--------------------|
|   | <b>2014</b>                   | <b>2013</b>     | <b>\$ Amount</b>   |
|   | <b>(Amounts in thousands)</b> |                 |                    |
| Total cash (used in) provided by operating activities       | \$ (5,282)                    | \$ 3,103        | \$ (8,385)         |
| Total cash used in investing activities                     | (3,376)                       | (640)           | (2,736)            |
| Total cash (used in) provided by financing activities       | (3,504)                       | 84              | (3,588)            |
| Effect of exchange rate changes on cash                     | (315)                         | (79)            | (236)              |
| <b>Net (decrease) increase in cash and cash equivalents</b> | <b>\$ (12,477)</b>            | <b>\$ 2,468</b> | <b>\$ (14,945)</b> |

Historically, we have financed our operations and capital expenditures primarily with cash on-hand. Cash, cash equivalents, restricted cash, and marketable securities decreased from \$128.1 million at January 31, 2014 to \$116.6 million at April 30, 2014.

**Table of Contents****Operating Activities**

Below are key line items affecting cash from operating activities:

|   | <b>Three Months Ended<br/>April 30,</b> |             | <b>Increase/<br/>(Decrease)</b> |
|---|---|-------------|---------------------------------|
|   | <b>2014</b>                             | <b>2013</b> | <b>\$ Amount</b>                |
|   | <b>(Amounts in thousands)</b>           |             |                                 |
| Net loss from continuing operations   | \$ (9,467)                              | \$ (2,020)  | \$ (7,447)                      |
| Adjustments to reconcile net loss to cash<br>(used in) provided by operating activities<br>from continuing operations | 3,381                                   | 3,543       | (162)                           |
| Net (loss) income including adjustments   | (6,086)                                 | 1,523       | (7,609)                         |
| Decrease in accounts receivable   | 4,895                                   | 2,093       | 2,802                           |
| (Increase) decrease in prepaid expenses<br>and other current assets   | (1,793)                                 | 4,081       | (5,874)                         |
| Decrease in accrued expenses  | (3,731)                                 | (1,652)     | (2,079)                         |
| Increase (decrease) in deferred revenues  | 277                                     | (1,349)     | 1,626                           |
| All other net   | 1,156                                   | (1,628)     | 2,784                           |
| Net cash (used in) provided by operating<br>activities from continuing operations                                     | (5,282)                                 | 3,068       | (8,350)                         |
| Net cash provided by operating activities<br>from discontinued operations   |   | 35          | (35)                            |
|   | \$ (5,282)                              | \$ 3,103    | \$ (8,385)                      |

We used net cash in continuing operating activities of \$5.3 million for the three months ended April 30, 2014. This cash used in operating activities was primarily the result of our net loss, including adjustments, of \$6.1 million, an increase in prepaid expenses and other current assets of \$1.8 million and a decrease in accrued expenses of \$3.7 million. These amounts were partially offset by a \$4.9 million decrease in accounts receivable due to lower revenues, and a \$0.8 million increase in accounts payable due to the timing of payments to our vendors.

**Investing Activities**

Cash flows from investing activities are as follows:

|  | <b>Three Months Ended<br/>April 30,</b> |             | <b>Increase/<br/>(Decrease)</b> |
|--|---|-------------|---------------------------------|
|  | <b>2014</b>                             | <b>2013</b> | <b>\$ Amount</b>                |
|  | <b>(Amounts in thousands)</b>           |             |                                 |

Edgar Filing: SEACHANGE INTERNATIONAL INC - Form 10-Q

|   |    |         |    |         |    |         |
|---|----|---------|----|---------|----|---------|
| Purchases of property and equipment   | \$ | (371)   | \$ | (507)   | \$ | 136     |
| Purchases of marketable securities  |    | (1,543) |    | (2,062) |    | 519     |
| Proceeds from sale and maturity of marketable securities                                |    | 538     |    | 3,116   |    | (2,578) |
| Investment in affiliate   |    | (2,000) |    |         |    | (2,000) |
| Acquisition of businesses and payment of contingent consideration, net of cash acquired |    |         |    | (3,206) |    | 3,206   |
| Other investing activities, net   |    |         |    | 19      |    | (19)    |
| Net cash used in investing activities from continuing operations                        |    | (3,376) |    | (2,640) |    | (736)   |
| Net cash provided by investing activities from discontinued operations                  |    |         |    | 2,000   |    | (2,000) |
|   | \$ | (3,376) | \$ | (640)   | \$ | (2,736) |

We used \$3.4 million of cash in investing activities from continuing operations primarily related to the purchase of capital assets of \$0.4 million, an investment in an affiliate of \$2.0 million and the \$1.0 million net use of cash related to the purchases of marketable securities.

