PROXY STATEMENT

The enclosed proxy is solicited by the board of directors, or *the board*, of Fidelity National Financial, Inc., or *FNF* or *the Company*, for use at the Annual Meeting of Shareholders to be held on June 12, 2019 at 10:00 a.m., Eastern Time, or at any adjournment thereof, for the purposes set forth herein and in the accompanying Notice of Annual Meeting of Shareholders. The annual meeting will be held in the Peninsular Auditorium at 601 Riverside Avenue, Jacksonville, Florida.

It is anticipated that such proxy, together with this proxy statement, will first be mailed on or about April 30, 2019 to all shareholders entitled to vote at the meeting.

The Company's principal executive offices are located at 601 Riverside Avenue, Jacksonville, Florida 32204, and its telephone number at that address is (904) 854-8100.

GENERAL INFORMATION ABOUT THE COMPANY

We are a leading provider of (i) title insurance, escrow and other title-related services, including trust activities, trustee sales guarantees, recordings and reconveyances and home warranty products and (ii) transaction services to the real estate and mortgage industries. FNF is one of the nation's largest title insurance companies operating through its title insurance underwriters Fidelity National Title Insurance Company, Chicago Title Insurance Company, Commonwealth Land Title Insurance Company, Alamo Title Insurance and National Title Insurance of New York Inc. which collectively issue more title insurance policies than any other title company in the United States. Through our subsidiary ServiceLink Holdings, LLC, or *ServiceLink*, we provide mortgage transaction services, including title-related services and facilitation of production and management of mortgage loans.

Recent Transactions

On September 29, 2017, we completed our tax-free distribution to our FNF Group shareholders of all 83.3 million shares of New BKH Corp., or *New BKH*, common stock that we previously owned, which we refer to as the *Spin-Off*. Immediately following the Spin-Off, New BKH and our majority-owned subsidiary Black Knight Financial Services, Inc., or *BKFS*, engaged in a series of transactions resulting in the formation of a new publicly-traded holding company, Black Knight, Inc., or *Black Knight*, which owns all of the outstanding shares of BKFS. In the Spin-Off, holders of FNF Group common stock received approximately 0.30663 shares of Black Knight common stock for each share of FNF Group common stock held at the close of business on September 20, 2017. Black Knight's common stock is listed under the symbol *BKI* on the New York Stock Exchange.

Edgar Filing: Fidelity National Financial, Inc. - Form DEF 14A

On November 17, 2017 we completed the split-off, which we refer to as the *Split-Off*, of our former wholly-owned subsidiary Cannae Holdings, Inc., or *Cannae*, which consists of the businesses, assets and liabilities formerly attributed to our FNF Ventures Group, or *FNFV Group*, including Ceridian Holding, LLC, American Blue Ribbon Holdings, LLC and T-System Holding LLC. The Split-Off was

accomplished by our redemption of all of the outstanding shares of our FNFV Group common stock for outstanding shares of common stock of Cannae on a one-for-one basis. As a result of the Split-Off, Cannae is a separate, publicly-traded company whose stock is listed under the symbol CNNE on the New York Stock Exchange.

As a result of these transactions, FNF is a more streamlined company with a pure focus within the title and real estate space. We expect to continue to focus on growing our business organically and through strategic acquisitions.

Stewart Merger

On March 19, 2018, we announced that we and certain of our wholly-owned subsidiaries had entered into an Agreement and Plan of Merger, or the *Merger Agreement*, with Stewart Information Services Corporation, or *Stewart*. Upon the terms and subject to the conditions set forth in the Merger Agreement, we expect to acquire Stewart for \$50.00 per share of common stock, subject to potential adjustment as described below, representing an equity value of approximately \$1.2 billion. The consideration will be paid 50% in cash and 50% in FNF common stock. Stewart stockholders will also have the option to elect to receive their consideration in all cash or all stock, subject to pro-rata reductions to the extent the cash or stock option is oversubscribed. The FNF common stock component will be subject to a fixed exchange ratio that is based on FNF's volume weighted average price for the twenty trading days prior to the signing of the merger agreement. For those Stewart stockholders who elect to receive all FNF stock, the exchange ratio will be equal to 1.2850, subject to potential adjustment as described below and proration to the extent the stock option is oversubscribed. We refer to the transactions contemplated by the Merger Agreement as the *Stewart Merger*. Under the terms of the Merger Agreement, if the combined company is required to divest assets or businesses for which 2017 annual revenues exceed \$75 million, up to a cap of \$225 million, in order to receive required regulatory approvals, the purchase price will be adjusted down on a pro-rata basis to a minimum purchase price of \$45.50 per share of Stewart's common stock. If the Stewart Merger is not completed for failure to obtain the required regulatory approvals, we would be required to pay a reverse break-up fee of \$50 million to Stewart. A majority of Stewart's shareholders voted to approve the Merger on September 5, 2018. On March 11, 2019, we exercised our first option to extend the date upon which the Merger Agreement may be terminated by us or Stewart to June 18, 2019. We continue to work through the regulatory process for the Stewart Merger.

The Stewart Merger remains subject to a number of risks and uncertainties, including the risk that the necessary regulatory approvals may not be obtained or may be obtained subject to conditions that are not anticipated; risks that any of the closing conditions to the proposed merger may not be satisfied in a timely manner; the risk that the businesses will not be integrated successfully, that such integration may be more difficult, time-consuming or costly than expected or that the expected benefits of the acquisition will not be realized; and other risks detailed in the Statement Regarding Forward-Looking Information, Risk Factors and other sections of the Company's Annual Report on Form 10-K and other filings with the Securities and Exchange Commission.

GENERAL INFORMATION ABOUT THE ANNUAL MEETING

Your shares can be voted at the annual meeting only if you vote by proxy or if you are present and vote in person. Even if you expect to attend the annual meeting, please vote by proxy to assure that your shares will be represented.

WHY DID I RECEIVE THIS PROXY STATEMENT?

The board is soliciting your proxy to vote at the annual meeting because you were a holder of our common stock at the close of business on April 15, 2019, which we refer to as the record date, and therefore you are entitled to vote at the annual meeting. This proxy statement contains information about the matters to be voted on at the annual meeting, and the voting process, as well as information about the Company's directors and executive officers.

WHO IS ENTITLED TO VOTE?

All record holders of our common stock as of the close of business on April 15, 2019 are entitled to vote. As of the close of business on that day, 274,856,177 shares of our common stock were issued and outstanding and eligible to vote. Each share is entitled to one vote on each matter presented at the annual meeting.

If you hold your shares of FNF common stock through a broker, bank or other nominee, you are considered a beneficial owner, and you will receive separate instructions from the nominee describing how to vote your shares. As the beneficial owner, you have the right to direct your nominee on how to vote your shares. Beneficial owners may also vote their shares in person at the annual meeting after first obtaining a legal proxy from their nominees by following the instructions provided by their nominees, and presenting the legal proxy to the election inspectors at the annual meeting.

WHAT SHARES ARE COVERED BY THE PROXY CARD?

The proxy card covers all shares of FNF common stock held by you of record (i.e., shares registered in your name) and any shares of FNF common stock held for your benefit in our 401(k) plan.

HOW DO I VOTE?

You may vote using any of the following methods:

- **In person at the annual meeting.** All shareholders may vote in person at the annual meeting by bringing the enclosed proxy card or proof of identification, but if you are a beneficial owner (as opposed to a record holder), you must obtain a legal proxy from your broker, bank or nominee and present it to the inspectors at the annual meeting with your ballot when you vote at the meeting; or

3

Fidelity National Financial, Inc.

Table of Contents

- **By proxy.** There are three ways to vote by proxy:
- By mail, using the enclosed proxy card and return envelope;
- By telephone, using the telephone number printed on the proxy card and following the instructions on the proxy card; or
- By the Internet, using a unique password printed on your proxy card and following the instructions on the proxy card.

Even if you expect to attend the annual meeting, please vote by proxy to assure that your shares will be represented.

WHAT DOES IT MEAN TO VOTE BY PROXY?

It means that you give someone else the right to vote your shares in accordance with your instructions. In this case, we are asking you to give your proxy to our Chief Executive Officer, Corporate Secretary, Assistant Corporate Secretary, and each of them, who are sometimes referred to as the proxy holders. By giving your proxy to the proxy holders, you assure that your vote will be counted even if you are unable to attend the annual meeting. If you give your proxy but do not include specific instructions on how to vote on a particular proposal described in this proxy statement, the proxy holders will vote your shares in accordance with the recommendation of the board for such proposal.

ON WHAT AM I VOTING?

You will be asked to consider four proposals at the annual meeting.

- **Proposal No.1** asks you to elect three Class II directors to serve until the 2022 Annual Meeting of Shareholders.
- **Proposal No. 2** asks you to approve, on a non-binding advisory basis, the compensation paid to our named executive officers in 2018.

- **Proposal No. 3** asks you to ratify the appointment of Ernst & Young LLP as our independent registered public accounting firm for the 2019 fiscal year.

HOW DOES THE BOARD RECOMMEND THAT I VOTE ON THESE PROPOSALS?

The board recommends that you vote **FOR** each of Proposals 1 through 3.

WHAT HAPPENS IF OTHER MATTERS ARE RAISED AT THE MEETING?

Although we are not aware of any matters to be presented at the annual meeting other than those contained in the Notice of Annual Meeting, if other matters are properly raised at the annual meeting in accordance with the procedures specified in FNF's certificate of incorporation and bylaws, all proxies given to the proxy holders will be voted in accordance with their best judgment.

Table of Contents

WHAT IF I SUBMIT A PROXY AND LATER CHANGE MY MIND?

If you have submitted your proxy and later wish to revoke it, you may do so by doing one of the following: giving written notice to the Corporate Secretary prior to the annual meeting; submitting another proxy bearing a later date (in any of the permitted forms) prior to the annual meeting; or casting a ballot in person at the annual meeting.

WHO WILL COUNT THE VOTES?

Broadridge Investor Communications Services will serve as proxy tabulator and count the votes, and the results will be certified by the inspector of election.

HOW MANY VOTES MUST EACH PROPOSAL RECEIVE TO BE ADOPTED?

The following votes must be received:

- **For Proposal No.1** regarding the election of directors, a majority of votes of our common stock cast is required to elect a director. Abstentions and broker non-votes will have no effect.
- **For Proposal No. 2** regarding a non-binding advisory vote on the compensation paid to our named executive officers, the affirmative vote of a majority of the shares of our common stock represented and entitled to vote would be required for approval. Even though your vote is advisory and therefore will not be binding on the Company, the board will review the voting result and take it into consideration when making future decisions regarding the compensation paid to our named executive officers. Abstentions will have the effect of a vote against this proposal and broker non-votes will have no effect.
- **For Proposal No. 3** regarding the ratification of the appointment of Ernst & Young LLP, under Delaware law, the affirmative vote of a majority of the shares of our common stock represented and entitled to vote would be required for approval. Abstentions will have the effect of a vote against this proposal. Because this proposal is considered a routine matter under the rules of the New York Stock Exchange, nominees may vote in their discretion on this proposal on behalf of beneficial owners who have not furnished voting instructions.

