Table of Contents

Assurant, Inc.

Notes to Consolidated Financial Statements (unaudited)

Three and Six Months Ended June 30, 2014 and 2013

(In thousands, except number of shares and per share amounts)

1. Nature of Operations

Assurant, Inc. (the Company) is a holding company whose subsidiaries provide specialized insurance products and related services in North America, Latin America, Europe and other select worldwide markets.

The Company is traded on the New York Stock Exchange under the symbol AIZ.

Through its operating subsidiaries, the Company provides mobile device protection, debt protection administration, credit-related insurance, warranties and service contracts, pre-funded funeral insurance, lender-placed homeowners insurance, renters insurance and related products, manufactured housing homeowners insurance, individual health and small employer group health insurance, group dental insurance, group disability insurance, and group life insurance.

2. Basis of Presentation

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information. Accordingly, these statements do not include all of the information and footnotes required by GAAP for complete financial statements.

The interim financial data as of June 30, 2014 and December 31, 2013 and for the three and six months ended June 30, 2014 and 2013 is unaudited; in the opinion of management, the interim data includes all adjustments, consisting only of normal recurring adjustments, necessary to a fair statement of the results for the interim periods. The unaudited interim consolidated financial statements include the accounts of the Company and all of its wholly owned subsidiaries. All inter-company transactions and balances are eliminated in consolidation.

The Affordable Care Act introduced new and significant premium stabilization programs beginning in 2014. These programs required the Company to record amounts to our consolidated financial statements based on assumptions and estimates which could materially change as experience develops.

Operating results for the three and six months ended June 30, 2014 are not necessarily indicative of the results that may be expected for the year ending December 31, 2014. The accompanying unaudited interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

3. Recent Accounting Pronouncements

Adopted

On January 1, 2014, the Company adopted the new guidance on presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. The amendments in this guidance state that an unrecognized tax benefit, or a portion thereof, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward. An exception to this guidance would be where a net operating loss carryforward or similar tax loss or credit carryforward would not be available under the tax law to settle any additional income taxes that would result from the disallowance of a tax position, or the tax law does not require the entity to use, and the entity does not intend to use, the deferred tax asset for such purpose. In such a case, the unrecognized tax benefit should be presented in the financial statements as a liability and should not be combined with deferred tax assets. The adoption of this new presentation guidance did not impact the Company's financial position or results of operations.

Edgar Filing: ASSURANT INC - Form 10-Q

On January 1, 2014, the Company adopted the other expenses guidance that addresses how health insurers should recognize and classify in their statements of operations fees mandated by the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010, and the rules and regulations thereunder (together, the Affordable Care Act). The Affordable Care Act imposes an annual fee on health insurers for each calendar year beginning on or after January 1, 2014. The amendments

Table of Contents

Assurant, Inc.

Notes to Consolidated Financial Statements (unaudited)

Three and Six Months Ended June 30, 2014 and 2013

(In thousands, except number of shares and per share amounts)

specify that the liability for the fee should be estimated and recorded in full once the entity provides qualifying health insurance in the applicable calendar year in which the fee is payable with a corresponding deferred cost that is amortized to expense ratably over the calendar year during which it is payable. The Company's adoption of this guidance impacts the results of our Assurant Health and Assurant Employee Benefits segments. The estimated liability for the mandated fees and the corresponding deferred cost asset for calendar year 2014 is \$25,600 and was recorded in accounts payable and other liabilities and in other assets, respectively, on the consolidated balance sheets. For the six months ended June 30, 2014, the Company recorded \$12,800 of amortization expense related to these deferred costs in underwriting, general and administrative expenses in the consolidated statements of operations. These are estimated amounts and may be adjusted once the final assessment is received from the federal government.

Not Yet Adopted

In May 2014, the Financial Accounting Standards Board (FASB) issued amended guidance on revenue recognition. The amended guidance affects any entity that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets unless those contracts are within the scope of other standards. Insurance contracts are within the scope of other standards and therefore are specifically excluded from the scope of the amended revenue recognition guidance. The core principle of the amended guidance is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve the core principle, the entity applies a five step process outlined in the amended guidance. The amended guidance also includes a cohesive set of disclosure requirements. The amended guidance is effective for interim and annual periods beginning after December 15, 2016 and early adoption is not permitted. Therefore, the Company is required to adopt the guidance on January 1, 2017. An entity can choose to apply the amended guidance using either the full retrospective approach or a modified retrospective approach. The Company is currently evaluating the requirements of the revenue recognition guidance as it relates to its non-insurance contract revenue and the potential impact on the Company's financial position and results of operations.

4. Acquisitions

As previously disclosed, on December 30, 2013, the Company paid Mex\$1,191,499 (U.S.D. \$91,420) for a 40% investment in the Mexican operations of Iké Asistencia (Iké), an assistance services business with operations in Mexico and other countries in Latin America. In addition, on February 10, 2014, the Company made a previously disclosed payment of Mex\$272,541 (U.S.D. \$20,950) for 40% of Iké's Latin American operations. Following the February 10, 2014 payment, the Company owns 40% of the equity interests and outstanding shares of Iké and, under the terms of the agreements, will also have options to acquire the remaining interest in Iké over time.

On March 24, 2014, the Company made the required delayed payment of £3,000 (\$4,951) and contingent payment of £16,313 (\$26,920) to complete the previously disclosed October 25, 2013 acquisition of the Lifestyle Services Group. The contingent payment was made given the stipulated contractual renewal of a key client.

On April 16, 2014, the Company acquired StreetLinks, LLC, a leading independent appraisal management company, from Novation Companies, Inc. The acquisition-date fair value of the consideration transferred totaled \$65,905, which consists of an initial cash payment of \$60,905 and a contingent payment of \$5,000. The contingent consideration arrangement is based on future expected revenue. In connection with the acquisition, the Company recorded \$47,970 of customer and technology based intangible assets, all of which are amortizable over a 2 to 12 year period, and \$14,738 of goodwill, none of which is tax-deductible. The primary factor contributing to the recognition of goodwill is the future expected growth of this business within Assurant Specialty Property.

Assurant, Inc.

Notes to Consolidated Financial Statements (unaudited)

Three and Six Months Ended June 30, 2014 and 2013

(In thousands, except number of shares and per share amounts)

Our states, municipalities and political subdivisions holdings are highly diversified across the U.S. and Puerto Rico, with no individual state's exposure (including both general obligation and revenue securities) exceeding 0.6% and 0.5% of the overall investment portfolio as of June 30, 2014 and December 31, 2013, respectively. At June 30, 2014 and December 31, 2013, the securities include general obligation and revenue bonds issued by states, cities, counties, school districts and similar issuers, including \$265,874 and \$234,640, respectively, of advance refunded or escrowed-to-maturity bonds (collectively referred to as pre-refunded bonds), which are bonds for which an irrevocable trust has been established to fund the remaining payments of principal and interest. As of June 30, 2014 and December 31, 2013, revenue bonds account for 53% of the holdings. Excluding pre-refunded revenue bonds, the activities supporting the income streams of the Company's revenue bonds are across a broad range of sectors, primarily highway, water, airport and marina, higher education, specifically pledged tax revenues, and other miscellaneous sources such as bond banks, finance authorities and appropriations.

The Company's investments in foreign government fixed maturity securities are held mainly in countries and currencies where the Company has policyholder liabilities, which allow the assets and liabilities to be more appropriately matched. At June 30, 2014, approximately 72%, 15% and 5% of the foreign government securities were held in the Canadian government/provincials and the governments of Brazil and Germany, respectively. At December 31, 2013, approximately 70%, 15% and 6% of the foreign government securities were held in the Canadian government/provincials and the governments of Brazil and Germany, respectively. No other country represented more than 3% of our foreign government securities as of June 30, 2014 and December 31, 2013.

