We had a very productive second quarter and remained focused on achieving our long-term objectives. Our quarterly results were very strong, as evidenced by the continued expansion in our net interest margin, lower operating expenses, record capital markets revenue and another very significant decline in the level of criticized assets. Our commercial middle market loan originations were also very strong and we expect this trend to continue over the remainder of the year, said Greg D. Carmichael, Chairman, President and CEO of Fifth Third Bancorp.

During the quarter, we continued to execute on expense initiatives and also took further actions to optimize our branch network. We are very excited about reallocating our resources to grow branches in high-growth markets which should significantly boost household growth. I am confident that these decisions are in the best long-term interests of our shareholders. We remain focused on achieving our enhanced profitability targets.

**Table of Contents**

Also during the second quarter we announced the acquisition of MB Financial, which will create a leading retail and commercial franchise in the attractive Chicago market. We are purchasing a well-respected and successful bank, and combining forces will allow us to build scale in the strategically important Chicago market. Since the announcement in May, we have made significant progress in finalizing the composition of the management team in Chicago. We are very confident that the talent we have in place will help us achieve the financial outcomes that we discussed during the announcement. We are looking forward to completing the merger as soon as possible so that we can begin realizing the substantial cost and revenue synergies we have identified.

Lastly, the recently announced CCAR results provide further proof of our commitment to our shareholders. Over the next four quarters, we expect to return a significant amount of capital through a 33% increase in our quarterly common dividend and a 42% increase in share repurchases compared to last year's capital plan. We are also pleased that a resubmission of our capital plan, given the pending acquisition of MB Financial, will not delay our capital distribution plans.

Taxable equivalent NII of \$1.024 billion in the second quarter of 2018 increased \$25 million, or 3 percent, from the prior quarter. Performance reflected higher short-term market rates, a higher day count and growth in middle market commercial and industrial (C&I) loans. Taxable equivalent NIM of 3.21 percent in the second quarter of 2018 increased 3 bps from the prior quarter, primarily driven by higher short-term market rates, partially offset by a higher day count.

Compared to the second quarter of 2017, taxable equivalent NII increased \$79 million, or 8 percent. Performance reflected higher short-term rates and an increase in investment portfolio balances. Taxable equivalent NIM increased

20 bps from the second quarter of 2017, primarily driven by higher short-term market rates.

**Securities**

Average securities and other short-term investments were \$34.9 billion in the second quarter of 2018 compared to \$34.7 billion in the previous quarter and \$33.5 billion in the second quarter of 2017. Average available-for-sale debt and other securities of \$32.6 billion in the second quarter of 2018 were up \$395 million, or 1 percent, sequentially and up \$1.3 billion, or 4 percent, from the second quarter of 2017.

Average loans held for sale	\$ 675	\$ 535	\$ 615	\$ 711	\$ 681	26%	(1%)

Average portfolio loan and lease balances were flat sequentially and up 1 percent year-over-year. Sequential performance was primarily driven by increases in C&I and other consumer loans, offset by decreases in home equity loans and commercial leases. Year-over-year performance was primarily driven by increases in other consumer and C&I loans, partially offset by decreases in home equity and automobile loans. Period end portfolio loans and leases of \$92.0 billion were flat sequentially and up 1 percent year-over-year.

Average commercial portfolio loan and lease balances were up 1 percent both sequentially and from the second quarter of 2017. Sequential performance was primarily driven by an increase in C&I loans reflecting solid growth in middle market lending, partially offset by a decrease in commercial leases consistent with the planned reduction in indirect non-relationship based lease originations. Within commercial real estate, commercial mortgage balances decreased 1 percent and commercial construction balances were up 2 percent sequentially. Year-over-year overall commercial performance was primarily driven by an increase in C&I and commercial construction loans, partially offset by a decrease in commercial mortgage. Period end commercial line utilization was 35 percent in both the first and second quarter of 2018, compared to 34 percent in the second quarter of 2017.

Average consumer portfolio loan and lease balances were down 1 percent sequentially and were flat year-over-year. Sequential performance was primarily driven by a decline in home equity and automobile loan balances, partially offset by an increase in other consumer loans. Year-over-year performance was primarily driven by an increase in other consumer and residential mortgage loans, offset by lower home equity and automobile loan balances.