WHAT CONSTITUTES A QUORUM?

A quorum is present if a majority of the outstanding shares of our common stock entitled to vote at the annual meeting are present in person or represented by proxy. Broker non-votes and abstentions will be counted for purposes of determining whether a quorum of each class is present.

Table of Contents

WHAT ARE BROKER NON-VOTES? IF I DO NOT VOTE, WILL MY BROKER VOTE FOR ME?

Broker non-votes occur when nominees, such as banks and brokers holding shares on behalf of beneficial owners, do not receive voting instructions from the beneficial owners at least ten days before the meeting. If that happens, the nominees may vote those shares only on matters deemed routine by the Securities and Exchange Commission and the rules promulgated by the New York Stock Exchange thereunder.

The Company believes that all the proposals to be voted on at the annual meeting, except for Proposal 3 regarding the appointment of Ernst & Young LLP as our independent registered public accounting firm, are not routine matters. On non-routine matters, such as Proposals No.1 and 2, nominees cannot vote unless they receive voting instructions from beneficial owners. Please be sure to give specific voting instructions to your nominee so that your vote can be counted.

WHAT EFFECT DOES AN ABSTENTION HAVE?

With respect to Proposal 1, abstentions or directions to withhold authority will not be included in vote totals and will not affect the outcome of the vote. With respect to each of Proposals 2 and 3, abstentions will have the effect of a vote against the proposals pursuant to our bylaws and Delaware law, which require that the proposal receives the affirmative vote of a majority of the shares represented and entitled to vote.

WHO PAYS THE COST OF SOLICITING PROXIES?

We pay the cost of the solicitation of proxies, including preparing and mailing the Notice of Annual Meeting of Shareholders, this proxy statement and the proxy card. Following the mailing of this proxy statement, directors, officers and employees of the Company may solicit proxies by telephone, facsimile transmission or other personal contact. Such persons will receive no additional compensation for such services. Brokerage houses and other nominees, fiduciaries and custodians who are holders of record of shares of our common stock will be requested to forward proxy soliciting material to the beneficial owners of such shares and will be reimbursed by the Company for their charges and expenses in connection therewith at customary and reasonable rates. In addition, the Company has retained Georgeson Inc. to assist in the solicitation of proxies for an estimated fee of \$9,500 plus reimbursement of expenses.

WHAT IF I SHARE A HOUSEHOLD WITH ANOTHER SHAREHOLDER?

Edgar Filing: Fidelity National Financial, Inc. - Form DEF 14A

We have adopted a procedure approved by the Securities and Exchange Commission, called householding. Under this procedure, FNF shareholders of record who have the same address and last name and do not participate in electronic delivery of proxy materials will receive only one copy of our Annual Report and Proxy Statement unless one or more of these shareholders notifies us that they wish to continue receiving individual copies. This procedure will reduce our printing costs and postage fees. Shareholders who participate in householding will continue to receive separate proxy cards. Also, householding will not in any way affect dividend check

mailings. If you are a shareholder who resides in the same household with another shareholder, or if you hold more than one account registered in your name at the same address, and wish to receive a separate proxy statement and annual report or notice of internet availability of proxy materials for each account, please contact, Broadridge, toll free at 1-866-540-7095. You may also write to Broadridge, Householding Department, at 51 Mercedes Way, Edgewood, New York 11717. Beneficial shareholders can request information about householding from their banks, brokers or other holders of record. We hereby undertake to deliver promptly upon written or oral request, a separate copy of the Annual Report to Shareholders, or this Proxy Statement, as applicable, to a shareholder at a shared address to which a single copy of the document was delivered.

CORPORATE GOVERNANCE AND RELATED MATTERS

CORPORATE GOVERNANCE GUIDELINES

Our corporate governance guidelines provide, along with the charters of the committees of the board of directors, a framework for the functioning of the board of directors and its committees and to establish a common set of expectations as to how the board of directors should perform its functions. The Corporate Governance Guidelines address a number of areas including the size and composition of the board, board membership criteria and director qualifications (including consideration of all aspects of diversity when considering new director nominees, including

Table of Contents

diversity of age, gender, nationality, race, ethnicity and sexual orientation), director responsibilities, board agenda, roles of the Chairman of the board of directors, Chief Executive Officer and Lead Director, meetings of independent directors, committee responsibilities and assignments, board member access to management and independent advisors, director communications with third parties, director compensation, director orientation and continuing education, evaluation of senior management and management succession planning. These guidelines specifically provide that a majority of the members of the board of directors must be outside directors whom the board of directors has determined have no material relationship with us and whom otherwise meet the independence criteria established by the New York Stock Exchange. The board of directors reviews these guidelines and other aspects of our governance at least annually. The board reviewed our corporate governance guidelines in February 2019 without significant change. A copy of our Corporate Governance Guidelines is available for review on the Investor Relations page of our website at www.fnf.com.

CODE OF ETHICS AND BUSINESS CONDUCT

Our board of directors has adopted a Code of Ethics for Senior Financial Officers, which is applicable to our Chief Executive Officer, our Chief Financial Officer and our Chief Accounting Officer, and a Code of Business Conduct and Ethics, which is applicable to all our directors, officers and employees. The purpose of these codes is to: (i) promote honest and ethical conduct, including the ethical handling of conflicts of interest; (ii) promote full, fair, accurate, timely and understandable disclosure; (iii) promote compliance with applicable laws and governmental rules and regulations; (iv) ensure the protection of our legitimate business interests, including corporate opportunities, assets and confidential information; and (v) deter wrongdoing. Our codes of ethics are designed to maintain our commitment to our longstanding standards for ethical business practices. Our reputation for integrity is one of our most important assets and each of our employees and directors is expected to contribute to the care and preservation of that asset. Under our codes of ethics, an amendment to or a waiver or modification of any ethics policy applicable to our directors or executive officers must be disclosed to the extent required under Securities and Exchange Commission and/or New York Stock Exchange rules. We intend to disclose any such amendment or waiver by posting it on the Investor Relations page of our website at www.fnf.com.

Copies of our Code of Business Conduct and Ethics and our Code of Ethics for Senior Financial Officers are available for review on the Investor Relations page of our website at www.fnf.com.

CORPORATE RESPONSIBILITY

Community Engagement

We believe in the importance of volunteerism and philanthropy as ways of strengthening and engaging local communities. With over 1,400 offices nationwide, FNF is in a unique position to champion these efforts at the local level, fostering a deep connection between our Company, our employees and the surrounding communities. Throughout the years, the FNF family of companies have supported such national charitable organizations as United Way, the American Heart Association, The Folded Flag Foundation, Make-A-Wish Foundation, Habitat for Humanity, and The Leukemia & Lymphoma Society, among others. In times of crisis, FNF has setup donation campaigns to help those affected by fires, floods, and hurricanes, as well as those affected by national tragedies that have occurred in recent years.

Fidelity National Financial, Inc.

8

Table of Contents

FNF makes the greatest impact in the cities and towns in which we operate at the level of our local operations. Employees gather school clothes and supplies, winter coats, shoes, and holiday gifts for many hometown charitable organizations that support families in need. Hundreds of hours of employee volunteer time are given locally to help clean up communities, raise funds and awareness for various healthcare philanthropic causes, and feed the hungry. FNF strives to make a difference in all of the communities we serve.

Diversity

FNF stands committed to our philosophy that all employees deserve an inclusive workplace, one where each employee feels heard and empowered, and we have many women in leadership roles throughout our organization. All employees must be given equal access to opportunities throughout our organization. We regard having an inclusive work environment and a variety of employee ideas, perspectives, and experiences as a key component of our success. The diversity of our employees allows us to connect to our customers in important ways and thus be able to offer them meaningful, customized products and services that resonate with their unique needs.

Our board leads by example in its commitment to diversity. In 2017, Heather H. Murren joined our board, and in 2018, our board codified its commitment to consider all aspects of diversity when selecting new director nominees, including candidates with a diversity of age, gender, nationality, race, ethnicity, and sexual orientation by integrating it into the director selection criteria in our Corporate Governance Guidelines.

Sustainability

FNF recognizes our duty to conduct our business in an environmentally responsible manner. From eliminating the use of water bottles in favor of filtered water dispensers to participating in recycling programs, all of our locations are helping make a difference in the fight to save our environment.

Other sustainability efforts include records management and the use and disposal of IT equipment. FNF partners with vendors that have a commitment to sustainability. Our Record Management Centers are undergoing a complete digitization effort to consolidate records facilities and reduce paper. Once paper records are securely destroyed in accordance with federal, state and industry regulations, our vendor disposes of the waste in an environmentally friendly manner. Information technology asset disposal (computers, monitors, servers, mobile devices, etc.) is managed by an e-Steward certified vendor and process. After safely removing any data from the IT asset, it is either reused to maximize its lifecycle or securely recycled. Our vendor safely manages the waste stream of the thousands of pounds of electronics retired by FNF and ServiceLink each year.

Our commitment does not stop at our organization alone. Our Digital Strategy Initiative is another way FNF is making a commitment to moving the title insurance industry as a whole in a more sustainable direction. This initiative seeks to drastically reduce the amount of paper used in the closing process by using customer-focused technology at every point possible in the real estate transaction.

Information Technology and Security and Risk Management

We are highly dependent on information technology networks and systems to securely process, transmit and store electronic information. Attacks on information technology systems continue to

9

Fidelity National Financial, Inc.

grow in frequency, complexity and sophistication. Such attacks have become a point of focus for individuals, businesses and governmental entities. These attacks can create system disruptions, shutdowns or unauthorized disclosure of confidential information, including non-public personal information, consumer data and proprietary business information.

We remain focused on making strategic investments in information security to protect our clients and our information systems. This includes both capital expenditures and operating expenses on hardware, software, personnel and consulting services. We apply a comprehensive approach to the mitigation of identified security risks. We have established risk management policies, including those related to privacy, information security and cybersecurity, and we employ a broad and diversified set of risk monitoring and risk mitigation techniques.

Our board has a strong focus on cybersecurity. At each regular meeting of the audit committee of our board of directors, our Chief Risk Officer, Chief Compliance Officer, Chief Information Security Officer and Chief Internal Auditor provide reports relating to our cyber and data security practices, risk assessments, emerging issues and any security incidents. Our audit committee chairman reports on these discussions to our board of directors on a quarterly basis. In addition, Mr. Rood has attended third-party director education courses on cybersecurity and privacy issues and trends.

