## ITEM 11. EXECUTIVE COMPENSATION.

### *Compensation Discussion and Analysis*

The following is a discussion of our executive compensation program and the compensation decisions made for fiscal year 2009 with respect to Guoshen Tu our Chief Executive Officer (referred to as our CEO ) and Terence Yap, our Chief Financial Officer (referred to as our CFO ). We refer to these executive officers as the named executive officers.

As of December 31, 2009, Mr. Tu and Mr. Yap were the only two executive officers. Currently, the position of President is vacant, and our CEO has assumed the responsibilities of that office on an interim basis.

In 2009, the Compensation Committee accepted recommendations and ideas from senior management and combined with market data to determine the compensation to be paid to the Company s executive officers.

Important determining factors included the Company s financial and operating performance and prospects, the level of compensation paid to similarly situated executives in comparably sized companies, equity grants made in prior years, and the contributions made by each of the executive officers to the success of the Company. The compensation committee is responsible for approving and overseeing executive compensation.

Mr. Tu and Mr. Yap have been involved in the Board s deliberations regarding executive compensation in the past and have provided recommendations with respect to their and any other executive officers compensation. Beginning in 2008, determinations of Mr. Tu s and Mr. Yap s compensation have been made solely by our compensation committee, and neither Mr. Tu nor Mr. Yap takes part in any discussions regarding their own respective compensation.

### **Objectives of our executive compensation program**

An understanding of our executive compensation program begins with an understanding of the objectives the program is intended to serve. These include:

- ***Offering competitive compensation.*** We seek to offer a compensation package that is attractive and competitive with the compensation practices of the peer companies with which we compete for talent (these companies are discussed below).
  - ***Rewarding performance.*** Our compensation program is intended to closely align executive compensation with performance by tying a significant portion of compensation to the achievement of financial and other goals of the Company and the executive s contributions to the accomplishment of those goals. At present the Compensation Committee uses discretion to determine appropriate pay as a result of performance.
-

- ***Aligning the interests of our executives with those of our shareholders.*** A significant portion of the total compensation paid to our top two executive officers is in the form of equity-based compensation. This serves to further align the interests of our executives with those of our shareholders.

Executive compensation consists primarily of restricted stock grants with four to five year vesting requirements. This reduces the risk of short-term decisions being made at the expense of long-term growth.

### **How executive compensation is determined**

#### ***The role of the Compensation Committee and its consultant, and of management***

The Compensation Committee of independent directors, formed in late 2007, was established to oversee the compensation program for the named executive officers and for the other members of senior management who report to the CEO. Since 2008, the Compensation Committee has been assisted in fulfilling its responsibilities by its advisor, James F. Reda and Associates LLC (referred to as J. F. Reda ). J. F. Reda is engaged by, and reports directly to, the Compensation Committee. Additional information on the roles of the Compensation Committee, J. F. Reda and management in the process for determining executive compensation is discussed below.

#### ***How the elements of our compensation program were selected***

The Compensation Committee is responsible for determining the elements of our compensation program. In doing so, the Compensation Committee seeks to structure our program in a way that furthers our program objectives of providing a competitive compensation package, promoting our pay-for-performance philosophy and aligning the interests of our executives and shareholders. In structuring the program, the Compensation Committee considered market comparison information provided by J. F. Reda regarding executive compensation practices generally and at selected comparator companies.

The key compensation elements selected by the Compensation Committee include:

- annual salary;
- annual discretionary bonus (moving to non-discretionary, performance-based in 2010); and
- long-term equity-based compensation, which for 2007 and 2008 was in the form of restricted stock, vesting monthly over four or five years.

