

WOORI BANK

Form 6-K

November 16, 2018

This Report on Form 6-K is incorporated by reference into the prospectus included in the Registration Statement on Form F-4 of Woori Bank (File No. 333-226345).

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Form 6-K

REPORT OF FOREIGN PRIVATE ISSUER

PURSUANT TO RULE 13a-16 OR 15d-16

UNDER THE SECURITIES EXCHANGE ACT OF 1934

For the month of November 2018

Woori Bank

(Translation of Registrant's name into English)

51, Sogong-ro, Jung-gu, Seoul, 04632, Korea

(Address of principal executive offices)

Edgar Filing: WOORI BANK - Form 6-K

Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F.

Form 20-F

Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1):

Note: Regulation S-T Rule 101(b)(1) only permits the submission in paper of a Form 6-K if submitted solely to provide an attached annual report to security holders.

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7):

Note: Regulation S-T Rule 101(b)(7) only permits the submission in paper of a Form 6-K if submission to furnish a report or other document that the registration foreign private issuer must furnish and make public under the laws of the jurisdiction in which the registrant is incorporated, domiciled or legally organized (the registrant's home country), or under the rules of the home country exchange on which the registrant's securities are traded, as long as the report or other document is not a press release, is not required to be and has not been distributed to the registrant's security holders, and if discussing a material event, has already been the subject of a Form 6-K submission or other Commission filing on EDGAR.

WOORI BANK AND SUBSIDIARIES

The consolidated interim statements of cash flows for the nine months ended September 30, 2018 was prepared in accordance with IFRS 9; however, the comparative consolidated interim statements of cash flows for the nine months ended September 30, 2017 was not retrospectively restated to apply IFRS 9.

See accompanying notes

WOORI BANK AND SUBSIDIARIES

NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS

AS OF SEPTEMBER 30, 2018 AND FOR THE THREE MONTHS AND THE NINE MONTHS

ENDED SEPTEMBER 30, 2018 AND 2017

1. GENERAL

(1) Summary of the parent company

Woori Bank (hereinafter referred to as the Bank), which is a controlling entity in accordance with International Financial Reporting Standards (IFRS) 10 *Consolidated Financial Statements*, was established in 1899 and is engaged in the commercial banking business under the Banking Act, trust business and foreign exchange business under the Financial Investment Services and Capital Market Act.

Previously, Woori Finance Holdings Co., Ltd., the former holding company of Woori Financial Group, established on March 27, 2001 held a 100% ownership of the Bank. Effective November 1, 2014, Woori Finance Holdings Co., Ltd. completed its merger (the Merger) with and into the Bank. Accordingly, the shares of the Bank, 597 million shares, prior to the merger, were reduced to nil in accordance with capital reduction procedure, and then, in accordance with the merger ratio, the Bank newly issued 676 million shares. Since then, there have been no change in numbers of issued shares. As a result, as of September 30, 2018, the common stock of the Bank amounts to 3,381,392 million Korean Won.

During the year ended December 31, 2016, the Korea Deposit Insurance Corporation (KDIC), the majority shareholder of the Bank, sold its 187 million shares in the Bank in accordance with the contract of Disposal of Woori Bank's shares to Oligopolistic Shareholders. In addition to the sale, during the year ended December 31, 2017, KDIC sold additional 33 million shares. As of September 30, 2018 and December 31, 2017, KDIC held 125 million shares (18.43% ownership interest), of the Bank's shares issued.

On June 24, 2002, Woori Finance Holdings Co., Ltd. listed its common shares on the Korea Exchange through public offering. In addition, on September 29, 2003, the holding company registered with the Securities and Exchange Commission in the United States of America and, on the same day, listed its American Depositary Shares on the New York Stock Exchange. As Woori Finance Holdings Co., Ltd. was merged into the Bank, the Bank, which is the existing company, succeeded such rights and obligations as a listed company on the Korea Exchange and the New York Stock Exchange.

As a result of such merger, the Bank incorporated Woori Card Co., Ltd., Woori Investment Bank Co., Ltd., Woori FIS Co., Ltd., Woori Private Equity Asset Management Co., Ltd., and Woori Finance Research Institute Co., Ltd. as its subsidiaries.

