Notes to Condensed Consolidated Financial Statements

(Unaudited)

1. Basis of Presentation

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In our opinion, all adjustments (consisting primarily of normal and recurring adjustments) considered necessary for a fair presentation have been included. Due to the seasonality of our business, results for any quarter are not necessarily indicative of the results that may be achieved for a full fiscal year. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in our Annual Report on Form 10-K for the year ended January 30, 2016, filed with the Securities and Exchange Commission (SEC) on April 11, 2016.

As used herein, the terms we, our, us and Stein Mart refer to Stein Mart, Inc. and its wholly-owned subsidiaries.

Recent Accounting Pronouncements

In March 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2016-09 *Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting*. This standard makes several modifications to ASC Topic 718 related to the accounting for forfeitures, employer tax withholding on share-based compensation and the financial statement presentation of excess tax benefits or deficiencies. ASU No. 2016-09 also clarifies the statement of cash flows presentation for certain components of share-based awards. The standard is effective for interim and annual reporting periods beginning after December 15, 2016, with early adoption permitted. We will adopt ASU No. 2019-09 in the first quarter of 2017 and we believe that this adoption will not have a material effect on our financial condition, results of operations or cash flows.

In March 2016, the FASB issued ASU No. 2016-04, *Liabilities-Extinguishments of Liabilities (Subtopic 405-20): Recognition of Breakage for Certain Prepaid Stored-Value Products*. The amendments in the ASU are designed to provide guidance and eliminate diversity in practice of accounting for derecognition of prepaid stored-value product liabilities. Typically, a prepaid stored-value product liability is to be derecognized when it is probable that a significant reversal of the recognized breakage amount will not subsequently occur. This is when the likelihood of the product holder exercising its remaining rights becomes remote. This estimate shall be updated at the end of each period. The amendments are effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. Earlier application is permitted. We plan to adopt this ASU in the fiscal year 2018, and do not expect the adoption to have a material effect on our financial condition, results of operations or cash flows.

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*. This update requires organizations to recognize lease assets and lease liabilities on the balance sheet and also disclose key information about leasing arrangements. This ASU is effective for annual reporting periods beginning on or after December 15, 2018, and interim periods within those annual periods. Earlier application is permitted for all entities as of the beginning of an interim or annual period. We are currently evaluating the effect the adoption of this ASU will have on our financial condition, results of operations and cash flows.

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*. ASU No. 2014-09 provides a comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. ASU No. 2014-09 will require an entity to recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This update creates a five-step model that requires entities to exercise judgment when considering the terms of the contract(s) which include (i) identifying the contract(s) with the customer, (ii) identifying the separate performance obligations in the contract, (iii) determining the transaction price, (iv) allocating the transaction price to the separate performance obligations, and (v) recognizing revenue when each performance obligation is satisfied. This update also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts. This update permits the use of either the retrospective or cumulative effect transition method. ASU No. 2016-08, *Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations* was issued by FASB in March 2016 to clarify the principal versus agent considerations within ASU No. 2014-09. ASU No. 2016-10, *Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing* was issued by the FASB in April 2016 to clarify how to determine whether goods and services are separately identifiable and thus accounted for as separate performance obligations. ASU No. 2016-12, *Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients* was issued by the FASB in May 2016 to clarify certain terms from the aforementioned updates and to add practical expedients for contracts at various stages of completion. This guidance was deferred by ASU No. 2015-14, issued by the FASB in August 2015, and is effective for annual and interim reporting periods beginning after December 15, 2017, with early

adoption permitted for annual and interim reporting periods beginning after December 15, 2016. We have the option to apply the provisions of ASU No. 2014-09 either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of applying this ASU recognized at the date of initial application. While we are still in the process of evaluating the effect, and the method of adoption, that these ASUs may have on our financial statements, we do not currently expect a material effect on our financial condition, results of operations or cash flows.

2. Shareholders' Equity

Dividends

During the 26 weeks ended July 30, 2016, we paid two quarterly dividends of \$0.075 per common share on April 15, 2016 and July 15, 2016. During the 26 weeks ended August 1, 2015, we paid two quarterly dividends of \$0.075 per common share on April 17, 2015 and July 17, 2015.

On February 4, 2015, we announced that our Board of Directors declared a special cash dividend of \$5.00 per common share which was paid on February 27, 2015. As a result of the special cash dividend, all outstanding stock options and performance share awards were modified during 2015 so that they retained the same fair value. No incremental compensation expense resulted from these modifications.

Stock Repurchase Plan

During the 13 weeks ended July 30, 2016, we repurchased 7,376 shares of our common stock at a total cost of approximately \$0.1 million. During the 13 weeks ended August 1, 2015, we repurchased 8,833 shares of our common stock at a total cost of approximately \$0.1 million. During the 26 weeks ended July 30, 2016, we repurchased 150,658 shares of our common stock at a total cost of approximately \$1.0 million. During the 26 weeks ended August 1, 2015, we repurchased 198,973 shares of our common stock at a total cost of approximately \$3.1 million. Stock repurchases were for tax withholding amounts due on employee stock awards and during the first half of 2016 and 2015 included no shares purchased on the open market under our previously authorized stock repurchase plan. As of July 30, 2016, there are 570,216 shares that can be repurchased pursuant to the Board of Directors' current authorization.