The Company has European investment exposure in its corporate fixed maturity and equity securities of \$1,128,779 with an unrealized gain of \$118,437 at June 30, 2014 and \$1,082,129 with an unrealized gain of \$78,126 at December 31, 2013. Approximately 22% and 25% of the corporate European exposure is held in the financial industry at June 30, 2014 and December 31, 2013, respectively. Our largest European country exposure represented approximately 5% and 6% of the fair value of our corporate securities as of June 30, 2014 and December 31, 2013, respectively. Approximately 5% of the fair value of the corporate European securities are pound and euro-denominated and are not hedged to U.S. dollars, but held to support those foreign-denominated liabilities. Our international investments are managed as part of our overall portfolio with the same approach to risk management and focus on diversification.

The cost or amortized cost and fair value of fixed maturity securities at June 30, 2014 by contractual maturity are shown below. Expected maturities may differ from contractual maturities because issuers of the securities may have the right to call or prepay obligations with or without call or prepayment penalties.

	Cost or Amortized Cost	Fair Value
Due in one year or less	\$ 387,826	\$ 393,271
Due after one year through five years	2,426,891	2,577,419

Net realized losses related to other-than-temporary impairments:				
Fixed maturity securities	(30)	(107)	(30)	(107)
Total net realized losses related to other-than-temporary impairments	(30)	(107)	(30)	(107)
Total net realized gains	\$ 6,087	\$ 20,857	\$ 25,838	\$ 33,895

Other-Than-Temporary Impairments

The Company follows the OTTI guidance which requires entities to separate an OTTI of a debt security into two components when there are credit related losses associated with the impaired debt security for which the Company asserts that it does not have the intent to sell, and it is more likely than not that it will not be required to sell before recovery of its cost basis. Under the OTTI guidance, the amount of the OTTI related to a credit loss is recognized in earnings, and the amount of the OTTI related to other, non-credit factors (e.g., interest rates, market conditions, etc.) is recorded as a component of other comprehensive income. In instances where no credit loss exists but the Company intends to sell the security or it is more likely than not that the Company will have to sell the debt security prior to the anticipated recovery, the decline in market value below amortized cost is recognized as an OTTI in earnings. In periods after the recognition of an OTTI on debt securities, the

Edgar Filing: ASSURANT INC - Form 10-Q

Company accounts for such securities as if they had been purchased on the measurement date of the OTTI at an amortized cost basis equal to the previous amortized cost basis less the OTTI recognized in earnings. For debt securities for which OTTI was recognized in earnings, the difference between the new amortized cost basis and the cash flows expected to be collected will be accreted or amortized into net investment income.

For the three and six months ended June 30, 2014, the Company recorded \$40 and \$69, respectively, of OTTI, of which \$30 and \$30, respectively, was related to credit losses and recorded as net OTTI losses recognized in earnings, with the remaining \$10 and \$39, respectively, related to all other factors and recorded as an unrealized loss component of AOCI. For the three and six months

Table of Contents

Assurant, Inc.

Notes to Consolidated Financial Statements (unaudited)**Three and Six Months Ended June 30, 2014 and 2013****(In thousands, except number of shares and per share amounts)**

ended June 30, 2013, the Company recorded \$179 of OTTI, of which \$107 was related to credit losses and recorded as net OTTI losses recognized in earnings, with the remaining \$72 related to all other factors and recorded as an unrealized loss component of AOCI.

The following tables set forth the amount of credit loss impairments recognized within the results of operations on fixed maturity securities held by the Company as of the dates indicated, for which a portion of the OTTI loss was recognized in AOCI, and the corresponding changes in such amounts.

	Three Months Ended June 30,	
	2014	2013
Balance, March 31,	\$ 44,301	\$ 94,659
Additions for credit loss impairments recognized in the current period on securities previously impaired	30	107
Reductions for increases in cash flows expected to be collected that are recognized over the remaining life of the security	(2,163)	(516)
Reductions for credit loss impairments previously recognized on securities which matured, paid down, prepaid or were sold during the period	(2,920)	(505)
Balance, June 30,	\$ 39,248	\$ 93,745

	Six Months Ended June 30,	
	2014	2013
Balance, January 1,	\$ 45,278	\$ 95,589
Additions for credit loss impairments recognized in the current period on securities previously impaired	30	107
Reductions for increases in cash flows expected to be collected that are recognized over the remaining life of the security	(2,645)	(868)
Reductions for credit loss impairments previously recognized on securities which matured, paid down, prepaid or were sold during the period	(3,415)	(1,083)
Balance, June 30,	\$ 39,248	\$ 93,745

We regularly monitor our investment portfolio to ensure investments that may be other-than-temporarily impaired are identified in a timely fashion, properly valued, and charged against earnings in the proper period. The determination that a security has incurred an other-than-temporary decline in value requires the judgment of management. Assessment factors include, but are not limited to, the length of time and the extent to which the market value has been less than cost, the financial condition and rating of the issuer, whether any collateral is held, the intent and ability of the Company to retain the investment for a period of time sufficient to allow for recovery for equity securities and

Edgar Filing: ASSURANT INC - Form 10-Q

the intent to sell or whether it is more likely than not that the Company will be required to sell for fixed maturity securities. Inherently, there are risks and uncertainties involved in making these judgments. Changes in circumstances and critical assumptions such as a continued weak economy, a more pronounced economic downturn or unforeseen events which affect one or more companies, industry sectors, or countries could result in additional impairments in future periods for other-than-temporary declines in value. Any equity security whose price decline is deemed other-than-temporary is written down to its then current market value with the amount of the impairment reported as a realized loss in that period. The impairment of a fixed maturity security that the Company has the intent to sell or that it is more likely than not that the Company will be required to sell is deemed other-than-temporary and is written down to its market value at the balance sheet date with the amount of the impairment reported as a realized loss in that period. For all other-than-temporarily impaired fixed maturity securities that do not meet either of these two criteria, the Company is required to analyze its ability to recover the amortized cost of the security by calculating the net present value of projected future cash flows. For these other-than-temporarily impaired fixed maturity securities, the net amount recognized in earnings is equal to the difference between the amortized cost of the fixed maturity security and its net present value.

Table of Contents

Assurant, Inc.

Notes to Consolidated Financial Statements (unaudited)

Three and Six Months Ended June 30, 2014 and 2013

(In thousands, except number of shares and per share amounts)

The Company considers different factors to determine the amount of projected future cash flows and discounting methods for corporate debt and residential and commercial mortgage-backed or asset-backed securities. For corporate debt securities, the split between the credit and non-credit losses is driven principally by assumptions regarding the amount and timing of projected future cash flows. The net present value is calculated by discounting the Company's best estimate of projected future cash flows at the effective interest rate implicit in the security at the date of acquisition. For residential and commercial mortgage-backed and asset-backed securities, cash flow estimates, including prepayment assumptions, are based on data from widely accepted third-party data sources or internal estimates. In addition to prepayment assumptions, cash flow estimates vary based on assumptions regarding the underlying collateral including default rates, recoveries and changes in value. The net present value is calculated by discounting the Company's best estimate of projected future cash flows at the effective interest rate implicit in the fixed maturity security prior to impairment at the balance sheet date. The discounted cash flows become the new amortized cost basis of the fixed maturity security.