The headquarters of the Bank is located in 51, Sogong-ro, Jung Gu, Seoul, Korea. The Bank has 878 branches and offices in Korea, and 23 branches and offices overseas as of September 30, 2018.

(2) The consolidated financial statements for Woori Bank and its subsidiaries (the Group) include the following subsidiaries:

(*1) The entity was a structured entity for the purpose of asset securitization and was in scope for consolidation. Considering that, the Group 1) had the power over the investee, 2) was exposed, or had rights, to variable returns from its involvement with the investee, and 3) had the ability to use its power to affect its returns.

(*2) The entity was a structured entity for the purpose of investment in securities and was in scope for consolidation, considering that the Group 1) had the power over the investee, 2) was exposed, or has rights, to variable returns from its involvement with the investee, and 3) has the ability to use its power to affect its returns.

(*3) The entity was a money trust under the Financial Investment Services and Capital Markets Act and was in scope for consolidation. Although the Group was not a majority shareholder, the Group 1) has the power over the investee, 2) was exposed, or has rights, to variable returns from its involvement with the investee, and 3) has the ability to use its power to affect its returns.

(3) As of September 30, 2018, and December 31, 2017, despite having more than 50% ownership interest, the Group has not consolidated the following companies as the Group does not have the ability to control following subsidiaries:

Subsidiaries	Location	As of September 30, 2018	
		Main Business	Percentage of ownership (%)
Golden Bridge NHN Online Private Equity Investment (*)	Korea	Securities Investment	60.0
Mirae Asset Maps Clean Water Private Equity Investment Trust 7th (*)	Korea	Securities Investment	58.5
Hana Walmart Real Estate Investment Trust 41-1 (*)	Korea	Securities Investment	77.0
Hangkang Sewage Treatment Plant Fund (*)	Korea	Securities Investment	55.7

Edgar Filing: WOORI BANK - Form 6-K

IGIS Global Private Placement Real Estate Fund No. 163-2 (*)	Korea	Securities Investment	97.9

(*) FISCM Act: Financial Investment Services and Capital Markets Act

(5) The financial support that the Group provides to consolidated structured entities is as follows:

Structured entity for the securitization of financial assets

The structured entity is established for the purpose of securitization of project financing loans, corporate bonds, and other financial assets. The Group is involved with the structured entity through providing with credit facility over asset-backed commercial papers issued by the entity, originating loans directly to the structured entity, or purchasing 100% of the subordinated debts issued by the structured entity.

Structured entity for the investments in securities

The structured entity is established for the purpose of investments in securities. The Group acquires beneficiary certificates through its contribution of fund to the structured entity, and it is exposed to the risk that it may not be able to recover its fund depending on the result of investment performance of asset managers of the structured entity.

Money trust under the Financial Investment Services and Capital Markets Act

The Group provides with financial guarantee of principal and interest or principal only to some of its trust products. Due to the financial guarantees, the Group may be obliged to supplement when the principal and interest or principal of the trust product sold is short of the guaranteed amount depending on the result of investment performance of the trust product.

The Group is providing purchase commitment and credit facilities to structured entities that are subsidiaries of the Group. Purchase commitments guarantee the purchase and payment of outstanding commercial papers that were issued but were not repurchased by the structured entities. Credit facilities allow lending of funds to structured entities under certain conditions when there are grounds for discontinuing the issuance of commercial papers, or when structured entities default due to some reasons.

As of September 30, 2018, the Group is providing credit facilities (including ABCP purchase commitments, etc.) amounting to 1,325,904 million Won to aforementioned structured entities.

- (6) The Group has entered into various agreements with structured entities such as asset securitization vehicles, structured finance and investment funds, and monetary funds. Where it is determined in accordance with IFRS 10 that the Group has no controlling power over such structured entities, the entities are not consolidated. The nature of interests, which the Group retains, and the risks, to which the Group is exposed, of the unconsolidated structured entities are as follows:

The interests to unconsolidated structured entities, which the Group retains, are classified to asset securitization vehicles, structured finance and investment fund, based on the nature and the purpose of the structured entities.

