1. ORGANIZATION

References herein to Blackstone Mortgage Trust, Company, we, us or our refer to Blackstone Mortgage Trust, Inc. and its subsidiaries unless the context specifically requires otherwise.

Blackstone Mortgage Trust is a real estate finance company that primarily originates and purchases senior loans collateralized by properties in North America and Europe. We are externally managed by BXMT Advisors L.L.C., or our Manager, a subsidiary of The Blackstone Group L.P., or Blackstone, and are a real estate investment trust, or REIT, traded on the New York Stock Exchange, or NYSE, under the symbol BXMT. We are headquartered in New York City.

We conduct our operations as a REIT for U.S. federal income tax purposes. We generally will not be subject to U.S. federal income taxes on our taxable income to the extent that we annually distribute all of our net taxable income to stockholders and maintain our qualification as a REIT. We also operate our business in a manner that permits us to maintain our exemption from registration under the Investment Company Act of 1940, as amended, or the Investment Company Act. We are organized as a holding company and conduct our business primarily through our various subsidiaries. Our business is organized into two operating segments: the Loan Origination segment and the CT Legacy Portfolio segment.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, or GAAP, for interim financial information and the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. The consolidated financial statements, including the notes, are unaudited and exclude some of the disclosures required in audited financial statements. Management believes it has made all necessary adjustments, consisting of only normal recurring items, so that the consolidated financial statements are presented fairly and that estimates made in preparing its consolidated financial statements are reasonable and prudent. The operating results presented for interim periods are not necessarily indicative of the results that may be expected for any other interim period or for the entire year. The accompanying unaudited consolidated interim financial statements should be read in conjunction with the audited consolidated financial statements and the related management's discussion and analysis of financial condition and results of operations included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2013 filed with the Securities and Exchange Commission.

Basis of Presentation

The accompanying consolidated financial statements have been prepared in accordance with GAAP and include, on a consolidated basis, our accounts, the accounts of our wholly-owned subsidiaries, majority-owned subsidiaries, and variable interest entities, or VIEs, of which we are the primary beneficiary. All intercompany balances and transactions have been eliminated in consolidation. Certain of the assets and credit of our consolidated subsidiaries are not available to satisfy the debt or other obligations of us, our affiliates, or other entities.

Our subsidiary, CT Legacy Partners, LLC, or CT Legacy Partners, accounts for its operations in accordance with industry-specific GAAP accounting guidance for investment companies, pursuant to which it reports its investments at fair value. We have retained this accounting treatment in consolidation and, accordingly, report the loans and other investments of CT Legacy Partners at fair value on our consolidated balance sheets.

Certain reclassifications have been made in the presentation of the prior period consolidated financial statements to conform to the current presentation including reclassifying loans receivable, at fair value, into accrued interest receivable, prepaid expenses, and other assets and reclassifying securitized debt obligations into accounts payable, accrued expenses, and other liabilities.

Principles of Consolidation

We consolidate all entities that we control through either majority ownership or voting rights. In addition, we consolidate all VIEs of which we are considered the primary beneficiary. VIEs are defined as entities in which equity investors (i) do not have the characteristics of a controlling financial interest and/or (ii) do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. The entity that consolidates a VIE is known as its primary beneficiary and is generally the entity with (i) the power to direct the activities that most significantly affect the VIE's economic performance and (ii) the right to receive benefits from the VIE or the obligation to absorb losses of the VIE that could be significant to the VIE.

Table of Contents

Blackstone Mortgage Trust, Inc.

Notes to Consolidated Financial Statements (continued)

(Unaudited)

Certain assets of consolidated VIEs can only be used to satisfy the obligations of those VIEs. The liabilities of consolidated VIEs are non-recourse to us. As of September 30, 2014, our consolidated balance sheet included \$28.9 million of other assets, and \$20.0 million of other liabilities that were attributable to consolidated VIEs. As of December 31, 2013, our consolidated balance sheet included \$49.8 million of other assets, and \$40.2 million of other liabilities, that were attributable to consolidated VIEs. As of both September 30, 2014 and December 31, 2013, all assets and liabilities of consolidated VIEs were part of our CT Legacy Portfolio segment.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may ultimately differ from those estimates.

Revenue Recognition

Interest income from our loans receivable is recognized over the life of each investment using the effective interest method and is recorded on the accrual basis. Recognition of fees, premiums, discounts, and direct costs associated with these investments is deferred until the loan is advanced and is then recorded over the term of the loan as an adjustment to yield. Income accrual is generally suspended for loans at the earlier of the date at which payments become 90 days past due or when, in the opinion of our Manager, recovery of income and principal becomes doubtful. Income is then recorded on the basis of cash received until accrual is resumed when the loan becomes contractually current and performance is demonstrated to be resumed.

Cash and Cash Equivalents

Cash and cash equivalents represent cash held in banks, cash on hand, and liquid investments with original maturities of three months or less. We may have bank balances in excess of federally insured amounts; however, we deposit our cash and cash equivalents with high credit-quality institutions to minimize credit risk exposure. We have not experienced, and do not expect, any losses on our cash or cash equivalents.

Restricted Cash

We classify the cash balances held by CT Legacy Partners as restricted because, while these cash balances are available for use by CT Legacy Partners for its operations, they cannot be used by us until our allocable share is distributed from CT Legacy Partners and cannot be commingled with any of our unrestricted cash balances.

Loans Receivable and Provision for Loan Losses

We originate and purchase commercial real estate debt and related instruments generally to be held as long-term investments at amortized cost. We are required to periodically evaluate each of these loans for possible impairment. Impairment is indicated when it is deemed probable that we will not be able to collect all amounts due to us pursuant to the contractual terms of the loan. If a loan is determined to be impaired, we write down the loan through a charge to the provision for loan losses. Impairment of these loans, which are collateral dependent, is measured by comparing the estimated fair value of the underlying collateral to the book value of the respective loan. These valuations require significant judgments, which include assumptions regarding capitalization rates, leasing, creditworthiness of major tenants, occupancy rates, availability of financing, exit plan, loan sponsorship, actions of other lenders, and other factors deemed necessary by our Manager. Actual losses, if any, could ultimately differ from these estimates.

Our Manager performs a quarterly review of our portfolio of loans. In conjunction with this review, our Manager assesses the performance of each loan, and assigns a risk rating based on several factors, including risk of loss, loan-to-value ratio, or LTV, collateral performance, structure, exit plan, and sponsorship.

Table of Contents

Blackstone Mortgage Trust, Inc.

Notes to Consolidated Financial Statements (continued)

(Unaudited)

Loans are rated 1 through 8, from less risk to greater risk, which ratings are defined as follows:

- 1 - Low Risk: A loan that is expected to perform through maturity, with relatively lower LTV, higher in-place debt yield, and stable projected cash flow.
- 2 - Average Risk: A loan that is expected to perform through maturity, with medium LTV, average in-place debt yield, and stable projected cash flow.
- 3 - Acceptable Risk: A loan that is expected to perform through maturity, with relatively higher LTV, acceptable in-place debt yield, and some uncertainty (due to lease rollover or other factors) in projected cash flow.
- 4 - Higher Risk: A loan that is expected to perform through maturity, but has exhibited a material deterioration in cash flow and/or other credit factors. If negative trends continue, default could occur.
- 5 - Low Probability of Default/Loss: A loan with one or more identified weaknesses that we expect to have a 15% probability of default or principal loss.
- 6 - Medium Probability of Default/Loss: A loan with one or more identified weaknesses that we expect to have a 33% probability of default or principal loss.
- 7 - High Probability of Default/Loss: A loan with one or more identified weaknesses that we expect to have a 67% or higher probability of default or principal loss.
- 8 - In Default: A loan which is in contractual default and/or that has a very high likelihood of principal loss.

Loans Held-for-Sale and Related Allowance

In certain cases, we may classify loans as held-for-sale based upon the specific facts and circumstances of particular loans, including known or expected transactions. Loans held-for-sale are carried at the lower of their amortized cost basis or fair value, less costs to sell. A reduction in the fair value of loans held-for-sale is recorded as a charge to our

consolidated statements of operations as a valuation allowance on loans held-for-sale.

Equity Investments in Unconsolidated Subsidiaries

Our carried interest in CT Opportunity Partners I, LP, or CTOPI, is accounted for using the equity method. CTOPI's assets and liabilities are not consolidated into our financial statements due to our determination that (i) it is not a VIE and (ii) the other investors in CTOPI have sufficient rights to preclude consolidation by us. As such, we report our allocable percentage of the net assets of CTOPI on our consolidated balance sheets. The recognition of income from CTOPI is generally deferred until cash is collected or appropriate contingencies have been eliminated.

Repurchase Agreements

We record investments financed with repurchase agreements as separate assets and the related borrowings under any repurchase agreements are recorded as separate liabilities on our consolidated balance sheets. Interest income earned on the investments and interest expense incurred on the repurchase agreements are reported separately on our consolidated statements of operations.

Loan Participations Sold

Loan participations sold represent senior interests in certain loans that we sold, however we present these loan participations sold as liabilities because these arrangements do not qualify as sales under GAAP. These participations are non-recourse and remain on our consolidated balance sheet until the loan is repaid. The gross presentation of loan participations sold does not impact stockholders' equity or net income.

Notes to Consolidated Financial Statements (continued)

(Unaudited)

Convertible Notes

The Debt with Conversion and Other Options Topic of the Financial Accounting Standards Board, or FASB, Accounting Standards Codification, or Codification, requires the liability and equity components of convertible debt instruments that may be settled in cash upon conversion, including partial cash settlement, to be separately accounted for in a manner that reflects the issuer's nonconvertible debt borrowing rate. The initial proceeds from the sale of convertible notes are allocated between a liability component and an equity component in a manner that reflects interest expense at the rate of similar nonconvertible debt that could have been issued at such time. The equity component represents the excess initial proceeds received over the fair value of the liability component of the notes as of the date of issuance. We measured the fair value of the debt component of our convertible notes as of the issuance date based on our nonconvertible debt borrowing rate. The equity component of the convertible notes is reflected within additional paid-in capital on our consolidated balance sheet, and the resulting debt discount is amortized over the period during which the convertible notes are expected to be outstanding (the maturity date) as additional non-cash interest expense. The additional non-cash interest expense attributable to the convertible notes will increase in subsequent periods through the maturity date as the notes accrete to their par value over the same period.

Deferred Financing Costs

The deferred financing costs that are included in accrued interest receivable, prepaid expenses, and other assets on our consolidated balance sheets include issuance and other costs related to our debt obligations. These costs are amortized as interest expense using the effective interest method over the life of the related obligations.

Fair Value of Financial Instruments

The Fair Value Measurements and Disclosures Topic of the Codification defines fair value, establishes a framework for measuring fair value, and requires certain disclosures about fair value measurements under GAAP. Specifically, this guidance defines fair value based on exit price, or the price that would be received upon the sale of an asset or the transfer of a liability in an orderly transaction between market participants at the measurement date.