Our employees are one of our strongest assets in protecting our customers' information and mitigating risk. We maintain comprehensive and tailored training programs that focus on applicable privacy, security, legal and regulatory requirements that provide ongoing enhancement of the security and risk culture at FNF. We continue to provide strong focus on all areas of cybersecurity including threat and vulnerability management, security monitoring, identity and access management, phishing awareness, risk oversight, third-party risk management, disaster recovery and continuity management.

THE BOARD

Our board is composed of Douglas K. Ammerman, William P. Foley, II, Thomas M. Hagerty, Daniel D. (Ron) Lane, Richard N. Massey, Heather H. Murren, Raymond R. Quirk, John D. Rood, Peter O. Shea, Jr. and Cary H. Thompson, with Mr. Foley serving as non-executive Chairman of the Board. Additionally, Willie D. Davis serves as Director Emeritus, and may attend and participate in meetings, but does not vote on board matters and his attendance is not considered in determining whether a quorum is present.

Our board met five times in 2018. All directors attended at least 75% of the meetings of the board and of the committees on which they served during 2018. Our non-management directors also met periodically in executive sessions without management, and our Lead Director presides over these executive sessions. We do not, as a general matter, require our board members to attend our annual meeting of shareholders, although each of our directors is invited to attend our 2019 annual meeting. During 2018, one of our board members attended the annual meeting of shareholders.

Table of Contents

MAJORITY VOTING

In February 2017, our board of directors amended and restated our bylaws to implement majority voting in uncontested director elections. Pursuant to Section 3.1 of our bylaws, each director is elected by a majority of the votes cast with respect to the director at any meeting for the election of directors at which a quorum is present. However, if as of 10 days in advance of the date we file our proxy statement with the SEC the number of director nominees exceeds the number of directors to be elected in such election (a contested election), the directors shall be elected by a plurality of the votes cast.

In an uncontested election of directors, any incumbent director who does not receive a majority of the votes cast will promptly tender his resignation to the board of directors. The board will decide, after considering the recommendation of the corporate governance and nominating committee, whether to accept or reject the tendered resignation, or whether other action should be taken. The director nominee in question will not participate in the recommendation or decision making process. We will publicly disclose an explanation by the board of its decision within 90 days after we publish the election results. If the board determines to accept a director's resignation, or if a director nominee who is not an incumbent director is not elected, then the board, in its sole discretion, may fill any resulting vacancy in accordance with our bylaws.

DIRECTOR INDEPENDENCE

All of our directors other than Mr. Quirk, who is our Chief Executive Officer, are non-employees. During the first quarter of 2019, the board of directors determined that Douglas K. Ammerman, Thomas M. Hagerty, Daniel D. Lane, Richard N. Massey, Heather H. Murren, John D. Rood, Peter O. Shea, Jr. and Cary H. Thompson are independent under the criteria established by the New York Stock Exchange and our Corporate Governance Guidelines. The board of directors also determined that Messrs. Massey, Lane and Thompson meet the additional independence standards of the New York Stock Exchange for compensation committee members.

In determining independence, the board considered all relationships that might bear on our directors' independence from FNF. The board of directors determined that William P. Foley, II is not independent because he was the Executive Chairman and an employee of Black Knight which, until the Spin-Off on September 29, 2017, was a subsidiary of FNF; and Raymond R. Quirk is not independent because he is the Chief Executive Officer and an employee of FNF.

In considering the independence of Douglas K. Ammerman, Thomas M. Hagerty, Heather H. Murren, Richard N. Massey, John D. Rood and Cary H. Thompson, the board of directors considered the following factors:

- Until April 2018, Mr. Hagerty, Mr. Massey, Mr. Rood and Mr. Thompson each served as directors of, and they continue to own equity interests in, our subsidiary ServiceLink. Mr. Hagerty, Mr. Massey and Mr. Rood also serve as directors of and own shares of Black Knight, which was our subsidiary prior to the Spin-Off in September 2017.

Table of Contents

- Mr. Hagerty is a Managing Director of Thomas H. Lee Partners, L.P., which owns approximately 20.9% of the outstanding interests in ServiceLink.
- Messrs. Ammerman, Hagerty, Massey and Rood each own a small non-voting minority interest in Black Knight Sports and Entertainment LLC, which owns the Vegas Golden Knights. Mr. Foley is the majority interest holder, and is Chairman and Chief Executive Officer of Black Knight Sports and Entertainment LLC.
- Ms. Murren's spouse is the Chairman and Chief Executive Officer of MGM Resorts International, which owns a majority interest in the T-Mobile Arena where the Vegas Golden Knights play home games. FNF is a season ticket holder for Vegas Golden Knights home games. In addition, FNF may use MGM hotel and conference facilities from time to time for corporate events. Amounts paid by FNF to entities owned or controlled by MGM Resorts International are at market rates.
- Mr. Thompson is an Executive Vice Chairman of Bank of America Merrill Lynch, and FNF made payments to and received payments from entities affiliated with Bank of America Merrill Lynch in 2018. The board of directors determined that these payments do not impair Mr. Thompson's independence because his compensation from Bank of America Merrill Lynch is not dependent on the amount of business Bank of America Merrill Lynch or its affiliates does with FNF or its subsidiaries.
- Messrs. Ammerman, Hagerty and Massey each serve on the board of directors of The Dun & Bradstreet Corporation (*D&B*), a privately held company, and the general partner of Star Parent, L.P., the limited partnership that owns D&B. In addition, Messrs. Ammerman and Massey hold a small limited partnership interest in Star Parent, and affiliates of Thomas H. Lee Partners, L.P. owns a significant interest in Star Parent.

The board of directors determined that these relationships were not of a nature that would impair the independence of Mr. Ammerman, Mr. Hagerty, Ms. Murren, Mr. Massey, Mr. Rood or Mr. Thompson. Mr. Lane and Mr. Shea had no relationships with the Company that required consideration in determining their independence.

The members of the audit committee are Douglas K. Ammerman (Chair), Heather H. Murren and John D. Rood. The board of directors also reviewed Mr. Ammerman's service on the audit committee in light of his concurrent service on the audit committees of three other public companies. The board of directors considered Mr. Ammerman's extensive financial and accounting background and expertise as a former partner of KPMG, his knowledge of our company and understanding of our financial statements as a long time director and audit committee member, and the fact that Mr. Ammerman is retired from active employment, and determined that Mr. Ammerman's service on the audit committees of four public companies, including FNF's audit committee, would not impair his ability to effectively serve on FNF's audit committee. The audit committee met seven times in 2018.

The primary functions of the audit committee include:

Edgar Filing: Fidelity National Financial, Inc. - Form DEF 14A

- Appointing, compensating and overseeing our independent registered public accounting firm;

The audit committee is a separately-designated standing committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended.

REPORT OF THE AUDIT COMMITTEE

The audit committee of the board of directors submits the following report on the performance of certain of its responsibilities for the year 2018:

The primary function of our audit committee is oversight of (i) the quality and integrity of our financial statements and related disclosures, (ii) our compliance with legal and regulatory requirements, (iii) the independent registered public accounting firm's qualifications and independence, and (iv) the performance of our internal audit function and independent registered public accounting firm. Our audit committee acts under a written charter, and we review the adequacy of our charter at least annually. Our audit committee is comprised of the three directors named below, each of whom has been determined by the board of directors to be independent as defined by New York Stock Exchange independence standards. In addition, our board of directors has determined that each of Mr. Ammerman, Ms. Murren and Mr. Rood is an audit committee financial expert as defined by the rules of the Securities and Exchange Commission.

In performing our oversight function, we reviewed and discussed with management and Ernst & Young LLP, or EY, our independent registered public accounting firm, our audited financial statements as of and for the year ended December 31, 2018. Management and EY reported to us that our consolidated financial statements present fairly, in all material respects, the consolidated financial position and results of operations and cash flows of FNF and its subsidiaries in conformity with generally accepted accounting principles. We also discussed with EY matters covered by the Public Company Accounting Oversight Board Auditing Standards No. 16 (Communications With Audit Committees).

We have received and reviewed the written disclosures and the letter from EY required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the audit committee concerning independence,

Table of Contents

and have discussed with them their independence. In addition, we have considered whether EY's provision of non-audit services to us is compatible with their independence.

Finally, we discussed with our internal auditors and EY the overall scope and plans for their respective audits. We met with EY at each meeting. Management was present for some, but not all, of these discussions. These discussions included the results of their examinations, their evaluations of our internal controls and the overall quality of our financial reporting.

Based on the reviews and discussions referred to above, we recommended to our board of directors that the audited financial statements referred to above be included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2018, and that EY be appointed independent registered public accounting firm for FNF for 2019.

In carrying out our responsibilities, we look to management and the independent registered public accounting firm. Management is responsible for the preparation and fair presentation of our financial statements and for maintaining effective internal control. Management is also responsible for assessing and maintaining the effectiveness of internal control over the financial reporting process. The independent registered public accounting firm is responsible for auditing our annual financial statements and expressing an opinion as to whether the statements are fairly stated in conformity with generally accepted accounting principles. The independent registered public accounting firm performs its responsibilities in accordance with the standards of the Public Company Accounting Oversight Board. Our members are not professionally engaged in the practice of accounting or auditing, and are not experts under the Exchange Act in either of those fields or in auditor independence.

The foregoing report is provided by the following independent directors, who constitute the committee:

Our compensation committee reviews its charter annually. The functions of the compensation committee include the following:

BOARD LEADERSHIP STRUCTURE AND ROLE IN RISK OVERSIGHT

We have separated the positions of CEO and Chairman of the board of directors in recognition of the differences between the two roles. Richard N. Massey, one of our independent directors, serves as our Lead Director. The board considers it to be useful and appropriate to designate a Lead Director to coordinate the activities of the other non-employee directors and to perform such other duties and responsibilities as the board may determine. Our board has adopted a Charter of the Lead Independent Director that defines the responsibilities of the Lead Director, which include:

Edgar Filing: Fidelity National Financial, Inc. - Form DEF 14A

- Preside at meetings of the board of directors in the absence of, or upon the request of, the Chairman;
- Review board meeting agendas and schedules in collaboration with the Chairman and recommend matters for the board to consider and information to be provided to the board;
- Serve as a liaison and supplemental channel of communication between non employee/independent directors and the Chairman without inhibiting direct communications between the Chairman and other directors;
- Serve as the principal liaison for consultation and communication between the non employee/independent directors and shareholders;
- Advise the Chairman concerning the retention of advisors and consultants who report directly to the board; and
- Be available to major shareholders for consultation and direct communication.