Asset securitization vehicle issues asset-backed securities and redeems the principal and interest or distributes dividends on asset-backed securities with profits from collecting cash flows or sale of securitized assets. The Group, as a secondary guarantor, provides purchase commitments for its asset-backed securities or guarantees to such asset securitization vehicle and recognizes commission income or interest income related to the commitment or guarantees. Therefore, the Group would be exposed to risks to purchases or pays back asset-backed securities issued by the vehicles when a primary guarantor fails to provide the financing asset securitization vehicles.

Structured finance includes investments in project financing on real estates, social overhead capital (SOC), infrastructure and shipping finance. They are formed as special purpose entity by funding through equity investments and loans from various investors. Investment decisions are made by the Group based on business outlook of such projects. In relation to such investments, the Group recognizes interest income on loans, gains or losses on valuation of equity investments or dividend income. The structured finance is secured by additional funding agreement, guarantee or credit facilities. However, the structured financing project would fail to return the capital of equity investments or principal of loans to the Group if it is discontinued or did not achieve business outcome.

Investment funds include trusts and private equity funds. A trust is formed by contributions from various investors, operated by a manager engaged to the trust and distributed proceeds from sales of investments to the investors. A private equity fund is established in order to acquire ownership interests in a portfolio company with exit strategy after implementing financial and operational restructuring of the company. The Group recognizes unrealized gains or losses on change in value of investments in proposition of ownership interests in investments. The Group would be exposed to risks of loss when the value of portfolio investment is decreased.

Total assets of the unconsolidated structured entities, the carrying value of the related items recorded, the maximum exposure to risks, and the loss recognized in conjunction with the unconsolidated structured entities as of September 30, 2018 and December 31, 2017 are as follows (Unit: Korean Won in millions):

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

(1) Basis of presentation

The Group's consolidated interim financial statements are prepared in accordance with International Accounting Standards (IAS) 34, *Interim Financial Reporting* and IFRS 10, *Consolidated Financial Statements*. It is necessary to use the annual consolidated financial statements for the year ended December 31, 2017 for understanding of the accompanying interim financial statements.

Unless stated below, the accounting policies applied in preparing the accompanying consolidated interim financial statements have been applied consistently with the annual consolidated financial statements as of and for the year ended December 31, 2017.

1) The Group has newly adopted the following adoption of IFRS that affected the Group's accounting policies:

Adoption of IFRS 9 *Financial instruments* (enacted)

The Group applied for the first time as of January 1, 2018, the adoption to IFRS 9 and other standards related to IFRS 9, which introduces new rules: 1) classification and measurement of financial assets and financial liabilities, 2) impairment of financial assets, and 3) hedge accounting.

The Group decided not to restate the prior period figures when applying the Standard for the first time, thus the comparative financial statements presented are not restated.

The main contents of the new accounting standard and the effect on the financial statements of the Group are as follows:

a) Classification and measurement of financial assets and financial liabilities

All financial assets included in the scope of IFRS 9 are subsequently measured at amortized cost or fair value based on the business model for the management of financial assets and the nature of the contractual cash flows.

Debt instruments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortized cost at the end of subsequent accounting periods (financial assets at amortized cost).

Debt instruments that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets, and that have contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are generally measured at fair value through other comprehensive income (financial assets at fair value through other comprehensive income (FVTOCI)).

All other debt instruments and equity instruments are measured at their fair value at the end of subsequent accounting periods (financial assets at fair value through profit or loss (FVTPL)).

Notwithstanding the foregoing, the Group may make the following irrevocable choice or designation at the time of initial recognition of financial assets.

The Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value of an investment in an equity instrument within the scope of this Standard that is neither held for trading nor contingent consideration recognized by an acquirer in a business combination to which IFRS 3(R) applies.

At initial recognition, financial assets at amortized cost or FVTOCI may be irrevocably designated as financial assets at fair value through profit or loss mandatorily measured at fair value if doing so eliminate or significantly reduce a measurement or recognition inconsistency.

As of the date of first adoption of IFRS 9, there are no debt instruments classified either as financial assets at amortized cost or FVTOCI that are designated as financial assets at fair value through profit or loss.