The Fair Value Measurement and Disclosures Topic of the Codification also establishes a fair value hierarchy that prioritizes and ranks the level of market price observability used in measuring financial instruments. Market price observability is affected by a number of factors, including the type of financial instrument, the characteristics specific to the financial instrument, and the state of the marketplace, including the existence and transparency of transactions between market participants. Financial instruments with readily available quoted prices in active markets generally will have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value.

Financial instruments measured and reported at fair value are classified and disclosed based on the observability of inputs used in the determination, as follows:

Level 1: Generally includes only unadjusted quoted prices that are available in active markets for identical financial instruments as of the reporting date.

Level 2: Pricing inputs include quoted prices in active markets for similar instruments, quoted prices in less active or inactive markets for identical or similar instruments where multiple price quotes can be obtained, and other observable inputs, such as interest rates, yield curves, credit risks, and default rates.

Level 3: Pricing inputs are unobservable for the financial instruments and include situations where there is little, if any, market activity for the financial instrument. These inputs require significant judgment or estimation by management of third parties when determining fair value and generally represent anything that does not meet the criteria of Levels 1 and 2.

The value of each asset recorded at fair value using Level 3 inputs is determined by an internal committee composed of members of senior management of our Manager, including our Chief Executive Officer, Chief Financial Officer, and other senior officers.

Certain of our other assets are recorded at fair value either (i) on a recurring basis, as of each quarter-end, or (ii) on a nonrecurring basis, as a result of impairment or other events. Our assets that are recorded at fair value are discussed further in Note 12. We generally value our assets recorded at fair value by either (i) discounting expected cash flows based on assumptions regarding the collection of principal and interest and estimated market rates, or (ii) obtaining

assessments from third-party dealers. For collateral dependent loans that are identified as impaired, we measure impairment by comparing our Manager's estimation of fair value of the underlying collateral, less costs to sell, to the book value of the respective loan. These valuations may require significant judgments, which include assumptions regarding capitalization rates, leasing, creditworthiness of major tenants, occupancy rates, availability of financing, exit plan, loan sponsorship, actions of other lenders, and other factors deemed necessary by our Manager.

We are also required by GAAP to disclose fair value information about financial instruments, which are not otherwise reported at fair value in our consolidated balance sheet, to the extent it is practicable to estimate a fair value for those instruments. These disclosure requirements exclude certain financial instruments and all non-financial instruments.

The following methods and assumptions are used to estimate the fair value of each class of financial instruments, for which it is practicable to estimate that value:

Cash and cash equivalents: The carrying amount of cash on deposit and in money market funds approximates fair value.

Restricted cash: The carrying amount of restricted cash approximates fair value.

Loans receivable, net: The fair values for these loans were estimated by our Manager taking into consideration factors, including capitalization rates, leasing, occupancy rates, availability and cost of financing, exit plan, sponsorship, actions of other lenders, and indications of market value from other market participants. In the case of impaired loans receivable, fair value was determined based on the lower of amortized cost and the value of the underlying real estate collateral.

Repurchase obligations: The fair value was estimated based on the rate at which a similar credit facility would have currently priced.

Convertible notes, net: The convertible notes are actively traded and their fair values were obtained using quoted market prices based on recent transactions.

Participations sold: These obligations are recorded at their face value and not at fair value. The fair value was estimated based on the value of the related loan receivable asset.

Income Taxes

Our financial results generally do not reflect provisions for current or deferred income taxes on our REIT taxable income. We believe that we operate in a manner that will continue to allow us to be taxed as a REIT and, as a result, we generally do not expect to pay substantial corporate level taxes other than those payable by our taxable REIT subsidiaries. If we were to fail to meet these requirements, we may be subject to federal, state, and local income tax on current and past income, and penalties. Refer to Note 10 for additional information.

Accounting for Stock-Based Compensation

Our stock-based compensation consists of awards issued to our Manager and certain of its employees that vest over the life of the awards as well as deferred stock units issued to certain members of our Board of Directors. Stock-based compensation expense is recognized for these awards in net income on a variable basis over the applicable vesting period of the awards, based on the value of our class A common stock. Refer to Note 11 for additional information.

Earnings per Share

Basic earnings per share, or Basic EPS, is computed in accordance with the two-class method and is based on the net earnings allocable to our class A common stock, restricted class A common stock, and deferred stock units, divided by the weighted-average number of shares of class A common stock, restricted class A common stock, and deferred stock units outstanding during the period. Our restricted class A common stock is considered a participating security, as defined by GAAP, and has been included in our Basic EPS under the two-class method as these restricted shares have the same rights as our other shares of class A common stock, including participating in any gains or losses.

Diluted earnings per share, or Diluted EPS, is determined using the treasury stock method, and is based on the net earnings allocable to our class A common stock, restricted class A common stock, and deferred stock units, divided by the weighted-average number of shares of class A common stock, restricted class A common stock, and deferred stock units. Refer to Note 8 for additional discussion of earnings per share.

Foreign Currency

In the normal course of business, we enter into transactions not denominated in United States, or U.S., dollars. Foreign exchange gains and losses arising on such transactions are recorded as a gain or loss in our consolidated statements of operations. In addition, we consolidate entities that have a non-U.S. dollar functional currency. Non-U.S. dollar denominated assets and liabilities are translated to U.S. dollars at the exchange rate prevailing at the reporting date and income, expenses, gains, and losses are translated at the prevailing exchange rate on the dates that they were recorded. Cumulative translation adjustments arising from the translation of non-U.S. dollar denominated subsidiaries are recorded in other comprehensive income.

Segment Reporting

We operate our real estate finance business through a Loan Origination segment and a CT Legacy Portfolio segment. The Loan Origination segment includes our activities associated with the origination and acquisition of mortgage loans, the capitalization of our loan portfolio, and the costs associated with operating our business generally. The CT Legacy Portfolio segment includes our activities specifically related to CT Legacy Partners, CT CDO I, a securitization vehicle formed in 2004, and our equity investment in CTOPI. Our Manager makes operating decisions and assesses the performance of each of our business segments based on financial and operating data and metrics generated from our internal information systems.

Recent Accounting Pronouncements

In June 2013, the FASB issued ASU 2013-08, Financial Services-Investment Companies (Topic 946): Amendments to the Scope, Measurement, and Disclosure Requirements, or ASU 2013-08. ASU 2013-08 amends the criteria for qualification as an investment company under Topic 946 of the FASB Accounting Standards Codification, or Topic 946, and requires additional disclosure by investment companies. ASU 2013-08 is effective for the first interim or annual period beginning after December 15, 2013, and is to be applied prospectively. We currently consolidate CT Legacy Partners, which accounts for its operations as an investment company under Topic 946. Our adoption of ASU 2013-08 on January 1, 2014 did not impact CT Legacy Partners' status as an investment company. Further, because ASU 2013-08 specifically excluded REITs from its scope, it did not otherwise impact our consolidated financial statements.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606), or ASU 2014-09. ASU 2014-09 broadly amends the accounting guidance for revenue recognition. ASU 2013-08 is effective for the first interim or annual period beginning after December 15, 2016, and is to be applied prospectively. We do not anticipate

that the adoption of ASU 2014-09 will have a material impact on our consolidated financial statements.

In June 2014, the FASB issued ASU 2014-11, Transfers and Servicing (Topic 860): Repurchase-to-Maturity Transactions, Repurchase Financings, and Disclosures, or ASU 2014-11. ASU 2014-11 amends the accounting guidance for repurchase-to-maturity transactions and repurchase agreements executed as repurchase financings, and requires additional disclosure about certain transactions by the transferor. ASU 2014-11 is effective for certain transactions that qualify for sales treatment for the first interim or annual period beginning after December 15, 2014. The new disclosure requirements for repurchase agreements, securities lending transactions and repurchase-to-maturity transactions that qualify for secured borrowing treatment is effective for annual periods beginning after December 15, 2014 and for interim periods beginning after March 15, 2015. We currently record our repurchase arrangements as secured borrowings and do not anticipate that ASU 2014-11 will have a material impact on our consolidated financial statements.

In August 2014, the FASB issued ASU 2014-15, Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern, or ASU 2014-15. ASU 2014-15 introduces an explicit requirement for management to assess and provide certain disclosures if there is substantial doubt about an entity's ability to continue as a going concern. ASU 2014-15 is effective for the annual period ending after December 15, 2016. We do not anticipate that the adoption of ASU 2014-15 will have a material impact on our consolidated financial statements.

Weighted-average all-in yield ⁽²⁾	L+4.97%	L+5.26%
Weighted-average maximum maturity (years) ⁽³⁾	3.9	4.1

(1) Unfunded commitments will primarily be funded to finance property improvements or lease-related expenditures by the borrowers. These future commitments will expire over the next five years.

(2) As of September 30, 2014, 83% of our loans are indexed to one-month USD LIBOR, 13% are indexed to three-month GBP LIBOR, and 4% referencing other floating rate indices. In addition, 17% of our loans currently earn interest based on LIBOR floors, with an average floor of 0.30%, as of September 30, 2014. In addition to

cash coupon, all-in yield includes the amortization of deferred origination fees, loan origination costs, and accrual of exit fees.

- (3) Maximum maturity assumes all extension options are exercised, however our loans may be repaid prior to such date. As of September 30, 2014, 88% of our loans are subject to yield maintenance, lock-out provisions, or other prepayment restrictions and 12% are open to repayment by the borrower.

Loan Risk Ratings

As described in Note 2, our Manager evaluates our loan portfolio on a quarterly basis. In conjunction with our quarterly loan portfolio review, our Manager assesses the performance of each loan, and assigns a risk rating based on several factors. One of the primary factors considered is how senior or junior each loan is relative to other debt obligations of the borrower. Additional factors considered in the assessment include risk of loss, current LTV, collateral performance, structure, exit plan, and sponsorship. Loans are rated 1 (less risk) through 8 (greater risk), which ratings are defined in Note 2.

Loan Impairments and Nonaccrual Loans

We do not have any loan impairments, nonaccrual loans, or loans in maturity default as of September 30, 2014. We did not have any material interest receivable accrued on nonperforming loans as of September 30, 2014 or December 31, 2013. As of December 31, 2013, CT CDO I, which is a component of our CT Legacy Portfolio segment, had one impaired subordinate interest in a mortgage loan with a gross book value of \$10.5 million that was delinquent on its contractual payments. As of December 31, 2013, this loan was on nonaccrual status and we had recorded a 100% loan loss reserve on this loan. This loan was subsequently written-off resulting in a loan loss reserve of zero as of September 30, 2014. As of December 31, 2013, CT CDO I had one loan with a net book value of \$27.0 million in maturity default, but which had no reserve recorded due to our expectation of future repayment. In June 2014, this loan was restructured and reclassified to other assets.