The Compensation Committee believes that this combination of salary, cash incentive and equity-based compensation is appropriate to provide a competitive compensation package to our executives based on prevailing market practices. As we continue to develop our compensation programs, it is the fundamental belief of the Compensation Committee to tie a significant portion of target compensation to performance as measured by long-term stock price growth, which the Compensation Committee believes supports our pay-for-performance philosophy and the achievement of our strategic goals. While no specific formula is used to determine the allocation between equity-based and fixed compensation, this emphasis on pay-for-performance resulted in equity-based compensation representing the largest portion of the total target compensation (meaning salary, bonus, and equity-based compensation) of the named executive officers in fiscal year 2007 and for 2008. For 2009 performance there were no bonus payments made. Also, as a result in part of large grants made in 2008, there were no long-term incentive grants in 2009. The emphasis on equity-based compensation in our program serves to align the interests of the named executive officers with those of our shareholders and promote executive retention.

---

The company does not provide any other forms of compensation such as retirement benefits, deferred compensation, termination benefits, perquisites, or change-in-control arrangements.

*The use of market comparison data*

**The Comparison Group.** The Compensation Committee compares the company's executive compensation program to that of a group of select comparator companies. This review is done with respect to both the structure of our executive compensation program and target compensation. A significant portion of the comparator group is comprised of China-based technology and communication companies listed on the New York Stock Exchange.

Several of these companies are significantly larger than the Company. However, after a careful examination of pay levels and practices at these larger China-based companies, it was determined that executive compensation at these larger companies was not significantly different than smaller companies and did not bias the findings.

The comparator group used by the Compensation Committee consists of 17 companies that we believe we compete with for executive talent. This group is referred to as the Comparison Group. The companies included in the Comparison Group were selected by the Compensation Committee based on the recommendation of J. F. Reda. Information on the pay practices of the Comparison Group is provided by J. F. Reda to the extent such information is available.

The following companies made up the Comparison Group.

Checkpoint Systems Inc	LDK Solar Co Ltd
China Digital TV Holdings Co	NAPCO Security Systems Inc.
China Mobile LTD	Protection One Inc.
China Netcom Group Corp	Qiao Xing Mobile Comm Co. Ltd
China Telecom Corp LTD	Semiconductors Mfg Int'l Corp
China Unicom Ltd	Suntech Power Holdings
Diebold, Incorporated	Trina Solar Ltd
Giant Interactive Group Inc.	Tyco International Ltd
	Yingli Green Energy Holding

**Compensation Structure and Targets.** J. F. Reda conducted a comparison of our executive compensation structure and practices to those of the Comparison Group in 2008. This review covered several aspects of compensation, including base salary, target bonus, equity grants, pay targets and performance measures where applicable. The market analysis developed was used in part to determine pay targets for 2009.

Based on its review in 2008, J. F. Reda concluded that the structure of the Company's proposed compensation program was reasonably consistent with industry practices, particularly with regard to other China-based companies, where equity grants are often a major pay component. However, it was recommended that the proposed exclusive reliance on long term incentives as the sole performance element of pay be adjusted to include short term incentives as well. This would provide the balance between short term and long term incentives believed necessary to facilitate consistent growth and overall performance.

Market comparison data was also used in setting compensation target levels for each of the key elements of our program (salary, cash incentive and equity-based compensation) and for the combined total of these elements. For each of the key elements, the Compensation Committee seeks to determine the prevailing competitive range of target compensation based on publicly-available information and the advice of J. F. Reda, with the mid-point of the range being the 75th percentile of the Comparison Group. The Committee generally targets total pay near the 75th percentile with the majority of pay in the form of equity. An executive's actual compensation may be more or less than the target amount set by the Compensation Committee based on the Company's relative performance, changes in our stock price and other factors. The Committee delivered limited pay in 2009 due to an uncertain world-wide economy and

potential business consequences, and large restricted stock grants in the previous year.

---

We believe the 75th percentile is appropriate for attracting and retaining top talent from a very limited talent pool. Targeting the 75th percentile is also consistent with the growth of the company and pace of acquisitions that are unique in the industry. Also, the Compensation Committee believes it is necessary to ensure key executives continue to position the Company into a leadership position in the security and information technology industries and to reward the extra effort required to achieve very aggressive goals.