When debt instruments measured at FVTOCI are derecognized, the cumulative gain or loss recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment. On the other hand, for equity instruments designated as financial assets at fair value through other comprehensive income, cumulative gains or losses previously recognized in other comprehensive income are not subsequently reclassified to profit or loss. Debt instruments measured subsequently at amortized cost or fair value through other comprehensive income are subject to impairment provisions.

The classification and measurement of financial assets and financial liabilities in accordance with IFRS 9 and IAS 39 as of January 1, 2018 are as follows (Unit: Korean Won in millions):

	Classification according to IAS 39	Classification according to IFRS 9	Classification according to IAS 39	Reclassification	Remeasurement	Classification according to IFRS 9
Deposit	Loans and receivables	Loan and other financial assets at amortized cost	8,870,835			8,870,835
Deposit	Financial assets at FVTPL	Financial assets at FVTPL	25,972			25,972
Debt securities	Financial assets at FVTPL	Financial assets at FVTPL (*)	2,654,027			2,654,027
Equity securities	Financial assets at FVTPL	Financial assets at FVTPL (*)	47,304			47,304
Derivatives	Financial assets at FVTPL	Financial assets at FVTPL (*)	3,115,775	(2,137)		3,113,638
Equity securities	AFS financial assets	Financial assets at FVTPL (*)	1,273,498	1,219		1,274,717
Equity securities	AFS financial assets	Financial assets at FVTOCI	850,207			850,207
Debt securities	AFS financial assets	Financial assets at FVTPL	46,855			46,855
Debt securities	AFS financial assets	Financial assets at FVTOCI	12,874,209			12,874,209
Debt securities	AFS financial assets	Securities at amortized cost	308,181		14,119	322,300
Debt securities	HTM financial assets	Securities at amortized cost	16,749,296			16,749,296
Loans	Loans and receivables	Financial assets at FVTPL (*)	279,032	918	50	280,000
Loans	Loans and receivables	Loan and other financial assets at amortized cost	253,014,491			253,014,491
Derivatives assets	Derivatives assets	Derivatives assets (Held for hedging)	59,272			59,272
Other financial assets	Loans and receivables	Loan and other financial assets at amortized cost	6,772,088			6,772,088
Total financial assets			306,941,042		14,169	306,955,211

(*) Under IAS 39, the embedded derivatives out of hybrid financial instruments are accounted for as derivatives assets or liabilities if the criteria for separation of the embedded derivative are met and the rest of host contracts in those instruments are recorded as available-for-sale financial assets or loans and receivables respectively. Since

IFRS 9 requires financial instruments be accounted for based on the terms of the entire financial instruments, the hybrid financial assets are revalued and recorded as financial assets at fair value through profit or loss.

	Classification according to IAS 39	Classification according to IFRS 9	Classification according to IAS 39 Reclassification	Classification according to IFRS 9 Measurement
Deposit due to customers	Financial liabilities at FVTPL	Financial liabilities at FVTPL	25,964	25,964
Deposit due to customers	Financial liabilities at amortized cost	Financial liabilities at amortized cost	234,695,084	234,695,084
Borrowings	Financial liabilities at amortized cost	Financial liabilities at amortized cost	14,784,706	14,784,706
Debentures	Financial liabilities at FVTPL	Financial liabilities at FVTPL	91,739	91,739
Debentures	Financial liabilities at amortized cost	Financial liabilities at amortized cost	27,869,651	27,869,651
Equity-linked securities	Financial liabilities at FVTPL	Financial liabilities at FVTPL	160,057	160,057
Derivatives liabilities	Financial liabilities at FVTPL	Financial liabilities at FVTPL	3,150,149	3,150,149
Derivatives liabilities	Derivatives liabilities	Derivatives liabilities (Held for hedging)	67,754	67,754
Other financial liabilities	Financial liabilities at amortized cost	Financial liabilities at amortized cost	13,892,461	13,892,461
Provision for financial guarantee	Provision for financial guarantee	Financial liabilities at amortized cost	71,697	71,697
Total financial liabilities			294,809,262	294,809,262

At the date of the initial application of IFRS 9, there were no financial assets or liabilities measured at FVTPL that were reclassified to FVTOCI or amortized cost category.