Table of Contents**Blackstone Mortgage Trust, Inc.****Notes to Consolidated Financial Statements (continued)****(Unaudited)****5. EQUITY INVESTMENTS IN UNCONSOLIDATED SUBSIDIARIES**

As of September 30, 2014, our equity investments in unconsolidated subsidiaries consisted solely of our carried interest in CTOPI, a fund sponsored and managed by an affiliate of our Manager. Activity relating to our equity investments in unconsolidated subsidiaries was (\$ in thousands):

	CTOPI Carried Interest
Total as of December 31, 2013	\$ 22,480
Distributions	(14,125)
Deferred income allocation ⁽¹⁾	6,635
Total as of September 30, 2014	\$ 14,990

(1) In instances where we have not received cash or all appropriate contingencies have not been eliminated, we have deferred the recognition of promote revenue allocated to us from CTOPI in respect of our carried interest in CTOPI, and recorded an offsetting liability as a component of accounts payable, accrued expenses, and other liabilities on our consolidated balance sheets.

Our carried interest in CTOPI entitles us to earn promote revenue in an amount equal to 17.7% of the fund's profits, after a 9% preferred return and 100% return of capital to the CTOPI partners. As of September 30, 2014, we had been allocated \$15.0 million of promote revenue from CTOPI based on a hypothetical liquidation of the fund at its net asset value. Accordingly, we have recognized this allocation as an equity investment in CTOPI on our consolidated balance sheets. Generally, we defer recognition of income from CTOPI until cash is received and appropriate contingencies have been eliminated. During the nine months ended September 30, 2014, we received a \$14.1 million distribution from CTOPI in respect of our carried interest and recorded such amount as income in our consolidated statement of operations. In addition, we had previously recorded, but deferred recognition of, \$10.2 million of advance distributions in respect of our carried interest to allow us to pay any taxes owed on phantom taxable income allocated to us from the partnership. We recognized \$24.3 million of distributions as income during the nine months ended September 30, 2014 as all fund-level contingencies had been satisfied.

CTOPI Incentive Management Fee Grants

In January 2011, we created a management compensation pool for employees equal to 45% of the CTOPI promote distributions received by us. As of September 30, 2014, we had granted 96% of the pool, and the remainder was unallocated. If any awards remain unallocated at the time promote distributions are received by us, any amounts otherwise payable to the unallocated awards will be distributed pro rata to the plan participants then employed by an

affiliate of our Manager.

Approximately 65% of these grants have the following vesting schedule: (i) one-third on the date of grant; (ii) one-third on September 13, 2012; and (iii) the remainder is contingent on continued employment with an affiliate of our Manager and upon our receipt of promote distributions from CTOPI. Of the remaining 35% of these grants, 31% are fully vested as a result of an acceleration event, and 4% vest solely upon our receipt of promote distributions from CTOPI or the disposition of certain investments owned by CTOPI.

During the nine months ended September 30, 2014, we made payments of \$11.2 million under the CTOPI incentive plan, which amount was recognized as a component of general and administrative expenses in our consolidated statement of operations.

6. SECURED FINANCINGS

As of September 30, 2014, our secured financings included revolving repurchase facilities, asset-specific financings, and senior loan participations sold. During the nine months ended September 30, 2014, we entered into three revolving repurchase facilities, one asset-specific repurchase agreement, and sold two senior loan participations, providing an additional \$2.0 billion of credit capacity.

- (1) Maximum facility size represents the total amount of borrowings provided for in each repurchase agreement, however these borrowings are only available to us once sufficient collateral assets have been pledged under each facility.
- (2) Represents the principal balance of the collateral assets.
- (3) Potential borrowings represent the total amount we could draw under each facility based on collateral already approved and pledged. When undrawn, these amounts are immediately available to us at our sole discretion under the terms of each revolving credit facility.
- (4) The JP Morgan maximum facility size is composed of a \$250.0 million facility and a £153.0 million (\$248.5 million) facility.
- (5) The Morgan Stanley maximum facility size represents a £250.0 million (\$406.0 million) facility.

The weighted-average outstanding balance of our revolving repurchase facilities was \$1.6 billion and \$1.2 billion for the three and nine months ended September 30, 2014, respectively. As of September 30, 2014, we had aggregate borrowings of \$1.7 billion outstanding under our revolving repurchase facilities, with a weighted-average cash coupon of LIBOR plus 1.90% per annum and a weighted-average all-in cost of credit, including associated fees and expenses, of LIBOR plus 2.14% per annum. As of September 30, 2014, outstanding borrowings under these facilities had a weighted-average maturity, excluding extension options and term-out provisions, of 2.1 years. Borrowings under each

facility are subject to the initial approval of eligible collateral loans by the lender and the maximum advance rate and pricing rate of individual advances are determined with reference to the attributes of the respective collateral loan.

- (2) Represents weighted-average cash coupon on borrowings outstanding as of September 30, 2014. As of September 30, 2014, 91% of our revolving repurchase agreements are indexed to one-month USD LIBOR, 7% are indexed to three-month GBP LIBOR, and 2% referencing other floating rate indices.
- (3) Other than amounts guaranteed based on specific collateral asset types, borrowings under our revolving repurchase facilities are not recourse to us.
- (4) Margin call provisions under our revolving repurchase facilities do not permit valuation adjustments based on capital markets activity, and are limited to collateral-specific credit marks.
- (5) Includes two one-year extension options which may be exercised at our sole discretion.
- (6) These revolving repurchase facilities have various availability periods during which new advances can be made and which are generally subject to each lender's discretion. Maturity dates for advances outstanding are tied to the term of each respective collateral asset.
- (7) Borrowings denominated in British pound sterling under this facility mature on December 30, 2016.
- (8) Includes five one-year extension options which may be exercised at our sole discretion.

The weighted-average outstanding asset-specific balance was \$256.9 million and \$251.7 million for the three and nine months ended September 30, 2014, respectively.

Debt Covenants

Each of the guarantees related to our revolving repurchase facilities and asset-specific repurchase agreements contain the following uniform financial covenants: (i) our ratio of earnings before interest, taxes, depreciation, and amortization, or EBITDA, to fixed charges shall be not less than 1.40 to 1.0; (ii) our tangible net worth, as defined in the agreements, shall not be less than \$1.1 billion as of September 30, 2014 plus 75% of the net cash proceeds of future equity issuances subsequent to September 30, 2014; (iii) cash liquidity shall not be less than the greater of (x) \$10.0 million or (y) 5% of our recourse indebtedness; and (iv) our indebtedness shall not exceed 83.33% of our total assets. As of September 30, 2014 and December 31, 2013, we were in compliance with these covenants.

Loan Participations Sold

Loan participations sold represent senior interests in certain loans that we sold, however we present these participations sold as liabilities because these arrangements do not qualify as sales under GAAP. These participations are non-recourse and remain on our consolidated balance sheet until the loan is repaid. The gross presentation of loan participations sold does not impact stockholders' equity or net income.

The following table details overall statistics for our loan participations sold (\$ in thousands):

	September 30, 2014		December 31, 2013

Weighted-average all-in yield / cost ⁽¹⁾	L+3.22%	L+5.81%	L+5.26%	L+9.25%

(1) As of September 30, 2014, 40% of our participations sold are indexed to one-month LIBOR and 60% are indexed to three-month LIBOR. In addition to cash coupon, all-in yield / cost includes the amortization of deferred origination fees / financing costs.

7. CONVERTIBLE NOTES, NET

In November 2013, we issued \$172.5 million of 5.25% convertible senior notes due on December 1, 2018, or Convertible Notes. The Convertible Notes issuance costs are amortized through interest expense over the life of the Convertible Notes using the effective interest method. Including this amortization, our all-in cost of the Convertible Notes is 5.87% per annum. As of September 30, 2014, the Convertible Notes were carried on our consolidated balance sheet at \$161.3 million, net of an unamortized discount of \$7.8 million.

The Convertible Notes are convertible at the holders' option into shares of our class A common stock, only under specific circumstances, prior to the close of business on August 31, 2018, at the applicable conversion rate in effect on the conversion date. Thereafter, the Convertible Notes are convertible at the option of the holder at any time until the second scheduled trading day immediately preceding the maturity date. The Convertible Notes were not convertible as of September 30, 2014. The conversion rate was initially set to equal 34.8943 shares of class A common stock per \$1,000 principal amount of Convertible Notes, which is equivalent to an initial conversion price of \$28.66 per share of class A common stock, subject to adjustment upon the occurrence of certain events. We may not redeem the Convertible Notes prior to maturity. As of September 30, 2014 we had the intent and ability to settle the Convertible Notes in cash. As a result, the Convertible Notes did not have any impact on our diluted earnings per share.

We recorded a \$9.1 million discount upon issuance of the Convertible Notes based on the implied value of the conversion option and an assumed effective interest rate of 6.50%. Including the amortization of this discount and the issuance costs, our total cost of the Convertible Notes is 7.16% per annum. Refer to Note 2 for additional discussion of our accounting policies for the Convertible Notes.

8. EQUITY

Total equity increased by \$753.1 million during the nine months ended September 30, 2014 to \$1.5 billion. This increase was primarily driven by the issuance of additional shares of our class A common stock. See below for further discussion of our share issuances.

Share and Share Equivalents

Authorized Capital

We have the authority to issue up to 200,000,000 shares of stock, consisting of 100,000,000 shares of class A common stock and 100,000,000 shares of preferred stock. Subject to applicable NYSE listing requirements, our board of directors is authorized to cause us to issue additional shares of authorized stock without stockholder approval. In addition, to the extent not issued, currently authorized stock may be reclassified between class A common stock and preferred stock. We do not have any shares of preferred stock issued and outstanding as of September 30, 2014.

Class A Common Stock and Deferred Stock Units

Holders of shares of our class A common stock are entitled to vote on all matters submitted to a vote of stockholders and are entitled to receive such dividends as may be authorized by our board of directors and declared by us, in all cases subject to the rights of the holders of shares of outstanding preferred stock, if any.

Net Proceeds ⁽²⁾	\$ 256,092	\$ 254,758	\$ 252,555	\$ 763,405

(1) Represents price per share paid to the underwriters.

(2) Net proceeds represents proceeds received from the underwriters less applicable transaction costs.

In addition to our class A common stock, we also issue deferred stock units to certain members of our board of directors in lieu of cash compensation for services rendered. These deferred stock units are non-voting, but carry the right to receive dividends in the form of additional deferred stock units in an amount equivalent to the cash dividends paid to holders of shares of class A common stock. During the three months ended June 30, 2014, we issued 2,851 shares of class A common stock to Joshua A. Polan in exchange for his deferred stock units upon his decision not to stand for reelection to our board of directors.

The following table details the movement in our outstanding shares of class A common stock, restricted class A common stock, and deferred stock units:

Common Stock Outstanding ⁽¹⁾	Nine Months Ended September 30,	
	2014	2013
Beginning balance	29,602,884	3,016,407
Issuance of class A common stock	28,175,003	25,875,000
Issuance of deferred stock units	15,104	6,758
Ending balance	57,792,991	28,898,165

(1) Deferred stock units held by members of our board of directors totalled 113,486 and 96,514 as of September 30, 2014 and 2013, respectively.