In periods subsequent to the recognition of an OTTI, the Company generally accretes the discount (or amortizes the reduced premium) into net investment income, up to the non-discounted amount of projected future cash flows, resulting from the reduction in cost basis, based upon the amount and timing of the expected future cash flows over the estimated period of cash flows.

The investment category and duration of the Company's gross unrealized losses on fixed maturity securities and equity securities at June 30, 2014 and December 31, 2013 were as follows:

	Less than 12 months		June 30, 2014 12 Months or More		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Fixed maturity securities:

Total equity securities	\$ 159,910	\$ (8,210)	\$ 11,807	\$ (1,199)	\$ 171,717	\$ (9,409)

Total gross unrealized losses represent approximately 2% and 3% of the aggregate fair value of the related securities at June 30, 2014 and December 31, 2013, respectively. Approximately 15% and 94% of these gross unrealized losses have been in a continuous loss position for less than twelve months at June 30, 2014 and December 31, 2013, respectively. The total gross unrealized losses are comprised of 296 and 667 individual securities at June 30, 2014 and December 31, 2013, respectively. In accordance with its policy described above, the Company concluded that for these securities an adjustment to its results of operations for other-than-temporary impairments of the gross unrealized losses was not warranted at June 30, 2014 and December 31, 2013. These conclusions were based on a detailed analysis of the underlying credit and expected cash flows of each security. As of June 30, 2014, the gross unrealized losses that have been in a continuous loss position for twelve months or more were concentrated in the Company's foreign governments, residential mortgage-backed, and corporate fixed maturity securities, and in non-redeemable preferred stocks. Within the Company's corporate fixed maturity securities, the majority of the loss position relates to securities in the utilities sector. The utilities sector's gross unrealized losses of twelve months or more were \$1,219, or 28%, of the corporate fixed maturity securities total. The non-redeemable preferred stocks are perpetual preferred securities that have characteristics of both debt and equity securities. To evaluate these securities, we apply an impairment model similar to that used for our fixed maturity securities. As of June 30, 2014, the Company did not intend to sell these securities and it was not more likely than not that the Company would be required to sell them and no underlying cash flow issues were noted. Therefore, the Company did not recognize an OTTI on those perpetual preferred securities that had been in a continuous unrealized loss position for twelve months or more. As of June 30, 2014, the Company did not intend to sell the fixed maturity securities and it was not more likely than not that the Company would be required to sell the securities before the anticipated recovery of their amortized cost basis. The gross unrealized losses are primarily attributable to widening credit spreads associated with an underlying shift in overall credit risk premium.

The Company has entered into commercial mortgage loans, collateralized by the underlying real estate, on properties located throughout the U.S. and Canada. At June 30, 2014, approximately 39% of the outstanding principal balance of commercial mortgage loans was concentrated in the states of California, New York, and Utah. Although the Company has a diversified loan portfolio, an economic downturn could have an

Edgar Filing: ASSURANT INC - Form 10-Q

adverse impact on the ability of its debtors to repay their loans. The outstanding balance of commercial mortgage loans ranges in size from \$23 to \$15,385 at June 30, 2014 and from \$9 to \$15,574 at December 31, 2013.

Credit quality indicators for commercial mortgage loans are loan-to-value and debt-service coverage ratios. Loan-to-value and debt-service coverage ratios are measures commonly used to assess the credit quality of commercial mortgage loans. The loan-to-value ratio compares the principal amount of the loan to the fair value of the underlying property collateralizing the loan, and is commonly expressed as a percentage. The debt-service coverage ratio compares a property's net operating income to its debt-service payments and is commonly expressed as a ratio. The loan-to-value and debt-service coverage ratios are generally updated annually in the third quarter.

Table of Contents

Assurant, Inc.

Notes to Consolidated Financial Statements (unaudited)

Three and Six Months Ended June 30, 2014 and 2013

(In thousands, except number of shares and per share amounts)

The following summarizes our loan-to-value and average debt-service coverage ratios as of the dates indicated:

Loan-to-Value	Carrying Value	June 30, 2014 % of Gross Mortgage Loans	Debt-Service Coverage Ratio
70% and less	\$ 1,111,913	88.8%	1.97
71 80%	79,195	6.3%	1.40
81 95%	48,038	3.8%	1.21
Greater than 95%	13,437	1.1%	0.86
Gross commercial mortgage loans	1,252,583	100%	1.89
Less valuation allowance	(4,482)		
Net commercial mortgage loans	\$ 1,248,101		

Loan-to-Value	Carrying Value	December 31, 2013 % of Gross Mortgage Loans	Debt-Service Coverage Ratio
70% and less	\$ 1,143,200	88.5%	1.97
71 80%	73,603	5.7%	1.44
81 95%	58,752	4.6%	1.19
Greater than 95%	15,959	1.2%	0.87
Gross commercial mortgage loans	1,291,514	100%	1.89
Less valuation allowance	(4,482)		
Net commercial mortgage loans	\$ 1,287,032		

All commercial mortgage loans that are individually impaired have an established mortgage loan valuation allowance for losses. Changing economic conditions affect our valuation of commercial mortgage loans. Changing vacancies and rents are incorporated into the discounted cash flow analysis that we perform for monitored loans and may contribute to the establishment of (or an increase or decrease in) a commercial mortgage loan valuation allowance for losses. In addition, we continue to monitor the entire commercial mortgage loan portfolio to identify risk. Areas of emphasis are properties that have exposure to specific geographic events, have deteriorating credits or have experienced a reduction in debt-service coverage ratio. Where warranted, we have established or increased a valuation allowance based upon this analysis.

Collateralized Transactions

Edgar Filing: ASSURANT INC - Form 10-Q

The Company engages in transactions in which fixed maturity securities, primarily bonds issued by the U.S. government and government agencies and authorities, and U.S. corporations, are loaned to selected broker/dealers. Collateral, greater than or equal to 102% of the fair value of the securities lent, plus accrued interest, is received in the form of cash and cash equivalents held by a custodian bank for the benefit of the Company. The use of cash collateral received is unrestricted. The Company reinvests the cash collateral received, generally in investments of high credit quality that are designated as available-for-sale. The Company monitors the fair value of securities loaned and the collateral received, with additional collateral obtained, as necessary. The Company is subject to the risk of loss to the extent there is a loss on the re-investment of cash collateral.

As of June 30, 2014 and December 31, 2013, our collateral held under securities lending agreements, of which its use is unrestricted, was \$95,222 and \$95,215, respectively, and is included in the consolidated balance sheets under the collateral held/pledged under securities agreements. Our liability to the borrower for collateral received was \$95,217 and \$95,206, respectively, and is included in the consolidated balance sheets under obligation under securities agreements. The difference between the collateral held and obligations under securities lending is recorded as an unrealized gain (loss) and is included as part of AOCI. There was one security in an unrealized loss position as of June 30, 2014 and it has been in an unrealized loss position for less than 12 months. All securities were in an unrealized gain position as of December 31, 2013. The Company includes the available-for-sale investments purchased with the cash collateral in its evaluation of other-than-temporary impairments.

Table of Contents

Assurant, Inc.

Notes to Consolidated Financial Statements (unaudited)

Three and Six Months Ended June 30, 2014 and 2013

(In thousands, except number of shares and per share amounts)

Cash proceeds that the Company receives as collateral for the securities it lends and subsequent repayment of the cash are regarded by the Company as cash flows from financing activities, since the cash received is considered a borrowing. Since the Company reinvests the cash collateral generally in investments that are designated as available-for-sale, the reinvestment is presented as cash flows from investing activities.