As of the date of first adoption of IFRS 9, the amount of valuation gain or loss and fair value of financial assets that would have been recognized in the book, had the entity decided not to reclassify financial assets at FVTPL or FVTOCI that has been reclassified into financial assets at amortized cost, is as follows: (Unit: Korean Won in millions)

Account subject	Category before the adoption of IFRS 9	Amount of valuation gain/loss had it not been reclassified	Fair value
Debt securities	AFS securities	(163)	300,058

b) Impairment of financial assets

The impairment model under IFRS 9 reflects expected credit losses, as opposed to incurred credit losses under IAS 39. Under the impairment approach in IFRS 9, it is no longer necessary for a credit event to have occurred before credit losses are recognized. Instead, the Group accounts for expected credit losses and changes in those expected credit losses. The amount of expected credit losses should be updated at each reporting date to reflect changes in credit risk since initial recognition.

The Group is required to recognize the expected credit losses for financial instruments measured at amortized cost or FVTOCI, and loan commitments and financial guarantee contracts that are subject to the impairment provisions of IFRS 9. In particular, when the credit risk of the financial instruments are significantly increased after initial recognition, or when the credit quality of the financial instruments are already impaired at acquisition, the loss allowance is measured as the expected credit loss for the whole life of the financial assets. If the credit risk of a financial instruments does not increase significantly after initial recognition (excluding purchased or originated credit-impaired loans for financial assets already impaired at initial recognition), the Group measures the loss allowance on the financial instruments at the amount equivalent to the expected 12-month credit loss.

Management determined the credit risk at the date of initial recognition of the financial instrument in accordance with IFRS 9 and provided a reasonable and supportive measure that can be used without undue cost or effort in comparison with the credit risk of the initial application date (January 1, 2018) the Group used information that could be used to assess the impairment of the Group's financial assets, lending arrangements and financial guarantees at the date of initial application. As of January 1, 2018, the evaluation results are as follows (Unit: Korean Won in millions):

	Classification according to IAS 39	Classification according to IFRS 9	Loss allowance per IAS 39(A)	Loss allowance per IFRS 9 (B)	Increases (B-A)
Deposit	Loans and receivables	Loans and other financial assets at amortized cost	2,458	3,092	634
Debt securities					
AFS debt securities	AFS financial assets	Financial assets at FVTOCI		4,236	4,236
HTM securities	HTM financial assets	Securities at amortized cost		5,078	5,078
Loans and other financial assets	Loans and receivables	Loans and other financial assets at amortized cost	1,827,785	2,076,873	249,088
Payment guarantee			183,247	192,924	9,677
Loan commitment			66,115	104,985	38,870
Total			2,079,605	2,387,188	307,583

c) Classification and measurement of financial liabilities

One of the major changes related to the classification and measurement of financial liabilities as a result of the adoption of IFRS 9 is the change in the fair value of financial liabilities designated at fair value through profit or loss

due to the changes in issuer's own credit risk. The Group recognizes the effect of changes in the credit risk of financial liabilities designated as at FVTOCI in other comprehensive income, except for cases where it causes or disproves accounting mismatch of the profit or loss. Changes in fair value due to credit risk of financial liabilities are not subsequently reclassified to profit or loss, but are reclassified as retained earnings when financial liabilities are eliminated.

In accordance with IAS 39, the entire of changes in fair value of financial liabilities designated as at FVTPL are recognized in profit or loss. As of January 1, 2018, the Group designated 251,796 million Korean Won of FVTPL out of 294,813,795 million of financial liabilities, and recognized 133 million Korean Won as accumulated other comprehensive loss in relation to the changes in credit risk of financial liabilities.

d) Hedge accounting

The new hedge accounting model maintains three types of hedge accounting. However, it is introduced more flexibility in the types of transactions that are eligible for hedge accounting and is expanded the types of hedging instruments and non-financial hedge items that qualify for hedge accounting. As a whole, it has been amended and replaced by the principle of economic relationship between the hedged item and the hedging instrument. Retrospective assessment of the hedging effectiveness is no longer required. Additional disclosure requirements have been introduced in relation to the Group's risk management activities.