Dividend Reinvestment and Direct Stock Purchase Plan

On March 25, 2014, we adopted a dividend reinvestment and direct stock purchase plan, under which we registered and reserved for issuance, in the aggregate, 10,000,000 shares of class A common stock. Under the dividend reinvestment component of this plan, our class A common stockholders can designate all or a portion of their cash dividends to be reinvested in additional shares of class A common stock. The direct stock purchase component allows stockholders and new investors, subject to our approval, to purchase shares of class A common stock directly from us. During the nine months ended September 30, 2014, we issued three shares of class A common stock under the dividend reinvestment component and zero shares under the direct stock purchase plan component. As of September 30, 2014, 9,999,997 shares of class A common stock, in the aggregate, remain available for issuance under the dividend reinvestment and direct stock purchase plan.

At the Market Stock Offering Program

On May 9, 2014, we entered into equity distribution agreements, or ATM Agreements, pursuant to which we may sell, from time to time, up to an aggregate sales price of \$200.0 million of our class A common stock. Sales of class A common stock made pursuant to the ATM Agreements, if any, may be made in negotiated transactions or transactions that are deemed to be at the market offerings as defined in Rule 415 under the Securities Act of 1933, as amended. Actual sales will depend on a variety of factors including market conditions, the trading price of our class A common stock, capital needs, and our determination of the appropriate sources of funding to meet such needs. As of September 30, 2014, we had not sold any shares of class A common stock under the ATM Agreements.

Table of Contents**Blackstone Mortgage Trust, Inc.****Notes to Consolidated Financial Statements (continued)****(Unaudited)****Dividends**

We generally intend to distribute substantially all of our taxable income, which does not necessarily equal net income as calculated in accordance with GAAP, to our stockholders each year to comply with the REIT provisions of the Internal Revenue Code of 1986, as amended, or the Internal Revenue Code.

Our dividend policy remains subject to revision at the discretion of our board of directors. All distributions will be made at the discretion of our board of directors and will depend upon our taxable income, our financial condition, our maintenance of REIT status, applicable law, and other factors as our board of directors deems relevant.

On September 15, 2014, we declared a dividend of \$0.50 per share, or \$28.8 million, which was paid on October 15, 2014 to stockholders of record as of September 30, 2014. During the nine months ended September 30, 2014, we declared aggregate dividends of \$1.46 per share, or \$71.0 million. During the nine months ended September 30, 2013, we declared aggregate dividends of \$0.27 per share, or \$7.8 million.

Earnings Per Share

We calculate our basic and diluted earnings per share using the two-class method for all periods presented as the unvested shares of our restricted class A common stock qualify as participating securities, as defined by GAAP. These restricted shares have the same rights as our other shares of class A common stock, including participating in any gains and losses, and therefore have been included in our basic and diluted net income per share calculation.

The following table sets forth the calculation of basic and diluted earnings per share based on the weighted-average of our shares of class A common stock, restricted class A common stock, and deferred stock units outstanding (\$ in thousands, except per share data):

	Three Months Ended September 30,		Nine Months Ended September 30,

Other Balance Sheet Items

Accumulated Other Comprehensive Loss

As of September 30, 2014, total accumulated other comprehensive loss was \$6.2 million, representing the cumulative currency translation adjustment on assets and liabilities denominated in a foreign currency. During the nine months ended September 30, 2014, we recorded a \$7.0 million currency translation loss in other comprehensive income. We did not have any accumulated other comprehensive income or loss as of, or for the nine months ended September 30, 2013.

Non-controlling Interests

The non-controlling interests included on our consolidated balance sheets represent the equity interests in CT Legacy Partners that are not owned by us. A portion of CT Legacy Partners' consolidated equity and results of operations are allocated to these non-controlling interests based on their pro rata ownership of CT Legacy Partners. As of September 30, 2014, CT Legacy Partners' total equity was \$55.0 million, of which \$22.9 million was owned by Blackstone Mortgage Trust, Inc., and \$32.1 million was allocated to non-controlling interests.

Table of Contents**Blackstone Mortgage Trust, Inc.****Notes to Consolidated Financial Statements (continued)****(Unaudited)****9. OTHER EXPENSES**

Our other expenses consist of the management and incentive fees we pay to our Manager and our general and administrative expenses.

Management and Incentive Fees

Pursuant to our management agreement, our Manager earns a base management fee in an amount equal to 1.50% per annum multiplied by our outstanding Equity balance, as defined in the management agreement. In addition, our Manager is entitled to an incentive fee in an amount equal to the product of (i) 20% and (ii) the excess of (a) our Core Earnings (as defined in the management agreement) for the previous 12-month period over (b) an amount equal to 7.00% per annum multiplied by our outstanding Equity, provided that our Core Earnings over the prior three-year period (or the period since the date of the first offering of our class A common stock following December 19, 2012, whichever is shorter) is greater than zero. Core Earnings is generally equal to our net income (loss) prepared in accordance with GAAP, excluding (i) certain non-cash items and (ii) the net income (loss) related to our legacy portfolio.

During the nine months ended September 30, 2014 and 2013, we incurred \$12.4 million and \$3.4 million of management fees payable to our Manager, respectively. During the three months ended September 30, 2014 and 2013, we incurred \$4.6 million and \$2.4 million of management fees payable to our Manager, respectively. During the three and nine months ended September 30, 2014, we incurred \$842,000 of incentive fees payable to our Manager. We did not incur any incentive fees payable to our Manager during the three or nine months ended September 30, 2013.

- (2) Represents the accrual of amounts payable under the CT Legacy Partners management incentive awards during the period. See below for discussion of the CT Legacy Partners management incentive awards plan.

CT Legacy Partners Management Incentive Awards Plan

In conjunction with our March 2011 Restructuring, we created an employee pool for up to 6.75% of the distributions paid to the common equity holders of CT Legacy Partners (subject to certain caps and priority distributions). As of September 30, 2014, incentive awards for 94% of the pool have been granted, and the remainder was unallocated. If any awards remain unallocated at the time distributions are paid, any amounts otherwise payable to the unallocated awards will be distributed pro rata to the plan participants then employed by an affiliate of our Manager.

Notes to Consolidated Financial Statements (continued)

(Unaudited)

Approximately 53% of these grants have the following vesting schedule: (i) 25% on the date of grant; (ii) 25% in March 2013; (iii) 25% in March 2014; and (iv) the remainder is contingent on continued employment with an affiliate of our Manager and our receipt of distributions from CT Legacy Partners. Of the remaining 47% of these grants, 29% are fully vested as a result of an acceleration event, and 18% vest only upon our receipt of distributions from CT Legacy Partners.

We accrue a liability for the amounts due under these grants based on the value of CT Legacy Partners and the periodic vesting of the awards granted. Accrued payables for these awards were \$2.4 million and \$2.8 million as of September 30, 2014 and December 31, 2013, respectively.

10. INCOME TAXES

We elected to be taxed as a REIT, effective January 1, 2003, under the Internal Revenue Code for U.S. federal income tax purposes. We generally must distribute annually at least 90% of our net taxable income, subject to certain adjustments and excluding any net capital gain, in order for U.S. federal income tax not to apply to our earnings that we distribute. To the extent that we satisfy this distribution requirement, but distribute less than 100% of our net taxable income, we will be subject to U.S. federal income tax on our undistributed taxable income. In addition, we will be subject to a 4% nondeductible excise tax if the actual amount that we pay out to our stockholders in a calendar year is less than a minimum amount specified under U.S. federal tax laws.

Our qualification as a REIT also depends on our ability to meet various other requirements imposed by the Internal Revenue Code, which relate to organizational structure, diversity of stock ownership, and certain restrictions with regard to the nature of our assets and the sources of our income. Even if we qualify as a REIT, we may be subject to certain U.S. federal income and excise taxes and state and local taxes on our income and assets. If we fail to maintain our qualification as a REIT for any taxable year, we may be subject to material penalties as well as federal, state, and local income tax on our taxable income at regular corporate rates and we would not be able to qualify as a REIT for the subsequent four full taxable years. As of September 30, 2014 and December 31, 2013, we were in compliance with all REIT requirements.

During the nine months ended September 30, 2014, we recorded a current income tax provision of \$412,000 comprised of (i) \$219,000 related to activities of our taxable REIT subsidiaries, (ii) a \$124,000 provision reflecting our estimated risk of loss related to an uncertain tax position taken during the period, and (iii) \$69,000 related to other items. During the nine months ended September 30, 2013, we recorded a current income tax provision of \$329,000 related to activities of our taxable REIT subsidiaries. We did not have any deferred tax assets or liabilities as of September 30, 2014 or December 31, 2013.

As a result of our issuance of 25,875,000 shares of class A common stock in May 2013, the availability of our net operating losses, or NOLs, and net capital losses, or NCLs, is generally limited to \$2.0 million per annum by change of control provisions promulgated by the Internal Revenue Service with respect to the ownership of Blackstone Mortgage Trust. As of December 31, 2013, we had NOLs of \$159.0 million and NCLs of \$41.5 million available to be

carried forward and utilized in current or future periods. If we are unable to utilize our NOLs, they will expire in 2029. If we are unable to utilize our NCLs, \$9.5 million will expire in 2014, \$31.4 million will expire in 2015, and \$602,000 will expire in 2016 or later.

As of September 30, 2014, tax years 2010 through 2013 remain subject to examination by taxing authorities.

11. STOCK-BASED INCENTIVE PLANS

We do not have any employees as we are externally managed by our Manager. However, as of September 30, 2014, our Manager, certain individuals employed by an affiliate of our Manager, and certain members of our board of directors are compensated, in part, through the issuance of stock-based instruments.

We had stock-based incentive awards outstanding under five benefit plans as of September 30, 2014: (i) our amended and restated 1997 non-employee director stock plan, or 1997 Plan; (ii) our 2007 long-term incentive plan, or 2007 Plan; (iii) our 2011 long-term incentive plan, or 2011 Plan; (iv) our 2013 stock incentive plan, or 2013 Plan; and (v) our 2013 manager incentive plan, or 2013 Manager Plan. We refer to our 1997 Plan, our 2007 Plan, and our 2011 Plan collectively as our Expired Plans and we refer to our 2013 Plan and 2013 Manager Plan collectively as our Current Plans.

Table of Contents**Blackstone Mortgage Trust, Inc.****Notes to Consolidated Financial Statements (continued)****(Unaudited)**

Our Expired Plans have expired and no new awards may be issued under them. Under our Current Plans, a maximum of 2,160,106 shares of our class A common stock may be issued to our Manager, our directors and officers, and certain employees of affiliates of our Manager. As of September 30, 2014, there were 1,435,133 shares available under the Current Plans.