3. Earnings per Share

Our restricted stock awards granted in 2013 and prior contain non-forfeitable rights to dividends and, as such, are considered participating securities. Participating securities are to be included in the calculation of earnings per share under the two-class method. In applying the two-class method, income is allocated to both common stock shares and participating securities based on their respective weighted-average shares outstanding for the period.

Options totaling approximately 2.5 million and 1.9 million shares of common stock that were outstanding during the 13 and 26 weeks ended July 30, 2016, respectively, were not included in the computation of diluted earnings per common share because their inclusion would have been anti-dilutive. Options totaling approximately 0.5 million and 0.2 million shares of common stock that were outstanding during the 13 and 26 weeks ended August 1, 2015, respectively, were not included in the computation of diluted earnings per common share because their inclusion would have been anti-dilutive.

4. Commitments and Contingencies

We are involved in various routine legal proceedings incidental to the conduct of our business. During the 13 weeks ended July 30, 2016 and August 1, 2015, we accrued \$0.4 million and less than \$0.1 million, respectively, and during the 26 weeks ended July 30, 2016 and August 1, 2015, we accrued \$1.8 million and \$0.1 million, respectively, for actual and anticipated legal settlements. While some of these matters could be material to our results of operations or cash flows for any particular period if an unfavorable outcome results, we do not believe that the ultimate resolution of currently pending legal proceedings, either individually or in the aggregate, will have a material adverse effect on our overall financial condition.

Sales percent increase:						
Total net sales			2.6%			1.6%
Comparable store sales			(1.4)%			(2.5)%

The 1.4 percent and 2.5 percent decreases in comparable stores sales for the 13 and 26 weeks ended July 30, 2016, respectively, were both driven by decreases in the number of transactions and average unit retail prices, partially offset by Ecommerce sales. Comparable store sales reflect stores open throughout the period and prior fiscal year and include Ecommerce sales. Ecommerce sales contributed approximately 30 basis points and 40 basis points to the comparable store sales for the 13 and 26 weeks ended July 30, 2016. Ecommerce sales contributed approximately 180 basis points and 160 basis points of net sales for the 13 weeks ended July 30, 2016 and August 1, 2015, respectively and approximately 180 basis points and 150 basis points of net sales for the 26 weeks ended July 30, 2016 and August 1, 2015, respectively.

1, 2015, respectively. Comparable store sales do not include leased department commissions.

Gross Profit

	13 Weeks Ended	13 Weeks Ended	Increase/ (Decrease)	26 Weeks Ended	26 Weeks Ended	Increase/ (Decrease)
	July 30, 2016	August 1, 2015		July 30, 2016	August 1, 2015	
Gross profit	\$ 89,439	\$ 88,935	\$ 504	\$ 198,331	\$ 197,315	\$ 1,016
Percentage of net sales	28.0%	28.5%	(0.5)%	29.4%	29.7%	(0.3)%

The declines in our gross profit rate as a percentage of net sales for the 13 and 26 weeks ended July 30, 2016 compared to the 13 and 26 weeks ended August 1, 2015 were driven by higher markdowns in the 13 weeks ended July 30, 2016 as well as higher occupancy costs that did not leverage on softer sales.

Table of Contents**Selling, General and Administrative Expenses (SG&A)**

	13 Weeks Ended			26 Weeks Ended		
	July 30, 2016	August 1, 2015	Increase	July 30, 2016	August 1, 2015	Increase
Selling, general and administrative expenses	\$ 83,840	\$ 81,545	\$ 2,295	\$ 170,314	\$ 167,167	\$ 3,147
Percentage of net sales	26.2%	26.2%	0.0%	25.2%	25.1%	0.1%

Increases in SG&A in the 13 weeks ended July 30, 2016 compared to the 13 weeks ended August 1, 2015 were driven by additional operating expenses for our new stores. These increases were offset by higher credit card program income, lower incentive compensation and operating savings.

Increases in SG&A in the 26 weeks ended July 30, 2016 compared to the 26 weeks ended August 1, 2015 were driven by additional operating expenses for our new stores as well as higher accruals for actual and anticipated legal settlements. These increases were offset by higher credit card program income, lower incentive compensation and store selling expenses. Credit card income was higher due to the improved economics from our new agreement with Synchrony Financial.