In accordance with the transitional provisions of IFRS 9 on hedge accounting, the Group adopted the hedge accounting provisions of IFRS 9 prospectively from January 1, 2018. As of the date of initial application, the Group has considered that the hedging relationship in accordance with IAS 39 is appropriate for hedge accounting under IFRS 9, thus the hedging relationship is considered to exist continually. Since the major conditions for hedging instruments and the hedged items are consistent, all hedging relationships are consistent with the effectiveness assessment requirements of IFRS 9. The Group has not designated a hedging relationship in accordance with IFRS 9 in which the hedge relationship would not have met the requirements for hedge accounting under IAS 39.

Consistent with prior periods, the Group continues to designate fair value changes in interest rate swaps as hedging instruments in the fair value hedge relationship.

e) Effect on equity as a result of adoption of IFRS 9

The effect on equity due to the adoption of IFRS 9 as of January 1, 2018 is as follows (Unit: Korean Won in millions):

Impact on accumulated other comprehensive loss as result of financial assets at FVTOCI, etc.

	Amount
Beginning balance (prior to IFRS 9)	(89,724)
Adjustments	(392,176)
Reclassification of available-for-sale financial assets to financial assets at Amortized cost	494
Reclassification of available-for-sale financial assets to financial assets at FVTPL	(152,124)
Recognition of expected credit losses of debt securities at FVTOCI	4,293
Reclassified of available for sale financial assets (equity securities) to financial assets at FVTOCI	(397,508)
Effect on changes in credit risk of financial liabilities at fair value through profit or loss designated as upon initial recognition	(133)
Others	3,006
Income tax effect	149,796
Ending balance (based on IFRS 9)	(481,900)

Retained earnings impact

	Amount
Beginning balance (prior to IFRS 9)	15,620,006
Adjustments	177,091
Reclassification of available-for-sale financial assets to financial assets at Amortized cost	(494)
Reclassification of available-for-sale financial assets to financial assets at FVTPL	152,067
Recognition of expected credit losses of debt instruments at FVTOCI	(4,236)
Reclassified of available for sale financial assets (equity securities) to financial assets at FVTOCI	397,508
Effect on revaluation of financial assets at amortized cost from loan and receivables or AFS financial assets	282
Recognition of expected credit losses of financial assets at amortized cost which were previously loan and receivables	(240,683)
Effect of payment guarantees / unused commitments on liabilities	(48,548)
Effect on changes in credit risk of financial liabilities at fair value through profit or loss designated as upon initial recognition	133
Others	(4,456)
Income tax effect	(74,482)
Ending balance (based on IFRS 9)	15,797,097

Adoption of IFRS 15 Revenue from contracts with customers (enacted)

The Group adopted IFRS 15 for the first time and decided to recognize the cumulative effect of applying the new standard at the beginning of the year of initial application (January 1, 2018), with no restatement of comparative periods, with a choice of practical expedients under the transition requirements of IFRS 15. In addition, the Group has applied the new standard to contractual modifications made prior to the first application date and applied the new standard to the contract modifications that occur after the date of initial application.

Accordingly, the Group has not retroactively restated the comparative consolidated financial statements presented herein.

Amendments to IFRS 2 Classification and Measurement of Share-based Payment Transactions

The amendments clarify the following; i) In estimating the fair value of a cash-settled share-based payment, the accounting for the effects of vesting and non-vesting conditions should follow the same approach as for equity-settled share-based payments ii) Where tax law or regulation requires an entity to withhold a specified number of equity instruments equal to the monetary value of the employee's tax obligation to meet the employee's tax liability which is then remitted to the tax authority, i.e. the share-based payment arrangement has a net settlement feature, such an arrangement should be classified as equity-settled in its entirety, provided that the share-based payment would have been classified as equity-settled had it not included the net settlement feature, iii) A modification of a share-based payment that changes the transaction from cash-settled to equity-settled should be accounted for as follows; a) the original liability is derecognized; b) the equity-settled share-based payment is recognized at the modification date fair value of the equity instrument granted to the extent that services have been rendered up to the modification date; and c) any difference between the carrying amount of the liability at the modification date and the amount recognized in equity should be recognized in profit or loss immediately.