The board of directors administers its risk oversight function directly and through committees. The audit committee oversees FNF's financial reporting process, risk management program, legal and regulatory compliance, performance of the independent auditor, internal audit function, and financial and disclosure controls. Management also reports quarterly to the audit committee and the board of directors regarding claims, and the audit committee receives quarterly reports on compliance matters.

Table of Contents

Our board has a strong focus on cyber-security. At each regular meeting of the audit committee, our Chief Risk Officer, Chief Compliance Officer, Chief Information Security Officer and Chief Internal Audit Officer provide reports relating to our cyber and data security practices, risk assessments, emerging issues and any security incidents. Our audit committee chairman reports on these discussions to our board of directors on a quarterly basis. In addition, Mr. Rood has attended third-party director education courses on cyber-security and privacy issues and trends.

The corporate governance and nominating committee considers the adequacy of FNF's governance structures and policies. The compensation committee reviews and approves FNF's compensation and other benefit plans, policies and programs and considers whether any of those plans, policies or programs creates risks that are likely to have a material adverse effect on FNF. Each committee provides reports on its activities to the full board of directors.

CERTAIN INFORMATION ABOUT OUR DIRECTORS

DIRECTOR CRITERIA, QUALIFICATIONS AND EXPERIENCE AND PROCESS FOR SELECTING DIRECTORS

Following the Black Knight Spin-Off and the Cannae Split-Off in 2017, FNF is a more streamlined company with a pure focus within the title and real estate space. Title insurance revenue is closely related to the level of real estate activity which includes sales, mortgage financing and mortgage refinancing. The levels of real estate activity are primarily affected by the average price of real estate sales, the availability of funds to finance purchases and mortgage interest rates. The Mortgage Bankers Association's (MBA) Mortgage Finance Forecast as of March 21, 2019 predicts overall mortgage originations in 2019 and 2020 will remain relatively flat compared to the 2018 period. Originations are expected to be driven by a slight increase in originations from purchase transactions mostly offset by a slight decrease in originations from refinance transactions. In 2019, we expect to continue to focus on growing our business organically while carefully managing costs to address any changes in the mortgage market. Following closing of the Stewart Merger, we will also focus on integration of the Stewart businesses and achieving synergy targets to drive value for our shareholders. We believe the skills and experience of our board members are well suited to provide strong oversight and guidance as our management works to drive growth and manage costs and integrate Stewart following closing of the Stewart Merger.

Our board and the corporate governance and nominating committee is committed to include the best available candidates for nomination to election to our board based on merit. Our board and our corporate governance and nominating committee continuously evaluates our board s

composition with the goal of developing a board that meets our strategic goals, and one that includes diverse, experienced and highly qualified individuals.

The corporate governance and nominating committee does not set specific, minimum qualifications that nominees must meet in order for the committee to recommend them to the board, but rather believes that each nominee should be evaluated based on his or her individual merits, taking into account our needs and the overall composition of the board. In accordance with our Corporate Governance Guidelines, the corporate governance and nominating committee considers, among other things, the following criteria in fulfilling its duty to recommend nominees for election as directors:

- Personal qualities and characteristics, accomplishments and reputation in the business community;

- Current knowledge and contacts in the communities in which we do business and in our industry or other industries relevant to our business;

- Ability and willingness to commit adequate time to the board and committee matters;

- The fit of the individual's skills and personality with those of other directors and potential directors in building a board that is effective, collegial and responsive to our needs; and

- Diversity of viewpoints, background, experience, and other demographics, and all aspects of diversity in order to enable the Board to perform its duties and responsibilities effectively, including candidates with a diversity of age, gender, nationality, race, ethnicity, and sexual orientation.

Each year in connection with the nomination of candidates for election to the board, the corporate governance and nominating committee evaluates the background of each candidate, including candidates that may be submitted by shareholders.

We believe that the current composition of our board has served us well and that our current directors possess relevant experience, skills and qualifications that contribute to a well-functioning board that effectively oversees our long-term strategy. FNF has undergone significant change in recent years, and our board believes that it has been important to maintain consistency in our board to execute upon our long-term strategy, while selectively adding new board members who have important skill sets, experience or diversity of viewpoint. Our board believes our board, which is composed of directors who have a strong understanding of our business, operational and strategic goals, as well as our industry and the risks we face, has been crucial to our ability to effectively execute on our long-term strategy.

Edgar Filing: Fidelity National Financial, Inc. - Form DEF 14A

Our corporate governance and nominating committee regularly examines ways that it could foster the diversity of our board across many dimensions to maintain its ability to operate at a high-functioning level and to reflect the board's commitment to inclusiveness. In connection with this examination, the committee revised our Corporate Governance Guidelines to expressly include diversity of age, gender, nationality, race, ethnicity, and sexual orientation as a part of the criteria the committee may consider when selecting nominees for election to the board, all in the context of the needs of our board at any given point in time. Specifically, the corporate governance and nominating committee is focused on considering highly qualified women and individuals from minority groups who may be recommended by our directors, management, or our shareholders as candidates for nomination as directors.

COMPENSATION DISCUSSION AND ANALYSIS

The following discussion and analysis of compensation programs should be read with the compensation tables and related disclosures that follow. This discussion contains forward-looking statements that are based on our current plans and expectations regarding future compensation programs. Compensation programs that we adopt in the future may differ materially from the programs summarized in this discussion. The following discussion may also contain statements regarding corporate performance targets and goals. These targets and goals are disclosed in the limited context of our compensation programs and should not be understood to be statements of management's expectations or estimates of results or other guidance. We specifically caution investors not to apply these statements to other contexts.

In this compensation discussion and analysis, we provide an overview of our approach to compensating our named executive officers in 2018, including the objectives of our compensation programs and the principles upon which our compensation programs and decisions are based. Our named executive officers, and their titles, in 2018 were:

- Raymond R. Quirk, our Chief Executive Officer;
- Michael J. Nolan, our President;

- Brent B. Bickett, our Executive Vice President, Corporate Strategy;
- Roger S. Jewkes, our Chief Operating Officer; and
- Anthony J. Park, our Executive Vice President and Chief Financial Officer.

Table of Contents**EXECUTIVE SUMMARY****FINANCIAL HIGHLIGHTS**

FNF has a long history of delivering consistent, industry-leading operating results and investment returns to our shareholders. 2018 was no exception as we generated \$7.7 billion of total revenue (excluding \$95 million of noncash, valuation losses on investment securities) and \$635 million of net earnings from continuing operations, despite a decline in overall U.S. residential mortgage originations.

As reflected in the charts below, over the previous five years, we have delivered consistently strong revenue and earnings.

Our consistent operating results have translated to strong returns for our shareholders. During the three-year period, from January 1, 2016 through December 31, 2018, we delivered a total return to our shareholders of approximately 41%, compared to a total return on the S&P 500 of approximately 30% during the same period. This includes a return of approximately \$845 million during this three-year period to our shareholders in the form of cash dividends. Total shareholder return is based on stock price changes as adjusted to account for corporate actions.

PAY FOR PERFORMANCE

The primary goal of our executive compensation programs in 2018 was to drive continued growth and successful execution of our strategic business objectives. We believe our programs achieve this goal by:

- Tying material portions of our named executive officers' compensation to the performance of our core title operations;
- Structuring our performance-based programs to focus our named executive officers on attaining pre-established, objectively-determinable key performance goals that are aligned with and support our key strategic business objectives in our various operations, which, in turn, are aimed at growing long-term value for our shareholders;
- Recognizing our executives' leadership abilities, scope of responsibilities, experience, effectiveness, and individual performance achievements; and
- Attracting, motivating, and retaining a highly qualified and effective management team that can deliver superior performance and build shareholder value over the long-term.

As in past years, there was a direct correlation between our named executive officers' pay and our performance in 2018. Here are a few highlights:

- We exceeded both our adjusted title revenue and adjusted pre-tax title margin goals as set by our compensation committee under our annual incentive plan. Consistent with this strong performance, our named executive officers earned an annual incentive equal to 197.5% of their respective target annual incentive opportunities. See the "FNF Annual Incentive Performance Measures and Results" section below.

Edgar Filing: Fidelity National Financial, Inc. - Form DEF 14A

- We exceeded the quarterly adjusted pre-tax title margin goals set by our compensation committee as performance criteria for our 2017 restricted stock awards. As a result, we expect these awards to fully vest, subject to each executive's continued employment with us to satisfy the time based vesting requirements for those awards.

Note that the financial measures used as performance targets for our named executive officers described in this discussion are non-GAAP measures and differ from the comparable GAAP measures reported in our financial statements. The measures are adjusted to exclude the impact of certain non-recurring and other items. We explain how we calculate these measures in the Analysis of Compensation Components section below.

SHAREHOLDER VOTE ON 2016 EXECUTIVE COMPENSATION

At our 2018 annual meeting of shareholders, we held a non-binding advisory vote, also called a “say on pay” vote, on the compensation of our named executive officers as disclosed in the 2018 proxy statement. A majority of our shareholders approved our “say on pay” proposal, with approximately 96% of the votes cast in favor of the proposal and approximately 4% of the votes cast against the proposal. The compensation committee considered these results when evaluating our executive compensation programs.

SHAREHOLDER OUTREACH AND CHANGES TO OUR COMPENSATION PROGRAMS IN 2017

Our compensation committee is committed to listening and responding to the views of our shareholders in creating and tailoring our executive compensation programs. Following the 2018 annual meeting of shareholders and the 2017 “say on pay” shareholder vote, our President, Chief Financial Officer, and Treasurer met with our investors in break-out sessions at investor conferences, as well as in independent one-on-one investor meetings, to discuss our business and stock price performance, as well as discuss and receive feedback on our compensation programs. In this regard, we met with investors at more than 10 investor conferences and numerous one-on-one meetings. The investors with whom we met in 2018 represented 12 of our top 20 shareholders, who collectively owned more than 35% of our shares as of December 31, 2018. No significant issues were raised by our shareholders relating to our compensation practices during 2018.

We believe that we have been highly responsive to our shareholders’ concerns, and have created and continued compensation programs that achieved our strategic corporate objectives, focused our executives on achieving superior operating results and shareholder returns, balanced short-term and long-term incentives, and maintained a strong correlation between pay and performance.