**Table of Contents*****Financing Activities***

Cash flows from financing activities are as follows:

|   | <b>Three Months Ended</b>     |             | <b>Increase/<br/>(Decrease)</b> |
|---|-------------------------------|-------------|---------------------------------|
|   | <b>April 30,</b>              |             | <b>\$ Amount</b>                |
|   | <b>2014</b>                   | <b>2013</b> |                                 |
|   | <b>(Amounts in thousands)</b> |             |                                 |
| Repurchases of our common stock   | \$ (3,504)                    | \$          | \$ (3,504)                      |
| Proceeds from issuance of common stock relating to stock option exercises |                               | 84          | (84)                            |
|   | \$ (3,504)                    | \$ 84       | \$ (3,588)                      |

We used \$3.5 million in cash in our financing activities from continuing operations for the purchase of stock under a stock repurchase plan during the first quarter of fiscal 2015.

Effect of exchange rate changes decreased cash and cash equivalents by \$0.3 million for the three months ended April 30, 2014, due to the translation of European subsidiaries' cash balances, which use the Euro as their functional currency, to U.S. dollars.

Effective November 28, 2013, we renewed our letter agreement with JP Morgan for a demand discretionary line of credit and a Demand Promissory Note in the aggregate amount of \$20.0 million (the Line of Credit). Borrowings under the Line of Credit will be used to finance working capital needs and for general corporate purposes. The Line of Credit expires on November 27, 2014. We currently do not have any borrowings nor do we have any financial covenants under this line.

We believe that existing funds combined with available borrowings under the line of credit and cash provided by future operating activities are adequate to satisfy our working capital, potential acquisitions and capital expenditure requirements and other contractual obligations for the foreseeable future, including at least the next 12 months. However, if our expectations are incorrect, we may need to raise additional funds to fund our operations, to take advantage of unanticipated strategic opportunities or to strengthen our financial position.

In addition, we actively review potential acquisitions that would complement our existing product offerings, enhance our technical capabilities or expand our marketing and sales presence. Any future transaction of this nature could require potentially significant amounts of capital or could require us to issue our stock and dilute existing stockholders. If adequate funds are not available, or are not available on acceptable terms, we may not be able to take advantage of market opportunities, to develop new products or to otherwise respond to competitive pressures.

On September 4, 2013, our Board of Directors authorized the repurchase of up to \$25.0 million of our common stock, par value \$0.01 per share, through a share repurchase program which would have terminated on January 31, 2015. On May 31, 2014, this program was amended to increase the authorized repurchase amount to \$40.0 million and extend the termination date to April 30, 2015. Under the program, management is authorized to repurchase shares through Rule 10b5-1 plans, open market purchases, privately negotiated transactions, block purchases or otherwise in accordance with applicable federal securities laws, including Rule 10b-18 of the Securities Exchange Act of 1934. This share repurchase program does not obligate us to acquire any specific number of shares and may be suspended or

discontinued at any time. All repurchases are expected to be funded from our current cash and investment balances. The timing and amount of shares to be repurchased will be based on market conditions and other factors, including price, corporate and regulatory requirements, and alternative investment opportunities. As of April 30, 2014, we repurchased a total of 339,400 shares of our common stock under this plan at an average price of \$10.32 per share and used a total of \$3.5 million of cash, including fees.

***Effects of Inflation***

Management believes that financial results have not been significantly impacted by inflation and price changes in materials we use in manufacturing our products.

***Contractual Obligations***

There have been no significant changes to our contractual obligations outside the ordinary course of business since January 31, 2014. Refer to our Form 10-K for the fiscal year ended January 31, 2014 for additional information regarding our contractual obligations.

## **Table of Contents**

### **Critical Accounting Policies and Significant Judgment and Estimates**

The accounting and financial reporting policies of SeaChange are in conformity with U.S. GAAP, which requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, expenses and disclosure of contingent assets and liabilities. We evaluate our estimates on an on-going basis, including those related to revenue recognition, allowance for doubtful accounts, acquired intangible assets and goodwill, stock-based compensation, impairment of long-lived assets and accounting for income taxes. Our estimates are based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

There have been no significant changes in our critical accounting policies during the three months ended April 30, 2014, as compared to those disclosed in our fiscal 2014 Form 10-K.

### **Recent Accounting Standard Updates**

We consider the applicability and impact of all ASUs. ASUs not listed below were assessed and determined to be either not applicable or are expected to have minimal impact on our consolidated financial position or results of operations.