Interest Expense, net

	13 Weeks Ended			26 Weeks Ended		
	July 30, 2016	August 1, 2015	Increase	July 30, 2016	August 1, 2015	Increase
Interest expense	\$ 883	\$ 807	\$ 76	\$ 1,849	\$ 1,493	\$ 356
Percentage of net sales	0.3%	0.3%	0.0%	0.3%	0.2%	0.1%

Interest expense for the 13 weeks ended July 30, 2016 increased compared to the 13 weeks ended August 1, 2015 due primarily to slightly higher short-term interest rates. The increase in interest expense in the 26 weeks ended July 30, 2016 compared to the 26 weeks ended August 1, 2015 is driven by the 2016 period including two full quarters of interest expense on our credit facility. In 2015, we did not begin borrowing on our credit facility until the end of February.

Income Taxes

	13 Weeks Ended			26 Weeks Ended		
	July 30, 2016	August 1, 2015	(Decrease)	July 30, 2016	August 1, 2015	(Decrease)
Income tax expense	\$ 1,709	\$ 2,489	\$ (780)	\$ 9,850	\$ 10,997	\$ (1,147)
Effective tax rate	36.2%	37.8%	(1.6)%	37.6%	38.4%	(0.8)%

The effective tax rate for the 13 and 26 weeks ended July 30, 2016 compared to the 13 and 26 weeks ended August 1, 2015 decreased primarily due to the effect of permanent differences for certain non-deductible expenses and the earlier extension of the Federal Work Opportunity Tax Credit.

Liquidity and Capital Resources

Capital requirements and working capital needs are funded through a combination of internally generated funds, available cash, credit terms from vendors and our \$250 million senior secured revolving credit facility pursuant to a second amended and restated credit agreement with Wells Fargo Bank. Working capital is used to support store inventories and capital investments for system improvements, fund new store openings, maintain existing stores, pay dividends, make debt service payments and repurchase shares of our common stock. Historically, our working capital needs are lowest after our heavy spring selling in March and April and holiday selling in late December and early January. They are highest as we begin paying for our heavy spring, fall, and holiday receipts in late February, October and at the end of November. As of July 30, 2016, we had cash and cash equivalents of \$11.8 million and \$167.4 million in borrowings under our credit facilities. We believe that our cash flows from operations and our available cash and cash equivalents are sufficient to cover our liquidity requirements over the next 12 months.

Table of Contents**Cash Flows**

	26 Weeks Ended July 30, 2016	26 Weeks Ended August 1, 2015	Increase/ (Decrease)
Net cash provided by operating activities	\$ 52,647	\$ 27,368	\$ 25,279
Net cash used in investing activity	(23,939)	(19,786)	4,153
Net cash used in financing activities	(28,773)	(61,276)	(32,503)
Net decrease in cash and cash equivalents	\$ (65)	\$ (53,694)	\$ (53,629)

The increase in net cash provided by operating activities was mainly due to collections on tenant allowances and a signing bonus related to our new credit card program, partially offset by purchases of inventory.

Net cash used in investing activity was entirely for capital expenditures in both periods presented. Capital expenditures were greater for the 26 weeks ended July 30, 2016 primarily due to an additional five new stores and certain relocated stores in the 26 weeks of 2016 compared to one new store in 2015.

During the 26 weeks ended July 30, 2016, net cash used in financing activities consisted of debt repayments of \$187.7 million, cash dividends paid of \$6.9 million and the repurchase of 150,658 shares of our common stock for \$1.0 million, offset by proceeds from borrowings of \$164.9 million, proceeds from the exercise of stock options and ESPP purchases of \$1.4 million and excess tax benefit from share-based compensation of \$0.5 million. During the 26 weeks ended August 1, 2015, net cash used in financing activities consisted of debt repayments of \$239.2 million, cash dividends paid of \$232.3 million, the repurchase of 198,973 shares of our common stock for \$3.1 million and paid \$0.4 million in debt issuance cost, offset by proceeds from borrowings of \$409.4 million, excess tax benefit from share-based compensation of \$3.8 million and proceeds from the exercise of stock options and ESPP purchases of \$0.5 million. Borrowings under our credit facilities were initially used for a special dividend paid during the first quarter of 2015, and have subsequently been used for working capital, capital expenditures and other general corporate purposes. See Note 2 Shareholders Equity of the Notes to the Condensed Consolidated Financial Statements for further discussion.

Critical Accounting Policies and Estimates

We discuss our critical accounting policies and estimates in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, in our Annual Report on Form 10-K for the year ended January 30, 2016. We have made no material changes in our critical accounting policies and estimates since January 30, 2016.

Recent Accounting Pronouncements

Recently issued accounting pronouncements are discussed in Note 1 Basis of Presentation of the Notes to the Condensed Consolidated Financial Statements.

Seasonality and Inflation

Our business is seasonal. Sales and profitability are historically higher in the first and fourth quarters of the fiscal year, which include the spring and holiday seasons. Therefore, results for any quarter are not necessarily indicative of the results that may be achieved for a full fiscal year.

Although we expect that our operations will be influenced by general economic conditions, we do not believe that inflation has had a material effect on our results of operations. However, there can be no assurance that our business will not be affected by inflation in the future.

Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of July 30, 2016 to provide reasonable assurance that information required to be disclosed in our reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.