6. Fair Value Disclosures

Fair Values, Inputs and Valuation Techniques for Financial Assets and Liabilities Disclosures

The fair value measurements and disclosures guidance defines fair value and establishes a framework for measuring fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In accordance with this guidance, the Company has categorized its recurring basis financial assets and liabilities into a three-level fair value hierarchy based on the priority of the inputs to the valuation technique.

The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

The levels of the fair value hierarchy are described below:

Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access.

Level 2 inputs utilize other than quoted prices included in Level 1 that are observable for the asset, either directly or indirectly, for substantially the full term of the asset. Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active and inputs other than quoted prices that are observable in the marketplace for the asset. The observable inputs are used in valuation models to calculate the fair value for the asset.

Level 3 inputs are unobservable but are significant to the fair value measurement for the asset, and include situations where there is little, if any, market activity for the asset. These inputs reflect management's own assumptions about the assumptions a market participant would use in pricing the asset.

A review of fair value hierarchy classifications is conducted on a quarterly basis. Changes in the observability of valuation inputs may result in a reclassification of levels for certain securities within the fair value hierarchy.

Assurant, Inc.

Notes to Consolidated Financial Statements (unaudited)

Three and Six Months Ended June 30, 2014 and 2013

(In thousands, except number of shares and per share amounts)

The following tables present the Company's fair value hierarchy for assets and liabilities measured at fair value on a recurring basis as of June 30, 2014 and December 31, 2013. The amounts presented below for Collateral held/pledged under securities agreements, Other investments, Cash equivalents, Other assets, Assets and Liabilities held in separate accounts and Other liabilities differ from the amounts presented in the consolidated balance sheets because only certain investments or certain assets and liabilities within these line items are measured at estimated fair value. Other investments are comprised of investments in the Assurant Investment Plan, American Security Insurance Company Investment Plan, Assurant Deferred Compensation Plan, a modified coinsurance arrangement and other derivatives. Other liabilities are comprised of investments in the Assurant Investment Plan, contingent consideration related to a business combination and other derivatives. The fair value amount and the majority of the associated levels presented for Other investments and Assets and Liabilities held in separate accounts are received directly from third parties.

Notes to Consolidated Financial Statements (unaudited)

Three and Six Months Ended June 30, 2014 and 2013

(In thousands, except number of shares and per share amounts)

There were no transfers between Level 1 and Level 2 financial assets during either period. However, there were transfers between Level 2 and Level 3 financial assets during the periods, which are reflected in the Transfers in and Transfers out columns below. Transfers between Level 2 and Level 3 most commonly occur from changes in the availability of observable market information and re-evaluation of the observability of pricing inputs. Any remaining unpriced securities are submitted to independent brokers who provide non-binding broker quotes or are priced by other qualified sources.

The following tables summarize the change in balance sheet carrying value associated with Level 3 financial assets and liabilities carried at fair value during the three months ended June 30, 2014 and 2013:

	Three Months Ended June 30, 2014							Balance, end of period

- (1) Included as part of net realized gains on investments in the consolidated statement of operations.
- (2) Included as part of change in unrealized gains on securities in the consolidated statement of comprehensive income.
- (3) Transfers are primarily attributable to changes in the availability of observable market information and re-evaluation of the observability of pricing inputs.

Three different valuation techniques can be used in determining fair value for financial assets and liabilities: the market, income or cost approaches. The three valuation techniques described in the fair value measurements and disclosures guidance are consistent with generally accepted valuation methodologies. The market approach valuation techniques use prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. When possible, quoted prices (unadjusted) in active markets are used as of the period-end date (such as for mutual funds and money market funds). Otherwise, valuation techniques consistent with the market approach including matrix pricing and comparables are used. Matrix pricing is a mathematical technique employed principally to value debt securities without relying exclusively on quoted prices for those securities but rather by relying on the securities' relationship to other benchmark quoted securities. Market approach valuation techniques often use market multiples derived from a set of comparables. Multiples might lie in ranges with a different multiple for each comparable. The selection of where within the range the appropriate multiple falls requires judgment, considering both qualitative and quantitative factors specific to the measurement.

Income approach valuation techniques convert future amounts, such as cash flows or earnings, to a single present amount, or a discounted amount. These techniques rely on current market expectations of future amounts as of the period-end date. Examples of income approach

Edgar Filing: ASSURANT INC - Form 10-Q

valuation techniques include present value techniques, option-pricing models, binomial or lattice models that incorporate present value techniques and the multi-period excess earnings method.

Table of Contents

Assurant, Inc.

Notes to Consolidated Financial Statements (unaudited)

Three and Six Months Ended June 30, 2014 and 2013

(In thousands, except number of shares and per share amounts)

Cost approach valuation techniques are based upon the amount that would be required to replace the service capacity of an asset at the period-end date, or the current replacement cost. That is, from the perspective of a market participant (seller), the price that would be received for the asset is determined based on the cost to a market participant (buyer) to acquire or construct a substitute asset of comparable utility, adjusted for obsolescence.

While not all three approaches are applicable to all financial assets or liabilities, where appropriate, one or more valuation techniques may be used. For all the classes of financial assets and liabilities included in the above hierarchy, excluding the CPI Caps and certain privately placed corporate bonds, the market valuation technique is generally used. For certain privately placed corporate bonds, the CPI Caps, and certain derivatives, the income valuation technique is generally used. For the periods ended June 30, 2014 and December 31, 2013, the application of the valuation technique applied to the Company's classes of financial assets and liabilities has been consistent.

Level 1 Securities

The Company's investments and liabilities classified as Level 1 as of June 30, 2014 and December 31, 2013, consisted of mutual funds and money market funds, foreign government fixed maturities and common stocks that are publicly listed and/or actively traded in an established market.

Level 2 Securities

The Company's Level 2 securities are valued using various observable market inputs obtained from a pricing service. The pricing service prepares estimates of fair value measurements for our Level 2 securities using proprietary valuation models based on techniques such as matrix pricing which include observable market inputs. The fair value measurements and disclosures guidance defines observable market inputs as the assumptions market participants would use in pricing the asset or liability developed on market data obtained from sources independent of the Company. The extent of the use of each observable market input for a security depends on the type of security and the market conditions at the balance sheet date. Depending on the security, the priority of the use of observable market inputs may change as some observable market inputs may not be relevant or additional inputs may be necessary. The following observable market inputs (standard inputs), listed in the approximate order of priority, are utilized in the pricing evaluation of Level 2 securities: benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data including market research data. Further details for Level 2 investment types follow:

United States Government and government agencies and authorities: U.S. government and government agencies and authorities securities are priced by our pricing service utilizing standard inputs. Included in this category are U.S. Treasury securities which are priced using vendor trading platform data in addition to the standard inputs.

State, municipalities and political subdivisions: State, municipalities and political subdivisions securities are priced by our pricing service utilizing material event notices and new issue data inputs in addition to the standard inputs.

Foreign governments: Foreign government securities are primarily fixed maturity securities denominated in Canadian dollars which are priced by our pricing service utilizing standard inputs. The pricing service also evaluates each security based on relevant market information including relevant credit information, perceived market movements and sector news.

Commercial mortgage-backed, residential mortgage-backed and asset-backed: Commercial mortgage-backed, residential mortgage-backed and asset-backed securities are priced by our pricing service utilizing monthly payment information and collateral performance information in

Edgar Filing: ASSURANT INC - Form 10-Q

addition to the standard inputs. Additionally, commercial mortgage-backed securities and asset-backed securities utilize new issue data while residential mortgage-backed securities utilize vendor trading platform data.

