HONDA MOTOR CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

**(1) General and Summary of Significant Accounting Policies**

*(a) Financial Statements*

The accompanying consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP). In the opinion of management, all adjustments which are necessary for a fair presentation have been included. The results for interim periods are not necessarily indicative of results which may be expected for any other interim period or for the year. For further information, refer to the March 31, 2014 consolidated financial statements and notes thereto included in Honda Motor Co., Ltd. and Subsidiaries Annual Report for the year ended March 31, 2014.

*(b) Basis of Presenting Consolidated Financial Statements*

The Company and its Japanese subsidiaries maintain their books of account in conformity with financial accounting standards of Japan, and its foreign subsidiaries generally maintain their books of account in conformity with those of the countries of their domicile.

The consolidated financial statements presented herein have been prepared in a manner and reflect the adjustments which are necessary to conform them with U.S. GAAP.

*(c) Accounting Policies Specifically Applied for Quarterly Consolidated Financial Statements*  
*Income taxes*

Honda computes interim income tax expense (benefit) by multiplying reasonably estimated annual effective tax rate, which includes the effects of deferred taxes, by year-to-date income before income taxes and equity in income of affiliates for the nine months ended December 31, 2014. If a reliable estimate cannot be made, Honda utilizes the actual year-to-date effective tax rate.

*(d) Impairment Loss on Investments in Affiliates*

For the nine months ended December 31, 2014, Honda recognized impairment loss of ¥15,901 million on certain investments in affiliates which have quoted market values because of other-than-temporary decline in fair value below their carrying values. The fair values of the investments were based on quoted market price. The impairment loss is included in equity in income of affiliates in the accompanying consolidated statement of income. For the three months ended December 31, 2014, Honda did not recognize any significant impairment losses.

**(2) Allowances for Finance Subsidiaries-receivables**

Allowance for losses on lease residual values	2,131	1,855

**Table of Contents**

## HONDA MOTOR CO., LTD. AND SUBSIDIARIES

## Notes to Consolidated Financial Statements

**(3) Credit Quality of Finance Receivables and Allowance for Credit Losses**

The finance subsidiaries of the Company provide retail lending and leasing to customers and wholesale financing to dealers primarily to support sales of our products. Honda classifies retail and direct financing lease receivables (consumer finance receivables) derived from those services as finance subsidiaries-receivables. Operating leases are classified as property on operating leases. Certain finance receivables related to sales of inventory are included in trade accounts and notes receivable and other assets in the consolidated balance sheets.

Finance subsidiaries-receivables, net, consisted of the following at March 31, 2014 and December 31, 2014:

	Yen (millions)	
	March 31, 2014	December 31, 2014
Retail	¥ 4,678,741	¥ 5,294,441

	5,533,997	6,219,797
Less:		
Finance receivables included in trade accounts and notes receivables, net	498,230	524,661
Finance receivables included in other assets, net	253,999	277,154
<b>Finance subsidiaries-receivables, net</b>	<b>4,781,768</b>	<b>5,417,982</b>
Less current portion	1,464,215	1,690,457
<b>Noncurrent finance subsidiaries-receivables, net</b>	<b>¥ 3,317,553</b>	<b>¥ 3,727,525</b>

*Allowance for credit losses*

The majority of the credit risk is with consumer financing and to a lesser extent with dealer financing. Credit risk is affected by general economic conditions. The allowance for credit losses is management's estimate of probable losses incurred on finance receivables.

Consumer finance receivables are collectively evaluated for impairment. Delinquencies and losses are continuously monitored and this historical experience provides the primary basis for estimating the allowance. Various methodologies are utilized when estimating the allowance for credit losses including models that incorporate vintage loss and delinquency migration analysis. The models take into consideration attributes of the

## Edgar Filing: HONDA MOTOR CO LTD - Form 6-K

portfolio including loan-to-value ratios, internal and external credit scores, and collateral types. Economic factors such as used vehicle prices, unemployment rates, and consumer debt service burdens are also incorporated when estimating losses.

Wholesales receivables are individually evaluated for impairment when specifically identified as impaired. Wholesales receivables are considered to be impaired when it is probable that our finance subsidiaries will be unable to collect all amounts due according to the original terms of the loan. The determination of whether dealer loans are impaired is based on evaluations of dealerships' payment history, financial condition and cash flows, and their ability to perform under the terms of the loans. Dealer loans that have not been specifically identified as impaired are collectively evaluated for impairment.