#### ***Impact of Recently Adopted Accounting Guidance***

##### *Definition of a Public Business Entity*

In December 2013, the FASB issued ASU 2013-12, *Definition of a Public Business Entity: An Addition to the Master Glossary*, which provides entities with a single definition of a Public Business Entity for use in future financial accounting and guidance beginning in fiscal 2015. The adoption of this guidance does not have a material impact on our financial statements and we do not expect it to in the future.

##### *Release of Cumulative Translation Adjustment into Net Income*

In March 2013, the FASB issued ASU 2013-05, *Foreign Currency Matter (Topic 830) Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity*, which amends previous guidance related to overall consolidation rules and rules related to the translation of financial statements. ASU 2013-05 requires that the parent release any related cumulative translation adjustment into net income only if the sale or transfer results in the complete or substantially complete liquidation of the foreign entity in which the subsidiary or group of assets had resided. The new guidance was effective prospectively for us beginning February 1, 2014. Early adoption was permitted. The initial adoption of this guidance had no impact on our financial statements but could impact our future operations if we liquidate one or more foreign entities.

#### ***Recent Accounting Guidance Not Yet Effective***

##### *Revenue from Contracts with Customers*

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*, to clarify the principles for recognizing revenue and to develop a common revenue standard for U.S. GAAP and the International Financial Reporting Standards. This guidance supersedes previously issued guidance on revenue recognition and gives a five step process an entity should follow so that the entity recognizes revenue that depicts the transfer of promised

goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This new guidance will be effective for our fiscal 2018 reporting period and must be applied either retrospectively during each prior reporting period presented or retrospectively with the cumulative effect of initially applying this guidance recognized at the date of the initial application. Early adoption is not permitted. We are currently evaluating the impact of the adoption of this ASU on our consolidated financial statements.

*Reporting Discontinued Operations and Disposals of Components of an Entity*

In April 2014, the FASB issued ASU 2014-08, *Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360) Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*, which changes the criteria for reporting discontinued operations while enhancing disclosures in this area. The amended guidance requires that a disposal representing a strategic shift that has (or will have) a major effect on an entity's financial results or a business activity classified as held for sale should be reported as discontinued operations. This guidance also expands the disclosures required when an entity reports a discontinued operation or when it disposes of or classifies as held for sale an individually significant component that does not meet the definition of a discontinued operation. This new guidance will be effective prospectively on disposals (or

---

**Table of Contents**

classifications of held for sale) of components of an entity that occur within our fiscal years beginning on February 1, 2015. Early adoption is permitted but only for disposals (or classification as held for sale) that have not been reported in financial statements previously issued or available for issuance. We do not anticipate material impacts on our financial statements upon initial adoption. This guidance could have a material impact on our disclosure requirements if we dispose of, or classify as held for sale, an individually significant component of our business that does not meet the definition of a discontinued operation.

**ITEM 3. Quantitative and Qualitative Disclosures About Market Risk*****Foreign Currency Exchange Risk***

We face exposure to financial market risks, including adverse movements in foreign currency exchange rates and changes in interest rates. These exposures may change over time as business practices evolve and could have a material adverse impact on our financial results. Our foreign currency exchange exposure is primarily associated with product sales arrangements or settlement of intercompany payables and receivables among subsidiaries and its parent company, and/or investment/equity contingency considerations denominated in the local currency where the functional currency of the foreign subsidiary is the U.S. dollar.

Substantially all of our international product sales are payable in U.S. dollars or in the case of our operations in the Netherlands, payable in local currencies, providing a natural hedge for receipts and local payments. In light of the high proportion of our international businesses, we expect the risk of any adverse movements in foreign currency exchange rates could have an impact on our translated results within the consolidated statements of operations and comprehensive loss and the consolidated balance sheets. For the first three months of fiscal 2015, we generated a foreign currency translation gain of \$0.5 million, which increased the equity section of our consolidated balance sheet over the prior year.

We did not enter into derivative financial instruments for trading purposes and do not currently have outstanding derivative financial instruments related to payment obligations of the Company. While we do not anticipate that near-term changes in exchange rates will have a material impact on our operating results, financial position and liquidity, a sudden and significant change in the value of foreign currencies could harm our operating results, financial position and liquidity.

Our principal currency exposures relate primarily to the U.S. dollar, the Euro and the Philippine peso. All foreign currency gains and losses are included in other expenses, net, in the accompanying consolidated statements of operations and comprehensive loss. For the three months ended April 30, 2014, we recorded \$0.3 million in gains due to the international subsidiary translations and cash settlements of revenues and expenses.