Setting compensation targets based on market comparison data is intended to ensure that our compensation practices are competitive with regard to attracting and retaining executive talent. Because each compensation element is reviewed based on available data, which is limited for certain companies, compensation decisions made with respect to one element of compensation do not affect decisions made with respect to other compensation elements. It is also for this reason that no specific formula is used to determine the allocation between cash and equity-based compensation. In addition, because a named executive officer's compensation target is set by reference to persons with similar duties at the Comparison Group companies, the Compensation Committee does not establish any fixed relationship between the compensation of the CEO and that of any other named executive officer.

### **The key elements of our executive compensation program**

As stated above, the key elements of our compensation program are salary, an annual cash incentive, and long-term equity-based compensation awards.

#### ***Base salary***

Salaries are based on the executive's performance, scope of responsibilities and experience, competitive pay practices and tenure. Base salary is intended to provide a fixed, baseline level of compensation that is not contingent upon the Company's performance, although performance does influence salary adjustments. The Committee's objective is to pay salaries at the low end of the market so that we might emphasize equity-based compensation. Mr. Tu's salary continues to be below the market median. Mr. Yap's salary was increased to be below the 75th percentile but higher than the market median to recognize his unique leadership role, second only to Mr. Tu.

In early 2008, an extensive review of compensation practices at the Company and in the market was completed and provided a foundation for 2009 salary determinations. Through 2008, the top executives were compensated primarily with equity salaries have been below market

#### ***Annual Cash Bonus***

It has not been the practice of the Company to pay annual bonuses. The Compensation Committee continues to review its use of discretionary bonuses. There has been some consideration for establishing a formulaic approach to paying bonuses but the uncertainty of world-wide economic growth and how that will affect our markets has caused the Committee to maintain its current approach.

#### ***Equity-based long-term incentive awards***

The primary part of our compensation program is long-term equity-based compensation. Historically, the long-term incentive awards made to the named executive officers have consisted of time vested restricted stock. The Compensation Committee has been considering performance shares and other types of equity grants that increase the performance element of equity grants. No grants were made in 2009 after making significantly larger than normal, time-vested restricted stock grants to Mr. Tu and Mr. Yap in 2008.

---

**Role of Long-Term Incentive Awards.** Long-term incentive grants as the primary component of compensation provide a number of benefits as follows:

- allows us to offer a compensation package that is competitive and enhances our ability to attract and retain executive talent;
- aligns the interests of our executives with those of our shareholders, thereby encouraging the creation of shareholder value; and
- helps establish a direct link between compensation amounts, total shareholder return and company operating performance

**Award Process.** In making awards, the Compensation Committee will not issue a targeted number of shares. Instead, in consultation with J. F. Reda and taking into account market comparison data and the executive's performance, the Compensation Committee will first determine the total dollar value of the award to be granted to the named executive officer.

The values assigned by the Compensation Committee to the individual equity grants are then translated into a specific number of full share grants such as restricted stock or options to purchase stock, in each case based on the fair market value at the date of the grant. The value ultimately realized from these awards will depend on a number of factors, including our operating performance and movements in our stock price.

**Timing of Equity Awards.** The Compensation Committee has not formally adopted a timing policy for the granting of stock options; however, stock option grants have not been made to the executive officers nor are there plans to do so in the future.

**Awards in Fiscal Year 2009.** Because of the large grants of restricted stock awards made to Mr. Tu and Mr. Yap in November 2008, no equity grants were made to them in 2009. The total value of the 2008 grants to Messrs. Tu and Yap was intended to adjust for low compensation in 2006 and 2007, to provide a strong retention incentive, and to provide incentives for increasing company value. These awards also served to balance the absence of retirement programs or severance plans.

#### **Other benefits**

At present we do not provide nor do we plan to provide, pension benefits, deferred compensation, life insurance or other benefits to our named executive officers. Our philosophy is to have pay based almost exclusively on performance and at levels above market. In other words, by establishing higher levels of risk in pay, the Committee has targeted higher than market pay.

#### **Change in control and employment agreements**

Through 2009 there were no change-in-control agreements or employment agreements of any kind nor are there plans to institute change-in-control agreements or severance agreements.