**Table of Contents**

## HONDA MOTOR CO., LTD. AND SUBSIDIARIES

## Notes to Consolidated Financial Statements

Honda regularly reviews the adequacy of the allowance for credit losses. The estimates are based on information available as of each reporting date. However, actual losses may differ from the original estimates as a result of actual results varying from those assumed in our estimates with inherently uncertain items.

The following tables present the changes in the allowance for credit losses on finance receivables for the nine months ended December 31, 2013 and 2014.

**For the nine months ended December 31, 2013**

	Yen (millions)			
	Retail	Direct financing lease	Wholesale	Total
Balance at beginning of period	¥ 17,643	¥ 789	¥ 1,284	¥ 19,716

Adjustments from foreign currency translation	1,777	44	103	1,924
Balance at end of period	¥ 23,621	¥ 614	¥ 2,522	¥ 26,757

In the finance subsidiaries of the Company in North America, retail and direct financing lease receivables are charged off when they become 120 days past due or earlier if they have been specifically identified as uncollectible. Wholesale receivables are charged off when they have been individually identified as uncollectible. In the finance subsidiaries of the Company in other areas except for North America, finance receivables are charged off when they have been identified as substantially uncollectible according to the internal standards of each subsidiary.

**Table of Contents**

4

## HONDA MOTOR CO., LTD. AND SUBSIDIARIES

## Notes to Consolidated Financial Statements

*Delinquencies*

In the finance subsidiaries of the Company in North America, retail and direct financing lease receivables are considered delinquent if more than 10% of a monthly scheduled payment is contractually past due on a cumulative basis. Wholesale receivables are considered delinquent when any principal payments are past due. In the finance subsidiaries of the Company in other areas except for North America, finance receivables are considered delinquent when any principal payments are past due.

The following tables present the age analysis of past due finance receivables at March 31, 2014 and December 31, 2014.

**As of March 31, 2014**

	Yen (millions)					Current*	Total finance receivables

*Credit quality indicators*

The collection experience of consumer finance receivables provides an indication of the credit quality of consumer finance receivables. The likelihood of accounts charging off becomes significantly higher once an account becomes 60 days delinquent. The table below segments the Company's portfolio of consumer finance receivables between groups the Company considers to be performing and nonperforming. Accounts that are delinquent for 60 days or greater are included in the nonperforming group and all other accounts are considered to be performing.

The following tables present the balances of consumer finance receivables by this credit quality indicator at March 31, 2014 and December 31, 2014.

**As of March 31, 2014**

	Yen (millions)		Total consumer finance receivables

## HONDA MOTOR CO., LTD. AND SUBSIDIARIES

## Notes to Consolidated Financial Statements

A credit quality indicator for wholesale receivables is the internal risk ratings for the dealerships. Dealerships are assigned an internal risk rating based primarily on their financial condition. At a minimum, risk ratings for dealerships are updated annually and more frequently for dealerships with weaker risk ratings. The table below presents outstanding wholesale receivables balances by the internal risk rating group. Group A includes the loans of dealerships with the highest credit quality characteristics in the strongest risk rating tier. Group B includes the loans of all remaining dealers and are considered to have weaker credit quality characteristics. Although the likelihood of losses can be higher for dealerships in Group B, the overall risk of losses is not considered to be significant.

The following tables present the balances of wholesale receivables by this credit quality indicator at March 31, 2014 and December 31, 2014.

**As of March 31, 2014**

	Yen (millions)		Total
	Group A	Group B	
Wholesale			
Wholesale flooring	¥ 245,019	¥ 189,200	¥ 434,219
Commercial loans	36,364	26,812	63,176
Total	¥ 281,383	¥ 216,012	¥ 497,395

**As of December 31, 2014**

	Yen (millions)		Total
	Group A	Group B	
Wholesale			
Wholesale flooring	¥ 259,365	¥ 188,156	¥ 447,521
Commercial loans	60,451	34,695	95,146
Total	¥ 319,816	¥ 222,851	¥ 542,667

*Other finance receivables*

Except for the finance subsidiaries-receivables, the other finance receivables about which credit quality information and the allowance for credit losses are required to be disclosed of ¥29,605 million and ¥25,504 million are included in other current assets, investments and advances-other and other assets in the consolidated balance sheets at March 31, 2014 and December 31, 2014, respectively. Honda estimates, individually, the collectibility of the other finance receivables based on the financial condition of the debtor. The impaired finance receivables amounted to ¥20,094 million and ¥20,095 million at March 31, 2014 and December 31, 2014, respectively, for which the allowance for credit losses were ¥19,996 million and ¥19,997 million at March 31, 2014 and December 31, 2014, respectively.