Amendments to IAS 40 Transfers of Investment Property

The amendments clarify that a transfer to, or from, investment property necessitates an assessment of whether a property meets the definition of investment property, supported by observable evidence that a change in use has occurred. The amendments further clarify that the situations listed in IAS 40 are not exhaustive and that a change in use is possible for properties under construction (i.e. a change in use is not limited to completed properties).

Amendments to IFRIC 22 Foreign Currency Transactions and Advance Consideration

IFRIC 22 addresses how to determine the date of transaction for the purpose of determining the exchange rate to use on initial recognition of an asset, expense or income (or part of them), when consideration for that item has been paid or received in advance in a foreign currency which resulted in the recognition of a non-monetary asset or non-monetary liability (e.g. a non-refundable deposit or deferred revenue).

The Interpretation specifies that the date of transaction is the date on which the entity initially recognizes the non-monetary asset or non-monetary liability arising from the payment or receipt of advance consideration. If there are multiple payments or receipts in advance, the Interpretation requires an entity to determine the date of transaction for each payment or receipt of advance consideration.

Annual Improvements to IFRS 2014-2016 Cycle

The amendments include partial amendments to IFRS 1 First-time Adoption of IFRS and IAS 28 Investments in Associates and Joint Ventures. Amendments to IAS 28 provide that an investment company such as a venture capital investment vehicle may selectively designate each of its investment in associates and/or joint ventures to be measured at fair value through profit or loss mandatorily measured at fair value, and that such designation must be made at the time of each investment's initial recognition. In addition, when non-investment companies apply equity method to investment in associates and/or joint ventures that are investment companies, these companies may apply the same fair value measurement used by the said associates to value their own subsidiaries. This accounting treatment may be selectively applied to each associate.

There are no significant impacts on financial statements due to newly adopted accounting standards except for IFRS 9.

2) The Group has not applied the following IFRS that have been issued but are not yet effective:

IFRS 16 Leases (enacted)

IFRS 16 introduces a comprehensive model for the identification of lease arrangements and accounting treatments for both lessors and lessees. IFRS 16 will supersede the current lease guidance including IAS 17 Leases and the related interpretations, and will be applied to periods beginning on or after January 1, 2019.

IFRS 16 distinguishes leases and service contracts on the basis of whether an identified asset is controlled by a customer. Distinctions of operating leases and finance leases are removed for lessee accounting, and is replaced by model where a right-of-use asset and corresponding liability have to be recognized for all leases by lessees except for short-term leases and leases of low value assets.

The right-of-use asset is initially measured at cost and subsequently measured at cost (subject to certain exceptions) less accumulated depreciation and impairment losses, adjusted for any remeasurement of the lease liability. The lease liability is initially measured at the present value of the lease payments that are not paid at that date. Subsequently, the lease liability is adjusted for interest and lease payments, as well as the impact of lease modifications, amongst others. Furthermore, the classification of cash flows will also be affected as operating lease payments under IAS 17 are presented as operating cash flows; whereas under the IFRS 16 model, the lease payments will be split into a principal and an interest portion which will be presented as financing and operating cash flows respectively.

In contrast to lessee accounting, IFRS 16 substantially carries forward the lessor accounting requirements in IAS 17, and continues to require a lessor to classify a lease either as an operating lease or a finance lease. Also, IFRS 16 requires expanded disclosures.

According to the preliminary assessment of the Group, the lease agreements entered into by the Group as of September 30, 2018 are expected to meet the definition of lease under the Standard, and accordingly, if the Group adopts the Standard, it applies to all leases except short-term leases and leases of low value assets, and the Group will recognize the right-of-use assets and related liabilities accordingly. The Group is currently analyzing the potential impact of this standards as of September 30, 2018.

3. SIGNIFICANT ACCOUNTING ESTIMATES AND ASSUMPTIONS

In the application of the Group's accounting policies to the interim financial statements, management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. Actual results can differ from those estimates based on such definitions.