During 2013, we issued 700,000 shares of restricted class A common stock under our Current Plans. These shares generally vest in quarterly installments over a three-year period, pursuant to the terms of the respective award agreements and the terms of the Current Plans. The 485,606 shares of restricted class A common stock outstanding as of September 30, 2014 will vest as follows: 58,310 shares will vest in 2014; 233,239 shares will vest in 2015; and 194,057 shares will vest in 2016.

The following table details the movement in our outstanding shares of restricted class A common stock and the weighted-average grant date fair value per share:

Our other assets include loans, securities, equity investments, and other receivables that are carried at fair value. The following describes the key assumptions used in arriving at the fair value of each of these assets as of September 30, 2014 and December 31, 2013.

Securities: As of September 30, 2014, our securities, which had a book value of \$10.1 million, were valued by obtaining assessments from third-party dealers.

Loans: The following table lists the range of key assumptions for each type of loans receivable as of September 30, 2014 and December 31, 2013 (\$ in millions):

Collateral Type	Discount Rate	Recovery Percentage⁽¹⁾	Fair Value as of	
			September 30, 2014	December 31, 2013

- (1) Represents the proportion of the principal expected to be collected relative to the loan balances as of September 30, 2014 and December 31, 2013, excluding loans for which there is no expectation of future cash flows.
- (2) The discount rate used to value our hotel loan portfolio was 7% as of September 30, 2014 and December 31, 2013. A 100 bp discount rate increase would result in a decrease in book value of 0.2% and 1.4% as of September 30, 2014 and December 31, 2013, respectively.
- (3) The discount rates used to value our office loan portfolio was 15% as of September 30, 2014 and ranged from 6% to 15% as of December 31, 2013. A 100 bp discount rate increase would result in a decrease in fair value of 1.5% and 0.3% as of September 30, 2014 and December 31, 2013, respectively.

Equity investments and other receivables: As of September 30, 2014, equity investments and other receivables, which had an aggregate book value of \$13.2 million, were generally valued by discounting expected cash flows and assumptions regarding the collection of principal on the underlying loans and investments.

There were no liabilities recorded at fair value as of September 30, 2014 or December 31, 2013. Refer to Note 2 for further discussion regarding fair value measurement.

Table of Contents**Blackstone Mortgage Trust, Inc.****Notes to Consolidated Financial Statements (continued)****(Unaudited)****Fair Value of Financial Instruments**

As discussed in Note 2, GAAP requires disclosure of fair value information about financial instruments, whether or not recognized in the statement of financial position, for which it is practicable to estimate that value. 13. TRANSACTIONS WITH RELATED PARTIES

As of September 30, 2014, our consolidated balance sheet included \$5.4 million of accrued management and incentive fees and \$50,000 of expense reimbursements payable to our Manager. During the nine months ended September 30, 2014, we paid \$10.3 million of management fees to our Manager and reimbursed our Manager for \$90,000 of expenses incurred on our behalf. In addition, as of September 30, 2014, our consolidated balance sheet included \$151,000 of preferred distributions payable by CT Legacy Partners to an affiliate of our Manager. During the nine months ended September 30, 2014, CT Legacy Partners made aggregate preferred distributions of \$1.7 million to such affiliate.

On October 3, 2013, we issued 339,431 shares of restricted class A common stock with a grant date fair value of \$8.5 million to our Manager under the 2013 Manager Plan. The shares of restricted class A common stock vest ratably in quarterly installments over three years from the date of issuance. We recorded a non-cash expense related to these

shares of \$2.4 million during the nine months ended September 30, 2014. Refer to Note 11 for further discussion of our restricted class A common stock.

During the nine months ended September 30, 2014, CT CDO I, which is consolidated by us, incurred \$393,000 of special servicing fees to an affiliate of our Manager, of which it paid \$139,000.

During the nine months ended September 30, 2014, we paid \$26,000 of fees to a third-party service provider for equity capital markets data services. This service provider was acquired by an affiliate of our Manager on August 6, 2014.

During the nine months ended September 30, 2014, we incurred \$50,000 of fees to a third-party service provider for various administrative services that was owned by an affiliate of our Manager.

There may be conflicts between us and our Manager with respect to certain of the investments in the CT Legacy Partners and CTOPI portfolios where an affiliate of our Manager holds a related investment that is senior, junior, or

pari passu to the investments held by these portfolios. In addition, the Management Agreement with our Manager excludes from the management fee calculation our interests in CT Legacy Partners, CTOPI, and CT CDO I, which may result in further conflicts between our economic interests and those of our Manager. Refer to Note 9 for further discussion of the Management Agreement with our Manager.

On June 20, 2014, CT CDO I, CT Legacy Partners, CTOPI, and other affiliates of our Manager entered into a deed-in-lieu of foreclosure transaction which resulted in a restructuring of the interests held by each entity with respect to certain loans in our CT Legacy Portfolio segment with an aggregate principal balance of \$35.0 million and an aggregate book value of \$27.0 million.

14. SEGMENT REPORTING

We operate our real estate finance business through a Loan Origination segment and a CT Legacy Portfolio segment. The Loan Origination segment includes our activities associated with the origination and acquisition of mortgage loans, the capitalization of our loan portfolio, and the costs associated with operating our business generally. The CT Legacy Portfolio segment includes our activities specifically related to CT Legacy Partners, CT CDO I, and our equity investment in CTOPI. Our Manager makes operating decisions and assesses the performance of each of our business segments based on financial and operating data and metrics generated from our internal information systems.

There were no transactions between our operating segments during the nine months ended September 30, 2014 and 2013. For the three and nine months ended September 30, 2014, 14% and 10% of our revenues were generated from international sources, respectively. Substantially all of our revenues for the three and nine months ended September 30, 2013 were generated from domestic sources.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

References herein to Blackstone Mortgage Trust, Company, we, us, or our refer to Blackstone Mortgage Trust, Inc. and its subsidiaries unless the context specifically requires otherwise. The following discussion should be read in conjunction with the unaudited consolidated financial statements and notes thereto appearing elsewhere in this quarterly report on Form 10-Q. In addition to historical data, this discussion contains forward-looking statements about our business, operations and financial performance based on current expectations that involve risks, uncertainties and assumptions. Our actual results may differ materially from those in this discussion as a result of various factors, including but not limited to those discussed in Item 1A. Risk Factors in our annual report on Form 10-K for the year ended December 31, 2013 and elsewhere in this quarterly report on Form 10-Q.

Introduction

Blackstone Mortgage Trust is a real estate finance company that primarily originates and purchases senior loans collateralized by properties in North America and Europe. We are externally managed by BXMT Advisors L.L.C., or our Manager, a subsidiary of The Blackstone Group L.P., or Blackstone, and are a real estate investment trust, or REIT, traded on the NYSE under the symbol BXMT.

We conduct our operations as a REIT for U.S. federal income tax purposes. We generally will not be subject to U.S. federal income taxes on our taxable income to the extent that we annually distribute all of our net taxable income to stockholders and maintain our qualification as a REIT. We also operate our business in a manner that permits us to maintain our exemption from registration under the Investment Company Act of 1940, as amended, or the Investment Company Act. We are organized as a holding company and conduct our business primarily through our various subsidiaries.

We operate our real estate finance business through a Loan Origination segment and a CT Legacy Portfolio segment. The Loan Origination segment includes our activities associated with the origination and acquisition of mortgage loans, the capitalization of our loan portfolio, and the costs associated with operating our business generally. The CT Legacy Portfolio segment includes the activities specifically related to our legacy investments which preceded the re-launch of our originations business in May 2013.

I. Key Financial Measures and Indicators

As a real estate finance company, we believe the key financial measures and indicators for our business are earnings per share, dividends declared, Core Earnings, and book value per share. For the three months ended September 30, 2014 we recorded earnings per share of \$0.45, declared a dividend of \$0.50 per share, and reported \$0.50 per share of Core Earnings. In addition, our book value per share as of September 30, 2014 was \$25.57. As further described below, Core Earnings is a measure that is not prepared in accordance with accounting principles generally accepted in the United States of America, or GAAP. We use Core Earnings to evaluate our performance excluding the effects of certain transactions and GAAP adjustments that are not necessarily indicative of our current loan origination portfolio and operations.

Earnings Per Share and Dividends Declared

The following table sets forth the calculation of basic and diluted net income per share and the allocation of basic and diluted net income per share between our two reportable segments based on the weighted-average of our shares of class A common stock, restricted class A common stock, and deferred stock units outstanding (\$ in thousands, except

Table of Contents

The \$0.25 per share decrease in net income for the three months ended September 30, 2014 as compared to the three months ended June 30, 2014 was primarily due to promote revenue that we recognized during the three months ended June 30, 2014 from our carried interest in CTOPI. This was partially offset by a 16% increase in the net interest income in our Loan Origination segment.

Core Earnings

Core Earnings is a non-GAAP measure, which we define as GAAP net income (loss), including realized gains and losses not otherwise included in GAAP net income (loss), and excluding (i) net income (loss) attributable to our CT Legacy Portfolio segment, (ii) non-cash equity compensation expense, (iii) incentive management fees, (iv) depreciation and amortization, (v) unrealized gains (losses), and (vi) certain non-cash items. Core Earnings may also be adjusted from time to time to exclude one-time events pursuant to changes in GAAP and certain other non-cash charges as determined by our Manager, subject to approval by a majority of our independent directors.

We believe that Core Earnings provides meaningful information to consider in addition to our net income and cash flow from operating activities determined in accordance with GAAP. This adjusted measure helps us to evaluate our performance excluding the effects of certain transactions and GAAP adjustments that we believe are not necessarily indicative of our current loan origination portfolio and operations. We also use Core Earnings to calculate the incentive and base management fees due to our Manager under our management agreement and, as such, we believe that the disclosure of Core Earnings is useful to our investors.

Core Earnings does not represent net income or cash generated from operating activities and should not be considered as an alternative to GAAP net income, or an indication of our cash flow from GAAP operating activities, a measure of our liquidity, or an indication of funds available for our cash needs. In addition, our methodology for calculating Core Earnings may differ from the methodologies employed by other companies to calculate the same or similar supplemental performance measures, and accordingly, our reported Core Earnings may not be comparable to the Core Earnings reported by other companies.

The following table provides a reconciliation of Core Earnings to GAAP net income (\$ in thousands, except per share data):

	Three Months Ended

Table of Contents**Book Value Per Share**

The following table calculates our book value per share and the allocation of our book value per share between our two reportable segments (\$ in thousands, except per share data):

	September 30, 2014			
	Loan Origination	CT Legacy Portfolio	Total	June 30, 2014
Stockholders equity	\$ 1,448,384	\$ 29,355	\$ 1,477,739	\$ 1,239,308
Shares				
Class A common stock	57,193,899	57,193,899	57,193,899	47,935,370
Restricted class A common stock	485,606	485,606	485,606	544,133
Deferred stock units	113,486	113,486	113,486	108,391
	57,792,991	57,792,991	57,792,991	48,587,894
Book value per share	\$ 25.06	\$ 0.51	\$ 25.57	\$ 25.51

On a consolidated basis, our book value per share as of September 30, 2014 increased by \$0.06 from June 30, 2014. The increase was due to the issuance of 9,200,000 shares of class A common stock in a public offering at a price to the underwriters of \$27.49 per share, partially offset by (i) foreign currency valuation adjustments and (ii) the excess of dividends declared over GAAP net income during the quarter.