Corporate: Corporate securities are priced by our pricing service utilizing standard inputs. Non-investment grade securities within this category are priced by our pricing service utilizing observations of equity and credit default swap curves related to the issuer in addition to the standard inputs. Certain privately placed corporate bonds are priced by a non-pricing service source using a model with observable inputs including, but not limited to, the credit rating, credit spreads, sector add-ons, and issuer specific add-ons.

Table of Contents

Assurant, Inc.

Notes to Consolidated Financial Statements (unaudited)

Three and Six Months Ended June 30, 2014 and 2013

(In thousands, except number of shares and per share amounts)

Non-redeemable preferred stocks: Non-redeemable preferred stocks are priced by our pricing service utilizing observations of equity and credit default swap curves related to the issuer in addition to the standard inputs.

Short-term investments, collateral held/pledged under securities agreements, other investments, cash equivalents, and assets/liabilities held in separate accounts: To price the fixed maturity securities in these categories, the pricing service utilizes the standard inputs.

Other liabilities: The contingent consideration liability related to a business combination is valued at the contractual amount stated in the purchase agreement plus accrued interest. The contractual amount plus interest represents the fair value and is a market observable input due to the fact the amount is specifically stated in the agreement and there is a short time frame (less than three months) for determining whether the payment will be made or not.

Valuation models used by the pricing service can change period to period, depending on the appropriate observable inputs that are available at the balance sheet date to price a security. When market observable inputs are unavailable to the pricing service, the remaining unpriced securities are submitted to independent brokers who provide non-binding broker quotes or are priced by other qualified sources. If the Company cannot corroborate the non-binding broker quotes with Level 2 inputs, these securities are categorized as Level 3 securities.

Level 3 Securities

The Company's investments classified as Level 3 as of June 30, 2014 and December 31, 2013 consisted of fixed maturity and equity securities and derivatives. All of the Level 3 fixed maturity and equity securities are priced using non-binding broker quotes which cannot be corroborated with Level 2 inputs. Of our total Level 3 fixed maturity and equity securities, \$63,286 and \$70,244 were priced by a pricing service using single broker quotes due to insufficient information to provide an evaluated price as of June 30, 2014 and December 31, 2013, respectively. The single broker quotes are provided by market makers or broker-dealers who are recognized as market participants in the markets in which they are providing the quotes. The remaining \$58,432 and \$97,219 were priced internally using independent and non-binding broker quotes as of June 30, 2014 and December 31, 2013, respectively. The inputs factoring into the broker quotes include trades in the actual bond being priced, trades of comparable bonds, quality of the issuer, optionality, structure and liquidity. Significant changes in interest rates, issuer credit, liquidity, and overall market conditions would result in a significantly lower or higher broker quote. The prices received from both the pricing service and internally are reviewed for reasonableness by management and if necessary, management works with the pricing service or broker to further understand how they developed their price. Further details on Level 3 derivative investment types follow:

Other investments and other liabilities: Swaptions are priced using a Black-Scholes pricing model incorporating third-party market data, including swap volatility data. Credit default swaps are priced using non-binding quotes provided by market makers or broker-dealers who are recognized as market participants. Inputs factored into the non-binding quotes include trades in the actual credit default swap which is being priced, trades in comparable credit default swaps, quality of the issuer, structure and liquidity. The net option related to the investment in Iké is valued using an income approach; specifically, a Monte Carlo simulation option pricing model. The inputs to the model include, but are not limited to, the projected normalized earnings before interest, tax, depreciation, and amortization (EBITDA) and free cash flow for the underlying asset, the discount rate, and the volatility of and the correlation between the normalized EBITDA and the value of the underlying asset. Significant increases (decreases) in the projected normalized EBITDA relative to the value of the underlying asset in isolation would result in a significantly higher (lower) fair value.

Other assets: A non-pricing service source prices the CPI Cap derivatives using a model with inputs including, but not limited to, the time to expiration, the notional amount, the strike price, the forward rate, implied volatility and the discount rate.

Edgar Filing: ASSURANT INC - Form 10-Q

Management evaluates the following factors in order to determine whether the market for a financial asset is inactive. The factors include, but are not limited to:

There are few recent transactions,

Little information is released publicly,

The available prices vary significantly over time or among market participants,

The prices are stale (i.e., not current), and

The magnitude of the bid-ask spread.

Table of Contents

Assurant, Inc.

Notes to Consolidated Financial Statements (unaudited)

Three and Six Months Ended June 30, 2014 and 2013

(In thousands, except number of shares and per share amounts)

Illiquidity did not have a material impact in the fair value determination of the Company's financial assets.

The Company generally obtains one price for each financial asset. The Company performs a monthly analysis to assess if the evaluated prices represent a reasonable estimate of their fair value. This process involves quantitative and qualitative analysis and is overseen by investment and accounting professionals. Examples of procedures performed include, but are not limited to, initial and on-going review of pricing service methodologies, review of the prices received from the pricing service, review of pricing statistics and trends, and comparison of prices for certain securities with two different appropriate price sources for reasonableness. Following this analysis, the Company generally uses the best estimate of fair value based upon all available inputs. On infrequent occasions, a non-pricing service source may be more familiar with the market activity for a particular security than the pricing service. In these cases the price used is taken from the non-pricing service source. The pricing service provides information to indicate which securities were priced using market observable inputs so that the Company can properly categorize our financial assets in the fair value hierarchy.

For the net option, the Company will perform a periodic analysis to assess if the evaluated price represents a reasonable estimate of the fair value for the financial liability. This process will involve quantitative and qualitative analysis overseen by finance and accounting professionals. Examples of procedures to be performed include, but are not limited to, initial and on-going review of the pricing methodology and review of the projection for the underlying asset including the probability distribution of possible scenarios.

Disclosures for Non-Financial Assets Measured at Fair Value on a Non-Recurring Basis

The Company also measures the fair value of certain assets on a non-recurring basis, generally on an annual basis, or when events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. These assets include commercial mortgage loans, goodwill and finite-lived intangible assets.

The Company utilizes both the income and market valuation approaches to measure the fair value of its reporting units when required. Under the income approach, the Company determined the fair value of the reporting units considering distributable earnings, which were estimated from operating plans. The resulting cash flows were then discounted using a market participant weighted average cost of capital estimated for the reporting units. After discounting the future discrete earnings to their present value, the Company estimated the terminal value attributable to the years beyond the discrete operating plan period. The discounted terminal value was then added to the aggregate discounted distributable earnings from the discrete operating plan period to estimate the fair value of the reporting units. Under the market approach, the Company derived the fair value of the reporting units based on various financial multiples, including but not limited to: price to tangible book value of equity, price to estimated 2014 earnings and price to estimated 2014 earnings, which were estimated based on publicly available data related to comparable guideline companies. In addition, financial multiples were also estimated from publicly available purchase price data for acquisitions of companies operating in the insurance industry. The estimated fair value of the reporting units was more heavily weighted towards the income approach because in the current economic environment the earnings capacity of a business is generally considered the most important factor in the valuation of a business enterprise. This fair value determination was categorized as Level 3 (unobservable) in the fair value hierarchy.

Fair Value of Financial Instruments Disclosures

The financial instruments guidance requires disclosure of fair value information about financial instruments, as defined therein, for which it is practicable to estimate such fair value. Therefore, it requires fair value disclosure for financial instruments that are not recognized or are not carried at fair value in the consolidated balance sheets. However, this guidance excludes certain financial instruments, including those related to insurance contracts and those accounted for under the equity method and joint ventures guidance (such as real estate joint ventures).

