At December 31, 2014, there were no transfers between Level 1 and Level 2.

The following is a rollforward of the Fund's investments that were valued using unobservable inputs for the period.

	Collateralized debt obligations	Total
Assets		
Beginning balance	\$ 1,803,750	\$ 1,803,750
Purchases	292,350	292,350
Issuances		
Accrued discounts (premiums)		
Total realized gain		
Change in net unrealized appreciation/depreciation	(6,765)	(6,765)
Transfers into Level 3	532,125	532,125
Transfers out of Level 3	(1,796,985)	(1,796,985)
Ending balance	\$ 824,475	\$ 824,475

Edgar Filing: FORT DEARBORN INCOME SECURITIES INC - Form N-Q

The change in net unrealized appreciation/depreciation relating to the Level 3 investments held at December 31, 2014 was \$(6,765).

Fort Dearborn Income Securities, Inc.**Portfolio of investments December 31, 2014 (unaudited)****Portfolio footnotes**

* Non-income producing security.

- ¹ Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. These securities are considered liquid, unless noted otherwise, and may be resold in transactions exempt from registration, normally to qualified institutional buyers. At December 31, 2014, the value of these securities amounted to \$31,554,278 or 22.77% of net assets.
- ² Variable or floating rate security The interest rate shown is the current rate as of December 31, 2014 and changes periodically.
- ³ Perpetual investment. Date shown reflects the next call date.
- ⁴ Security exempt from registration pursuant to Regulation S under the Securities Act of 1933. Regulation S applies to securities offerings that are made outside of the United States and do not involve direct selling efforts in the United States. At December 31, 2014, the value of this security amounted to \$421,468 or 0.30% of net assets.
- ⁵ On September 7, 2008, the Federal Housing Finance Agency placed the Federal Home Loan Mortgage Corporation and the Federal National Mortgage Association into conservatorship, and the US Treasury guaranteed the debt issued by those organizations.
- ⁶ The table below details the Fund's investment in a fund advised by the same Advisor as the Fund. The Advisor does not earn a management fee from the affiliated UBS Relationship Fund.

Security description	Value 09/30/14	Purchases during the three months ended 12/31/14	Sales during the three months ended 12/31/14	Value 12/31/14	Net income earned from affiliate for the three months ended 12/31/14
UBS Cash Management Prime Relationship Fund	\$ 2,708,315	\$ 5,443,689	\$ 7,818,739	\$ 333,265	\$ 216

- ⁷ The Fund calculates its net asset value based on the current market value, where available, for its portfolio securities. The Fund normally obtains market values for its investments from independent pricing sources and broker-dealers. Independent pricing sources may use last reported sale prices, official market closing prices, current market quotations or valuations from computerized evaluation systems that derive values based on comparable investments. A evaluation investments system incorporates parameters such as security quality, maturity and coupon, and/or research and evaluations by its staff, including review of broker-dealer market price quotations, if available, in determining the valuation of the portfolio investments. Investments also maybe valued based on appraisals derived from information concerning the investments or similar investments received from recognized dealers in those holdings. Investments traded in the over-the-counter (OTC) market and listed on The NASDAQ Stock Market, Inc. (NASDAQ) normally are valued at the NASDAQ Official Closing Price. Other OTC securities are valued at the last bid price on the valuation date available prior to valuation. Investments which are listed on US and foreign stock exchanges normally are valued at the market closing price, the last sale price on the day the securities are valued or, lacking any sales on such day, at the last available bid price. In cases where investments are traded on more than one exchange, the investments are valued on the exchange designated as the primary market by UBS Global Asset Management (Americas) Inc. (UBS Global AM), the investment advisor of the Fund. If a market value is not available from an independent pricing source for a particular investment, that investment is valued at fair value as determined in good faith by or under the direction of the Fund's Board of Directors (the Board). Various factors may be reviewed in order to make a good faith determination of an investment's fair value. These factors include, but are not limited to, fundamental analytical data relating to the investment; the nature and duration of restrictions on disposition of the investments; and the evaluation of forces which influence the market in which the investments are purchased and sold. Certain investments in which the Fund invests are traded in markets that close before 4:00 p.m., Eastern time. Normally, developments that occur between the close of the foreign markets and 4:00 p.m. Eastern Time will not be reflected in the Fund's net asset value. However, if the Fund determines that such developments are so significant that they will materially affect the value of the Fund's investments, the Fund may adjust the previous closing prices to reflect what is believed to be the fair value of these investments as of 4:00 p.m. Eastern Time. Investments in open-end investment companies are valued at the daily closing net asset value of the respective investment company. Pursuant to the Fund's use of the practical expedient within ASC Topic 820, investments in nonregistered investment companies are also valued at the daily net

asset value.