The significant judgments which management has made about the application of the Group's accounting policies and key sources of uncertainty in estimate do not differ from those used in preparing the consolidated financial statements for the year ended December 31, 2017, except the Group's policy, accounting estimates and assumptions described below;

(1) Income taxes

The Group is operating in numerous countries and the income generated from these operations is subject to income taxes based on tax laws and interpretations of tax authorities in numerous jurisdictions. There are many transactions and calculations which makes the ultimate tax determination uncertain. If certain portion of the taxable income is not used for investments, increase in wages, and others in accordance with the Tax System for Promotion of investment and Collaborative Cooperation (Recirculation of Corporate Income), the Group is liable to pay additional income tax calculated based on the tax laws. The new tax system is effective for three years from 2018. Accordingly, the measurement of current and deferred income tax is affected by the tax effects from the new system. As the Group's income tax is dependent on the investments, increase in wages, and others, there exists uncertainty with regard to measuring the final tax effects.

(2) Provisions for credit losses (allowances for loan losses, provisions for acceptances and guarantees, and unused loan commitments)

In accordance with IFRS 9, the Group tests impairment and recognizes allowances for losses on financial assets classified at amortized cost, and debt instruments measured at fair value through other comprehensive income and lease receivables through impairment testing and recognizes provisions for guarantees, and unused loan commitments. Accuracy of provisions for credit losses is dependent upon estimation of expected cash flows of the borrower for individually assessed allowances of loans, and upon assumptions and methodology used for collectively assessed allowances for the Group's of loans, guarantees and unused loan commitments.

4. RISK MANAGEMENT

The Group's operating activity is exposed to various financial risks. The Group is required to analyze and assess the level of complex risks, and determine the permissible level of risks and manage such risks. The Group's risk management procedures have been established to improve the quality of assets for holding or investment purposes by making decisions as how to avoid or mitigate risks through the identification of the source of the potential risks and their impact.

The Group has established an approach to manage the acceptable level of risks and reduce the excessive risks in financial instruments in order to maximize the profit given risks present, for which the Group has implemented processes for risk identification, assessment, control, and monitoring and reporting.

The risk is managed by the risk management department in accordance with the Group's risk management policy. The Risk Management Committee makes decisions on the risk strategies such as the allocation of risk capital and the establishment of acceptable level of risk.

(1) Credit risk

Credit risk represents the possibility of financial losses incurred when the counterparty fails to fulfill its contractual obligations. The goal of credit risk management is to maintain the Group's credit risk exposure to a permissible degree and to optimize its rate of return considering such credit risk.

1) Credit risk management

The Group considers the probability of failure in performing the obligation of its counterparties, credit exposure to the counterparty, the related default risk and the rate of default loss. The Group uses the credit rating model to assess the possibility of counterparty's default risk; and when assessing the obligor's credit grade, the Group utilizes credit grades derived using statistical methods.

In order to manage credit risk limit, the Group establishes the appropriate credit line per obligor, company or industry. It monitors obligor's credit line, total exposures and loan portfolios when approving the loan.

The Group mitigates credit risk resulting from the obligor's credit condition by using financial and physical collateral, guarantees, netting agreements and credit derivatives. The Group has adopted the entrapment method to mitigate its credit risk. Credit risk mitigation is reflected in qualifying financial collateral, trade receivables, guarantees, residential and commercial real estate and other collaterals. The Group regularly performs a revaluation of collateral reflecting such credit risk mitigation.

2) Maximum exposure to credit risk

The Group's maximum exposure to credit risk refers to net book value of financial assets net of allowances, which shows the uncertainties of maximum changes of net value of financial assets attributable to a particular risk without considering collateral and other credit enhancements obtained. However, the maximum exposure is the fair value amount (recorded on the books) for derivatives, maximum contractual obligation for payment guarantees and unused commitment.

The maximum exposure to credit risk is as follows (Unit: Korean Won in millions):

		September 30, 2018	December 31, 2017
Loans and other financial assets at amortized cost	Korean treasury and government agencies	18,001,232
