Pricing Supplement No. 41

(To Prospectus dated May 1, 2015 and

Prospectus Supplement dated September 11, 2017)

January 31, 2018

Medium-Term Notes, Series M

\$1,500,000,000 Floating Rate Senior Notes, due February 2026

This pricing supplement describes a series of our senior notes that will be issued under our Medium-Term Note Program, Series M.

The notes mature on February 5, 2026. We will pay interest on the notes at a floating rate per annum equal to three-month LIBOR plus a spread of 0.770%, payable quarterly.

We will have the option to redeem the notes prior to the stated maturity as described in this pricing supplement under the heading **Specific Terms of the Notes** Optional Redemption.

The notes are unsecured and rank equally with all of our other unsecured and senior indebtedness outstanding from time to time. We do not intend to list the notes on any securities exchange.

Investing in the notes involves risks. For an explanation of some of these risks, see Risk Factors beginning on page S-5 of the attached prospectus supplement, and Risk Factors beginning on page 9 of the attached prospectus.

None of the Securities and Exchange Commission, any state securities commission, or any other regulatory body has approved or disapproved of these notes or passed upon the adequacy or accuracy of this pricing supplement, the attached prospectus supplement, or the attached prospectus. Any representation to the contrary is a criminal offense.

	<u>Per Note</u>	<u>Total</u>
Public Offering Price	100.000%	\$ 1,500,000,000
Selling Agent's Commission	0.400%	\$ 6,000,000
Proceeds (before expenses)	99.600%	\$ 1,494,000,000

We expect to deliver the notes in book-entry only form through the facilities of The Depository Trust Company on February 5, 2018.

Sole Book-Runner

BofA Merrill Lynch

Table of Contents**SPECIFIC TERMS OF THE NOTES**

The following description of the specific terms of the notes supplements, and should be read together with, the description of our Medium-Term Notes, Series M included in the attached prospectus supplement dated September 11, 2017, and the general description of our debt securities included in Description of Debt Securities in the attached prospectus dated May 1, 2015. If there is any inconsistency between the information in this pricing supplement and the attached prospectus supplement or the attached prospectus, you should rely on the information in this pricing supplement. Capitalized terms used, but not defined, in this pricing supplement have the same meanings as are given to them in the attached prospectus supplement or in the attached prospectus.

Title of the Series:	Floating Rate Senior Notes, due February 2026
Aggregate Principal Amount Initially Being Issued:	\$1,500,000,000
Issue Date:	February 5, 2018
CUSIP No.:	06051GHB8
ISIN:	US06051GHB86
Maturity Date:	February 5, 2026
Minimum Denominations:	\$2,000 and multiples of \$1,000 in excess of \$2,000
Ranking:	Senior
Day Count Fraction:	Actual/360
Base Rate:	Three-Month LIBOR (Reuters page LIBOR01)
Index Maturity:	90 days
Spread:	77 basis points
Interest Periods:	Quarterly
Interest Payment Dates and Interest Reset Dates:	February 5, May 5, August 5 and November 5 of each year, beginning May 5, 2018, subject to adjustment in accordance with the modified following business day convention (adjusted).
Interest Determination Dates:	Second London banking day prior to the applicable Interest Reset Date.
Optional Redemption:	We will have the option to redeem the notes, in whole, but not in part, on February 5, 2025 at 100% of the principal amount of the notes being redeemed, plus accrued and unpaid interest, if any, thereon, to, but excluding, the redemption date. See Specific Terms of the Notes Optional Redemption.

PS-2

Table of Contents

Record Dates for Interest Payments:	For book-entry only notes, one business day prior to the applicable Interest Payment Date. If the notes are not held in book-entry only form, the record dates will be the fifteenth calendar day preceding the applicable Interest Payment Date as originally scheduled to occur.
Repayment at Option of Holder:	None
Listing:	None
Selling Agent and Conflicts of Interest:	As set forth beginning on page PS-4.
Further Issuances:	We have the ability to reopen, or increase after the Issue Date, the aggregate principal amount of the notes initially being issued without notice to the holders of existing notes by selling additional notes having the same terms, provided that such additional notes shall be fungible for U.S. federal income tax purposes. However, any new notes of this kind may have a different offering price and may begin to bear interest on a different date.

Optional Redemption

We may redeem the notes, at our option, in whole, but not in part, on the Interest Payment Date on February 5, 2025, upon at least 10 business days , but not more than 60 calendar days , prior written notice to holders of the notes as described in the attached prospectus, at a redemption price equal to 100% of the principal amount of the notes being redeemed, plus accrued and unpaid interest, if any, thereon, to, but excluding, the redemption date.

Notwithstanding the foregoing, any interest on notes being redeemed that is due and payable on an Interest Payment Date falling on or prior to a redemption date for such notes will be payable on such Interest Payment Date to holders of such notes being redeemed as of the close of business on the relevant record date according to the terms of the notes and the Senior Indenture.

Unless we default on payment of the redemption price, interest will cease to accrue on the notes on the redemption date.

PS-3

Table of Contents**SUPPLEMENTAL INFORMATION CONCERNING THE PLAN OF DISTRIBUTION AND CONFLICTS OF INTEREST**

On January 31, 2018, we entered into an agreement with the selling agent identified below for the purchase and sale of the notes. We have agreed to sell to the selling agent, and the selling agent has agreed to purchase from us, the principal amount of the notes shown opposite its name in the table below at the public offering price set forth above.

<u>Selling Agent</u>	<u>Principal Amount of Notes (\$)</u>
Merrill Lynch, Pierce, Fenner & Smith	
Incorporated	\$ 1,500,000,000
Total	<u>\$ 1,500,000,000</u>

The selling agent may sell the notes to certain dealers at the public offering price, less a concession which will not exceed 0.240% of the principal amount of the notes, and the selling agent and those dealers may resell the notes to other dealers at a reallowance discount which will not exceed 0.160% of the principal amount of the notes.

After the initial offering of the notes, the concessions and reallowance discounts for the notes may change.

We estimate that the total offering expenses for the notes, excluding the selling agent's commission, will be approximately \$401,800.

Merrill Lynch, Pierce, Fenner & Smith Incorporated is our wholly-owned subsidiary, and we will receive the net proceeds of the offering.

We expect that delivery of the notes will be made to investors on or about February 5, 2018, which is the third business day following the date of this pricing supplement (such settlement being referred to as "T+3"). Under Rule 15c6-1 of the Securities and Exchange Act of 1934, trades in the secondary market generally are required to settle in two business days, unless the parties to a trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes on the date of this pricing supplement or the next succeeding business day will be required, by virtue of the fact that the notes initially settle in T+3, to specify an alternate settlement cycle at the time of the trade to prevent a failed settlement and should consult their own advisors in connection with that election.

The selling agent and its affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

In addition, in the ordinary course of their business activities, the selling agent and its affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. The selling agent or its affiliates that have a lending relationship with us routinely hedge their credit exposure to us consistent with their customary risk management policies. Typically, the selling agent and its affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such short positions could adversely affect future trading prices of the notes offered hereby. The selling agent and its affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

PS-4

Selling Restrictions

Cayman Islands. The notes may not be offered to the public in the Cayman Islands.

VALIDITY OF THE NOTES

In the opinion of McGuireWoods LLP, as counsel to Bank of America Corporation (BAC), when the notes offered hereby have been completed and executed by BAC, and authenticated by the trustee, and the notes have been delivered against payment therefor as contemplated in this pricing supplement and the related prospectus and prospectus supplement, all in accordance with the provisions of the indenture governing the notes, such notes will be legal, valid and binding obligations of BAC, subject to the effect of applicable bankruptcy, insolvency (including laws relating to preferences, fraudulent transfers and equitable subordination), reorganization, moratorium and other similar laws affecting creditors rights generally, and to general principles of equity. This opinion is given as of the date of this pricing supplement and is limited to the laws of the State of New York and the Delaware General Corporation Law (including the statutory provisions, all applicable provisions of the Delaware Constitution and reported judicial decisions interpreting the foregoing) as in effect on the date hereof. In addition, this opinion is subject to customary assumptions about the trustee s authorization, execution and delivery of the indenture governing the notes, the validity, binding nature and enforceability of the indenture governing the notes with respect to the trustee, the legal capacity of individuals, the genuineness of signatures, the authenticity of all documents submitted to McGuireWoods LLP as originals, the conformity to original documents of all documents submitted to McGuireWoods LLP as copies thereof, the authenticity of the originals of such copies and certain factual matters, all as stated in the letter of McGuireWoods LLP dated January 13, 2017, which has been filed as an exhibit to BAC s Current Report on Form 8-K dated January 13, 2017.

