PART I

ITEM 1. BUSINESS.

J.W. Mays, Inc. (the Company or Registrant) with executive offices at 9 Bond Street, Brooklyn, New York 11201, operates a number of commercial real estate properties, which are described in Item 2 Properties . The Company s business was founded in 1924 and incorporated under the laws of the State of New York on July 6, 1927.

The Company employs 29 employees and has a contract, expiring November 30, 2016, with a union covering rates of pay, hours of employment and other conditions of employment for approximately 24% of its employees. The Company considers that its labor relations with its employees and union are good.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K may contain forward-looking statements which include assumptions about future market conditions, operations and financial results. These statements are based on current expectations and are subject to risks and uncertainties. They are made pursuant to safe harbor provisions of the Private Securities Litigation Reform Act of 1995. The Company s actual results, performance or achievements in the future could differ significantly from the results, performance or achievements discussed or implied in such forward-looking statements herein and in prior U. S. Securities and Exchange Commission (SEC) filings by the Company. The Company assumes no obligation to update these forward-looking statements or to advise of changes in the assumptions on which they were based.

Factors that could cause or contribute to such differences include, but are not limited to, changes in the competitive environment of the Company, general economic and business conditions, industry trends, changes in government rules and regulations and environmental rules and regulations. Statements concerning interest rates and other financial instrument fair values and their estimated contribution to the Company s future results of operations are based upon market information as of a specific date. This market information is often a function of significant judgment and estimation. Further, market interest rates are subject to potential significant volatility.

ITEM 1A. RISK FACTORS.

Risks Relating to Ownership Structure

The controlling shareholder group may be able to vote its shares in favor of its interests that may not always coincide with the interests of shareholders not part of such group. This risk may be counter-balanced to a degree by the actions of the Board of Directors whose composition is made up of a majority of independent directors.

The controlling shareholder group includes a corporation that owns a significant percentage of the Company s common stock and which does business with the Company, as further described in the Notes to the Consolidated Financial Statements. In theory, this could result in a conflict of interest; nevertheless, the Company and its largest shareholder have put in place some controls to reduce the effects of any perceived conflict of interest.

Certain conflicts of interest may be perceived by the relationship between the Company and its largest shareholder. Both entities have the same Chief Executive Officer, and certain management personnel work for both entities. Nevertheless, the Company s Board of Directors (Board) is composed of a majority of independent directors. As recently as 2005, in a case involving both entities, the Delaware Supreme Court in connection with an attempt to obtain books and records of the Company through a proceeding against the Company s significant shareholder, held that the actions of the Company s Board were proper.

Risks Related to Our Business

We are a part of the communities in which we do business. Accordingly, like other businesses in our communities, we are subject to the following risks:

- the continued threat of terrorism;
- economic downturns, both on a national and on local scales;
- loss of key personnel;
- the availability, if needed, of additional financing;
- the continued availability of insurance (in different types of policies) at reasonably acceptable rates;
- the general burdens of governmental regulation, at the Local, State and Federal levels;
- climate change; and
- cyber security.

Risks Related to Real Estate Operations

Our investment in property development may be limited by increasing costs required to fit up property to be leased to tenants. Also, as the cost of fitting up properties increases, we may be required to wait and forsake opportunities that would be revenue producing until such time that we obtain the necessary financing of such ventures. This risk may be mitigated by our obtaining of lines of credit and other financing vehicles, although such have significant limitations on the amounts that may be borrowed at any point in time.

We also may be subject to environmental liability as an owner or operator of properties. Many of our properties are old and when we need to fit up a property for a new tenant, we may find materials and the like that could be deemed to contain hazardous elements requiring remediation or encapsulation.

We try to lease our properties to tenants with adequate finances, but as a result of the recent economic downturn, even formerly financially strong tenants may be at risk. The Company is trying to mitigate the latter by leasing our properties to multiple tenants where applicable in order to diversify the tenant base.

Risks Related to our Investments

Excess cash and cash equivalents may be invested from time to time. We seek to earn rates of return that will help us finance our business operations. These investments may be subject to significant uncertainties and may not be successful for many reasons, including, but not limited to the following:

- fluctuations in interest rates;
- worsening of general economic and market conditions; and
- adverse legal, financial and regulatory developments that may affect a particular business.