**Compensation Committee Report**

***Compensation Policies***

The Compensation Committee of the Company has a compensation structure in place that encourages long-term performance. All bonuses are discretionary. The CEO and CFO have not received bonuses in the past three years. Equity grants made over the past three years to a limited number of executives were in the form of restricted stock and vest monthly over four or five years. The realizable value of these awards will be based on the value of our stock over a multi-year period. This structure is more likely to reduce the risk of behavior designed to generate short term gains.

Stock options and restricted stock have also been granted to new executives, managers, and other key employees as part of several acquisitions. For the same reasons, these grants are not expected to result in risky behavior to generate short term gains on the part of these employees.

As a result of these practices we believe our compensation policies do not result in any material adverse risk to the Company.

**Summary Compensation Table**

(1) Amounts shown do not reflect compensation actually received by the named executive officer. The amounts represent the grant date value for stock granted to the named executive officers in 2007, 2008 and 2009 calculated in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 718. For 2008, the assumptions used to calculate the value of stock awards are set forth under Note 2 of the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for fiscal year 2008 filed with the SEC on March 5, 2009. For 2007, the assumptions used to calculate the value of stock awards are set forth under Note 2 of the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for fiscal year 2007 filed with the SEC on March 10, 2008. These amounts disregard estimates of forfeitures related to service based vesting conditions.

### **Grants of Plan-Based Awards**

No equity grants or non-equity incentive plan awards were provided to the named executive officers in 2009.

### **Employment Agreements**

We do not have employment agreements or termination agreements of any type with any of our executive officers, other than the consulting agreement with Terence Yap, which as discussed above expired in February 2009.

### **Potential Payments Upon Termination of Employment or Change of Control**

The Company does not have change-in-control arrangements with any of its executive officers, and the Company is not obligated to pay severance or other enhanced benefits to executive officers upon termination of their employment.

The 2007 Plan provides for the acceleration of vesting if a successor corporation does not assume or substitute outstanding stock awards. Upon a change of control, all unvested options and stock appreciation rights will become fully vested and exercisable, and all restricted stock units, performance units, performance shares and restricted stock will become fully vested and payable. Accelerated vesting occurs with respect to all equity-based compensation awards granted by the Company, and not just those granted to the named executive officers. In addition, no termination of employment is required to accelerate vesting.

The following table reflects the intrinsic value of unvested restricted stock that would be accelerated assuming a change in control occurred on December 31, 2009. Our named executive officers are not entitled to any payments upon a termination of employment. Values are based on the December 31, 2009 closing stock price of \$7.64.

Name	Value of Accelerated (\$)	Stock Total (\$)
Guoshen Tu	12,620,325	12,620,325
Terence Yap	4,063,525	4,063,525

### **Non-Management Directors Compensation**

The Board believes that providing competitive compensation is necessary to attract and retain qualified non-management directors. The key elements of the Company's non-management director compensation are a cash retainer, committee chairman fees, and equity-based compensation and meeting fees. The Company reimburses non-management directors for travel and other business expenses incurred in the performance of their services for the Company. Directors are also reimbursed for attending director education courses.

Each director has actively assisted management in executing the Company's growth strategy. Director compensation has been primarily in the form of equity. As the company absorbs numerous acquisitions and solidifies its position in the marketplace, director pay will recede. In 2009, restricted stock grants for directors were reduced to \$113,000 in grant value per independent director, a 55% to 58% decline from 2008 grant values. The independent directors also received a one-time special award of restricted stock valued at \$8,152 in recognition of their important roll in the Citadel negotiations.

Our non-management directors are entitled to an annual retainer, consisting of (i) a cash retainer and (ii) stock grant. In addition, they receive cash fees for serving on committees of our Board of Directors.

Based on an analysis of director compensation paid by the Comparison Group, the Board approved the following compensation structure for non-management directors in 2008. This compensation structure remained effective for 2010.