Regarding the other finance receivables which are not impaired, there are no past due receivables.

12 months or longer	7,351	553	8,570	565
Total	¥ 16,228	¥ 777	¥ 21,453	¥ 1,123
<b>Held-to-maturity:</b>				
Less than 12 months	¥	¥	¥ 16,246	¥ 3
12 months or longer				
Total	¥	¥	¥ 16,246	¥ 3

Honda does not believe the decline in fair value of any of its investment securities to be other than temporary, based on factors such as financial and operating conditions of the issuer, the industry in which the issuer operates, degree and period of the decline in fair value and other relevant factors.

**(6) Pension and Other Postretirement Benefits**

In September 2013, certain consolidated subsidiaries in North America amended their defined benefit pension plans, effective January 1, 2014.

This plan amendment resulted in a reduction of the projected benefit obligation and recognition of the prior service benefit at the date of the plan amendment which is amortized over the average remaining service period from the date of the plan amendment. The consolidated subsidiaries also remeasured their projected benefit obligation and the fair value of related plan assets at the date of the plan amendment. The effects of the plan amendment and the remeasurement are recorded in other comprehensive income (loss), net of tax during the three months ended September 30, 2013.

Following this plan amendment, certain employees elected to move to the defined contribution pension plan in October 2013, resulting in a curtailment in the defined benefit pension plans. As a result, Honda recognized ¥21,368 million of the prior service benefit included in accumulated other comprehensive income (loss) as a curtailment gain, of which ¥15,407 million is included in cost of sales and ¥5,961 million is included in selling, general and administrative expense in the accompanying consolidated statements of income for the three months ended December 31, 2013. The consolidated subsidiaries also remeasured their projected benefit obligation and the fair value of plan assets in the defined benefit pension plans at the date of the curtailment. The effect of the remeasurement is recorded in other comprehensive income (loss), net of tax during the three months ended December 31, 2013.

## HONDA MOTOR CO., LTD. AND SUBSIDIARIES

## Notes to Consolidated Financial Statements

**(8) Fair Value Measurements**

In accordance with the FASB Accounting Standards Codification (ASC) 820 Fair Value Measurements and Disclosures, Honda uses a three-level hierarchy when measuring fair value. The following is a description of the three hierarchy levels:

**Level 1** Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access as of the measurement date

**Level 2** Inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly or indirectly

**Level 3** Unobservable inputs for the assets or liabilities

The level in the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest input that is significant to the fair value measurement in its entirety.

The following tables present the assets and liabilities measured at fair value on a recurring basis as of March 31, 2014 and December 31, 2014.

**As of March 31, 2014**

HONDA MOTOR CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

The valuation methodologies for the assets and liabilities measured at fair value on a recurring basis are as follows:

*Foreign exchange and interest rate instruments (note 9)*

The fair values of foreign currency forward exchange contracts and foreign currency option contracts are estimated by using market observable inputs such as spot exchange rates, discount rates and implied volatility. Fair value measurements for foreign currency forward exchange contracts and foreign currency option contracts are classified as Level 2. The fair values of currency swap agreements and interest rate swap agreements are estimated by discounting future cash flows using market observable inputs such as LIBOR rates, swap rates, and foreign exchange rates. Fair value measurements for these currency swap agreements and interest rate swap agreements are classified as Level 2.

The credit risk of Honda and its counterparties are considered in the valuation of foreign exchange and interest rate instruments.

*Marketable equity securities*

The fair value of marketable equity securities is estimated by using quoted market prices. Fair value measurement for marketable equity securities is classified as Level 1.

*Auction rate securities*

The subsidiary's auction rate securities holdings were AAA rated and are insured by qualified guarantee agencies, and reinsured by the Secretary of Education and United States Government, and are guaranteed about 95% by the United States Government. To estimate fair value of auction rate securities, Honda uses a third-party-developed valuation model which obtains a wide array of market observable inputs, as well as unobservable inputs including probability of passing or failing auction at each auction. Fair value measurement for auction rate securities is classified as Level 3.