- ⁸ If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash or securities equal to the notional amount of the swap agreement less the recovery value of the underlying securities comprising the referenced index.
- ⁹ Payments from/to the counterparty will be received/made upon the occurrence of bankruptcy and/or restructuring event with respect to the referenced index/obligation.

- ¹⁰ Payments made or received are based on the notional amount.
- ¹¹ Credit spreads, represented in absolute terms, utilized in determining the market value as of period end serve as an indicator of the current status of the payment/performance risk and represent the likelihood or risk of default or other credit event occurring for the credit derivative. The credit spread of a particular referenced entity reflects the cost of buying/selling protection and may include upfront payments required to be made to enter into the agreement. Wider credit spreads represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement. A credit spread identified as Defaulted indicates a credit event has occurred for the referenced entity.
- ¹² If the Fund is a buyer of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) receive from the seller of protection an amount equal to the notional amount of the swap and deliver the referenced obligation or underlying securities comprising the referenced index or (ii) receive a net settlement amount in the form of cash or securities equal to the notional amount of the swap agreement less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- ¹³ Illiquid investment as of December 31, 2014.

Portfolio acronyms

BAMLL	Bank of America Merrill Lynch
CLO	Collateralized Loan Obligations
GO	General Obligation
GS	Goldman Sachs
GSR	Goldman Sachs Residential
IO	Interest only This security entitles the holder to receive interest payments from an underlying pool of mortgages. The risk associated with this security is related to the speed of the principal paydowns. High prepayments would result in a smaller amount of interest being received and cause the yield to decrease. Low prepayments would result in a greater amount of interest being received and cause the yield to increase.
REIT	Real Estate Investment Trust
REMIC	Real Estate Mortgage Investment Conduit

Counterparty abbreviations

BOA	Bank of America
JPMCB	JPMorgan Chase Bank

Currency abbreviations

GBP	Great Britain Pound
USD	United States Dollar

The Fund's Board of Directors (the Board) has delegated to the UBS Global Asset Management Global Valuation Committee (GVC) the responsibility for making fair value determinations with respect to the Fund's portfolio holdings. The GVC is comprised of representatives of management, including members of the investment team.

The GVC provides reports to the Board at each quarterly meeting regarding any investments that have been fair valued, valued pursuant to standing instructions approved by the GVC, or where non-vendor pricing sources had been used to make fair value determinations when sufficient information exists during the prior quarter. Fair valuation determinations are subject to review at least monthly by the GVC during scheduled meetings. Pricing decisions, processes, and controls over fair value determinations are subject to internal and external reviews, including annual internal compliance reviews and periodic internal audit reviews.

The types of investments for which such fair value pricing may be necessary include, but are not limited to: foreign investments under some circumstances, as discussed below, securities of an issuer that has entered into a restructuring; investments whose trading has been halted or suspended; fixed income securities that are in default and for which there is no current market value quotation; and investments that are restricted as to transfer or resale. The need to fair value the Fund's portfolio investments may also result from low trading volume in foreign markets or thinly traded domestic investments, and when a security that is subject to a trading limit or collar on the exchange or market on which it is primarily traded reaches the limit up or limit down price and no trading has taken place at that price. Various factors may be reviewed in order to make a good faith determination of an investment's fair value. These factors include, but are not limited to, fundamental analytical data relating to the investment; the nature and duration of restrictions on disposition of investments; and the evaluation of forces which influence the market in which the investments are purchased and sold. Valuing investments at fair value involves greater reliance on judgment than valuing investments that have readily available market quotations. Fair value determinations can also involve reliance on quantitative models employed by a fair value pricing service.

US Generally Accepted Accounting Principles (GAAP) requires disclosure regarding the various inputs that are used in determining the value of the Fund's investments. These inputs are summarized into the three broad levels listed below:

Level 1 Unadjusted quoted prices in active markets for identical investments.

Level 2 Other significant observable inputs, including but not limited to, quoted prices for similar investments, interest rates, prepayment speeds and credit risk.

Level 3 Unobservable inputs inclusive of the Fund's own assumptions in determining the fair value of investments.

A fair value hierarchy has been included near the end of the Fund's Portfolio of investments.

For more information regarding the Fund's other significant accounting policies, please refer to the Fund's annual report to shareholders dated September 30, 2014.

Item 2. Controls and Procedures.

- (a) The registrant's principal executive officer and principal financial officer have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended ("Investment Company Act")) are effective based on their evaluation of these controls and procedures as of a date within 90 days of the filing date of this document.

- (b) The registrant's principal executive officer and principal financial officer are aware of no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act) that occurred during the registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 3. Exhibits.

- (a) Certifications of principal executive officer and principal financial officer of registrant pursuant to Rule 30a-2(a) under the Investment Company Act is attached hereto as Exhibit EX-99.CERT.