IMPROVEMENTS TO OUR COMPENSATION PROGRAMS

Over the last several years, we have made a number of improvements to our compensation programs in response to feedback received during our investor outreach efforts and the analysis of our compensation programs by proxy advisory firms. Following are highlights of the key changes, demonstrating the responsiveness of our compensation committee:

Table of Contents

Areas of Improvement	Improvements
Pay Programs Have Been Simplified	<p>We have greatly simplified our compensation programs over the last several years. In the past, our compensation programs have been complicated and consisted of a variety of programs that reflected our complicated business structure consisting of our core title businesses, as well as the non-core businesses that are now part of Black Knight and Cannae, which are now independent publicly-traded companies. In 2018, our named executive officers earned base salary, an annual performance-based cash incentive, and long-term equity awards and standard employee benefits. In 2018, our long-term equity awards continued to consist only of restricted stock awards, all of which had performance and time-based vesting conditions. No named executive officer received equity awards that vested solely upon passage of time in 2018, and no named executive officer received special or one-off equity awards in addition to the 2018 annual equity award.</p>
Annual Incentive Plan Performance Goals are Rigorously Set, Despite Volatile and Unpredictable Economic Environment	<p>The adjusted title revenue and adjusted pre-tax title margin performance targets under our 2018 annual incentive plan were approximately 5.7% lower and 17.3% lower than the targets under our 2017 plan, respectively. Our annual incentive plan targets correlate with our annual strategic financial plans, which are based on our forecasted mortgage originations for the year and the relative mix of purchase versus refinance originations. These annual incentive plan measures also have a significant impact on our long-term stock price. We determine our annual strategic financial plan based on a combination of forecasts provided by the Mortgage Bankers Association (MBA) and Fannie Mae, anticipated changes in interest rates, which can have a significant impact on title revenues and margins, as well as recent and expected industry and company trends. We prepare a base plan as well as upside and downside scenarios, which, taken together, form the strategic financial plan and the basis of the performance targets. When we set our 2018 performance targets in March 2018, our assumptions included a decline in refinance volumes of 23%, a 3% decrease in the residential purchase market, and a 7% decline in the national commercial market. In light of these assumptions, the adjusted title revenue and adjusted pre-tax title margin performance targets were rigorous and intended to incentivize our executives to prudently strive to maximize margin and grow market share to outperform the overall market. Our 2018 results exceeded target thresholds due to strong performance in a challenging environment and effective cost management by our executives, including a 2% increase in direct title insurance premiums which resulted from an increase in the average fee per file, partially offset by a decrease in closed order volumes driven by the anticipated rising interest rate environment in late 2018 resulting in a decline in the residential refinance and purchase markets. Remittances for agency title insurance premiums were relatively flat despite the softening of the residential markets. Our executives' performance directly affected each of these factors.</p>

Areas of Improvement	Improvements
<p>Long-term Performance Goals are Rigorously Set, Despite Volatile and Unpredictable Economic Environment</p>	<p>The adjusted pre-tax title margin performance target applicable to our restricted stock awards granted in 2018 was consistent with the target we used in our 2017 awards. We considered various alternative measures but selected adjusted pre-tax title margin because of its strong correlation with our annual strategic financial plan, its importance to investors and impact on our long-term stock price, and its effectiveness in measuring the performance of our executives as it is a measure they can directly affect. Adjusted pre-tax title margin measures our achievements in operating efficiency, profitability and capital management. When we set our adjusted pre-tax title margin performance target in October 2018, our assumptions were based upon the MBA's forecast of a 1% decline in residential mortgage originations in 2019 and an increase of 20 basis points in the 30-year fixed mortgage interest rate, which in particular can have a significant impact on our ability to achieve strong title margin. Our assumptions were also based upon the Urban Land Institute's forecast of a softer commercial real estate market in 2019 and the combination of a limited housing supply, tight credit markets, increasing home prices and political uncertainty. In light of these assumptions, the adjusted pre-tax title margin performance target is very rigorous and intended to drive our executives to maximize profits in a market expected to decline from prior year levels.</p>

GOVERNANCE AND COMPENSATION BEST PRACTICES

We periodically review our compensation programs and make adjustments that are believed to be in the best interests of our company and our shareholders. As part of this process, we review compensation trends and consider current best practices, and make changes in our compensation programs when we deem it appropriate, all with the goal of continually improving our approach to executive compensation.

Some of the best practices adopted by our compensation committee or full board of directors include the following:

Table of Contents**COMPONENTS OF TOTAL COMPENSATION AND PAY MIX**

We compensate our executive officers primarily through a mix of base salary, annual cash incentives and long-term equity-based incentives. We also provide our executive officers with the same retirement and employee benefit plans that are offered to our other employees, as well as limited other benefits, although these items are not significant components of our compensation programs. The following table provides information regarding the elements of compensation provided to our named executive officers in 2018:

Category of Compensation	Type of Compensation	Purpose of the Compensation
Fixed Cash Compensation	Salary	Salary provides a level of assured, regularly paid, cash compensation that is competitive and helps attract and retain key employees.
Short-term Performance-based Cash Incentives	Annual Cash Incentive Tied to Financial Metrics	Cash incentives under our annual incentive plan are designed to motivate our employees to work towards achieving our key annual adjusted title revenue and adjusted pre-tax title margin goals.
Long-term Equity Incentives	Performance-based Restricted Stock Tied to Financial Metrics	Performance-based restricted stock helps to tie our named executive officers' long-term financial interests to our adjusted pre-tax title margin and to the long-term financial interests of our shareholders, as well as to retain key executives through a three-year vesting period and maintain a market competitive position for total compensation.
Benefits & Other	ESPP, 401(k) Plan, health insurance and other benefits	Our named executive officers' benefits generally mirror our company-wide employee benefit programs. For security reasons and to make travel more efficient and productive for our named executive officers, they are eligible to travel on our corporate aircraft.

ALLOCATION OF TOTAL COMPENSATION FOR 2017

The following chart and table show the average allocation of 2018 Total Compensation reported in the Summary Compensation Table among the components of our compensation programs:

NAMED EXECUTIVE OFFICERS

2018 Compensation Mix

Table of Contents

2018 COMPENSATION MIX

As illustrated above, a significant portion of each named executive officer's total compensation is based on performance-based cash and equity incentives that are tied to our financial performance, stock and equity price. Combined, performance-based forms of compensation comprised between 76.2% and 85.2% of our named executive officers' total compensation in 2018.

Our compensation committee believes this emphasis on performance-based incentive compensation is an effective way to use compensation to help us achieve our business objectives while directly aligning our executive officers' interests with the interests of our shareholders.

ANALYSIS OF COMPENSATION COMPONENTS

BASE SALARY

Edgar Filing: Fidelity National Financial, Inc. - Form DEF 14A

Our compensation committee typically reviews salary levels annually as part of our performance review process, as well as in the event of promotions or other changes in our named executive officers' positions or responsibilities. When establishing base salary levels, our compensation committee considers the peer compensation data provided by its external independent compensation consultant, Mercer, as well as a number of qualitative factors, including each named executive officer's experience, knowledge, skills, level of responsibility and performance. With respect to Mr. Bickett, in 2018 our compensation committee considered that he serves as President of Cannae and reduced his FNF base salary by \$145,000 in recognition of his dual employee status. In 2018, all of our other named executive officers' salaries remained unchanged from 2017.

ANNUAL PERFORMANCE-BASED CASH INCENTIVES

We award annual cash incentives based upon the achievement of pre-defined business and financial objectives relating to our core operations, which are specified in the first quarter of the year. Annual incentives play an important role in our approach to total compensation, as they motivate participants to achieve key fiscal year objectives by conditioning the payment of incentives on the achievement of defined, objectively determinable financial performance goals.

Fidelity National Financial, Inc.

34

Table of Contents

In the first quarter of 2018, our compensation committee approved our fiscal year business performance objectives and a target incentive opportunity for each participant, as well as the potential incentive opportunity range for maximum and threshold performance. No annual incentive payments are payable to a named executive officer if the pre-established, minimum performance levels are not met, and payments are capped at a maximum performance payout level. The financial performance results are derived from our annual financial statements (as reported in our Annual Report on Form 10-K filed with the SEC), which are subject to an audit by our independent registered public accounting firm, Ernst & Young LLP. However, as discussed below, we use financial measures as performance targets for our named executive officers that differ from the comparable GAAP measures reported in our financial statements. The incentive award target opportunities are expressed as a percentage of the individual's base salary. In 2018, our compensation committee approved an increase of five percent to each of our named executive officer's incentive award target opportunity from their 2017 levels so that their target opportunities were as follows: Mr. Quirk 155%, Mr. Nolan 130%, Mr. Jewkes 130%, Mr. Park 105% and Mr. Bickett 155%. Our compensation committee approved these increases to provide our executives with additional cash compensation in recognition of their strong historical performance, but tied the increase to continued performance that will benefit our shareholders.

The amount of the annual incentives actually paid depends on the level of achievement of the pre-established goals as follows:

- If threshold performance is not achieved, no incentive will be paid.
- If threshold performance is achieved, the incentive payout will equal 50% of the executive's target incentive opportunity.
- If target performance is achieved, the incentive payout will equal 100% of the executive's target incentive opportunity.
- If maximum performance is achieved, the incentive payout will equal 200% of the executive's target incentive opportunity.
- Between these levels, the payout is interpolated.

An important tenet of our pay-for-performance philosophy is to utilize our compensation programs to motivate our executives to achieve performance levels that reach beyond what is expected of us as a company. The performance targets for the FNF incentive plan are approved by our compensation committee and are based on discussions between management and our compensation committee. Target performance levels are intended to be difficult to achieve, but not unrealistic. Maximum performance levels are established to limit short-term incentive awards so as to avoid excessive compensation while encouraging executives to reach for performance beyond the target levels.

Table of Contents

In setting 2018 performance targets under our annual incentive plans, our compensation committee considered the following factors, which are discussed in more detail below:

- Our 2018 business plan, including our underlying assumptions that refinance volumes would decline by 23% and the residential purchase market would decrease by 3% following consideration of MBA and Fannie Mae forecasts, anticipated rising interest rates, rising home prices making housing less affordable and significantly depressing the residential and refinance markets, and recent and expected industry and company trends, and our projection that the national commercial market would decline by 7% based upon forecasts by the Urban Land Institute;
- 2018 performance targets as compared to 2017 performance targets and 2017 actual performance;
- Alignment of the 2018 performance targets with the investment community's published projections for us and our publicly-traded title company competitors; and
- The effect that achieving the performance targets would have on our growth and margins.

FNF Annual Incentive Performance Measures and Results. The 2018 performance goals under the FNF incentive plan were based on adjusted revenue and adjusted pre-tax margin relating to our title segment. We believe that these performance measures are among the most important measures of the financial performance of our business, and they can have a significant impact on long-term stock price and the investing community's expectations. When combined with the strong focus on long-term shareholder return created by our equity-based incentives and our named executive officers' significant stock ownership, these two annual performance measures provide a degree of checks and balances, requiring our named executive officers to consider both short-term and long-term performance of our businesses and investments. The annual incentive performance targets are synchronized with shareholder expectations, desired increase in our stock price, our annual budget, our long-term financial plan, and our board of directors' expectations. Further, both measures are measures that executives can directly affect.