PS-5

Table of Contents

Medium-Term Notes, Series M

We may offer from time to time our Bank of America Corporation Medium-Term Notes, Series M. The specific terms of any notes that we offer will be determined before each sale and will be described in a separate pricing supplement, prospectus addendum and/or other prospectus supplement (each, a supplement). Terms may include:

Priority: senior or subordinated

Interest rate: notes may bear interest at fixed or floating rates, or may not bear any interest

Base floating rates of interest:

i federal funds rate

i LIBOR

i EURIBOR

i prime rate

i treasury rate

i any other rate we specify

Maturity: 365 days (one year) or more

Indexed notes: principal, premium (if any), interest payments, or other amounts payable (if any) linked, either directly or indirectly, to the price or performance of one or more market measures

Payments: U.S. dollars or any other currency that we specify in the applicable supplement

We may sell notes to the selling agents as principal for resale at varying or fixed offering prices or through the selling agents as agents using their best efforts on our behalf. We also may sell the notes directly to investors.

Edgar Filing: BANK OF AMERICA CORP /DE/ - Form 424B5

We may use this prospectus supplement and the accompanying prospectus in the initial sale of any notes. In addition, Merrill Lynch, Pierce, Fenner & Smith Incorporated, or any of our other broker-dealer affiliates, may use this prospectus supplement and the accompanying prospectus in a market-making transaction in any notes after their initial sale. Unless we or one of our selling agents informs you otherwise in the confirmation of sale, this prospectus supplement and the accompanying prospectus are being used in a market-making transaction.

Unless otherwise specified in the applicable supplement, we do not intend to list the notes on any securities exchange.

Investing in the notes involves risks. See Risk Factors beginning on page S-5.

Our notes are unsecured and are not savings accounts, deposits, or other obligations of a bank. Our notes are not guaranteed by Bank of America, N.A. or any other bank, are not insured by the Federal Deposit Insurance Corporation or any other governmental agency, and involve investment risks.

None of the Securities and Exchange Commission, any state securities commission, or any other regulatory body has approved or disapproved of these notes or passed upon the adequacy or accuracy of this prospectus supplement or the accompanying prospectus. Any representation to the contrary is a criminal offense.

ABOUT THIS PROSPECTUS SUPPLEMENT

We have registered our Medium-Term Notes, Series M (the notes) on a registration statement on Form S-3 filed with the Securities and Exchange Commission under Registration No. 333-202354.

From time to time, we intend to use this prospectus supplement, the accompanying prospectus, and a related pricing supplement, prospectus addendum and/or other prospectus supplement to offer the notes. We may refer to any pricing supplement as a term sheet. You should read each of these documents before investing in the notes.

This prospectus supplement describes additional terms of the notes and supplements the description of our other debt securities that may be issued under the Indentures contained in the accompanying prospectus. If the information in this prospectus supplement is inconsistent with the prospectus, this prospectus supplement will supersede the information in the prospectus.

This prospectus supplement and the accompanying prospectus do not constitute an offer to sell or the solicitation of an offer to buy the notes in any jurisdiction in which that offer or solicitation is unlawful. The distribution of this prospectus supplement and the accompanying prospectus and the offering of the notes in some jurisdictions may be restricted by law. If you have received this prospectus supplement and the accompanying prospectus, you should find out about and observe these restrictions. Persons outside the United States who come into possession of this prospectus supplement and the accompanying prospectus must inform themselves about and observe any restrictions relating to the distribution of this prospectus supplement and the accompanying prospectus and the offering of the notes outside of the United States. See Supplemental Plan of Distribution (Conflicts of Interest).

This prospectus supplement and the accompanying prospectus have been prepared on the basis that any offer of notes in any Member State of the European Economic Area (the EEA) which has implemented the Prospectus Directive (2003/71/EC) (and amendments thereto, including the Directive 2010/73/EU, to the extent implemented in the relevant Member State, the Prospectus Directive) (each, a Relevant Member State) will be made under an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of notes. Accordingly, any person making or intending to make an offer in that Relevant Member State of any notes which are contemplated in this prospectus supplement and the accompanying prospectus may only do so in circumstances in which no obligation arises for us or any of the selling agents to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer. Neither we nor the selling agents have authorized, and neither we nor they authorize, the making of any offer of notes in circumstances in which an obligation arises for us or any selling agent to publish or supplement a prospectus for the purposes of the Prospectus Directive in relation to such offer. Neither this prospectus supplement nor the accompanying prospectus constitutes an approved prospectus for the purposes of the Prospective Directive.

The notes are not intended, from January 1, 2018, to be offered, sold or otherwise made available to and, with effect from such date, should not be offered, sold or otherwise made available to any retail investor in the EEA, unless otherwise specified in the applicable supplement. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU, as amended (MiFID II); (ii) a customer within the meaning of Directive 2002/92/EC, as amended (Insurance Mediation Directive), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Directive. Consequently no

Table of Contents

key information document required by Regulation (EU) No 1286/2014 (the PRIIPs Regulation) for offering or selling the notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

For each offering of notes, we will issue a pricing supplement, prospectus addendum and/or other prospectus supplement that will contain additional terms of the offering and a specific description of the notes being offered. A supplement also may add, update, or change information in this prospectus supplement or the accompanying prospectus, including provisions describing the calculation of the amounts due under the notes and the method of making payments under the terms of a note. We will state in the applicable supplement the interest rate or interest rate basis or formula, issue price, any relevant market measures, the maturity date, interest payment dates, redemption, or repayment provisions, if any, and other relevant terms and conditions for each note at the time of issuance. A supplement also may include a discussion of any risk factors or other special additional considerations that apply to a particular type of note. Each applicable supplement can be quite detailed and always should be read carefully.

Unless we indicate otherwise or unless the context requires otherwise, all references in this prospectus supplement to Bank of America, we, us, our, or similar references are to Bank of America Corporation excluding its consolidated subsidiaries.

Any term that is used, but not defined, in this prospectus supplement has the meaning set forth in the accompanying prospectus.

Table of Contents

RISK FACTORS

Your investment in the notes involves significant risks. Your decision to purchase the notes should be made only after carefully considering the risks of an investment in the notes, including those discussed below, in the accompanying prospectus beginning on page 9, and in the relevant supplement(s) for the specific notes, with your advisors in light of your particular circumstances. The notes are not an appropriate investment for you if you are not knowledgeable about significant elements of the notes or financial matters in general. For information regarding risks and uncertainties that may materially affect our business and results, please refer to the information under the captions "Item 1A. Risk Factors" and "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" in our annual report on Form 10-K for the year ended December 31, 2016, which is incorporated by reference in the accompanying prospectus, as well as those risks and uncertainties discussed in our subsequent filings that are incorporated by reference in the accompanying prospectus. You should also review the risk factors that will be set forth in other documents that we will file after the date of this prospectus supplement.

Our preferred single point of entry resolution strategy could materially adversely affect our liquidity and financial condition and our ability to pay the holders of our debt securities.

We are required annually to submit a plan to our primary regulatory authorities describing our resolution strategy under the U.S. Bankruptcy Code in the event of material financial distress or failure. In our current plan, our preferred resolution strategy is a single point of entry ("SPOE") strategy. This strategy provides that only Bank of America is resolved under the U.S. Bankruptcy Code and was designed to provide certain key operating subsidiaries with sufficient capital and liquidity to operate through severe stress and to enable such subsidiaries to continue operating or be wound down in a solvent manner following a Bank of America bankruptcy. We have entered into intercompany arrangements governing the contribution of capital and liquidity with these key subsidiaries. As part of these arrangements, we have transferred certain of our assets (and have agreed to transfer additional assets) to a wholly-owned holding company subsidiary in exchange for a subordinated note. Certain of our remaining assets secure our ongoing obligations under these intercompany arrangements. The wholly-owned holding company subsidiary has also provided a committed line of credit which, in addition to our cash, dividends and interest payments, including interest payments we receive in respect of the subordinated note, may be used to fund our obligations. These intercompany arrangements include provisions to terminate the line of credit, forgive the subordinated note and require us to contribute our remaining financial assets to the wholly-owned holding company subsidiary if our projected liquidity resources deteriorate so severely that resolution becomes imminent, which could materially and adversely affect our liquidity and ability to meet our payment obligations, including under the notes. In addition, our preferred resolution strategy could result in holders of notes being in a worse position and suffering greater losses than would have been the case under bankruptcy or other resolution scenarios or plans.