*Debt securities*

Debt securities consist mainly of corporate bonds and local bonds and the fair values are estimated based on proprietary pricing models provided by specialists and/or market makers and the models obtain a wide array of market observable inputs such as credit ratings and discount rates. Fair value measurement for debt securities is classified as Level 2.

Honda did not have significant assets and liabilities measured at fair value on a nonrecurring basis as of and for the year ended March 31, 2014. For the nine months ended December 31, 2014, Honda measured certain investments in affiliates which have quoted market values at fair value on a nonrecurring basis due to the recognition of impairment loss (note 1(d)). The fair value of the investments was ¥21,454 million and estimated by using quoted market price. Fair value measurement for the investment is classified as Level 1.

For the three months ended December 31, 2014, Honda did not have significant assets and liabilities measured at fair value on a nonrecurring basis.

Honda has not elected the fair value option for the year ended March 31, 2014 and the nine months ended December 31, 2014.

**Table of Contents**

18

## HONDA MOTOR CO., LTD. AND SUBSIDIARIES

## Notes to Consolidated Financial Statements

The estimated fair values of significant financial instruments at March 31, 2014 and December 31, 2014 are as follows:

	Yen (millions)			
	March 31, 2014		December 31, 2014	
	Carrying amount	Estimated fair value	Carrying amount	Estimated fair value
Finance subsidiaries-receivables*	¥ 5,140,064	¥ 5,175,564	¥ 5,797,044	¥ 5,818,131
Held-to-maturity securities	34,650	34,667	41,046	41,043
Debt	(5,856,874)	(5,917,087)	(6,921,298)	(6,978,138)

\* The carrying amounts of finance subsidiaries-receivables at March 31, 2014 and December 31, 2014 in the table exclude ¥393,933 million and ¥422,753 million, respectively, of direct financing leases, net, classified as finance subsidiaries-receivables in the consolidated balance sheets. The carrying amounts of finance subsidiaries-receivables at March 31, 2014 and December 31, 2014 in the table also include ¥752,229 million and ¥801,815 million of finance receivables classified as trade accounts and notes receivable and other assets in the consolidated balance sheets, respectively.

The estimated fair values have been determined using relevant market information and appropriate valuation methodologies. However, these estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. The effect of using different assumptions and/or estimation methodologies may be significant to the estimated fair values.

The methodologies and assumptions used to estimate the fair values of financial instruments are as follows:

*Cash and cash equivalents, trade receivables and trade payables*

The carrying amounts approximate fair values because of the short maturity of these instruments.

*Finance subsidiaries-receivables*

The fair values of retail receivables and commercial loans are estimated by discounting future cash flows using the current rates for these instruments of similar remaining maturities. Given the short maturities of wholesale flooring receivables, the carrying amount of those receivables approximates fair value. Fair value measurements for retail receivables and commercial loans are mainly classified as Level 3.

*Held-to-maturity securities*

The fair value of Government bonds is estimated by using quoted market prices. Fair value measurement of those Government bonds is classified as Level 1. The fair values of corporate bonds and local bonds are estimated based on proprietary pricing models provided by specialists and/or market makers and the models obtain a wide array of market observable inputs such as credit ratings and discount rates. Fair value measurement for these securities is classified as Level 2.

*Debt*

## Edgar Filing: HONDA MOTOR CO LTD - Form 6-K

The fair values of bonds are estimated by using quoted market prices. Fair value measurement of those bonds is mainly classified as Level 1. The fair values of short-term loans and long-term loans are estimated by discounting future cash flows using interest rates currently available for loans of similar terms and remaining maturities. Fair value measurements for these loans are mainly classified as Level 2.

## HONDA MOTOR CO., LTD. AND SUBSIDIARIES

## Notes to Consolidated Financial Statements

**(9) Risk Management Activities and Derivative Financial Instruments**

Honda uses derivative financial instruments in the normal course of business to reduce their exposure to fluctuations in foreign exchange rates and interest rates (note 8). Currency swap agreements are used to manage currency risk exposure on foreign currency denominated debt. Foreign currency forward exchange contracts and purchased option contracts are used to hedge currency risk of sale commitments denominated in foreign currencies (principally U.S. dollars). Foreign currency written option contracts are entered into in combination with purchased option contracts to offset premium amounts to be paid for purchased option contracts. Interest rate swap agreements are mainly used to manage interest rate risk exposure and to convert floating rate financing, such as commercial paper, to (normally three-five years) fixed rate financing in order to match financing costs with income from finance receivables. These instruments involve, to varying degrees, elements of credit, exchange rate and interest rate risks in excess of the amount recognized in the consolidated balance sheets.

