ITEM 1.01 Entry into Material Definitive Agreement

ITEM 5.02 Departure Of Directors or Certain Officers; Election Of Directors; Appointment Of Certain Officers; Compensatory Arrangements Of Certain Officers

On September 26, 2013, we entered into an agreement with Dr. Andrew Jolly, pursuant to which Dr. Jolly has agreed to serve as a director of our company. Pursuant to the agreement, our company is to compensate Dr. Jolly for serving as a director of our company at GBP£2,000 per calendar month. On October 1, 2013, we appointed Dr. Jolly as a director of our company.

Dr. Andrew Jolly – Director

Dr. Andrew Jolly, age 42, is a highly qualified and motivated technical consultant with a commercial orientation and over 10 years of experience in the area of renewable energy.

Dr. Jolly specializes in creating, developing and delivering concepts for generating biomass combined heat and power and biomass power-only projects. He focuses on the use of biomass, organic waste and hydrogen and has a comprehensive understanding of the regulatory and legislative factors that impact the technical and commercial specification and scale of projects.

Dr. Jolly has honed skills in project concept generation, feasibility assessment, planning issues, economic appraisal and financing, environmental impacts and making sense of current UK environmental legislation and regulation.

A key part of Dr. Jolly's expertise is in the assessing, accreditation and maintenance of renewable energy technologies in respect of schemes such as the Renewables Obligation (RO), Feed in Tariffs (FiTs), Renewable Heat Incentive (RHI) and Combined Heat & Power Quality Assurance (CHPQA). This aspect of renewable energy projects is crucial when the associated benefits of renewable energy generation often comprise two-thirds of the overall project income.

Dr. Jolly has led Equis Energy Limited's biomass, biogas and EfW project development and consultancy since 2006 where he has provided expert advice and services on numerous renewable energy projects.

Dr. Jolly's educational background consists of having obtained a PhD in Energy Studies research from Cardiff University, a Master of Philosophy in Energy Studies research from Cardiff University and a Bachelor of Engineering (Hons.) in Mechanical Engineering with Business Management from the University of Sussex. Additionally, he is a Chartered Engineer with the Engineering Council of the United Kingdom.

Our company believes that Dr. Jolly's educational background, and business and operational experience give him the qualifications and skills necessary to serve as a director of our company. Our board of directors now consists of Dr. Neil Carmichael, Jordan Starkman and Dr. Andrew Jolly.

There has been no transaction since the beginning of the registrant's last two completed fiscal years, or any currently proposed transaction, in which our company was or is to be a participant and the amount involved exceeds \$120,000 or one percent of the average of the smaller reporting company's total assets, and in which any related person had or will have a direct or indirect material interest.

Item 9.01 Financial Statements and Exhibits

10.1 Agreement between our company and Andrew Jolly entered into on September 26, 2013.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