We are subject to the Federal Reserve Board's final rules requiring U.S. G-SIBs to maintain minimum amounts of long-term debt meeting specified eligibility requirements.

On December 15, 2016, the Federal Reserve Board released final rules (the "TLAC Rules") that would require the U.S. global systemically important bank holding companies, including Bank of America, to, among other things, maintain minimum amounts of long-term debt satisfying certain eligibility criteria ("eligible LTD") commencing January 1, 2019. Any senior long-term debt issued on or after January 1, 2017 must include revised terms in accordance with the final rule in order to

Table of Contents

qualify as eligible LTD. Actions required to comply with the TLAC Rules could impact our funding and liquidity risk management plans.

If we enter a resolution proceeding, holders of our unsecured debt securities, including the notes, would be at risk of absorbing our losses.

Under the TLAC Rules, we are required to maintain minimum amounts of eligible LTD for the purpose of absorbing our losses in a resolution proceeding under either the U.S. Bankruptcy Code or Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the Financial Reform Act). If we enter a resolution proceeding under either the U.S. Bankruptcy Code or Title II of the Financial Reform Act, our unsecured debt, including the notes, would be at risk of absorbing our losses and could be significantly reduced or eliminated. Under our SPOE resolution strategy, and single point of entry recapitalization strategy preferred by the Federal Deposit Insurance Corporation (the FDIC) under Title II of the Financial Reform Act, the value that would be distributed to holders of our unsecured debt, including the notes, may not be sufficient to repay all or part of the principal amount and interest on such debt, and holders of such debt could receive no consideration at all under these resolution scenarios. Either of these resolution strategies could result in holders of notes being in a worse position and suffering greater losses than would have been the case under a different resolution strategy. Accordingly, investors in the notes should assess our risk profile when making an investment decision to purchase the notes. Although SPOE is our preferred resolution strategy, neither Bank of America nor a bankruptcy court would be obligated to follow our SPOE strategy. Additionally, the FDIC is not obligated to follow its SPOE strategy to resolve Bank of America under Title II of the Financial Reform Act. For more information regarding the financial consequences of any such resolution proceeding to the holders of our unsecured debt securities, see Financial Consequences to Unsecured Debtholders of Single Point of Entry Resolution Strategy.

Our obligations on the notes will be structurally subordinated to liabilities of our subsidiaries.

Because we are a holding company, our right to participate in any distribution of assets of any subsidiary upon such subsidiary's liquidation or reorganization or otherwise is subject to the prior claims of creditors of that subsidiary, except to the extent we may ourselves be recognized as a creditor of that subsidiary. As a result, our obligations under the notes will be structurally subordinated to all existing and future liabilities of our subsidiaries, and claimants should look only to our assets for payments. In addition, creditors of subsidiaries recapitalized pursuant to our resolution plan would generally be entitled to payment of their claims from the assets of the subsidiaries, including our contributed assets.

Holders of notes could be at greater risk for being structurally subordinated if we sell or convey all or substantially all of our assets to one or more of our majority-owned subsidiaries.

If we sell or convey all or substantially all of our assets to one or more direct or indirect majority-owned subsidiaries of ours, the subsidiary or subsidiaries will not be required to assume our obligations under such notes, and we will remain the sole obligor on such notes. In such event, creditors of any such subsidiary or subsidiaries would have additional assets from which to recover on their claims while holders of notes would be structurally subordinated to creditors of such subsidiary or subsidiaries with respect to such assets. See Description of the Notes Limitation on Mergers and Sales of Assets below for more information.

Table of Contents

Events for which acceleration rights under the senior notes may be exercised are more limited than those available pursuant to the terms of our outstanding senior debt securities issued prior to January 13, 2017.

In response to the TLAC Rules, on January 13, 2017, we supplemented the Senior Indenture to, among other things, limit the circumstances under which the payment of the principal amount of senior debt securities (including senior notes) issued pursuant to the Senior Indenture on or after January 13, 2017 can be accelerated (unless specified otherwise in the applicable supplement).

All or substantially all of our outstanding senior debt securities issued prior to January 13, 2017, including outstanding debt securities issued under the Senior Indenture prior to such date (the Pre-2017 Senior Debt Securities), provide acceleration rights for nonpayment or bankruptcy. The Pre-2017 Senior Debt Securities also provide acceleration rights if we default in the performance of our covenants in those debt securities or the Senior Indenture. In addition, the Pre-2017 Senior Debt Securities do not require a 30-day cure period before a nonpayment of principal becomes an event of default and acceleration rights become exercisable with respect to such nonpayment.

However, under the Senior Indenture, as supplemented, unless we specify otherwise in the applicable supplement, payment of the principal amount of senior notes:

may be accelerated only (i) if we default in the payment of the principal of or interest on those senior notes and, in each case, the default continues for a period of 30 days, or (ii) upon our voluntary or involuntary bankruptcy and, in the case of our involuntary bankruptcy, the default continues for a period of 60 days; and

may not be accelerated if we default in the performance of any other covenants contained in the senior notes or the Senior Indenture. As a result of these differing provisions, if we breach or otherwise default in the performance of a covenant (other than a payment covenant) that is applicable both to the senior notes and the Pre-2017 Senior Debt Securities, the Pre-2017 Senior Debt Securities would have acceleration rights that would not be available to the holders of senior notes. In addition, if we fail to pay principal when due with respect to the senior notes and the Pre-2017 Senior Debt Securities, an event of default would occur immediately with respect to the Pre-2017 Senior Debt Securities (and the exercise of acceleration rights could proceed immediately in accordance with the provisions of the Senior Indenture as in effect at the time of their issuance), while the holders of the senior notes must wait for the 30-day cure period to expire before such nonpayment of principal becomes an event of default and any acceleration rights are triggered with respect to such nonpayment. Any repayment of the principal amount of Pre-2017 Senior Debt Securities following the exercise of acceleration rights in circumstances in which such rights are not available to the holders of the senior notes could adversely affect our ability to make timely payments on the senior notes thereafter.

Acceleration rights for our subordinated notes are available only in limited circumstances.

Unless we specify otherwise in the applicable supplement, payment of the principal amount of our subordinated notes may be accelerated only in the event of our voluntary or involuntary bankruptcy under federal bankruptcy laws (and, in the case of our involuntary bankruptcy, continuing for a period of 60 days). If you purchase any subordinated notes, you will have no right to accelerate the payment of principal of the subordinated notes if we fail to pay principal or

Table of Contents

interest when due on those notes or if we fail in the performance of any of our other obligations under those notes. The rights of acceleration under our subordinated notes are more limited than those available pursuant to the terms of our senior debt securities, including the senior notes.

Our obligations under subordinated notes will be subordinated.

Holders of our subordinated notes should recognize that contractual provisions in the Subordinated Indenture may prohibit us from making payments on the subordinated notes. The subordinated notes are unsecured and subordinate and junior in right of payment to all of our senior indebtedness (as defined in the Subordinated Indenture), to the extent and in the manner provided in the Subordinated Indenture. In addition, the subordinated notes may be fully subordinated to interests held by the U.S. government in the event we enter into a receivership, insolvency, liquidation or similar proceedings, including a proceeding under Title II of the Financial Reform Act. For additional information regarding the subordination provisions applicable to the subordinated notes, see [Description of Debt Securities Subordination](#) in the accompanying prospectus.

The market value of the notes may be less than the principal amount of the notes.

The market for, and market value of, the notes may be affected by a number of factors. These factors include:

the method of calculating the principal, premium, if any, interest or other amounts payable, if any, on the notes;

the time remaining to maturity of the notes;

the aggregate amount outstanding of the relevant notes;

any redemption or repayment features of the notes;

the level, direction, and volatility of market interest rates generally;

general economic conditions of the capital markets in the United States;

geopolitical conditions and other financial, political, regulatory, and judicial events that affect the financial markets generally; and

any market-making activities with respect to the notes.