II. Loan Origination Portfolio

The Loan Origination segment includes our activities associated with the origination and acquisition of mortgage loans, the capitalization of our loan portfolio, and the costs associated with operating our business generally. During the quarter ended September 30, 2014, our Loan Origination segment originated \$670.5 million of new loan commitments, funded \$556.6 million under new and existing loans, and generated interest income of \$49.7 million. These loan originations were primarily financed by \$252.6 million of net proceeds from the sale of our class A common stock, \$124.7 million of additional net borrowings under our secured financings, and \$109.1 million of proceeds from loans sales and principal collections. We incurred interest expense of \$19.7 million during the quarter, which resulted in \$30.0 million of net interest income during the quarter.

Portfolio Overview

The following table details our loan originations activity during the quarter ended September 30, 2014 (\$ in thousands):

	Loans Originated	Loan Commitments⁽²⁾	Loan Fundings⁽³⁾
Senior loans ⁽¹⁾	8	\$ 670,514	\$ 556,328
Subordinate loans			240
Total	8	\$ 670,514	\$ 556,568

- (1) Includes senior mortgages and similar credit quality loans, including related contiguous subordinate loans, note financings of senior mortgage loans, and pari passu participations in senior mortgage loans.
- (2) Includes new originations and additional commitments made under existing loan agreements.
- (3) Includes additional fundings of \$67.6 million under existing loan commitments.

As of September 30, 2014, the majority of loans in the Loan Origination segment were senior mortgage loans or investments that are not structured as mortgages, but have risk exposure substantially similar to senior mortgage loans.

Weighted-average cash coupon ⁽¹⁾	L+4.42%
Weighted-average all-in yield ⁽¹⁾	L+4.97%
Weighted-average maximum maturity (years) ⁽²⁾	3.9

- (1) As of September 30, 2014, 83% of our loans are indexed to one-month USD LIBOR, 13% are indexed to three-month GBP LIBOR, and 4% are indexed to other floating index rates. In addition, 17% of our loans currently earn interest based on LIBOR floors, with an average floor of 0.30%, as of September 30, 2014. In addition to cash coupon, all-in yield includes the amortization of deferred origination fees, loan origination costs, and accrual of exit fees.
- (2) Maximum maturity assumes all extension options are exercised, however our loans may be repaid prior to such date. As of September 30, 2014, 88% of our loans are subject to yield maintenance, lock-out provisions, or other prepayment restrictions and 12% are open to repayment by the borrower.

The charts below detail the geographic distribution and types of properties securing these loans, as of September 30, 2014 (net book value, % of total):

Geographic Diversification**Collateral Diversification**

Refer to section V of this Management's Discussion and Analysis of Financial Condition and Results of Operations for details of our loan portfolio, on a loan-by-loan basis.

Asset Management and Performance

We actively manage the investments in our Loan Origination portfolio and exercise the rights afforded to us as a lender, including collateral level budget approvals, lease approvals, loan covenant enforcement, escrow/reserve management/collection, collateral release approvals and other rights that we may negotiate.

As discussed in Note 2 to our consolidated financial statements, our Manager performs a quarterly review of our loan portfolio, assesses the performance of each loan, and assigns each loan a risk rating between 1 (less risk) to 8 (greater risk). Loans that pose a higher risk of non-performance and/or loss are placed on our watch list. Watch list loans are those with an internal risk rating of 4 or higher.

All of the investments in the Loan Origination segment are performing as expected and the weighted-average risk rating of our loan portfolio was 2.8 as of both September 30, 2014 and December 31, 2013.

- (1) Maximum facility size represents the total amount of borrowings provided for in each repurchase agreement; however these borrowings are only available to us once sufficient collateral assets have been pledged under each facility.
- (2) Represents the principal balance of the collateral assets.
- (3) Potential borrowings represent the total amount we could draw under each facility based on collateral already approved and pledged. When undrawn, these amounts are immediately available to us at our sole discretion under the terms of each revolving credit facility.
- (4) The JP Morgan maximum facility size is composed of a \$250.0 million facility and a £153.0 million (\$248.5 million) facility.
- (5) The Morgan Stanley maximum facility size represents a £250.0 million (\$406.0 million) facility.

As of September 30, 2014, we had aggregate borrowings of \$1.7 billion outstanding under our revolving repurchase facilities, with a weighted-average cash coupon of LIBOR plus 1.90% per annum and a weighted-average all-in cost of credit, including associated fees and expenses, of LIBOR plus 2.14% per annum. As of September 30, 2014, outstanding borrowings under these facilities had a weighted-average maturity, excluding extension options and term-out provisions, of 2.1 years.

- (1) As of September 30, 2014, all of our asset-specific repurchase agreements and 40% of our participations sold were indexed to one-month USD LIBOR and 60% of our participations sold were indexed to three-month GBP LIBOR. In addition to cash coupon, all-in yield / cost includes the amortization of deferred origination fees / financing costs.
- (2) We also sold a \$110.0 million senior interest in a loan that qualified for sale accounting under GAAP and is therefore no longer included on our consolidated balance sheet.
- Refer to Note 6 to our consolidated financial statements for additional terms and details of our secured financings, including certain financial covenants.

Floating Rate Portfolio

Our Loan Origination portfolio as of September 30, 2014 was comprised of floating rate loans financed by floating rate secured debt, which results in a return on equity that is correlated to LIBOR. Generally, our business model is such that rising interest rates will increase our net income, while declining interest rates will decrease net income. For instance, all other things being equal, as of September 30, 2014, a 100 basis point increase in LIBOR would have increased our net income by \$15.0 million per annum, or \$0.26 per share.

Table of Contents

The following table details our Loan Origination segment's sensitivity to interest rates (\$ in thousands):

	September 30, 2014
Floating rate loans ⁽¹⁾	\$ 3,940,626
Floating rate debt ⁽¹⁾⁽²⁾	(2,344,344)
Net floating rate exposure	\$ 1,596,282
Net income impact from 100 bps increase in LIBOR ⁽³⁾	\$ 15,038
Per share amount, basic and diluted	\$ 0.26

(1) Our floating rate loans and debt are indexed to LIBOR as of September 30, 2014.

(2) Includes borrowings under revolving repurchase facilities, asset-specific repurchase agreements, and loan participations sold.

(3) Annualized net income includes the impact of LIBOR floors for our loan receivable investments where such floors are paying relative to LIBOR of 0.16% as of September 30, 2014.

Convertible Notes

In November 2013, we issued \$172.5 million aggregate principal amount of 5.25% convertible senior notes due on December 1, 2018, or the Convertible Notes. The Convertible Notes issuance costs, including underwriter discounts, are amortized through interest expense over the life of the Convertible Notes using the effective interest method. Including this amortization, our all-in cash cost of the Convertible Notes is 5.87%.

Refer to Notes 2 and 7 to our consolidated financial statements for additional discussion of our Convertible Notes.

III. CT Legacy Portfolio

Our CT Legacy Portfolio consists of: (i) our interests in CT Legacy Partners; (ii) our carried interest in CTOPI, a private investment fund that was previously under our management and is now managed by an affiliate of our Manager; and (iii) our subordinate interests in CT CDO I, a consolidated securitization vehicle.

During the three months ended September 30, 2014, our CT Legacy Portfolio segment recorded net income of \$134,000 driven primarily by net unrealized gains on investments carried at fair value in CT Legacy Partners.

CT Legacy Partners

CT Legacy Partners is a subsidiary that holds certain of our legacy assets and is beneficially owned 52% by us and 48% by other third-party investors. In addition to its common equity, CT Legacy Partners has also issued class B common shares, a subordinate class of equity which entitles its holders to receive approximately 25% of the dividends that would otherwise be payable to us on our equity interest in CT Legacy Partners. Further, CT Legacy Partners has issued class A preferred shares which entitle their holder, an affiliate of our Manager, to cumulative preferred distributions in an amount generally equal to the greater of (i) 2.5% of certain of CT Legacy Partners' assets, and

(ii) \$1.0 million per annum.

As of September 30, 2014, the CT Legacy Partners portfolio consisted of cash, loans, securities, and other assets. As of September 30, 2014, CT Legacy Partners' total equity was \$55.0 million, of which \$22.9 million was owned by Blackstone Mortgage Trust, Inc., and \$32.1 million was allocated to non-controlling interests. Assuming a \$4.3 million fully-vested payment of the related management incentive awards plan, our net interest in CT Legacy Partners would be \$18.6 million. We periodically accrue a payable for the management incentive awards plan based on the vesting schedule for the awards and continued employment with an affiliate of our Manager of the award recipients. As of September 30, 2014, our balance sheet includes \$2.4 million in accounts payable and accrued expenses for the management incentive awards plan. Refer to Note 9 to our consolidated financial statements for additional discussion of the CT Legacy Partners management incentive plan.

Carried Interest in CTOPI

In 2012, we transferred our management of CTOPI and sold our 4.6% co-investment to Blackstone. However, we retained our carried interest in CTOPI following the sale, which entitles us to earn promote revenue in an amount equal to 17.7% of the fund's profits, after a 9% preferred return and 100% return of capital to the CTOPI partners. We own a net 55% of the carried interest of CTOPI's general partner; the remaining 45% is payable under previously issued incentive awards. Refer to Note 5 to our consolidated financial statements for additional discussion of the CTOPI incentive awards.

Table of Contents

During the nine months ended September 30, 2014, CTOPI returned all capital to its limited partners and made a \$14.1 million promote distribution to us. In addition, the return of investor capital by CTOPI eliminated the remaining contingencies related to our recognition of \$10.2 million of prior tax advance distributions, resulting in total promote revenue recognized of \$24.3 million.

As of September 30, 2014, we had been allocated \$8.2 million of promote revenue from CTOPI based on a hypothetical liquidation of the fund at its net asset value, and after payment of the related incentive awards. Generally, we defer the recognition of income on our carried interest in CTOPI until cash is collected or appropriate contingencies have been eliminated. As a result, our net investment in the CTOPI carried interest had a book value of zero as of September 30, 2014.

CT CDO I

As of September 30, 2014, our consolidated balance sheet included an aggregate \$28.9 million of assets and \$20.0 million of liabilities related to CT CDO I, a highly-levered securitization vehicle that we formed in 2004. Our economic interest in the loans receivable assets held by CT CDO I is restricted by the structural provisions of CT CDO I, and our recovery of these assets will be limited by its distribution provisions. The liabilities of CT CDO I, which are also consolidated on our balance sheet, are non-recourse to us, and can only be satisfied by proceeds from its collateral asset pool. We are not obligated to provide, nor have we provided, any financial support to CT CDO I.