Edgar Filing: ASSURANT INC - Form 10-Q

For the financial instruments included within the following financial assets and financial liabilities, the carrying value in the consolidated balance sheets equals or approximates fair value. Please refer to the *Fair Value Inputs and Valuation Techniques for Financial Assets and Liabilities Disclosures* section above for more information on the financial instruments included within the following financial assets and financial liabilities and the methods and assumptions used to estimate fair value:

Cash and cash equivalents

Liabilities related to separate accounts

In estimating the fair value of the financial instruments that are not recognized or are not carried at fair value in the consolidated balance sheets, the Company used the following methods and assumptions:

Commercial mortgage loans: the fair values of mortgage loans are estimated using discounted cash flow models. The model inputs include mortgage amortization schedules and loan provisions, an internally developed credit spread based on the credit risk associated with the borrower and the U.S. Treasury spot curve. Mortgage loans with similar characteristics are aggregated for purposes of the calculations.

Policy loans: the carrying value of policy loans reported in the consolidated balance sheets approximates fair value.

Policy reserves under investment products: the fair values for the Company's policy reserves under investment products are determined using discounted cash flow analysis. Key inputs to the valuation include projections of policy cash flows, reserve run-off, market yields and risk margins.

Funds held under reinsurance: the carrying value reported approximates fair value due to the short maturity of the instruments.

Edgar Filing: ASSURANT INC - Form 10-Q

Debt: the fair value of debt is based upon matrix pricing performed by the pricing service utilizing the standard inputs.

Obligation under securities agreements: obligation under securities agreements is reported at the amount of cash received from the selected broker/dealers.

(1) Only the fair value of the Company's policy reserves for investment-type contracts (those without significant mortality or morbidity risk) is reflected in the table above.

Reinsurance Recoverables Credit Disclosures

A key credit quality indicator for reinsurance is the A.M. Best financial strength ratings of the reinsurer. The A.M. Best ratings are an independent opinion of a reinsurer's ability to meet ongoing obligations to policyholders. The A.M. Best ratings for new reinsurance agreements where there is material credit exposure are reviewed at the time of execution. The A.M. Best ratings for existing reinsurance agreements are reviewed on a periodic basis, at least annually. The A.M. Best ratings have not changed significantly since December 31, 2013.

Assurant, Inc.

Notes to Consolidated Financial Statements (unaudited)**Three and Six Months Ended June 30, 2014 and 2013****(In thousands, except number of shares and per share amounts)**

An allowance for doubtful accounts for reinsurance recoverables is recorded on the basis of periodic evaluations of balances due from reinsurers (net of collateral), reinsurer solvency, management's experience and current economic conditions. Information about the allowance for doubtful accounts for reinsurance recoverable as of June 30, 2014 is as follows:

Balance as of beginning-of-year	\$ 10,820
Provision	0
Other additions	0
Direct write-downs charged against the allowance	0
Balance as of the end-of-period	\$ 10,820

7. Debt

On March 28, 2013, the Company issued two series of senior notes with an aggregate principal amount of \$700,000 (the 2013 Senior Notes). The Company received net proceeds of \$698,093 from this transaction, which represents the principal amount less the discount before offering expenses. The discount of \$1,907 is being amortized over the life of the 2013 Senior Notes and is included as part of interest expense on the consolidated statements of operations. The first series is \$350,000 in principal amount, bears interest at 2.50% per year and is payable in a single installment due March 15, 2018 and was issued at a 0.18% discount. The second series is \$350,000 in principal amount, bears interest at 4.00% per year and is payable in a single installment due March 15, 2023 and was issued at a 0.37% discount. Interest on the 2013 Senior Notes is payable semi-annually on March 15 and September 15 of each year. The 2013 Senior Notes are unsecured obligations and rank equally with all of the Company's other senior unsecured indebtedness. The Company may redeem each series of the 2013 Senior Notes in whole or in part at any time and from time to time before their maturity at the redemption price set forth in the Indenture. The 2013 Senior Notes are registered under the Securities Act of 1933, as amended.

The interest expense incurred related to the 2013 Senior Notes was \$5,745 and \$5,743 for the three months ended June 30, 2014 and 2013, respectively, and \$11,489 and \$5,743 for the six months ended June 30, 2014 and 2013, respectively. There was \$6,635 and \$5,688 of accrued interest at June 30, 2014 and 2013, respectively. The Company made an interest payment on the 2013 Senior Notes of \$11,375 on March 15, 2014.

In February 2004, the Company issued two series of senior notes with an aggregate principal amount of \$975,000 (the 2004 Senior Notes). The Company received proceeds of \$971,537 from this transaction, which represents the principal amount less the discount before offering expenses. The discount of \$3,463 is being amortized over the life of the 2004 Senior Notes and is included as part of interest expense on the statements of operations. The first series was \$500,000 in principal amount, issued at a 0.11% discount, bore interest at 5.63% per year and was repaid on February 18, 2014. The second series is \$475,000 in principal amount, bears interest at 6.75% per year and is payable in a single installment due February 15, 2034 and was issued at a 0.61% discount. Interest on the 2004 Senior Notes is payable semi-annually on February 15 and August 15 of each year. The 2004 Senior Notes are unsecured obligations and rank equally with all of the Company's other senior unsecured indebtedness. The 2004 Senior Notes are not redeemable prior to maturity. All of the holders of the 2004 Senior Notes exchanged their notes in May 2004 for new notes registered under the Securities Act of 1933, as amended.

The interest expense incurred related to the 2004 Senior Notes was \$8,031 and \$15,003 for the three months ended June 30, 2014 and 2013, respectively, and \$19,352 and \$30,081 for the six months ended June 30, 2014 and 2013, respectively. There was \$12,023 and \$22,070 of

Edgar Filing: ASSURANT INC - Form 10-Q

accrued interest at June 30, 2014 and 2013, respectively. The Company made interest payments of \$30,094 on February 15, 2014 and 2013.

Credit Facility

The Company's commercial paper program requires the Company to maintain liquidity facilities either in an available amount equal to any outstanding notes from the commercial paper program or in an amount sufficient to maintain the ratings assigned to the notes issued from the commercial paper program. The Company's subsidiaries do not maintain commercial paper or other borrowing facilities at their level. This program is currently backed up by a \$350,000 senior revolving credit facility, of which \$345,740 was available at June 30, 2014, due to \$4,260 of outstanding letters of credit related to this program.

On September 21, 2011, the Company entered into a four-year unsecured \$350,000 revolving credit agreement (2011 Credit Facility) with a syndicate of banks arranged by JP Morgan Chase Bank, N.A. and Bank of America, N.A. The 2011 Credit Facility provides for revolving loans and the issuance of multi-bank, syndicated letters of credit and/or letters of credit from a sole issuing bank in an aggregate amount of \$350,000 and is available until September 2015, provided the Company is in compliance with all covenants. The 2011 Credit Facility has a sublimit for letters of credit issued thereunder of \$50,000. The proceeds of these loans may be used for the Company's commercial paper program or for general corporate purposes. The Company may increase the total amount available under the 2011 Credit Facility to \$525,000 subject to certain conditions. No bank is obligated to provide commitments above their share of the \$350,000 facility.

The Company did not use the commercial paper program during the six months ended June 30, 2014 and 2013 and there were no amounts outstanding relating to the commercial paper program at June 30, 2014 and December 31, 2013. The Company made no borrowings using the 2011 Credit Facility and no loans are outstanding at June 30, 2014.

The 2011 Credit Facility contains restrictive covenants and requires that the Company maintain certain specified minimum ratios and thresholds. Among others, these covenants include maintaining a maximum debt to capitalization ratio and a minimum consolidated adjusted net worth. At June 30, 2014, the Company was in compliance with all covenants, minimum ratios and thresholds.