Often, the only way to liquidate your investment in the notes prior to maturity will be to sell the notes. At that time, there may be a very illiquid market for the notes or no market at all. For indexed notes that have specific investment objectives or strategies, the applicable trading market may be more limited, and the price may be more volatile, than for other notes. The market value of indexed notes may be adversely affected by the complexity of the payout formula and volatility of the applicable market measure, including any dividend rates or yields of other securities or financial instruments that relate to the indexed notes. Moreover, the market value of indexed notes could be adversely affected by changes in the amount of outstanding debt, equity, or other securities linked to the applicable market measures, assets or formula applicable to those notes.

Table of Contents

Floating-rate notes bear additional risks.

If your notes bear interest at a floating rate, there will be additional significant risks not associated with a conventional fixed-rate debt security. These risks include fluctuation of the interest rates and the possibility that you will receive an amount of interest that is lower than expected. We have no control over a number of matters, including economic, financial, and political events, that are important in determining the existence, magnitude, and longevity of market volatility and other risks and their impact on the value of, or payments made on, your floating-rate notes. In recent years, interest rates have been volatile, and that volatility may be expected in the future.

Holders of indexed notes are subject to important risks that are not associated with more conventional debt securities.

If you invest in indexed notes, you will be subject to significant risks not associated with conventional fixed-rate or floating-rate debt securities. These risks include the possibility that the applicable market measures may be subject to fluctuations, and the possibility that you will receive a lower, or no, amount of principal, premium, or interest, and at different times than expected. In recent years, many interest rates, indices, and other market measures have experienced volatility, and this volatility may be expected in the future. However, past experience is not necessarily indicative of what may occur in the future. We have no control over a number of matters, including economic, financial, and political events, that are important in determining the existence, magnitude, and longevity of market volatility and other risks and their impact on the value of, or payments made on, the indexed notes. Further, you should assume that there is no statutory judicial, or administrative authority that addresses directly the characterization of some types of indexed notes or similar instruments for U.S. federal or other income tax purposes. As a result, the income tax consequences of an investment in indexed notes are not certain. In considering whether to purchase indexed notes, you should be aware that the calculation of amounts payable on indexed notes may involve reference to a market measure determined by one of our affiliates or prices or values that are published solely by third parties or entities which are not regulated by the laws of the United States. Additional risks that you should consider in connection with an investment in indexed notes are set forth in the applicable supplement(s) for the notes.

Our hedging activities may affect your return at maturity and the market value of the notes.

At any time, we or our affiliates may engage in hedging activities relating to the notes. This hedging activity, in turn, may increase or decrease the market value of the notes. In addition, we or our affiliates may acquire a long or short position in the notes from time to time. All or a portion of these positions may be liquidated at or about the time of maturity of the notes. The aggregate amount and the composition of these positions are likely to vary over time. We have no reason to believe that any of our hedging activities will have a material effect on the notes, either directly or indirectly, by impacting the value of the notes. However, we cannot assure you that our activities or affiliates' activities will not affect these values.

Our hedging and trading activities may create conflicts of interest with you.

From time to time during the term of each series of notes and in connection with the determination of the payments on the notes, we or our affiliates may enter into additional hedging transactions or adjust or close out existing hedging transactions. We or our affiliates also may enter into hedging transactions relating to other notes or instruments that we issue, some of which may

Table of Contents

have returns calculated in a manner related to that of a particular series of notes. We or our affiliates will price these hedging transactions with the intent to realize a profit, considering the risks inherent in these hedging activities, whether the value of the notes increases or decreases. However, these hedging activities may result in a profit that is more or less than initially expected, or could result in a loss.

We or one or more of our affiliates, including Merrill Lynch, Pierce, Fenner & Smith Incorporated, may engage in trading activities that are not for your account or on your behalf. These trading activities may present a conflict of interest between your interest in the notes and the interests we and our affiliates may have in our proprietary accounts, in facilitating transactions, including block trades, for our other customers, and in accounts under our management. These trading activities, if they influence the market measure or other reference asset (if any) for the notes or secondary trading (if any) in the notes, could be adverse to your interests as a beneficial owner of the notes.

The following risk factor supersedes in its entirety the risk factor in the accompanying prospectus beginning on page 11 under the heading Reform of LIBOR and EURIBOR and Proposed Regulation of These and Other Benchmarks :

Regulation, reform, and the potential or actual discontinuation of benchmarks, including LIBOR and EURIBOR, may adversely affect the value of and return on notes that are based on or are linked to a benchmark.

The London Interbank Offered Rate (LIBOR), the Euro Interbank Offered Rate (EURIBOR) and certain other rates or indices which are deemed to be benchmarks are the subject of ongoing national and international regulatory scrutiny and proposals for reform. Some of these reforms are already effective, while others are still to be implemented or formulated. These reforms may cause such benchmarks to perform differently than they performed in the past or to be discontinued entirely and may have other consequences that cannot be predicted. Any such consequences could adversely affect the value of and return on any notes that are based on or are linked to a benchmark to calculate interest or other payments due on those notes.

Any of the international, national or other proposals for reform or the general increased regulatory scrutiny of benchmarks could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements. In addition, regulators have stated that they will no longer persuade or require banks to submit rates for LIBOR after 2021, and similar actions may be taken with respect to other benchmarks in the future. Such actions may have the effect of discouraging market participants from continuing to administer or participate in or contribute to certain benchmarks, trigger changes in the rules or methodologies used in certain benchmarks, or lead to the discontinuation or unavailability of quotes of certain benchmarks. Uncertainty as to the nature and the effect of such reforms and actions and the potential or actual discontinuation of a benchmark may adversely affect the value of, return on and trading market for notes that are based on or are linked to a benchmark.

To the extent interest payments on notes based on or linked to a specific benchmark, including LIBOR, that is discontinued or is no longer quoted, the applicable base rate will be determined using the alternative methods described in the accompanying prospectus under the heading Description of Debt Securities Floating-Rate Notes, unless we specify otherwise in the applicable supplement. Any of these alternative methods may result in interest rates and/or payments that are higher than, lower than or that do not otherwise correlate over time with the interest rates and/or payments that would have been made on those notes if the relevant

Table of Contents

benchmark was available in its current form. Further, the same reforms, actions, costs and/or risks that may lead to the discontinuation or unavailability of a benchmark may make one or more of the alternative methods impossible or impracticable to determine. Under most of the base rates described in the accompanying prospectus, including LIBOR, unless we specify otherwise in the applicable supplement, the final alternative method sets the interest rate for an interest period at the same base rate as the immediately preceding interest period or as in effect on the interest determination date, as applicable, which interest rate could remain in effect for the remaining term of the notes. Any of the foregoing may have an adverse effect on the value of and return on such notes.

Table of Contents

**FINANCIAL CONSEQUENCES TO UNSECURED DEBTHOLDERS
OF SINGLE POINT OF ENTRY RESOLUTION STRATEGY**

Beginning January 1, 2019, we will be required to be in full compliance with the TLAC Rules, which aim to improve the resiliency and resolvability of U.S. global systemically important bank holding companies (covered BHCs), including Bank of America, in the event of failure or material financial distress. The TLAC Rules include the requirement that each covered BHC maintain a minimum amount of eligible LTD and other loss-absorbing capacity. The eligible LTD would absorb the covered BHC's losses, following the depletion of its equity, upon its entry into a resolution proceeding under the U.S. Bankruptcy Code or a resolution proceeding administered by the FDIC under Title II of the Financial Reform Act.

Under Title I of the Financial Reform Act, we are required by the Federal Reserve Board and the FDIC to annually submit a plan for a rapid and orderly resolution under the U.S. Bankruptcy Code in the event of material financial distress or failure. Our preferred resolution strategy under this plan is our SPOE strategy under which only Bank of America would enter bankruptcy proceedings. Under this strategy, we would first contribute all of our remaining cash and other financial assets, less a holdback to cover our bankruptcy expenses, to a wholly-owned holding company subsidiary, which holds all of the equity interests in our key operating subsidiaries. We would then file for bankruptcy under Chapter 11 of the U.S. Bankruptcy Code. Pursuant to an order from the bankruptcy court under section 363 of the Bankruptcy Code, we, as debtor-in-possession, would transfer our subsidiaries to a newly-formed entity (NewCo) that would be held in trust for the sole and exclusive benefit of our bankruptcy estate.