IV. Results of Operations and Liquidity**Operating Results**

The following table compares our Loan Origination segment's operating results for the three months ended September 30, 2014 and June 30, 2014 (\$ in thousands, except per share data):

(1) Represents net income attributable to Blackstone Mortgage Trust, Inc.
Income from loans and other investments, net

Income from loans and other investments increased \$4.1 million, or 16.0%, on a net basis during the three months ended September 30, 2014 compared to the three months ended June 30, 2014. The increase was primarily due to

(i) earning a full quarter of interest on the loans originated during the three months ended June 30, 2014, and (ii) additional interest earned on the \$556.6 million of loans funded during the three months ended September 30, 2014. This was partially offset by additional interest expense incurred on our repurchase agreements and senior loan participations sold.

Other operating expenses

Other operating expenses are comprised of management and incentive fees payable to our Manager and general and administrative expenses. Other operating expenses increased by \$206,000 during the three months ended September 30, 2014 compared to the three months ended June 30, 2014 due to (i) \$842,000 of incentive fees incurred during the third quarter, and (ii) an increase of \$160,000 of management fees. This was partially offset by a \$764,000 decrease in non-cash restricted stock amortization resulting from a second quarter accelerated vesting of certain awards under the plan.

Income from loans and other investments, net increased \$16.0 million and \$59.0 million for the three and nine months ended September 30, 2014, respectively, as compared to the corresponding periods in 2013. These increases were a result of the continued growth of our loan originations business that was re-launched in May 2013.

Other expenses

Other expenses includes management and incentive fees payable to our Manager and general and administrative expenses. Other expenses increased by \$4.7 million during the three months ended September 30, 2014 compared to the three months ended September 30, 2013 primarily due to (i) \$2.2 million of management fees payable to our Manager as a result of an increased outstanding Equity balance, as defined in our management agreement, due to additional net proceeds received from the sale of shares of our class A common stock, (ii) \$1.5 million of non-cash restricted stock amortization related to shares awarded under our long-term incentive plans, (iii) \$842,000 of incentive management fees, and (iv) \$249,000 of additional general operating expenses.

Other expenses increased by \$25.6 million during the nine months ended September 30, 2014 compared to the nine months ended September 30, 2013 primarily due to (i) a \$10.2 million increase in compensation expenses associated with our CT Legacy Portfolio segment incentive plans, primarily as a result of payments triggered by CTOPI promote distributions received, (ii) an increase of \$9.0 million of management fees payable to our Manager, primarily as a result of additional net proceeds received from the sale of shares of our class A common stock, (iii) \$5.6 million of non-cash restricted stock amortization related to shares awarded under our long-term incentive plans, and (iv) \$842,000 of incentive management fees.

Table of Contents

Impairments, provisions, and valuation adjustments

During the three and nine months ended September 30, 2014, impairments, provisions, and valuation adjustments represented net gains on investments carried at fair value by CT Legacy Partners.

During the three months ended September 30, 2013, we recognized (i) \$464,000 of net gains on investments held by CT Legacy Partners and (ii) a \$600,000 negative valuation adjustment on CT CDO I's loan classified as held-for-sale. During the nine months ended September 30, 2013, we recognized (i) \$4.5 million of net gains on investments held by CT Legacy Partners and (ii) a \$1.2 million positive valuation adjustment on CT CDO I's loan classified as held-for-sale.

Income from equity investments in unconsolidated subsidiaries

During the nine months ended September 30, 2014, we recognized \$24.3 million of promote revenue from CTOPI. No such income was recognized during the nine months ended September 30, 2013.

Dividends per share

During the three months ended September 30, 2014, we declared a dividend of \$0.50 per share, or \$28.8 million, which was paid on October 15, 2014 to common stockholders of record as of September 30, 2014. During the three months ended September 30, 2013, we declared a dividend of \$0.27 per share, or \$7.8 million, which was paid on October 15, 2013 to common stockholders of record as of September 30, 2013.

During the nine months ended September 30, 2014, we declared aggregate dividends of \$1.46 per share, or \$71.0 million. During the nine months ended September 30, 2013, we declared aggregate dividends of \$0.27 per share, or \$7.8 million.

Liquidity and Capital Resources

Capitalization

During the first nine months of 2014, we issued 28,175,000 shares of our class A common stock in public offerings at a weighted-average price to the underwriters of \$27.13 per share. We generated aggregate net proceeds from these issuances of \$763.4 million after deducting underwriting discounts and other offering expenses.

See Note 8 to our consolidated financial statements for additional details regarding our recent equity offerings.

During the nine months ended 2014, we entered into three revolving repurchase facilities, one asset-specific repurchase agreement, and sold two senior loan participations, providing an additional \$2.0 billion of credit capacity. As of September 30, 2014, we had aggregate borrowings of \$1.7 billion outstanding under our revolving repurchase facilities, with a weighted-average cash coupon of LIBOR plus 1.90% per annum and a weighted-average all-in cost of credit, including associated fees and expenses, of LIBOR plus 2.14% per annum. As of September 30, 2014, outstanding borrowings under these facilities had a weighted-average maturity, excluding extension options and term-out provisions, of 2.1 years. We also had three asset-specific repurchase agreements outstanding with an aggregate outstanding balance of \$227.0 million, a cash coupon of 2.62%, and an all-in cost of 3.00%, as well as three loan participations sold outstanding with an aggregate book balance of \$448.0 million, a cash coupon of LIBOR plus 3.01%, and an all-in cost of LIBOR plus 3.22%.

See Note 6 to our consolidated financial statements for additional details regarding our secured financings.

As of September 30, 2014, we also had \$172.5 million aggregate principal amount of convertible notes outstanding with a net book value of \$164.7 million, which carry a cash coupon of LIBOR plus 5.25% and an all-in cost of 5.87%. These notes mature in December 2018.

See Note 7 to our consolidated financial statements for additional details regarding our convertible notes.

Sources of Liquidity

Our primary sources of liquidity include cash and cash equivalents and available borrowings under our revolving repurchase facilities, which are set forth in the following table (\$ in thousands):

	September 30, 2014	December 31, 2013
Cash and cash equivalents	\$ 63,343	\$ 52,342
Available borrowings under revolving repurchase facilities	433,738	218,555
	\$ 497,081	\$ 270,897

Table of Contents

In addition to our current sources of liquidity, we have access to liquidity through public offerings of debt and equity securities. To facilitate such offerings, in July 2013, we filed a shelf registration statement with the SEC that is effective for a term of three years and will expire in July 2016. The amount of securities to be issued pursuant to this shelf registration statement was not specified when it was filed and there is no specific dollar limit on the amount of securities we may issue. In addition, we adopted a dividend reinvestment and direct stock purchase plan, under which we registered and reserved for issuance, in the aggregate, 10,000,000 shares of class A common stock, and entered into equity distribution agreements pursuant to which we may sell, from time to time, up to an aggregate of \$200.0 million of our class A common stock.

Liquidity Needs

In addition to our ongoing loan origination activity, our primary liquidity needs include interest and principal payments under our \$2.5 billion of outstanding secured financings and convertible notes, our \$513.4 million of unfunded loan commitments, dividend distributions to our stockholders, and operating expenses.

We have no obligations to provide financial support to CT Legacy Partners, CTOPI, or CT CDO I, and all debt obligations of these entities, some of which are consolidated onto our financial statements, are non-recourse to us.

We are also required to pay our Manager a base management fee, an incentive fee, and reimbursements for certain expenses pursuant to our management agreement. Refer to Note 9 to our consolidated financial statements for additional terms and details of the fees payable under our management agreement.

As a REIT, we generally must distribute substantially all of our net taxable income to stockholders in the form of dividends to comply with the REIT provisions of the Internal Revenue Code. Our taxable income does not necessarily equal our net income as calculated in accordance with GAAP, or our Core Earnings as described above.

Cash Flows

The following table provides a breakdown of the net change in our cash and cash equivalents (\$ in thousands):

	Nine Months Ended September 30,	
	2014	2013
Cash flows from operating activities	\$ 57,460	\$ 14,445
Cash flows from investing activities	(1,867,100)	(1,195,694)
Cash flows from financing activities	1,822,250	1,176,109
Net increase in cash and cash equivalents	\$ 12,610	\$ (5,140)

We experienced a net increase in cash of \$12.6 million for the nine months ended September 30, 2014, compared to a net decrease of \$5.1 million for the nine months ended September 30, 2013. The increase during the nine months ended September 30, 2014 was primarily due to the receipt of cash interest on loans in our Loan Origination segment portfolio, net of related interest expense, and other operating activities.

During the nine months ended September 30, 2014, we (i) had net borrowings of \$792.3 million under our revolving repurchase obligations and asset-specific repurchase agreements, (ii) generated \$763.4 million of net proceeds from the sale of our class A common stock, (iii) received \$403.2 million of loan principal repayments, and (iv) sold \$368.9

million of senior loan participations. We used the proceeds from our debt and equity financing activities to originate a net \$2.3 billion of new loans during the nine months ended September 30, 2014.

Our consolidated statements of cash flows also include the cash inflows and outflows of consolidated securitization vehicles. While this does not impact our net cash flow, it does increase certain gross cash flow disclosures. As discussed above, other than to the extent we receive cash distributions from the entities in our CT Legacy Portfolio, we generally do not have access to their liquidity.

Income Taxes

We elected to be taxed as a REIT, effective January 1, 2003, under the Internal Revenue Code for U.S. federal income tax purposes. We generally must distribute annually at least 90% of our net taxable income, subject to certain adjustments and excluding any net capital gain, in order for U.S. federal income tax not to apply to our earnings that we distribute. To the extent that we satisfy this distribution requirement, but distribute less than 100% of our net taxable income, we will be subject to U.S. federal income tax on our undistributed taxable income. In addition, we will be subject to a 4% nondeductible excise tax if the actual amount that we pay out to our stockholders in a calendar year is less than a minimum amount specified under U.S. federal tax laws.

Table of Contents

Our qualification as a REIT also depends on our ability to meet various other requirements imposed by the Internal Revenue Code, which relate to organizational structure, diversity of stock ownership, and certain restrictions with regard to the nature of our assets and the sources of our income. Even if we qualify as a REIT, we may be subject to certain U.S. federal income and excise taxes and state and local taxes on our income and assets. If we fail to maintain our qualification as a REIT for any taxable year, we may be subject to material penalties as well as federal, state and local income tax on our taxable income at regular corporate rates and we would not be able to qualify as a REIT for the subsequent four full taxable years. As of September 30, 2014 and December 31, 2013, we were in compliance with all REIT requirements.

Refer to Note 10 to our consolidated financial statements for additional discussion of our income taxes.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements.

Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires our Manager to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses, and related disclosure of contingent assets and liabilities. Actual results could differ from these estimates. There have been no material changes to our Critical Accounting Policies described in our annual report on Form 10-K filed with the Securities and Exchange Commission on February 18, 2014.