The aforementioned instruments contain an element of risk in the event the counterparties are unable to meet the terms of the agreements. However, Honda minimizes the risk exposure by limiting the counterparties to major international banks and financial institutions meeting established credit guidelines. Management of Honda does not expect any counterparty to default on its obligations and, therefore, does not expect to incur any losses due to counterparty default. Honda currently does not require or place collateral for these financial instruments with any counterparties.

Contract amounts outstanding for foreign currency forward exchange contracts, foreign currency option contracts and currency swap agreements and the notional principal amounts of interest rate swap agreements at March 31, 2014 and December 31, 2014 are as follows:

Derivatives not designated as hedging instruments

	Yen (millions)	
	March 31, 2014	December 31, 2014
Foreign currency forward exchange contracts	¥ 506,734	¥ 514,843
Foreign currency option contracts	3,721	3,191
Currency swap agreements	366,031	272,829
Total foreign exchange instruments	¥ 876,486	¥ 790,863
Interest rate swap agreements	¥ 4,809,037	¥ 5,975,323
Total interest rate instruments	¥ 4,809,037	¥ 5,975,323

## HONDA MOTOR CO., LTD. AND SUBSIDIARIES

## Notes to Consolidated Financial Statements

*Cash flow hedges*

The Company applies hedge accounting for certain foreign currency forward exchange contracts related to forecasted foreign currency transactions between the Company and its subsidiaries. Changes in the fair value of derivative financial instruments designated as cash flow hedges are recognized in other comprehensive income (loss). The amounts are reclassified into earnings in the same period when forecasted hedged transactions affect earnings. The Company did not hold any derivative financial instruments designated as cash flow hedges and there was no amount recognized in accumulated other comprehensive income (loss) at March 31, 2014.

The period that hedges the changes in cash flows related to the risk of foreign currency rate was at most around two months for the year ended March 31, 2014. There were no derivative financial instruments where hedge accounting had been discontinued due to the forecasted transaction no longer being probable. The Company excluded financial instruments' time value component from the assessment of hedge effectiveness. There was no portion of hedging instruments that had been assessed ineffective.

There are no derivative financial instruments designated as cash flow hedges for the nine months ended December 31, 2014.

*Derivative financial instruments not designated as accounting hedges*

Changes in the fair value of derivative financial instruments not designated as accounting hedges are recognized in earnings in the period of the change.

The estimated fair values of derivative instruments at March 31, 2014 and December 31, 2014 are as follows:

**As of March 31, 2014***Derivatives not designated as hedging instruments*

	Gross fair value		Yen (millions)		
	Asset derivatives	Liability derivatives	Other current assets	Balance sheet location Other assets      Other current liabilities	
Foreign exchange instruments	¥ 11,036	¥ (14,852)	¥ 4,910	¥ 2,288	¥ (11,014)

## HONDA MOTOR CO., LTD. AND SUBSIDIARIES

## Notes to Consolidated Financial Statements

**(10) Contingent Liabilities**

Honda has entered into various guarantee and indemnification agreements. At March 31, 2014 and December 31, 2014, Honda has guaranteed ¥25,368 million and ¥22,775 million of bank loans of employees for their housing costs, respectively. If an employee defaults on his/her loan payments, Honda is required to perform under the guarantee. The undiscounted maximum amounts of Honda's obligation to make future payments in the event of defaults at March 31, 2014 and December 31, 2014 are ¥25,368 million and ¥22,775 million, respectively. At December 31, 2014, no amount has been accrued for any estimated losses under the obligations, as it is probable that the employees will be able to make all scheduled payments.

Honda warrants its products for specific periods of time. Honda also provides specific warranty programs, including product recalls, as needed. Product warranties vary depending upon the nature of the product, the geographic location of its sale and other factors.