The TLAC Rules also require us to describe the financial consequences to unsecured debtholders of our entry into a resolution proceeding. Under our SPOE resolution strategy, the obligations of Bank of America on its unsecured debt, including the notes, would not be assumed by NewCo; instead, the claims on such obligations would be left behind in the bankruptcy proceeding. After the transferred subsidiaries were stabilized, NewCo's residual value in the form of shares or proceeds from the sale of shares would be distributed to the holders of claims against the bankruptcy estate in accordance with the priority of their claims, including to holders of the notes and other unsecured debt.

In 2013, the FDIC issued a notice describing its similar preferred single point of entry recapitalization model for resolving a global systemically important banking group, such as Bank of America, under Title II of the Financial Reform Act. Under Title II, when a covered BHC is in default or danger of default, the FDIC may be appointed receiver in order to conduct an orderly liquidation of such institution as an alternative to resolution of the entity under the U.S. Bankruptcy Code. Pursuant to the single point of entry recapitalization model, the FDIC would use its power to create a bridge entity for the covered BHC; transfer the systemically important and viable parts of the covered BHC's business to the bridge entity; recapitalize those subsidiaries using assets of the covered BHC that have been transferred to the bridge entity; and exchange external debt claims against the covered BHC, including claims of holders of the notes and other unsecured debt, for equity in the bridge entity. This strategy would allow operating subsidiaries of the covered BHC to continue to operate and impose losses on stockholders and creditors of the covered BHC.

Table of Contents

DESCRIPTION OF THE NOTES

This section describes the general terms and conditions of the notes, which may be senior or subordinated medium-term notes. This section supplements, and should be read together with, the general description of our debt securities included in *Description of Debt Securities* in the accompanying prospectus. If there is any inconsistency between the information in this prospectus supplement and the accompanying prospectus, you should rely on the information in this prospectus supplement.

We will describe the particular terms of the notes we sell in a separate supplement. The terms and conditions stated in this section will apply to each note unless the note or the applicable supplement indicates otherwise.

General

In addition to the following summary of the general terms of the notes and the indentures, you should review the actual notes and the specific provisions of the Senior Indenture and the Subordinated Indenture, as applicable, which are on file with the SEC.

We will issue the notes as part of a series of debt securities under the Senior Indenture or the Subordinated Indenture, as applicable, which are exhibits to our registration statement and are contracts between us and The Bank of New York Mellon Trust Company, N.A., as successor trustee. In this prospectus supplement, we refer to The Bank of New York Mellon Trust Company, N.A., as the trustee, and we refer to the Senior Indenture and the Subordinated Indenture individually as the Indenture and together as the Indentures.

The Indentures are subject to, and governed by, the Trust Indenture Act of 1939.

In response to the TLAC Rules, we supplemented the Senior Indenture to, among other things, limit the circumstances under which the payment of the principal amount of senior debt securities (including senior notes) issued pursuant to the Senior Indenture on or after January 13, 2017 can be accelerated (unless specified otherwise in the applicable supplement). The supplemental indenture to the Senior Indenture was filed with the SEC on our Current Report on Form 8-K dated January 13, 2017. See *Remedies* below for more information on acceleration rights under the Senior Indenture.

We, the selling agents, and the depository, in the ordinary course of our respective businesses, have conducted and may conduct business with the trustee or its affiliates. See *Description of Debt Securities* *The Indentures* in the accompanying prospectus for more information about the Indentures and the functions of the trustee.

The notes are our direct unsecured obligations and are not obligations of our subsidiaries. The Indentures do not limit the amount of indebtedness that we may incur. We may issue other debt securities under the Indentures from time to time in one or more series up to the aggregate principal amount of the then-existing grant of authority by our board of directors.

Unless otherwise provided in the applicable supplement, the minimum denomination of the notes will be \$1,000 and any larger amount that is a whole multiple of \$1,000 (or the equivalent in other currencies).

Table of Contents

Types of Notes

Fixed-Rate Notes. We may issue notes that bear interest at a fixed rate described in the applicable supplement, which we refer to as fixed-rate notes. We also may issue fixed-rate notes that combine principal and interest payments in installment payments over the life of the note, which we refer to as amortizing notes. For more information on fixed-rate notes and amortizing notes, see Description of Debt Securities Fixed-Rate Notes in the accompanying prospectus.

Floating-Rate Notes. We may issue notes that bear interest at a floating rate of interest determined by reference to one or more base interest rates, or by reference to one or more interest rate formulae, described in the applicable supplement, which we refer to as floating-rate notes. In some cases, the interest rate of a floating-rate note also may be adjusted by adding or subtracting a spread or by multiplying the interest rate by a spread multiplier. A floating-rate note also may be subject to a maximum interest rate limit, or ceiling, and/or a minimum interest rate limit, or floor, on the interest that may accrue during any interest period. For more information on floating-rate notes, including a description of the manner in which interest payments will be calculated, see Description of Debt Securities Floating-Rate Notes in the accompanying prospectus.

Indexed Notes. We may issue notes that provide that the rate of return, including the principal, premium (if any), interest, or other amounts payable (if any), is determined by reference, either directly or indirectly, to the price or performance of one or more interest rates, indices or other market measures, or any combination of the above, in each case as specified in the applicable supplement. We refer to these notes as indexed notes.

If you purchase an indexed note, you may receive an amount at maturity that is greater than or less than the face amount of your note, depending upon the formula used to determine the amount payable and the relative value at maturity of the market measure to which your indexed note is linked. We expect that the value of the applicable market measure will fluctuate over time.

We will specify in the applicable supplement the method for determining the principal, premium (if any), interest, or other amounts payable (if any) in respect of particular indexed notes, as well as certain historical or other information with respect to the specified market measure, specific risk factors relating to that particular type of indexed note, and tax considerations associated with an investment in the indexed notes.

For more information about indexed notes, see Description of Debt Securities Indexed Notes in the accompanying prospectus.

Original Issue Discount Notes. We may issue notes at a price lower than their principal amount or lower than their minimum guaranteed repayment amount at maturity, which we refer to as original issue discount notes. Original issue discount notes may be fixed-rate, floating-rate, or indexed notes and may bear no interest (zero coupon notes) or may bear interest at a rate that is below market rates at the time of issuance. For more information on original issue discount notes, see Description of Debt Securities Original Issue Discount Notes in the accompanying prospectus.

Specific Terms of the Notes. The applicable supplement(s) for each offering of notes will contain additional terms of the offering and a specific description of those notes, including:

the specific designation of the notes;

the issue price;

Table of Contents

the principal amount;

the issue date;

the maturity date, and any terms providing for the extension or postponement of the maturity date;

the denominations or minimum denominations, if other than \$1,000;

the currency or currencies, if not U.S. dollars, in which payments will be made on the notes;

whether the note is a fixed-rate note, a floating-rate note, or an indexed note;

whether the note is senior or subordinated;

the method of determining and paying interest, including any applicable interest rate basis or bases, any initial interest rate, or the method for determining any initial interest rate, any interest reset dates, any payment dates, any index maturity, and any maximum or minimum rate of interest, as applicable;

any spread or spread multiplier applicable to a floating-rate note or an indexed note;

the method for the calculation and payment of principal, premium (if any), interest, and other amounts payable (if any);

if applicable, the circumstances under which the note may be redeemed at our option or repaid at your option prior to the maturity date set forth on the face of the note, including any repayment date, redemption commencement date, redemption price, and redemption period;

if applicable, the circumstances under which the maturity date set forth on the face of the note may be extended at our option or renewed at your option, including the extension or renewal periods and the final maturity date;

if applicable, any addition to, elimination of or other change in the events of default or covenants for the senior notes or remedies available to holders of the senior notes;

whether the notes will be represented by a master global note;

whether the notes will be listed on any stock exchange; and

Edgar Filing: BANK OF AMERICA CORP /DE/ - Form 424B5

if applicable, any other material terms of the note which are different from those described in this prospectus supplement and the accompanying prospectus.