(1) Includes senior mortgages and similar credit quality loans, including related contiguous subordinate loans, note financings of senior mortgage loans, and pari passu participations in senior mortgage loans.

(2) As of September 30, 2014, 83% of our loans are indexed to one-month USD LIBOR, 13% are indexed to three-month GBP LIBOR, and 4% referencing other floating rate indices. In addition, 17% of our loans currently earn interest based on LIBOR floors, with an average floor of 0.30%, as of September 30, 2014. In addition to cash coupon, all-in yield includes the amortization of deferred origination fees, loan origination costs, and accrual of exit fees.

(3) Maximum maturity assumes all extension options are exercised, however our loans may be repaid prior to such date.

(4) We originated the loan directly senior to this subordinate loan, but sold the senior loan to finance our overall investment.

Table of Contents**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK****Interest Rate Risk**

Our business is exposed to the risks related to interest rate fluctuations. We generally originate floating rate assets and finance those assets with index-matched floating rate liabilities. As a result, we significantly reduce our exposure to changes in portfolio value and cash flow variability related to changes in interest rates.

Loan Origination Portfolio segment

Our Loan Origination investments are exposed to the risks related to interest rate fluctuations discussed above. The table below details our interest rate exposure to this portfolio (\$ in thousands):

	September 30, 2014
Floating rate loans ⁽¹⁾	\$ 3,940,626
Floating rate debt ⁽¹⁾⁽²⁾	(2,344,344)
Net floating rate exposure	\$ 1,596,282
Net income impact from 100 bps increase in LIBOR ⁽³⁾	\$ 15,038
Per share amount, basic and diluted	\$ 0.26

(1) Amounts represent aggregate principal balances.

(2) Includes borrowings under revolving repurchase facilities, asset-specific repurchase agreements, and loan participations sold.

(3) Annualized net income includes the impact of LIBOR floors for our loan receivable investments where such floors are paying relative to LIBOR of 0.16% as of September 30, 2014.

CT Legacy Portfolio segment

Our investments in CT Legacy Partners and CT CDO I are also exposed to the risks related to interest rate fluctuations discussed above, however as liquidating portfolios these investments are more sensitive to credit risk than interest rate risk.

Although our carried interest investment in CTOPI generally relates to a portfolio of interest earning assets, our economic interest in this portfolio relates primarily to the realization of investments purchased at a discount by CTOPI. Accordingly, our investment in this portfolio is not exposed to a significant degree of interest rate risk. Refer to Note 5 to our consolidated financial statements for additional discussion of CTOPI.

Risk of Non-Performance

In addition to the risks related to fluctuations in asset values and cash flows associated with movements in interest rates, there is also the risk of non-performance on floating rate assets. In the case of a significant increase in interest rates, the additional debt service payments due from our borrowers may strain the operating cash flows of the

collateral real estate assets and, potentially, contribute to non-performance or, in severe cases, default. This risk is partially mitigated by certain facts we consider during our underwriting process, which in certain cases include a requirement for our borrower to purchase an interest rate cap contract.

Credit Risks

Our loans and investments are also subject to credit risk. The performance and value of our loans and investments depend upon the owners' ability to operate the properties that serve as our collateral so that they produce cash flows adequate to pay interest and principal due to us. To monitor this risk, our Manager's asset management team reviews our investment portfolios and in certain instances is in regular contact with our borrowers, monitoring performance of the collateral and enforcing our rights as necessary.

In addition, we are exposed to the risks generally associated with the commercial real estate market, including variances in occupancy rates, capitalization rates, absorption rates, and other macroeconomic factors beyond our control. We seek to manage these risks through our underwriting and asset management processes.

Capital Market Risks

We are exposed to risks related to the equity capital markets, and our related ability to raise capital through the issuance of our class A common stock or other equity instruments. We are also exposed to risks related to the debt

Table of Contents

capital markets, and our related ability to finance our business through borrowings under credit facilities or other debt instruments. As a REIT, we are required to distribute a significant portion of our taxable income annually, which constrains our ability to accumulate operating cash flow and therefore requires us to utilize debt or equity capital to finance our business. We seek to mitigate these risks by monitoring the debt and equity capital markets to inform our decisions on the amount, timing, and terms of capital we raise.

Counterparty Risk

The nature of our business requires us to hold our cash and cash equivalents and obtain financing from various financial institutions. This exposes us to the risk that these financial institutions may not fulfill their obligations to us under these various contractual arrangements. We mitigate this exposure by depositing our cash and cash equivalents and entering into financing agreements with high credit-quality institutions.

The nature of our loans and investments also exposes us to the risk that our counterparties do not make required interest and principal payments on scheduled due dates. We seek to manage this risk through a comprehensive credit analysis prior to making an investment and active monitoring of the asset portfolios that serve as our collateral.

Currency Risk

Our loans and investments that are denominated in a foreign currency are also subject to risks related to fluctuations in currency rates. We mitigate this exposure by matching the currency of our foreign currency assets to the currency of the borrowings that finance those assets. As a result, we substantially reduce our exposure to changes in portfolio value related to changes in foreign currency rates.

The following table outlines our assets and liabilities that are denominated in a foreign currency (£/ in thousands):

	September 30, 2014	
Foreign currency assets	£ 306,403	96,591
Foreign currency liabilities	(240,511)	(22,583)
Net exposure to exchange rate fluctuations	£ 65,892	74,008

We estimate that a 10% decline in the rate of exchange from the US dollar to the British pound sterling and from the U.S. dollar to the Euro would result in a decline of \$10.7 million and \$9.4 million, respectively, in our net assets denominated in foreign currencies, as of September 30, 2014.

ITEM 4. CONTROLS AND PROCEDURES**Evaluation of Disclosure Controls and Procedures**

An evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)), as of the end of the period covered by this quarterly report on Form 10-Q was made under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer. Based upon this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures

(a) are effective to ensure that information required to be disclosed by us in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by Securities and Exchange Commission rules and forms and (b) include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Controls over Financial Reporting

There have been no significant changes in our internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) that occurred during the period covered by this quarterly report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 5. OTHER INFORMATION

Second Amended and Restated Management Agreement

On October 23, 2014, we entered into a Second Amended and Restated Management Agreement, dated as of October 23, 2014, or Second Amended and Restated Management Agreement, with the Manager, an affiliate of Blackstone that serves as our external manager. As of October 23, 2014, affiliates of Blackstone owned approximately 6.9% of our outstanding shares of class A common stock. The Second Amended and Restated Management Agreement amends and restates the existing Amended and Restated Management Agreement, dated as of March 26, 2013, as amended by Amendment No. 1 to the Amended and Restated Management Agreement, dated as of July 30, 2013, or the Existing Agreement. The amendments to the Existing Agreement that were effected by the Second Amended and Restated Management Agreement include the following:

incorporation of the terms of Amendment No. 1 to the Amended and Restated Management Agreement, dated as of July 30, 2013;

amendment of our investment guidelines to increase the threshold required for approval by the investment risk management committee of our board of directors from any proposed investment in excess of \$150.0 million to any proposed investment in excess of \$250.0 million;

revisions of the definitions for Incentive Compensation and Management Fee (in each case as defined in the Second Amended and Restated Management Agreement) to remove wording regarding calculation of payments during the ramp-up periods that is no longer relevant from and after the fourth full calendar quarter following Blackstone's December 2012 investment; and

The foregoing description of the Second Amended and Restated Management Agreement does not purport to be complete and is qualified in its entirety by reference to the complete terms of the Second Amended and Restated Management Agreement, a copy of which is filed as Exhibit 10.1 to this quarterly report on Form 10-Q and is incorporated herein by reference.

Fourth Amended and Restated Bylaws

On October 23, 2014, our board of directors approved our Fourth Amended and Restated Bylaws, amending and restating our existing bylaws to, among other things, reflect our May 2013 name change, reflect recent developments in Maryland law and public company governance, clarify certain corporate procedures, remove obsolete provisions and make conforming language and stylistic changes.

Table of Contents

In particular, our Fourth Amended and Restated Bylaws include the following:

amendments to the stockholder meeting provisions to clarify (i) the information that must be submitted to us relating to each individual nominee for election and each matter proposed to be acted on and (ii) the circumstances under which we are entitled to cancel or adjourn a requested meeting;

revisions to the advance notice of director nominee and stockholder proposal provisions to provide the board of directors with sufficient time to consider stockholder nominations or business proposals and to provide the board of directors with additional information with respect thereto;

revisions to the provisions governing our directors clarifying (i) how directors may resign and how such resignation will become effective and (ii) the procedures determining who will preside as chairman and secretary of meetings of the board of directors;

amendments authorizing the board of directors and stockholders to ratify prior actions and inactions by us, and to allow the board of directors to take action during emergencies if a quorum of the board of directors may not be readily obtained;

amendments to clarify that a committee of the board of directors may delegate some or all of its power and authority to one or more subcommittees;

amendments relating to the provisions concerning our officers to provide us with additional flexibility as to, among other things, their appointment and removal; and

revisions to clarify that rights to indemnification vest immediately upon election as a director or an officer. The foregoing description does not purport to be complete and is qualified in its entirety by reference to the full text of the Fourth Amended and Restated Bylaws, which is filed as Exhibit 3.1 to this quarterly report on Form 10-Q and is incorporated herein by reference. In addition, a version of the Fourth Amended and Restated Bylaws that has been marked to show changes from the bylaws that were previously in effect is included as Exhibit 3.2 and is incorporated herein by reference.

Amendment of Existing Master Repurchase and Securities Contract

On October 23, 2014, we and a special-purpose wholly-owned subsidiary of ours entered into Amendment No. 1 to the Amended and Restated Master Repurchase and Securities Contract with Wells Fargo Bank, National Association, or the Buyer, that was originally entered into on April 4, 2014, in order to increase the facility amount from \$500.0 million to \$1.0 billion. All other material terms, including the maturity date of the facility, remain the same.

The Buyer or its affiliates have provided, or may in the future provide, certain commercial banking, financial advisory, investment banking and other services to us in the ordinary course of business, for which they receive

customary fees and commissions.

Forms of Award Agreements

On October 23, 2014, our Compensation Committee adopted new forms of award agreements for restricted stock awards pursuant to the Blackstone Mortgage Trust, Inc. 2013 Stock Incentive Plan and the Blackstone Mortgage Trust, Inc. 2013 Manager Incentive Plan. The award agreements include, among other provisions, vesting, termination, and transferability provisions. Copies of the forms of award agreements are filed as exhibit 10.3 and 10.4, respectively, herewith.

Section 13(r) Disclosure

Pursuant to Section 219 of the Iran Threat Reduction and Syria Human Rights Act of 2012, or ITRA, which added Section 13(r) of the Exchange Act, we hereby incorporate by reference herein Exhibit 99.1 of this report, which includes disclosures publicly filed and/or provided to Blackstone by Travelport Limited, which may be considered an affiliate of Blackstone and therefore our affiliate.