The changes in the accrued liabilities for those product warranties for the year ended March 31, 2014 and the nine months ended December 31, 2014 are as follows:

	Yen (millions)	
	March 31, 2014	December 31, 2014
Balance at beginning of period	¥ 208,033	¥ 269,620
Warranty claims paid during the period	(104,090)	(98,579)
Liabilities accrued for warranties issued during the period	153,898	130,484
Changes in liabilities for pre-existing warranties during the period	397	274
Foreign currency translation	11,382	27,518
Balance at end of period	¥ 269,620	¥ 329,317

With respect to product liability, personal injury claims or lawsuits, Honda believes that any judgment that may be recovered by any plaintiff for general and special damages and court costs will be adequately covered by Honda's insurance and accrued liabilities. Punitive damages are claimed in certain of these lawsuits. Honda is also subject to potential liability under other various lawsuits and claims. Honda recognizes an accrued liability for loss contingencies when it is probable that an obligation has been incurred and the amount of loss can be reasonably estimated. Honda reviews these pending lawsuits and claims periodically and adjusts the amounts recorded for these contingent liabilities, if necessary, by considering the nature of lawsuits and claims, the progress of the case and the opinions of legal counsel. After consultation with legal counsel, and taking into account all known factors pertaining to existing lawsuits and claims, Honda believes that the ultimate outcome of such lawsuits and pending claims should not result in liability to Honda that would be likely to have an adverse material effect on its consolidated financial position, results of operations or cash flows.

(Loss related to defects of airbag inflators)

Honda is expanding warranty programs with regard to the product recalls and SIC (Safety Improvement Campaign) related to defects of airbag inflators.

## Edgar Filing: HONDA MOTOR CO LTD - Form 6-K

Honda recognizes an accrued warranty liability for specific warranty costs we deem probable and which can be reasonably estimated related to the product recalls and SIC.

In the North America, various lawsuits related to the above mentioned product recalls and SIC have been filed against Honda. Honda recognizes an accrued liability for loss contingencies when it is probable that an obligation has incurred and the amount of loss can be reasonably estimated. Regarding the above, Honda does not recognize an accrued liability for loss contingencies because the conditions have not been met as of the date of this report. Also, it is not possible to reasonably estimate the amount of a possible future loss at this time.

## Notes to Consolidated Financial Statements

**(12) Segment Information**

Honda has four reportable segments: Motorcycle business, Automobile business, Financial services business and Power product and other businesses, which are based on Honda's organizational structure and characteristics of products and services. Operating segments are defined as components of Honda's about which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. The accounting policies used for these reportable segments are consistent with the accounting policies used in Honda's consolidated financial statements.

Principal products and services, and functions of each segment are as follows:

<b>Segment</b>	<b>Principal products and services</b>	<b>Functions</b>
Motorcycle Business	Motorcycles, all-terrain vehicles  (ATVs) and relevant parts	Research & Development  Manufacturing  Sales and related services
Automobile Business	Automobiles and relevant parts	Research & Development  Manufacturing  Sales and related services
Financial Services Business	Financial, insurance services	Retail loan and lease related to Honda products  Others
Power Product and Other Businesses	Power products and relevant parts,  and others	Research & Development  Manufacturing  Sales and related services  Others

HONDA MOTOR CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

Explanatory notes:

1. Segment income (loss) of each segment is measured in a consistent manner with consolidated operating income, which is income before income taxes and equity in income of affiliates before other income (expenses). Expenses not directly associated with specific segments are allocated based on the most reasonable measures applicable.
2. Segment assets of each segment are defined as total assets, including derivative financial instruments, investments in affiliates, and deferred tax assets. Segment assets are based on those directly associated with each segment and those not directly associated with specific segments are allocated based on the most reasonable measures applicable except for the corporate assets described below.
3. Intersegment sales and revenues are generally made at values that approximate arm's-length prices.
4. Unallocated corporate assets, included in reconciling items, amounted to ¥305,906 million as of December 31, 2013 and ¥290,623 million as of December 31, 2014, respectively, which consist primarily of cash and cash equivalents, available-for-sale securities and held-to-maturity securities held by the Company. Reconciling items also include elimination of intersegment transactions.
5. Depreciation and amortization of Financial services business include ¥253,920 million for the nine months ended December 31, 2013 and ¥312,367 million for the nine months ended December 31, 2014, respectively, of depreciation of property on operating leases.
6. Capital expenditure of Financial services business includes ¥833,232 million for the nine months ended December 31, 2013 and ¥1,078,016 million for the nine months ended December 31, 2014, respectively, of purchase of operating lease assets.