Each note will mature on a business day (as defined in the accompanying prospectus) 365 days (one year) or more from the issue date. Unless we specify otherwise in the supplement, the record dates for any interest payments for book-entry only notes denominated in U.S. dollars will be one business day (in Charlotte, North Carolina and New York City) prior to the applicable payment date, and for any book-entry only notes denominated in a currency other than U.S. dollars will be the fifteenth calendar day preceding the applicable payment date.

Unless we specify otherwise in the applicable supplement, the notes will not be entitled to the benefit of any sinking fund.

S-15

Table of Contents

Payment of Principal, Interest, and Other Amounts Due

Paying Agents. Unless otherwise provided in the applicable supplement, the trustee will act as our paying agent, security registrar, and transfer agent with respect to the notes through the trustee's corporate trust office. That office is currently located at 101 Barclay Street, New York, New York 10286. At any time, we may rescind the designation of a paying agent, appoint a successor or an additional paying agent or different paying agent, or approve a change in the office through which any paying agent acts in accordance with the applicable Indenture. In addition, we may decide to act as our own paying agent with respect to some or all of the notes, and the paying agent may resign.

Calculation Agents. The trustee will act as the calculation agent for floating-rate notes, unless otherwise specified in the applicable supplement. We will identify the calculation agent that will calculate the amounts payable with respect to any indexed notes in the applicable supplement. The calculation agent may be one of our affiliates, including Merrill Lynch Capital Services, Inc. The calculation agent will be responsible for calculating the interest rate, reference rates, principal, premium (if any), interest, or other amounts payable (if any) applicable to the floating-rate notes or indexed notes, as the case may be, and for certain other related matters. The calculation agent, at the request of the holder of any floating-rate note, will provide the interest rate then in effect and, if already determined, the interest rate that is to take effect on the next interest reset date for the floating-rate note. Upon request of the holder of an indexed note, and to the extent set forth in the applicable supplement, the calculation agent will provide, if applicable, information with respect to amounts payable (if any) in connection with that indexed note. We may appoint or replace any calculation agent or elect to act as the calculation agent from time to time for some or all of the notes, and the calculation agent may resign, without your consent and without notifying you of the change. Absent manifest error, all determinations of the calculation agent will be final and binding on you, the selling agents and us.

Manner of Payment. Unless otherwise stated in the applicable supplement, we will pay principal, premium (if any), interest, and other amounts payable (if any) on the notes in book-entry only form in accordance with arrangements then in place between the applicable paying agent and the applicable depository. Unless otherwise stated in the applicable supplement, we will pay any interest on notes in certificated form on each interest payment date other than the maturity date by, in our discretion, wire transfer of immediately available funds or check mailed to holders of the notes on the applicable record date at the address appearing on our or the security registrar's records. Unless otherwise stated in the applicable supplement, we will pay any principal, premium (if any), interest, and other amounts payable (if any) at the maturity date of a note in certificated form by wire transfer of immediately available funds upon surrender of the note at the corporate trust office of the trustee or such other paying agent specified in the applicable supplement, as applicable.

Currency Conversions and Payments on Notes Denominated in Currencies Other than U.S. Dollars. For any notes denominated in a currency other than U.S. dollars, the initial investors will be required to pay for the notes in that foreign currency. The applicable selling agent may arrange for the conversion of U.S. dollars into the applicable foreign currency to facilitate payment for the notes by U.S. purchasers electing to make the initial payment in U.S. dollars. Any such conversion will be made by that selling agent on the terms and subject to the conditions, limitations, and charges as it may establish from time to time in accordance with its regular foreign exchange procedures, and subject to United States laws and regulations. All costs of any such conversion for the initial purchase of the notes will be borne by the initial investors using those conversion arrangements.

Table of Contents

We generally will pay principal and any premium, interest, and other amounts payable on notes denominated in a currency other than U.S. dollars in the applicable foreign currency. Holders of beneficial interests in notes through a participant in The Depository Trust Company, or DTC, will receive payments in U.S. dollars, unless they elect to receive payments on those notes in the applicable foreign currency. If a holder through DTC does not make an election through its DTC participant to receive payments in the applicable foreign currency, the exchange rate agent for the relevant notes, which will be named in the applicable supplement, will convert payments to that holder into U.S. dollars, and all costs of those conversions will be borne by that holder by deduction from the applicable payments.

For holders not electing payment in the applicable foreign currency, the U.S. dollar amount of any payment will be the amount of the applicable foreign currency otherwise payable, converted into U.S. dollars at the applicable exchange rate prevailing as of 11:00 A.M. (New York City time) on the second business day prior to the relevant payment date, less any costs incurred by the exchange rate agent for that conversion. The costs of those conversions will be shared pro rata among the holders of beneficial interests in the applicable global notes receiving U.S. dollar payments in the proportion of their respective holdings. The exchange rate agent will make those conversions in accordance with the terms of the applicable note and with any applicable arrangements between us and the exchange rate agent.

If an exchange rate quotation is unavailable from the entity or source ordinarily used by the exchange rate agent in the normal course of business, the exchange rate agent will obtain a quotation from a leading foreign exchange bank in New York City, which may be an affiliate of the exchange rate agent or another entity selected by the exchange rate agent for that purpose after consultation with us. If no quotation from a leading foreign exchange bank is available, payment will be made in the applicable foreign currency to the account or accounts specified by DTC to the applicable paying agent, unless the applicable foreign currency is unavailable due to the imposition of exchange controls or other circumstances beyond our control. If payment on a note is required to be made in a currency other than U.S. dollars and that currency is unavailable due to the imposition of exchange controls or other circumstances beyond our control, or is no longer used by the government of the relevant country or for the settlement of transactions by public institutions of or within the international banking community (and is not replaced by another currency), then all payments on that note will be made in U.S. dollars on the basis of the most recently available market exchange rate for the applicable foreign currency. Any payment on a note so made in U.S. dollars will not constitute an event of default under the applicable notes.

The holder of a beneficial interest in global notes held through a DTC participant may elect to receive payments on those notes in a foreign currency by notifying the DTC participant through which it holds its beneficial interests on or prior to the fifteenth business day prior to the record date for the applicable notes of (1) that holder's election to receive all or a portion of the payment in the applicable foreign currency and (2) wire transfer instructions to an account for the applicable foreign currency outside the United States. DTC must be notified of that election and wire transfer instructions (a) on or prior to the fifth business day after the record date for any payment of interest and (b) on or prior to the tenth business day prior to the date for any payment of principal. DTC will notify the trustee of the election and wire transfer instructions (1) on or prior to 5:00 P.M. New York City time on the fifth business day after the record date for any payment of interest and (2) on or prior to 5:00 P.M. New York City time on the tenth business day prior to the date for any payment of principal. If complete instructions are forwarded to and received by DTC through a DTC participant and forwarded by DTC to the trustee and received on or prior to the dates described above, the holder will receive payment in the applicable foreign currency outside DTC; otherwise, only U.S. dollar payments will be made by the trustee to DTC.

Table of Contents

For purposes of the above discussion about currency conversions and payments on notes denominated in a foreign currency, the term **business day** means any weekday that is not a legal holiday in New York, New York or Charlotte, North Carolina and is not a day on which banking institutions in those cities are authorized or required by law or regulation to be closed.

For information regarding risks associated with foreign currencies and exchange rates, see **Risk Factors** **Currency Risks** in the accompanying prospectus.

Payment of Additional Amounts. If we so specify in the applicable supplement, and subject to the exceptions and limitations set forth in the accompanying prospectus under **Description of Debt Securities** **Payment of Additional Amounts**, we will pay to the beneficial holder of notes that is a **United States Alien** additional amounts to ensure that every net payment on such notes will not be less, due to the payment of U.S. withholding tax, than the amount then otherwise due and payable. For this purpose, a **net payment** on such notes means a payment by us or any paying agent, including payment of principal and interest, after deduction for any present or future tax, assessment, or other governmental charge of the United States (other than a territory or possession). These additional amounts will constitute additional interest on the note. For this purpose, U.S. withholding tax means a withholding tax of the United States, other than a territory or possession.

Except as specifically provided in the accompanying prospectus under **Description of Debt Securities** **Payment of Additional Amounts**, we will not be required to make any payment of any tax, assessment, or other governmental charge imposed by any government, political subdivision, or taxing authority of that government.