In the following table, we explain how we calculate the performance measures and why we use them.

Performance Measure	How Calculated	Reason for Use
Adjusted Title Revenue	Adjusted title revenue is based on GAAP revenue from our title segment as reported in our annual financial statements, excluding realized gains and losses.	Adjusted title revenue is an important measure of our growth, our ability to satisfy and retain our clients, gain new clients and the effectiveness of our services and solutions. Adjusted title revenue is widely followed by investors.

Performance Measure	How Calculated	Reason for Use
Adjusted Pre-Tax Title Margin	Adjusted pre-tax title margin is determined by dividing the earnings before income taxes and non controlling interests from our title segment, excluding realized gains and losses, purchase accounting amortization and other unusual items, by total revenues of the title segment excluding realized gains and losses.	We selected adjusted pre-tax title margin as a measure for the short-term incentives because it is a financial measure that is significantly influenced by the performance of our executives, promotes a focus on operational efficiency and cost management, aligns the executives' short-term incentive opportunity with one of our key corporate growth objectives and is commonly used within the title industry. We believe maintaining strong margins is particularly important in a declining market.

The title insurance business is directly impacted by managements' effectiveness in executing on our business strategy, and macro-economic factors such as mortgage interest rates, credit availability, job markets, economic growth, and changing demographics. Changes to mortgage interest rates, in particular, can have a significant impact on our title revenues and title margin. Due to the year-to-year changes in these key economic factors that are outside of our control, we do not think comparisons of financial and business goals and performance from one-year to another are meaningful indicators of the rigor of our performance goals or managements' performance in a given year. Instead, we think our performance goals and managements' performance relative to those goals should be assessed in light of the economic environment within which the goals were established and management operated.

In setting the threshold, target and maximum goals relating to the performance measures under the FNF incentive plan, the committee considered management's expectations for 2018 with respect to forecasted originations, interest rates and the relative mix of purchase versus refinance originations. These expectations are based on forecasted declines in the refinance, residential purchase and national commercial market described above based upon projections provided by the MBA and Fannie Mae, anticipated rising interest rates and rising home prices making housing less affordable and significantly depressing the residential and refinance markets, and recent and expected industry and company trends as reflected in our 2018 strategic financial plan. We prepare a base plan as well as upside and downside scenarios, which, taken together, form the strategic financial plan and the basis of the performance measure targets. To establish threshold and maximum goals, percentage adjustments were applied to the target goals.

The pre-tax title margin threshold and maximum goals were set at 2.5% below and 2.5% above the target, respectively, and title revenue threshold and maximum goals were set at 7.5% below and 7.5% above the target, respectively. Target performance levels are intended to be difficult to achieve, but not unrealistic. Maximum performance levels are established to limit short-term incentive awards so as to avoid excessive compensation while encouraging executives to reach for performance beyond the target levels. All of the goals are subject to review and approval by our compensation committee.

Our 2018 results exceeded target thresholds due to strong performance in a challenging environment and effective cost management by our executives, including a 2% increase in direct title insurance premiums which resulted from an increase in the average fee per file, partially offset by a decrease in

closed order volumes driven by the anticipated rising interest rate environment in late 2018 resulting in a decline in the residential refinance and purchase markets. Remittances for agency title insurance premiums were relatively flat despite the softening of the residential markets. Our executives' performance directly affected each of these factors.

Set forth below are the 2018 weightings of the threshold, target and maximum performance levels, and 2018 performance results under our annual incentive plan. Dollar amounts are in millions.

LONG-TERM EQUITY INCENTIVES

On October 26, 2018, we granted performance-based restricted stock to each of our named executive officers.

We do not attempt to time the granting of awards to any internal or external events. Our general practice has been for our compensation committee to grant equity awards during the fourth quarter of each year following the release of our financial results for the third quarter. We also may grant awards in connection with significant new hires, promotions or changes in duties.

Our compensation committee's determinations are not formulaic; rather, in the context of competitive market compensation data and our stated pay philosophy, our compensation committee determines the share amounts on a subjective basis in its discretion and may differ among individual executive officers in any given year. Following is a brief discussion regarding the awards made in 2018.

Performance-based Restricted Stock. In 2018, the proportion of the FNF equity awards consisting of performance-based restricted stock remained at 100% and we did not grant stock options to our executive officers.

The restricted stock awards vest over three years, provided we achieve pre-tax title margin in our title segment of 8.5% in at least two of the five quarters beginning October 1, 2018. We considered various alternative measures but we again selected adjusted pre-tax title margin because of its strong correlation with our annual strategic financial plan, its importance to investors and impact on our long-term stock price, and its effectiveness in measuring the performance of our executives as it is a measure they can directly affect. Adjusted pre-tax title margin measures our achievements in operating efficiency, profitability and capital management. It is also a key measure used by investors and has a significant impact on long-term stock price.

We kept the adjusted pre-tax margin performance metric for these awards constant at 8.5% compared to our 2017 metric. When we set our adjusted pre-tax title margin performance target in October 2018, our assumptions were based upon the MBA's forecast

Edgar Filing: Fidelity National Financial, Inc. - Form DEF 14A

of a 1% decline in residential mortgage originations in 2019 and an increase of 20 basis points in the 30-year fixed mortgage interest rate, which, in particular, can have a significant impact on our title margins. Our assumptions were also based upon the Urban Land Institute's forecast of a softer commercial

Table of Contents

real estate market in 2019 and the combination of a limited housing supply, tight credit markets, increasing home prices and political uncertainty. Based on these anticipated challenges for the performance period, the committee determined that maintaining consistent adjusted pre-tax title margin compared to 2018 would challenge our executives to prudently strive for growth and continue to manage costs in an extremely efficient manner, reflecting superior performance compared to our title competitors. Although we considered using a longer performance period for these awards, we determined that achievement of the criteria in at least two of the five quarters beginning October 1, 2018, which is the performance period we have historically used with respect to our performance-based equity awards, was the appropriate performance period because of the difficulty in predicting future performance of the mortgage market, particularly for a period of more than one-year, because it is largely driven by interest rates and other economic forces outside of our control, and because of the seasonality inherent in the title business, with the first quarter typically much weaker than the remaining quarters due to weather conditions and holidays impacting opened order activity in November and December resulting in fewer closings in the first quarter.

Adjusted pre-tax title margin is determined by dividing the earnings before income taxes and non-controlling interests from our title segment, excluding realized gains and losses, purchase accounting amortization and other unusual items, by total revenues of the title segment excluding realized gains and losses.

With respect to all restricted stock awards, credit is provided for dividends paid on unvested shares, but payment of those dividends is subject to the same vesting requirements as the underlying shares in other words, if the underlying shares do not vest, the dividends are forfeited.

BENEFIT PLANS

Our named executive officers generally participate in the same compensation programs as our other executives and employees. All employees in the United States, including our named executive officers, are eligible to participate in our 401(k) plan and our employee stock purchase plan, or ESPP. In addition, our named executive officers are eligible to participate in broad based health and welfare plans. We do not offer pensions or supplemental executive retirement plans for our named executive officers.

401(k) Plan. We sponsor a defined contribution savings plan that is intended to be qualified under Section 401(a) of the Internal Revenue Code. The plan contains a cash or deferred arrangement under Section 401(k) of the Internal Revenue Code. Participating employees may contribute up to 40% of their eligible compensation, but not more than statutory limits, which were generally \$18,500 in 2018. Vesting in matching contributions, if any, occurs proportionally each year over three years based on continued employment with us.

Deferred Compensation Plan. We provide our named executive officers, as well as other key employees, with the opportunity to defer receipt of their compensation under a nonqualified deferred compensation plan. None of our named executive officers elected to defer 2018 compensation into the plan. A description of the plan and information regarding our named executive officers interests under the plan can be found in the Nonqualified Deferred Compensation table and accompanying narrative.

Employee Stock Purchase Plan. We maintain an *ESPP* through which our executives and employees can purchase shares of our common stock through payroll deductions and through matching employer contributions. At the end of each calendar quarter, we make a matching contribution to the account of each participant who has been continuously employed by us or a participating subsidiary for the last four calendar quarters. For officers, including our named executive officers, matching contributions are equal to 1/2 of the amount contributed during the quarter that is one-year earlier than the quarter in which the matching contribution was made. The matching contributions, together with the employee deferrals, are used to purchase shares of our common stock on the open market. For information regarding the matching contributions made to our named executive officers in 2018 see Summary Compensation Table.

Health and Welfare Benefits. We sponsor various broad-based health and welfare benefit plans for our employees. Certain executives, including our named executive officers, are provided with additional life insurance. The taxable portion of the premiums on this additional life insurance is reflected in the Summary Compensation Table under the column All Other Compensation and related footnote.

Other Benefits. We continue to provide a few additional benefits to our executives. In general, the additional benefits provided are intended to help our named executive officers be more productive and efficient and to protect us and our executives from certain business risks and potential threats. For example, in 2018, certain of our named executive officers received personal use of the corporate aircraft. Our compensation committee regularly reviews the additional benefits provided to our executive officers and believes they are minimal. Further detail regarding other benefits in 2018 can be found in the Summary Compensation Table under the column All Other Compensation and related footnote.

EMPLOYMENT AGREEMENTS AND POST-TERMINATION COMPENSATION AND BENEFITS

We have entered into employment agreements with each of our named executive officers. These agreements provide us and the executives with certain rights and obligations following a termination of employment, and in some instances, following a change in control. We believe these agreements are necessary to protect our legitimate business interests, as well as to protect the executives in the event of certain termination events. For a discussion of the material terms of the agreements, see the narrative following Grants of Plan-Based Awards and Potential Payments Upon Termination or Change in Control, below.

ROLE OF COMPENSATION COMMITTEE, COMPENSATION CONSULTANT AND EXECUTIVE OFFICERS

Our compensation committee is responsible for reviewing, approving and monitoring all compensation programs for our named executive officers. Our compensation committee is also responsible for administering our annual incentive plan and our omnibus incentive plan. During 2018, our compensation committee engaged Mercer, an independent compensation consultant, to conduct an annual review of our compensation programs for our named executive officers and other key executives and our board of

Edgar Filing: Fidelity National Financial, Inc. - Form DEF 14A

directors. Mercer was selected, and its fees and terms of engagement were approved, by our compensation committee. Mercer reported directly to

the compensation committee, and received compensation only for services related to executive compensation issues. During 2018, the Company also engaged Guy Carpenter, another operating subsidiary of Marsh & McLennan, to provide surety and casualty insurance services. FNF paid Guy Carpenter fees of \$1,944,030 in 2018. In April 2019, the compensation committee reviewed the independence of Mercer in accordance with the rules of the New York Stock Exchange regarding the independence of consultants to the compensation committee, and affirmed the consultant's independence and that no conflicts of interest existed.