Total average deposits	\$ 103,945	\$ 103,537	\$ 102,790	\$ 101,834	\$ 102,457		1%

Average core deposits increased 1 percent sequentially and were up 2 percent year-over-year. Average transaction deposits increased 1 percent sequentially and were up 2 percent compared with the second quarter of 2017. The sequential performance continued to reflect deposit migration from demand deposits to interest-bearing accounts. Sequential and year-over-year growth was primarily driven by increases in consumer money market account balances and commercial interest checking deposits, partially offset by lower commercial demand deposit account balances. Other time deposits increased by 4 percent sequentially and 7 percent year-over-year.

Average total commercial transaction deposits of \$42 billion decreased 1 percent sequentially and were flat from the second quarter of 2017. Average total consumer transaction deposits of \$55 billion increased 2 percent sequentially and increased 3 percent from the second quarter of 2017.

Average wholesale funding of \$20.5 billion decreased \$94 million sequentially and decreased \$201 million, or 1 percent, from the second quarter of 2017. The sequential decrease in average wholesale funding reflected lower long-term debt balances resulting from maturities in the first and second quarter of 2018 exceeding a debt issuance in the second quarter of 2018 as well as lower other deposits and jumbo CD balances, partially offset by an increase in Federal funds borrowings. The year-over-year decrease primarily resulted from the ability to fund interest-earning asset growth with core deposits.

**Table of Contents**

Noninterest income of \$743 million decreased \$166 million sequentially and increased \$179 million year-over-year. The sequential and year-over-year comparisons reflect the impact of the following items:

**Noninterest Income excluding certain items**

(\$ in millions)	For the Three Months Ended			% Change	
	June 2018	March 2018	June 2017	Seq	Yr/Yr
<b>Noninterest Income excluding certain items</b>

Noninterest income excluding certain items <sup>(b)</sup>	\$ 567	\$ 553	\$ 573	3%	(1%)

Excluding the items in the table above, noninterest income of \$567 million increased \$14 million, or 3 percent, from the previous quarter and decreased 1 percent from the second quarter of 2017. The sequential performance was primarily driven by increases in corporate banking revenue and card and processing revenue, partially offset by a decrease in wealth and asset management revenue compared to the seasonally strong performance in the first quarter of 2018.

Corporate banking revenue of \$120 million was up 36 percent sequentially and up 19 percent year-over-year. The sequential and year-over-year increase was primarily driven by strong, broad-based capital markets revenue growth, led by corporate bond fees and loan syndication revenue.

Total mortgage banking net revenue	\$ 53	\$ 56	\$ 54	\$ 63	\$ 55	(5%)	(4%)
------------------------------------	-------	-------	-------	-------	-------	------	------

Mortgage banking net revenue was \$53 million in the second quarter of 2018, down 5 percent from the first quarter of 2018 and down 4 percent from the second quarter of 2017. The sequential decrease was driven by elevated negative net valuation adjustments, partially offset by higher origination fees and gains on loan sales. The year-over-year decrease was driven by lower origination fees and gains on loan sales, partially offset by higher gross mortgage servicing fees. Originations of \$2.1 billion in the current quarter increased 35 percent sequentially and decreased 7 percent from the second quarter of 2017.

**Table of Contents**

Wealth and asset management revenue of \$108 million decreased 4 percent from the first quarter of 2018 and increased 5 percent from the second quarter of 2017. The sequential decrease was primarily driven by seasonally strong tax-related private client service revenue in the first quarter of 2018 and a decrease in personal asset management revenue. The year-over-year increase was primarily driven by higher personal asset management revenue.

Card and processing revenue of \$84 million in the second quarter of 2018 increased 6 percent both sequentially and year-over-year. The sequential increase reflected seasonally higher credit card spend volume and higher debit transaction volume. The year-over-year increase in card and processing revenue was due to higher credit card spend volume and higher debit transaction volume.