For purposes of determining whether the payment of additional amounts is required, the term **United States Alien** means any person who, for United States federal income tax purposes, is a foreign corporation, a non-resident alien individual, a non-resident alien fiduciary of a foreign estate or trust, or a foreign partnership to the extent that one or more of its members is, for United States federal income tax purposes, a foreign corporation, a non-resident alien individual, or a non-resident alien fiduciary of a foreign estate or trust.

If we so specify in the applicable supplement, we may redeem the notes, in whole but not in part, at any time before maturity if we have or will become obligated to pay additional amounts as a result of a change in, or an amendment to, United States tax laws or regulations, as described in the accompanying prospectus under **Description of the Debt Securities** **Redemption for Tax Reasons**, subject to any required approvals as described below under **Redemption**.

For more information about payment procedures, including payments in a currency other than U.S. dollars, see **Description of Debt Securities** **Payment of Principal, Interest, and Other Amounts Due** in the accompanying prospectus.

Ranking

Because we are a holding company, our right to participate in any distribution of assets of any subsidiary upon such subsidiary's liquidation or reorganization or otherwise is subject to the prior claims of creditors of that subsidiary, except to the extent we may ourselves be recognized as a creditor of that subsidiary. Accordingly, our obligations under senior notes or subordinated notes will be structurally subordinated to all existing and future liabilities of our subsidiaries, and claimants should look only to our assets for payments. In addition, the senior notes and the subordinated notes will be unsecured and therefore in a bankruptcy or similar proceeding will effectively rank junior to our secured obligations to the extent of the value of the assets securing such obligations. See **Risk Factors**.

Table of Contents

Senior Notes. The senior notes will be unsecured and will rank equally with all our other unsecured and unsubordinated obligations from time to time outstanding, except obligations, including deposit liabilities, that are subject to any priorities or preferences by law.

The Senior Indenture and the senior notes do not contain any limitation on the amount of obligations that we may incur in the future.

Subordinated Notes. Our indebtedness evidenced by the subordinated notes, including the principal, premium (if any), interest, and other amounts payable (if any), will be unsecured and will be subordinate and junior in right of payment to all of our senior indebtedness from time to time outstanding to the extent and in the manner provided in the Subordinated Indenture. The subordinated notes will rank equally in right of payment with all our other unsecured and subordinated indebtedness, other than unsecured and subordinated indebtedness that by its terms is subordinated to the subordinated notes. Payment of principal of our subordinated indebtedness, including any subordinated notes, may not be accelerated if there is a default in the payment of amounts due under, or a default in any of our other covenants applicable to, our subordinated indebtedness.

The Subordinated Indenture and the subordinated notes do not contain any limitation on the amount of obligations ranking senior to the subordinated notes, or the amount of obligations ranking equally with the subordinated notes, that we may incur in the future.

Unless we specify otherwise in the applicable supplement, the subordinated notes will not be guaranteed by us or any of our affiliates and will not be subject to any other arrangement that legally or economically enhances the ranking of the subordinated notes. For more information about our subordinated notes, see *Description of Debt Securities Subordination* in the accompanying prospectus.

Remedies

*The following supersedes the information in the accompanying prospectus under the heading *Description of the Debt Securities Events of Default and Rights of Acceleration* and *Description of the Debt Securities Collection of Indebtedness* beginning on page 38 for all notes issued under either Indenture on and after January 13, 2017.*

Events of Default and Rights of Acceleration; Covenant Breaches. The Senior Indenture defines an event of default for a series of senior debt securities, including senior notes, as any one of the following events:

- (1) our failure to pay principal of or any premium on any senior debt securities of that series when due and payable, and continuance of such default for a period of 30 days;
 - (2) our failure to pay interest on any senior debt securities of that series when due and payable, and continuance of such default for a period of 30 days;
 - (3) specified events involving our bankruptcy, insolvency, or liquidation; and
 - (4) any other events of default specified for a series of senior debt securities pursuant to the Senior Indenture.
- Any additional or different events of default for an issue of senior notes will be specified in the applicable supplement.

Table of Contents

The Subordinated Indenture defines an event of default for subordinated debt securities only as our voluntary or involuntary bankruptcy under U.S. federal bankruptcy laws (and, in the case of our involuntary bankruptcy, continuing for a period of 60 days) and any other events of default specified for a series of subordinated debt securities pursuant to the Subordinated Indenture.

Unless otherwise specified in the applicable supplement, if an event of default under the Senior Indenture or under the Subordinated Indenture occurs and is continuing, either the trustee or the holders of 25% in aggregate principal amount of the debt securities outstanding under the applicable Indenture (or, in the case of an event of default under the Senior Indenture with respect to a series of senior notes, the holders of 25% in aggregate principal amount of the outstanding debt securities, including such senior notes, of all series affected) may declare the principal amount, or, if the debt securities are issued with original issue discount, such amount as described in the applicable supplement, of all debt securities (or the outstanding debt securities, including such senior notes, of all series affected, as the case may be) to be due and payable immediately. The holders of a majority in principal amount of the debt securities then outstanding (or of the series affected, as the case may be), in some circumstances, may annul the declaration of acceleration and waive past defaults.

With respect to any of our covenants in debt securities or the applicable Indenture other than those for which acceleration rights are available, as discussed above, the trustee and the holders of the debt securities may pursue certain remedies as described below or as set forth in the applicable Indenture.

Unless otherwise specified in the applicable supplement, with respect to any senior notes issued under the Senior Indenture on or after January 13, 2017, an event of default will not occur, and neither the trustee nor the holders of such senior notes will have the right to accelerate the payment of principal of such senior notes, as a result of a covenant breach (other than a covenant breach for which acceleration rights are available, as discussed above). In addition, an event of default will not occur, and neither the trustee nor the holders of such senior notes will have the right to accelerate the payment of principal of such senior notes, as a result of our failure to pay principal of or premium on such senior notes when due and payable until such default has continued for a period of 30 days.

Unless otherwise specified in the applicable supplement, payment of principal of the subordinated debt securities, including the subordinated notes, may not be accelerated in the case of a default in the payment of principal or any premium, interest, or other amounts or a breach in the performance of any of our other covenants.

We are required periodically to file with the trustees a certificate stating that we are not in default under any of the terms of the Indentures.

Collection of Indebtedness and Suits for Enforcement by Trustee. If (i) we fail to pay the principal of (or, under the Senior Indenture, any premium on) any debt securities (including the notes), (ii) we are over 30 days late on an interest payment on the debt securities (including the notes), or (iii) for subordinated debt securities (including the subordinated notes), we default in the performance of our other covenants under the Subordinated Indenture, the applicable trustee can demand that we pay to it, for the benefit of the holders of those debt securities, the amount which is due and payable on those debt securities, including any interest incurred because of our failure to make that payment. In the event of our nonpayment of principal or interest (which nonpayment for senior debt securities constitutes an event of default) or a covenant breach, the trustee may take appropriate action, including instituting judicial proceedings against us.

Table of Contents

In addition, a holder of our debt securities, including the notes, also may file suit to enforce our obligation to make payment of principal, any premium, interest, or other amounts due on such debt securities regardless of the actions taken by the trustee.

The holders of a majority in principal amount of debt securities then outstanding under the applicable Indenture may direct the time, method, and place of conducting any proceeding for any remedy available to the trustee under that Indenture. The trustee may decline to act if the direction is contrary to law and in certain other circumstances set forth in the applicable Indenture. The trustee is not obligated to exercise any of its rights or powers under the applicable Indenture at the request or direction of the holders of the debt securities unless the holders offer the trustee reasonable indemnity against expenses and liabilities.

Limitation on Suits. Each Indenture provides that no individual holder of debt securities of any series may institute any action against us under that Indenture, except actions for payment of overdue principal and interest, unless the following actions have occurred:

the holder must have previously given written notice to the trustee of the continuing default;

the holders of not less than 25% in principal amount of such outstanding debt securities issued under the applicable Indenture must have (1) requested the trustee to institute proceedings in respect of a default and (2) offered the trustee reasonable indemnity against liabilities incurred by the trustee for taking such action;

the trustee must have failed to institute proceedings within 60 days after receipt of the request referred to above; and

the holders of a majority in principal amount of such outstanding debt securities issued under the applicable Indenture must not have given direction to the trustee inconsistent with the request of the holders referred to above.