The compensation consultant provided our compensation committee with relevant market data on compensation, including annual salary, annual incentives, long-term incentives, other benefits, total compensation and pay mix, and alternatives to consider when making compensation decisions. Mercer also assists our compensation committee in its annual review of a compensation risk assessment.

Our Chairman, Mr. Foley, participated in the 2018 executive compensation process by making recommendations with respect to the compensation of our Chief Executive Officer, Mr. Quirk, and his direct reports. Mr. Quirk, our Chief Executive Officer, made recommendations with respect to the compensation of his direct reports, as discussed further below. In addition, Michael L. Gravelle, our Executive Vice President, General Counsel and Corporate Secretary, coordinated with our compensation committee members and Mercer in preparing the committee's meeting agendas and, at the direction of the compensation committee, assisted Mercer in gathering financial information about FNF and stock ownership information for our executives for inclusion in the consultant's reports to our compensation committee. Our executive officers do not make recommendations to our compensation committee with respect to their own compensation.

While our compensation committee carefully considers the information provided by, and the recommendations of, Mercer and the individuals who participate in the compensation process, our compensation committee retains complete discretion to accept, reject or modify any recommended compensation decisions.

ESTABLISHING EXECUTIVE COMPENSATION LEVELS

Our compensation committee considers a number of important qualitative and quantitative factors when determining the overall compensation of our named executive officers in 2018, including:

- The executive officer's experience, knowledge, skills, level of responsibility and potential to influence our company's performance;
- The executive officer's prior salary levels, annual incentive awards, annual incentive award targets and long-term equity incentive awards;

Edgar Filing: Fidelity National Financial, Inc. - Form DEF 14A

- The business environment and our business objectives and strategy;
- Our financial performance in the prior year;
- The need to retain and motivate executives (even in the current business cycle, it is critical that we not lose key people and long-term incentives help to retain key people);

Table of Contents

- Corporate governance and regulatory factors related to executive compensation; and
- Marketplace compensation levels and practices.

In evaluating the compensation of our named executive officers, our compensation committee considers the recommendations of our Chairman. Our compensation committee also considers our Chief Executive Officer's recommendations with respect to the compensation of his direct reports. In making their recommendations, our Chairman and Chief Executive Officer review the performance of the other named executive officers, job responsibilities, importance to our overall business strategy, and our compensation philosophy. Neither our Chairman nor our Chief Executive Officer makes a recommendation to our compensation committee regarding his own compensation. The compensation decisions are not formulaic, and the members of our compensation committee did not assign precise weights to the factors listed above. Our compensation committee utilized their individual and collective business judgment to review, assess, and approve compensation for our named executive officers.

To assist our compensation committee, the compensation consultant conducted marketplace reviews of the compensation we pay to our executive officers. They gathered marketplace compensation data on total compensation, which consists of annual salary, annual incentives, long-term incentives, executive benefits, executive ownership levels, overhang and dilution from our omnibus incentive plan, compensation levels as a percent of revenue, pay mix and other key statistics. This data is collected and analyzed twice during the year, once in the first quarter and again in the fourth quarter. The marketplace compensation data provides a point of reference for our compensation committee, but our compensation committee ultimately makes subjective compensation decisions based on all of the factors described above.

For 2018, Mercer used two marketplace data approaches: (1) an aggregation of three general executive compensation surveys with a specific focus on companies with revenues of between \$5 billion and \$20 billion, and (2) compensation information for a group of 19 companies, or the *FNF peer group*. The FNF peer group was based on a size range of approximately 1/2 to 2 times that of FNF, based on a combination of revenues, assets, and market capitalization, industry focus (generally the insurance industry based on Global Industry Classification Standard (GICS) Code), nature and complexity of operations, and because they compete with us for business and/or executive talent. The 2018 peer group was consistent with the peer group used by the compensation committee in 2017. When defining the peer group, our compensation committee, working with the compensation consultant, considered the standards used by ISS for identifying peer groups for public companies. The 2018 peer group consisted of:

Alleghany Corporation	Genworth Financial, Inc.
American Financial Group	Lincoln National Corp.
Aon plc	Loews Corporation
Assurant Inc.	Marsh & McLennan Companies, Inc.
Automatic Data Processing, Inc.	Principal Financial Group, Inc.

Table of Contents

CNA Financial Corporation	Reinsurance Group of American Incorporated
DXC Technology	Unum Group
Discover Financial Services	W.R. Berkley Corporation
Everest Re Group Ltd.	XL Group Ltd
First American Financial Corporation	

The compensation committee primarily focused on a reasonable range of compensation around the 50th percentile of the data when considering our named executive officers' 2018 base salaries, annual performance-based cash incentives and long-term equity incentives.

While the compensation decisions of our compensation committee ultimately were subjective judgments, our compensation committee also considered the following factors in making compensation decisions for our named executive officers. In determining the total compensation for Mr. Quirk, our compensation committee considered his more than 34 years of experience with FNF working in the title business and his importance to the continued successful operation of FNF's title business. In determining the total compensation for Mr. Park, our compensation committee considered his role and responsibility for accounting and financial reporting matters, as well as his 28 years of experience with FNF. In determining the total compensation for Mr. Bickett, our compensation committee considered his contribution to corporate finance matters, corporate development and mergers and acquisitions, as well as his 19 years experience with FNF. Our compensation committee also considered that Mr. Bickett serves as President of Cannae. In determining the total compensation for Mr. Jewkes, our compensation committee considered his role and responsibility for oversight of our day to day title operations, as well as his 32 years of experience with FNF and its predecessor companies. In determining the total compensation for Mr. Nolan, our compensation committee considered his role and responsibility for oversight of our title operations, his involvement in our investor relations, as well as his 36 years of experience with FNF.

The marketplace compensation information in this discussion is not deemed filed or a part of this compensation discussion and analysis for certification purposes.

OUR NAMED EXECUTIVE OFFICERS HAVE SIGNIFICANT OWNERSHIP STAKES

Our named executive officers and our board of directors maintain significant long-term investments in our company. Collectively, as reported in the table Security Ownership of Management and Directors, they beneficially own an aggregate of 10,932,382 shares of our common stock and options to acquire an additional 5,106,150 shares of our common stock, which in total is equal to 5.8% of our shares entitled to vote. The fact that our executives and directors hold such a large investment in our shares is part of our company culture and our compensation philosophy. Management's sizable investment in our shares aligns their economic interests directly with the interests of our shareholders, and their wealth will rise and fall as our share price rises and falls. This promotes teamwork among our management team and strengthens the team's focus on achieving long-term results and increasing

shareholder return.

Table of Contents

We have formal stock ownership guidelines for all corporate officers, including our named executive officers, and members of our board of directors. The guidelines were established to encourage those individuals to hold a multiple of their base salary (or annual retainer) in our common stock and, thereby, align a significant portion of their own economic interests with those of our shareholders. Further, the award agreements for our 2018 restricted stock awards provide that our executives who do not hold shares of our stock with a value sufficient to satisfy the applicable stock ownership guidelines must retain 50% of the shares acquired as a result of the lapse of vesting restrictions until the executive satisfies the applicable stock ownership guideline. The ownership levels are shown in the Security Ownership of Management and Directors table above.

The guidelines call for the executive to reach the ownership multiple within four years. Shares of restricted stock and gain on stock options count toward meeting the guidelines. The guidelines, including those applicable to members of our board of directors, are as follows:

Position	Minimum Aggregated Value
Chairman of the Board	10 x annual cash retainer
Chief Executive Officers	5 x base salary
Other Officers	2 x base salary
Members of the Board	5 x annual cash retainer

Each of our named executive officers and non-employee directors met these stock ownership guidelines as of December 31, 2018.

HEDGING AND PLEDGING POLICY

In order to more closely align the interests of our directors and executive officers with those of our shareholders and to protect against inappropriate risk-taking, we maintain a hedging and pledging policy, which prohibits our executive officers and directors from engaging in hedging or monetization transactions with respect to our securities, engaging in short-term or speculative transactions in our securities that could create heightened legal risk and/or the appearance of improper or inappropriate conduct or holding FNF securities in margin accounts or pledging them as collateral for loans without our approval.

CLAWBACK POLICY

Edgar Filing: Fidelity National Financial, Inc. - Form DEF 14A

In December 2010, our compensation committee adopted a policy to recover any incentive-based compensation from our executive officers if we are required to prepare an accounting restatement due to material noncompliance with financial reporting requirements, and the incentive-based compensation paid during the preceding three-year period would have been lower had the compensation been based on the restated financial results.

TAX AND ACCOUNTING CONSIDERATIONS

Our compensation committee considers the impact of tax and accounting treatment when determining executive compensation.

Section 162(m) of the Internal Revenue Code places a limit of \$1,000,000 on the amount that can be deducted in any one-year for compensation paid to certain executive officers. Before being repealed by the Tax Cuts and Jobs Act in 2017, there was an exception for certain performance-based compensation. The Tax Cuts and Jobs Act eliminated the performance-based compensation exception under Section 162(m) for awards that are not grandfathered and it increased the coverage of Section 162(m) to, among other things, include Chief Financial Officers and any individual who was subject to the Section 162(m) limitation in tax years beginning after 2016, even after employment ends. These changes will cause more of our named executive officer's compensation to be non deductible under Section 162(m) in the future, and eliminate our ability to structure performance-based awards to be exempt from Section 162(m). While our compensation committee considers the deductibility of awards as one factor in determining executive compensation, the compensation committee also looks at other factors in making its decisions, as noted above, and retains the flexibility to award compensation that it determines to be consistent with the goals of our executive compensation program even if the awards are not deductible for tax purposes.

Our compensation committee also considers the accounting impact when structuring and approving awards. We account for share based payments, including stock option grants, in accordance with ASC Topic 718, which governs the appropriate accounting treatment of share based payments under generally accepted accounting principles (*GAAP*)

If Mr. Bickett does not elect to have such payments so reduced, Mr. Bickett is responsible for payment of any excise tax resulting from such payments and shall not be entitled to a gross-up payment under the employment agreement.

Mr. Bickett's employment agreement contains provisions related to the payment of benefits upon certain termination events. The details of these provisions are set forth in the "Potential Payments upon Termination or Change in Control" section.