Other noninterest income totaled \$250 million in the second quarter of 2018, compared with \$460 million in the previous quarter, and \$85 million in the second quarter of 2017. As disclosed in the table on page 8, the reported results included the impact of Worldpay gains, a gain from the GreenSky IPO, valuation adjustments from the Visa total return swap, and branch impairment charges. For the second quarter of 2018, excluding these items, other noninterest income of \$69 million decreased \$24 million, or 26 percent, from the first quarter of 2018 and decreased \$25 million, or 27 percent, from the second quarter of 2017. The sequential decrease was primarily due to lower private equity investment income. The year-over-year results also reflected a decline in equity method earnings from the ownership interest in Worldpay.

Net losses on investment securities were \$5 million in the second quarter of 2018 (primarily due to the ownership stake in GreenSky), compared with net losses of \$11 million in the first quarter of 2018 and no net gains/losses in the second quarter of 2017. Net losses on securities held as non-qualifying hedges for the MSR portfolio were \$4 million in the second quarter of 2018 and \$13 million in the first quarter of 2018.

Noninterest expense of \$1.037 billion decreased \$9 million, or 1 percent, compared with the first quarter of 2018, and increased \$80 million, or 8 percent, compared with the second quarter of 2017. Excluding the \$19 million compensation expense primarily related to the previously announced staffing review and the \$10 million contribution to the Fifth Third Foundation in the second quarter of 2018, as well as an \$8 million litigation reserve charge in the first quarter of 2018, noninterest expense of \$1.008 billion decreased \$30 million, or 3 percent. The sequential

decrease primarily reflected seasonally lower compensation-related expenses and ongoing discipline in managing expenses throughout the company. The year-over-year increase was primarily driven by higher base compensation and technology and communications expense.

On May 25, 2018, Fifth Third initially settled a share repurchase agreement whereby Fifth Third would purchase \$235 million of its outstanding stock. The initial settlement reduced second quarter common shares outstanding by 6.4 million shares. On June 15, 2018, Fifth Third settled the forward contract. An additional 1.2 million shares were repurchased in connection with the completion of this agreement.

On June 27, 2018, Fifth Third completed the sale of 5 million shares of Class A common stock of Worldpay, Inc. Fifth Third had previously received these Class A shares in exchange for Class B Units of Vantiv Holding, LLC. Fifth Third recognized a pre-tax gain of approximately \$205 million (~ \$162 million after tax)<sup>(a)</sup> related to the sale. The sale added approximately 16 basis points to Fifth Third's CET1 ratio. As a result of the sale, Fifth Third beneficially owns approximately 3.3% of Worldpay's equity through its ownership of approximately 10.3 million Class B Units.

On June 28, 2018, Fifth Third announced that the Board of Governors of the Federal Reserve System did not object to Fifth Third's 2018 CCAR capital plan for the period beginning July 1, 2018 and ending June 30, 2019. Fifth Third's capital plan included the following capital actions related to common dividends and share repurchases:

The increase in the quarterly common stock dividend to \$0.22 from \$0.18 beginning 4Q 2018 and to \$0.24 beginning 2Q 2019, a 33 percent increase over the current dividend rate

The repurchase of common shares in an amount up to \$1.651 billion, or a 42 percent increase over the 2017 capital plan. Included in these repurchases are:

\$81 million in repurchases related to share issuances under employee benefit plans

\$53 million in repurchases related to previously-recognized Worldpay tax receivable agreement ( TRA ) transaction after-tax gains

## **Table of Contents**

The additional ability to repurchase common shares in the amount of any after-tax capital generated from the sale of Worldpay common stock (including expected share repurchases associated with the recent sale of 5 million shares of Worldpay which generated approximately \$162 million in after-tax capital)<sup>(a)</sup>

The additional ability to repurchase common shares in the amount of any after-tax cash income generated from the termination and settlement of gross cash flows from existing TRAs with Worldpay or potential future TRAs that may be generated from additional sales of Worldpay

Fifth Third intends to execute open market share repurchases associated with up to \$500 million of its 2018 CCAR repurchase plan before the beginning of the proxy solicitation in connection with the MB Financial, Inc. shareholder vote on its merger with Fifth Third, and may repurchase additional shares after the vote. The timing and amount of this repurchase activity is subject to market conditions and applicable securities laws.