9. Stock Based Compensation**Long-Term Equity Incentive Plan**

In May 2008, the Company's shareholders approved the Assurant, Inc. Long-Term Equity Incentive Plan (ALTEIP), which authorized the granting of up to 3,400,000 new shares of the Company's common stock to employees, officers and non-employee directors. In May 2010, the Company's shareholders approved an amended and restated ALTEIP, increasing the number of shares of the Company's common stock

Edgar Filing: ASSURANT INC - Form 10-Q

authorized for issuance to 5,300,000 new shares. Under the ALTEIP, the Company may grant awards based on shares of its common stock, including stock options, stock appreciation rights (SARs), restricted stock (including performance shares), unrestricted stock, restricted stock units (RSUs), performance share units (PSUs) and dividend equivalents. All share-based grants are awarded under the ALTEIP.

The Compensation Committee of the Board of Directors (the Compensation Committee) awards PSUs and RSUs annually. RSUs and PSUs are promises to issue actual shares of common stock at the end of a vesting period or performance period. The RSUs granted to employees under the ALTEIP were based on salary grade and performance and vest one-third each year over a three-year period. RSUs granted to non-employee directors also vest one-third each year over a three-year period, however, issuance of vested shares is deferred until separation from Board service. RSUs receive dividend equivalents in cash during the restricted period and do not have voting rights during the restricted period. PSUs accrue dividend equivalents during the performance period based on a target payout, and will be paid in cash at the end of the performance period based on the actual number of shares issued. The fair value of RSUs is estimated using the fair market value of a share of the Company s common stock at the date of grant. The fair value of PSUs is estimated using the Monte Carlo simulation model and is described in further detail below.

Table of Contents**Assurant, Inc.****Notes to Consolidated Financial Statements (unaudited)****Three and Six Months Ended June 30, 2014 and 2013****(In thousands, except number of shares and per share amounts)**

For the PSU portion of an award, the number of shares a participant will receive upon vesting is contingent upon the Company's performance with respect to selected metrics, identified below, compared against a broad index of insurance companies and assigned a percentile ranking. These rankings are then averaged to determine the composite percentile ranking for the performance period. The payout levels can vary between 0% and 150% (maximum) of the target (100%) ALTEIP award amount based on the Company's level of performance against the selected metrics.

PSU Performance Goals. The Compensation Committee established book value per share (BVPS) growth excluding AOCI, revenue growth and total stockholder return as the three performance measures for PSU awards. BVPS growth is defined as the year-over-year growth of the Company's stockholders' equity excluding AOCI divided by the number of fully diluted total shares outstanding at the end of the period. Revenue growth is defined as the year-over-year change in total revenues as disclosed in the Company's annual statement of operations. Total stockholder return is defined as appreciation in Company stock plus dividend yield to stockholders. Payouts will be determined by measuring performance against the average performance of companies included in an insurance industry market index.

Since 2009, the Company has used the A.M. Best U.S. Insurance Index to measure its relative performance ranking. In 2014, A.M. Best stopped publishing this index. As of January 1, 2014, the Company is using the S&P Total Market Index to measure the Company's performance for all new and outstanding PSU awards. Consistent with adjustments made to the A.M. Best U.S. Insurance Index, adjustments will be made to the S&P Total Market Index to exclude companies with revenues of less than \$1,000,000 or that are not in the insurance or managed healthcare Global Industry Classification Standard codes. In addition, companies within the Company's compensation peer group, but not otherwise in the S&P Total Market Index, will be included. The adjusted S&P Total Market Index is substantially similar in composition to the previous A.M. Best U.S. Insurance Index.

Under the ALTEIP, the Company's Chief Executive Officer (CEO) is authorized by the Board of Directors to grant common stock, restricted stock and RSUs to employees other than the executive officers of the Company (as defined in Section 16 of the Securities Exchange Act of 1934, as amended (the Exchange Act)). The Board of Directors reviews and ratifies these grants quarterly. Restricted stock and RSUs granted under this program may have different vesting periods.

Restricted Stock Units

RSUs granted to employees and to non-employee directors were 42,470 and 34,310 for the three months ended June 30, 2014 and 2013, respectively, and 329,339 and 466,218 for the six months ended June 30, 2014 and 2013, respectively. The compensation expense recorded related to RSUs was \$6,148 and \$6,720 for the three months ended June 30, 2014 and 2013, respectively, and \$10,977 and \$12,271 for the six months ended June 30, 2014 and 2013, respectively. The related total income tax benefit was \$2,149 and \$2,357 for the three months ended June 30, 2014 and 2013, respectively, and \$3,834 and \$4,289 for the six months ended June 30, 2014 and 2013, respectively. The weighted average grant date fair value for RSUs granted during the six months ended June 30, 2014 and 2013 was \$65.26 and \$43.94, respectively.

As of June 30, 2014, there was \$24,437 of unrecognized compensation cost related to outstanding RSUs. That cost is expected to be recognized over a weighted-average period of 1.34 years. The total fair value of RSUs vested during the three months ended June 30, 2014 and 2013 was \$2,616 and \$2,170, respectively, and \$30,824 and \$19,842 for the six months ended June 30, 2014 and 2013, respectively.

Performance Share Units

No PSUs were granted to employees during the three months ended June 30, 2014 and 2013. PSUs granted to employees were 379,174 and 408,808 for the six months ended June 30, 2014 and 2013, respectively. The compensation expense recorded related to PSUs was \$10,109 and

Edgar Filing: ASSURANT INC - Form 10-Q

\$6,907 for the three months ended June 30, 2014 and 2013, respectively, and \$13,562 and \$8,850 for the six months ended June 30, 2014 and 2013, respectively. The related total income tax benefit was \$3,534 and \$2,425 for the three months ended June 30, 2014 and 2013, respectively, and \$4,736 and \$3,093 for the six months ended June 30, 2014 and 2013, respectively. The weighted average grant date fair value for PSUs granted during the six months ended June 30, 2014 and 2013 was \$64.93 and \$44.22, respectively.

As of June 30, 2014, there was \$32,935 of unrecognized compensation cost related to outstanding PSUs. That cost is expected to be recognized over a weighted-average period of 1.05 years.

Table of Contents

Assurant, Inc.

Notes to Consolidated Financial Statements (unaudited)

Three and Six Months Ended June 30, 2014 and 2013

(In thousands, except number of shares and per share amounts)

The fair value of PSUs with market conditions was estimated on the date of grant using a Monte Carlo simulation model, which utilizes multiple variables that determine the probability of satisfying the market condition stipulated in the award. Expected volatilities for awards issued during the six months ended June 30, 2014 and 2013 were based on the historical stock prices of the Company's stock and peer insurance group. The expected term for grants issued during the six months ended June 30, 2014 and 2013 was assumed to equal the average of the vesting period of the PSUs. The risk-free rate was based on the U.S. Treasury yield curve in effect at the time of grant.

Employee Stock Purchase Plan

Under the Employee Stock Purchase Plan (ESPP), the Company is authorized to issue up to 5,000,000 new shares to employees who are participants in the ESPP. Eligible employees can purchase shares at a 10% discount applied to the lower of the closing price of the common stock on the first or last day of the offering period.

In January 2014, the Company issued 75,709 shares at a discounted price of \$46.36 for the offering period of July 1, 2013 through December 31, 2013. In January 2013, the Company issued 107,535 shares at a discounted price of \$31.23 for the offering period of July 1, 2012 through December 31, 2012.