ROGER S. JEWKES

We entered into a three-year amended and restated employment agreement with Mr. Jewkes, effective March 3, 2016 with a provision for automatic annual extensions beginning on the second anniversary of the effective date and continuing thereafter unless either party provides timely notice that the term should not be extended. Mr. Jewkes is entitled to a minimum annual base salary of \$630,000 and an annual cash bonus target of 100% of his annual base salary, with amounts payable depending on performance relative to targeted results. Mr. Jewkes and his eligible dependents are entitled to medical and other insurance coverage we provide to our other top executives as a group. Mr. Jewkes is also eligible to receive equity grants under our equity incentive plans, as determined by our compensation committee.

If any payments or benefits to be paid to Mr. Jewkes pursuant to the terms of the employment agreement would be subject to the excise tax imposed by Section 4999 of the Internal Revenue Code, then Mr. Jewkes may elect for such payments to be reduced to one dollar less than the amount that would constitute a parachute payment under Section 280G of the Internal Revenue Code. If Mr. Jewkes does not elect to have such payments so reduced, Mr. Jewkes is responsible for payment of any excise tax resulting from such payments and shall not be entitled to a gross-up payment under the employment agreement.

Mr. Jewkes' employment agreement contains provisions related to the payment of benefits upon certain termination events. The details of these provisions are set forth in the Potential Payments upon Termination or Change in Control section.

ANNUAL INCENTIVE AWARDS

In 2018, our compensation committee approved performance-based cash incentive award opportunities for our named executive officers. The performance-based cash incentive award opportunities are calculated by multiplying base salary by the named executive officer's applicable percentage approved by our compensation committee based on the level of performance that we achieved. More information about the annual incentive awards, including the targets and criteria for determining the amounts payable to our named executive officers, can be found in the Compensation Discussion and Analysis section.

LONG-TERM EQUITY INCENTIVE AWARDS

In October 2018, our compensation committee approved grants of performance-based restricted stock to all our named executive officers. The performance element applicable to the performance-based restricted stock is based upon achievement of pre-tax margin in our title segment of 8.5% in at least two of the five quarters beginning October 1, 2018. The restricted stock also vests proportionately each year over three years based on continued employment with us. More information about the long-term equity incentive awards can be found in the Compensation Discussion and Analysis section.

NONQUALIFIED DEFERRED COMPENSATION

Under our nonqualified deferred compensation plan, which was amended and restated effective January 1, 2009, participants, including our named executive officers, can defer up to 75% of their base salary and 100% of their monthly, quarterly and annual incentives, subject to a minimum deferral of \$18,500. Deferral elections are made during specified enrollment periods. Deferrals and related earnings are not subject to vesting conditions.

Participants' accounts are bookkeeping entries only and participants' benefits are unsecured. Participants' accounts are credited or debited daily based on the performance of hypothetical investments selected by the participant, and may be changed on any business day.

Upon retirement, which generally means separation of employment after attaining age 60, an individual may elect either a lump-sum withdrawal or installment payments over 5, 10 or 15 years. Similar payment elections are available for pre-retirement survivor benefits. In the event of a termination prior to retirement, distributions are paid over a 5-year period. Account balances less than the applicable Internal Revenue Code Section 402(g) limit will be distributed in a lump sum. Participants can elect to receive in-service distributions in a plan year designated by the participant and these amounts will be paid within two and one-half months from the close of the plan year in which they were elected to be paid. The participant may also petition us to suspend elected deferrals, and to receive partial or full payout under the plan, in the event of an unforeseeable financial emergency, provided that the participant does not have other resources to meet the hardship.

Plan participation continues until termination of employment. Participants will receive their account balance in a lump-sum distribution if employment is terminated within two years after a change in control.

In 2004, Section 409A of the Internal Revenue Code was passed. Section 409A changed the tax laws applicable to nonqualified deferred compensation plans, generally placing more restrictions on the timing of deferrals and distributions. The deferred compensation plan contains amounts deferred before and after the passage of Section 409A.

For amounts subject to Section 409A, which in general terms includes amounts deferred after December 31, 2004, a modification to a participant's payment elections may be made upon the following events:

- **Retirement:** Participants may modify the distribution schedule for a retirement distribution from a lump-sum to annual installments or vice versa, however, a modification to the form of payment requires that the payment(s) commence at least five years after the participant's retirement, and this election must be filed with the administrator at least 12 months prior to retirement.
- **In-service Distributions:** Participants may modify each in-service distribution date by extending it by at least five years; however, participants may not accelerate the in-service distribution date and this election must be filed with the administrator at least 12 months prior to the scheduled in-service distribution date.

Deferral amounts that were vested on or before December 31, 2004 are generally not subject to Section 409A and are governed by more liberal distribution provisions that were in effect prior to the passage of Section 409A. For example, a participant may withdraw these grandfathered amounts at any time, subject to a withdrawal penalty of ten percent, or may change the payment elections for these grandfathered amounts if notice is timely provided.

The table below describes the contributions and distributions made with respect to the named executive officers' accounts under our nonqualified deferred compensation plan. Of our named executive officers, only Mr. Jewkes deferred 2018 compensation under the plan. Messrs. Quirk and Nolan do not have balances in the nonqualified deferred compensation plan.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

In this section, we discuss the nature and estimated value of payments and benefits we would provide to our named executive officers in the event of termination of employment or a change in control. The amounts described in this section reflect amounts that would have been payable under (i) our plans, and (ii) where applicable, their employment agreements if their employment had terminated on December 31, 2018.

The types of termination situations include a voluntary termination by the executive, with or without good reason, a termination by us either for cause or not for cause and termination in the event of disability or death. We also describe the estimated payments and benefits that would be provided upon a change in control without a termination of employment. The actual payments and benefits that would be provided upon a termination of employment would be based on the named executive officers' compensation and benefit levels at the time of the termination of employment and the value of accelerated vesting of share based awards would be dependent on the value of the underlying stock.

For each type of employment termination, the named executive officers would be entitled to benefits that are available generally to our domestic salaried employees, such as distributions under our 401(k) savings plan, certain disability benefits and accrued vacation. We have not described or provided an estimate of the value of any payments or benefits under plans or arrangements that do not discriminate in scope, terms or operation in favor of a named executive officer and that are generally available to all salaried employees. In addition to these generally available plans and arrangements, the named executive officers would be entitled to benefits under our nonqualified deferred compensation plan, as described above in the Nonqualified Deferred Compensation table and accompanying narrative.

POTENTIAL PAYMENTS UNDER EMPLOYMENT AGREEMENTS

As discussed above, we have entered into employment or service agreements with our named executive officers. The agreements contain provisions for the payment of severance benefits following certain termination events. Below is a summary of the payments and benefits that the named executive officers would receive in connection with various employment or service termination scenarios.

Nolan and Jewkes) monthly COBRA premium payments	ü	Î	Î	Î

1. Messrs. Quirk s and Park s employment agreements provide for supplemental disability insurance sufficient to provide at least 2/3 of the executive s pre-disability base salary. Mr. Bickett is entitled to purchase supplemental disability insurance sufficient to provide 60% of his pre-disability base salary. An executive will be deemed to have a disability if he is entitled to receive long-term disability benefits under our long-term disability plan.

2. The prorated annual bonus is based on the following:

- In the event of a termination without Cause or by the executive for Good Reason, the actual incentive the named executive officer would have earned for the year of termination and the fraction of the year the executive was employed by us.

Edgar Filing: Fidelity National Financial, Inc. - Form DEF 14A

- In the event of a termination for death or disability, the target annual bonus opportunity in the year in which the termination occurs or the prior year if no target annual bonus opportunity has yet been determined and (b) the fraction of the year the executive was employed.

3. The percentage for the lump sum payment for each executive is as follows: Mr. Quirk 200%, Mr. Park 200%, Mr. Bickett 200%, Mr. Nolan 100%, and Mr. Jewkes 100%. For Messrs. Quirk, Park and Bickett, the bonus used for the lump-sum payment is the higher of (1) target, or (2) the highest annual bonus paid to the executive within the preceding three years.

1. For purposes of Mr. Quirk's, Park's and Bickett's employment agreements, this also includes a material diminution in the executive's position or the assignment of duties to the executive that are materially inconsistent with the executive's position or title.

2. For purposes of Messrs. Quirk's, Park's and Bickett's employment agreements, a change of control includes (1) an acquisition by an individual, entity or group of more than 50% of our voting power; (2) a merger in which we are not the surviving entity, unless our shareholders immediately prior to the merger hold more than 50% of the combined voting power of the resulting corporation after the merger; (3) a reverse merger in which we are the surviving entity but in which more than 50% of the combined voting power is transferred to persons different from those holding the securities immediately prior to such merger; (4) during any period of two consecutive years during the employment term, a change in the majority of our board, unless the changes are approved by 2/3 of the directors then in office; (5) a sale, transfer or other disposition of our assets that have a total fair market value equal to or more than 1/3 of the total fair market value of all of our assets immediately before the sale, transfer or disposition, other than a sale, transfer or disposition to an entity (i) which immediately after the sale, transfer or disposition owns 50% of our voting stock or (ii) 50% of the voting stock of which is owned by us after the sale, transfer or disposition; or (6) our shareholders approve a plan or proposal for the liquidation or dissolution of our company.

POTENTIAL PAYMENTS UNDER FNF OMNIBUS INCENTIVE PLAN

In addition to the post-termination rights and obligations set forth in the employment agreements of our named executive officers, our omnibus incentive plan provides for the potential acceleration of vesting and/or payment of equity awards in connection with a change in control. Under our omnibus incentive plan, except as otherwise provided in a participant's award agreement, upon the occurrence of a change in control any and all outstanding options and stock appreciation rights will become immediately exercisable, any restriction imposed on restricted stock, restricted stock units and other awards will lapse, and any and all performance shares, performance units and other awards with performance conditions will be deemed earned at the target level, or, if no target level is specified, the maximum level.

For purposes of our omnibus plan, the term "change in control" means the occurrence of any of the following events:

- An acquisition by an individual, entity or group of 25% or more of our voting power (except for acquisitions by us or any of our employee benefit plans),
- During any period of two consecutive years, a change in the majority of our board, unless the change is approved by 2/3 of the directors then in office,
- A reorganization, merger, share exchange, consolidation or sale or other disposition of all or substantially all of our assets; excluding, however, a transaction pursuant to which we retain specified levels of stock ownership and board seats, or
- Our shareholders approve a plan or proposal for our liquidation or dissolution.

ESTIMATED CASH PAYMENTS UPON TERMINATION OF EMPLOYMENT

The table below includes the cash severance amounts that would have been payable to each executive in the event of a termination of employment by us not for cause or a termination by the executive for good reason. Our estimate of the cash severance amounts that would be provided to each executive assumes that their employment terminated on December 31, 2018. The severance amounts do not include a prorated 2018 annual incentive since the named executive officers would have been paid based on their service through the end of the year and therefore would have received the annual incentive whether or not the termination occurred.