### 2009 NON-MANAGEMENT DIRECTOR COMPENSATION PROGRAM

	Retainer	Meeting Fee

<b>Nominating &amp; Gov. Committee</b>		
Chairman	\$12,000	\$1,500
Member	\$5,000	\$1,000

(1) Annual cash retainer for the role of Board members varies by director as follows: Runsen Li-\$41,072, Peter Mak-\$120,000, Robert Shiver-\$50,000.

(2) Each director received 21,667 restricted shares in fiscal 2009 with grant date value of \$121,152.

The Board believes that this fee structure recognizes our directors' key role in driving our growth and for the work required on each of the three committees the directors serve.

The following table sets forth the total compensation earned by the non-management directors during fiscal year ended December 31, 2009:

Name	Fees Earned or Paid in Cash (\$)	Stock Awards (\$) <sup>1</sup>	Option Awards (\$)	Non-Equity Incentive Plan Compensation (\$)	Nonqualified Deferred Compensation Earnings (\$)	All Other Compensation (\$) <sup>2</sup>	Total (\$)

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE.

#### Transactions with Related Persons

Since the beginning of the last fiscal year, there have not been any transaction, nor is there any currently proposed transaction, in which we were or are to be a participant and the amount involved exceeded or exceeds \$120,000, and in which any related person had or will have a direct or indirect material interest (other than compensation described under Executive Compensation ).

## **Policies and Procedures for Review, Approval or Ratification of Transactions with Related Persons**

We are in the process of adopting a written related-person transactions policy that sets forth our policies and procedures regarding the identification, review, consideration and approval or ratification of related-persons transactions. For purposes of our policy only, a related-person transaction will be a transaction, arrangement or relationship (or any series of similar transactions, arrangements or relationships) in which we and any related person are participants involving an amount that exceeds \$50,000. Transactions involving compensation for services provided to us as an employee, director, consultant or similar capacity by a related person will not be covered by this policy. A related person will be any executive officer, director or a holder of more than five percent of our common stock, including any of their immediate family members and any entity owned or controlled by such persons.

Under the policy, where a transaction has been identified as a related-person transaction, management must present information regarding the proposed related-person transaction to our Board for consideration and approval or ratification. The presentation must include a description of, among other things, the material facts, the direct and indirect interests of the related persons, the benefits of the transaction to us and whether any alternative transactions are available. To identify related-person transactions in advance, we will rely on information supplied by our executive officers, directors and certain significant shareholders. In considering related-person transactions, our Board will take into account the relevant available facts and circumstances including, but not limited to:

- the risks, costs and benefits to us;
- the impact on a director's independence in the event the related person is a director, immediate family member of a director or an entity with which a director is affiliated;
- the terms of the transaction;
- the availability of other sources for comparable services or products; and
- the terms available to or from, as the case may be, unrelated third parties or to or from our employees generally.

In the event a director has an interest in the proposed transaction, the director must excuse himself or herself from the deliberations and approval. Our policy will require that, in determining whether to approve, ratify or reject a related-person transaction, our Audit Committee must consider, in light of known circumstances, whether the transaction is in, or is not inconsistent with, the best interests of our Company and our shareholders, as our board or Audit Committee determines in the good faith exercise of its discretion. We did not previously have a formal policy concerning transactions with related persons.

### **Director Independence**

Our Board has determined that each of Runsen Li, Peter Mak and Robert Shiver, constituting a majority of the members of the Board, has no material relationship with the Company (either directly or as partners, stockholders or officers of an organization that has a relationship with the Company) and is independent as defined by the applicable rules and regulations of the Securities Exchange Commission and the New York Stock Exchange. Guoshen Tu, our Chief Executive Officer, and Terence Yap, our Chief Financial Officer, are not considered to be independent.

Furthermore, the Board has determined that each of the members of the Audit Committee, the Compensation Committee and the Nominating and Governance Committee has no material relationship with the Company (either directly or as a partner, stockholder or officer of an organization that has a relationship with the Company) and is independent as defined by the applicable rules and regulations of the Securities Exchange Commission and the New York Stock Exchange.