## **Tax Rate**

The effective tax rate was 15.5 percent in the second quarter of 2018 compared with 15.8 percent in the previous quarter and 25.9 percent in the second quarter of 2017. The tax rate in the second quarter of 2018 was impacted by a \$12 million tax benefit primarily associated with the exercise and vesting of employee equity awards.

## **Other**

On May 20, 2018, Fifth Third Bancorp and MB Financial, Inc. signed a definitive agreement under which MB Financial will merge with Fifth Third in a transaction valued at approximately \$4.7 billion as of May 18, 2018. The transaction is expected to reduce Fifth Third's regulatory common CET1 ratio by approximately 45 basis points. The pro forma tangible common equity to tangible assets (TCE) ratio of the combined entity is projected to be 8.2 percent at closing. The transaction is subject to the satisfaction of all customary closing conditions, including regulatory approvals as well as the approval of MB Financial shareholders.

As of June 30, 2018, Fifth Third Bank owned approximately 10.3 million units representing a 3.3 percent interest in Vantiv Holding, LLC, convertible into shares of Worldpay, Inc., a publicly traded firm. Based upon Worldpay's closing price of \$81.78 on June 30, 2018, our interest in Worldpay was valued at approximately \$840 million. The difference between the market value and the book value of Fifth Third's interest in Worldpay's shares is not recognized in Fifth Third's equity or capital.

## **Conference Call**

**Use of Non-GAAP Financial Measures**

In addition to GAAP measures, management considers various Non-GAAP measures when evaluating the performance of the business, including: taxable equivalent net interest income, adjusted taxable equivalent net interest income, taxable equivalent net interest margin, adjusted taxable equivalent net interest margin, adjusted yield on interest-earning assets, efficiency ratio, taxable equivalent net interest rate spread, taxable equivalent income before income taxes, noninterest income excluding certain items, tangible net income available to common shareholders, average tangible common equity, tangible common equity ratio, tangible common equity ratio (excluding unrealized gains/ losses) tangible common equity ratio (including unrealized gains/ losses) tangible equity, tangible book value per share, and certain ratios derived from these measures.

The taxable equivalent basis adjusts for the tax-favored status of income from certain loans and securities held by the Bancorp that are not taxable for federal income tax purposes. The Bancorp believes this presentation to be the preferred industry measurement of net interest income as it provides a relevant comparison between taxable and non-taxable amounts.

Noninterest income excluding certain items is provided by management to assist the reader in identifying significant, unusual, or large transactions that impacted noninterest income. Adjusted taxable equivalent net interest income and adjusted taxable equivalent net interest margin are provided by management to assist the reader in identifying significant, unusual, or large transactions that impacted net interest income.

Management considers various measures when evaluating capital utilization and adequacy, including the tangible equity and tangible common equity (including and excluding unrealized gains/losses), in addition to capital ratios defined by the U.S. banking agencies. These calculations are intended to complement the capital ratios defined by the U.S. banking agencies for both absolute and comparative purposes. These ratios are not formally defined by U.S. GAAP or codified in the federal banking regulations and, therefore, are considered to be Non-GAAP financial measures. Management believes that providing the tangible common equity ratio excluding unrealized gains/losses on certain assets and liabilities enables investors and others to assess the Bancorp's use of equity without the effects of gains or losses some of which are uncertain and providing the tangible common equity ratio including unrealized gains/losses enables investors and others to assess the Bancorp's use of equity if all unrealized gains or losses were to be monetized.

Management believes tangible book value per share and return on average tangible common equity are important measures for evaluating the performance of a business as it calculates the return available to common shareholders and book value of common stock without the impact of intangible assets and their related amortization. This is useful for evaluating the performance of a business consistently, whether acquired or developed internally, compared to other companies in the industry who present similar measures.

Please note that although Non-GAAP financial measures provide useful insight, they should not be considered in isolation or relied upon as a substitute for analysis using GAAP measures.

Please see page 32 for Reg. G reconciliations of all historical Non-GAAP measures used in this release to the most directly comparable GAAP measures.