However, the holder of any senior debt securities, including senior notes, will have an absolute right to receive payment of principal of and any premium and interest on the senior debt security when due and to institute suit to enforce this payment, and the holder of any subordinated debt securities, including subordinated notes, will have, subject to applicable subordination provisions, the absolute right to receive payment of principal of and any premium and any interest on the subordinated debt security when due in accordance with the Subordinated Indenture and to institute suit to enforce this payment.

Limitation on Mergers and Sales of Assets

The following supersedes the information in the accompanying prospectus under the heading Description of Debt Securities Limitation on Mergers and Sales of Assets beginning on page 37 for all notes issued under either Indenture as of the date of this prospectus supplement.

Each Indenture generally permits a consolidation or merger between us and another entity. It also permits the sale or conveyance by us of all or substantially all of our assets. These transactions are permitted if:

the resulting or acquiring entity, if other than us, is organized and existing under the laws of the United States, any state or the District of Columbia and expressly assumes all of our obligations under that Indenture; and

Table of Contents

immediately after the transaction, we (or any successor entity) are not in default in the performance of any covenant or condition under that Indenture, and no event of default has occurred or is continuing.

The foregoing requirements do not apply in the case of a sale or conveyance by us of all or substantially all of our assets to one or more entities that are direct or indirect subsidiaries in which we and/or one or more of our subsidiaries own more than 50% of the combined voting power.

Upon any consolidation, merger, sale or conveyance of this kind (other than a sale or conveyance to our direct or indirect subsidiary or subsidiaries in which we own more than 50% of the combined voting power as described in the preceding paragraph), the resulting or acquiring entity will be substituted for us in the applicable Indenture with the same effect as if it had been an original party to that Indenture. As a result, the successor entity may exercise our rights and powers under that Indenture.

Redemption

The applicable supplement will indicate whether we have the option to redeem notes prior to their stated maturity. If we may redeem the notes prior to their stated maturity, the applicable supplement will indicate the redemption price and method for redemption. See also Description of Debt Securities Redemption in the accompanying prospectus. The redemption of any note that is our eligible LTD will require the prior approval of the Federal Reserve Board if after such redemption we would fail to satisfy our requirements as to eligible LTD or total loss-absorbing capacity under the TLAC Rules. In addition, unless we specify otherwise in the applicable supplement, to the extent then required by applicable laws or regulations, the subordinated notes may not be redeemed prior to their stated maturity without the requisite prior approvals, if any, from applicable regulators.

Repayment

The applicable supplement will indicate whether the notes can be repaid at the holder's option prior to their stated maturity. If the notes may be repaid prior to their stated maturity, the applicable supplement will indicate the amount at which we will repay the notes and the procedure for repayment. Unless we specify otherwise in the applicable supplement, to the extent then required by applicable laws or regulations, the subordinated notes may not be repaid prior to their stated maturity without the requisite prior approvals, if any, from applicable regulators.

Reopenings

We have the ability to reopen, or increase after the issuance date, the principal amount of a particular tranche or series of our notes without notice to the holders of existing notes by selling additional notes having the same terms, provided that such additional notes shall be fungible for U.S. federal income tax purposes. However, any new notes of this kind may have a different offering price and may begin to bear interest at a different date.

Extendible/Renewable Notes

We may issue notes for which the maturity date may be extended at our option or renewed at the option of the holder for one or more specified periods, up to but not beyond the final maturity date stated in the note. The specific terms of and any additional considerations relating to extendible or renewable notes will be set forth in the applicable supplement.

Table of Contents

Other Provisions

Any provisions with respect to the determination of an interest rate basis, the specification of interest rate basis, the calculation of the applicable interest rate, the amounts payable at maturity, interest payment dates, or any other related matters for a particular tranche of notes, may be modified as described in the applicable supplement.

Repurchase

We, or our affiliates, may purchase at any time our notes by tender, in the open market at prevailing prices or in private transactions at negotiated prices. If we purchase notes in this manner, we have the discretion to hold, resell, or cancel any repurchased notes. The repurchase of any note that is our eligible LTD will require the prior approval of the Federal Reserve Board if after such repurchase we would fail to satisfy our requirements as to eligible LTD or total loss-absorbing capacity under the TLAC Rules. Unless we specify otherwise in the applicable supplement, to the extent then required by applicable laws or regulations, the subordinated notes may not be repurchased prior to their stated maturity without the requisite prior approvals, if any, from applicable regulators.

Form, Exchange, Registration, and Transfer of Notes

If we specify in the applicable supplement, your notes will be represented by a kind of global note that we refer to as a master global note. This kind of global note represents multiple notes that have different terms and are issued at different times. Each note evidenced by a master note will be identified by the trustee on a schedule to the master note. If we do not specify in the applicable supplement that your notes will be represented by a master global note, then the notes represented by the same global note will have the same terms.

We will issue each note in book-entry only form. This means that we will not issue certificated notes to each beneficial owner. Instead, the notes will be in the form of a global note or a master global note, in fully registered form, registered and held in the name of the applicable depository or a nominee of that depository. For notes denominated in a currency other than U.S. dollars, the notes may be issued in the form of two global notes, each in fully registered form, one of which will be deposited with DTC, or its custodian, and one of which will be deposited with a common depository for Euroclear Bank SA/NV (Euroclear) and/or Clearstream Banking, société anonyme, Luxembourg (Clearstream). Unless we specify otherwise in the applicable supplement, the depository for the notes will be DTC. DTC, Euroclear, and Clearstream, as depositories for global securities, and some of their policies and procedures are described under Registration and Settlement Depositories for Global Securities in the accompanying prospectus. For more information about book-entry only notes and the procedures for registration, settlement, exchange, and transfer of book-entry only notes, see Description of Debt Securities Form and Denomination of Debt Securities and Registration and Settlement in the accompanying prospectus.

If we ever issue notes in certificated form, unless we specify otherwise in the applicable supplement, those notes will be in registered form, and the exchange, registration, or transfer of those notes will be governed by the applicable Indenture and the procedures described under Description of Debt Securities Exchange, Registration, and Transfer and Registration and Settlement Registration, Transfer, and Payment of Certificated Securities in the accompanying prospectus.

Table of Contents

U.S. FEDERAL INCOME TAX CONSIDERATIONS

For the material U.S. federal income tax considerations of the acquisition, ownership and disposition of certain notes, see U.S. Federal Income Tax Considerations on page 99 of the accompanying prospectus and the subsection Taxation of Debt Securities of that section. Special U.S. federal income tax rules are applicable to certain types of notes we may issue under this prospectus supplement. The material U.S. federal income tax considerations with respect to any notes we issue, and which are not addressed in the accompanying prospectus, will be discussed in the applicable supplement.

The following paragraph supplements the discussion under U.S. Federal Income Tax Considerations Foreign Account Tax Compliance Act beginning on page 122 of the accompanying prospectus.

The IRS has announced that withholding and reporting under the Foreign Account Tax Compliance Act on payments of gross proceeds from a sale or redemption of the notes will only apply to payments made after December 31, 2018.

You should consult with your own tax advisor before investing in the notes.

SUPPLEMENTAL PLAN OF DISTRIBUTION (CONFLICTS OF INTEREST)

We are offering the notes for sale on a continuing basis through the selling agents. The selling agents may act either on a principal basis or on an agency basis. We may offer the notes at varying prices relating to prevailing market prices at the time of resale, as determined by the selling agents, or, if so specified in the applicable supplement, for resale at a fixed public offering price. The applicable supplement will set forth the initial price for the notes, or whether they will be sold at varying prices.

If we sell notes on an agency basis, we will pay a commission to the selling agent to be negotiated at the time of sale. The commission will be determined at the time of sale and will be specified in the applicable supplement. Each selling agent will use its reasonable best efforts when we request it to solicit purchases of the notes as our agent.

Unless otherwise agreed and specified in the applicable supplement, if notes are sold to a selling agent acting as principal, for its own account, or for resale to one or more investors or other purchasers, including other broker-dealers, then any notes so sold will be purchased by that selling agent at a price equal to 100% of the principal amount of the notes less a commission that will be a percentage of the principal amount determined as described above. Notes sold in this manner may be resold by the selling agent to investors and other purchasers from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale, or the notes may be resold to other dealers for resale to investors. The selling agents may allow any portion of the discount received in connection with the purchase from us to the dealers, but the discount allowed to any dealer will not be in excess of the discount to be rec