***Interest Rate Risk***

Exposure to market risk for changes in interest rates relates primarily to our investment portfolio of marketable debt securities of various issuers, types and maturities and to our borrowings under our demand note payable. We do not use derivative instruments in our investment portfolio, and our investment portfolio only includes highly liquid instruments. Our cash and marketable securities include cash equivalents, which we consider to be investments purchased with original maturities of 90 days or less. There is risk that losses could be incurred if we were to sell any of our securities prior to stated maturity. Given the short maturities and investment grade quality of the portfolio holdings at April 30, 2014, a sharp change in interest rates should not have a material adverse impact on the fair value of our investment portfolio. However, our long term marketable securities, which are carried at the lower of cost or

market value, have fixed interest rates, and therefore are subject to changes in fair value.

**ITEM 4. Controls and Procedures**

(a) *Evaluation of disclosure controls and procedures.* We evaluated the effectiveness of our disclosure controls and procedures, as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act ), as of the end of the period covered by this Form 10-Q. Raghu Rau, our Chief Executive Officer, and Anthony C. Dias, our Chief Financial Officer, reviewed and participated in this evaluation. Based upon that evaluation, Messrs. Rau and Dias concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report and as of the date of the evaluation.

(b) *Changes in internal control over financial reporting.* As a result of the evaluation completed by us, and in which Messrs. Rau and Dias participated, we have concluded that there were no changes during the fiscal quarter ended April 30, 2014 in our internal control over financial reporting, which have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**Table of Contents****PART II. OTHER INFORMATION****ITEM 1. Legal Proceedings**

We enter into agreements in the ordinary course of business with customers, resellers, distributors, integrators and suppliers. Most of these agreements require us to defend and/or indemnify the other party against intellectual property infringement claims brought by a third party with respect to our products. From time to time, we also indemnify customers and business partners for damages, losses and liabilities they may suffer or incur relating to personal injury, personal property damage, product liability, and environmental claims relating to the use of our products and services or resulting from the acts or omissions of us, our employees, authorized agents or subcontractors. Management cannot reasonably estimate any potential losses, but these claims could result in material liability for us.

**ITEM 1A. Risk Factors**

In addition to the other information set forth in this Form 10-Q, you should carefully consider the risk factors discussed in Part I, Item 1A. Risk Factors in our Form 10-K for the fiscal year ended January 31, 2014, which could materially affect our business, financial condition or future results. The risks described in our Form 10-K are not the only risks that we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition or future results.

**ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds*****Stock Repurchase Program***

On September 4, 2013, our Board of Directors authorized the repurchase of up to \$25.0 million of our common stock, par value \$0.01 per share, through a share repurchase program which would have terminated on January 31, 2015. On May 31, 2014, this program was amended to increase the authorized repurchase amount to \$40.0 million and extend the termination date to April 30, 2015. Under the program, management is authorized to repurchase shares through Rule 10b5-1 plans, open market purchases, privately negotiated transactions, block purchases or otherwise in accordance with applicable federal securities laws, including Rule 10b-18 of the Securities Exchange Act of 1934. This share repurchase program does not obligate us to acquire any specific number of shares and may be suspended or discontinued at any time. All repurchases are expected to be funded from our current cash and investment balances. The timing and amount of shares to be repurchased will be based on market conditions and other factors, including price, corporate and regulatory requirements, and alternative investment opportunities. Any shares repurchased by us under the share repurchase program will reduce the number of shares outstanding.

The following table provides information about our repurchases of our equity securities during the quarter ended April 30, 2014:

| <b>Period</b> | <b>Total<br/>Number of<br/>Shares (or Units)<br/>Purchased</b> | <b>Average<br/>Price<br/>Paid per Share<br/>(Or Units)</b> | <b>Total<br/>Number of<br/>Shares (Or<br/>Units)</b> | <b>Maximum<br/>Number (or<br/>Approximate<br/>Dollar Value)</b> |
|---------------|--|--|--|---|
|---------------|--|--|--|---|

|  |         |          | <b>Purchased as<br/>Part<br/>of Publicly<br/>Announced Plans or<br/>Programs</b> | <b>of<br/>Shares (Or<br/>Units) that<br/>May<br/>Yet Be<br/>Purchased<br/>Under the Plans<br/>or Programs</b> |
|--|---------|----------|--|---|
| February 1, 2014 to<br>February 28, 2014 | 30,000  | \$ 10.60 | 30,000   | \$ 24,681,940   |
| March 1, 2014 to March 31,<br>2014       | 199,700 | \$ 10.35 | 229,700  | \$ 22,615,631   |
| April 1, 2014 to April 30, 2014          | 109,700 | \$ 10.21 | 339,400  | \$ 21,495,721   |
| Total                                    | 339,400 | \$ 10.32 | 339,400  | \$ 21,495,721   |