Risk Factors Summary

These are some of the Risk Factors that could affect the Company's business. The Company endeavors to take actions and do business in a way that reduces these Risk Factors or, at least, takes them into account when conducting its business. Nevertheless, some of these Risk Factors cannot be avoided so that the Company must also take actions and do business that negates the adverse effects that these may have on the ongoing business of the Company.

8. *Brooklyn, New York Livingston Street*

The City of New York through its Economic Development Administration constructed a municipal garage at Livingston Street opposite the Company's Brooklyn properties. The Company has a long-term lease with the City of New York and another landlord which expired in 2013. The lease has two renewal options, the last of which expires in 2073. The Company exercised one of the renewal options in July 2012 for an additional thirty year period, expiring in 2043, under which:

- (1) Such garage, available to the public, provides truck bays and passage facilities through a tunnel, both for the exclusive use of the Company, to the structure referred to in (2) below. The truck bays, passage facilities and tunnel, totaling approximately 17,000 square feet, are included in the lease from the City of New York and another landlord referred to in the preceding paragraph.

On June 16, 2014, the Company entered into a Second Amendment of Lease (the Amendment) with 33 Bond St. LLC (Bond), its landlord, for certain truck bays and approximately 1,000 square feet located at the cellar level within a garage at Livingston and Bond Street (Premises). Pursuant to the Amendment, (1) a lease option for the Premises was exercised extending the lease until December 8, 2043, (2) the Company, simultaneously with the execution of the Amendment, vacated the Premises so that Bond may demolish the building in which the Premises is located in order to develop and construct a new building at the location, and (3) Bond agreed to redeliver to the Company possession of the reconfigured Premises after construction.

Table of Contents

As consideration under the Amendment, Bond agreed to pay the Company a total of \$3,500,000. Upon execution of the Amendment, the Company recorded \$3,500,000 to deferred revenue to be amortized to revenue to temporarily vacate the premises over the expected vacate period of 36 months. Bond tendered \$2,250,000 simultaneously with the execution of the Amendment, and the balance due of \$1,250,000 on June 16, 2015 has been recorded by the Company as a receivable.

In connection with the Amendment, the parties also agreed to settle a pending lawsuit in the Supreme Court of the State of New York, Kings County, Index No. 50796/13 (the Action), in which the Company sought, among other things, a declaratory judgment that it validly renewed the lease for the Premises, and Bond sought, among other things, a declaratory judgment that the lease expired by its terms on December 8, 2013. Pursuant to a stipulation of settlement, filed on June 16, 2014, the Action, including all claims and counterclaims, has been discontinued with prejudice, without costs or attorneys' fees to any party as against the other. The stipulation of settlement also contains general releases by both parties of all claims.

- (2) The Company constructed a building of six stories and basement on a 20 x 75-foot plot (acquired and made available by the City of New York and leased to the Company for a term expiring in 2013 with renewal options, the last of which expires in 2073). The Company in July 2012, exercised the first renewal option for thirty years, ending in 2043. The plot is adjacent to and connected with the Company's Brooklyn properties.

In the opinion of management, all of the Company's properties are adequately covered by insurance.

See Note 10 to the Consolidated Financial Statements contained in the 2014 Annual Report to Shareholders, which information is incorporated herein by reference, for information concerning the tenants, the rental income from which equals 10% or more of the Company's rental income.

ITEM 3. LEGAL PROCEEDINGS.

There are various lawsuits and claims pending against the Company. It is the opinion of management that the resolution of these matters will not have a material adverse effect on the Company's Consolidated Financial Statements.

If the Company sells, transfers, disposes of or demolishes 25 Elm Place, Brooklyn, New York, then the Company may be liable to create a condominium unit for the loading dock. The necessity of creating the condominium unit and the cost of such condominium unit cannot be determined at this time.

Because of defective workmanship and breach of contract, the Company commenced litigation against a contractor to pay damages and return in full \$376,467 of a deposit paid when work commenced to replace a roof on the Fishkill, New York building. As of July 31, 2014, this deposit is included in other assets on the balance sheet in security deposits. Based on limited information available at this time, the Company cannot predict the outcome of this matter and expects to vigorously pursue this contractor until the deposit is returned and damages are paid.