In July 2014, the Company issued 65,867 shares at a discounted price of \$58.79 for the offering period of January 1, 2014 through June 30, 2014. In July 2013, the Company issued 110,038 shares at a discounted price of \$31.93 for the offering period of January 1, 2013 through June 30, 2013.

The compensation expense recorded related to the ESPP was \$292 and \$249 for the three months ended June 30, 2014 and 2013, respectively, and \$585 and \$499 for the six months ended 2014 and 2013, respectively.

The fair value of each award under the ESPP was estimated at the beginning of each offering period using the Black-Scholes option-pricing model. Expected volatilities are based on implied volatilities from traded options on the Company's stock and the historical volatility of the Company's stock. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant. The dividend yield is based on the current annualized dividend and share price as of the grant date.

10. Stock Repurchase

The following table shows the shares repurchased during the periods indicated:

Period in 2014	Number of Shares Repurchased	Average Price Paid Per Share	Total Number of Shares Repurchased as Part of Publicly Announced Programs
January	314,600	\$ 66.56	314,600
February	0	0.00	0
March	0	0.00	0

Edgar Filing: ASSURANT INC - Form 10-Q

April	302,000	65.54	302,000
May	292,000	67.22	292,000
June	283,000	67.68	283,000
Total	1,191,600	\$ 66.73	1,191,600

On November 18, 2013, the Company's Board of Directors authorized the Company to repurchase up to an additional \$600,000 of its outstanding common stock, making the total remaining under the total repurchase authorization \$752,436 as of that date.

Notes to Consolidated Financial Statements (unaudited)

Three and Six Months Ended June 30, 2014 and 2013

(In thousands, except number of shares and per share amounts)

As of December 31, 2013, there was \$704,874 remaining under the total repurchase authorization. During the six months ended June 30, 2014, the Company repurchased 1,191,600 shares of the Company's outstanding common stock at a cost of \$79,490, exclusive of commissions, leaving \$625,384 remaining under the total repurchase authorization at June 30, 2014.

11. Earnings Per Common Share

The following table presents net income, the weighted average common shares used in calculating basic earnings per common share (EPS) and those used in calculating diluted EPS for each period presented below.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Numerator				
Net income	\$ 143,610	\$ 133,523	\$ 280,855	\$ 251,303
Deduct dividends paid	(20,753)	(20,155)	(38,933)	(36,944)
Undistributed earnings	\$ 122,857	\$ 113,368	\$ 241,922	\$ 214,359
Denominator				
Weighted average shares outstanding used in basic earnings per share	72,659,590	77,508,062	72,753,651	78,739,478
Incremental common shares from:				
SARs	0	85,461	0	80,625
PSUs	824,901	667,343	922,048	744,743
ESPPs	59,700	105,249	59,700	105,249
Weighted average shares used in diluted earnings per share calculations	73,544,191	78,366,115	73,735,399	79,670,095
Earnings per common share - Basic				
Distributed earnings	\$ 0.27	\$ 0.25	\$ 0.52	\$ 0.46
Undistributed earnings	1.71	1.47	3.34	2.73
Net income	\$ 1.98	\$ 1.72	\$ 3.86	\$ 3.19

Earnings per common share - Diluted

Edgar Filing: ASSURANT INC - Form 10-Q

Distributed earnings	\$	0.27	\$	0.25	\$	0.52	\$	0.46
Undistributed earnings		1.68		1.45		3.29		2.69
Net income	\$	1.95	\$	1.70	\$	3.81	\$	3.15

There were no anti-dilutive SARs or PSUs outstanding that were not included in the computation of diluted EPS under the treasury stock method during the three and six months ended June 30, 2014 and 2013.

12. Retirement and Other Employee Benefits

The components of net periodic benefit cost for the Company's qualified pension benefits plan, nonqualified pension benefits plan and retirement health benefits plan for the three and six months ended June 30, 2014 and 2013 were as follows:

	Qualified Pension Benefits		Nonqualified Pension Benefits (1)		Retirement Health Benefits	
	For the Three Months Ended June 30, 2014	For the Three Months Ended June 30, 2013	For the Three Months Ended June 30, 2014	For the Three Months Ended June 30, 2013	For the Three Months Ended June 30, 2014	For the Three Months Ended June 30, 2013
Service cost	\$ 8,200	\$ 9,300	\$ 1,000	\$ 1,150	\$ 600	\$ 850
Interest cost	9,150	7,575	1,500	1,200	975	825
Expected return on plan assets	(12,350)	(11,075)	0	0	(775)	(700)
Amortization of prior service cost	0	0	200	175	(225)	(225)
Amortization of net loss (gain)	2,275	6,825	925	1,600	(50)	0
Net periodic benefit cost	\$ 7,275	\$ 12,625	\$ 3,625	\$ 4,125	\$ 525	\$ 750

	Qualified Pension Benefits		Nonqualified Pension Benefits (1)		Retirement Health Benefits	
	For the Six Months Ended June 30, 2014	For the Six Months Ended June 30, 2013	For the Six Months Ended June 30, 2014	For the Six Months Ended June 30, 2013	For the Six Months Ended June 30, 2014	For the Six Months Ended June 30, 2013
Service cost	\$ 16,400	\$ 18,600	\$ 2,000	\$ 2,300	\$ 1,200	\$ 1,700
Interest cost	18,300	15,150	3,000	2,400	1,950	1,650
Expected return on plan assets	(24,700)	(22,150)	0	0	(1,550)	(1,400)
Amortization of prior service cost	0	0	400	350	(450)	(450)
Amortization of net loss (gain)	4,550	13,650	1,850	3,200	(100)	0
Net periodic benefit cost	\$ 14,550	\$ 25,250	\$ 7,250	\$ 8,250	\$ 1,050	\$ 1,500

Edgar Filing: ASSURANT INC - Form 10-Q

(1) The Company's nonqualified plan is unfunded.

Our qualified pension benefits plan (the Plan) was under-funded by \$6,429 and over-funded by \$18,078 (based on the fair value of Plan assets compared to the projected benefit obligation) at June 30, 2014 and December 31, 2013, respectively. This equates to a 99% and 102% funded status at June 30, 2014 and December 31, 2013, respectively. The change in funded status is mainly due to a decrease in the discount rate used to determine the projected benefit obligation. During the first six months of 2014, \$15,000 in cash was contributed to the Plan. Additional cash, up to \$15,000, is expected to be contributed to the Plan over the remainder of 2014.

13. Segment Information

The Company has five reportable segments, which are defined based on the nature of the products and services offered: Assurant Solutions, Assurant Specialty Property, Assurant Health, Assurant Employee Benefits, and Corporate & Other. Assurant Solutions provides mobile device protection, debt protection administration, credit-related insurance, warranties and service contracts and pre-funded funeral insurance. Assurant Specialty Property provides lender-placed homeowners insurance, renters insurance and related products and manufactured housing homeowners insurance. Assurant Health provides individual health and small employer group health insurance. Assurant Employee Benefits primarily provides group dental insurance, group disability insurance and group life insurance. Corporate & Other includes activities of the holding company, financing and interest expenses, net realized gains (losses) on investments and interest income earned from short-term investments held. Corporate & Other also includes the amortization of deferred gains associated with the sales of Fortis Financial Group and Long-Term Care through reinsurance agreements.

The Company evaluates performance of the operating segments based on segment income (loss) after-tax excluding realized gains (losses) on investments. The Company determines reportable segments in a manner consistent with the way the Chief Operating Decision Maker makes operating decisions and assesses performance.

The following tables summarize selected financial information by segment:

	Three Months Ended June 30, 2014					Consolidated
	Solutions	Specialty Property	Health	Employee Benefits	Corporate & Other	
Revenues
